Man held for giving out poison capsules at Muharram rally

[redacted]

The Hindu Bureau
MUMBAI

The police have seized 14,900 capsules and 50 kg of the chemical compound

The Mumbai Police have arrested a 39-year-old man for allegedly distributing capsules containing the rodent poison zinc phosphide to participants in a Muharram procession.

The suspect has been identified as Faiyaz Nisar Premji, a resident of Pune. The police have seized 14,900 capsules and 50 kg of the chemical compound from his possession.

According to the police, the arrest was made on Friday night during the Ashura procession in the Byculla area. Officers allegedly spotted Mr. Premji distributing capsules to members of the crowd. When questioned, he claimed that the capsules were painkillers. However, as he could not produce any authorisation for their distribution and reports later emerged of people experiencing nausea and vomiting after consuming them, he was detained.

"During questioning, the accused confessed that he aimed to target specific people and cause them harm. The accused had ordered 30,000 empty capsules online. He also ordered 50 kg of zinc phosphide. He prepared the capsules by filling each one with one gram of zinc phosphide," Jayant Meena, Deputy Commissioner of Police (DCP), Zone 3, said.

The officer said Mr. Premji had visited Iran and Iraq in 2025.

Amend anti-sacrilege law: Akal Takht to Punjab govt.

The highest Sikh temporal authority says the amendment was passed without consultations; it gives Punjab government a month to re-amend the legislation and remove objectionable clauses

GS I: History: A&C

The Hindu Bureau
CHANDIGARH

Akal Takht, the highest Sikh temporal authority, has asked the Aam Aadmi Party government in Punjab to re-amend the recently passed anti-sacrilege amendment law in accordance with Sikh sentiments. The government has been given a month to comply.

At a meeting with invited Sikh Ministers of the State Cabinet and Sikh MLAs in Amritsar on Monday, the Akal Takht asserted that the Jaagat Jot Sri Guru Granth Sahib Satkar (Amendment) Act, 2026 "was passed by the government without the opinion and consent of the Akal Takht Sahib, Shiromani Gurdwara Parbandhak Committee (SGPC) and Guru Khalsa Panth".

The legislation, passed in the Assembly unanimously on April 13, was aimed at giving harsher punishment for acts of sacrilege against Guru Granth Sahib, the holy scripture of Sikhism. However, Sikh clergy objected to certain clauses of the law. Hence, the Akal Takht called for the meeting.

AAP MLAs during proceedings at the Secretariat of Sri Akal Takht Sahib in Amritsar on Monday. PTI

After the discussions on Monday, Jathedar Giani Kuldip Singh Gargajj, who heads the Akal Takht, said the State government should re-amend the legislation in accordance with Sikh sentiments and eliminate the objectionable clauses within a month.

Mr. Gargajj said that all Ministers and MLAs present at the meeting agreed to make further amendments to the law in line with Sikh sentiments. He also said that most of the MLAs admitted that they had not read the draft of the amendment before passing it, which showed that the law had been passed by the government in a hurry. He said that 87 MLAs, including Ministers, were present at the meeting.

The amendment law was passed to amend the Jaagat Jot Sri Guru Granth Sahib Satkar Act, enacted by the Shiromani Akali Dal-Bharatiya Janata Party government in 2008.

Talking to presspersons, Punjab Finance Minister Harpal Singh Cheema said, "The Jathedar has proposed certain amendments, which will be forwarded through the Punjab Assembly Speaker. Upon receipt, a decision will be taken within a month after due deliberation."

The Leader of the Opposition, Partap Singh Bajwa of the Congress, said the manner in which Chief Minister Bhagwant Mann and AAP national convener Arvind Kejriwal handled the legislation reflected their disregard for Sikh principles and institutions.

Maintenance not must when wife earns more: High Court

GS I: Society

The Hindu Bureau
BENGALURU

Maintenance need not be granted on the ground women must be maintained by men, says court

Trial courts cannot straightaway award maintenance to a wife because she files a petition against her husband under various laws, especially when she earns more than her husband, observed the High Court of Karnataka.

"Only because a wife files a petition invoking the Protection of Women from Domestic Violence Act or the Hindu Adoption and Maintenance Act or the Code of Criminal Procedure..., the courts cannot straightaway pass an order awarding some amount towards maintenance payable by the husband," said Justice Chillakur Sumalatha while setting aside an award passed by a trial court.

Income, other factors

The High Court said that "when the wife is financially sound and in a case where her income is more than that of the husband and where no other liabilities are found on part of the wife, like looking after the children, courts should not be inclined to pass an order granting maintenance on the ground that women are required to be maintained by men or wife is required to be maintained by her husband".

It should be borne in mind that only when it is shown the wife has no financial sources to maintain herself according to the standards of her husband, then courts are required to award maintenance either interim or final, the High Court clarified.

It made these observations while allowing a plea filed by a man who had challenged an award passed by a magistrate court in Mysuru under the provisions of the Domestic Violence Act, directing him to pay ₹20,000 per month as interim maintenance to his wife, who had sought an interim maintenance of ₹1.13 lakh per month.

30J6. Maintenance not must when wife earns more: High Court

यदि पत्नी की आय अधिक हो, तो भरण-पोषण अनिवार्य नहीं: उच्च न्यायालय।

- "Only because a wife files a petition invoking the **Protection of Women from Domestic Violence Act** or the **Hindu Adoption and Maintenance Act** or the **Code of Criminal Procedure**, the courts cannot straightaway pass an order awarding some amount towards maintenance payable by the husband," said **Justice Chillakur Sumalatha** while setting aside an award passed by a trial court.

न्यायमूर्ति चिल्लाकुर सुमलता ने विचारण न्यायालय के आदेश को निरस्त करते हुए कहा, "केवल इस कारण कि पत्नी ने **घरेलू हिंसा से महिलाओं का संरक्षण अधिनियम**, **हिन्दू दत्तक एवं भरण-पोषण अधिनियम** अथवा **दण्ड प्रक्रिया संहिता** के अंतर्गत याचिका दायर की है, न्यायालय सीधे पति को भरण-पोषण राशि देने का आदेश नहीं दे सकते।"

BALKANS (OR THE BALKAN PENINSULA)

- The **Balkans** (or the **Balkan Peninsula**) is a **geographical and geopolitical region** located in **Southeastern Europe**.
- It forms a strategic land bridge between **Europe and Asia**, making it one of the world's most historically and geopolitically significant regions.
- The region has witnessed the rise and fall of several empires, ethnic conflicts, religious interactions, and nationalist movements. Because of its complex political history, it has often been referred to as the **"Powder Keg of Europe."**

Location and Boundaries

- The Balkan Peninsula is bounded by the **Adriatic Sea** in the west.
- It is bounded by the **Ionian Sea** in the southwest.
- It is bounded by the **Aegean Sea** in the south.
- It is bounded by the **Black Sea** in the east.
- The **Danube**, **Sava**, and **Kupa** rivers are generally considered its northern geographical boundary.

The Balkans generally include:

- **Albania**
- **Bosnia and Herzegovina**
- **Bulgaria**
- **Croatia** (major part)
- **Kosovo** (partially recognized)
- **Montenegro**
- **North Macedonia**
- **Romania** (southern part)
- **Serbia**
- **Slovenia** (sometimes included)
- **Greece**

PATRIOTIC IAS

- **European part of Türkiye (Eastern Thrace)**

Origin of the Name

- The term **"Balkan"** is derived from the **Turkish word "Balkan"**, meaning **mountain** or **wooded mountain range**.
- It originally referred to the **Balkan Mountains** of **Bulgaria** before being applied to the entire peninsula.

Physical Geography

- **Balkan Mountains (Stara Planina)** – Bulgaria.
- **Dinaric Alps** – Along the Adriatic coast.
- **Pindus Mountains** – Greece.
- **Rhodope Mountains** – Bulgaria and Greece.
- **Šar Mountains** – North Macedonia and Kosovo.

Kharge reappointed Rajya Sabha Leader of Opposition; seeks stronger coordination

GS II: Polity

The Hindu Bureau
NEW DELHI

Congress president Mallikarjun Kharge and seven other newly elected members of the Rajya Sabha took oath on Monday. Mr. Kharge was also reappointed the Leader of the Opposition in the Rajya Sabha with effect from June 26.

After taking oath, Mr. Kharge expressed gratitude to the Congress leadership, including Parliamentary Party Chairperson Sonia Gandhi and Leader of the Opposition in the Lok Sabha Rahul Gandhi, as well as Vice-President C.P. Radhakrishnan and Deputy Chairman Harivansh.

He also extended greetings to his colleagues in the INDIA bloc and the broader Opposition. Mr. Kharge said he was looking forward to "even stronger coordination" during the coming Monsoon Session of Parliament to make "the government of the day more accountable".

Vice-President C.P. Radhakrishnan greets Mallikarjun Kharge after the oath-taking ceremony on Monday. SPECIAL ARRANGEMENT

"We will continue to raise the burning concerns, aspirations, and voices of the people with sincerity, conviction and determination. That remains our foremost responsibility, and I shall discharge it with the utmost commitment," he said.

He took oath separately in Mr. Radhakrishnan's chamber. The Vice-President congratulated Mr. Kharge and said the Upper House would benefit from his long experience. Ms. Gandhi and other Congress leaders – Priyanka Gandhi Vadra, K.C. Venugopal, Mukul Wasnik, Jairam Ramesh and Syed Naseer Hussain – were present during the event. Mr. Kharge's wife, daughter, and granddaughter, along with her spouse, were present.

Mr. Radhakrishnan later administered the oath to seven other newly elected members – Mansingh Meraman Parmar, Tarun Chugh, Alka Singh, Jitendra Meghjibhai Kanzariya, Rajendra Hiralal Jain, M. Nagaraja, and Adhikarimayum Sharda Devi.

Why are States opposing VB-G RAM G

GS II: Governance: Government Scheme

EXPLAINER

Sobhana K. Nair

On July 1, the Viksit Bharat-Guarantee for Rozgar and Ajeevika Mission (Gramin) (VB-G RAM G) will become operational, replacing the Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA). The Union Rural Development Ministry notified the draft rules for the new employment scheme on May 22, giving a month to stakeholders to submit their feedback.

The difference

The VB-G RAM G marks a shift from a "demand-driven framework" to a "supply-driven scheme". Under the new system, allocations will be capped within a fixed budget determined by the Union government based on "objective parameters".

While the new Act increases the number of guaranteed workdays from 100 to 125, it also significantly raises the financial burden on States from the current 10% share to 40% of total expenditure. Under the MGNREGA, the Union government was responsible for 100% of the labour wages and 75% of the material wages. In practice, this translated to a 90:10 cost share between the Centre and the States.

Section 5(1) empowers the Union government to "notify rural areas in a State" where the scheme will be implemented. This is a departure from the MGNREGA, which was universal. Another departure from the MGNREGA is that the new law allows for a blackout period, pausing the programme during peak agricultural seasons to "facilitate availability of labour".

Objections by the States

At least three States – Madhya Pradesh, Bihar, and Jharkhand, two of them with BJP-led governments – questioned the shift in the financial model, which now requires a majority of States to bear 40% of the total expenditure, in contrast to the MGNREGA.

At least three States have raised questions about the shift in the financial model of VB-G RAM G.

Five States have sought a revision of wage rates, and four have aired reservations over the provision of 60 non-working days during the peak agricultural season.

Bihar has sought that wages should increase from the present ₹255 to ₹413. Jammu & Kashmir, meanwhile, wants an increase in wages from ₹272 to ₹311. Both Jharkhand and Punjab argued that wages should be competitive and in line with market conditions. Uttarakhand underlined the tough landscape that workers have to work on and sought a compensatory hike. Nearly all States have highlighted delays in clearing the wage and material bill by the Centre.

Centre to hold power

One of the key concerns raised by academics and activists is that the VB-G RAM G gives disproportionate power to the Centre. As per the draft rules on inter-State distribution of funds, the Union government will adopt objective parameters utilised for horizontal devolution among States as recommended by the 16th Finance Commission. The exact application methodology is determined at the discretion of the Union government, a clause, flagged as concerning.

30J6. Why are States opposing VB-G RAM G?
राज्य VB-G RAM G का विरोध क्यों कर रहे हैं?

- On **July 1**, the **Viksit Bharat-Guarantee for Rozgar and Ajeevika Mission (Gramin) (VB-G RAM G)** will become operational, replacing the **Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA)**.
  1 जुलाई से **विकसित भारत-गारंटी फॉर रोज़गार एंड आजीविका मिशन (ग्रामीण) [VB-G RAM G]** लागू होगा, जो **महात्मा गांधी राष्ट्रीय ग्रामीण रोजगार गारंटी अधिनियम (MGNREGA)** का स्थान लेगा।
- The **Union Rural Development Ministry** notified the draft rules for the new employment scheme on **May 22**, giving a month to stakeholders to submit their feedback.

केंद्रीय ग्रामीण विकास मंत्रालय ने **22 मई** को नई रोजगार योजना के मसौदा नियम अधिसूचित किए और हितधारकों को अपनी प्रतिक्रिया देने के लिए एक माह का समय दिया।

The difference
मुख्य अंतर।

- The **VB-G RAM G** marks a shift from a **"demand-driven framework"** to a **"supply-driven scheme"**.
  VB-G RAM G "मांग-आधारित व्यवस्था" से **"आपूर्ति-आधारित योजना"** की ओर परिवर्तन का संकेत देता है।
- Under the new system, allocations will be capped within a fixed budget determined by the **Union government** based on **"objective parameters"**.
  नई व्यवस्था के तहत आवंटन **केंद्र सरकार** द्वारा **"वस्तुनिष्ठ मानकों"** के आधार पर निर्धारित निश्चित बजट की सीमा के भीतर रहेगा।
- While the new Act increases the number of guaranteed workdays from **100 to 125**, it also significantly raises the financial burden on **States** from the current **10%** share to **40%** of the total expenditure.
  नया अधिनियम **गारंटीकृत कार्य दिवसों** की संख्या **100 से बढ़ाकर 125** करता है, लेकिन इसके साथ ही **राज्यों** पर वित्तीय भार वर्तमान **10%** से बढ़ाकर कुल व्यय का **40%** कर देता है।
- Under the **MGNREGA**, the **Union government** was responsible for **100%** of the labour wages and **75%** of the material wages.
  MGNREGA के अंतर्गत **केंद्र सरकार** श्रम मजदूरी का **100%** तथा सामग्री व्यय का **75%** वहन करती थी।
- In practice, this translated to a **90:10** cost share between the **Centre** and the **States**.
  व्यवहार में इसका अर्थ **केंद्र** और **राज्यों** के बीच **90:10** के व्यय साझाकरण से था।
- **Section 5(1)** empowers the **Union government** to "notify rural areas in a State" where the scheme will be implemented.
  धारा 5(1) केंद्र सरकार को यह अधिकार देती है कि वह किसी राज्य के उन **ग्रामीण क्षेत्रों** को अधिसूचित करे जहाँ यह योजना लागू की जाएगी।
- This is a departure from the **MGNREGA**, which was universal.
  यह प्रावधान **MGNREGA** से भिन्न है, क्योंकि वह सार्वभौमिक रूप से लागू था।
- Another departure from the **MGNREGA** is that the new law allows for a **blackout period**, pausing the programme during peak agricultural seasons to "facilitate availability of labour".
  MGNREGA से एक अन्य महत्वपूर्ण अंतर यह है कि नया कानून **ब्लैकआउट अवधि** का प्रावधान करता है, जिसके तहत कृषि के चरम मौसम में श्रमिकों की उपलब्धता सुनिश्चित करने के लिए योजना को अस्थायी रूप से रोका जा सकता है।

Objections by the States
राज्यों की आपत्तियाँ।

- At least three States — **Madhya Pradesh, Bihar, and Jharkhand**, two of them with **BJP-led governments** — questioned the shift in the financial model, which now requires a majority of States to bear **40%** of the total expenditure, in contrast to the **MGNREGA**.
  कम-से-कम तीन राज्यों — **मध्य प्रदेश, बिहार और झारखंड**, जिनमें से दो में **भाजपा-नेतृत्व वाली सरकारें** हैं — ने नए वित्तीय मॉडल पर प्रश्न उठाए, जिसके तहत अधिकांश राज्यों को कुल व्यय का **40%** वहन करना होगा, जबकि **MGNREGA** में व्यवस्था अलग थी।
- Five States have sought a revision of **wage rates**, and four have aired reservations over the provision of **60 non-working days** during the peak agricultural season.
  पाँच राज्यों ने **मजदूरी दरों** में संशोधन की मांग की है, जबकि चार राज्यों ने कृषि के चरम मौसम में **60 गैर-कार्य दिवसों** के प्रावधान पर आपत्ति जताई है।

- Nearly all States have highlighted delays in clearing the **wage** and **material bill** by the **Centre**.
  लगभग सभी राज्यों ने **केंद्र** द्वारा **मजदूरी** और **सामग्री बिल** के भुगतान में होने वाली देरी का मुद्दा उठाया।

- As per the draft rules on inter-State distribution of funds, the **Union government** will adopt objective parameters utilised for horizontal devolution among States as recommended by the **16th Finance Commission**.
  राज्यों के बीच निधियों के वितरण से संबंधित मसौदा नियमों के अनुसार, **केंद्र सरकार 16वें वित्त आयोग** द्वारा अनुशंसित राज्यों के बीच क्षैतिज वित्तीय वितरण के लिए प्रयुक्त वस्तुनिष्ठ मानकों को अपनाएगी।
- The exact application methodology is determined at the discretion of the **Union government**, a clause flagged as concerning.
  इन मानकों को लागू करने की सटीक कार्यप्रणाली **केंद्र सरकार** के विवेक पर निर्भर होगी, जिसे एक चिंताजनक प्रावधान के रूप में चिह्नित किया गया है।

Rise in food poisoning cases highlights lapses in food safety

Nearly three-fourths of all States and Union Territories tended to have low or moderate scores on the Food Safety Index

GS II: Governance

DATA POINT

Sambavi Parthasarathy

Two suspected events of food poisoning reported this month, one at a private school in Indore in Madhya Pradesh, and another at a popular eatery in Bhiwandi in Maharashtra, which affected over 200 people have once again highlighted the need for strengthening the implementation of the Food Safety and Standards (FSS) Act.

As per the latest Accidental Deaths and Suicides in India report, a total of 1,122 people died due to food poisoning in India in 2024 **(Chart 1)**.

Such avoidable deaths should be seen in the context of lapses in the implementation of the Act, as revealed by the government's own State Food Safety Index released last for 2023-24. The Food Safety and Standards Authority of India (FSSAI) measures this index for all States and Union Territories based on five key parameters: human resources and institutional data, compliance, food testing infrastructure and surveillance, training and capacity building, and consumer empowerment.

While a strong correlation could not be established, the index showed that States that saw high numbers of food poisoning cases also tended to have low or moderate scores on the index **(Chart 2)**.

Nearly three-fourths of all States and Union Territories scored less than 50 out of the highest-possible score of 100. Jharkhand, where over 130 persons died of food poisoning in 2024, scored 26.5. Uttar Pradesh, which reported over 200 casualties in 2024, scored 44.25.

The FSS Act mandates periodic inspections and analysis of food samples from all registered Food Business Operators (FBOs). An amendment to the Act notified this month has made the frequency of the inspections to be based on a dynamic risk-based assessment of all FBOs, depending on the type of establishment, their past records and other such factors. While the amended provisions are yet to be implemented, FSSAI data for the year 2024-25 showed that inspections conducted and food samples analysed by various States were much lower when compared with the number of registered FBOs **(Chart 3)**. For instance, only 20,877 samples were lifted in Maharashtra which has over 1.8 lakh registered or active FBO licences, as per the data available with the Food Safety Compliance System.

With the effective implementation of the regulations largely dependent on authorities working at the central and State levels, data showed that while the FSSAI is responsible for ensuring overall coordination, it is the State Food Safety Authorities who are primarily responsible for enforcement at the field level. However, these institutes suffer from vacancies.

The FSSAI, which has a sanctioned strength of 822 officers, saw vacancies increase from about 30% to almost 40% in the last five years. Further, data submitted in response to a question in the Rajya Sabha in March this year showed that only 2,997 of the sanctioned positions of 4,208 Food Safety Officers (FSO) across all States and UTs have been filled as of the third quarter of FY 2025-26.

The World Health Organization's Foodborne Disease Estimates (2026) estimated that unsafe food causes around 866 million illnesses and 1.5 million deaths annually. It also stated that 57.1 million days of Disability-Adjusted Life Years (DALYs) were lost in 2021 from foodborne diseases, and 30% of this burden was borne by children under 5 years.

Though the total foodborne disease burden has declined since 2000, a country-wise analysis of the rate of years of life lost due to foodborne diseases showed that India ranked 15th, along with several low-income African nations **(Chart 4)**.

Slipping safety standards

The data for charts were sourced from Food Safety and Standards Authority of India, Accidental Deaths and Suicides in India and the World Health Organization

Quality check: Food safety officials conducting inspections in a milk booth in Visakhapatnam in February 2026 in the wake of a milk adulteration incident in Rajahmundry. V. RAJU

CHART 1: More than a thousand cases and deaths due to food poisoning were reported in 2024

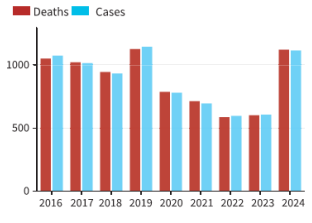

CHART 2: States that saw a high number of food poisoning cases tended to have low or moderate scores on Food Safety Index

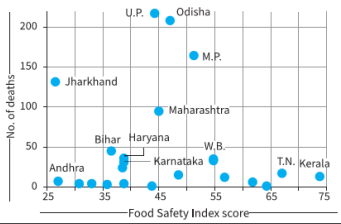

CHART 3: Samples collected for testing in 2024-25 compared with the total registered food business operators in select States

J6. Rise in food poisoning cases highlights lapses in food safety
खाद्य विषाक्तता के मामलों में वृद्धि खाद्य सुरक्षा में कमियों को उजागर करती है

- **Nearly three-fourths of all States and Union Territories tended to have low or moderate scores on the Food Safety Index.**

लगभग तीन-चौथाई राज्यों और केंद्र शासित प्रदेशों ने खाद्य सुरक्षा सूचकांक (Food Safety Index) में निम्न या मध्यम स्तर के अंक प्राप्त किए।

- Two suspected events of **food poisoning** reported this month, one at a **private school** in **Indore** in **Madhya Pradesh**, and another at a popular **eatery** in **Bhiwandi** in **Maharashtra**, which affected over **200 people**, have once again highlighted the need for strengthening the implementation of the **Food Safety and Standards (FSS) Act**.
  इस माह **खाद्य विषाक्तता (Food Poisoning)** की दो संदिग्ध घटनाएँ सामने आईं। इनमें से एक **मध्य प्रदेश** के **इंदौर** स्थित एक **निजी विद्यालय** में तथा दूसरी **महाराष्ट्र** के **भिवंडी** स्थित एक लोकप्रिय **भोजनालय** में हुई, जिनसे **200 से अधिक लोग** प्रभावित हुए। इन घटनाओं ने एक बार फिर **खाद्य सुरक्षा एवं मानक (FSS) अधिनियम** के प्रभावी क्रियान्वयन को सुदृढ़ करने की आवश्यकता को रेखांकित किया है।
- As per the latest **Accidental Deaths and Suicides in India** report, a total of **1,122 people** died due to **food poisoning** in **India** in **2024 (Chart 1)**.
  भारत में आकस्मिक मृत्यु एवं आत्महत्या संबंधी नवीनतम रिपोर्ट के अनुसार, **2024** में **भारत** में **खाद्य विषाक्तता** के कारण कुल **1,122 लोगों** की मृत्यु हुई थी (**चार्ट 1**)।
- Such avoidable deaths should be seen in the context of lapses in the implementation of the **Act**, as revealed by the government's own **State Food Safety Index** released last for **2023-24**.
  ऐसी रोकी जा सकने वाली मृत्यु घटनाओं को **अधिनियम** के क्रियान्वयन में हुई कमियों के संदर्भ में देखा जाना चाहिए, जैसा कि सरकार द्वारा **2023-24** के लिए जारी **स्टेट फूड सेफ्टी इंडेक्स** से स्पष्ट होता है।
- The **Food Safety and Standards Authority of India (FSSAI)** measures this **index** for all **States** and **Union Territories** based on **five key parameters**: **human resources and institutional data**, **compliance**, **food testing infrastructure and surveillance**, **training and capacity building**, and **consumer empowerment**.
  भारतीय खाद्य सुरक्षा एवं मानक प्राधिकरण (FSSAI) सभी **राज्यों** और **केंद्र शासित प्रदेशों** के लिए इस **सूचकांक** का मूल्यांकन **पाँच प्रमुख मानकों** के आधार पर करता है। इनमें **मानव संसाधन एवं संस्थागत आँकड़े**, **अनुपालन**, **खाद्य परीक्षण अवसंरचना एवं निगरानी**, **प्रशिक्षण एवं क्षमता निर्माण**, तथा **उपभोक्ता सशक्तिकरण** शामिल हैं।
- While a strong correlation could not be established, the **index** showed that **States** that saw high numbers of **food poisoning** cases also tended to have low or moderate scores on the **index (Chart 2)**.
  यद्यपि कोई सशक्त सहसंबंध स्थापित नहीं किया जा सका, फिर भी **सूचकांक** से यह स्पष्ट हुआ कि जिन **राज्यों** में **खाद्य विषाक्तता** के अधिक मामले दर्ज हुए, उनके **सूचकांक** में अंक सामान्यतः निम्न अथवा मध्यम स्तर के रहे (**चार्ट 2**)।
- Nearly **three-fourths** of all **States** and **Union Territories** scored less than **50** out of the highest possible score of **100**.
  लगभग **तीन-चौथाई राज्यों** और **केंद्र शासित प्रदेशों** ने अधिकतम **100** अंकों में से **50** से कम अंक प्राप्त किए।
- **Jharkhand**, where over **130 persons** died of **food poisoning** in **2024**, scored **26.5**.
  झारखंड, जहाँ **2024** में **खाद्य विषाक्तता** के कारण **130 से अधिक लोगों** की मृत्यु हुई, ने **26.5** अंक प्राप्त किए।
- **Uttar Pradesh**, which reported over **200 casualties** in **2024**, scored **44.25**.
  उत्तर प्रदेश, जहाँ **2024** में **200 से अधिक लोगों** की मृत्यु दर्ज की गई, ने **44.25** अंक प्राप्त किए।
- The **FSS Act** mandates periodic **inspections** and analysis of **food samples** from all registered **Food Business Operators (FBOs)**.
  FSS अधिनियम के अंतर्गत सभी पंजीकृत **फूड बिजनेस ऑपरेटर (FBOs)** के यहाँ समय-समय पर **निरीक्षण** तथा **खाद्य नमूनों** का विश्लेषण करना अनिवार्य है।
- An amendment to the **Act** notified this month has made the frequency of the **inspections** to be based on a dynamic **risk-based assessment** of all **FBOs**, depending on the type of establishment, their past records and other such factors.
  इस माह अधिसूचित **अधिनियम** के संशोधन के अनुसार, **निरीक्षणों** की आवृत्ति अब सभी **FBOs** के **जोखिम-**

आधारित गतिशील मूल्यांकन पर आधारित होगी, जिसमें प्रतिष्ठान का प्रकार, उसका पूर्व रिकॉर्ड तथा अन्य संबंधित कारकों को ध्यान में रखा जाएगा।

- While the amended provisions are yet to be implemented, **FSSAI** data for the year **2024-25** showed that **inspections** conducted and **food samples** analysed by various **States** were much lower when compared with the number of registered **FBOs (Chart 3)**.
  यद्यपि संशोधित प्रावधान अभी लागू होने शेष हैं, फिर भी **2024-25** के **FSSAI** आँकड़ों से स्पष्ट हुआ कि विभिन्न **राज्यों** द्वारा किए गए **निरीक्षण** तथा जाँचे गए **खाद्य नमूनों** की संख्या पंजीकृत **FBOs** की संख्या की तुलना में बहुत कम थी (**चार्ट 3**)।
- For instance, only **20,877 samples** were lifted in **Maharashtra**, which has over **1.8 lakh** registered or active **FBO licences**, as per the data available with the **Food Safety Compliance System**.
  उदाहरण के लिए, **महाराष्ट्र** में, जहाँ **फूड सेफ्टी कम्प्लायंस सिस्टम** के अनुसार **1.8 लाख** से अधिक पंजीकृत अथवा सक्रिय **FBO लाइसेंस** हैं, वहाँ केवल **20,877 नमूने** जाँच के लिए लिए गए।
- With the effective implementation of the regulations largely dependent on authorities working at the **Central** and **State** levels, data showed that while the **FSSAI** is responsible for ensuring overall coordination, it is the **State Food Safety Authorities** who are primarily responsible for enforcement at the **field level**.
  इन नियमों के प्रभावी क्रियान्वयन की जिम्मेदारी मुख्यतः **केंद्र** और **राज्य** स्तर की संस्थाओं पर निर्भर करती है। आँकड़ों से स्पष्ट हुआ कि जहाँ **FSSAI** समग्र समन्वय के लिए उत्तरदायी है, वहीं **राज्य खाद्य सुरक्षा प्राधिकरण मैदानी स्तर** पर प्रवर्तन के लिए मुख्य रूप से जिम्मेदार हैं।
- However, these **institutions** suffer from **vacancies**.
  हालाँकि, ये **संस्थाएँ** बड़ी संख्या में **रिक्त पदों** की समस्या से जूझ रही हैं।
- The **FSSAI**, which has a sanctioned strength of **822 officers**, saw **vacancies** increase from about **30%** to almost **40%** in the last **five years**.
  FSSAI, जिसमें **822 अधिकारियों** के स्वीकृत पद हैं, वहाँ पिछले **पाँच वर्षों** में **रिक्तियों** का स्तर लगभग **30%** से बढ़कर लगभग **40%** हो गया है।
- Further, data submitted in response to a question in the **Rajya Sabha** in **March** this year showed that only **2,997** of the sanctioned positions of **4,208 Food Safety Officers (FSOs)** across all **States** and **Union Territories** have been filled as of the **third quarter of FY 2025-26**.
  इसके अतिरिक्त, इस वर्ष **मार्च** में **राज्यसभा** में पूछे गए एक प्रश्न के उत्तर में प्रस्तुत आँकड़ों से ज्ञात हुआ कि सभी **राज्यों** और **केंद्र शासित प्रदेशों** में स्वीकृत **4,208 खाद्य सुरक्षा अधिकारियों (FSOs)** के पदों में से **वित्तीय वर्ष 2025-26** की **तीसरी तिमाही** तक केवल **2,997 पद** ही भरे गए थे।
- The **World Health Organization's Foodborne Disease Estimates (2026)** estimated that **unsafe food** causes around **866 million illnesses** and **1.5 million deaths** annually.
  विश्व स्वास्थ्य संगठन (WHO) की **फूडबोर्न डिजीज एस्टिमेट्स (2026)** रिपोर्ट के अनुसार, **असुरक्षित भोजन** के कारण प्रतिवर्ष लगभग **866 मिलियन लोग बीमार** पड़ते हैं तथा **15 लाख लोगों** की मृत्यु होती है।
- It also stated that **57.1 million days of Disability-Adjusted Life Years (DALYs)** were lost in **2021** from **foodborne diseases**, and **30%** of this burden was borne by **children under 5 years**.
  रिपोर्ट में यह भी बताया गया है कि **2021** में **खाद्य जनित रोगों** के कारण **57.1 मिलियन डिसएबिलिटी-एडजस्टेड लाइफ ईयर्स (DALYs)** का नुकसान हुआ तथा इस कुल भार का **30%** हिस्सा **पाँच वर्ष से कम आयु के बच्चों** ने वहन किया।
- Though the total **foodborne disease** burden has declined since **2000**, a country-wise analysis of the rate of **years of life lost** due to **foodborne diseases** showed that **India** ranked **15th**, along with several **low-income African nations (Chart 4)**.
  यद्यपि **2000** के बाद से कुल **खाद्य जनित रोगों** का भार कम हुआ है, फिर भी **खाद्य जनित रोगों** के कारण **जीवन के खोए हुए वर्षों (Years of Life Lost)** की देशवार दर के विश्लेषण में **भारत** का स्थान **15वाँ** रहा, जो कई **निम्न-आय वाले अफ्रीकी देशों** के साथ था (**चार्ट 4**)।

GS Paper II: International Relations	30 June 2026
TOPICS COVERED	
30J6	'Turkiye must be included in Europe security structures' 'यूरोप की सुरक्षा संरचनाओं में तुर्किये को शामिल किया जाना चाहिए'

'Turkiye must be included in Europe security structures'

GS II: IR

Agence France-Presse
ISTANBUL

Turkiye must be included in all of Europe's defence structures and defence trade restrictions between NATO members must be removed, President Recep Tayyip Erdogan said on Monday ahead of a key NATO summit.

His remarks come as Europe revamps its defences to counter Russia and the risk of a U.S. pullback from NATO, which is to hold a summit in the Turkish capital Ankara on July 7-8.

"Turkiye's indispensable contributions to European security are sometimes overlooked," Mr. Erdogan told parliamentary delegates from all 32 NATO member states. He said Turkiye wanted "to participate in all defence and security initiatives" on the continent.

At issue is Turkiye's access to the EU's 150-billion-euro Security Action for Europe initiative

At issue is Turkiye's access to the EU's 150-billion-euro Security Action for Europe (SAFE) initiative – to strengthen European defence capabilities.

"We expect your support, lawmakers, for Turkiye's inclusion in the defence and security initiatives announced by the EU," Mr. Erdogan said.

Within SAFE, firms from non-EU countries such as Turkiye, Britain and the U.S. can only supply up to 35% of the component costs of weaponry funded by the scheme.

If Turkiye wants its companies to be able to tap a bigger part of the funds, Ankara needs to sign a partnership with the EU and then negotiate special access with Brussels – a process that would require approval from all 27 EU members.

Greece has threatened to block such a move.

30J6. 'Turkiye must be included in Europe security structures'
'यूरोप की सुरक्षा संरचनाओं में तुर्किये को शामिल किया जाना चाहिए'

- **तुर्किये** को **यूरोप की सभी रक्षा संरचनाओं** में शामिल किया जाना चाहिए तथा **NATO** सदस्य देशों के बीच **रक्षा व्यापार पर लगे प्रतिबंध** हटाए जाने चाहिए, यह बात राष्ट्रपति **रेचेप तैय्यप एर्दोआन** ने सोमवार को महत्वपूर्ण **NATO शिखर सम्मेलन** से पहले कही।
- His remarks come as **Europe** revamps its **defences** to counter **Russia** and the risk of a **U.S.** pullback from **NATO**, which is to hold a summit in the Turkish capital **Ankara** on **July 7-8**.
- उनकी यह टिप्पणी ऐसे समय आई है जब **यूरोप**, **रूस** का मुकाबला करने तथा **NATO** से **अमेरिका** की संभावित दूरी के जोखिम से निपटने के लिए अपनी **रक्षा व्यवस्था** को मजबूत कर रहा है। **NATO** का शिखर सम्मेलन **7-8 जुलाई** को तुर्किये की राजधानी **अंकारा** में आयोजित होगा।
- **At issue is Turkiye's access to the EU's 150-billion-euro Security Action for Europe (SAFE) initiative — to strengthen European defence capabilities.**
  मुख्य मुद्दा तुर्किये की **यूरोपीय संघ (EU)** की **150 अरब यूरो** की **सिक्योरिटी एक्शन फॉर यूरोप (SAFE)** पहल तक पहुँच है, जिसका उद्देश्य **यूरोप की रक्षा क्षमताओं** को सुदृढ़ करना है।
- **"We expect your support, lawmakers, for Turkiye's inclusion in the defence and security initiatives announced by the EU," Mr. Erdogan said.**
  श्री एर्दोआन ने कहा, "हम **यूरोपीय संघ (EU)** द्वारा घोषित **रक्षा एवं सुरक्षा पहलों** में **तुर्किये** को शामिल किए जाने के लिए सांसदों से आपके **समर्थन** की अपेक्षा करते हैं।"
- Within **SAFE**, firms from **non-EU countries** such as **Turkiye**, **Britain** and the **U.S.** can only supply up to **35%** of the component costs of weaponry funded by the scheme.
  SAFE के अंतर्गत, **गैर-यूरोपीय संघ (Non-EU)** देशों जैसे **तुर्किये**, **ब्रिटेन** और **संयुक्त राज्य अमेरिका (U.S.)** की कंपनियाँ इस योजना के तहत वित्तपोषित हथियारों के **घटक लागत** का केवल **35%** तक ही आपूर्ति कर सकती हैं।
- If **Turkiye** wants its companies to be able to tap a bigger part of the funds, **Ankara** needs to sign a partnership with the **EU** and then negotiate special access with **Brussels** — a process

that would require approval from all **27 EU members**.
यदि **तुर्किये** चाहता है कि उसकी कंपनियाँ इन निधियों का अधिक बड़ा हिस्सा प्राप्त कर सकें, तो **अंकारा** को **यूरोपीय संघ (EU)** के साथ साझेदारी समझौते पर हस्ताक्षर करने होंगे और उसके बाद **ब्रुसेल्स** के साथ विशेष पहुँच के लिए वार्ता करनी होगी। यह प्रक्रिया **यूरोपीय संघ के सभी 27 सदस्य देशों** की स्वीकृति पर निर्भर करेगी।

- **Greece** has threatened to block such a move.
ग्रीस ने इस प्रकार के कदम को **अवरुद्ध** करने की **धमकी** दी है।

Israeli attacks 'led to genocide, war crimes, and crimes against humanity'

International criminal law defines genocide, crimes against humanity, and war crimes, and recognises that these offences may be committed against children and produce child specific harms; recently, an independent UN inquiry found that Israel actions deliberately targeted Palestinian children

GS II: IR

EXPLAINER

Rizmi Lia M.

Israel has killed over 73,000 Palestinians in the Gaza strip since October 2023. AFP

"Israeli authorities and security forces deliberately targeted Palestinian children, resulting in genocide, crimes against humanity and war crimes in Gaza, and war crimes in the occupied West Bank," an independent UN inquiry said on Tuesday.

International criminal law, as codified in the Rome Statute of the International Criminal Court (ICC) and customary international law, defines genocide, crimes against humanity, and war crimes and recognises that these offences may be committed against children and produce child-specific harms.

Act of genocide

According to Article 6 of the Rome statute of the ICC, "genocide" means any of the following acts committed with intent to destroy, in whole or in part, a national, ethnic, racial or religious group, as such.

The acts include, killing members of the group, causing serious bodily or mental harm to members of the group, deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part, imposing measures intended to prevent births within the group, forcibly transferring children of the group to another group.

Widespread attack

Under Article 7 of the Rome Statute, crimes against humanity are specific acts committed as part of a widespread or systematic attack directed against a civilian population, with knowledge of that attack.

The Rome Statute lists a range of acts that may constitute crimes against humanity, including murder, extermination, enslavement, deportation or forcible transfer of populations, unlawful imprisonment, torture, rape and other forms of sexual violence, persecution of identifiable groups on political, racial, national, ethnic, cultural, religious or gender grounds, enforced disappearance, apartheid, and other inhumane acts intentionally causing serious physical or mental harm.

Geneva convention

Article 8 of the Rome Statute defines war crimes as serious violations of international humanitarian law committed during an armed conflict. The Court exercises jurisdiction particularly where such crimes are committed as part of a plan or policy or on a large scale.

War crimes include grave breaches of the Geneva Conventions, such as wilful killing, torture or inhuman treatment, wilfully causing great suffering or serious injury, unlawful destruction or seizure of property, compelling prisoners of war to serve hostile forces, denying prisoners a fair trial, unlawful deportation or confinement, and taking hostages.

The statute also criminalises a broader range of serious violations of the laws and customs of war. The statute applies these prohibitions to both international and non-international armed conflicts.

On Israel's actions

In a previous report dated September 16, 2025, the Commission has found that the Israeli authorities and Israeli security forces have committed and are continuing to commit four categories of underlying acts of genocide in the Gaza Strip with the specific intent to destroy, in whole or in part, the Palestinian group, as such. Three of those four categories are especially relevant to children, namely (i) killing members of the group; (ii) causing serious bodily or mental harm to members of the group; and (iii) deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part. They also found that the elements for crimes against humanity have been fulfilled in Gaza, namely that attacks by the Israeli security forces since October 7, 2023 have involved "multiple commission of acts" directed against any civilian population that are widespread or systematic.

The Commission has found in a previous report in September 2025 that (i) the extensive and deliberate targeting of Palestinians, including children, showed that the military operations were not conducted solely to defeat Hamas and other Palestinian armed groups as Israeli officials claimed, nor can they legitimately contribute to the other stated goals of defending the state of Israel and securing the release of Israeli hostages; and (ii) the intentional targeting of Palestinian children was intended to physically destroy the larger Palestinian group in Gaza.

The Commission finds that Israeli security forces have committed the following war crimes against and affecting Palestinian children, consistent with its findings in previous reports: willful killing, torture and inhuman and degrading treatment causing severe physical and psychological harm, willfully causing great suffering or serious injury to body or health through deliberate deprivation and violence, intentionally directing attacks against the civilian population, destruction of property, and outrages upon personal dignity, designed to dehumanise and subjugate the Palestinian population, including children.

The report says that Israel continues to blatantly disregard the International Court of Justice (ICJ) advisory opinion of 19 July 2024 in respect of the 'Legal Consequences arising from the Policies and Practices of Israel in the Occupied Palestinian Territory, including East Jerusalem', and importantly, the orders for provisional measures issued on 26 January, 28 March 2024 and 24 May 2024 in the case of the 'Application of the Convention on the Prevention and Punishment of the Crime of Genocide in the Gaza Strip *(South Africa v. Israel)*', which are binding on Israel. In the case, South Africa accuses Israeli forces of genocide, but it could take years to reach a conclusion.

The Commission's findings, though not judicial determinations, may inform ongoing international investigations and proceedings.

30J6. Israeli attacks 'led to genocide, war crimes, and crimes against humanity'

इज़रायली हमलों से 'नरसंहार, युद्ध अपराध और मानवता के विरुद्ध अपराध' हुए

- **International criminal law** defines **genocide**, **crimes against humanity**, and **war crimes**, and recognises that these offences may be committed against children and produce child specific harms. Recently, an independent **UN** inquiry found that **Israel** actions deliberately targeted **Palestinian children**.

अंतरराष्ट्रीय आपराधिक कानून नरसंहार, **मानवता के विरुद्ध अपराध** और **युद्ध अपराधों** को परिभाषित करता है तथा यह स्वीकार करता है कि ये अपराध बच्चों के विरुद्ध भी किए जा सकते हैं और बच्चों के लिए विशेष प्रकार की हानि उत्पन्न कर सकते हैं। हाल ही में **संयुक्त राष्ट्र (UN)** की एक स्वतंत्र जांच में पाया गया कि **इज़रायल** की कार्रवाइयों ने जानबूझकर **फ़िलिस्तीनी बच्चों** को निशाना बनाया।

- "**Israeli authorities** and **security forces** deliberately targeted **Palestinian children**, resulting in **genocide**, **crimes against humanity** and **war crimes** in **Gaza**, and **war crimes** in the occupied **West Bank**," an independent **UN** inquiry said on Tuesday.
  मंगलवार को **संयुक्त राष्ट्र (UN)** की एक स्वतंत्र जांच में कहा गया कि "**इज़रायली प्राधिकरणों** और **सुरक्षा बलों** ने जानबूझकर **फ़िलिस्तीनी बच्चों** को निशाना बनाया, जिसके परिणामस्वरूप **गाज़ा** में **नरसंहार**, **मानवता के विरुद्ध अपराध** और **युद्ध अपराध**, तथा कब्जे वाले **वेस्ट बैंक** में **युद्ध अपराध** हुए।"
- **International criminal law**, as codified in the **Rome Statute** of the **International Criminal Court (ICC)** and customary international law, defines **genocide**, **crimes against humanity**, and **war crimes** and recognises that these offences may be committed against children and produce child-specific harms.
  अंतरराष्ट्रीय आपराधिक कानून, जैसा कि **अंतरराष्ट्रीय अपराध न्यायालय (ICC)** के **रोम संविधि (Rome Statute)** तथा प्रथागत अंतरराष्ट्रीय कानून में संहिताबद्ध है, **नरसंहार**, **मानवता के विरुद्ध अपराध** और **युद्ध अपराधों** को परिभाषित करता है तथा यह मान्यता देता है कि ये अपराध बच्चों के विरुद्ध भी किए जा सकते हैं और बच्चों के लिए विशेष प्रकार की हानि उत्पन्न कर सकते हैं।

Act of genocide
नरसंहार का कृत्य

- According to **Article 6** of the **Rome Statute** of the **ICC**, "**genocide**" means any of the following acts committed with intent to destroy, in whole or in part, a national, ethnic, racial or religious group, as such.
  ICC की **रोम संविधि** के **अनुच्छेद 6** के अनुसार, "**नरसंहार**" का अर्थ ऐसे किसी भी कृत्य से है जो किसी राष्ट्रीय, जातीय, नस्लीय या धार्मिक समूह को पूर्णतः अथवा आंशिक रूप से नष्ट करने के उद्देश्य से किया जाए।
- The acts include, killing members of the group, causing serious bodily or mental harm to members of the group, deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part, imposing measures intended to prevent births within the group, forcibly transferring children of the group to another group.
  इन कृत्यों में समूह के सदस्यों की हत्या करना, उन्हें गंभीर शारीरिक या मानसिक क्षति पहुँचाना, समूह पर जानबूझकर ऐसी जीवन परिस्थितियाँ थोपना जिनसे उसका पूर्ण या आंशिक भौतिक विनाश हो, समूह में जन्म रोकने के उद्देश्य से उपाय लागू करना तथा समूह के बच्चों को बलपूर्वक किसी अन्य समूह में स्थानांतरित करना शामिल है।

Widespread attack
व्यापक हमला

- Under **Article 7** of the **Rome Statute**, **crimes against humanity** are specific acts committed as part of a widespread or systematic attack directed against a civilian population, with knowledge of that attack.
  रोम संविधि के **अनुच्छेद 7** के अंतर्गत, **मानवता के विरुद्ध अपराध** वे विशिष्ट कृत्य हैं जो किसी नागरिक आबादी के विरुद्ध व्यापक या व्यवस्थित हमले के हिस्से के रूप में तथा उस हमले की जानकारी रखते हुए किए जाते हैं।
- The **Rome Statute** lists a range of acts that may constitute **crimes against humanity**, including **murder**, **extermination**, **enslavement**, **deportation** or forcible transfer of populations, unlawful imprisonment, **torture**, **rape** and other forms of sexual violence, persecution of identifiable groups on political, racial, national, ethnic, cultural, religious or

gender grounds, **enforced disappearance**, **apartheid**, and other inhumane acts intentionally causing serious physical or mental harm.

रोम संविधि उन अनेक कृत्यों की सूची देती है जो **मानवता के विरुद्ध अपराध** हो सकते हैं, जिनमें **हत्या**, **समूह विनाश**, **दासता**, **निर्वासन** अथवा आबादी का बलपूर्वक स्थानांतरण, अवैध कारावास, **यातना**, **बलात्कार** तथा यौन हिंसा के अन्य रूप, राजनीतिक, नस्लीय, राष्ट्रीय, जातीय, सांस्कृतिक, धार्मिक या लैंगिक आधार पर पहचाने जाने वाले समूहों का उत्पीड़न, **बलपूर्वक गुमशुदगी**, **रंगभेद (अपार्थाइड)** तथा गंभीर शारीरिक या मानसिक क्षति पहुँचाने वाले अन्य अमानवीय कृत्य शामिल हैं।

Geneva convention
जिनेवा अभिसमय

- **Article 8** of the **Rome Statute** defines **war crimes** as serious violations of **international humanitarian law** committed during an armed conflict.
  रोम संविधि का **अनुच्छेद 8 युद्ध अपराधों** को सशस्त्र संघर्ष के दौरान किए गए **अंतरराष्ट्रीय मानवीय कानून** के गंभीर उल्लंघनों के रूप में परिभाषित करता है।
- The Court exercises jurisdiction particularly where such crimes are committed as part of a plan or policy or on a large scale.
  न्यायालय विशेष रूप से उन मामलों में अधिकार क्षेत्र का प्रयोग करता है जहाँ ऐसे अपराध किसी योजना या नीति के अंतर्गत अथवा बड़े पैमाने पर किए गए हों।
- **War crimes** include grave breaches of the **Geneva Conventions**, such as wilful killing, torture or inhuman treatment, wilfully causing great suffering or serious injury, unlawful destruction or seizure of property, compelling prisoners of war to serve hostile forces, denying prisoners a fair trial, unlawful deportation or confinement, and taking hostages.
  युद्ध अपराधों में **जिनेवा अभिसमयों** का गंभीर उल्लंघन शामिल है, जैसे जानबूझकर हत्या, यातना या अमानवीय व्यवहार, जानबूझकर अत्यधिक पीड़ा या गंभीर चोट पहुँचाना, संपत्ति का अवैध विनाश या कब्ज़ा, युद्धबंदियों को शत्रु बलों की सेवा करने के लिए विवश करना, उन्हें निष्पक्ष सुनवाई से वंचित करना, अवैध निर्वासन या हिरासत तथा बंधक बनाना।
- The statute also criminalises a broader range of serious violations of the laws and customs of war.
  यह संविधि युद्ध के कानूनों और परंपराओं के व्यापक गंभीर उल्लंघनों को भी अपराध घोषित करती है।
- The statute applies these prohibitions to both international and non-international armed conflicts.
  यह संविधि इन निषेधों को अंतरराष्ट्रीय तथा गैर-अंतरराष्ट्रीय दोनों प्रकार के सशस्त्र संघर्षों पर लागू करती है।

On Israel's actions
इज़रायल की कार्रवाइयों पर

- In a previous report dated **September 16, 2025**, the **Commission** has found that the **Israeli authorities** and **Israeli security forces** have committed and are continuing to commit four categories of underlying acts of **genocide** in the **Gaza Strip** with the specific intent to destroy, in whole or in part, the **Palestinian** group, as such.
  16 सितंबर, 2025 की अपनी पूर्व रिपोर्ट में **आयोग** ने पाया कि **इज़रायली प्राधिकरणों** और **इज़रायली सुरक्षा बलों** ने **गाज़ा पट्टी** में **फ़िलिस्तीनी** समूह को पूर्णतः या आंशिक रूप से नष्ट करने के विशेष उद्देश्य से **नरसंहार** की चार श्रेणियों के मूल कृत्य किए हैं और उन्हें जारी रखा है।
- Three of those four categories are especially relevant to children, namely (i) killing members of the group; (ii) causing serious bodily or mental harm to members of the group; and (iii) deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part.
  उन चार श्रेणियों में से तीन विशेष रूप से बच्चों से संबंधित हैं, अर्थात् (i) समूह के सदस्यों की हत्या करना, (ii)

समूह के सदस्यों को गंभीर शारीरिक या मानसिक क्षति पहुँचाना, तथा (iii) समूह पर जानबूझकर ऐसी जीवन परिस्थितियाँ थोपना जिनसे उसका पूर्ण या आंशिक भौतिक विनाश हो।

- They also found that the elements for **crimes against humanity** have been fulfilled in **Gaza**, namely that attacks by the **Israeli security forces** since **October 7, 2023** have involved "multiple commission of acts" directed against any civilian population that are widespread or systematic.

  उन्होंने यह भी पाया कि **गाज़ा** में **मानवता के विरुद्ध अपराधों** के तत्व पूरे हुए हैं, अर्थात् **7 अक्टूबर, 2023** से **इज़रायली सुरक्षा बलों** द्वारा किए गए हमलों में नागरिक आबादी के विरुद्ध व्यापक या व्यवस्थित रूप से "अनेक कृत्य" किए गए हैं।

- The **Commission** has found in a previous report in **September 2025** that (i) the extensive and deliberate targeting of **Palestinians**, including children, showed that the military operations were not conducted solely to defeat **Hamas** and other **Palestinian armed groups** as **Israeli officials** claimed, nor can they legitimately contribute to the other stated goals of defending the state of **Israel** and securing the release of **Israeli hostages**.

  आयोग ने **सितंबर 2025** की अपनी पूर्व रिपोर्ट में पाया कि (i) बच्चों सहित **फ़िलिस्तीनियों** को व्यापक और जानबूझकर निशाना बनाए जाने से यह स्पष्ट हुआ कि सैन्य अभियान केवल **हमास** और अन्य **फ़िलिस्तीनी सशस्त्र समूहों** को पराजित करने के लिए नहीं चलाए गए थे, जैसा कि **इज़रायली अधिकारियों** ने दावा किया था, और न ही वे **इज़रायल** की रक्षा तथा **इज़रायली बंधकों** की रिहाई जैसे घोषित उद्देश्यों में वैध रूप से योगदान दे सकते हैं।

- (ii) the intentional targeting of **Palestinian children** was intended to physically destroy the larger **Palestinian** group in **Gaza**.

  (ii) **फ़िलिस्तीनी बच्चों** को जानबूझकर निशाना बनाने का उद्देश्य **गाज़ा** में व्यापक **फ़िलिस्तीनी** समूह का भौतिक विनाश करना था।

- The **Commission** finds that **Israeli security forces** have committed the following **war crimes** against and affecting **Palestinian children**, consistent with its findings in previous reports: willful killing, torture and inhuman and degrading treatment causing severe physical and psychological harm, willfully causing great suffering or serious injury to body or health through deliberate deprivation and violence, intentionally directing attacks against the civilian population, destruction of property, and outrages upon personal dignity, designed to dehumanise and subjugate the **Palestinian** population, including children.

  आयोग ने पाया कि **इज़रायली सुरक्षा बलों** ने **फ़िलिस्तीनी बच्चों** के विरुद्ध तथा उन्हें प्रभावित करने वाले निम्नलिखित **युद्ध अपराध** किए हैं, जो उसकी पूर्व रिपोर्टों के निष्कर्षों के अनुरूप हैं: जानबूझकर हत्या, यातना तथा अमानवीय और अपमानजनक व्यवहार जिससे गंभीर शारीरिक एवं मानसिक क्षति पहुँची, जानबूझकर वंचित करने और हिंसा के माध्यम से अत्यधिक पीड़ा या गंभीर शारीरिक क्षति पहुँचाना, नागरिक आबादी पर जानबूझकर हमले करना, संपत्ति का विनाश तथा व्यक्तिगत गरिमा का अपमान, जिनका उद्देश्य बच्चों सहित **फ़िलिस्तीनी** आबादी का अमानवीकरण और दमन करना था।

- The report says that **Israel** continues to blatantly disregard the **International Court of Justice (ICJ)** advisory opinion of **19 July 2024** in respect of the 'Legal Consequences arising from the Policies and Practices of Israel in the Occupied Palestinian Territory, including East Jerusalem', and importantly, the orders for provisional measures issued on **26 January**, **28 March 2024** and **24 May 2024** in the case of the 'Application of the Convention on the Prevention and Punishment of the Crime of Genocide in the Gaza Strip (**South Africa v. Israel**)', which are binding on **Israel**.

  रिपोर्ट में कहा गया है कि **इज़रायल** 'अधिकृत फ़िलिस्तीनी क्षेत्र, जिसमें पूर्वी यरूशलम भी शामिल है, में इज़रायल की नीतियों और प्रथाओं से उत्पन्न कानूनी परिणाम' संबंधी **19 जुलाई 2024** की **अंतरराष्ट्रीय न्यायालय (ICJ)** की परामर्शात्मक राय की खुलेआम अवहेलना करता रहा है, तथा विशेष रूप से 'गाज़ा पट्टी में नरसंहार अपराध की रोकथाम और दंड संबंधी अभिसमय के अनुप्रयोग (**दक्षिण अफ्रीका बनाम इज़रायल**)' मामले में **26 जनवरी**, **28 मार्च 2024** और **24 मई 2024** को जारी अंतरिम उपायों के आदेशों की भी, जो **इज़रायल** पर बाध्यकारी हैं।

- In the case, **South Africa** accuses **Israeli forces** of **genocide**, but it could take years to reach a conclusion.
  इस मामले में **दक्षिण अफ्रीका** ने **इज़रायली बलों** पर **नरसंहार** का आरोप लगाया है, लेकिन अंतिम निष्कर्ष तक पहुँचने में कई वर्ष लग सकते हैं।
- The **Commission's findings**, though not judicial determinations, may inform ongoing international investigations and proceedings.
  आयोग के निष्कर्ष, यद्यपि न्यायिक निर्णय नहीं हैं, फिर भी वे चल रही अंतरराष्ट्रीय जांचों और न्यायिक कार्यवाहियों के लिए उपयोगी आधार प्रदान कर सकते हैं।

On the delay in India-U.S. trade deal

India and the U.S. announced in February 2025 that they would work towards a Bilateral Trade Agreement, but differences over agriculture and Russian oil, along with legal battles in Washington and investigations initiated by the Trump administration, have clouded its prospects

GS III: Economy

EXPLAINER

T.C.A. Sharad Raghavan

The story so far:

India and the U.S. in February 2025 announced that they would work towards a comprehensive Bilateral Trade Agreement (BTA) that was to be finalised by fall 2025. Then, in February 2026, they signed a framework agreement for an interim trade deal that was to be implemented by April-May 2026. Neither deal has come to pass.

Why was the BTA delayed?

Soon after Prime Minister Narendra Modi and U.S. President Donald Trump announced their intentions to complete a BTA in February 2025, it became clear that a comprehensive deal would be elusive. The talk among government officials was about finalising at least the first tranche of the deal by fall 2025 (September-November 2025).

Talks intensified post April 2025, after Mr. Trump first announced his 'Liberation Day' reciprocal tariffs and then paused them for 90 days so he could negotiate deals with U.S. trade partners. However, despite several meetings, India and the U.S. could not finalise the first tranche, with key sticking points being India's reluctance to open up its agricultural and dairy sectors, and its decision to buy oil from Russia.

In two successive announcements in late July and early August, Mr. Trump raised tariffs on imports from India to 25% and then to 50%, with the latter hike being a penalty for India's Russian oil imports. This decision froze negotiations for a few months before matters thawed once again and talks resumed in October.

What is the interim deal?

Once talks resumed, Mr. Modi and Mr. Trump in February 2026 signed a framework for an interim agreement on trade. This was not a trade deal itself, but the framework along which one could be worked out. At the time, Commerce Minister Piyush Goyal expressed his confidence that the deal would be completed by April, or at the latest by early May 2026.

GETTY IMAGES

Under the framework, the U.S. was to reduce total tariffs on Indian imports to 18%, providing it a competitive advantage over its competitors. Both sides also committed to providing each other preferential market access in "sectors of respective interest".

Why has this deal been delayed?

Soon after the framework was announced, the U.S. Supreme Court invalidated the reciprocal tariff system itself, saying the law it was based on – the International Emergency Economic Powers Act (IEEPA) of the U.S. – did not allow for such tariffs. That removed a major foundation on which the deal negotiations had taken place.

Since then, the U.S. has taken several decisions that have further added to the tariff uncertainty.

Right after the Supreme Court's decision, Mr. Trump announced that he would be imposing a flat 10% tariff on imports from all countries under the Trade Act of 1974, which he said authorised him to take action to address the U.S.'s ballooning trade deficit. This tariff was temporary, supposed to last 150 days up to July 24. Mr. Trump said he would raise it to 15%, but never did.

The U.S. Court of International Trade deemed these illegal as well, but an appeals court put a stay on that order.

What fresh investigations have added more uncertainty?

In March, the office of the U.S. Trade Representative (USTR) said it had initiated two investigations under Section 301 of the Trade Act into several of its trade partners that could potentially see further tariffs being imposed on them.

The first investigation against 16 economies, including India, was to see whether these economies were using excess manufacturing capacity to export to the U.S. in a manner that was hurting American businesses.

The second one, against 60 countries including India, was to look into whether these countries had taken "sufficient steps" to prohibit the import of goods produced with forced labour and how the "failure to eradicate" these practices impacts U.S. workers and businesses.

Under the forced labour investigation, the U.S. government in early June proposed to levy a tariff of 12.5% on imports from 54 countries, including India, as they have "failed to impose and effectively enforce" prohibitions on the import of goods produced using forced labour. To be sure, this does not mean the U.S. is saying that India uses forced labour, but that it has not stopped the import of goods that have been manufactured using forced labour.

India has made its representations to the U.S. on this matter and the final hearing is on July 7. The findings of the excess capacity investigations are expected in mid-July.

What is India's stance on the deal?

As repeatedly expressed by Mr. Goyal, India remains committed to finalising a trade deal with the U.S. but is firm about the fact that it should receive a comparative advantage over its competitors as was agreed in February. For this, the Section 301 investigations will have to be completed and the tariffs decided on various countries.

In the meantime, the two sides continue to negotiate on the other non-tariff aspects of the deal, such as enhanced market access, digital trade, supply chain resilience, reduction of non-tariff barriers, and expanded cooperation in strategic sectors. The latest visit by USTR Jamieson Greer to India on June 23-24 did not yield any deadlines.

THE GIST

- India and the U.S. missed both the planned 2025 Bilateral Trade Agreement and the 2026 interim deal after disagreements over agriculture, dairy and Russian oil imports, followed by shifting U.S. tariff policies and legal challenges that disrupted negotiations.
- New U.S. Section 301 investigations into excess manufacturing capacity and forced-labour-related imports have delayed tariff decisions, while both sides continue negotiating non-tariff issues, with India insisting on a comparative tariff advantage before finalising the deal.

30J6. On the delay in India-U.S. trade deal
भारत–अमेरिका व्यापार समझौते में देरी पर

- **India** and the **U.S.** announced in **February 2025** that they would work towards a **Bilateral Trade Agreement**, but differences over **agriculture** and **Russian oil**, along with **legal battles** in **Washington** and **investigations** initiated by the **Trump administration**, have clouded its prospect.
  भारत और **अमेरिका** ने **फ़रवरी 2025** में घोषणा की थी कि वे **द्विपक्षीय व्यापार समझौते (Bilateral Trade Agreement)** की दिशा में कार्य करेंगे, किंतु **कृषि** तथा **रूसी तेल** को लेकर मतभेदों के साथ-साथ **वॉशिंगटन** में चल रही **कानूनी लड़ाइयों** और **ट्रम्प प्रशासन** द्वारा प्रारंभ की गई **जाँचों** ने इसकी संभावनाओं को धूमिल कर दिया है।
- Then, in **February 2026**, they signed a **framework agreement** for an **interim trade deal** that was to be implemented by **April-May 2026**.
  इसके बाद **फरवरी 2026** में दोनों देशों ने एक **अंतरिम व्यापार समझौते** के लिए **रूपरेखा समझौते (Framework Agreement)** पर हस्ताक्षर किए, जिसे **अप्रैल-मई 2026** तक लागू किया जाना था।
- However, despite several meetings, **India** and the **U.S.** could not finalise the **first tranche**, with key sticking points being **India's** reluctance to open up its **agricultural** and **dairy sectors**, and its decision to buy **oil** from **Russia**.
  हालाँकि, कई बैठकों के बावजूद **भारत** और **संयुक्त राज्य अमेरिका** समझौते के **पहले चरण** को अंतिम रूप नहीं दे सके। इसके प्रमुख अवरोध **भारत** की अपने **कृषि** और **डेयरी क्षेत्रों** को खोलने में अनिच्छा तथा **रूस** से **तेल** खरीदने के निर्णय थे।

Website : patrioticias.in

- This was not a **trade deal** itself, but the **framework** along which one could be worked out.
  यह स्वयं कोई **व्यापार समझौता** नहीं था, बल्कि ऐसा **रूपरेखा दस्तावेज़** था, जिसके आधार पर आगे व्यापार समझौता तैयार किया जा सकता था।
- Under the **framework**, the **U.S.** was to reduce total **tariffs** on **Indian imports** to **18%**, providing it a competitive advantage over its competitors.
  इस **रूपरेखा** के अनुसार **संयुक्त राज्य अमेरिका** को **भारतीय आयातों** पर कुल **शुल्क** घटाकर **18%** करना था, जिससे भारत को अपने प्रतिस्पर्धियों की तुलना में प्रतिस्पर्धात्मक लाभ प्राप्त होता।
- Both sides also committed to providing each other **preferential market access** in **"sectors of respective interest"**.
  दोनों पक्षों ने **"पारस्परिक रुचि वाले क्षेत्रों"** में एक-दूसरे को **अधिमान्य बाज़ार पहुँच (Preferential Market Access)** प्रदान करने की भी प्रतिबद्धता व्यक्त की।

Why has this deal been delayed?
इस समझौते में देरी क्यों हुई है?

- Soon after the **framework** was announced, the **U.S. Supreme Court** invalidated the **reciprocal tariff** system itself, saying the law it was based on — the **International Emergency Economic Powers Act (IEEPA)** of the **U.S.** — did not allow for such **tariffs**.
  रूपरेखा (Framework) की घोषणा के तुरंत बाद **अमेरिकी उच्चतम न्यायालय** ने **पारस्परिक शुल्क (Reciprocal Tariff)** व्यवस्था को ही अमान्य घोषित कर दिया और कहा कि जिस कानून — **अंतरराष्ट्रीय आपातकालीन आर्थिक शक्तियाँ अधिनियम (IEEPA)** — पर यह आधारित था, वह ऐसे **शुल्कों** की अनुमति नहीं देता।
- That removed a major foundation on which the deal **negotiations** had taken place.
  इससे वह प्रमुख आधार समाप्त हो गया, जिस पर इस समझौते की **वार्ताएँ** आधारित थीं।
- Right after the **Supreme Court's** decision, **Mr. Trump** announced that he would be imposing a flat **10% tariff** on imports from all countries under the **Trade Act of 1974**, which he said authorised him to take action to address the **U.S.'s** ballooning **trade deficit**.
  उच्चतम न्यायालय के निर्णय के तुरंत बाद **श्री ट्रम्प** ने घोषणा की कि वे **1974 के व्यापार अधिनियम (Trade Act of 1974)** के अंतर्गत सभी देशों से होने वाले आयात पर **10% का समान शुल्क** लगाएंगे। उनका कहना था कि यह अधिनियम उन्हें **अमेरिका के बढ़ते व्यापार घाटे** से निपटने के लिए कार्रवाई करने का अधिकार देता है।
- The first **investigation** against **16 economies**, including **India**, was to see whether these economies were using **excess manufacturing capacity** to export to the **U.S.** in a manner that was hurting **American businesses**.
  भारत सहित **16 अर्थव्यवस्थाओं** के विरुद्ध पहली **जाँच** का उद्देश्य यह पता लगाना था कि क्या ये देश **अतिरिक्त विनिर्माण क्षमता** का उपयोग करके **अमेरिका** को ऐसे निर्यात कर रहे हैं, जिससे **अमेरिकी व्यवसायों** को नुकसान हो रहा है।
- The second one, against **60 countries** including **India**, was to look into whether these countries had taken **"sufficient steps"** to prohibit the import of goods produced with **forced labour** and how the **"failure to eradicate"** these practices impacts **U.S. workers** and **businesses**.
  दूसरी जाँच, जो **भारत** सहित **60 देशों** के विरुद्ध की गई, का उद्देश्य यह देखना था कि क्या इन देशों ने **बलात् श्रम (Forced Labour)** से निर्मित वस्तुओं के आयात पर रोक लगाने के लिए **"पर्याप्त कदम"** उठाए हैं तथा इन प्रथाओं को **"समाप्त करने में विफलता"** का **अमेरिकी श्रमिकों** और **व्यवसायों** पर क्या प्रभाव पड़ता है।
- Under the **forced labour investigation**, the **U.S. Government** in **early June** proposed to levy a **12.5% tariff** on imports from **54 countries**, including **India**, as they have **"failed to impose and effectively enforce"** prohibitions on the import of goods produced using **forced labour**.
  बलात् श्रम जाँच के अंतर्गत **जून** के प्रारम्भ में **अमेरिकी सरकार** ने **भारत** सहित **54 देशों** से होने वाले आयात पर

12.5% शुल्क लगाने का प्रस्ताव रखा, क्योंकि उनके अनुसार इन देशों ने **बलात् श्रम** से निर्मित वस्तुओं के आयात पर प्रतिबंधों को **"लागू करने और प्रभावी रूप से प्रवर्तित करने में विफलता"** दिखाई है।

- To be sure, this does not mean the **U.S.** is saying that **India** uses **forced labour**, but that it has not stopped the import of goods that have been manufactured using **forced labour**.
  स्पष्ट रूप से, इसका अर्थ यह नहीं है कि **अमेरिका** यह कह रहा है कि **भारत** स्वयं **बलात् श्रम** का उपयोग करता है, बल्कि उसका कहना है कि भारत ने **बलात् श्रम** से निर्मित वस्तुओं के आयात को पर्याप्त रूप से नहीं रोका है।
- In the meantime, the two sides continue to negotiate on the other **non-tariff** aspects of the deal, such as enhanced **market access**, **digital trade**, **supply chain resilience**, reduction of **non-tariff barriers**, and expanded cooperation in **strategic sectors**.
  इस बीच दोनों पक्ष समझौते के अन्य **गैर-शुल्कीय** पहलुओं, जैसे बेहतर **बाज़ार पहुँच**, **डिजिटल व्यापार**, **आपूर्ति शृंखला की सुदृढ़ता**, **गैर-शुल्कीय बाधाओं** में कमी तथा **रणनीतिक क्षेत्रों** में विस्तारित सहयोग पर वार्ता जारी रखे हुए हैं।

Has RBI changed the rules for scam compensation?

Who can claim compensation, how much can they receive, and what are the eligibility conditions?

GS III: Economy

Aroon Deep

The story so far:

The Reserve Bank of India (RBI) on Wednesday issued fresh rules to protect customers from scam transactions where they lose money to fraudsters and cyberattacks. These directions amend the RBI's 2017 circular on "Limiting Liability of Customers in Unauthorised Electronic Banking Transactions". That previous framework only left banks liable to compensate scammed customers if transactions were not even authorised by customers, such as in a successful hacking incident. These rules are only a pilot for now, but may be extended in the future. They are effective from January 1, 2027, and last for the year.

What has the RBI changed?

In Wednesday's amendments, a draft version of which was released for public comment in March, customers can get reimbursed when they fall prey to certain scams, like digital arrests (where they are "coerced" into paying money), or when one-time passcodes (OTPs) are "fraudulently" stolen from them. Most financial fraud currently relies on "social engineering" attacks, which require hoodwinking customers in one way or another; since banks' core cybersecurity infrastructure is heavily regulated and subject to RBI audits, "zero click" hacks are vanishingly rare.

The new key concept is "fraudulent electronic banking transactions (EBTs)". RBI defines these as transactions which are "executed by a third-party using the credentials obtained from the customer through fraudulent means or executed by the customer by granting approval under coercion or duress from the third-party" or "an EBT which is not authorised by a customer and inter alia includes an EBT occurring on account of negligence by a bank and/or a third-party breach."

This means that customers who ignore fraud signal warnings, such as those on a UPI PIN screen that a given transaction could be a scam, would not be eligible for any compensation. In cases of a third-party hack, the timeline for a customer to report the loss has been increased to five calendar days from three working days. As in the 2017 rules, if any amount is deducted after a customer reports fraud, the customer bears no liability and is entitled to a reversal of the transaction.

Banks can waive customers' liability even if a transaction is negligent, but this is subject to their own discretion. If a user does not have their latest phone number or email address registered with the bank, this counts as negligence, as the bank would not send fraud alerts to the right contact.

How much compensation can customers receive?

For losses up to ₹50,000, individual victims can claim 85% of the amount as compensation, only once in their lifetime, up to ₹25,000. (This means that for any amount from ₹29,412 till ₹50,000, customers will receive a flat ₹25,000 compensation.) Roughly three-fourths of the amount will be paid by RBI itself, while the customer and beneficiary banks will pay half the remaining amount.

A customer must report to the cybercrime helpline (1930) within five days to be eligible for this. It is worth noting that scams above ₹50,000 don't seem to be covered in this framework at all.

What changed between the draft and final rules?

From the March draft, banks have been given more time to implement this new system; the draft rules had a July 1 effective date. This is now January 1, 2027. Complaint settlement timelines are also now increased to 45-60 days, with the latter applying for international transactions.

Dvara Research, a non-profit financial inclusion think tank, had suggested that the vulnerability of customers be taken into account. "Research suggests that Indians encounter fraud attempts multiple times a week, that these attempts are growing more sophisticated, and therefore, it is not unlikely that customers may fall for them more than once," the body wrote.

"Vulnerable customers may not be expected to meet high standards of attentiveness or defend themselves against frauds that are sophisticated even for the more evolved customers ... Under the Indian Contract Act, contracts executed under information asymmetry, external influence, or fraudulent pretext are voidable... Bundling such different transactions under the common definition of 'authorised transaction' diminishes their fundamental difference and may even reduce the significance of a liability framework."

THE GIST

- RBI's revised rules expand customer protection by allowing compensation for certain fraud caused by coercion or stolen credentials, not just unauthorised transactions.
- Eligible customers can claim up to ₹25,000 for losses of up to ₹50,000 if they report the fraud within five days; the pilot framework takes effect from January 1, 2027.

30J6. Has RBI changed the rules for scam compensation?

क्या भारतीय रिज़र्व बैंक (RBI) ने धोखाधड़ी से संबंधित मुआवज़े के नियमों में परिवर्तन किया है?

- The **Reserve Bank of India (RBI)** on **Wednesday** issued fresh **rules** to protect **customers** from **scam transactions** where they lose money to **fraudsters** and **cyberattacks**.
  भारतीय रिज़र्व बैंक (RBI) ने **बुधवार** को **ग्राहकों** को **धोखाधड़ी वाले लेन-देन**, **ठगों** तथा **साइबर हमलों** के कारण होने वाली वित्तीय हानि से बचाने के लिए नए **नियम** जारी किए।
- These directions amend the **RBI's 2017 circular** on **"Limiting Liability of Customers in Unauthorised Electronic Banking Transactions"**.
  ये निर्देश **"अनधिकृत इलेक्ट्रॉनिक बैंकिंग लेन-देन में ग्राहकों की देयता सीमित करने"** संबंधी **RBI के 2017 के परिपत्र** में संशोधन करते हैं।
- That previous framework only left **banks** liable to compensate **scammed customers** if transactions were not even authorised by customers, such as in a successful **hacking** incident.
  पूर्व व्यवस्था के अनुसार **बैंकों** को केवल उन्हीं मामलों में **धोखाधड़ी के शिकार ग्राहकों** को क्षतिपूर्ति करनी होती थी, जहाँ लेन-देन ग्राहकों द्वारा अधिकृत ही न हो, जैसे किसी सफल **हैकिंग** की घटना में।
- They are effective from **January 1, 2027**, and last for the year.
  ये **1 जनवरी 2027** से प्रभावी होंगे और एक वर्ष तक लागू रहेंगे।

What has the RBI changed?
RBI ने क्या बदलाव किए हैं?

- In **Wednesday's amendments**, a draft version of which was released for **public comment** in **March**, **customers** can get reimbursed when they fall prey to certain **scams**, like **digital arrests** (where they are **"coerced"** into paying money), or when **one-time passcodes (OTPs)** are **"fraudulently"** stolen from them.
  बुधवार को जारी संशोधनों में, जिसका प्रारूप **मार्च** में **सार्वजनिक टिप्पणियों** के लिए जारी किया गया था, **ग्राहकों** को कुछ विशेष **धोखाधड़ी** का शिकार होने पर प्रतिपूर्ति प्राप्त हो सकेगी, जैसे **डिजिटल गिरफ्तारी** (जिसमें उन्हें धन भुगतान करने के लिए **"मजबूर"** किया जाता है), अथवा जब उनके **वन-टाइम पासकोड (OTP) "धोखाधड़ीपूर्वक"** प्राप्त कर लिए जाते हैं।
- Most **financial fraud** currently relies on **"social engineering" attacks**, which require hoodwinking **customers** in one way or another; since **banks'** core **cybersecurity infrastructure** is heavily regulated and subject to **RBI audits**, **"zero click" hacks** are vanishingly rare.
  वर्तमान में अधिकांश **वित्तीय धोखाधड़ी "सोशल इंजीनियरिंग" हमलों** पर आधारित होती है, जिनमें किसी-न-किसी प्रकार से **ग्राहकों** को भ्रमित किया जाता है। चूँकि **बैंकों** की मूल **साइबर सुरक्षा संरचना** कड़े नियमन और **RBI ऑडिट** के अधीन है, इसलिए **"ज़ीरो-क्लिक" हैक** अत्यंत दुर्लभ हैं।
- The new key concept is **"fraudulent electronic banking transactions (EBTs)"**.
  इस संशोधन का प्रमुख नया सिद्धांत **"धोखाधड़ीपूर्ण इलेक्ट्रॉनिक बैंकिंग लेन-देन (EBTs)"** है।
- **RBI** defines these as transactions which are **"executed by a third-party using the credentials obtained from the customer through fraudulent means or executed by the customer by granting approval under coercion or duress from the third-party"** or **"an EBT which is not authorised by a customer and inter alia includes an EBT occurring on account of negligence by a bank and/or a third-party breach."**
  RBI ने इन्हें ऐसे लेन-देन के रूप में परिभाषित किया है, जो **"तीसरे पक्ष द्वारा ग्राहक से धोखाधड़ीपूर्ण तरीके से प्राप्त प्रमाण-पत्रों का उपयोग करके किए जाएँ अथवा ग्राहक द्वारा तीसरे पक्ष के दबाव या जबरदस्ती में स्वीकृति देकर किए जाएँ"**, अथवा **"ऐसे इलेक्ट्रॉनिक बैंकिंग लेन-देन जो ग्राहक द्वारा अधिकृत न हों तथा जिनमें बैंक की लापरवाही अथवा तीसरे पक्ष की सुरक्षा चूक के कारण हुए लेन-देन भी शामिल हों।"**
- This means that **customers** who ignore **fraud signal warnings**, such as those on a **UPI PIN** screen that a given transaction could be a **scam**, would not be eligible for any **compensation**.
  इसका अर्थ है कि वे **ग्राहक** जो **धोखाधड़ी संबंधी चेतावनियों**, जैसे **UPI PIN** स्क्रीन पर प्रदर्शित किसी लेन-देन के **धोखाधड़ी** होने की चेतावनी, को नज़रअंदाज़ करते हैं, वे किसी भी **क्षतिपूर्ति** के पात्र नहीं होंगे।
- In cases of a **third-party hack**, the timeline for a **customer** to report the loss has been increased to **five calendar days** from **three working days**.
  तीसरे पक्ष द्वारा हैकिंग के मामलों में **ग्राहक** द्वारा हानि की सूचना देने की समय-सीमा **तीन कार्य दिवसों** से बढ़ाकर **पाँच कैलेंडर दिवस** कर दी गई है।
- As in the **2017 rules**, if any amount is deducted after a **customer** reports **fraud**, the **customer** bears no liability and is entitled to a reversal of the transaction.
  2017 के नियमों की भाँति, यदि **ग्राहक** द्वारा **धोखाधड़ी** की सूचना देने के बाद कोई राशि कटती है, तो उसकी कोई देयता नहीं होगी तथा वह उस लेन-देन को वापस कराने का अधिकार रखेगा।
- **Banks** can waive **customers'** liability even if a transaction is **negligent**, but this is subject to their own discretion.
  बैंक किसी **लापरवाहीपूर्ण** लेन-देन की स्थिति में भी **ग्राहकों** की देयता माफ कर सकते हैं, किन्तु यह उनके विवेक पर निर्भर करेगा।
- If a user does not have their latest **phone number** or **email address** registered with the **bank**, this counts as **negligence**, as the **bank** would not send **fraud alerts** to the right contact.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488

यदि किसी उपयोगकर्ता ने अपना नवीनतम **फ़ोन नंबर** अथवा **ईमेल पता बैंक** में पंजीकृत नहीं कराया है, तो इसे **लापरवाही** माना जाएगा, क्योंकि ऐसी स्थिति में **बैंक** सही संपर्क पर **धोखाधड़ी संबंधी चेतावनी** नहीं भेज पाएगा।

How much compensation can customers receive?
ग्राहकों को कितनी क्षतिपूर्ति मिल सकती है?

- For losses up to **₹50,000**, individual victims can claim **85%** of the amount as **compensation**, only **once in their lifetime**, up to **₹25,000**.
  ₹50,000 तक की हानि होने पर व्यक्तिगत पीड़ित **85%** राशि तक **क्षतिपूर्ति** का दावा कर सकते हैं, किन्तु यह सुविधा **जीवन में केवल एक बार** उपलब्ध होगी और अधिकतम **₹25,000** तक सीमित रहेगी।
- (This means that for any amount from **₹29,412** till **₹50,000**, **customers** will receive a flat **₹25,000 compensation**.)
  (अर्थात **₹29,412** से लेकर **₹50,000** तक की किसी भी हानि पर **ग्राहकों** को अधिकतम **₹25,000** की निश्चित **क्षतिपूर्ति** मिलेगी।)
- Roughly **three-fourths** of the amount will be paid by **RBI** itself, while the **customer** and **beneficiary banks** will pay half the remaining amount.
  कुल राशि का लगभग **तीन-चौथाई** भाग **RBI** स्वयं वहन करेगा, जबकि शेष राशि का आधा भाग **ग्राहक** और **लाभार्थी बैंक** वहन करेंगे।
- A **customer** must report to the **cybercrime helpline (1930)** within **five days** to be eligible for this.
  इस सुविधा का लाभ प्राप्त करने के लिए **ग्राहक** को **पाँच दिनों** के भीतर **साइबर अपराध हेल्पलाइन (1930)** पर शिकायत दर्ज करानी होगी।
- It is worth noting that **scams** above **₹50,000** do not seem to be covered in this framework at all.
  यह उल्लेखनीय है कि **₹50,000** से अधिक की **धोखाधड़ी** इस व्यवस्था के अंतर्गत शामिल नहीं प्रतीत होती।

What changed between the draft and final rules?
प्रारूप और अंतिम नियमों के बीच क्या परिवर्तन हुए?

- From the **March draft**, **banks** have been given more time to implement this new system; the draft rules had a **July 1** effective date.
  मार्च के प्रारूप की तुलना में **बैंकों** को इस नई व्यवस्था को लागू करने के लिए अधिक समय दिया गया है; प्रारूप नियमों में इसे **1 जुलाई** से लागू किया जाना प्रस्तावित था।
- This is now **January 1, 2027**.
  अब इसकी प्रभावी तिथि **1 जनवरी 2027** कर दी गई है।
- **Complaint settlement** timelines are also now increased to **45-60 days**, with the latter applying for **international transactions**.
  शिकायत निस्तारण की समय-सीमा भी अब बढ़ाकर **45-60 दिन** कर दी गई है, जिसमें **अंतरराष्ट्रीय लेन-देन** के लिए **60 दिन** की समय-सीमा लागू होगी।
- **Dvara Research**, a non-profit **financial inclusion** think tank, had suggested that the **vulnerability** of **customers** be taken into account.
  द्वारा रिसर्च, जो **वित्तीय समावेशन** पर कार्य करने वाला एक गैर-लाभकारी शोध संस्थान है, ने सुझाव दिया था कि **ग्राहकों** की **संवेदनशीलता** को भी ध्यान में रखा जाना चाहिए।
- **"Research suggests that Indians encounter fraud attempts multiple times a week, that these attempts are growing more sophisticated, and therefore, it is not unlikely that customers may fall for them more than once,"** the body wrote.
  संस्थान ने लिखा कि **"अनुसंधान से पता चलता है कि भारतीयों को सप्ताह में कई बार धोखाधड़ी के प्रयासों का** सामना करना पड़ता है, ये प्रयास लगातार अधिक परिष्कृत होते जा रहे हैं, और इसलिए यह असंभव नहीं है कि ग्राहक एक से अधिक बार इनके शिकार हो जाएँ।"

- "Vulnerable customers may not be expected to meet high standards of attentiveness or defend themselves against frauds that are sophisticated even for the more evolved customers Under the Indian Contract Act, contracts executed under information asymmetry, external influence, or fraudulent pretext are voidable... Bundling such different transactions under the common definition of 'authorised transaction' diminishes their fundamental difference and may even reduce the significance of a liability framework."

"संवेदनशील ग्राहकों से यह अपेक्षा नहीं की जा सकती कि वे अत्यधिक सतर्कता का परिचय दें या ऐसे परिष्कृत धोखाधड़ी प्रयासों से स्वयं की रक्षा कर सकें, जो अनुभवी ग्राहकों के लिए भी चुनौतीपूर्ण हों... भारतीय संविदा अधिनियम के अंतर्गत सूचना की असमानता, बाहरी प्रभाव अथवा धोखाधड़ीपूर्ण आधार पर किए गए अनुबंध निरस्त किए जा सकते हैं... ऐसे भिन्न प्रकार के लेन-देन को 'अधिकृत लेन-देन' की एक ही परिभाषा के अंतर्गत रखना उनके मूलभूत अंतर को कम कर देता है तथा देयता संबंधी व्यवस्था के महत्व को भी घटा सकता है।"

Union Cabinet okays ₹30,000 cr. additional investment in NIIF for new fund creation

GS III: Economy

The Hindu Bureau
NEW DELHI

The Union Cabinet has approved an additional investment by the Government of India of ₹30,000 crore in the National Investment and Infrastructure Fund (NIIF) to be used for its upcoming funds, the government announced on Monday.

The decision itself was taken last week, it said. This would take the government's total commitment in NIIF to ₹60,000 crore. The NIIF is India's sovereign anchored fund, in which the government of India is a 49% shareholder. It currently manages capital commitments of about ₹40,000 crore across its funds and investment strategies, the government said.

"We are grateful for this allocation of ₹30,000 crore, which is a strong reaffirmation of Government support to NIIF and reinforces the catalytic capital model that has defined NIIF since inception," Sanjiv Aggarwal, Managing Director and CEO of NIIF said.

New fund

According to a release by NIIF, this additional allocation from the government will help NIIF raise larger funds, attract investors across geographies, and deepen its presence in key sectors of the economy.

This additional investment of ₹30,000 crore will be used to set up NIIF's second infrastructure focussed fund, the successor to its first flagship fund with this mandate

The government said that this additional investment of ₹30,000 crore will be used to set up NIIF's second infrastructure focussed fund, the successor to its first flagship fund with this mandate.

"NIIF Infrastructure Fund II is proposed to have a target corpus of close to ₹30,000 crore and is expected to undertake investments across transportation, energy, digital infrastructure, and emerging areas such as urban infrastructure and e-mobility," the government release said.

It added that the allocation will also support NIIF's new fund strategies and upcoming bilateral and strategic funds.

"Over the past decade, GoI's anchor commitment has enabled us to build a very strong institutional investor base, spanning leading sovereign wealth funds, pension funds, multilateral and bilateral institutions, and domestic financial institutions," Mr. Aggarwal added.

30J6. Union Cabinet okays ₹30,000 cr. additional investment in NIIF for new fund creation

केंद्रीय मंत्रिमंडल ने NIIF में नए फंड के सृजन के लिए ₹30,000 करोड़ के अतिरिक्त निवेश को मंजूरी दी।

- **The Union Cabinet approves additional investment in NIIF**

केंद्रीय मंत्रिमंडल ने NIIF में अतिरिक्त निवेश को मंजूरी दी

- The **Union Cabinet** has approved an additional investment by the **Government of India** of **₹30,000 crore** in the **National Investment and Infrastructure Fund (NIIF)** to be used for its upcoming funds, the government announced on Monday.

केंद्रीय मंत्रिमंडल ने **भारत सरकार** द्वारा **राष्ट्रीय निवेश एवं अवसंरचना कोष (NIIF)** में उसके आगामी फंडों के लिए उपयोग किए जाने हेतु **₹30,000 करोड़** के अतिरिक्त निवेश को मंजूरी दे दी है, जिसकी घोषणा सरकार ने सोमवार को की।

- The decision itself was taken last week, it said.

सरकार ने कहा कि यह निर्णय पिछले सप्ताह ही लिया गया था।

- This would take the government's total commitment in **NIIF** to **₹60,000 crore**.

इससे **NIIF** में सरकार की कुल प्रतिबद्धता **₹60,000 करोड़** हो जाएगी।

- The **NIIF** is India's **sovereign anchored fund**, in which the **Government of India** is a **49% shareholder**.

NIIF भारत का **सॉवरेन एंकर्ड फंड** है, जिसमें **भारत सरकार** की **49% हिस्सेदारी** है।

- It currently manages capital commitments of about **₹40,000 crore** across its funds and investment strategies, the government said.

सरकार ने कहा कि वर्तमान में यह अपने विभिन्न फंडों और निवेश रणनीतियों के अंतर्गत लगभग **₹40,000 करोड़** की पूंजी प्रतिबद्धताओं का प्रबंधन करता है।

- "We are grateful for this allocation of **₹30,000 crore**, which is a strong reaffirmation of **Government** support to **NIIF** and reinforces the catalytic capital model that has defined **NIIF** since inception," **Sanjiv Aggarwal**, **Managing Director and CEO of NIIF** said.

NIIF के **प्रबंध निदेशक एवं मुख्य कार्यकारी अधिकारी (CEO) संजीव अग्रवाल** ने कहा, "हम **₹30,000 करोड़**

के इस आवंटन के लिए आभारी हैं, जो **NIIF** के प्रति **सरकार** के समर्थन की मजबूत पुनर्पुष्टि है और स्थापना के समय से **NIIF** की पहचान रहे उत्प्रेरक पूंजी मॉडल को और सुदृढ़ करता है।"

- **New fund**
- **नया फंड**
- According to a release by **NIIF**, this additional allocation from the government will help **NIIF** raise larger funds, attract investors across geographies, and deepen its presence in key sectors of the economy.
  NIIF द्वारा जारी विज्ञप्ति के अनुसार, सरकार से प्राप्त यह अतिरिक्त आवंटन **NIIF** को बड़े फंड जुटाने, विभिन्न भौगोलिक क्षेत्रों से निवेशकों को आकर्षित करने तथा अर्थव्यवस्था के प्रमुख क्षेत्रों में अपनी उपस्थिति को और मजबूत करने में सहायता करेगा।
- The government said that this additional investment of **₹30,000 crore** will be used to set up **NIIF's second infrastructure focussed fund**, the successor to its first flagship fund with this mandate.
  सरकार ने कहा कि **₹30,000 करोड़** का यह अतिरिक्त निवेश **NIIF** के दूसरे **अवसंरचना-केंद्रित फंड** की स्थापना के लिए उपयोग किया जाएगा, जो इस उद्देश्य वाले उसके पहले प्रमुख फंड का उत्तराधिकारी होगा।
- "**NIIF Infrastructure Fund II** is proposed to have a target corpus of close to **₹30,000 crore** and is expected to undertake investments across **transportation, energy, digital infrastructure**, and emerging areas such as **urban infrastructure** and **e-mobility**," the government release said.
  सरकारी विज्ञप्ति में कहा गया कि **NIIF Infrastructure Fund II** का प्रस्तावित लक्ष्य कोष लगभग **₹30,000 करोड़** होगा और इसके माध्यम से **परिवहन, ऊर्जा, डिजिटल अवसंरचना** तथा **शहरी अवसंरचना** एवं **ई-मोबिलिटी** जैसे उभरते क्षेत्रों में निवेश किए जाने की अपेक्षा है।
- It added that the allocation will also support **NIIF's** new fund strategies and upcoming **bilateral** and **strategic funds**.
  विज्ञप्ति में यह भी कहा गया कि यह आवंटन **NIIF** की नई फंड रणनीतियों तथा आगामी **द्विपक्षीय** और **रणनीतिक फंडों** को भी समर्थन प्रदान करेगा।
- "Over the past decade, **GoI's anchor commitment** has enabled us to build a very strong institutional investor base, spanning leading **sovereign wealth funds, pension funds, multilateral and bilateral institutions**, and domestic **financial institutions**," **Mr. Aggarwal** added.
  श्री अग्रवाल ने आगे कहा, "पिछले एक दशक में **भारत सरकार की एंकर प्रतिबद्धता** ने हमें एक अत्यंत मजबूत संस्थागत निवेशक आधार विकसित करने में सक्षम बनाया है, जिसमें प्रमुख **सॉवरेन वेल्थ फंड, पेंशन फंड, बहुपक्षीय एवं द्विपक्षीय संस्थान** तथा घरेलू **वित्तीय संस्थान** शामिल हैं।"

FPIs pour in a record ₹53,300 cr. to compensate for debt equity exit

GS III: Economy

MUMBAI

Foreign Institutional Investors (FII) poured a record ₹53,363 crore in all types of debt securities to compensate for a near equal amount sold in equities in June 2026. This led to a net inflow of about ₹334 crore in all instruments, according to data from NSDL.

Debt security investments are classified into General Limit, Voluntary Retention Route (VRR) and Fully Accessible Route (FAR) – a large section of which could be attributed to government securities.

Inflows in the General Limit and Fully Accessible Route (FAR) came in at ₹28,196 and ₹21,788 crore in June 2026. FAR bond investments were up five times and General Limit investments increased from an outflow of ₹100 crore last month. The increase in inflows comes weeks after the Ministry of Finance exempted government securities from long-term capital gains and increased the tenors of bonds in the FAR category in a bid to deepen bond markets. The move also comes at a time when the overall foreign investor behaviour leans towards aversion to the Indian markets, largely due to sub-par returns in equities owing to higher valuations and a depreciated rupee. Equity outflow, however, continued for the fourth consecutive month to ₹51,456 crore in June 2026. In the past six months put together, equity outflows alone were ₹2.76 lakh crore.

30J6. FPIs pour in a record ₹53,300 cr. to compensate for debt equity exit
ऋण और इक्विटी से निकासी की भरपाई के लिए FPI ने रिकॉर्ड ₹53,300 करोड़ का निवेश किया।

- This led to a net **inflow** of about **₹334 crore** in all instruments, according to data from **NSDL**.
  NSDL के आंकड़ों के अनुसार, इससे सभी निवेश साधनों में लगभग **₹334 करोड़** का शुद्ध **प्रवाह (Inflow)** दर्ज किया गया।
- **Debt security** investments are classified into **General Limit**, **Voluntary Retention Route (VRR)** and **Fully Accessible Route (FAR)** — a large section of which could be attributed to **government securities**.
  ऋण प्रतिभूति (Debt Security) में निवेश को **जनरल लिमिट (General Limit)**, **स्वैच्छिक प्रतिधारण मार्ग (Voluntary Retention Route- VRR)** और **पूर्णतः सुलभ मार्ग (Fully Accessible Route- FAR)** में वर्गीकृत किया जाता है, जिनका एक बड़ा हिस्सा **सरकारी प्रतिभूतियों (Government Securities)** से संबंधित हो सकता है।
- The increase in **inflows** comes weeks after the **Ministry of Finance** exempted **government securities** from **long-term capital gains** and increased the **tenors of bonds** in the **FAR** category in a bid to deepen **bond markets**.
  निवेश प्रवाह (Inflows) में यह वृद्धि **वित्त मंत्रालय** द्वारा **सरकारी प्रतिभूतियों** को **दीर्घकालिक पूंजीगत लाभ (Long-Term Capital Gains)** से छूट देने तथा **FAR** श्रेणी में **बॉन्ड की अवधि (Tenors of Bonds)** बढ़ाने के कुछ सप्ताह बाद हुई है, जिसका उद्देश्य **बॉन्ड बाजारों** को और गहरा बनाना है।
- The move also comes at a time when the overall **foreign investor** behaviour leans towards aversion to the **Indian markets**, largely due to **sub-par returns** in **equities** owing to **higher valuations** and a **depreciated rupee**.
  यह कदम ऐसे समय आया है जब समग्र रूप से **विदेशी निवेशकों** का रुझान **भारतीय बाजारों** से दूरी बनाने की ओर है, जिसका प्रमुख कारण **उच्च मूल्यांकन (Higher Valuations)** तथा **कमज़ोर रुपये (Depreciated Rupee)** के कारण **इक्विटी** में **औसत से कम प्रतिफल (Sub-par Returns)** है।

U.S. firm Signa forays into India, to curb counterfeiters with AI

GS III: Economy

Lalatendu Mishra
MUMBAI

U.S.-based brand protection and investigations firm Signa Techlaw Corp. has entered the Indian market, marking its first expansion into the Asia-Pacific region. Established in 2023 by Daniel Estrada and Andrés Argoti, the company combines artificial intelligence with investigative expertise to detect counterfeit products, unauthorized sellers, and illicit trade networks across digital and physical marketplaces.

Industry reports have consistently identified China, India, and Turkey as some of the world's largest sources of counterfeit goods, underlining the scale of the global challenge

Mr. Estrada, who has served as a reserve police lieutenant attached to crime investigations and Interpol, aims to position Signa as a technology-driven platform supporting international organizations in tackling illicit trade originating from these regions.

"The problem is no longer limited to luxury goods or fashion accessories. Counterfeit medicines, cosmetics, food items, and alcoholic beverages are increasingly reaching consumers, posing significant risks to public health and safety," Daniel Estrada,

On a mission: Founder and Chief Executive Officer Daniel Estrada, left, with co-founder Andrés Argoti. BY ARRANGEMENT

Founder and Chief Executive Officer of Signa, said in an interview.

"Today, the largest counterfeit marketplace is no longer a traditional street market–it is online. As consumers increasingly shop digitally, counterfeiters have followed them," he emphasised.

India's counterfeit trade is rapidly shifting to digital platforms, with e-commerce websites and social media emerging as key distribution channels, he added.

According to the ASPA-CRISIL State of Counterfeiting in India 2025 report, online platforms account for 53% of counterfeit purchases, while nearly 89% of urban Indian consumers have unknowingly or knowingly purchased counterfeit products at least once.

Signa's technology platform collects intelligence including seller identities, payment information, phone numbers, and location data to assist investigations and enforcement agencies.

The company is currently working with more than 32 brands across 12 countries and has identified counterfeit products worth over $150 million globally, and has supported enforcement actions safeguarding products valued at more than $40 million, it said.

With India's digital economy expanding rapidly and online shopping becoming mainstream, brand protection is expected to become an even greater priority for businesses.

Signa plans to initially focus on sectors such as pharmaceuticals, healthcare, cosmetics, food, and beverages, where counterfeit products can have serious consequences for consumer safety. Later, it will foray into garments and lifestyle segments.

The company is already supporting global clients including Procter & Gamble, Roche, Diageo, and several multinational pharmaceutical and spirits companies operating in India.

It is also collaborating with investigators, law firms, and enforcement authorities while strengthening its local presence. Additionally, Signa is developing a WhatsApp-based verification tool that will enable consumers and authorities to authenticate products simply by sharing a photograph.

The company's infrastructure runs on AWS, where it uses Amazon DynamoDB as its primary operational database and event-driven serverless services to process millions of data points efficiently.

"On the AI side, we leverage OpenAI's models together with our own proprietary detection and investigation pipelines to identify counterfeit products, analyse evidence, and automate complex enforcement workflows across marketplaces, social media, and the open web," co-founder Andrés Argoti said.

30J6. U.S. firm Signa forays into India, to curb counterfeiters with AI
अमेरिकी कंपनी Signa ने AI की मदद से जालसाजों पर रोक लगाने के लिए भारत में प्रवेश किया।

- **U.S.-based** brand protection and investigations firm **Signa Techlaw Corp.** has entered the **Indian market**, marking its first expansion into the **Asia-Pacific region**.
  अमेरिका स्थित ब्रांड सुरक्षा और जांच कंपनी **Signa Techlaw Corp.** ने **भारतीय बाजार** में प्रवेश किया है, जो **एशिया-प्रशांत क्षेत्र** में उसका पहला विस्तार है।
- Established in **2023** by **Daniel Estrada** and **Andrés Argoti**, the company combines **artificial intelligence** with investigative expertise to detect **counterfeit products**, **unauthorized sellers**, and **illicit trade networks** across digital and physical marketplaces.
  2023 में **डेनियल एस्ट्राडा** और **एंड्रेस आर्गोटी** द्वारा स्थापित यह कंपनी **कृत्रिम बुद्धिमत्ता (Artificial Intelligence)** को जांच संबंधी विशेषज्ञता के साथ जोड़कर डिजिटल और भौतिक बाजारों में **नकली उत्पादों**, **अनधिकृत विक्रेताओं** तथा **अवैध व्यापार नेटवर्कों** की पहचान करती है।
- Industry reports have consistently identified **China**, **India**, and **Turkey** as some of the world's largest sources of **counterfeit goods**, underlining the scale of the global challenge.
  उद्योग संबंधी रिपोर्टों ने लगातार **चीन**, **भारत** और **तुर्किये** को विश्व में **नकली वस्तुओं** के सबसे बड़े स्रोतों में शामिल बताया है, जो इस वैश्विक चुनौती के व्यापक स्तर को रेखांकित करता है।
- **Mr. Estrada**, who has served as a **reserve police lieutenant** attached to crime investigations and **Interpol**, aims to position **Signa** as a technology-driven platform supporting international organizations in tackling illicit trade originating from these regions.
  श्री एस्ट्राडा, जिन्होंने अपराध जांच और **इंटरपोल (Interpol)** से जुड़े **रिजर्व पुलिस लेफ्टिनेंट** के रूप में कार्य किया है, **Signa** को एक प्रौद्योगिकी-आधारित मंच के रूप में स्थापित करना चाहते हैं, जो इन क्षेत्रों से उत्पन्न **अवैध व्यापार** से निपटने में अंतरराष्ट्रीय संगठनों की सहायता करे।
- "The problem is no longer limited to **luxury goods** or **fashion accessories**.
  "यह समस्या अब केवल **लक्ज़री वस्तुओं** या **फैशन एक्सेसरीज़** तक सीमित नहीं रह गई है।
- **Counterfeit medicines**, **cosmetics**, **food items**, and **alcoholic beverages** are increasingly reaching consumers, posing significant risks to **public health** and **safety**," **Daniel Estrada**, **Founder** and **Chief Executive Officer** of **Signa**, said in an interview.
  नकली दवाइयाँ, **कॉस्मेटिक्स**, **खाद्य पदार्थ** और **मादक पेय पदार्थ** तेजी से उपभोक्ताओं तक पहुँच रहे हैं, जिससे **सार्वजनिक स्वास्थ्य** और **सुरक्षा** के लिए गंभीर खतरे उत्पन्न हो रहे हैं," **Signa** के **संस्थापक** एवं **मुख्य कार्यकारी अधिकारी डेनियल एस्ट्राडा** ने एक साक्षात्कार में कहा।
- "Today, the largest **counterfeit marketplace** is no longer a traditional street market—it is **online**.
  "आज सबसे बड़ा **नकली वस्तुओं का बाजार** कोई पारंपरिक सड़क बाजार नहीं, बल्कि **ऑनलाइन** है।
- As consumers increasingly shop digitally, counterfeiters have followed them," he emphasised.
  उन्होंने जोर देते हुए कहा कि जैसे-जैसे उपभोक्ता डिजिटल माध्यम से खरीदारी कर रहे हैं, वैसे-वैसे नकली उत्पाद बेचने वाले भी उसी दिशा में बढ़ गए हैं।
- **India's counterfeit trade** is rapidly shifting to **digital platforms**, with **e-commerce websites** and **social media** emerging as key distribution channels, he added.
  उन्होंने कहा कि **भारत का नकली उत्पाद व्यापार** तेजी से **डिजिटल प्लेटफॉर्मों** की ओर बढ़ रहा है, जहाँ **ई-कॉमर्स वेबसाइटें** और **सोशल मीडिया** प्रमुख वितरण माध्यम बनकर उभर रहे हैं।
- According to the **ASPAC-CRISIL State of Counterfeiting in India 2025** report, **online platforms** account for **53%** of counterfeit purchases, while nearly **89%** of urban Indian consumers have unknowingly or knowingly purchased counterfeit products at least once.
  ASPAC-CRISIL State of Counterfeiting in India 2025 रिपोर्ट के अनुसार, **ऑनलाइन प्लेटफॉर्म** नकली वस्तुओं की **53%** खरीद के लिए जिम्मेदार हैं, जबकि लगभग **89%** शहरी भारतीय उपभोक्ताओं ने जानबूझकर या अनजाने में कम-से-कम एक बार नकली उत्पाद खरीदे हैं।
- **Signa's** technology platform collects intelligence including **seller identities**, **payment information**, **phone numbers**, and **location data** to assist investigations and enforcement agencies.

Signa का प्रौद्योगिकी मंच **विक्रेताओं की पहचान**, **भुगतान संबंधी जानकारी**, **फोन नंबर** तथा **स्थान संबंधी डेटा** जैसी सूचनाएँ एकत्र करता है, जिससे जांच एवं प्रवर्तन एजेंसियों को सहायता मिलती है।

- The company is currently working with more than **32 brands** across **12 countries** and has identified counterfeit products worth over **$150 million** globally, and has supported enforcement actions safeguarding products valued at more than **$40 million**, it said.
  कंपनी ने कहा कि वह वर्तमान में **12 देशों** में **32 से अधिक ब्रांडों** के साथ कार्य कर रही है तथा वैश्विक स्तर पर **150 मिलियन डॉलर** से अधिक मूल्य के नकली उत्पादों की पहचान कर चुकी है और **40 मिलियन डॉलर** से अधिक मूल्य के उत्पादों की सुरक्षा सुनिश्चित करने वाले प्रवर्तन अभियानों में सहयोग कर चुकी है।
- With **India's digital economy** expanding rapidly and **online shopping** becoming mainstream, **brand protection** is expected to become an even greater priority for businesses.
  भारत की डिजिटल अर्थव्यवस्था के तेजी से विस्तार और **ऑनलाइन खरीदारी** के मुख्यधारा बनने के साथ, **ब्रांड सुरक्षा** व्यवसायों के लिए और भी अधिक महत्वपूर्ण प्राथमिकता बनने की अपेक्षा है।
- **Signa** plans to initially focus on sectors such as **pharmaceuticals**, **healthcare**, **cosmetics**, **food**, and **beverages**, where counterfeit products can have serious consequences for **consumer safety**.
  Signa प्रारंभिक रूप से **फार्मास्यूटिकल्स**, **स्वास्थ्य सेवा**, **कॉस्मेटिक्स**, **खाद्य पदार्थ** तथा **पेय पदार्थों** जैसे क्षेत्रों पर ध्यान केंद्रित करने की योजना बना रही है, जहाँ नकली उत्पाद **उपभोक्ता सुरक्षा** के लिए गंभीर परिणाम उत्पन्न कर सकते हैं।
- Later, it will foray into **garments** and **lifestyle** segments.
  बाद में कंपनी **परिधान** और **लाइफस्टाइल** क्षेत्रों में भी प्रवेश करेगी।
- The company is already supporting global clients including **Procter & Gamble**, **Roche**, **Diageo**, and several multinational **pharmaceutical** and **spirits** companies operating in India.
  कंपनी पहले से ही **Procter & Gamble**, **Roche**, **Diageo** तथा भारत में कार्यरत कई बहुराष्ट्रीय **फार्मास्यूटिकल** और **स्पिरिट्स** कंपनियों सहित वैश्विक ग्राहकों को सेवाएँ प्रदान कर रही है।
- It is also collaborating with **investigators**, **law firms**, and **enforcement authorities** while strengthening its local presence.
  यह अपने स्थानीय नेटवर्क को मजबूत करने के साथ-साथ **जांचकर्ताओं**, **विधि फर्मों** और **प्रवर्तन प्राधिकरणों** के साथ भी सहयोग कर रही है।
- Additionally, **Signa** is developing a **WhatsApp-based verification tool** that will enable consumers and authorities to authenticate products simply by sharing a photograph.
  इसके अतिरिक्त, **Signa** एक **WhatsApp-आधारित सत्यापन उपकरण** विकसित कर रही है, जिसके माध्यम से उपभोक्ता और प्राधिकरण केवल एक फोटो साझा करके उत्पादों की प्रामाणिकता की पुष्टि कर सकेंगे।
- The company's infrastructure runs on **AWS**, where it uses **Amazon DynamoDB** as its primary operational database and **event-driven serverless services** to process millions of data points efficiently.
  कंपनी का अवसंरचना तंत्र **AWS** पर संचालित होता है, जहाँ यह **Amazon DynamoDB** को अपने मुख्य परिचालन डेटाबेस के रूप में तथा **इवेंट-ड्रिवेन सर्वरलेस सेवाओं** का उपयोग लाखों डेटा बिंदुओं के कुशल प्रसंस्करण के लिए करती है।
- "On the **AI** side, we leverage **OpenAI's models** together with our own proprietary detection and investigation pipelines to identify counterfeit products, analyse evidence, and automate complex enforcement workflows across marketplaces, social media, and the open web," co-founder **Andrés Argoti** said.
  सह-संस्थापक **एंड्रेस आर्गोटी** ने कहा, "**कृत्रिम बुद्धिमत्ता (AI)** के क्षेत्र में हम **OpenAI के मॉडलों** के साथ अपनी स्वामित्वयुक्त पहचान एवं जांच प्रणालियों का उपयोग करते हैं, ताकि नकली उत्पादों की पहचान की जा सके, साक्ष्यों का विश्लेषण किया जा सके तथा मार्केटप्लेस, सोशल मीडिया और खुले वेब पर जटिल प्रवर्तन प्रक्रियाओं को स्वचालित बनाया जा सके।"

Scientists test cockatoos to see if animals understand death

In a 2020 paper with cognitive scientist Antonio J. Osuna-Mascaró, philosopher Susana Monsó argued that two forms of anthropocentrism — the belief that human beings are superior to all others — undergird humans' reluctance to acknowledge ability of animals to understand death

GS III: S&T

Sayantan Datta

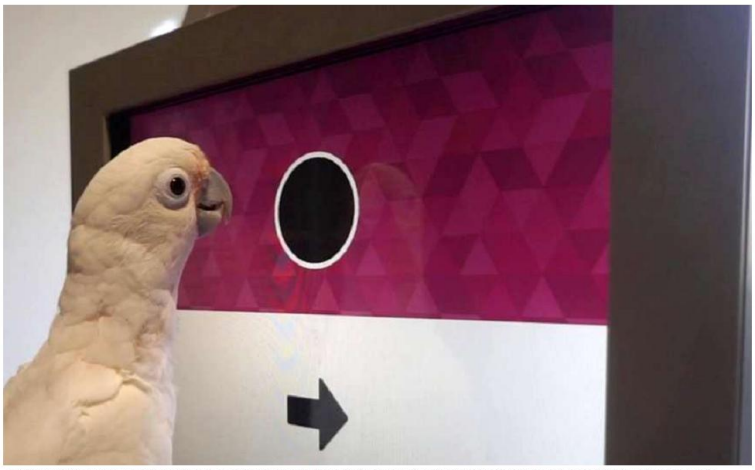
One day in 2025, Jane perched facing a computer screen. The screen's top half displayed a black circle on a magenta background. The bottom half had a black arrow on white. After what appeared to be a moment of deliberation, Jane extended her neck and touched the circle. Small pellets of food appeared in the tray before her. Then, the magenta was replaced by green.

When she touched the circle this time, the screen flashed a bright red before reverting to green. This time, no food appeared. Jane looked at the screen, checked the tray, and looked at the screen again. Then, she touched the arrow. A new background appeared, and with that came the renewed possibility of obtaining more food.

Jane is a Goffin's cockatoo housed at the Messerli Research Institute, University of Veterinary Medicine (UVM), Vienna. With 14 of her peers, she has helped researchers demonstrate that the parrots can recognise and adapt to permanent non-functionality – the notion of something that previously worked ceasing to be functional in a specific context.

This might be the first step in testing experimentally whether an animal has the cognitive requirements to understand death, according to the researchers who conducted the study, published in *Scientific Reports* earlier this month.

But before that, people have to redefine what it means to understand death.



Jane is a Goffin's cockatoo housed at the Messerli Research Institute. With 14 of her peers, she has helped researchers demonstrate that the parrots can recognise and adapt to the notion of something that previously worked ceasing to be functional in a specific context. ANTONIO J. OSUNA MASCARÓ

'Minimal death'

For many philosophers and anthropologists, the ability to understand death has been a defining feature of humanity. For example, the German philosopher Martin Heidegger declared in a 1939 seminar that "mortals are they who can experience death as death. Animals cannot do this."

"Only man dies. The animal perishes," he added in his 1971 book *Poetry, Language, Thought*. By that, he meant that only human beings possessed the ability to understand death's significance.

Philosopher Susana Monsó, associate professor at the National University of Distance Education, Madrid, disagreed. In a 2020 paper with UVM cognitive scientist Antonio J. Osuna-Mascaró, she argued that two forms of anthropocentrism – the belief that human beings are superior to all others – undergird humans' reluctance to acknowledge animals' ability to understand death.

One: the framing of death as an abstract concept, "as something that we know will inevitably befall all of us, but which we cannot point to or perceive with any of our senses." The duo called this intellectual anthropocentrism. The second they called emotional anthropocentrism: "the excessive focus on grief as a reaction to death".

These might be the reasons why existing accounts of animals' reactions to their kin's deaths are limited to those deemed exceptionally intelligent – chimpanzees, elephants, orcas, and crows – and focus overtly on their human-like displays of grief and rituals.

Instead, Dr. Monsó proposed in 2019 the "minimal concept of death": the bare minimum that would be required for an animal to understand what happens when an individual dies.

"It does not require a human-like concept of eternity, or a sophisticated understanding that another individual's mind is gone," Dr. Osuna-Mascaró, her collaborator, explained. "It requires only that an animal recognise death as the irreversible loss of the characteristic functions of a living body," he added.

Recognising permanent non-functionality would be one of the cognitive components relevant to such an understanding.

Testing the bird

While Dr. Monsó thought about how they could test animals' ability to recognise and adapt to permanent non-functionality, Dr. Osuna-Mascaró and his colleagues' work had already shown that Goffin's cockatoos are able to recognise and discard non-functional tools.

"So they were a great candidate species for testing whether animals can understand when something is irreversibly broken," Dr. Monsó said.

To test whether Goffin's cockatoos could comprehend permanent non-functionality, the team designed a touchscreen-based task. They trained parrots to learn that if they touched the round button on the screen, they received a food reward. The parrots could also touch an arrow to proceed to the next trial.

Then, the researchers tested the birds on a slightly more complex task. At times, when the birds touched the round button, the screen would flash and the button would stop working – but only against a particular background. Against other backgrounds, the button still worked.

> It does not require a human-like concept of eternity, or a sophisticated understanding that another individual's mind is gone
>
> ANTONIO J. OSUNA-MASCARÓ
> Cognitive scientist

The question was whether the cockatoos could learn more than "this button no longer works," Dr. Osuna-Mascaró explained.

In fact, they had to learn that a flashing event meant that the "particular context was no longer useful", he added.

Further, the cockatoos had to distinguish the non-functional background from new ones in later trials.

The researchers found that as the trials proceeded, the cockatoos learned to skip the backgrounds in which the button had stopped working. However, they continued to touch it when it appeared against other backgrounds.

That is, "they had not simply lost trust in the touchscreen, but were adjusting their behaviour to the specific context," Dr. Osuna-Mascaró said.

Thus, they concluded the cockatoos had "acquired flexible sensitivity to permanent non-functionality," the authors wrote in their paper.

'One cognitive capacity'

Some birds reacted strongly to the button's dysfunction. Rose, a juvenile female, called out in a manner typically used to obtain food or attention. Renki, a juvenile male, displayed aggression.

Even though these displays were not a part of the study's analysis, they "made the task feel very real from the birds' perspective. Something that had just worked suddenly no longer did," Eleonora Rovegno, one of the study's lead authors, said.

That said, all (independent) animal cognition researchers this reporter spoke to were reluctant to take this as evidence for cockatoos' understanding of death – minimal or otherwise.

While calling the study "cool" and worthy of applause, Anindita Bhadra, professor of biology at the Indian Institute of Science Education and Research, Kolkata, cautioned that the "study shows only that the cockatoos can learn the non-permanence of rewards and cues."

Dr. Bhadra works on the social lives of free-ranging dogs.

"Being able to recognise non-permanence of inanimate objects is very different from understanding non-permanence of a living being," she added. "Food rewards are very different from social interactions with other individuals."

Similarly, Anindya Sinha, a cognitive ethologist and professor at the National Institute of Advanced Studies, Bengaluru,, said the cockatoos' actions are "truly significant in terms of their mechanical problem-solving abilities" but added that there is still "no empirical evidence yet of any conceptualisation of inactivity following the death of a living being".

Dr. Osuna-Mascaró agreed that the study "does not show that cockatoos understand death." However, he added, "it does suggest that they possess at least one cognitive capacity that contributes to such an understanding."

30J6. Scientists test cockatoos to see if animals understand death
वैज्ञानिक यह जानने के लिए कॉकाटू पक्षियों का परीक्षण कर रहे हैं कि क्या पशु मृत्यु को समझते हैं

- For example, the German philosopher **Martin Heidegger** declared in a **1939** seminar that "mortals are they who can experience death as death. Animals cannot do this."
  उदाहरण के लिए, जर्मन दार्शनिक **मार्टिन हाइडेगर** ने **1939** के एक संगोष्ठी में कहा था कि "नश्वर वही हैं जो मृत्यु को मृत्यु के रूप में अनुभव कर सकते हैं। **पशु** ऐसा नहीं कर सकते।"
- "Only man dies. The animal perishes," he added in his **1971** book **Poetry, Language, Thought**.
  उन्होंने अपनी **1971** की पुस्तक **Poetry, Language, Thought** में आगे कहा, "केवल मनुष्य मरता है। पशु केवल नष्ट हो जाता है।"
- In a **2020** paper with **UVM** cognitive scientist **Antonio J. Osuna-Mascaró**, she argued that two forms of **anthropocentrism** — the belief that **human beings** are superior to all others — undergird humans' reluctance to acknowledge animals' ability to understand **death**.
  उन्होंने **2020** में **UVM** के संज्ञानात्मक वैज्ञानिक **एंटोनियो जे. ओसुना-मास्कारो** के साथ प्रकाशित शोधपत्र में तर्क दिया कि **मानव-केंद्रितता (Anthropocentrism)** के दो रूप—अर्थात यह विश्वास कि **मनुष्य** सभी अन्य जीवों से श्रेष्ठ है—मनुष्यों द्वारा **पशुओं** की **मृत्यु** को समझने की क्षमता स्वीकार न करने के मूल कारण हैं।
- One: the framing of **death** as an **abstract concept**, "as something that we know will inevitably befall all of us, but which we cannot point to or perceive with any of our senses."
  पहला कारण **मृत्यु** को एक **अमूर्त अवधारणा (Abstract Concept)** के रूप में प्रस्तुत करना है, अर्थात् ऐसी घटना जिसे हम जानते हैं कि वह सभी के साथ घटेगी, किन्तु जिसे हम अपनी किसी भी इंद्रिय से प्रत्यक्ष रूप से अनुभव नहीं कर सकते।
- The duo called this **intellectual anthropocentrism**.
  दोनों शोधकर्ताओं ने इसे **बौद्धिक मानव-केंद्रितता (Intellectual Anthropocentrism)** कहा।
- The second they called **emotional anthropocentrism**: "the excessive focus on **grief** as a reaction to **death**".
  दूसरे रूप को उन्होंने **भावनात्मक मानव-केंद्रितता (Emotional Anthropocentrism)** कहा, अर्थात् **मृत्यु** के प्रति प्रतिक्रिया के रूप में केवल **शोक** पर अत्यधिक बल देना।
- These might be the reasons why existing accounts of animals' reactions to their kin's **deaths** are limited to those deemed exceptionally intelligent — **chimpanzees, elephants, orcas, and crows** — and focus overtly on their human-like displays of **grief** and **rituals**.
  संभवतः यही कारण है कि अपने समूह के सदस्यों की **मृत्यु** पर **पशुओं** की प्रतिक्रियाओं से जुड़े अधिकांश विवरण केवल अत्यधिक बुद्धिमान माने जाने वाले **चिंपैंज़ी, हाथी, ऑर्का और कौए** जैसे जीवों तक सीमित हैं तथा उनमें मानव-सदृश **शोक** और **अनुष्ठानों** पर विशेष बल दिया जाता है।
- "It requires only that an **animal** recognise **death** as the irreversible loss of the characteristic functions of a **living body**," he added.
  उन्होंने आगे कहा कि इसके लिए केवल इतना आवश्यक है कि कोई **पशु** **मृत्यु** को एक **जीवित शरीर** की विशिष्ट क्रियाओं के अपरिवर्तनीय रूप से समाप्त हो जाने के रूप में पहचान सके।

It's a bad idea to scratch a bug bite, research says

GS III: S&T

Associated Press

A lot of things can cause itchiness, sometimes serious diseases. Whatever the cause, doctors have long warned that scratching too much can damage the skin. Now researchers better understand why even a mildly annoying itch could put you on an itch-and-scratch cycle if you give in.

How did they find out? In part by putting tiny "cones of shame" onto mice to uncover what happens on a cellular level when an itch gets scratched – or left alone. They also gained insight into why a good scratch at least at first brings a sigh of relief. After all, not just people and other mammals scratch, even fish do. The commonality suggests there must be some evolutionary reason and the mouse experiment hints at a little germ protection – but still not a reason to scratch.

Daniel Kaplan, a University of Pittsburgh dermatologist whose lab studies immune reactions in skin, was exploring a run-of-the-mill type of itch called allergic contact dermatitis, caused

Normal mice scratched and inflammatory immune cells rushed to the site, increasing swelling. The rash was much milder in mice bred with defective itch-sensing nerve cells

by irritants such as poison ivy or nickel in jewellery.

Kaplan's research team put a rash-inducing irritant on the ears of mice. Normal mice scratched and inflammatory immune cells rushed to the site, increasing swelling. The rash was much milder in mice bred with defective itch-sensing nerve cells. But was the difference really the scratching?

Normal mice put into collars like those veterinary "cones of shame" so they itched but couldn't scratch gave the answer: They, too, had much less swelling and fewer inflammatory cells.

Kaplan said that evidence matches people's everyday experiences that scratching really can make things worse.

Ignore a mosquito bite and the itch is "gone in five or 10 minutes for most people," he said. "But if you start scratching it, it's your friend for a week," getting itchier and more inflamed.

To understand what was happening in the skin, Kaplan's team took a deeper look at mast cells, among the immune system's first responders. When called into action, they release compounds that can help fight germs or toxins – or, through a compound called histamine, trigger itchy allergic reactions.

Scientists have long known that allergens can activate mast cells. But other signals can summon mast cells, too, including pain. And when we scratch, "we tend to scratch until it starts to hurt," Kaplan noted.

Pain-sensing nerve cells release a chemical messenger called substance P. In findings published last year, Kaplan's team reported that substance P can activate mast cells through a different molecular pathway than allergens do – a double whammy that explains why scratching further inflames itchy rashes or bites.

If we experience pain like touching a hot stove, we'll learn not to do that again. Yet relief from a good scratch, in evolutionary terms, is positive feedback.

One long-held theory is that it may help creatures slough off parasites like fleas or mites. But Kaplan also was intrigued by other labs' findings that mast cells could fend off a common type of skin bacteria called *Staphylococcus aureus*. Sure enough, mice who scratched had lower levels of that germ on their ears, maybe because of the extra inflammation or some other mast cell-related compound.

Radio-tagged white-rumped vulture electrocuted

GS III: Environment

Rohan Premkumar
UDHAGAMANDALAM

A captive-bred, radio-tagged white-rumped vulture (*Gyps bengalensis*) that was released earlier this year at the Mudumalai Tiger Reserve in Nilgiris district of Tamil Nadu was electrocuted on Sunday.

The bird came into contact with a power line and was killed at Ebbanad village overlooking the Sigur plateau, Forest Department officials said.

The bird, initially released in the Tadoba-Andhari Tiger Reserve in Maharashtra in December 2025, made its way into Karnataka, where it had to be captured and treated after showing signs of illness.

In April, the Bombay Natural History Society (BNHS) and the Karnataka Forest Department had discussions with their counterparts in Tamil Nadu and received permission to release the bird in the Mudumalai Tiger Reserve, which is home to the last sizeable population of white-rumped vultures in South India.

The radio-tagged vulture that was electrocuted on Sunday. M. SATHYAMOORTHY.

Failed to acclimatise

Foresters hoped the bird would associate with other vultures and acclimatise to the region. However, officials said the release proved to be more difficult than expected, with the vulture failing to acclimatise to its new surroundings and embarking on exploratory forays around the tiger reserve, including to Gudalur, and later up the slopes towards Kalhatty and Ebbanad.

"We had captured the bird multiple times and released it into the Sigur, hoping it would acclimatise," said R. Kiruba Shankar, Field Director of Mudumalai Tiger Reserve.

However, on Sunday, during one the bird's explorations of Ebbanad in the Nilgiris forest division, it came into contact with a power line and was killed, officials from the forest department confirmed.

The death of the vulture has signalled the end of the first attempted reintroduction of a captively-bred bird of the species into the landscape and could have consequences for conservation policies in the future.

Identifying threats

"There have long been calls for captive-bred birds to be released into Mudumalai to bolster populations. With this reintroduction having failed, steps must be taken to identify why the bird was unable to adapt and also to identify the threats to the endangered species, such as power lines which have led to multiple vulture deaths in the region over the last few years," said a conservationist from the Nilgiris.

S. Bharathidasan, secretary of Arulagam, a conservation NGO working on protecting vultures in the region, said power lines that cross through vulture habitats need to be reinforced with bunch-cabling and need to be insulated to prevent birds and other wildlife from being accidentally electrocuted.

"We will have discussions with the BNHS and other researchers to understand the reasons for why this particular bird was unable to acclimatise and adapt. We will also find out if the other captive-bred birds released in other parts too have faced similar challenges," said Mr. Kiruba Shankar.

Besides, The Forest Department is would also looking into the possibility of adapting power infrastructure in the region towards minimising threats to avian species, such as installing bird diverters on transmission lines.

Surveillance boost: Army to raise 'Baaz Battalions'

GS III: Internal Security

The Hindu Bureau
NEW DELHI

The Indian Army is raising dedicated 'Baaz Battalions' to significantly enhance its Remotely Piloted Aircraft (RPA) capability, a move aimed at strengthening battlefield surveillance, intelligence gathering and rapid response through a specialised drone force, defence sources said.

Sources in the Indian Army have confirmed the development and said that the new battalions will be built upon the Army's existing RPA Flights and will comprise a specialist pool of trained personnel responsible for operating and managing Remotely Piloted Aircraft systems.

The initiative is intended to bolster the Army's Intelligence, Surveillance and Reconnaissance (ISR) capabilities by providing integrated aerial surveillance, persistent battlefield awareness and improved situational awareness for frontline formations.

The Baaz Battalions will centralise the Army's expanding drone capabilities and will be designed to handle the entire lifecycle of RPA operations, including deployment, maintenance, data exploitation and seamless integration with ground forces.

30J6. Surveillance boost: Army to raise 'Baaz Battalions' निगरानी क्षमता में वृद्धि: सेना 'बाज़ बटालियनों' का गठन करेगी।

What India's 12 'operationally deployed' nuclear warheads really mean

SIPRI's latest assessment shows the maturation of India's second-strike capability rather than a shift away from its long-standing 'no first use' doctrine; the development comes amid a broader global trend of nuclear modernisation and weakening arms-control frameworks

GS III: Internal Security: Defence

The Stockholm International Peace Research Institute (SIPRI) released its annual yearbook in June. For the first time, it classified 12 of India's estimated stockpile of 190 nuclear warheads to be operationally deployed, i.e., positioned with active military forces mated with delivery systems and ready for use.

This sounds alarming – but the alarm itself may not be warranted. The reason is that India has neither crossed a strategic threshold nor has it abandoned its decades-old 'no first use' policy.

India's promise

India's 'no first use' (NFU) policy is a pillar of its nuclear doctrine and its credible minimum deterrence posture. At the UN High-Level Meeting commemorating the International Day for the Total Elimination of Nuclear Weapons in September 2025, India's representative Sibi George reaffirmed India's commitment to NFU and to the non-use of nuclear weapons against non-nuclear-weapon states.

The political foundations of the doctrine are intact even as some analysts within India have periodically called for a conditional or hybrid first-use posture. Those calls have not prevailed.

Under NFU, India commits to not launching a pre-emptive nuclear strike. What it needs is the absolute certainty that even after absorbing a nuclear first strike, enough of its nuclear arsenal will survive to deliver a devastating retaliatory blow. This survivability guarantee is what strategists call a second-strike capability, and without it, NFU is not a doctrine but a liability. In other words, the doctrine depends on a force that can survive and retaliate.

The SIPRI report does not indicate a shift towards first use, a lowering of the threshold for nuclear employment or indeed any revision of the political controls that govern India's nuclear weapons. Instead, it documents the maturing of India's ability to credibly deliver the second strike.

Stockpile v. Deployment

This distinction is significant. Possessing a nuclear warhead and deploying it as part of an operational deterrent is not the same thing. For most of its nuclear history, India has kept its warheads in a de-mated state, meaning the warheads were stored separately from their delivery vehicles, in a central storage site and under strict civilian and political oversight. The idea was to maximise safety, reduce the risk of accidental use, and signal restraint to the international community.

Deployment, on the other hand, means a weapon has been paired with a delivery system – a missile, aircraft, or submarine – and positioned with operational military forces in a state of readiness. Again, this does not mean the weapons are about to be used; it means they are configured for use if authorised. A de-mated weapon requires time to prepare and deploy; a mated weapon can, in principle, be launched more quickly.

What SIPRI has recorded when it classified 12 Indian warheads as being deployed is that a small – but no doubt significant – fraction of India's arsenal now is being maintained in a state of operational readiness. And SIPRI has linked this assessment to the maturation of India's nuclear triad, particularly its sea-based deterrent, suggesting that a small number of warheads may now be deployed aboard a nuclear ballistic missile submarine (which are also called SSBN) conducting occasional deterrence patrols.

The Stockholm International Peace Research Institute noticed India's increasing reliance on canisterised Agni-series missiles. FILE PHOTO

India's Arihant-class submarines have steadily strengthened the survivability of the country's second-strike capability, with additional platforms expected to further consolidate this leg of the triad. SIPRI also noticed India's increasing reliance on canisterised Agni-series missiles. This means the missiles are kept ready with fuel in a sealed cylinder, from which they can be directly fired without further preparations. Canisterisation thus indicates a greater level of operational readiness.

Overall, it seems India's long-envisioned deterrent posture is becoming increasingly operational across land and sea-based delivery systems – but not that the country is on a war footing.

NFU architecture

Bearing in mind India's pursuit of a doctrine of credible minimum deterrence centred on assured retaliation, the maturation of its submarine-based deterrent doesn't depart from NFU but is a means of strengthening it.

A doctrine that relies on retaliation requires forces capable of surviving an adversary's first strike. Land-based missiles, however capable, sit at known and mappable locations. An adversary confident in its intelligence could, in theory, target them in a disarming first strike before a retaliatory order is ever issued. On the other hand, a stealth submarine operating in the ocean can't be found, tracked or destroyed in time.

This is a fundamental difference – and in fact, ballistic missile submarines provide the most secure second-strike capability available. As the scholar Vipin Narang has written, states pursuing assured retaliation postures must, above all, solve the survivability problem, and sea-basing is the most robust solution available.

India has now done that. With three operational SSBNs sufficient to keep at least one submerged and on patrol at all times, India has closed the central vulnerability any NFU doctrine faces.

Manpreet Sethi, distinguished fellow at the Centre for Aerospace Power and Strategic Studies, New Delhi, said, "With the operationalisation of tri-SSBNs, it is not surprising that some of India's nuclear warheads now stand mated with delivery platforms. This in no way implies a doctrinal shift. Rather, it makes assured retaliation more credible and, hence, India more confident in its commitment to 'no first use'."

Wider warning

SIPRI's documentation of India's deployment milestone lies within a broader, more concerning global trend. The organisation's 2026 Yearbook observed that states are "increasingly relying on nuclear weapons as instruments of national power", signalling a reversal of decades of gradual progress in disarmament.

As of January this year, the world's nine nuclear-armed states collectively possessed an estimated 12,187 nuclear warheads. China's arsenal has grown to approximately 620 and continues to expand at a pace unmatched by any other nuclear power. In this context, India's reported deployment of 12 operationally assigned warheads is strategically significant.

India's nuclear choices must be understood from within this evolving security environment. SIPRI has noted that India's modernisation programme is increasingly focused on developing long-range delivery systems capable of reaching targets throughout China – while continuing to account for Pakistan.

With China's arsenal now more than three times the size of Pakistan's estimated stockpile, and Beijing simultaneously expanding its sea-based nuclear deterrent, India's SSBN programme appears directed as much towards maintaining credible deterrence against China as towards preserving stability with Pakistan.

The world that the SIPRI report has described is one in which the post-Cold War nuclear order is under mounting strain. Arms-control agreements have weakened or collapsed while competition in areas such as hypersonic delivery systems, artificial intelligence-enabled decision support, missile defence, and anti-submarine warfare continues to intensify.

The risk of miscalculation is correspondingly increasing. India's evolving deterrent posture should therefore be seen not as an isolated development but as part of a wider transformation in the global strategic environment. Policymakers should treat this as a warning that the institutions designed to manage nuclear risk must adapt quickly enough to keep pace with the capabilities now being fielded.

(Shrawani Shagun is a researcher focusing on environmental sustainability and space governance)

30J6. What India's 12 'operationally deployed' nuclear warheads really mean भारत के 12 'ऑपरेशनल रूप से तैनात' परमाणु वारहेड वास्तव में क्या दर्शाते हैं?

- For the first time, it classified **12** of **India's** estimated stockpile of **190 nuclear warheads** to be **operationally deployed**, i.e., positioned with active **military forces** mated with **delivery systems** and ready for use.

  पहली बार, इसने **भारत** के अनुमानित **190 परमाणु वारहेडों** के भंडार में से **12** को **संचालनात्मक रूप से तैनात (Operationally Deployed)** श्रेणी में रखा, अर्थात् वे सक्रिय **सैन्य बलों** के साथ **डिलीवरी प्रणालियों** में संयोजित होकर उपयोग के लिए तैयार स्थिति में हैं।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur

Contact Number : 9971932488
Website : patrioticias.in

- This sounds alarming — but the alarm itself may not be warranted.
  यह स्थिति चिंताजनक प्रतीत हो सकती है, किन्तु यह चिंता आवश्यक रूप से उचित नहीं हो सकती।
- The reason is that **India** has neither crossed a strategic threshold nor has it abandoned its decades-old **'No First Use (NFU)'** policy.
  इसका कारण यह है कि **भारत** ने न तो कोई सामरिक सीमा पार की है और न ही अपनी दशकों पुरानी **'पहले प्रयोग न करने (No First Use-NFU)'** की नीति का परित्याग किया है।

India's promise
भारत की प्रतिबद्धता

- **India's 'No First Use (NFU)' policy** is a pillar of its **nuclear doctrine** and its **credible minimum deterrence** posture.
  भारत की 'पहले प्रयोग न करने (No First Use-NFU)' की नीति उसकी **परमाणु सिद्धांत (Nuclear Doctrine)** तथा **विश्वसनीय न्यूनतम प्रतिरोध (Credible Minimum Deterrence)** की नीति का एक प्रमुख आधार है।
- At the **UN High-Level Meeting** commemorating the **International Day for the Total Elimination of Nuclear Weapons** in **September 2025**, **India's** representative **Sibi George** reaffirmed **India's** commitment to **NFU** and to the non-use of **nuclear weapons** against **non-nuclear-weapon states**.
  सितंबर 2025 में **परमाणु हथियारों के पूर्ण उन्मूलन के अंतरराष्ट्रीय दिवस** के अवसर पर आयोजित **संयुक्त राष्ट्र उच्च स्तरीय बैठक** में **भारत** के प्रतिनिधि **सिबी जॉर्ज** ने **NFU** नीति तथा **गैर-परमाणु हथियार संपन्न देशों** के विरुद्ध **परमाणु हथियारों** का प्रयोग न करने की भारत की प्रतिबद्धता को पुनः दोहराया।
- Under **NFU**, **India** commits to not launching a **pre-emptive nuclear strike**.
  NFU के अंतर्गत **भारत** यह प्रतिबद्धता व्यक्त करता है कि वह **पूर्व-प्रत्याशित परमाणु हमला (Pre-emptive Nuclear Strike)** नहीं करेगा।
- What it needs is the absolute certainty that even after absorbing a **nuclear first strike**, enough of its **nuclear arsenal** will survive to deliver a devastating **retaliatory blow**.
  इसके लिए आवश्यक है कि **प्रथम परमाणु हमले** को झेलने के बाद भी उसके **परमाणु शस्त्रागार** का पर्याप्त भाग सुरक्षित रहे, ताकि वह विनाशकारी **प्रतिघाती हमला (Retaliatory Blow)** कर सके।
- This survivability guarantee is what strategists call a **second-strike capability**, and without it, **NFU** is not a doctrine but a liability.
  जीवित बने रहने की इसी क्षमता को रणनीतिक विशेषज्ञ **द्वितीय प्रहार क्षमता (Second-Strike Capability)** कहते हैं, और इसके बिना **NFU** कोई प्रभावी सिद्धांत नहीं, बल्कि एक रणनीतिक कमजोरी बन जाएगा।
- In other words, the doctrine depends on a force that can survive and retaliate.
  दूसरे शब्दों में, यह सिद्धांत ऐसे सैन्य बल पर आधारित है जो जीवित रहकर प्रभावी प्रतिघात करने में सक्षम हो।
- The **SIPRI** report does not indicate a shift towards **first use**, a lowering of the threshold for **nuclear employment** or indeed any revision of the political controls that govern **India's nuclear weapons**.
  SIPRI की रिपोर्ट **पहले प्रयोग (First Use)** की नीति की ओर किसी परिवर्तन, **परमाणु हथियारों** के प्रयोग की सीमा को कम करने अथवा **भारत के परमाणु हथियारों** पर लागू राजनीतिक नियंत्रणों में किसी संशोधन का संकेत नहीं देती।

- Instead, it documents the maturing of **India's** ability to credibly deliver the **second strike**.
  इसके विपरीत, यह रिपोर्ट **भारत** की विश्वसनीय **द्वितीय प्रहार क्षमता** के क्रमिक सुदृढ़ीकरण को दर्शाती है।

Stockpile v. Deployment
भंडारण बनाम तैनाती

- This distinction is significant.
  यह अंतर अत्यंत महत्वपूर्ण है।
- Possessing a **nuclear warhead** and deploying it as part of an operational **deterrent** is not the same thing.
  किसी **परमाणु वारहेड** का स्वामित्व रखना और उसे संचालनात्मक **प्रतिरोधक क्षमता (Deterrent)** के रूप में तैनात करना एक ही बात नहीं है।
- For most of its **nuclear history**, **India** has kept its **warheads** in a **de-mated state**, meaning the **warheads** were stored separately from their **delivery vehicles**, in a central storage site and under strict **civilian** and **political oversight**.
  अपने अधिकांश **परमाणु इतिहास** के दौरान **भारत** ने अपने **वारहेडों** को **डी-मेटेड अवस्था (De-mated State)** में रखा है, अर्थात् **वारहेडों** को उनके **डिलीवरी वाहनों** से अलग एक केंद्रीय भंडारण स्थल पर कड़े **नागरिक** तथा **राजनीतिक नियंत्रण** के अंतर्गत सुरक्षित रखा जाता रहा है।
- The idea was to maximise **safety**, reduce the risk of **accidental use**, and signal **restraint** to the **international community**.
  इस व्यवस्था का उद्देश्य **सुरक्षा** को अधिकतम करना, **दुर्घटनावश प्रयोग** के जोखिम को कम करना तथा **अंतरराष्ट्रीय समुदाय** के समक्ष **संयम** का संदेश देना था।
- Deployment, on the other hand, means a **weapon** has been paired with a **delivery system** — a **missile**, **aircraft**, or **submarine** — and positioned with operational **military forces** in a state of **readiness**.
  दूसरी ओर, **तैनाती (Deployment)** का अर्थ है कि किसी **हथियार** को उसके **डिलीवरी सिस्टम** — जैसे **मिसाइल**, **विमान**, अथवा **पनडुब्बी** — के साथ जोड़ा गया हो और उसे संचालनात्मक **सैन्य बलों** के साथ **तत्परता** की स्थिति में तैनात किया गया हो।
- Again, this does not mean the **weapons** are about to be used; it means they are configured for use if authorised.
  फिर भी इसका यह अर्थ नहीं है कि **हथियारों** का प्रयोग तुरंत किया जाने वाला है; इसका केवल यह अर्थ है कि अनुमति मिलने पर वे उपयोग के लिए तैयार स्थिति में हैं।
- A **de-mated weapon** requires time to prepare and deploy; a **mated weapon** can, in principle, be launched more quickly.
  डी-मेटेड हथियार को तैयार करने और तैनात करने में समय लगता है, जबकि **मेटेड हथियार** को सिद्धांततः अधिक शीघ्रता से प्रक्षेपित किया जा सकता है।
- What **SIPRI** has recorded when it classified **12 Indian warheads** as being **deployed** is that a small — but no doubt significant — fraction of **India's nuclear arsenal** now is being maintained in a state of operational readiness.
  जब **SIPRI** ने **भारत के 12 परमाणु वारहेडों** को **तैनात** श्रेणी में रखा, तो उसका आशय यह था कि **भारत के परमाणु शस्त्रागार** का एक छोटा, किन्तु निस्संदेह महत्वपूर्ण भाग अब संचालनात्मक तत्परता की स्थिति में रखा जा रहा है।
- And **SIPRI** has linked this assessment to the maturation of **India's nuclear triad**, particularly its **sea-based deterrent**, suggesting that a small number of **warheads** may now be deployed aboard a **nuclear ballistic missile submarine (SSBN)** conducting occasional **deterrence patrols**.
  SIPRI ने इस आकलन को **भारत की परमाणु त्रयी (Nuclear Triad)**, विशेष रूप से उसके **समुद्र-आधारित प्रतिरोधक तंत्र**, के परिपक्व होने से जोड़ा है। रिपोर्ट के अनुसार, अब कुछ **वारहेड** समय-समय पर **प्रतिरोधक गश्त (Deterrence Patrols)** करने वाली **परमाणु बैलिस्टिक मिसाइल पनडुब्बियों (SSBN)** पर तैनात हो सकते हैं।
- **India's Arihant-class submarines** have steadily strengthened the survivability of the country's **second-strike capability**, with additional platforms expected to further consolidate

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

this leg of the **nuclear triad**.
भारत की अरिहंत श्रेणी की पनडुब्बियों ने देश की **द्वितीय प्रहार क्षमता** की जीवित रहने की क्षमता को लगातार सुदृढ़ किया है, और भविष्य में अतिरिक्त प्लेटफॉर्म **परमाणु त्रयी** के इस घटक को और अधिक मजबूत करेंगे।

- **SIPRI** also noticed **India's** increasing reliance on **canisterised Agni-series missiles**.
  SIPRI ने **भारत** द्वारा **कैनिस्टरयुक्त अग्नि श्रृंखला की मिसाइलों** पर बढ़ती निर्भरता का भी उल्लेख किया है।
- This means the **missiles** are kept ready with **fuel** in a sealed **cylinder**, from which they can be directly fired without further preparations.
  इसका अर्थ है कि **मिसाइलों** को **ईंधन** सहित एक सीलबंद **कैनिस्टर** में तैयार अवस्था में रखा जाता है, जहाँ से उन्हें बिना अतिरिक्त तैयारी के सीधे प्रक्षेपित किया जा सकता है।
- **Canisterisation** thus indicates a greater level of operational readiness.
  इस प्रकार **कैनिस्टरकरण (Canisterisation)** संचालनात्मक तत्परता के उच्च स्तर का संकेत देता है।
- Overall, it seems **India's** long-envisioned **deterrent posture** is becoming increasingly operational across **land** and **sea-based delivery systems** — but not that the country is on a **war footing**.
  समग्र रूप से ऐसा प्रतीत होता है कि **भारत** की दीर्घकाल से परिकल्पित **प्रतिरोधक रणनीति** अब **स्थल-आधारित** तथा **समुद्र-आधारित डिलीवरी प्रणालियों** में अधिक संचालनात्मक होती जा रही है, किन्तु इसका अर्थ यह नहीं है कि देश **युद्ध की स्थिति** में पहुँच गया है।

NFU architecture
NFU की संरचना

- Bearing in mind **India's** pursuit of a doctrine of **credible minimum deterrence** centred on **assured retaliation**, the maturation of its **submarine-based deterrent** does not depart from **NFU** but is a means of strengthening it.
  भारत की **विश्वसनीय न्यूनतम प्रतिरोध** तथा **सुनिश्चित प्रतिघात** पर आधारित नीति को ध्यान में रखते हुए, उसके **पनडुब्बी-आधारित प्रतिरोधक तंत्र** का परिपक्व होना **NFU** से विचलन नहीं है, बल्कि उसे और अधिक सुदृढ़ करने का माध्यम है।
- A doctrine that relies on **retaliation** requires forces capable of surviving an adversary's **first strike**.
  प्रतिघात पर आधारित किसी भी सिद्धांत के लिए ऐसे सैन्य बल आवश्यक होते हैं जो शत्रु के **प्रथम आक्रमण** के बाद भी सुरक्षित रह सकें।
- On the other hand, a **stealth submarine** operating in the **ocean** cannot be found, tracked or destroyed in time.
  इसके विपरीत, **महासागर** में संचालित **स्टील्थ पनडुब्बी** का समय रहते पता लगाना, उसका पीछा करना या उसे नष्ट करना अत्यंत कठिन होता है।
- This is a fundamental difference — and in fact, **ballistic missile submarines** provide the most secure **second-strike capability** available.
  यही मूलभूत अंतर है, और वास्तव में **बैलिस्टिक मिसाइल पनडुब्बियाँ** उपलब्ध विकल्पों में सबसे सुरक्षित **द्वितीय प्रहार क्षमता** प्रदान करती हैं।
- With **three operational SSBNs** sufficient to keep at least **one** submerged and on patrol at all times, **India** has closed the central vulnerability any **NFU** doctrine faces.
  तीन संचालनात्मक SSBN होने के कारण कम-से-कम **एक** पनडुब्बी हमेशा समुद्र में गश्त पर और जलमग्न रह सकती है, जिससे **भारत** ने **NFU** सिद्धांत की सबसे बड़ी संरचनात्मक कमजोरी को दूर कर दिया है।
- **Manpreet Sethi**, distinguished fellow at the **Centre for Aerospace Power and Strategic Studies, New Delhi**, said, **"With the operationalisation of tri-SSBNs, it is not surprising that some of India's nuclear warheads now stand mated with delivery platforms. This in no way implies a doctrinal shift. Rather, it makes assured retaliation more credible and, hence, India more confident in its commitment to 'No First Use'."**
  नई दिल्ली स्थित सेंटर फॉर एयरोस्पेस पावर एंड स्ट्रैटेजिक स्टडीज़ की विशिष्ट फेलो **मनप्रीत सेठी** ने कहा,

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

"तीन SSBN के संचालनात्मक होने के बाद यह आश्चर्य की बात नहीं है कि भारत के कुछ परमाणु वारहेड अब डिलीवरी प्लेटफॉर्मों के साथ मेटेड अवस्था में हैं। इसका किसी भी प्रकार से सिद्धांत में परिवर्तन का अर्थ नहीं है। बल्कि इससे सुनिश्चित प्रतिघात की विश्वसनीयता बढ़ती है और परिणामस्वरूप 'पहले प्रयोग न करने (No First Use)' की भारत की प्रतिबद्धता और अधिक मजबूत होती है।"

Wider warning
व्यापक चेतावनी

- The organisation's **2026 Yearbook** observed that states are **"increasingly relying on nuclear weapons as instruments of national power"**, signalling a reversal of decades of gradual progress in **disarmament**.
  संस्था की **2026 ईयरबुक** में उल्लेख किया गया है कि देश **"राष्ट्रीय शक्ति के साधन के रूप में परमाणु हथियारों पर लगातार अधिक निर्भर होते जा रहे हैं"**, जो **निःशस्त्रीकरण** की दिशा में दशकों से हुई क्रमिक प्रगति के उलट जाने का संकेत है।
- As of **January** this year, the world's **nine nuclear-armed states** collectively possessed an estimated **12,187 nuclear warheads**.
  इस वर्ष **जनवरी** तक विश्व के **नौ परमाणु हथियार संपन्न देशों** के पास सामूहिक रूप से लगभग **12,187 परमाणु वारहेड** होने का अनुमान था।
- **China's** arsenal has grown to approximately **620** and continues to expand at a pace unmatched by any other **nuclear power**.
  चीन का परमाणु शस्त्रागार बढ़कर लगभग **620 वारहेड** तक पहुँच गया है और इसका विस्तार किसी भी अन्य **परमाणु शक्ति** की तुलना में अधिक तीव्र गति से जारी है।
- With **China's** arsenal now more than **three times** the size of **Pakistan's** estimated stockpile, and **Beijing** simultaneously expanding its **sea-based nuclear deterrent**, **India's SSBN programme** appears directed as much towards maintaining credible deterrence against **China** as towards preserving stability with **Pakistan**.
  चूँकि **चीन** का परमाणु शस्त्रागार अब **पाकिस्तान** के अनुमानित भंडार से **तीन गुना से अधिक** हो चुका है और **बीजिंग** समानांतर रूप से अपने **समुद्र-आधारित परमाणु प्रतिरोधक तंत्र** का विस्तार कर रहा है, इसलिए **भारत का SSBN कार्यक्रम** जितना **चीन** के विरुद्ध विश्वसनीय प्रतिरोध बनाए रखने की दिशा में है, उतना ही **पाकिस्तान** के साथ सामरिक स्थिरता बनाए रखने की दिशा में भी प्रतीत होता है।
- **Arms-control agreements** have weakened or collapsed while competition in areas such as **hypersonic delivery systems**, **artificial intelligence-enabled decision support**, **missile defence**, and **anti-submarine warfare** continues to intensify.
  शस्त्र नियंत्रण समझौते या तो कमजोर हो गए हैं अथवा समाप्त हो चुके हैं, जबकि **हाइपरसोनिक डिलीवरी प्रणालियों**, **कृत्रिम बुद्धिमत्ता आधारित निर्णय सहायता**, **मिसाइल रक्षा**, तथा **पनडुब्बी-रोधी युद्ध क्षमता** जैसे क्षेत्रों में प्रतिस्पर्धा लगातार तीव्र होती जा रही है।

GS Paper IV: Ethics	30 June 2026
TOPICS COVERED	
30J6	Delayed honour विलंबित सम्मान

GS IV: Ethics

Delayed honour

Operational secrecy during wars is a must, but there must be accountability

War is secretive and strategy may require deception. But that is no good explanation for the fact that the Narendra Modi government took over a year before formally acknowledging that six soldiers had lost their lives in Operation Sindoor in 2025. India had launched cross-border military strikes in Pakistan in retaliation for the Pahalgam terrorist attack, in April 2025, that killed 26 innocent people. From the beginning, the government has been reluctant to share any meaningful details of Operation Sindoor even as it continuously kept the hyperbolic self-congratulatory posture. Its decision to not publicly acknowledge and honour the supreme sacrifice of the fallen soldiers contemporaneously was hardly a sign of any wise strategy. Casualties can happen in any military operation and that is a key consideration in any military planning, and more importantly, the political decision to go to war or not. Not being transparent about losses, human and material, may serve the political interests of the ruling party, but not national interest. By trying to be clever and selective about facts, the government undermined its own credibility and did a disservice to those who paid with their lives. Soon after the operation concluded in May 2025, the then Director General of Military Operations (DGMO), Lieutenant General Rajiv Ghai, paid tribute, during a press briefing on May 11, 2025, to Indian military personnel who had made the supreme sacrifice, though their names were not disclosed.

The cremations were done with full military honours. In August 2025, Air Chief Marshal A.P. Singh visited the family of Sergeant Surendra Kumar, who was killed during the operation, while the Ministry of Defence also announced gallantry awards for the fallen personnel. Tributes were simultaneously carried on the Indian Army's official social media platforms. In the Lok Sabha on July 28, 2025, Defence Minister Rajnath Singh said that "no Indian soldiers were harmed" during Operation Sindoor. Following accusations that it has misled Parliament, the government is now explaining that the Minister's remarks were made in the context of reports that Indian aircraft were shot down and were meant to clarify that no pilot was killed during the mission. The government has also maintained that details relating to aircraft losses during the conflict remain operationally sensitive and refused to disclose them. There is a distinction to be made between operational secrecy and requirements of public accountability. War is a stark demonstration of the fact that it is the public that always pays for all actions of the government. A public accounting of the gains and the losses is the best way to ensure wise decision making.

30J6. Delayed honour
विलंबित सम्मान

- **Operational secrecy during wars is a must, but there must be accountability.**

युद्धों के दौरान संचालन संबंधी गोपनीयता अनिवार्य है, किंतु इसके साथ जवाबदेही भी सुनिश्चित होनी चाहिए।

- War is **secretive** and **strategy** may require **deception**.

युद्ध स्वभावतः **गोपनीय** होता है और **रणनीति** में कभी-कभी **भ्रम उत्पन्न करने** की आवश्यकता पड़ सकती है।

- But that is no good explanation for the fact that the **Narendra Modi Government** took over **a year** before formally acknowledging that **six soldiers** had lost their lives in **Operation Sindoor** in **2025**.

किन्तु यह इस तथ्य का उचित स्पष्टीकरण नहीं हो सकता कि **नरेंद्र मोदी सरकार** ने **2025** के **ऑपरेशन सिंदूर** में **छह सैनिकों** के शहीद होने की औपचारिक पुष्टि करने में **एक वर्ष से अधिक** का समय लिया।

- **Casualties** can happen in any **military operation** and that is a key consideration in any **military planning**, and more importantly, the political decision to go to **war** or not.

किसी भी **सैन्य अभियान** में **हानि** होना संभव है और यह किसी भी **सैन्य योजना** तथा उससे भी अधिक, **युद्ध** करने या न करने के राजनीतिक निर्णय का एक महत्वपूर्ण पहलू होता है।

- Not being transparent about **losses**, human and material, may serve the political interests of the **ruling party**, but not **national interest**.

मानवीय और **भौतिक क्षति** के विषय में पारदर्शिता न रखना **सत्तारूढ़ दल** के राजनीतिक हितों की पूर्ति कर सकता है, किन्तु यह **राष्ट्रीय हित** के अनुरूप नहीं है।

- By trying to be clever and selective about **facts**, the **Government** undermined its own **credibility** and did a disservice to those who paid with their **lives**.

तथ्यों को चुनिंदा ढंग से प्रस्तुत करने का प्रयास करके **सरकार** ने अपनी **विश्वसनीयता** को कमजोर किया तथा उन लोगों के साथ न्याय नहीं किया जिन्होंने अपने **प्राणों** का सर्वोच्च बलिदान दिया।

- Soon after the operation concluded in **May 2025**, the then **Director General of Military Operations (DGMO)**, **Lieutenant General Rajiv Ghai**, paid tribute, during a **press briefing** on **May 11, 2025**, to **Indian military personnel** who had made the **supreme sacrifice**, though their names were not disclosed.

मई 2025 में अभियान समाप्त होने के तुरंत बाद तत्कालीन **डायरेक्टर जनरल ऑफ मिलिट्री ऑपरेशंस (DGMO) लेफ्टिनेंट जनरल राजीव घई** ने **11 मई 2025** को आयोजित **प्रेस वार्ता** के दौरान **भारतीय सैन्य कर्मियों** को **सर्वोच्च बलिदान** के लिए श्रद्धांजलि दी, यद्यपि उनके नाम सार्वजनिक नहीं किए गए।

- The **cremations** were done with full **military honours**.
शहीदों का **अंतिम संस्कार** पूर्ण **सैन्य सम्मान** के साथ किया गया।
- Tributes were simultaneously carried on the **Indian Army's** official **social media platforms**.
इसी दौरान **भारतीय सेना** के आधिकारिक **सोशल मीडिया मंचों** पर भी श्रद्धांजलि संदेश प्रकाशित किए गए।

- In the **Lok Sabha** on **July 28, 2025**, **Defence Minister Rajnath Singh** said that **"no Indian soldiers were harmed"** during **Operation Sindoor**.
  28 जुलाई 2025 को **लोकसभा** में **रक्षा मंत्री राजनाथ सिंह** ने कहा कि **ऑपरेशन सिंदूर** के दौरान **"कोई भी भारतीय सैनिक हताहत नहीं हुआ।"**
- Following accusations that it has misled **Parliament**, the **Government** is now explaining that the **Minister's** remarks were made in the context of reports that **Indian aircraft** were shot down and were meant to clarify that no **pilot** was killed during the mission.
  संसद को गुमराह करने के आरोपों के बाद **सरकार** अब यह स्पष्टीकरण दे रही है कि **मंत्री** का वक्तव्य उन रिपोर्टों के संदर्भ में था जिनमें **भारतीय विमानों** के मार गिराए जाने की बात कही गई थी और उसका उद्देश्य यह स्पष्ट करना था कि अभियान के दौरान किसी **पायलट** की मृत्यु नहीं हुई।
- The **Government** has also maintained that details relating to **aircraft losses** during the conflict remain **operationally sensitive** and refused to disclose them.
  सरकार ने यह भी कहा है कि संघर्ष के दौरान **विमानों की क्षति** से संबंधित विवरण अभी भी **संचालनात्मक रूप से संवेदनशील** हैं और इसलिए उन्हें सार्वजनिक नहीं किया जा सकता।
- There is a distinction to be made between **operational secrecy** and requirements of **public accountability**.
  संचालनात्मक गोपनीयता और **लोक उत्तरदायित्व** की आवश्यकताओं के बीच स्पष्ट अंतर किया जाना चाहिए।
- War is a stark demonstration of the fact that it is the **public** that always pays for all actions of the **Government**.
  युद्ध इस तथ्य का स्पष्ट प्रमाण है कि अंततः **सरकार** के सभी निर्णयों की वास्तविक कीमत **जनता** ही चुकाती है।

TOPICS COVERED	
29J6 QUIZ	

Questions and Answers to the previous day's daily quiz: 1. Who is the only British Prime Minister who was assassinated? **Ans: Spencer Perceval**
2. This statesman's tenure as Prime Minister was overshadowed by his military prowess. He famously defeated a French Emperor in this war in 1815. Name the Prime Minister, the Emperor and the famous war. **Ans: Arthur Wellesley; Napoleon Bonaparte; Battle of Waterloo**
3. This Prime Minister started out as a journalist, specifically a war correspondent for the Morning Post. Name him. **Ans: Winston Churchill**
4. This Prime Minister had the shortest run in Westminster, serving just 44 days. Name the Prime Minister. **Ans: Liz Truss**
5. The Second World War broke out with Nazi Germany invading Poland. Roughly a year back, this British Prime Minister, after talks with Hitler, had declared that "I believe it is peace for our time". Needless to say, he did not last long in office. Name him. **Ans: Neville Chamberlain**
6. Which Prime Minister introduced the Indian Independence Act 1947 in the House of Commons? **Ans: Clement Atlee**
Visual: This is one of the most famous addresses in the world. Name it. **Ans: 10, Downing Street, London**
Early Birds: Tamal Biswas | K.N. Viswanathan | Sudhir Thapa | Arun Kumar Singh | K. M. Vikashini

29J6. QUIZ

2. This statesman's tenure as Prime Minister was overshadowed by his military prowess. He famously defeated a French Emperor in this war in 1815. Name the Prime Minister, the Emperor and the famous war.

- **Arthur Wellesley**, the **1st Duke of Wellington**, became Prime Minister after establishing his reputation as one of Britain's greatest military commanders.
- He achieved immortal fame by defeating **Napoleon Bonaparte** at the **Battle of Waterloo** on **18 June 1815**, bringing the **Napoleonic Wars** to an end.

- Although he later served as Prime Minister, Wellington is remembered far more for his military leadership than for his political career.

3. This Prime Minister started out as a journalist, specifically a war correspondent for the Morning Post. Name him.

- Before entering politics, **Winston Churchill** worked as a **war correspondent** for the **Morning Post**.
- He reported from several conflicts, including the **Second Boer War**, where his dramatic escape from captivity brought him national fame.
- His journalism helped develop his writing and public-speaking skills. Churchill later became Britain's wartime Prime Minister during the **Second World War** and received the **1953 Nobel Prize in Literature** for his historical writings and speeches.

5. The Second World War broke out with Nazi Germany invading Poland. Roughly a year back, this British Prime Minister, after talks with Hitler, had declared that "I believe it is peace for our time". Name him.

- **Neville Chamberlain** served as Prime Minister from **1937 to 1940**.
- After signing the **Munich Agreement** with **Adolf Hitler** in **September 1938**, Chamberlain declared that it had secured "**peace for our time**."
- However, Germany invaded **Poland** on **1 September 1939**, triggering the **Second World War**. Chamberlain's policy of **appeasement** was widely criticised, and he resigned in **May 1940**, when **Winston Churchill** succeeded him.

6. Which Prime Minister introduced the Indian Independence Act 1947 in the House of Commons?

- **Clement Attlee**, the Labour Prime Minister of the United Kingdom (**1945–1951**), led the British government that enacted the **Indian Independence Act, 1947**.
- The Act was introduced in the **House of Commons** and received **Royal Assent on 18 July 1947**.

Non-independence parties make gains in New Caledonia polls

GS I: Geography

Reuters
SYDNEY

New Caledonia's non-independence coalition won the most seats of any single grouping, 24 out of 54 available, preliminary results released by officials showed, in long-delayed provincial elections which were held amid tight security on Sunday.

The outcome of the elections, delayed since 2024 after New Caledonia was hit by violent unrest between indigenous Kanaksand French loyalists, is key in shaping future talks with France on the territory's status.

The group of islands in the southwest Pacific has around 270,000 inhabitants, including 41% Melanesian Kanak and 24% of European origin, mostly French. Three independence referendums, including the most recent in 2021, returned majorities in favour of remaining part of France.

Sunday's voter turnout stood at 63.71%. Final results are expected on Monday.

User development fees at Bhogapuram airport may be among highest in country

GS II: Governance

K. Srinivasa Rao
VIZIANAGARAM

Flying from the upcoming Bhogapuram International Airport of Andhra Pradesh, to be operated by GMR Airports Infrastructure Ltd., is likely to become more expensive, with passengers required to pay one of the highest User Development Fees (UDF) among major airports in the country. The airport will also levy UDF on arriving passengers, unlike several other airports where no such charge is collected.

According to representatives of air travellers' associations, Visakhapatnam airport – which will cease operations once the Bhogapuram airport becomes functional – currently does not levy any UDF. Passengers will therefore have to bear not only higher travel costs to reach Bhogapuram in Vizianagaram district but also the additional UDF on both departure and arrival. The Airports Economic Regulatory Authority of India (AERA) has approved a UDF of ₹835 for departing domestic passengers and ₹355 for arriving domestic passengers at the airport.

A view of the under-construction airport at Bhogapuram. FILE PHOTO

For international travellers, the fee has been fixed at ₹1,255 for departures and ₹545 for arrivals. GMR-operated Rajiv Gandhi International Airport in Hyderabad charges ₹750 as UDF for departing domestic passengers and ₹1,500 for departing international passengers, but does not levy any UDF on arriving passengers. Asked about the wide variation in UDF, a GMR spokesperson said that the charges were fixed in accordance with AERA's recommendations.

29J6. User development fees at Bhogapuram airport may be among highest in country

भोगापुरम हवाई अड्डे पर यूज़र डेवलपमेंट शुल्क देश में सबसे अधिक में से एक हो सकता है।

Centre seeks to ease licensing process for medical devices

GS II: Governance

Press Trust of India
NEW DELHI

The draft notification has been placed in the public domain.

The Union Ministry of Health and Family Welfare has proposed amendments to the Medical Devices Rules, 2017, to shorten the timelines for the grant of manufacturing licences for medical devices across different risk categories.

The initiative is aimed at enhancing the ease of doing business, improving regulatory efficiency, and facilitating the timely availability of quality medical devices in the country, the Health Ministry said on Sunday. The draft notification published in the Gazette, seeks to simplify and expedite the licensing process while ensuring continued compliance with quality, safety, and performance requirements, the Ministry said.

Under the Medical Devices Rules, 2017, medical devices are classified into four risk-based categories – Class A, Class B, Class C and Class D – with Class D comprising the highest-risk devices. The Rules prescribe statutory timelines for processing applications for manufacturing licences for each category.

The draft amendments also introduce clearly defined timelines for each stage of the licensing process, including scrutiny of applications, audit by notified bodies, verification of compliance, and issuance of licences.

This is expected to bring greater transparency, predictability and efficiency to the regulatory framework, benefiting both the medical device industry and patients through faster access to quality-assured medical devices, the Ministry said.

The draft notification has been placed in the public domain for comments and suggestions from all stakeholders. The notification is available in the official gazette and on the website of the Central Drugs Standard Control Organisation.

Stakeholders are invited to submit their comments within the prescribed period.

29J6. Centre seeks to ease licensing process for medical devices

केंद्र सरकार चिकित्सा उपकरणों के लिए लाइसेंसिंग प्रक्रिया को आसान बनाने का प्रयास कर रही है

- Under the **Medical Devices Rules, 2017**, medical devices are classified into four risk-based categories — **Class A, Class B, Class C and Class D** — with **Class D** comprising the highest-risk devices.

मेडिकल डिवाइसेज़ नियम, 2017 के तहत चिकित्सा उपकरणों को जोखिम के आधार पर चार श्रेणियों — **क्लास A, क्लास B, क्लास C और क्लास D** — में वर्गीकृत किया गया है, जिनमें **क्लास D** सबसे अधिक जोखिम वाले उपकरणों की श्रेणी है।

- This is expected to bring greater **transparency, predictability and efficiency** to the regulatory framework, benefiting both the **medical device industry** and patients through faster access to quality-assured **medical devices**, the Ministry said.

मंत्रालय ने कहा कि इससे नियामकीय ढांचे में अधिक **पारदर्शिता, पूर्वानुमेयता और दक्षता** आएगी, जिससे **चिकित्सा उपकरण उद्योग** और मरीज दोनों को गुणवत्तापूर्ण **चिकित्सा उपकरणों** तक तेज़ी से पहुंच का लाभ मिलेगा।

- The notification is available in the **official gazette** and on the website of the **Central Drugs Standard Control Organisation**.

यह अधिसूचना **आधिकारिक राजपत्र** तथा **केंद्रीय औषधि मानक नियंत्रण संगठन (CDSCO)** की वेबसाइट पर उपलब्ध है।

Indian Ocean a shared responsibility: Modi

PM meets Seychelles President, stresses 'security, sustainability and prosperity' of the region

Two sides unveil 19 outcomes in areas, including defence, maritime, space, and digital payments

Modi attends the golden jubilee celebrations of National Day of Seychelles as Guest of Honour

GS II: IR

Press Trust of India
VICTORIA

India envisioned an Indian Ocean where maritime security was ensured alongside economic prosperity and where partnership was defined not by size, but by mutual respect and trust, Prime Minister Narendra Modi said on Sunday during his visit to the Seychelles.

Mr. Modi, who held wide-ranging talks with President Patrick Herminie of the archipelago, said they agreed that the Indian Ocean was "our shared home" and therefore "its security, sustainability and prosperity are our shared responsibility".

"Our vision is to make the Indian Ocean an ocean of opportunity," Mr. Modi said after delegation-level talks with Mr. Herminie, during which they took stock of the economic partnership between the two countries and discussed new opportunities in industries, connectivity, technology, digital infrastructure, and other areas.

After the talks, the two sides unveiled 19 outcomes, expanding cooperation in areas ranging from defence and maritime security to digital payments, space, healthcare, agriculture, and education.

The two sides also announced the gifting of a fast patrol vessel to the Seychelles, the handover of 10 utility vehicles and five Laser Radial class boats to the Seychelles Defence Force, the completion of the refit of *PS Zoroaster* for the Seychelles Coast Guard and the upgrading of a Dornier aircraft with a glass cockpit.

Climate impact

Mr. Modi also addressed the National Assembly of the country, where he emphasised that the Global South, especially island nations, was the most impacted by climate change.

He reiterated that those who had contributed the least to climate change should not bear the greatest burden of its consequences and said climate action must be guided by "fairness, responsibility, and equity".

Sea of opportunities: Prime Minister Narendra Modi addresses the National Assembly of the Seychelles in Victoria on Sunday. ANI

"The Global South, and especially the island nations, are the most impacted by climate change. Its effects are already visible on our coastlines, in the marine ecosystems, in weather patterns, and in our communities," he said.

"We will continue to explore new opportunities for the industries of both our countries. We will also work towards enhancing connectivity between India and the Seychelles. This will not only boost our bilateral trade but also strengthen our ties with East Africa and the Indian Ocean region," he said.

The Prime Minister, who is on a three-day visit to the archipelago, attended the golden jubilee celebrations of the National Day of Seychelles as the Guest of Honour.

Earlier in the day, at a special ceremony, Mr. Modi was also conferred with 'Guardian of the Blue Horizon' by Mr. Herminie for his "green leadership and efforts towards advancing the interests of developing countries and his long-standing commitment towards promoting the blue economy".

The outcomes after the talks on Sunday included an extradition treaty, an agreement on cooperation in the peaceful uses of outer space, an agreement to advance UPI-based digital payments in the Seychelles, an umbrella line of credit agreement with the Export-Import Bank of India and an agreement for preliminary preparations for a new the Seychelles National Hospital, according to the Ministry of External Affairs.

Win-win partnership

"Our cooperation in the fields of energy and climate action continues to advance steadily. We will further strengthen our win-win partnership in emerging areas of clean energy, including green hydrogen. The Blue Economy is a natural and strategic pillar of our relationship," he said.

"The true strength of India-Seychelles relations lies in our people-to-people ties," Modi said.

He said the popularity of Yoga and the Indian film industry in the Seychelles reflected the deep cultural connection between the peoples of the two countries. "In the same spirit, we will continue our efforts to enhance people-to-people exchanges, particularly among the youth of our two countries."

Addressing the National Assembly later, the Prime Minister said the Seychelles "occupies a special place in India's vision for the Indian Ocean."

"Our vision recognises that our futures are interconnected and inter-dependent. And, we will continue to work together for a safer and more secure Indian Ocean region," he said.

The Prime Minister last visited the Seychelles in 2015, while President Herminie visited India earlier this year.

July opens the biggest chapter in India-U.K. trade ties

GS II: IR

Trade deals are important for accelerating prosperity but not every deal is a game changer. One that drives shared growth across key sectors, unlocks opportunity for businesses of all sizes, and pushes the envelope for bilateral trade qualifies to achieve that tag. And so, it is no surprise to see businesses and trade associations using the term in relation to the United Kingdom-India Free Trade Agreement (FTA) which is formally known as Comprehensive Economic and Trade Agreement (CETA). India remains the fastest-growing economy in the G-20 and it is on track to become the world's third-largest economy within the next five years. Complementing this the U.K. remains one of the top global destinations for investment and was the third fastest-growing economy in the G-7 in 2025. Securing preferential access to each other's market is not an abstract diplomatic win; it is an economic advantage that will deliver significant returns in both countries over time. This FTA is forecast to boost Indian GDP by £5.1 billion, the U.K.'s GDP by £4.8 billion and increase bilateral trade by £25.5 billion every year in the long run.

Bilateral trade was already worth £48 billion a year in 2025. From July 15, it will be cheaper, quicker, and easier for businesses to trade across both countries. Even before this deal came into force, we have seen the creation of thousands of new jobs on both sides and that is showing no signs of slowing down, as the countdown to entry into force closes and a new era of growth between the two nations begins. We should all be excited to see what the two countries and businesses on both sides can achieve in the years ahead. These are the hallmarks of a historic deal; but it is not just about the numbers.

A story of scale and depth

From day one, both sides agreed that this deal must be broad, deep, and a driving force that brings long-term growth for both countries. Nearly three years of intensive negotiations preceded this deal and there is no doubt that the agreement reached is the most economically significant trade deal that the U.K. has done since leaving the European Union; it is also one of the most comprehensive trade deals that India has ever done. In short it is a win-win for businesses and consumers and for both economies. To give readers just a flavour of the far-reaching benefits – 99% of U.K. tariff lines will be duty-free for Indian products and India will remove or reduce tariffs on 90% of its tariff lines for U.K. products.

For India, this could support jobs in labour-intensive sectors such as textiles, leather, jewellery and, equally, it will boost exports in services such as IT and finance by a large margin.

Similarly, tariff duties on U.K. exports to India are estimated to fall by around £400 million when the deal comes into effect, and further to £900 million in later phases. Critical industries such as aerospace, automotives, medical devices, and whiskies will all benefit significantly, adding billions to the U.K. economy. This is transformational and it is also just the beginning.

Harjinder Kang
His Majesty's Trade Commissioner for South Asia and the British Deputy High Commissioner for western India

The U.K.-India Free Trade Agreement, the 'gold standard of modern trade deals', comes into force on July 15

Benefits beyond Mumbai and London

One of the most persistent criticisms of trade policy is that the gains created are only concentrated in a few places. We have ensured that this deal benefits all aspects of the local economy beyond the major cities in both countries. Several unprecedented and dedicated provisions across high-growth and high-value sectors from each side are agreed in a deal spanning 30 chapters. In practical terms, that means manufacturers, innovators, supply chain businesses, and service exporters – often based far away from the major cities – can compete more effectively with cheaper imports and fewer barriers. For instance, a textile manufacturer from Indore, Madhya Pradesh, will now be able to trade more efficiently into the U.K. just like an auto-parts manufacturer from Birmingham will be able to trade more cost effectively into India.

Modern trade goes beyond just tariffs and that is why this agreement's provisions on customs, digital trade, and services are central to its exceptional standard. Improved customs provisions will help goods reach markets faster – particularly valuable for small and medium-sized enterprises (SMEs) that cannot afford excessive red tape. On services, where the U.K. is globally renowned, the agreement locks in market access across key sectors, providing the predictability that U.K. businesses need to expand in India and vice versa. The deal also includes India's first-ever standalone chapters on anti-corruption, gender, and development – and one of the most comprehensive labour and environmental commitments that India has ever made in a trade deal. But it is not just about access; it is also about securing appropriate protections for domestic producers, which is what this deal does so well.

For instance, India maintains protections for dairy products and edible oils, while the U.K. shields sugar, milled rice, pork, chicken, and eggs. In an era where trade agreements are judged not only on growth but also on sustainability and fairness, this deal shows how it is done.

Making the deal count

It is clear that this landmark deal combines measurable economic gains, deep market access in the sectors of the future, practical trade facilitation, strong domestic protections, and the first-of-their-kind values chapters. It sets a template for what modern trade agreements should look like: pro-growth, pro-worker, pro-innovation – a gold standard for trade deals.

As we close in on entry into force, the task is clear: let us maximise it. Businesses from both countries should champion exports, explore procurement opportunities, map supply chains against new rules of origin, and move quickly because in trade, first-mover advantage is real, and it rarely comes twice.

29J6.July opens the biggest chapter in India-U.K. trade ties
जुलाई भारत-यू.के. व्यापार संबंधों के सबसे बड़े अध्याय की शुरुआत करता है

- And so, it is no surprise to see businesses and trade associations using the term in relation to the **United Kingdom-India Free Trade Agreement (FTA)** which is formally known as **Comprehensive Economic and Trade Agreement (CETA)**.
  इसलिए यह आश्चर्य की बात नहीं है कि व्यवसाय और व्यापारिक संगठन **यूनाइटेड किंगडम-भारत मुक्त व्यापार समझौते (FTA)**, जिसे औपचारिक रूप से **व्यापक आर्थिक एवं व्यापार समझौता (CETA)** कहा जाता है, के संदर्भ में इस शब्द का उपयोग कर रहे हैं।

- India remains the fastest-growing economy in the **G-20** and it is on track to become the world's **third-largest economy** within the next five years.
  भारत **G-20** की सबसे तेज़ी से बढ़ती अर्थव्यवस्था बना हुआ है और अगले पाँच वर्षों में विश्व की **तीसरी सबसे बड़ी अर्थव्यवस्था** बनने की दिशा में अग्रसर है।
- To give readers just a flavour of the far-reaching benefits — **99%** of **U.K. tariff lines** will be duty-free for **Indian products** and **India** will remove or reduce tariffs on **90%** of its tariff lines for **U.K. products**.
  इसके व्यापक लाभों की एक झलक के रूप में, **यू.के.** की **99% टैरिफ लाइनों** पर **भारतीय उत्पादों** के लिए शुल्क समाप्त होगा और **भारत यू.के. उत्पादों** के लिए अपनी **90% टैरिफ लाइनों** पर शुल्क समाप्त या कम करेगा।
- Critical industries such as **aerospace**, **automotives**, **medical devices**, and **whiskies** will all benefit significantly, adding billions to the **U.K. economy**.
  एयरोस्पेस, **ऑटोमोबाइल**, **मेडिकल डिवाइसेज़** और **व्हिस्की** जैसे महत्वपूर्ण उद्योगों को बड़ा लाभ मिलेगा, जिससे **यू.के. अर्थव्यवस्था** में अरबों पाउंड का योगदान होगा।
- The deal also includes **India's first-ever standalone chapters** on **anti-corruption**, **gender**, and **development** — and one of the most comprehensive **labour** and **environmental commitments** that India has ever made in a trade deal.
  इस समझौते में **भारत के इतिहास में पहली बार भ्रष्टाचार-रोधी**, **लैंगिक समानता** और **विकास** पर स्वतंत्र अध्याय शामिल किए गए हैं, साथ ही यह भारत द्वारा किसी व्यापार समझौते में किए गए सबसे व्यापक **श्रम** एवं **पर्यावरणीय प्रतिबद्धताओं** में से एक है।
- For instance, **India** maintains protections for **dairy products** and **edible oils**, while the **U.K.** shields **sugar**, **milled rice**, **pork**, **chicken**, and **eggs**.
  उदाहरण के लिए, **भारत** ने **डेयरी उत्पादों** और **खाद्य तेलों** के लिए सुरक्षा बनाए रखी है, जबकि **यू.के.** ने **चीनी**, **मिल्ड चावल**, **पोर्क**, **चिकन** और **अंडों** को संरक्षण दिया है।

Seychelles attains Independence today

GS II: IR

Victoria (Seychelles), June 28: "The String of Pearls", a group of 92 islands of Seychelles in the western Indian Ocean will take its rightful place in the comity of nations when it attains independence to-morrow after centuries of French and British Colonial domination.

A new chapter will unfold in the lives of 68,000 Seychellois people when the President, Mr. James R. Mancham, will raise the flag of the world's youngest nation at a colourful ceremony in Victoria, marking yet another great victory for a member of the third world.

Delegations from all parts of the world have gathered in picturesque Victoria, capital of Seychelles, to represent their respective nations on this historic occasion.

India is represented by the Minister of State for Tourism and Civil Aviation, Mr. Surendra Pal Singh, and the Indian High Commissioner to Kenya, Air Chief Marshal Arjan Singh.

The Seychelles archipelago has a land area of only 279 sq.km but stretches across 3,88,000 sq. km. The climate in the islands, despite their proximity to the equator, is equable.

Although the islands were probably known to seafarers as early as 916, they remained uninhabited for several centuries. The establishment of the first French colony in 1770 brought Seychelles in the path of Anglo-French rivalry in the Indian Ocean. After no fewer than seven capitulations to the British, the period of French rule finally ended in 1814 when Seychelles became a dependency of the British colony of Mauritius.

China's role in Bangladesh's Teesta plans, and India's strategic worries

Following discussions last week over a Teesta project in Bangladesh, China is expected to expedite a feasibility study for a plan aimed at turning the river into an artery of economic development; the increased Chinese presence so close to a sensitive Indian region has raised eyebrows in New Delhi

GS II: IR

NEWS ANALYSIS

Kallol Bhattacherjee

Bangladesh Prime Minister Tarique Rahman has received assurance from China on building the Teesta River Comprehensive Management and Restoration Project. The discussion in this regard took place when Mr. Rahman visited Beijing during June 24-26 and met top Chinese officials, including Premier Li Qiang, President Xi Jinping and Chinese Water Resources Minister Li Guoying.

China has harvested its major rivers for power generation and irrigation, and is considered a major dam builder among the world powers. It is expected to expedite a feasibility study of the Teesta project that aims to change the physical nature of the Teesta inside Bangladesh and turn it into an artery of economic development.

Bangladesh has been in talks with China about managing and developing the Teesta river region for nearly a decade, and the discussion has spanned the government of Prime Minister Sheikh Hasina, which has been taken forward by the current government of the Bangladesh Nationalist Party.

In January this year, under the interim government led by Prof. Mohammed Yunus, Bangladesh Water Development Board (BWDB) and the Chinese state-owned power generation company POWERCHINA signed an extension to an MoU that revived the Bangladesh-China cooperation on the river.

The original MoU in this project was signed in 2016 under the Sheikh Hasina government, which had suggested river bank erosion control, flood management, disaster reduction, land reclamation, transportation and environment preservation as some of the features of China's plans for Teesta.

Massive plans

The MoU included dredging of 140 million cubic metres of riverine sediment, reclamation of 171 square km of land, repairing of 110 km of embankment, constructing 124 km of new embankments and developing 224 km of road network. The project would lead to building of 82 jetty facilities along the Teesta. As a lower riparian project, the Chinese plans cannot disrupt the Teesta upstream in India and it aims to create conditions for Bangladesh to better utilise the water that it gets from India at present.

Teesta's water is essential for the farmers of northern Bangladesh, covering districts like Nilphamari, Rangpur, Dinajpur, Bogura, Joypurhat and Gaibandha. Bangladesh's main complaint is that Teesta's water reduces to a trickle in the winter months between December and February, when water is required for sowing of paddy and vegetables.

Diplomatic outreach: Tarique Rahman arrives for a meeting with Chinese President Xi Jinping in Beijing on Friday. REUTERS

To deal with its water requirements, Bangladesh built the Teesta Barrage, the largest irrigation project of the country, in the 1990s. The Teesta Barrage Irrigation Project (TBIP) was built to help the northern region of Bangladesh, as it had a history of being hit by Teesta's floods, followed by a long spell of dry season, both of which used to disturb the local agricultural cycle.

India has built barrages and electricity projects upstream in the Teesta that allow it to harvest Teesta's waters for requirements in West Bengal, Sikkim and Assam. Most prominent among these is the barrage in Gajoldoba in West Bengal, which is a major irrigation project that is controlled by West Bengal.

Whenever India holds water for its needs in Gajoldoba or in power generation units in Sikkim, Bangladesh claims that the part of the Teesta on its side goes low on water. For example, last year in November, TBIP had to shut all its gates as the water flow on the Teesta had reduced. The TBIP is used to store water for nearly 55,000 hectares of land, but the reduction of water on the river causes concern for it as lack of water affects both irrigation as well as commercial activities on the river.

Teesta originates from the spectacular high altitude Cholamu or Tso Lhamu Lake (5100 metres) in the Himalayan range in Sikkim. As the river flows down, it gathers volume from multiple glaciers and streams, and India has built multiple power generation projects on the river.

Deal with India

Bangladesh's main demand from India has been getting what it considers to be a fair share of the Teesta's water so that the irrigation project in North Bangladesh can run smoothly.

The two sides had negotiated the issue of sharing of Teesta's water for decades, and it was taken up again in 2010 when India prepared a set of principles for sharing of Teesta's water, and the two sides agreed to an interim deal.

However, the agreement was not sealed when Prime Minister Manmohan Singh visited Dhaka in 2011, mainly because of objections from Mamata Banerjee, who had spoken about the matter during her election rallies that year.

Ms. Banerjee became Chief Minister that year after defeating the Left.

A joint statement issued on September 7, 2011, in Dhaka said, "The two Prime Ministers welcomed that there has been progress on the principles and modalities of interim agreements on sharing of waters of Teesta and Feni Rivers on a fair and equitable basis. They directed the concerned officials to work towards concluding the agreements at the earliest." At the end, it was clear that Kolkata's objection prevailed over Delhi's plans. Subsequently, Sheikh Hasina repeatedly raised the issue during her visits to Delhi and discussed this matter in June 2024 when a technical committee was planned to take the matter forward.

Before that visit, Foreign Secretary Vinay Kwatra had visited Dhaka and conveyed the Indian offer of financing the $1 billion project to dredge and manage the Teesta in Bangladesh. That was the last attempt by India to deal with the issue, as the two sides did not discuss the matter during the 15-month-long interim rule in Dhaka, which was followed by the BNP government led by Prime Minister Rahman.

The area of Nilphamari and Rangpur is near Jalpaiguri of India, which is where the "chicken's neck" is located. POWERCHINA, which has revived the MoU with Bangladesh, is a large organisation experienced in river projects, but it is also related to the strategic sectors of China.

Stationing a large number of Chinese professionals so close to a sensitive area of India will raise eyebrows in India. However, Bangladesh has several internationally supported projects, including the Ruppur nuclear power plant that has engineers and technicians from multiple countries, including Russia and Ukraine.

From seas to skies, India is becoming self-reliant: Modi

PM highlights indigenously built missile systems, says June was a 'landmark month' for India's defence sector; he thanks people for responding to his call for austerity amid the West Asia crisis

GS III: S&T

Saurabh Trivedi
NEW DELHI

Prime Minister Narendra Modi on Sunday hailed India's growing self-reliance in defence manufacturing, pointing to the maiden flight of the first made-in-India C-295 transport aircraft and the successful test of the indigenous Long-Range Land-Attack Cruise Missile (LRLACM). He also thanked citizens for supporting his appeal for austerity amid the West Asia crisis.

Addressing the nation in his monthly radio programme *Mann Ki Baat*, Mr. Modi said June had been a "landmark month" for India's aviation and defence sectors.

'Indigenous' industry

Referring to the C-295 programme, he said 40 aircraft are being manufactured in India, giving a major boost to the country's MSMEs and aerospace industry while creating employment opportunities.

The first C-295 transport aircraft manufactured in India completed its maiden flight on June 10. The Indian Air Force is procuring 56 aircraft under a ₹21,935-crore deal, with 40 being manufactured by Tata Advanced Systems Limited in partnership with Airbus at a facility in Gujarat's Vadodara.

> As many as 40 such aircraft [C-295] are being built right here in India and this is giving new strength to MSMEs and the aerospace sector ... From the seas to the skies, our India is becoming increasingly secure and self-reliant
>
> NARENDRA MODI
> Prime Minister

The Prime Minister cited the successful flight-test of the indigenous LRLACM conducted by the Defence Research and Development Organisation earlier this month.

"From the seas to the skies, our India is becoming increasingly secure and self-reliant," he said, adding that all major subsystems of the missile had been indigenously developed.

Mr. Modi referred to the recent induction of *INS Dunagiri*, *INS Shanshak*, and *INS Agrya* into the Indian Navy, saying the warships were designed and built entirely in India.

West Asia conflict

The Prime Minister thanked citizens for responding positively to his appeal for conserving resources amid the conflict in West Asia. He said many people had begun carpooling, using public transport, postponing foreign travel and increasing the use of natural fertilizers. He noted that several families had decided to recycle old gold instead of buying new jewellery for weddings.

"I am grateful to every citizen of the country; not only have they supported my appeal, they are also actively cooperating in every way," he said.

The PM praised Nagaland's 'Baby League' football initiative for children aged 5 to 12

Highlighting environmental conservation, Mr. Modi praised the efforts of biologist Purnima Devi Barman in changing public perceptions about Assam's *hargila* bird (greater adjutant) and lauded community initiatives in Meghalaya to preserve the State's living root bridges, for which India has sought UNESCO World Heritage status.

The Prime Minister commended women in Madhya Pradesh's Rajgarh district for converting plastic waste into eco-bricks used for beautifying public spaces and praised Nagaland's 'Baby League' football initiative for children aged five to 12.

For Ganesh Chaturthi, Mr. Modi urged people to purchase idols crafted by Indian artisans, calling on buyers to check the both the material used and the country of manufacture before making their purchase.

New Anaemia Mukt Bharat norms seek early action

GS III: S&T

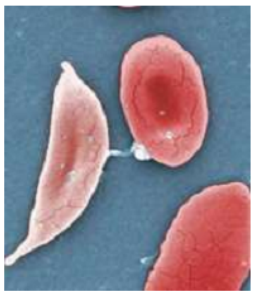
Bindu Shajan Perappadan
NEW DELHI

The Union Health Ministry is set to launch revised operational guidelines for the Anaemia Mukt Bharat Abhiyaan (AMB) on Monday, expanding the national programme's strategy to include a new beneficiary group, greater emphasis on dietary interventions, and digital tracking of beneficiaries.

The guidelines, to be released by Union Health Minister J.P. Nadda during the 16th meeting of the Central Council of Health and Family Welfare at Vigyan Bhawan in Delhi, mark the transition of the programme from Anaemia Mukt Bharat to Anaemia Mukt Bharat Abhiyaan.

New framework

The revised framework seeks to strengthen anaemia control through improved testing, treatment, monitoring and community participation.



Treat and track: The Ministry proposed a digital ecosystem to monitor anaemia services.

The revised programme adds low birth weight babies (0-6 months) as a seventh beneficiary group, recognising the need for early intervention.

A new "eating right" component has been introduced as the seventh intervention to promote the regular consumption of iron-rich and diversified diets. The seventh institutional mechanism focuses on strengthening monitoring and evaluation through digital tracking. The guidelines also replace the existing T3 with a T4 strategy of Test, Treat, Talk, and Track, which emphasises routine haemoglobin testing, treatment according to national anaemia management protocols, systematic tracking of beneficiaries for referral and follow-up, and counselling on healthy dietary practices.

The Ministry has also proposed an integrated digital ecosystem for monitoring anaemia services.

The National Family Health Survey (NFHS-5) shows that 67.1% of children aged six to 59 months, 57% of women aged 15 to 49 years, 52.2% of pregnant women, and 59.1% of adolescent girls aged 15 to 19 years are anaemic.

29J6. New Anaemia Mukt Bharat norms seek early action

एनीमिया मुक्त भारत के नए मानदंड शीघ्र हस्तक्षेप पर जोर देते हैं

- The **Union Health Ministry** is set to launch revised operational guidelines for the **Anaemia Mukt Bharat Abhiyaan (AMB)** on Monday, expanding the national programme's strategy to include a new beneficiary group, greater emphasis on dietary interventions, and digital tracking of beneficiaries.
केंद्रीय स्वास्थ्य मंत्रालय सोमवार को **एनीमिया मुक्त भारत अभियान (AMB)** के संशोधित परिचालन दिशा-निर्देश जारी करने जा रहा है, जिसमें राष्ट्रीय कार्यक्रम की रणनीति का विस्तार करते हुए एक नए लाभार्थी समूह को शामिल किया गया है, आहार संबंधी हस्तक्षेपों पर अधिक जोर दिया गया है तथा लाभार्थियों की डिजिटल ट्रैकिंग की व्यवस्था की गई है।

- The guidelines, to be released by **Union Health Minister J.P. Nadda** during the **16th meeting** of the **Central Council of Health and Family Welfare** at **Vigyan Bhawan** in **Delhi**, mark the transition of the programme from **Anaemia Mukt Bharat** to **Anaemia Mukt Bharat Abhiyaan**.

Smart AI caching can keep the data flowing when disaster strikes

In cooperative caching, different parts of a disaster-response network, including satellites, drones, base stations, and emergency vehicles, work together to store and share useful data; when one node receives or generates important content, such as satellite images or video, nearby nodes may also cache copies based on demand

GS III: S&T

Shamim Haque Mondal

Two years ago, Mundakkai and Churalmala in Kerala experienced powerful landslides that killed hundreds of people. Last year, a large village in Dharali, Uttarakhand, was washed away following heavy rain. In the monsoon season of 2025, the States in Northeast India were devastated by frequent floods. More than a hundred people lost their lives after heavy rain in Uttar Pradesh on May 13-14 this year.

During such disasters, it is common for telecom towers to topple over, power lines to be cut, and roads to be closed. In these situations, real-time information as to what is happening on the ground, where people are stuck, which routes are still open, etc. becomes crucial for rescue workers and medical workers. In the absence of such communication, rescue operations are delayed, more property is damaged, and more lives are lost.

During disasters, real-time information about where people need help and which routes are still open is crucial for rescue and medical workers. REUTERS

THE GIST

It is common for communication to get disrupted when a disaster occurs. The absence of real-time information delays rescue operations

Researchers from Ireland found a way to transmit important real-time information using a technology called collaborative caching even if the local network is in a subpar condition

The work also highlights the importance of a three-tier network, where space, air, and ground are working together, called Space Air Ground Integrated Network (SAGIN)

Cooperative caching

'Solving' communications in disaster-affected areas is a long-standing problem. Recently, in a paper published in the IEEE *Transactions on Services Computing*, researchers from Ireland, led by Sangita Dhara of Trinity College Dublin, presented a novel approach – a way to transmit important real-time information using a technology called collaborative caching even if the local network is in a subpar condition.

At a time of disaster, the local administration typically has three main communication channels: satellite or satellite-based communications, drones or unmanned aerial vehicles, and some *ad hoc* network based on the ground. A satellite can beam data down over a wide area, so accessing that signal is relatively easy, but the big problem here is data latency, i.e. the delay in getting information. Time is of the essence. It is also possible to take pictures from the sky or transmit live video using drones. However, they are limited by their short range, limited battery capacity, and, above all, obstacles in the form of inclement weather. Finally, ground-based wireless networks can help with local communication – but they are often damaged or non-functional during disasters.

In this context, the researchers have presented cooperative caching. Here, different parts of a disaster-response network, including satellites, drones, base stations, and emergency vehicles, work together to store and share useful data. When one node receives or generates important content, such as satellite images or video, nearby nodes may also cache copies based on the demand. This cooperation allows rescue teams to retrieve information from the nearest available source rather than a distant origin, reducing delay, improving reliability when infrastructure is damaged, and increasing the chance that critical information is available in real time.

Automatic decision-making

Creating this caching system is technologically not simple, however. The drones are airborne, rescue vehicles are on the road, and the position of satellites is constantly changing. It is also difficult to know when and where information will be required, plus the storage of each device will be limited.

To address this problem, the researchers developed a statistical model called contextual multi-armed bandit (CMAB), an AI model that optimises caching decisions quickly.

The model learns from each of the previous decisions, then reviews three factors: what data are recently available, what data demand is currently high, and how much memory is needed in the cache.

For example, it would be helpful to understand that a photo taken 10 minutes before a flood is more effective than a photo taken one hour before the flood. Similarly, video footage or a map of a place that most rescuers are asking for is more important than those that fewer ones are looking for. Sometimes, instead of caching high-resolution video – such as 4K video – short text alerts or warning messages could help rescuers remain

The researchers developed a statistical model called contextual multi-armed bandit, an AI model that optimised caching decisions quickly

productive without taking up large amounts of storage. The model is taught to make such decisions automatically.

Federated learning

While in CMAB each node learns from what information it alone has, a more advanced version called FMAB – short for federated multi-armed bandit – learns from its information as well as what the nodes nearby have learnt.

"Caching decisions are executed periodically rather than per request, amortising the computational cost," the researchers wrote in their paper. "Even the highest observed decision latency of Contextual MAB [around 87 microseconds] remains negligible compared to network delays, ensuring system complexity does not hinder the practical applicability for dynamic and real-time, post-disaster deployments."

The work also highlights the importance of a three-tier network, where space, air, and ground are working together, called Space Air Ground Integrated Network (SAGIN). Here, each layer plays a unique role, but the limitations that exist between them are greatly reduced due to caching, and the system becomes more efficient. In the post-disaster scenario, it is important not to look at all the information that is available but only at which information is more useful. An updated road map can tell us which bridges are still usable while a live video can let us know that boats are urgently needed in a specific part of the floodplain.

All together

As a result, content should be seen not only as data but as time-dependent actionable data. And the goal of advanced caching should be to learn how to store the most valuable information in the most appropriate place with limited resources.

To meet this goal, SAGIN works to build external infrastructure, CMAB helps to make acceptable decisions, and FMAB can make the network stronger in the post-disaster period by spreading those decisions across multiple nodes.

However, the results of this simulation-based study depend on many parameters, such as the weather at the time, the flight of the drone, energy management, hardware malfunctions, cyber security, and the behaviour of rescuers in reality.

Moreover, it is not always technically possible to determine which content is valuable or preferable. In many cases, the needs of the local administration or humanitarian considerations can also speed up the rescue.

Contact Number : 9971932488
Website : patrioticias.in

कभी-कभी **उच्च-रिज़ॉल्यूशन वीडियो**, जैसे **4K वीडियो**, को कैश करने के स्थान पर संक्षिप्त **पाठ चेतावनियाँ** अथवा **चेतावनी संदेश** बचावकर्मियों को अधिक **भंडारण** उपयोग किए बिना प्रभावी ढंग से कार्य करने में सहायता कर सकते हैं।

- "Even the highest observed **decision latency** of **Contextual MAB** [around **87 microseconds**] remains negligible compared to **network delays**, ensuring system complexity does not hinder the practical applicability for dynamic and **real-time**, post-disaster deployments."
"**कॉन्टेक्स्चुअल MAB** की अब तक देखी गई सर्वाधिक **निर्णय विलंबता** [लगभग **87 माइक्रोसेकंड**] भी **नेटवर्क विलंब** की तुलना में नगण्य रहती है, जिससे यह सुनिश्चित होता है कि प्रणाली की जटिलता, आपदा के बाद गतिशील तथा **वास्तविक समय** के उपयोग में बाधा नहीं बनती।"
- The work also highlights the importance of a **three-tier network**, where **space**, **air**, and **ground** are working together, called **Space Air Ground Integrated Network (SAGIN)**.
यह अध्ययन **त्रि-स्तरीय नेटवर्क** के महत्व को भी रेखांकित करता है, जिसमें **अंतरिक्ष**, **वायु** और **भूमि** मिलकर कार्य करते हैं, जिसे **स्पेस एयर ग्राउंड इंटीग्रेटेड नेटवर्क (SAGIN)** कहा जाता है।

Life on Mars: enduring mystery

GS III: S&T

Vasudevan Mukunth

In a new study in *Science Advances*, an international team of researchers has reported finding organic matter on Mars. Using the NASA Perseverance rover, the team recorded a distribution of complex organic carbon within an ancient river valley on the red planet's Jezero Crater.

Using the rover's SHERLOC instrument, the researchers detected a complex and hardy form of organic matter called macromolecular carbon within fine-grained mudstones. According to the study paper, published in *Science Advances*, this is significant as it represents the most robust detection of organic material in Jezero Crater to date and is the first time such a material has been found directly on a natural rock surface on Mars.

Over the last decade, the NASA Curiosity rover has found organic molecules in Gale Crater, proving the building blocks of life could be preserved in Mars's lakebed rocks. However, Perseverance's previous scans of the floor of Jezero Crater only showed localised and faint hints of organic materials.

The new evidence, from the Neretva Vallis channel, suggests organic matter could be more widespread on Mars than thought. The fact that these organic materials have also been found alongside minerals like carbonates and

A selfie taken by NASA's Perseverance Mars rover in 2025 shows the Cheyava Falls rock to the rover's left. NASA

sulphates suggests they may have been trapped and preserved by water-driven processes billions of years ago.
While the new study noted that these organics could have been formed by geological (i.e. abiotic) processes rather than biological ones, the findings are, in the paper's words, "astrobiologically compelling", showing that complex carbon can survive the planet's harsh radiation for aeons.

29J6. Life on Mars: enduring mystery

मंगल ग्रह पर जीवन: एक शाश्वत रहस्य

Organic matter found on Mars
मंगल ग्रह पर कार्बनिक पदार्थ की खोज

- In a new study in **Science Advances**, an international team of researchers has reported finding **organic matter** on **Mars**.

Science Advances में प्रकाशित एक नए अध्ययन में अंतरराष्ट्रीय शोधकर्ताओं की एक टीम ने **मंगल ग्रह** पर **कार्बनिक पदार्थ** मिलने की सूचना दी है।

- Using the **NASA Perseverance rover**, the team recorded a distribution of **complex organic carbon** within an ancient **river valley** on the red planet's **Jezero Crater**.

NASA Perseverance रोवर का उपयोग करते हुए टीम ने लाल ग्रह के **जेज़ेरो क्रेटर** की एक प्राचीन **नदी घाटी** में **जटिल कार्बनिक कार्बन** के वितरण का अभिलेखन किया।

- Using the rover's **SHERLOC instrument**, the researchers detected a complex and hardy form of **organic matter** called **macromolecular carbon** within fine-grained **mudstones**.

रोवर के **SHERLOC उपकरण** का उपयोग करते हुए शोधकर्ताओं ने महीन कणों वाली **मडस्टोन** चट्टानों में **मैक्रोमॉलिक्यूलर कार्बन** नामक **कार्बनिक पदार्थ** के एक जटिल और टिकाऊ रूप का पता लगाया।

- Over the last decade, the **NASA Curiosity rover** has found **organic molecules** in **Gale Crater**, proving the **building blocks of life** could be preserved in **Mars's lakebed rocks**.

पिछले एक दशक में **NASA Curiosity रोवर** ने **गेल क्रेटर** में **कार्बनिक अणुओं** का पता लगाया है, जिससे यह सिद्ध हुआ कि **जीवन के आधारभूत घटक मंगल ग्रह की झील-तल की चट्टानों** में संरक्षित रह सकते हैं।

- However, **Perseverance's** previous scans of the floor of **Jezero Crater** only showed localised and faint hints of **organic materials**.

हालाँकि, **Perseverance** द्वारा **जेज़ेरो क्रेटर** की सतह पर पहले किए गए स्कैन में केवल सीमित और अत्यंत हल्के रूप में **कार्बनिक पदार्थों** के संकेत मिले थे।

- The fact that these **organic materials** have also been found alongside minerals like **carbonates** and **sulphates** suggests they may have been trapped and preserved by **water-driven processes** billions of years ago.
यह तथ्य कि ये **कार्बनिक पदार्थ कार्बोनेट** तथा **सल्फेट** जैसे खनिजों के साथ भी पाए गए हैं, यह संकेत देता है कि अरबों वर्ष पूर्व **जल-प्रेरित प्रक्रियाओं** द्वारा ये फँस गए और संरक्षित हो गए होंगे।
- While the new study noted that these **organics** could have been formed by **geological (i.e. abiotic) processes** rather than **biological** ones, the findings are, in the paper's words, "**astrobiologically compelling**", showing that **complex carbon** can survive the planet's harsh **radiation** for **aeons**.
यद्यपि नए अध्ययन में यह उल्लेख किया गया है कि ये **कार्बनिक पदार्थ भूवैज्ञानिक (अर्थात् अजैविक) प्रक्रियाओं** से भी बने हो सकते हैं, न कि **जैविक प्रक्रियाओं** से, फिर भी शोधपत्र के शब्दों में ये निष्कर्ष "**खगोल-जैवविज्ञान की दृष्टि से अत्यंत महत्वपूर्ण**" हैं, क्योंकि ये दर्शाते हैं कि **जटिल कार्बन** ग्रह के तीव्र **विकिरण** के बीच भी **अनगिनत युगों** तक सुरक्षित रह सकता है।

GS III: S&T

Buyer beware

Tracking down defective batches of drugs is essential

The Health Ministry's notification to expand Schedule H2 drugs to entire therapeutic classes now from a curated list of brands earlier is a commendable change from regulating based on revenue to regulating based on risk. The government had introduced Schedule H2 in 2022-23, which required a barcode or QR code on each pack of specific drugs to verify the pack's authenticity. It is part of a framework that also touches on regulating active pharmaceutical ingredients and export-oriented pharmaceutical compliance. Now, with the additional symbols encoding a product identifier, the manufacturing licence number, batch number, and other details, authorities hope to better track down defective batches. Counterfeit networks have long targeted vaccines, cancer medicines and antimicrobials, with WHO flagging high volumes of fake antimicrobials in low- and middle-income countries. India has one of the world's highest antimicrobial resistance rates, and substandard antimicrobials can lead to sub-therapeutic dosing, exerting selection pressure on resistant strains. The Narcotics Control Bureau has also expressed concerns about medicinal opioids and psychotropic substances 'leaking' into illicit markets. The government will hope that the new system addresses the U.S. FDA's and the European Medicines Agency's recurring concerns about quality control, an issue on which India has found itself on the back foot over contaminated cough syrups. The U.S. Trade Representative has also repeatedly identified India as a leading source of counterfeit medicines, with many fake pharmaceuticals seized at the U.S. border originating from or transiting through India.

Together with policy changes effected by the Jan Vishwas Act 2026, the new framework finally distinguishes between procedural non-compliance and substantial non-compliance, considering only the latter constitutes meaningful enforcement. In the long term, the government should rationalise the compliance burden and eliminate the risk of corruption associated with discretionary enforcement. The government must also recognise that the QR code system will only be effective if backed by a state-managed database that pharmacists and regulators can access in real time, supported by interoperable software and scanning infrastructure across States. Second, pharmacists and consumers must develop a habit of verifying medicines before a sale. Third, the compliance needs imposed by new packaging requirements and the IT integration will strain MSME manufacturers in particular. Finally, prescription data on controlled substances is sensitive information and will need to be handled with a digital governance layer that does not yet exist. Thus, whether the new framework will improve India's reputation as a pharmacy comes down to its implementation.

29J6. Buyer beware
खरीदार सावधान

Tracking down defective batches of drugs is essential
दवाओं के दोषपूर्ण बैचों का पता लगाना अत्यंत आवश्यक है

- The **Health Ministry's** notification to expand **Schedule H2 drugs** to entire therapeutic classes now from a curated list of brands earlier is a commendable change from regulating based on revenue to regulating based on risk.
स्वास्थ्य मंत्रालय की अधिसूचना, जिसके तहत **शेड्यूल H2 दवाओं** को पहले केवल चुनिंदा ब्रांडों की सूची तक सीमित रखने के बजाय अब संपूर्ण चिकित्सीय श्रेणियों तक विस्तारित किया गया है, राजस्व-आधारित नियमन से जोखिम-आधारित नियमन की दिशा में एक सराहनीय परिवर्तन है।
- The government had introduced **Schedule H2** in **2022-23**, which required a **barcode** or **QR code** on each pack of specific drugs to verify the pack's authenticity.
सरकार ने **2022-23** में **शेड्यूल H2** लागू किया था, जिसके तहत कुछ विशेष दवाओं के प्रत्येक पैक पर उसकी प्रामाणिकता की पुष्टि के लिए **बारकोड** या **QR कोड** अनिवार्य किया गया था।
- **Counterfeit networks** have long targeted **vaccines**, **cancer medicines** and **antimicrobials**, with **WHO** flagging high volumes of fake antimicrobials in **low- and middle-income countries**.
नकली दवाओं के नेटवर्क लंबे समय से **टीकों**, **कैंसर की दवाओं** और **एंटीमाइक्रोबियल्स** को निशाना बनाते रहे हैं, जबकि **WHO** ने **निम्न एवं मध्यम आय वाले देशों** में नकली एंटीमाइक्रोबियल्स की बड़ी मात्रा पर चिंता जताई है।
- The **Narcotics Control Bureau** has also expressed concerns about **medicinal opioids** and **psychotropic substances** 'leaking' into illicit markets.
नारकोटिक्स कंट्रोल ब्यूरो ने भी **औषधीय ओपिऑयड्स** तथा **मनोप्रभावी पदार्थों** के अवैध बाजारों में पहुँचने को लेकर चिंता व्यक्त की है।

- Together with policy changes effected by the **Jan Vishwas Act 2026**, the new framework finally distinguishes between **procedural non-compliance** and **substantial non-compliance**, considering only the latter constitutes meaningful enforcement.
  जन विश्वास अधिनियम 2026 के तहत किए गए नीतिगत परिवर्तनों के साथ यह नया ढांचा अंततः **प्रक्रियात्मक अनुपालनहीनता** और **गंभीर अनुपालनहीनता** के बीच अंतर स्थापित करता है तथा केवल बाद वाली को सार्थक प्रवर्तन का आधार मानता है।
- In the long term, the government should rationalise the compliance burden and eliminate the risk of corruption associated with discretionary enforcement.
  दीर्घकाल में सरकार को अनुपालन संबंधी बोझ को तर्कसंगत बनाना चाहिए तथा विवेकाधीन प्रवर्तन से जुड़े भ्रष्टाचार के जोखिम को समाप्त करना चाहिए।
- The government must also recognise that the **QR code system** will only be effective if backed by a **state-managed database** that pharmacists and regulators can access in real time, supported by interoperable software and scanning infrastructure across States.
  सरकार को यह भी समझना चाहिए कि **QR कोड प्रणाली** तभी प्रभावी होगी, जब उसे **राज्य-प्रबंधित डेटाबेस** का समर्थन प्राप्त होगा, जिसे फार्मासिस्ट और नियामक वास्तविक समय में उपयोग कर सकें, तथा सभी राज्यों में परस्पर संगत सॉफ्टवेयर और स्कैनिंग अवसंरचना उपलब्ध हो।

Screenplay maestro and everyday hero of Tamil cinema takes his last bow

PCS

B. Kolappan
CHENNAI

Renowned Tamil actor, director, writer, and screenwriter K. Bhagyaraj, whose mastery over screenplay was widely acknowledged and who created a storytelling formula that has influenced generations of filmmakers, died on Saturday. He was 73.

Sources said he suffered a massive heart attack. Speaking at his residence, actor Suhasini Maniratnam said Bhagyaraj had returned to Chennai on Friday night after attending actor Khushboo's daughter's wedding in Goa.

On Saturday morning, he went for a walk with his wife Poornima, but complained of chest pain on his return home. He was rushed to Apollo Hospital and efforts were made to resuscitate him, but they proved futile.

Bhagyaraj directed, produced and starred in numerous hit films celebrated for their engaging storylines, memorable songs, and relatable characters. *Mounageethangal*, *Antha Ezhu Naatkal*, and *Munthanai Mudichu* are some of his films being studied even today. Nearly every film of Bhagyaraj spoke loudly about an idea which found an echo within Tamil society.

An assistant of Bharathiraja, who also died recently, he forever changed the perception of the Tamil film hero by proving wit, intelligence, and ordinariness could be as compelling as physical prowess and a striking presence. He combined qualities of a hero and a comedian, making his bespectacled appearances as hero both entertaining and deeply human.

His idea of a hero was not even the man next door, but one among the many on the streets.

He also tried his hand at politics, being an ardent fan of M.G. Ramachandran, though he was not very successful in this sphere. He edited the Tamil weekly magazine *Bhagya* and authored several novels as well.

K. BHAGYARAJ (1953-2026)

His funeral will be held on Sunday afternoon at the Besant Nagar Crematorium with State honours.

He began working in the film industry in the mid-1970s as an assistant director under Bharathiraja, working in iconic films such as *16 Vayathinilale*, *Kizhakke Pogum Rail*, and *Sigappu Rojakkal*. He developed his skills as a dialogue and screenplay writer.

Prolific career

His debut as a hero was in the movie *Pudhiya Vaarpugal*, co-starring Rati Agnihotri, and his directorial debut was with the film *Suvarillatha Chithirangal*.

In 1981, he married co-star Praveena, but she died in 1983. The next year, he married Poornima, his co-star from movie *Darling, Darling, Darling*. He has directed 27 feature films across the Tamil and Hindi languages. When the hit Tamil film *Oru Kaidhiyin Diary* (1985) – originally directed by Bharathiraja and starring Kamal Haasan – was remade in Hindi as *Aakhree Raasta* (1986), Bhagyaraj was roped in as the director.

Following this success, Bhagyaraj went on to direct *Mr. Bechara* (1996), the Hindi remake of his own hit Tamil directorial venture, *Veetla Visheshanga* (1994), casting Anil Kapoor and Sridevi in the lead roles.

He later helmed *Papa the Great* (2000), a Hindi remake of his 1998 Tamil film *Vettiya Madichu Kattu*, starring Krishan Kumar and Nagma. However, this particular venture failed to make a mark at the box office.

In the subsequent phase of his directorial career, the only film that stood out was *Chokka Thangam*. Beyond his work behind the camera, Bhagyaraj has had a prolific acting career, appearing in over 80 films across Tamil and other regional languages.

Demonstrating his versatility, he also composed the music for five films.

His corneas were donated to an eyebank in Chennai.

- **Renowned** Tamil actor, director, writer, and screenwriter **K. Bhagyaraj**, whose mastery over **screenplay** was widely acknowledged and who created a storytelling formula that has influenced generations of filmmakers, died on Saturday.
  प्रसिद्ध तमिल अभिनेता, निर्देशक, लेखक और पटकथा लेखक **के. भाग्यराज**, जिनकी **पटकथा लेखन** पर अद्भुत पकड़ व्यापक रूप से स्वीकार की गई थी और जिन्होंने ऐसी कहानी कहने की शैली विकसित की जिसने कई पीढ़ियों के फिल्मकारों को प्रभावित किया, का शनिवार को निधन हो गया।
- He was **73**.
  वे **73 वर्ष** के थे।
- Sources said he suffered a **massive heart attack**.
  सूत्रों ने बताया कि उन्हें **गंभीर हृदयाघात** हुआ था।
- Speaking at his residence, actor **Suhasini Maniratnam** said Bhagyaraj had returned to **Chennai** on Friday night after attending actor **Khushboo's** daughter's wedding in **Goa**.
  उनके आवास पर अभिनेत्री **सुहासिनी मणिरत्नम** ने बताया कि भाग्यराज अभिनेता **खुशबू** की बेटी की शादी में **गोवा** शामिल होने के बाद शुक्रवार रात **चेन्नई** लौटे थे।
- On Saturday morning, he went for a walk with his wife **Poornima**, but complained of **chest pain** on his return home.
  शनिवार सुबह वह अपनी पत्नी **पूर्णिमा** के साथ टहलने गए, लेकिन घर लौटने पर उन्होंने **सीने में दर्द** की शिकायत की।
- He was rushed to **Apollo Hospital** and efforts were made to resuscitate him, but they proved futile.
  उन्हें तुरंत **अपोलो अस्पताल** ले जाया गया और उन्हें पुनर्जीवित करने के प्रयास किए गए, लेकिन वे सफल नहीं हो सके।
- Bhagyaraj directed, produced and starred in numerous hit films celebrated for their engaging storylines, memorable songs, and relatable characters.
  भाग्यराज ने अनेक सफल फिल्मों का निर्देशन, निर्माण और अभिनय किया, जो अपनी रोचक कहानियों, यादगार गीतों और आम लोगों से जुड़े पात्रों के लिए प्रसिद्ध रहीं।
- **Mounageethangal**, **Antha Ezhu Naatkal**, and **Munthanai Mudichu** are some of his films being studied even today.

मौनगीतंगल, **अन्था एझु नाटकल**, और **मुन्थानई मुडिचु** उनकी ऐसी फिल्में हैं जिनका अध्ययन आज भी किया जाता है।

- Nearly every film of Bhagyaraj spoke loudly about an idea which found an echo within **Tamil society**.
  भाग्यराज की लगभग हर फिल्म ने ऐसे विचारों को प्रस्तुत किया जो **तमिल समाज** में गूंजते थे।
- An assistant of **Bharathiraja**, who also died recently, he forever changed the perception of the **Tamil film hero** by proving wit, intelligence, and ordinariness could be as compelling as physical prowess and a striking presence.
  हाल ही में दिवंगत हुए **भारथिराजा** के सहायक रहे भाग्यराज ने यह सिद्ध कर **तमिल फिल्म नायक** की परिभाषा बदल दी कि बुद्धिमत्ता, चतुराई और साधारण व्यक्तित्व भी शारीरिक शक्ति और प्रभावशाली उपस्थिति जितने आकर्षक हो सकते हैं।
- He combined qualities of a hero and a comedian, making his bespectacled appearances as hero both entertaining and deeply human.
  उन्होंने नायक और हास्य कलाकार दोनों के गुणों का संयोजन किया, जिससे चश्मा पहने उनका नायक रूप मनोरंजक होने के साथ-साथ मानवीय भी बन गया।
- His idea of a hero was not even the man next door, but one among the many on the streets.
  उनके अनुसार नायक पड़ोस का व्यक्ति भी नहीं, बल्कि सड़क पर चलने वाले अनेक सामान्य लोगों में से एक था।
- He also tried his hand at **politics**, being an ardent fan of **M.G. Ramachandran**, though he was not very successful in this sphere.
  उन्होंने **राजनीति** में भी हाथ आजमाया और वे **एम.जी. रामचंद्रन** के प्रबल प्रशंसक थे, हालांकि इस क्षेत्र में उन्हें अधिक सफलता नहीं मिली।
- He edited the Tamil weekly magazine **Bhagya** and authored several novels as well.
  उन्होंने तमिल साप्ताहिक पत्रिका **भाग्य** का संपादन किया और कई उपन्यास भी लिखे।
- His funeral will be held on Sunday afternoon at the **Besant Nagar Crematorium** with **State honours**.
  उनका अंतिम संस्कार रविवार दोपहर **बेसेंट नगर श्मशान घाट** में **राजकीय सम्मान** के साथ किया जाएगा।
- He began working in the film industry in the **mid-1970s** as an assistant director under **Bharathiraja**, working in iconic films such as **16 Vayathinilale**, **Kizhakke Pogum Rail**, and **Sigappu Rojakkal**.
  उन्होंने **1970 के दशक के मध्य** में **भारथिराजा** के सहायक निर्देशक के रूप में फिल्म उद्योग में कार्य शुरू किया और **16 वयथिनिले**, **किझक्के पोगुम रेल**, तथा **सिगप्पु रोजक्कल** जैसी प्रतिष्ठित फिल्मों में काम किया।
- He developed his skills as a **dialogue** and **screenplay writer**.
  उन्होंने **संवाद** और **पटकथा लेखन** में अपनी दक्षता विकसित की।

Prolific career
समृद्ध करियर

- His debut as a hero was in the movie **Pudhiya Vaarpugal**, co-starring **Rati Agnihotri**, and his directorial debut was with the film **Suvarillatha Chithirangal**.
  एक नायक के रूप में उनकी पहली फिल्म **पुधिया वार्पुगल** थी, जिसमें **रति अग्निहोत्री** सह-अभिनेत्री थीं, जबकि निर्देशन में उनकी पहली फिल्म **सुवारिल्लाथा चित्रंगल** थी।
- In **1981**, he married co-star **Praveena**, but she died in **1983**.
  1981 में उन्होंने सह-अभिनेत्री **प्रवीणा** से विवाह किया, लेकिन **1983** में उनका निधन हो गया।
- The next year, he married **Poornima**, his co-star from movie **Darling, Darling, Darling**.
  अगले वर्ष उन्होंने फिल्म **डार्लिंग, डार्लिंग, डार्लिंग** की सह-अभिनेत्री **पूर्णिमा** से विवाह किया।
- He has directed **27 feature films** across the Tamil and Hindi languages.
  उन्होंने तमिल और हिंदी भाषाओं में **27 फीचर फिल्मों** का निर्देशन किया।

- When the hit Tamil film **Oru Kaidhiyin Diary (1985)** — originally directed by **Bharathiraja** and starring **Kamal Haasan** — was remade in Hindi as **Aakhree Raasta (1986)**, Bhagyaraj was roped in as the director.
  जब सफल तमिल फिल्म **ओरु कैधियिन डायरी (1985)** — जिसका मूल निर्देशन **भारथिराजा** ने किया था और जिसमें **कमल हासन** मुख्य भूमिका में थे — का हिंदी में **आख़री रास्ता (1986)** के रूप में पुनर्निर्माण हुआ, तब भाग्यराज को उसका निर्देशक बनाया गया।
- Following this success, Bhagyaraj went on to direct **Mr. Bechara (1996)**, the Hindi remake of his own hit Tamil directorial venture, **Veetla Visheshanga (1994)**, casting **Anil Kapoor** and **Sridevi** in the lead roles.
  इस सफलता के बाद भाग्यराज ने **मिस्टर बेचारा (1996)** का निर्देशन किया, जो उनकी तमिल हिट फिल्म **वीटला विशेषांगा (1994)** का हिंदी रीमेक थी, जिसमें **अनिल कपूर** और **श्रीदेवी** मुख्य भूमिकाओं में थे।
- He later helmed **Papa the Great (2000)**, a Hindi remake of his **1998** Tamil film **Vettiya Madichu Kattu**, starring **Krishan Kumar** and **Nagma**.
  बाद में उन्होंने **पापा द ग्रेट (2000)** का निर्देशन किया, जो उनकी **1998** की तमिल फिल्म **वेट्टिया मडिचु कट्टु** का हिंदी रीमेक थी, जिसमें **कृष्ण कुमार** और **नगमा** मुख्य भूमिकाओं में थे।
- However, this particular venture failed to make a mark at the **box office**.
  हालांकि यह फिल्म **बॉक्स ऑफिस** पर कोई विशेष सफलता प्राप्त नहीं कर सकी।
- In the subsequent phase of his directorial career, the only film that stood out was **Chokka Thangam**.
  उनके निर्देशन के बाद के दौर में केवल **चोक्का थंगम** ही उल्लेखनीय फिल्म रही।
- Beyond his work behind the camera, Bhagyaraj has had a prolific acting career, appearing in over **80 films** across Tamil and other regional languages.
  कैमरे के पीछे कार्य करने के अलावा, भाग्यराज का अभिनय करियर भी अत्यंत समृद्ध रहा और उन्होंने तमिल तथा अन्य क्षेत्रीय भाषाओं की **80 से अधिक फिल्मों** में अभिनय किया।
- Demonstrating his versatility, he also composed the **music** for **five films**.
  अपनी बहुमुखी प्रतिभा का परिचय देते हुए उन्होंने **पांच फिल्मों** के लिए **संगीत** भी तैयार किया।
- His **corneas** were donated to an **eyebank** in **Chennai**.
  उनकी **नेत्र कॉर्निया चेन्नई** के एक **आई बैंक** को दान कर दी गईं।

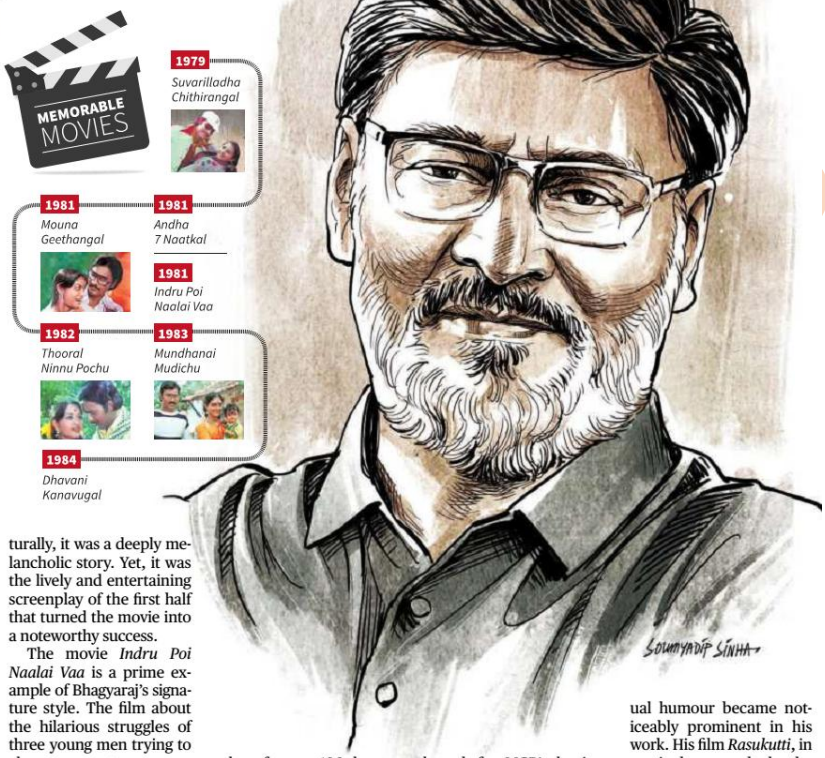
A master of screenplay and storytelling

The success formula of Bhagyaraj's hit movies was simple – stories woven around relatable everyday conflicts and sprinkled with good songs and situational humour

K. Murali Tharan
CHENNAI



K. Bhagyaraj is one of the very few directors in the Tamil film industry who has been widely acclaimed for his screenwriting. During the late 1970s – a period when stalwarts like K. Balachander and C.V. Sridhar were actively dominating the industry – Bhagyaraj carved out a niche for himself through his engaging and interesting screenplay design.

Arriving in Chennai with the aspiration of becoming a film director, the first movie Bhagyaraj worked on, was as an assistant director for *Ezhai Panakkaran*. Directed by G. Ramakrishnan, the shooting of this film ground to a halt within just two days. It was after this setback that Bhagyaraj went on to join director Bharathiraja. Having worked on films like *16 Vayathinile* and *Kizhakke Pogum Rail*, he wrote the dialogues for *Sigappu Rojakkal*.

Although Bhagyaraj was highly skilled in writing screenplays and dialogues, a film featuring him as the lead actor was released even before a film under his own direction could hit the screens.

When Bharathiraja wanted to make the film *Puthiya Vaarpugal*, he chose Bhagyaraj as the protagonist. Bhagyaraj also penned the dialogues for the movie. Becoming a massive success, this film effectively established Bhagyaraj among the masses.

However, his talent truly shone on the silver screen when his directorial debut, *Suvarillatha Chithirangal*, was released in 1979. Structurally, it was a deeply melancholic story. Yet, it was the lively and entertaining screenplay of the first half that turned the movie into a noteworthy success.

The movie *Indru Poi Naalai Vaa* is a prime example of Bhagyaraj's signature style. The film about the hilarious struggles of three young men trying to charm a young woman remains a cult classic comedy 45 years after its release.

Similarly, the movie *Antha 7 Naatkal* is a pivotal milestone in Bhagyaraj's career. The screenplay, dialogues, songs, and comedy of this film were all exceptionally well-crafted.

With a string of movies such as *Oru Kai Osai, Mouna Geethangal, Vidiyum Varai Kaathiru, Thooral Ninnu Pochu, Darling Darling Darling, and Munthanai Mudichu*, Bhagyaraj rapidly emerged as one of the most successful directors in the Tamil film industry. Many of the films he directed ran for over 100 days.

A prime example of Bhagyaraj's genius was reviving a stalled M.G. Ramachandran (MGR) film after several years by seamlessly weaving it into a brand-new screenplay. The film *Anna Nee En Deivam*, starring MGR, was originally being directed by C.V. Sridhar. However, since MGR became the Chief Minister, the film was shelved after shooting only about 5,000 feet of reel. Bhagyaraj took those existing scenes, wrote a completely fresh screenplay around them, and filmed it under the title *Avasara Police 100*. Released after MGR's demise, the movie enjoyed a successful run at the box office.

Beyond the script

Bhagyaraj's cinematic prowess, however, did not stop at acting, directing, and dialogue writing; he also demonstrated remarkable talent in music composition. Several songs from the movies he scored – such as *Idhu Namma Aalu, Aararo Aariraro, and Pavunnu Pavunuthan*– became chartbusters at the time.

However, post-*Munthanai Mudichu*, critics noted that adult-themed and sexual humour became noticeably prominent in his work. His film *Rasukutti*, in particular, marked the peak of this trend.

Over time, this style evolved to become a definitive hallmark of his cinema.

"As far as Bhagyaraj is concerned, he expanded the boundaries of Tamil cinema in the '80s and amplified its entertainment quotient. He achieved popularity by blending a lot of music, comedy, and glamour with realistic storytelling. It was because of these elements that his films achieved massive commercial success," said Tamil film historian Theodore Baskaran.

28J6. A master of screenplay and storytelling
पटकथा और कहानी कहने की कला के महारथी

- **The success formula** of **Bhagyaraj's** hit movies was simple — stories woven around relatable everyday conflicts and sprinkled with good songs and situational humour.
  भग्याराज की सफल फिल्मों का **सफलता सूत्र** सरल था — ऐसी कहानियाँ जो दैनिक जीवन के **संबंधित संघर्षों** के इर्द-गिर्द बुनी गई थीं और जिनमें अच्छे गीत तथा परिस्थितिजन्य हास्य का समावेश था।
- **K. Bhagyaraj** is one of the very few directors in the **Tamil film industry** who has been widely acclaimed for his **screenwriting**.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur

Website : patrioticias.in

के. भग्याराज तमिल फिल्म उद्योग के उन चुनिंदा निर्देशकों में से एक हैं जिन्हें उनकी **पटकथा लेखन** कला के लिए व्यापक प्रशंसा मिली।

- During the **late 1970s** — a period when stalwarts like **K. Balachander** and **C.V. Sridhar** were actively dominating the industry — Bhagyaraj carved out a niche for himself through his engaging and interesting **screenplay design**.
  1970 के दशक के उत्तरार्ध में — जब **के. बालाचंदर** और **सी.वी. श्रीधर** जैसे दिग्गज उद्योग पर अपना वर्चस्व बनाए हुए थे — भग्याराज ने अपनी आकर्षक और रोचक **पटकथा शैली** के माध्यम से अपनी अलग पहचान बनाई।
- Arriving in **Chennai** with the aspiration of becoming a **film director**, the first movie Bhagyaraj worked on, was as an **assistant director** for **Ezhai Panakkaran**.
  फिल्म निर्देशक बनने की आकांक्षा लेकर **चेन्नई** पहुँचे भग्याराज ने अपनी पहली फिल्म **एझाई पनक्कारण** में **सहायक निर्देशक** के रूप में कार्य किया।
- Directed by **G. Ramakrishnan**, the shooting of this film ground to a halt within just two days.
  जी. रामकृष्णन द्वारा निर्देशित इस फिल्म की शूटिंग मात्र दो दिनों के भीतर ही रुक गई।
- It was after this setback that Bhagyaraj went on to join director **Bharathiraja**.
  इसी असफलता के बाद भग्याराज ने निर्देशक **भारतीराजा** के साथ कार्य करना प्रारम्भ किया।
- Having worked on films like **16 Vayathinile** and **Kizhakke Pogum Rail**, he wrote the dialogues for **Sigappu Rojakkal**.
  16 वयथिनिले और **किझक्के पोगुम रेल** जैसी फिल्मों में कार्य करने के बाद उन्होंने **सिगप्पु रोजाक्कल** के संवाद लिखे।
- Although Bhagyaraj was highly skilled in writing **screenplays** and **dialogues**, a film featuring him as the **lead actor** was released even before a film under his own direction could hit the screens.
  यद्यपि भग्याराज **पटकथा** और **संवाद लेखन** में अत्यंत निपुण थे, फिर भी उनके निर्देशन वाली फिल्म के रिलीज़ होने से पहले ही उनके **मुख्य अभिनेता** के रूप में अभिनीत फिल्म प्रदर्शित हो गई।
- When **Bharathiraja** wanted to make the film **Puthiya Vaarpugal**, he chose Bhagyaraj as the protagonist.
  जब **भारतीराजा** ने **पुथिया वार्पुगल** बनाने का निर्णय लिया, तो उन्होंने भग्याराज को नायक के रूप में चुना।
- Bhagyaraj also penned the **dialogues** for the movie.
  भग्याराज ने इस फिल्म के **संवाद** भी लिखे।
- Becoming a massive success, this film effectively established Bhagyaraj among the masses.
  यह फिल्म बड़ी **सफलता** सिद्ध हुई और इसने भग्याराज को आम जनता के बीच स्थापित कर दिया।
- However, his talent truly shone on the silver screen when his **directorial debut**, **Suvarillatha Chithirangal**, was released in **1979**.
  हालाँकि, उनकी प्रतिभा वास्तव में तब सामने आई जब उनकी पहली निर्देशित फिल्म **सुवरिल्लाथा चित्रंगल** **1979** में प्रदर्शित हुई।
- Structurally, it was a deeply melancholic story.
  संरचनात्मक दृष्टि से यह एक अत्यंत **मार्मिक** कहानी थी।
- Yet, it was the lively and entertaining **screenplay** of the first half that turned the movie into a noteworthy success.
  फिर भी, पहले भाग की जीवंत और मनोरंजक **पटकथा** ने इस फिल्म को उल्लेखनीय सफलता दिलाई।
- The movie **Indru Poi Naalai Vaa** is a prime example of Bhagyaraj's signature style.
  फिल्म **इन्द्रु पोई नालै वा** भग्याराज की विशिष्ट शैली का उत्कृष्ट उदाहरण है।
- The film about the hilarious struggles of **three young men** trying to charm a **young woman** remains a **cult classic comedy** 45 years after its release.
  तीन युवकों द्वारा एक **युवती** को प्रभावित करने के हास्यपूर्ण प्रयासों पर आधारित यह फिल्म रिलीज़ के **45 वर्ष** बाद भी एक **कल्ट क्लासिक कॉमेडी** बनी हुई है।

- Similarly, the movie **Antha 7 Naatkal** is a pivotal milestone in Bhagyaraj's career.
  इसी प्रकार, **अन्था 7 नाटकल** भग्याराज के करियर का एक महत्वपूर्ण मील का पत्थर है।
- The **screenplay**, **dialogues**, **songs**, and **comedy** of this film were all exceptionally well-crafted.
  इस फिल्म की **पटकथा**, **संवाद**, **गीत** और **कॉमेडी** सभी अत्यंत उत्कृष्ट ढंग से तैयार किए गए थे।
- With a string of movies such as **Oru Kai Osai**, **Mouna Geethangal**, **Vidiyum Varai Kaathiru**, **Thooral Ninnu Pochu**, **Darling Darling Darling**, and **Munthanai Mudichu**, Bhagyaraj rapidly emerged as one of the most successful directors in the **Tamil film industry**.
  ओरु काई ओसाई, **मौना गीतांगल**, **विदियुम वरै काथिरु**, **थूरल निन्नु पोचु**, **डार्लिंग डार्लिंग डार्लिंग** और **मुन्थानई मुडिचु** जैसी फिल्मों के साथ भग्याराज शीघ्र ही **तमिल फिल्म उद्योग** के सबसे सफल निर्देशकों में शामिल हो गए।
- Many of the films he directed ran for over **100 days**.
  उनके द्वारा निर्देशित अनेक फिल्में **100 दिनों** से अधिक समय तक सिनेमाघरों में चलीं।
- A prime example of Bhagyaraj's genius was reviving a stalled **M.G. Ramachandran (MGR)** film after several years by seamlessly weaving it into a brand-new **screenplay**.
  भग्याराज की प्रतिभा का उत्कृष्ट उदाहरण यह था कि उन्होंने कई वर्षों से रुकी हुई **एम.जी. रामचंद्रन (एमजीआर)** की फिल्म को नई **पटकथा** में सहजता से पिरोकर पुनर्जीवित कर दिया।
- The film **Anna Nee En Deivam**, starring **MGR**, was originally being directed by **C.V. Sridhar**.
  एमजीआर अभिनीत **अन्ना नी एन देवम** का मूल निर्देशन **सी.वी. श्रीधर** कर रहे थे।
- However, since **MGR** became the **Chief Minister**, the film was shelved after shooting only about **5,000 feet** of reel.
  किन्तु **एमजीआर** के **मुख्यमंत्री** बनने के बाद लगभग **5,000 फीट** रील की शूटिंग के पश्चात यह फिल्म रोक दी गई।
- Bhagyaraj took those existing scenes, wrote a completely fresh **screenplay** around them, and filmed it under the title **Avasara Police 100**.
  भग्याराज ने उन्हीं उपलब्ध दृश्यों को आधार बनाकर एक नई **पटकथा** लिखी और उसे **अवसरा पुलिस 100** शीर्षक से फिल्माया।
- Released after **MGR's demise**, the movie enjoyed a successful run at the **box office**.
  एमजीआर के निधन के बाद प्रदर्शित इस फिल्म ने **बॉक्स ऑफिस** पर सफल प्रदर्शन किया।

Beyond the script
पटकथा से आगे

- Bhagyaraj's cinematic prowess, however, did not stop at **acting**, **directing**, and **dialogue writing**; he also demonstrated remarkable talent in **music composition**.
  हालाँकि, भग्याराज की सिनेमाई प्रतिभा केवल **अभिनय**, **निर्देशन** और **संवाद लेखन** तक सीमित नहीं रही; उन्होंने **संगीत निर्देशन** में भी उल्लेखनीय प्रतिभा का प्रदर्शन किया।
- Several songs from the movies he scored — such as **Idhu Namma Aalu**, **Aararo Aariraro**, and **Pavunnu Pavunuthan** — became **chartbusters** at the time.
  उनके संगीतबद्ध फिल्मों के कई गीत — जैसे **इधु नम्मा आलु**, **आरारो आरिरारो** और **पवुन्नु पवुनुथान** — उस समय **सुपरहिट** सिद्ध हुए।
- However, post-**Munthanai Mudichu**, critics noted that **adult-themed** and **sexual humour** became noticeably prominent in his work.
  हालाँकि, **मुन्थानई मुडिचु** के बाद समीक्षकों ने ध्यान दिया कि उनके कार्यों में **वयस्क विषयों** और **यौन हास्य** का प्रभाव स्पष्ट रूप से बढ़ गया।
- His film **Rasukutti**, in particular, marked the peak of this trend.
  विशेष रूप से उनकी फिल्म **रासुकुट्टी** इस प्रवृत्ति का चरम उदाहरण मानी गई।

Kerala HC seeks report on 'gold theft' from *Ezharapponnana*

GS I: History: Art and Culture

The Hindu Bureau
KOCHI

The Kerala High Court has ordered the Chief Vigilance and Security Officer of the Travancore Devaswom Board to inspect the temple registers as well as the *Ezharapponnana* of Ettumanur Mahadeva Temple and to submit a report with his opinion and findings on allegations pertaining to the gold plates on the elephant statuettes. The *Ezharapponnana* (which translates to seven-and-a-half golden elephants) consists of eight statuettes of elephants – seven of them two feet high and the eighth one, half the height.

The *Ezharaponnana* idols at the Mahadeva temple, Ettumanur, Kottayam.

The officer was directed to engage a goldsmith to examine the weight, quality, and originality of the gold. The Division Bench of Justices Raja Vijayaraghavan and K.V. Jayakumar was considering the *suo motu* case based on a request by a devotee for an inquiry into the suspected misappropriation of gold on the *Ezharapponnana*.

The complaint further said that during the repairs to the the gold plates of *Ezharapponnana*, the originals were replaced with copper or other low-value metals. The Administrative Officer and the Assistant Devaswom Commissioner had filed reports stating no records indicated any maintenance work or any misappropriation on the *Ezharapponnana*.

GS I: History

Hominin body sizes did not steadily increase over time

Upon analysing nearly 400 fossils across 21 species, researchers have found moderate evidence of a slow, general increase in body size across hominins over time. However, the evidence was much stronger for a sudden, significant jump in size among later members of the genus Homo (excluding *Homo habilis*), likely when species like *H. erectus* appeared. Overall, the research suggested the human body size did not steadily increase over time but transitioned distinctly among our more recent ancestors.

28J6. Hominin body sizes did not steadily increase over time

होमिनिन के शरीर का आकार समय के साथ लगातार नहीं बढ़ा

- Upon analysing nearly **400 fossils** across **21 species**, researchers have found moderate evidence of a slow, general increase in **body size** across **hominins** over time.

लगभग **21 प्रजातियों** के **400 जीवाश्मों** का विश्लेषण करने पर शोधकर्ताओं ने समय के साथ **होमिनिनों** में **शरीर के आकार** में धीमी और सामान्य वृद्धि के मध्यम प्रमाण पाए हैं।

- However, the evidence was much stronger for a sudden, significant jump in size among later members of the genus **Homo** (excluding **Homo habilis**), likely when species like **H. erectus** appeared.

हालांकि, **होमो** वंश (**होमो हैबिलिस** को छोड़कर) के बाद के सदस्यों में आकार में अचानक और महत्वपूर्ण वृद्धि के प्रमाण कहीं अधिक मजबूत पाए गए, संभवतः तब जब **एच. इरेक्टस** जैसी प्रजातियाँ अस्तित्व में आईं।

- Overall, the research suggested the **human body size** did not steadily increase over time but transitioned distinctly among our more recent ancestors.

समग्र रूप से, इस शोध ने संकेत दिया कि **मानव शरीर का आकार** समय के साथ लगातार नहीं बढ़ा, बल्कि हमारे अपेक्षाकृत हाल के पूर्वजों के बीच स्पष्ट रूप से चरणबद्ध परिवर्तन हुआ।

Timeline of Human Evolution

Species	Approximate Age	Major Features	Geographic Distribution	Status
Australopithecus afarensis ("Lucy")	**3.9–2.9 Ma**	Bipedal, small brain	East Africa	Extinct
Australopithecus africanus	**3.3–2.1 Ma**	More human-like face	South Africa	Extinct
Homo habilis	**2.4–1.4 Ma**	Earliest stone tools (Oldowan), brain **510–700 cc**	Africa	Extinct
Homo erectus	**1.9 Ma–110,000 years ago**	First widespread migration out of Africa, Acheulean tools, controlled use of fire	Africa, Asia, Europe	Extinct
Homo heidelbergensis	**700,000–200,000 years ago**	Ancestor of Neanderthals and modern humans; wooden spears	Africa, Europe	Extinct
Homo neanderthalensis (Neanderthals)	**400,000–40,000 years ago**	Large brain, cold adaptation, buried their dead	Europe & Western Asia	Extinct
Denisovans (*Homo* lineage)	**~300,000–50,000 years ago**	Known mainly from DNA and fossils; interbred with	Asia	Extinct

Species	Approximate Age	Major Features	Geographic Distribution	Status
		modern humans		
Homo floresiensis ("Hobbit")	**100,000–50,000 years ago**	Small body (~1 m), island dwarfism	Flores Island, Indonesia	Extinct
Homo luzonensis	**67,000–50,000 years ago**	Primitive and modern traits	Philippines	Extinct
Homo naledi	**335,000–236,000 years ago**	Small brain but surprisingly advanced behaviour	South Africa	Extinct
Homo sapiens	**~300,000 years ago – Present**	Complex language, art, agriculture, civilization	Worldwide	Living

Which document proves Indian citizenship?

Why is the Indian passport not considered a conclusive proof of Indian citizenship? What purpose does Aadhaar serve? Does presence on the electoral rolls or possession of an Electoral Photo Identity Card determine citizenship? What happens in case of a dispute?

GS II: Polity

Rizmi Lia M.
Priscilla Jebaraj

The story so far:

The Indian passport is not a "document of citizenship," a senior official of the Ministry of External Affairs (MEA) said in response to a query from *The Hindu* this week. So, if a passport is not proof of citizenship, what is?

Is it a new development that a passport cannot be used as a document to prove Indian citizenship?

A passport by itself is not conclusive proof of Indian citizenship, and this is not a new development or announcement. Last week, the senior MEA official was responding to a question from *The Hindu* on whether the Indian passport can be used to challenge exclusion from the voters' list through the special intensive revision (SIR) of electoral rolls that is currently underway in 16 States. The official said: "The passport is a travel document, not a document of citizenship, and theoretically speaking, that distinguishes the passport from other documents. Even though while travelling abroad, the passport attests to your nationality, it is not a document of citizenship."

This stance is based on existing law. The government's Passport Manual says that "a passport provides evidence of the holder's nationality, but this is placed in the same category as any other evidence of the citizenship status of an individual". In other words, a passport is strong evidence that its holder is an Indian citizen. However, in law, it is not treated as conclusive proof of citizenship. If a person's citizenship is disputed, courts may examine it alongside other relevant evidence.

According to *Maneka Gandhi v Union Of India* (1978), issuance of passport is based on conclusive proof that the holder is an Indian national, and is "entitled by virtue of their Indian nationality and passports to the protection of the Indian Republic and assistance of its Diplomatic Missions abroad."

Under Section 6(2)(a) of the Passports Act, 1967, the authorities can refuse a passport if the applicant is not a citizen of India. But under Section 20 of the Act, the Union government may issue a passport or travel document to a person who is not a citizen of India if it thinks that it is necessary to do so in public interest.

The MEA's response distinguishes between evidence of citizenship and conclusive proof of citizenship. While citizenship is determined under the Citizenship Act, 1955, and passports are issued under the Passports Act, 1967, the existence of a passport cannot by itself be called a conclusive or definitive proof of citizenship in a dispute.

India does not prescribe one universal citizenship document. An effort to create such a document through the National Register of Citizens became politically contentious

An Indian passport. GETTY IMAGES

Can the Aadhaar card be used to prove Indian citizenship?

When the Aadhaar was introduced one and a half decades ago, it was promoted as a one-stop digital identification document which could replace the many documents that Indians had to furnish to avail themselves of benefits from multiple government schemes. However, from the beginning, the Unique Identification Authority of India has emphasised that Aadhaar can only be treated as proof of identity and address, not of citizenship. In fact, non-Indian citizens who are legally resident in India are eligible to get an Aadhaar, and often require the identity card to avail themselves of many basic services, from banking to cooking gas.

In its judgment of May 27 this year, when the Supreme Court upheld the constitutional validity of the SIR, it held that an Aadhaar card does not constitute proof of citizenship and, therefore, cannot be relied upon for that purpose. However, it is among the documents which may be produced for the limited purpose of establishing the identity of a person, it said.

Does a voter ID prove Indian citizenship?

Only Indian citizens are eligible to vote in Indian elections, but one's presence on the electoral rolls or possession of an Electoral Photo Identity Card does not determine citizenship or conclusively prove it.

In the case of *Lal Babu Hussein v. Electoral Registration Officer* (1995), the Supreme Court unequivocally held that electors whose names appear on electoral roll are entitled to a presumption of citizenship, and that this presumption cannot be displaced except by following the procedure prescribed by law.

However, in this year's SIR judgment, the Court emphasised that the Election Commission's role is confined to determining eligibility for electoral rolls. It cannot adjudicate citizenship, and the citizenship of an individual under the Citizenship Act will not cease on account of their ineligibility to register in the electoral rolls, pursuant to the SIR.

In fact, the passport was one of the 11 'indicative' documents listed by the Election Commission as proof of citizenship. Some voters purged from the draft SIR in Uttar Pradesh, for instance, used their passports to prove that they are citizens of India and should be included in the final electoral roll. However, there have been reported cases of people in West Bengal who hold Indian passports, but who were still deleted from the draft electoral lists during the SIR.

So what document proves citizenship?

While responding to a question in the Lok Sabha on August 12, 2025, the Home Ministry did not specify the "categories of valid documents" required for people to prove citizenship in India. "The citizenship of India is governed under the provisions of the Citizenship Act, 1955, and rules made thereunder," the Minister of State for Home, Nityanand Rai, said in a written reply.

Under the Citizenship Act, citizenship can be acquired by birth, by descent, by registration, by naturalisation and by incorporation of territory.

Citizenship certificates are generally issued to people who acquired citizenship by registration or naturalisation, and can act as a conclusive proof document. The majority of Indians, however, are citizens by birth or descent, and do not have a citizenship certificate. Instead, they rely on different evidence that prove their date of birth, place of birth, or their parentage, depending on the context of the dispute.

Anyone born in India between January 26, 1950 and July 1, 1987 is a citizen by birth, irrespective of their parents' nationality. Such people would have to produce documents proving their place and date of birth to establish their citizenship. Given that mandatory birth certificates were not issued in this period, many people use a combination of other documents, including educational certificates and Aadhaar.

For those born between July 1, 1987 and December 3, 2004, proof of their own place and date of birth is insufficient as they must also prove that at least one parent was an Indian citizen. For those born on or after December 3, 2004, one parent must be an Indian citizen while the other should not be an illegal migrant, complicating the documentary proof required.

India does not prescribe one universal citizenship document. An effort to create such a document through the National Register of Citizens became politically contentious amid fears of a nationwide verification exercise that could exclude many due to incomplete documents. As former Foreign Secretary Nirupama Rao said in a post last week, the lesson is that "India needs stronger and more comprehensive civil registration, universal birth registration and reliable archival records so that citizenship can never become hostage to missing or inconsistent paperwork."

28J6. Which document proves Indian citizenship?
कौन-सा दस्तावेज़ भारतीय नागरिकता सिद्ध करता है?

- The **Indian passport** is not a **"document of citizenship,"** a senior official of the **Ministry of External Affairs (MEA)** said in response to a query from **The Hindu** this week.
  इस सप्ताह **द हिंदू** के एक प्रश्न के उत्तर में **विदेश मंत्रालय (MEA)** के एक वरिष्ठ अधिकारी ने कहा कि **भारतीय पासपोर्ट "नागरिकता का दस्तावेज़"** नहीं है।
- So, if a passport is not proof of citizenship, what is?
  तो यदि पासपोर्ट नागरिकता का प्रमाण नहीं है, तो नागरिकता का प्रमाण क्या है?

Is it a new development that a passport cannot be used as a document to prove Indian citizenship?

क्या यह कोई नई व्यवस्था है कि पासपोर्ट का उपयोग भारतीय नागरिकता सिद्ध करने वाले दस्तावेज़ के रूप में नहीं किया जा सकता?

- A **passport** by itself is not **conclusive proof** of **Indian citizenship**, and this is not a new development or announcement.
  केवल **पासपोर्ट** अपने आप में **भारतीय नागरिकता** का **निर्णायक प्रमाण** नहीं है, और यह कोई नई व्यवस्था या घोषणा नहीं है।
- Last week, the senior **MEA** official was responding to a question from **The Hindu** on whether the **Indian passport** can be used to challenge exclusion from the **voters' list** through the **special intensive revision (SIR)** of electoral rolls that is currently underway in **16 States**.
  पिछले सप्ताह **विदेश मंत्रालय (MEA)** के वरिष्ठ अधिकारी **द हिंदू** के उस प्रश्न का उत्तर दे रहे थे कि क्या **भारतीय पासपोर्ट** का उपयोग वर्तमान में **16 राज्यों** में चल रहे **मतदाता सूची के विशेष गहन पुनरीक्षण (SIR)** के माध्यम से मतदाता सूची से नाम हटाए जाने को चुनौती देने के लिए किया जा सकता है।
- The official said: "The **passport** is a **travel document**, not a **document of citizenship**, and theoretically speaking, that distinguishes the passport from other documents.
  अधिकारी ने कहा, "**पासपोर्ट** एक **यात्रा दस्तावेज़** है, **नागरिकता का दस्तावेज़** नहीं, और सैद्धांतिक रूप से यही बात इसे अन्य दस्तावेज़ों से अलग करती है।
- Even though while travelling abroad, the passport attests to your **nationality**, it is not a **document of citizenship**."
  यद्यपि विदेश यात्रा के दौरान पासपोर्ट आपकी **राष्ट्रीयता** की पुष्टि करता है, फिर भी यह **नागरिकता का दस्तावेज़** नहीं है।"
- This stance is based on existing law.
  यह दृष्टिकोण वर्तमान कानून पर आधारित है।
- The government's **Passport Manual** says that "a **passport** provides evidence of the holder's **nationality**, but this is placed in the same category as any other evidence of the **citizenship** status of an individual".
  सरकार की **पासपोर्ट मैनुअल** में कहा गया है कि **पासपोर्ट** धारक की **राष्ट्रीयता** का प्रमाण प्रदान करता है, किंतु इसे किसी व्यक्ति की **नागरिकता** संबंधी अन्य साक्ष्यों की ही श्रेणी में रखा जाता है।
- In other words, a **passport** is strong evidence that its holder is an **Indian citizen**.
  अर्थात्, **पासपोर्ट** इस बात का सशक्त साक्ष्य है कि उसका धारक **भारतीय नागरिक** है।
- However, in law, it is not treated as **conclusive proof** of **citizenship**.
  किन्तु विधि की दृष्टि से इसे **नागरिकता** का **निर्णायक प्रमाण** नहीं माना जाता।
- If a person's **citizenship** is disputed, courts may examine it alongside other relevant evidence.
  यदि किसी व्यक्ति की **नागरिकता** विवादित हो, तो न्यायालय अन्य प्रासंगिक साक्ष्यों के साथ इसका भी परीक्षण कर सकते हैं।
- According to **Maneka Gandhi v Union Of India (1978)**, issuance of **passport** is based on conclusive proof that the holder is an **Indian national**, and is "entitled by virtue of their **Indian nationality** and passports to the protection of the **Indian Republic** and assistance of its **Diplomatic Missions abroad**."
  मनका गांधी बनाम भारत संघ (1978) के अनुसार, **पासपोर्ट** जारी किया जाना इस निर्णायक आधार पर होता है कि उसका धारक **भारतीय नागरिक** है, और वह अपनी **भारतीय राष्ट्रीयता** तथा पासपोर्ट के आधार पर **भारतीय गणराज्य** के संरक्षण तथा विदेशों में स्थित उसके **राजनयिक मिशनों** की सहायता प्राप्त करने का अधिकारी है।
- Under **Section 6(2)(a)** of the **Passports Act, 1967**, the authorities can refuse a **passport** if the applicant is not a **citizen of India**.

पासपोर्ट अधिनियम, 1967 की **धारा 6(2)(a)** के अंतर्गत यदि आवेदक **भारत का नागरिक** नहीं है, तो प्राधिकारी **पासपोर्ट** देने से इंकार कर सकते हैं।

- But under **Section 20** of the Act, the **Union government** may issue a **passport** or **travel document** to a person who is not a **citizen of India** if it thinks that it is necessary to do so in **public interest**.
  किन्तु इसी अधिनियम की **धारा 20** के अंतर्गत **केंद्र सरकार**, यदि उसे **लोकहित** में आवश्यक प्रतीत हो, तो ऐसे व्यक्ति को भी **पासपोर्ट** अथवा **यात्रा दस्तावेज़** जारी कर सकती है जो **भारत का नागरिक** नहीं है।
- The **MEA's** response distinguishes between **evidence of citizenship** and **conclusive proof of citizenship**.
  विदेश मंत्रालय (MEA) की प्रतिक्रिया **नागरिकता के साक्ष्य** और **नागरिकता के निर्णायक प्रमाण** के बीच स्पष्ट अंतर करती है।
- While **citizenship** is determined under the **Citizenship Act, 1955**, and **passports** are issued under the **Passports Act, 1967**, the existence of a **passport** cannot by itself be called a **conclusive** or **definitive proof** of **citizenship** in a dispute.
  जहाँ **नागरिकता** का निर्धारण **नागरिकता अधिनियम, 1955** के अंतर्गत किया जाता है तथा **पासपोर्ट पासपोर्ट अधिनियम, 1967** के अंतर्गत जारी किए जाते हैं, वहीं किसी विवाद की स्थिति में केवल **पासपोर्ट** को **नागरिकता** का **निर्णायक** अथवा **अंतिम प्रमाण** नहीं माना जा सकता।

Can the Aadhaar card be used to prove Indian citizenship?
क्या आधार कार्ड का उपयोग भारतीय नागरिकता सिद्ध करने के लिए किया जा सकता है?

- When the **Aadhaar** was introduced one and a half decades ago, it was promoted as a **one-stop digital identification document** which could replace the many documents that Indians had to furnish to avail themselves of benefits from multiple **government schemes**.
  लगभग डेढ़ दशक पूर्व जब **आधार** की शुरुआत हुई थी, तब इसे एक **एकीकृत डिजिटल पहचान दस्तावेज़** के रूप में प्रस्तुत किया गया था, जो विभिन्न **सरकारी योजनाओं** का लाभ प्राप्त करने हेतु आवश्यक अनेक दस्तावेज़ों का स्थान ले सकता था।
- However, from the beginning, the **Unique Identification Authority of India** has emphasised that **Aadhaar** can only be treated as proof of **identity** and **address**, not of **citizenship**.
  किन्तु प्रारंभ से ही **भारतीय विशिष्ट पहचान प्राधिकरण (UIDAI)** ने यह स्पष्ट किया है कि **आधार** केवल **पहचान** और **पते** का प्रमाण है, **नागरिकता** का नहीं।
- In fact, **non-Indian citizens** who are legally resident in India are eligible to get an **Aadhaar**, and often require the identity card to avail themselves of many basic services, from **banking** to **cooking gas**.
  वास्तव में, भारत में विधिसम्मत रूप से निवास करने वाले **गैर-भारतीय नागरिक** भी **आधार** प्राप्त करने के पात्र हैं, और उन्हें **बैंकिंग** से लेकर **रसोई गैस** जैसी अनेक मूलभूत सेवाओं का लाभ लेने के लिए इस पहचान पत्र की आवश्यकता होती है।
- In its judgment of **May 27** this year, when the **Supreme Court** upheld the constitutional validity of the **SIR**, it held that an **Aadhaar card** does not constitute proof of **citizenship** and, therefore, cannot be relied upon for that purpose.
  इस वर्ष **27 मई** के अपने निर्णय में, जब **उच्चतम न्यायालय** ने **विशेष गहन पुनरीक्षण (SIR)** की संवैधानिक वैधता को बरकरार रखा, तब उसने कहा कि **आधार कार्ड नागरिकता** का प्रमाण नहीं है और इसलिए इस उद्देश्य के लिए उस पर निर्भर नहीं किया जा सकता।
- However, it is among the documents which may be produced for the limited purpose of establishing the **identity** of a person, it said.
  हालाँकि, न्यायालय ने यह भी कहा कि किसी व्यक्ति की **पहचान** स्थापित करने के सीमित उद्देश्य के लिए प्रस्तुत किए जाने वाले दस्तावेज़ों में **आधार कार्ड** शामिल किया जा सकता है।

Does a voter ID prove Indian citizenship?
क्या मतदाता पहचान पत्र भारतीय नागरिकता का प्रमाण है?

- Only **Indian citizens** are eligible to vote in **Indian elections**, but one's presence on the **electoral rolls** or possession of an **Electoral Photo Identity Card** does not determine **citizenship** or conclusively prove it.
  केवल **भारतीय नागरिक** ही **भारतीय चुनावों** में मतदान करने के पात्र हैं, किन्तु किसी व्यक्ति का **मतदाता सूची** में नाम होना अथवा उसके पास **मतदाता फोटो पहचान पत्र (EPIC)** होना उसकी **नागरिकता** का निर्धारण या निर्णायक प्रमाण नहीं है।
- In the case of **Lal Babu Hussein v. Electoral Registration Officer (1995)**, the **Supreme Court** unequivocally held that electors whose names appear on **electoral roll** are entitled to a presumption of **citizenship**, and that this presumption cannot be displaced except by following the procedure prescribed by law.
  लाल बाबू हुसैन बनाम निर्वाचन पंजीकरण अधिकारी (1995) मामले में **उच्चतम न्यायालय** ने स्पष्ट रूप से कहा कि जिन मतदाताओं के नाम **मतदाता सूची** में दर्ज हैं, उन्हें **नागरिकता** की एक विधिक धारणा (Presumption) का लाभ प्राप्त होगा, और इस धारणा को केवल कानून द्वारा निर्धारित प्रक्रिया का पालन करके ही समाप्त किया जा सकता है।
- However, in this year's **SIR judgment**, the Court emphasised that the **Election Commission's** role is confined to determining eligibility for **electoral rolls**.
  हालाँकि, इस वर्ष के **एसआईआर (SIR) निर्णय** में न्यायालय ने स्पष्ट किया कि **निर्वाचन आयोग** की भूमिका केवल **मतदाता सूची** में नाम दर्ज करने की पात्रता निर्धारित करने तक सीमित है।
- It cannot adjudicate **citizenship**, and the **citizenship** of an individual under the **Citizenship Act** will not cease on account of their ineligibility to register in the **electoral rolls**, pursuant to the **SIR**.
  निर्वाचन आयोग **नागरिकता** का निर्णय नहीं कर सकता, और **नागरिकता अधिनियम** के अंतर्गत किसी व्यक्ति की **नागरिकता**, **एसआईआर (SIR)** के परिणामस्वरूप **मतदाता सूची** में पंजीकरण के लिए अयोग्य पाए जाने मात्र से समाप्त नहीं होगी।
- In fact, the **passport** was one of the **11 'indicative' documents** listed by the **Election Commission** as proof of **citizenship**.
  वास्तव में, **निर्वाचन आयोग** द्वारा **नागरिकता** के प्रमाण के रूप में सूचीबद्ध **11 'संकेतक' (Indicative) दस्तावेज़ों** में **पासपोर्ट** भी शामिल था।
- Some voters purged from the draft **SIR** in **Uttar Pradesh**, for instance, used their **passports** to prove that they are **citizens of India** and should be included in the final **electoral roll**.
  उदाहरण के लिए, **उत्तर प्रदेश** में प्रारूप **एसआईआर (SIR)** सूची से हटाए गए कुछ मतदाताओं ने यह सिद्ध करने के लिए अपने **पासपोर्ट** प्रस्तुत किए कि वे **भारत के नागरिक** हैं और उनका नाम अंतिम **मतदाता सूची** में शामिल किया जाना चाहिए।
- However, there have been reported cases of people in **West Bengal** who hold **Indian passports**, but who were still deleted from the draft **electoral lists** during the **SIR**.
  हालाँकि, **पश्चिम बंगाल** में ऐसे मामलों की भी सूचना मिली है, जहाँ **भारतीय पासपोर्ट** रखने वाले व्यक्तियों के नाम भी **एसआईआर (SIR)** के दौरान प्रारूप **मतदाता सूची** से हटा दिए गए।

So what document proves citizenship?
तो नागरिकता का प्रमाण कौन-सा दस्तावेज़ है?

- While responding to a question in the **Lok Sabha** on **August 12, 2025**, the **Home Ministry** did not specify the **"categories of valid documents"** required for people to prove **citizenship** in India.
  12 अगस्त, 2025 को **लोकसभा** में पूछे गए एक प्रश्न के उत्तर में **गृह मंत्रालय** ने भारत में **नागरिकता** सिद्ध करने के लिए आवश्यक **"वैध दस्तावेज़ों की श्रेणियों"** को स्पष्ट रूप से निर्दिष्ट नहीं किया।

- "The **citizenship** of India is governed under the provisions of the **Citizenship Act, 1955**, and rules made thereunder," the **Minister of State for Home**, **Nityanand Rai**, said in a written reply.
  गृह राज्य मंत्री, **नित्यानंद राय** ने अपने लिखित उत्तर में कहा कि "भारत की **नागरिकता** का निर्धारण **नागरिकता अधिनियम, 1955** तथा उसके अंतर्गत बनाए गए नियमों के प्रावधानों के अनुसार किया जाता है।"
- Under the **Citizenship Act**, **citizenship** can be acquired by **birth**, by **descent**, by **registration**, by **naturalisation** and by **incorporation of territory**.
  नागरिकता अधिनियम के अंतर्गत **नागरिकता जन्म**, **वंश**, **पंजीकरण**, **देशीयकरण (Naturalisation)** तथा **क्षेत्र के भारत में सम्मिलन** के आधार पर प्राप्त की जा सकती है।
- **Citizenship certificates** are generally issued to people who acquired **citizenship** by **registration** or **naturalisation**, and can act as a **conclusive proof document**.
  नागरिकता प्रमाणपत्र सामान्यतः उन व्यक्तियों को जारी किए जाते हैं जिन्होंने **पंजीकरण** अथवा **देशीयकरण** के माध्यम से **नागरिकता** प्राप्त की हो, और यह **निर्णायक प्रमाण दस्तावेज़** के रूप में कार्य कर सकता है।
- The majority of Indians, however, are **citizens by birth** or **descent**, and do not have a **citizenship certificate**.
  हालाँकि, अधिकांश भारतीय **जन्म** अथवा **वंश** के आधार पर नागरिक हैं और उनके पास **नागरिकता प्रमाणपत्र** नहीं होता।
- Instead, they rely on different evidence that prove their **date of birth**, **place of birth**, or their **parentage**, depending on the context of the dispute.
  इसके स्थान पर वे विभिन्न प्रकार के ऐसे साक्ष्यों पर निर्भर रहते हैं जो उनके **जन्म की तिथि**, **जन्म स्थान** अथवा **माता-पिता से संबंध** को सिद्ध करते हैं, जो विवाद की प्रकृति पर निर्भर करता है।
- Anyone born in India between **January 26, 1950** and **July 1, 1987** is a **citizen by birth**, irrespective of their parents' nationality.
  जो भी व्यक्ति भारत में **26 जनवरी, 1950** से **1 जुलाई, 1987** के बीच जन्मा है, वह अपने माता-पिता की राष्ट्रीयता की परवाह किए बिना **जन्म से भारतीय नागरिक** है।
- Such people would have to produce documents proving their **place** and **date of birth** to establish their **citizenship**.
  ऐसे व्यक्तियों को अपनी **नागरिकता** स्थापित करने के लिए **जन्म स्थान** और **जन्म तिथि** से संबंधित दस्तावेज़ प्रस्तुत करने होंगे।
- Given that mandatory **birth certificates** were not issued in this period, many people use a combination of other documents, including **educational certificates** and **Aadhaar**.
  चूँकि उस अवधि में **जन्म प्रमाणपत्र** अनिवार्य रूप से जारी नहीं किए जाते थे, इसलिए अनेक लोग **शैक्षणिक प्रमाणपत्रों** तथा **आधार** सहित अन्य दस्तावेज़ों के संयोजन का उपयोग करते हैं।
- For those born between **July 1, 1987** and **December 3, 2004**, proof of their own **place** and **date of birth** is insufficient as they must also prove that at least **one parent** was an **Indian citizen**.
  जो व्यक्ति **1 जुलाई, 1987** से **3 दिसंबर, 2004** के बीच जन्मे हैं, उनके लिए केवल अपने **जन्म स्थान** और **जन्म तिथि** का प्रमाण पर्याप्त नहीं है, क्योंकि उन्हें यह भी सिद्ध करना होगा कि उनके **कम-से-कम एक अभिभावक भारतीय नागरिक** थे।
- For those born on or after **December 3, 2004**, **one parent** must be an **Indian citizen** while the other should not be an **illegal migrant**, complicating the documentary proof required.
  जो व्यक्ति **3 दिसंबर, 2004** या उसके बाद जन्मे हैं, उनके लिए आवश्यक है कि **एक अभिभावक भारतीय नागरिक** हो तथा दूसरा **अवैध प्रवासी** न हो, जिससे आवश्यक दस्तावेज़ी प्रमाण और अधिक जटिल हो जाता है।
- India does not prescribe one universal **citizenship document**.
  भारत ने **नागरिकता** के लिए कोई एक सार्वभौमिक **दस्तावेज़** निर्धारित नहीं किया है।
- An effort to create such a document through the **National Register of Citizens** became politically contentious amid fears of a nationwide **verification exercise** that could exclude many due to incomplete documents.
  राष्ट्रीय नागरिक पंजी (NRC) के माध्यम से ऐसा दस्तावेज़ तैयार करने का प्रयास राजनीतिक रूप से

विवादास्पद बन गया, क्योंकि यह आशंका व्यक्त की गई कि देशव्यापी **सत्यापन प्रक्रिया** के दौरान अधूरे दस्तावेज़ों के कारण अनेक लोग बाहर हो सकते हैं।

- As former **Foreign Secretary Nirupama Rao** said in a post last week, the lesson is that "India needs stronger and more comprehensive **civil registration**, universal **birth registration** and reliable **archival records** so that **citizenship** can never become hostage to missing or inconsistent paperwork."
  जैसा कि पूर्व **विदेश सचिव निरुपमा राव** ने पिछले सप्ताह एक पोस्ट में कहा, इससे यह शिक्षा मिलती है कि भारत को अधिक सुदृढ़ और व्यापक **नागरिक पंजीकरण**, सार्वभौमिक **जन्म पंजीकरण** तथा विश्वसनीय **अभिलेखीय अभिलेखों** की आवश्यकता है, ताकि **नागरिकता** कभी भी अनुपलब्ध या असंगत दस्तावेज़ों की बंधक न बने।

Govt. to launch affordable digital management system for clinics

GS II: Governance

Bindu Shajan Perappadan
NEW DELHI

Ministry proposes to open light HMIS for govt. primary health centres, sub-centres and private clinics

Aimed at helping small outpatient clinics that face challenges with manual processes and lack of affordable digital solutions, the Union Health Ministry is all set to launch the e-Sushrut@Clinic.

eSushrut@Clinic is a light Hospital Management Information System (HMIS), created by Centre for Development of Advanced Computing (C-DAC) to address these challenges by providing a simple, affordable, and user-friendly digital solution specifically tailored for small outpatient clinics.

"Large HMIS are often too complex and costly for these clinics and this results in small clinics struggling with inefficiencies in digitisation of the health system," said a release issued by the Ministry.

It added that the need of having a government-backed and affordable HMIS has been coming from various microsite participants in spite of a large number of private HMIS players. Many States/Union Territories have also expressed interest to use a light HMIS for their public facilities.

The Ministry proposes to open the light HMIS for government primary health centres, sub-centres and private clinics, etc.

C-DAC implementing it

Currently, over 800 health facilities are onboarded on eSushrut@Clinic, generating over 680 health records. C-DAC is also implementing the eSushrut software, which is being installed at more than 15 AIIMS and in various State government hospitals.

Listing the features, the Ministry said that e-Sushrut@Clinic provides a lightweight, cloud-based HMIS designed specifically for outpatient clinics which simplifies tasks like patient registration, billing, etc., thus making work easier and reducing mistakes. C-DAC will take care of maintenance and upgradation of the software.

"It is designed to be simple and intuitive, with no technical expertise needed from clinic staff. Also, this simple platform can be accessed from any device, without needing complex setups," said the release.

The cost of eSushrut@clinic is estimated to be ₹499 per month for five users. A discount of ₹200 will be given making the effective rate to be ₹299 per month. The software will be offered at no cost for the initial three months. Each additional user beyond the included five-user limit will be charged at a rate of ₹50 per user.

28J6. Govt. to launch affordable digital management system for clinics

सरकार क्लीनिकों के लिए किफायती डिजिटल प्रबंधन प्रणाली शुरू करेगी

- Aimed at helping **small outpatient clinics** that face challenges with **manual processes** and lack of **affordable digital solutions**, the **Union Health Ministry** is all set to launch the **e-Sushrut@Clinic**.

मैनुअल प्रक्रियाओं और **किफायती डिजिटल समाधान** की कमी जैसी चुनौतियों का सामना कर रहे **छोटे बाह्य रोगी (ओपीडी) क्लीनिकों** की सहायता के उद्देश्य से **केंद्रीय स्वास्थ्य मंत्रालय e-Sushrut@Clinic** शुरू करने जा रहा है।

- **eSushrut@Clinic** is a light **Hospital Management Information System (HMIS)**, created by **Centre for Development of Advanced Computing (CDAC)** to address these challenges by providing a simple, affordable, and user-friendly

digital solution specifically tailored for **small outpatient clinics**.

eSushrut@Clinic एक हल्का **हॉस्पिटल मैनेजमेंट इन्फॉर्मेशन सिस्टम (HMIS)** है, जिसे **सेंटर फॉर डेवलपमेंट ऑफ एडवांस्ड कंप्यूटिंग (CDAC)** ने **छोटे बाह्य रोगी क्लीनिकों** के लिए सरल, किफायती और उपयोगकर्ता-अनुकूल डिजिटल समाधान प्रदान करने हेतु विकसित किया है।

- "Large **HMIS** are often too complex and costly for these clinics and this results in small clinics struggling with inefficiencies in **digitisation** of the health system," said a release issued by the **Ministry**.

  मंत्रालय द्वारा जारी विज्ञप्ति में कहा गया है कि बड़े **HMIS** अक्सर इन क्लीनिकों के लिए अत्यधिक जटिल और महंगे होते हैं, जिसके कारण छोटे क्लीनिक स्वास्थ्य प्रणाली के **डिजिटलीकरण** में अक्षमताओं का सामना करते हैं।
- It added that the need of having a **government-backed** and **affordable HMIS** has been coming from various **microsite participants** in spite of a large number of private **HMIS** players.

  विज्ञप्ति में कहा गया कि बड़ी संख्या में निजी **HMIS** उपलब्ध होने के बावजूद विभिन्न **माइक्रोसाइट प्रतिभागियों** की ओर से **सरकारी समर्थन प्राप्त** और **किफायती HMIS** की आवश्यकता लगातार सामने आ रही है।
- Many **States/Union Territories** have also expressed interest to use a light **HMIS** for their **public facilities**.

  कई **राज्यों एवं केंद्रशासित प्रदेशों** ने भी अपनी **सार्वजनिक स्वास्थ्य सुविधाओं** में हल्के **HMIS** के उपयोग में रुचि दिखाई है।
- The **Ministry** proposes to open the light **HMIS** for **government primary health centres**, **sub-centres** and **private clinics**, etc.

  मंत्रालय इस हल्के **HMIS** को **सरकारी प्राथमिक स्वास्थ्य केंद्रों**, **उप-केंद्रों** तथा **निजी क्लीनिकों** आदि के लिए उपलब्ध कराने का प्रस्ताव रखता है।

C-DAC implementing it
सी-डैक इसका कार्यान्वयन कर रहा है

- Currently, over **800 health facilities** are onboarded on **eSushrut@Clinic**, generating over **680 health records**.

  वर्तमान में **eSushrut@Clinic** पर **800 से अधिक स्वास्थ्य संस्थान** जुड़े हुए हैं, जिनसे **680 से अधिक स्वास्थ्य अभिलेख** तैयार किए जा चुके हैं।
- **C-DAC** is also implementing the **eSushrut** software, which is being installed at more than **15 AIIMS** and in various **State government hospitals**.

  सी-डैक eSushrut सॉफ्टवेयर का भी कार्यान्वयन कर रहा है, जिसे **15 से अधिक एम्स (AIIMS)** तथा विभिन्न **राज्य सरकारी अस्पतालों** में स्थापित किया जा रहा है।
- Listing the features, the **Ministry** said that **e-Sushrut@Clinic** provides a lightweight, **cloud-based HMIS** designed specifically for **outpatient clinics** which simplifies tasks like **patient registration**, **billing**, etc., thus making work easier and reducing mistakes.

  मंत्रालय ने इसकी विशेषताओं का उल्लेख करते हुए कहा कि **e-Sushrut@Clinic** एक हल्का **क्लाउड-आधारित HMIS** है, जिसे विशेष रूप से **बाह्य रोगी क्लीनिकों** के लिए तैयार किया गया है और यह **रोगी पंजीकरण**, **बिलिंग** आदि कार्यों को सरल बनाकर काम को आसान तथा त्रुटियों को कम करता है।
- **C-DAC** will take care of **maintenance** and **upgradation** of the software.

  सी-डैक इस सॉफ्टवेयर के **रखरखाव** और **उन्नयन** की जिम्मेदारी संभालेगा।
- "It is designed to be simple and intuitive, with no **technical expertise** needed from **clinic staff**.

  "इसे सरल और सहज बनाया गया है, जिससे **क्लीनिक स्टाफ** को किसी विशेष **तकनीकी विशेषज्ञता** की आवश्यकता नहीं होगी।

- Also, this simple platform can be accessed from **any device**, without needing **complex setups**," said the release.
  विज्ञप्ति में कहा गया है कि यह सरल प्लेटफॉर्म **किसी भी डिवाइस** से बिना किसी **जटिल सेटअप** के उपयोग किया जा सकता है।
- The cost of **eSushrut@Clinic** is estimated to be **₹499 per month** for **five users**.
  eSushrut@Clinic की लागत **पाँच उपयोगकर्ताओं** के लिए **₹499 प्रति माह** निर्धारित की गई है।
- A discount of **₹200** will be given making the effective rate to be **₹299 per month**.
  इस पर **₹200** की छूट दी जाएगी, जिससे प्रभावी शुल्क **₹299 प्रति माह** रह जाएगा।
- The software will be offered at **no cost** for the **initial three months**.
  यह सॉफ्टवेयर **प्रारंभिक तीन महीनों** के लिए **निःशुल्क** उपलब्ध कराया जाएगा।
- Each **additional user** beyond the included **five-user limit** will be charged at a rate of **₹50 per user**.
  निर्धारित **पाँच उपयोगकर्ताओं** की सीमा से अधिक प्रत्येक **अतिरिक्त उपयोगकर्ता** के लिए **₹50 प्रति उपयोगकर्ता** का शुल्क लिया जाएगा।

What do the amended FCRA Rules say?

How does the Ministry of Home Affairs regulate foreign donations? What are the key changes in the FCRA Amendment Rules, 2026? How do the new Rules affect the purposes for which NGOs can receive foreign funds? What penalties apply for violations?

GS II: Governance

Vijaita Singh

The story so far:

On June 22, the Union Ministry of Home Affairs (MHA) notified the Foreign Contribution (Regulation) Amendment Rules, 2026, to amend the Foreign Contribution (Regulation) Rules, 2011.This is the tenth amendment to the Rules under the Foreign Contribution (Regulation) Act, 2010 (FCRA).

How does the MHA regulate foreign donations?

The MHA regulates foreign donations in India through the FCRA to ensure that such funds do not adversely affect the country's internal security. The legislation was first enacted in 1976. In 2010, it was repealed and replaced with a new legislation. The 2010 Act came into force on May 1, 2011 and has been amended in 2016, 2018, and 2020. The FCRA registration is valid for five years, after which the NGO has to apply for a renewal. Since 2015, the FCRA registrations of more than 18,000 NGOs have been cancelled. As on June 22, there are 14,456 FCRA-registered NGOs active in the country.

What are the broad amendments proposed to the FCRA Rules?

All NGOs and associations registered under the FCRA, 2010, are required to disclose their specific activities and the geographical scope of their programmes. The Rules no longer allow general permission under the FCRA and indicate tighter scrutiny on how NGOs utilise foreign funds.

The Rules impose a fee for registration for each specified purpose and for each State or U.T. in which an NGO operates

Any new registration will have to follow the said norms. The Rules further broaden the definition of 'key functionary' of an NGO beyond office bearers and directors to include trustees, partners, the Karta of a Hindu undivided family, governing body members, or anyone controlling or managing the organisation.

They also require NGOs to mandatorily disclose social media accounts, websites, and declare whether the association or its key functionaries has brought out any publication during the year, which includes books, magazines or newspaper articles.

The Rules also impose a fee for registration for each specified purpose and for each State or Union Territory (U.T.) in which an NGO operates. So, NGOs operating across multiple sectors or regions now face higher registration costs.

What amendments apply to the programmes or purposes for which an NGO intends to receive foreign donations?

NGOs can receive foreign contributions for social, educational, religious, economic, and cultural programmes. The amended Rules state that the certificate of registration or the application form for new registrations shall specify the purpose or purposes for which registration is granted, chosen only from the list of purposes as specified in the Schedule appended to the rules; and the States or U.T.s in which the NGO proposes to undertake activities.

Those with existing FCRA registrations are expected to update the purpose and intimate the Central government within a year. Some categories specifically exclude political activities.

The educational purpose lists 22 activities, but adds the qualifier "strictly non-political in nature" to the category covering awareness programmes on constitutional rights, fundamental duties, and civic responsibilities.

Under cultural purpose, there are 18 categories, including "promotion of contemporary arts inspired by Indian traditions." The Rules specify that these must exclude political or ideological content.

As many as 16 categories of religious activities have been permitted which includes "conduct of religious education, moral instruction, satsangs, discourses, and meditation retreats (excluding proselytisation)" and "burial/ cremation ground development and maintenance."

There are 19 categories under the economic purpose and 30 items under the social category.

File photo of Opposition MPs demanding the withdrawal of the Foreign Contribution (Regulation) Amendment Bill, 2026. ANI

What are the penalties for violations?

The MHA has also notified an order specifying penalties for FCRA violations, including excess administrative spending, speculative investments, misuse of funds, unauthorised receipt or utilisation of foreign contributions, and the use of funds for unapproved purposes or in States/U.T.s not covered by an NGO's registration or prior permission.

Any utilisation of funds for purposes other than those for which they were received can attract a penalty of up to 30% of the amount misused or ₹1 lakh, whichever is higher. Likewise, using foreign contributions for purposes or in areas not covered by an NGO's registration or prior permission invites a penalty of 30% of the amount involved or ₹1 lakh, whichever is higher.

In addition, spending beyond the permitted administrative expense limit or engaging in speculative use of funds will be penalised with fines calculated as a percentage of the amount involved, subject to a minimum of ₹1 lakh.

What is the Opposition saying?

Opposition members have said that the new Rules will adversely affect the functioning of civil society organisations. Congress General Secretary (Organisation) K.C. Venugopal said that forcing NGOs to choose from a "rigid, government-mandated list" of activities and restricting their operational geography would undermine their ability to respond to emergencies. John Brittas, Communist Party of India (Marxist) Rajya Sabha member, wrote to Home Minister Amit Shah raising constitutional concerns. "Collectively, these changes signify a decisive shift from regulating foreign contribution to regulating voluntary organisations themselves," he wrote.

28J6. What do the amended FCRA Rules say?
संशोधित FCRA नियम क्या कहते हैं?

What are the Foreign Contribution (Regulation) Amendment Rules, 2026?
विदेशी अंशदान (विनियमन) संशोधन नियम, 2026 क्या हैं?

- On **June 22**, the **Union Ministry of Home Affairs (MHA)** notified the **Foreign Contribution (Regulation) Amendment Rules, 2026**, to amend the **Foreign Contribution (Regulation) Rules, 2011**.
  22 जून को **केंद्रीय गृह मंत्रालय (MHA)** ने **विदेशी अंशदान (विनियमन) संशोधन नियम, 2026** अधिसूचित किए, जिनके माध्यम से **विदेशी अंशदान (विनियमन) नियम, 2011** में संशोधन किया गया।
- This is the **tenth amendment** to the Rules under the **Foreign Contribution (Regulation) Act, 2010 (FCRA)**.
  यह **विदेशी अंशदान (विनियमन) अधिनियम, 2010 (FCRA)** के अंतर्गत बनाए गए नियमों में **दसवाँ संशोधन** है।

How does the MHA regulate foreign donations?
गृह मंत्रालय विदेशी अंशदान का विनियमन कैसे करता है?

- The **MHA** regulates **foreign donations** in India through the **FCRA** to ensure that such funds do not adversely affect the country's **internal security**.
  गृह मंत्रालय (MHA) भारत में **विदेशी अंशदान** का विनियमन **एफसीआरए (FCRA)** के माध्यम से करता है ताकि ऐसे धन का देश की **आंतरिक सुरक्षा** पर प्रतिकूल प्रभाव न पड़े।
- The legislation was first enacted in **1976**.
  यह कानून पहली बार **1976** में बनाया गया था।
- In **2010**, it was repealed and replaced with a new legislation.
  2010 में इसे निरस्त कर एक नया कानून लागू किया गया।
- The **2010 Act** came into force on **May 1, 2011** and has been amended in **2016, 2018, and 2020**.
  2010 का अधिनियम 1 मई, 2011 से प्रभावी हुआ और इसमें **2016, 2018 तथा 2020** में संशोधन किए गए।
- The **FCRA registration** is valid for **five years**, after which the NGO has to apply for a **renewal**.
  एफसीआरए पंजीकरण पाँच वर्ष तक वैध रहता है, जिसके बाद **गैर-सरकारी संगठन (NGO)** को **नवीनीकरण** के लिए आवेदन करना होता है।
- Since **2015**, the **FCRA registrations** of more than **18,000 NGOs** have been cancelled.
  2015 से अब तक **18,000 से अधिक एनजीओ** के **एफसीआरए पंजीकरण** रद्द किए जा चुके हैं।
- As on **June 22**, there are **14,456 FCRA-registered NGOs** active in the country.
  22 जून तक देश में **14,456 एफसीआरए-पंजीकृत एनजीओ** सक्रिय हैं।

What are the broad amendments proposed to the FCRA Rules?
एफसीआरए नियमों में व्यापक संशोधन क्या प्रस्तावित किए गए हैं?

- All **NGOs** and associations registered under the **FCRA, 2010**, are required to disclose their specific **activities** and the **geographical scope** of their programmes.
  एफसीआरए, 2010 के अंतर्गत पंजीकृत सभी **एनजीओ** और संगठनों को अपनी विशिष्ट **गतिविधियों** तथा अपने कार्यक्रमों के **भौगोलिक दायरे** का खुलासा करना होगा।
- The Rules no longer allow **general permission** under the **FCRA** and indicate tighter scrutiny on how **NGOs** utilise **foreign funds**.

नियम अब **एफसीआरए** के अंतर्गत **सामान्य अनुमति** की व्यवस्था नहीं देते और यह दर्शाते हैं कि **एनजीओ** विदेशी धन का किस प्रकार उपयोग करते हैं, इस पर अधिक कड़ी निगरानी रखी जाएगी।

- Any new registration will have to follow the said norms.
  किसी भी नए पंजीकरण को इन निर्धारित मानकों का पालन करना होगा।
- The Rules further broaden the definition of **'key functionary'** of an **NGO** beyond office bearers and directors to include **trustees**, **partners**, the **Karta** of a **Hindu Undivided Family**, **governing body members**, or anyone controlling or managing the organisation.
  नियमों में **एनजीओ** के **'मुख्य पदाधिकारी (Key Functionary)'** की परिभाषा का विस्तार करते हुए पदाधिकारियों और निदेशकों के अतिरिक्त **ट्रस्टी**, **साझेदार**, **हिंदू अविभाजित परिवार (HUF)** के **कर्ता**, **शासी निकाय के सदस्य**, अथवा संगठन का नियंत्रण या प्रबंधन करने वाले किसी भी व्यक्ति को इसमें शामिल किया गया है।
- They also require **NGOs** to mandatorily disclose **social media accounts**, **websites**, and declare whether the association or its key functionaries has brought out any publication during the year, which includes **books**, **magazines** or **newspaper articles**.
  नियमों के अनुसार **एनजीओ** को अपने **सोशल मीडिया खातों**, **वेबसाइटों** का अनिवार्य रूप से खुलासा करना होगा तथा यह भी घोषित करना होगा कि संगठन अथवा उसके मुख्य पदाधिकारियों ने वर्ष के दौरान **पुस्तकें**, **पत्रिकाएँ** या **समाचार-पत्रों में लेख** प्रकाशित किए हैं या नहीं।
- The Rules also impose a fee for registration for each specified purpose and for each **State** or **Union Territory (U.T.)** in which an **NGO** operates.
  नियमों में प्रत्येक निर्दिष्ट उद्देश्य तथा प्रत्येक **राज्य** अथवा **केंद्र शासित प्रदेश (यू.टी.)** के लिए, जहाँ **एनजीओ** कार्य करता है, पृथक पंजीकरण शुल्क निर्धारित किया गया है।
- So, **NGOs** operating across multiple sectors or regions now face higher registration costs.
  इस प्रकार अनेक क्षेत्रों या राज्यों में कार्य करने वाले **एनजीओ** को अब अधिक पंजीकरण शुल्क देना होगा।

What amendments apply to the programmes or purposes for which an NGO intends to receive foreign donations?
जिन कार्यक्रमों या उद्देश्यों के लिए कोई एनजीओ विदेशी अंशदान प्राप्त करना चाहता है, उन पर कौन-से संशोधन लागू होंगे?

- **NGOs** can receive **foreign contributions** for **social, educational, religious, economic, and cultural programmes**.
  एनजीओ सामाजिक, शैक्षिक, धार्मिक, आर्थिक तथा सांस्कृतिक कार्यक्रमों के लिए **विदेशी अंशदान** प्राप्त कर सकते हैं।
- The amended Rules state that the **certificate of registration** or the application form for new registrations shall specify the **purpose or purposes** for which registration is granted, chosen only from the list of purposes as specified in the **Schedule** appended to the rules; and the **States** or **U.T.s** in which the NGO proposes to undertake activities.
  संशोधित नियमों के अनुसार **पंजीकरण प्रमाणपत्र** अथवा नए पंजीकरण का आवेदन-पत्र केवल नियमों के साथ संलग्न **अनुसूची (Schedule)** में दिए गए उद्देश्यों में से चयनित **उद्देश्य अथवा उद्देश्यों** को निर्दिष्ट करेगा तथा उन **राज्यों** या **केंद्र शासित प्रदेशों** का उल्लेख करेगा जहाँ एनजीओ गतिविधियाँ संचालित करना चाहता है।
- Those with existing **FCRA registrations** are expected to update the purpose and intimate the **Central government** within **a year**.
  जिनके पास पहले से **एफसीआरए पंजीकरण** है, उन्हें **एक वर्ष** के भीतर अपने उद्देश्य अद्यतन कर **केंद्र सरकार** को सूचित करना होगा।
- Some categories specifically exclude **political activities**.
  कुछ श्रेणियों में **राजनीतिक गतिविधियों** को विशेष रूप से बाहर रखा गया है।
- The **educational purpose** lists **22 activities**, but adds the qualifier **"strictly non-political in nature"** to the category covering awareness programmes on **constitutional rights**,

fundamental duties, and **civic responsibilities**.
शैक्षिक उद्देश्य के अंतर्गत **22 गतिविधियाँ** सूचीबद्ध हैं, किन्तु **संवैधानिक अधिकारों**, **मौलिक कर्तव्यों** तथा **नागरिक उत्तरदायित्वों** पर आधारित जागरूकता कार्यक्रमों के लिए **"पूर्णतः गैर-राजनीतिक प्रकृति"** की शर्त जोड़ी गई है।

- Under **cultural purpose**, there are **18 categories**, including **"promotion of contemporary arts inspired by Indian traditions."**
सांस्कृतिक उद्देश्य के अंतर्गत **18 श्रेणियाँ** हैं, जिनमें **"भारतीय परंपराओं से प्रेरित समकालीन कलाओं का संवर्धन"** भी शामिल है।
- The Rules specify that these must exclude **political** or **ideological content**.
नियम स्पष्ट करते हैं कि इनमें **राजनीतिक** अथवा **वैचारिक सामग्री** शामिल नहीं होनी चाहिए।
- As many as **16 categories** of **religious activities** have been permitted which includes **"conduct of religious education, moral instruction, satsangs, discourses, and meditation retreats (excluding proselytisation)"** and **"burial/cremation ground development and maintenance."**
धार्मिक गतिविधियों की **16 श्रेणियों** को अनुमति दी गई है, जिनमें **"धार्मिक शिक्षा, नैतिक शिक्षा, सत्संग, प्रवचन तथा ध्यान शिविर (धर्म परिवर्तन के प्रचार को छोड़कर)"** तथा **"कब्रिस्तान/श्मशान भूमि का विकास और रखरखाव"** शामिल हैं।
- There are **19 categories** under the **economic purpose** and **30 items** under the **social category**.
आर्थिक उद्देश्य के अंतर्गत **19 श्रेणियाँ** तथा **सामाजिक श्रेणी** के अंतर्गत **30 मदें** शामिल हैं।

What are the penalties for violations?
उल्लंघनों पर क्या दंड निर्धारित किए गए हैं?

- The **MHA** has also notified an order specifying penalties for **FCRA violations**, including **excess administrative spending**, **speculative investments**, **misuse of funds**, **unauthorised receipt or utilisation of foreign contributions**, and the use of funds for **unapproved purposes** or in **States/U.T.s** not covered by an NGO's registration or prior permission.
गृह मंत्रालय (MHA) ने **एफसीआरए उल्लंघनों** के लिए दंड निर्धारित करने वाला आदेश भी अधिसूचित किया है, जिसमें **प्रशासनिक व्यय की सीमा से अधिक खर्च**, **सट्टात्मक निवेश**, **धन का दुरुपयोग**, **विदेशी अंशदान की अनधिकृत प्राप्ति अथवा उपयोग**, तथा **अनुमोदित उद्देश्यों** या **ऐसे राज्यों/केंद्र शासित प्रदेशों** में धन का उपयोग शामिल है जो एनजीओ के पंजीकरण अथवा पूर्व अनुमति में शामिल नहीं हैं।
- Any utilisation of funds for purposes other than those for which they were received can attract a penalty of up to **30%** of the amount misused or **₹1 lakh**, whichever is higher.
जिस उद्देश्य के लिए धन प्राप्त हुआ हो उसके अतिरिक्त किसी अन्य उद्देश्य के लिए उसका उपयोग करने पर दुरुपयोग की गई राशि का **30%** अथवा **₹1 लाख**, जो भी अधिक हो, तक का दंड लगाया जा सकता है।
- Likewise, using **foreign contributions** for purposes or in areas not covered by an NGO's registration or prior permission invites a penalty of **30%** of the amount involved or **₹1 lakh**, whichever is higher.
इसी प्रकार, एनजीओ के पंजीकरण अथवा पूर्व अनुमति में शामिल न किए गए उद्देश्यों या क्षेत्रों में **विदेशी अंशदान** का उपयोग करने पर संबंधित राशि का **30%** अथवा **₹1 लाख**, जो भी अधिक हो, का दंड लगाया जाएगा।
- In addition, spending beyond the permitted **administrative expense limit** or engaging in **speculative use of funds** will be penalised with fines calculated as a percentage of the amount involved, subject to a minimum of **₹1 lakh**.
इसके अतिरिक्त, अनुमत **प्रशासनिक व्यय सीमा** से अधिक खर्च करने अथवा **धन के सट्टात्मक उपयोग** पर संबंधित राशि के प्रतिशत के आधार पर जुर्माना लगाया जाएगा, जिसकी न्यूनतम राशि **₹1 लाख** होगी।

What is the Opposition saying?
विपक्ष क्या कह रहा है?

- **Opposition** members have said that the new Rules will adversely affect the functioning of **civil society organisations**.
  विपक्ष के सदस्यों का कहना है कि नए नियम **नागरिक समाज संगठनों** के कार्यकलापों पर प्रतिकूल प्रभाव डालेंगे।
- **Congress General Secretary (Organisation) K.C. Venugopal** said that forcing **NGOs** to choose from a **"rigid, government-mandated list"** of activities and restricting their operational geography would undermine their ability to respond to emergencies.
  कांग्रेस के महासचिव (संगठन) के. सी. वेणुगोपाल ने कहा कि **एनजीओ** को **"सरकार द्वारा निर्धारित कठोर गतिविधियों की सूची"** में से चयन करने के लिए बाध्य करना तथा उनके कार्यक्षेत्र को सीमित करना आपातकालीन परिस्थितियों में उनकी प्रतिक्रिया क्षमता को कमजोर करेगा।
- **John Brittas**, **Communist Party of India (Marxist) Rajya Sabha** member, wrote to **Home Minister Amit Shah** raising constitutional concerns.
  भारतीय कम्युनिस्ट पार्टी (मार्क्सवादी) के **राज्यसभा सदस्य जॉन ब्रिटास** ने **गृह मंत्री अमित शाह** को पत्र लिखकर संवैधानिक चिंताएँ व्यक्त कीं।
- "Collectively, these changes signify a decisive shift from regulating **foreign contribution** to regulating **voluntary organisations** themselves," he wrote.
  उन्होंने लिखा, **"सामूहिक रूप से ये परिवर्तन विदेशी अंशदान के विनियमन से आगे बढ़कर स्वयं स्वैच्छिक संगठनों के विनियमन की दिशा में एक निर्णायक परिवर्तन का संकेत देते हैं।"**

VICTORIA

Prime Minister Narendra Modi on Saturday handed over a 'Made in India' Fast Patrol Vessel to the Seychelles Coast Guard, reaffirming New Delhi's commitment to strengthening the archipelago nation's maritime capabilities.

Mr. Modi and Seychelles President Patrick Herminie participated in the handover ceremony at the Coast Guard Base in Victoria, Seychelles, during Mr. Modi's three-day visit to the Indian Ocean archipelago.

The Ministry of External Affairs (MEA) said the vessel, *PS LESPWAR*, will strengthen Seychelles' maritime surveillance and Exclusive Economic Zone (EEZ) patrol capabilities.

Mr. Modi on Saturday described the India-Seychelles friendship as "steady, strong and long-lasting" and said the two countries would "together win the race" as he addressed a state dinner hosted by Mr. Herminie.

Addressing the dinner, Mr. Herminie affirmed the enduring bond between the two nations. "India has been a steadfast friend to Seychelles, a sentiment warmly reciprocated by our people and our vibrant Indian diaspora," he said.

The dinner was attended by External Affairs Minister S. Jaishankar, Seychelles Speaker of the National Assembly Azarel Ernesta, Minister of Foreign Affairs and the Diaspora Barry Faure.

The Prime Minister received a ceremonial Guard of Honour.

]Mr. Modi also visited a giant tortoise enclosure at the Seychelles National Botanical Garden.

The story of a shipwrecked hegemon

War on Iran

The war the U.S. and Israel launched has come to a fragile pause with a preliminary agreement between Washington and Tehran, but it has already diminished America's presence in the region, prompting Gulf countries to seek a new *modus vivendi* with Tehran, while Israel, isolated and angry, is clinging on to its Lebanon card

Troubled waters: Vessels at the Strait of Hormuz, as seen from Musandam, Oman, on June 16. REUTERS

THE GIST

- The U.S.-Iran MoU says the ceasefire should come into force on all fronts, including Lebanon, and that Lebanon's sovereignty should be respected
- Tehran would get access to its frozen funds and the U.S. would help create a development plan for Iran, involving $300 billion
- Iran has promised never to make a nuclear bomb and to ensure safe passage of ships through the Strait of Hormuz without any charge for 60 day

"When we are finished, take over your government. It will be yours to take. This will be probably your only chance for generations," President Donald Trump told Iranians on February 28, after the U.S. and Israel launched an all-out war on their country. He asked the Islamic Revolutionary Guard Corps (IRGC), armed forces and police to "lay down" weapons. "You will be treated fairly with total immunity, or you will face certain death," warned Mr. Trump.

The initial blow was devastating for Iran. More than 40 senior officials were killed, including Supreme Leader Ayatollah Ali Khamenei, IRGC commander Mohammad Pakpour and Defence Council chief Ali Shamkhani. Senior Israeli officials had likened the June 12, 2025 strike on Iran, which killed a host of military officers, to the 'Red Wedding', the infamous massacre of House Stark members in *Game of Thrones*. But that attack paled in comparison with the February 28 strikes. This was Iran's true 'Red Wedding' moment.

The U.S. and Israel expected the decapitation strike to trigger the collapse of the Iranian state or plunge the country, already rocked by January's violent protests, into chaos, paving the way for a more amenable leadership to emerge. Mr. Trump wanted a quick, Venezuela-like solution. This confidence was reflected in his conversation with allies during the early hours of the war. According to Israel's *Ynet News*, Mr. Trump told British Prime Minister Keir Starmer that the war would be over "in three days". When he urged Mr. Starmer to deploy aircraft carriers to West Asia, the British PM said he would first consult his team the following week. "But the war has already started. Next week, the war is going to be over... in three days," said Mr. Trump.

But he was wrong.

Iran's response rested on three pillars. One, preserving the state and preventing regime collapse; two, retaliating by regionalising the war; three, enhancing the global economic cost by wielding its most potent strategic lever – the Strait of Hormuz. The state recovered quickly from the initial shock. Ali Larijani, secretary of the National Security Council, was already in charge of critical decision-making. President Masoud Pezeshkian focused on managing the war-time economy and civil administration. Within days of the U.S. attack, Ahmad Vahidi, the 'ghost general' of the IRGC, took command of the war effort. (Larijani was later killed in an Israeli strike and was swiftly replaced by Mohammad Bagher Zolqadr, another IRGC commander).

Iran also started striking U.S. bases in Persian Gulf countries and Jordan, besides directly attacking Israel. Among the six Gulf kingdoms, all but Oman have permanent U.S. military bases. Bases, missile defence batteries and sites of American economic presence were all targeted. Russia reportedly shared intelligence with Iran. On March 1, the second day of the war, the IRGC Navy announced that the Strait of Hormuz, through which one fifth of the world's seaborne oil passed before the war, was closed to all traffic. Shipping companies halted transits, commercial traffic collapsed, insurance costs rocketed and the price of crude oil soared, pushing the global economy to a cliff.

Mr. Trump, having failed to meet his objectives quickly, doubled down on his rhetoric. On March 6, he demanded Iran's "unconditional surrender" and ruled out any deal with Tehran. Two days later, Iran's Assembly of Experts chose Mojtaba Khamenei, son of the former leader Ali Khamenei, as the new 'Leader of the Revolution'. In his first message as the leader, Mojtaba termed the war an "existential struggle", and said the fighting would continue and that the Strait of Hormuz would remain shut. He delivered a clear message: Iran, despite the punishing American, Israeli attacks, preferred war over surrender.

"Iran was trying to avoid this war from the very beginning. A political solution was available [before the war started]. But Trump and [Israeli Prime Minister Benjamin] Netanyahu were not interested in an agreement. They wanted to change Iran's government and take over Iran's oil, creating Israel's hegemony in this part of the world," Foad Izadi, professor of world studies at the University of Tehran, told *The Hindu*. "Of course, they have inflicted huge damage on Iran's infrastructure and killed a lot of people. But they have failed [to meet their objectives]. And when they realised that they have failed, they entered negotiations," he added.

Stubborn realities

In Mr. Trump's view, the U.S. secured a decisive victory over Iran. He said Iran's navy, air force, air defences and much of its attack capability had been destroyed, and that Tehran was begging for a deal. Yet, he faced a series of stubborn realities. The swift victory he had anticipated remained elusive; Iran's state survived the bombing; there was no viable military option to reopen the Strait of Hormuz; and Iran's nuclear programme remained unaddressed and unresolved. "The war has deeply scarred the entire region. Iran suffered heavy blows. Its Supreme Leader was killed, key military and nuclear sites were destroyed, yet it survived and proved it could strike back asymmetrically," Mohammed Soliman, author of *West Asia: A New American Grand Strategy in the Middle East*, and a senior fellow at The Middle East Institute, told *The Hindu*.

Mr. Trump had two options: press ahead with the air campaign, further depleting America's offensive and defensive stockpiles; or engage Iran diplomatically. If continuing the strikes did not produce a desirable outcome, prolonging the campaign would become futile. He chose the diplomatic alternative. It was at this point Pakistan, a nuclear power with good ties to both Washington and Tehran, stepped in to offer mediation. On April 8, just hours after threatening to erase Iran's civilisation, Mr. Trump announced a "double-sided ceasefire".

But the ceasefire did not mean an end to the conflict. Mr. Trump declared that the Strait of Hormuz would be open. Both Iran and Pakistan said the ceasefire covered Lebanon as well. Israel had seized parts of southern Lebanon after the war broke out. Israel continued its strikes, which strained the U.S.-Iran ceasefire. Tehran did not reopen the strait. After direct talks between the U.S. and Iran in Islamabad on April 11-12 failed to make any breakthrough, Mr. Trump announced a blockade of Iranian ports aimed at choking the country's already broken economy further. He did not want to return to active war, but he wanted to make Iran concede on his critical demands. Iran's closure of the strait and the American blockade led to repeated skirmishes between the two sides. But despite the tensions, they stayed engaged in talks, exchanging drafts through Pakistan. Iran took a phased approach towards the conflict. It wanted to negotiate a preliminary deal first to bring the war to an end and remove the bottlenecks for shipping in and out of the Persian Gulf, and then, in phase two, hold discussions on the nuclear question. The Trump administration, despite its public protests, accepted this line.

On June 15, U.S. and Iran announced the memorandum of understanding, extending the ceasefire by 60 more days and paving the way for more substantive talks on critical issues such as Iran's nuclear programme and western sanctions. The memorandum also said the ceasefire should come into force on all fronts, including Lebanon; the U.S. blockade would be lifted; Tehran would get access to its frozen funds and the U.S. would help create a development plan for Iran, involving $300 billion. On the other side, Iran promised never to make a nuclear bomb (Iran's official position has always been that it is not seeking to build a bomb, a position which it put on record in the 2015 deal signed with the Obama administration). Iran also promised to ensure safe passage of ships through the Strait of Hormuz without any charge for 60 days.

Mr. Trump's claims of victory do not align with the text of the MoU. The U.S., which started the war seeking regime change, ultimately offered substantial concessions to the same government, in exchange for commitments not to pursue a nuclear bomb, and to reopen the Strait of Hormuz, which had been open before the war. "It is both a strategic and a military defeat. No strategic or military goals were attained. The region will now have to recalibrate its relation to the U.S. and abandon unrealistic expectations about American power," Bruno Macaes, a Portuguese political scientist and author, told *The Hindu*.

A new security order

Before the war began, West Asia looked like a different region. Israel, after regionalising its post-October 7 wars, looked confident of meeting its final objective – bring down the Islamic Republic and build a unipolar West Asia where it would act as the principal security player. The Abraham Accords, which saw the UAE, Bahrain and Morocco sign normalisation agreements with Israel, built the foundation for this 'new Middle East'. Gulf countries were worried about Iran but felt protected by American military presence. America's promise for security had been the bedrock of the U.S.-Gulf partnership for decades. As Jimmy Carter said in January 1980, "Let our position be absolutely clear: An attempt by any outside force to gain control of the Persian Gulf region will be regarded as an assault on the vital interests of the United States..." Iran upended not just the Carter doctrine but also the Trumpian effort to reshape West Asia around Israel as its core and Arab states as its pillars.

The U.S. could do little as Iran unleashed its drones and missiles at American bases across the region. Rather than providing security, the bases became magnets for Iranian projectiles. "The idea before the war was that the U.S. would provide security to the Gulf countries. But what happened was that the Gulf countries were burning through their defensive weapons to protect U.S. bases on their soil," said an Emirati official, requesting anonymity.

At least 13 American bases in the Gulf, including the Al Udeid Air Base in Qatar, the Prince Sultan Air Base in Saudi Arabia, the Ali Al Salem Air Base in Kuwait, the U.S. Fifth Fleet headquarters in Bahrain and the Al Sader and Al Ruwais facilities in the UAE, were damaged. According to a *Wall Street Journal* visual investigation based on satellite imagery, Iranian attacks devastated the U.S. Navy's base in Bahrain. The U.S. could do little when Qatar's Ras Laffan Industrial City, the world's largest LNG export complex, was hit on March 18. Gulf countries watched with pain and shock as Iran drilled holes into the U.S.-led security architecture.

"Stability will have to come from within since the U.S. proved incapable of providing it. As for U.S. policy, it will become almost entirely mercantile: focus on deals in energy, AI and, of course, weapons," said Mr. Macaes. Mr. Soliman of the Middle East Institute agreed: "Gulf Arab states will now accelerate their security self-reliance, diversify their defence relationships in addition to the U.S., and seek more pragmatic ways to manage relations with Tehran."

Gulf states have already begun moving in this direction. They seem to have recognised that the Islamic Republic is not going anywhere, and for their own security and for the safe passage of shipping through Hormuz, they will need to work with Tehran on the basis of peaceful co-existence. What they require is regional stability, and for that stability, as Mr. Macaes put it, they would have to bring "Iran back from the cold".

"Part of what we are doing now, as regional countries, is to create this regional security framework between us and Iran," Qatar's Prime Minister Sheikh Mohammed Al Thani said recently in an interview. "That will hopefully have economic cooperation in the future between all of us," he added. Saudi Arabia reportedly reached out to Iran to reach an understanding so that the kingdom would be spared if war resumed. U.S. Vice President J.D. Vance recently said the UAE, which has very close ties with Israel, "is having conversations with Iran that have never happened before, including with the IRGC, about economic incentives." Oman has always kept the diplomatic channels open with Tehran despite the war.

The pre-October 7 push by the U.S. to bring Gulf monarchies and Israel, the two pillars of America's West Asia policy, closer to build a joint front against Iran appears to have been shattered by this war. "The Abraham Accords and the effort to create a Sunni-Zionist alliance against Iran are dead," Trita Parsi, executive vice president of Quincy Institute, told *The Hindu*. "The war proved that the containment of Iran only leads to war, instability, and the defeat of such an alliance. The Arab side sees Israel as a greater threat than needs to be contained, and Iran as a state that they – from a security standpoint – need to integrate with economically, because containment and war failed."

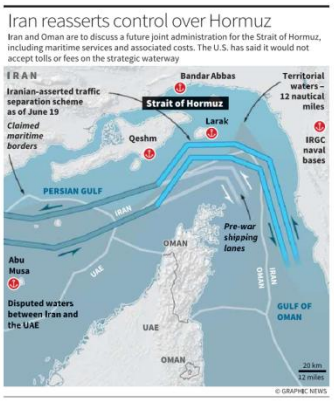
Israel, left alone

One country that had long sought this war, and was among the most affected by it, was Israel. It was the principal architect of the campaign. Yet, as the conflict went against the initial expectations, Mr. Trump sidelined Israel and chose talks with Iran, ultimately reaching the MoU. With Iran now rewriting the regional security order and engaging in direct talks with the U.S., Mr. Netanyahu's big push to remap West Asia appears to have backfired. "The end result (of the war) may be the decontainment of Iran and the recontainment of Israel – perhaps going back to the pre-1991 era in which Israel was the regional and international outcast," said Mr. Parsi.

Israel stands increasingly isolated on the world stage. Without the U.S., its ability to shape security and geopolitical outcomes is limited. Many in Israel see the U.S.-Iran deal as a major strategic setback. "Israel is going to regret this war because nothing was achieved and Israel lost Trump," Gideon Levy, Israeli journalist and author, told *The Hindu*. "Israel should learn now that not everything can be achieved by force, but unfortunately Israel will not draw this lesson."

At this point, Mr. Netanyahu's focus is on the trump card he possesses – Lebanon. On June 26, Israel and Lebanon, under U.S. mediation, agreed to a deal under which Israeli troops would stay in southern Lebanon. Iran and Hezbollah have demanded a complete Israeli withdrawal from Lebanon. The first article of the MoU calls for respecting Lebanon's "territorial integrity and sovereignty" – an indirect call for Israeli troop withdrawal. If Israel doesn't withdraw, clashes with Hezbollah will persist, meaning a ceasefire in Lebanon would remain out of reach. Tensions have already spilled over into the Strait of Hormuz, where Iran insists that ships should follow its designated route. It attacked a vessel transiting an "unauthorised" route last week, and the U.S. struck Iran on Saturday and Tehran retaliated by attacking U.S. bases in the region. But the U.S. strikes are unlikely to force Iran to give up its newly asserted control over the strait.

"We have to wait and see whether the U.S. and Israel are done with the war or this is just a pause," said Mr. Izadi, the Iranian professor. "Iran wants these attacks to stop; to get its money back; sanctions to be lifted and its authority over Hormuz recognised. The strait is in Iran's territory, in its contiguous waters. These are our red lines," he said. "The U.S. can accept these reasonable demands or they can start the war again. It's a decision they have to make."



28J6. The story of a shipwrecked hegemon
एक जहाज़-डूबे वर्चस्ववादी शक्ति की कहानी

- The war the **U.S.** and **Israel** launched has come to a fragile pause with a preliminary agreement between **Washington** and **Tehran**, but it has already diminished **America's** presence in the region, prompting **Gulf** countries to seek a new **modus vivendi** with **Tehran**, while **Israel**, isolated and angry, is clinging on to its **Lebanon** card.

अमेरिका और **इज़राइल** द्वारा शुरू किया गया युद्ध **वॉशिंगटन** और **तेहरान** के बीच एक प्रारंभिक समझौते के साथ एक नाज़ुक विराम पर पहुँचा है, लेकिन इसने पहले ही क्षेत्र में **अमेरिका** की उपस्थिति को कम कर दिया है, जिससे **खाड़ी** देशों को **तेहरान** के साथ नया **मोडस विवेंडी (सह-अस्तित्व की व्यवस्था)** तलाशने के लिए प्रेरित

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur

Website : patrioticias.in

किया गया है, जबकि अलग-थलग और क्रोधित **इज़राइल** अभी भी अपने **लेबनान** वाले विकल्प से चिपका हुआ है।

- "When we are finished, take over your government.
  "**जब** हम समाप्त कर लेंगे, तब **अपनी सरकार** अपने हाथ में ले लेना।
- It will be yours to take.
  वह तुम्हारे हाथ में लेने के लिए होगी।
- This will be probably your only chance for generations," **President Donald Trump** told **Iranians** on **February 28**, after the **U.S.** and **Israel** launched an all-out war on their country.
  यह संभवतः कई पीढ़ियों में तुम्हारा **एकमात्र अवसर** होगा," **राष्ट्रपति डोनाल्ड ट्रंप** ने **28 फ़रवरी** को **ईरानियों** से कहा, जब **अमेरिका** और **इज़राइल** ने उनके देश पर पूर्ण युद्ध शुरू कर दिया।
- He asked the **Islamic Revolutionary Guard Corps (IRGC)**, armed forces and police to "lay down" weapons.
  उन्होंने **इस्लामिक रिवोल्यूशनरी गार्ड कॉर्प्स (IRGC)**, सशस्त्र बलों और पुलिस से अपने हथियार "**डाल देने**" के लिए कहा।
- "You will be treated fairly with total immunity, or you will face certain death," warned **Mr. Trump**.
  "तुम्हारे साथ **पूर्ण प्रतिरक्षा** के साथ निष्पक्ष व्यवहार किया जाएगा, अन्यथा तुम्हें निश्चित मृत्यु का सामना करना पड़ेगा," **श्री ट्रंप** ने चेतावनी दी।
- The initial blow was devastating for **Iran**.
  प्रारंभिक हमला **ईरान** के लिए विनाशकारी था।
- More than **40 senior officials** were killed, including **Supreme Leader Ayatollah Ali Khamenei**, **IRGC commander Mohammad Pakpour** and **Defence Council chief Ali Shamkhani**.
  40 से अधिक वरिष्ठ अधिकारी मारे गए, जिनमें **सर्वोच्च नेता अयातुल्ला अली ख़ामेनेई**, **IRGC कमांडर मोहम्मद पकपौर** और **रक्षा परिषद प्रमुख अली शमखानी** शामिल थे।
- Senior **Israeli** officials had likened the **June 12, 2025** strike on **Iran**, which killed a host of military officers, to the **'Red Wedding'**, the infamous massacre of **House Stark** members in **Game of Thrones**.
  वरिष्ठ **इज़राइली** अधिकारियों ने **12 जून, 2025** को **ईरान** पर हुए उस हमले, जिसमें अनेक सैन्य अधिकारी मारे गए थे, की तुलना **'रेड वेडिंग'** से की थी, जो **गेम ऑफ थ्रोन्स** में **हाउस स्टार्क** के सदस्यों के कुख्यात नरसंहार का दृश्य था।
- But that attack paled in comparison with the **February 28** strikes.
  लेकिन वह हमला **28 फ़रवरी** के हमलों की तुलना में फीका पड़ गया।
- This was **Iran's** true **'Red Wedding'** moment.
  यह **ईरान** का वास्तविक **'रेड वेडिंग'** क्षण था।
- The **U.S.** and **Israel** expected the decapitation strike to trigger the collapse of the **Iranian** state or plunge the country, already rocked by **January's** violent protests, into chaos, paving the way for a more amenable leadership to emerge.
  अमेरिका और **इज़राइल** को उम्मीद थी कि नेतृत्व-विनाशकारी हमला **ईरानी** राज्य के पतन का कारण बनेगा या **जनवरी** के हिंसक प्रदर्शनों से पहले ही प्रभावित देश को अराजकता में धकेल देगा, जिससे अधिक अनुकूल नेतृत्व के उभरने का मार्ग प्रशस्त होगा।
- **Mr. Trump** wanted a quick, **Venezuela-like** solution.
  श्री ट्रंप एक त्वरित, **वेनेज़ुएला-जैसे** समाधान की अपेक्षा कर रहे थे।
- This confidence was reflected in his conversation with allies during the early hours of the war.
  यह आत्मविश्वास युद्ध के शुरुआती घंटों में सहयोगियों के साथ उनकी बातचीत में भी दिखाई दिया।
- According to **Israel's Ynet News**, **Mr. Trump** told **British Prime Minister Keir Starmer** that the war would be over "in three days".

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

इज़राइल के Ynet News के अनुसार, **श्री ट्रंप** ने **ब्रिटिश प्रधानमंत्री कीर स्टारमर** से कहा कि यह युद्ध "**तीन दिनों में**" समाप्त हो जाएगा।

- When he urged **Mr. Starmer** to deploy aircraft carriers to **West Asia**, the **British PM** said he would first consult his team the following week.
  जब उन्होंने **श्री स्टारमर** से **पश्चिम एशिया** में विमानवाहक पोत तैनात करने का आग्रह किया, तो **ब्रिटिश प्रधानमंत्री** ने कहा कि वह पहले अगले सप्ताह अपनी टीम से परामर्श करेंगे।
- "But the war has already started.
  "लेकिन युद्ध तो पहले ही शुरू हो चुका है।
- Next week, the war is going to be over... in **three days**," said **Mr. Trump**.
  अगले सप्ताह तक युद्ध समाप्त हो जाएगा... **तीन दिनों** में," **श्री ट्रंप** ने कहा।
- But he was wrong.
  लेकिन **वह** गलत थे।
- **Iran's** response rested on **three pillars**.
  ईरान की प्रतिक्रिया **तीन स्तंभों** पर आधारित थी।
- One, preserving the **state** and preventing **regime collapse**;
  पहला, **राज्य** को सुरक्षित रखना और **शासन व्यवस्था के पतन** को रोकना।
- Two, retaliating by **regionalising the war**;
  दूसरा, **युद्ध का क्षेत्रीय विस्तार** करके प्रतिशोध लेना।
- Three, enhancing the **global economic cost** by wielding its most potent strategic lever — the **Strait of Hormuz**.
  तीसरा, अपने सबसे शक्तिशाली रणनीतिक साधन — **होर्मुज़ जलडमरूमध्य** — का उपयोग करके **वैश्विक आर्थिक लागत** को बढ़ाना।
- The **state** recovered quickly from the initial shock.
  राज्य प्रारंभिक झटके से शीघ्र ही उबर गया।
- **Ali Larijani**, secretary of the **National Security Council**, was already in charge of critical decision-making.
  राष्ट्रीय सुरक्षा परिषद के सचिव **अली लारिजानी** पहले से ही महत्वपूर्ण निर्णय लेने की जिम्मेदारी संभाल रहे थे।
- **President Masoud Pezeshkian** focused on managing the **war-time economy** and **civil administration**.
  राष्ट्रपति मसूद पेज़ेश्कियन ने **युद्धकालीन अर्थव्यवस्था** और **नागरिक प्रशासन** के प्रबंधन पर ध्यान केंद्रित किया।
- Within days of the **U.S.** attack, **Ahmad Vahidi**, the **'ghost general'** of the **IRGC**, took command of the **war effort**.
  अमेरिका के हमले के कुछ ही दिनों के भीतर **IRGC** के **'घोस्ट जनरल' अहमद वाहिदी** ने **युद्ध अभियान** की कमान संभाल ली।
- (**Larijani** was later killed in an **Israeli** strike and was swiftly replaced by **Mohammed Bagher Zolqadr**, another **IRGC** commander).
  (**लारिजानी** बाद में **इज़राइली** हमले में मारे गए और उनकी जगह शीघ्र ही **IRGC** के एक अन्य कमांडर **मोहम्मद बाघेर ज़ोलक़द्र** को नियुक्त कर दिया गया।)
- **Iran** also started striking **U.S.** bases in **Persian Gulf** countries and **Jordan**, besides directly attacking **Israel**.
  ईरान ने **इज़राइल** पर सीधे हमले करने के साथ-साथ **फ़ारस की खाड़ी** के देशों और **जॉर्डन** में स्थित **अमेरिकी** ठिकानों पर भी हमले शुरू कर दिए।
- Among the **six Gulf kingdoms**, all but **Oman** have permanent **U.S. military bases**.
  छह खाड़ी राजतंत्रों में **ओमान** को छोड़कर सभी में स्थायी **अमेरिकी सैन्य अड्डे** हैं।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- **Bases**, **missile defence batteries** and sites of **American economic presence** were all targeted.
  सैन्य अड्डों, **मिसाइल रक्षा प्रणालियों** और **अमेरिकी आर्थिक उपस्थिति** वाले स्थलों को निशाना बनाया गया।
- **Russia** reportedly shared intelligence with **Iran**.
  बताया गया कि **रूस** ने **ईरान** के साथ खुफिया जानकारी साझा की।
- On **March 1**, the second day of the war, the **IRGC Navy** announced that the **Strait of Hormuz**, through which **one fifth** of the world's seaborne oil passed before the war, was closed to all traffic.
  1 मार्च, युद्ध के दूसरे दिन, **IRGC नौसेना** ने घोषणा की कि **होर्मुज़ जलडमरूमध्य**, जिसके माध्यम से युद्ध से पहले दुनिया के समुद्री मार्ग से भेजे जाने वाले तेल का **पाँचवाँ हिस्सा** गुजरता था, सभी यातायात के लिए बंद कर दिया गया है।
- **Shipping companies** halted transits, **commercial traffic** collapsed, **insurance costs** rocketed and the price of **crude oil** soared, pushing the **global economy** to a cliff.
  शिपिंग कंपनियों ने आवागमन रोक दिया, **व्यावसायिक यातायात** ठप हो गया, **बीमा लागत** तेजी से बढ़ गई और **कच्चे तेल** की कीमतें आसमान छूने लगीं, जिससे **वैश्विक अर्थव्यवस्था** संकट के कगार पर पहुँच गई।
- **Mr. Trump**, having failed to meet his objectives quickly, doubled down on his rhetoric.
  अपने उद्देश्यों को शीघ्र प्राप्त करने में असफल रहने के बाद **श्री ट्रंप** ने अपनी बयानबाज़ी और अधिक तीव्र कर दी।
- On **March 6**, he demanded **Iran's** "**unconditional surrender**" and ruled out any deal with **Tehran**.
  6 मार्च को उन्होंने **ईरान** के "**बिना शर्त आत्मसमर्पण**" की मांग की और **तेहरान** के साथ किसी भी समझौते की संभावना से इनकार कर दिया।
- Two days later, **Iran's Assembly of Experts** chose **Mojtaba Khamenei**, son of the former leader **Ali Khamenei**, as the new **'Leader of the Revolution'**.
  दो दिन बाद **ईरान की असेंबली ऑफ एक्सपर्ट्स** ने पूर्व नेता **अली ख़ामेनेई** के पुत्र **मोजतबा ख़ामेनेई** को नया **'क्रांति का नेता'** चुना।
- In his first message as the leader, **Mojtaba** termed the war an "**existential struggle**", and said the fighting would continue and that the **Strait of Hormuz** would remain shut.
  नेता के रूप में अपने पहले संदेश में **मोजतबा** ने इस युद्ध को "**अस्तित्व की लड़ाई**" बताया और कहा कि संघर्ष जारी रहेगा तथा **होर्मुज़ जलडमरूमध्य** बंद रहेगा।
- He delivered a clear message: **Iran**, despite the punishing **American**, **Israeli** attacks, preferred war over surrender.
  उन्होंने स्पष्ट संदेश दिया कि **ईरान**, **अमेरिकी** और **इज़राइली** हमलों की भारी मार झेलने के बावजूद, आत्मसमर्पण की अपेक्षा युद्ध को प्राथमिकता देता है।
- "**Iran** was trying to avoid this war from the very beginning.
  "**ईरान** शुरू से ही इस युद्ध से बचने की कोशिश कर रहा था।
- A **political solution** was available [before the war started].
  युद्ध शुरू होने से पहले **राजनीतिक समाधान** उपलब्ध था।
- But **Trump** and [**Israeli Prime Minister Benjamin**] **Netanyahu** were not interested in an agreement.
  लेकिन **ट्रंप** और [**इज़राइली प्रधानमंत्री बेंजामिन**] **नेतन्याहू** किसी समझौते में रुचि नहीं रखते थे।
- They wanted to change **Iran's government** and take over **Iran's oil**, creating **Israel's hegemony** in this part of the
  वे **ईरान की सरकार** बदलना चाहते थे और **ईरान के तेल** पर नियंत्रण करना चाहते थे, ताकि इस क्षेत्र में **इज़राइल का वर्चस्व** स्थापित किया जा सके।
- world," **Foad Izadi**, professor of **world studies** at the **University of Tehran**, told **The Hindu**.
  दुनिया," **तेहरान विश्वविद्यालय** में **विश्व अध्ययन** के प्रोफेसर **फोआद इज़ादी** ने **द हिंदू** से कहा।

- "Of course, they have inflicted huge damage on **Iran's infrastructure** and killed a lot of people.
  "निस्संदेह, उन्होंने **ईरान के बुनियादी ढाँचे** को भारी नुकसान पहुँचाया है और बहुत से लोगों की जान ली है।
- But they have failed [to meet their objectives].
  लेकिन वे [अपने उद्देश्यों को प्राप्त करने में] असफल रहे हैं।
- And when they realised that they had failed, they entered negotiations," he added.
  और जब उन्हें यह एहसास हुआ कि वे असफल हो गए हैं, तब वे **वार्ता** में शामिल हुए," उन्होंने आगे कहा।

Stubborn realities
कठोर वास्तविकताएँ

- In **Mr. Trump's** view, the **U.S.** secured a decisive victory over **Iran**.
  श्री ट्रंप के अनुसार, **अमेरिका** ने **ईरान** पर निर्णायक विजय प्राप्त की।
- He said **Iran's navy**, **air force**, **air defences** and much of its **attack capability** had been destroyed, and that **Tehran** was begging for a deal.
  उन्होंने कहा कि **ईरान की नौसेना**, **वायुसेना**, **वायु रक्षा प्रणाली** और उसकी अधिकांश **आक्रमण क्षमता** नष्ट हो चुकी है तथा **तेहरान** समझौते के लिए गिड़गिड़ा रहा है।
- Yet, he faced a series of **stubborn realities**.
  फिर भी, उन्हें कई **कठोर वास्तविकताओं** का सामना करना पड़ा।
- The swift victory he had anticipated remained elusive; **Iran's state** survived the bombing; there was no viable military option to reopen the **Strait of Hormuz**; and **Iran's nuclear programme** remained unaddressed and unresolved.
  जिस त्वरित विजय की उन्होंने अपेक्षा की थी, वह नहीं मिली; **ईरानी राज्य** बमबारी के बावजूद बचा रहा; **होर्मुज़ जलडमरूमध्य** को पुनः खोलने का कोई व्यवहारिक सैन्य विकल्प नहीं था; और **ईरान का परमाणु कार्यक्रम** अनसुलझा और बिना समाधान के बना रहा।
- "The war has deeply scarred the entire region.
  "इस युद्ध ने पूरे क्षेत्र पर गहरा घाव छोड़ा है।
- **Iran** suffered heavy blows.
  ईरान को भारी क्षति उठानी पड़ी।
- Its **Supreme Leader** was killed, key **military** and **nuclear sites** were destroyed, yet it survived and proved it could strike back asymmetrically," **Mohammed Soliman**, author of **West Asia: A New American Grand Strategy in the Middle East**, and a senior fellow at **The Middle East Institute**, told **The Hindu**.
  उसके **सर्वोच्च नेता** मारे गए, प्रमुख **सैन्य** और **परमाणु ठिकाने** नष्ट कर दिए गए, फिर भी वह बचा रहा और उसने साबित किया कि वह **असममित तरीके** से जवाबी हमला कर सकता है," **वेस्ट एशिया: ए न्यू अमेरिकन ग्रैंड स्ट्रेटेजी इन द मिडिल ईस्ट** के लेखक तथा **द मिडिल ईस्ट इंस्टीट्यूट** के वरिष्ठ फेलो **मोहम्मद सुलेमान** ने **द हिंदू** से कहा।
- **Mr. Trump** had two options: press ahead with the **air campaign**, further depleting **America's offensive and defensive stockpiles**; or engage **Iran** diplomatically.
  श्री ट्रंप के सामने दो विकल्प थे: **हवाई अभियान** जारी रखना, जिससे **अमेरिका के आक्रामक और रक्षात्मक हथियार भंडार** और कम हो जाते; या **ईरान** के साथ कूटनीतिक रूप से बातचीत करना।
- If continuing the strikes did not produce a desirable outcome, prolonging the campaign would become futile.
  यदि हमले जारी रखने से अपेक्षित परिणाम नहीं मिलते, तो अभियान को लंबा खींचना निरर्थक हो जाता।
- He chose the **diplomatic alternative**.
  उन्होंने **कूटनीतिक विकल्प** चुना।
- It was at this point **Pakistan**, a **nuclear power** with good ties to both **Washington** and **Tehran**, stepped in to offer mediation.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur

Contact Number : 9971932488
Website : patrioticias.in

इसी समय **पाकिस्तान**, जो एक **परमाणु शक्ति** है और जिसके **वॉशिंगटन** तथा **तेहरान** दोनों से अच्छे संबंध हैं, मध्यस्थता की पेशकश करने के लिए आगे आया।

- On **April 8**, just hours after threatening to erase **Iran's civilisation**, **Mr. Trump** announced a "**double-sided ceasefire**".
  8 अप्रैल को, **ईरान की सभ्यता** को मिटा देने की धमकी देने के कुछ ही घंटों बाद, **श्री ट्रंप** ने "**दो-तरफ़ा युद्धविराम**" की घोषणा की।
- But the **ceasefire** did not mean an end to the conflict.
  लेकिन **युद्धविराम** का अर्थ संघर्ष का अंत नहीं था।
- **Mr. Trump** declared that the **Strait of Hormuz** would be open.
  श्री ट्रंप ने घोषणा की कि **होर्मुज़ जलडमरूमध्य** खुला रहेगा।
- Both **Iran** and **Pakistan** said the **ceasefire** covered **Lebanon** as well.
  ईरान और **पाकिस्तान** दोनों ने कहा कि **युद्धविराम लेबनान** पर भी लागू होगा।
- **Israel** had seized parts of southern **Lebanon** after the war broke out.
  युद्ध शुरू होने के बाद **इज़राइल** ने दक्षिणी **लेबनान** के कुछ हिस्सों पर कब्ज़ा कर लिया था।
- **Israel** continued its strikes, which strained the **U.S.-Iran ceasefire**.
  इज़राइल ने अपने हमले जारी रखे, जिससे **अमेरिका-ईरान युद्धविराम** पर दबाव बढ़ गया।
- **Tehran** did not reopen the strait.
  तेहरान ने जलडमरूमध्य को पुनः नहीं खोला।
- After direct talks between the **U.S.** and **Iran** in **Islamabad** on **April 11-12** failed to make any breakthrough, **Mr. Trump** announced a blockade of **Iranian ports** aimed at choking the country's already broken economy further.
  11-12 अप्रैल को **इस्लामाबाद** में **अमेरिका** और **ईरान** के बीच हुई प्रत्यक्ष वार्ता में कोई सफलता नहीं मिलने के बाद, **श्री ट्रंप** ने **ईरानी बंदरगाहों** की नाकेबंदी की घोषणा की, जिसका उद्देश्य देश की पहले से ही कमजोर अर्थव्यवस्था को और अधिक पंगु बनाना था।
- He did not want to return to active war, but he wanted to make **Iran** concede on his critical demands.
  वह सक्रिय युद्ध में लौटना नहीं चाहते थे, लेकिन वे चाहते थे कि **ईरान** उनकी महत्वपूर्ण मांगों को स्वीकार करे।
- **Iran's** closure of the strait and the **American blockade** led to repeated skirmishes between the two sides.
  ईरान द्वारा जलडमरूमध्य बंद किए जाने और **अमेरिकी नाकेबंदी** के कारण दोनों पक्षों के बीच बार-बार झड़पें हुईं।
- But despite the tensions, they stayed engaged in talks, exchanging drafts through **Pakistan**.
  लेकिन तनाव के बावजूद दोनों पक्ष **पाकिस्तान** के माध्यम से मसौदों का आदान-प्रदान करते हुए वार्ता में लगे रहे।
- **Iran** took a phased approach towards the conflict.
  ईरान ने इस संघर्ष के प्रति चरणबद्ध दृष्टिकोण अपनाया।
- It wanted to negotiate a **preliminary deal** first to bring the war to an end and remove the bottlenecks for shipping in and out of the **Persian Gulf**, and then, in **phase two**, hold discussions on the **nuclear question**.
  वह पहले एक **प्रारंभिक समझौता** करना चाहता था ताकि युद्ध समाप्त हो और **फ़ारस की खाड़ी** से आने-जाने वाले जहाज़ों की बाधाएँ दूर हों, और उसके बाद **दूसरे चरण** में **परमाणु मुद्दे** पर चर्चा की जाए।
- The **Trump administration**, despite its public protests, accepted this line.
  ट्रंप प्रशासन ने सार्वजनिक विरोध के बावजूद इस दृष्टिकोण को स्वीकार कर लिया।
- On **June 15**, **U.S.** and **Iran** announced the **memorandum of understanding**, extending the **ceasefire** by **60 more days** and paving the way for more substantive talks on critical issues such as **Iran's nuclear programme** and **western sanctions**.
  15 जून को **अमेरिका** और **ईरान** ने **समझौता ज्ञापन (मेमोरेंडम ऑफ अंडरस्टैंडिंग)** की घोषणा की, जिसके

PATRIOTIC IAS

तहत **युद्धविराम** को **60 और दिनों** के लिए बढ़ाया गया तथा **ईरान के परमाणु कार्यक्रम** और **पश्चिमी प्रतिबंधों** जैसे महत्वपूर्ण मुद्दों पर अधिक सार्थक वार्ता का मार्ग प्रशस्त हुआ।

- The **memorandum** also said the **ceasefire** should come into force on all fronts, including
  समझौता ज्ञापन में यह भी कहा गया कि **युद्धविराम** सभी मोर्चों पर लागू होना चाहिए, जिसमें शामिल हैं...
- **Lebanon**; the **U.S. blockade** would be lifted; **Tehran** would get access to its **frozen funds** and the **U.S.** would help create a **development plan** for **Iran**, involving **$300 billion**.
  लेबनान; **अमेरिकी नाकेबंदी** हटा ली जाएगी; **तेहरान** को अपनी **जमी हुई निधियों** तक पहुँच मिलेगी और **अमेरिका**, **300 अरब डॉलर** की भागीदारी के साथ **ईरान** के लिए एक **विकास योजना** तैयार करने में सहायता करेगा।
- On the other side, **Iran** promised never to make a **nuclear bomb** (**Iran's** official position has always been that it is not seeking to build a bomb, a position which it put on record in the **2015 deal** signed with the **Obama administration**).
  दूसरी ओर, **ईरान** ने कभी भी **परमाणु बम** नहीं बनाने का वादा किया (**ईरान** का आधिकारिक रुख हमेशा से यही रहा है कि वह परमाणु बम बनाने का इच्छुक नहीं है, और इस स्थिति को उसने **ओबामा प्रशासन** के साथ हुए **2015 के समझौते** में भी दर्ज किया था।)
- **Iran** also promised to ensure safe passage of ships through the **Strait of Hormuz** without any charge for **60 days**.
  ईरान ने यह भी वादा किया कि वह **60 दिनों** तक **होर्मुज़ जलडमरूमध्य** से गुजरने वाले जहाज़ों की सुरक्षित आवाजाही बिना किसी शुल्क के सुनिश्चित करेगा।
- **Mr. Trump's** claims of victory do not align with the text of the **MoU**.
  श्री ट्रंप के विजय संबंधी दावे **समझौता ज्ञापन (MoU)** के पाठ से मेल नहीं खाते।
- The **U.S.**, which started the war seeking **regime change**, ultimately offered substantial concessions to the same government, in exchange for commitments not to pursue a **nuclear bomb**, and to reopen the **Strait of Hormuz**, which had been open before the war.
  अमेरिका, जिसने **शासन परिवर्तन** के उद्देश्य से युद्ध शुरू किया था, अंततः उसी सरकार को महत्वपूर्ण रियायतें देने पर सहमत हो गया, बदले में **परमाणु बम** न बनाने और **होर्मुज़ जलडमरूमध्य**, जो युद्ध से पहले खुला था, को पुनः खोलने की प्रतिबद्धता प्राप्त की।
- "It is both a **strategic** and a **military defeat**.
  "यह **रणनीतिक** और **सैन्य पराजय** दोनों है।
- No **strategic** or **military goals** were attained.
  कोई भी **रणनीतिक** या **सैन्य लक्ष्य** प्राप्त नहीं किया जा सका।
- The region will now have to recalibrate its relation to the **U.S.** and abandon unrealistic expectations about **American power**," **Bruno Macaes**, a **Portuguese political scientist** and author, told **The Hindu**.
  अब इस क्षेत्र को **अमेरिका** के साथ अपने संबंधों का पुनर्मूल्यांकन करना होगा और **अमेरिकी शक्ति** के बारे में अवास्तविक अपेक्षाओं को छोड़ना होगा," **पुर्तगाली राजनीतिक वैज्ञानिक** और लेखक **ब्रूनो माकाएस** ने **द हिंदू** से कहा।

A new security order
एक नई सुरक्षा व्यवस्था

- Before the war began, **West Asia** looked like a different region.
  युद्ध शुरू होने से पहले **पश्चिम एशिया** एक अलग ही क्षेत्र दिखाई देता था।
- **Israel**, after regionalising its **post-October 7 wars**, looked confident of meeting its final objective — bring down the **Islamic Republic** and build a **unipolar West Asia** where it would act as the principal security player.
  इज़राइल, **7 अक्टूबर** के बाद के अपने युद्धों का क्षेत्रीय विस्तार करने के बाद, अपने अंतिम उद्देश्य —

इस्लामी गणराज्य को गिराने और **एकध्रुवीय पश्चिम एशिया** बनाने, जहाँ वह प्रमुख सुरक्षा शक्ति के रूप में कार्य करे — को प्राप्त करने के प्रति आश्वस्त दिखाई दे रहा था।

- The **Abraham Accords**, which saw the **UAE**, **Bahrain** and **Morocco** sign normalisation agreements with **Israel**, built the foundation for this **'new Middle East'**.
  अब्राहम समझौते, जिनके तहत **यूएई**, **बहरीन** और **मोरक्को** ने **इज़राइल** के साथ सामान्यीकरण समझौते किए, इस **'नए मध्य पूर्व'** की नींव बने।
- **Gulf countries** were worried about **Iran** but felt protected by **American military presence**.
  खाड़ी देश ईरान को लेकर चिंतित थे, लेकिन **अमेरिकी सैन्य उपस्थिति** के कारण स्वयं को सुरक्षित महसूस करते थे।
- **America's** promise for security had been the bedrock of the **U.S.-Gulf partnership** for decades.
  अमेरिका द्वारा सुरक्षा का आश्वासन दशकों से **अमेरिका-खाड़ी साझेदारी** की आधारशिला रहा था।
- As **Jimmy Carter** said in **January 1980**, "Let our position be absolutely clear: An attempt by any outside force to gain control of the **Persian Gulf** region will be regarded as an assault on the vital interests of the **United States**..."
  जैसा कि **जिमी कार्टर** ने **जनवरी 1980** में कहा था, "हमारी स्थिति बिल्कुल स्पष्ट होनी चाहिए: **फ़ारस की खाड़ी** क्षेत्र पर नियंत्रण पाने का किसी भी बाहरी शक्ति का प्रयास **संयुक्त राज्य अमेरिका** के महत्वपूर्ण हितों पर हमला माना जाएगा..."
- **Iran** upended not just the **Carter doctrine** but also the **Trumpian** effort to reshape **West Asia** around **Israel** as its core and **Arab states** as its pillars.
  ईरान ने केवल **कार्टर सिद्धांत** को ही नहीं, बल्कि **ट्रंपवादी** उस प्रयास को भी उलट दिया, जिसका उद्देश्य **इज़राइल** को केंद्र और **अरब देशों** को उसके स्तंभ बनाकर **पश्चिम एशिया** का पुनर्गठन करना था।
- The **U.S.** could do little as **Iran** unleashed its **drones** and **missiles** at **American bases** across the region.
  जब **ईरान** ने पूरे क्षेत्र में स्थित **अमेरिकी ठिकानों** पर अपने **ड्रोन** और **मिसाइलें** दागीं, तब **अमेरिका** बहुत कम कर सका।
- Rather than providing security, the **bases** became magnets for **Iranian projectiles**.
  सुरक्षा प्रदान करने के बजाय, ये **सैन्य अड्डे ईरानी प्रक्षेपास्त्रों** के प्रमुख लक्ष्य बन गए।
- "The idea before the war was that the **U.S.** would provide security to the **Gulf countries**.
  "युद्ध से पहले यह धारणा थी कि **अमेरिका**, **खाड़ी देशों** को सुरक्षा प्रदान करेगा।
- But what happened was that the **Gulf countries** were burning through their **defensive weapons** to protect **U.S. bases** on their soil," said an **Emirati official**, requesting anonymity.
  लेकिन हुआ यह कि **खाड़ी देश** अपनी भूमि पर स्थित **अमेरिकी ठिकानों** की रक्षा के लिए अपने **रक्षात्मक हथियारों** का तेजी से उपयोग करने लगे," एक **अमीराती अधिकारी** ने नाम न प्रकाशित करने की शर्त पर कहा।
- At least **13 American bases** in the **Gulf**, including the **Al Udeid Air Base** in **Qatar**, the **Prince Sultan Air Base** in **Saudi Arabia**, the **Ali Al Salem Air Base** in **Kuwait**, the **U.S. Fifth Fleet** headquarters in **Bahrain** and the **Al Sader** and **Al Ruwais** facilities in the **UAE**, were damaged.
  खाड़ी क्षेत्र में स्थित कम से कम **13 अमेरिकी सैन्य अड्डे**, जिनमें **कतर** का **अल उदैद एयर बेस**, **सऊदी अरब** का **प्रिंस सुल्तान एयर बेस**, **कुवैत** का **अली अल सलेम एयर बेस**, **बहरीन** में **अमेरिकी पाँचवें बेड़े** का मुख्यालय तथा **यूएई** की **अल सादेर** और **अल रुवैस** सुविधाएँ शामिल हैं, क्षतिग्रस्त हुईं।
- According to a **Wall Street Journal** visual investigation based on **satellite imagery**, **Iranian attacks** devastated the **U.S. Navy's base** in **Bahrain**.
  उपग्रह चित्रों पर आधारित **वॉल स्ट्रीट जर्नल** की दृश्य जाँच के अनुसार, **ईरानी हमलों** ने **बहरीन** स्थित **अमेरिकी नौसेना के अड्डे** को भारी क्षति पहुँचाई।
- The **U.S.** could do little when **Qatar's Ras Laffan Industrial City**, the world's largest **LNG export complex**, was hit on **March 18**.

जब **18 मार्च** को **कतर** का **रास लफ़्फ़ान इंडस्ट्रियल सिटी**, जो दुनिया का सबसे बड़ा **एलएनजी निर्यात परिसर** है, हमले का शिकार हुआ, तब **अमेरिका** बहुत कम कर सका।

- **Gulf countries** watched with pain and shock as **Iran** drilled holes into the **U.S.-led security architecture**.
  खाड़ी देशों ने पीड़ा और आश्चर्य के साथ देखा कि **ईरान** ने **अमेरिका-नेतृत्व वाली सुरक्षा व्यवस्था** में गंभीर दरारें पैदा कर दीं।
- "**Stability** will have to come from within since the **U.S.** proved incapable of providing it.
  "**स्थिरता** अब भीतर से ही आनी होगी क्योंकि **अमेरिका** इसे प्रदान करने में असमर्थ सिद्ध हुआ है।
- As for **U.S. policy**, it will become almost entirely **mercantile**: focus on deals in **energy**, **AI** and, of course, **weapons**," said **Mr. Macaes**.
  जहाँ तक **अमेरिकी नीति** का प्रश्न है, वह लगभग पूरी तरह **व्यापारिक** हो जाएगी: उसका ध्यान **ऊर्जा**, **कृत्रिम बुद्धिमत्ता (AI)** और निश्चित रूप से **हथियारों** के सौदों पर केंद्रित रहेगा," **श्री माकाएस** ने कहा।
- **Mr. Soliman** of the **Middle East Institute** agreed: "**Gulf Arab states** will now accelerate their **security self-reliance**, diversify their **defence relationships** in addition to the **U.S.**, and seek more pragmatic ways to manage relations with **Tehran**."
  मिडिल ईस्ट इंस्टीट्यूट के **श्री सुलेमान** ने सहमति जताई: "**खाड़ी अरब देश** अब अपनी **सुरक्षा आत्मनिर्भरता** को तेज़ करेंगे, **अमेरिका** के अतिरिक्त अपने **रक्षा संबंधों** में विविधता लाएँगे और **तेहरान** के साथ संबंधों के प्रबंधन के लिए अधिक व्यावहारिक रास्ते अपनाएँगे।"
- **Gulf states** have already begun moving in this direction.
  खाड़ी देशों ने पहले ही इस दिशा में आगे बढ़ना शुरू कर दिया है।
- They seem to have recognised that the **Islamic**
  ऐसा प्रतीत होता है कि उन्होंने यह स्वीकार कर लिया है कि **इस्लामी**...
- **Republic** is not going anywhere, and for their own security and for the safe passage of shipping through **Hormuz**, they will need to work with **Tehran** on the basis of **peaceful co-existence**.
  गणराज्य कहीं जाने वाला नहीं है, और अपनी सुरक्षा तथा **होर्मुज़** से जहाज़ों की सुरक्षित आवाजाही सुनिश्चित करने के लिए उन्हें **तेहरान** के साथ **शांतिपूर्ण सह-अस्तित्व** के आधार पर काम करना होगा।
- What they require is **regional stability**, and for that stability, as **Mr. Macaes** put it, they would have to bring "**Iran back from the cold**".
  उन्हें **क्षेत्रीय स्थिरता** की आवश्यकता है, और उस स्थिरता के लिए, जैसा कि **श्री माकाएस** ने कहा, उन्हें "**ईरान को अलगाव से वापस लाना**" होगा।
- "Part of what we are doing now, as **regional countries**, is to create this **regional security framework** between us and **Iran**," **Qatar's Prime Minister Sheikh Mohammed Al Thani** said recently in an interview.
  "**क्षेत्रीय देशों** के रूप में हम अभी जो कर रहे हैं, उसका एक हिस्सा हमारे और **ईरान** के बीच इस **क्षेत्रीय सुरक्षा ढाँचे** का निर्माण करना है," **कतर के प्रधानमंत्री शेख मोहम्मद अल थानी** ने हाल ही में एक साक्षात्कार में कहा।
- "That will hopefully have **economic cooperation** in the future between all of us," he added.
  "आशा है कि भविष्य में इससे हम सभी के बीच **आर्थिक सहयोग** विकसित होगा," उन्होंने आगे कहा।
- **Saudi Arabia** reportedly reached out to **Iran** to reach an understanding so that the kingdom would be spared if war resumed.
  बताया गया कि **सऊदी अरब** ने **ईरान** से समझ बनाने के लिए संपर्क किया ताकि यदि युद्ध फिर शुरू हो, तो उसका राज्य उससे बचा रहे।
- **U.S. Vice President J.D. Vance** recently said the **UAE**, which has very close ties with **Israel**, "is having conversations with **Iran** that have never happened before, including with the **IRGC**, about **economic incentives**."
  अमेरिकी उपराष्ट्रपति जे.डी. वेंस ने हाल ही में कहा कि **यूएई**, जिसके **इज़राइल** के साथ बहुत घनिष्ठ संबंध हैं, "**ईरान** के साथ, यहाँ तक कि **IRGC** के साथ भी, **आर्थिक प्रोत्साहनों** पर ऐसी बातचीत कर रहा है जो पहले कभी नहीं हुई।"

- **Oman** has always kept the **diplomatic channels** open with **Tehran** despite the war.
  ओमान ने युद्ध के बावजूद हमेशा **तेहरान** के साथ **कूटनीतिक चैनल** खुले रखे हैं।
- The pre-**October 7** push by the **U.S.** to bring **Gulf monarchies** and **Israel**, the two pillars of **America's West Asia policy**, closer to build a joint front against **Iran** appears to have been shattered by this war.
  7 अक्टूबर से पहले **अमेरिका** द्वारा **खाड़ी राजतंत्रों** और **इज़राइल**, जो **अमेरिका की पश्चिम एशिया नीति** के दो प्रमुख स्तंभ थे, को **ईरान** के विरुद्ध एक साझा मोर्चा बनाने के लिए निकट लाने का प्रयास इस युद्ध से ध्वस्त होता प्रतीत होता है।
- "The **Abraham Accords** and the effort to create a **Sunni-Zionist alliance** against **Iran** are dead," **Trita Parsi**, executive vice president of **Quincy Institute**, told **The Hindu**.
  "**अब्राहम समझौते** और **ईरान** के विरुद्ध **सुन्नी-ज़ायोनिस्ट गठबंधन** बनाने का प्रयास समाप्त हो चुका है," **क्विन्सी इंस्टीट्यूट** के कार्यकारी उपाध्यक्ष **त्रिता पारसी** ने **द हिंदू** से कहा।
- "The war proved that the **containment of Iran** only leads to war, instability, and the defeat of such an alliance.
  "इस युद्ध ने सिद्ध कर दिया कि **ईरान को नियंत्रित करने की नीति** केवल युद्ध, अस्थिरता और ऐसे गठबंधन की पराजय की ओर ले जाती है।
- The **Arab** side sees **Israel** as a greater threat than needs to be contained, and **Iran** as a state that they — from a **security** standpoint — need to integrate with economically, because containment and war failed."
  अरब पक्ष **इज़राइल** को अधिक बड़ा खतरा मानता है जिसे नियंत्रित किया जाना चाहिए, जबकि **ईरान** को वह ऐसा देश मानता है जिसके साथ **सुरक्षा** के दृष्टिकोण से आर्थिक एकीकरण आवश्यक है, क्योंकि नियंत्रण की नीति और युद्ध दोनों असफल रहे।"

Israel, left alone
इज़राइल, अकेला पड़ गया

- One country that had long sought this war, and was among the most affected by it, was **Israel**.
  एक देश जिसने लंबे समय से इस युद्ध की इच्छा की थी और जो इससे सबसे अधिक प्रभावित देशों में शामिल था, वह **इज़राइल** था।
- It was the principal architect of the campaign.
  वह इस अभियान का प्रमुख योजनाकार था।
- Yet, as the conflict went against the initial expectations, **Mr. Trump** sidelined **Israel** and chose talks with **Iran**, ultimately reaching the **MoU**.
  फिर भी, जब संघर्ष प्रारंभिक अपेक्षाओं के विपरीत गया, तो **श्री ट्रंप** ने **इज़राइल** को किनारे कर **ईरान** के साथ वार्ता का मार्ग चुना और अंततः **समझौता ज्ञापन (MoU)** तक पहुँचे।
- With **Iran** now rewriting the **regional security order** and engaging in direct talks with the **U.S.**, **Mr. Netanyahu's** big push to remap **West Asia** appears to have backfired.
  अब जबकि **ईरान क्षेत्रीय सुरक्षा व्यवस्था** को नए सिरे से परिभाषित कर रहा है और **अमेरिका** के साथ प्रत्यक्ष वार्ता कर रहा है, **श्री नेतन्याहू** का **पश्चिम एशिया** का नया नक्शा बनाने का बड़ा प्रयास उल्टा पड़ता दिखाई देता है।
- "The end result (of the war) may be the **decontainment of Iran** and the **recontainment of Israel** — perhaps going back to the pre-**1991** era in which **Israel** was the regional and international outcast," said **Mr. Parsi**.
  "इस युद्ध का अंतिम परिणाम **ईरान पर नियंत्रण नीति का अंत** और **इज़राइल को पुनः सीमित कर दिया जाना** हो सकता है — संभवतः **1991** से पहले के उस दौर की तरह, जब **इज़राइल** क्षेत्रीय और अंतरराष्ट्रीय स्तर पर अलग-थलग था," **श्री पारसी** ने कहा।

- **Israel** stands increasingly isolated on the **world stage**.
  इज़राइल विश्व मंच पर लगातार अधिक अलग-थलग होता जा रहा है।
- Without the **U.S.**, its ability to shape **security** and **geopolitical outcomes** is limited.
  अमेरिका के बिना **सुरक्षा** और **भूराजनीतिक परिणामों** को प्रभावित करने की उसकी क्षमता सीमित है।
- Many in **Israel** see the **U.S.-Iran deal** as a major **strategic setback**.
  इज़राइल में बहुत से लोग **अमेरिका-ईरान समझौते** को एक बड़ा **रणनीतिक झटका** मानते हैं।
- "**Israel** is going to regret this war because nothing was achieved and **Israel** lost **Trump**," **Gideon Levy**, **Israeli journalist** and author, told **The Hindu**.
  "**इज़राइल** इस युद्ध पर पछताएगा क्योंकि इससे कुछ भी हासिल नहीं हुआ और **इज़राइल** ने **ट्रंप** को खो दिया," **इज़राइली पत्रकार** और लेखक **गिडियन लेवी** ने **द हिंदू** से कहा।
- "**Israel** should learn now that not everything can be achieved by **force**, but unfortunately **Israel** will not draw this lesson."
  "**इज़राइल** को अब यह सीखना चाहिए कि हर चीज़ **बल प्रयोग** से प्राप्त नहीं की जा सकती, लेकिन दुर्भाग्य से **इज़राइल** यह सबक नहीं सीखेगा।"
- At this point, **Mr. Netanyahu's** focus is on the **trump card** he possesses — **Lebanon**.
  इस समय **श्री नेतन्याहू** का ध्यान उनके पास मौजूद **सबसे बड़े दाँव** — **लेबनान** — पर केंद्रित है।
- On **June 26**, **Israel** and **Lebanon**, under **U.S. mediation**, agreed to a deal under which **Israeli troops** would stay in southern **Lebanon**.
  26 जून को **अमेरिकी मध्यस्थता** के तहत **इज़राइल** और **लेबनान** एक ऐसे समझौते पर सहमत हुए, जिसके अनुसार **इज़राइली सैनिक** दक्षिणी **लेबनान** में बने रहेंगे।
- **Iran** and **Hezbollah** have demanded a complete **Israeli withdrawal** from **Lebanon**.
  ईरान और **हिज़्बुल्लाह** ने **लेबनान** से **इज़राइली सेना की पूर्ण वापसी** की मांग की है।
- The first article of the **MoU** calls for respecting **Lebanon's territorial integrity and sovereignty** — an indirect call for **Israeli troop withdrawal**.
  समझौता ज्ञापन (MoU) का पहला अनुच्छेद **लेबनान की क्षेत्रीय अखंडता और संप्रभुता** के सम्मान की बात करता है — जो अप्रत्यक्ष रूप से **इज़राइली सैनिकों की वापसी** की मांग है।
- If **Israel** doesn't withdraw, clashes with **Hezbollah** will persist, meaning a **ceasefire** in **Lebanon** would remain out of reach.
  यदि **इज़राइल** पीछे नहीं हटता, तो **हिज़्बुल्लाह** के साथ झड़पें जारी रहेंगी, जिसका अर्थ है कि **लेबनान** में **युद्धविराम** संभव नहीं होगा।
- Tensions have already spilled over into the **Strait of Hormuz**, where **Iran** insists that ships should follow its designated route.
  तनाव पहले ही **होर्मुज़ जलडमरूमध्य** तक पहुँच चुका है, जहाँ **ईरान** इस बात पर ज़ोर देता है कि जहाज़ उसी के निर्धारित मार्ग का पालन करें।
- It attacked a vessel transiting an "**unauthorised**" route last week, and the **U.S.** struck **Iran** on Saturday and **Tehran** retaliated by attacking **U.S. bases** in the region.
  पिछले सप्ताह उसने एक ऐसे जहाज़ पर हमला किया जो "**अनधिकृत**" मार्ग से गुजर रहा था, और शनिवार को **अमेरिका** ने **ईरान** पर हमला किया, जिसके जवाब में **तेहरान** ने क्षेत्र में स्थित **अमेरिकी ठिकानों** पर हमला किया।
- But the **U.S. strikes** are unlikely to force **Iran** to give up its newly asserted control over the **strait**.
  लेकिन **अमेरिकी हमले ईरान** को **जलडमरूमध्य** पर अपने नए घोषित नियंत्रण को छोड़ने के लिए मजबूर कर पाएँगे, इसकी संभावना कम है।
- "We have to wait and see whether the **U.S.** and **Israel** are done with the war or this is just a pause," said **Mr. Izadi**, the **Iranian professor**.
  "हमें यह देखना होगा कि क्या **अमेरिका** और **इज़राइल** वास्तव में युद्ध समाप्त कर चुके हैं या यह केवल एक विराम है," **ईरानी प्रोफेसर श्री इज़ादी** ने कहा।

Tax rates on low-alcohol liquor to be included in Finance Bill

GS III: Economy
The Hindu Bureau
THIRUVANANTHAPURAM

Amid the political row over lowering the sales tax on low-alcoholic beverages in Kerala, the revised tax rates have been included in the Finance (No. 3) Bill, 2026, which will be introduced in the Legislative Assembly on July 1.

Section 3 of the Bill says the words 'low-alcoholic beverages' is to be inserted after 'horti-wine' in the Kerala General Sales Tax Act, 1963.

The rates have been pegged at 120% and 175% respectively for alcoholic beverages with alcohol strength ranging from 0.5% v/v (volume by volume) to 10% v/v, and those with strength above 10% v/v and up to 20% v/v. These were the rates announced by Chief Minister V.D. Satheesan in the Revised Budget.

At the same time, the specific amendment will not come into force immediately even if the Bill gets passed. The Bill notes that it will come into force when the government notifies it in the official gazette.

The announcement sparked a major political storm, with the Opposition Left Democratic Front (LDF) alleging that it promotes alcohol addiction.

Mr. Satheesan had informed the Assembly on Wednesday that a final decision rests with the UDF. Mr. Satheesan had also pointed out that low-alcohol beverages as a new category was notified by the LDF government as part of its 2022-23 liquor policy.

किया था।

28J6. Tax rates on low-alcohol liquor to be included in Finance Bill

कम-अल्कोहल वाली मदिरा पर कर दरें वित्त विधेयक में शामिल की जाएंगी

- Amid the **political row** over lowering the **sales tax** on **low-alcoholic beverages** in **Kerala**, the revised **tax rates** have been included in the **Finance (No. 3) Bill, 2026**, which will be introduced in the **Legislative Assembly** on **July 1**.

केरल में **कम-अल्कोहल वाले पेयों** पर **बिक्री कर** कम किए जाने को लेकर जारी **राजनीतिक विवाद** के बीच संशोधित **कर दरों** को **वित्त (संख्या 3) विधेयक, 2026** में शामिल किया गया है, जिसे **1 जुलाई** को **विधानसभा** में प्रस्तुत किया जाएगा।

- **Section 3** of the **Bill** says the words **'low-alcoholic beverages'** is to be inserted after **'horti-wine'** in the **Kerala General Sales Tax Act, 1963**.

विधेयक की **धारा 3** में कहा गया है कि **केरल सामान्य बिक्री कर अधिनियम, 1963** में **'horti-wine'** के बाद **'low-alcoholic beverages'** शब्द जोड़े जाएंगे।

- The **rates** have been pegged at **120%** and **175%** respectively for **alcoholic beverages** with **alcohol strength** ranging from **0.5% v/v (volume by volume) to 10% v/v**, and those with strength above **10% v/v** and up to **20% v/v**.

कर दरें क्रमशः **120%** और **175%** निर्धारित की गई हैं, जिनमें **0.5% v/v (वॉल्यूम बाय वॉल्यूम) से 10% v/v** तक **अल्कोहल की मात्रा** वाले **मादक पेय**, तथा **10% v/v** से अधिक और **20% v/v** तक अल्कोहल की मात्रा वाले पेय शामिल हैं।

- These were the **rates** announced by **Chief Minister V. D. Satheesan** in the **Revised Budget**.

ये वही **कर दरें** हैं जिनकी घोषणा **मुख्यमंत्री वी. डी. सतीशन** ने **संशोधित बजट** में की थी।

- At the same time, the **specific amendment** will not come into force immediately even if the **Bill** gets passed.

साथ ही, **विशिष्ट संशोधन विधेयक** पारित हो जाने के बाद भी तत्काल प्रभाव से लागू नहीं होगा।

- The **Bill** notes that it will come into force when the **government** notifies it in the **official gazette**.

विधेयक में उल्लेख किया गया है कि यह तब प्रभावी होगा जब **सरकार** इसे **राजपत्र (Official Gazette)** में अधिसूचित करेगी।

- The **announcement** sparked a major **political storm**, with the **Opposition Left Democratic Front (LDF)** alleging that it promotes **alcohol addiction**.

इस **घोषणा** के बाद बड़ा **राजनीतिक विवाद** खड़ा हो गया, जिसमें **विपक्षी लेफ्ट डेमोक्रेटिक फ्रंट (LDF)** ने आरोप लगाया कि यह **शराब की लत** को बढ़ावा देती है।

- **Mr. Satheesan** had informed the **Assembly** on **Wednesday** that a **final decision** rests with the **UDF**.

श्री सतीशन ने **बुधवार** को **विधानसभा** को बताया था कि **अंतिम निर्णय यूडीएफ (UDF)** के पास है।

- **Mr. Satheesan** had also pointed out that **low-alcohol beverages** as a new category was notified by the **LDF government** as part of its **2022-23 liquor policy**.

श्री सतीशन ने यह भी बताया कि **कम-अल्कोहल वाले पेयों** को एक नई श्रेणी के रूप में **एलडीएफ सरकार** ने अपनी **2022-23 की आबकारी (Liquor) नीति** के तहत अधिसूचित

Why is Delhi's EV policy 2.0 facing opposition?

Who is concerned and on what grounds? What do proponents say? Is the power grid ready for the impact?

GS III: Economy

The story so far:

Building on the momentum gained from its 2020 Electric Vehicles (EV) policy, which led to Delhi achieving almost 14% EV penetration by 2025, compared to the national average of 8%, the Delhi government issued the revised draft EV Policy in early April. Currently under stakeholder consultation, the policy envisages a complete ban on the registration of new internal combustion engine (ICE) three-wheelers from January 1, 2027. It also proposes a ban on new ICE two-wheeler registrations from April 1, 2028. The rationale behind the latter is straightforward: 67% of Delhi's registered vehicle stock comprises two-wheelers, and if the national capital is to achieve cleaner air in the foreseeable future, this segment requires targeted attention to enable the transition. The revised draft policy also proposes electrification mandates for school buses – with a target of 30% electrification by 2030 – fleet aggregators such as cab-hailing platforms and delivery services, as well as government transport fleets. While the number of vehicles in these segments is considerably lower than private two-wheelers, their pollution burden is disproportionately higher because of their daily utilisation.

Who is objecting to the policy and why?

Industry executives and people familiar with the stakeholder consultations say manufacturers represented by bodies such as the Society of Indian Automobile Manufacturers have expressed reservations about their ability to scale up production of electric variants within the proposed timelines. They worry about the possibility of losing market share and argue that the market is not yet ready to pivot to an all-electric paradigm, as economies of scale have not yet reduced EV prices sufficiently to compete with comparable ICE two-wheelers.

Industry bodies argue that the market is not yet ready to pivot to an all-electric paradigm, as economies of scale have not yet reduced EV prices sufficiently

They also point to gaps in both public and private charging infrastructure. While there has been considerable progress in the former through charger deployment mandates, service delivery and reliability remain a concern, with breakdowns, theft of charging equipment, and power outages reported at several locations. As for private charging, there has been persistent hesitation among Resident Welfare Associations and apartment complexes in permitting community charging stations.

Stakeholders also point to the lack of competitive financing, particularly for electric light commercial vehicles, quality after-sales service, and the decline in resale values of used EVs. Battery replacement costs and India's continued dependence on imported battery technologies are also being flagged, particularly as much of the global EV battery supply chain remains concentrated in China.

Automobile manufacturers have therefore argued for a more market-led transition, driven primarily by demand-side incentives.

What are supporters of the revised EV policy saying?

Proponents argue that regulation – much like the Corporate Average Fuel Efficiency norms that pushed manufacturers to improve fuel efficiency in conventional vehicles – must sometimes push the envelope in pursuit of a larger public good. In this case, they argue, the public good is Delhi's clean air. Indeed, the aim of both the 2020 policy and the revised draft policy is to address the contribution of road transport to Delhi's winter air pollution.

Think tanks and critics have also applied a social justice and labour lens, arguing that the policy must address the underbelly of the sector – the vast network of after-sales service providers built around ICE vehicles which will now have to pivot to a new technology. Many of these small businesses may be ill-equipped to make that transition within two years unless the State government also mandates large-scale reskilling programmes, ensures easier financing for small workshops, and provides incentives to upgrade their equipment as part of the broader EV transition.

Is India's power grid ready for the impact?

Another urgent issue must be addressed if such a rapid scale-up is to succeed – the ability of Delhi's electricity grid to handle peak-time charging loads and the substantial increase in power demand that widespread transport electrification will bring. Here, however, there is some reassurance. Studies by WRI India, CSTEP, and other energy think tanks suggest that if charging is managed through smart charging, time-of-day tariffs, and staggered charging patterns, the additional electricity demand from EVs is unlikely to overwhelm Delhi's grid in the near term. They argue that the larger challenge lies in strengthening local distribution infrastructure, particularly transformers and distribution feeders, rather than overall generation capacity.

28J6. Why is Delhi's EV policy 2.0 facing opposition?

दिल्ली की ईवी नीति 2.0 का विरोध क्यों हो रहा है?

- **Who is concerned and on what grounds? What do proponents say? Is the power grid ready for the impact?**
  किन पक्षों को चिंता है और किस आधार पर? समर्थकों का क्या कहना है? क्या विद्युत ग्रिड इस प्रभाव को झेलने के लिए तैयार है?
- **Building** on the momentum gained from its **2020 Electric Vehicles (EV) policy**, which led to Delhi achieving almost **14% EV penetration** by **2025**, compared to the national average of **8%**, the Delhi government issued the revised draft **EV Policy** in early **April**.
  2020 की इलेक्ट्रिक वाहन (EV) नीति से प्राप्त गति के आधार पर, जिसके परिणामस्वरूप **2025** तक दिल्ली में लगभग **14% ईवी प्रवेश (EV Penetration)** प्राप्त हुआ, जबकि राष्ट्रीय औसत **8%** था, **दिल्ली सरकार** ने **अप्रैल** की शुरुआत में संशोधित मसौदा **ईवी नीति** जारी की।
- Currently under **stakeholder consultation**, the policy envisages a complete ban on the registration of new **internal combustion engine (ICE) three-wheelers** from **January 1, 2027**.
  वर्तमान में **हितधारकों से परामर्श** के अधीन यह नीति **1 जनवरी, 2027** से नए **आंतरिक दहन इंजन (ICE) तीन-पहिया वाहनों** के पंजीकरण पर पूर्ण प्रतिबंध का प्रस्ताव करती है।
- It also proposes a ban on new **ICE two-wheeler** registrations from **April 1, 2028**.
  यह **1 अप्रैल, 2028** से नए **आईसीई (ICE) दो-पहिया वाहनों** के पंजीकरण पर भी प्रतिबंध का प्रस्ताव करती है।
- The rationale behind the latter is straightforward: **67%** of Delhi's registered vehicle stock comprises **two-wheelers**, and if the national capital is to achieve cleaner air in the foreseeable future, this segment requires targeted attention to enable the transition.
  इसके पीछे का तर्क स्पष्ट है: दिल्ली के पंजीकृत वाहनों के कुल भंडार का **67%** हिस्सा **दो-पहिया वाहनों** का है, और यदि राष्ट्रीय राजधानी को निकट भविष्य में स्वच्छ वायु प्राप्त करनी है, तो इस क्षेत्र पर परिवर्तन को सक्षम बनाने हेतु विशेष ध्यान देने की आवश्यकता है।

- The revised draft policy also proposes **electrification mandates** for **school buses** — with a target of **30% electrification** by **2030** — **fleet aggregators** such as cab-hailing platforms and delivery services, as well as **government transport fleets**.
  संशोधित मसौदा नीति **स्कूल बसों** के लिए **विद्युतीकरण अनिवार्यता** का भी प्रस्ताव करती है — **2030** तक **30% विद्युतीकरण** का लक्ष्य रखते हुए — साथ ही **फ्लीट एग्रीगेटर्स**, जैसे कैब-हेलिंग प्लेटफ़ॉर्म और डिलीवरी सेवाएँ, तथा **सरकारी परिवहन बेड़े** भी इसके अंतर्गत शामिल हैं।
- While the number of vehicles in these segments is considerably lower than private **two-wheelers**, their pollution burden is disproportionately higher because of their daily utilisation.
  यद्यपि इन श्रेणियों में वाहनों की संख्या निजी **दो-पहिया वाहनों** की तुलना में काफी कम है, फिर भी उनके दैनिक उपयोग के कारण उनका प्रदूषण भार अनुपातहीन रूप से अधिक है।

Who is objecting to the policy and why?
नीति का विरोध कौन कर रहा है और क्यों?

- **Industry executives** and people familiar with the **stakeholder consultations** say manufacturers represented by bodies such as the **Society of Indian Automobile Manufacturers** have expressed reservations about their ability to scale up production of electric variants within the proposed timelines.
  उद्योग के वरिष्ठ अधिकारी तथा **हितधारक परामर्श** से जुड़े लोगों का कहना है कि **सोसाइटी ऑफ इंडियन ऑटोमोबाइल मैन्युफैक्चरर्स** जैसे संगठनों द्वारा प्रतिनिधित्व किए जाने वाले निर्माताओं ने प्रस्तावित समयसीमा के भीतर इलेक्ट्रिक मॉडलों के उत्पादन को बढ़ाने की अपनी क्षमता को लेकर चिंता व्यक्त की है।
- They worry about the possibility of losing **market share** and argue that the market is not yet ready to pivot to an **all-electric paradigm**, as **economies of scale** have not yet reduced **EV prices** sufficiently to compete with comparable **ICE two-wheelers**.
  उन्हें **बाज़ार हिस्सेदारी** खोने की आशंका है और उनका तर्क है कि बाज़ार अभी पूरी तरह **सर्व-इलेक्ट्रिक व्यवस्था** की ओर परिवर्तन के लिए तैयार नहीं है, क्योंकि **बड़े पैमाने पर उत्पादन (Economies of Scale)** के बावजूद **ईवी की कीमतें** अभी इतनी कम नहीं हुई हैं कि वे समान **आईसीई दो-पहिया वाहनों** से प्रतिस्पर्धा कर सकें।
- They also point to gaps in both **public** and **private charging infrastructure**.
  वे **सार्वजनिक** तथा **निजी चार्जिंग अवसंरचना** दोनों में कमियों की ओर भी संकेत करते हैं।
- While there has been considerable progress in the former through **charger deployment mandates**, service delivery and reliability remain a concern, with **breakdowns**, **theft of charging equipment**, and **power outages** reported at several locations.
  यद्यपि **चार्जर स्थापना अनिवार्यता** के माध्यम से सार्वजनिक चार्जिंग अवसंरचना में उल्लेखनीय प्रगति हुई है, फिर भी सेवा उपलब्धता और विश्वसनीयता चिंता का विषय बनी हुई है, क्योंकि कई स्थानों पर **खराबी**, **चार्जिंग उपकरणों की चोरी**, तथा **बिजली कटौती** की घटनाएँ सामने आई हैं।
- As for **private charging**, there has been persistent hesitation among **Resident Welfare Associations** and **apartment complexes** in permitting **community charging stations**.
  जहाँ तक **निजी चार्जिंग** का प्रश्न है, वहाँ **रेज़िडेंट वेलफेयर एसोसिएशनों (RWA)** तथा **अपार्टमेंट परिसरों** द्वारा **सामुदायिक चार्जिंग स्टेशनों** की अनुमति देने में लगातार हिचकिचाहट बनी हुई है।
- Stakeholders also point to the lack of competitive **financing**, particularly for **electric light commercial vehicles**, quality **after-sales service**, and the decline in **resale values** of used **EVs**.
  हितधारक प्रतिस्पर्धी **वित्तपोषण** की कमी, विशेषकर **इलेक्ट्रिक हल्के वाणिज्यिक वाहनों** के लिए, गुणवत्तापूर्ण **बिक्री-पश्चात सेवा**, तथा प्रयुक्त **ईवी** के **पुनर्विक्रय मूल्य** में गिरावट की ओर भी ध्यान आकर्षित करते हैं।
- **Battery replacement costs** and India's continued dependence on imported **battery technologies** are also being flagged, particularly as much of the global **EV battery supply chain** remains concentrated in **China**.
  बैटरी बदलने की लागत तथा आयातित **बैटरी प्रौद्योगिकियों** पर भारत की निरंतर निर्भरता को भी प्रमुख चिंता

के रूप में रेखांकित किया जा रहा है, विशेषकर इसलिए क्योंकि वैश्विक **ईवी बैटरी आपूर्ति शृंखला** का बड़ा हिस्सा अभी भी **चीन** में केंद्रित है।

- **Automobile manufacturers** have therefore argued for a more **market-led transition**, driven primarily by **demand-side incentives**.
  इसलिए **ऑटोमोबाइल निर्माताओं** ने मुख्यतः **मांग-पक्षीय प्रोत्साहनों** द्वारा संचालित अधिक **बाज़ार-आधारित परिवर्तन** की वकालत की है।

What are supporters of the revised EV policy saying?
संशोधित ईवी (EV) नीति के समर्थक क्या कह रहे हैं?

- **Proponents** argue that **regulation** — much like the **Corporate Average Fuel Efficiency** norms that pushed manufacturers to improve **fuel efficiency** in conventional vehicles — must sometimes push the envelope in pursuit of a larger **public good**.
  समर्थकों का तर्क है कि **विनियमन (Regulation)** — ठीक उसी प्रकार जैसे **कॉर्पोरेट एवरेज फ्यूल एफिशिएंसी (Corporate Average Fuel Efficiency)** मानकों ने निर्माताओं को पारंपरिक वाहनों में **ईंधन दक्षता** सुधारने के लिए प्रेरित किया — कभी-कभी व्यापक **लोकहित** की प्राप्ति के लिए सीमाओं से आगे बढ़कर कार्य करना आवश्यक होता है।
- In this case, they argue, the **public good** is **Delhi's clean air**.
  उनका कहना है कि इस मामले में **लोकहित** का अर्थ **दिल्ली की स्वच्छ वायु** है।
- Indeed, the aim of both the **2020 policy** and the revised draft policy is to address the contribution of **road transport** to Delhi's **winter air pollution**.
  वास्तव में, **2020 की नीति** तथा संशोधित मसौदा नीति दोनों का उद्देश्य दिल्ली के **शीतकालीन वायु प्रदूषण** में **सड़क परिवहन** के योगदान को कम करना है।
- **Think tanks** and critics have also applied a **social justice** and **labour** lens, arguing that the policy must address the underbelly of the sector — the vast network of **after-sales service providers** built around **ICE vehicles** which will now have to pivot to a new technology.
  थिंक टैंक तथा आलोचकों ने **सामाजिक न्याय** और **श्रम** के दृष्टिकोण से भी इस विषय का विश्लेषण किया है और तर्क दिया है कि नीति को इस क्षेत्र के उस कमज़ोर पक्ष पर भी ध्यान देना चाहिए — अर्थात **आईसीई (ICE) वाहनों** के इर्द-गिर्द विकसित **बिक्री-पश्चात सेवा प्रदाताओं** के विशाल नेटवर्क को, जिसे अब नई प्रौद्योगिकी की ओर परिवर्तन करना होगा।
- Many of these **small businesses** may be ill-equipped to make that transition within **two years** unless the **State government** also mandates **large-scale reskilling programmes**, ensures easier **financing** for small workshops, and provides **incentives** to upgrade their equipment as part of the broader **EV transition**.
  इनमें से अनेक **लघु व्यवसाय दो वर्षों** के भीतर इस परिवर्तन के लिए पर्याप्त रूप से तैयार नहीं हो पाएँगे, जब तक कि **राज्य सरकार बड़े पैमाने पर पुनः कौशल विकास कार्यक्रम (Reskilling Programmes)** अनिवार्य न करे, छोटे कार्यशालाओं के लिए सरल **वित्तपोषण** सुनिश्चित न करे, तथा व्यापक **ईवी परिवर्तन** के अंतर्गत उनके उपकरणों के उन्नयन हेतु **प्रोत्साहन** उपलब्ध न कराए।

Is India's power grid ready for the impact?
क्या भारत का विद्युत ग्रिड इस प्रभाव के लिए तैयार है?

- Another urgent issue must be addressed if such a rapid scale-up is to succeed — the ability of **Delhi's electricity grid** to handle **peak-time charging loads** and the substantial increase in **power demand** that widespread **transport electrification** will bring.
  यदि इस प्रकार के तीव्र विस्तार को सफल बनाना है, तो एक अन्य अत्यंत महत्वपूर्ण विषय का समाधान आवश्यक है — **दिल्ली के विद्युत ग्रिड** की **अधिकतम समय (पीक-टाइम) के चार्जिंग भार** को वहन करने की

क्षमता तथा व्यापक **परिवहन विद्युतीकरण** के कारण उत्पन्न होने वाली **बिजली की मांग** में उल्लेखनीय वृद्धि।

- Here, however, there is some reassurance.
  हालाँकि, इस विषय में कुछ आश्वस्त करने वाले संकेत भी हैं।
- Studies by **WRI India**, **CSTEP**, and other **energy think tanks** suggest that if charging is managed through **smart charging**, **time-of-day tariffs**, and **staggered charging patterns**, the additional electricity demand from **EVs** is unlikely to overwhelm **Delhi's grid** in the near term.
  WRI India, **CSTEP**, तथा अन्य **ऊर्जा थिंक टैंकों** के अध्ययनों से संकेत मिलता है कि यदि चार्जिंग का प्रबंधन **स्मार्ट चार्जिंग**, **समय-आधारित विद्युत शुल्क (Time-of-Day Tariffs)** तथा **क्रमबद्ध चार्जिंग पैटर्न (Staggered Charging Patterns)** के माध्यम से किया जाए, तो **ईवी** से उत्पन्न अतिरिक्त बिजली की मांग निकट भविष्य में **दिल्ली के विद्युत ग्रिड** पर अत्यधिक दबाव नहीं डालेगी।
- They argue that the larger challenge lies in strengthening local **distribution infrastructure**, particularly **transformers** and **distribution feeders**, rather than overall **generation capacity**.
  उनका तर्क है कि वास्तविक और बड़ी चुनौती समग्र **विद्युत उत्पादन क्षमता** बढ़ाने की अपेक्षा स्थानीय **वितरण अवसंरचना**, विशेषकर **ट्रांसफॉर्मरों** तथा **डिस्ट्रिब्यूशन फीडरों**, को सुदृढ़ बनाने में निहित है।

This hardy coffee hybrid may be your morning cup of the future

GS III: Economy

Meena Menon

While the world's coffee drinkers favour Arabica or Robusta, a newly identified hybrid called Coffea x libex (the X denotes its hybrid status) – or just Libex – could be their brew of choice in future.

The world drinks roughly 17,000 tonnes of Arabica and 10,000 tonnes of Robusta beans (pre-roasting) every day. Together, they account for more than 99.99% of global coffee production. However, they are susceptible to rising temperatures and erratic rainfall. Libex on the other hand may be able to grow in warmer temperatures and under a wider range of rainfall patterns, according to research from the Royal Botanic Gardens, Kew, in the U.K. It was recently published in *Scientific Reports*.

The researchers investigated coffee samples from Central America, Africa, and Asia to quantify hybridisation between Liberica and Excelsa and assess the hybrid's potential to be cultivated. While hybrids between these two species had long been inferred from their physical characteristics, their existence had not been confirmed using genomic evidence. The team analysed 113 individual plant samples to confirm that Excelsa and Liberica had indeed been hybridised in cultivation. The team also reported that improved genotypes of these hybrids can be brought to production using clonal propagation, micropropagation or by grafting to select rootstocks, such as those of Liberica or Excelsa. The Indian version of Libex is a "delicious coffee," Akshay Dashrath of the South India Coffee Company (SICC) and a study co-author, said. Material from the Malleshwara Estate near Ballupet in Hassan district, taken from trees planted between 1980 and 1982, was confirmed by Kew to be an Excelsa-Liberica hybrid.

On the SICC site, Mr. Dashrath wrote that according to a leading coffee roaster in the U.K. with whom he works, "Early tastings of Libex reveal a balanced and approachable cup, blending tropical fruit notes from Liberica with chocolate and dried fruit depth from Excelsa."

Traditionally, farmers grew Excelsa as a boundary marker in coffee estates. While Liberica is a low-yielding coffee, Mr. Dashrath said Libex has better yield and outturn (the conversion ratio of fresh fruit to coffee beans), which is good news for farmers. Libex also has thinner pulp and parchment, which can make post-harvest processing more efficient and improve quality relative to Liberica.

28J6. This hardy coffee hybrid may be your morning cup of the future
यह सुदृढ़ कॉफी संकर किस्म भविष्य में आपकी सुबह की कॉफी बन सकती है।

- While the world's **coffee** drinkers favour **Arabica** or **Robusta**, a newly identified hybrid called **Coffea x libex** (the X denotes its hybrid status) — or just **Libex** — could be their brew of choice in future.
- जहाँ विश्व के अधिकांश **कॉफी** उपभोक्ता **अरेबिका** या **रोबस्टा** को प्राथमिकता देते हैं, वहीं **कॉफिया एक्स लाइबेक्स (Coffea x libex)** (जिसमें X इसके संकर होने का संकेत देता है) — अथवा संक्षेप में **लाइबेक्स** — भविष्य में उनकी पसंदीदा कॉफी बन सकती है।
- The world drinks roughly **17,000 tonnes** of **Arabica** and **10,000 tonnes** of **Robusta** beans (pre-roasting) every day.
- विश्व में प्रतिदिन लगभग **17,000 टन अरेबिका** तथा **10,000 टन रोबस्टा** कॉफी बीन्स (भुनाई से पूर्व) का उपभोग किया जाता है।
- Together, they account for more than **99.99%** of global **coffee production**.
- दोनों मिलकर वैश्विक **कॉफी उत्पादन** का **99.99%** से अधिक हिस्सा बनाते हैं।
- However, they are susceptible to **rising temperatures** and **erratic rainfall**.
- हालाँकि, ये **बढ़ते तापमान** और **अनियमित वर्षा** के प्रति अत्यधिक संवेदनशील हैं।

- **Libex** on the other hand may be able to grow in **warmer temperatures** and under a wider range of **rainfall patterns**, according to research from the **Royal Botanic Gardens, Kew**, in the **U.K.**
- इसके विपरीत, **यूनाइटेड किंगडम** के **रॉयल बोटैनिक गार्डन्स, क्यू** के शोध के अनुसार **लाइबेक्स** अधिक **उच्च तापमान** तथा **वर्षा के व्यापक पैटर्न** में भी उगाया जा सकता है।
- It was recently published in **Scientific Reports**.
- यह शोध हाल ही में **साइंटिफिक रिपोर्ट्स** में प्रकाशित हुआ।
- The researchers investigated **coffee samples** from **Central America**, **Africa**, and **Asia** to quantify hybridisation between **Liberica** and **Excelsa** and assess the hybrid's potential to be cultivated.
- शोधकर्ताओं ने **मध्य अमेरिका**, **अफ्रीका** तथा **एशिया** से प्राप्त **कॉफी नमूनों** का अध्ययन कर **लिबेरिका** और **एक्सेल्सा** के बीच संकरण का आकलन किया तथा इस संकर की खेती की संभावनाओं का मूल्यांकन किया।
- While hybrids between these two species had long been inferred from their physical characteristics, their existence had not been confirmed using **genomic evidence**.
- यद्यपि इन दोनों प्रजातियों के संकर होने का अनुमान लंबे समय से उनके भौतिक गुणों के आधार पर लगाया जाता रहा था, किंतु **जीनोमिक प्रमाणों** के आधार पर इसकी पुष्टि नहीं हुई थी।
- The team analysed **113 individual plant samples** to confirm that **Excelsa** and **Liberica** had indeed been hybridised in cultivation.
- दल ने **113 व्यक्तिगत पौधों के नमूनों** का विश्लेषण कर यह पुष्टि की कि खेती के दौरान वास्तव में **एक्सेल्सा** और **लिबेरिका** का संकरण हुआ था।
- The team also reported that improved **genotypes** of these hybrids can be brought to production using **clonal propagation**, **micropropagation** or by **grafting** to select rootstocks, such as those of **Liberica** or **Excelsa**.
- दल ने यह भी बताया कि इन संकरों के उन्नत **जीनोटाइप** को **क्लोनल प्रवर्धन**, **माइक्रोप्रोपेगेशन** अथवा **ग्राफ्टिंग** के माध्यम से, **लिबेरिका** या **एक्सेल्सा** जैसे चयनित मूलवृंतों पर विकसित कर उत्पादन में लाया जा सकता है।
- The Indian version of **Libex** is a "**delicious coffee**," **Akshay Dashrath** of the **South India Coffee Company (SICC)** and a study co-author, said.
- अध्ययन के सह-लेखक तथा **साउथ इंडिया कॉफी कंपनी (SICC)** के **अक्षय दशरथ** ने कहा कि **लाइबेक्स** का भारतीय संस्करण "**स्वादिष्ट कॉफी**" है।
- Material from the **Malleshwara Estate** near **Ballupet** in **Hassan district**, taken from trees planted between **1980 and 1982**, was confirmed by **Kew** to be an **Excelsa-Liberica hybrid**.
- **हासन जिले** के **बल्लूपेट** के निकट स्थित **मल्लेश्वर एस्टेट** में **1980 से 1982** के बीच लगाए गए वृक्षों से प्राप्त सामग्री की **क्यू** द्वारा **एक्सेल्सा-लिबेरिका संकर** के रूप में पुष्टि की गई।
- On the **SICC** site, Mr. **Dashrath** wrote that according to a leading **coffee roaster** in the **U.K.** with whom he works, "Early tastings of **Libex** reveal a balanced and approachable cup, blending **tropical fruit** notes from **Liberica** with **chocolate** and **dried fruit** depth from **Excelsa**."
- **एसआईसीसी** की वेबसाइट पर श्री **दशरथ** ने लिखा कि उनके साथ कार्य करने वाले **यूनाइटेड किंगडम** के एक प्रमुख **कॉफी रोस्टर** के अनुसार, "**लाइबेक्स** के प्रारंभिक स्वाद परीक्षणों में **लिबेरिका** के **उष्णकटिबंधीय फलों** के स्वाद के साथ **एक्सेल्सा** के **चॉकलेट** और **सूखे फलों** की गहराई का संतुलित मिश्रण मिलता है।"
- Traditionally, farmers grew **Excelsa** as a **boundary marker** in coffee estates.
- परंपरागत रूप से किसान **कॉफी बागानों** में **एक्सेल्सा** को **सीमा-चिह्न** के रूप में लगाते थे।
- While **Liberica** is a **low-yielding coffee**, Mr. **Dashrath** said **Libex** has better **yield** and **outturn** (the conversion ratio of fresh fruit to coffee beans), which is good news for farmers.
- श्री **दशरथ** ने कहा कि जहाँ **लिबेरिका** कम उत्पादन देने वाली **कॉफी** है, वहीं **लाइबेक्स** में बेहतर **उपज** तथा **आउटटर्न** (ताज़े फल से कॉफी बीन्स बनने का अनुपात) मिलता है, जो किसानों के लिए शुभ संकेत है।
- **Libex** also has thinner **pulp** and **parchment**, which can make **post-harvest processing** more efficient and improve quality relative to **Liberica**.

Fake patents are poisoning India's race for academic excellence

Researchers have reported some firms selling U.K. design registrations to Indian academics to artificially boost institutional rankings; these registrations, often granted in 11 days without novelty checks, are misrepresented as international patents

GS III: S&T

T.V. Padma
NEW DELHI

A worrying new trend of 'fake patents', in which education companies sell thousands of patents registered in the U.K. to academics from India and elsewhere, has raised concerns among research integrity experts.

Authors, from the U.K. and the U.S., of a report published in the *International Journal of Educational Integrity* wrote "eight firms ... are likely involved in the sale of thousands of U.K. registered designs to Indian academics for the purpose of academic reputation manipulation."

Patent offices don't examine design applications for novelty, innovation or uniqueness, and they award them quickly. This is unlike the more stringent process for patents, which are typically used to commercialise a new discovery, Subhash Lakhotia, Distinguished Professor at the Cytogenetics Laboratory at Banaras Hindu University, Varanasi, said.

Not all filed patents are accepted either, and only a small fraction of the accepted ones end up being used by industry. "Thus, the real value of a patent is when it is used by industry for a process or product," Prof. Lakhotia, who is also on the advisory board of India Research Watch, a watchdog on Indian research, said.

'Fake' patents, filed without any original research by the person (or persons) in whose name the patent is filed, "refer to a non-existing entity," he said. "This unhealthy and ... unethical act is promoted by shady companies acting as patent-filing or facilitating agencies – they sell the authorship of a patent for a non-existing entity to academics, who gain by earning academic points during assessment for academic excellence."

In the report, the authors spotlighted firms selling inventorship positions on design patents in the U.K., but 'sales' have also been recorded from India and Australia. However, these countries don't issue design patents; they issue design registrations, Reese Richardson, a postdoctoral fellow at the Center of Science and Innovation at Northwestern University, U.S. and one of the authors of the report, said. According to her, design patents issued in the U.S. have to pass a novelty review and have a good chance of being rejected. Design registrations, on the other hand, are usually granted with minimal review.

Red herrings

'Eight firms ... are likely involved in the sale of thousands of U.K. registered designs to Indian academics'

- Academics are buying U.K. design registrations in a bid to manipulate their professional evaluations
- Design registrations are granted without rigorous novelty reviews, unlike actual patents that require innovation and uniqueness
- The misuse of these fake patents is driven by institutional rankings that prioritise quantitative data over quality
- Intense competition for jobs and rankings in India makes these unethical practices particularly attractive to many local academics
- These purchased roles are fraudulent because the designs cover only appearance and involve no actual scientific invention
- Experts have recommended removing quantitative IP metrics from rankings to discourage this unethical practice

Rubber-stamping: Some unscrupulous agencies exploit individuals' or institutions' desire to secure better ranks by selling fake patents or research papers. ISTOCK/GETTY IMAGES

Look and function

In the U.K., the design registrations Dr. Richardson's team studied were usually granted in around 11 days. "What clients are actually buying are ownership positions on these design registrations", she said. "Moreover, because these registrations are for 'designs', they cover the way an object looks, not how it functions," she added. So when an academic buys an "inventorship" on a "U.K. design patent", "there are a number of lies taking place," she added. "The academic has not invented anything; the device does not exist (let alone work); what they have obtained is not a patent; and it does not cover the functionality of the product even if it did work."

Yet these academics can then tell their employers they have obtained an "international patent", helping them towards a promotion. "As far as I am aware, selling fake patents has only emerged on the academic black market in India," Dr. Richardson said.

Prof. Lakhotia identifies three factors that contribute to this distinction: the large population seeking education and jobs, the use of quantitative metrics without any serious assessment of quality, and the reliance of nearly all international and national academic ranking agencies on quantitative parameters.

"Other related problems have emerged because of the insistence of Indian rankings on patents," Dr. Richardson added. "For instance, many private Indian universities have been filing thousands of utility patents in India in the hopes of pumping up their numbers, often more than the IITs, combined. However, ... less than 2% of these patents actually wind up being granted."

According to Prof. Lakhotia, an urgent step to curb the growing global menace of fake patents and papers is to stop all institutional rankings based on quantitative data. In the absence of independent verification, institutions unethically inflate these data, he said.

"The mere filing of a patent ... must not be used for assessment," he explained, and that only patents used by industry should be included. And "the agencies that brazenly broker such fake patents and research publications must be taken to task severely." "We need to have stronger mechanisms to identify, catalogue, and respond to scientific misconduct," Anant Bhan, adjunct professor at Yenepoya (deemed) University, Mangaluru, and an expert on bioethics, said.

Some research funders in India, like Anusandhan National Research Foundation, and some regulators have been looking into using retractions as indicators. "We do need to ramp up efforts" and have a nimble regulatory oversight and governance system, Dr. Bhan added.

Website : patrioticias.in

- Authors, from the U.K. and the U.S., of a report published in the **International Journal of Educational Integrity** wrote "eight firms … are likely involved in the sale of thousands of **U.K. registered designs** to Indian academics for the purpose of **academic reputation manipulation**."
  International Journal of Educational Integrity में प्रकाशित एक रिपोर्ट के यू.के. और यू.एस. के लेखकों ने लिखा कि "आठ फर्में … भारतीय शिक्षाविदों को हजारों **यू.के. पंजीकृत डिज़ाइन** बेचने में शामिल होने की संभावना है, जिसका उद्देश्य **शैक्षणिक प्रतिष्ठा में हेरफेर** करना है।"
- **Patent offices** don't examine **design applications** for novelty, innovation or uniqueness, and they award them quickly.
  पेटेंट कार्यालय डिज़ाइन आवेदनों की नवीनता, नवाचार या विशिष्टता की जांच नहीं करते हैं, और उन्हें शीघ्र स्वीकृत कर देते हैं।
- This is unlike the more stringent process for **patents**, which are typically used to commercialise a new discovery, **Subhash Lakhotia**, Distinguished Professor at the Cytogenetics Laboratory at **Banaras Hindu University**, Varanasi, said.
  यह **पेटेंट** की अधिक कठोर प्रक्रिया से भिन्न है, जिनका उपयोग सामान्यतः किसी नई खोज के व्यावसायीकरण के लिए किया जाता है, ऐसा **बनारस हिंदू विश्वविद्यालय**, वाराणसी की साइटोजेनेटिक्स प्रयोगशाला के विशिष्ट प्रोफेसर **सुभाष लखोटिया** ने कहा।
- Not all filed **patents** are accepted either, and only a small fraction of the accepted ones end up being used by industry.
  दायर किए गए सभी **पेटेंट** स्वीकृत नहीं होते, और स्वीकृत पेटेंटों का केवल एक छोटा हिस्सा ही उद्योग द्वारा उपयोग में लाया जाता है।
- "Thus, the real value of a **patent** is when it is used by industry for a process or product," Prof. Lakhotia, who is also on the advisory board of **India Research Watch**, a watchdog on Indian research, said.
  "इस प्रकार, किसी **पेटेंट** का वास्तविक मूल्य तब होता है जब उसका उपयोग उद्योग किसी प्रक्रिया या उत्पाद के लिए करता है," भारतीय शोध पर निगरानी रखने वाले संगठन **India Research Watch** के सलाहकार मंडल के सदस्य प्रो. लखोटिया ने कहा।
- **'Fake' patents**, filed without any original research by the person (or persons) in whose name the patent is filed, "refer to a non-existing entity," he said.
  उन्होंने कहा कि **'फर्जी' पेटेंट**, जिन्हें उस व्यक्ति (या व्यक्तियों) द्वारा बिना किसी मौलिक शोध के दायर किया जाता है जिसके नाम पर पेटेंट दाखिल किया गया है, "एक अस्तित्वहीन इकाई को संदर्भित करते हैं।"
- "This unhealthy and … unethical act is promoted by **shady companies** acting as patent-filing or facilitating agencies — they sell the authorship of a patent for a non-existing entity to academics, who gain by earning academic points during assessment for **academic excellence**."
  "यह अस्वस्थ और … अनैतिक कार्य **संदिग्ध कंपनियों** द्वारा बढ़ावा दिया जाता है, जो पेटेंट दाखिल करने या सुविधा प्रदान करने वाली एजेंसियों के रूप में कार्य करती हैं — वे एक अस्तित्वहीन इकाई के लिए पेटेंट की लेखकीयता शिक्षाविदों को बेचती हैं, जिन्हें **शैक्षणिक उत्कृष्टता** के मूल्यांकन के दौरान अंक प्राप्त हो जाते हैं।"
- In the report, the authors spotlighted firms selling **inventorship positions** on **design patents** in the U.K., but 'sales' have also been recorded from **India** and **Australia**.
  रिपोर्ट में लेखकों ने यू.के. में **डिज़ाइन पेटेंटों** पर **आविष्कारक पद** बेचने वाली फर्मों को उजागर किया, लेकिन ऐसे 'बिक्री' के मामले **भारत** और **ऑस्ट्रेलिया** से भी दर्ज किए गए हैं।
- However, these countries don't issue **design patents**; they issue **design registrations**, **Reese Richardson**, a postdoctoral fellow at the Center of Science and Innovation at **Northwestern University**, U.S. and one of the authors of the report, said.
  हालांकि, ये देश **डिज़ाइन पेटेंट** जारी नहीं करते; वे **डिज़ाइन पंजीकरण** जारी करते हैं, ऐसा **Northwestern University**, अमेरिका के Center of Science and Innovation की पोस्टडॉक्टोरल फेलो तथा रिपोर्ट की सह-लेखिका **रीज़ रिचर्डसन** ने कहा।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- According to her, **design patents** issued in the U.S. have to pass a **novelty review** and have a good chance of being rejected.
  उनके अनुसार, अमेरिका में जारी **डिज़ाइन पेटेंटों** को **नवीनता समीक्षा** से गुजरना पड़ता है और उनके अस्वीकृत होने की अच्छी संभावना रहती है।
- **Design registrations**, on the other hand, are usually granted with minimal review.
  दूसरी ओर, **डिज़ाइन पंजीकरण** सामान्यतः न्यूनतम समीक्षा के साथ प्रदान कर दिए जाते हैं।

Look and function
रूप और कार्य

- In the U.K., the **design registrations** Dr. Richardson's team studied were usually granted in around **11 days**.
  यू.के. में डॉ. रिचर्डसन की टीम द्वारा अध्ययन किए गए **डिज़ाइन पंजीकरण** सामान्यतः लगभग **11 दिनों** में प्रदान कर दिए गए।
- "What clients are actually buying are **ownership positions** on these design registrations", she said.
  उन्होंने कहा, "ग्राहक वास्तव में इन डिज़ाइन पंजीकरणों पर **स्वामित्व की स्थिति** खरीद रहे हैं।"
- "Moreover, because these registrations are for '**designs**', they cover the way an object looks, not how it functions," she added.
  उन्होंने आगे कहा, "इसके अतिरिक्त, क्योंकि ये पंजीकरण '**डिज़ाइनों**' के लिए हैं, इसलिए ये किसी वस्तु के दिखने के तरीके को कवर करते हैं, उसके कार्य करने के तरीके को नहीं।"
- So when an academic buys an "**inventorship**" on a "**U.K. design patent**", "there are a number of lies taking place," she added.
  उन्होंने कहा कि जब कोई शिक्षाविद "**यू.के. डिज़ाइन पेटेंट**" पर "**आविष्कारक**" का दर्जा खरीदता है, तब "कई प्रकार के झूठ एक साथ बोले जा रहे होते हैं।"
- "The academic has not invented anything; the device does not exist (let alone work); what they have obtained is not a **patent**; and it does not cover the functionality of the product even if it did work."
  "उस शिक्षाविद ने कुछ भी आविष्कार नहीं किया है; वह उपकरण अस्तित्व में ही नहीं है (काम करना तो दूर की बात है); जो उसने प्राप्त किया है वह **पेटेंट** नहीं है; और यदि वह उत्पाद वास्तव में काम भी करे, तब भी यह उसके कार्यात्मक पहलू को कवर नहीं करता।"
- Yet these academics can then tell their employers they have obtained an "**international patent**", helping them towards a **promotion**.
  फिर भी ये शिक्षाविद अपने नियोक्ताओं से कह सकते हैं कि उन्होंने एक **अंतरराष्ट्रीय पेटेंट** प्राप्त किया है, जिससे उन्हें **पदोन्नति** पाने में सहायता मिलती है।
- "As far as I am aware, selling fake patents has only emerged on the **academic black market** in India," Dr. Richardson said.
  डॉ. रिचर्डसन ने कहा, "जहाँ तक मेरी जानकारी है, **फर्जी पेटेंट** बेचना केवल भारत के **शैक्षणिक काले बाज़ार** में ही उभरा है।"
- Prof. Lakhotia identifies **three factors** that contribute to this distinction: the large population seeking education and jobs, the use of **quantitative metrics** without any serious assessment of quality, and the reliance of nearly all international and national academic ranking agencies on **quantitative parameters**.
  प्रो. लखोटिया ने इस स्थिति के लिए **तीन कारकों** की पहचान की है: शिक्षा और रोजगार की तलाश करने वाली बड़ी आबादी, गुणवत्ता के गंभीर मूल्यांकन के बिना **मात्रात्मक मानकों** का उपयोग, और लगभग सभी राष्ट्रीय एवं अंतरराष्ट्रीय शैक्षणिक रैंकिंग एजेंसियों का **मात्रात्मक मानकों** पर निर्भर रहना।
- "Other related problems have emerged because of the insistence of Indian rankings on **patents**," Dr. Richardson added.

डॉ. रिचर्डसन ने कहा, "भारतीय रैंकिंग में **पेटेंटों** पर अत्यधिक जोर देने के कारण अन्य संबंधित समस्याएं भी उत्पन्न हुई हैं।"

- "For instance, many private Indian universities have been filing thousands of **utility patents** in India in the hopes of pumping up their numbers, often more than the **IITs**, combined."
  "उदाहरण के लिए, कई निजी भारतीय विश्वविद्यालय अपनी संख्या बढ़ाने की आशा में भारत में हजारों **यूटिलिटी पेटेंट** दाखिल कर रहे हैं, जो अक्सर सभी **आईआईटी** मिलाकर दाखिल किए गए पेटेंटों से भी अधिक होते हैं।"
- "However, … less than **2%** of these patents actually wind up being granted."
  "हालांकि, … इन पेटेंटों में से **2%** से भी कम वास्तव में स्वीकृत होते हैं।"
- According to Prof. Lakhotia, an urgent step to curb the growing global menace of **fake patents** and papers is to stop all **institutional rankings** based on quantitative data.
  प्रो. लखोटिया के अनुसार, **फर्जी पेटेंटों** और शोध-पत्रों के बढ़ते वैश्विक खतरे को रोकने के लिए एक तात्कालिक कदम यह है कि मात्रात्मक आंकड़ों पर आधारित सभी **संस्थागत रैंकिंग** समाप्त कर दी जाएं।
- In the absence of **independent verification**, institutions unethically inflate these data, he said.
  उन्होंने कहा कि **स्वतंत्र सत्यापन** के अभाव में संस्थान अनैतिक रूप से इन आंकड़ों को बढ़ा-चढ़ाकर प्रस्तुत करते हैं।
- "The mere filing of a **patent** … must not be used for assessment," he explained, and that only patents used by industry should be included.
  उन्होंने स्पष्ट किया कि केवल **पेटेंट** दाखिल कर देना मूल्यांकन का आधार नहीं होना चाहिए, बल्कि केवल उन्हीं पेटेंटों को शामिल किया जाना चाहिए जिनका उद्योग द्वारा उपयोग किया गया हो।
- And "the agencies that brazenly broker such **fake patents** and research publications must be taken to task severely."
  और "जो एजेंसियां खुलेआम ऐसे **फर्जी पेटेंटों** और शोध प्रकाशनों की दलाली करती हैं, उनके विरुद्ध कठोर कार्रवाई की जानी चाहिए।"
- "We need to have stronger mechanisms to identify, catalogue, and respond to **scientific misconduct**," **Anant Bhan**, adjunct professor at **Yenepoya (deemed) University**, Mangaluru, and an expert on **bioethics**, said.
  येनपोया (डीम्ड) विश्वविद्यालय, मंगलुरु के सहायक प्रोफेसर तथा **जैव-नैतिकता** विशेषज्ञ **अनंत भान** ने कहा, "हमें **वैज्ञानिक कदाचार** की पहचान करने, उसका अभिलेखीकरण करने और उसके प्रति प्रभावी प्रतिक्रिया देने के लिए अधिक मजबूत तंत्र विकसित करने की आवश्यकता है।"
- Some **research funders** in India, like **Anusandhan National Research Foundation**, and some regulators have been looking into using **retractions** as indicators.
  भारत में कुछ **शोध वित्तपोषक**, जैसे **अनुसंधान नेशनल रिसर्च फाउंडेशन**, तथा कुछ नियामक **रिट्रैक्शन** को संकेतक के रूप में उपयोग करने पर विचार कर रहे हैं।
- "We do need to ramp up efforts" and have a nimble **regulatory oversight** and **governance system**, Dr. Bhan added.
  डॉ. भान ने आगे कहा, "हमें अपने प्रयासों को और तेज़ करना होगा तथा एक सक्षम **नियामकीय निगरानी** और **सुशासन प्रणाली** विकसित करनी होगी।"

Capturing sunlight in a bottle and using it when needed

GS III: S&T

SPEAKING OF SCIENCE
D. Balasubramanian

Thanks to the initiatives of UNESCO and the United Nations Framework Convention on Climate Change (UNFCCC), most countries across the world have adopted 'green' solutions that reduce environmental carbon dioxide. The use of solar panels to capture sunlight and turn it into electricity has been a particularly successful strategy. Many countries across the world have seen a large-scale expansion in the installation of solar panels.

In India, a typical home solar panel installation connected to the grid today costs about ₹30,000 per kW after subsidies under the 'Surya Ghar Mufti Bijili Yojana'. A 2-kW system can cover the basic electricity needs of a typical household. And there are crores of such panels across the country. India's rooftop solar capacity is now 23 gigawatt (GW).

In all, India's land-based solar panels generate about 150 GW of power. Ingenious solar panel installations, such as those over irrigation canals, and floating solar panels in lakes and dam-based water reservoirs are expected to produce an additional 102 GW in the near future. Recently, India has also become 'greener' by installing wind turbines and introducing electric trains, trucks, buses, and cars.

Solar panels convert energy from the sun into electricity when photons excite electrons in silicon crystals, causing them to be freed and to flow from a positively charged layer in the solar cell towards a negatively charged layer, creating an electric current. Inverters are used to convert this flow of electrons into a usable alternating current.

In India, a typical home solar panel installation connected to the grid today costs about ₹30,000 per kW after subsidies. SPECIAL ARRANGEMENT

But solar panels work during the daytime when the sun is shining. Home systems that have batteries to store power cost 1.5-times more. If there is a way by which we can more efficiently store captured energy, it would be ideal. This is what a group of researchers at the University of California at Santa Barbara, led by Prof. Grace Han, have done by designing what are referred to as molecular photo-switches (DOI: 10.1126/science.aec6413). These involve molecules that, upon absorbing solar light, convert themselves into a different shape (called isomerisation) and store the energy. This is referred to as photo-switching. Here, the molecule stores solar thermal energy in a molecular form, also known as molecular solar thermal (or MOST). The molecule the researchers have chosen, after consultation with a group at University of California at Los Angeles, is an alkaloid called 2-pyrimidone. It switches itself upon receiving photons into an isomer called Dewar pyrimidone. The latter isomeric molecule is highly strained and releases heat as much as 1.65 million joules per kg of MOST molecules. This heat allows this technology to be a practical tool to store heat and deliver it when needed for water heating, cooking, and other needs.

As a member of the research team mentioned, thermal energy from the sun can now be bottled for later use. Silicon-based panels use red and near-infrared regions of the light spectrum (400-1,100 nm). Solar thermal molecules use wavelengths below 500 nm, in the ultraviolet region.

Apart from the pyrimidones, there must be other compounds that too can act as photo-switches and heat storage units. As the solar panels across India capture sunlight during the day, scientists should be able to synthesise more MOST molecules and distribute them to the people who put up solar panels on their roofs. That would make India greener.

- **Solar thermal molecules** use wavelengths below **500 nm**, in the **ultraviolet region**.
  सौर तापीय अणु 500 नैनोमीटर से कम तरंगदैर्ध्य वाले **पराबैंगनी क्षेत्र** का उपयोग करते हैं।
- Apart from the **pyrimidones**, there must be other compounds that too can act as **photo-switches** and **heat storage units**.
  पाइरीमिडोनों के अतिरिक्त ऐसे अन्य यौगिक भी होने चाहिए जो **फोटो-स्विच** तथा **ऊष्मा भंडारण इकाइयों** के रूप में कार्य कर सकें।
- As the **solar panels** across **India** capture **sunlight** during the day, scientists should be able to synthesise more **MOST molecules** and distribute them to the people who put up **solar panels** on their roofs.
  जब **भारत** भर में **सौर पैनल** दिन के समय **सूर्य के प्रकाश** को ग्रहण करते हैं, तब वैज्ञानिकों को अधिक **MOST अणुओं** का संश्लेषण करके उन्हें अपने घरों की छतों पर **सौर पैनल** लगाने वाले लोगों तक पहुँचाना चाहिए।
- That would make **India** greener.
  इससे **भारत** और अधिक **हरित** बन जाएगा।

PATRIOTIC IAS

Watered-down bonds

Why does wet paper tear so easily?

GS III: S&T

As the southwest monsoon sweeps over India, people brace for storms, floods, and the occasional sight of a damaged bookstore or library. What makes the last a particularly sad sight is that paper tears easily when it's wet.

Paper is made primarily from wood pulp, which contains a dense network of cellulose fibers.

Cellulose consists of the compound $C_6H_{10}O_5$ attached to each other in long chains. Many of these chains clump together to form fibres, and the fibres are attached to each other using hydrogen bonds, i.e. a bond involving a hydrogen atom on one end. While hydrogen bonds are weaker than covalent, ionic or metallic bonds, millions of them act to keep paper together, along with the fibres also being entangled.

When paper is wet, water molecules penetrate between the cellulose fibres. Because water can also form hydrogen bonds, it competes with and disrupts some of the hydrogen bonds that normally hold neighbouring fibres together.

Water also causes the cellulose fibres to absorb moisture and swell, loosening the network and reducing friction. As a result, the fibres can slide past one another more easily, so less force is needed to tear wet paper.

Readers may send their questions / answers to science@thehindu.co.in

28J6. Why does wet paper tear so easily?
गीला कागज़ इतनी आसानी से क्यों फट जाता है?

- As the **southwest monsoon** sweeps over **India**, people brace for **storms**, **floods**, and the occasional sight of a damaged **bookstore** or **library**.

जब **दक्षिण-पश्चिम मानसून भारत** में फैलता है, तो लोग **तूफानों**, **बाढ़** और कभी-कभी क्षतिग्रस्त **पुस्तकालय** या **बुकस्टोर** को देखने के लिए तैयार रहते हैं।

- What makes the last a particularly sad sight is that **paper** tears easily when it's **wet**.

इनमें सबसे अधिक दुखद दृश्य यह होता है कि **कागज़ गीला** होने पर बहुत आसानी से फट जाता है।

- **Paper** is made primarily from **wood pulp**, which contains a dense network of **cellulose fibres**.

कागज़ मुख्य रूप से **वुड पल्प (लकड़ी के गूदे)** से बनाया जाता है, जिसमें **सेल्यूलोज़ रेशों** का सघन जाल होता है।

- **Cellulose** consists of the compound **C6H10O5** attached to each other in long chains.

सेल्यूलोज़ C6H10O5 यौगिक से बना होता है, जिसके अणु लंबी श्रृंखलाओं में एक-दूसरे से जुड़े होते हैं।

- Many of these chains clump together to form **fibres**, and the **fibres** are attached to each other using **hydrogen bonds**, i.e. a bond involving a **hydrogen atom** on one end.

इनमें से अनेक श्रृंखलाएँ मिलकर **रेशों (फाइबर्स)** का निर्माण करती हैं, और ये **रेशे हाइड्रोजन बंधों** द्वारा एक-दूसरे से जुड़े रहते हैं, अर्थात ऐसा बंध जिसमें एक सिरे पर **हाइड्रोजन परमाणु** शामिल होता है।

- While **hydrogen bonds** are weaker than **covalent**, **ionic** or **metallic bonds**, millions of them act to keep **paper** together, along with the **fibres** also being entangled.

यद्यपि **हाइड्रोजन बंध सहसंयोजक (कोवेलेंट)**, **आयनिक** या **धात्विक बंधों** की तुलना में कमजोर होते हैं, फिर भी इनके लाखों बंध मिलकर **कागज़** को एक साथ बनाए रखते हैं, साथ ही **रेशे** भी आपस में उलझे रहते हैं।

- When **paper** is **wet**, **water molecules** penetrate between the **cellulose fibres**.

जब **कागज़ गीला** हो जाता है, तो **जल के अणु सेल्यूलोज़ रेशों** के बीच प्रवेश कर जाते हैं।

- Because **water** can also form **hydrogen bonds**, it competes with and disrupts some of the **hydrogen bonds** that normally hold neighbouring **fibres** together.

क्योंकि **जल** भी **हाइड्रोजन बंध** बना सकता है, इसलिए वह सामान्यतः पास-पास के **रेशों** को जोड़े रखने वाले कुछ **हाइड्रोजन बंधों** से प्रतिस्पर्धा करता है और उन्हें बाधित कर देता है।

- **Water** also causes the **cellulose fibres** to absorb **moisture** and swell, loosening the network and reducing **friction**.

जल सेल्यूलोज़ रेशों को **नमी** अवशोषित करने और फूलने का कारण बनता है, जिससे उनका जाल ढीला हो जाता है और **घर्षण** कम हो जाता है।

- As a result, the **fibres** can slide past one another more easily, so less **force** is needed to tear **wet paper**.

परिणामस्वरूप, **रेशे** एक-दूसरे के ऊपर अधिक आसानी से खिसक जाते हैं, इसलिए **गीले कागज़** को फाड़ने के लिए कम **बल** की आवश्यकता होती है।

How saving elephants helps forests breathe easier

GS III: Environment

Rahul Karmakar
GUWAHATI

Protecting the endangered Asiatic elephant (*Elephas maximus indicus*) indirectly helps safeguard India's forests as powerful carbon stores, a new scientific study has said.

The research, however, warned that long-term carbon stabilisation cannot be ensured merely by declaring more areas as elephant reserves but by improving habitat quality, restoring wildlife corridors, and strengthening forest management. Carbon stabilisation, a vital mechanism for removing greenhouse gases and mitigating climate change, is the process of trapping atmospheric carbon and locking it into stable, solid forms (such as in soil or organic matter). This helps resist decay, erosion, or the release of carbon back into the atmosphere.

The study, published in the latest issue of the *Journal of Threatened Taxa*, assessed the relationship between elephant conservation efforts, the expansion of elephant reserves, and wildlife-associated carbon stock enhancement in India from 1992 to 2025. Noida-based Amity University's Tarun Kathula and Tanu Jindal are its authors.

The researchers found that India's elephant reserve network expanded from 18,297 sq. km. (across three elephant reserves) to 80,777 sq. km. (33 elephant reserves), while the elephant population increased by about 6.7% from 25,604 estimated during 1992-93. Despite the marginal increase in the number of pachyderms, the estimated carbon stored within the elephant reserves increased by 38%.

The increase should not be interpreted as the elephants directly creating more forest biomass, the researchers said, as it "primarily reflects enhanced protection and reduced degradation of pre-existing forest carbon stocks."

Elephants remain ecologically vital, despite their limited contribution to faunal biomass, the researchers said. THULASI KAKKAT

The study estimated that about 95% of the increase in carbon storage resulted from the expansion of protected forest areas. However, elephant reserves are not uniformly conserved in the same manner as legally designated national parks or tiger reserves.

Ecosystem engineers

Elephants, often described as ecosystem engineers, remain ecologically vital, despite their limited contribution to faunal biomass, the researchers said. The gentle giants, they pointed out, disperse seeds, enrich soils with dung, create space for diverse vegetation, and help maintain healthy forests capable of storing carbon over the long term.

The researchers also found a weak relationship between the number of elephant reserves and the elephant population growth, suggesting that administrative declarations alone cannot secure the species' future if habitats remain fragmented or poorly managed.

Declining numbers

The study further underlined a worrying trend – the decline in elephant numbers under a new census methodology called Synchronised All-India Elephant Estimate (SAIEE) 2021-25, while the number of elephant reserves has stabilised. The SAIEE count of 22,446 was 4,065 elephants fewer than the 2017 estimate, but the enumerators asserted that the two different counting methods should not be compared.

Comparable patterns were observed in the African savannah ecosystems, where mega-herbivore management improved vegetation carbon stocks by 20-30%. "Such consistency across regions supports the ecological principle that mega-fauna protection complements forest-carbon goals," their study said. "Policy integration of these results can strengthen India's commitments to achieve 2.5-3 billion tCO_2 (total carbon dioxide) equivalent additional carbon sink by 2030. Incorporating wildlife-inclusive accounting within REDD+ frameworks could generate measurable ecosystem-service credits while ensuring co-benefits for biodiversity," the study said. REDD expands to 'Reducing Emissions from Deforestation and Forest Degradation'.

28J6. How saving elephants helps forests breathe easier
हाथियों का संरक्षण वनों को अधिक स्वस्थ रूप से 'सांस लेने' में कैसे मदद करता है

- Protecting the endangered **Asiatic elephant (Elephas maximus indicus)** indirectly helps safeguard **India's forests** as powerful **carbon stores**, a new **scientific study** has said.
  एक नए **वैज्ञानिक अध्ययन** के अनुसार, संकटग्रस्त **एशियाई हाथी (Elephas maximus indicus)** का संरक्षण अप्रत्यक्ष रूप से **भारत के वनों** को शक्तिशाली **कार्बन भंडार** के रूप में सुरक्षित रखने में सहायता करता है।
- The research, however, warned that long-term **carbon stabilisation** cannot be ensured merely by declaring more areas as **elephant reserves** but by improving **habitat quality**, restoring **wildlife corridors**, and strengthening **forest management**.
  हालाँकि, शोध में चेतावनी दी गई है कि दीर्घकालिक **कार्बन स्थिरीकरण** केवल अधिक क्षेत्रों को **हाथी रिजर्व** घोषित करने से सुनिश्चित नहीं किया जा सकता, बल्कि **आवास गुणवत्ता** में सुधार, **वन्यजीव गलियारों** की बहाली और **वन प्रबंधन** को सुदृढ़ करने से ही संभव है।
- **Carbon stabilisation**, a vital mechanism for removing **greenhouse gases** and mitigating **climate change**, is the process of trapping atmospheric **carbon** and locking it into stable, solid forms (such as in **soil** or **organic matter**).
  कार्बन स्थिरीकरण, जो **ग्रीनहाउस गैसों** को हटाने और **जलवायु परिवर्तन** को कम करने का एक महत्वपूर्ण तंत्र है, वायुमंडलीय **कार्बन** को पकड़कर उसे **मिट्टी** या **कार्बनिक पदार्थ** जैसे स्थिर ठोस रूपों में सुरक्षित रखने की प्रक्रिया है।
- This helps resist **decay**, **erosion**, or the release of **carbon** back into the atmosphere.
  इससे **अपघटन**, **कटाव**, अथवा **कार्बन** के पुनः वायुमंडल में उत्सर्जन को रोकने में सहायता मिलती है।
- The study, published in the latest issue of the **Journal of Threatened Taxa**, assessed the relationship between **elephant conservation efforts**, the expansion of **elephant reserves**,

and **wildlife-associated carbon stock enhancement** in India from **1992 to 2025**.
Journal of Threatened Taxa के नवीनतम अंक में प्रकाशित इस अध्ययन ने **1992 से 2025** तक भारत में **हाथी संरक्षण प्रयासों**, **हाथी रिजर्वों के विस्तार**, तथा **वन्यजीव-संबद्ध कार्बन भंडार वृद्धि** के बीच संबंध का आकलन किया।

- **Noida-based Amity University's Tarun Kathula and Tanu Jindal** are its authors.
इस अध्ययन के लेखक **नोएडा स्थित एमिटी विश्वविद्यालय** के **तरुण कथुला** और **तनु जिंदल** हैं।
- The researchers found that **India's elephant reserve network** expanded from **18,297 sq. km.** (across **three elephant reserves**) to **80,777 sq. km.** (**33 elephant reserves**), while the **elephant population** increased by about **6.7%** from **25,604** estimated during **1992-93**.
शोधकर्ताओं ने पाया कि **भारत का हाथी रिजर्व नेटवर्क 18,297 वर्ग किमी** (केवल **तीन हाथी रिजर्व**) से बढ़कर **80,777 वर्ग किमी** (**33 हाथी रिजर्व**) हो गया, जबकि **1992-93** में अनुमानित **25,604** हाथियों की तुलना में **हाथियों की संख्या** लगभग **6.7%** बढ़ी।
- Despite the marginal increase in the number of **pachyderms**, the estimated **carbon** stored within the **elephant reserves** increased by **38%**.
हाथियों की संख्या में मामूली वृद्धि के बावजूद **हाथी रिजर्वों** में संग्रहीत अनुमानित **कार्बन** में **38%** की वृद्धि हुई।
- The increase should not be interpreted as the **elephants** directly creating more **forest biomass**, the researchers said, as it "primarily reflects enhanced protection and reduced degradation of pre-existing **forest carbon stocks**."
शोधकर्ताओं ने कहा कि इस वृद्धि का अर्थ यह नहीं है कि **हाथियों** ने सीधे अधिक **वन जैवभार** उत्पन्न किया, बल्कि यह मुख्यतः पहले से मौजूद **वन कार्बन भंडारों** की बेहतर सुरक्षा और कम क्षरण को दर्शाता है।
- The study estimated that about **95%** of the increase in **carbon storage** resulted from the expansion of **protected forest areas**.
अध्ययन के अनुसार **कार्बन भंडारण** में हुई वृद्धि का लगभग **95%** भाग **संरक्षित वन क्षेत्रों** के विस्तार के कारण हुआ।
- However, **elephant reserves** are not uniformly conserved in the same manner as legally designated **national parks** or **tiger reserves**.
हालाँकि, **हाथी रिजर्वों** का संरक्षण उसी प्रकार समान रूप से नहीं किया जाता जैसा कि विधिक रूप से अधिसूचित **राष्ट्रीय उद्यानों** या **बाघ अभयारण्यों** का किया जाता है।

Ecosystem engineers
पारिस्थितिकी तंत्र के अभियंता

- **Elephants**, often described as **ecosystem engineers**, remain ecologically vital, despite their limited contribution to **faunal biomass**, the researchers said.
शोधकर्ताओं के अनुसार **हाथियों** को अक्सर **पारिस्थितिकी तंत्र के अभियंता** कहा जाता है और **जीव-जंतु जैवभार** में सीमित योगदान के बावजूद वे पारिस्थितिक दृष्टि से अत्यंत महत्वपूर्ण हैं।
- The gentle giants, they pointed out, disperse **seeds**, enrich **soils** with **dung**, create space for diverse **vegetation**, and help maintain healthy **forests** capable of storing **carbon** over the long term.
उन्होंने बताया कि ये विशाल किंतु शांत स्वभाव वाले जीव **बीजों** का प्रसार करते हैं, **गोबर** से **मिट्टी** को समृद्ध बनाते हैं, विविध **वनस्पतियों** के लिए स्थान तैयार करते हैं और ऐसे स्वस्थ **वनों** को बनाए रखने में मदद करते हैं जो दीर्घकाल तक **कार्बन** का भंडारण कर सकें।
- The researchers also found a weak relationship between the number of **elephant reserves** and the **elephant population growth**, suggesting that administrative declarations alone cannot secure the species' future if **habitats** remain fragmented or poorly managed.
शोधकर्ताओं ने **हाथी रिजर्वों** की संख्या और **हाथियों की जनसंख्या वृद्धि** के बीच कमजोर संबंध भी पाया,

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur

Website : patrioticias.in

जिससे संकेत मिलता है कि यदि **आवास** खंडित या खराब प्रबंधित रहें तो केवल प्रशासनिक घोषणाएँ इस प्रजाति का भविष्य सुरक्षित नहीं कर सकतीं।

Declining numbers
घटती संख्या

- The study further underlined a worrying trend — the decline in **elephant numbers** under a new census methodology called **Synchronised All-India Elephant Estimate (SAIEE) 2021-25**, while the number of **elephant reserves** has stabilised.
  अध्ययन ने एक चिंताजनक प्रवृत्ति को भी रेखांकित किया— **Synchronised All-India Elephant Estimate (SAIEE) 2021-25** नामक नई गणना पद्धति के तहत **हाथियों की संख्या** में गिरावट आई है, जबकि **हाथी रिजर्वों** की संख्या स्थिर हो गई है।
- The **SAIEE** count of **22,446** was **4,065 elephants** fewer than the **2017 estimate**, but the enumerators asserted that the two different counting methods should not be compared.
  SAIEE के अनुसार **22,446** हाथियों की गणना हुई, जो **2017 के अनुमान** से **4,065 हाथी** कम थी, लेकिन गणनाकर्ताओं ने स्पष्ट किया कि दोनों अलग-अलग गणना पद्धतियों की तुलना नहीं की जानी चाहिए।
- Comparable patterns were observed in the **African savannah ecosystems**, where **mega-herbivore management** improved **vegetation carbon stocks** by **20-30%**.
  इसी प्रकार का पैटर्न **अफ्रीकी सवाना पारिस्थितिकी तंत्र** में भी देखा गया, जहाँ **विशाल शाकाहारी जीवों के प्रबंधन** से **वनस्पति कार्बन भंडार** में **20-30%** की वृद्धि हुई।
- "Such consistency across regions supports the ecological principle that **mega-fauna protection** complements **forest-carbon goals**," their study said.
  अध्ययन में कहा गया, "विभिन्न क्षेत्रों में ऐसी समानता इस पारिस्थितिक सिद्धांत का समर्थन करती है कि **विशाल वन्यजीवों का संरक्षण**, **वन-कार्बन लक्ष्यों** को पूरक बनाता है।"
- "**Policy integration** of these results can strengthen **India's commitments** to achieve **2.5-3 billion tCO_2 (total carbon dioxide) equivalent additional carbon sink by 2030**.
  "इन परिणामों का **नीतिगत एकीकरण**, **2030 तक 2.5-3 अरब टन CO_2 समतुल्य अतिरिक्त कार्बन सिंक** बनाने की **भारत की प्रतिबद्धताओं** को मजबूत कर सकता है।
- Incorporating **wildlife-inclusive accounting** within **REDD+ frameworks** could generate measurable **ecosystem-service credits** while ensuring **co-benefits for biodiversity**," the study said.
  अध्ययन के अनुसार **REDD+ ढाँचे** में **वन्यजीव-समावेशी लेखांकन** को शामिल करने से मापनीय **पारिस्थितिकी तंत्र सेवा क्रेडिट** उत्पन्न किए जा सकते हैं, साथ ही **जैव विविधता** के लिए सहायक लाभ भी सुनिश्चित किए जा सकते हैं।
- **REDD** expands to **'Reducing Emissions from Deforestation and Forest Degradation'**.
  REDD का पूर्ण रूप **'वनों की कटाई और वन क्षरण से होने वाले उत्सर्जन में कमी (Reducing Emissions from Deforestation and Forest Degradation)'** है।

GS Paper III: Internal Security	28 June 2026
TOPICS COVERED	
28J6	Khukuri: a symbol of courage and loyalty खुकुरी: साहस और निष्ठा का प्रतीक

Khukuri: a symbol of courage and loyalty

Once used by the Gorkha soldiers to fight the British Army, the *khukuri* knife's uses have transformed over time according to the needs of the Nepali people, who continue to use it extensively in combat as well as in their homes

GS III: Internal Security

Prabhat Khanal

The *khukuri* knife is an iconic symbol of the Gorkha military, originally from Nepal, and is closely associated with the Gorkha soldier, symbolising strength, courage, bravery and loyalty.

A typical *khukuri* blade has a distinctive curved shape, and a hard blade, measuring 16 to 18 inches, can be used as both a weapon during combat and a tool in Nepal. *Khukuris* are forged from spring steel with a notch at the end of the blade, designed so that blood and sap drip off the knife instead of seeping onto the hardwood handle.

According to the Nepal Army, after 1744, the *khukuri* worn by the Gorkha soldiers who fought under the leadership of Prithvi Narayan Shah, who was the king of the Gorkha kingdom, in the Nepal Unification Campaign, made a significant contribution to the creation of modern Nepal.

When Britain initially encountered Gorkhas in the mountains of Nepal in 1814, the Gorkhas fought so fiercely and admirably with their *khukuris*. After that, the *khukuri* became the symbol of courage, bravery, and warfare skills of the Gorkha soldier, and they were recruited into the British Army. Now, the Indian Army currently fields seven active Gorkha Rifles regiments and the British Army has one primary Gorkha infantry regiment, The Royal Gorkha Rifles (RGR).

The Nepal Army uses the *khukuri* as a combat weapon, a survival tool in field operations, and an important part of military training. It is also carried during parades and ceremonial events, cultural events, symbolising the courage, tradition, and identity of Nepali soldiers.

Though the *khukuri* is best known as a ruthless combat weapon, the knife has several other uses. Gorkhas can use their *khukuris* to chop or carve wood, cut meat and vegetables, dig, and hunt wild animals.

The act of sharpening a *khukuri* is a ritualistic process, symbolising the soldier's commitment to duty and honour. People of Nepal worship the *khukuri* during various festivals.

Although the *khukuri* has undergone some changes in its appearance from ancient times to the modern era, its importance, respect, and identity have not diminished.

Firm grip: A man demonstrating the proper handling of a handcrafted *khukuri* knife in a factory, showcasing its precision, balance, and readiness for action.

28J6. Khukuri: a symbol of courage and loyalty
खुकुरी: साहस और निष्ठा का प्रतीक

- **Once used by the Gorkha soldiers to fight the British Army, the khukuri knife's uses have transformed over time according to the needs of the Nepali people, who continue to use it extensively in combat as well as in their homes.**
  ब्रिटिश सेना के विरुद्ध **गोरखा सैनिकों** द्वारा कभी उपयोग की जाने वाली **खुकुरी** का उपयोग समय के साथ **नेपाली लोगों** की आवश्यकताओं के अनुसार बदल गया है, जो आज भी इसका व्यापक रूप से **युद्ध** तथा अपने **घरों** में करते हैं।
- The **khukuri knife** is an iconic symbol of the **Gorkha military**, originally from **Nepal**, and is closely associated with the **Gorkha soldier**, symbolising **strength, courage, bravery and loyalty**.
  खुकुरी चाकू, मूल रूप से **नेपाल** का, **गोरखा सेना** का एक प्रतिष्ठित प्रतीक है और **गोरखा सैनिक** से घनिष्ठ रूप से जुड़ा हुआ है, जो **शक्ति, साहस, वीरता और निष्ठा** का प्रतीक है।
- A typical **khukuri blade** has a distinctive curved shape, and a hard blade, measuring **16 to 18 inches**, can be used as both a **weapon** during combat and a **tool** in Nepal.
  एक सामान्य **खुकुरी ब्लेड** का आकार विशिष्ट रूप से मुड़ा हुआ होता है, तथा **16 से 18 इंच** लंबा कठोर ब्लेड **युद्ध** के दौरान **हथियार** और नेपाल में **उपकरण** दोनों के रूप में उपयोग किया जा सकता है।
- **Khukuris** are forged from **spring steel** with a notch at the end of the blade, designed so that **blood** and **sap** drip off the knife instead of seeping onto the **hardwood handle**.
  खुकुरी को **स्प्रिंग स्टील** से बनाया जाता है तथा इसके ब्लेड के सिरे पर एक कटाव होता है, जिसे इस प्रकार बनाया गया है कि **रक्त** और **पेड़ों का रस** चाकू से नीचे टपक जाएँ, बजाय इसके कि वे **कठोर लकड़ी के हैंडल** पर बहें।

- According to the **Nepal Army**, after **1744**, the **khukuri** worn by the **Gorkha soldiers** who fought under the leadership of **Prithvi Narayan Shah**, who was the king of the **Gorkha kingdom**, in the **Nepal Unification Campaign**, made a significant contribution to the creation of **modern Nepal**.
  नेपाल सेना के अनुसार, **1744** के बाद **गोरखा राज्य** के राजा **पृथ्वी नारायण शाह** के नेतृत्व में **नेपाल एकीकरण अभियान** में लड़ने वाले **गोरखा सैनिकों** द्वारा धारण की गई **खुकुरी** ने **आधुनिक नेपाल** के निर्माण में महत्वपूर्ण योगदान दिया।
- When **Britain** initially encountered **Gorkhas** in the mountains of **Nepal** in **1814**, the **Gorkhas** fought so fiercely and admirably with their **khukuris**.
  जब **1814** में **ब्रिटेन** का पहली बार **नेपाल** के पर्वतों में **गोरखाओं** से सामना हुआ, तब **गोरखाओं** ने अपनी **खुकुरियों** के साथ अत्यंत वीरता और अदम्य साहस से युद्ध किया।
- After that, the **khukuri** became the symbol of **courage, bravery, and warfare skills** of the **Gorkha soldier**, and they were recruited into the **British Army**.
  इसके बाद **खुकुरी**, **गोरखा सैनिकों** के **साहस, वीरता और युद्ध कौशल** का प्रतीक बन गई तथा उन्हें **ब्रिटिश सेना** में भर्ती किया गया।
- Now, the **Indian Army** currently fields **seven active Gorkha Rifles regiments** and the **British Army** has one primary **Gorkha infantry regiment**, **The Royal Gorkha Rifles (RGR)**.
  वर्तमान में **भारतीय सेना** में **गोरखा राइफल्स** की **सात सक्रिय रेजिमेंटें** हैं तथा **ब्रिटिश सेना** में एक प्रमुख **गोरखा पैदल सेना रेजिमेंट**, **द रॉयल गोरखा राइफल्स (RGR)** है।
- The **Nepal Army** uses the **khukuri** as a **combat weapon**, a **survival tool** in field operations, and an important part of **military training**.
  नेपाल सेना, **खुकुरी** का उपयोग **युद्ध हथियार**, फील्ड अभियानों में **जीवनरक्षक उपकरण**, तथा **सैन्य प्रशिक्षण** के महत्वपूर्ण भाग के रूप में करती है।
- It is also carried during **parades** and **ceremonial events**, **cultural events**, symbolising the **courage, tradition, and identity** of **Nepali soldiers**.
  इसे **परेड**, **औपचारिक समारोहों** तथा **सांस्कृतिक कार्यक्रमों** में भी धारण किया जाता है, जो **नेपाली सैनिकों** के **साहस, परंपरा और पहचान** का प्रतीक है।
- Though the **khukuri** is best known as a ruthless **combat weapon**, the knife has several other uses.
  यद्यपि **खुकुरी** को मुख्यतः एक प्रभावशाली **युद्ध हथियार** के रूप में जाना जाता है, फिर भी इसके अनेक अन्य उपयोग भी हैं।
- **Gorkhas** can use their **khukuris** to chop or carve **wood**, cut **meat** and **vegetables**, **dig**, and hunt **wild animals**.
  गोरखा अपनी **खुकुरी** का उपयोग **लकड़ी** काटने या तराशने, **मांस** और **सब्जियाँ** काटने, **खुदाई** करने तथा **जंगली जानवरों** का शिकार करने के लिए कर सकते हैं।
- The act of sharpening a **khukuri** is a ritualistic process, symbolising the soldier's commitment to **duty** and **honour**.
  खुकुरी को धार देना एक **अनुष्ठानिक प्रक्रिया** है, जो सैनिक की **कर्तव्यनिष्ठा** और **सम्मान** के प्रति उसकी प्रतिबद्धता का प्रतीक है।
- People of **Nepal** worship the **khukuri** during various **festivals**.
  नेपाल के लोग विभिन्न **त्योहारों** के दौरान **खुकुरी** की पूजा करते हैं।
- Although the **khukuri** has undergone some changes in its appearance from ancient times to the modern era, its **importance, respect, and identity** have not diminished.
  यद्यपि **खुकुरी** के स्वरूप में प्राचीन काल से आधुनिक युग तक कुछ परिवर्तन हुए हैं, फिर भी इसका **महत्व, सम्मान और पहचान** कम नहीं हुई है।

Mahesh Dixit, IPS officer of 1993 batch, named new IB chief

PCS

Vijaita Singh
NEW DELHI

Mahesh Dixit, a 1993 batch Indian Police Service (IPS) officer of the Andhra Pradesh cadre has been appointed as Director, Intelligence Bureau (DIB), a government order said.

He succeeds Tapan Kumar Deka, who held the post since 2022. His tenure ends on June 30.

Mr. Dixit, a medical doctor by education, has led the Jammu and Kashmir (J&K) desk and has also served in Nagaland and Bihar.

He was Deputy Director of IB in J&K from 2009-12 and from 2012-15, he was posted in Nagaland.

He took charge of the Subsidiary Intelligence Bureau (SIB) of J&K in 2020 and served there till 2024, overseeing the security preparedness and intelligence-based operations post revocation of Article 370 in the erstwhile State.

He is among the Home Ministry officials who are engaged in talks with civil society leaders of Ladakh.

The Appointments Committee of the Cabinet (ACC) on Thursday approved the appointment of Mr. Dixit, Special Director, IB as Director, Intelligence Bureau for a tenure of two years from the date of assumption of the charge of the post or until further orders, whichever is earlier, the order said.

Due to retire in August 2027, he has been granted extension in service under the provisions of FR 56d) and Rule 16 (1A) of All India Services (Death cum Retirement Benefits) Rules, 1958, the order said.

Mahesh Dixit

He served in J&K from 2020 to 2024, in the period post the revocation of Article 370

26J6. Mahesh Dixit, IPS officer of 1993 batch, named new IB chief

1993 बैच के आईपीएस अधिकारी महेश दीक्षित नए आईबी प्रमुख नियुक्त

- **Mahesh Dixit, a 1993 batch Indian Police Service (IPS) officer of the Andhra Pradesh cadre has been appointed as Director, Intelligence Bureau (DIB), a government order said.**

1993 बैच के आंध्र प्रदेश कैडर के भारतीय पुलिस सेवा (IPS) अधिकारी महेश दीक्षित को निदेशक, इंटेलिजेंस ब्यूरो (DIB) नियुक्त किया गया है, ऐसा एक सरकारी आदेश में कहा गया।

- He succeeds **Tapan Kumar Deka**, who held the post since **2022**.

वह **तपन कुमार डेका** का स्थान लेंगे, जो **2022** से इस पद पर कार्यरत थे।

- His tenure ends on **June 30**.

उनका कार्यकाल **30 जून** को समाप्त हो रहा है।

- Mr. **Dixit**, a **medical doctor** by education, has led the **Jammu and Kashmir (J&K) desk** and has also served in **Nagaland** and **Bihar**.

शिक्षा से **मेडिकल डॉक्टर** श्री **दीक्षित** ने **जम्मू और कश्मीर (J&K) डेस्क** का नेतृत्व किया है और **नागालैंड** तथा **बिहार** में भी सेवा दी है।

- He was **Deputy Director of IB** in **J&K** from **2009-12** and from **2012-15**, he was posted in **Nagaland**.

वह **2009-12** तक **जम्मू-कश्मीर** में **आईबी के उपनिदेशक (Deputy Director of IB)** रहे और **2012-15** के दौरान उनकी तैनाती **नागालैंड** में रही।

- He took charge of the **Subsidiary Intelligence Bureau (SIB)** of **J&K** in **2020** and served there till **2024**, overseeing the **security preparedness** and **intelligence-based operations** post revocation of **Article 370** in the erstwhile State.

उन्होंने **2020** में **जम्मू-कश्मीर के सहायक इंटेलिजेंस ब्यूरो (SIB)** का कार्यभार संभाला और **2024** तक वहाँ सेवा दी, जहाँ उन्होंने पूर्ववर्ती राज्य में **अनुच्छेद 370** हटाए जाने के बाद **सुरक्षा तैयारियों** और **खुफिया-आधारित अभियानों** की निगरानी की।

- He is among the **Home Ministry** officials who are engaged in talks with **civil society leaders** of **Ladakh**.

वह **गृह मंत्रालय** के उन अधिकारियों में शामिल हैं जो **लद्दाख** के **नागरिक समाज के नेताओं** के साथ वार्ता में शामिल हैं।

- The **Appointments Committee of the Cabinet (ACC)** on **Thursday** approved the appointment of Mr. **Dixit**, **Special Director, IB** as **Director, Intelligence Bureau** for a tenure of **two years** from the date of assumption of the charge of the post or until further orders, whichever is earlier, the order said.

मंत्रिमंडल की नियुक्ति समिति (ACC) ने **गुरुवार** को श्री **दीक्षित**, **स्पेशल डायरेक्टर, आईबी** की **निदेशक, इंटेलिजेंस ब्यूरो** के रूप में नियुक्ति को **दो वर्ष** के कार्यकाल के लिए, पदभार ग्रहण करने की तिथि से या अगले आदेश तक, जो भी पहले हो, मंजूरी दे दी, आदेश में कहा गया।

- Due to retire in **August 2027**, he has been granted **extension in service** under the provisions of **FR 56(d)** and **Rule 16 (1A) of All India Services (Death cum Retirement Benefits) Rules, 1958**, the order said.

अगस्त 2027 में सेवानिवृत्त होने वाले उन्हें **FR 56(d)** तथा **अखिल भारतीय सेवाएँ (मृत्यु-सह-सेवानिवृत्ति लाभ) नियम, 1958** के **नियम 16 (1A)** के प्रावधानों के तहत **सेवा विस्तार** प्रदान किया गया है, आदेश में कहा गया।

Centre's hike in passport application fee to take effect on July 1

Press Trust of India
NEW DELHI

The application fee for an ordinary fresh passport containing 36 pages has been hiked from ₹1,500 to ₹2,500, as the Union government revised the passport fee structure through an amendment to the Passports Rules, 1980.

The new rules will come into effect from July 1.

According to a notification dated June 20, and published by the Ministry of External Affairs on Thursday, the reissue of a 36-page passport will also cost ₹2,500. A tatkal application for a fresh or reissued passport will cost ₹5,000 as opposed to the current ₹3,500 rate.

Similarly, the application fee for an ordinary fresh passport or reissue of a passport containing 60 pages has been hiked from ₹2,000 to ₹3,500. The tatkal fee for 60-page passports will be ₹6,000 as against the current ₹4,000.

For minors, the fees for a fresh passport or reissue of passport containing 36 pages is ₹1,750, the notification added.

In its notification, the government also issued a schedule which will substitute the "Schedule IV to the Passports Rules, 1980". The revised schedule mentions two sub-categories: for applicants 18 years of age and above, and minors aged between 15 to 18 years, if applied under this category; and minor applicants below 18 years of age.

26J6. Centre's hike in passport application fee to take effect on July 1

पासपोर्ट आवेदन शुल्क में केंद्र की बढ़ोतरी 1 जुलाई से लागू होगी

- The application fee for an ordinary fresh passport containing **36 pages** has been hiked from **₹1,500** to **₹2,500**, as the **Union government** revised the passport fee structure through an amendment to the **Passports Rules, 1980**.

36 पृष्ठों वाले सामान्य नए पासपोर्ट का आवेदन शुल्क **₹1,500** से बढ़ाकर **₹2,500** कर दिया गया है, क्योंकि **केंद्र सरकार** ने **पासपोर्ट नियम, 1980** में संशोधन के माध्यम से पासपोर्ट शुल्क संरचना में बदलाव किया है।

- The new rules will come into effect from **July 1**.

नए नियम **1 जुलाई** से लागू होंगे।

- According to a **notification** dated **June 20**, and published by the **Ministry of External Affairs** on Thursday, the reissue of a **36-page passport** will also cost **₹2,500**.

20 जून की **अधिसूचना**, जिसे **विदेश मंत्रालय** ने गुरुवार को प्रकाशित किया, के अनुसार **36 पृष्ठों वाले पासपोर्ट** के पुनः जारी करने का शुल्क भी **₹2,500** होगा।

- A **tatkal** application for a fresh or reissued passport will cost **₹5,000** as opposed to the current **₹3,500** rate.

नए या पुनः जारी किए गए पासपोर्ट के लिए **तत्काल** आवेदन का शुल्क वर्तमान **₹3,500** के बजाय **₹5,000** होगा।

- Similarly, the application fee for an ordinary fresh passport or reissue of a passport containing **60 pages** has been hiked from **₹2,000** to **₹3,500**.

इसी प्रकार **60 पृष्ठों** वाले सामान्य नए पासपोर्ट या उसके पुनः जारी करने का आवेदन शुल्क **₹2,000** से बढ़ाकर **₹3,500** कर दिया गया है।

- The **tatkal fee** for **60-page passports** will be **₹6,000** as against the current **₹4,000**.

60 पृष्ठों वाले पासपोर्ट के लिए **तत्काल शुल्क** वर्तमान **₹4,000** के बजाय **₹6,000** होगा।

- For **minors**, the fees for a fresh passport or reissue of passport containing **36 pages** is **₹1,750**, the notification added.

नाबालिगों के लिए **36 पृष्ठों** वाले नए पासपोर्ट या उसके पुनः जारी करने का शुल्क **₹1,750** होगा, अधिसूचना में यह भी कहा गया है।

- In its **notification**, the government also issued a schedule which will substitute the **"Schedule IV to the Passports Rules, 1980"**.

अपनी **अधिसूचना** में सरकार ने एक नई अनुसूची भी जारी की है, जो **"पासपोर्ट नियम, 1980 की अनुसूची-IV"** का स्थान लेगी।

- The revised schedule mentions **two sub-categories**: for applicants **18 years of age and above**, and minors aged **15 to 18 years**, if applied under this category; and minor applicants **below 18 years of age**.

संशोधित अनुसूची में **दो उप-श्रेणियों** का उल्लेख किया गया है: **18 वर्ष या उससे अधिक आयु** के आवेदकों तथा इस श्रेणी के अंतर्गत आवेदन करने वाले **15 से 18 वर्ष** आयु के नाबालिगों के लिए; और **18 वर्ष से कम आयु** के नाबालिग आवेदकों के लिए।

Punjab CM says 'mask' used to create fake video

GS I: History

The Hindu Bureau
CHANDIGARH

Amid the ongoing controversy over an objectionable video, Punjab Chief Minister Bhagwant Mann on Thursday said a conspiracy had been hatched to malign his image on religious grounds, even as the Opposition parties accused the Chief Minister of misleading the people of Punjab with diversionary statements.

Mr. Mann alleged that a Canada-based person, whom he identified as Jagman Samra, had used a mask resembling his face to create the video. "The fake video was filmed in a hotel in Canada, whereas I have not visited the country since 2016. The mask was clearly visible in the video and my neck surgery scar was missing. The makers of the fake video have been identified and will be exposed after verification," he said at a press conference here. He said the matter would be placed before the Akal Takht, the highest Sikh temporal seat, along with the evidence.

Bhagwant Mann

On June 15, the Sikh clergy at Akal Takht had declared Mr. Mann *Guru Dokhi* (a betrayer of the Guru) and *Khalsa Panth Virodhi* (opponent of the Sikh community).

'For political benefit'

"For the past several days, a fake and fabricated video of mine has been circulated repeatedly. Religious directives were also issued only to derive political benefit," Mr. Mann said.

26J6. Punjab CM says 'mask' used to create fake video
पंजाब के मुख्यमंत्री ने कहा, फर्जी वीडियो बनाने के लिए 'मास्क' का इस्तेमाल किया गया

- Amid the ongoing controversy over an objectionable video, **Punjab Chief Minister Bhagwant Mann** on Thursday said a conspiracy had been hatched to malign his image on **religious grounds**, even as the **Opposition parties** accused the Chief Minister of misleading the people of Punjab with diversionary statements.
  आपत्तिजनक वीडियो को लेकर जारी विवाद के बीच **पंजाब के मुख्यमंत्री भगवंत मान** ने गुरुवार को कहा कि **धार्मिक आधार** पर उनकी छवि खराब करने की साजिश रची गई है, जबकि **विपक्षी दलों** ने मुख्यमंत्री पर भटकाने वाले बयान देकर पंजाब के लोगों को गुमराह करने का आरोप लगाया।
- Mr. **Mann** alleged that a **Canada-based** person, whom he identified as **Jagman Samra**, had used a **mask** resembling his face to create the video.

श्री **मान** ने आरोप लगाया कि **कनाडा** में रहने वाले **जगमन समरा** नामक व्यक्ति ने उनके चेहरे जैसा **मास्क** पहनकर यह वीडियो बनाया।

- "The fake video was filmed in a hotel in **Canada**, whereas I have not visited the country since **2016**.
  "यह फर्जी वीडियो **कनाडा** के एक होटल में फिल्माया गया था, जबकि मैं **2016** के बाद से उस देश नहीं गया हूँ।"
- The **mask** was clearly visible in the video and my **neck surgery scar** was missing.
  वीडियो में **मास्क** स्पष्ट रूप से दिखाई दे रहा था और मेरी **गर्दन की सर्जरी का निशान** भी नहीं था।
- The makers of the fake video have been identified and will be exposed after verification," he said at a press conference here.
  उन्होंने यहाँ आयोजित एक प्रेस कॉन्फ्रेंस में कहा, "फर्जी वीडियो बनाने वालों की पहचान कर ली गई है और सत्यापन के बाद उन्हें बेनकाब किया जाएगा।"
- He said the matter would be placed before the **Akal Takht**, the highest **Sikh temporal seat**, along with the evidence.
  उन्होंने कहा कि इस मामले को साक्ष्यों के साथ **अकाल तख्त**, जो **सिखों की सर्वोच्च धार्मिक-लौकिक संस्था** है, के समक्ष रखा जाएगा।
- On **June 15**, the Sikh clergy at **Akal Takht** had declared Mr. **Mann Guru Dokhi** (a betrayer of the Guru) and **Khalsa Panth Virodhi** (opponent of the Sikh community).
  15 जून को **अकाल तख्त** के सिख धर्मगुरुओं ने श्री **मान** को **गुरु दोखी** (गुरु का विश्वासघाती) और **खालसा पंथ विरोधी** (सिख समुदाय का विरोधी) घोषित किया था।

'For political benefit'
'राजनीतिक लाभ के लिए'

- "For the past several days, a **fake** and **fabricated video** of mine has been circulated repeatedly.
  "पिछले कई दिनों से मेरा **फर्जी** और **गढ़ा हुआ वीडियो** बार-बार प्रसारित किया जा रहा है।"
- Religious directives were also issued only to derive **political benefit**," Mr. **Mann** said.
  श्री **मान** ने कहा, "केवल **राजनीतिक लाभ** प्राप्त करने के लिए धार्मिक निर्देश भी जारी किए गए।"

One who holds all things

The tenth of Muharram stands apart in the Islamic calendar. Ashura, derived from the Arabic *ashara* (ten), arrives as both a summons to remembrance and an invitation to gratitude. For Shias, it is a solemn period of mourning. Hussein – Prophet Muhammad's grandson and the third Shia Imam – refused to yield to tyranny and was killed in the Battle of Karbala on this day in 680 CE.

In Sunni tradition, the day is marked by voluntary fasting – an observance that predates the tragedy at Karbala. Prophet Muhammad came upon Jews fasting in Madinah on the day to commemorate the deliverance of the Israelites from Pharaoh (referring to the parting of the Red Sea). He declares that Muslims had greater right to honour Prophet Musa (Moses) and prescribed the fast. Beyond this foundational event confirmed in Sahih al-Bukhari, several divine interventions are associated with Ashura in classical Islamic narrations. Prophet Yunus (Jonah) was freed from the belly of the whale on this day, illustrating the power of sincere repentance. Prophet Adam's transgression was forgiven by Allah, marking the beginning of human redemption. Prophet Ibrahim (Abraham) was cast into a massive fire by King Nimrod, and emerged unharmed through Allah's command - an outcome symbolising unwavering faith. Prophet Ayyub (Job)'s affliction was cured after years of trial and tribulation – the ultimate reward for *sabr* (steadfast patience).Ashura reminds the faithful of one constant: that no trial is final. Every Prophet tested was ultimately upheld – not just by their own strength, but by the mercy of the One who holds all things.

Mohammed Hidhayat

26J6. One who holds all things
वह जो समस्त सृष्टि को धारण करता है

- The **tenth of Muharram** stands apart in the **Islamic calendar**.

मुहर्रम की **दसवीं तारीख इस्लामी कैलेंडर** में विशेष महत्व रखती है।

- **Ashura**, derived from the Arabic **ashara (ten)**, arrives as both a summons to remembrance and an invitation to gratitude.

आशूरा, जो अरबी शब्द **अशरा (दस)** से निकला है, स्मरण का आह्वान और कृतज्ञता व्यक्त करने का अवसर दोनों लेकर आता है।

- For **Shias**, it is a solemn period of mourning.

शिया मुसलमानों के लिए यह गहरे शोक का समय होता है।

- **Hussein** — **Prophet Muhammad's** grandson and the **third Shia Imam** — refused to yield to tyranny and was killed in the **Battle of Karbala** on this day in **680 CE**.

हुसैन — **पैगंबर मुहम्मद** के नवासे और **तीसरे शिया इमाम** — ने अत्याचार के

सामने झुकने से इनकार किया और **680 ईस्वी** में इसी दिन **कर्बला के युद्ध** में शहीद हुए।

- In **Sunni** tradition, the day is marked by **voluntary fasting** — an observance that predates the tragedy at **Karbala**.
  सुन्नी परंपरा में यह दिन **स्वैच्छिक रोज़ा** रखकर मनाया जाता है, जो **कर्बला** की त्रासदी से भी पहले की परंपरा है।
- **Prophet Muhammad** came upon **Jews** fasting in **Madinah** on the day to commemorate the deliverance of the **Israelites** from **Pharaoh** (referring to the parting of the **Red Sea**).
  पैगंबर मुहम्मद ने **मदीना** में **यहूदियों** को इस दिन रोज़ा रखते देखा, जो **इस्राएलियों** को **फ़िरऔन** से मुक्ति मिलने (अर्थात **लाल सागर** के विभाजन) की स्मृति में रखा जाता था।
- He declares that **Muslims** had greater right to honour **Prophet Musa (Moses)** and prescribed the fast.
  उन्होंने कहा कि **मुसलमानों** को **हज़रत मूसा (मूसा अलैहिस्सलाम)** का सम्मान करने का अधिक अधिकार है और उन्होंने इस दिन रोज़ा रखने का निर्देश दिया।
- Beyond this foundational event confirmed in **Sahih al-Bukhari**, several divine interventions are associated with **Ashura** in classical Islamic narrations.
  सहीह अल-बुखारी में वर्णित इस मूल घटना के अतिरिक्त, पारंपरिक इस्लामी वर्णनों में **आशूरा** के दिन कई दिव्य घटनाओं का भी उल्लेख मिलता है।
- **Prophet Yunus (Jonah)** was freed from the belly of the whale on this day, illustrating the power of sincere repentance.
  हज़रत यूनुस (यूनुस अलैहिस्सलाम) को इसी दिन मछली के पेट से मुक्ति मिली, जो सच्चे पश्चाताप की शक्ति को दर्शाती है।
- **Prophet Adam's** transgression was forgiven by **Allah**, marking the beginning of human redemption.
  हज़रत आदम की त्रुटि को **अल्लाह** ने क्षमा किया, जिससे मानव मुक्ति की शुरुआत हुई।
- **Prophet Ibrahim (Abraham)** was cast into a massive fire by **King Nimrod**, and emerged unharmed through **Allah's** command – an outcome symbolising unwavering faith.
  हज़रत इब्राहीम (इब्राहीम अलैहिस्सलाम) को **राजा निमरोद** ने विशाल अग्नि में डलवा दिया, लेकिन **अल्लाह** के आदेश से वे सुरक्षित बाहर निकल आए, जो अटूट आस्था का प्रतीक है।
- **Prophet Ayyub (Job)'s** affliction was cured after years of trial and tribulation — the ultimate reward for **sabr (steadfast patience)**.
  हज़रत अय्यूब (अय्यूब अलैहिस्सलाम) की वर्षों की कठिन परीक्षा और कष्ट के बाद बीमारी दूर हुई, जो **सब्र (अटल धैर्य)** का सर्वोच्च प्रतिफल था।
- **Ashura** reminds the faithful of one constant: that no trial is final.
  आशूरा ईमान वालों को यह स्थायी सत्य याद दिलाता है कि कोई भी परीक्षा अंतिम नहीं होती।
- Every **Prophet** tested was ultimately upheld — not just by their own strength, but by the mercy of the **One who holds all things**.
  हर **पैगंबर**, जिसकी परीक्षा ली गई, अंततः सफल हुआ — केवल अपनी शक्ति से नहीं, बल्कि **उस ईश्वर की दया** से, **जो समस्त सृष्टि को धारण करता है**।

Revisiting India's ultrasound laws

Technological shifts and rising need for community-based cancer screening suggest that regulatory frameworks should adapt to distinguish between different use cases of ultrasound. An amendment to the PCPNDT Act could legalise community-based ultrasound using a high-frequency linear probe, as it will not impact sex determination

GS I: Society

FULL CONTEXT

Parth Sharma
Senthil Kumar A.R.

Mrs. Janki (name changed), a 45-year-old woman, came to a health camp organised in rural Assam with a complaint of a painless breast lump. She had noticed the lump three months earlier and reported that it had gradually increased in size. On examination, the doctor suspected breast cancer and advised her to visit a cancer hospital located two hours away for further evaluation.

"But I have no pain. The hospital is so far away. There is nobody to come with me to the hospital," Mrs. Janki said. Despite repeated counselling, she refused to seek further care.

Three months later, Janki finally presented to the hospital. By then, she had developed a large, bleeding mass in her breast. She was diagnosed with advanced stage breast cancer and died six months later.

Technological advances, like portable ultrasound machines, have made it possible to bring cancer diagnostics, such as ultrasound imaging and ultrasound-guided biopsies, closer to people's homes. This machine could, perhaps, have given Mrs. Janaki a diagnosis at her doorstep. However, India's Pre-Conception and Pre-Natal Diagnostic Techniques (PCPNDT) Act treats the movement of an ultrasound machine outside a registered facility as a serious offence, with penalties that can include a minimum of three months' non-bailable imprisonment.

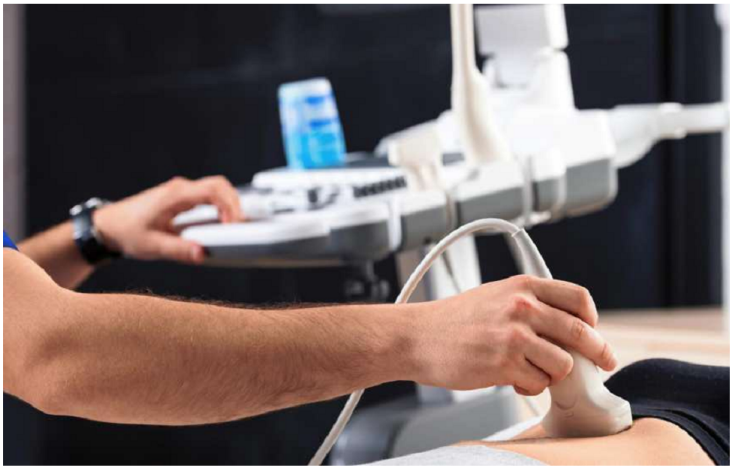
Provisions of the PCPNDT Act

The PCPNDT Act was introduced in 1994 in response to a sharp decline in the child sex ratio in India, driven by a strong societal preference for male children and the growing misuse of technologies such as ultrasonography for prenatal sex determination, followed by selective abortion of female foetuses. Abortion of female foetuses became more evident from the 1980s, with the increasing availability of imaging technologies, raising serious ethical, demographic, and public health concerns. The legislation, therefore, aimed not only to prevent the misuse of medical technology but also to address the deeper issue of gender discrimination.

The law mandates registration of all genetic clinics, ultrasound centres, and laboratories and strictly prohibits the communication or disclosure of the sex of the foetus. It prescribes detailed record-keeping, monitoring mechanisms, and penalties to ensure compliance.

Under this Act, the purchase of an ultrasound machine is not a routine commercial transaction but a tightly-regulated process. A clinic or hospital must first be registered with the district government as a genetic clinic or imaging centre before acquiring a machine. Purchasing one without prior registration is illegal. Manufacturers or dealers are required to verify the buyer's credentials and obtain a written undertaking that the machine will not be used for sex determination. The sale must be documented with invoice details that match the registered centre, and the transaction is reported to the authorities for monitoring.

Once installed, the machine must remain at the approved location, its details must be recorded in official registers, and strict documentation, including patient records for every scan, must be maintained.



Expanding access: Portable, handheld ultrasound devices can make it technically feasible to bring diagnostic services closer to patients' homes. GETTY IMAGES

Impact of PCPNDT Act

Following the introduction of the PCPNDT Act, the sex ratio at birth in India has shown a gradual improvement at the national level. While this improvement cannot be conclusively attributed to the introduction of the Act, several unintended consequences can be directly attributed to it.

Evidence suggests that families whose first child is a girl tend to have more children in an effort to have a son, compared to families with a firstborn boy. Following restrictions on prenatal sex selection, families experienced a 25% higher child mortality rate among firstborn girls relative to firstborn boys. This could be explained by the decline in parental investment in health, particularly among girls. Fertility also increased in these families, indicating a shift toward having more children when sex selection was not an option. Having a larger number of children also led to dilution of resources, likely reducing overall investment per child. Similar patterns were observed in education as gender disparities widened. These effects were more pronounced among poorer, rural households that were more affected by the restrictions, as they could not afford illegal services to abort the child.

Recent reports indicate that sex-selective practices continue despite decades of legal prohibition. In October 2025, authorities uncovered an illegal racket in Karnataka where organised networks were carrying out prenatal sex determination and facilitating abortions, often targeting vulnerable women from rural areas. Similar crackdowns across different States show that such activities are frequently conducted outside formal health systems, using portable ultrasound devices, informal providers, and covert arrangements to evade regulation.

The issue is not confined to India. Reports from the United Kingdom indicates that son preference may persist among some diaspora communities as well. Reports have also raised concerns that families of Indian origin may be engaging in sex-selective practices even in settings with stricter oversight, highlighting the deep-rooted nature of gender bias that transcends national boundaries.

Taken together, these patterns underscore a critical limitation of legislative approaches. While laws such as the PCPNDT Act establish an essential regulatory framework, they are insufficient on their own to drive social change.

The case for reform

Available evidence suggests that the PCPNDT Act has not fully achieved its intended objectives and may, in some contexts, have had unintended adverse effects. Additionally, fear of legal repercussions and stringent regulatory requirements has had a chilling effect on service provision.

Moreover, The PCPNDT Act has not kept pace with advances in ultrasound technology. Portable, handheld ultrasound devices, often connected to smartphones or tablets, make it technically feasible to bring diagnostic services closer to patients' homes, which is particularly relevant for early cancer detection in underserved areas. However, the use of such devices at the community level is currently illegal in India.

Modern high-frequency probes used for applications such as cancer detection and the assessment of other superficial conditions cannot be used for foetal sex determination, yet remain subject to the same regulatory restrictions, limiting access to essential diagnostic care.

Recent developments in artificial intelligence (AI) further strengthen the case for a more nuanced regulatory approach. AI-enabled ultrasound systems can assist with image acquisition and interpretation, and in some configurations generate automated reports based on pattern recognition without requiring full image storage or display. Such technologies could enable safe, purpose-specific use of ultrasound for diagnostic applications while substantially reducing the risk of misuse for foetal sex determination.

Recent research has also demonstrated the potential of AI in improving access to reliable ultrasonography. In a pilot study, portable ultrasound scans performed by individuals with minimal training were combined with AI to identify suspicious breast lesions with high accuracy, correctly flagging all confirmed cancer cases. This suggests that AI-assisted ultrasound could enable frontline health workers to assess patients with breast lumps, refer those with suspicious findings for further evaluation, and reassure those with benign conditions.

For countries such as India, where access to specialist radiologists and diagnostic imaging remains uneven, especially in rural areas where nearly 70% of the population resides, such innovations could substantially improve the timely assessment and treatment of symptomatic patients. Earlier diagnosis and referral have the potential to reduce breast cancer mortality while expanding access to care in rural and underserved areas. This contrasts with many Western countries, where breast cancer control strategies rely more heavily on mammographic screening programmes that detect tumours before symptoms appear but require considerably greater resources and infrastructure.

Serving a greater need

These technological shifts and the rising need for community-based cancer screening in view of the high cancer burden in India suggest that regulatory frameworks need to adapt to distinguish between different use cases of ultrasound. An amendment to the Act could make community-based ultrasound using a high-frequency linear probe legal, as it will not impact sex determination. Additionally, the Act should incorporate provisions addressing emerging technologies, including AI-enabled and safeguarded USG imaging systems designed to prevent the determination or disclosure of foetal sex, irrespective of intent.

(Dr. Parth Sharma is a community physician working in the department of preventive oncology and public health at Cachar Cancer Hospital and Research Centre. Dr. Senthil Kumar A.R. is a consultant radiologist and former director of the department of radiology, Aberdeen Royal Infirmary, U.K. Views are personal.)

THE GIST

- The PCPNDT Act was introduced in 1994 to curb prenatal sex determination and the selective abortion of female foetuses in response to a declining child sex ratio.
- The law has not kept pace with advances in ultrasound technology, including portable handheld devices that can bring diagnostic services closer to patients' homes.
- For countries such as India, where access to specialist radiologists and diagnostic imaging remains uneven, such innovation could aid early cancer detection, particularly in underserved areas.

26J6. Revisiting India's ultrasound laws
भारत के अल्ट्रासाउंड कानूनों की पुनर्समीक्षा

- Technological shifts and rising need for **community-based cancer screening** suggest that regulatory frameworks should adapt to distinguish between different use cases of **ultrasound**.

तकनीकी परिवर्तनों और **सामुदायिक स्तर पर कैंसर जांच (Community-based Cancer Screening)** की बढ़ती आवश्यकता यह संकेत देती है कि नियामक ढाँचे को **अल्ट्रासाउंड (Ultrasound)** के विभिन्न उपयोगों के बीच अंतर करने के लिए अनुकूलित किया जाना चाहिए।

- An amendment to the **PCPNDT Act** could legalize community-based ultrasound using a **high-frequency linear probe**, as it will not impact **sex determination**.
  PCPNDT अधिनियम में संशोधन करके **उच्च-आवृत्ति वाले लीनियर प्रोब (High-Frequency Linear Probe)** के माध्यम से सामुदायिक स्तर पर अल्ट्रासाउंड को वैध बनाया जा सकता है, क्योंकि इससे **लिंग निर्धारण (Sex Determination)** प्रभावित नहीं होगा।
- Mrs. **Janki** (name changed), a **45-year-old** woman, came to a health camp organised in **rural Assam** with a complaint of a painless **breast lump**.
  जांकी (बदला हुआ नाम), **45 वर्षीय** महिला, **ग्रामीण असम** में आयोजित एक स्वास्थ्य शिविर में बिना दर्द वाली **स्तन की गाँठ (Breast Lump)** की शिकायत लेकर आई।
- She had noticed the lump three months earlier and reported that it had gradually increased in size.
  उन्होंने तीन महीने पहले इस गाँठ को महसूस किया था और बताया कि इसका आकार धीरे-धीरे बढ़ता गया।
- On examination, the doctor suspected **breast cancer** and advised her to visit a **cancer hospital** located two hours away for further evaluation.
  जाँच के दौरान डॉक्टर को **स्तन कैंसर (Breast Cancer)** की आशंका हुई और उन्होंने आगे की जाँच के लिए दो घंटे दूर स्थित **कैंसर अस्पताल (Cancer Hospital)** जाने की सलाह दी।
- "But I have no pain. The hospital is so far away. There is nobody to come with me to the hospital," Mrs. Janki said.
  "लेकिन मुझे कोई दर्द नहीं है। अस्पताल बहुत दूर है। मेरे साथ अस्पताल जाने वाला भी कोई नहीं है," श्रीमती जांकी ने कहा।
- Despite repeated counselling, she refused to seek further care.
  बार-बार परामर्श दिए जाने के बावजूद उन्होंने आगे उपचार कराने से इनकार कर दिया।
- Three months later, Janki finally presented to the hospital.
  तीन महीने बाद अंततः जांकी अस्पताल पहुँचीं।
- By then, she had developed a large, bleeding mass in her breast.
  तब तक उनके स्तन में एक बड़ी और रक्तस्राव करने वाली गाँठ विकसित हो चुकी थी।
- She was diagnosed with **advanced stage breast cancer** and died six months later.
  उनमें **उन्नत अवस्था के स्तन कैंसर (Advanced Stage Breast Cancer)** का निदान हुआ और छह महीने बाद उनकी मृत्यु हो गई।
- Technological advances, like **portable ultrasound machines**, have made it possible to bring **cancer diagnostics**, such as **ultrasound imaging** and **ultrasound-guided biopsies**, closer to people's homes.
  पोर्टेबल अल्ट्रासाउंड मशीनों (Portable Ultrasound Machines) जैसी तकनीकी प्रगति ने **कैंसर निदान (Cancer Diagnostics)**, जैसे **अल्ट्रासाउंड इमेजिंग (Ultrasound Imaging)** और **अल्ट्रासाउंड-निर्देशित बायोप्सी (Ultrasound-Guided Biopsies)**, को लोगों के घरों के अधिक निकट पहुँचाना संभव बना दिया है।
- This machine could, perhaps, have given Mrs. Janaki a diagnosis at her doorstep.
  संभवतः यह मशीन श्रीमती जांकी को उनके घर पर ही रोग का निदान उपलब्ध करा सकती थी।
- However, India's **Pre-Conception and Pre-Natal Diagnostic Techniques (PCPNDT) Act** treats the movement of an **ultrasound machine** outside a registered facility as a serious offence, with penalties that can include a minimum of **three months' non-bailable imprisonment**.
  हालाँकि, भारत का **गर्भाधान-पूर्व एवं प्रसव-पूर्व निदान तकनीक (PCPNDT) अधिनियम** किसी पंजीकृत केंद्र के बाहर **अल्ट्रासाउंड मशीन** ले जाने को एक गंभीर अपराध मानता है, जिसकी सज़ा में न्यूनतम **तीन महीने का गैर-जमानती कारावास (Non-Bailable Imprisonment)** भी शामिल हो सकता है।

Provisions of the PCPNDT Act
PCPNDT अधिनियम के प्रावधान

- The **PCPNDT Act** was introduced in **1994** in response to a sharp decline in the **child sex ratio** in India, driven by a strong societal preference for **male children** and the growing misuse of technologies such as **ultrasonography** for **prenatal sex determination**, followed by selective abortion of **female foetuses**.
  PCPNDT अधिनियम को **1994** में भारत में **बाल लिंगानुपात (Child Sex Ratio)** में तेज़ गिरावट के जवाब में लागू किया गया था, जिसका कारण **पुत्र वरीयता (Male Children Preference)** और **अल्ट्रासोनोग्राफी (Ultrasonography)** जैसी तकनीकों का **जन्मपूर्व लिंग निर्धारण (Prenatal Sex Determination)** तथा उसके बाद **महिला भ्रूण (Female Foetuses)** के चयनात्मक गर्भपात के लिए बढ़ता दुरुपयोग था।
- Abortion of **female foetuses** became more evident from the **1980s**, with the increasing availability of imaging technologies, raising serious **ethical**, **demographic**, and **public health** concerns.
  1980 के दशक से **महिला भ्रूणों (Female Foetuses)** के गर्भपात की घटनाएँ अधिक स्पष्ट होने लगीं, क्योंकि इमेजिंग तकनीकों की उपलब्धता बढ़ी, जिससे गंभीर **नैतिक (Ethical)**, **जनसांख्यिकीय (Demographic)** और **सार्वजनिक स्वास्थ्य (Public Health)** संबंधी चिंताएँ उत्पन्न हुईं।
- The legislation, therefore, aimed not only to prevent the misuse of medical technology but also to address the deeper issue of **gender discrimination**.
  इसलिए इस कानून का उद्देश्य केवल चिकित्सा तकनीक के दुरुपयोग को रोकना नहीं था, बल्कि **लैंगिक भेदभाव (Gender Discrimination)** की गहरी समस्या का समाधान करना भी था।
- The law mandates registration of all **genetic clinics**, **ultrasound centres**, and **laboratories** and strictly prohibits the communication or disclosure of the **sex of the foetus**.
  यह कानून सभी **जेनेटिक क्लीनिक (Genetic Clinics)**, **अल्ट्रासाउंड केंद्रों (Ultrasound Centres)** और **प्रयोगशालाओं (Laboratories)** के पंजीकरण को अनिवार्य बनाता है तथा **भ्रूण के लिंग (Sex of the Foetus)** की जानकारी देना या प्रकट करना सख्ती से प्रतिबंधित करता है।
- It prescribes detailed **record-keeping**, **monitoring mechanisms**, and **penalties** to ensure compliance.
  अनुपालन सुनिश्चित करने के लिए इसमें विस्तृत **अभिलेख-रखरखाव (Record-Keeping)**, **निगरानी तंत्र (Monitoring Mechanisms)** और **दंड (Penalties)** का प्रावधान किया गया है।
- Under this Act, the purchase of an **ultrasound machine** is not a routine commercial transaction but a tightly-regulated process.
  इस अधिनियम के अंतर्गत **अल्ट्रासाउंड मशीन** की खरीद कोई सामान्य व्यावसायिक लेन-देन नहीं, बल्कि एक कड़े नियमन वाली प्रक्रिया है।
- A clinic or hospital must first be registered with the **district government** as a **genetic clinic** or **imaging centre** before acquiring a machine.
  किसी मशीन को खरीदने से पहले किसी क्लीनिक या अस्पताल को **जिला सरकार** के साथ **जेनेटिक क्लीनिक** या **इमेजिंग केंद्र (Imaging Centre)** के रूप में पंजीकृत होना आवश्यक है।
- Purchasing one without prior registration is illegal.
  पूर्व पंजीकरण के बिना ऐसी मशीन खरीदना अवैध है।
- Manufacturers or dealers are required to verify the buyer's credentials and obtain a written undertaking that the machine will not be used for **sex determination**.
  निर्माताओं या विक्रेताओं के लिए खरीदार की पात्रता की जाँच करना और यह लिखित आश्वासन लेना अनिवार्य है कि मशीन का उपयोग **लिंग निर्धारण (Sex Determination)** के लिए नहीं किया जाएगा।
- The sale must be documented with invoice details that match the registered centre, and the transaction is reported to the authorities for monitoring.
  बिक्री का पूरा रिकॉर्ड ऐसे चालान (Invoice) के साथ रखा जाना चाहिए जिसकी जानकारी पंजीकृत केंद्र से मेल खाती हो, तथा इस लेन-देन की सूचना निगरानी के लिए संबंधित अधिकारियों को दी जाती है।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- Once installed, the machine must remain at the approved location, its details must be recorded in official registers, and strict documentation,
  एक बार स्थापित होने के बाद मशीन को स्वीकृत स्थान पर ही रखा जाना चाहिए, उसका विवरण आधिकारिक अभिलेखों में दर्ज होना चाहिए, और कड़े **दस्तावेज़ीकरण (Documentation)** का पालन किया जाना चाहिए।

Impact of PCPNDT Act
PCPNDT अधिनियम का प्रभाव

- including **patient records** for every scan, must be maintained.
  प्रत्येक स्कैन के लिए **रोगी अभिलेख (Patient Records)** सहित सभी रिकॉर्ड सुरक्षित रखे जाने चाहिए।
- Following the introduction of the **PCPNDT Act**, the **sex ratio at birth** in India has shown a gradual improvement at the national level.
  PCPNDT अधिनियम लागू होने के बाद भारत में **जन्म के समय लिंगानुपात (Sex Ratio at Birth)** में राष्ट्रीय स्तर पर धीरे-धीरे सुधार देखने को मिला है।
- While this improvement cannot be conclusively attributed to the introduction of the Act, several unintended consequences can be directly attributed to it.
  यद्यपि इस सुधार का पूरा श्रेय निश्चित रूप से इस अधिनियम को नहीं दिया जा सकता, फिर भी इसके कई **अनपेक्षित परिणाम (Unintended Consequences)** सीधे इससे जुड़े हुए हैं।
- Evidence suggests that families whose first child is a **girl** tend to have more children in an effort to have a **son**, compared to families with a firstborn **boy**.
  साक्ष्य बताते हैं कि जिन परिवारों की पहली संतान **लड़की** होती है, वे **लड़का** पाने के प्रयास में पहली संतान **लड़का** होने वाले परिवारों की तुलना में अधिक बच्चे पैदा करते हैं।
- Following restrictions on **prenatal sex selection**, families experienced a **25% higher child mortality rate** among firstborn girls relative to firstborn boys.
  जन्मपूर्व लिंग चयन (Prenatal Sex Selection) पर प्रतिबंध लगाए जाने के बाद, पहली संतान के रूप में जन्मी लड़कियों में पहली संतान लड़कों की तुलना में **25% अधिक बाल मृत्यु दर (Child Mortality Rate)** देखी गई।
- This could be explained by the decline in **parental investment** in health, particularly among girls.
  इसे विशेषकर लड़कियों के स्वास्थ्य पर **माता-पिता के निवेश (Parental Investment)** में कमी से समझाया जा सकता है।
- Fertility also increased in these families, indicating a shift toward having more children when sex selection was not an option.
  इन परिवारों में **प्रजनन दर (Fertility)** भी बढ़ गई, जिससे यह संकेत मिलता है कि जब लिंग चयन संभव नहीं रहा तो अधिक बच्चे पैदा करने की प्रवृत्ति बढ़ी।
- Having a larger number of children also led to dilution of resources, likely reducing overall investment per child.
  अधिक बच्चों के होने से संसाधनों का बँटवारा हुआ, जिससे प्रत्येक बच्चे पर कुल निवेश कम होने की संभावना रही।
- Similar patterns were observed in **education** as **gender disparities** widened.
  शिक्षा (Education) के क्षेत्र में भी ऐसे ही रुझान देखे गए, जहाँ **लैंगिक असमानताएँ (Gender Disparities)** बढ़ गईं।
- These effects were more pronounced among poorer, rural households that were more affected by the restrictions, as they could not afford illegal services to abort the child.
  ये प्रभाव गरीब और ग्रामीण परिवारों में अधिक स्पष्ट थे, क्योंकि वे गर्भपात के लिए अवैध सेवाओं का खर्च नहीं उठा सकते थे।
- Recent reports indicate that **sex-selective practices** continue despite decades of legal prohibition.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

हाल की रिपोर्टें बताती हैं कि दशकों से कानूनी प्रतिबंध होने के बावजूद **लिंग-चयन संबंधी प्रथाएँ (Sex-Selective Practices)** अब भी जारी हैं।

- In **October 2025**, authorities uncovered an illegal racket in **Karnataka** where organised networks were carrying out **prenatal sex determination** and facilitating abortions, often targeting vulnerable women from rural areas.
  अक्टूबर 2025 में अधिकारियों ने **कर्नाटक** में एक अवैध गिरोह का पर्दाफाश किया, जहाँ संगठित नेटवर्क **जन्मपूर्व लिंग निर्धारण (Prenatal Sex Determination)** और गर्भपात कराने का कार्य कर रहे थे तथा अक्सर ग्रामीण क्षेत्रों की कमजोर महिलाओं को निशाना बना रहे थे।
- Similar crackdowns across different **States** show that such activities are frequently conducted outside formal health systems, using **portable ultrasound devices**, informal providers, and covert arrangements to evade regulation.
  विभिन्न **राज्यों** में हुई इसी प्रकार की कार्रवाई से पता चलता है कि ऐसी गतिविधियाँ अक्सर औपचारिक स्वास्थ्य व्यवस्था के बाहर **पोर्टेबल अल्ट्रासाउंड उपकरणों (Portable Ultrasound Devices)**, अनौपचारिक सेवा प्रदाताओं तथा गुप्त व्यवस्थाओं के माध्यम से संचालित की जाती हैं ताकि नियमों से बचा जा सके।
- The issue is not confined to **India**.
  यह समस्या केवल **भारत** तक सीमित नहीं है।
- Reports from the **United Kingdom** indicates that **son preference** may persist among some diaspora communities as well.
  यूनाइटेड किंगडम की रिपोर्टें संकेत देती हैं कि कुछ प्रवासी समुदायों में भी **पुत्र वरीयता (Son Preference)** बनी हुई है।
- Reports have also raised concerns that families of **Indian origin** may be engaging in **sex-selective practices** even in settings with stricter oversight, highlighting the deep-rooted nature of **gender bias** that transcends national boundaries.
  रिपोर्टों में यह चिंता भी व्यक्त की गई है कि **भारतीय मूल (Indian Origin)** के कुछ परिवार कड़ी निगरानी वाले देशों में भी **लिंग-चयन संबंधी प्रथाओं** में शामिल हो सकते हैं, जो राष्ट्रीय सीमाओं से परे फैले गहरे **लैंगिक पूर्वाग्रह (Gender Bias)** को दर्शाता है।
- Taken together, these patterns underscore a critical limitation of legislative approaches.
  इन सभी रुझानों से यह स्पष्ट होता है कि केवल विधायी उपायों की एक महत्वपूर्ण सीमा है।
- While laws such as the **PCPNDT Act** establish an essential regulatory framework, they are insufficient on their own to drive social change.
  यद्यपि **PCPNDT अधिनियम** जैसे कानून एक आवश्यक नियामक ढाँचा प्रदान करते हैं, लेकिन अकेले वे सामाजिक परिवर्तन लाने के लिए पर्याप्त नहीं हैं।

The case for reform
सुधार की आवश्यकता

- Available evidence suggests that the **PCPNDT Act** has not fully achieved its intended objectives and may, in some contexts, have had unintended adverse effects.
  उपलब्ध साक्ष्य बताते हैं कि **PCPNDT अधिनियम** अपने सभी उद्देश्यों को पूरी तरह प्राप्त नहीं कर पाया है और कुछ परिस्थितियों में इसके **अनपेक्षित प्रतिकूल प्रभाव (Unintended Adverse Effects)** भी पड़े हैं।
- Additionally, fear of **legal repercussions** and stringent regulatory requirements has had a chilling effect on service provision.
  इसके अतिरिक्त **कानूनी परिणामों (Legal Repercussions)** के भय और कड़े नियामक प्रावधानों ने सेवाओं के प्रावधान पर नकारात्मक प्रभाव डाला है।
- Moreover, the **PCPNDT Act** has not kept pace with advances in **ultrasound technology**.
  इसके अलावा **PCPNDT अधिनियम अल्ट्रासाउंड तकनीक (Ultrasound Technology)** में हुए विकास के अनुरूप स्वयं को अद्यतन नहीं कर पाया है।

- Portable, handheld **ultrasound devices**, often connected to **smartphones** or **tablets**, make it technically feasible to bring diagnostic services closer to patients' homes, which is particularly relevant for early **cancer detection** in underserved areas.
  पोर्टेबल, हाथ में पकड़े जाने वाले **अल्ट्रासाउंड उपकरण (Ultrasound Devices)**, जो अक्सर **स्मार्टफोन** या **टैबलेट** से जुड़े होते हैं, तकनीकी रूप से यह संभव बनाते हैं कि रोग-निदान सेवाएँ मरीजों के घरों तक पहुँच सकें, जो विशेष रूप से कम सुविधाओं वाले क्षेत्रों में **कैंसर की प्रारंभिक पहचान (Cancer Detection)** के लिए महत्वपूर्ण है।
- However, the use of such devices at the **community level** is currently illegal in India.
  हालाँकि, ऐसे उपकरणों का **सामुदायिक स्तर (Community Level)** पर उपयोग वर्तमान में भारत में अवैध है।
- Modern **high-frequency probes** used for applications such as **cancer detection** and the assessment of other superficial conditions cannot be used for **foetal sex determination**, yet remain subject to the same regulatory restrictions, limiting access to essential diagnostic care.
  कैंसर की पहचान (Cancer Detection) और अन्य सतही रोगों के परीक्षण में प्रयुक्त आधुनिक **उच्च-आवृत्ति प्रोब (High-Frequency Probes)** का उपयोग **भ्रूण के लिंग निर्धारण (Foetal Sex Determination)** के लिए नहीं किया जा सकता, फिर भी वे समान नियामक प्रतिबंधों के अधीन हैं, जिससे आवश्यक निदान सेवाओं तक पहुँच सीमित हो जाती है।
- Recent developments in **artificial intelligence (AI)** further strengthen the case for a more nuanced regulatory approach.
  कृत्रिम बुद्धिमत्ता (Artificial Intelligence - AI) में हाल के विकास अधिक संतुलित और सूक्ष्म नियामक दृष्टिकोण की आवश्यकता को और मजबूत करते हैं।
- **AI-enabled ultrasound systems** can assist with image acquisition and interpretation, and in some configurations generate automated reports based on pattern recognition without requiring full image storage or display.
  AI-सक्षम अल्ट्रासाउंड प्रणालियाँ (AI-enabled Ultrasound Systems) चित्र प्राप्त करने और उनकी व्याख्या करने में सहायता कर सकती हैं तथा कुछ व्यवस्थाओं में पूर्ण चित्र संग्रहित या प्रदर्शित किए बिना पैटर्न पहचान के आधार पर स्वचालित रिपोर्ट भी तैयार कर सकती हैं।
- Such technologies could enable safe, purpose-specific use of **ultrasound** for diagnostic applications while substantially reducing the risk of misuse for **foetal sex determination**.
  ऐसी तकनीकें **अल्ट्रासाउंड** का सुरक्षित और उद्देश्य-विशिष्ट निदान उपयोग संभव बना सकती हैं तथा **भ्रूण के लिंग निर्धारण** के लिए इसके दुरुपयोग के जोखिम को काफी हद तक कम कर सकती हैं।
- Recent research has also demonstrated the potential of **AI** in improving access to reliable **ultrasonography**.
  हाल के शोधों ने विश्वसनीय **अल्ट्रासोनोग्राफी (Ultrasonography)** तक पहुँच बढ़ाने में **AI** की क्षमता भी प्रदर्शित की है।
- In a pilot study, portable ultrasound scans performed by individuals with minimal training were combined with **AI** to identify suspicious **breast lesions** with high accuracy, correctly flagging all confirmed **cancer cases**.
  एक पायलट अध्ययन में कम प्रशिक्षण प्राप्त व्यक्तियों द्वारा किए गए पोर्टेबल अल्ट्रासाउंड स्कैन को **AI** के साथ जोड़कर संदिग्ध **स्तन घावों (Breast Lesions)** की उच्च सटीकता से पहचान की गई और सभी पुष्टि किए गए **कैंसर मामलों (Cancer Cases)** को सही ढंग से चिह्नित किया गया।
- This suggests that **AI-assisted ultrasound** could enable frontline health workers to assess patients with **breast lumps**, refer those with suspicious findings for further evaluation, and reassure those with benign conditions.
  इससे संकेत मिलता है कि **AI-सहायित अल्ट्रासाउंड (AI-assisted Ultrasound)** अग्रिम पंक्ति के स्वास्थ्यकर्मियों को **स्तन की गाँठ (Breast Lump)** वाले मरीजों का मूल्यांकन करने, संदिग्ध मामलों को आगे की जाँच के लिए भेजने तथा सामान्य रोगियों को आश्वस्त करने में सक्षम बना सकता है।

- For countries such as **India**, where access to specialist **radiologists** and diagnostic imaging remains uneven, especially in rural areas where nearly **70%** of the population resides, such innovations could substantially improve the timely assessment and treatment of symptomatic patients.
  भारत जैसे देशों में, जहाँ विशेषज्ञ **रेडियोलॉजिस्ट (Radiologists)** और निदान इमेजिंग तक पहुँच असमान है, विशेषकर ग्रामीण क्षेत्रों में जहाँ लगभग **70%** आबादी रहती है, ऐसे नवाचार समय पर रोग मूल्यांकन और उपचार में उल्लेखनीय सुधार ला सकते हैं।
- Earlier diagnosis and referral have the potential to reduce **breast cancer mortality** while expanding access to care in rural and underserved areas.
  शीघ्र निदान और रेफरल से **स्तन कैंसर से होने वाली मृत्यु (Breast Cancer Mortality)** कम की जा सकती है तथा ग्रामीण और वंचित क्षेत्रों में उपचार की पहुँच बढ़ाई जा सकती है।
- This contrasts with many **Western countries**, where breast cancer control strategies rely more heavily on **mammographic screening programmes** that detect tumours before symptoms appear but require considerably greater resources and infrastructure.
  यह स्थिति कई **पश्चिमी देशों (Western Countries)** से भिन्न है, जहाँ **मैमोग्राफिक स्क्रीनिंग कार्यक्रम (Mammographic Screening Programmes)** पर अधिक निर्भरता होती है, जो लक्षण प्रकट होने से पहले ट्यूमर का पता लगा लेते हैं, लेकिन इनके लिए अधिक संसाधन और आधारभूत संरचना की आवश्यकता होती है।

Serving a greater need
एक बड़ी आवश्यकता की पूर्ति

- These technological shifts and the rising need for **community-based cancer screening** in view of the high **cancer burden** in India suggest that regulatory frameworks need to adapt to distinguish between different use cases of **ultrasound**.
  भारत में बढ़ते **कैंसर भार (Cancer Burden)** को देखते हुए ये तकनीकी परिवर्तन और **सामुदायिक स्तर पर कैंसर जांच (Community-based Cancer Screening)** की बढ़ती आवश्यकता यह संकेत देती है कि नियामक ढाँचे को **अल्ट्रासाउंड** के विभिन्न उपयोगों के बीच अंतर करने के लिए अनुकूलित किया जाना चाहिए।
- An amendment to the **Act** could make community-based ultrasound using a **high-frequency linear probe** legal, as it will not impact **sex determination**.
  अधिनियम में संशोधन करके **उच्च-आवृत्ति वाले लीनियर प्रोब (High-Frequency Linear Probe)** के माध्यम से सामुदायिक स्तर पर अल्ट्रासाउंड को वैध बनाया जा सकता है, क्योंकि इससे **लिंग निर्धारण (Sex Determination)** प्रभावित नहीं होगा।
- Additionally, the **Act** should incorporate provisions addressing emerging technologies, including **AI-enabled** and safeguarded **USG imaging systems** designed to prevent the determination or disclosure of **foetal sex**, irrespective of intent.
  इसके अतिरिक्त, **अधिनियम** में उभरती हुई तकनीकों से संबंधित प्रावधान भी शामिल किए जाने चाहिए, जिनमें **AI-सक्षम (AI-enabled)** तथा सुरक्षित **USG इमेजिंग सिस्टम** शामिल हों, जिन्हें किसी भी परिस्थिति में **भ्रूण के लिंग (Foetal Sex)** का निर्धारण या खुलासा रोकने के उद्देश्य से विकसित किया गया हो।

In a first, Swedish Minister brings baby to EU talks

GS I: Society

Agence France Presse
BRUSSELS

Sweden's Environment Minister brought her baby to an EU meeting Thursday, in a barrier-breaking move she showed it was possible to be both "a present Minister and a present mother".

Romina Pourmokhtari arrived at the ministerial talks in Luxembourg with her three-month-old son, Adam, in a sling with a pram-pushing aide in tow – becoming the latest public figure to shake up conventions around motherhood and work.

"Happy also to be an example of not having to choose between being a present Minister and a present mother," the 30-year-old told journalists as Adam rested on her chest.

Her French colleague Monique Barbut promptly gave her a baby gift. An EU official said it was thought to be the first time a baby was brought to one of the bloc's ministerial meetings.

Mothers are particularly affected by the challenge of juggling work and childcare, with studies showing women tend to miss out on promotions, career opportunities and higher earnings after having a child. In a bid to make the lives of female lawmakers easier, the European Parliament recently changed its internal rules to allow new mothers the right to vote by proxy.

Ms. Pourmokhtari is not the first politician to highlight maternity struggles. In 2018 former New Zealand leader Jacinda Ardern won accolades for bringing her three-month-old daughter, Neve, to the United Nations General Assembly in the first such appearance by a baby in the organisation's history. A year earlier Larissa Waters made Australian political history by becoming the first woman to nurse her newborn baby in the nation's Parliament.

26J6. In a first, Swedish Minister brings baby to EU talks

पहली बार, स्वीडन की मंत्री अपने शिशु को यूरोपीय संघ (EU) की बैठक में लेकर पहुँचीं

- **Sweden's Environment Minister** brought her baby to an **EU** meeting Thursday, in a barrier-breaking move she showed it was possible to be both "a present **Minister** and a present **mother**".

स्वीडन की पर्यावरण मंत्री (Sweden's Environment Minister) गुरुवार को अपने शिशु को **यूरोपीय संघ (EU)** की बैठक में लेकर पहुँचीं। इस बाधाओं को तोड़ने वाले कदम के माध्यम से उन्होंने यह दिखाया कि एक साथ एक सक्रिय **मंत्री (Minister)** और एक समर्पित **माँ (Mother)** होना संभव है।

- **Romina Pourmokhtari** arrived at the ministerial talks in **Luxembourg** with her **three-month-old** son, **Adam**, in a sling with a pram-pushing aide in tow — becoming the latest public figure to shake up conventions around **motherhood** and **work**.

रोमिना पूरमोख्तारी (Romina Pourmokhtari) अपने **तीन महीने** के बेटे **एडम (Adam)** को बेबी स्लिंग में लेकर **लक्ज़मबर्ग (Luxembourg)** में आयोजित मंत्रिस्तरीय वार्ता में पहुँचीं, जबकि उनके साथ एक सहायक प्रैम लेकर चल रहा था। इस प्रकार वे **मातृत्व (Motherhood)** और **कार्य (Work)** से जुड़ी पारंपरिक धारणाओं को चुनौती देने वाली नवीनतम सार्वजनिक हस्ती बन गईं।

- "Happy also to be an example of not having to choose between being a present **Minister** and a present **mother**," the **30-year-old** told journalists as **Adam** rested on her chest.

"मुझे इस बात की भी खुशी है कि मैं इस बात का उदाहरण बन सकी कि एक सक्रिय **मंत्री** और एक समर्पित **माँ** होने के बीच किसी एक को चुनना आवश्यक नहीं है," **30 वर्षीय** मंत्री ने पत्रकारों से कहा, जब **एडम** उनकी छाती से लगा हुआ था।

- Her **French** colleague **Monique Barbut** promptly gave her a baby gift.

उनकी **फ्रांसीसी (French)** सहयोगी **मोनिक बारबू (Monique Barbut)** ने उन्हें तुरंत शिशु के लिए एक उपहार दिया।

- An **EU official** said it was thought to be the first time a baby was brought to one of the bloc's ministerial meetings.

एक **EU अधिकारी** ने कहा कि माना जा रहा है कि यह पहली बार है जब किसी शिशु को यूरोपीय संघ की मंत्रिस्तरीय बैठक में लाया गया है।

- **Mothers** are particularly affected by the challenge of juggling **work** and **childcare**, with studies showing women tend to miss out on **promotions**, **career opportunities** and **higher earnings** after having a child.

माताएँ (Mothers) विशेष रूप से **काम (Work)** और **बच्चों की देखभाल (Childcare)** के बीच संतुलन बनाने की चुनौती से प्रभावित होती हैं। अध्ययनों से पता चलता है कि बच्चे के जन्म के बाद महिलाओं को अक्सर **पदोन्नति (Promotions)**, **करियर के अवसर (Career Opportunities)** और **अधिक आय (Higher Earnings)** से वंचित रहना पड़ता है।

PICTURE OF THE WEEK

A swirling vortex in the wild

Spinning top: A rare tornado-like funnel cloud formed amid a sudden downpour near Pudukottai and Vaagaikulam in Thoothukudi district, Tamil Nadu on June 21. The tornado ripped off the roof of a few structures in the mini theme park near the Vaagaikulam toll plaza. However,no fatalities were reported.

188 dead, 1,500 injured in Venezuela earthquakes

Aid on the way from U.S., European countries, UN, says interim leader; India, China offer help

Tremors from the strongest earthquake to hit Venezuela in 126 years felt in Colombia, Brazil

GS I: Geography

Agence France-Presse
LA GUAIRA

A pair of powerful earthquakes that rocked Venezuela have killed at least 188 people and left more than 1,500 hurt, officials said on Thursday as residents searched for loved ones trapped under rubble after many buildings were flattened within minutes.

An international outpouring of aid quickly followed the tremors on Wednesday evening, which the United States Geological Survey (USGS) measured as magnitude 7.2 and 7.5, centred west of the capital Caracas. Tremors from the earthquakes were also felt in neighbouring Colombia and Brazil.

Interim President Delcy Rodriguez said that intense rescue efforts were going on, noting that the State of La Guaira was hit hard.

"Dozens of buildings have collapsed, and we are currently carrying out very intense rescue efforts to save as many lives as God allows us to save," Ms. Rodriguez said on state television on Thursday.

"La Guaira State is a true tragedy, and has become a disaster zone."

The first earthquake, with an epicentre 21 kilometres west of the coastal town of Moron, occurred at 6.04 p.m. local time on Wednesday, the USGS said. Within a minute, a 7.5-magnitude earthquake struck about 45 kilometres away. They struck at depths of 22 kilometres and 10 kilometres, respectively.

Scores of rescuers from the U.S. and several European countries and UN specialists were on their way to help search for survivors, Ms. Rodriguez said while nations including China, India, Brazil, and war-battered Iran offered help. However, threatening to complicate the relief effort, the international airport near Caracas was closed due to "serious damage," she said, with social media videos showing the terminal's ceiling collapsing over travellers.

Lost in seconds: A woman holds a boy near a collapsed building in Caracas, Venezuela, on Thursday following the earthquakes. AFP

Officials were trying to make the most of the daylight hours to rescue people believed to be trapped under the rubble, the Interim President said.

'Big logistical role'

"Deeply saddened by the devastation caused by the severe earthquakes in Venezuela," Prime Minister Narendra Modi said in a statement. "We pray for the speedy recovery of those injured and stand in solidarity with all those affected... India stands ready to extend all possible assistance," he said.

The U.S. "stands ready, willing, and able to help," President Donald Trump said in a social media post.

"We have a whole-of-government response. It will be big, it will be fast, and it will be effective," U.S. Secretary of State Marco Rubio told reporters during a visit to Bahrain, saying his country's military would play a "big logistical role".

Washington is closely involved in oil-rich Venezuela after U.S. forces captured President Nicolas Maduro in January.

The strongest earthquake to hit Venezuela in 126 years will require "massive collective efforts", the United Nations' aid chief Tom Fletcher said in a statement. He said the UN was "fully mobilised" to send aid.

Parts of the capital Caracas lost power and cellphone coverage while subway services were suspended and natural gas shut off, the interim President. Classes will also be canceled for several days, and the Ministry of Education said some school buildings would be used as shelters and donation centers.

On Thursday, the UN human rights mission in Venezuela called on the government to lift local restrictions on social media.

"In the coming hours and days, timely access to reliable information and communication channels will be essential for the protection of the lives, safety, and well-being of the population," the mission said in a statement.

The strongest tremors in earthquake-prone Venezuela's recent history occurred in the northeast in 1997, killing 73 people, and in Caracas in 1967, when 236 people died.

(With inputs from AP and Reuters)

188 dead, 1,500 injured in Venezuela earthquakes
वेनेजुएला में आए भूकंपों में 188 लोगों की मौत, 1,500 घायल

- **'doublet earthquake with the initial 7.2 magnitude quake was closely followed by a stronger 7.5 one.**
  प्रारंभिक 7.2 तीव्रता के 'डबलट भूकंप' के तुरंत बाद 7.5 तीव्रता का उससे भी अधिक शक्तिशाली भूकंप आया।
- **Aid on the way from U.S., European countries, UN, says interim leader; India, China offer help.**
  अंतरिम नेता ने कहा कि अमेरिका, यूरोपीय देशों और संयुक्त राष्ट्र (UN) से सहायता रास्ते में है; भारत और चीन ने भी मदद की पेशकश की है।
- **Tremors from the strongest earthquake to hit Venezuela in 126 years felt in Colombia, Brazil.**
  126 वर्षों में वेनेजुएला में आए सबसे शक्तिशाली भूकंप के झटके कोलंबिया और ब्राज़ील में भी महसूस किए गए।
- A pair of powerful **earthquakes** that rocked **Venezuela** have killed at least **188 people** and left more than **1,500** hurt, officials said on Thursday.
  वेनेजुएला को हिला देने वाले शक्तिशाली **दोहरे भूकंपों** में कम से कम **188 लोगों** की मौत हो गई है और **1,500** से अधिक लोग घायल हुए हैं, अधिकारियों ने गुरुवार को कहा।
- Residents searched for loved ones trapped under **rubble** after many **buildings** were flattened within minutes.
  कई **इमारतों** के कुछ ही मिनटों में धराशायी हो जाने के बाद लोग **मलबे** में फँसे अपने प्रियजनों की तलाश कर रहे थे।
- An international outpouring of **aid** quickly followed the tremors on Wednesday evening, which the **United States Geological Survey (USGS)** measured as magnitude **7.2** and **7.5**, centred west of the capital **Caracas**.
  बुधवार शाम आए झटकों के बाद अंतरराष्ट्रीय **सहायता** तेजी से पहुँचने लगी, जिन्हें **संयुक्त राज्य भूवैज्ञानिक सर्वेक्षण (USGS)** ने **7.2** और **7.5** तीव्रता का मापा, जिनका केंद्र राजधानी **कराकास** के पश्चिम में था।
- **Tremors** from the earthquakes were also felt in neighbouring **Colombia** and **Brazil**.
  इन **भूकंपों के झटके** पड़ोसी **कोलंबिया** और **ब्राज़ील** में भी महसूस किए गए।
- **Interim President Delcy Rodriguez** said that intense **rescue efforts** were going on, noting that the **State of La Guaira** was hit hard.

अंतरिम राष्ट्रपति डेल्सी रोड्रिगेज़ ने कहा कि तेज़ **बचाव अभियान** जारी हैं और **ला गुआइरा राज्य** सबसे अधिक प्रभावित हुआ है।

- "Dozens of **buildings** have collapsed, and we are currently carrying out very intense **rescue efforts** to save as many lives as God allows us to save," Ms. Rodriguez said on state television on Thursday.
  सुश्री रोड्रिगेज़ ने गुरुवार को सरकारी टेलीविजन पर कहा, "दर्जनों **इमारतें** ढह गई हैं, और हम जितनी अधिक जानें ईश्वर की कृपा से बचा सकते हैं, उन्हें बचाने के लिए बेहद तेज़ **बचाव अभियान** चला रहे हैं।"
- "**La Guaira State** is a true tragedy, and has become a **disaster zone**."
  "**ला गुआइरा राज्य** वास्तव में एक त्रासदी बन गया है और अब एक **आपदा क्षेत्र** में बदल चुका है।"
- The first **earthquake**, with an **epicentre** 21 kilometres west of the coastal town of **Moron**, occurred at **6.04 p.m.** local time on Wednesday, the **USGS** said.
  USGS के अनुसार, पहला **भूकंप**, जिसका **केंद्र** तटीय नगर **मोरोन** से 21 किलोमीटर पश्चिम में था, बुधवार को स्थानीय समयानुसार **शाम 6:04 बजे** आया।
- Within a minute, a **7.5-magnitude earthquake** struck about **45 kilometres** away.
  एक मिनट के भीतर लगभग **45 किलोमीटर** दूर **7.5 तीव्रता** का दूसरा **भूकंप** आया।
- They struck at depths of **22 kilometres** and **10 kilometres**, respectively.
  ये दोनों भूकंप क्रमशः **22 किलोमीटर** और **10 किलोमीटर** की गहराई पर आए।
- Scores of **rescuers** from the **U.S.** and several **European countries** and **UN specialists** were on their way to help search for **survivors**, Ms. Rodriguez said.
  सुश्री रोड्रिगेज़ ने कहा कि **अमेरिका**, कई **यूरोपीय देशों** और **संयुक्त राष्ट्र के विशेषज्ञों** के **बचावकर्मी जीवित बचे लोगों** की तलाश में सहायता के लिए रास्ते में हैं।
- Nations including **China, India, Brazil**, and war-battered **Iran** offered help.
  चीन, भारत, ब्राज़ील और युद्धग्रस्त **ईरान** सहित कई देशों ने सहायता की पेशकश की।
- However, threatening to complicate the **relief effort**, the **international airport** near **Caracas** was closed due to "serious damage," she said.
  हालाँकि, **राहत कार्यों** को जटिल बनाने वाली स्थिति में **कराकास** के निकट स्थित **अंतरराष्ट्रीय हवाई अड्डे** को "गंभीर क्षति" के कारण बंद कर दिया गया, उन्होंने कहा।
- **Social media videos** showed the terminal's **ceiling** collapsing over travellers.
  सोशल मीडिया वीडियो में टर्मिनल की **छत** यात्रियों के ऊपर गिरती हुई दिखाई गई।
- Officials were trying to make the most of the **daylight hours** to rescue people believed to be trapped under the **rubble**, the **Interim President** said.
  अंतरिम राष्ट्रपति ने कहा कि अधिकारी **दिन के उजाले** का पूरा उपयोग करते हुए **मलबे** में फँसे माने जा रहे लोगों को बचाने का प्रयास कर रहे हैं।

'Big logistical role'
'बड़ी लॉजिस्टिक भूमिका'

- "Deeply saddened by the **devastation** caused by the severe **earthquakes** in **Venezuela**," **Prime Minister Narendra Modi** said in a statement.
  "**वेनेजुएला** में आए भीषण **भूकंपों** से हुई **तबाही** से मैं अत्यंत दुखी हूँ," **प्रधानमंत्री नरेंद्र मोदी** ने एक बयान में कहा।
- "We pray for the speedy recovery of those injured and stand in solidarity with all those affected... **India** stands ready to extend all possible assistance," he said.
  उन्होंने कहा, "हम घायलों के शीघ्र स्वस्थ होने की प्रार्थना करते हैं और सभी प्रभावित लोगों के साथ एकजुटता से खड़े हैं... **भारत** हर संभव सहायता देने के लिए तैयार है।"
- The **U.S.** "stands ready, willing, and able to help," **President Donald Trump** said in a social media post.

अमेरिका "सहायता के लिए पूरी तरह तैयार, इच्छुक और सक्षम है," **राष्ट्रपति डोनाल्ड ट्रंप** ने सोशल मीडिया पोस्ट में कहा।

- "We have a **whole-of-government response**.

3 States close ranks on Tungabhadra basin

Joining hands: Chief Ministers D.K. Shivakumar, N. Chandrababu Naidu, and A. Revanth Reddy share a stage on Thursday. ANI

GS I: Geography

Kumar Buradikatti
KALABURAGI

Karnataka, Andhra Pradesh, and Telangana on Thursday signalled a "historic" broader political and administrative consensus on protecting the interests of farmers in the Tungabhadra basin and pursuing long-term solutions to irrigation and water-sharing issues.

At an event organised by the Karnataka government and the Tungabhadra Board in Koppal district to mark the inauguration of the newly installed 33 spillway gates of the reservoir in Vijayanagara, Karnataka Chief Minister D.K. Shivakumar and his Telangana and Andhra Pradesh counterparts, A. Revanth Reddy and N. Chandrababu Naidu, stressed the need for cooperation in addressing the concerns of lakhs of farmers dependent on the inter-State project.

The Chief Ministers said the three States have arrived at a historic consensus to safeguard the interests of farmers in the Tungabhadra basin.

Tungabhadra desilting

Ahead of the inauguration, the three Chief Ministers held a nearly hour-long meeting with Union Jal Shakti Minister C.R. Patil to discuss key irrigation issues concerning the three States.

Desilting of the Tungabhadra reservoir, where an estimated 33 tmcft of silt has accumulated over the years significantly affecting its storage capacity, was discussed.

Mr. Patil said the Union government will first dredge the Tungabhadra dam as part of its larger plan to desilt major reservoirs.

He said the Chief Ministers had expressed their commitment to extend full cooperation in the exercise.

Pointing out that silt accumulation had reduced the storage capacity of many dams, including the Tungabhadra, Mr. Patil said that, as per the proposed programme, the Centre will provide the technical support, and the dredging would be completed at the earliest possible time with the involvement of the three States.

Calling the replacement of all the 33 spillway gates of the Tungabhadra dam "historic", Mr. Shivakumar said it was done in the larger interest of farmers and the long-term safety of the reservoir.

CBSE directive on vocational education sparks backlash

GS II: Governance: Education

BENGALURU

After the Central Board of Secondary Education (CBSE) made *Kaushal Vikas* (Vocational Education) mandatory for Class 9 students after the 2026-27 academic year began, many schools in Bengaluru have expressed concern.

The CBSE has introduced *Kaushal Vikas* as a mandatory subject for Class 9 students, rather than keeping it optional. The same will continue when these Class 9 students move to Class 10 for the academic year 2027-28, and the marks will be included in the board exams.

The principal of a CBSE school in Sarjapura Road, said, "In our school, we plan the finance and budget in October and November for the next academic year. We hire teachers for the vacant posts after many rounds of interviews and a lot of scrutiny. An academic calendar and lesson plans are assigned to respective subject teachers even before the school begins. We received the circular a few days ago and we are still figuring out who has to be recruited to teach the *Kaushal Vikas* subject. We must also include it in our weekly timetable and adjust it as per the total number of hours of teaching."

The CBSE has introduced *Kaushal Vikas* as a mandatory subject for Class 9.

Another principal of a school in Yelahanka said, "Students will be in trouble because they choose what career they would like to pursue and start preparing for various exams such as NEET, JEE, CET and others at this stage. Adding one more mandatory subject is a burden. We already run 14 various clubs that teach students innovation, public speaking, art and theatre and others."

GS II: Governance

Onerous rules

The newly amended FCRA Rules point to a renewed attempt to stifle NGOs

Civil society organisations play a vital role in areas such as health, education, disaster relief, and civil liberties and rights, stepping in where the state falls short. Yet, the Indian state has treated NGOs with suspicion, using the Foreign Contribution (Regulation) Act (FCRA), 2010, to impose stringent restrictions on their functioning. Earlier this week, the FCRA Amendment Rules, 2026 were notified, which require all NGOs registered under the FCRA, 2010, to confine their work to activities specified for their category and to the States and Union Territories named in their registration. They must also disclose their social media handles, websites and publications and are barred from carrying "political content". The new rules impose stringent penalties for using funds for unapproved purposes and require NGOs to pay separate fees for each category of work and to each State or Union Territory in which they operate, replacing the earlier system of a single registration fee. These increase compliance costs and paperwork. While the government argues that such measures promote transparency, even-handedness and national security, the rules are clearly meant to stifle the work of NGOs. The operation of the FCRA regime has been far from transparent. As CPI(M) MP John Brittas recently complained, parliamentary questions on FCRA cancellations and non-renewals have been disallowed as "secret", even though more than 20,000 registrations have reportedly been revoked over the past decade on opaque grounds. Far from improving transparency, the new rules burden NGOs with greater barriers and commitments, raising concerns that the Centre intends to create a chilling effect.

In *Noel Harper* (2022), the Supreme Court upheld the stringent 2020 FCRA amendments, accepting the state's invocation of sovereignty and national security. Yet, in in 2020, the Court had read down rules that would have classified the rights activism of civil society bodies, including protests and demonstrations as work "of a political nature", drawing a distinction between party politics and the everyday work of social and economic betterment. The new Rules seek to treat advocacy and "political content" as grounds for disqualification. In March 2026, the Centre had proposed amendments allowing a government-appointed authority to take over the assets of NGOs whose registrations were cancelled, surrendered, or not renewed. Following strong protests, particularly from minority institutions, it put the proposal on hold. Now, the newly notified rules seem another way of throttling NGOs that utilise foreign funding for civil society work. The Centre should withdraw the punitive provisions, particularly those on multiple fees and political content, and adopt fairer rules.

26J6. Onerous rules
कठोर नियम

- **The newly amended FCRA Rules point to a renewed attempt to stifle NGOs.**

नए संशोधित FCRA नियम गैर-सरकारी संगठनों (NGOs) को दबाने के नए प्रयास की ओर संकेत करते हैं।

- **Civil society organisations** play a vital role in areas such as **health, education, disaster relief, and civil liberties and rights**, stepping in where the **state** falls short.

नागरिक समाज संगठन स्वास्थ्य, शिक्षा, आपदा राहत तथा नागरिक स्वतंत्रताओं और अधिकारों जैसे क्षेत्रों में महत्वपूर्ण भूमिका निभाते हैं और वहाँ कार्य करते हैं जहाँ **राज्य** की व्यवस्था कम पड़ जाती है।

- Yet, the **Indian state** has treated **NGOs** with suspicion, using the **Foreign Contribution (Regulation) Act (FCRA), 2010**, to impose stringent restrictions on their functioning.

फिर भी **भारतीय राज्य** ने **NGOs** को संदेह की दृष्टि से देखा है और उनके कार्यों पर कड़े प्रतिबंध लगाने के लिए **विदेशी अंशदान (विनियमन) अधिनियम (FCRA), 2010** का उपयोग किया है।

- Earlier this week, the **FCRA Amendment Rules, 2026** were notified, which require all **NGOs** registered under the **FCRA, 2010**, to confine their work to activities specified for their category and to the **States** and **Union Territories** named in their registration.

इस सप्ताह की शुरुआत में **FCRA संशोधन नियम, 2026** अधिसूचित किए गए, जिनके अनुसार **FCRA, 2010** के तहत पंजीकृत सभी **NGOs** को केवल अपनी श्रेणी के लिए निर्धारित गतिविधियों तथा अपने पंजीकरण में उल्लिखित **राज्यों** और **केंद्र शासित प्रदेशों** तक ही अपना कार्य सीमित रखना होगा।

- They must also disclose their **social media handles**, **websites** and **publications** and are barred from carrying **"political content"**.

उन्हें अपने **सोशल मीडिया हैंडल**, **वेबसाइट** और **प्रकाशनों** का भी खुलासा करना होगा तथा **"राजनीतिक सामग्री"** प्रकाशित करने पर रोक रहेगी।

- The new rules impose stringent penalties for using funds for unapproved purposes and require **NGOs** to pay separate fees for each category of work and to each **State** or **Union Territory** in which they operate, replacing the earlier system of a single registration fee.

नए नियम बिना अनुमति वाले उद्देश्यों के लिए धन का उपयोग करने पर कड़े दंड का प्रावधान करते हैं तथा **NGOs** को प्रत्येक कार्य-श्रेणी और प्रत्येक **राज्य** या **केंद्र शासित प्रदेश** के लिए अलग-अलग शुल्क देना होगा, जिससे पहले की एकल पंजीकरण शुल्क व्यवस्था समाप्त हो जाएगी।

- These increase **compliance costs** and paperwork.

इससे **अनुपालन लागत** और कागजी कार्यवाही बढ़ जाती है।

- While the **government** argues that such measures promote **transparency**, **even-handedness** and **national security**, the rules are clearly meant to stifle the work of **NGOs**.

यद्यपि **सरकार** का तर्क है कि ऐसे उपाय **पारदर्शिता**, **निष्पक्षता** और **राष्ट्रीय सुरक्षा** को बढ़ावा देते हैं, लेकिन ये नियम स्पष्ट रूप से **NGOs** के कार्यों को बाधित करने के उद्देश्य से बनाए गए हैं।

- The operation of the **FCRA** regime has been far from transparent.
  FCRA व्यवस्था का संचालन पारदर्शी नहीं रहा है।
- As **CPI(M) MP John Brittas** recently complained, parliamentary questions on **FCRA** cancellations and non-renewals have been disallowed as "secret", even though more than **20,000 registrations** have reportedly been revoked over the past decade on opaque grounds.
  जैसा कि **CPI(M) सांसद जॉन ब्रिटास** ने हाल ही में शिकायत की, **FCRA** पंजीकरण रद्द होने और नवीनीकरण न होने से जुड़े संसदीय प्रश्नों को "गोपनीय" बताकर अस्वीकार कर दिया गया, जबकि पिछले दशक में कथित रूप से **20,000 से अधिक पंजीकरण** अस्पष्ट आधारों पर रद्द किए जा चुके हैं।
- Far from improving **transparency**, the new rules burden **NGOs** with greater barriers and commitments, raising concerns that the **Centre** intends to create a **chilling effect**.
  पारदर्शिता बढ़ाने के बजाय नए नियम **NGOs** पर अधिक बाधाएँ और दायित्व थोपते हैं, जिससे यह आशंका पैदा होती है कि **केंद्र** का उद्देश्य **भय का माहौल (chilling effect)** बनाना है।
- In **Noel Harper (2022)**, the **Supreme Court** upheld the stringent **2020 FCRA amendments**, accepting the state's invocation of **sovereignty** and **national security**.
  Noel Harper (2022) मामले में **सर्वोच्च न्यायालय** ने **2020 के FCRA संशोधनों** को बरकरार रखा और **संप्रभुता** तथा **राष्ट्रीय सुरक्षा** के राज्य के तर्क को स्वीकार किया।
- Yet, in **2020**, the Court had read down rules that would have classified the **rights activism** of **civil society bodies**, including **protests** and **demonstrations**, as work "of a political nature", drawing a distinction between **party politics** and the everyday work of **social and economic betterment**.
  फिर भी **2020** में न्यायालय ने उन नियमों की सीमित व्याख्या की थी जो **नागरिक समाज संगठनों** के **अधिकार संबंधी आंदोलनों**, जिनमें **विरोध प्रदर्शन** और **धरने** शामिल हैं, को "राजनीतिक प्रकृति" का कार्य मानते थे तथा **दलीय राजनीति** और **सामाजिक एवं आर्थिक सुधार** के दैनिक कार्यों के बीच अंतर स्पष्ट किया था।
- The new **Rules** seek to treat **advocacy** and **"political content"** as grounds for disqualification.
  नए **नियम वकालत (advocacy)** और **"राजनीतिक सामग्री"** को अयोग्यता का आधार बनाने का प्रयास करते हैं।
- In **March 2026**, the **Centre** had proposed amendments allowing a **government-appointed authority** to take over the assets of **NGOs** whose registrations were cancelled, surrendered, or not renewed.
  मार्च 2026 में **केंद्र** ने ऐसे संशोधन प्रस्तावित किए थे, जिनके तहत **सरकार द्वारा नियुक्त प्राधिकरण** उन **NGOs** की संपत्तियों का अधिग्रहण कर सकता था जिनका पंजीकरण रद्द, समर्पित या नवीनीकृत नहीं हुआ था।
- Following strong protests, particularly from **minority institutions**, it put the proposal on hold.
  विशेष रूप से **अल्पसंख्यक संस्थानों** के तीव्र विरोध के बाद इस प्रस्ताव को फिलहाल स्थगित कर दिया गया।
- Now, the newly notified rules seem another way of throttling **NGOs** that utilise **foreign funding** for **civil society** work.
  अब नए अधिसूचित नियम **विदेशी धन** का उपयोग करने वाले **नागरिक समाज** के **NGOs** को नियंत्रित करने का एक और तरीका प्रतीत होते हैं।
- The **Centre** should withdraw the punitive provisions, particularly those on **multiple fees** and **political content**, and adopt fairer rules.
  केंद्र को दंडात्मक प्रावधानों, विशेषकर **अनेक शुल्कों** और **राजनीतिक सामग्री** से संबंधित प्रावधानों को वापस लेकर अधिक न्यायसंगत नियम अपनाने चाहिए।

GS Paper II: International Relations	26 June 2026
TOPICS COVERED	
26J6	Should Indian Seafarers Stop Serving on Sanctioned Ships? क्या भारतीय नाविकों को प्रतिबंधित (Sanctioned) जहाज़ों पर काम करना बंद कर देना चाहिए?

Should Indian seafarers stop serving on sanctioned ships?

Ajith Sukumaran
Retd. Additional Director General of Shipping

Biswanath Gupta
Associate Professor, Jindal Global Law School

ESSENTIAL KNOWLEDGE

PARLEY

While merchant ships across the world have been manned by Indian seafarers, officers, engineers and crew for years, recent conflicts have suddenly brought Indian seafarers into focus. A recent flashpoint was when the U.S. attacked three ships allegedly carrying Iranian cargo, on the grounds that they were sanctioned vessels. Three Indian seafarers were killed in those attacks. More recently, when the British detained a Russian-linked vessel that was supposedly under Western sanctions in the English Channel, the Indian captain was arrested. This raises an important question: should Indian seafarers continue serving on these so-called sanctioned ships? Ajith Sukumaran and Biswanath Gupta discuss this question in a conversation moderated by **M. Kalyanaraman.** Edited excerpts:

Could you give us some some background on Indian seafarers in general?

Ajith Sukumaran: Only recently has society started realising the importance of shipping, but unfortunately from a negative point of view. Whether it was the Titanic, the Exxon Valdez incident, or more recent maritime accidents, shipping has often been in the news for the wrong reasons. But the fact is that shipping carries around 90% of global trade by volume. It is the lifeline of modern society.

The Ever Given incident in 2021 showed this clearly. A 20,000-TEU container ship blocked the Suez Canal for six days, affecting around 20% of seaborne trade. Hundreds of ships were delayed, and loss to world trade was enormous.

The Strait of Hormuz is equally important. It carries around 11-12% of global seaborne trade, but it is strategically significant because of energy transportation. Nearly 25% of fossil fuels and around 20% of LNG move through this route. For India, this is critical because more than 85% of our energy requirements are imported, and almost all of it comes via ships.

But we often talk only about ships and cargo. Ships do not move on their own. They are operated by people. Seafarers take these vessels through difficult and risky situations, and society needs to recognise their contribution. These are high-value and high-risk assets, and they need competent professionals.

Modern cargoes also involve huge risks. LNG carriers, for example, carry enormous energy potential, yet they may be operated by only around 20-21 seafarers. Indian seafarers have been among the most respected in international shipping. They have built a reputation for their discipline and technical competence. Globally, there are around 1.8 million seafarers. India has more than five lakh registered seafarers, of whom around 3.2 lakh are active. This means one in five seafarers in global shipping is Indian. The foreign exchange contribution from Indian seafarers is estimated at between $6 billion and $9 billion annually. Their importance to India is much greater than many people realise.

Vessels at the Strait of Hormuz as seen from Oman on June 18. REUTERS

What is India's position on the sanctions imposed by countries such as the U.S., the U.K. and the European Union?

AS: There is a legal and a practical aspect. There are two broad categories of sanctions. One is UN sanctions, which are binding. The other is unilateral sanctions imposed by individual countries or groups such as the U.S., the U.K., the EU or the G-7. The challenge is that each country has its own list. It is not always easy to draw a line between sanctioned and non-sanctioned vessels. From the government's perspective, the issue is also practical. India has to protect its trade and its seafarers while dealing with international realities.

Should the government track these vessels and advise Indian seafarers not to join them?

AS: Whether India should impose a blanket ban is a political decision. Such a move would have consequences because India imports energy from different countries and employment is also important. The Directorate General of Shipping has issued guidelines that seafarers should be aware of the type of vessel they are joining and the risks involved. But every sanctioned vessel is not necessarily unsafe. If it is not operating in regions enforcing those sanctions, the situation changes. Therefore, it is not easy to identify every vessel and prohibit Indians from joining it.

What is the legal position on these sanctions

> The Directorate General of Shipping has issued guidelines that seafarers should be aware of the type of vessel they are joining and the risks involved. But every sanctioned vessel is not necessarily unsafe
> AJITH SUKUMARAN

and on the arrest of the captain in the U.K.?

Biswanath Gupta: There are two kinds of sanctions. UN Security Council sanctions passed under Chapter VII of the UN Charter are binding under international law. Unilateral sanctions are more contested. They are technically limited to the jurisdiction of the country imposing them, but powerful states often try to enforce them beyond their territory. In international law, this is highly contested – whether those sanctions are binding or non-binding. If a strong country is applying sanctions, they are binding by nature.

Regarding the Indian captain, international law raises the question of jurisdiction. India can question whether the British court has jurisdiction, especially if the incident occurred on the high seas. Another option is diplomatic protection. If an Indian citizen is affected by a violation of international law abroad, India can intervene. Regarding missile attacks on ships, the issue comes under the law of armed conflict in the United Nations Charter. Questions arise about necessity, proportionality and whether proper warnings were given. If sufficient warning was not given, India can take the issue to the international court.

International maritime law has always been important because many principles of international law developed through the law of the sea. Existing maritime frameworks can be useful in protecting seafarers.

Has India signed such maritime agreements?

BG: Yes, India is part of important international maritime frameworks. Since India has a large number of seafarers working globally, these agreements are significant. Some reports suggest that seafarers killed in conflict zones were pressured to enter dangerous areas with threats relating to wages, employment. These issues can be examined through international mechanisms.

What is the difference between dark fleet vessels and sanctioned vessels?

AS: Dark fleet vessels are identified through certain criteria. These may include fraudulent registration, false insurance documents, illegal ship-to-ship transfers, or switching off identification systems. The case of the Indian captain arrested in the English Channel was different. The issue was related to the vessel's registry and whether it was considered stateless. The ship apparently had Cameroon registration but midway through the voyage, before entering the English Channel, the ship seems to have lost the registration. We don't know how that happened. A ship must have a proper flag state. So the legal cover was that the ship was stateless. But whether the master should be held responsible is a separate question, because a captain may not always know about administrative issues.

Given this situation, what should India do?

BG: India should focus on diplomatic engagement. International platforms such as UNCLOS [United Nations Convention on the Law of the Sea] provide a space where countries can negotiate and raise concerns. The International Labour Organization is also important because seafarer welfare and rights are discussed there.

But should the government tell Indian seafarers not to join these ships?

BG: That cannot be the approach for a country like India. Much of our trade happens through the sea, and shipping is also an important source of employment. These global platforms remain important for protecting our interests.

AS: Yes, it can be done. Recruitment in India happens through agencies licensed by the Directorate General of Shipping, and any directions issued by the DG Shipping are binding on them. The government could maintain a dynamic list of sanctioned or high-risk vessels and require recruitment agencies to exercise caution while placing seafarers on them.

In many cases, vulnerable seafarers – those struggling to find employment or facing certification and documentation issues – are being targeted by agents and drawn into risky jobs. These seafarers often become innocent scapegoats in larger geopolitical conflicts.

The government has already taken an important first step by requiring seafarers to be informed. But awareness alone is not enough. The vulnerability remains, and in such circumstances, I believe the government has a responsibility to step in.

26J6. Should Indian Seafarers Stop Serving on Sanctioned Ships?
क्या भारतीय नाविकों को प्रतिबंधित (Sanctioned) जहाज़ों पर काम करना बंद कर देना चाहिए?

- While **merchant ships** across the world have been manned by **Indian seafarers**, officers, engineers, and crew for years, recent conflicts have suddenly brought **Indian seafarers** into focus.
  दुनिया भर के **व्यापारी जहाज़ों (Merchant Ships)** पर वर्षों से **भारतीय नाविक (Indian Seafarers)**, अधिकारी, इंजीनियर और चालक दल कार्यरत रहे हैं, लेकिन हाल के संघर्षों ने अचानक **भारतीय नाविकों** को चर्चा के केंद्र में ला दिया है।
- A recent flashpoint was when the **U.S.** attacked three ships allegedly carrying **Iranian cargo**, on the grounds that they were **sanctioned vessels**.

हाल ही में एक प्रमुख घटना तब हुई जब **अमेरिका (U.S.)** ने कथित रूप से **ईरानी माल (Iranian Cargo)** ले जा रहे तीन जहाज़ों पर यह कहते हुए हमला किया कि वे **प्रतिबंधित जहाज़ (Sanctioned Vessels)** थे।

- Three **Indian seafarers** were killed in those attacks.
  उन हमलों में तीन **भारतीय नाविकों** की मृत्यु हो गई।
- More recently, when the **British** detained a **Russian-linked vessel** that was supposedly under **Western sanctions** in the **English Channel**, the **Indian captain** was arrested.
  हाल ही में, जब **ब्रिटेन** ने **इंग्लिश चैनल** में **रूस से जुड़े एक जहाज़** को, जो कथित रूप से **पश्चिमी प्रतिबंधों (Western Sanctions)** के अधीन था, हिरासत में लिया, तो उसके **भारतीय कप्तान** को गिरफ्तार कर लिया गया।
- This raises an important question: should **Indian seafarers** continue serving on these so-called **sanctioned ships**?
  इससे एक महत्वपूर्ण प्रश्न उठता है: क्या **भारतीय नाविकों** को ऐसे तथाकथित **प्रतिबंधित जहाज़ों** पर कार्य करना जारी रखना चाहिए?
- **Ajith Sukumaran** and **Biswanath Gupta** discuss this question in a conversation moderated by **M. Kalyanaraman**. Edited excerpts:
  अजीत सुकुमारन और **बिश्वनाथ गुप्ता** ने **एम. कल्याणरमन** द्वारा संचालित एक चर्चा में इस प्रश्न पर विचार किया। संपादित अंश:
- **Could you give us some some background on Indian seafarers in general?**
  क्या आप सामान्य रूप से भारतीय नाविकों के बारे में कुछ पृष्ठभूमि बता सकते हैं?
- **Ajith Sukumaran:** Only recently has society started realising the importance of **shipping**, but unfortunately from a negative point of view.
  अजीत सुकुमारन: समाज ने हाल ही में **शिपिंग (Shipping)** के महत्व को समझना शुरू किया है, लेकिन दुर्भाग्यवश एक नकारात्मक दृष्टिकोण से।
- Whether it was the **Titanic**, the **Exxon Valdez** incident, or more recent **maritime accidents**, shipping has often been in the news for the wrong reasons.
  चाहे वह **टाइटैनिक**, **एक्सॉन वाल्डेज़** दुर्घटना हो या हाल की **समुद्री दुर्घटनाएँ**, शिपिंग अक्सर गलत कारणों से समाचारों में रही है।
- But the fact is that shipping carries around **90% of global trade by volume**.
  लेकिन वास्तविकता यह है कि **विश्व व्यापार का लगभग 90% (मात्रा के आधार पर)** शिपिंग के माध्यम से होता है।
- It is the **lifeline** of modern society.
  यह आधुनिक समाज की **जीवनरेखा (Lifeline)** है।
- The **Ever Given** incident in **2021** showed this clearly.
  2021 की **एवर गिवेन (Ever Given)** घटना ने इसे स्पष्ट रूप से दिखाया।
- A **20,000-TEU container ship** blocked the **Suez Canal** for six days, affecting around **20% of seaborne trade**.
  एक **20,000-TEU कंटेनर जहाज़** ने **स्वेज़ नहर (Suez Canal)** को छह दिनों तक अवरुद्ध कर दिया, जिससे **समुद्री व्यापार का लगभग 20%** प्रभावित हुआ।
- Hundreds of ships were delayed, and loss to world trade was enormous.
  सैकड़ों जहाज़ों में देरी हुई और विश्व व्यापार को भारी नुकसान हुआ।
- The **Strait of Hormuz** is equally important.
  हॉर्मुज़ जलडमरूमध्य (Strait of Hormuz) भी समान रूप से महत्वपूर्ण है।
- It carries around **11-12% of global seaborne trade**, but it is strategically significant because of **energy transportation**.
  इसके माध्यम से **वैश्विक समुद्री व्यापार का लगभग 11-12%** गुजरता है, लेकिन **ऊर्जा परिवहन** के कारण इसका सामरिक महत्व कहीं अधिक है।

- Nearly **25% of fossil fuels** and around **20% of LNG** move through this route.
  इस मार्ग से लगभग **25% जीवाश्म ईंधन (Fossil Fuels)** और लगभग **20% एलएनजी (LNG)** का परिवहन होता है।
- For **India**, this is critical because more than **85% of our energy requirements** are imported, and almost all of it comes via ships.
  भारत के लिए यह अत्यंत महत्वपूर्ण है क्योंकि हमारी **ऊर्जा आवश्यकताओं का 85% से अधिक** आयात किया जाता है और इसका लगभग पूरा हिस्सा जहाज़ों के माध्यम से आता है।
- But we often talk only about **ships** and **cargo**.
  लेकिन हम अक्सर केवल **जहाज़ों** और **माल (Cargo)** की ही बात करते हैं।
- Ships do not move on their own.
  जहाज़ स्वयं नहीं चलते।
- They are operated by people.
  उन्हें मनुष्य संचालित करते हैं।
- **Seafarers** take these vessels through difficult and risky situations, and society needs to recognise their contribution.
  नाविक (Seafarers) इन जहाज़ों को कठिन और जोखिमपूर्ण परिस्थितियों से निकालते हैं, और समाज को उनके योगदान को पहचानने की आवश्यकता है।
- These are **high-value** and **high-risk assets**, and they need competent professionals.
  ये **उच्च मूल्य (High-Value)** और **उच्च जोखिम (High-Risk)** वाली परिसंपत्तियाँ हैं, जिनके संचालन के लिए कुशल पेशेवरों की आवश्यकता होती है।
- Modern cargoes also involve huge risks.
  आधुनिक माल ढुलाई भी अत्यधिक जोखिम से जुड़ी होती है।
- **LNG carriers**, for example, carry enormous energy potential, yet they may be operated by only around **20-21 seafarers**.
  उदाहरण के लिए, **एलएनजी वाहक (LNG Carriers)** अत्यधिक ऊर्जा क्षमता वाला माल लेकर चलते हैं, फिर भी उनका संचालन केवल लगभग **20-21 नाविकों** द्वारा किया जाता है।
- **Indian seafarers** have been among the most respected in international shipping.
  भारतीय नाविक अंतरराष्ट्रीय शिपिंग जगत में सबसे अधिक सम्मानित नाविकों में रहे हैं।
- They have built a reputation for their **discipline** and **technical competence**.
  उन्होंने अपने **अनुशासन (Discipline)** और **तकनीकी दक्षता (Technical Competence)** के कारण उत्कृष्ट प्रतिष्ठा अर्जित की है।
- Globally,
  वैश्विक स्तर पर,

What is India's position on the sanctions imposed by countries such as the U.S., the U.K. and the European Union?
अमेरिका, ब्रिटेन और यूरोपीय संघ जैसे देशों द्वारा लगाए गए प्रतिबंधों पर भारत का क्या दृष्टिकोण है?

- **AS:** There is a **legal** and a **practical** aspect. There are two broad categories of **sanctions**. One is **UN sanctions**, which are binding. The other is **unilateral sanctions** imposed by individual countries or groups such as the **U.S., the U.K., the EU or the G-7**. The challenge is that each country has its own list. It is not always easy to draw a line between **sanctioned** and **non-sanctioned vessels**. From the government's perspective, the issue is also practical. India has to protect its **trade** and its **seafarers** while dealing with international realities.
  एएस: इसका एक **कानूनी** और एक **व्यावहारिक** पक्ष है। **प्रतिबंधों** की दो व्यापक श्रेणियाँ हैं। पहली **संयुक्त राष्ट्र (UN) के प्रतिबंध** हैं, जो बाध्यकारी होते हैं। दूसरी **एकतरफा प्रतिबंध** हैं, जो अलग-अलग देशों या **अमेरिका, ब्रिटेन, यूरोपीय संघ (EU) या G-7** जैसे समूहों द्वारा लगाए जाते हैं। चुनौती यह है कि प्रत्येक देश की अपनी अलग सूची होती है। **प्रतिबंधित** और **गैर-प्रतिबंधित जहाजों** के बीच स्पष्ट अंतर करना हमेशा आसान नहीं

होता। सरकार के दृष्टिकोण से यह एक व्यावहारिक मुद्दा भी है। भारत को अंतरराष्ट्रीय परिस्थितियों का सामना करते हुए अपने **व्यापार** और अपने **नाविकों (Seafarers)** दोनों की सुरक्षा करनी होती है।

Should the government track these vessels and advise Indian seafarers not to join them?
क्या सरकार को इन जहाजों पर निगरानी रखनी चाहिए और भारतीय नाविकों को इन पर कार्य न करने की सलाह देनी चाहिए?

- **AS:** Whether India should impose a **blanket ban** is a political decision. Such a move would have consequences because India imports **energy** from different countries and **employment** is also important.
- The **Directorate General of Shipping** has issued guidelines that seafarers should be aware of the type of vessel they are joining and the risks involved. But every **sanctioned vessel** is not necessarily unsafe.
- If it is not operating in regions enforcing those sanctions, the situation changes.
- Therefore, it is not easy to identify every vessel and prohibit Indians from joining it.

एएस: भारत को **पूर्ण प्रतिबंध (Blanket Ban)** लगाना चाहिए या नहीं, यह एक राजनीतिक निर्णय है। ऐसा कदम परिणाम उत्पन्न करेगा क्योंकि भारत विभिन्न देशों से **ऊर्जा** आयात करता है और **रोजगार** भी महत्वपूर्ण है। **नौवहन महानिदेशालय (Directorate General of Shipping)** ने दिशा-निर्देश जारी किए हैं कि नाविकों को यह जानकारी होनी चाहिए कि वे किस प्रकार के जहाज पर जा रहे हैं और उससे जुड़े जोखिम क्या हैं। लेकिन हर **प्रतिबंधित जहाज** आवश्यक रूप से असुरक्षित नहीं होता। यदि वह उन क्षेत्रों में संचालित नहीं हो रहा है जहाँ उन प्रतिबंधों को लागू किया जाता है, तो स्थिति अलग हो जाती है। इसलिए प्रत्येक जहाज की पहचान करना और भारतीयों को उस पर कार्य करने से रोकना आसान नहीं है।

What is the legal position on these sanctions and on the arrest of the captain in the U.K.?
इन प्रतिबंधों तथा ब्रिटेन में कप्तान की गिरफ्तारी पर कानूनी स्थिति क्या है?

- **Biswanath Gupta:** There are two kinds of **sanctions**. **UN Security Council sanctions** passed under **Chapter VII of the UN Charter** are binding under international law. **Unilateral sanctions** are more contested. They are technically limited to the jurisdiction of the country imposing them, but powerful states often try to enforce them beyond their territory. In international law, this is highly contested — whether those sanctions are binding or non-binding. If a strong country is applying sanctions, they are binding by nature.

बिस्वनाथ गुप्ता: प्रतिबंधों के दो प्रकार होते हैं। **संयुक्त राष्ट्र सुरक्षा परिषद** द्वारा **संयुक्त राष्ट्र चार्टर के अध्याय VII** के अंतर्गत लगाए गए प्रतिबंध अंतरराष्ट्रीय कानून के तहत बाध्यकारी होते हैं। **एकतरफा प्रतिबंध** अधिक विवादित होते हैं। तकनीकी रूप से वे केवल उसी देश के अधिकार क्षेत्र तक सीमित होते हैं जिसने उन्हें लगाया है, लेकिन शक्तिशाली देश अक्सर उन्हें अपने क्षेत्र से बाहर भी लागू करने का प्रयास करते हैं। अंतरराष्ट्रीय कानून में यह अत्यधिक विवादित विषय है कि ऐसे प्रतिबंध बाध्यकारी हैं या नहीं। यदि कोई शक्तिशाली देश प्रतिबंध लागू करता है, तो व्यवहार में वे प्रभावी माने जाते हैं।

- Regarding the **Indian captain**, international law raises the question of **jurisdiction**. India can question whether the British court has jurisdiction, especially if the incident occurred on the **high seas**. Another option is **diplomatic protection**. If an Indian citizen is affected by a violation of international law abroad, India can intervene. Regarding **missile attacks** on ships, the issue comes under the **law of armed conflict** in the **United Nations Charter**. Questions arise about **necessity**, **proportionality** and whether proper warnings were given. If sufficient warning was not given, India can take the issue to the **international court**.

भारतीय कप्तान के संबंध में अंतरराष्ट्रीय कानून में **अधिकार क्षेत्र (Jurisdiction)** का प्रश्न उठता है। भारत यह प्रश्न उठा सकता है कि क्या ब्रिटिश न्यायालय का अधिकार क्षेत्र बनता है, विशेषकर यदि घटना **उच्च समुद्र**

(High Seas) में हुई हो। दूसरा विकल्प **राजनयिक संरक्षण (Diplomatic Protection)** है। यदि किसी भारतीय नागरिक के साथ विदेश में अंतरराष्ट्रीय कानून का उल्लंघन होता है, तो भारत हस्तक्षेप कर सकता है। जहाजों पर हुए **मिसाइल हमलों** के संबंध में यह विषय **संयुक्त राष्ट्र चार्टर** के अंतर्गत **सशस्त्र संघर्ष के कानून (Law of Armed Conflict)** के दायरे में आता है। इसमें **आवश्यकता (Necessity)**, **आनुपातिकता (Proportionality)** तथा पर्याप्त चेतावनी दिए जाने जैसे प्रश्न उठते हैं। यदि पर्याप्त चेतावनी नहीं दी गई हो, तो भारत इस मामले को **अंतरराष्ट्रीय न्यायालय** में ले जा सकता है।

- **International maritime law** has always been important because many principles of international law developed through the **law of the sea**. Existing maritime frameworks can be useful in protecting **seafarers**.
  अंतरराष्ट्रीय समुद्री कानून हमेशा महत्वपूर्ण रहा है क्योंकि अंतरराष्ट्रीय कानून के अनेक सिद्धांत **समुद्री कानून (Law of the Sea)** के माध्यम से विकसित हुए हैं। वर्तमान समुद्री ढाँचे **नाविकों (Seafarers)** की सुरक्षा में उपयोगी सिद्ध हो सकते हैं।

Has India signed such maritime agreements?
क्या भारत ने ऐसे समुद्री समझौतों पर हस्ताक्षर किए हैं?

- **BG:** Yes, India is part of important **international maritime frameworks**. Since India has a large number of **seafarers** working globally, these agreements are significant. Some reports suggest that seafarers killed in **conflict zones** were pressured to enter dangerous areas with threats relating to **wages** and **employment**. These issues can be examined through international mechanisms.
  बीजी: हाँ, भारत महत्वपूर्ण **अंतरराष्ट्रीय समुद्री ढाँचों (International Maritime Frameworks)** का हिस्सा है। चूँकि भारत के बड़ी संख्या में **नाविक (Seafarers)** विश्वभर में कार्यरत हैं, इसलिए ये समझौते अत्यंत महत्वपूर्ण हैं। कुछ रिपोर्टों के अनुसार, **संघर्ष क्षेत्रों (Conflict Zones)** में मारे गए नाविकों पर **वेतन** और **रोजगार** से संबंधित धमकियों के माध्यम से खतरनाक क्षेत्रों में जाने का दबाव डाला गया था। इन मुद्दों की जाँच अंतरराष्ट्रीय तंत्रों के माध्यम से की जा सकती है।

What is the difference between dark fleet vessels and sanctioned vessels?
डार्क फ्लीट जहाजों और प्रतिबंधित जहाजों में क्या अंतर है?

- **AS: Dark fleet vessels** are identified through certain criteria. These may include **fraudulent registration**, **false insurance documents**, **illegal**
- **ship-to-ship transfers**, or switching off **identification systems**.
  जहाज-से-जहाज स्थानांतरण (Ship-to-Ship Transfers), या **पहचान प्रणाली (Identification Systems)** को बंद कर देना।
- The case of the **Indian captain** arrested in the **English Channel** was different.
  इंग्लिश चैनल (English Channel) में गिरफ्तार किए गए **भारतीय कप्तान (Indian Captain)** का मामला अलग था।
- The issue was related to the vessel's **registry** and whether it was considered **stateless**.
  यह मुद्दा जहाज के **पंजीकरण (Registry)** और इस बात से संबंधित था कि क्या उसे **राज्यविहीन (Stateless)** माना गया था।
- The ship apparently had **Cameroon registration** but midway through the voyage, before entering the **English Channel**, the ship seems to have lost the registration.
  ऐसा प्रतीत होता है कि जहाज का **कैमरून पंजीकरण (Cameroon Registration)** था, लेकिन यात्रा के बीच में, **इंग्लिश चैनल (English Channel)** में प्रवेश करने से पहले, जहाज का पंजीकरण समाप्त हो गया।
- We don't know how that happened.
  हमें नहीं पता कि ऐसा कैसे हुआ।

- A ship must have a proper **flag state**.
  किसी भी जहाज का एक वैध **ध्वज राज्य (Flag State)** होना आवश्यक है।
- So the legal cover was that the ship was **stateless**.
  इसलिए कानूनी आधार यह था कि जहाज **राज्यविहीन (Stateless)** था।
- But whether the **master** should be held responsible is a separate question, because a **captain** may not always know about administrative issues.
  लेकिन **मास्टर (Master)** को उत्तरदायी ठहराया जाना चाहिए या नहीं, यह एक अलग प्रश्न है, क्योंकि **कप्तान (Captain)** को हमेशा प्रशासनिक मामलों की जानकारी हो, यह आवश्यक नहीं है।

Given this situation, what should India do?
इस स्थिति में भारत को क्या करना चाहिए?

- **BG:** India should focus on **diplomatic engagement**.
  बीजी: भारत को **राजनयिक संवाद (Diplomatic Engagement)** पर ध्यान केंद्रित करना चाहिए।
- International platforms such as **UNCLOS (United Nations Convention on the Law of the Sea)** provide a space where countries can negotiate and raise concerns.
  UNCLOS (संयुक्त राष्ट्र समुद्री कानून अभिसमय) जैसे अंतरराष्ट्रीय मंच देशों को बातचीत करने और अपनी चिंताएँ उठाने का अवसर प्रदान करते हैं।
- The **International Labour Organization** is also important because **seafarer welfare** and **rights** are discussed there.
  अंतरराष्ट्रीय श्रम संगठन (International Labour Organization - ILO) भी महत्वपूर्ण है क्योंकि वहाँ **नाविकों के कल्याण (Seafarer Welfare)** और उनके **अधिकारों (Rights)** पर चर्चा की जाती है।

But should the government tell Indian seafarers not to join these ships?
लेकिन क्या सरकार को भारतीय नाविकों से कहना चाहिए कि वे इन जहाजों पर कार्य न करें?

- **BG:** That cannot be the approach for a country like **India**.
  बीजी: भारत जैसे देश के लिए यह उचित दृष्टिकोण नहीं हो सकता।
- Much of our **trade** happens through the sea, and **shipping** is also an important source of **employment**.
  हमारा अधिकांश **व्यापार (Trade)** समुद्र के माध्यम से होता है, और **शिपिंग (Shipping)** भी **रोजगार (Employment)** का एक महत्वपूर्ण स्रोत है।
- These global platforms remain important for protecting our interests.
  हमारे हितों की रक्षा के लिए ये वैश्विक मंच महत्वपूर्ण बने हुए हैं।
- **AS:** Yes, it can be done.
  एएस: हाँ, यह किया जा सकता है।
- Recruitment in **India** happens through agencies licensed by the **Directorate General of Shipping**, and any directions issued by the **DG Shipping** are binding on them.
  भारत में भर्ती **नौवहन महानिदेशालय (Directorate General of Shipping)** द्वारा लाइसेंस प्राप्त एजेंसियों के माध्यम से होती है, और **डीजी शिपिंग (DG Shipping)** द्वारा जारी कोई भी निर्देश उन पर बाध्यकारी होता है।
- The government could maintain a dynamic list of **sanctioned** or **high-risk vessels** and require recruitment agencies to exercise caution while placing seafarers on them.
  सरकार **प्रतिबंधित (Sanctioned)** या **उच्च जोखिम वाले जहाजों (High-Risk Vessels)** की एक गतिशील सूची बनाए रख सकती है और भर्ती एजेंसियों को उन पर नाविकों की नियुक्ति करते समय सावधानी बरतने का निर्देश दे सकती है।
- In many cases, vulnerable **seafarers** — those struggling to find **employment** or facing **certification** and **documentation** issues — are being targeted by agents and drawn into risky jobs.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

कई मामलों में कमजोर **नाविक (Seafarers)** — जो **रोजगार (Employment)** पाने के लिए संघर्ष कर रहे होते हैं या **प्रमाणीकरण (Certification)** और **दस्तावेज़ीकरण (Documentation)** संबंधी समस्याओं का सामना कर रहे होते हैं — एजेंटों द्वारा निशाना बनाए जाते हैं और जोखिमपूर्ण नौकरियों में धकेल दिए जाते हैं।

- These seafarers often become innocent **scapegoats** in larger **geopolitical conflicts**.
  ये नाविक अक्सर बड़े **भूराजनीतिक संघर्षों (Geopolitical Conflicts)** में निर्दोष **बलि का बकरा (Scapegoats)** बन जाते हैं।
- The government has already taken an important **first step** by requiring seafarers to be informed.
  सरकार ने नाविकों को जानकारी देना अनिवार्य बनाकर पहले ही एक महत्वपूर्ण **पहला कदम (First Step)** उठाया है।
- But **awareness** alone is not enough.
  लेकिन केवल **जागरूकता (Awareness)** पर्याप्त नहीं है।
- The vulnerability remains, and in such circumstances, I believe the government has a **responsibility** to step in.
  कमज़ोरी अभी भी बनी हुई है, और ऐसी परिस्थितियों में मेरा मानना है कि सरकार की **जिम्मेदारी (Responsibility)** है कि वह हस्तक्षेप करे।

India's shipbuilding ambitions can set sail with Korea

GS III: Economy

In April this year, South Korean President Lee Jae Myung met Prime Minister Narendra Modi in India, his first visit to India and the first by a Korean leader in eight years. The meeting was remarkable in many ways, as it revived high-level political interaction at the leaders' level, resulting in the expansion of partnership in strategic sectors. However, the visit was special for another reason: it paved the way for strong collaboration between India and South Korea in the shipbuilding industry, a strategic sector that India is seeking to revive.

Seoul plugs into India's shipbuilding drive

Mr. Lee's visit has given positive momentum to the slowly progressing India-South Korea shipbuilding partnership, as seen in the slew of memoranda of understanding (MoU) and agreements signed during his trip. While the big three of the South Korean shipbuilding industry – Samsung Heavy Industries (SHI), HD Korea Shipbuilding & Offshore Engineering, and Hanwha Ocean – had already announced their investment plans, partnerships, or interests in India, Mr. Lee's support reiterates the South Korean government's strategic commitment to shipbuilding collaboration with India. Last year, a subsidiary of Hyundai signed an MoU with Cochin Shipyard Limited and has since announced plans to invest $4 billion in Thoothukudi, Tamil Nadu, to construct a green shipyard. Similarly, SHI has signed a partnership with Swan Defence and Heavy Industries to build ships in India. These developments showcase India's attractiveness as a shipbuilding destination for global giants.

South Korea is also interested in developing a complementary supply chain that includes ancillary industries. For instance, the Korea Marine Equipment Association (KOMEA), which comprises 304 enterprises across ship design, shipbuilding, marine equipment, and ship repair, has opened an office in Mumbai. This is expected to pave the way for the development of a robust shipbuilding ecosystem in India. Such steps will help foster a shipbuilding cluster encompassing ancillary industries and other critical facilities required for scaling up the sector. Further, these partnerships are expected to provide the Indian shipbuilding industry with much-needed support, including design and engineering expertise as well as production know-how. This will help India develop human capital and adopt technology at scale, making its shipyards more competitive internationally. In addition, the various MoUs signed between India and South Korea – at both the government-to-government and business-to-business levels – on workforce development, maritime education, research, and innovation will further strengthen the shipbuilding ecosystem. Together, these efforts could help establish a holistic, cluster-led development model inspired by the success of the city of Ulsan in South Korea.

Abhishek Sharma
Junior Fellow, Indo-Pacific, with the Strategic Studies Programme at the Observer Research Foundation

South Korean partnerships could help accelerate India's ambitions to become a shipbuilding powerhouse

What has been accomplished in such a short time is commendable, but the task is far from complete. To emerge as a leading shipbuilding nation, India will have to pursue multiple objectives simultaneously. It must support the industry through proactive policy and fiscal measures while also responding effectively to external crises that could disrupt supply chains and affect demand. The sector will require sustained hand-holding until it becomes self-sufficient and capable of competing globally, particularly with established giants such as China.

Fill the gaps

There must be a focus on human capital development, policy and fiscal support, and bringing in ancillary industries. India's Maritime Vision 2030 and Maritime Amrit Kaal Vision 2047 clearly state the objective of being among the top 10 shipbuilding nations by 2030 and in the top five by 2047.

Complementing initiatives such as the Maritime Development Fund, Shipbuilding Development Scheme, and Shipbuilding Financial Assistance Policy make it clearer that India is serious about attracting foreign investment in the shipping and shipbuilding sector.

However, policy and operational gaps persist. To rectify these gaps, India will have to focus on implementing a series of reforms related to regulatory consistency and legal predictability and also providing access to low-cost and long-term capital. Steps such as the creation of the Sagarmala Finance Corporation Limited (SFCL), India's first non-banking financial company for the maritime sector, are a positive and welcome development.

However, the greater challenge will be establishing a comprehensive industrial ecosystem for shipbuilding. To achieve this, India will need to move quickly on workforce development, supplier localisation, and the creation of dedicated maritime institutions. In addition, Indian academia and research institutions will have to play a larger role in this developmental partnership to support the country's shipbuilding ambitions.

India must continue to focus on three key priorities: providing sustained policy and fiscal support, developing the capacity to absorb transferred technologies, and formulating a sectoral strategy with clearly defined goals and targets. The in-principle approval of the greenfield project in Tamil Nadu is a welcome development, signalling that approval and implementation bottlenecks need not be insurmountable. To capitalise on this opportunity, however, State governments, alongside the central government, must ensure timely follow-through at every stage, facilitate the entry of foreign investors, and provide continuous support throughout the investment process.

A proven pathway

While India's shipbuilding ambitions are ambitious, they are not impractical. South Korea's shipbuilding journey, from a minor player to a global leader in just 15 years, beginning in the 1970s, demonstrates what is possible. India can replicate that success by focusing on three priorities: sustained policy and financial support, competitive shipbuilding and industrial capacity, and a skilled workforce.

26J6. India's shipbuilding ambitions can set sail with Korea
कोरिया के साथ भारत की जहाज निर्माण महत्वाकांक्षाएँ नई उड़ान भर सकती हैं

- In **April** this year, **South Korean President Lee Jae Myung** met **Prime Minister Narendra Modi** in **India**, his first visit to India and the first by a Korean leader in **eight years**.
  इस वर्ष **अप्रैल** में **दक्षिण कोरिया के राष्ट्रपति ली जे म्युंग** ने **भारत** में **प्रधानमंत्री नरेंद्र मोदी** से मुलाकात की, जो उनकी भारत की पहली यात्रा तथा किसी कोरियाई नेता की **आठ वर्षों** में पहली भारत यात्रा थी।
- The meeting was remarkable in many ways, as it revived high-level political interaction at the leaders' level, resulting in the expansion of partnership in **strategic sectors**.
  यह बैठक कई दृष्टियों से महत्वपूर्ण रही क्योंकि इससे शीर्ष नेतृत्व स्तर पर राजनीतिक संवाद पुनः प्रारम्भ हुआ और **रणनीतिक क्षेत्रों** में साझेदारी का विस्तार हुआ।
- However, the visit was special for another reason: it paved the way for strong collaboration between **India** and **South Korea** in the **shipbuilding industry**, a strategic sector that India is seeking to revive.
  हालाँकि, यह यात्रा एक और कारण से विशेष रही क्योंकि इसने **भारत** और **दक्षिण कोरिया** के बीच **जहाज निर्माण उद्योग** में मजबूत सहयोग का मार्ग प्रशस्त किया, जिसे भारत पुनर्जीवित करने का प्रयास कर रहा है।

Seoul plugs into India's shipbuilding drive
सियोल भारत के जहाज निर्माण अभियान से जुड़ रहा है

- Mr. **Lee's** visit has given positive momentum to the slowly progressing **India-South Korea shipbuilding partnership**, as seen in the slew of **Memoranda of Understanding (MoU)** and agreements signed during his trip.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

श्री **ली** की यात्रा ने धीरे-धीरे आगे बढ़ रही **भारत-दक्षिण कोरिया जहाज निर्माण साझेदारी** को नई गति दी है, जिसका प्रमाण उनकी यात्रा के दौरान हस्ताक्षरित अनेक **समझौता ज्ञापनों (MoU)** और समझौतों से मिलता है।

- While the big three of the **South Korean shipbuilding industry** — **Samsung Heavy Industries (SHI)**, **HD Korea Shipbuilding & Offshore Engineering**, and **Hanwha Ocean** — had already announced their investment plans, partnerships, or interests in India, Mr. Lee's support reiterates the **South Korean government's** strategic commitment to shipbuilding collaboration with India.
  यद्यपि **दक्षिण कोरिया के जहाज निर्माण उद्योग** की तीन प्रमुख कंपनियाँ — **सैमसंग हेवी इंडस्ट्रीज़ (SHI)**, **HD कोरिया शिपबिल्डिंग एंड ऑफशोर इंजीनियरिंग**, और **हनव्हा ओशन** — पहले ही भारत में निवेश योजनाओं, साझेदारियों या रुचि की घोषणा कर चुकी थीं, फिर भी श्री ली का समर्थन **दक्षिण कोरियाई सरकार** की भारत के साथ जहाज निर्माण सहयोग के प्रति रणनीतिक प्रतिबद्धता को दोहराता है।
- Last year, a subsidiary of **Hyundai** signed an **MoU** with **Cochin Shipyard Limited** and has since announced plans to invest **$4 billion** in **Thoothukudi, Tamil Nadu**, to construct a **green shipyard**.
  पिछले वर्ष **ह्युंडई** की एक सहायक कंपनी ने **कोचीन शिपयार्ड लिमिटेड** के साथ **MoU** पर हस्ताक्षर किए और इसके बाद **तमिलनाडु के तूतीकोरिन** में **4 अरब डॉलर** निवेश कर एक **ग्रीन शिपयार्ड** बनाने की योजना की घोषणा की।
- Similarly, **SHI** has signed a partnership with **Swan Defence and Heavy Industries** to build ships in **India**.
  इसी प्रकार **SHI** ने **स्वान डिफेंस एंड हेवी इंडस्ट्रीज़** के साथ **भारत** में जहाज निर्माण के लिए साझेदारी की है।
- These developments showcase **India's** attractiveness as a shipbuilding destination for **global giants**.
  ये घटनाक्रम **भारत** को **वैश्विक कंपनियों** के लिए एक आकर्षक जहाज निर्माण गंतव्य के रूप में प्रस्तुत करते हैं।
- **South Korea** is also interested in developing a complementary **supply chain** that includes **ancillary industries**.
  दक्षिण कोरिया ऐसी पूरक **आपूर्ति श्रृंखला** विकसित करने में भी रुचि रखता है जिसमें **सहायक उद्योग** शामिल हों।
- For instance, the **Korea Marine Equipment Association (KOMEA)**, which comprises **304 enterprises** across ship design, shipbuilding, marine equipment, and ship repair, has opened an office in **Mumbai**.
  उदाहरण के लिए, **कोरिया मरीन इक्विपमेंट एसोसिएशन (KOMEA)**, जिसमें जहाज डिजाइन, जहाज निर्माण, समुद्री उपकरण और जहाज मरम्मत से जुड़ी **304 कंपनियाँ** शामिल हैं, ने **मुंबई** में अपना कार्यालय खोला है।
- This is expected to pave the way for the development of a robust **shipbuilding ecosystem** in **India**.
  इससे **भारत** में एक मजबूत **जहाज निर्माण पारिस्थितिकी तंत्र** के विकास का मार्ग प्रशस्त होने की उम्मीद है।
- Such steps will help foster a **shipbuilding cluster** encompassing ancillary industries and other critical facilities required for scaling up the sector.
  ऐसे कदम **जहाज निर्माण क्लस्टर** के विकास में सहायक होंगे, जिसमें सहायक उद्योग और इस क्षेत्र के विस्तार के लिए आवश्यक अन्य महत्वपूर्ण सुविधाएँ शामिल होंगी।
- Further, these partnerships are expected to provide the **Indian shipbuilding industry** with much-needed support, including **design and engineering expertise** as well as **production know-how**.
  इसके अतिरिक्त, इन साझेदारियों से **भारतीय जहाज निर्माण उद्योग** को **डिज़ाइन एवं इंजीनियरिंग विशेषज्ञता** तथा **उत्पादन संबंधी तकनीकी ज्ञान** सहित आवश्यक सहयोग मिलने की अपेक्षा है।
- This will help **India** develop **human capital** and adopt technology at scale, making its shipyards more competitive internationally.
  इससे **भारत** को **मानव संसाधन** विकसित करने और बड़े पैमाने पर तकनीक अपनाने में सहायता मिलेगी, जिससे उसके शिपयार्ड अंतरराष्ट्रीय स्तर पर अधिक प्रतिस्पर्धी बनेंगे।

- In addition, the various **MoUs** signed between **India** and **South Korea** — at both the **government-to-government** and **business-to-business** levels — on **workforce development**, **maritime education**, **research**, and **innovation** will further strengthen the shipbuilding ecosystem.
  इसके अतिरिक्त **भारत** और **दक्षिण कोरिया** के बीच **सरकार-से-सरकार** तथा **व्यवसाय-से-व्यवसाय** स्तर पर **कार्यबल विकास**, **समुद्री शिक्षा**, **अनुसंधान** और **नवाचार** से संबंधित विभिन्न **MoUs** जहाज निर्माण पारिस्थितिकी तंत्र को और मजबूत करेंगे।
- Together, these efforts could help establish a holistic, **cluster-led development model** inspired by the success of the city of **Ulsan** in **South Korea**.
  ये सभी प्रयास मिलकर **दक्षिण कोरिया** के **उल्सान** शहर की सफलता से प्रेरित एक समग्र **क्लस्टर-आधारित विकास मॉडल** स्थापित करने में सहायक हो सकते हैं।
- What has been accomplished in such a short time is commendable, but the task is far from complete.
  इतने कम समय में जो उपलब्धियाँ प्राप्त हुई हैं वे सराहनीय हैं, लेकिन कार्य अभी पूरा नहीं हुआ है।
- To emerge as a leading **shipbuilding nation**, **India** will have to pursue multiple objectives simultaneously.
  एक अग्रणी **जहाज निर्माण राष्ट्र** बनने के लिए **भारत** को एक साथ अनेक लक्ष्यों पर कार्य करना होगा।
- It must support the industry through proactive **policy** and **fiscal measures** while also responding effectively to external crises that could disrupt **supply chains** and affect demand.
  उसे सक्रिय **नीतिगत** और **राजकोषीय उपायों** के माध्यम से उद्योग का समर्थन करना होगा तथा उन बाहरी संकटों का प्रभावी ढंग से सामना करना होगा जो **आपूर्ति श्रृंखला** और मांग को प्रभावित कर सकते हैं।
- The sector will require sustained hand-holding until it becomes self-sufficient and capable of competing globally, particularly with established giants such as **China**.
  इस क्षेत्र को तब तक निरंतर समर्थन की आवश्यकता होगी जब तक यह आत्मनिर्भर होकर **चीन** जैसे स्थापित वैश्विक दिग्गजों से प्रतिस्पर्धा करने में सक्षम न हो जाए।

Fill the gaps
कमियों को दूर करें

- There must be a focus on **human capital development**, **policy and fiscal support**, and bringing in **ancillary industries**.
  मानव संसाधन विकास, **नीतिगत एवं राजकोषीय समर्थन** तथा **सहायक उद्योगों** को बढ़ावा देने पर विशेष ध्यान देना होगा।
- **India's Maritime Vision 2030** and **Maritime Amrit Kaal Vision 2047** clearly state the objective of being among the **top 10 shipbuilding nations** by **2030** and in the **top five** by **2047**.
  भारत का मैरीटाइम विज़न 2030 और **मैरीटाइम अमृत काल विज़न 2047** स्पष्ट रूप से **2030** तक **शीर्ष 10 जहाज निर्माण देशों** में तथा **2047** तक **शीर्ष पाँच** में शामिल होने का लक्ष्य निर्धारित करते हैं।
- Complementing initiatives such as the **Maritime Development Fund**, **Shipbuilding Development Scheme**, and **Shipbuilding Financial Assistance Policy** make it clearer that **India** is serious about attracting **foreign investment** in the shipping and shipbuilding sector.
  मैरीटाइम डेवलपमेंट फंड, **शिपबिल्डिंग डेवलपमेंट स्कीम** और **शिपबिल्डिंग फाइनेंशियल असिस्टेंस पॉलिसी** जैसी पहलें यह स्पष्ट करती हैं कि **भारत** जहाजरानी और जहाज निर्माण क्षेत्र में **विदेशी निवेश** आकर्षित करने के प्रति गंभीर है।
- However, **policy** and **operational gaps** persist.
  हालाँकि **नीतिगत** और **परिचालन संबंधी कमियाँ** अभी भी बनी हुई हैं।
- To rectify these gaps, **India** will have to focus on implementing a series of reforms related to **regulatory consistency** and **legal predictability** and also providing access to **low-cost** and **long-term capital**.

इन कमियों को दूर करने के लिए **भारत** को **नियामकीय स्थिरता**, **कानूनी पूर्वानुमेयता** तथा **कम लागत** और **दीर्घकालिक पूंजी** की उपलब्धता से जुड़े सुधार लागू करने होंगे।

- Steps such as the creation of the **Sagarmala Finance Corporation Limited (SFCL)**, **India's** first **non-banking financial company** for the maritime sector, are a positive and welcome development.
  सागरमाला फाइनेंस कॉर्पोरेशन लिमिटेड (SFCL) जैसी पहल, जो **भारत** की समुद्री क्षेत्र की पहली **गैर-बैंकिंग वित्तीय कंपनी** है, एक सकारात्मक और स्वागतयोग्य कदम है।
- However, the greater challenge will be establishing a comprehensive **industrial ecosystem** for shipbuilding.
  हालाँकि सबसे बड़ी चुनौती जहाज निर्माण के लिए एक व्यापक **औद्योगिक पारिस्थितिकी तंत्र** स्थापित करना होगी।
- To achieve this, **India** will need to move quickly on **workforce development**, **supplier localisation**, and the creation of dedicated **maritime institutions**.
  इसे प्राप्त करने के लिए **भारत** को **कार्यबल विकास**, **आपूर्तिकर्ताओं के स्थानीयकरण** तथा समर्पित **समुद्री संस्थानों** की स्थापना पर तेजी से कार्य करना होगा।
- In addition, **Indian academia** and **research institutions** will have to play a larger role in this developmental partnership to support the country's shipbuilding ambitions.
  इसके अतिरिक्त **भारतीय शैक्षणिक संस्थानों** और **अनुसंधान संस्थानों** को देश की जहाज निर्माण महत्वाकांक्षाओं को समर्थन देने के लिए इस विकासात्मक साझेदारी में बड़ी भूमिका निभानी होगी।
- **India** must continue to focus on **three key priorities**: providing sustained **policy and fiscal support**, developing the capacity to absorb **transferred technologies**, and formulating a **sectoral strategy** with clearly defined goals and targets.
  भारत को **तीन प्रमुख प्राथमिकताओं** पर ध्यान केंद्रित रखना होगा: निरंतर **नीतिगत और राजकोषीय समर्थन**, **प्रौद्योगिकी हस्तांतरण** को अपनाने की क्षमता विकसित करना तथा स्पष्ट लक्ष्यों वाली **क्षेत्रीय रणनीति** तैयार करना।
- The **in-principle approval** of the **greenfield project** in **Tamil Nadu** is a welcome development, signalling that approval and implementation bottlenecks need not be insurmountable.
  तमिलनाडु में **ग्रीनफील्ड परियोजना** को मिली **सैद्धांतिक स्वीकृति** एक सकारात्मक संकेत है कि स्वीकृति और कार्यान्वयन से जुड़ी बाधाएँ असाध्य नहीं हैं।
- To capitalise on this opportunity, however, **State governments**, alongside the **Central government**, must ensure timely follow-through at every stage, facilitate the entry of **foreign investors**, and provide continuous support throughout the investment process.
  हालाँकि इस अवसर का पूरा लाभ उठाने के लिए **राज्य सरकारों** को **केंद्र सरकार** के साथ मिलकर प्रत्येक चरण में समयबद्ध कार्यान्वयन सुनिश्चित करना होगा, **विदेशी निवेशकों** के प्रवेश को सुगम बनाना होगा और पूरे निवेश प्रक्रिया के दौरान निरंतर सहयोग देना होगा।

A proven pathway
एक सिद्ध मार्ग

- While **India's shipbuilding ambitions** are ambitious, they are not impractical.
  यद्यपि **भारत की जहाज निर्माण महत्वाकांक्षाएँ** बड़ी हैं, लेकिन वे अव्यावहारिक नहीं हैं।
- **South Korea's** shipbuilding journey, from a minor player to a **global leader** in just **15 years**, beginning in the **1970s**, demonstrates what is possible.
  दक्षिण कोरिया की जहाज निर्माण यात्रा, जो **1970 के दशक** से शुरू होकर मात्र **15 वर्षों** में एक छोटे खिलाड़ी से **वैश्विक नेता** बनने तक पहुँची, यह दर्शाती है कि क्या संभव है।
- **India** can replicate that success by focusing on **three priorities**: sustained **policy and financial support**, competitive **shipbuilding and industrial capacity**, and a **skilled workforce**.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

भारत भी **तीन प्राथमिकताओं** पर ध्यान केंद्रित करके इस सफलता को दोहरा सकता है: निरंतर **नीतिगत और वित्तीय समर्थन**, प्रतिस्पर्धी **जहाज निर्माण एवं औद्योगिक क्षमता**, तथा **कुशल कार्यबल**।

Amazon to invest additional $13 bn in AI, cloud: CEO

GS III: Economy

The Hindu Bureau
BENGALURU

Amazon CEO Andy Jassy on Thursday announced an additional investment of $13 billion to expand AI and cloud infrastructure in India by 2030. This comes within six months of Amazon announcing $35 billion in new investments in the country. Mr. Jassy met Prime Minister Narendra Modi earlier in the day at New Delhi and reiterated Amazon's long-term commitment to the country.

The CEO highlighted the growing importance of India, where Amazon operated several businesses including ecommerce, AI and cloud, and entertainment among others. He also noted that the company's India business was on a strong growth trajectory with strong customer demand, especially in e-commerce and AWS business.

"We came to India over a decade ago and have since been serving customers, sellers, developers, start-ups and enterprises through our different businesses. The response has been tremendous, with strong growth especially across our e-commerce, AI, and cloud businesses," Mr. Jassy said.

"As we grow Amazon in India, our business priorities continue to align with India's priorities of democratising access to AI, digitising small businesses, creating jobs, and enabling exports. We are investing over $48 billion in the coming five years to meet the strong demand across our business in India and to help the country achieve these priorities," he said.

Amazon CEO Andy Jassy with Prime Minister Narendra Modi on Thursday.

This takes Amazon's total planned investment in expanding and supporting AI and cloud infrastructure to over $21 billion between 2026 and 2030, establishing it as one of the largest global AI and cloud infrastructure investors in the country.

According to an Amazon communique, the investment will expand AWS data centre capacity in Mumbai and Hyderabad, giving start-ups, enterprises and government organisations access to custom AI chips, managed AI services, secure and reliable cloud technologies and developer tools to innovate faster, scale rapidly, and serve customers globally.

Amazon's cumulative investments in India from 2010-2030 stand at over $88 billion, as per the company. The company plans to launch over 20 new fulfilment centres and over 100 new last-mile delivery stations this year, ensuring faster and reliable deliveries nationwide, especially in tier 3 and 4 cities.

26J6. Amazon to invest additional $13 bn in AI, cloud: CEO

अमेज़न AI और क्लाउड में अतिरिक्त 13 अरब डॉलर का निवेश करेगा: CEO

- **Amazon CEO Andy Jassy** on Thursday announced an additional investment of **$13 billion** to expand **AI** and **cloud infrastructure** in **India** by **2030**.

अमेज़न के CEO एंडी जैसी (Andy Jassy) ने गुरुवार को **भारत** में **2030** तक **AI** और **क्लाउड इंफ्रास्ट्रक्चर** के विस्तार के लिए अतिरिक्त **13 अरब डॉलर** के निवेश की घोषणा की।

- This comes within six months of **Amazon** announcing **$35 billion** in new investments in the country.

यह घोषणा **अमेज़न** द्वारा देश में **35 अरब डॉलर** के नए निवेश की घोषणा के छह महीने के भीतर की गई है।

- Mr. **Jassy** met **Prime Minister Narendra Modi** earlier in the day at **New Delhi** and reiterated **Amazon's** long-term commitment to the country.

श्री **जैसी** ने दिन में पहले **नई दिल्ली** में **प्रधानमंत्री नरेंद्र मोदी** से मुलाकात की और देश के प्रति **अमेज़न** की दीर्घकालिक प्रतिबद्धता दोहराई।

- The CEO highlighted the growing importance of **India**, where **Amazon** operated several businesses including **e-commerce**, **AI** and **cloud**, and **entertainment** among others.

CEO ने **भारत** के बढ़ते महत्व पर प्रकाश डाला, जहाँ **अमेज़न ई-कॉमर्स**, **AI**, **क्लाउड**, **मनोरंजन** सहित कई क्षेत्रों में कार्यरत है।

- He also noted that the company's **India** business was on a strong growth trajectory with strong customer demand, especially in **e-commerce** and **AWS** business.

उन्होंने यह भी कहा कि कंपनी का **भारत** में कारोबार मजबूत विकास की दिशा में बढ़ रहा है, जहाँ विशेष रूप से **ई-कॉमर्स** और **AWS** व्यवसाय में ग्राहकों की मांग काफी मजबूत है।

- "We came to **India** over a decade ago and have since been serving customers, sellers, developers, start-ups and enterprises through our different businesses.

"हम एक दशक से अधिक पहले **भारत** आए थे और तब से अपने विभिन्न व्यवसायों के माध्यम से ग्राहकों, विक्रेताओं, डेवलपर्स, **स्टार्ट-अप्स** और उद्यमों को सेवाएँ प्रदान कर रहे हैं।

- The response has been tremendous, with strong growth especially across our **e-commerce**, **AI**, and **cloud** businesses," Mr. **Jassy** said.

हमारे **ई-कॉमर्स**, **AI**, और **क्लाउड** व्यवसायों में विशेष रूप से तेज़ वृद्धि हुई है और हमें अत्यंत सकारात्मक प्रतिक्रिया मिली है," श्री **जैसी** ने कहा।

- "As we grow **Amazon** in **India**, our business priorities continue to align with **India's** priorities of democratising access to **AI**, digitising **small businesses**, creating **jobs**, and enabling **exports**.
  "जैसे-जैसे **भारत** में **अमेज़न** का विस्तार हो रहा है, हमारी व्यावसायिक प्राथमिकताएँ **भारत** की प्राथमिकताओं के अनुरूप हैं, जिनमें **AI** तक लोकतांत्रिक पहुँच, **लघु व्यवसायों** का डिजिटलीकरण, **रोज़गार** सृजन और **निर्यात** को बढ़ावा देना शामिल है।
- We are investing over **$48 billion** in the coming **five years** to meet the strong demand across our business in **India** and to help the country achieve these priorities," he said.
  हम आने वाले **पाँच वर्षों** में **भारत** में अपने व्यवसाय की बढ़ती मांग को पूरा करने तथा देश को इन प्राथमिकताओं को हासिल करने में सहयोग देने के लिए **48 अरब डॉलर** से अधिक का निवेश कर रहे हैं," उन्होंने कहा।
- This takes **Amazon's** total planned investment in expanding and supporting **AI** and **cloud infrastructure** to over **$21 billion** between **2026** and **2030**, establishing it as one of the largest global **AI** and **cloud infrastructure** investors in the country.
  इससे **2026** से **2030** के बीच **AI** और **क्लाउड इंफ्रास्ट्रक्चर** के विस्तार एवं समर्थन हेतु **अमेज़न** का कुल नियोजित निवेश **21 अरब डॉलर** से अधिक हो जाएगा, जिससे वह देश में **AI** और **क्लाउड इंफ्रास्ट्रक्चर** के सबसे बड़े वैश्विक निवेशकों में शामिल हो जाएगा।
- According to an **Amazon** communique, the investment will expand **AWS data centre** capacity in **Mumbai** and **Hyderabad**, giving **start-ups**, **enterprises** and **government organisations** access to custom **AI chips**, managed **AI services**, secure and reliable **cloud technologies** and **developer tools** to innovate faster, scale rapidly, and serve customers globally.
  अमेज़न के एक आधिकारिक बयान के अनुसार, यह निवेश **मुंबई** और **हैदराबाद** में **AWS डेटा सेंटर** की क्षमता का विस्तार करेगा, जिससे **स्टार्ट-अप्स**, **उद्यमों** और **सरकारी संगठनों** को विशेष **AI चिप्स**, प्रबंधित **AI सेवाएँ**, सुरक्षित एवं विश्वसनीय **क्लाउड तकनीक** तथा **डेवलपर टूल्स** उपलब्ध होंगे, जिससे वे तेज़ी से नवाचार कर सकेंगे, शीघ्र विस्तार कर सकेंगे और वैश्विक ग्राहकों को सेवाएँ प्रदान कर सकेंगे।
- **Amazon's** cumulative investments in **India** from **2010-2030** stand at over **$88 billion**, as per the company.
  कंपनी के अनुसार, **2010-2030** के दौरान **भारत** में **अमेज़न** का कुल संचयी निवेश **88 अरब डॉलर** से अधिक होगा।
- The company plans to launch over **20 new fulfilment centres** and over **100 new last-mile delivery stations** this year, ensuring faster and reliable deliveries nationwide, especially in **Tier-3** and **Tier-4 cities**.
  कंपनी इस वर्ष **20 से अधिक नए फुलफिलमेंट सेंटर** और **100 से अधिक नए लास्ट-माइल डिलीवरी स्टेशन** शुरू करने की योजना बना रही है, जिससे पूरे देश में, विशेषकर **टियर-3** और **टियर-4 शहरों** में, तेज़ और विश्वसनीय डिलीवरी सुनिश्चित की जा सकेगी।

Village youth track down wildlife wonders in drought-prone Satara

GS III: Environment

Snehal Mutha
MUMBAI

In a community-led survey, the locals from Maharashtra's Kiraksal, a hilly village in the drought-prone region of Satara, documented over 600 species.

Indian wolf, Bengal fox, striped hyena and many more were spotted using camera traps and GIS mapping. The 606 documented species include 212 birds, 34 herpetofauna, 160 vascular plants, and 18 mammals. The Kukudwad forest landscape, adjoining Kiraksal, hosts 295 distinct floral species.

The findings of the research - started in 2023 under the Kiraksal Conservation Project to document the "pulsating life" of the Mandesh area - was submitted earlier this year to the Chief Conservator of Forest, Kolhapur (Territorial) Forest Circle, Deputy Conservator of Forest (Territorial), Satara Forest Division, Maharashtra Forest Department, and World Wildlife Fund for Nature (WWF India), who also funded the project.

Stripes and sights: A striped hyena at Kiraksal village in Satara district of Maharashtra; the village youth were trained to install cameras and monitor the captured footage in a community-led survey that documented more than 600 species in the hilly village. SPECIAL ARRANGEMENT

"We confirmed that Kiraksal is a breeding stronghold for the striped hyena, golden jackal, Bengal fox and the Indian grey wolf. We are currently monitoring two wolf packs, mapping active breeding dens and essential rendezvous sites for species persistence, in the rocky crevices of the Dambi Hills and Maddadara scrub forests of Kiraksal," said Chinmay Prakash Sawant, project lead and Mumbai-based wildlife biologist.

Involvement of locals

The study recognised that the colonial classification of areas at Maan taluka as wastelands are actually vital open natural ecosystems that constitute approximately 25.6% of the district, totalling 2,686 sq km. Maan taluka alone is spread across 1,451.19 sq. km, of which around 18.2 sq km comprises Kiraksal village on the border of Maan- Khatav tehsil.

The youth of Kiraksal village from Maan were trained to instal cameras and monitor the captured footage. Several villagers, previously involved in hunting and now having knowledge of dense areas, helped the team of biologists to locate sites spotting the hyenas and wolves. "The locals are the guardians. They have better knowledge and we use that knowledge," said Mr. Sawant, who has spent a fair amount of childhood vacations in Kiraksal.

The local community of Kiraksal involved in the project implemented a "trisystem" of self- imposed social prohibitions - *kurhad bandi* (ban on axe or prohibition on cutting trees), *shikar bandi* (hunting ban), and *vanva bandi* (forest fire ban) to maintain ecological health of the landscape. Along with the documentation, the research team also created awareness among the villagers to protect wildlife in the area, making them understand the importance of the food chain.

After the study, a proposal was submitted to the Deputy Conservator of Forests of Satara Forest Division to declare 23 villages, spread across 4,793 hectares of Maan and Khatav forest ranges, as Mandesh Conservation Reserve. "We are also working to include the continuous stretch of three clusters (Kiraksal, Kukudwad, and Kaledhon) to be conserved with legal protection," said Mr. Sawant.

26J6. Village youth track down wildlife wonders in drought-prone Satara
सूखा-प्रभावित सतारा में गाँव के युवाओं ने वन्यजीवों के अद्भुत संसार का पता लगाया

- In a **community-led survey**, the locals from **Maharashtra's Kiraksal**, a hilly village in the **drought-prone** region of **Satara**, documented over **600 species**.
  समुदाय-नेतृत्व वाले सर्वेक्षण में **महाराष्ट्र के किरकसल** के स्थानीय लोगों ने, जो **सतारा** के **सूखा-प्रभावित** क्षेत्र का एक पहाड़ी गाँव है, **600 से अधिक प्रजातियों** का दस्तावेजीकरण किया।
- **Indian wolf**, **Bengal fox**, **striped hyena** and many more were spotted using **camera traps** and **GIS mapping**.
  भारतीय भेड़िया, **बंगाल लोमड़ी**, **धारीदार लकड़बग्घा** सहित कई अन्य वन्यजीवों को **कैमरा ट्रैप** और **जीआईएस मैपिंग** की सहायता से देखा गया।
- The **606 documented species** include **212 birds**, **34 herpetofauna**, **160 vascular plants**, and **18 mammals**.
  दस्तावेजीकृत 606 प्रजातियों में **212 पक्षी**, **34 हर्पेटोफौना**, **160 संवहनी पौधे**, और **18 स्तनधारी** शामिल हैं।
- The **Kukudwad forest landscape**, adjoining **Kiraksal**, hosts **295 distinct floral species**.
  किरकसल से लगा **कुकुडवाड वन परिदृश्य 295 विशिष्ट पुष्पीय प्रजातियों** का निवास स्थान है।
- The **findings** of the **research** – started in **2023** under the **Kiraksal Conservation Project** to document the **"pulsating life"** of the **Mandesh** area – was submitted earlier this year to the **Chief Conservator of Forest, Kolhapur (Territorial) Forest Circle**, **Deputy Conservator of Forest (Territorial), Satara Forest Division**, **Maharashtra Forest Department**, and **World Wildlife Fund for Nature (WWF India)**, who also funded the project.
  अनुसंधान के **निष्कर्ष**, जो **2023** में **किरकसल संरक्षण परियोजना** के तहत **मांडेश** क्षेत्र के **"स्पंदित जीवन"** का दस्तावेजीकरण करने के लिए शुरू किए गए थे, इस वर्ष की शुरुआत में **मुख्य वन संरक्षक, कोल्हापुर (प्रादेशिक)**

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur

वन वृत्त, **उप वन संरक्षक (प्रादेशिक), सतारा वन प्रभाग**, **महाराष्ट्र वन विभाग**, और **वर्ल्ड वाइल्डलाइफ फंड फॉर नेचर (WWF इंडिया)** को सौंपे गए, जिसने इस परियोजना को वित्तीय सहायता भी प्रदान की।

- "We **confirmed** that **Kiraksal** is a **breeding stronghold** for the **striped hyena**, **golden jackal**, **Bengal fox** and the **Indian grey wolf**.
  "हमने **पुष्टि** की है कि **किरकसल**, **धारीदार लकड़बग्घा**, **सुनहरा सियार**, **बंगाल लोमड़ी** और **भारतीय धूसर भेड़िये** का एक प्रमुख **प्रजनन केंद्र** है।
- We are currently **monitoring two wolf packs**, mapping active **breeding dens** and essential **rendezvous sites** for species persistence, in the **rocky crevices** of the **Dambi Hills** and **Madladara scrub forests** of **Kiraksal**," said **Chinmay Prakash Sawant**, project lead and **Mumbai-based wildlife biologist**.
  हम वर्तमान में **भेड़ियों के दो झुंडों की निगरानी** कर रहे हैं तथा **किरकसल** की **डांबी पहाड़ियों** और **मदलादरा झाड़ीदार वनों** की **चट्टानी दरारों** में सक्रिय **प्रजनन मांदों** और प्रजातियों के संरक्षण के लिए आवश्यक **मिलन स्थलों** का मानचित्रण कर रहे हैं," परियोजना प्रमुख और **मुंबई स्थित वन्यजीव जीवविज्ञानी चिन्मय प्रकाश सावंत** ने कहा।

Involvement of locals
स्थानीय लोगों की भागीदारी

- The **study** recognised that the **colonial classification** of areas at **Maan taluka** as **wastelands** are actually **vital open natural ecosystems** that constitute approximately **25.6%** of the district, totalling **2,686 sq km**.
  अध्ययन ने माना कि **मान तालुका** के क्षेत्रों को **औपनिवेशिक वर्गीकरण** में **बंजर भूमि** कहा गया था, जबकि वे वास्तव में **महत्वपूर्ण खुले प्राकृतिक पारिस्थितिकी तंत्र** हैं, जो जिले के लगभग **25.6%** क्षेत्र अर्थात **2,686 वर्ग किमी** में फैले हुए हैं।
- **Maan taluka** alone is spread across **1,451.19 sq. km**, of which around **18.2 sq km** comprises **Kiraksal village** on the border of **Maan-Khatav tehsil**.
  केवल **मान तालुका** ही **1,451.19 वर्ग किमी** क्षेत्र में फैला है, जिसमें लगभग **18.2 वर्ग किमी** क्षेत्र **मान-खटाव तहसील** की सीमा पर स्थित **किरकसल गाँव** का है।
- The local community of **Kiraksal** involved in the project implemented a **"tri-system"** of **self-imposed social prohibitions** – **kurhad bandi** (ban on axe or prohibition on cutting trees), **shikar bandi** (hunting ban), and **vanva bandi** (forest fire ban) to maintain **ecological health** of the landscape.
  परियोजना से जुड़े **किरकसल** के स्थानीय समुदाय ने परिदृश्य के **पारिस्थितिक स्वास्थ्य** को बनाए रखने के लिए **स्व-लगाए गए सामाजिक प्रतिबंधों** की **"त्रि-प्रणाली"** लागू की – **कुरहाड़ बंदी** (कुल्हाड़ी या पेड़ काटने पर प्रतिबंध), **शिकार बंदी** (शिकार पर प्रतिबंध), और **वनवा बंदी** (वनाग्नि पर प्रतिबंध)।
- Along with the **documentation**, the **research team** also created **awareness** among the villagers to protect **wildlife** in the area, making them understand the importance of the **food chain**.
  दस्तावेजीकरण के साथ-साथ **अनुसंधान दल** ने ग्रामीणों के बीच **जागरूकता** भी फैलाई ताकि वे क्षेत्र के **वन्यजीवों** की रक्षा करें और **खाद्य श्रृंखला** के महत्व को समझें।
- After the **study**, a proposal was submitted to the **Deputy Conservator of Forests** of **Satara Forest Division** to declare **23 villages**, spread across **4,793 hectares** of **Maan** and **Khatav forest ranges**, as **Mandesh Conservation Reserve**.
  अध्ययन के बाद **सतारा वन प्रभाग** के **उप वन संरक्षक** को एक प्रस्ताव सौंपा गया, जिसमें **मान** और **खटाव वन क्षेत्र** के **4,793 हेक्टेयर** में फैले **23 गाँवों** को **मांडेश संरक्षण रिजर्व** घोषित करने की मांग की गई।
- "We are also working to include the continuous stretch of **three clusters (Kiraksal, Kukudwad, and Kaledhon)** to be conserved with **legal protection**," said Mr. **Sawant**.
  "हम **तीन समूहों (किरकसल, कुकुडवाड और कालेढोन)** के सतत क्षेत्र को **कानूनी संरक्षण** के साथ सुरक्षित करने की दिशा में भी काम कर रहे हैं," **श्री सावंत** ने कहा।

- The **youth** of **Kiraksal village** from **Maan** were trained to **instal cameras** and monitor the **captured footage**.
  मान के **किरकसल गाँव** के **युवाओं** को **कैमरे स्थापित करने** और **रिकॉर्ड किए गए फुटेज** की निगरानी करने का प्रशिक्षण दिया गया।
- Several **villagers**, previously involved in **hunting** and now having knowledge of dense areas, helped the team of **biologists** to locate sites spotting the **hyenas** and **wolves**.
  कई **ग्रामीण**, जो पहले **शिकार** में शामिल थे और अब घने क्षेत्रों का ज्ञान रखते हैं, उन्होंने **जीवविज्ञानियों** की टीम को **लकड़बग्घों** और **भेड़ियों** के देखे जाने वाले स्थानों की पहचान करने में सहायता की।
- "The **locals** are the **guardians**.
  "**स्थानीय लोग** ही इस क्षेत्र के **संरक्षक** हैं।
- They have better **knowledge** and we use that **knowledge**," said Mr. **Sawant**, who has spent a fair amount of **childhood vacations** in **Kiraksal**.
  उनके पास बेहतर **जानकारी** है और हम उसी **जानकारी** का उपयोग करते हैं," **श्री सावंत** ने कहा, जिन्होंने अपने **बचपन की कई छुट्टियाँ किरकसल** में बिताई हैं।
- The local community of **Kiraksal** involved in the project implemented a **"tri-system"** of **self-imposed social prohibitions**.
  परियोजना से जुड़े **किरकसल** के स्थानीय समुदाय ने **स्व-लगाए गए सामाजिक प्रतिबंधों** की **"त्रि-प्रणाली"** को लागू किया।

Netra, India's airborne surveillance platform, gets final operational nod

GS III: Internal Security

Hemanth C.S.
BENGALURU

The indigenous Netra Airborne Early Warning and Control (AEW&C) system, which played a pivotal role as a force multiplier for the Indian Air Force in the 2019 Balakot strikes and Operation Sindoor last year, was accorded final operational clearance (FOC) on Thursday.

Developed indigenously by the Bengaluru-based Centre for Airborne Systems (CABS), the Netra AEW&C is integrated on the Brazilian Embraer EMB-145I aircraft platform.

The system encompasses a sophisticated suite of mission equipment, including an Active Electronically Scanned Array (AESA) radar, Identification Friend or Foe (IFF), mission computer, secure communication networks, electronic support measures (ESM) and communication support measures. India is the fifth country in the world to develop this capability, as Netra can detect, track, identify and monitor airborne and maritime targets enhancing the network-centric operations capabilities of the IAF.

Air Marshal Awadhesh Kumar Bharti and others, pose during a ceremony marking the FOC of NETRA on Thursday. MURALI KUMAR K

Dedication

At an event to mark the occasion, scientists and IAF officers dedicated the achievement to colleagues killed in a tragic air crash in 1999. The seeds of India's airborne warning and control system (AWACS) were sown in the early 1980s.

However, the tragic crash of a modified HS-748 Avro aircraft near Arakkonam in Tamil Nadu, with eight people aboard, including four IAF personnel and four scientists, on January 11, 1999 resulted in the programme being abandoned temporarily.

The programme took off again after being sanctioned afresh in 2004. During this intervening period, scientists kept their perseverance and hoped for the best.

"On January 11, 1999, the ill-fated aircraft had a crash. I salute personnel who were on board, who made their supreme sacrifice. Today we have shown that their sacrifice has not gone in vain. This FOC is dedicated to them," Director-General of Aeronautics Cluster of the Defence Research and Development Organisation (DRDO), K. Rajalakshmi Menon said.

The Initial Operational Clearance (IOC) for the Netra was accorded in 2015 and it was inducted into the IAF in 2017.

The Cabinet Committee on Security (CCS) has approved the development of six more AEW&C Mk-1A systems by the CABS.

26J6. Netra, India's airborne surveillance platform, gets final operational nod
भारत के हवाई निगरानी मंच 'नेत्र' को अंतिम परिचालन स्वीकृति मिली

- The indigenous **Netra Airborne Early Warning and Control (AEW&C) system**, which played a pivotal role as a **force multiplier** for the **Indian Air Force** in the **2019 Balakot strikes** and **Operation Sindoor** last year, was accorded **Final Operational Clearance (FOC)** on Thursday.
  स्वदेशी **नेत्र एयरबोर्न अर्ली वार्निंग एंड कंट्रोल (AEW&C) प्रणाली**, जिसने **2019 बालाकोट हमलों** और पिछले वर्ष के **ऑपरेशन सिंदूर** में **भारतीय वायु सेना** के लिए **फोर्स मल्टीप्लायर** की महत्वपूर्ण भूमिका निभाई थी, उसे गुरुवार को **अंतिम परिचालन स्वीकृति (FOC)** प्रदान की गई।
- Developed indigenously by the **Bengaluru-based Centre for Airborne Systems (CABS)**, the **Netra AEW&C** is integrated on the **Brazilian Embraer EMB-145I aircraft** platform.
  बेंगलुरु स्थित सेंटर फॉर एयरबोर्न सिस्टम्स (CABS) द्वारा स्वदेशी रूप से विकसित **नेत्र AEW&C** को **ब्राज़ीलियाई एम्ब्रेयर EMB-145I विमान** प्लेटफॉर्म पर एकीकृत किया गया है।
- The system encompasses a sophisticated suite of mission equipment, including an **Active Electronically Scanned Array (AESA) radar**, **Identification Friend or Foe (IFF)**, **mission computer**, **secure communication networks**, **electronic support measures (ESM)** and **communication support measures**.
  इस प्रणाली में अत्याधुनिक मिशन उपकरणों का समावेश है, जिनमें **एक्टिव इलेक्ट्रॉनिकली स्कैन्ड एरे (AESA) रडार**, **आइडेंटिफिकेशन फ्रेंड ऑर फो (IFF)**, **मिशन कंप्यूटर**, **सुरक्षित संचार नेटवर्क**, **इलेक्ट्रॉनिक सपोर्ट मेजर्स (ESM)** तथा **कम्युनिकेशन सपोर्ट मेजर्स** शामिल हैं।

Questions and answers to the previous day's daily quiz:

1. Who holds the record of scoring the most goals in a single World Cup match? **Ans: Oleg Salenko, Russia**
2. Who holds the record of having played in most minutes in World Cup history? **Ans: Lionel Messi, Argentina – 2315 minutes till 2022 edition**
3. Who is the only player to have won the Golden Ball and Golden Glove awards in the same World Cup tournament? **Ans: Oliver Kahn, Germany**
4. Who won the Golden Boot and Golden Ball in the same World Cup and was part of the winning team?**Ans: Paolo Rossi of Italy**
5. Who has won the World Cup as a player, coach/manager and also won the Best Young Player award? **Ans: Franz Beckenbauer, Germany**
6. Which country withdrew from the 1950 World Cup because FIFA required players to wear boots, while they were accustomed to playing barefoot? **Ans: India**
7. Visual: Who holds the records for youngest goal, hat-trick, and final goal in World Cup history? **Ans: Pele**

25J6. QUIZ: FIFA World Cup

1. Who holds the record of scoring the most goals in a single World Cup match?

- **Oleg Salenko** created FIFA World Cup history during the 1994 tournament in the United States by scoring **five goals** in Russia's 6–1 victory over Cameroon.
- This remains the highest number of goals scored by a single player in one FIFA World Cup match.
- Interestingly, although Russia was eliminated in the group stage, Salenko finished as the tournament's joint top scorer with six goals, sharing the Golden Boot with Hristo Stoichkov of Bulgaria.
- His five-goal feat remains unmatched in World Cup history.

2. Who holds the record of having played the most minutes in FIFA World Cup history?

- **Lionel Messi** holds the record for the **most minutes played** in FIFA World Cup history. After leading Argentina to victory in the **2022 FIFA World Cup**, he surpassed Paolo Maldini's previous record and had accumulated **2,315 minutes** by the end of the 2022 tournament.

3. Who is the only player to have won the Golden Ball and Golden Glove awards in the same FIFA World Cup tournament?

Answer: Oliver Kahn (Germany)

- **German goalkeeper Oliver Kahn** achieved a unique milestone at the **2002 FIFA World Cup** by becoming the only goalkeeper to win the **Golden Ball**, awarded to the tournament's best player, while also receiving the **Golden Glove** as the best goalkeeper.
- His exceptional performances guided Germany to the final, where they finished runners-up to Brazil.

4. Who won the Golden Boot and Golden Ball in the same World Cup and was part of the winning team?

Answer: Paolo Rossi (Italy)

- **Paolo Rossi** delivered one of the greatest comeback stories in football at the **1982 FIFA World Cup** in Spain.
- After returning from suspension, he scored **six goals**, winning the **Golden Boot** as the tournament's top scorer and the **Golden Ball** as its best player.
- Rossi's memorable hat-trick against Brazil and decisive goals in the semi-final and final inspired Italy to lift their third FIFA World Cup title.

5. Who has won the FIFA World Cup as a player, coach/manager, and also won the Best Young Player award?

Answer: Franz Beckenbauer (Germany)

- **Franz Beckenbauer** is one of football's greatest legends. He won the FIFA World Cup as **captain of West Germany in 1974** and later guided the team to another World Cup title as **manager in 1990**.
- Earlier, during the **1966 FIFA World Cup**, he was recognised as the tournament's outstanding young player, an honour retrospectively acknowledged because the official Best Young Player award was introduced later.

PATRIOTIC IAS

6. Which country withdrew from the 1950 FIFA World Cup because FIFA required players to wear boots, while they were accustomed to playing barefoot?

Answer (Updated): India (However, the traditional explanation is incomplete.)

- India qualified for the **1950 FIFA World Cup** after several Asian teams withdrew, but the **All India Football Federation (AIFF)** later decided not to participate.
- Although a popular belief claims that FIFA's prohibition on playing barefoot caused India's withdrawal, historical research shows this was **not the sole or official reason**.
- Major factors included **financial constraints, insufficient preparation time, administrative decisions, and the AIFF's greater focus on the 1952 Olympics**.

Kim unveils plans for 10,000-tonne warships, nuclear navy in N. Korea

PCS

AFP

North Korea will equip its navy with nuclear weapons and build larger warships, leader Kim Jong-un said, according to state media on Wednesday. Mr. Kim made his remarks at the commissioning of the *Choe Hyon* — one of two 5,000-tonne class warships launched last year — in the port city of Nampho on Tuesday. AFP

25J6. Kim unveils plans for 10,000-tonne warships, nuclear navy in N. Korea

किम ने उत्तर कोरिया में 10,000-टन के युद्धपोतों और परमाणु नौसेना की योजना का किया अनावरण।

'Rasimanal in T.N. a good alternative site to Mekedatu project'

GS I: Geography

T. Ramakrishnan

CHENNAI

The Rasimanal project will bring about a win-win situation for both the States.

A former engineer from Tamil Nadu has mooted a proposal to build a dam in Rasimanal in Krishnagiri district as an alternative to the contentious Mekedatu drinking water-cum-balancing reservoir project.

Envisaged with a capacity of 66 thousand million cubic feet (tmc ft), the proposed dam will be upstream of the Mettur dam in Salem district. It can generate 360 megawatt (MW) of electricity, and its operation can be handled by the Water Resources Department of Tamil Nadu. The total area of submergence will be around 106 sq. km, about a third of which will lie in Karnataka.

"Apart from being a perfect alternative to the Mekedatu project, the Rasimanal project will bring about a win-win situation for both States, as it will cater to the drinking water requirements of Bengaluru, while addressing our concerns about the availability of water for our farmers in the Cauvery delta," says A. Stephen, former Chief Engineer in the now-abolished Tamil Nadu Generation and Distribution Corporation and the Tamil Nadu Electricity Board.

Giving one more reason why Rasimanal, and not Mekedatu, should be preferred, the former Chief Engineer explains that the submersible area for the Mekedatu project falls under the Cauvery wildlife sanctuary with numerous elephant corridors. "It is extremely difficult to get environmental and forest clearance from the Union Ministry of Environment, Forest, and Climate Change," he says, wondering why Karnataka Chief Minister D.K. Shivakumar has been giving an impression that the Mekedatu project will take off swiftly.

P.R. Pandian, a farmer-leader of the Cauvery delta, has been a strong votary of the Rasimanal dam project.

As a senior government official, Mr. Stephen took part in several meetings convened by the Union Power Ministry during 2000-2010 to arrive at a consensus among the States of the Cauvery basin on hydropower projects. He recalls that the National Hydro Power Corporation (NHPC), a Central agency, had even identified the site in Rasimanal.

The veteran engineer, who addressed a letter to Chief Minister C. Joseph Vijay a few weeks ago, suggests that the proposed dam be built as a joint venture of the two basin States.

25J6. Rasimanal in T.N. a good alternative site to Mekedatu project

तमिलनाडु का रासिमनाल, मेकेदातु परियोजना का एक अच्छा वैकल्पिक स्थल

- A former **engineer** from **Tamil Nadu** has mooted a proposal to build a **dam** in **Rasimanal** in **Krishnagiri district** as an alternative to the contentious **Mekedatu drinking water-cum-balancing reservoir project**.

तमिलनाडु के एक पूर्व **अभियंता** ने **कृष्णगिरि जिले** के **रासिमनाल** में एक **बाँध** बनाने का प्रस्ताव रखा है, जिसे विवादास्पद **मेकेदातु पेयजल-सह-संतुलन जलाशय परियोजना** के विकल्प के रूप में प्रस्तुत किया गया है।

- Envisaged with a capacity of **66 thousand million cubic feet (tmc ft)**, the proposed **dam** will be upstream of the **Mettur dam** in **Salem district**.

66 हजार मिलियन घन फुट (टीएमसी फुट) क्षमता वाले प्रस्तावित **बाँध** का निर्माण **सेलम जिले** स्थित **मेट्टूर बाँध** के ऊपरी भाग में किया जाएगा।

- It can generate **360 megawatt (MW)** of **electricity**, and its operation can be handled by the **Water Resources Department of Tamil Nadu**.

यह **360 मेगावाट (मेगावाट) विद्युत** का उत्पादन कर सकता है और इसका संचालन **तमिलनाडु जल संसाधन विभाग** द्वारा किया जा सकता है।

- The total area of **submergence** will be around **106 sq. km**, about a third of which will lie in **Karnataka**.
  इस परियोजना के कारण **जलमग्न क्षेत्र** लगभग **106 वर्ग किलोमीटर** होगा, जिसका लगभग एक-तिहाई भाग **कर्नाटक** में स्थित होगा।
- Giving one more reason why **Rasimanal**, and not **Mekedatu**, should be preferred, the former **Chief Engineer** explains that the **submersible area** for the **Mekedatu project** falls under the **Cauvery wildlife sanctuary** with numerous **elephant corridors**.
  पूर्व **मुख्य अभियंता** ने **रासिमनाल** को **मेकेदातु** पर प्राथमिकता देने का एक और कारण बताते हुए कहा कि **मेकेदातु परियोजना** का **जलमग्न क्षेत्र** अनेक **हाथी गलियारों** वाले **कावेरी वन्यजीव अभयारण्य** के अंतर्गत आता है।

House panel seeks Ministry report on Great Nicobar Project

GS I: Geography

The Hindu Bureau
NEW DELHI

The Chairperson of the Public Accounts Committee, K.C. Venugopal, has sought a report from the Union Home Ministry on the Great Nicobar Project.

The Congress has accused the government of imperilling the fragile Nicobar islands ecosystem for commercial purposes.

The PAC was meeting to deliberate the report of the Comptroller and Auditor General (CAG) report on the "establishment and functioning of Andaman and Nicobar Islands Institute of Medical Sciences".

During his concluding remarks, Mr. Venugopal flagged the Great Nicobar Project, pointing to the rising panic among the residents there as 1.5 crore trees are slated to be felled to make way for the project. He further pointed out, sources said, that the naval base *INS Baaz* was not given additional land for its expansion; and the government was exploiting this fragile ecology for commercial activities. Congress MP Amar Singh also backed Mr. Venugopal, detailing the implications of the project, which the government, he said, was not accounting for. Sources said BJP MP Anurag Singh Thakur interceded to point out that this issue was beyond the agenda of the meeting.

K. C. Venugopal

Mr. Venugopal agreed, though he directed Home Secretary Govind Mohan to submit a comprehensive report detailing all aspects of the project.

On the listed subject of the day, the Andaman and Nicobar Islands Institute of Medical Sciences, the panel pointed out there was a massive funding deficit and indefinite delay in completing the civil construction. The CAG report has also flagged deficiencies in equipment and patient care. The Home Ministry shifted the blame for these deficiencies to the Union Health Ministry.

25J6. House panel seeks Ministry report on Great Nicobar Project

संसदीय समिति ने ग्रेट निकोबार परियोजना पर मंत्रालय से रिपोर्ट मांगी

- He further pointed out, sources said, that the **naval base INS Baaz** was not given additional land for its expansion; and the government was exploiting this fragile ecology for commercial activities.

सूत्रों के अनुसार उन्होंने यह भी कहा कि **नौसैनिक अड्डे INS Baaz** के विस्तार के लिए अतिरिक्त भूमि नहीं दी गई, जबकि सरकार इस नाजुक पारिस्थितिकी का व्यावसायिक गतिविधियों के लिए उपयोग कर रही है।

GS I: Geography

Razor's edge

High heat and low rainfall is threatening agricultural produce

The southwest monsoon deficit nationwide has increased from 35% to 43%; the winds' northward advance was stalled near Mumbai; and both the U.S. NOAA and the India Meteorological Department (IMD) expect a moderate-to-strong El Niño this year. The El Niño suppresses the vertical air movement needed for raincloud to form while a warming Pacific is weakening the trade winds that bring moisture to the subcontinent. The Madden-Julian Oscillation is also in an unfavourable phase and the Indian Ocean Dipole currently cannot offer a buffer. Further, while northwest India has received 5% more rain than normal, central India and the northeast face deficits of 63% and 43%, respectively. But with two-thirds of the seasonal rainfall historically arriving in July and August, the monsoon may still recover and salvage the season. Together with reservoir storage at 30.4% of capacity, compared with 25.1% during previous El Niño years, there is no reason for alarm yet. However, the effects for agriculture are more concerning. The Agriculture Ministry has already prioritised 111 districts out of 315 vulnerable ones based on their irrigation coverage. Extreme heat has been reducing farm labour productivity. High heat and rain shortfall have sown anxiety over the cardamom harvest in Idukki, a fate that bodes ill for other plantation crops in the Western Ghats.

Both the *kharif* sowing window for rice, pulses, and oilseeds and the availability of fertilizers could come under pressure, the latter due to Chinese export curbs and tensions in West Asia, heightening the risks of lower soil moisture and higher input stress. Retail food inflation was 4.2% in April; further deficits will especially threaten vegetables and pulses, complicating the monetary policy. The fundamental problem is the way India has built its rural economy around the assumption of reliable rainfall delivery. No adaptation strategy can indefinitely outpace unchecked warming, so limiting future warming should amount to reducing the extent of exposure. The ideal sustainable strategies are to switch from rain-centric to water-centric organisation, reduce dependence on water-intensive crops, and improve resilience. Pathways for the first two have already been outlined. On the last, while the Agriculture Ministry's extant contingency plans reflect the need for adjustable sowing windows and alternative seed varieties, the principal variable remains implementation at scale. Second, the government should consider a new authority to coordinate inter-State water use and cropping changes based on extended El Niño forecasts, eliminating the cropping governance currently fragmented between the Agriculture and Jal Shakti Ministries, and the IMD.

25J6. Razor's edge

नाज़ुक मोड़

- The **El Niño** suppresses the **vertical air movement** needed for **raincloud**s to form while a warming **Pacific** is weakening the **trade winds** that bring **moisture** to the **subcontinent**.

BJP councillors retake oath after court order

GS II: Polity

The Hindu Bureau
THIRUVANANTHAPURAM

The Kerala High Court on Wednesday directed 20 BJP councillors of the Thiruvananthapuram Municipal Corporation to retake their oaths in the name of God or by making a solemn affirmation. They had taken oath in the name of local deities, Bharath Matha, and "*Balidaanis*" (martyrs in RSS parlance).

The order came on a petition filed by Left Democratic Front Council Party leader in the corporation, S.P. Deepak.

Justice P.V. Kunhikrishnan held that the councillors' original oaths were invalid as per the Kerala Municipality Act, 1994.

After the order, an oath-taking ceremony was held and 19 councillors took oath. One councillor is in jail. A Congress ward member of the Vadakkanchery grama panchayat in Palakkad was also directed to retake oath.

'Passport is a travel document, not proof of citizenship'

GS II: Polity

Kallol Bhattacherjee
NEW DELHI

The Indian passport is a "travel document" and not a "citizenship document", a senior official of the Ministry of External Affairs (MEA) said on Wednesday.

The purpose of the Indian passport is to help Indians transit and travel through foreign ports and territories and it should not be compared with other documents that are used to establish citizenship rights, the official said.

Highlighting the importance of passports in connecting the Indian workforce with the global economy, MEA officials said the government will intensify mobility engagements with western nations and Japan in coming months to help citizens get secure employment opportunities in these industrialised economies.

Voter list exclusion

"Passport is a travel document, not a document of citizenship and theoretically speaking that distinguishes passport from other documents. Even though while travelling abroad, passport attests to your nationality, yet it is not a document of your citizenship," a senior official said, in response to a question from *The Hindu* on whether the Indian passport could be used to challenge an exclusion from the voter list through the special intensive revision (SIR) of electoral rolls that is currently under way in 16 States.

Passport is to facilitate foreign travel. It must not be compared with documents establishing citizenship, says MEA official.

Another MEA official said that the Indian passport is issued "after a lot of due diligence and we make sure that the person who gets it is actually entitled, and we also base ourselves on documents from several government agencies like the Aadhaar, PAN card." The second official said that the MEA will host a major event on international mobility – the Human Resource Mobility Forum to be held in New Delhi from June 30 to July 1 – that will focus on countries like Italy, Germany, Japan, Russia, and Denmark.

Ethical migration

A large number of recruitment agencies from across the country are expected to participate in the event that will highlight ethical migration and create awareness about how to avoid unscrupulous agents that use illegal means to send Indians to conflict zones and high risk areas.

"We have to demolish the myths that one can go to Italy or Greece using unfair means and then send home lots of money," the official said.

Speaking on the occasion of the 14th Passport Seva Divas, marked on June 24, the official said that 27 countries have given visa-free entry status to Indian passport holders, while 47 countries offer visas on arrival and 66 countries provide electronic-visas (e-visas) to Indian passport holders. The MEA official said that around 10% of Indian passport-holders possess an e-passport, a chip-based document.

There are 545 passport seva kendras across the country catering to the needs of the growing number of passport applicants, and this passport network now covers almost every Lok Sabha constituency.

In addition, one-stop centres for distressed women in the Indian diaspora have been opened in the Gulf countries and Singapore, supported by the Indian community. More such centres are expected to be established in other countries.

"Team MEA reaffirms its commitment to keep making passport services delivery faster, more transparent and accessible..." External Affairs Minister S. Jaishankar said on the occasion of Passport Seva Divas, noting that chip-enabled e-passports and the opening of new passport seva kendras (PSKs) have contributed to ease of travel, helping Indians get global job opportunities.

25J6. Passport is a travel document, not proof of citizenship
पासपोर्ट एक यात्रा दस्तावेज़ है, नागरिकता का प्रमाण नहीं

- The **Indian passport** is a **"travel document"** and not a **"citizenship document"**, a senior official of the **Ministry of External Affairs (MEA)** said on Wednesday.

भारतीय पासपोर्ट एक **"यात्रा दस्तावेज़"** है, **"नागरिकता दस्तावेज़"** नहीं, यह बात **विदेश मंत्रालय (MEA)** के एक वरिष्ठ अधिकारी ने बुधवार को कही।

- The purpose of the **Indian passport** is to help Indians transit and travel through **foreign ports and territories** and it should not be compared with other documents that are used to establish **citizenship rights**, the official said.

अधिकारी ने कहा कि **भारतीय पासपोर्ट** का उद्देश्य भारतीयों को **विदेशी बंदरगाहों और क्षेत्रों** से होकर यात्रा एवं पारगमन में सहायता प्रदान करना है और इसकी तुलना उन दस्तावेज़ों से नहीं की जानी चाहिए जिनका उपयोग **नागरिकता अधिकार** स्थापित करने के लिए किया जाता है।

- Even though while travelling abroad, passport attests to your **nationality**, yet it is not a document of your **citizenship**," a senior official said, in response to a question from **The**

Hindu on whether the **Indian passport** could be used to challenge an exclusion from the **voter list** through the **Special Intensive Revision (SIR)** of **electoral rolls** that is currently under way in **16 States**.

वरिष्ठ अधिकारी ने **The Hindu** के उस प्रश्न के उत्तर में कहा कि विदेश यात्रा के दौरान पासपोर्ट आपकी **राष्ट्रीयता** का प्रमाण देता है, फिर भी यह आपकी **नागरिकता** का दस्तावेज़ नहीं है। यह उत्तर इस प्रश्न पर दिया गया कि क्या **भारतीय पासपोर्ट** का उपयोग वर्तमान में **16 राज्यों** में चल रहे **निर्वाचक नामावलियों के विशेष गहन पुनरीक्षण (SIR)** के दौरान **मतदाता सूची** से नाम हटाए जाने को चुनौती देने के लिए किया जा सकता है।

- Another **MEA official** said that the **Indian passport** is issued "after a lot of **due diligence** and we make sure that the person who gets it is actually entitled, and we also base ourselves on documents from several government agencies like the **Aadhaar**, **PAN card**."

एक अन्य **विदेश मंत्रालय के अधिकारी** ने कहा कि **भारतीय पासपोर्ट** "व्यापक **सत्यापन प्रक्रिया** के बाद जारी किया जाता है और यह सुनिश्चित किया जाता है कि पासपोर्ट प्राप्त करने वाला व्यक्ति वास्तव में इसका अधिकारी हो। इसके लिए **आधार** और **पैन कार्ड** जैसे विभिन्न सरकारी दस्तावेज़ों का भी आधार लिया जाता है।"

- In addition, **one-stop centres** for **distressed women** in the **Indian diaspora** have been opened in the **Gulf countries** and **Singapore**, supported by the **Indian community**.

इसके अतिरिक्त, **भारतीय प्रवासी समुदाय** की **संकटग्रस्त महिलाओं** के लिए **वन-स्टॉप केंद्र खाड़ी देशों** और **सिंगापुर** में **भारतीय समुदाय** के सहयोग से स्थापित किए गए हैं।

Symbolism over substance? Public health officials slam T.N. govt.'s gold ring scheme

Under the new scheme, the govt. will spend ₹755.83 cr. annually to gift gold rings to newborns; however, several health professionals opine that while the gold may be intended as a celebration of birth, the more pressing need is investment in workforce and infrastructure that enable safe deliveries

GS II: Governance

Serena Josephine M.
CHENNAI

Every year, the Tamil Nadu government will spend ₹755.83 crore on gifting one-gram gold rings to roughly 4.42 lakh babies born in government hospitals under its new scheme, *Thaimaaman Thanga Mothiram Thittam*.

The gold ring may be intended as a celebration of birth, but for many within the public health sector, the more pressing need is investment in the workforce and infrastructure that makes safe deliveries possible.

Already, the Dr. Muthulakshmi Reddy Maternity Benefit Scheme provides maternal assistance of ₹14,000 in cash support and two nutritional kits valued at ₹4,000. With this in place, the questions raised are plenty – Can the State government sustain a recurring cost of ₹755.83 crore a year, or ₹17,000 per ring (today's gold rate), for 4,41,667 deliveries along with administration cost? Whether symbolic incentives such as gold rings are the best use of public resources when basic gaps in the health system remain unresolved? Does this self-defeat the State's family welfare measures by incentivising higher order births?

'Bizarre move'

A head of a government institution found it bizarre that the Tamil Nadu Medical Services Corporation (TNMSC) is tasked with procuring and supplying the rings, based on the yearly indent given by the Director of Public Health and Preventive Medicine.

"TNMSC was set up in the 1990s with the objective of procuring quality medicines for government hospitals. But now, it is tasked with purchasing the yellow metal. How far this is ethical is a question to be asked," he said.

A health officer said that from a policy perspective, the scheme had no connection with the Sustainable Development Goal 3 (reducing global Maternal Mortality Ratio to less than 70 deaths per 1,00,000 live births and to end preventable deaths of newborns and children under five years of age by 2030).

Another public health officer said Tamil Nadu had already achieved near-universal institutional delivery coverage, with institutional deliveries exceeding 99%, leaving limited scope for further improvement on this indicator.

"A government's legitimacy comes from good governance, not symbolic kinship. Public resources should be directed towards strengthening systems and services that create lasting benefits," he said.

While more incentives are being introduced, many frontline healthcare personnel continue to face inadequate remuneration, he said, adding that Reproductive and Child Health contract staff receive approximately ₹4,500 per month.

'Self-defeating'

"There is an acute shortage of obstetricians and gynaecologists. The government should announce funds to hire more OB-GYNs as and when they announce such schemes," a doctor said.

"This scheme covers all newborns, irrespective of the third or fourth child. Isn't this defeating the government's own family welfare programme? On the one hand, we are motivating mothers to undergo sterilisation after having two babies, and on the other, the government is giving incentives to have any number of babies," she said.

The doctor further added that certain conditions could be brought in for the scheme, including two mandatory post-natal visits for mothers at the end of the first week and the sixth week of delivery, and complete immunisation till 1.5 years of age for the child.

Former Director of Public Health and Preventive Medicine K. Kolandasamy said it was a good scheme as it would improve institutional deliveries.

The scheme could act as an incentive for families belonging to the lower-middle income group to opt for government hospitals for childbirth, thereby reducing their maternal and childbirth-related health expenditure in private hospitals, Mr. Kolandasamy added.

25J6. Symbolism over substance? Public health officials slam T.N. govt.'s gold ring scheme

प्रतीकवाद बनाम वास्तविक आवश्यकता? सार्वजनिक स्वास्थ्य अधिकारियों ने तमिलनाडु सरकार की स्वर्ण अंगूठी योजना की आलोचना की

- Every year, the **Tamil Nadu government** will spend **₹755.83 crore** on gifting **one-gram gold rings** to roughly **4.42 lakh babies** born in **government hospitals** under its new scheme, **Thaimaaman Thanga Mothiram Thittam**.
  प्रत्येक वर्ष **तमिलनाडु सरकार** अपनी नई योजना **थाइमामान थंगा मोथिरम थिट्टम** के तहत **सरकारी अस्पतालों** में जन्म लेने वाले लगभग **4.42 लाख शिशुओं** को **एक ग्राम के स्वर्ण छल्ले** उपहार में देने पर **₹755.83 करोड़** खर्च करेगी।
- The **gold ring** may be intended as a celebration of birth, but for many within the **public health sector**, the more pressing need is investment in the **workforce** and **infrastructure** that makes safe deliveries possible.
  स्वर्ण छल्ला जन्मोत्सव का प्रतीक हो सकता है, लेकिन **सार्वजनिक स्वास्थ्य क्षेत्र** से जुड़े अनेक लोगों के अनुसार अधिक आवश्यक आवश्यकता सुरक्षित प्रसव सुनिश्चित करने वाले **मानव संसाधन** और **आधारभूत संरचना** में निवेश की है।
- Already, the **Dr. Muthulakshmi Reddy Maternity Benefit Scheme** provides maternal assistance of **₹14,000** in cash support and **two nutritional kits** valued at **₹4,000**.
  पहले से ही **डॉ. मुथुलक्ष्मी रेड्डी मातृत्व लाभ योजना** के अंतर्गत **₹14,000** की नकद सहायता तथा **₹4,000** मूल्य की **दो पोषण किटें** प्रदान की जाती हैं।

PATRIOTIC IAS

SC had agreed that right to associate is no *carte blanche* for foreign funds

GS II: Governance

NEWS ANALYSIS

Krishnadas Rajagopal
NEW DELHI

The Foreign Contribution (Regulation) Amendment Rules, 2026, notified by the Union Home Ministry on June 22, has introduced tougher limits on NGOs to receive foreign donations.

These amendments, and the ones before them, source their legality from the Centre's argument in the Supreme Court that the freedom to form associations or engage in the "business" of charity does not include a right to receive unbridled foreign funds or to use the money outside "permissible activities".

Among other changes, Rule 9(1B) mandates that certificates of registration of NGOs must specify the "purpose or purposes and the States or Union Territories".

The Rules have introduced tougher limits on NGOs to receive foreign donations

The Rules limit NGOs to specific and stated spheres of activity, which exclude proselytisation, and geographical bounds.

SC judgments

The government's sweeping powers to regulate foreign donations have been blessed by the Supreme Court in multiple judgments. A three-judge Bench in *Noel Harper versus Union of India* in April 2022 declared that "no one can be heard to claim a vested right to accept foreign donation, much less an absolute right".

The court had disapproved of the tendency to seek funds abroad, saying it gave an impression that the nation was incapable of looking after its own needs.

A March 2020 decision of the Supreme Court in *Indian Social Action Forum (INSAF) versus Union of India* had agreed with the Centre that the "regulation of acceptance and utilisation of foreign contribution is for the purpose of protecting national interest". The court had, however, in this case, called for a "balance" between the law's objective and the rights of the voluntary organisations to access foreign funds. The *INSAF* judgment declared that only associations which play a role in active or party politics were barred from accessing foreign funds.

The government has argued in court that the FCRA, its Rules, and amendments were meant to regulate the manner of doing business, more importantly, concerning foreign contributions. The FCRA did not intend to stop charitable work. It has argued that the regulatory regime did not hurt the fundamental rights of individuals to form associations or practice a profession or carry on an occupation, trade or business under Article 19(1)(c) and Article 19(1)(g), respectively, of the Constitution.

The Centre has referred to Article 19(4) to demonstrate that it could frame laws to reasonably restrict the fundamental freedom to form associations under Article 19(1)(c) in the interest of the sovereignty and integrity of India or to protect public order or morality. Similarly, Article 19(6) allowed the government to impose reasonable fetters on the right to trade, business, occupation available under Article 19(1)(g) if the State could show these freedoms were against public interest.

25J6. SC had agreed that right to associate is no carte blanche for foreign funds

उच्चतम न्यायालय ने माना था कि संगठन बनाने का अधिकार विदेशी धन प्राप्त करने की असीमित अनुमति नहीं है

- The **Foreign Contribution (Regulation) Amendment Rules, 2026**, notified by the **Union Home Ministry** on **June 22**, has introduced tougher limits on **NGOs** to receive **foreign donations**.
  22 जून को **केंद्रीय गृह मंत्रालय** द्वारा अधिसूचित **विदेशी अंशदान (विनियमन) संशोधन नियम, 2026** ने **गैर-सरकारी संगठनों (NGOs)** के **विदेशी चंदा** प्राप्त करने पर अधिक कड़े प्रतिबंध लागू किए हैं।
- These amendments, and the ones before them, source their legality from the **Centre's** argument in the **Supreme Court** that the freedom to form **associations** or engage in the **"business" of charity** does not include a right to receive unbridled foreign funds or to use the money outside **"permissible activities"**.
  ये संशोधन तथा इनके पूर्व के संशोधन अपनी वैधता **केंद्र सरकार** के **सर्वोच्च न्यायालय** में दिए गए उस तर्क से प्राप्त करते हैं कि **संघ बनाने** या **परोपकार के "व्यवसाय"** में संलग्न होने की स्वतंत्रता में असीमित विदेशी धन प्राप्त करने अथवा उसे **"अनुमेय गतिविधियों"** के बाहर उपयोग करने का अधिकार शामिल नहीं है।
- Among other changes, **Rule 9(1B)** mandates that **certificates of registration** of **NGOs** must specify the **"purpose or purposes and the States or Union Territories"**.

अन्य परिवर्तनों के साथ **नियम 9(1B)** यह अनिवार्य करता है कि **NGOs** के **पंजीकरण प्रमाणपत्रों** में उनके **"उद्देश्य अथवा उद्देश्यों तथा संबंधित राज्यों या केंद्रशासित प्रदेशों"** का उल्लेख होना चाहिए।

- The Rules limit **NGOs** to specific and stated spheres of activity, which exclude **proselytisation**, and geographical bounds.
  ये नियम **NGOs** को केवल निर्दिष्ट और घोषित गतिविधियों तक सीमित करते हैं, जिनमें **धर्मांतरण संबंधी प्रचार (Proselytisation)** तथा निर्धारित भौगोलिक सीमाओं से बाहर की गतिविधियाँ शामिल नहीं हैं।

SC judgments
सर्वोच्च न्यायालय के निर्णय

- The government's sweeping powers to regulate **foreign donations** have been blessed by the **Supreme Court** in multiple judgments.
  विदेशी चंदे को विनियमित करने संबंधी सरकार की व्यापक शक्तियों को **सर्वोच्च न्यायालय** ने अनेक निर्णयों में वैध ठहराया है।
- A **three-judge Bench** in **Noel Harper versus Union of India** in **April 2022** declared that "no one can be heard to claim a vested right to accept foreign donation, much less an absolute right".
  अप्रैल 2022 में **Noel Harper बनाम भारत संघ** मामले में **तीन-न्यायाधीशों की पीठ** ने कहा कि "किसी भी व्यक्ति को विदेशी चंदा स्वीकार करने का निहित अधिकार, तो दूर, पूर्ण अधिकार होने का दावा नहीं किया जा सकता।"
- The court had disapproved of the tendency to seek funds abroad, saying it gave an impression that the nation was incapable of looking after its own needs.
  न्यायालय ने विदेशों से धन प्राप्त करने की प्रवृत्ति पर असहमति व्यक्त करते हुए कहा था कि इससे यह संदेश जाता है कि देश अपनी आवश्यकताओं की पूर्ति स्वयं करने में सक्षम नहीं है।
- A **March 2020** decision of the **Supreme Court** in **Indian Social Action Forum (INSAF) versus Union of India** had agreed with the **Centre** that the **"regulation of acceptance and utilisation of foreign contribution is for the purpose of protecting national interest"**.
  मार्च 2020 में **Indian Social Action Forum (INSAF) बनाम भारत संघ** मामले में **सर्वोच्च न्यायालय** ने **केंद्र सरकार** के इस तर्क से सहमति व्यक्त की थी कि **"विदेशी अंशदान की स्वीकृति और उपयोग का विनियमन राष्ट्रीय हित की रक्षा के उद्देश्य से किया जाता है।"**
- The court had, however, in this case, called for a **"balance"** between the law's objective and the rights of the **voluntary organisations** to access **foreign funds**.
  हालाँकि, न्यायालय ने इस मामले में कानून के उद्देश्य और **स्वैच्छिक संगठनों** के **विदेशी धन** प्राप्त करने के अधिकारों के बीच **"संतुलन"** बनाए रखने की आवश्यकता पर बल दिया था।
- The **INSAF** judgment declared that only **associations** which play a role in **active or party politics** were barred from accessing **foreign funds**.
  INSAF के निर्णय में कहा गया था कि केवल वे **संघ**, जो **सक्रिय या दलगत राजनीति** में भूमिका निभाते हैं, **विदेशी धन** प्राप्त करने से वंचित रहेंगे।
- It has argued that the regulatory regime did not hurt the **fundamental rights** of individuals to form **associations** or practice a profession or carry on an occupation, trade or business under **Article 19(1)(c)** and **Article 19(1)(g)**, respectively, of the **Constitution**.
  सरकार ने तर्क दिया है कि यह नियामक व्यवस्था **संविधान** के **अनुच्छेद 19(1)(c)** के तहत **संघ बनाने** के अधिकार तथा **अनुच्छेद 19(1)(g)** के तहत व्यवसाय, व्यापार, पेशा या रोजगार करने के **मौलिक अधिकारों** का उल्लंघन नहीं करती।
- The **Centre** has referred to **Article 19(4)** to demonstrate that it could frame laws to reasonably restrict the fundamental freedom to form **associations** under **Article 19(1)(c)** in the interest of the **sovereignty and integrity of India** or to protect **public order** or **morality**.
  केंद्र सरकार ने **अनुच्छेद 19(4)** का उल्लेख करते हुए कहा है कि वह **भारत की संप्रभुता और अखंडता**, **लोक**

व्यवस्था अथवा **नैतिकता** के हित में **अनुच्छेद 19(1)(c)** के अंतर्गत **संघ बनाने की स्वतंत्रता** पर युक्तिसंगत प्रतिबंध लगाने के लिए कानून बना सकती है।

- Similarly, **Article 19(6)** allowed the government to impose reasonable fetters on the right to trade, business, occupation available under **Article 19(1)(g)** if the State could show these freedoms were against **public interest**.

इसी प्रकार **अनुच्छेद 19(6)** सरकार को **अनुच्छेद 19(1)(g)** के अंतर्गत उपलब्ध व्यापार, व्यवसाय, पेशा या रोजगार करने के अधिकार पर युक्तिसंगत प्रतिबंध लगाने की अनुमति देता है, यदि राज्य यह प्रदर्शित कर सके कि ये स्वतंत्रताएँ **लोकहित** के विरुद्ध हैं।

Minister sees vast scope for BRICS nations in space sector

GS II: IR

The Hindu Bureau
BENGALURU

Union Minister of State for Science and Technology Jitendra Singh on Wednesday pitched for a 'BRICS Space Economy'.

Participating in the valedictory session of the BRICS Heads of Space Agencies (HOSA) meeting in Bengaluru, he called for collective action among BRICS member-nations to unlock new opportunities in innovation, investment, entrepreneurship and sustainable development.

"The future of the space economy will not be shaped by nations working in isolation. It will be shaped by partnerships, shared innovation and collective ambition. BRICS countries have the potential to become one of the strongest pillars of this emerging global space ecosystem," Dr. Singh said.

Union Minister Jitendra Singh with ISRO Chairman V. Narayanan (left) and IN-SPACe chief Pawan Goenka. K. MURALI KUMAR

Hosted by the Indian Space Research Organisation (ISRO) under India's BRICS Chairship 2026, the two-day meeting was attended by heads of space agencies and senior officials from Brazil, China, Egypt, Ethiopia, Indonesia, Iran, Russia, South Africa, and the United Arab Emirates. The meeting also reviewed the progress in BRICS space cooperation and deliberated on key issues including space sustainability, debris-free missions and strengthening the BRICS remote sensing satellite constellation.

  डॉ. **सिंह** ने कहा कि **ब्रिक्स देशों** में उभरते हुए **वैश्विक अंतरिक्ष पारितंत्र** के **सबसे मजबूत स्तंभों** में से एक बनने की क्षमता है।
- Hosted by the **Indian Space Research Organisation (ISRO)** under **India's BRICS Chairship 2026**, the **two-day meeting** was attended by **heads of space agencies** and **senior officials** from **Brazil, China, Egypt, Ethiopia, Indonesia, Iran, Russia, South Africa,** and the **United Arab Emirates**.
  भारत की BRICS अध्यक्षता 2026 के तहत **भारतीय अंतरिक्ष अनुसंधान संगठन (ISRO)** द्वारा आयोजित इस **दो दिवसीय बैठक** में **ब्राज़ील, चीन, मिस्र, इथियोपिया, इंडोनेशिया, ईरान, रूस, दक्षिण अफ्रीका** तथा **संयुक्त अरब अमीरात** के **अंतरिक्ष एजेंसियों के प्रमुखों** और **वरिष्ठ अधिकारियों** ने भाग लिया।
- The meeting also reviewed the progress in **BRICS space cooperation** and deliberated on key issues including **space sustainability**, **debris-free missions** and strengthening the **BRICS remote sensing satellite constellation**.
  बैठक में **ब्रिक्स अंतरिक्ष सहयोग** की प्रगति की भी समीक्षा की गई तथा **अंतरिक्ष की सततता**, **मलबा-मुक्त मिशनों** और **ब्रिक्स रिमोट सेंसिंग उपग्रह समूह** को सुदृढ़ करने सहित प्रमुख मुद्दों पर विचार-विमर्श किया गया।

PATRIOTIC IAS

PACOM, the deeper meaning behind a dropped prefix

GS II: IR

Suhasini Haidar

The decision by the United States military to change the name of its naval command in the region from "US INDOPACOM" to "US PACOM" – United States Indo-Pacific Command to United States Pacific Command – reverting to its original name that was changed in 2018 can be dismissed as superficial, even trivial. Many have already responded with the Shakespearean "What's in a name?", even as the U.S. Department of War pointed out that US PACOM's area of responsibility, from "the waters off the West Coast of the United States to the western border of India" or what had once been described as "Hollywood to Bollywood, from polar bears to penguins", has never changed. In 2018, U.S. Defence Secretary Jim Mattis said that the name INDOPACOM was a recognition of the "growing significance" of the Indian Ocean, the Indian subcontinent, and India itself, and the U.S. dropped the term "Asia-Pacific" to "Indo-Pacific".

Current U.S. Secretary of War Pete Hegseth gave the signal, on May 30, that this understanding has now changed, at his speech at the annual Shangri-La Dialogue in Singapore – compared to more than 30 references to the "Indo-Pacific" in his speech in 2025, his speech this year contained not a single reference to the Indo-Pacific region or strategy.

Given the centre stage that the U.S.'s Indo-Pacific policy has had in India's strategic calculus since 2018, it is necessary, therefore, to go beyond the superficial to the subterranean or submarine, in this case. New Delhi must study how broader trends in U.S. policy are attempting to recast both the region and India's position within it in terms of three broader geographies.

U.S.-China ties and the Quad

The first, is the U.S.'s outreach to China, and concurrently diminishing salience of the Quad (India, Japan Australia, the U.S.), which Beijing has always protested as an "exclusive clique" or derisively as "ocean foam". In the long term, the U.S. and China cannot shy away from the fierce rivalry between them, but it is clear that in the immediate term, Trump 2.0 has decided to play nice.

U.S. President Donald Trump's visit to Beijing in May 2026 and Chinese President Xi Jinping's upcoming visit to the U.S. on September 24, indicate that the two sides do not want their differences to overcome the relationship, and the U.S. is tiptoeing around the Taiwan issue. Mr. Trump's references to a "G-2", including during a press availability with Mr. Modi on the sidelines of the 52nd G-7 summit in France (June 15 to 17), are an early warning of a plan to recast the world into "spheres of influence", where China would be the predominant power in the continent, not as one pole in a multipolar Asia, as India envisions.

As a result, the Quad, rebuilt in Trump 1.0 as a counter to China in the region, appears to be floundering. The U.S.'s National Defense Strategy released in January 2026 does not mention the Quad even once. In terms of substance, the Quad's combined agenda has been pared down to four areas of cooperation – maritime security, economic prosperity, critical and emerging minerals technology and disaster responses. Even within these limited objectives, there have been setbacks, such as over Artificial Intelligence cooperation. Despite Quad countries signing on to Pax Silica, and Critical Minerals Initiative Framework with the U.S., the Trump administration ordered Anthropic to end access to its latest models for all non-Americans.

Another question concerns the Quad Summit, which India has unsuccessfully sought to host since January 2024. During U.S. Secretary of State Marco Rubio's visit to Delhi in May 2026, he offered no firm commitment that Mr. Trump would visit Delhi this year, amid indications that the Quad may be relegated to a Foreign Ministers' level grouping. The U.S. Navy's reported actions involving Iranian ship *IRIS Dena* (March 2006) and recent attacks on three ships in which three Indians were killed underscore maritime security and domain awareness concerns within the Quad framework. In July, when he hosts Japanese Prime Minister Sanae Takaichi and travels to Indonesia, Australia and New Zealand, Prime Minister Narendra Modi must discuss alternative maritime coalitions and revive the Australia-India-Japan trilateral.

The U.S.-Iran MoU and West Asia

The second geography of concern is West Asia. The U.S. ceasefire with Iran, after just a few months of a surprisingly badly planned war, is indicative of a general fatigue in Trump 2.0 with U.S. friends and allies in the region. The situation is even more volatile today than it was prior to February 28, especially given the short shrift Israel has received in negotiations with Iran, and Prime Minister Benjamin Netanyahu's defiance over the ceasefire for Lebanon.

A closer look at the 14-paragraph "Islamabad MoU" released by Iran reveals several signals for the region. Paragraph four states that the U.S. commits to "remove its forces from the proximity of the Islamic Republic of Iran" within 30 days after the final deal. Paragraph five says that, after the Hormuz Strait is demined, Iran and Oman will define the Strait's future administration in consultation with Persian Gulf littoral states.

Paragraph 6 stipulates that the U.S., along with regional allies, will provide at least $300 billion for Iran's reconstruction. These provisions imply commitments on behalf of the Cooperation Council for the Arab States of the Gulf (GCC) states while giving Iran leverage on key issues – military, connectivity, and economic security. Oman and Qatar are now closer to Iran than before and have been part of the Pakistan-led mediation process, while countries such as Saudi Arabia are seeking new security arrangements with Türkiye, Pakistan, and Ukraine.

India's policy towards the region requires a rapid revision in light of the post-war, post-deal power structure. What was once a finely balanced approach now appears tilted towards Israel and the United Arab Emirates. New Delhi must also urgently reconsider its compliance with U.S. sanctions on Iranian oil and the Chabahar port, given Washington's shifting positions.

The U.S. and South Asia

Finally, India must study the implications of U.S. foreign policy decisions in its neighbourhood. The appointment of Sergio Gor as both U.S. Ambassador to India and Special Envoy for South and Central Asia signals Washington's growing regional ambitions. New Delhi has pushed back on attempts by the U.S. to become a supra entity in South Asia, as well as its efforts to resolve intra-regional conflicts between India and Pakistan. This ambition was hinted at during Operation Sindoor (May 2025), and repeated by Mr. Trump over the past year, especially as he met the Pakistani leadership many times in this period.

Mr. Gor's recent travels to Kathmandu, Thimphu, Dhaka and Colombo indicate that the U.S. is keen to broaden its efforts across the region. In the absence of effective pan-regional frameworks such as the South Asian Association for Regional Cooperation (SAARC) and the Bay of Bengal Initiative for Multi-Sectoral Technical and Economic Cooperation (BIMSTEC) – both are constrained by New Delhi's political tensions with Islamabad and Dhaka – it is clear that the U.S. is entering into competition with China for influence in South Asia.

Beijing has already built several mechanisms for cooperation with South Asia, and both powers side-stepping India. India, as chair of the Indian Ocean Rim Association, and with Mr. Modi due to attend the planned BIMSTEC summit in Bangladesh and the Shanghai Cooperation Organisation (SCO) summit in Pakistan next year, has an opportunity to reassert its regional leadership. Given the opportunities, a revival of the SAARC grouping and other pan-regional initiatives must be considered.

Concerns over the U.S.'s moves across India's geographies may seem contrary to the bonhomie at the Modi-Trump meeting at the G-7 meet in France, and the red carpet for Mr. Rubio's India visit. Shorn of the rhetoric, however, the trends in U.S. policy are clear, and New Delhi must plan accordingly, acknowledging that the shifts run far deeper than the ripples on the surface caused by a dropped prefix.

suhasini.h@thehindu.co.in

The U.S.'s reversion from INDOPACOM to PACOM suggests that its regional shifts run deeper than a simple name change

25J6. PACOM, the deeper meaning behind a dropped prefix
PACOM: हटाए गए उपसर्ग के पीछे का गहरा अर्थ

- The decision by the **United States military** to change the name of its **naval command** in the region from "**US INDOPACOM**" to "**US PACOM**" — **United States Indo-Pacific Command** to **United States Pacific Command** — reverting to its original name that was changed in **2018** can be dismissed as superficial, even trivial.
  संयुक्त राज्य अमेरिका की सेना द्वारा क्षेत्र में अपने **नौसैनिक कमान** का नाम "**संयुक्त राज्य अमेरिका हिंद-प्रशांत कमान**" से बदलकर "**संयुक्त राज्य अमेरिका प्रशांत कमान**" करना — अर्थात् **संयुक्त राज्य अमेरिका हिंद-प्रशांत कमान** से पुनः **संयुक्त राज्य अमेरिका प्रशांत कमान** करना — तथा **2018** से पहले के मूल नाम पर लौटना, सतही अथवा तुच्छ परिवर्तन माना जा सकता है।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur

Website : patrioticias.in

- In **2018**, **U.S. Defence Secretary Jim Mattis** said that the name **INDOPACOM** was a recognition of the "**growing significance**" of the **Indian Ocean**, the **Indian subcontinent**, and **India** itself, and the **U.S.** dropped the term "**Asia-Pacific**" to "**Indo-Pacific**".
  2018 में **संयुक्त राज्य अमेरिका के रक्षा सचिव जिम मैटिस** ने कहा था कि **हिंद-प्रशांत कमान** नाम **हिंद महासागर**, **भारतीय उपमहाद्वीप** तथा स्वयं **भारत** के बढ़ते हुए **महत्त्व** की स्वीकृति का प्रतीक है, और इसी कारण **संयुक्त राज्य अमेरिका** ने "**एशिया-प्रशांत**" के स्थान पर "**हिंद-प्रशांत**" शब्द का प्रयोग आरम्भ किया।
- Current **U.S. Secretary of War Pete Hegseth** gave the signal, on **May 30**, that this understanding has now changed, at his speech at the annual **Shangri-La Dialogue** in **Singapore** — compared to more than **30 references** to the "**Indo-Pacific**" in his speech in **2025**, his speech this year contained not a single reference to the **Indo-Pacific region** or strategy.
  वर्तमान **संयुक्त राज्य अमेरिका के युद्ध सचिव पीट हेगसेथ** ने **30 मई** को **सिंगापुर** में आयोजित वार्षिक **शांग्री-ला संवाद** में अपने भाषण के दौरान संकेत दिया कि अब यह दृष्टिकोण बदल चुका है। **2025** के उनके भाषण में "**हिंद-प्रशांत**" का **30 से अधिक बार** उल्लेख था, जबकि इस वर्ष के भाषण में **हिंद-प्रशांत क्षेत्र** अथवा उससे संबंधित किसी रणनीति का एक बार भी उल्लेख नहीं किया गया।
- Given the centre stage that the **U.S.'s Indo-Pacific policy** has had in **India's strategic calculus** since **2018**, it is necessary, therefore, to go beyond the superficial to the subterranean or submarine, in this case.
  चूँकि **2018** से **संयुक्त राज्य अमेरिका की हिंद-प्रशांत नीति भारत की सामरिक सोच** के केंद्र में रही है, इसलिए केवल सतही परिवर्तनों पर ध्यान देने के स्थान पर गहरे निहितार्थों का अध्ययन करना आवश्यक है।

U.S.-China ties and the Quad
संयुक्त राज्य अमेरिका-चीन संबंध और क्वाड

- The first, is the **U.S.'s outreach to China**, and concurrently diminishing salience of the **Quad** (**India, Japan, Australia, the U.S.**), which **Beijing** has always protested as an "**exclusive clique**" or derisively as "**ocean foam**".
  पहला पक्ष **संयुक्त राज्य अमेरिका** द्वारा **चीन** के साथ बढ़ते संपर्क तथा साथ ही **क्वाड** (**भारत, जापान, ऑस्ट्रेलिया और संयुक्त राज्य अमेरिका**) के घटते महत्त्व से संबंधित है, जिसे **बीजिंग** सदैव "**विशिष्ट समूह**" अथवा उपहासपूर्वक "**समुद्री झाग**" कहता रहा है।
- In the long term, the **U.S.** and **China** cannot shy away from the fierce **rivalry** between them, but it is clear that in the immediate term, **Trump 2.0** has decided to play nice.
  दीर्घकाल में **संयुक्त राज्य अमेरिका** और **चीन** के बीच की तीव्र **प्रतिस्पर्धा** से बचा नहीं जा सकता, किन्तु निकट भविष्य में यह स्पष्ट है कि **ट्रंप प्रशासन के वर्तमान कार्यकाल** ने सौहार्दपूर्ण व्यवहार अपनाने का निर्णय लिया है।
- **Mr. Trump's** references to a "**G-2**", including during a press availability with **Mr. Modi** on the sidelines of the **52nd G-7 summit** in **France** (**June 15 to 17**), are an early warning of a plan to recast the world into "**spheres of influence**", where **China** would be the predominant power in the continent, not as one pole in a **multipolar Asia**, as **India** envisions.
  श्री ट्रंप द्वारा "**जी-2**" का उल्लेख, जिसमें **फ्रांस** में आयोजित **बावनवें जी-7 शिखर सम्मेलन** (**15 से 17 जून**) के अवसर पर **श्री मोदी** के साथ संवाद भी शामिल है, इस बात का प्रारंभिक संकेत है कि विश्व को "**प्रभाव क्षेत्रों**" में पुनर्गठित करने की योजना बनाई जा रही है, जिसमें **चीन** महाद्वीप की प्रमुख शक्ति होगा, न कि **भारत** की परिकल्पना के अनुसार **बहुध्रुवीय एशिया** का एक ध्रुव।
- As a result, the **Quad**, rebuilt in **Trump 1.0** as a counter to **China** in the region, appears to be floundering.
  परिणामस्वरूप, **ट्रंप के प्रथम कार्यकाल** में क्षेत्र में **चीन** के संतुलन हेतु पुनर्जीवित किया गया **क्वाड** अब कमजोर पड़ता हुआ दिखाई दे रहा है।
- The **U.S.'s National Defense Strategy** released in **January 2026** does not mention the **Quad** even once.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur

Contact Number : 9971932488
Website : patrioticias.in

जनवरी 2026 में जारी **संयुक्त राज्य अमेरिका की राष्ट्रीय रक्षा रणनीति** में **क्वाड** का एक बार भी उल्लेख नहीं किया गया है।

- In terms of substance, the **Quad's** combined agenda has been pared down to four areas of cooperation — **maritime security**, **economic prosperity**, **critical and emerging minerals technology** and **disaster responses**.
  वास्तविक दृष्टि से **क्वाड** का संयुक्त कार्यसूची अब केवल चार सहयोग क्षेत्रों तक सीमित रह गई है — **समुद्री सुरक्षा**, **आर्थिक समृद्धि**, **महत्त्वपूर्ण एवं उभरती खनिज प्रौद्योगिकी** तथा **आपदा प्रतिक्रिया**।
- Despite **Quad countries** signing on to **Pax Silica**, and **Critical Minerals Initiative Framework** with the **U.S.**, the **Trump administration** ordered **Anthropic** to end access to its latest models for all **non-Americans**.
  यद्यपि **क्वाड देशों** ने **संयुक्त राज्य अमेरिका** के साथ **पैक्स सिलिका** तथा **महत्त्वपूर्ण खनिज पहल रूपरेखा** पर सहमति व्यक्त की है, फिर भी **ट्रंप प्रशासन** ने **एंथ्रोपिक** को अपने नवीनतम प्रतिरूपों की पहुँच सभी **गैर-अमेरिकी नागरिकों** के लिए समाप्त करने का निर्देश दिया।
- During **U.S. Secretary of State Marco Rubio's** visit to **Delhi** in **May 2026**, he offered no firm commitment that **Mr. Trump** would visit **Delhi** this year, amid indications that the **Quad** may be relegated to a **Foreign Ministers'** level grouping.
  मई 2026 में **संयुक्त राज्य अमेरिका के विदेश मंत्री मार्को रुबियो** की **दिल्ली** यात्रा के दौरान उन्होंने इस वर्ष **श्री ट्रंप** की **दिल्ली** यात्रा को लेकर कोई ठोस आश्वासन नहीं दिया, जबकि ऐसे संकेत मिले कि **क्वाड** को केवल **विदेश मंत्रियों** के स्तर के समूह तक सीमित किया जा सकता है।
- In **July**, when he hosts **Japanese Prime Minister Sanae Takaichi** and travels to **Indonesia**, **Australia** and **New Zealand**, **Prime Minister Narendra Modi** must discuss alternative **maritime coalitions** and revive the **Australia-India-Japan trilateral**.
  जुलाई में जब **प्रधानमंत्री नरेंद्र मोदी जापान की प्रधानमंत्री सानाए ताकाइची** की मेज़बानी करेंगे तथा **इंडोनेशिया**, **ऑस्ट्रेलिया** और **न्यूज़ीलैंड** की यात्रा करेंगे, तब उन्हें वैकल्पिक **समुद्री साझेदारियों** पर चर्चा करनी चाहिए तथा **ऑस्ट्रेलिया-भारत-जापान त्रिपक्षीय सहयोग** को पुनर्जीवित करना चाहिए।

The U.S.-Iran MoU and West Asia
संयुक्त राज्य अमेरिका-ईरान समझौता ज्ञापन और पश्चिम एशिया

- Paragraph **four** states that the **U.S.** commits to "remove its forces from the proximity of the **Islamic Republic of Iran**" within **30 days** after the final deal.
  चौथे अनुच्छेद में कहा गया है कि अंतिम समझौते के **30 दिनों** के भीतर **संयुक्त राज्य अमेरिका ईरान के इस्लामी गणराज्य** की सीमा के निकट से अपनी सेनाएँ हटा लेगा।
- Paragraph **five** says that, after the **Hormuz Strait** is demined, **Iran** and **Oman** will define the Strait's future administration in consultation with **Persian Gulf littoral states**.
  पाँचवें अनुच्छेद के अनुसार, **हॉर्मुज़ जलडमरूमध्य** से बारूदी सुरंगें हटाए जाने के बाद **ईरान** और **ओमान फ़ारस की खाड़ी के तटीय देशों** के साथ परामर्श करके उसके भावी प्रशासन का निर्धारण करेंगे।
- Paragraph **6** stipulates that the **U.S.**, along with **regional allies**, will provide at least **300 billion dollars** for **Iran's reconstruction**.
  छठे अनुच्छेद में यह प्रावधान किया गया है कि **संयुक्त राज्य अमेरिका** अपने **क्षेत्रीय सहयोगियों** के साथ मिलकर **ईरान के पुनर्निर्माण** के लिए कम से कम **तीन सौ अरब डॉलर** उपलब्ध कराएगा।
- **Oman** and **Qatar** are now closer to **Iran** than before and have been part of the **Pakistan-led mediation process**, while countries such as **Saudi Arabia** are seeking new **security arrangements** with **Türkiye**, **Pakistan**, and **Ukraine**.
  ओमान और **क़तर** अब पहले की तुलना में **ईरान** के अधिक निकट हैं तथा **पाकिस्तान** के नेतृत्व वाली **मध्यस्थता प्रक्रिया** का हिस्सा रहे हैं, जबकि **सऊदी अरब** जैसे देश **तुर्किये**, **पाकिस्तान** और **यूक्रेन** के साथ नई **सुरक्षा व्यवस्थाओं** की तलाश कर रहे हैं।
- **India's** policy towards the region requires a rapid revision in light of the **post-war**, **post-deal power structure**.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

भारत की क्षेत्र संबंधी नीति को **युद्धोत्तर** तथा **समझौते के बाद की शक्ति संरचना** के संदर्भ में शीघ्र पुनरीक्षित किए जाने की आवश्यकता है।

- What was once a finely balanced approach now appears tilted towards **Israel** and the **United Arab Emirates**.
  जो नीति कभी अत्यंत संतुलित मानी जाती थी, वह अब **इज़राइल** और **संयुक्त अरब अमीरात** की ओर अधिक झुकी हुई दिखाई देती है।

The U.S. and South Asia
संयुक्त राज्य अमेरिका और दक्षिण एशिया

- Finally, **India** must study the implications of **U.S. foreign policy** decisions in its **neighbourhood**.
  अंततः **भारत** को अपने **पड़ोसी क्षेत्र** में **संयुक्त राज्य अमेरिका की विदेश नीति** से जुड़े निर्णयों के प्रभावों का गहन अध्ययन करना चाहिए।
- The appointment of **Sergio Gor** as both **U.S. Ambassador to India** and **Special Envoy for South and Central Asia** signals **Washington's** growing **regional ambitions**.
  सर्जियो गोर की **भारत में संयुक्त राज्य अमेरिका के राजदूत** तथा **दक्षिण और मध्य एशिया के विशेष दूत** के रूप में नियुक्ति **वॉशिंगटन** की बढ़ती हुई **क्षेत्रीय महत्वाकांक्षाओं** का संकेत देती है।
- **Mr. Gor's** recent travels to **Kathmandu**, **Thimphu**, **Dhaka** and **Colombo** indicate that the **U.S.** is keen to broaden its efforts across the region.
  श्री गोर की हाल की **काठमांडू**, **थिम्फू**, **ढाका** और **कोलंबो** यात्राएँ इस बात का संकेत देती हैं कि **संयुक्त राज्य अमेरिका** पूरे क्षेत्र में अपनी सक्रियता का विस्तार करना चाहता है।
- In the absence of effective **pan-regional frameworks** such as the **South Asian Association for Regional Cooperation** and the **Bay of Bengal Initiative for Multi-Sectoral Technical and Economic Cooperation** — both are constrained by **New Delhi's** political tensions with **Islamabad** and **Dhaka** — it is clear that the **U.S.** is entering into competition with **China** for influence in **South Asia**.
  दक्षिण एशियाई क्षेत्रीय सहयोग संगठन तथा **बहु-क्षेत्रीय तकनीकी और आर्थिक सहयोग हेतु बंगाल की खाड़ी पहल** जैसे प्रभावी **क्षेत्रव्यापी संस्थागत ढाँचों** के अभाव में — जो **नई दिल्ली** के **इस्लामाबाद** और **ढाका** के साथ राजनीतिक तनावों के कारण सीमित हो गए हैं — यह स्पष्ट है कि **संयुक्त राज्य अमेरिका दक्षिण एशिया** में प्रभाव बढ़ाने के लिए **चीन** के साथ प्रतिस्पर्धा में उतर रहा है।
- **India**, as chair of the **Indian Ocean Rim Association**, and with **Mr. Modi** due to attend the planned **BIMSTEC summit** in **Bangladesh** and the **Shanghai Cooperation Organisation** summit in **Pakistan** next year, has an opportunity to reassert its **regional leadership**.
  भारतीय महासागर परिक्षेत्र संगठन के अध्यक्ष के रूप में **भारत**, तथा अगले वर्ष **श्री मोदी** की **बांग्लादेश** में प्रस्तावित **बिम्सटेक शिखर सम्मेलन** और **पाकिस्तान** में होने वाले **शंघाई सहयोग संगठन शिखर सम्मेलन** में प्रस्तावित भागीदारी के माध्यम से, अपने **क्षेत्रीय नेतृत्व** को पुनः स्थापित करने का अवसर रखता है।
- Given the opportunities, a revival of the **SAARC** grouping and other **pan-regional initiatives** must be considered.
  इन अवसरों को देखते हुए **दक्षिण एशियाई क्षेत्रीय सहयोग संगठन** तथा अन्य **क्षेत्रव्यापी पहलों** के पुनर्जीवन पर गंभीरता से विचार किया जाना चाहिए।

Inspections in Iran will go ahead, working on modalities, says Grossi

Iran has not allowed IAEA to return to its most sensitive nuclear sites since attacks by the U.S. and Israel in June last year; MoU states that activities to be carried out with regards to nuclear material will be supervised by IAEA, says UN watchdog

GS II: IR

Reuters
VIENNA

The UN nuclear watchdog will carry out inspections in Iran soon following an interim peace accord between the United States and Iran, but modalities have yet to be finalised, the agency's chief Rafael Grossi said on Wednesday.

The two sides signed a 14-point memorandum of understanding last week setting out broad agreements in principle to end the war. The interim accord paved the way for 60 days of talks aimed at hammering out thornier details, including issues related to Iran's nuclear programme.

"The inspections will indeed take place," International Atomic Energy Agency chief Rafael Grossi told a press conference in Japan, an audio recording of which the IAEA posted online. "We will be working on the modalities – dates, procedures, places – very soon," he said of discussions with Tehran.

Iran has not let the IAEA, which polices its nuclear programme, return to its most sensitive nuclear sites since the United States and Israel bombed them in June last year. The IAEA has inspected other sites, but inspections were suspended after the U.S.-Israeli attacks on Iran on February 28.

Director General of the International Atomic Energy Agency Raffael Grossi during a meeting at the IAEA headquarters in Vienna. REUTERS

A central issue in talks is what will happen to Iran's highly enriched uranium, including material enriched to up to 60% purity, a short step from the roughly 90% of weapons grade.

"Paragraph 8 of this memorandum of understanding states explicitly that nuclear activities that are going to be carried out with regards to nuclear material, facilities, will be supervised by the IAEA, in bold letters," Mr. Grossi said.

Iran has not informed the IAEA how much of its enriched uranium survived the attacks or where it is. The IAEA estimates Iran had 440.9 kg of uranium enriched to up to 60% before Israel launched the first attack on June 13 of last year. If enriched further, that would be enough for 10 nuclear weapons, according to an IAEA yardstick.

25J6. Inspections in Iran will go ahead, working on modalities, says Grossi
ग्रॉसी ने कहा, ईरान में निरीक्षण आगे बढ़ेंगे, प्रक्रियाओं पर काम जारी है।

- The **UN nuclear watchdog** will carry out **inspections** in **Iran** soon following an interim **peace accord** between the **United States** and **Iran**, but modalities have yet to be finalised, the agency's chief **Rafael Grossi** said on Wednesday.
  संयुक्त राष्ट्र का परमाणु निगरानी संगठन अमेरिका और **ईरान** के बीच हुए अंतरिम **शांति समझौते** के बाद जल्द ही **ईरान** में **निरीक्षण** करेगा, लेकिन प्रक्रियाएँ अभी अंतिम रूप नहीं ले पाई हैं, एजेंसी के प्रमुख **राफेल ग्रॉसी** ने बुधवार को कहा।
- The two sides signed a **14-point memorandum of understanding** last week setting out broad agreements in principle to end the war.
  दोनों पक्षों ने पिछले सप्ताह युद्ध समाप्त करने के सिद्धांतगत व्यापक समझौतों को निर्धारित करते हुए **14-बिंदुओं वाले समझौता ज्ञापन** पर हस्ताक्षर किए।
- The interim accord paved the way for **60 days of talks** aimed at hammering out thornier details, including issues related to **Iran's nuclear programme**.
  इस अंतरिम समझौते ने **60 दिनों की वार्ता** का मार्ग प्रशस्त किया, जिसका उद्देश्य **ईरान के परमाणु कार्यक्रम** सहित जटिल मुद्दों पर विस्तृत सहमति बनाना है।
- "The inspections will indeed take place," **International Atomic Energy Agency** chief **Rafael Grossi** told a press conference in **Japan**, an audio recording of which the **IAEA** posted online.
  "**निरीक्षण** निश्चित रूप से होंगे," **अंतरराष्ट्रीय परमाणु ऊर्जा एजेंसी (IAEA)** के प्रमुख **राफेल ग्रॉसी** ने **जापान** में एक प्रेस वार्ता में कहा, जिसकी ऑडियो रिकॉर्डिंग **IAEA** ने ऑनलाइन साझा की।
- "We will be working on the modalities — dates, procedures, places — very soon," he said of discussions with **Tehran**.
  उन्होंने **तेहरान** के साथ चर्चा का उल्लेख करते हुए कहा, "हम बहुत जल्द प्रक्रियाओं—तिथियों, तरीकों और स्थानों—पर काम करेंगे।"
- **Iran** has not let the **IAEA**, which polices its **nuclear programme**, return to its most sensitive **nuclear sites** since the **United States** and **Israel** bombed them in June last year.

पिछले वर्ष जून में **अमेरिका** और **इज़रायल** द्वारा बमबारी किए जाने के बाद से **ईरान** ने अपने **परमाणु कार्यक्रम** की निगरानी करने वाली **IAEA** को अपने सबसे संवेदनशील **परमाणु स्थलों** पर लौटने की अनुमति नहीं दी है।

- The **IAEA** has inspected other sites, but inspections were suspended after the **U.S.-Israeli** attacks on **Iran** on **February 28**.
  IAEA ने अन्य स्थलों का निरीक्षण किया है, लेकिन **28 फरवरी** को **अमेरिका-इज़रायल** के **ईरान** पर हमलों के बाद निरीक्षण स्थगित कर दिए गए।
- A central issue in talks is what will happen to **Iran's highly enriched uranium**, including material enriched to up to **60% purity**, a short step from the roughly **90%** of **weapons grade**.
  वार्ता का एक प्रमुख मुद्दा यह है कि **ईरान के अत्यधिक समृद्ध यूरेनियम** का क्या होगा, जिसमें **60% शुद्धता** तक समृद्ध किया गया पदार्थ भी शामिल है, जो लगभग **90%** के **हथियार-ग्रेड** स्तर से केवल एक कदम दूर है।
- The **IAEA** estimates **Iran** had **440.9 kg of uranium** enriched to up to **60%** before **Israel** launched the first attack on **June 13** of last year.
  IAEA का अनुमान है कि पिछले वर्ष **13 जून** को **इज़रायल** के पहले हमले से पहले **ईरान** के पास **60%** तक समृद्ध **440.9 किलोग्राम यूरेनियम** था।
- If enriched further, that would be enough for **10 nuclear weapons**, according to an **IAEA** yardstick.
  IAEA के मानकों के अनुसार यदि इसे और अधिक समृद्ध किया जाए, तो यह **10 परमाणु हथियारों** के लिए पर्याप्त होगा।

KURNOOL

Andhra Pradesh Chief Minister N. Chandrababu Naidu inaugurated the first unit of a gold mining project at Jonnagiri in Kurnool district on Wednesday.

The ₹405-crore plant was established by Geomysore Services India Pvt. Limited (GMSI). Mr. Naidu also laid the foundation stone for the second unit.

Marking the commencement of sales, he then handed over gold produced at the unit to jewellery firms in the State.

Addressing a public meeting later, the Chief Minister said: "Jonnagiri, once known as Suvarnagiri, will emerge as a model growth centre for Andhra Pradesh." Karnataka's Kolar Gold Fields (KGF) had once dominated the national scene, but now "Jonnagiri unit is the cynosure of all eyes". "The plant will have an annual capacity of 400 kg of gold," he said.

Goyal will hold a meeting with Peter Kyle, U.K.'s Secretary of State for Business and Trade

Commerce Minister Piyush Goyal will travel to the United Kingdom from June 25-27 to meet his U.K. counterpart and review the preparedness of both countries for the implementation of the India-UK Comprehensive Economic and Trade Agreement (CETA) and its companion Double Contribution Convention (DCC) on July 15.

During the visit, the Ministry of Commerce said in a statement on Wednesday, Mr. Goyal will hold a high-level bilateral meeting with Peter Kyle, the U.K.'s Secretary of State for Business and Trade.

"The engagement marks an important step towards the operationalisation of the agreements and the strengthening of the economic partnership between the two countries," the Commerce Ministry statement said.

"The bilateral discussions will focus on aligning regulatory roadmaps, streamlining cross-border customs coordination and finalising administrative mechanisms to facilitate the smooth implementation of CETA and the DCC," it added.

The Ministers will also review preparedness for the implementation of the CETA's tariff liberalisation commitments and the operational roadmap for the DCC.

"The two sides will further discuss the operationalisation of mutual market access commitments across key services sectors and review measures aimed at strengthening bilateral trade and investment ties," the statement said.

- **Commerce Minister Piyush Goyal** will travel to the **United Kingdom** from **June 25-27** to meet his **U.K. counterpart** and review the preparedness of both countries for the implementation of the **India-UK Comprehensive Economic and Trade Agreement (CETA)** and its companion **Double Contribution Convention (DCC)** on **July 15**.

वाणिज्य मंत्री पीयूष गोयल 25-27 जून के दौरान **यूनाइटेड किंगडम** की यात्रा करेंगे, जहां वे अपने **ब्रिटिश समकक्ष** से मुलाकात करेंगे और **15 जुलाई** को **भारत-यू.के. व्यापक आर्थिक एवं व्यापार समझौता (CETA)** तथा उससे जुड़े **डबल कंट्रीब्यूशन कन्वेंशन (DCC)** के क्रियान्वयन के लिए दोनों देशों की तैयारियों की समीक्षा करेंगे।

- **पार** और **निवेश संबंधों** को मजबूत करने के उद्देश्य से उठाए गए उपायों की भी समीक्षा करेंगे।"

The platform had processed transactions worth ₹26,952 crore in May 2026

- **From credit cards, loans, investments and over time insurance, a bouquet of financial products** is planned to be offered on **BHIM payments app, NPCI BHIM Services (NBSL) MD-CEO Lalitha Nataraj** said.

From credit cards, loans, investments and over time insurance, a bouquet of financial products is planned to be offered on BHIM payments app, NPCI BHIM Services (NBSL) MD-CEO Lalitha Nataraj said.

"We have partnered with multiple banks to distribute credit cards and working with some of the NBFCs [for loans]. Also working with banks for national pension schemes. Insurance and investments [offerings] will follow little later," she told the meida.

Since its introduction in 2016 the app has undergone revamps and sported new features, BHIM 3.0 roll out in 2025 being the last, Ms.Nataraj said.

NBSL is also actively evaluating integrating its app in the mobile apps of banks. It has made a beginning with Canara Bank and is in talks with at least one more public sector lender as well as a private bank, she said. Banks stood to benefit from new features, updated infrastructure and technology via the integration while users get to experience faster UPI payments, she added.

The monthly transaction volumes via BHIM rose from 79.64 million in June 2025 to 244 million in May 2026.

The platform processed transactions worth ₹26,952 crore in May 2026.

क्रेडिट कार्ड, ऋण, निवेश और समय के साथ बीमा सहित अनेक **वित्तीय उत्पादों** को **BHIM पेमेंट्स ऐप** पर उपलब्ध कराने की योजना है, ऐसा **NPCI BHIM सर्विसेज (NBSL) की एमडी-सीईओ ललिता नटराज** ने कहा।

- "We have partnered with **multiple banks** to distribute **credit cards** and working with some of the **NBFCs** [for loans].
  "हमने **क्रेडिट कार्ड** वितरित करने के लिए **कई बैंकों** के साथ साझेदारी की है और **NBFCs** के साथ [ऋण के लिए] काम कर रहे हैं।"
- Also working with banks for **national pension schemes**.
  साथ ही **राष्ट्रीय पेंशन योजनाओं** के लिए भी बैंकों के साथ कार्य किया जा रहा है।
- **Insurance** and **investments** [offerings] will follow little later," she told the media.
  उन्होंने मीडिया से कहा, **बीमा** और **निवेश** से संबंधित सेवाएँ कुछ समय बाद उपलब्ध कराई जाएँगी।
- Since its introduction in **2016** the app has undergone **revamps** and sported **new features**, **BHIM 3.0** roll out in **2025** being the last, **Ms. Nataraj** said.
  2016 में शुरू होने के बाद से इस ऐप में कई **बदलाव** और **नई सुविधाएँ** जोड़ी गई हैं, जिनमें **2025** में **BHIM 3.0** का लॉन्च सबसे हालिया था, **सुश्री नटराज** ने कहा।
- It has made a beginning with **Canara Bank** and is in talks with at least one more **public sector lender** as well as a **private bank**, she said.
  उन्होंने कहा कि इसकी शुरुआत **केनरा बैंक** के साथ हो चुकी है और कम-से-कम एक अन्य **सार्वजनिक क्षेत्र के बैंक** तथा एक **निजी बैंक** के साथ भी बातचीत चल रही है।

Kingmakers: meet the insects that make India's favourite mangoes

A study has found that allowing wild insects to access flowers dramatically increased mango yield by 350%, highlighting the importance of wild insects for mango pollination; yet, native bees that transfer pollen around orchards are under threat from the insecticides that protect the crop from pests

GS III: Environment

Kavitha Kannan

More than a thousand varieties of mangoes exist in India, the popular ones being Banganapalli, Dassheri, Alphonso, Badaami, Imaam Pasandh, and Malgoa. There is even a "Lalbagh" variety in Bengaluru. Many of us associate the fruit with a summer childhood memory, of eating it with our bare hands, the mango juice dripping on our clothes.

More recently, the fruit has become popular on social media platforms, where users explain hundreds of ways to cook and eat it. This year, the fruit's popularity reached a new height: the red carpet at the Met Gala in New York. Mangoes and Indian summers go hand-in-hand, yet do you know how this fruit comes to be?

In other words, the mango tree gives out flowers... and then what happens?

Making a mango

Between December and March every year, mango trees across the country bloom and issue a sweet yet slightly fermented odour. Look closer at a mango tree in this time and you will find a branch with several bouquets of small, cream-coloured flowers. Each branch, which botanists call a panicle, contains a few hundred to up to 10,000 individual flowers. And a single mango tree can carry up to some 3,000 panicles, depending on its size and branching.

Each one of these flowers is the start of a mango in the making. Some flowers carry only the male parts while others only the female parts, and sometimes there can be flowers with both (which are biologically called hermaphrodites). Regardless, for the mango to form, pollen must travel between these flowers.

This is where pollinators make their mark. There is a curious history here. Mango cultivars had once insisted that mango flowers are pollinated only by wind. But this theory could not explain why the flowers issued a sweet odour. It had to be to attract insects.

To confirm that insects were indeed pollinators, researchers in Bengaluru teamed up with their peers from Germany to survey several Badami mango farms in the city's urban and rural areas. Their findings, published in 2023, were striking: "We found that allowing flowers access to ants and flying visitors (bees, hoverflies, nonsyrphid flies), dramatically increased mango yield by 350%, highlighting the importance of wild insects for mango pollination," the study paper read.

These flying insects were found to include wild bees such as the dwarf honey bee (*Apis florea*), giant honey bee (*Apis dorsata*), and stingless bees (*Tetragonula sp.*). Other important flying visitors included hoverflies, which look like bees (*Syrphus sp.*), the common house fly (*Musca domestica*), and the blow fly (Calliphoridae family).

Effective pollination

The researchers also observed that the mango yields dropped when they barred crawling insects, such as ants, from the flowers. Soubadra Devy, a senior researcher at the Ashoka Trust for Research in Ecology and the Environment, Bengaluru, and an author of the study, said ants are "messy pollinators" and that it is essential to investigate them as pollinators of mango in future studies.

Dr. Devy also said she anticipates that the pollinator community is not any different for other Indian mango varieties since the "floral traits, i.e. the flower structure, pollen, and nectar are likely to be very similar".

Researchers have conducted similar studies in Mexico, on the 'Ataulfo' mango, and in Australia, on the 'Kensington Pride' variety – and have revealed similar findings. Both teams also took more steps to determine which insects were the pollinators.

They calculated a 'pollination effectiveness' metric based on the abundance of pollinators, the number of visits to flowers (with a 'legitimate' visits quantified using video cameras on trees), and the number of pollen grains deposited. And both studies showed that wild and native insects were most efficient at pollination, producing a higher yield of fruits.

Non-native bees to Mexico, such as European honey bees (*Apis mellifera*), were abundant and contributed to 80% of the pollination. Paradoxically, however, that did not result in a higher yield. The reason was that these non-native bees stayed around the same trees or in the same orchard and delivered the wrong pollen, resulting in malformed fruits. On the other hand, the native bees transferred pollen between orchards, giving rise to more full and juicy fruits.

Farmers' friends

Yet these native bees are under threat from the same insecticides that protect the mango crop from pests. Neonicotinoid insecticides, which are commonly sprayed on mango trees, are neurotoxic and affect cognitive functions in bees, such as navigation, learning, and memory, and eventually their survival. This ripples through the entire colony, as the insecticides travel to the pollen and nectar and are brought back to the hive by bees.

The Bengaluru-based study observed that fewer bees visited the mango flowers, and the harvested fruits were lighter by almost 30%, resulting in a three-way loss for the farmer: expensive pesticides, loss of pollinators, and a loss in the fruit yield.

Dr. Devy said monoculture farms that prevail in rural areas are more prone to pest attacks, and hence suffer higher pollinator loss as well. However, she also said she sees hope in bee-safe pesticides and in farmers timing their sprays to avoid peak pollinator activity – practices already in use in several western countries.

"One recent welcome move", in her words, was the Indian government recognising pollinators in the country's new 'environmental accounting' framework. This framework recognised that India has more than 800 bee species, plus butterflies, moths, beetles, birds, bats and flies as pollinators and that they are ecologically important for agriculture. The government has also attached a monetary value equivalent to 8-10% of the total crop output value, amounting to ₹2.6 lakh crore in 2021-22, to pollinators.

Rights of pollinators

Attaching a monetary value could nudge policy towards actively protecting our pollinators, through changes at the farm and landscape levels. These could include, as the Mexico study suggested, increasing the spread of natural and semi-natural areas near orchards, such as native forest patches and wildflower strips, to attract more wild insects.

Dr. Devy also pointed out that in May, stingless bees in Peru had become the first insects to win the legal rights to exist, thrive, and be represented in court. This is significant for the conservation of the species against insecticides, climate change, and competition from non-native insects.

The question then arises: will India accord similar rights to its pollinators, which carry the weight of the country's agriculture? As you relish this season's mangoes, it could also be your food for thought.

25J6	CRPF officer suspended, 20 others transferred after 'kin protested against CAPF Bill' 'परिजनों द्वारा सीएपीएफ विधेयक के विरोध' के बाद सीआरपीएफ अधिकारी निलंबित, 20 अन्य का तबादला

CRPF officer suspended, 20 others transferred after 'kin protested against CAPF Bill'

GS III: Internal Security

Vijaita Singh
NEW DELHI

Twenty Central Reserve Police Force (CRPF) officers have been transferred and a Deputy Inspector General (DIG) rank officer has been suspended, allegedly because they or their families voiced their opinions against the Central Armed Police Force (General Administration) Act, 2026.

The legislation was passed by Parliament on April 2 and came into effect on April 9.

Retired and serving officials of the Central Armed Police Forces (CAPF) expressed concern about the suspension of the decorated DIG-rank officer.

'Politically provocative'

On June 10, the officer, posted in Tripura, was informed about a pending enquiry against him for allegedly disseminating "audio/video messages and poster/banner for changing of the Government established by law across social media."

Retired and serving CAPF officials expressed concern about suspension of the DIG-rank officer

The letter said that an Inspector General-rank officer would probe his WhatsApp account and other encrypted platforms he was active on to enquire about the dissemination of "politically provocative" messages against the government. On June 17, the officer was served a suspension order based on the pending enquiry.

It is learnt that the officer has challenged the suspension, on the grounds that there is no "disciplinary proceeding contemplated or pending" against him as required under the Central Civil Services (Classification, Control and Appeal) Rules, 1965.

'Targeted harassment'

Ranbir Singh, the general secretary of the Alliance of All Ex Paramilitary Association said that officers whose families participated in a protest against the CAPF Act at Jantar Mantar in the capital on March 23 and May 6, and at Rajghat on April 9 were being targeted by the CRPF's top brass.

"We want to draw the attention of Home Minister Amit Shah to this targeted harassment of CRPF officers... For the first time in the history of the CRPF, the suspension of a serving DIG without cause has sparked resentment among the paramilitary personnel. Officers are being posted to the North East as a punitive measure," Mr. Singh said.

25J6. CRPF officer suspended, 20 others transferred after 'kin protested against CAPF Bill'
'परिजनों द्वारा सीएपीएफ विधेयक के विरोध' के बाद सीआरपीएफ अधिकारी निलंबित, 20 अन्य का तबादला

- **Twenty Central Reserve Police Force (CRPF) officers** have been transferred and a **Deputy Inspector General (DIG)** rank officer has been suspended, allegedly because they or their families voiced their opinions against the **Central Armed Police Force (General Administration) Act, 2026**.

केंद्रीय रिजर्व पुलिस बल (CRPF) के **20 अधिकारियों** का तबादला कर दिया गया है और **उप महानिरीक्षक (DIG)** रैंक के एक अधिकारी को कथित रूप से इसलिए निलंबित कर दिया गया है क्योंकि उन्होंने या उनके परिवारों ने **केंद्रीय सशस्त्र पुलिस बल (सामान्य प्रशासन) अधिनियम, 2026** के विरुद्ध अपने विचार व्यक्त किए थे।

- The **legislation** was passed by **Parliament** on **April 2** and came into effect on **April 9**.

यह **विधेयक 2 अप्रैल** को **संसद** द्वारा पारित किया गया था और **9 अप्रैल** से प्रभावी हो गया।

- Retired and serving officials of the **Central Armed Police Forces (CAPF)** expressed concern about the suspension of the decorated **DIG-rank officer**.
  केंद्रीय सशस्त्र पुलिस बलों (CAPF) के सेवानिवृत्त और कार्यरत अधिकारियों ने सम्मानित **DIG रैंक के अधिकारी** के निलंबन पर चिंता व्यक्त की।

- It is learnt that the officer has challenged the suspension, on the grounds that there is no **"disciplinary proceeding contemplated or pending"** against him as required under the **Central Civil Services (Classification, Control and Appeal) Rules, 1965**.
  जानकारी के अनुसार अधिकारी ने यह कहते हुए निलंबन को चुनौती दी है कि उनके विरुद्ध **"कोई अनुशासनात्मक कार्यवाही प्रस्तावित या लंबित नहीं है"**, जैसा कि **केंद्रीय सिविल सेवा (वर्गीकरण, नियंत्रण एवं अपील) नियम, 1965** के तहत आवश्यक है।

NEW DELHI

President Droupadi Murmu confers the Padma Vibhushan on former Supreme Court judge K.T. Thomas during the second civil investiture ceremony in New Delhi on Tuesday. Tennis legend Vijay Amritraj and playback singer Alka Yagnik received the Padma Bhushan. PTI, ANI

Tennis legend Vijay Amritraj, actors Mammootty and Satish Shah, cricketer Rohit Sharma, and playback singer Alka Yagnik were among the eminent personalities who received the Padma awards from President Droupadi Murmu on Tuesday.

The Padma awards, one of the highest civilian awards of the country, are conferred in three categories: the Padma Vibhushan, Padma Bhushan, and the Padma Shri.

In the second civil investiture ceremony at the Ganatantra Mandap of the Rashtrapati Bhavan, the President presented the Padma Vibhushan to former Supreme Court judge K. T. Thomas for public affairs and to eminent Malayalam journalist P. Narayanan for contribution to literature and education.

Alka Yagnik, Mammootty, American oncologist Dattatreyudu Nori, Vijay Amritraj, industrialist S.K.M. Maeilanandhan, and social worker and educationist Vellappally Natesan received the Padma Bhushan from the President during the ceremony. Rupi Soren, wife of Jharkhand Mukti Morcha founder Shibu Soren, received the Padma Bhushan on behalf of the late leader.

Padma Shri

The President conferred the Padma Shri on cricketer Rohit Sharma, who led India to victory in the last T-20 World Cup, and on hockey player Savita Punia. Actor R. Madhavan, aerospace scientist Chandramouli Gaddamanugu, who led the Akash missile system from development to deployment during Operation Sindoor, and noted writer Asok Kumar Haldar were among those who received the Padma Shri.

Vladimir Mestvirishvili, the Georgian coach who mentored Indian Olympic medallists such as Sushil Kumar, Yogeshwar Dutt, and Ravi Dahiya, was awarded the Padma Shri posthumously.

The President also conferred the Padma Shri on actor Satish Shah posthumously.

- The President conferred the **Padma Shri** on cricketer **Rohit Sharma**, who led India to victory in the last **T-20 World Cup**, and on hockey player **Savita Punia**.
  राष्ट्रपति ने क्रिकेटर **रोहित शर्मा**, जिन्होंने भारत को पिछले **टी-20 विश्व कप** में विजय दिलाई थी, तथा हॉकी खिलाड़ी **सविता पुनिया** को **पद्म श्री** से सम्मानित किया।
- **Vladimir Mestvirishvili**, the Georgian coach who mentored Indian Olympic medallists such as **Sushil Kumar**, **Yogeshwar Dutt**, and **Ravi Dahiya**, was awarded the **Padma Shri** posthumously.
  व्लादिमीर मेस्तविरिशविली, जिन्होंने भारतीय ओलंपिक पदक विजेताओं **सुशील कुमार**, **योगेश्वर दत्त** और **रवि दहिया** का मार्गदर्शन किया था, को मरणोपरांत **पद्म श्री** से सम्मानित किया गया।
- The President also conferred the **Padma Shri** on actor **Satish Shah** posthumously.
  राष्ट्रपति ने अभिनेता **सतीश शाह** को भी मरणोपरांत **पद्म श्री** प्रदान किया।

Canberra town crier shouts his way into Guinness records

PCS
Associated Press
MELBOURNE

Joseph McGrail-Bateup, an Australian professional air conditioner cleaner and honourary town crier, has been recognised as the world's loudest person.

Guinness World Records last week acknowledged that the 58-year-old Canberra resident recorded the loudest ever shout by an individual. He yelled "now" at 122.4 decibels (dB).

That broke the previous record of 121.7 dB set by Northern Ireland schoolteacher Annalisa Flanagan in 1994. She had yelled an ear-piercing "quiet." That is in the noise range of a chain saw, a jet aircraft taking off and an ambulance siren at close range.

The record attempt was not something Mr. McGrail-Bateup could train for, he said on Tuesday.

"There's no way that you can actually practice for it. You have to just keep it for the day, especially with the world record attempt," Mr. McGrail-Bateup said.

"It took me seven attempts just for one word, which was the word 'now,' and my voice was shot for the next couple of days as well. It was husky. It was terrible. So no, you can't really practice for it. But it's a lot of fun when you're doing it" .

"I'm pleased that she (Ms. Flanagan) gets to keep her record. So she's still the loudest woman and I'm the loudest man in the world," Mr. McGrail-Bateup said.

Mr. McGrail-Bateup said he stumbled upon Ms. Flanagan's record when searching Guinness World Records unsuccessfully for feats in the realm of town crying.

His shout was recorded on May 2 in a radio studio. The files were sent to Guinness World Records, which announced the record on Friday.

24J6. Canberra town crier shouts his way into Guinness records

कैनबरा के टाउन क्रायर ने अपनी आवाज़ के दम पर गिनीज रिकॉर्ड में बनाई जगह

- **Joseph McGrail-Bateup**, an Australian professional **air conditioner cleaner** and honorary **town crier**, has been recognised as the world's **loudest person**.
  ऑस्ट्रेलिया के पेशेवर **एयर कंडीशनर क्लीनर** और मानद **टाउन क्रायर जोसेफ मैकग्रेल-बेटअप** को दुनिया के **सबसे ऊँची आवाज़ वाले व्यक्ति** के रूप में मान्यता दी गई है।
- **Guinness World Records** last week acknowledged that the **58-year-old Canberra resident** recorded the loudest ever shout by an individual. He yelled "**now**" at **122.4 decibels (dB)**.
  गिनीज वर्ल्ड रिकॉर्ड्स ने पिछले सप्ताह स्वीकार किया कि **58 वर्षीय कैनबरा निवासी** ने किसी व्यक्ति द्वारा अब तक की सबसे ऊँची आवाज़ में चिल्लाने का रिकॉर्ड बनाया। उन्होंने "**now**" शब्द को **122.4 डेसिबल (dB)** की तीव्रता से चिल्लाया।
- That broke the previous record of **121.7 dB** set by Northern Ireland schoolteacher **Annalisa Flanagan** in **1994**.
  इसने **1994** में उत्तरी आयरलैंड की शिक्षिका **एनालिसा फ्लैनागन** द्वारा बनाए गए **121.7 dB** के पिछले रिकॉर्ड को तोड़ दिया।
- She had yelled an ear-piercing "**quiet**."
  उन्होंने कानों को चीर देने वाली आवाज़ में "**quiet**" शब्द चिल्लाया था।
- That is in the noise range of a **chain saw**, a **jet aircraft taking off** and an **ambulance siren** at close range.
  यह ध्वनि स्तर **चेन सॉ**, उड़ान भरते हुए **जेट विमान**, और नज़दीक से सुनाई देने वाले **एम्बुलेंस सायरन** के शोर के बराबर है।
- The record attempt was not something Mr. McGrail-Bateup could train for, he said on Tuesday.
  मंगलवार को श्री मैकग्रेल-बेटअप ने कहा कि यह ऐसा रिकॉर्ड नहीं था जिसके लिए वे पहले से अभ्यास कर सकते थे।

Vijayanagara-era inscriptions come to light in A.P.'s Seshachalam forest

GS I: History, Geography

A.D. Rangarajan
TIRUPATI

An expert team from the Archaeological Survey of India (ASI) has found three rare inscriptions dating to the 16th century in Sadasivakona, deep inside the Seshachalam forest in Tirupati district of Andhra Pradesh.

After an epigraphical survey carried out recently in the Nallamala Hills, the team focused its attention this time on Sadasivakona, a pristine and mostly under-explored forest stretch in Seshachalam range.

A team led by K. Muniratnam Reddy, Director (Epigraphy), ASI Mysuru, ventured deep into the forest range and worked for three days to find the inscriptions.

An ASI team taking an estampage of an inscription at Sadasivakona in Seshachalam forest range, Andhra Pradesh. SPECIAL ARRANGEMENT

The inscriptions contained text in Telugu, Tamil and Kannada, representing characters of the 16th century. The inscriptions of the Sadasiva Devaraya era of Vijayanagara dynasty in 1554 were copied in the form of estampages for preservation and further study.

The main inscription records the construction of a Siva temple and a monastery (mutt) at Papavinasa in Sadasivakona by King Sadasivaraya during his pilgrimage to the site.

"It is thrilling to note that King Sadasivaraya personally visited this sacred spot to take a holy bath and grant a donation," Mr. Reddy said.

Though known to be India's first Siva temple, the 2nd-century BC shrine in Gudimallam remained overshadowed by other temples in its vicinity, which gained prominence over time. However, this latest inscription of the 16th century is a pointer to its past glory, when it was personally visited by the ruler of this region.

24J6. Vijayanagara-era inscriptions come to light in A.P.'s Seshachalam forest

आंध्र प्रदेश के शेषाचलम वन में विजयनगर काल के अभिलेख प्रकाश में आए

- An expert team from the **Archaeological Survey of India (ASI)** has found **three rare inscriptions** dating to the **16th century** in **Sadasivakona**, deep inside the **Seshachalam forest** in **Tirupati district** of **Andhra Pradesh**.

भारतीय पुरातत्व सर्वेक्षण की एक विशेषज्ञ टीम ने **आंध्र प्रदेश** के **तिरुपति जिले** स्थित **शेषाचलम वन** के भीतर गहरे क्षेत्र **सदाशिवकोना** में **16वीं शताब्दी** के **तीन दुर्लभ अभिलेख** खोजे हैं।

- After an epigraphical survey carried out recently in the **Nallamala Hills**, the team focused its attention this time on **Sadasivakona**, a pristine and mostly under-explored forest stretch in the **Seshachalam range**.

हाल ही में **नल्लमाला पहाड़ियों** में अभिलेखीय सर्वेक्षण करने के बाद टीम ने इस बार **शेषाचलम पर्वतमाला** के एक प्राकृतिक और अधिकांशतः अन्वेषण से वंचित वन क्षेत्र **सदाशिवकोना** पर अपना ध्यान केंद्रित किया।

- The inscriptions contained text in **Telugu, Tamil and Kannada**, representing characters of the **16th century**.

इन अभिलेखों में **तेलुगु, तमिल और कन्नड़** भाषाओं का पाठ अंकित है, जो **16वीं शताब्दी** की लिपि विशेषताओं को दर्शाता है।

- The inscriptions of the **Sadasiva Devaraya** era of **Vijayanagara dynasty** in **1554** were copied in the form of **estampages** for preservation and further study.

विजयनगर वंश के **सदाशिव देवराय** काल के **1554 ईस्वी** के इन अभिलेखों की प्रतिलिपियाँ संरक्षण एवं आगे के अध्ययन हेतु **एस्टाम्पेज** के रूप में तैयार की गईं।

- The main inscription records the construction of a **Siva temple** and a **monastery (mutt)** at **Papavinasa** in **Sadasivakona** by **King Sadasivaraya** during his pilgrimage to the site.

मुख्य अभिलेख में उल्लेख है कि **राजा सदाशिवराय** ने अपनी तीर्थयात्रा के दौरान **सदाशिवकोना** स्थित **पापविनाश** में एक **शिव मंदिर** तथा एक **मठ** का निर्माण कराया था।

- "It is thrilling to note that **King Sadasivaraya** personally visited this sacred spot to take a holy bath and grant a donation," Mr. Reddy said.

श्री रेड्डी ने कहा, "यह जानना अत्यंत रोमांचक है कि **राजा सदाशिवराय** स्वयं इस पवित्र स्थल पर पवित्र स्नान करने और दान प्रदान करने के लिए आए थे।"

- Though known to be **India's first Siva temple**, the **2nd-century BC shrine** in **Gudimallam** remained overshadowed by other temples in its vicinity, which gained prominence over time.

यद्यपि **गुडिमल्लम** स्थित **द्वितीय शताब्दी ईसा पूर्व** का यह मंदिर **भारत का प्रथम शिव मंदिर** माना जाता है, फिर भी समय के साथ आसपास के अन्य मंदिरों की प्रसिद्धि के कारण यह अपेक्षाकृत कम चर्चित रहा।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- However, this latest inscription of the **16th century** is a pointer to its past glory, when it was personally visited by the ruler of this region.

  किन्तु **16वीं शताब्दी** का यह नवीन अभिलेख इसके ऐतिहासिक वैभव का प्रमाण है, जब इस क्षेत्र के शासक ने स्वयं इस पवित्र स्थल की यात्रा की थी।

BJP chief says Syama Prasad Mookerjee was a great nationalist

GS I: History

The Hindu Bureau
NEW DELHI

He worked to protect the borders of West Bengal, Assam and Punjab, says Nitin Nabin

BJP president Nitin Nabin on Tuesday paid tributes to Jana Sangh founder Dr. Syama Prasad Mookerjee on his 73rd *"Balidan Diwas"*, describing him as a profound thinker and a great nationalist.

"The sacrifice and patriotism of Dr. Mookerjee *ji*, who dedicated his entire life to the resolve of 'Nation First', serve as a guiding light for all of us. His sacrifice inspires every worker to continuously work with dedication in the interest of the nation," he said.

Stating that the dream Dr. Mookerjee envisioned and the sacrifices he made for it were finding fulfilment today, the BJP chief said the abrogation of Article 370 under the leadership of Prime Minister Narendra Modi was a true tribute to the founder of the Bharatiya Jana Sangh.

Mr. Nabin said Dr. Mookerjee had worked to protect the borders of regions such as West Bengal, Assam and Punjab. Referring to the formation of the BJP government in West Bengal, he said it reflected the acceptance of the ideals for which Dr. Mookerjee had struggled and sacrificed.

He said over 14 crore BJP workers were moving forward under the leadership of PM Modi, guided by the same nationalist ideology and commitment to the nation with which Dr. Mookerjee had founded the Jana Sangh in 1951.

24J6. BJP chief says Syama Prasad Mookerjee was a great nationalist

भाजपा अध्यक्ष ने कहा कि श्यामा प्रसाद मुखर्जी एक महान राष्ट्रवादी थे

- **BJP president Nitin Nabin** on Tuesday paid tributes to **Jana Sangh founder Dr. Syama Prasad Mookerjee** on his **73rd "Balidan Diwas"**, describing him as a **profound thinker** and a **great nationalist**.

भारतीय जनता पार्टी के अध्यक्ष नितिन नवीन ने मंगलवार को **जनसंघ के संस्थापक डॉ. श्यामा प्रसाद मुखर्जी** की **73वीं बलिदान दिवस** पर उन्हें श्रद्धांजलि अर्पित करते हुए उन्हें एक **गहन चिंतक** और **महान राष्ट्रवादी** बताया।

- "The sacrifice and patriotism of **Dr. Mookerjee**, who dedicated his entire life to the resolve of **'Nation First'**, serve as a guiding light for all of us."

उन्होंने कहा, "**डॉ. मुखर्जी** का बलिदान और देशभक्ति, जिन्होंने अपना सम्पूर्ण जीवन **'राष्ट्र सर्वोपरि'** के संकल्प को समर्पित कर दिया, हम सभी के लिए मार्गदर्शक प्रकाश के समान है।"

- He said over **14 crore BJP workers** were moving forward under the leadership of **Prime Minister Modi**, guided by the same nationalist ideology and commitment to the nation with which **Dr. Mookerjee** had founded the **Jana Sangh in 1951**.

उन्होंने कहा कि **14 करोड़ से अधिक भाजपा कार्यकर्ता प्रधानमंत्री मोदी** के नेतृत्व में उसी राष्ट्रवादी विचारधारा और राष्ट्र के प्रति समर्पण के साथ आगे बढ़ रहे हैं, जिसके आधार पर **डॉ. मुखर्जी** ने **1951 में जनसंघ की स्थापना** की थी।

T.N. raises concerns over Centre's norms on projects in Cauvery basin

GS I: Geography

T. Ramakrishnan
CHENNAI

Tamil Nadu is deeply concerned about the latest guidelines of the Union Ministry of Jal Shakti and the Central Water Commission with regard to appraisal of water resources projects in the Cauvery basin.

On Monday, Water Resources Minister N. Anand told the Assembly that the Union government had framed the guidelines 'unilaterally' last December.

The Centre's norms assume relevance amid the controversy over the Mekedatu drinking water-cum-balancing reservoir project mooted by Karnataka.

The opposition to the guidelines is fundamental, as Tamil Nadu is of the view that the Cauvery basin is a deficit one, the position of which has been stated in the final award of the Cauvery Water Disputes Tribunal, and by the Supreme Court in a February 2018 judgment.

Under such circumstances, where does the question arise for mooting projects, regardless of the purpose and the size, a water expert asked.

An official said the State had conveyed its objections to the Centre, but the latter had defended the guidelines.

The Centre's norms assume relevance in the light of the ongoing controversy over the Mekedatu project mooted by Karnataka.

Besides, there is a provision in the guidelines for presumptive concurrence with the stand of the Central Water Commission (CWC) for a project, if the Cauvery Water Management Authority (CWMA) fails to convey its views within six months, or if the CWMA returns the project proposal without offering its views regarding conformity or otherwise of the proposed water utilisation with the Cauvery Water Disputes Tribunal award.

In the event of conflict in the views of the CWMA and the CWC, the former's stance will prevail.

The State is anxious about the provision as this might be used against its interests.

Project reports

As per the guidelines, detailed project reports will have to be submitted to the CWC for medium and major irrigation projects, multi-purpose projects, drinking water and industrial use projects.

After examining the reports from various angles, including inter-State issues, the CWC will send them to the CWMA for comments.

Meanwhile, the CWMA held its meeting to take stock of the current water realisation and flow.

24J6. T.N. raises concerns over Centre's norms on projects in Cauvery basin

तमिलनाडु ने कावेरी बेसिन में परियोजनाओं संबंधी केंद्र के मानकों पर चिंता जताई

- **Tamil Nadu** is deeply concerned about the latest guidelines of the **Union Ministry of Jal Shakti** and the **Central Water Commission** with regard to appraisal of water resources projects in the **Cauvery basin**.

तमिलनाडु ने **केंद्रीय जल शक्ति मंत्रालय** और **केंद्रीय जल आयोग** द्वारा **कावेरी बेसिन** में जल संसाधन परियोजनाओं के मूल्यांकन हेतु जारी नवीनतम दिशा-निर्देशों पर गहरी चिंता व्यक्त की है।

- The Centre's norms assume relevance amid the controversy over the **Mekedatu drinking water-cum-balancing reservoir project** mooted by **Karnataka**.

ये मानदंड **कर्नाटक** द्वारा प्रस्तावित **मेकेदातु पेयजल एवं संतुलन जलाशय परियोजना** को लेकर चल रहे विवाद के बीच विशेष महत्व रखते हैं।

- The opposition to the guidelines is fundamental, as Tamil Nadu is of the view that the **Cauvery basin** is a **deficit basin**, the position of which has been stated in the final award of the **Cauvery Water Disputes Tribunal**, and by the **Supreme Court** in a **February 2018 judgment**.

इन दिशा-निर्देशों का विरोध मूलभूत है क्योंकि **तमिलनाडु** का मानना है कि **कावेरी बेसिन** एक **जल-अभावग्रस्त बेसिन** है। इस स्थिति का उल्लेख **कावेरी जल विवाद न्यायाधिकरण** के अंतिम निर्णय तथा **फरवरी 2018** के **सर्वोच्च न्यायालय** के निर्णय में भी किया गया है।

- Besides, there is a provision in the guidelines for **presumptive concurrence** with the stand of the **Central Water Commission (CWC)** for a project, if the **Cauvery Water Management Authority (CWMA)** fails to convey its views within six months, or if the CWMA returns the project proposal without offering its views regarding conformity or otherwise of the proposed water utilisation with the **Cauvery Water Disputes Tribunal** award.

इसके अतिरिक्त, दिशा-निर्देशों में यह प्रावधान भी है कि यदि **कावेरी जल प्रबंधन प्राधिकरण** छह माह के भीतर अपनी राय नहीं देता या परियोजना प्रस्ताव को प्रस्तावित जल उपयोग की **कावेरी जल विवाद न्यायाधिकरण** के निर्णय से संगति अथवा असंगति पर टिप्पणी किए बिना वापस कर देता है, तो परियोजना पर **केंद्रीय जल आयोग** की राय को स्वीकृत मान लिया जाएगा।

- As per the guidelines, **detailed project reports** will have to be submitted to the **Central Water Commission** for **medium and major irrigation projects**, **multi-purpose projects**, **drinking water projects**, and **industrial use projects**.

दिशा-निर्देशों के अनुसार **मध्यम एवं प्रमुख सिंचाई परियोजनाओं**, **बहुउद्देशीय परियोजनाओं**, **पेयजल**

परियोजनाओं तथा **औद्योगिक उपयोग परियोजनाओं** के लिए **विस्तृत परियोजना प्रतिवेदन केंद्रीय जल आयोग** को प्रस्तुत करना होगा।

Questions and answers to the previous day's daily quiz:
1. Which country established the first permanent research station in Antarctica, Orcadas Base, which has operated continuously since 1904? **Ans: Argentina**
2. The Antarctic Treaty applies to all territory south of which latitude? **Ans: 60° South latitude**
3. Which major scientific event of 1957-58 provided the immediate impetus for negotiating the Antarctic Treaty? **Ans: The International Geophysical Year (IGY)**
4. Which seven countries had overlapping territorial claims in Antarctica when the Treaty was signed? **Ans: Argentina, Australia, Chile, France, New Zealand, Norway and the United Kingdom**
5. How many countries currently have Consultative Party status, giving them voting rights in Antarctic Treaty decision-making? **Ans: 29**
6. Visual: Name this active volcano, located on Ross Island, which is the southernmost active volcano on Earth? **Ans: Mount Erebus.**

24J6. QUIZ

1. Which country established the first permanent research station in Antarctica, Orcadas Base, which has operated continuously since 1904?

Answer: Argentina

- **Argentina** established and has continuously operated **Orcadas Base** on Laurie Island in the South Orkney Islands since **22 February 1904**.
- The station originated from the Scottish National Antarctic Expedition and was transferred to Argentina in 1904.
- It is recognized as the **oldest continuously operating Antarctic research station** and represents the longest uninterrupted human presence in Antarctica.

2. The Antarctic Treaty applies to all territory south of which latitude?

Answer: 60° South Latitude

- The **Antarctic Treaty**, signed in 1959 and effective from 1961, applies to all land, ice shelves, and surrounding waters **south of 60° South latitude**.
- This geographical boundary was chosen to define the Antarctic region for peaceful scientific cooperation and environmental protection.
- Within this area, military activities, nuclear testing, and disposal of radioactive waste are prohibited.

3. Which major scientific event of 1957–58 provided the immediate impetus for negotiating the Antarctic Treaty?

Answer: The International Geophysical Year (IGY)

- The **International Geophysical Year (IGY) of 1957–58** was a global scientific initiative involving researchers from dozens of countries studying Earth systems, including Antarctica.
- During the IGY, nations established research stations and collaborated extensively in Antarctic science.
- The success of this cooperation demonstrated that Antarctica could serve as a platform for peaceful international scientific activity.
- This positive experience directly encouraged negotiations that culminated in the **Antarctic Treaty of 1959**, which institutionalized scientific collaboration and peaceful use of the continent.

4. Which seven countries had overlapping territorial claims in Antarctica when the Treaty was signed?

- **Answer: Argentina, Australia, Chile, France, New Zealand, Norway and the United Kingdom**
  At the time of the Antarctic Treaty's signing, **seven countries** had formal territorial claims in

Website : patrioticias.in

Antarctica: **Argentina, Australia, Chile, France, New Zealand, Norway, and the United Kingdom**.

- Some of these claims, particularly those of Argentina, Chile, and the United Kingdom in the Antarctic Peninsula region, overlapped significantly.
- Rather than resolving sovereignty disputes, the Antarctic Treaty effectively **froze territorial claims**, allowing countries to cooperate scientifically without abandoning or recognizing competing claims.

5. How many countries currently have Consultative Party status, giving them voting rights in Antarctic Treaty decision-making?

Answer: 29

- As of **2026**, there are **29 Consultative Parties** to the Antarctic Treaty.
- These countries possess decision-making and voting rights at the **Antarctic Treaty Consultative Meetings (ATCMs)** because they conduct substantial scientific research activities in Antarctica.
- The group includes the twelve original signatories and additional countries that later demonstrated significant scientific engagement.
- Although the Treaty has **58 Parties** in total, only the Consultative Parties participate in consensus-based decision-making on Antarctic governance, environmental protection, and scientific cooperation.

India's Antarctic Journey

- India acceded to the Antarctic Treaty in 1983.
- In the same year (1983), India was granted **Consultative Party Status** because of its active scientific research programme in Antarctica.

Is RSS a legal person?

Should the RSS be formally registered under law? Has it been recognised in law or court cases? Can an unregistered body sue or be sued? Are RSS-affiliated organisations legally registered? What regulatory gap does the RSS debate highlight?

GS II: Polity

EXPLAINER

Rizmi Lia M.

The story so far:

Karnataka Home Minister Priyank Kharge, in a letter dated June 13 addressing the Sarsanghchalak (chief) of the Rashtriya Swayamsevak Sangh (RSS), Mohan Bhagwat, questioned the legal status of the RSS.

In an accompanying post on social media platform X, Mr. Kharge asked, "If citizens, labour, NGOs, trusts, temples and companies are expected to register, disclose and comply with the law, why should the RSS remain exempt?"

He raised similar questions towards the end of last year as well regarding the legal existence of RSS. He has asked about the registration, organisation structure, funding and donation and also about the overall functioning of the organisation.

Rashtriya Swayamsevak Sangh workers perform at a training camp closing ceremony, in Sambalpur on Saturday. RSS chief Mohan Bhagwat describes the organisation as "a body of individuals". ANI

What is a legal person?

According to legal theorist John Salmond, "A person is any being whom the law regards as capable of rights and bound by legal duties." The term 'person' is further classified into two terms: 'natural person' and 'juridical/artificial person'. Generally, in law, a living human being is considered a natural person. However, a juridical/artificial person is an entity created by law that possesses legal rights and obligations distinct from its members or the individuals associated with it. For example, companies incorporated under the Companies Act are artificial persons, statutorily recognised as legal persons.

To be a company, certain criteria must be met according to Section 9 of the Companies Act, 2013. That includes that, after registration, a company shall be a body corporate by the name contained in its memorandum - "capable of exercising all the functions of an incorporated company under this Act, having perpetual succession, having a common seal with power to acquire, hold and dispose of property both movable and immovable, tangible and intangible, to contract and to sue and be sued" by the said name.

How does RSS describe itself and what is its organisational nature?

In a similar exchange in December 2025, RSS chief Mohan Bhagwat described the organisation as "a body of individuals". RSS in itself is a socio-cultural voluntary organisation with an ideal "to carry the nation to the pinnacle of glory through organising the entire society and ensuring protection of Hindu Dharma", according to the website.

RSS has been addressed as an "association of persons", according to the *Commissioner Of Income Tax v Rastriya Swayam Sangh* on February 22, 1994, in which they have been sued with respect to tax exemption.

The Income-tax Appellate Tribunal has referred this matter to Patna High Court to address whether the amount received from members and devotees can be taken to be *Gurudakshina* (token of gratitude to teacher) and thus be exempt from taxation. The court held that the amount received from members can be taken to be *Gurudakshina* and be exempted from tax.

Section 2(31) of the Income Tax Act, 1961, defines 'person' expansively and includes a 'body of individuals', whether incorporated or not. Under the 1961 Act, the 'body of individuals' is a separate taxable entity comprising exclusively natural persons (human beings) who have come together for a shared purpose.

Generally, unregistered bodies cannot sue or be sued in their own names, as they are not considered separate legal persons.

The organisation is, however, named as a distinct party in cases including *Singhai Lal Chand Jain v Rashtriya Swayamsevak Sangh* on February 15, 1996 in the Supreme Court of India. The case revolved around the eviction of the RSS from certain premises in Panna, Madhya Pradesh, initiated by the appellant, Singhai Lal Chand Jain. The appellant filed a civil suit seeking the eviction of the RSS and its office-bearers, alleging unauthorised occupation of the premises. Holding that the RSS was properly represented by its Manager, President, and a member who jointly defended the suit, the court upheld the eviction decree.

What are the legal options for registering a voluntary association in India?

Registering a voluntary association in India requires choosing one of three primary legal structures: a Society (under the Societies Registration Act, 1860), a Trust (under the Indian Trusts Act, 1882), or a Section 8 Company (under the Companies Act, 2013).

The company after incorporation intends to apply its profits, if any, or other income only for promoting its cited objects.

What about donations/*Gurudakshina*?

As mentioned earlier, the RSS's legal status came under scrutiny in the 1970s during tax proceedings in Bombay and Patna. The disputes centred on whether donations received as "*gurudakshina*" from RSS workers were taxable. In the case of *Commissioner Of Income-Tax v Rastriya Swayam Sevak Sangh* on 22 February, 1994, The Patna High Court addressed the matter and exempted RSS from taxes, considering donations from members as *Gurudakshina*. Also, the Income Tax Act considers a 'body of individuals' as a 'person', as mentioned above.

There is the Foreign Contribution (Regulation) Act (FCRA), 2010, which regulates the acceptance and utilisation of foreign contribution or foreign hospitality by certain individuals or associations or companies. Any donation, delivery or transfer received from a 'foreign source' whether in rupees or in foreign currency, is construed as a 'foreign contribution' under FCRA, 2010.

Even for the grant of registration under FCRA, the association should be registered under an existing statute like the Societies Registration Act, 1860 or the Indian Trusts Act, 1882 or Section 8 of Companies Act, 2013 etc. The association should be in existence for at least three years and has undertaken reasonable activity in its chosen field for the benefit of the society for which the foreign contribution is proposed to be utilised. And the applicant NGO/association will be free to choose its items of expenditure (excluding the administrative expenditure as defined in Rule 5 of FCRR, 2011) to become eligible for the minimum threshold of ₹15 lakh spent during the last three years.

How can one join RSS?

According to the Frequently Asked Questions section of the RSS website powered by Bharati Web Private Limited, "there is no formal membership enrolment in the RSS. Anyone can approach the nearest 'Shakha', which is the fundamental unit of activity of RSS and become a swayamsevak. There are no fees, no registration form, and no formal application. Once you start attending the daily shakha either in the morning or in the evening as per your convenience, you become the swayamsevak of RSS. It is that simple. If someone does not know any shakha or Swayamsevak nearby, One can join the RSS online too."

Any person who wants to work towards the *sanatan dharma* can join the RSS, even if they don't visit the shakhas. There is no formal procedure or criterion that stops anybody for that matter from joining the organisation. There is a registration form on the website that requires one to fill up primary details for the same.

What are the RSS affiliates and are they registered?

There are around 32 sister organisations that work under the umbrella of RSS, with many more like-minded organisations. The Akhil Bhartiya Vidhyarthi Parishad, the Vidya Bhrati, Bharatiya Janata Party, Vishva Hindu Parishad, Bajrang Dal, Durga Vahini, Dharam Sansad or Religious Parliament etc.

The list of RSS-affiliated bodies is vast and spans every sector of Indian society: students, education, labour, agriculture, women, tribals, culture, science, law, economics, publishing, and more. However, each of these is registered under different laws.

For example, the student body Akhil Bharatiya Vidyarthi Parishad began its activities around 1948 and was registered on July 9, 1949, as a non-governmental organisation (NGO) under the Societies Registration Act of 1860. Thus, the units of the RSS function as registered entities.

Trade union Bharatiya Mazdoor Sangh functions within the legal framework governing labour organisations. Educational, social-service and tribal welfare bodies associated with the Sangh generally operate through registered trusts and societies.

RSS continues to describe itself as a voluntary socio-cultural organisation and a body of individuals rather than a registered corporate entity. Court records show that it has been recognised in tax proceedings and litigation, while many organisations associated with the Sangh function through separately registered bodies.

Mr. Kharge's questions, however, have renewed the debate over whether an organisation of the RSS's scale and reach should continue to operate without a formal registration framework.

THE GIST

- According to legal theorist John Salmond, "A person is any being whom the law regards as capable of rights and bound by legal duties."
- The RSS's legal status came under scrutiny in the 1970s during tax proceedings in Bombay and Patna. The disputes centred on whether donations received as "guru dakshina" from RSS workers were taxable.
- RSS continues to describe itse as a voluntary socio-cultural organisation and a body of individuals rather than a registered corporate entity.

24J6. Is RSS a legal person?
क्या आरएसएस एक विधिक व्यक्ति है?

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

What is a legal person?
विधिक व्यक्ति क्या है?

- **Karnataka Home Minister Priyank Kharge**, in a letter dated **June 13** addressing the **Sarsanghchalak** (chief) of the **Rashtriya Swayamsevak Sangh (RSS)**, **Mohan Bhagwat**, questioned the legal status of the RSS.
  कर्नाटक के गृह मंत्री प्रियांक खड़गे ने **13 जून** को **राष्ट्रीय स्वयंसेवक संघ (आरएसएस)** के **सरसंघचालक मोहन भागवत** को संबोधित एक पत्र में आरएसएस की **विधिक स्थिति** पर प्रश्न उठाया।
- In an accompanying post on social media platform **X**, Mr. Kharge asked, "If citizens, labour, NGOs, trusts, temples and companies are expected to register, disclose and comply with the law, why should the **RSS** remain exempt?"
  सोशल मीडिया मंच **एक्स** पर किए गए एक संबंधित पोस्ट में श्री खड़गे ने पूछा, "यदि नागरिकों, श्रमिकों, गैर-सरकारी संगठनों, न्यासों, मंदिरों और कंपनियों से पंजीकरण, जानकारी का प्रकटीकरण तथा कानून का पालन करने की अपेक्षा की जाती है, तो **आरएसएस** को इससे छूट क्यों मिलनी चाहिए?"
- He raised similar questions towards the end of last year as well regarding the legal existence of RSS.
  उन्होंने पिछले वर्ष के अंत में भी **आरएसएस** के विधिक अस्तित्व को लेकर इसी प्रकार के प्रश्न उठाए थे।
- He has asked about the registration, organisation structure, funding and donation and also about the overall functioning of the organisation.
  उन्होंने संगठन के **पंजीकरण**, **संगठनात्मक संरचना**, **वित्तपोषण**, **दान** तथा उसके समग्र कार्य संचालन के संबंध में प्रश्न किए हैं।
- According to legal theorist **John Salmond**, "A person is any being whom the law regards as capable of rights and bound by legal duties."
  विधि सिद्धांतकार **जॉन सालमंड** के अनुसार, "व्यक्ति वह है जिसे कानून अधिकारों का धारक तथा विधिक कर्तव्यों से बंधा हुआ मानता है।"
- The term **'person'** is further classified into two terms: **'natural person'** and **'juridical/artificial person'**.
  'व्यक्ति' शब्द को आगे दो श्रेणियों में विभाजित किया जाता है: **'प्राकृतिक व्यक्ति'** तथा **'विधिक/कृत्रिम व्यक्ति'**।
- Generally, in law, a living human being is considered a **natural person**.
  सामान्यतः विधि में किसी जीवित मानव को **प्राकृतिक व्यक्ति** माना जाता है।
- However, a **juridical/artificial person** is an entity created by law that possesses legal rights and obligations distinct from its members or the individuals associated with it.
  इसके विपरीत, **विधिक/कृत्रिम व्यक्ति** वह इकाई होती है जिसे कानून द्वारा निर्मित किया जाता है और जिसके पास अपने सदस्यों या उससे जुड़े व्यक्तियों से पृथक विधिक अधिकार एवं दायित्व होते हैं।
- For example, companies incorporated under the **Companies Act** are artificial persons, statutorily recognised as legal persons.
  उदाहरण के लिए, **कंपनी अधिनियम** के अंतर्गत पंजीकृत कंपनियाँ कृत्रिम व्यक्ति होती हैं, जिन्हें विधिक रूप से कानूनी व्यक्तित्व प्रदान किया जाता है।
- To be a company, certain criteria must be met according to **Section 9 of the Companies Act, 2013**.
  किसी संस्था को कंपनी माने जाने के लिए **कंपनी अधिनियम, 2013 की धारा 9** के अनुसार कुछ शर्तों को पूरा करना आवश्यक होता है।
- That includes that, after registration, a company shall be a **body corporate** by the name contained in its memorandum.
  इन शर्तों में यह भी शामिल है कि पंजीकरण के पश्चात कंपनी अपने ज्ञापन में उल्लिखित नाम से एक **निगमित निकाय** बन जाती है।
- It shall be "capable of exercising all the functions of an incorporated company under this Act, having **perpetual succession**, having a **common seal** with power to acquire, hold and

dispose of property both movable and immovable, tangible and intangible, to contract and to **sue and be sued**" by the said name.

वह "इस अधिनियम के अंतर्गत निगमित कंपनी के सभी कार्य करने में सक्षम होगी, उसके पास **स्थायी उत्तराधिकार** होगा, एक **सामान्य मुहर** होगी, तथा उसे चल एवं अचल, मूर्त एवं अमूर्त संपत्ति अर्जित करने, रखने और हस्तांतरित करने, अनुबंध करने तथा अपने नाम से **वाद दायर करने और उसके विरुद्ध वाद चलाए जाने** का अधिकार होगा।"

How does RSS describe itself and what is its organisational nature?
आरएसएस स्वयं को कैसे परिभाषित करता है और उसकी संगठनात्मक प्रकृति क्या है?

- In a similar exchange in **December 2025**, **RSS chief Mohan Bhagwat** described the organisation as **"a body of individuals"**.
  दिसम्बर 2025 में हुए एक समान संवाद में **आरएसएस प्रमुख मोहन भागवत** ने संगठन को **"व्यक्तियों का एक समूह"** बताया था।
- **RSS** in itself is a **socio-cultural voluntary organisation** with an ideal "to carry the nation to the pinnacle of glory through organising the entire society and ensuring protection of **Hindu Dharma**", according to the website.
  वेबसाइट के अनुसार, **आरएसएस** एक **सामाजिक-सांस्कृतिक स्वैच्छिक संगठन** है, जिसका आदर्श "समस्त समाज को संगठित कर तथा **हिन्दू धर्म** की रक्षा सुनिश्चित कर राष्ट्र को गौरव के शिखर तक पहुँचाना" है।
- **RSS** has been addressed as an **"association of persons"**, according to the case **Commissioner of Income Tax v Rastriya Swayam Sangh** on **February 22, 1994**, in which it was sued with respect to tax exemption.
  22 फरवरी 1994 के एक न्यायिक मामले में आरएसएस को **"व्यक्तियों का संघ"** कहा गया था, जिसमें उस पर कर-छूट के संबंध में वाद दायर किया गया था।
- The **Income-tax Appellate Tribunal** referred this matter to the **Patna High Court** to address whether the amount received from members and devotees can be taken to be **Gurudakshina** and thus be exempt from taxation.
  आयकर अपीलीय अधिकरण ने यह प्रश्न **पटना उच्च न्यायालय** को भेजा कि क्या सदस्यों और अनुयायियों से प्राप्त राशि को **गुरुदक्षिणा** माना जा सकता है और इस आधार पर उसे कर से मुक्त किया जा सकता है।
- The court held that the amount received from members can be taken to be **Gurudakshina** and be exempted from tax.
  न्यायालय ने निर्णय दिया कि सदस्यों से प्राप्त राशि को **गुरुदक्षिणा** माना जा सकता है और उसे कर से छूट दी जा सकती है।
- **Section 2(31) of the Income Tax Act, 1961** defines **'person'** expansively and includes a **'body of individuals'**, whether incorporated or not.
  आयकर अधिनियम, 1961 की धारा 2(31) में **'व्यक्ति'** की व्यापक परिभाषा दी गई है, जिसमें पंजीकृत अथवा अपंजीकृत **'व्यक्तियों का समूह'** भी शामिल है।
- Under the **1961 Act**, the **'body of individuals'** is a separate taxable entity comprising exclusively natural persons who have come together for a shared purpose.
  1961 के अधिनियम के अंतर्गत **'व्यक्तियों का समूह'** एक पृथक करयोग्य इकाई है, जिसमें केवल प्राकृतिक व्यक्ति शामिल होते हैं जो किसी साझा उद्देश्य के लिए एकत्रित हुए हों।
- Generally, **unregistered bodies** cannot sue or be sued in their own names, as they are not considered separate legal persons.
  सामान्यतः **अपंजीकृत संस्थाएँ** अपने नाम से वाद दायर नहीं कर सकतीं और न ही उनके विरुद्ध वाद चलाया जा सकता है, क्योंकि उन्हें पृथक विधिक व्यक्तित्व प्राप्त नहीं होता।
- The organisation is, however, named as a distinct party in cases including **Singhai Lal Chand Jain v Rashtriya Swayamsevak Sangh** on **February 15, 1996** in the **Supreme Court of India**.

हालाँकि, **15 फरवरी 1996** के एक मामले सहित कई मामलों में **आरएसएस** को एक पृथक पक्षकार के रूप में नामित किया गया है।

- The case revolved around the eviction of the **RSS** from certain premises in **Panna, Madhya Pradesh**, initiated by the appellant, **Singhai Lal Chand Jain**.
  यह मामला **मध्य प्रदेश** के **पन्ना** स्थित एक परिसर से **आरएसएस** को बेदखल करने से संबंधित था, जिसकी शुरुआत अपीलकर्ता **सिंघई लालचंद जैन** द्वारा की गई थी।
- The appellant filed a civil suit seeking the eviction of the **RSS** and its office-bearers, alleging unauthorised occupation of the premises.
  अपीलकर्ता ने परिसर पर अनधिकृत कब्जे का आरोप लगाते हुए **आरएसएस** तथा उसके पदाधिकारियों को बेदखल करने के लिए दीवानी वाद दायर किया।
- Holding that the **RSS** was properly represented by its Manager, President, and a member who jointly defended the suit, the court upheld the eviction decree.
  न्यायालय ने यह मानते हुए कि **आरएसएस** का प्रतिनिधित्व उसके प्रबंधक, अध्यक्ष तथा एक सदस्य द्वारा विधिवत किया गया था, बेदखली के आदेश को बरकरार रखा।

What are the legal options for registering a voluntary association in India?
भारत में किसी स्वैच्छिक संगठन के पंजीकरण के लिए क्या विधिक विकल्प उपलब्ध हैं?

- Registering a **voluntary association** in India requires choosing one of three primary legal structures: a **Society**, a **Trust**, or a **Section 8 Company**.
  भारत में किसी **स्वैच्छिक संगठन** का पंजीकरण करने के लिए तीन प्रमुख विधिक संरचनाओं में से एक का चयन करना होता है: **समिति**, **न्यास**, अथवा **धारा 8 कंपनी**।
- A **Society** is registered under the **Societies Registration Act, 1860**.
  समिति का पंजीकरण **समिति पंजीकरण अधिनियम, 1860** के अंतर्गत किया जाता है।
- A **Trust** is registered under the **Indian Trusts Act, 1882**.
  न्यास का पंजीकरण **भारतीय न्यास अधिनियम, 1882** के अंतर्गत किया जाता है।
- A **Section 8 Company** is registered under the **Companies Act, 2013**.
  धारा 8 कंपनी का पंजीकरण **कंपनी अधिनियम, 2013** के अंतर्गत किया जाता है।
- The company after incorporation intends to apply its profits, if any, or other income only for promoting its cited objects.
  ऐसी कंपनी पंजीकरण के बाद अपने लाभ, यदि कोई हो, अथवा अन्य आय का उपयोग केवल अपने घोषित उद्देश्यों की पूर्ति के लिए करती है

What about donations/Gurudakshina?
दान/गुरुदक्षिणा का क्या प्रावधान है?

- As mentioned earlier, the **RSS's legal status** came under scrutiny in the **1970s** during tax proceedings in **Bombay** and **Patna**.
  जैसा कि पहले उल्लेख किया गया है, **1970 के दशक** में **बंबई** और **पटना** में चली कर-कार्यवाहियों के दौरान **आरएसएस की विधिक स्थिति** की जाँच की गई थी।
- The disputes centred on whether donations received as **"Gurudakshina"** from RSS workers were taxable.
  विवाद का मुख्य प्रश्न यह था कि आरएसएस कार्यकर्ताओं से प्राप्त **गुरुदक्षिणा** करयोग्य है या नहीं।
- In the case of **Commissioner of Income-Tax v Rastriya Swayam Sevak Sangh** on **22 February, 1994**, the **Patna High Court** addressed the matter and exempted RSS from taxes, considering donations from members as **Gurudakshina**.
  22 फरवरी 1994 के एक मामले में **पटना उच्च न्यायालय** ने इस विषय पर विचार करते हुए सदस्यों से प्राप्त दान को **गुरुदक्षिणा** मानकर आरएसएस को कर से छूट प्रदान की।

- Also, the **Income Tax Act** considers a **'body of individuals'** as a **'person'**, as mentioned above.
  इसके अतिरिक्त, **आयकर अधिनियम 'व्यक्तियों के समूह'** को भी **'व्यक्ति'** मानता है।
- There is the **Foreign Contribution (Regulation) Act (FCRA), 2010**, which regulates the acceptance and utilisation of **foreign contribution** or **foreign hospitality** by certain individuals, associations or companies.
  विदेशी अंशदान (विनियमन) अधिनियम, 2010 भी है, जो कुछ व्यक्तियों, संगठनों तथा कंपनियों द्वारा **विदेशी अंशदान** अथवा **विदेशी आतिथ्य** को स्वीकार करने और उपयोग करने को विनियमित करता है।
- Any donation, delivery or transfer received from a **'foreign source'**, whether in rupees or in foreign currency, is construed as a **'foreign contribution'** under **FCRA, 2010**.
  विदेशी अंशदान (विनियमन) अधिनियम, 2010 के अंतर्गत किसी **विदेशी स्रोत** से प्राप्त कोई भी दान, हस्तांतरण अथवा सहायता — चाहे वह भारतीय मुद्रा में हो या विदेशी मुद्रा में — **विदेशी अंशदान** मानी जाती है।

What about donations/Gurudakshina?
दान/गुरुदक्षिणा का क्या प्रावधान है?

- Even for the grant of registration under **FCRA**, the association should be registered under an existing statute like the **Societies Registration Act, 1860** or the **Indian Trusts Act, 1882** or **Section 8 of Companies Act, 2013** etc.
  विदेशी अंशदान (विनियमन) अधिनियम के अंतर्गत पंजीकरण प्राप्त करने के लिए भी किसी संगठन का किसी विद्यमान कानून जैसे **समिति पंजीकरण अधिनियम, 1860**, **भारतीय न्यास अधिनियम, 1882** अथवा **कंपनी अधिनियम, 2013 की धारा 8** आदि के अंतर्गत पंजीकृत होना आवश्यक है।
- The association should be in existence for at least **three years** and has undertaken reasonable activity in its chosen field for the benefit of the society for which the foreign contribution is proposed to be utilised.
  संगठन का कम-से-कम **तीन वर्षों** से अस्तित्व में होना आवश्यक है तथा उसे अपने चयनित क्षेत्र में समाज के हित हेतु उचित गतिविधियाँ संचालित करनी चाहिए, जिनके लिए विदेशी अंशदान का उपयोग प्रस्तावित है।
- And the applicant NGO/association will be free to choose its items of expenditure (excluding the administrative expenditure as defined in **Rule 5 of FCRR, 2011**) to become eligible for the minimum threshold of **₹15 lakh** spent during the last three years.
  आवेदक संगठन को अपने व्यय मदों का चयन करने की स्वतंत्रता होगी (हालाँकि **विदेशी अंशदान विनियमन नियम, 2011 के नियम 5** में परिभाषित प्रशासनिक व्यय को छोड़कर), ताकि वह पिछले तीन वर्षों में न्यूनतम **₹15 लाख** व्यय की पात्रता शर्त को पूरा कर सके।

How can one join RSS?
आरएसएस से कैसे जुड़ा जा सकता है?

- According to the Frequently Asked Questions section of the RSS website powered by Bharati Web Private Limited, "there is no formal membership enrolment in the RSS."
  भारती वेब प्राइवेट लिमिटेड द्वारा संचालित आरएसएस की वेबसाइट के **अक्सर पूछे जाने वाले प्रश्न** अनुभाग के अनुसार, "आरएसएस में कोई औपचारिक सदस्यता नामांकन व्यवस्था नहीं है।"
- "Anyone can approach the nearest 'Shakha', which is the fundamental unit of activity of RSS and become a swayamsevak."
  "कोई भी व्यक्ति निकटतम **शाखा** से जुड़ सकता है, जो आरएसएस की मूल गतिविधि इकाई है, और स्वयंसेवक बन सकता है।"
- "There are no fees, no registration form, and no formal application."
  "इसमें कोई शुल्क नहीं है, कोई पंजीकरण प्रपत्र नहीं है और न ही कोई औपचारिक आवेदन प्रक्रिया है।"
- "Once you start attending the daily shakha either in the morning or in the evening as per your convenience, you become the swayamsevak of RSS."

"जैसे ही आप अपनी सुविधा के अनुसार प्रातः या सायंकाल दैनिक शाखा में भाग लेना प्रारम्भ करते हैं, आप आरएसएस के स्वयंसेवक बन जाते हैं।"

- "It is that simple."
  "यह प्रक्रिया इतनी ही सरल है।"
- "If someone does not know any shakha or swayamsevak nearby, one can join the RSS online too."
  "यदि किसी व्यक्ति को निकट में कोई शाखा या स्वयंसेवक ज्ञात नहीं है, तो वह ऑनलाइन माध्यम से भी आरएसएस से जुड़ सकता है।"
- Any person who wants to work towards **Sanatan Dharma** can join the RSS, even if they don't visit the shakhas.
  जो भी व्यक्ति **सनातन धर्म** के लिए कार्य करना चाहता है, वह शाखाओं में जाए बिना भी आरएसएस से जुड़ सकता है।
- There is no formal procedure or criterion that stops anybody for that matter from joining the organisation.
  संगठन से जुड़ने के लिए ऐसा कोई औपचारिक नियम या मानदंड नहीं है जो किसी व्यक्ति को इससे जुड़ने से रोकता हो।
- There is a registration form on the website that requires one to fill up primary details for the same.
  वेबसाइट पर एक पंजीकरण प्रपत्र उपलब्ध है, जिसमें इच्छुक व्यक्ति को अपनी मूलभूत जानकारी भरनी होती है।

What are the RSS affiliates and are they registered?
आरएसएस से संबद्ध संगठन कौन-कौन से हैं और क्या वे पंजीकृत हैं?

- There are around **32 sister organisations** that work under the umbrella of RSS, with many more like-minded organisations.
  आरएसएस के संरक्षण में लगभग **32 सहयोगी संगठन** कार्य करते हैं, इसके अतिरिक्त अनेक समान विचारधारा वाले संगठन भी हैं।
- The **Akhil Bhartiya Vidhyarthi Parishad**, the **Vidya Bharati**, **Bharatiya Janata Party**, **Vishva Hindu Parishad**, **Bajrang Dal**, **Durga Vahini**, **Dharam Sansad** or Religious Parliament etc.
  इनमें **अखिल भारतीय विद्यार्थी परिषद**, **विद्या भारती**, **भारतीय जनता पार्टी**, **विश्व हिन्दू परिषद**, **बजरंग दल**, **दुर्गा वाहिनी**, **धर्म संसद** आदि प्रमुख हैं।
- The list of RSS-affiliated bodies is vast and spans every sector of Indian society: students, education, labour, agriculture, women, tribals, culture, science, law, economics, publishing, and more.
  आरएसएस से संबद्ध संगठनों की सूची अत्यंत व्यापक है और भारतीय समाज के लगभग सभी क्षेत्रों — छात्र, शिक्षा, श्रम, कृषि, महिला, जनजातीय समाज, संस्कृति, विज्ञान, विधि, अर्थव्यवस्था, प्रकाशन आदि — को समाहित करती है।
- However, each of these is registered under different laws.
  हालाँकि, इनमें से प्रत्येक संगठन विभिन्न कानूनों के अंतर्गत पंजीकृत है।
- For example, the student body **Akhil Bharatiya Vidyarthi Parishad** began its activities around **1948** and was registered on **July 9, 1949**, as a non-governmental organisation under the **Societies Registration Act of 1860**.
  उदाहरण के लिए, छात्र संगठन **अखिल भारतीय विद्यार्थी परिषद** ने लगभग **1948** में अपनी गतिविधियाँ प्रारम्भ कीं और **9 जुलाई 1949** को **समिति पंजीकरण अधिनियम, 1860** के अंतर्गत एक गैर-सरकारी संगठन के रूप में पंजीकृत हुआ।

- Thus, the units of the RSS function as registered entities.
  इस प्रकार, आरएसएस से संबद्ध इकाइयाँ पंजीकृत संस्थाओं के रूप में कार्य करती हैं।
- Trade union **Bharatiya Mazdoor Sangh** functions within the legal framework governing labour organisations.
  श्रमिक संगठन **भारतीय मजदूर संघ** श्रमिक संगठनों को नियंत्रित करने वाले विधिक ढाँचे के अंतर्गत कार्य करता है।
- Educational, social-service and tribal welfare bodies associated with the Sangh generally operate through registered trusts and societies.
  संघ से जुड़े शैक्षिक, सामाजिक सेवा तथा जनजातीय कल्याण संगठन सामान्यतः पंजीकृत न्यासों और समितियों के माध्यम से कार्य करते हैं।
- RSS continues to describe itself as a voluntary socio-cultural organisation and a body of individuals rather than a registered corporate entity.
  आरएसएस स्वयं को एक पंजीकृत निगमित संस्था के बजाय एक **स्वैच्छिक सामाजिक-सांस्कृतिक संगठन** तथा **व्यक्तियों का समूह** बताता है।
- Court records show that it has been recognised in tax proceedings and litigation, while many organisations associated with the Sangh function through separately registered bodies.
  न्यायालयीय अभिलेख दर्शाते हैं कि कर-संबंधी कार्यवाहियों और न्यायिक मामलों में इसकी पहचान स्वीकार की गई है, जबकि संघ से जुड़े अनेक संगठन पृथक रूप से पंजीकृत संस्थाओं के माध्यम से कार्य करते हैं।
- Mr. Kharge's questions, however, have renewed the debate over whether an organisation of the RSS's scale and reach should continue to operate without a formal registration framework.
  हालाँकि, श्री खड़गे द्वारा उठाए गए प्रश्नों ने इस बहस को पुनर्जीवित कर दिया है कि आरएसएस जैसे व्यापक प्रभाव और विशाल संरचना वाले संगठन को क्या बिना किसी औपचारिक पंजीकरण ढाँचे के कार्य करते रहना चाहिए।

Centre tightens norms for foreign donations

NGOs must stick to the activities specified by Centre in their category and geographical area

NGOs must declare everything they published: books, magazines, and articles in newspapers

Existing registrations must comply within the next year; a minimum fine of ₹1 lakh will apply

GS II: Governance

Vijaita Singh
NEW DELHI

Non-governmental organisations (NGOs) wanting to access foreign funds must now stick to a list of activities specified by the Centre, according to the latest amendment to the Rules of the Foreign Contribution Regulation Act (FCRA), 2010, notified on Monday.

While NGOs seeking foreign funds are required to register under one of the five permitted categories, namely social, economic, educational, cultural, and religious, this is the first time separate activity lists have been laid out for those in each category.

NGOs must now disclose their activities, the geographical scope of their programmes, their websites, social media accounts, and publications. They must pay separate fees for each category and State or Union Territory they operate in, as opposed to the previous single fee for FCRA registrants.

Any new registration must follow the new norms and existing registrations must comply with the changes within the next year. Any violations will be penalised with a minimum fine of ₹1 lakh, according to another order from the Union Home Ministry. The Ministry regulates all foreign donations through the FCRA.

Earlier amendments of the Rules only required NGOs to give an undertaking that their acceptance of foreign funds is not likely to affect the sovereignty and integrity of India or impact friendly relations with foreign states or disrupt communal harmony.

Key functionaries

The amended Rules also broaden the definition of an NGO's "key functionary" beyond office-bearers and directors to include trustees, partners, the Karta or head of a Hindu Undivided Family, governing body members, and anyone else controlling or managing the organisation.

Associations having foreign nationals (other than persons of Indian origin) as key functionaries will ordinarily not be considered eligible for registration or prior permission, unless specifically permitted by the Centre, according to the new Rules. NGOs must also declare whether their association or any of their key functionaries brought out any publication during the year, including books, magazines, and newspaper articles.

A senior government official said that the amendments were effected to bring uniformity in Foreign Contribution forms (F-C) and to avoid duplication.

The amended Rules state that the certificate of registration or the application form (for fresh registrations) shall specify the purpose or purposes for which registration is granted, chosen only from such list of purposes as specified in the Schedule appended to the Rules; and the States or Union territories in which the NGO proposes to undertake the activities.

The Rules also imposes a fee on NGOs to operate for each specified purpose, and within each State or Union Territory.

Some categories specifically exclude political activities. For instance, the "educational" purpose lists 22 activities but adds the caveat that "awareness programmes on constitutional rights, fundamental duties, and civic responsibilities" must be "strictly non-political in nature."

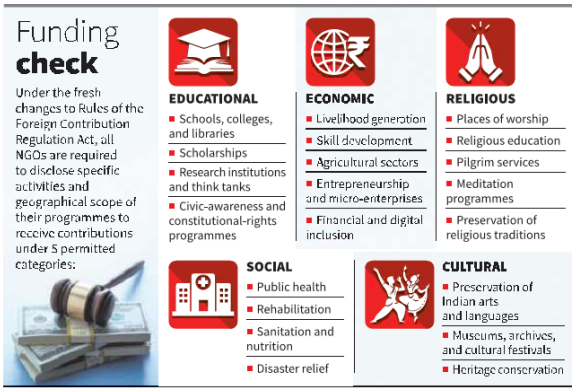
The "cultural" purpose lists "promotion of contemporary arts inspired by Indian traditions" among 18 categories, adding the caveat to "exclude political/ ideological content."

There are 16 permitted categories of religious activities, including "conduct of religious education, moral instruction, satsangs, discourses, and meditation retreats (excluding proselytisation)", and "burial/cremation ground development and maintenance." There are 19 activities listed under "economic" purpose, and 30 items under the "social" category.

Fines for violations

MHA notified another order which specifies fines for FCRA violations such as excess administrative spending, speculative investments, misuse of funds, unauthorised receipt/use of foreign contributions, and using funds for unapproved purposes or in unapproved States/UTs.

Any use of funds for purposes other than those for which they were received can attract a penalty of up to 30% of the amount misused or ₹1 lakh, whichever is higher. Similarly, using foreign funds for purposes or in areas not covered under the NGO's approval also invites a fine of 30% of the amount or ₹1 lakh, whichever is higher. In addition, spending beyond the permitted expense limit is penalised with fines calculated as a percentage of the amount involved, subject to a minimum of ₹1 lakh.



24J6. Centre tightens norms for foreign donations
विदेशी अंशदानों के लिए केंद्र ने नियमों को और कड़ा किया

- **Non-governmental organisations (NGOs)** wanting to access **foreign funds** must now stick to a list of activities specified by the **Centre**, according to the latest amendment to the Rules of the **Foreign Contribution Regulation Act (FCRA), 2010**, notified on Monday.
  गैर-सरकारी संगठनों को अब **विदेशी धनराशि** प्राप्त करने के लिए **केंद्र सरकार** द्वारा निर्धारित गतिविधियों की सूची का पालन करना होगा। यह प्रावधान सोमवार को अधिसूचित **विदेशी अंशदान (विनियमन) अधिनियम, 2010** के नियमों में किए गए नवीनतम संशोधन में किया गया है।
- While NGOs seeking foreign funds are required to register under one of the five permitted categories, namely **social, economic, educational, cultural, and religious**, this is the first time separate activity lists have been laid out for those in each category.
  यद्यपि विदेशी धन प्राप्त करने के इच्छुक संगठनों को **सामाजिक, आर्थिक, शैक्षिक, सांस्कृतिक और धार्मिक** — इन पाँच अनुमत श्रेणियों में से किसी एक के अंतर्गत पंजीकरण कराना आवश्यक है, किन्तु पहली बार प्रत्येक श्रेणी के लिए अलग-अलग गतिविधियों की सूची निर्धारित की गई है।
- NGOs must now disclose their activities, the geographical scope of their programmes, their websites, social media accounts, and publications.
  अब संगठनों को अपनी गतिविधियों, कार्यक्रमों के भौगोलिक दायरे, अपनी वेबसाइटों, सामाजिक मीडिया खातों तथा प्रकाशनों का विवरण देना अनिवार्य होगा।
- They must pay separate fees for each category and State or Union Territory they operate in, as opposed to the previous single fee for FCRA registrants.
  उन्हें अब प्रत्येक श्रेणी तथा प्रत्येक राज्य या केंद्रशासित प्रदेश, जहाँ वे कार्यरत हैं, के लिए अलग-अलग शुल्क देना होगा, जबकि पहले केवल एक ही शुल्क लिया जाता था।
- Any new registration must follow the new norms and existing registrations must comply with the changes within the next year.

Website : patrioticias.in

सभी नए पंजीकरणों को नए नियमों का पालन करना होगा तथा पहले से पंजीकृत संगठनों को अगले एक वर्ष के भीतर इन परिवर्तनों के अनुरूप होना होगा।

- Any violations will be penalised with a minimum fine of **₹1 lakh**, according to another order from the **Union Home Ministry**.
  केंद्रीय गृह मंत्रालय के एक अन्य आदेश के अनुसार, किसी भी उल्लंघन पर न्यूनतम **एक लाख रुपये** का जुर्माना लगाया जाएगा।
- The Ministry regulates all foreign donations through the **FCRA**.
  मंत्रालय **विदेशी अंशदान (विनियमन) अधिनियम** के माध्यम से सभी विदेशी दानों का विनियमन करता है।
- Earlier amendments of the Rules only required NGOs to give an undertaking that their acceptance of foreign funds is not likely to affect the sovereignty and integrity of India or impact friendly relations with foreign states or disrupt communal harmony.
  नियमों के पूर्व संशोधनों में केवल यह अपेक्षा की जाती थी कि संगठन यह आश्वासन दें कि विदेशी धन स्वीकार करने से भारत की **संप्रभुता और अखंडता**, विदेशी देशों के साथ मैत्रीपूर्ण संबंधों अथवा **साम्प्रदायिक सद्भाव** पर प्रतिकूल प्रभाव नहीं पड़ेगा।

Key functionaries
प्रमुख पदाधिकारी

- The amended Rules also broaden the definition of an NGO's **"key functionary"** beyond office-bearers and directors to include trustees, partners, the Karta or head of a Hindu Undivided Family, governing body members, and anyone else controlling or managing the organisation.
  संशोधित नियमों में संगठन के **"प्रमुख पदाधिकारी"** की परिभाषा का विस्तार किया गया है। अब इसमें केवल पदाधिकारी और निदेशक ही नहीं, बल्कि न्यासी, साझेदार, हिन्दू अविभाजित परिवार का कर्ता या मुखिया, शासी निकाय के सदस्य तथा संगठन का नियंत्रण या प्रबंधन करने वाले अन्य व्यक्ति भी शामिल होंगे।
- Associations having foreign nationals (other than persons of Indian origin) as key functionaries will ordinarily not be considered eligible for registration or prior permission, unless specifically permitted by the Centre, according to the new Rules.
  नए नियमों के अनुसार, जिन संगठनों के प्रमुख पदाधिकारियों में विदेशी नागरिक (भारतीय मूल के व्यक्तियों को छोड़कर) शामिल हैं, उन्हें सामान्यतः पंजीकरण या पूर्व अनुमति के लिए पात्र नहीं माना जाएगा, जब तक कि केंद्र सरकार विशेष रूप से अनुमति न दे।
- NGOs must also declare whether their association or any of their key functionaries brought out any publication during the year, including books, magazines, and newspaper articles.
  संगठनों को यह भी घोषित करना होगा कि क्या उनके संगठन अथवा उनके किसी प्रमुख पदाधिकारी ने वर्ष के दौरान कोई प्रकाशन प्रकाशित किया है, जिसमें पुस्तकें, पत्रिकाएँ और समाचार-पत्रों में प्रकाशित लेख भी शामिल हैं।
- A senior government official said that the amendments were effected to bring **uniformity** in **Foreign Contribution forms** and to avoid duplication.
  एक वरिष्ठ सरकारी अधिकारी ने कहा कि ये संशोधन **विदेशी अंशदान प्रपत्रों** में **एकरूपता** लाने तथा दोहराव को रोकने के उद्देश्य से किए गए हैं।
- The amended Rules state that the certificate of registration or the application form (for fresh registrations) shall specify the purpose or purposes for which registration is granted, chosen only from such list of purposes as specified in the Schedule appended to the Rules.
  संशोधित नियमों के अनुसार, पंजीकरण प्रमाणपत्र अथवा नए पंजीकरण के आवेदन-पत्र में उन उद्देश्यों का स्पष्ट उल्लेख होगा जिनके लिए पंजीकरण प्रदान किया गया है, और ये उद्देश्य केवल नियमों की अनुसूची में निर्दिष्ट सूची में से ही चुने जा सकेंगे।

- And the States or Union Territories in which the NGO proposes to undertake the activities.
  साथ ही, उन राज्यों या केंद्रशासित प्रदेशों का भी उल्लेख करना होगा जहाँ संगठन अपनी गतिविधियाँ संचालित करना चाहता है।
- The Rules also impose a fee on NGOs to operate for each specified purpose, and within each State or Union Territory.
  नियमों के अनुसार, प्रत्येक निर्दिष्ट उद्देश्य तथा प्रत्येक राज्य या केंद्रशासित प्रदेश में कार्य करने के लिए संगठनों को अलग-अलग शुल्क देना होगा।
- Some categories specifically exclude **political activities**.
  कुछ श्रेणियों में **राजनीतिक गतिविधियों** को स्पष्ट रूप से बाहर रखा गया है।
- For instance, the **"educational"** purpose lists 22 activities but adds the caveat that "awareness programmes on constitutional rights, fundamental duties, and civic responsibilities" must be "strictly non-political in nature."
  उदाहरण के लिए, **"शैक्षिक"** उद्देश्य के अंतर्गत 22 गतिविधियाँ सूचीबद्ध की गई हैं, किन्तु यह स्पष्ट किया गया है कि "संवैधानिक अधिकारों, मौलिक कर्तव्यों तथा नागरिक उत्तरदायित्वों पर आधारित जागरूकता कार्यक्रम" **पूर्णतः गैर-राजनीतिक प्रकृति** के होने चाहिए।
- The **"cultural"** purpose lists "promotion of contemporary arts inspired by Indian traditions" among 18 categories, adding the caveat to "exclude political/ideological content."
  "सांस्कृतिक" उद्देश्य के अंतर्गत 18 श्रेणियाँ दी गई हैं, जिनमें "भारतीय परम्पराओं से प्रेरित समकालीन कलाओं का संवर्धन" भी शामिल है, किन्तु यह शर्त जोड़ी गई है कि इसमें **राजनीतिक अथवा वैचारिक सामग्री** शामिल नहीं होनी चाहिए।
- There are **16 permitted categories** of religious activities, including "conduct of religious education, moral instruction, satsangs, discourses, and meditation retreats (excluding proselytisation)", and "burial/cremation ground development and maintenance."
  धार्मिक गतिविधियों की **16 अनुमत श्रेणियाँ** निर्धारित की गई हैं, जिनमें "धार्मिक शिक्षा, नैतिक शिक्षा, सत्संग, प्रवचन तथा ध्यान शिविरों का आयोजन (धर्म-परिवर्तन को छोड़कर)" तथा "दफन या श्मशान स्थलों का विकास और रखरखाव" शामिल हैं।
- There are **19 activities** listed under **"economic"** purpose, and **30 items** under the **"social"** category.
  "आर्थिक" उद्देश्य के अंतर्गत **19 गतिविधियाँ** तथा **"सामाजिक"** श्रेणी के अंतर्गत **30 गतिविधियाँ** सूचीबद्ध की गई हैं।

Fines for violations
उल्लंघनों पर दण्ड

- **MHA** notified another order which specifies fines for **FCRA violations** such as excess administrative spending, speculative investments, misuse of funds, unauthorised receipt/use of foreign contributions, and using funds for unapproved purposes or in unapproved States/UTs.
  गृह मंत्रालय ने एक अन्य आदेश जारी किया है जिसमें **विदेशी अंशदान (विनियमन) अधिनियम** के उल्लंघनों पर लगाए जाने वाले दण्डों का प्रावधान किया गया है। इनमें अत्यधिक प्रशासनिक व्यय, सट्टात्मक निवेश, धन का दुरुपयोग, विदेशी अंशदान की अनधिकृत प्राप्ति अथवा उपयोग, तथा अप्राधिकृत उद्देश्यों या अप्राधिकृत राज्यों/केंद्रशासित प्रदेशों में धन का उपयोग शामिल है।
- Any use of funds for purposes other than those for which they were received can attract a penalty of up to **30% of the amount misused** or **₹1 lakh**, whichever is higher.
  जिस उद्देश्य के लिए धन प्राप्त किया गया था उसके अतिरिक्त किसी अन्य उद्देश्य में उसका उपयोग करने पर **दुरुपयोग की गई राशि के 30 प्रतिशत** अथवा **एक लाख रुपये**, जो भी अधिक हो, का दण्ड लगाया जा सकता है।

- Similarly, using foreign funds for purposes or in areas not covered under the NGO's approval also invites a fine of **30% of the amount** or **₹1 lakh**, whichever is higher.
  इसी प्रकार, संगठन को स्वीकृत उद्देश्यों या क्षेत्रों से बाहर विदेशी धन का उपयोग करने पर भी **राशि के 30 प्रतिशत** अथवा **एक लाख रुपये**, जो भी अधिक हो, का जुर्माना लगाया जाएगा।
- In addition, spending beyond the permitted expense limit is penalised with fines calculated as a percentage of the amount involved, subject to a minimum of **₹1 lakh**.
  इसके अतिरिक्त, अनुमत व्यय सीमा से अधिक खर्च करने पर संबंधित राशि के अनुपात में दण्ड लगाया जाएगा, जिसकी न्यूनतम सीमा **एक लाख रुपये** होगी।

Reconnect public health with people's needs

Mathew George

Professor with the Department of Public Health Sciences, Central University of Kerala, Kasaragod, Kerala

Access to curative care and stronger institutions must anchor India's health policy

Public health policies, like other public policies, are crucial in determining the overall health of the population and are an important contributor to a nation seeking to reap the benefits of its demographic dividend. One of the major claims of health policies in recent years has been the achievement of universal health coverage (UHC), a novel idea that seeks to ensure that every individual has access to needed health services without suffering financial hardship. Yet, populist ideas often dominate public policy despite evidence to the contrary, as seen in the case of publicly funded health insurance schemes. The changing nature of public health policy in recent years is particularly concerning, not only because it has often failed to be evidence-based, but also because of its inability to guarantee even minimal health benefits to the population.

More troubling is the failure of public health policies to improve access to health care at a time when such access is deteriorating significantly owing to rising costs in the private sector and poor quality in the public sector. Two recent government initiatives – the Ayushman Bharat Health and Wellness Centres and the Digital Health Mission – illustrate these inadequacies.

The interpretation

The Ayushman Bharat Health and Wellness Centres, introduced as a policy initiative in 2018, were intended to strengthen health infrastructure. What eventually happened, however, was that the names and identities of grassroots-level institutions – namely, the health sub-centres (SCs), primary health centres (PHCs), and community health centres (CHCs) – were altered by mandatorily adding "Health and Wellness Centre" as a prefix. The identity of these grassroots institutions and their mandates have evolved over time based on their roles within the district health system. The use of a common prefix has created considerable ambiguity among health professionals and policymakers regarding their actual mandate. Another consequence of the "health and wellness" approach has been a shift in focus from population health outcomes to individual well-being. The major challenge in using well-being as an outcome measure lies in the elusive and subjective nature of the concept itself.

A historical inquiry into the concept of wellness reveals that it was initially used to denote the absence of disease and was often contrasted with illness. It was also frequently used interchangeably with health. During the 1950s, the wellness movement popularised the idea of positive well-being by conceptualising health beyond its biological dimensions. The mental cure model similarly emphasised the psychological and spiritual aspects of healing. Influenced by these developments, the World Health Organization (WHO) defined health as not merely the absence of disease, thereby promoting the notion of positive well-being. Over time, wellness expanded beyond physiological health to include mental, spiritual, social and environmental dimensions, offering a more holistic understanding of health. In public health, however, the emphasis shifted towards health promotion – a population-based approach that recognises how social, economic and environmental conditions shape people's ability to adopt healthy behaviours.

Another reason for preferring health promotion over wellness was the greater rigour and feasibility associated with measuring the former. There are no universally accepted measures of well-being at the population level, as the concept is inherently individualistic and deeply subjective. Unlike health promotion, the concept of wellness places the primary responsibility on individuals, assuming that they possess the capacity and opportunity to modify their health-related choices. In doing so, it often underestimates the structural and social determinants that shape health outcomes.

The individualisation of health

The shift from population health status to individual well-being is a consequence of the changing wellness narrative brought by the public health policy. The implication is that health status, which was previously assessed through unmet needs in preventive, promotive, curative and rehabilitative care – including access to basic services such as drinking water, food and nutrition, chronic disease management, emergency care, and maternal and child health services – is increasingly being replaced by the aspiration to achieve individual well-being. This shift in focus has contributed to the rise of health coaches and the proliferation of social media messages promoting individual well-being, often under the banner of public health.

When health outcomes are framed primarily in terms of individual well-being, there is a risk of failing to systematically capture a wide range of unmet health needs that remain significant for the population. The broader narrative increasingly suggests that the achievement of individual well-being is the ultimate objective of health and wellness centres. This presents a serious challenge. As the well-known principle in management states, "If you cannot measure it, you cannot improve it". Given the inherently subjective nature of well-being, an excessive policy focus on this outcome may undermine the ability to evaluate health systems effectively and address concrete deficiencies in health care access and service delivery.

Another major public health policy initiative of recent years is the Ayushman Bharat Digital Health Mission (ABDHM), whose principal objective is to create a digital repository of health information for every individual through a unique health ID, known as the ABHA card. In addition, the mission seeks to maintain registries of health facilities, health-care professionals and information related to health insurance. However, an information portal containing health records and details of health infrastructure cannot, by itself, address the challenges posed by inadequate access to health care. Nor does it justify the annual budget of around ₹300 crore to the ABDHM in the absence of measurable outcomes.

Factors behind inadequate access to care

It is well established that inadequate access to health care in India stems from the unaffordability of care in the private sector and the lack of quality health-care facilities in the public sector. Merely creating databases of individual health records, health facilities and health-care professionals cannot improve access to health care. If the argument is that information is the first step towards strengthening the health system, there exists a substantial body of reports and datasets that provide such information.

The more pertinent question is how information contained in an individual's health record, through an ABHA card, can guarantee access to health care when health-care infrastructure remains grossly inadequate and unaffordable for large sections of the population. Even if every individual in a district possesses an ABHA card and all health facilities and health-care professionals are digitally mapped, the delivery of health care still requires a robust institutional mechanism. Unfortunately, the ABDHM, as currently designed, has little to say about the provisioning of care. It primarily generates information on individuals, facilities and health-care professionals, all of which continue to operate largely in silos.

It is therefore difficult to identify a compelling public health rationale for this scale of data generation. What is missing from current policy initiatives are concrete measures to strengthen public health-care institutions, as envisaged under India's three-tier health-care system. Instead, these institutions continue to weaken in many parts of the country.

For most people, access to curative care constitutes an immediate and pressing need. Only after these basic health-care requirements are met can individuals meaningfully engage with preventive and promotive health interventions. When public health policies fail to recognise people's felt needs, they risk becoming mere vehicles for advancing the priorities of policymakers and health-care providers rather than addressing the actual concerns of the population.

The views expressed are personal

24J6. Reconnect public health with people's needs
जनस्वास्थ्य को लोगों की आवश्यकताओं से पुनः जोड़ें

- Two recent government initiatives — the **Ayushman Bharat Health and Wellness Centres** and the **Digital Health Mission** — illustrate these inadequacies.
  हाल की दो सरकारी पहलें — **आयुष्मान भारत हेल्थ एंड वेलनेस सेंटर** तथा **डिजिटल हेल्थ मिशन** — इन कमियों को स्पष्ट रूप से दर्शाती हैं।

The interpretation
व्याख्या

- The **Ayushman Bharat Health and Wellness Centres**, introduced as a policy initiative in 2018, were intended to strengthen **health infrastructure**.
  वर्ष 2018 में नीति पहल के रूप में प्रारंभ किए गए **आयुष्मान भारत हेल्थ एंड वेलनेस सेंटरों** का उद्देश्य **स्वास्थ्य अवसंरचना** को सुदृढ़ करना था।
- What eventually happened, however, was that the names and identities of grassroots-level institutions — namely, the **health sub-centres (SCs)**, **primary health centres (PHCs)**, and **community health centres (CHCs)** — were altered by mandatorily adding "Health and Wellness Centre" as a prefix.
  किन्तु अंततः हुआ यह कि जमीनी स्तर की संस्थाओं — अर्थात् **स्वास्थ्य उप-केंद्र (SCs)**, **प्राथमिक स्वास्थ्य केंद्र (PHCs)** और **सामुदायिक स्वास्थ्य केंद्र (CHCs)** — के नाम और पहचान को "Health and Wellness Centre" उपसर्ग अनिवार्य रूप से जोड़कर परिवर्तित कर दिया गया।
- Influenced by these developments, the **World Health Organization (WHO)** de• ned health as not merely the absence of disease, thereby promoting the notion of positive well-being.
  इन विकासों से प्रभावित होकर **विश्व स्वास्थ्य संगठन (WHO)** ने स्वास्थ्य को केवल रोग की अनुपस्थिति नहीं माना, जिससे सकारात्मक कल्याण की अवधारणा को बढ़ावा मिला।
- Over time, wellness expanded beyond physiological health to include **mental**, **spiritual**, **social** and **environmental** dimensions, o• ering a more holistic understanding of health.
  समय के साथ वेलनेस की अवधारणा शारीरिक स्वास्थ्य से आगे बढ़कर **मानसिक**, **आध्यात्मिक**, **सामाजिक** और **पर्यावरणीय** आयामों को भी शामिल करने लगी, जिससे स्वास्थ्य की अधिक समग्र समझ विकसित हुई।
- Another major public health policy initiative of recent years is the **Ayushman Bharat Digital Health Mission (ABDHM)**, whose principal objective is to create a digital repository of health information for every individual through a unique health ID, known as the **ABHA card**.
  हाल के वर्षों की एक अन्य प्रमुख सार्वजनिक स्वास्थ्य नीति पहल **आयुष्मान भारत डिजिटल हेल्थ मिशन (ABDHM)** है, जिसका मुख्य उद्देश्य प्रत्येक व्यक्ति की स्वास्थ्य जानकारी का एक डिजिटल भंडार तैयार करना है, जिसके लिए **ABHA कार्ड** नामक एक विशिष्ट स्वास्थ्य पहचान संख्या प्रदान की जाती है।
- In addition, the mission seeks to maintain registries of **health facilities**, **health-care professionals** and information related to **health insurance**.
  इसके अतिरिक्त, यह मिशन **स्वास्थ्य संस्थानों**, **स्वास्थ्यकर्मियों** तथा **स्वास्थ्य बीमा** से संबंधित सूचनाओं का अभिलेख भी बनाए रखने का प्रयास करता है।
- However, an information portal containing health records and details of health infrastructure cannot, by itself, address the challenges posed by inadequate access to health care.
  हालाँकि, स्वास्थ्य अभिलेखों और स्वास्थ्य अवसंरचना के विवरणों से युक्त एक सूचना पोर्टल अपने आप स्वास्थ्य सेवाओं तक अपर्याप्त पहुँच से उत्पन्न चुनौतियों का समाधान नहीं कर सकता।
- Nor does it justify the annual budget of around **₹300 crore** to the **ABDHM** in the absence of measurable outcomes.
  और न ही यह, मापनीय परिणामों के अभाव में, **ABDHM** को दिए जाने वाले लगभग **₹300 करोड़** के वार्षिक बजट को उचित ठहराता है।

Factors behind inadequate access to care
स्वास्थ्य सेवाओं तक अपर्याप्त पहुँच के पीछे के कारक

- It is well established that inadequate access to **health care** in India stems from the **unaffordability of care** in the private sector and the lack of quality **health-care facilities** in the public sector.
  यह भली-भाँति स्थापित तथ्य है कि भारत में **स्वास्थ्य सेवाओं** तक अपर्याप्त पहुँच का प्रमुख कारण निजी क्षेत्र में उपचार की **अधिक लागत (Unaffordability of Care)** तथा सार्वजनिक क्षेत्र में गुणवत्तापूर्ण **स्वास्थ्य सुविधाओं** का अभाव है।
- Merely creating databases of individual **health records**, health facilities and **health-care professionals** cannot improve access to health care.
  केवल व्यक्तिगत **स्वास्थ्य अभिलेखों**, स्वास्थ्य संस्थानों और **स्वास्थ्यकर्मियों** के डेटाबेस तैयार कर देने मात्र से स्वास्थ्य सेवाओं तक पहुँच में सुधार नहीं किया जा सकता।
- If the argument is that information is the first step towards strengthening the **health system**, there exists a substantial body of reports and datasets that provide such information.
  यदि यह तर्क दिया जाए कि **स्वास्थ्य प्रणाली** को सुदृढ़ करने की दिशा में सूचना पहला कदम है, तो ऐसी जानकारी उपलब्ध कराने वाली पर्याप्त रिपोर्टें और आँकड़ा-संग्रह पहले से ही मौजूद हैं।
- The more pertinent question is how information contained in an individual's health record, through an **ABHA card**, can guarantee access to health care when **health-care infrastructure** remains grossly inadequate and unaffordable for large sections of the population.
  अधिक महत्वपूर्ण प्रश्न यह है कि किसी व्यक्ति के स्वास्थ्य अभिलेख में उपलब्ध जानकारी, **ABHA कार्ड** के माध्यम से, स्वास्थ्य सेवाओं तक पहुँच की गारंटी कैसे दे सकती है, जबकि **स्वास्थ्य अवसंरचना** अभी भी जनसंख्या के बड़े हिस्से के लिए अत्यंत अपर्याप्त और महँगी बनी हुई है।
- Even if every individual in a district possesses an **ABHA card** and all health facilities and health-care professionals are digitally mapped, the delivery of health care still requires a robust **institutional mechanism**.
  भले ही किसी जिले का प्रत्येक व्यक्ति **ABHA कार्ड** रखता हो और सभी स्वास्थ्य संस्थानों तथा स्वास्थ्यकर्मियों का डिजिटल मानचित्रण कर दिया गया हो, फिर भी स्वास्थ्य सेवाओं के प्रभावी वितरण के लिए एक सुदृढ़ **संस्थागत तंत्र** की आवश्यकता बनी रहती है।
- It primarily generates information on individuals, facilities and health-care professionals, all of which continue to operate largely in silos.
  यह मुख्यतः व्यक्तियों, स्वास्थ्य संस्थानों और स्वास्थ्यकर्मियों से संबंधित जानकारी उत्पन्न करता है, जबकि ये सभी अब भी बड़े पैमाने पर अलग-अलग और असंबद्ध रूप से कार्य करते हैं।

- For most people, access to **curative care** constitutes an immediate and pressing need.
  अधिकांश लोगों के लिए **उपचारात्मक स्वास्थ्य सेवाओं (Curative Care)** तक पहुँच एक तात्कालिक और अत्यंत महत्वपूर्ण आवश्यकता है।
- Only after these basic health-care requirements are met can individuals meaningfully engage with **preventive** and **promotive health interventions**.
  इन बुनियादी स्वास्थ्य आवश्यकताओं की पूर्ति के बाद ही व्यक्ति प्रभावी रूप से **निवारक (Preventive)** तथा **स्वास्थ्य संवर्धन (Promotive Health Interventions)** संबंधी उपायों में भाग ले सकते हैं।

- When **public health policies** fail to recognise people's felt needs, they risk becoming mere vehicles for advancing the priorities of policymakers and health-care providers rather than addressing the actual concerns of the population.
  जब **सार्वजनिक स्वास्थ्य नीतियाँ** लोगों की वास्तविक एवं अनुभवजन्य आवश्यकताओं को पहचानने में विफल रहती हैं, तब वे जनसंख्या की वास्तविक समस्याओं का समाधान करने के बजाय केवल नीति-निर्माताओं और स्वास्थ्य सेवा प्रदाताओं की प्राथमिकताओं को आगे बढ़ाने का माध्यम बनकर रह जाने का जोखिम उठाती हैं।

Ayushman Bharat Health and Wellness Centres (AB-HWCs) / Ayushman Arogya Mandirs

• **Ayushman Bharat Health and Wellness Centres (AB-HWCs)** were launched as one of the two pillars of the **Ayushman Bharat Programme** in **2018**.

• Their objective is to transform existing **Sub-Health Centres (SHCs)** and **Primary Health Centres (PHCs)** into facilities that provide **Comprehensive Primary Health Care (CPHC)** closer to people's homes.

• In recent years, AB-HWCs have been renamed **Ayushman Arogya Mandirs (AAMs)**.

Why Were Health and Wellness Centres Needed?

Earlier, many government health centres focused mainly on:

• Maternal and child health.
• Immunization.
• Family welfare services.

However, India was witnessing a rapid rise in:

• Diabetes.
• Hypertension.
• Heart diseases.
• Cancer.
• Mental health problems.
• Elderly care needs.

Therefore, the government expanded the scope of primary healthcare through Health and Wellness Centres.

Main Objective

• To provide **universal, accessible, affordable and quality primary healthcare**.
• To shift healthcare from a "disease-treatment model" to a **preventive and wellness-based model**.
• To reduce the need for patients to travel long distances for basic healthcare services.

Services Provided

Unlike traditional sub-centres, Health and Wellness Centres provide a much broader range of services.

Maternal and Child Health

• Antenatal care.
• Postnatal care.
• Immunization.
• Nutrition counselling.

Communicable Diseases

• Tuberculosis.
• Malaria.
• Dengue.
• Other infectious diseases.

Non-Communicable Diseases (NCDs)

• Hypertension screening.
• Diabetes screening.
• Cancer screening.
• Follow-up treatment and counselling.

Mental Health Services

• Basic counselling.
• Early identification and referral.

Geriatric Care

• Health services for elderly persons.

Palliative and Rehabilitative Care

• Care for chronically ill patients.

Emergency Medical Services

• Basic emergency care and referral support.

Free Medicines and Diagnostics

• Essential drugs.
• Basic laboratory investigations.

PATRIOTIC IAS

Health Team at a Health and Wellness Centre

A typical centre may include:

- **Community Health Officer (CHO)**.
- ANM (Auxiliary Nurse Midwife).
- ASHA worker.
- Multi-purpose health workers.

The CHO often serves as the primary clinical leader at the facility.

Wellness Activities

These centres do not focus only on illness.

They also promote:

- Yoga.
- Meditation.
- Physical activity.
- Healthy lifestyle awareness.
- Nutrition education.

As of mid-2025, crores of wellness sessions had been conducted across the country.

How It Helps a Common Citizen

Example

Suppose a villager in Uttar Pradesh develops symptoms of diabetes.

Earlier:

- They might need to travel to a district hospital.
- Spend money on transport.
- Wait for consultation.

Now:

- Screening can be done at a nearby Health and Wellness Centre.
- Medicines and follow-up care may be available locally.
- Only complicated cases are referred to higher hospitals.

This reduces both cost and inconvenience.

Achievements

National Scale

- The Government originally planned to establish **1.5 lakh Health and Wellness Centres** across India.
- By **October 2025**, more than **1,80,906 Ayushman Arogya Mandirs** had become operational.
- By **May 2026**, active centres had crossed **1.85 lakh** nationwide.

Disease Screening

Large-scale screening has been conducted for:

- Hypertension.
- Diabetes.
- Oral cancer.
- Breast cancer.
- Cervical cancer.

Telemedicine

- More than **41 crore teleconsultations** had been delivered through Ayushman Arogya Mandirs by October 2025.

Connection with Ayushman Bharat

Ayushman Bharat has **two major components**:

Component 1

- **Ayushman Arogya Mandirs (Health & Wellness Centres)**.
- Focus on primary healthcare and disease prevention.

Component 2

- **Pradhan Mantri Jan Arogya Yojana (PM-JAY)**.
- Provides health insurance coverage for hospitalization and secondary/tertiary care.

Together they aim to provide a continuum of care from prevention to hospitalization.

PATRIOTIC IAS

AYUSHMAN BHARAT DIGITAL HEALTH MISSION (ABDM)

• The **Ayushman Bharat Digital Mission (ABDM)** is the Government of India's flagship initiative to create a **national digital health ecosystem**.
• It is implemented by the **National Health Authority (NHA)** under the **Ministry of Health and Family Welfare**.
• The mission aims to connect patients, hospitals, doctors, laboratories, pharmacies, and health insurance systems through a secure digital platform.
• ABDM was launched nationally in **September 2021** after being initially introduced as the **National Digital Health Mission (NDHM)**.

Need for ABDM

• India's healthcare system has traditionally relied on paper records.
• Patients often carry prescriptions, reports, and medical files from one hospital to another.
• Medical records are frequently lost, duplicated, or inaccessible.
• Different hospitals and laboratories often operate separate information systems.
• ABDM seeks to create a unified, interoperable, and consent-based digital health infrastructure.

Objectives of ABDM

• To build an integrated digital health ecosystem.
• To provide every citizen with a unique digital health identity.
• To enable secure sharing of health records with patient consent.
• To improve efficiency, accessibility, affordability, and quality of healthcare.
• To reduce paperwork and duplication of medical tests.

Major Components of ABDM

Ayushman Bharat Health Account (ABHA)

• ABHA is a unique digital health identity for every citizen.
• It serves as a digital gateway to access and manage health records.
• Citizens can create and use an ABHA number to store and share medical records electronically.

Health Facility Registry (HFR)

• A national database of hospitals, clinics, laboratories, and healthcare facilities.
• Helps citizens identify and access verified healthcare institutions.

Healthcare Professionals Registry (HPR)

• A centralized registry of doctors and healthcare professionals.
• Promotes authenticity and trust in healthcare services.

Personal Health Records (PHR)

• Citizens can maintain lifelong digital health records.
• Records remain under the control of the individual and can be shared only with consent.

Scan and Share Facility

• Patients can scan a QR code at hospitals for faster OPD registration.
• Reduces waiting time and paperwork.

Civil Services Preliminary Examination 2026: tough by design or default?

An exam meant to filter talent is increasingly seen as rejecting it, raising questions about fairness, design, and whether the system is identifying merit — a warning that calls for deeper reflection and timely course correction, rather than remaining a mere instance of acknowledgement

GS II: Governance

Gopala Krishna V.

The story so far:

The Civil Services (Preliminary) Examination, introduced in 1979 following the Kothari Committee's recommendations, was designed as a screening mechanism – a 'filter and funnel' – to shortlist candidates for the descriptive Main examination. In its original format, it consisted of two components: an optional subject paper at the graduate level and a General Studies paper, with the optional paper carrying greater weight. For many years, this system functioned smoothly with minor changes.

The Alagh Committee set up in 2000 observed that the preliminary exam should have an optional paper to assess the intellectual competence of the aspirant and maintain its connection with the university system. It also proposed a Civil Services Aptitude Test (CSAT) which would evaluate skills such as general awareness, problem-solving, data analysis and decision-making. The committee also recommended that the questions at the preliminary exam should be made challenging and a case-study approach should be adopted.

In 2009, the S.K. Khanna Committee recommended that the Preliminary Examination should be renamed as the Civil Services Aptitude Test with two common papers at the Preliminary. The preliminary exam was reconstituted to comprise two papers – General Studies Paper- I and General Studies Paper- II. The Paper I covers all conventional areas in 'Humanities', while Paper- II has questions on quantitative aptitude, reasoning, comprehension, interpersonal skills and communication, decision-making and problem-solving. The components of Paper- II were designed to test whether the aspirant had the ability to imbibe new technologies. Both the papers had equal weightage and the combined marks in both the papers were taken to determine merit. This change practically delinked the Preliminary Examination with the university system. After a few years, due to protests, Paper-II known as CSAT was made qualifying in nature. In practice, this meant that nearly five lakh aspirants were narrowed down to about 10,000 candidates solely based on their performance in the 100 questions attempted over two hours.

Bringing down the vast pool of aspirants to a manageable number through a paper comprising just 100 questions is an inherently difficult task. As a result, examiners were forced to constantly reinvent and compile the most unpredictable questions. Over time, it became quite evident that the objective of selecting candidates was being overshadowed by the need to eliminate them. Even the qualifying paper became a tool for rejection, with overall difficulty level of questions rising.

What changed this year?

Against this evolving backdrop, the Civil Services (Preliminary) Examination held in May has come under widespread criticism for the perceived inequity in the distribution and format of questions. Many aspirants found the paper unusually difficult and unpredictable – concerns that were publicly acknowledged by the UPSC Chairman, who expressed empathy with candidates.

This has sparked a broader debate on whether the nature of the paper was an unintended outcome of systemic constraints or a deliberate shift in examination design, and more importantly, what course corrections are needed to ensure fairness, balance and credibility in the screening process.

This year, UPSC committed itself to greater transparency, and agreed to release the answer key of the preliminary exam immediately after it. Openness also meant that the questions had to be set from verifiable authoritative sources. The questions were framed using carefully curated information drawn from government websites.

Attempting the question paper entailed sifting through 55 pages and comprehending 40,000 words in two hours. In addition to this, the subject-wise distribution of questions was distorted and the style of questioning underwent a noticeable shift. Consequently, the aspirants found no link between their preparation and the questions. They had to make guesses, "some informed" and "some wild". Solving previous years' questions, which was considered as the gold standard was also of no help.

This gap between the preparation and examination, coupled with the element of surprise, prompted the aspirants to voice their concerns. The democratisation of expression through social media platforms further amplified the protests, creating a snowballing effect.

The nature of the question paper, thus, appears to be less a matter of a deliberate design and more a consequence of systemic constraints – a by-product of a short-sighted examination pattern established 15 years ago. In retrospect, the committee which introduced the pattern overlooked a dictum that is crucial in policy formulation; that anticipation is the highest form of competence. It failed to adequately foresee the challenge of balancing the increasing number of aspirants with a relatively static number of vacancies.

What is the way out?

The perceived unfairness of the Preliminary Examination has been widely voiced by aspirants and has also been recently flagged by a Parliamentary Committee. However, the Chairman's acknowledgement of the paper's difficulty should not remain a mere instance of proverbial "ventilation therapy." Many crises in governance are not sudden surprises; they are warning signals that were noticed but not acted upon in time. This appears to be one such signal – one that calls for deeper reflection and timely course correction.

It is time for the government to appoint a committee to revisit the examination pattern and make suitable long-term changes after public consultation. The UPSC has been collecting information regarding the socio-economic profile of the aspirants. They have information about the distribution of applicants based on place of birth, schools and colleges attended, status of parents etc. as they are collecting this information at the preliminary stage itself. This information should be used as an input to align the scheme of examination to the background of the aspirants.

Questions may be unpredictable by design, but aspirants should not feel that they are incapable of rising up to the required level of the questions or the highest positions in the country are beyond their reach. The government must undertake reforms both in the examination system and the university framework by introducing 'bridge courses' along the lines of the recommendations of the Second Administrative Reforms Commission. Such measures would help restore visible alignment between education and assessment.

The education system and public employment emanate from the same source – the government. Any disconnect between the two risks eroding their trust in the system. Respecting the aspirations of this generation and sustaining their faith is the order of the day. It is better to prevent a crisis rather than 'firefight' one.

The writer is the Director of Brain Tree, Hyderabad, an institute training candidates for the civil services examination.

24J6. Civil Services Preliminary Examination 2026: tough by design or default?
सिविल सेवा प्रारंभिक परीक्षा 2026: उद्देश्यपूर्ण रूप से कठिन या परिस्थितिवश?

- The **Civil Services (Preliminary) Examination**, introduced in **1979** following the **Kothari Committee's** recommendations, was designed as a screening mechanism — a **'filter and funnel'** — to shortlist candidates for the descriptive Main examination.
  कोठारी समिति की सिफारिशों के आधार पर **1979** में प्रारम्भ की गई **सिविल सेवा (प्रारम्भिक) परीक्षा** को एक चयन तंत्र — अर्थात् **'छंटनी एवं चयन प्रक्रिया'** — के रूप में तैयार किया गया था, ताकि वर्णनात्मक मुख्य परीक्षा के लिए अभ्यर्थियों की सूची तैयार की जा सके।
- In its original format, it consisted of two components: an optional subject paper at the graduate level and a General Studies paper, with the optional paper carrying greater weight.
  अपने मूल स्वरूप में इसमें दो घटक थे: स्नातक स्तर का एक **वैकल्पिक विषय प्रश्नपत्र** और एक **सामान्य अध्ययन प्रश्नपत्र**, जिसमें वैकल्पिक विषय को अधिक महत्व दिया गया था।

- For many years, this system functioned smoothly with minor changes.
  कई वर्षों तक यह व्यवस्था छोटे-मोटे परिवर्तनों के साथ सुचारु रूप से कार्य करती रही।
- The **Alagh Committee** set up in **2000** observed that the preliminary exam should have an optional paper to assess the intellectual competence of the aspirant and maintain its connection with the university system.
  2000 में गठित **अलघ समिति** ने सुझाव दिया कि प्रारम्भिक परीक्षा में एक वैकल्पिक विषय प्रश्नपत्र होना चाहिए, ताकि अभ्यर्थियों की बौद्धिक क्षमता का आकलन किया जा सके और परीक्षा का विश्वविद्यालय प्रणाली से संबंध बना रहे।
- It also proposed a **Civil Services Aptitude Test (CSAT)** which would evaluate skills such as general awareness, problem-solving, data analysis and decision-making.
  समिति ने **सिविल सेवा अभिरुचि परीक्षा** का भी प्रस्ताव रखा, जो सामान्य जागरूकता, समस्या-समाधान, आँकड़ा विश्लेषण तथा निर्णय-निर्माण जैसी क्षमताओं का मूल्यांकन करे।
- The committee also recommended that the questions at the preliminary exam should be made challenging and a case-study approach should be adopted.
  समिति ने यह भी अनुशंसा की कि प्रारम्भिक परीक्षा के प्रश्न अधिक चुनौतीपूर्ण बनाए जाएँ तथा **प्रकरण-अध्ययन आधारित दृष्टिकोण** अपनाया जाए।
- In **2009**, the **S.K. Khanna Committee** recommended that the Preliminary Examination should be renamed as the Civil Services Aptitude Test with two common papers at the Preliminary.
  2009 में **एस.के. खन्ना समिति** ने अनुशंसा की कि प्रारम्भिक परीक्षा का स्वरूप परिवर्तित कर दो समान प्रश्नपत्रों वाली **सिविल सेवा अभिरुचि परीक्षा** बनाई जाए।
- The preliminary exam was reconstituted to comprise two papers — **General Studies Paper-I** and **General Studies Paper-II**.
  इसके बाद प्रारम्भिक परीक्षा को दो प्रश्नपत्रों — **सामान्य अध्ययन प्रश्नपत्र-1** और **सामान्य अध्ययन प्रश्नपत्र-2** — के रूप में पुनर्गठित किया गया।
- The Paper I covers all conventional areas in **Humanities**, while Paper-II has questions on quantitative aptitude, reasoning, comprehension, interpersonal skills and communication, decision-making and problem-solving.
  प्रश्नपत्र-1 में **मानविकी** के सभी पारंपरिक विषय शामिल किए गए, जबकि प्रश्नपत्र-2 में मात्रात्मक अभिरुचि, तर्कशक्ति, बोधगम्यता, पारस्परिक कौशल, संचार, निर्णय-निर्माण तथा समस्या-समाधान से संबंधित प्रश्न रखे गए।
- The components of Paper-II were designed to test whether the aspirant had the ability to imbibe new technologies.
  प्रश्नपत्र-2 के घटकों को इस प्रकार तैयार किया गया था कि यह जाँचा जा सके कि अभ्यर्थी नई प्रौद्योगिकियों को ग्रहण करने की क्षमता रखता है या नहीं।
- Both the papers had equal weightage and the combined marks in both the papers were taken to determine merit.
  दोनों प्रश्नपत्रों को समान महत्व दिया गया तथा दोनों में प्राप्त अंकों के योग के आधार पर मेरिट निर्धारित की गई।
- Against this evolving backdrop, the **Civil Services (Preliminary) Examination** held in **May** has come under widespread criticism for the perceived inequity in the distribution and format of questions.
  इस विकसित होती पृष्ठभूमि में **मई** में आयोजित **सिविल सेवा (प्रारम्भिक) परीक्षा** प्रश्नों के वितरण और स्वरूप में कथित असमानता के कारण व्यापक आलोचना का विषय बन गई।
- Many aspirants found the paper unusually difficult and unpredictable — concerns that were publicly acknowledged by the **UPSC Chairman**, who expressed empathy with candidates.
  अनेक अभ्यर्थियों ने प्रश्नपत्र को असामान्य रूप से कठिन और अप्रत्याशित पाया — इन चिंताओं को **संघ लोक सेवा आयोग के अध्यक्ष** ने भी सार्वजनिक रूप से स्वीकार किया तथा अभ्यर्थियों के प्रति सहानुभूति व्यक्त की।

- The questions were framed using carefully curated information drawn from government websites.
  प्रश्नों का निर्माण सरकारी वेबसाइटों से प्राप्त सावधानीपूर्वक चयनित जानकारी के आधार पर किया गया।
- Attempting the question paper entailed sifting through **55 pages** and comprehending **40,000 words** in two hours.
  प्रश्नपत्र को हल करने के लिए अभ्यर्थियों को **55 पृष्ठों** का अध्ययन करना पड़ा तथा मात्र दो घंटों में लगभग **40,000 शब्दों** को समझना पड़ा।
- In addition to this, the subject-wise distribution of questions was distorted and the style of questioning underwent a noticeable shift.
  इसके अतिरिक्त, विषयवार प्रश्नों का वितरण असंतुलित था और प्रश्न पूछने की शैली में भी स्पष्ट परिवर्तन देखा गया।
- This gap between the preparation and examination, coupled with the element of surprise, prompted the aspirants to voice their concerns.
  तैयारी और परीक्षा के बीच यह अंतर तथा अप्रत्याशितता का तत्व अभ्यर्थियों को अपनी चिंताएँ व्यक्त करने के लिए प्रेरित करने लगा।
- The nature of the question paper, thus, appears to be less a matter of a deliberate design and more a consequence of systemic constraints — a by-product of a short-sighted examination pattern established 15 years ago.
  इस प्रकार, प्रश्नपत्र की प्रकृति किसी सुनियोजित रणनीति का परिणाम कम और व्यवस्थागत सीमाओं का परिणाम अधिक प्रतीत होती है — यह लगभग **15 वर्ष पूर्व** स्थापित एक दूरदृष्टिहीन परीक्षा पद्धति का उप-उत्पाद है।
- In retrospect, the committee which introduced the pattern overlooked a dictum that is crucial in policy formulation; that anticipation is the highest form of competence.
  पुनरावलोकन करने पर प्रतीत होता है कि इस परीक्षा पद्धति को लागू करने वाली समिति ने नीति-निर्माण के एक महत्वपूर्ण सिद्धांत की उपेक्षा की थी, अर्थात् **पूर्वानुमान की क्षमता ही सर्वोच्च दक्षता होती है।**
- It failed to adequately foresee the challenge of balancing the increasing number of aspirants with a relatively static number of vacancies.
  समिति अभ्यर्थियों की बढ़ती संख्या और अपेक्षाकृत स्थिर रिक्तियों के बीच संतुलन स्थापित करने की चुनौती का पर्याप्त रूप से पूर्वानुमान नहीं लगा सकी।

- The UPSC has been collecting information regarding the socio-economic profile of the aspirants.
  संघ लोक सेवा आयोग अभ्यर्थियों की **सामाजिक-आर्थिक पृष्ठभूमि** से संबंधित जानकारी एकत्र कर रहा है।
- They have information about the distribution of applicants based on place of birth, schools and colleges attended, status of parents etc. as they are collecting this information at the preliminary stage itself.
  आयोग के पास अभ्यर्थियों के जन्मस्थान, अध्ययन किए गए विद्यालयों और महाविद्यालयों, माता-पिता की स्थिति आदि से संबंधित जानकारी उपलब्ध है, क्योंकि यह विवरण प्रारम्भिक स्तर पर ही एकत्र किया जाता है।
- The government must undertake reforms both in the examination system and the university framework by introducing **'bridge courses'** along the lines of the recommendations of the **Second Administrative Reforms Commission**.
  सरकार को **द्वितीय प्रशासनिक सुधार आयोग** की सिफारिशों के अनुरूप **सेतु-पाठ्यक्रमों** की शुरुआत करते हुए परीक्षा प्रणाली और विश्वविद्यालय ढाँचे दोनों में सुधार करने चाहिए।
- Such measures would help restore visible alignment between education and assessment.
  ऐसे उपाय शिक्षा और मूल्यांकन के बीच स्पष्ट सामंजस्य को पुनर्स्थापित करने में सहायक होंगे।

RBI tweaks process to onboard MSMEs on TReDS platform

GS II: Governance: Government Scheme

The Hindu Bureau

MUMBAI

The Reserve Bank of India (RBI) issued its final directions on Trade Receivables Discounting System (TReDS) for MSMEs to simplify the system.

The banking regulator fixed a minimum net worth of ₹25 crore and certification by a statutory auditor to provide discounting services. Entities providing the service have been given a deadline of March 31, 2028 to comply with networth norm.

TReDS is an online platform which aids small businesses auction invoices or trade receivables to banks and other financial institutions to unlock working capital. The move seeks to aid MSMEs receive customer payments as they might face issues in converting trade receivables to cash.

24J6. RBI tweaks process to onboard MSMEs on TReDS platform

आरबीआई ने TReDS प्लेटफॉर्म पर MSMEs को शामिल करने की प्रक्रिया में बदलाव किया

- The **Reserve Bank of India (RBI)** issued its final directions on **Trade Receivables Discounting System (TReDS)** for **MSMEs** to simplify the system.

भारतीय रिज़र्व बैंक (RBI) ने प्रणाली को सरल बनाने के लिए **सूक्ष्म, लघु और मध्यम उद्यमों (MSMEs)** हेतु **ट्रेड रिसीवेबल्स डिस्काउंटिंग सिस्टम (TReDS)** पर अपने अंतिम निर्देश जारी किए।

- The banking regulator fixed a minimum **net worth** of **₹25 crore** and certification by a **statutory auditor** to provide discounting services.

बैंकिंग नियामक ने डिस्काउंटिंग सेवाएँ प्रदान करने के लिए न्यूनतम **₹25 करोड़ की नेटवर्थ** तथा **वैधानिक लेखा परीक्षक (Statutory Auditor)** द्वारा प्रमाणन अनिवार्य किया है।

- Entities providing the service have been given a deadline of **March 31, 2028** to comply with net worth norm.

यह सेवा प्रदान करने वाली संस्थाओं को **31 मार्च, 2028** तक नेटवर्थ संबंधी मानदंडों का पालन करने की समय-सीमा दी गई है।

- **TReDS** is an online platform which aids small businesses auction invoices or trade receivables to banks and other financial institutions to unlock **working capital**.

TReDS एक ऑनलाइन प्लेटफॉर्म है जो छोटे व्यवसायों को अपने **इनवॉइस** अथवा **व्यापारिक प्राप्तियों (Trade Receivables)** की नीलामी बैंकों और अन्य वित्तीय संस्थानों को करने में सहायता करता है, जिससे उन्हें **कार्यशील पूंजी (Working Capital)** प्राप्त हो सके।

- The move seeks to aid **MSMEs** receive customer payments as they might face issues in converting **trade receivables** to cash.

यह कदम **MSMEs** को ग्राहकों से भुगतान प्राप्त करने में सहायता प्रदान करने के उद्देश्य से उठाया गया है, क्योंकि उन्हें **व्यापारिक प्राप्तियों (Trade Receivables)** को नकदी में परिवर्तित करने में कठिनाइयों का सामना करना पड़ सकता है।

Evident distress

Stress from the West Asia crisis has revealed economic pain

As the resolution process of the West Asia crisis drags on, an increasing number of economic metrics are exposing key weaknesses in the Indian economy. Many of these existed before the crisis broke out in late February and are now becoming apparent as the economy faces stress. The latest data on the Index of Eight Core Industries show that these sectors cumulatively grew just 0.5% in May 2026, the second-lowest in 21 months. It would have been easy to pass this off as a war-related impact, but the data also show that the index grew by an almost equally anaemic 1.1% over the course of the entire financial year 2025-26. What remains a concern is that the domestic crude oil and natural gas sectors continued their multi-year streaks of contractions in May as well. By this time, the third month of the conflict, oil prices had settled somewhat lower than their April peaks. As a result, oil imports by oil marketing companies began rising once again to meet domestic demand. A strategic goal continues to be missed here. While imported oil can be used to meet demand, domestic production should nevertheless be ramped up to fill strategic reserves. This reserve oil, even of inferior quality, can be released in times of shortage. The same holds true for natural gas. With natural gas imports and domestic production contracting, it followed that the fertilizer sector would also contract. The good news, however, is that the contraction – of 0.9% in May 2026 – was much lower than it was even two months earlier. In any case, what impact the 'super El Niño' will have on fertilizer demand is still uncertain.

Coal production, too, contracted by the most in nearly a year. As the summer continues to heat up, electricity generation will increasingly have to rely on variable renewable sources or costly imported coal. Notably, the core sectors are not the only ones revealing economic distress. The latest Goods and Services Tax (GST) revenue data too show that domestic economic activity seems to be slowing. Revenues from domestic transactions contracted 2.6% in May 2026. The government argues that this is because of a one-time windfall transfer it received in May last year. Even so, the average growth of domestic GST revenue over the last six months was just 3.1%, lower than in 2025-26 and the year before that. This is not a supply issue, since merchandise exports hit a record high in May 2026. It is a demand problem, as low real wage growth meets rising inflation to squeeze wallets. These are all distressing signals even as India enters a deficient monsoon. Trade deals are no substitute for hard-hitting reforms.

24J6. Evident distress

स्पष्ट संकट

- The latest data on the **Index of Eight Core Industries** show that these sectors cumulatively grew just **0.5%** in May 2026, the second-lowest in 21 months.

आठ प्रमुख उद्योगों के सूचकांक (Index of Eight Core Industries) के नवीनतम आँकड़े दर्शाते हैं कि मई 2026 में इन क्षेत्रों की कुल वृद्धि केवल **0.5%** रही, जो पिछले 21 महीनों में दूसरी सबसे कम वृद्धि है।

- It would have been easy to pass this off as a war-related impact, but the data also show that the index grew by an almost equally anaemic **1.1%** over the course of the entire financial year **2025-26**.

इसे युद्ध-संबंधी प्रभाव मानकर टाल देना आसान होता, किन्तु आँकड़े यह भी दर्शाते हैं कि पूरे **वित्तीय वर्ष 2025-26** के दौरान यह सूचकांक लगभग उतनी ही कमजोर दर **1.1%** से बढ़ा।

- What remains a concern is that the domestic **crude oil** and **natural gas** sectors continued their multi-year streaks of contractions in May as well.

चिंता का विषय यह है कि घरेलू **कच्चे तेल** और **प्राकृतिक गैस** क्षेत्र मई में भी कई वर्षों से जारी अपने संकुचन के क्रम को बनाए रखे हुए हैं।

- While imported oil can be used to meet demand, domestic production should nevertheless be ramped up to fill **strategic reserves**.

यद्यपि आयातित तेल से मांग पूरी की जा सकती है, फिर भी **रणनीतिक भंडारों (Strategic Reserves)** को भरने के लिए घरेलू उत्पादन बढ़ाया जाना चाहिए।

- In any case, what impact the **'super El Niño'** will have on fertilizer demand is still uncertain.

किसी भी स्थिति में, **'सुपर एल नीनो'** का उर्वरक मांग पर क्या प्रभाव पड़ेगा, यह अभी भी अनिश्चित है।

- **Coal production**, too, contracted by the most in nearly a year.

कोयला उत्पादन में भी लगभग एक वर्ष की अवधि में सबसे अधिक गिरावट दर्ज की गई।

- The latest **Goods and Services Tax (GST) revenue** data too show that domestic economic activity seems to be slowing.

नवीनतम **वस्तु एवं सेवा कर (GST) राजस्व** आँकड़े भी दर्शाते हैं कि घरेलू आर्थिक गतिविधियाँ धीमी पड़ती प्रतीत हो रही हैं।

- Revenues from domestic transactions contracted **2.6%** in May 2026.

मई 2026 में घरेलू लेन-देन से प्राप्त राजस्व में **2.6%** की गिरावट दर्ज की गई।

India's next challenge — from invention to global scale

GS III: Economy

India has never lacked technological vision. Time and again, it has anticipated transformative technologies long before they became mainstream. It has built impressive scientific capabilities, developed indigenous innovations, and demonstrated remarkable ingenuity. Yet, in several critical sectors, it has struggled to convert early technological leadership into globally dominant industries.

As India embarks on ambitious missions in semiconductors, artificial intelligence (AI), quantum computing and space technologies, it is worth reflecting on an important lesson from its past: invention alone is not enough. The true measure of technological success lies in scaling innovation into globally competitive enterprises.

Ahead of its time

Consider semiconductors. India established the Semiconductor Complex Limited (SCL) in the 1970s – when semiconductors were still an emerging industry – recognising early that integrated circuits would become the foundation of the digital age. Yet, while Taiwan built TSMC and South Korea developed Samsung's semiconductor empire, India failed to translate its early lead into a globally competitive manufacturing ecosystem. The problem was not vision or scientific capability, but limited capital, inadequate scale, inconsistent policy support and an inward-looking public sector approach.

A similar story can be told about ECIL. Established in 1967, it developed indigenous computers, control systems and strategic electronics when India faced severe technology embargoes. ECIL played a vital role in building technological self-reliance. However, its focus remained on strategic requirements rather than globally competitive commercial products. As a result, scientific excellence stayed within institutions instead of creating large industrial ecosystems. The Simputer followed a similar trajectory. Conceived in 1998 by Indian technologists, it anticipated many features that would later define smartphones and tablets. Yet, despite its innovation, the supporting ecosystem was absent. Venture capital, software platforms, component supply chains and consumer markets were not mature enough to help it achieve global scale. A few years later, Apple transformed personal computing through the iPhone and built one of the world's most valuable technology ecosystems. The lesson is clear: being first matters little if you cannot scale.

Kiran Mazumdar-Shaw
Executive Chairperson, Biocon Limited

The country must transform innovation into globally dominant technology enterprises

India has seen similar patterns elsewhere. It developed early expertise in computing, telecommunications and electronics. Yet, many pioneering initiatives remained prototypes, pilots or public-sector achievements rather than globally dominant businesses.

Models of success

Fortunately, history also offers examples of success. India's pharmaceutical industry evolved into a globally competitive manufacturing powerhouse, making the country the pharmacy of the world and a leading vaccine producer. India also developed indigenous supercomputing capabilities through the PARAM programme. More recently, Aadhaar and UPI have shown how technology platforms designed for scale can transform a nation. Scale creates ecosystems, ecosystems create industries, and industries create global leadership.

Today, India stands at another technological inflection point. AI, quantum computing and space technologies are likely to shape the next half-century, just as semiconductors and software shaped the last. India already possesses significant strengths in software engineering and digital infrastructure. The challenge now is to build globally scalable AI products and platforms. The emergence of DeepSeek showed that technological leadership is not only about building the largest models. It is also about making intelligence cheaper and more accessible. The AI race may ultimately be won by those who make intelligence affordable, ubiquitous and widely available.

India is uniquely positioned to lead this movement. Just as UPI democratised financial inclusion, India should aspire to democratise intelligence through low-cost, energy-efficient AI models that can serve billions of people.

Quantum computing presents another opportunity. Rather than merely replicating existing approaches, India should focus on reducing the cost of quantum infrastructure and developing practical applications in health care, materials science, climate modelling and drug discovery.

The same should extend to space. The successes of Chandrayaan and Mangalyaan proved that frugal innovation can coexist with world-class ambition. As computing demands escalate globally, concepts such as space-based data centres powered by continuous solar energy are attracting serious attention. India should not merely participate in these conversations; it should lead them. We should ask bold questions about orbital computing infrastructure, space-based AI platforms or even data centres and quantum communication networks.

These ideas may seem futuristic today. But so did semiconductors, smartphones and AI when they first emerged.

Stopping too soon

The deeper lesson from SCL, ECIL and Simputer is not that India failed, but that it often stopped too soon. We celebrated technological capability before building the ecosystems needed for global scale. The next phase of India's technological journey must combine self-reliance with global ambition. The challenge is no longer merely to invent; it is to build, scale, commercialise and create enterprises that can compete globally.

India has already demonstrated world-class scientific and engineering capabilities. The opportunity now is to translate that ingenuity into globally competitive industries that shape the technologies of the future.

The countries that lead tomorrow may not be those that invent first, but those that scale best. This time, India must do both.

24J6. India's next challenge — from invention to global scale
भारत की अगली चुनौती — नवाचार से वैश्विक स्तर तक

- **India** has never lacked **technological vision**.
  भारत में कभी भी **तकनीकी दृष्टि** की कमी नहीं रही है।
- Time and again, it has anticipated transformative technologies long before they became mainstream.
  बार-बार भारत ने उन परिवर्तनकारी प्रौद्योगिकियों का पूर्वानुमान लगाया है, जो मुख्यधारा में आने से बहुत पहले अस्तित्व में थीं।
- It has built impressive **scientific capabilities**, developed indigenous innovations, and demonstrated remarkable ingenuity.
  भारत ने प्रभावशाली **वैज्ञानिक क्षमताओं** का निर्माण किया है, स्वदेशी नवाचार विकसित किए हैं और उल्लेखनीय प्रतिभा का प्रदर्शन किया है।
- Yet, in several critical sectors, it has struggled to convert early technological leadership into globally dominant industries.
  फिर भी, अनेक महत्वपूर्ण क्षेत्रों में भारत अपनी प्रारम्भिक तकनीकी अग्रणी स्थिति को वैश्विक स्तर पर प्रभुत्वशाली उद्योगों में परिवर्तित करने के लिए संघर्ष करता रहा है।
- As India embarks on ambitious missions in **semiconductors**, **artificial intelligence (AI)**, **quantum computing** and **space technologies**, it is worth reflecting on an important lesson from its past: invention alone is not enough.
  जैसे-जैसे भारत **सेमीकंडक्टर**, **कृत्रिम बुद्धिमत्ता (AI)**, **क्वांटम कंप्यूटिंग** और **अंतरिक्ष प्रौद्योगिकी** के क्षेत्रों में महत्वाकांक्षी अभियानों की शुरुआत कर रहा है, उसके अतीत से एक महत्वपूर्ण सीख पर विचार करना आवश्यक है: केवल आविष्कार पर्याप्त नहीं है।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- The true measure of technological success lies in scaling innovation into globally competitive enterprises.
  तकनीकी सफलता का वास्तविक मापदंड नवाचार को वैश्विक स्तर पर प्रतिस्पर्धी उद्यमों में परिवर्तित करने की क्षमता में निहित है।

Consider **semiconductors**.
सेमीकंडक्टरों पर विचार कीजिए।

- India established the **Semiconductor Complex Limited (SCL)** in the 1970s — when semiconductors were still an emerging industry — recognising early that integrated circuits would become the foundation of the digital age.
  भारत ने 1970 के दशक में **सेमीकंडक्टर कॉम्प्लेक्स लिमिटेड (SCL)** की स्थापना की — उस समय जब सेमीकंडक्टर उद्योग अभी प्रारम्भिक अवस्था में था — और प्रारम्भ में ही यह पहचान लिया था कि एकीकृत परिपथ (Integrated Circuits) डिजिटल युग की नींव बनेंगे।
- Yet, while **Taiwan** built **TSMC** and **South Korea** developed **Samsung's semiconductor empire**, India failed to translate its early lead into a globally competitive manufacturing ecosystem.
  फिर भी, जबकि **ताइवान** ने **TSMC** का निर्माण किया और **दक्षिण कोरिया** ने **सैमसंग के सेमीकंडक्टर साम्राज्य** को विकसित किया, भारत अपनी प्रारम्भिक बढ़त को वैश्विक स्तर पर प्रतिस्पर्धी विनिर्माण पारिस्थितिकी तंत्र में परिवर्तित करने में असफल रहा।
- The problem was not vision or scientific capability, but limited capital, inadequate scale, inconsistent policy support and an inward-looking public sector approach.
  समस्या दृष्टि या वैज्ञानिक क्षमता की नहीं थी, बल्कि सीमित पूंजी, अपर्याप्त पैमाना, असंगत नीतिगत समर्थन तथा अंतर्मुखी सार्वजनिक क्षेत्रीय दृष्टिकोण की थी।
- A similar story can be told about **ECIL**.
  ऐसी ही कहानी **ECIL** के बारे में भी कही जा सकती है।
- Established in 1967, it developed indigenous computers, control systems and strategic electronics when India faced severe technology embargoes.
  1967 में स्थापित इस संस्था ने उस समय स्वदेशी कंप्यूटर, नियंत्रण प्रणालियाँ और सामरिक इलेक्ट्रॉनिक्स विकसित किए, जब भारत को गंभीर तकनीकी प्रतिबंधों का सामना करना पड़ रहा था।
- **ECIL** played a vital role in building technological self-reliance.
  ECIL ने तकनीकी आत्मनिर्भरता के निर्माण में महत्वपूर्ण भूमिका निभाई।
- The **Simputer** followed a similar trajectory.
  सिम्प्यूटर ने भी इसी प्रकार की यात्रा का अनुसरण किया।
- Conceived in 1998 by Indian technologists, it anticipated many features that would later define smartphones and tablets.
  भारतीय प्रौद्योगिकी विशेषज्ञों द्वारा 1998 में परिकल्पित इस उपकरण ने उन अनेक विशेषताओं का पूर्वानुमान लगाया था जो बाद में स्मार्टफोन और टैबलेट की पहचान बनीं।
- Yet, despite its innovation, the supporting ecosystem was absent.
  फिर भी, इसके नवाचार के बावजूद, इसे समर्थन देने वाला पारिस्थितिकी तंत्र मौजूद नहीं था।
- **Venture capital**, software platforms, component supply chains and consumer markets were not mature enough to help it achieve global scale.
  वेंचर कैपिटल, सॉफ्टवेयर प्लेटफॉर्म, घटक आपूर्ति शृंखलाएँ तथा उपभोक्ता बाजार इतने विकसित नहीं थे कि इसे वैश्विक स्तर तक पहुँचा सकें।
- A few years later, **Apple** transformed personal computing through the **iPhone** and built one of the world's most valuable technology ecosystems.
  कुछ वर्षों बाद, **एप्पल** ने **आईफोन** के माध्यम से व्यक्तिगत कंप्यूटिंग में क्रांति ला दी और विश्व के सबसे मूल्यवान प्रौद्योगिकी पारिस्थितिकी तंत्रों में से एक का निर्माण किया।

- The lesson is clear: being first matters little if you cannot scale.
  सीख स्पष्ट है: यदि आप विस्तार नहीं कर सकते, तो सबसे पहले होना बहुत अधिक महत्व नहीं रखता।
- India has seen similar patterns elsewhere.
  भारत ने अन्य क्षेत्रों में भी इसी प्रकार के रुझान देखे हैं।
- It developed early expertise in **computing**, **telecommunications** and **electronics**.
  भारत ने **कंप्यूटिंग**, **दूरसंचार** और **इलेक्ट्रॉनिक्स** में प्रारम्भिक विशेषज्ञता विकसित की थी।
- Yet, many pioneering initiatives remained prototypes, pilots or public-sector achievements rather than globally dominant businesses.
  फिर भी, अनेक अग्रणी पहलें वैश्विक स्तर पर प्रभुत्वशाली व्यवसाय बनने के बजाय केवल प्रोटोटाइप, पायलट परियोजनाएँ या सार्वजनिक क्षेत्र की उपलब्धियाँ बनकर रह गईं।

- India's **pharmaceutical industry** evolved into a globally competitive manufacturing powerhouse, making the country the **pharmacy of the world** and a leading **vaccine producer**.
  भारत का **औषधि उद्योग (Pharmaceutical Industry)** एक वैश्विक स्तर पर प्रतिस्पर्धी विनिर्माण शक्ति के रूप में विकसित हुआ, जिसने देश को **विश्व की फार्मेसी** तथा एक अग्रणी **वैक्सीन उत्पादक** बना दिया।
- India also developed indigenous **supercomputing** capabilities through the **PARAM programme**.
  भारत ने **PARAM कार्यक्रम** के माध्यम से स्वदेशी **सुपरकंप्यूटिंग** क्षमताएँ भी विकसित कीं।
- More recently, **Aadhaar** and **UPI** have shown how technology platforms designed for scale can transform a nation.
  हाल के वर्षों में **आधार** और **UPI** ने यह प्रदर्शित किया है कि बड़े पैमाने के लिए डिज़ाइन किए गए तकनीकी प्लेटफ़ॉर्म किसी राष्ट्र को कैसे परिवर्तित कर सकते हैं।
- Scale creates **ecosystems**, ecosystems create industries, and industries create **global leadership**.
  विस्तार (Scale) **पारिस्थितिकी तंत्र (Ecosystems)** का निर्माण करता है, पारिस्थितिकी तंत्र उद्योगों का निर्माण करते हैं, और उद्योग **वैश्विक नेतृत्व** का निर्माण करते हैं।
- Today, India stands at another technological **inflection point**.
  आज भारत एक और तकनीकी **निर्णायक मोड़ (Inflection Point)** पर खड़ा है।
- **AI**, **quantum computing** and **space technologies** are likely to shape the next half-century, just as semiconductors and software shaped the last.
  कृत्रिम बुद्धिमत्ता (AI), **क्वांटम कंप्यूटिंग** और **अंतरिक्ष प्रौद्योगिकियाँ** आने वाली आधी शताब्दी को उसी प्रकार आकार देने की संभावना रखती हैं, जैसे सेमीकंडक्टर और सॉफ्टवेयर ने पिछली अवधि को आकार दिया था।
- India already possesses significant strengths in **software engineering** and **digital infrastructure**.
  भारत के पास पहले से ही **सॉफ्टवेयर इंजीनियरिंग** और **डिजिटल अवसंरचना** के क्षेत्र में महत्वपूर्ण क्षमताएँ मौजूद हैं।
- The challenge now is to build globally scalable **AI products** and platforms.
  अब चुनौती वैश्विक स्तर पर विस्तार योग्य **AI उत्पादों** और प्लेटफ़ॉर्मों का निर्माण करने की है।
- The emergence of **DeepSeek** showed that technological leadership is not only about building the largest models.
  DeepSeek के उदय ने यह दर्शाया कि तकनीकी नेतृत्व केवल सबसे बड़े मॉडलों के निर्माण तक सीमित नहीं है।
- It is also about making intelligence cheaper and more accessible.
  यह बुद्धिमत्ता को अधिक सस्ता और सुलभ बनाने के बारे में भी है।
- The **AI race** may ultimately be won by those who make intelligence affordable, ubiquitous and widely available.
  अंततः **AI की दौड़** वही जीत सकते हैं जो बुद्धिमत्ता को किफायती, सर्वव्यापी और व्यापक रूप से उपलब्ध बना सकें।

- India is uniquely positioned to lead this movement.
  भारत इस आंदोलन का नेतृत्व करने के लिए विशिष्ट रूप से उपयुक्त स्थिति में है।
- Just as **UPI** democratised **financial inclusion**, India should aspire to democratise intelligence through low-cost, energy-efficient **AI models** that can serve billions of people.
  जिस प्रकार **UPI** ने **वित्तीय समावेशन** को लोकतांत्रिक बनाया, उसी प्रकार भारत को कम लागत वाले, ऊर्जा-कुशल **AI मॉडलों** के माध्यम से बुद्धिमत्ता का लोकतंत्रीकरण करने का लक्ष्य रखना चाहिए, जो अरबों लोगों की सेवा कर सकें।
- **Quantum computing** presents another opportunity.
  क्वांटम कंप्यूटिंग एक और अवसर प्रस्तुत करती है।
- Rather than merely replicating existing approaches, India should focus on reducing the cost of **quantum infrastructure** and developing practical applications in **health care**, **materials science**, **climate modelling** and **drug discovery**.
  मौजूदा दृष्टिकोणों की केवल नकल करने के बजाय, भारत को **क्वांटम अवसंरचना** की लागत कम करने तथा **स्वास्थ्य सेवा**, **पदार्थ विज्ञान**, **जलवायु मॉडलिंग** और **औषधि खोज** में व्यावहारिक अनुप्रयोग विकसित करने पर ध्यान केंद्रित करना चाहिए।
- The same should extend to **space**.
  यही दृष्टिकोण **अंतरिक्ष क्षेत्र** तक भी विस्तारित होना चाहिए।
- The successes of **Chandrayaan** and **Mangalyaan** proved that **frugal innovation** can coexist with world-class ambition.
  चंद्रयान और **मंगलयान** की सफलताओं ने सिद्ध किया कि **मितव्ययी नवाचार (Frugal Innovation)** और विश्वस्तरीय महत्वाकांक्षा साथ-साथ चल सकते हैं।
- As computing demands escalate globally, concepts such as **space-based data centres** powered by continuous solar energy are attracting serious attention.
  जैसे-जैसे वैश्विक स्तर पर कंप्यूटिंग की मांग बढ़ रही है, **अंतरिक्ष-आधारित डेटा केंद्रों** जैसी अवधारणाएँ, जो निरंतर सौर ऊर्जा से संचालित हों, गंभीर ध्यान आकर्षित कर रही हैं।
- India should not merely participate in these conversations; it should lead them.
  भारत को केवल इन चर्चाओं में भाग नहीं लेना चाहिए, बल्कि उनका नेतृत्व करना चाहिए।
- We should ask bold questions about **orbital computing infrastructure**, **space-based AI platforms** or even **data centres** and **quantum communication networks**.
  हमें **कक्षीय कंप्यूटिंग अवसंरचना (Orbital Computing Infrastructure)**, **अंतरिक्ष-आधारित AI प्लेटफ़ॉर्म**, **डेटा केंद्रों** और **क्वांटम संचार नेटवर्कों** के बारे में साहसिक प्रश्न उठाने चाहिए।
- These ideas may seem futuristic today.
  आज ये विचार भविष्यवादी प्रतीत हो सकते हैं।
- But so did semiconductors, smartphones and AI when they first emerged.
  किन्तु जब सेमीकंडक्टर, स्मार्टफोन और AI पहली बार सामने आए थे, तब वे भी इसी प्रकार भविष्यवादी प्रतीत होते थे।

Stopping too soon
बहुत जल्दी रुक जाना

- The deeper lesson from **SCL**, **ECIL** and **Simputer** is not that India failed, but that it often stopped too soon.
  SCL, **ECIL** और **Simputer** से मिलने वाली गहरी सीख यह नहीं है कि भारत असफल रहा, बल्कि यह है कि भारत अक्सर बहुत जल्दी रुक गया।
- We celebrated **technological capability** before building the ecosystems needed for global scale.
  हमने वैश्विक स्तर के विस्तार हेतु आवश्यक पारिस्थितिकी तंत्र का निर्माण करने से पहले ही **तकनीकी क्षमता** का उत्सव मना लिया।

India's experience in diabetes care could guide other countries: expert

GS III: S&T

Ramya Kannan
CHENNAI

With four decades of diabetes work under its belt, India now has the ability to show other low- and middle-income countries how integrated, low-cost, and tech-enabled solutions can be deployed on the ground to launch effective interventions, according to an article by Chennai-based diabetologist V. Mohan, published in the leading journal *Diabetologia* on June 23.

Striking out for indigenous innovations over a copy-paste model from high income countries, he makes the case for local solutions, integrated diabetes care, and looking at the whole heterogeneity of diabetes.

Dr. Mohan begins with the idea that diabetes in South Asia is not the same as elsewhere. People in this region, he says, develop diabetes at a lower Body Mass Index (BMI), with more visceral fat and greater insulin resistance, indicating the need for region-specific screening and treatment strategies. An important component of these strategies are lifestyle, diet, and environmental factor, particularly the intake of highly refined carbohydrates and low levels of physical activity among the population.

The article advocates local solutions and integrated diabetes care.

The "total diabetes care" model developed at his centre, the Dr. Mohan's Diabetes Specialities Centre in Chennai, is no longer about just testing blood sugar, but looking at the total impact that diabetes has on the human body, and the range of metabolic disorders. There are lessons in this, Dr. Mohan argues, showing that an integrated approach to screening, treatment, education, lab work, eye, kidney, foot, and nutrition services has made care delivery more efficient. This reduces fragmentation of treatment and delays in delivering care.

One of the programme's most valuable interventions for the region is the effort to overcome specialist shortages, by training physicians, diabetes educators, and technicians, using task shifting to make sure the care is extended beyond the tertiary or secondary care settings.

Tech interventions

In the article, Dr. Mohan also recommends the deployment of technology to enable continuity of care, listing an electronic medical record platform, an AI chatbot, a patient app for appointments and results, telemedicine, particularly for ophthalmology, and a physician decision-support tool for classifying diabetes subtypes.

He explains that diabetes care is now moving away from a one-size-fits-all paradigm to a personalised approach based on precision medicine, appreciating that not all individuals with diabetes (or even with the same type of diabetes) are alike, and that they may vary in clinical characteristics, risk of complications and response to different treatments.

24J6. India's experience in diabetes care could guide other countries: expert मधुमेह देखभाल में भारत का अनुभव अन्य देशों का मार्गदर्शन कर सकता है: विशेषज्ञ

- With **four decades of diabetes work** under its belt, **India** now has the ability to show other **low- and middle-income countries** how integrated, low-cost, and technology-enabled solutions can be deployed on the ground to launch effective interventions, according to an article by **diabetologist V. Mohan** published in the leading journal **Diabetologia** on **June 23**.
  मधुमेह प्रबंधन के चार दशकों के अनुभव के साथ **भारत** अब अन्य **निम्न एवं मध्यम आय वाले देशों** को यह दिखाने की क्षमता रखता है कि किस प्रकार समेकित, कम लागत वाले तथा प्रौद्योगिकी-सक्षम समाधान धरातल पर लागू कर प्रभावी हस्तक्षेप किए जा सकते हैं। यह बात **23 जून** को प्रतिष्ठित पत्रिका **डायबेटोलोजिया** में प्रकाशित **मधुमेह विशेषज्ञ वी. मोहन** के लेख में कही गई है।
- Striking out for **indigenous innovations** over a copy-paste model from high-income countries, he makes the case for local solutions, integrated diabetes care, and looking at the whole heterogeneity of diabetes.
  उच्च आय वाले देशों के मॉडल की नकल करने के बजाय वे **स्वदेशी नवाचारों** पर बल देते हैं तथा स्थानीय समाधानों, समेकित मधुमेह देखभाल और मधुमेह की विविध प्रकृतियों को समझने की आवश्यकता पर जोर देते हैं।
- Dr. Mohan begins with the idea that **diabetes in South Asia** is not the same as elsewhere.
  डॉ. मोहन इस विचार से शुरुआत करते हैं कि **दक्षिण एशिया में मधुमेह** की प्रकृति दुनिया के अन्य क्षेत्रों से भिन्न है।
- People in this region, he says, develop diabetes at a lower **Body Mass Index (BMI)**, with more **visceral fat** and greater **insulin resistance**, indicating the need for region-specific screening and treatment strategies.
  उनके अनुसार, इस क्षेत्र के लोगों में अपेक्षाकृत कम **शारीरिक द्रव्यमान सूचकांक** पर ही मधुमेह विकसित हो जाता है, साथ ही उनमें अधिक **आंतरिक वसा** और अधिक **इंसुलिन प्रतिरोध** पाया जाता है, जिससे क्षेत्र-विशिष्ट जाँच और उपचार रणनीतियों की आवश्यकता स्पष्ट होती है।
- An important component of these strategies are **lifestyle, diet, and environmental factors**, particularly the intake of highly refined carbohydrates and low levels of physical activity among the population.
  इन रणनीतियों का एक महत्वपूर्ण भाग **जीवनशैली, आहार और पर्यावरणीय कारक** हैं, विशेषकर अत्यधिक परिष्कृत कार्बोहाइड्रेट का सेवन और जनसंख्या में शारीरिक गतिविधि का निम्न स्तर।
- The **"total diabetes care"** model developed at the **Dr. Mohan's Diabetes Specialities Centre** in **Chennai** is no longer about just testing blood sugar, but looking at the total impact that diabetes has on the human body, and the range of metabolic disorders.
  चेन्नई स्थित **डॉ. मोहन मधुमेह विशिष्टता केंद्र** द्वारा विकसित **"समग्र मधुमेह देखभाल"** मॉडल अब केवल रक्त शर्करा की जाँच तक सीमित नहीं है, बल्कि यह मानव शरीर पर मधुमेह के समग्र प्रभाव और उससे जुड़े विभिन्न चयापचय विकारों का भी मूल्यांकन करता है।
- There are lessons in this, Dr. Mohan argues, showing that an integrated approach to screening, treatment, education, lab work, eye, kidney, foot, and nutrition services has made care delivery more efficient.
  डॉ. मोहन का तर्क है कि इस मॉडल से महत्वपूर्ण सीख मिलती है, क्योंकि जाँच, उपचार, शिक्षा, प्रयोगशाला सेवाएँ, नेत्र, गुर्दा, पैर तथा पोषण सेवाओं को एकीकृत करने से स्वास्थ्य सेवाओं की उपलब्धता अधिक प्रभावी हुई है।
- This reduces fragmentation of treatment and delays in delivering care.
  इससे उपचार की बिखरी हुई व्यवस्था तथा स्वास्थ्य सेवाएँ प्रदान करने में होने वाली देरी कम होती है।
- One of the programme's most valuable interventions for the region is the effort to overcome **specialist shortages**, by training physicians, diabetes educators, and technicians, using **task shifting** to make sure the care is extended beyond the tertiary or secondary care settings.
  इस कार्यक्रम का एक महत्वपूर्ण हस्तक्षेप **विशेषज्ञों की कमी** को दूर करना है। इसके लिए चिकित्सकों, मधुमेह

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

शिक्षकों और तकनीशियनों को प्रशिक्षित किया जाता है तथा **कार्य-वितरण पद्धति** अपनाई जाती है, जिससे सेवाएँ तृतीयक और द्वितीयक स्वास्थ्य केंद्रों से आगे भी पहुँच सकें।

Tech interventions

प्रौद्योगिकी आधारित हस्तक्षेप

- In the article, Dr. Mohan also recommends the deployment of **technology** to enable continuity of care, listing an **electronic medical record platform**, an **AI chatbot**, a patient app for appointments and results, **telemedicine**, particularly for ophthalmology, and a physician decision-support tool for classifying diabetes subtypes.
  अपने लेख में डॉ. मोहन स्वास्थ्य सेवाओं की निरंतरता सुनिश्चित करने के लिए **प्रौद्योगिकी** के उपयोग की भी अनुशंसा करते हैं। इनमें **इलेक्ट्रॉनिक चिकित्सा अभिलेख मंच**, **कृत्रिम बुद्धिमत्ता आधारित संवाद प्रणाली**, नियुक्तियों और परिणामों के लिए रोगी अनुप्रयोग, **दूरचिकित्सा**, विशेषकर नेत्र चिकित्सा के लिए, तथा मधुमेह के विभिन्न उपप्रकारों के वर्गीकरण हेतु चिकित्सकीय निर्णय-सहायता उपकरण शामिल हैं।
- He explains that diabetes care is now moving away from a **one-size-fits-all** paradigm to a **personalised approach** based on **precision medicine**, appreciating that not all individuals with diabetes, or even with the same type of diabetes, are alike.
  वे बताते हैं कि मधुमेह देखभाल अब **सभी के लिए एक समान उपचार** की अवधारणा से आगे बढ़कर **परिशुद्ध चिकित्सा** पर आधारित **व्यक्तिगत उपचार दृष्टिकोण** की ओर अग्रसर हो रही है, क्योंकि सभी मधुमेह रोगी, यहाँ तक कि एक ही प्रकार के मधुमेह वाले व्यक्ति भी, समान नहीं होते।
- And that they may vary in clinical characteristics, risk of complications and response to different treatments.
  उनकी नैदानिक विशेषताएँ, जटिलताओं का जोखिम तथा विभिन्न उपचारों के प्रति प्रतिक्रिया अलग-अलग हो सकती है।

The strange link between AI hallucination and creativity

A setting called temperature governs how adventurous an LLM's outputs are: the higher the temperature, the more likely the model reaches for the less likely options and surprises the user; this is the dial that one turns up when seeking a poem instead of a weather report; the trouble is that the same dial governs hallucinations

GS III: S&T

Viraj Kulkarni

In the prologue to his 1989 book *The Emperor's New Mind*, the Nobel laureate Roger Penrose narrates a story. At a grand public ceremony, an ultimate supercomputer is switched on for the first time before a packed auditorium. It is the most powerful machine ever built, designed to answer any question put to it. The presenter invites the audience to ask its very first question, but no one volunteers. Everyone is afraid of looking foolish before the intelligent machine. Then a young boy named Adam, who has grown up among computers and is not intimidated by them, raises his hand and asks the first question. There the prologue ends on a cliff-hanger. We are never told what the question is.

Penrose used this story to introduce a deeper argument about the limits of computation and the nature of human understanding. He contends that there are truths a formal mathematical machine cannot reach no matter how powerful it becomes.

But reading this story a decade ago, long before ChatGPT or Claude existed, brought a different question to mind: what if the ability to answer every question correctly is not always a virtue? What if some of the qualities we value most, such as imagination and creativity, depend on our ability to venture beyond what is already known?

Today, as we build machines that can answer questions, write essays, generate code, and analyse data, that question feels very relevant.

As AI models are encouraged to be more adventurous, their creativity and hallucinations increase together. AEDRIAN SALAZAR/UNSPLASH

Natural instinct

For all their remarkable capabilities, these systems sometimes make things up. We call this hallucination. Ordinarily, a hallucination means to see or hear something that is not there. In artificial intelligence (AI), a model hallucinates when it produces an answer that sounds plausible but is factually wrong. It may invent a citation, misstate a number, fabricate a legal case, or attribute a quote to the wrong person.

This is not a minor flaw. In medicine, law, finance, science, and journalism, hallucinations can be dangerous. A medical chatbot that invents advice is not being imaginative but unsafe. A legal tool that fabricates case law is being unreliable.

Our natural instinct is to want to eliminate hallucinations but this is harder than it appears. Large language models (LLMs) do not work like databases, storing facts in neat rows and columns, and retrieving the right answer when asked. They are trained on enormous collections of text and learn statistical patterns in language. When prompted, they generate a response by predicting what will come next, one piece at a time.

An LLM generates text one word at a time, each word a probability drawn from patterns it absorbed during training. A setting called the temperature governs how adventurous those draws are. If the temperature is low, the model will pick the safest, most predictable next word and produce an accurate and dull output. If the temperature is higher, the model will reach into the less likely options and begin to surprise you. This is the dial you turn up when you want a poem instead of a weather report.

The trouble is that the same dial governs hallucinations. A 2025 study reported evidence that creativity and hallucination tend to increase together as models are encouraged to be more adventurous and explore regions of lower probabilities. In other words, the model that dares to write something genuinely new is the same model that dares to make something up.

A different 2025 study found that the mechanisms that let these systems produce novel, imaginative text by departing from learned patterns are the same mechanisms that open the door to hallucinations.

It is also easier said than done to simply build a better model that does one without the other. In September 2025, researchers at OpenAI and Georgia Tech argued that hallucinations are not bugs to be patched but a statistical inevitability of how these systems are trained and tested. Models are rewarded, like students in an exam hall, for guessing rather than admitting ignorance. A confident wrong answer may score better than an honest "I don't know".

Scrubbed of surprise

The second study went further, and this is where Penrose returns to the room. Drawing on the foundational theorems of computer science about the limits of computation, laid by the work of Alan Turing and Kurt Gödel, they argued that no computable model can ever be universally correct. There will always be questions on which any given machine must fail. Hallucination, thus seen, is not a flaw in our engineering but a long shadow cast by the limits of computation itself.

Penrose used just this family of ideas to argue that human thinking cannot be reduced to mere computation. Many philosophers and computer scientists think he is wrong but modern researchers are pointing at the same wall from the other side. Penrose said machines are bounded, human minds are not. Modern researchers say machines are bounded, and here is the proof. Both agree that the wall is there.

We are pouring extraordinary effort into making these systems truthful, and we should. But if accuracy and imagination draw from the same well, a machine perfectly scrubbed of error might also be a machine scrubbed of surprise. This may also teach us something about ourselves. Human beings also hallucinate in a softer, broader sense all the time. We imagine futures. We invent stories. We see patterns. We form hypotheses. Much of this is wrong – but some of it becomes science, art, philosophy, and technology. The difference is that human societies developed methods to discipline imagination. Science uses experiments. Journalism uses verification. Philosophy uses argument.

Perhaps AI needs something similar: not a ban on hallucinations but better institutions of verification around it.

(Viraj Kulkarni is an entrepreneur and AI advisor who has been building, deploying, and scaling AI systems since 2012. He studied computer science at University of California, Berkeley. kulkarni.viraj@gmail.com)

THE GIST

For all their remarkable capabilities, AI systems sometimes make things up, called hallucinations

Ordinarily, a hallucination means to see or hear something that is not there

In AI, a model hallucinates when it produces an answer that sounds plausible but is factually wrong

A system may invent a citation, misstate a number, fabricate a legal case, or attribute a quote to the wrong person

But if accuracy and imagination draw from the same well, a machine perfectly scrubbed of error might also be a machine scrubbed of surprise

The difference between AI systems and human societies is that the latter developed methods to discipline imagination: science uses experiments, journalism uses verification and philosophy uses argument

24J6. The strange link between AI hallucination and creativity
एआई मतिभ्रम (Hallucination) और रचनात्मकता के बीच का विचित्र संबंध

- A setting called **temperature** governs how adventurous an **LLM's outputs** are: the higher the **temperature**, the more likely the model reaches for the less likely options and surprises the user; this is the dial that one turns up when seeking a **poem** instead of a **weather report**; the trouble is that the same dial governs **hallucinations**.

- **टेम्परेचर (Temperature)** नामक एक सेटिंग यह निर्धारित करती है कि किसी **एलएलएम (LLM) के आउटपुट** कितने साहसिक या रचनात्मक होंगे: जितना अधिक **टेम्परेचर** होगा, उतनी ही अधिक संभावना होगी कि मॉडल कम संभावित विकल्पों का चयन करे और उपयोगकर्ता को आश्चर्यचकित करे; यही वह नियंत्रण है जिसे **मौसम रिपोर्ट** के बजाय **कविता** प्राप्त करने की इच्छा होने पर बढ़ाया जाता है; समस्या यह है कि यही नियंत्रण **मतिभ्रम (Hallucinations)** को भी नियंत्रित करता है।

- For all their remarkable capabilities, these systems sometimes make things up.
  अपनी सभी उल्लेखनीय क्षमताओं के बावजूद, ये प्रणालियाँ कभी-कभी बातें गढ़ लेती हैं।
- We call this **hallucination**.
  इसे **हैलुसिनेशन (भ्रमात्मक निर्माण)** कहा जाता है।
- Ordinarily, a hallucination means to see or hear something that is not there.
  सामान्यतः, हैलुसिनेशन का अर्थ है ऐसी किसी वस्तु को देखना या सुनना जो वास्तव में वहाँ मौजूद नहीं है।
- In **artificial intelligence (AI)**, a model hallucinates when it produces an answer that sounds plausible but is factually wrong.
  कृत्रिम बुद्धिमत्ता (AI) में, कोई मॉडल तब हैलुसिनेट करता है जब वह ऐसा उत्तर देता है जो सुनने में विश्वसनीय लगे, किन्तु तथ्यात्मक रूप से गलत हो।
- It may invent a citation, misstate a number, fabricate a legal case, or attribute a quote to the wrong person.
  यह किसी संदर्भ का आविष्कार कर सकता है, किसी संख्या को गलत बता सकता है, किसी कानूनी मामले को गढ़ सकता है, अथवा किसी उद्धरण को गलत व्यक्ति से जोड़ सकता है।
- This is not a minor flaw.
  यह कोई छोटी त्रुटि नहीं है।
- In **medicine**, **law**, **finance**, **science**, and **journalism**, hallucinations can be dangerous.
  चिकित्सा, **विधि**, **वित्त**, **विज्ञान** तथा **पत्रकारिता** में हैलुसिनेशन खतरनाक सिद्ध हो सकते हैं।
- A medical chatbot that invents advice is not being imaginative but unsafe.
  एक चिकित्सा चैटबॉट जो सलाह गढ़ता है, वह कल्पनाशील नहीं बल्कि असुरक्षित है।
- A legal tool that fabricates case law is being unreliable.
  एक कानूनी उपकरण जो न्यायिक मामलों को गढ़ता है, वह अविश्वसनीय होता है।
- **Our natural instinct** is to want to eliminate **hallucinations** but this is harder than it appears.
  हमारी स्वाभाविक प्रवृत्ति हैलुसिनेशन को समाप्त करने की होती है, किन्तु यह कार्य जितना दिखाई देता है उससे अधिक कठिन है।
- Large language models (**LLMs**) do not work like databases, storing facts in neat rows and columns, and retrieving the right answer when asked.
  लार्ज लैंग्वेज मॉडल्स (LLMs) डेटाबेस की तरह कार्य नहीं करते, जो तथ्यों को सुव्यवस्थित पंक्तियों और स्तंभों में संग्रहित करते हैं तथा पूछे जाने पर सही उत्तर निकालते हैं।
- They are trained on enormous collections of text and learn statistical patterns in language.
  उन्हें विशाल मात्रा में पाठ-संग्रहों पर प्रशिक्षित किया जाता है और वे भाषा में मौजूद सांख्यिकीय प्रतिरूपों को सीखते हैं।
- When prompted, they generate a response by predicting what will come next, one piece at a time.
  जब उन्हें कोई संकेत दिया जाता है, तो वे एक-एक भाग करके यह अनुमान लगाते हुए उत्तर उत्पन्न करते हैं कि आगे क्या आएगा।
- An **LLM** generates text one word at a time, each word a probability drawn from patterns it absorbed during training.
  एक **LLM** एक समय में एक शब्द उत्पन्न करता है, जहाँ प्रत्येक शब्द उस प्रशिक्षण के दौरान सीखे गए प्रतिरूपों से प्राप्त संभावनाओं पर आधारित होता है।

PATRIOTIC IAS

- A setting called the **temperature** governs how adventurous those draws are.
  टेम्परेचर नामक एक सेटिंग यह नियंत्रित करती है कि ये चयन कितने साहसिक होंगे।
- If the temperature is low, the model will pick the safest, most predictable next word and produce an accurate and dull output.
  यदि टेम्परेचर कम हो, तो मॉडल सबसे सुरक्षित और सर्वाधिक अनुमानित अगले शब्द का चयन करेगा तथा एक सटीक किन्तु नीरस परिणाम उत्पन्न करेगा।
- If the temperature is higher, the model will reach into the less likely options and begin to surprise you.
  यदि टेम्परेचर अधिक हो, तो मॉडल कम संभावित विकल्पों की ओर बढ़ेगा और आपको आश्चर्यचकित करना आरम्भ कर देगा।
- This is the dial you turn up when you want a poem instead of a weather report.
  यह वही नियंत्रण है जिसे आप तब बढ़ाते हैं जब आपको मौसम रिपोर्ट के स्थान पर कोई कविता चाहिए होती है।
- The trouble is that the same dial governs **hallucinations**.
  समस्या यह है कि यही नियंत्रण **हैलुसिनेशन** को भी प्रभावित करता है।
- A 2025 study reported evidence that **creativity** and **hallucination** tend to increase together as models are encouraged to be more adventurous and explore regions of lower probabilities.
  वर्ष 2025 के एक अध्ययन ने प्रमाण प्रस्तुत किया कि **रचनात्मकता** और **हैलुसिनेशन** साथ-साथ बढ़ने की प्रवृत्ति रखते हैं, जब मॉडलों को अधिक साहसी बनने और कम संभावनाओं वाले क्षेत्रों का अन्वेषण करने के लिए प्रोत्साहित किया जाता है।
- In other words, the model that dares to write something genuinely new is the same model that dares to make something up.
  दूसरे शब्दों में, जो मॉडल वास्तव में कुछ नया लिखने का साहस करता है, वही मॉडल कुछ गढ़ने का साहस भी करता है।
- A different 2025 study found that the mechanisms that let these systems produce novel, imaginative text by departing from learned patterns are the same mechanisms that open the door to **hallucinations**.
  वर्ष 2025 के एक अन्य अध्ययन में पाया गया कि वे तंत्र, जो इन प्रणालियों को सीखे हुए प्रतिरूपों से हटकर नवीन और कल्पनाशील पाठ उत्पन्न करने में सक्षम बनाते हैं, वही तंत्र **हैलुसिनेशन** के लिए भी द्वार खोलते हैं।
- It is also easier said than done to simply build a better model that does one without the other.
  ऐसा बेहतर मॉडल बनाना, जो एक कार्य करे और दूसरे से बचे रहे, कहना जितना आसान है, करना उतना नहीं।
- In September 2025, researchers at **OpenAI** and **Georgia Tech** argued that hallucinations are not bugs to be patched but a statistical inevitability of how these systems are trained and tested.
  सितम्बर 2025 में **OpenAI** और **Georgia Tech** के शोधकर्ताओं ने तर्क दिया कि हैलुसिनेशन कोई ऐसी त्रुटि नहीं है जिसे केवल ठीक किया जा सके, बल्कि यह इन प्रणालियों के प्रशिक्षण और परीक्षण की सांख्यिकीय अनिवार्यता है।
- Models are rewarded, like students in an exam hall, for guessing rather than admitting ignorance.
  मॉडलों को, परीक्षा कक्ष में बैठे विद्यार्थियों की तरह, अज्ञान स्वीकार करने के बजाय अनुमान लगाने के लिए पुरस्कृत किया जाता है।
- A confident wrong answer may score better than an honest "I don't know".
  एक आत्मविश्वासपूर्ण गलत उत्तर, ईमानदारी से कहे गए "मुझे नहीं पता" की तुलना में बेहतर अंक प्राप्त कर सकता है।

Scrubbed of surprise
आश्चर्य से रहित

- **Hallucination**, thus seen, is not a flaw in our engineering but a long shadow cast by the limits of computation itself.

इस दृष्टि से **हैलुसिनेशन** हमारी अभियांत्रिकी की त्रुटि नहीं, बल्कि स्वयं गणना की सीमाओं द्वारा डाली गई एक लंबी छाया है।

- **Penrose** used just this family of ideas to argue that human thinking cannot be reduced to mere computation.
  पेनरोज़ ने इसी प्रकार के विचारों का उपयोग यह तर्क देने के लिए किया कि मानवीय चिंतन को केवल गणना तक सीमित नहीं किया जा सकता।
- Human beings also hallucinate in a softer, broader sense all the time.
  मानव भी एक व्यापक और अपेक्षाकृत सौम्य अर्थ में निरंतर हैलुसिनेट करते रहते हैं।
- We imagine futures.
  हम भविष्य की कल्पना करते हैं।
- We invent stories.
  हम कहानियाँ गढ़ते हैं।
- We see patterns.
  हम प्रतिरूपों को पहचानते हैं।
- We form hypotheses.
  हम परिकल्पनाएँ बनाते हैं।
- Much of this is wrong — but some of it becomes **science**, **art**, **philosophy**, and **technology**.
  इनमें से बहुत कुछ गलत होता है — किन्तु कुछ भाग **विज्ञान**, **कला**, **दर्शनशास्त्र** और **प्रौद्योगिकी** का रूप ले लेता है।
- The difference is that human societies developed methods to discipline imagination.
  अंतर यह है कि मानव समाजों ने कल्पनाशीलता को अनुशासित करने के लिए विधियाँ विकसित की हैं।
- **Science** uses experiments.
  विज्ञान प्रयोगों का उपयोग करता है।
- **Journalism** uses verification.
  पत्रकारिता सत्यापन का उपयोग करती है।
- **Philosophy** uses argument.
  दर्शनशास्त्र तर्क का उपयोग करता है।
- Perhaps **AI** needs something similar: not a ban on hallucinations but better institutions of verification around it.
  संभवतः **AI** को भी कुछ ऐसा ही चाहिए: हैलुसिनेशन पर पूर्ण प्रतिबंध नहीं, बल्कि उसके आसपास बेहतर **सत्यापन संस्थाएँ**।

Hallucinations (Medical Context)
A **hallucination** is a sensory experience in which a person **sees, hears, smells, tastes, or feels something that is not actually present**.
In simple words:
A person experiences something as real even though there is no external stimulus causing it.
The person is often convinced that the experience is real.

Examples of Hallucinations
Auditory Hallucinations (Hearing Things)
• Hearing voices when nobody is speaking.
• Hearing music, sounds, or conversations that are not present.
Example:
A person may hear someone calling their name repeatedly when nobody is around.
Visual Hallucinations (Seeing Things)
• Seeing people, animals, lights, or objects that are not actually there.
Example:
An elderly person may see a stranger standing in the room when the room is empty.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

Olfactory Hallucinations (Smelling Things)
• Smelling odors that do not exist.
Example:
Smelling smoke or burning rubber when nothing is burning.
Gustatory Hallucinations (Tasting Things)
• Experiencing unusual tastes without any food or drink.
Tactile Hallucinations (Feeling Things)
• Feeling insects crawling on the skin.
• Feeling someone touching the body when nobody is present.

Common Medical Causes
Psychiatric Disorders
• Schizophrenia
• Severe depression with psychotic features.
• Bipolar disorder during severe manic or depressive episodes.
Neurological Disorders
• Parkinson's Disease
• Alzheimer's Disease
• Epilepsy.
• Brain tumors.
• Stroke.
Sleep-Related Causes
• Sleep deprivation.
• Hallucinations while falling asleep (**hypnagogic hallucinations**).
• Hallucinations while waking up (**hypnopompic hallucinations**).
Substance Use
• Alcohol withdrawal.
• Certain recreational drugs.
• Some medications.
Medical Conditions
• High fever.
• Severe infections.
• Delirium.
• Liver failure.
• Kidney failure.
• Electrolyte imbalances.

Hallucination vs Delusion
Many people confuse these two terms.

Hallucination	Delusion
False sensory experience	False belief
Person hears, sees, smells, tastes, or feels something unreal	Person strongly believes something untrue
"I hear voices."	"The government is secretly monitoring me."

Carbon isotopes: clocks of sorts

GS III: S&T

Reuters

Scientists studying the comet 3I/ATLAS have determined that this interstellar visitor formed an estimated 12 billion years ago in a primordial planetary system, and has a composition unlike anything in our solar system.

An evaluation of the chemical make-up of 3I/ATLAS, only the third interstellar object ever spotted in the solar system, provided guidance about the physical and chemical conditions in the planetary system where it formed, the researchers said.

They added that 3I/ATLAS appears to have been born in a much colder environment (-243C) than the one in which the earth and other bodies in our solar system formed roughly 4.5 billion years ago. They said it has travelled a vast distance since it was somehow expelled from its home planetary system.

The researchers measured the ratio of isotopes — different versions of chemical elements such as hydrogen and carbon — observed on 3I/ATLAS using the James Webb Space Telescope.

Its hydrogen isotopes offered evidence about temperature and radiation in the environment in which 3I/ATLAS formed. Its carbon isotope ratios offered clues about the composition of the interstellar gas cloud that gave rise to 3I/ATLAS and its home planetary system.

The Hubble telescope's image of the interstellar comet 3I/ATLAS on July 21, 2025, when the comet was 446 million km from the earth. NASA

The carbon composition indicated 3I/ATLAS formed some 12 billion years ago during a period of intense star formation in its region. The universe is thought to have begun with the Big Bang event 13.8 billion years ago, so 3I/ATLAS would date to a time when the cosmos was only around 13% of its current age.

India's patchy industrial climate strategy

GS III: Environment

Shifali Goyal

Research Associate, Centre for Social and Economic Progress and PhD Scholar, Indian Institute of Foreign Trade (IIFT)

Debashis Chakraborty

Professor, IIFT Kolkata. Views are personal

The inevitable conclusion emerging from the ambitious targets set up by the government's Make-in-India, Viksit Bharat (2047) and net-zero emissions (2070) commitments is that industrial decarbonisation is central to India's long-term climate goals.

As the economy grows, both existing and emerging manufacturing segments expand, fuelling a steep rise in energy demand. Balancing this industrial growth on the one hand and population-driven consumption demand on the other with national emission reduction objectives requires highly targeted policies. The recently submitted First Biennial Transparency Report (BTR1) by India to the United Nations Framework Convention on Climate Change provides a detailed account of national emissions. The report discloses that in 2022, over 20% of India's total emissions stemmed directly from the industrial sector. Specifically, it shows that the fuel consumption in manufacturing industries and construction accounts for 13% of total emissions, while industrial processes and product use accounts for another 9%. This clearly demonstrates how much manufacturing activities contribute to the overall carbon footprint, a trend that has remained consistent over time.

Mitigation planning

To mitigate industrial emissions and energy consumption, the government has relied on two major market-based mechanisms. The BTR1 acknowledges the Perform, Achieve and Trade (PAT) scheme as a primary initiative, which aims to reduce specific energy consumption across 13 energy-intensive industries. PAT is now transitioning to the Carbon Credit Trading Scheme (CCTS), which focuses on reducing the emission intensity of nine industrial sectors, including aluminium, cement, fertilizers, iron and steel, petrochemicals, petroleum refining, pulp and paper, textiles, and chlor-alkali. The other four industries, which include thermal power plants, railways, DISCOMs and commercial buildings, will continue under the PAT scheme.

While these schemes set benchmarks, encourage energy efficiency, and reduce emission intensity, there is a clear gap in how mitigation planning is envisioned across Indian industries. These policies are designed almost entirely for well-defined, traditional heavy-emitting sectors such as cement, steel, fertilizers, refineries, and textiles. However, they de facto overlook a massive proportion of industrial emissions, specifically those generated by fuel consumption in, what India's emission inventory classifies as, "non-specific industries".

A careful analysis of emissions data for India's manufacturing industries and construction sector for the latest reported year, 2020, reveals a crucial puzzle that needs to be solved urgently. The explicitly specified major industrial sectors accounted for slightly more than 55% of the total emissions generated from manufacturing industries and construction. Conversely, more than 40% of those sectoral emissions were caused by the "non-specific industries" category alone. A similar pattern has been seen in 2014, 2016, and 2019 as well, as per the detailed emission inventory available on NITI Aayog's India Climate and Energy Dashboard. To sum up, the classification of sectors in India's emission inventory reflects that a surprisingly large volume of emissions falls under a single, vague heading of "non-specific industries".

The point of concern is that the scope of mitigation policies in India has relied on an enforcement and incentive-based structure around specific, identifiable sectors. For instance, some of the explicitly identified sectors in the emission inventory, such as power, cement, non-ferrous metals, chemicals, and textiles, are covered by mitigation measures such as PAT and CCTS. Yet, a major part of industrial emissions remains in an administrative grey area, with serious implications for India's broader industrial climate strategy. As this 40% block lacks specific sub-sectoral definitions, the various industries clustered therein effectively fall outside the primary scope of both PAT and CCTS. They are not subject to the same energy efficiency mandates or emission-reduction targets as industries such as steel or cement, despite their contributions to the emissions load. This policy gap keeps a significant portion of the country's industrial base out of the green transition.

Balancing industrial growth on the one hand and population-driven consumption demand on the other with national emission reduction objectives requires highly targeted policies

Need to identify industries

For India to successfully decouple its industrial growth from greenhouse gas emissions, the next phase of its national climate strategy needs more transparent, disaggregated data. This must begin with breaking down the existing "non-specific industries" in the emission inventory. For timely realisation of the net-zero emissions target, policymakers need to urgently focus on identifying exactly which sub-sectors contribute to these 40% emissions, how their specific energy consumption patterns are evolving, and the part in the process chain where emissions are primarily concentrated.

Transparency in climate reporting is often framed as an international obligation, a way to prove to the world that a nation is effectively traversing the path for honouring its pledges. But the real value of transparency is deeply domestic. It provides policymakers with an appropriate level of clarity to monitor exactly where the interventions are heading and where there is scope for course correction. Therefore, to build a low-carbon economy, exact knowledge on these passive outliers is non-negotiable.

24J6. India's patchy industrial climate strategy
भारत की खंडित औद्योगिक जलवायु रणनीति

- The recently submitted **First Biennial Transparency Report (BTR1)** by India to the **United Nations Framework Convention on Climate Change** provides a detailed account of national emissions.
  भारत द्वारा हाल ही में **संयुक्त राष्ट्र जलवायु परिवर्तन रूपरेखा अभिसमय (UNFCCC)** को प्रस्तुत की गई **प्रथम द्विवार्षिक पारदर्शिता रिपोर्ट (BTR1)** राष्ट्रीय उत्सर्जनों का विस्तृत विवरण प्रस्तुत करती है।
- The report discloses that in **2022**, over **20%** of India's total emissions stemmed directly from the **industrial sector**.

रिपोर्ट के अनुसार, **2022** में भारत के कुल उत्सर्जन का **20% से अधिक** भाग सीधे **औद्योगिक क्षेत्र** से उत्पन्न हुआ।

- Specifically, it shows that the fuel consumption in manufacturing industries and construction accounts for **13%** of total emissions, while **industrial processes and product use** accounts for another **9%**.
  विशेष रूप से, रिपोर्ट दर्शाती है कि विनिर्माण उद्योगों और निर्माण गतिविधियों में ईंधन की खपत कुल उत्सर्जन का **13%** योगदान देती है, जबकि **औद्योगिक प्रक्रियाएँ एवं उत्पाद उपयोग** अतिरिक्त **9%** उत्सर्जन के लिए उत्तरदायी हैं।
- The **BTR1** acknowledges the **Perform, Achieve and Trade (PAT)** scheme as a primary initiative, which aims to reduce specific energy consumption across **13 energy-intensive industries**.
  BTR1 ने **परफॉर्म, अचीव एंड ट्रेड (PAT)** योजना को एक प्रमुख पहल के रूप में मान्यता दी है, जिसका उद्देश्य **13 ऊर्जा-गहन उद्योगों** में विशिष्ट ऊर्जा खपत को कम करना है।
- **PAT** is now transitioning to the **Carbon Credit Trading Scheme (CCTS)**, which focuses on reducing the **emission intensity** of nine industrial sectors, including **aluminium, cement, fertilizers, iron and steel, petrochemicals, petroleum refining, pulp and paper, textiles, and chlor-alkali**.
  PAT अब **कार्बन क्रेडिट ट्रेडिंग स्कीम (CCTS)** में परिवर्तित हो रही है, जिसका ध्यान **उत्सर्जन तीव्रता (Emission Intensity)** को कम करने पर है। इसमें **एल्यूमिनियम, सीमेंट, उर्वरक, लौह एवं इस्पात, पेट्रोकेमिकल्स, पेट्रोलियम परिशोधन, पल्प एवं पेपर, वस्त्र तथा क्लोर-अल्कली** सहित नौ औद्योगिक क्षेत्र शामिल हैं।
- The other four industries, which include **thermal power plants, railways, DISCOMs and commercial buildings**, will continue under the **PAT scheme**.
  अन्य चार क्षेत्र, जिनमें **तापीय विद्युत संयंत्र, रेलवे, डिस्कॉम तथा वाणिज्यिक भवन** शामिल हैं, **PAT योजना** के अंतर्गत ही बने रहेंगे।

Need to identify industries
उद्योगों की पहचान की आवश्यकता

- A similar pattern has been seen in **2014, 2016, and 2019** as well, as per the detailed emission inventory available on **NITI Aayog's India Climate and Energy Dashboard**.
  नीति आयोग के इंडिया क्लाइमेट एंड एनर्जी डैशबोर्ड पर उपलब्ध विस्तृत उत्सर्जन सूची के अनुसार, **2014, 2016 और 2019** में भी इसी प्रकार की प्रवृत्ति देखी गई थी।
- For instance, some of the explicitly identified sectors in the emission inventory, such as **power, cement, non-ferrous metals, chemicals, and textiles**, are covered by mitigation measures such as **PAT** and **CCTS**.
  उदाहरण के लिए, उत्सर्जन सूची में स्पष्ट रूप से पहचाने गए कुछ क्षेत्र, जैसे **विद्युत, सीमेंट, अलौह धातुएँ, रसायन तथा वस्त्र उद्योग**, **PAT** और **CCTS** जैसी शमन योजनाओं के अंतर्गत आते हैं।
- They are not subject to the same **energy efficiency mandates** or **emission-reduction targets** as industries such as steel or cement, despite their contributions to the emissions load.
  उत्सर्जन में महत्वपूर्ण योगदान देने के बावजूद, इन उद्योगों पर इस्पात या सीमेंट उद्योगों की तरह समान **ऊर्जा दक्षता संबंधी अनिवार्यताएँ** या **उत्सर्जन-न्यूनन लक्ष्य** लागू नहीं होते।
- Transparency in **climate reporting** is often framed as an international obligation, a way to prove to the world that a nation is effectively traversing the path for honouring its pledges.
  जलवायु रिपोर्टिंग में पारदर्शिता को प्रायः एक अंतरराष्ट्रीय दायित्व के रूप में देखा जाता है, जिसके माध्यम से यह प्रदर्शित किया जाता है कि कोई राष्ट्र अपनी प्रतिबद्धताओं को पूरा करने के मार्ग पर प्रभावी रूप से आगे बढ़ रहा है।

Manipur govt. may go soft on Arambai Tenggol members

GS III: Internal Security

The Hindu Bureau
GUWAHATI

The Manipur government may be lenient towards members of Arambai Tenggol, a radical group, while going hard at those who looted arms from police facilities soon after the ethnic conflict erupted in May 2023, State's Home Minister Govindas Konthoujam indicated on Tuesday.

Speaking on the sidelines of an event in Imphal, he said the government was trying to avoid arresting members of Arambai Tenggol, the outfit at the forefront of the ethnic conflict in the State, before the imposition of President's Rule in February 2025. He, however, asserted that there would be no let-up in the drive to recover illegally held arms and restore normality in Manipur.

Plea to surrender arms

More than 5,600 firearms, including INSAS and AK-series rifles, and 500,000 rounds of ammunition were looted from State armouries and police stations in the State in 2023. The groups accused of looting them included the Arambai Tenggol.

"Discussions have been held with the Director General of Police regarding the ongoing operations linked to the group. We have appealed to individuals and armed groups still holding such weapons to surrender them voluntarily so that

Govindas Konthoujam

further arrests can be avoided," Mr. Konthoujam said. De-weaponisation was necessary for lasting peace to return to Manipur, he said.

Continuing strife

Three major communities – Meitei, Naga, and Kuki-Zo, inhabit Manipur. The State has virtually been partitioned among these communities since the ethnic strife began in 2023.

Mr. Konthoujam appealed to the people of Imphal Valley to refrain from activities that could stoke unrest. His appeal followed protests by women across the valley, demanding the release of three Arambai Tenggol members arrested by the National Investigation Agency during the intervening night of June 19 and 20.

Members of Meira Paibi, an all-women civil society organisation, claimed that members of Arambai Tenggol undertook self-defence measures during a critical period when the government was unable to provide security to civilians.

24J6. Manipur govt. may go soft on Arambai Tenggol members

मणिपुर सरकार अरामबाई तेंगोल के सदस्यों के प्रति नरम रुख अपना सकती है

- The **Manipur government** may be lenient towards members of **Arambai Tenggol**, a radical group, while going hard at those who looted arms from police facilities soon after the ethnic conflict erupted in **May 2023**, State's Home Minister **Govindas Konthoujam** indicated on Tuesday.

मणिपुर सरकार उग्रवादी संगठन **अरम्बाई तेंगोल** के सदस्यों के प्रति कुछ नरम रुख अपना सकती है, जबकि **मई 2023** में जातीय संघर्ष शुरू होने के तुरंत बाद पुलिस प्रतिष्ठानों से हथियार लूटने वालों के विरुद्ध कड़ी कार्रवाई जारी रख सकती है। यह संकेत राज्य के गृह मंत्री **गोविंददास कोंथौजाम** ने मंगलवार को दिया।

- State, before the imposition of **President's Rule** in **February 2025**.

इम्फाल में एक कार्यक्रम के दौरान उन्होंने कहा कि सरकार **फरवरी 2025** में **राष्ट्रपति शासन** लागू होने से पहले राज्य के जातीय संघर्ष में अग्रणी भूमिका निभाने वाले संगठन **अरम्बाई तेंगोल** के सदस्यों की गिरफ्तारी से बचने का प्रयास कर रही है।

- More than **5,600 firearms**, including **INSAS** and **AK-series rifles**, and **500,000 rounds of ammunition** were looted from State armouries and police stations in the State in **2023**.

2023 में राज्य के शस्त्रागारों और पुलिस थानों से **5,600 से अधिक आग्नेयास्त्र**, जिनमें **इंसास** तथा **एके-श्रेणी की राइफलें** शामिल थीं, और लगभग **पाँच लाख कारतूस** लूट लिए गए थे।

- Three major communities — **Meitei, Naga, and Kuki-Zo** — inhabit Manipur.

मणिपुर में तीन प्रमुख समुदाय — **मैतेई, नागा और कुकी-ज़ो** — निवास करते हैं।

- The State has virtually been partitioned among these communities since the ethnic strife began in **2023**.

2023 में जातीय संघर्ष शुरू होने के बाद से राज्य व्यवहारिक रूप से इन समुदायों के बीच विभाजित हो गया है।

- Members of **Meira Paibi**, an all-women civil society organisation, claimed that members of **Arambai Tenggol** undertook self-defence measures during a critical period when the government was unable to provide security to civilians.

मेइरा पैबी, जो महिलाओं का एक नागरिक संगठन है, के सदस्यों ने दावा किया कि **अरम्बाई तेंगोल** के सदस्यों ने उस कठिन अवधि में आत्मरक्षा के उपाय किए थे जब सरकार नागरिकों को सुरक्षा प्रदान करने में असमर्थ थी।

Ban on Telegram stretched meaning of 'information' under the IT Act

GS III: Internal Security

NEWS ANALYSIS

Krishnadas Rajagopal
NEW DELHI

The Union government temporarily blocked Telegram to protect the sanctity of the NEET (UG) re-test by a single interpretative sleight of hand which compressed an entire intermediary platform into an expression: "information".

The ban won the endorsement of the Delhi High Court by stretching the meaning of "information" under the Information Technology (IT) Act, 2000.

Section 2(1)(v) of the Act had traditionally defined "information" in diminutive units, including data, messages, text, image, sound, voice, codes, computer programme, software, and databases. The Telegram ban changed that legal interpretation.

The government argued that an online platform like Telegram was an "aggregation" or "compilation" of these units. By reading entire platforms run by companies, which were legal entities by their own nature, within the ambit of 'information' under the Act, the government has effectively weaponised the content-blocking provision of Section 69A.

Section 69A of the IT Act gives the government power to issue directions to block public access to any 'information' through a computer resource. Here, the interpretation of the Centre has led to the successful replacement of the word 'information' with an 'entire intermediary platform'.

The High Court, in its June 19 order, endorsed the Centre's view that the "blocking power under Section 69A of the IT Act extends beyond individual pieces of content and, having regard to its wide legislative scope, encompasses the software architecture, codebase, databases, and programmatic ecosystem constituting an application".

The ban won the endorsement of the Delhi High Court.

Telegram had not accepted the "expansive" interpretation of the term "information" while noting that the government, acting through Section 69A, could only block access to "specific information".

Such a sweeping ban had disproportionately affected the very section it deemed to protect. Many of the 150 million Telegram users were students and educators who used the platform to share study material and educational resources for NEET preparation.

The platform's arguments are backed by the Supreme Court's judgment in the *Anuradha Bhasin* case on digital freedoms, holding that restrictions on fundamental rights must be proportionate and only the least restrictive measure must be employed.

Access to app restored

Access to Telegram resumed on Tuesday after a week-long blocking order expired. The platform had approached the Delhi High Court seeking a stay on the order, but the court held that the blocking direction was proportionate.

24J6. Ban on Telegram stretched meaning of 'information' under the IT Act
टेलीग्राम पर प्रतिबंध ने आईटी अधिनियम के तहत 'सूचना' के अर्थ का विस्तार कर दिया

  केंद्र सरकार ने **नीट (स्नातक) पुनर्परीक्षा** की निष्पक्षता बनाए रखने के उद्देश्य से **टेलीग्राम** को अस्थायी रूप से अवरुद्ध कर दिया। इसके लिए एक ऐसी व्याख्या अपनाई गई जिसमें पूरे मध्यस्थ मंच को **"सूचना"** की संज्ञा दे दी गई।
- The ban won the endorsement of the **Delhi High Court** by stretching the meaning of **"information"** under the **Information Technology Act, 2000**.
  इस प्रतिबंध को **दिल्ली उच्च न्यायालय** का समर्थन प्राप्त हुआ, क्योंकि **सूचना प्रौद्योगिकी अधिनियम, 2000** के अंतर्गत **"सूचना"** शब्द की व्याख्या का विस्तार किया गया।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- Section **2(1)(v)** of the Act had traditionally defined **"information"** in diminutive units, including **data, messages, text, image, sound, voice, codes, computer programme, software, and databases**.
  अधिनियम की **धारा 2(1)(v)** में परंपरागत रूप से **"सूचना"** को छोटे-छोटे घटकों के रूप में परिभाषित किया गया था, जिनमें **आँकड़े, संदेश, पाठ, चित्र, ध्वनि, आवाज़, कूट संकेत, संगणक कार्यक्रम, सॉफ़्टवेयर तथा आँकड़ा-संग्रह** शामिल हैं।
- The Telegram ban changed that legal interpretation.
  टेलीग्राम पर प्रतिबंध ने इस कानूनी व्याख्या को बदल दिया।
- The government argued that an online platform like **Telegram** was an **"aggregation"** or **"compilation"** of these units.
  सरकार का तर्क था कि **टेलीग्राम** जैसे ऑनलाइन मंच इन सभी घटकों का एक **"संकलन"** अथवा **"समूह"** है।
- By reading entire platforms run by companies, which were legal entities by their own nature, within the ambit of **'information'** under the Act, the government has effectively weaponised the content-blocking provision of **Section 69A**.
  कंपनियों द्वारा संचालित संपूर्ण मंचों, जो स्वयं स्वतंत्र विधिक संस्थाएँ हैं, को **'सूचना'** की परिधि में शामिल करके सरकार ने प्रभावी रूप से **धारा 69ए** के अंतर्गत सामग्री अवरोधन की शक्ति का व्यापक उपयोग किया है।
- **Section 69A** of the **IT Act** gives the government power to issue directions to block public access to any **'information'** through a computer resource.
  सूचना प्रौद्योगिकी अधिनियम की **धारा 69ए** सरकार को किसी भी **'सूचना'** तक सार्वजनिक पहुँच को संगणक संसाधन के माध्यम से अवरुद्ध करने का अधिकार प्रदान करती है।
- Here, the interpretation of the Centre has led to the successful replacement of the word **'information'** with an **'entire intermediary platform'**.
  यहाँ केंद्र की व्याख्या ने **'सूचना'** शब्द का स्थान प्रभावी रूप से **'संपूर्ण मध्यस्थ मंच'** से प्रतिस्थापित कर दिया है।
- The **High Court**, in its **June 19 order**, endorsed the Centre's view that the **"blocking power under Section 69A of the IT Act extends beyond individual pieces of content and, having regard to its wide legislative scope, encompasses the software architecture, codebase, databases, and programmatic ecosystem constituting an application"**.
  उच्च न्यायालय ने अपने **19 जून के आदेश** में केंद्र के इस दृष्टिकोण का समर्थन किया कि **"सूचना प्रौद्योगिकी अधिनियम की धारा 69ए के अंतर्गत अवरोधन की शक्ति केवल व्यक्तिगत सामग्री तक सीमित नहीं है, बल्कि इसके व्यापक विधायी दायरे को देखते हुए यह किसी अनुप्रयोग की सॉफ़्टवेयर संरचना, कोड आधार, आँकड़ा-संग्रह तथा प्रोग्रामगत पारिस्थितिकी तंत्र को भी समाहित करती है।"**
- **Telegram** had not accepted the **"expansive"** interpretation of the term **"information"** while noting that the government, acting through **Section 69A**, could only block access to **"specific information"**.
  टेलीग्राम ने **"सूचना"** शब्द की इस **विस्तृत व्याख्या** को स्वीकार नहीं किया और कहा कि सरकार **धारा 69ए** के अंतर्गत केवल **"विशिष्ट सूचना"** तक पहुँच को ही अवरुद्ध कर सकती है।
- Such a sweeping ban had disproportionately affected the very section it deemed to protect.
  इस प्रकार के व्यापक प्रतिबंध का प्रतिकूल प्रभाव उन्हीं लोगों पर पड़ा, जिनकी सुरक्षा का दावा किया गया था।
- Many of the **150 million Telegram users** were students and educators who used the platform to share study material and educational resources for **NEET preparation**.
  15 करोड़ टेलीग्राम उपयोगकर्ताओं में बड़ी संख्या विद्यार्थियों और शिक्षकों की थी, जो **नीट की तैयारी** के लिए अध्ययन सामग्री और शैक्षिक संसाधनों का आदान-प्रदान करते थे।
- The platform's arguments are backed by the **Supreme Court's judgment** in the **Anuradha Bhasin case** on digital freedoms, holding that restrictions on fundamental rights must be **proportionate** and only the **least restrictive measure** must be employed.
  मंच के तर्कों को **अनुराधा भसीन मामले** में **सर्वोच्च न्यायालय** के निर्णय का समर्थन प्राप्त है, जिसमें कहा गया था कि मौलिक अधिकारों पर लगाए गए प्रतिबंध **अनुपातिक** होने चाहिए तथा केवल **न्यूनतम आवश्यक प्रतिबंधात्मक उपाय** ही अपनाए जाने चाहिए।

GS Paper IV: Ethics	24 June 2026
TOPICS COVERED	
24J6	The ultimate authority सर्वोच्च प्राधिकरण

FAITH
GS IV: Ethics

The ultimate authority

To attain moksha we must adhere to dharma, said Paravastu Varadarajan in a discourse. But what is dharma? What is adharma? Suppose two boys in a family are always quarrelling with each other. Their mother warns them that if they do not stop fighting, she will not give them a sweet she has made. If they still continue to fight, she will withhold the sweet. If she doesn't discipline them, there will be no peace in the family. A family has its rules, one of which is that everyone must be on friendly terms with each other. Likewise, a school has its rules. So everywhere there are rules, and not all of them are the same. A student has to wear a uniform when he goes to school, but he does not have to at other times. Two men fighting with each other in a family is wrong. But men fighting in an army against an enemy are respected. Dharma, or what is right keeps changing depending on the situation. So how do we know what dharma is?

Lord Krishna says in the Bhagavad Gita that Sastras are the pramana. The rules laid down by them must be followed. "*Tasmaat sastram pramaanam*," says Krishna to Arjuna. The scriptures are the authority that help us know what we should do (*kaarya*) and what we should not do (*akaarya*). If the Sastras ask us to do something, that is dharma. If they forbid us from doing something, that which is forbidden is adharma. But what are Sastras? Although there is a lot of sacred literature, Vedas are the ultimate authority. It is said *shaasanaath sastram*. *Shaasana* means command. The Vedas command us to do certain things and to avoid certain things. The Vedas are the Sastra that we should follow.

24J6. The ultimate authority
सर्वोच्च प्राधिकरण

- A family has its rules, one of which is that everyone must be on friendly terms with each other.
  एक परिवार के अपने नियम होते हैं, जिनमें से एक यह है कि सभी सदस्य आपस में सौहार्दपूर्ण संबंध बनाए रखें।
- Likewise, a school has its rules.
  इसी प्रकार, एक विद्यालय के भी अपने नियम होते हैं।
- So everywhere there are rules, and not all of them are the same.
  अतः हर स्थान पर नियम होते हैं, और वे सभी समान नहीं होते।
- A student has to wear a uniform when he goes to school, but he does not have to at other times.
  एक विद्यार्थी को विद्यालय जाते समय वर्दी पहननी होती है, परंतु अन्य समय ऐसा करना आवश्यक नहीं होता।
- Two men fighting with each other in a family is wrong.
  एक परिवार में दो व्यक्तियों का आपस में लड़ना अनुचित है।
- But men fighting in an army against an enemy are respected.
  किन्तु सेना में शत्रु के विरुद्ध युद्ध करने वाले सैनिक सम्मानित होते हैं।
- **Dharma**, or what is right, keeps changing depending on the situation.
  धर्म, अर्थात् जो उचित है, परिस्थितियों के अनुसार बदलता रहता है।
- So how do we know what **dharma** is?
  तो फिर हम कैसे जानें कि **धर्म** क्या है?
- **Lord Krishna** says in the **Bhagavad Gita** that **Sastras** are the **pramana**.
  भगवान कृष्ण भगवद्गीता में कहते हैं कि **शास्त्र** ही **प्रमाण** हैं।
- The rules laid down by them must be followed.
  उनके द्वारा निर्धारित नियमों का पालन किया जाना चाहिए।
- "**Tasmaat sastram pramaanam**," says Krishna to Arjuna.
  कृष्ण अर्जुन से कहते हैं, "**तस्मात् शास्त्रं प्रमाणम्**।"

Tushar Mehta reappointed Solicitor-General for 3 years

The Centre has reappointed Tushar Mehta the Solicitor-General of India for a further term of three years from July 1. An order in this regard was issued by the Department of Personnel and Training (DoPT) on June 20, an official source said. The Appointments Committee of the Cabinet approved the reappointment, ensuring continuity in the government's legal representation before the Supreme Court and other constitutional courts. The Centre also reappointed five Additional Solicitors-General – Vikramjit Banerjee, K.M. Nataraj Suryaprakash V. Raju, N. Venkataraman, and Aishwarya Bhati – for the Supreme Court for a three-year term.

23J6. Tushar Mehta reappointed Solicitor-General for 3 years

तुषार मेहता को तीन वर्षों के लिए पुनः सॉलिसिटर जनरल नियुक्त किया गया

- The **Centre** has reappointed **Tushar Mehta**, the **Solicitor-General of India**, for a further term of **three years** from **July 1**.

केंद्र सरकार ने **भारत के महाधिवक्ता तुषार मेहता** को **1 जुलाई** से आगे के **तीन वर्षों** के लिए पुनः नियुक्त किया है।

- An order in this regard was issued by the **Department of Personnel and Training** on **June 20**, an official source said.

एक आधिकारिक सूत्र के अनुसार, इस संबंध में **कार्मिक एवं प्रशिक्षण विभाग** द्वारा **20 जून** को आदेश जारी किया गया।

- The **Appointments Committee of the Cabinet** approved the reappointment, ensuring continuity in the government's legal representation before the **Supreme Court** and other constitutional courts.

मंत्रिमंडल की नियुक्ति समिति ने इस पुनर्नियुक्ति को स्वीकृति प्रदान की, जिससे **उच्चतम न्यायालय** तथा अन्य संवैधानिक न्यायालयों के समक्ष सरकार के विधिक प्रतिनिधित्व में निरंतरता सुनिश्चित हुई है।

- The Centre also reappointed **five Additional Solicitors-General — Vikramjit Banerjee, K.M. Nataraj, Suryaprakash V. Raju, N. Venkataraman, and Aishwarya Bhati** — for the **Supreme Court** for a **three-year term**.

केंद्र सरकार ने **उच्चतम न्यायालय** के लिए **पाँच अतिरिक्त महाधिवक्ताओं — विक्रमजीत बनर्जी, के. एम. नटराज, सूर्यप्रकाश वी. राजू, एन. वेंकटरमण और ऐश्वर्या भाटी** — को भी **तीन वर्ष** की अवधि के लिए पुनः नियुक्त किया है।

Alan Greenspan, U.S. Fed 'maestro', passes away at 100

PCS

Reuters

Alan Greenspan, hailed as the greatest Federal Reserve chairman when he retired in 2006 but derided for a severe financial crisis that followed barely 2 years later, died on Monday aged 100, his wife said.

Greenspan, who exerted a powerful influence on the U.S.economy during his tenure at the helm of the Fed from August 1987 to January 2006, died at his home from complications of Parkinson's Disease, Andrea Mitchell said in a statement.

"He was a giant of a man who helped shape the

Alan Greenspan

U.S. economy for decades under presidents of both parties, but was always honest in acknowledging his mistakes," Ms. Mitchell said.

"He will be remembered for his brilliance and his kindness. Being his life partner was the joy of my life," she added.

Mr. Greenspan oversaw the second-longest economic expansion in U.S. history, an uninterrupted decade of growth from March 1991 to March 2001. His decision to let economy run – despite pressure to raise interest rates against an inflation threat that never materialised – helped foster years of U.S. prosperity and earned him rock star status as an economic "maestro." The era was marked by his prescient judgment that a productivity surge in the mid-1990s would keep inflation contained.

23J6. Alan Greenspan, U.S. Fed 'maestro', passes away at 100

अमेरिकी फेड के 'माएस्ट्रो' एलन ग्रीनस्पैन का 100 वर्ष की आयु में निधन

- **Alan Greenspan**, hailed as the greatest **Federal Reserve chairman** when he retired in 2006 but derided for a severe **financial crisis** that followed barely 2 years later, died on Monday aged **100**, his wife said.

एलन ग्रीनस्पैन, जिन्हें 2006 में सेवानिवृत्ति के समय सबसे महान **फेडरल रिज़र्व अध्यक्ष** माना गया था, लेकिन लगभग 2 वर्ष बाद आए गंभीर **वित्तीय संकट** के लिए आलोचना का सामना करना पड़ा, उनका सोमवार को **100 वर्ष** की आयु

में निधन हो गया, उनकी पत्नी ने कहा।

- Greenspan, who exerted a powerful influence on the **U.S. economy** during his tenure at the helm of the **Fed** from August 1987 to January 2006, died at his home from complications of **Parkinson's Disease**, Andrea Mitchell said in a statement.
  ग्रीनस्पैन, जिन्होंने अगस्त 1987 से जनवरी 2006 तक **फेड** के प्रमुख के रूप में कार्य करते हुए **अमेरिकी अर्थव्यवस्था** पर गहरा प्रभाव डाला, उनका अपने घर पर **पार्किंसन रोग** से जुड़ी जटिलताओं के कारण निधन हो गया, एंड्रिया मिशेल ने एक बयान में कहा।

PARKINSON'S DISEASE (PD)

• **Parkinson's Disease (PD)** is a **progressive neurodegenerative disorder** that primarily affects movement, balance, coordination, and several non-motor functions of the body.
• It occurs when nerve cells (neurons) in a specific part of the brain called the **Substantia Nigra** gradually degenerate and die.
• These neurons produce **dopamine**, a neurotransmitter that helps control smooth and coordinated muscle movements.
• As dopamine levels decrease, symptoms of Parkinson's disease gradually appear and worsen over time.
• The disease is named after **Dr. James Parkinson**, who first described it in **1817** in his work An Essay on the Shaking Palsy.

Basic Science Behind Parkinson's Disease

Role of Dopamine

• Dopamine is a chemical messenger that allows different parts of the brain to communicate effectively.
• It plays a major role in:
• Movement control.
• Coordination.
• Learning.
• Motivation.
• Reward mechanisms.
• In Parkinson's disease, approximately **60–80% of dopamine-producing neurons** are lost before significant symptoms become noticeable.

Substantia Nigra

• The **Substantia Nigra** is located in the midbrain.
• It forms part of the **Basal Ganglia**, which regulates voluntary movement.
• Degeneration of this region leads to the characteristic movement problems seen in Parkinson's disease.

Causes

• The exact cause remains unknown.
• Most cases are considered **idiopathic**, meaning no single definite cause has been identified.

Genetic Factors

• Certain gene mutations can increase susceptibility.
• Important genes include:
• **LRRK2**
• **SNCA**
• **PARKIN**
• **PINK1**

Environmental Factors

• Exposure to some pesticides and industrial chemicals may increase risk.

PATRIOTIC IAS

• Repeated head injuries have also been associated with a higher risk.

Ageing

• Age is the most significant risk factor.
• Most cases occur after the age of **60 years**.

Major Symptoms

Motor Symptoms

• Resting tremor (shaking of hands, fingers, legs, or jaw).
• Bradykinesia (slowness of movement).
• Muscle rigidity or stiffness.
• Postural instability and balance problems.
• Difficulty in walking.
• Reduced facial expressions ("masked face").

Non-Motor Symptoms

• Depression and anxiety.
• Sleep disturbances.
• Constipation.
• Loss of smell (Anosmia).
• Cognitive impairment.
• Fatigue.
• Speech difficulties.
• Autonomic dysfunction (blood pressure and bladder control issues).

Stages of Parkinson's Disease

Early Stage

• Mild tremors.
• Slight stiffness.
• Symptoms often affect only one side of the body.

Moderate Stage

• Increasing difficulty with movement.
• Walking and balance problems begin.

Advanced Stage

• Severe mobility limitations.
• Dependence on caregivers for daily activities.
• Cognitive decline may develop in some patients.

Diagnosis

Clinical Diagnosis

• There is currently no single laboratory test that definitively diagnoses Parkinson's disease.
• Diagnosis is mainly based on:
• Medical history.
• Neurological examination.
• Observation of symptoms.

Brain Imaging

• MRI is used mainly to exclude other disorders.
• Specialized imaging such as dopamine transporter scans (DaT scans) may assist diagnosis.

Treatment

Levodopa

• The most effective medication.
• It is converted into dopamine inside the brain.

Dopamine Agonists

• Mimic dopamine action.
• Examples:
• Pramipexole.

PATRIOTIC IAS

• Ropinirole.

MAO-B Inhibitors

• Help preserve dopamine.

Deep Brain Stimulation (DBS)

• Surgical procedure involving implantation of electrodes in specific brain regions.
• Useful in selected patients with advanced disease.

Supportive Therapies

• Physiotherapy.
• Speech therapy.
• Occupational therapy.
• Nutritional support.

Japanese firm JAMCO launches Centre of Excellence in Pune

PCS

Jagriti Chandra
PUNE

Tokyo-headquartered aircraft interiors company JAMCO Interiors on Monday launched its Centre of Excellence in Pune, committing $150 million to expand its India workforce "six-fold" and build the country into a design engineering hub, while also beginning to source components from Indian suppliers.

"We are looking at design technology being transferred to India so that India becomes a design centre for our laboratory products," said Kate Schaefer, Executive Chair and CEO, JAMCO Interiors.

JAMCO will also see a similar centre being inaugurated in Bengaluru later this week. A design centre in India would mean back-office engineering support which sends out simple packages of independent design work evolving into engineering and product-development base capable of handling "cradle-to-grave" designing work spanning the original request for quotation (RFQ), product design and development, certification support, and entry into service. This growth will be supported by an increase in engineering manpower from 100 to 500 in the next two to five years.

Dignitaries at the inauguration of the Centre. BY ARRANGEMENT

The company supplies approximately 50% of the world's widebody lavatories, including 100% on the Boeing 787 and 777, and approximately 40% of the world's widebody galleys (kitchen section), including 100% on the Boeing 787, along with 100% "Increased Cabin Efficiency" (ICE) galleys on the Airbus A350. Its portfolio also includes business class seating, branding panels, and window shades. The Pune centre has already received technology transfer for the design and development of aircraft galleys, and is expected to acquire similar capabilities for lavatories in the near future. So why India? The CEO says, "it's about access to highly educated engineers that is hard to do in Japan, and hard to do in the U.S. at the moment, as well."

(The author was in Pune on the invitation of JAMCO)

23J6. Japanese firm JAMCO launches Centre of Excellence in Pune
जापानी कंपनी JAMCO ने पुणे में सेंटर ऑफ एक्सीलेंस शुरू किया

- **Tokyo-headquartered** aircraft interiors company **JAMCO Interiors** on Monday launched its **Centre of Excellence** in Pune, committing **$150 million** to expand its India workforce "**six-fold**" and build the country into a **design engineering hub**, while also beginning to source components from Indian suppliers.

टोक्यो मुख्यालय वाली विमान आंतरिक सज्जा कंपनी **JAMCO Interiors** ने सोमवार को पुणे में अपना **सेंटर ऑफ एक्सीलेंस** शुरू किया और भारत में अपने कार्यबल को "**छह गुना**" बढ़ाने तथा देश को **डिज़ाइन इंजीनियरिंग हब** बनाने के लिए **150 मिलियन डॉलर** निवेश करने की प्रतिबद्धता जताई। साथ ही कंपनी भारतीय आपूर्तिकर्ताओं से पुर्जों की खरीद भी शुरू करेगी।

- "We are looking at **design technology** being transferred to India so that India becomes a **design centre** for our laboratory products," said **Kate Schaefer**, Executive Chair and CEO, JAMCO Interiors.

JAMCO Interiors की कार्यकारी अध्यक्ष और CEO **केट शेफर** ने कहा, "हम **डिज़ाइन तकनीक** को भारत में स्थानांतरित करने की दिशा में काम कर रहे हैं ताकि भारत हमारे प्रयोगशाला उत्पादों के लिए एक **डिज़ाइन केंद्र** बन सके।"

- JAMCO will also see a similar centre being inaugurated in **Bengaluru** later this week.

JAMCO इस सप्ताह के अंत में **बेंगलुरु** में भी इसी प्रकार का एक केंद्र शुरू करेगा।

- A **design centre** in India would mean back-office engineering support which sends out simple packages of independent design work evolving into engineering and **product-development** base capable of handling "**cradle-to-grave**" designing work spanning the original request for quotation (**RFQ**), product design and development, certification support, and entry into service.

भारत में एक **डिज़ाइन केंद्र** का अर्थ होगा बैक-ऑफिस

इंजीनियरिंग सहायता, जो स्वतंत्र डिज़ाइन कार्यों के साधारण पैकेज भेजने से आगे बढ़कर इंजीनियरिंग और **उत्पाद-विकास** आधार में विकसित होगी, जो मूल **RFQ (Request for Quotation)**, उत्पाद डिज़ाइन एवं विकास, प्रमाणन सहायता और सेवा में प्रवेश तक के "**क्रैडल-टू-ग्रेव**" डिज़ाइन कार्य को संभाल सकेगी।

- The company supplies approximately **50%** of the world's **widebody lavatories**, including **100%** on the **Boeing 787** and **777**, and approximately **40%** of the world's widebody **galleys** (kitchen section), including **100%** on the Boeing 787, along with **100% Increased Cabin Efficiency (ICE) galleys** on the **Airbus A350**.
  कंपनी दुनिया के लगभग **50% वाइडबॉडी विमान शौचालयों** की आपूर्ति करती है, जिनमें **Boeing 787** और **777** के लिए **100%** आपूर्ति शामिल है। साथ ही यह दुनिया की लगभग **40% वाइडबॉडी गैली (रसोई अनुभाग)** की आपूर्ति करती है, जिसमें **Boeing 787** के लिए **100%** तथा **Airbus A350** के लिए **100% Increased Cabin Efficiency (ICE) गैली** शामिल हैं।
- Its portfolio also includes **business class seating**, **branding panels**, and **window shades**.
  इसके उत्पाद पोर्टफोलियो में **बिज़नेस क्लास सीटिंग**, **ब्रांडिंग पैनल** और **विंडो शेड्स** भी शामिल हैं।
- The Pune centre has already received **technology transfer** for the design and development of aircraft **galleys**, and is expected to acquire similar capabilities for **lavatories** in the near future.
  पुणे केंद्र को विमान **गैली** के डिज़ाइन और विकास के लिए पहले ही **प्रौद्योगिकी हस्तांतरण** प्राप्त हो चुका है, और निकट भविष्य में **शौचालयों** के लिए भी ऐसी ही क्षमताएँ प्राप्त होने की उम्मीद है।

Messi sets record, Argentina in knockouts

The talisman goes past Klose for the most number of goals in the showpiece after missing an early penalty; his brace consigns Austria to a 0-2 defeat

FIFA WORLD CUP

Ayo[redacted]
DALLAS

18 and counting... Messi etched his name in the record books with a perfectly placed strike in the first half and followed it up with one in injury time. REUTERS & GETTY IMAGES

The takeover had begun long before kick-off. The previous evening, thousands had gathered at the Klyde Warren Park for the traditional Argentine Banderazo, a fan rally named after the Spanish word for flag, *bandera*. They draped downtown Dallas in blue and white and filled the Texas air with songs carried across generations. For one weekend, it looked like Buenos Aires had travelled north, settling briefly among the glass towers and endless freeways of Dallas.

Twenty-four hours later, Argentina repaid the devotion with a 2-0 victory over Austria, a result that secured its place in the knockouts.

The songs had grown louder as the crowd poured into the AT&T Stadium, and five minutes into the game, the sense of inevitability appeared to be justified.

Argentina won a penalty after a lengthy VAR review determined that Lautaro Martinez was brought down inside the box. But to the disbelief of the Messi faithful congregated here, the Argentina captain dragged his effort wide.

The rare ignominy appeared to cast a brief shadow over the South Americans, and Austria, sensing an opportunity, tried to turn possession into pressure. Perhaps, for the first time in this edition, the world champion looked ill at ease, its rhythm disrupted and composure tested by an opponent unwilling to be overawed.

Messi almost conjured a moment of magic in the 19th minute. Twisting his way into the penalty area, he discovered just enough space for a shot, but Alexander Schlager was alert to the danger and smothered the effort.

The goal that finally soothed the Argentine nerves arrived in the 38th minute. Thiago Almada cleverly stepped over a diagonal pass from Facundo Medina, allowing it to run into Messi's path. Arriving centrally, the captain opened his body and guided a precise finish beyond the goalkeeper. And, just like that, he was the holder of most number of goals in the showpiece, going past German Miroslav Klose.

A free-kick whipped in from the left by Marcel Sabitzer after the break provided Austria with its closest opportunity to claw back. But Emiliano Martinez reacted sharply to block its path.

Argentina had chances to extend its lead, but the finishing remained uncharacteristically wasteful from Lionel Scaloni's side. Yet as the game drifted into stoppage time, *La Albiceleste* found the reward its persistence deserved. As Austria failed to clear its lines inside a crowded penalty box, it was Messi, who reacted quickest, hammering home from close range.

23J6. Messi sets record, Argentina in knockouts
मेसी ने बनाया रिकॉर्ड, अर्जेंटीना नॉकआउट चरण में पहुँचा

- The **talisman** goes past **Klose** for the most number of goals in the showpiece after missing an early penalty; his **brace** consigns **Austria** to a **0-2 defeat**.
  शुरुआती पेनाल्टी चूकने के बावजूद इस **दिग्गज खिलाड़ी** ने **क्लोज़े** को पीछे छोड़ते हुए टूर्नामेंट में सबसे अधिक गोल करने का रिकॉर्ड बनाया; उनके **दो गोलों** ने **ऑस्ट्रिया** को **0-2 की हार** दी।

- And, just like that, he was the holder of most number of goals in the showpiece, going past German **Miroslav Klose**.
  और इसी के साथ उन्होंने जर्मनी के **मिरोस्लाव क्लोज़े** को पीछे छोड़ते हुए टूर्नामेंट में सर्वाधिक गोल करने का रिकॉर्ड अपने नाम कर लिया।

Chiranth becomes the first Indian to win at Motegi racetrack

PCS

MOTORSPORTS

Sports Bureau

Chiranth Vishwanath from Bengaluru became the first Indian to win a race at the iconic Mobility Resort Motegi racetrack in Japan recently.

He finished the third round of the FIM Asia Road Racing Championship with a victory and fourth-place finish in the TVS Asia Championship category.

Chiranth.

Having qualified fourth after a series of fastest laps in the official practice session, 18-year-old Chiranth, astride a TVS Apache RR 310, led from the start in Race-1. However, in the fifth lap of the eight-lap race, he fell to P5 after contact with another rider. But he recovered, passing three riders in the last lap to post a win, his first of the championship.

In Race-2, Chiranth was in second until the last lap when a contact with a fellow rider cost him two spots. The win and P4 finish helped Chiranth move up to fourth in the championship as he prepares for the next round in Indonesia in August.

23J6. Chiranth becomes the first Indian to win at Motegi racetrack

चिरंथ मोटेगी रेसट्रैक पर जीत दर्ज करने वाले पहले भारतीय बने

- **Chiranth Vishwanath** from **Bengaluru** became the **first Indian** to win a race at the iconic **Mobility Resort Motegi racetrack** in **Japan** recently.

बेंगलुरु के **चिरंथ विश्वनाथ** हाल ही में **जापान** के प्रतिष्ठित **मोबिलिटी रिज़ॉर्ट मोटेगी रेसट्रैक** पर रेस जीतने वाले **पहले भारतीय** बने।

- He finished the **third round** of the **FIM Asia Road Racing Championship** with a victory and **fourth-place finish** in the **TVS Asia Championship** category.
  उन्होंने **FIM एशिया रोड रेसिंग चैम्पियनशिप** के **तीसरे दौर** का समापन **TVS एशिया चैम्पियनशिप** श्रेणी में एक जीत और **चौथे स्थान** के साथ किया।

Aaruthran owns the Mini under-10 race

The boy comes out on top in the Super Heat and Finals; Shiv Neel, Narain Karthikeyan's son, takes the honours in the Mini category

MOTORSPORTS

[redacted]
Sports Bureau

Aaruthran Prabhu (Kartkrew Motorsports) dominated the mini under-10 category, winning both the Super Heat and Finals, in the second round of the RA Motorsports-promoted IAME National Series India held in Coimbatore on Sunday.

The Mini category also provided thrilling competition. Shiv Neel Narain (NKRA Motorsports), son of India's first Formula One driver Narain Karthikeyan, inherited victory in the Finals following the post-race disqualification of race winner Ridhaan Anil Kumarr for a technical infringement.

Bafna bounces back

Among the older categories, Laksh Bafna (LB Racing) recovered brilliantly from retirement in the Super Heat to claim a commanding victory in the Senior Finals. Rehan Khan Rasheed (Momentum Motorsports) continued his impressive form in the Junior category by dominating both the Super Heat and Finals from pole.

Provisional results (all finals):

Seniors (18 laps): 1. Laksh Bafna (LB Racing) 13mins, 35.740secs, 2. Tanmay Kothari (Red Rabbit Racers) 13:43.070, 3. Mikkel Leib Rajan (Momentum Motorsports) 13:49.059.

Juniors (16 laps): 1. Rehan Khan Rasheed (Momentum Motorsports) 12:25.748, 2. Aditya Prathap (Momentum Motorsports) 12:28.842, 3. Abhishikt Barse (Crest Motorsports) 12:31.390.

Mini (14 laps): 1. Shiv Neel Narain (NKRA with KKM) 11:30.666, 2. Eeshan Swaroop (Kartkrew Motorsports) 11:31.326, 3. Rudra Gokulnath (NKRA with Momentum) 11:34.340.

Mini under-10 (14 laps): 1. Aaruthran Prabhu (Katkrew Motorsports) 11:45.865, 2. Abdur Rehman (Momentum Motorsports) 12:10.884, 3. Parth Singh (NKRA with KKM) 12:20.351.

23J6. Aaruthran owns the Mini under-10 race

आरुथ्रन ने मिनी अंडर-10 रेस पर कब्ज़ा जमाया

- The boy comes out on top in the **Super Heat** and **Finals**; **Shiv Neel**, **Narain Karthikeyan's** son, takes the honours in the **Mini category**.

इस बाल रेसर ने **सुपर हीट** और **फाइनल्स** दोनों में शीर्ष स्थान हासिल किया; **नारायण कार्तिकेयन** के पुत्र **शिव नील** ने **मिनी श्रेणी** में सम्मान प्राप्त किया।

- **Aaruthran Prabhu** (**Kartkrew Motorsports**) dominated the **Mini under-10 category**, winning both the **Super Heat** and **Finals**, in the second round of the **RA Motorsports-promoted IAME National Series India** held in **Coimbatore** on Sunday.

आरुथ्रन प्रभु (**कार्टक्रू मोटरस्पोर्ट्स**) ने रविवार को **कोयंबटूर** में आयोजित **RA मोटरस्पोर्ट्स प्रोत्साहित IAME नेशनल सीरीज़ इंडिया** के दूसरे चरण में **मिनी अंडर-10 श्रेणी** में दबदबा बनाते हुए **सुपर हीट** और **फाइनल्स** दोनों जीते।

ASI transfers Rakhigarhi skeletons to AnSI for a scientific investigation

GS I: History

Sreeparna Chakrabarty
NEW DELHI

Human skeletal remains excavated from the archaeological site of Rakhigarhi in Haryana have been formally handed over by the Archaeological Survey of India (ASI) to the Anthropological Survey of India (AnSI), a national research institute under the Union Culture Ministry, for a detailed scientific investigation.

The transfer, carried out under a memorandum of understanding (MoU) between the two institutions, is expected to significantly advance multidisciplinary research into one of the most important urban centres of the Indus-Saraswati Civilisation, B.V. Sharma, Director of AnSI, said.

Rakhigarhi, spread across approximately 550 hectares in Haryana, is widely recognised as the largest known settlement of the Harappan Civilisation. Archaeological excavations have revealed evidence of continuous habitation, from the Early Harappan to the Mature Harappan periods.

Ancient remains: The skeleton of a woman, excavated in a trench on Mound 7 at Rakhigarhi in Haryana, in April 2022. FILE PHOTO

Mound 7 at the excavation site has been identified as a burial plot where 56 skeletons were recovered, including that of a woman, roughly 4,600 years old, which created a buzz in the fields of history, anthropology, genomics, and even linguistics.

DNA analysis of the skeleton revealed that the Rakhigarhi woman did not possess the steppe pastoral gene, fanning the debate on Aryan migration to India. The word "Aryan" has been interchangeably used for the steppe pastoralists, though to avoid racial connotations, many scholars now prefer to use the term Indo-Aryan.

Three complete human skeletons among those recovered from Mound 7, along with skeletal fragments recovered from other burials, have now been transferred to the AnSI's ancient human skeletal repository and laboratory in Kolkata for a detailed examination. The remaining skeletal materials obtained at these sites are also expected to be transferred in a few days, the Culture Ministry said in a statement on Monday.

Researchers believe the remains present a rare opportunity to apply modern scientific techniques, including ancient DNA (aDNA) analysis, stable isotope studies, osteological assessments, palaeopathological investigations, and environmental reconstruction, the statement added.

The research will be conducted in collaboration with leading scientific institutions, including the Birbal Sahni Institute of Palaeosciences, University College London, and the Banaras Hindu University.

23J6. ASI transfers Rakhigarhi skeletons to AnSI for a scientific investigation
एएसआई ने वैज्ञानिक जांच के लिए राखीगढ़ी के कंकाल एएनएसआई को हस्तांतरित किए

- Human skeletal remains excavated from the **archaeological site of Rakhigarhi** in **Haryana** have been formally handed over by the **Archaeological Survey of India** to the **Anthropological Survey of India**, a national research institute under the **Union Culture Ministry**, for a detailed scientific investigation.
  हरियाणा स्थित **राखीगढ़ी पुरातात्विक स्थल** से उत्खनित मानव कंकाल अवशेषों को **भारतीय पुरातत्व सर्वेक्षण** द्वारा औपचारिक रूप से **भारतीय मानवविज्ञान सर्वेक्षण** को, जो **केंद्रीय संस्कृति मंत्रालय** के अधीन एक राष्ट्रीय अनुसंधान संस्थान है, विस्तृत वैज्ञानिक अध्ययन हेतु सौंप दिया गया है।
- The transfer, carried out under a **memorandum of understanding** between the two institutions, is expected to significantly advance multidisciplinary research into one of the most important urban centres of the **Indus-Saraswati Civilisation**, **B.V. Sharma**, Director of the Anthropological Survey of India, said.
  समझौता ज्ञापन के अंतर्गत दोनों संस्थानों के बीच किए गए इस हस्तांतरण से **सिंधु-सरस्वती सभ्यता** के सबसे महत्वपूर्ण नगरीय केन्द्रों में से एक पर बहुविषयक अनुसंधान को महत्वपूर्ण गति मिलने की अपेक्षा है, ऐसा **भारतीय मानवविज्ञान सर्वेक्षण** के निदेशक **बी. वी. शर्मा** ने कहा।
- **Rakhigarhi**, spread across approximately **550 hectares** in Haryana, is widely recognised as the largest known settlement of the **Harappan Civilisation**.

हरियाणा में लगभग **550 हेक्टेयर** क्षेत्र में फैला **राखीगढ़ी**, **हड़प्पा सभ्यता** की अब तक ज्ञात सबसे बड़ी बस्ती के रूप में व्यापक रूप से मान्यता प्राप्त है।

- Archaeological excavations have revealed evidence of continuous habitation, from the **Early Harappan** to the **Mature Harappan** periods.
  पुरातात्त्विक उत्खननों से **प्रारम्भिक हड़प्पा काल** से लेकर **परिपक्व हड़प्पा काल** तक निरंतर मानव निवास के प्रमाण प्राप्त हुए हैं।
- **Mound 7** at the excavation site has been identified as a burial plot where **56 skeletons** were recovered.
  उत्खनन स्थल के **टीला संख्या 7** को एक दफन स्थल के रूप में पहचाना गया है, जहाँ से **56 कंकाल** प्राप्त हुए।
- These included that of a woman, roughly **4,600 years old**, which created a buzz in the fields of **history, anthropology, genomics, and linguistics**.
  इनमें लगभग **4,600 वर्ष पुरानी** एक महिला का कंकाल भी शामिल था, जिसने **इतिहास, मानवविज्ञान, जीनोमिक्स और भाषाविज्ञान** के क्षेत्रों में व्यापक चर्चा उत्पन्न की।
- **DNA analysis** of the skeleton revealed that the **Rakhigarhi woman** did not possess the **steppe pastoral gene**, fuelling the debate on **Aryan migration** to India.
  कंकाल के **डीएनए विश्लेषण** से पता चला कि **राखीगढ़ी की महिला** में **स्टेपी पशुपालक जीन** उपस्थित नहीं था, जिससे भारत में **आर्य प्रवासन** संबंधी बहस को नया बल मिला।
- The word **"Aryan"** has been interchangeably used for the steppe pastoralists, though many scholars now prefer the term **Indo-Aryan** to avoid racial connotations.
  "आर्य" शब्द का उपयोग प्रायः स्टेपी पशुपालकों के लिए किया जाता रहा है, किन्तु नस्लीय अर्थों से बचने के लिए अनेक विद्वान अब **इंडो-आर्य** शब्द को प्राथमिकता देते हैं।
- Three complete human skeletons among those recovered from **Mound 7**, along with skeletal fragments recovered from other burials, have now been transferred to the Anthropological Survey of India's **ancient human skeletal repository and laboratory** in **Kolkata** for detailed examination.
  टीला संख्या 7 से प्राप्त तीन पूर्ण मानव कंकालों तथा अन्य दफन स्थलों से प्राप्त अस्थि-अवशेषों को विस्तृत परीक्षण हेतु **कोलकाता** स्थित **भारतीय मानवविज्ञान सर्वेक्षण** के **प्राचीन मानव कंकाल भंडार एवं प्रयोगशाला** में स्थानांतरित किया गया है।
- Researchers believe the remains present a rare opportunity to apply modern scientific techniques, including **ancient DNA analysis**, **stable isotope studies**, **osteological assessments**, **palaeopathological investigations**, and **environmental reconstruction**.
  शोधकर्ताओं का मानना है कि ये अवशेष **प्राचीन डीएनए विश्लेषण**, **स्थिर समस्थानिक अध्ययन**, **अस्थि-विज्ञान संबंधी मूल्यांकन**, **प्राचीन रोगविज्ञान संबंधी जांच** तथा **पर्यावरणीय पुनर्निर्माण** जैसी आधुनिक वैज्ञानिक तकनीकों के उपयोग का एक दुर्लभ अवसर प्रदान करते हैं।
- The research will be conducted in collaboration with leading scientific institutions, including the **Birbal Sahni Institute of Palaeosciences**, **University College London**, and **Banaras Hindu University**.
  यह अनुसंधान **बीरबल साहनी पुराजीवविज्ञान संस्थान**, **यूनिवर्सिटी कॉलेज लंदन** तथा **बनारस हिन्दू विश्वविद्यालय** सहित प्रमुख वैज्ञानिक संस्थानों के सहयोग से किया जाएगा।

RAKHIGARHI

- **Rakhigarhi** is one of the most important archaeological sites of the **Indus Valley Civilization (IVC)** and is widely regarded as the **largest known Harappan site in the Indian subcontinent**.
- It is located in **Hisar District, Haryana**, on the **Ghaggar-Hakra (ancient Saraswati-Drishadvati) plain**.
- Located near the villages of **Rakhi Khas** and **Rakhi Shahpur** in Haryana.

- Approximately **150 km northwest of Delhi**.
- **Discovery and Excavation**
  - The site was identified in **1963**.
  - Systematic excavations were carried out by the **Archaeological Survey of India (ASI)** between **1997–2000** under **Amarendra Nath**.
  - Further excavations were undertaken by **Deccan College, Pune**, under **Prof. Vasant Shinde** between **2011–2016**.

Questions and Answers to the previous day's daily quiz:
1. Why did PM Modi, in his speech at the UN in 2014, suggest June 21 be observed as International Day of Yoga? **Ans: It is the longest day of the year in the Northern Hemisphere**
2. What was the theme for IDY this year? **Ans: Yoga for Healthy Ageing**
3. Of the five broad classifications of Yoga, two are Bhakti and Karma Yoga. Name the other 3. **Ans: Jnana, Dhyana and Kriya**
4. Which sadhana: i) advocates appropriate food and food habits for healthy living; ii). dissociating one's consciousness from the sense organs that connect with the external objects. **Ans: 'Yuktahara' and 'Pratyahara'**
5. From which animals are these asanas inspired: Catur Svanasana, Sasakasana, Ustrasana? **Ans: Dolphin, hare/rabbit and camel**
6. From where does the shloka 'saṃ gacchadhvaṃ saṃ vadadhvaṃ saṃ vo manāṃsi jānatām |devā bhāgaṃ yathā pūrve saṃjānānā upāsate' that traditionally starts a yoga session come from? **Ans: Rig Veda.**
7. Visual: Name this eminent yoga exponent. **Ans: B.K.S. Iyengar**

23J6. QUIZ

1. Why did PM Modi suggest June 21 as the International Day of Yoga at the UN in 2014?

- Prime Minister **Narendra Modi**, during his address to the **United Nations General Assembly (UNGA)** in September 2014, proposed that **21 June** be observed as the **International Day of Yoga**.
- He highlighted that this date coincides with the **Summer Solstice**, the longest day in the Northern Hemisphere, and holds special significance in many cultures and spiritual traditions.
- In Indian yogic philosophy, it is associated with the transition towards **Dakshinayana** and symbolizes harmony between humans and nature.
- The UN adopted the proposal on 11 December 2014 with support from **177 member states**, one of the highest co-sponsorships for any UN resolution.

2. What was the theme for the International Day of Yoga (IDY) this year?

- The theme for **International Day of Yoga 2026** was **"Yoga for Healthy Ageing."**
- The theme emphasizes yoga's role in promoting physical fitness, mental well-being, flexibility, balance, and emotional resilience throughout life.
- With increasing life expectancy worldwide, healthy ageing has become a major public health priority.

3. Apart from Bhakti Yoga and Karma Yoga, what are the other three broad classifications of Yoga?

- Yoga traditions are often classified into different paths according to the seeker's temperament and spiritual goals. **Jnana Yoga** is the path of knowledge, wisdom, and self-inquiry.
- **Dhyana Yoga** focuses on meditation and concentration to attain higher consciousness.
- **Kriya Yoga** emphasizes disciplined practices, purification techniques, and spiritual exercises aimed at self-realization.
- Along with **Bhakti Yoga** (devotion) and **Karma Yoga** (selfless action), these paths provide complementary approaches for achieving physical, mental, and spiritual development.

4. What are 'Yuktahara' and 'Pratyahara'?

- **Yuktahara** is a concept found in yogic texts that advocates moderation and balance in diet.
- It emphasizes consuming nutritious food in appropriate quantities and maintaining healthy eating habits to support physical and mental well-being.
- **Pratyahara**, the fifth limb of **Ashtanga Yoga** described by **Patanjali**, involves consciously withdrawing the mind from external sensory distractions.

- Through Pratyahara, practitioners gain greater control over their senses and develop inner awareness.

5. From which animals are the following asanas inspired: Catur Svanasana, Sasakasana and Ustrasana?

- Many yoga postures are inspired by observations of nature and animals. **Catur Svanasana**, commonly known as the **Dolphin Pose**, mimics the streamlined posture of a dolphin and helps strengthen the shoulders and spine.
- **Sasakasana**, or **Rabbit Pose**, resembles the crouched posture of a rabbit and promotes spinal flexibility and relaxation.
- **Ustrasana**, known as the **Camel Pose**, imitates the arched stance of a camel and is an important back-bending posture that improves posture, chest expansion, and flexibility.
- These animal-inspired asanas reflect yoga's deep connection with the natural world and bodily awareness.

6. From where does the shloka "Saṃ gacchadhvaṃ saṃ vadadhvaṃ..." originate?

- The shloka **"Saṃ gacchadhvaṃ saṃ vadadhvaṃ saṃ vo manāṃsi jānatām..."** originates from the **Rig Veda (Mandala 10, Sukta 191)**.
- It is a celebrated Vedic hymn promoting unity, cooperation, and collective harmony.
- The verse encourages people to move together, speak together, and share common understanding and purpose.
- Because yoga seeks harmony among individuals, society, and nature, this mantra is often recited at the beginning of yoga sessions.
- It reflects the ancient Indian vision of social cohesion, mutual respect, and spiritual unity, making it highly relevant to the universal message of yoga even today.

Israeli strikes leave Lebanon's ancient coastal city of Tyre shaken, shattered

A new ceasefire between Israel and Hezbollah is in effect; even as the U.S. and Iran meet for talks, uncertainty and fear linger in the 5,000-year-old city that has survived multiple wars; more than 4,000 Lebanese people have been killed in strikes that residents say often came without warning

GS I: History

NEWS ANALYSIS

Associated Press
TYRE

The dust has barely settled in Tyre after weeks of Israeli airstrikes on the ancient city along Lebanon's Mediterranean coast. Despite the relative calm, life remains largely at a standstill.

A new ceasefire between Israel and the Iranian-backed Hezbollah militant group is in effect. But previous ceasefires have broken down. Uncertainty and fear linger, even as the U.S. and Iran meet for talks in Switzerland that Lebanese residents hope will bring calm to their troubled country.

Over 4,000 people in Lebanon have been killed in Israeli strikes since the latest Israel-Hezbollah war began in March, two days after the Iran war began, when Hezbollah fired at Israel. The group has also clashed with Israeli troops making their deepest incursion into southern Lebanon in over a quarter century.

Large swaths of southern Lebanon have been left in ruins, including Tyre.

During the summer, Lebanon's fourth largest city is usually filled with tourists lounging on its beaches, walking through its Roman ruins, eating freshly caught seafood at picturesque restaurants or taking boat tours.

A hopeful homecoming: A displaced girl gestures as she returns with her family to their home following an interim deal between the U.S. and Iran, in Tyre, Lebanon, on Sunday. REUTERS

Now, tables at the few restaurants that haven't closed are empty. Parking lots that are usually packed with beachgoers' vehicles are filled with displaced people living in tents. Fishermen and mariners say they can't sail far from port for fear of being targeted.

Continuing anxiety

"Every day they tell us there's a truce or ceasefire. Where is this truce? We can't see it," said Ali Bazzi, 31, who lives alone on a tour boat that belongs to family friends. His home in Toura, several kilometres away, was destroyed by an Israeli strike. Like many who have fled to Tyre from surrounding areas, he doesn't dare return until he sees long-term calm.

For months, Mr. Bazzi has been sleeping on a mattress on the deck, and selling sandwiches at a small stand a few steps away to earn money.

Israel in early June warned the entirety of Tyre to leave before it launched intense airstrikes across the city, saying it was targeting Hezbollah.

But Mr. Bazzi stayed. He recalled the emptied, ghostly city and the cries of women and children as Israeli strikes began. And he said he woke one night to the sound of a drone hovering over the port and worried it had come for him.

Even as the new ceasefire appeared to be largely holding, Tyre residents still pause anxiously when they hear Israeli jets overhead.

It seems at least one building has been reduced to rubble on every street. Others remain standing with several floors blown off. Pictures of those killed, including paramedics, families, and Hezbollah militants, are posted as memorials on the ruins of buildings and dashboards of parked cars.

The city's iconic heritage sites are not unscathed. Several buildings next to the remains of a 2nd century citadel were struck. Debris knocked the crowns off some Roman columns and damaged stones on the Roman road that have existed for thousands of years. Employees hope the damage to the UNESCO World Heritage site can be repaired.

"We're waiting for a committee to come and inspect it," said Adnan Istanbuli, an employee at the Lebanese Directorate General of Antiquities. "The city of Tyre is 5,000 years old, and what happened to it is huge."

Just south of the city, the shoreline in Mansouri, a well-known wildlife preserve for sea turtles and other animals, is now inaccessible after Israeli strikes. Mona Khalil, a well-known environmentalist who lived along that shore, died Friday from her wounds, weeks after a strike hit her home.

Recurring damage

One of Tyre's largest hospitals is repairing some of its units that were destroyed when an Israeli airstrike struck a building across the street.

Doctors at the Jabal Amel Hospital have lived through multiple wars over the past few decades but said this one is different. In the past, they felt relatively safe as long as they were in the hospital. This time, the Israeli strikes occurred nearby and without warning.

Doors and windows were blown off. Staff rushed to treat wounded patients and colleagues. Thick smoke filled the hospital.

"We used to be scared, but we're a lot more scared now," said intensive care unit nurse Khadeeja Yousef, whose unit overlooks the hospital parking lot, now reduced to rubble and charred cars.

Cardiologist Mohammad Nassar's private clinic across the street was hit. Now he rummages through the debris, looking for hundreds of books he had collected for over three decades.

"I don't care about any heart monitoring machines or anything else, but the books are dear to my heart," he said.

People in Tyre are constantly reminded that prospects for long-term stability are unclear as negotiations continue between Israel and Lebanon in Washington, with Hezbollah playing no role and resisting efforts to disarm it. Large swaths of land just south of the city are under Israeli control, stretching to the United Nations-mandated Blue Line that separates the countries.

In recent days, smoke from distant Israeli artillery fire was visible from Tyre's shoreline. And on a distant hilltop, an Israeli flag could be seen.

23J6. Israeli strikes leave Lebanon's ancient coastal city of Tyre shaken, shattered

इज़रायली हमलों ने लेबनान के प्राचीन तटीय शहर टायर को झकझोर दिया, तबाह कर दिया

TYRE: A HISTORIC CITY IN LEBANON

- **Tyre** is an ancient coastal city in **southern Lebanon**.
- It is located on the **Mediterranean coast**, about **83 km south of Beirut**.
- It was one of the most important cities of ancient **Phoenicia**.
- Tyre is famous for its **maritime trade, purple dye, Phoenician colonies, Roman ruins and UNESCO World Heritage status**.
- UNESCO describes Tyre as a great Phoenician city that ruled the seas and founded colonies such as **Carthage** and **Cadiz**.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- The city became prominent as a **Phoenician city-state** during the **first millennium BCE**.
- Phoenicians were known as skilled sailors, traders and colonizers.
- Tyre became especially famous for its **purple dye**, often called **Tyrian purple.**
- One of the most famous events in Tyre's history was the **Siege of Tyre in 332 BCE**.

Tyre under Hellenistic, Roman and Byzantine Rule

• The city contains major archaeological remains from the **Roman period**, including roads, baths, arches, necropolis areas and the famous **Roman Hippodrome**.
• The **Roman Hippodrome of Tyre** is one of the most important ancient chariot-racing sites in the region.
• In the Byzantine period, Tyre remained an important religious and urban centre.
• The **Al-Mina site** contains remains close to the ancient harbour and Roman urban structures.
UNESCO World Heritage Site
• Tyre was inscribed as a **UNESCO World Heritage Site in 1984**.
• UNESCO recognized Tyre because of its outstanding Phoenician and Roman heritage.
• Its cultural memory survives through legends connected with **Europa**, **Dido or Elissa**, and the foundation traditions of **Carthage**.

Phoenician, Hellenistic, Roman, and Byzantine Periods

• The **Phoenician, Hellenistic, Roman, and Byzantine periods** represent successive historical phases of the **Mediterranean and Near Eastern world**.
• The main geographical focus was the **Mediterranean region**, especially the **Levant, Greece, Anatolia, Egypt, North Africa, Italy, and Constantinople**.

PHOENICIAN PERIOD

• The **Phoenicians** were ancient people of the **eastern Mediterranean coast**, mainly in present-day **Lebanon, Syria, and northern Israel**.
• Their important cities were **Tyre, Sidon, Byblos, and Arwad**. These were not one united empire but independent maritime city-states.
• The Phoenicians were famous for **sea trade, shipbuilding, colonisation, purple dye, glasswork, metalwork, and the alphabet**.
• Their period is broadly placed between **1500 BCE and 300 BCE**, though Phoenician influence continued later through **Carthage** in North Africa.

Important Contributions of Phoenicians
• The **Phoenician alphabet** was one of their greatest contributions.
• It had **22 consonantal letters** and strongly influenced later **Greek, Latin, and modern European scripts**.
• They established trade colonies across the Mediterranean, including **Carthage**, which later became a major power.
• **Carthage**, founded by Phoenicians, became a major commercial empire and later a Roman province. UNESCO identifies Carthage as a major Punic and Roman archaeological site.

Hellenistic Period
• The **Hellenistic Period** began after the death of **Alexander the Great in 323 BCE**.
• It ended with the defeat of **Cleopatra VII** and the Roman annexation of Egypt in **30 BCE**.
• The word **Hellenistic** means the spread of **Greek culture, language, art, science, and political ideas** across non-Greek regions.
• Alexander's empire broke into successor kingdoms ruled by his generals, known as the **Diadochi**.

Major Hellenistic Kingdoms
• **Ptolemaic Kingdom** in Egypt.
• **Seleucid Empire** in Syria, Mesopotamia, Persia, and parts of Central Asia.
• **Antigonid Kingdom** in Macedonia and Greece.

• **Pergamon** in Asia Minor.
• These kingdoms mixed **Greek culture** with **Egyptian, Persian, Mesopotamian, Jewish, and Indian cultural elements**.

Important Features of the Hellenistic Period

• **Alexandria in Egypt** became a great centre of learning.
• The **Library of Alexandria** symbolised the growth of knowledge and scholarship.
• Important developments occurred in **mathematics, astronomy, medicine, sculpture, philosophy, and urban planning**.
• Hellenistic art became more emotional, realistic, dramatic, and expressive compared to classical Greek art.

Roman Period

• The **Roman Period** refers to the rise and expansion of Rome from a city-state into a Mediterranean empire.
• The **Roman Empire** began under **Augustus in 27 BCE** and the Western Roman Empire ended in **476 CE**.
• Augustus ruled from **27 BCE to 14 CE** and established the system known as the **Principate**.

Important Features of the Roman Period

• Rome developed a strong system of **law, administration, army, roads, aqueducts, towns, and citizenship**.
• The Roman Empire connected Europe, North Africa, and West Asia through the **Mediterranean Sea**.
• The period of relative peace and stability under early emperors is called **Pax Romana**.
• Roman engineering produced durable roads, bridges, amphitheatres, public baths, drainage systems, and water supply networks.
• The **Appian Way**, begun in **312 BCE**, is a famous Roman road and was added to the UNESCO World Heritage List in **2024**.

Roman Cultural Importance

• Latin became a major language of administration, law, literature, and religion.
• Roman law influenced many later legal systems.
• Christianity emerged within the Roman Empire and later became a major religion of the empire.
• Emperor **Constantine** played a major role in the rise of Christianity and shifted imperial focus toward the eastern city of **Constantinople**.

Byzantine Period

• The **Byzantine Empire** was the continuation of the **Eastern Roman Empire**.
• It was centred on **Constantinople**, founded by **Constantine I** as a new imperial capital in **330 CE**.
• The Byzantine Empire lasted until the fall of Constantinople to the **Ottoman Turks** in **1453 CE**.

Important Features of the Byzantine Period

• The Byzantines called themselves **Romans**, though modern historians call them **Byzantines**.
• Their empire preserved **Roman law, Greek learning, Christian theology, and classical traditions**.
• The official culture gradually became more **Greek-speaking**.
• Byzantine society was deeply influenced by **Eastern Orthodox Christianity**.
• The **Hagia Sophia** in Constantinople became one of the greatest examples of Byzantine architecture.

Justinian and the Byzantine Peak

• Emperor **Justinian I** ruled from **527 CE to 565 CE**.
• His reign is famous for the **Justinian Code**, which preserved and organised Roman law.
• He reconquered parts of **North Africa, Italy, and the western Mediterranean**.
• By the **6th century CE**, the eastern Mediterranean remained a major commercial and religious zone of the Byzantine world.

Comparative Understanding

Period	Approximate Time	Main Region	Main Contribution
Phoenician	**1500–300 BCE**	Levant and Mediterranean	Trade, colonies, alphabet
Hellenistic	**323–30 BCE**	Eastern Mediterranean and Near East	Spread of Greek culture
Roman	**27 BCE–476 CE** in the West	Mediterranean Empire	Law, roads, administration, empire
Byzantine	**330–1453 CE**	Eastern Mediterranean	Roman continuity, Greek culture, Christianity

DAKAR

Along Mali's National Route 6, a major thoroughfare connecting the capital to the country's centre, the Army has reshaped the landscape: the vegetation from the surrounding forest has been cleared in anticipation of jihadist ambushes.

Armed groups use forest areas both as refuge and a base for launching deadly attacks on roads across Africa's Sahel region.

In Mali, jihadists from JNIM, Al-Qaeda's Sahel branch, operate from the vast 80,000-hectare (200,000-acre) Faya forest, located a quick drive from the capital, Bamako, from which they carry out attacks against toll stations, public transportation and freight trucks.

Since June, Faya has become an "off-limits military zone to civilians", along with 38 other parks and forests that are "likely to serve as refuges for armed terrorist groups", according to an inter-ministerial decree.

The armed forces, it said, would eliminate "all targets located in the specified zones".

Mali's decision is part of a series of security measures taken after large-scale jihadist attacks by JNIM and its ethnic Tuareg separatist allies in late April, which notably killed the country's Defence Minister.

The forests and parks covered by the decree stretch in a wide arc across the southern section of the country from the Senegal and Mauritania border in the west to Guinea and Ivory Coast in the east.

Tough terrain

"These are large natural areas that are sometimes not very well controlled by the state. There are no permanent settlements in many of these zones, no infrastructure, and police stations or military bases are located elsewhere," said Franklin Nossiter, Sahel analyst at the International Crisis Group.

"So it has become easier for jihadist groups to move around and establish themselves there and more difficult to drive them out", he told *AFP*.

Burkina Faso and Niger, which also face violence from JNIM and the Islamic State in the Sahel Province (ISSP), have implemented similar forest security measures in recent years.

Keeping watch: Soldiers from Burkina Faso patrol along a road in the Sahel region. REUTERS/FILE PHOTO

For example, south-western Niger's heavily wooded Torodi region, an epicentre of jihadist violence located on the border with Burkina Faso, was declared a "red zone" by the army.

An official from a Nigerien timber association active in the area told *AFP* that "these areas are hideouts for terrorists".

The jihadists, he said, "believe we are destroying their shelters, but we have avoided doing so on several occasions".

According to the official, 52 trucks were burned by the jihadists, and 24 drivers and apprentices were killed. "We stopped going to that hell," truck driver Hassane Gourouza said.

The forested regions are no longer just "temporary hideouts" for the groups, but have become "permanent operation bases", said Samir Bhattacharya, associate fellow at the Observer Research Foundation think tank.

"This transformation was driven by sustained military pressure in urban areas, and tactical advantages offered by forests like protection from aerial surveillance", he told *AFP*.

The forests also give jihadists a chance to "exploit local informal economies such as mining, grazing, smuggling and poaching," he added.

Conflict monitor ACLED added that "the jihadist groups' continued use of nature reserves and designated forests indicates a deliberate reliance on these areas".

'Drones ineffective'

JNIM initially spread throughout the sub-region through the W-Arly-Pendjari (WAP) complex of reserves and national parks that straddle Benin, Niger and Burkina Faso, and which are also located near the borders of Nigeria and Togo, ACLED said.

ISSP, meanwhile, has established a network of camps in wooded hills along the border between Niger and Nigeria, an area offering isolated refuge, the NGO added.

JNIM, which first claimed responsibility for attacks in Nigeria in late 2025, knows the parks well, unlike the various Sahel armies.

For the military, "the terrain is inhospitable for armoured vehicles", according to a report by the Geneva-based Global Initiative Against Transnational Organised Crime (GI-TOC).

And armed drones are largely ineffective due to "dense vegetation cover", Nossiter added.

Driving jihadists out of the region and torching things down might only "fuel recruitment for jihadist groups, because if innocent people are killed, that's what will create the new jihadists of tomorrow", he warned.

23J6. No longer temporary hideouts, Sahel forests becoming jihadist strongholds

अब केवल अस्थायी ठिकाने नहीं, साहेल के जंगल जिहादी गढ़ बनते जा रहे हैं

- In Mali, jihadists from **JNIM**, **Al-Qaeda's Sahel branch**, operate from the vast **80,000-hectare Faya forest**, located a quick drive from the capital, **Bamako**, from which they carry out attacks against toll stations, public transportation and freight trucks.
  माली में **अल-कायदा की साहेल शाखा JNIM** राजधानी **बमाको** के निकट स्थित विशाल **80,000 हेक्टेयर के फाया वन** से संचालित होती है, जहाँ से वह टोल स्टेशनों, सार्वजनिक परिवहन और मालवाहक ट्रकों पर हमले करती है।

- Mali's decision is part of a series of security measures taken after large-scale jihadist attacks by **JNIM** and its ethnic **Tuareg separatist allies** in late April, which notably killed the country's **Defence Minister**.
  माली का यह निर्णय अप्रैल के अंत में **JNIM** और उसके **तुआरेग अलगाववादी सहयोगियों** द्वारा किए गए बड़े जिहादी हमलों के बाद उठाए गए सुरक्षा उपायों की श्रृंखला का हिस्सा है, जिनमें देश के **रक्षा मंत्री** की भी मृत्यु हुई थी।
- The forests and parks covered by the decree stretch in a wide arc across the southern section of the country from the **Senegal** and **Mauritania** border in the west to **Guinea** and **Ivory Coast** in the east.
  इस आदेश के अंतर्गत आने वाले वन और पार्क देश के दक्षिणी भाग में पश्चिम में **सेनेगल** और **मॉरिटानिया** की सीमा से लेकर पूर्व में **गिनी** और **आइवरी कोस्ट** तक फैले हुए हैं।

- "This transformation was driven by sustained military pressure in urban areas, and tactical advantages offered by forests like protection from aerial surveillance", he told AFP.
  उन्होंने AFP से कहा, "यह परिवर्तन शहरी क्षेत्रों में लगातार सैन्य दबाव और जंगलों द्वारा प्रदान किए गए सामरिक लाभों, जैसे हवाई निगरानी से सुरक्षा, के कारण हुआ है।"
- The forests also give jihadists a chance to "exploit local informal economies such as **mining, grazing, smuggling and poaching**," he added.
  उन्होंने कहा कि जंगल जिहादियों को **खनन, चराई, तस्करी और अवैध शिकार** जैसी स्थानीय अनौपचारिक अर्थव्यवस्थाओं का लाभ उठाने का अवसर भी देते हैं।

Sahel and Sahara Region of Africa
• The **Sahara** is the world's largest **hot desert**, covering a vast part of **North Africa**. It extends roughly **4,800 km from west to east** and covers about **8.6 million sq. km**.
• The **Sahel** is a **semi-arid transition region** located immediately **south of the Sahara**. It extends broadly from **Senegal in the west to Sudan in the east**.

• The Sahel is affected by **Saharan dust storms, drought, desertification, water scarcity, migration, and pastoral movement**.
• In social terms, both regions are connected through **nomadic pastoralism, trans-Saharan trade, migration routes, cultural exchange, and resource conflicts**.

Society in the Sahara Region
• Sahara society has traditionally depended on **nomadic pastoralism, oasis farming, caravan trade, and desert survival skills**.
• Communities such as the **Tuareg, Berbers, Arabs, and other desert groups** have historically used camels for mobility, trade, and pastoral life.
• Oases are important social centres because they provide **water, date palms, settlement space, and trade halts**.
• The Sahara historically connected **North Africa, West Africa, and the Mediterranean world** through trans-Saharan trade routes.

Society in the Sahel Region
• Sahelian society is mainly based on **pastoralism, rain-fed agriculture, livestock rearing, millet cultivation, sorghum cultivation, and seasonal migration**.

• When rainfall fails, society faces **crop loss, livestock death, food insecurity, and forced migration**.
• The Sahel is socially sensitive because land, water, grazing routes, and farming areas are under pressure from **population growth, climate change, and conflict**.

Major Social Problems in the Sahel
• Desertification does not mean that the Sahara moves like a solid wall. It means that productive dryland becomes less fertile and less capable of supporting life.
Great Green Wall Initiative
• The **Great Green Wall Initiative** is an African-led programme to restore degraded land and improve livelihoods across the Sahel.

Website : patrioticias.in

• Its major targets are to restore **100 million hectares** of degraded land, sequester **250 million tonnes of carbon**, and create **10 million green jobs by 2030**.
• This initiative is socially important because it aims to improve **food security, rural employment, climate resilience, women's livelihood, and community stability**.

No one should own the law: why government standards should be public

As part of the implementation of the Jan Vishwas framework, it has been proposed that all edicts of government be centrally published and that any such edict not publicly accessible be treated as null and void — a principle that should extend to public safety standards as well

GS II: Governance

Carl Malamud

The principle that rules governing public life must be widely accessible is not new to India. The first Indian road safety standard dates back to Emperor Ashoka, who commanded that his edicts of government be broadly disseminated throughout the land. The 7th Pillar Edict, now located in Delhi, had an extensive section on road safety.

Today, this work continues under the auspices of the Indian Roads Congress. While ostensibly a non-profit association, it is actually an arm of the government; it is subject to Right to Information Act; its website is maintained by the Network Information Centre, and its governing council is predominantly composed of government officials. It is a law-making enterprise with the force of the state.

The Indian Roads Congress publishes hundreds of standards, guidelines, and specifications relating to road safety and construction. These documents cover a wide range of technical matters, including route signage for national highways, vehicle design dimensions and weights, and the design of prestressed concrete road bridges.

These standards are widely incorporated into government practice, appearing in subordinate legislation as well as in regulations issued by bodies such as the National Rural Infrastructure Development Agency and the Ministry of Road Transport and Highways. The standards are also an integral part of the road construction efforts by the States and are frequently referred to in judicial opinions.

For over a decade, I've been systematically purchasing, scanning, and posting these road edicts on my website and on the Internet Archive, a non-profit public library based in the U.S. Many of these standards have been accessed tens of thousands of times, with even government agencies themselves reproducing and hosting copies. This work is entirely non-commercial: no fees are charged for access, no intellectual property rights are asserted, and the source of every document is clearly identified. The underlying principle is straightforward – edicts of government constitute the raw materials of democracy, and a truly informed citizenry is indispensable to ensuring a government not merely for the people, but by the people.

Recently, a "takedown" notice was issued by the Indian Roads Congress – a demand for the immediate removal of its purportedly proprietary works – accompanied by threats of legal consequences for non-compliance. That demand has not been complied with, and it is necessary to explain why.

My nonprofit makes edicts of government available; it is the essence of our mission. In India, this included posting of over 14,000 Indian Standards issued by the Bureau of Indian Standards (BIS). Like the standards of the Indian Roads Congress, BIS standards are an integral part of public safety. It is impossible to meaningfully advance initiatives such as "Make in India" without ensuring "safe in India." These standards cover critical areas including the National Building Code, safety requirements for motorcycle helmets and drinking water, procedures for entering sewer systems, the operation of agricultural and textile machinery, and construction practices in areas prone to typhoons. Like the Indian Roads Congress, an elaborate law-making process is used before an Indian Standard is issued.

When BIS objected to my actions, myself and two Indian co-petitioners raised a Public Interest Litigation in the Hon'ble High Court of Delhi. Our suit went on for seven years, and then something interesting happened. During those seven years, we continued to post all the BIS standards for open access, yet during that time more and more people became aware of the standards and the sales of standards by BIS went up! But, here's the thing. Government doesn't make money selling these publications, but they are hard to procure.

It turns out BIS was loosing more and more money as their sales went up. Recognising the inefficiency of this model, a senior official in the Ministry directed that the standards be made freely available on the BIS website. This outcome aligned with the very relief that had been sought; accordingly, the matter was brought before the Chief Justice of the Delhi High Court, and a request was made to withdraw the petition. The court acceded to this request and disposed of the matter.

Parliament has recently passed the Jan Vishwas law, a move to "liberate governance from the steel cage". A recent post by business leaders Manish Sabharwal (co-founder of TeamLease) and Rahul Matthan (co-founder of Trilegal) called for the removal of "shadow instruments" – edicts that are not readily available to read. In addition to judicial decisions and primary legislation, they identify a wide array of non-statutory instruments that nonetheless carry the force of law, including regulations, circulars, master circulars, departmental and ministerial directions, office memoranda, public notices, general orders, guidance notes, advisories, press releases, schemes, consultation papers, standard operating procedures, policies, notifications, guidelines, government orders, departmental orders, and gazettes.

These instruments constitute what may properly be described as "edicts of government." Courts in other jurisdictions have affirmed that such edicts belong to the people. In the United States, the Supreme Court has held that "no man shall own the law," underscoring the principle that legal materials must remain in the public domain. Similarly, in the European Union, a constitutional bench has ruled that mandatory safety standards form an integral part of the law and that ensuring public access to them is of "overriding public importance."

As part of the implementation of Jan Vishwas, Mr. Sabharwal and Mr. Matthan have suggested that all edicts of government in India be posted on a central website, such as India Code, and that any such edict not publicly accessible should be treated as null and void. This proposal is both sound and necessary, and it ought to extend expressly to public safety standards as well.

It is important, however, to distinguish such edicts from other categories of government publications. Not all documents issued by the state carry normative or binding force; many are informational or cultural in nature, including the numerous publications produced by bodies such as the Publications Division, the National Book Trust, and the Archaeological Survey of India.

Edicts of government have a special protected place in constitutional law, but works of government are any documents issued by the state, and these public works have a special importance. I have also purchased and posted thousands of such documents from the Union and State governments, and as with edicts, have over the years received a number of takedown notices. As with the Roads Congress, I have stated my position and respectfully declined to remove the documents.

In the U.S., the "works of government" clause in the copyright act states that documents issued by the federal government are not eligible for copyright. In England, the government maintains "crown copyright" but has an open government data licene permitting reuse. It would be a simple matter for India to adopt a works of government policy.

Edicts of government are the law, and must be available for democracy to function. Works of government are also vital, public knowledge paid for by the people. Making both edicts and works more readily available will enrich our society and make government ever more relevant to the citizenry. These are small steps we can all take as we walk together up that long twisted path towards a better democracy, towards that shining city on the hill.

Carl Malamud is the president and founder of Public Resource, a U.S.-based NGO and author of 9 books.

23J6. No one should own the law: why government standards should be public
किसी का भी कानून पर स्वामित्व नहीं होना चाहिए: सरकारी मानक सार्वजनिक क्यों होने चाहिए

World is moving on from paying publishers — India should too
प्रकाशकों को भुगतान करने की व्यवस्था से विश्व आगे बढ़ रहा है — भारत को भी ऐसा करना चाहिए

- As part of the implementation of the **Jan Vishwas framework**, it has been proposed that all **edicts of the government** be centrally published and that any such **edict** not publicly accessible be treated as **null and void** — a principle that should extend to **public safety standards** as well.
  जन विश्वास ढाँचे के कार्यान्वयन के अंतर्गत यह प्रस्तावित किया गया है कि सरकार के सभी **आदेशों** को केंद्रीय रूप से प्रकाशित किया जाए तथा ऐसा कोई भी **आदेश** जो सार्वजनिक रूप से उपलब्ध न हो, उसे **शून्य और अमान्य** माना जाए — यह सिद्धांत **सार्वजनिक सुरक्षा मानकों** पर भी समान रूप से लागू होना चाहिए।
- The principle that rules governing **public life** must be widely accessible is not new to India.
  यह सिद्धांत कि **सार्वजनिक जीवन** को नियंत्रित करने वाले नियम व्यापक रूप से सुलभ होने चाहिए, भारत के लिए नया नहीं है।
- The first Indian **road safety standard** dates back to **Emperor Ashoka**, who commanded that his edicts of government be broadly disseminated throughout the land.
  भारत का पहला **सड़क सुरक्षा मानक सम्राट अशोक** के काल से संबंधित माना जाता है, जिन्होंने अपने शासकीय आदेशों को पूरे देश में व्यापक रूप से प्रसारित करने का निर्देश दिया था।
- The **Seventh Pillar Edict**, now located in **Delhi**, had an extensive section on road safety.
  वर्तमान में **दिल्ली** में स्थित **सातवें स्तंभ अभिलेख** में सड़क सुरक्षा से संबंधित विस्तृत प्रावधान शामिल थे।
- Today, this work continues under the auspices of the **Indian Roads Congress**.
  आज यह कार्य **भारतीय सड़क कांग्रेस** के संरक्षण में जारी है।
- While ostensibly a **non-profit association**, it is actually an arm of the government.
  यद्यपि यह औपचारिक रूप से एक **गैर-लाभकारी संस्था** प्रतीत होती है, परंतु वास्तव में यह सरकार की एक शाखा के रूप में कार्य करती है।
- It is subject to the **Right to Information Act**.
  यह **सूचना का अधिकार अधिनियम** के अंतर्गत आती है।
- Its website is maintained by the **National Informatics Centre**, and its governing council is predominantly composed of government officials.
  इसकी वेबसाइट का संचालन **राष्ट्रीय सूचना विज्ञान केंद्र** द्वारा किया जाता है तथा इसकी संचालन परिषद मुख्यतः सरकारी अधिकारियों से मिलकर बनी है।
- It is a **law-making enterprise** with the force of the state.
  यह राज्य की शक्ति से युक्त एक **नियम-निर्माण संस्था** है।
- The **Indian Roads Congress** publishes hundreds of standards, guidelines, and specifications relating to road safety and construction.
  भारतीय सड़क कांग्रेस सड़क सुरक्षा और निर्माण से संबंधित सैकड़ों मानक, दिशा-निर्देश और विनिर्देश प्रकाशित करती है।
- These documents cover a wide range of technical matters, including route signage for national highways, vehicle design dimensions and weights, and the design of prestressed concrete road bridges.
  इन दस्तावेज़ों में राष्ट्रीय राजमार्गों के संकेतक, वाहनों के आयाम और भार, तथा पूर्वतनावित कंक्रीट सड़क पुलों के डिज़ाइन जैसे अनेक तकनीकी विषय शामिल हैं।
- These standards are widely incorporated into government practice, appearing in subordinate legislation as well as in regulations issued by various government bodies.
  इन मानकों को व्यापक रूप से सरकारी कार्यप्रणाली में शामिल किया जाता है और वे अधीनस्थ विधानों तथा विभिन्न सरकारी निकायों द्वारा जारी नियमों का हिस्सा बनते हैं।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- In India, this included posting of over **14,000 Indian Standards** issued by the **Bureau of Indian Standards**.
  भारत में इसके अंतर्गत **भारतीय मानक ब्यूरो** द्वारा जारी **14,000 से अधिक भारतीय मानकों** को सार्वजनिक रूप से उपलब्ध कराना शामिल था।
- Like the standards of the **Indian Roads Congress**, these standards are an integral part of public safety.
  भारतीय सड़क कांग्रेस के मानकों की तरह ये मानक भी सार्वजनिक सुरक्षा का अभिन्न हिस्सा हैं।
- These standards cover critical areas including the **National Building Code**, safety requirements for motorcycle helmets and drinking water, procedures for entering sewer systems, operation of agricultural and textile machinery, and construction practices in typhoon-prone regions.
  ये मानक **राष्ट्रीय भवन संहिता**, मोटरसाइकिल हेलमेट और पेयजल की सुरक्षा आवश्यकताओं, सीवर प्रणाली में प्रवेश की प्रक्रियाओं, कृषि एवं वस्त्र मशीनों के संचालन तथा चक्रवात-प्रभावित क्षेत्रों में निर्माण पद्धतियों जैसे महत्वपूर्ण क्षेत्रों को कवर करते हैं।
- Like the **Indian Roads Congress**, an elaborate law-making process is followed before an Indian Standard is issued.
  भारतीय सड़क कांग्रेस की तरह ही किसी भारतीय मानक को जारी करने से पहले विस्तृत नियम-निर्माण प्रक्रिया अपनाई जाती है।
- Recently, Parliament passed the **Jan Vishwas Act**, a move intended to "liberate governance from the steel cage".
  हाल ही में संसद ने **जन विश्वास अधिनियम** पारित किया, जिसका उद्देश्य शासन व्यवस्था को "लोहे के पिंजरे" से मुक्त करना बताया गया।
- These include regulations, circulars, master circulars, departmental directions, ministerial directions, office memoranda, public notices, general orders, guidance notes, advisories, press releases, schemes, consultation papers, standard operating procedures, policies, notifications, guidelines, government orders, departmental orders, and gazettes.
  इनमें विनियम, परिपत्र, मुख्य परिपत्र, विभागीय निर्देश, मंत्रालयी निर्देश, कार्यालय ज्ञापन, सार्वजनिक सूचनाएँ, सामान्य आदेश, मार्गदर्शक टिप्पणियाँ, परामर्श पत्र, प्रेस विज्ञप्तियाँ, योजनाएँ, विचार-विमर्श दस्तावेज़, मानक संचालन प्रक्रियाएँ, नीतियाँ, अधिसूचनाएँ, दिशा-निर्देश, सरकारी आदेश, विभागीय आदेश तथा राजपत्र सम्मिलित हैं।

Jairam writes to Sonowal, seeks clarity on Nicobar transshipment port project

GS III: Economy

NEW DELHI

Congress general secretary Jairam Ramesh has written to Union Minister Sarbanada Sonowal, seeking clarifications on the proposed International Container Transshipment Port (ICTP) at Galathea Bay on the Great Nicobar Island.

Making his letter public on Monday, Mr. Ramesh reiterated concerns over the ecological impact of the mega infrastructure project and said he was writing "as one among the very large number of people concerned with the ecological devastation that will be caused by the Great Nicobar Island Project".

Referring to discussions of the Public Private Partnership Appraisal Committee (PPPAC) held in March, the Congress leader noted that the Ministry itself had identified two major risks associated with the project

Jairam Ramesh

– "the development of a large-scale greenfield port project" and "the challenge of diverting and establishing transshipment traffic from existing well-established ports".

'Huge risks'

"I take it that these competing well-established ports are Colombo, Singapore and Port Klang. It is extraordinary that even while recognising these huge risks – quite apart from the certainty of ecological devastation that will be caused by its construction – the transshipment port is being pushed through," he said in the letter dated June 21.

Mr. Ramesh sought clarity on the proposed ownership structure of the project. Citing a PPPAC recommendation that at least 55% equity in the special purpose vehicle be held by an Indian-owned and controlled entity, he asked whether this would permit 100% private ownership or if a minimum public sector stake was envisaged.

He also questioned whether ownership would be diversified among multiple operators or whether "the airports-like situation" would be allowed.

He further asked whether the Ministry would provide viability gap funding from its own budget after the PPPAC reportedly declined the Ministry's request for such support.

Reclaiming T.N.'s fiscal autonomy

Tamil Nadu's problem today is not fiscal profligacy or corruption; the pressing problem is its model of inclusive growth itself; the real challenge is getting investment, generating decent jobs, improving wages, while actively renegotiating fiscal space with the Centre

GS III: Economy

ECONOMIC NOTES

Kalaiyarasan A.

The Government of Tamil Nadu's white paper is a comprehensive analysis of the State's financial status and economic conditions. Detailed like the white paper prepared by the Dravida Munnetra Kazhagam (DMK) in 2021, the Tamilaga Vettri Kazhagam's (TVK's) 120-page document begins with an important line: 'it is neither an exercise in retrospective blame nor a political statement'. In that spirit, this is a genuine exercise.

It indeed offers an honest account of what went wrong with tax collection: a shrinking base and leakages embedded in both revenue collection and expenditure patterns. While its diagnosis is rigorous, what is not clear, however, is how the government is going to fix the leakages and manoeuvre the welfare that it has promised during its election campaign.

Unsustainable fiscal deficit

The white paper lays bare the structural weaknesses facing Tamil Nadu's economy and outlines a possible course correction which, in that sense, has a lot more continuity than the earlier one submitted by the DMK.

Both literally state that "the current levels of fiscal deficit are unsustainable primarily because a substantial portion of the fiscal deficit is simply to fund the revenue deficit". It means the State is simply borrowing to fund current consumption rather than to create assets. To be sure, for every rupee borrowed about 60 paise goes to current consumption. But one has to be cautious in reading too much into this as substantial expenditure for health and education are under the revenue account.

In an economy, the government needs to raise resources to pay for the provision of public goods and services, build social and physical infrastructures needed for growth and protect the vulnerable from the market forces. In that sense, every policy is a political choice with losers and gainers not just within the present generation but also across generations since public debt shifts the burden of payment to future governments.

The white paper says that the State is deep in debt and its fiscal deficit is beyond the prescribed limit. On average, an individual pays about ₹38,000 in taxes to the State and the Union governments and receives about ₹54,500 worth of subsidies and services. The gap is typically funded by borrowing. The consolidated debt of each individual is then around ₹1.29 lakh, and the cumulative debt is about 28% of the State income, which is the cause for concern today.

Collapse of revenue generation

The serious concern that the report flags is not just debt but of the collapse of the revenue generation itself. While the white paper shows the account of revenue generation of the past five years, the collapse precedes this by at least a decade.

Make no mistake, Tamil Nadu was one of the few States that predominantly sustained itself on its own revenue for its expenditure – about 70% of its expenditure from its own tax in sharp contrast to States such as Bihar and Uttar Pradesh which largely rely on the Centre's transfer.

With the introduction of the GST in 2017, States have lost their autonomy on taxation. Tamil Nadu suffered the most. The State's Own Tax Revenue (SOTR) to Gross State Domestic Product (GSDP) ratio, which was 7.92% in 2011-12, has been steadily declining, and was down to 5.93% in 2021-22 and further down to 5.45% in 2025-26. The ratio reflects the State's capacity to mobilise its own tax resources relative to the size of its economy. While the white paper clearly shows that the decline is spread across all major tax heads – GST, petroleum VAT, State excise, stamp duty and motor vehicle tax, the GST alone accounts for about 53% total tax revenue. Despite having the second largest economy with the size of ₹35.29 lakh crore of GSDP, its GST collection was ₹72,008 crore lower than that of Karnataka (₹87,256 crore), and Gujarat (₹80,823 crore).

Beside the systemic corruption and inefficiencies in tax collection, the predominance of the service sector also contributed to the decline in GST collection. It appears many units within the sector are beyond the tax net.

Revenue leakages, sectoral debt

Similarly, motor vehicle tax collection has lagged since the number of vehicles registered in the State has not kept pace. Not to mention stamp duties in rent-seeking sectors such as real estate which is known for undervaluation of the property at registration and excessive leakages and corruption.

Even mining revenue is among the most striking examples of stagnation in non-tax income. Besides corruption in valuation, leakage in the assessment of minor mineral extraction also contributed to the decline.

The key sectors that drive the State in this debt trap are the power sector and transport. The power sector alone carries ₹2.47 lakh crore of debt.

The State has historically built progressive power subsidy model - taxing industries and paying for poor and farmers which have become sites of political rent-seeking tied to electoral cycles.

Beside the steady decline in its own tax collection, the State has also been increasingly losing its share in the Union transfer. For instance, Union tax devolution and grants-in-aid together constituted about 34.95% of Total Revenue Receipts in 2021-22 and it declined to 25.5% in 2025-26. Again, this decline precedes a decade. The State's share in total transfer was 5.305% in the 12th Finance Commission period, but it came down to 4.969% in the 13th Finance Commission period and fell down to 4.023% for the 16th Commission.

This declining share is due to the formula adopted by the successive Finance Commissions. The high weightage given to the per capita income distance, combined with population works to the State's disadvantage. In this sense, the State has become a victim of its own success; since per capita income distance favours poorer States by allocating them a larger share of resources, relatively developed States like Tamil Nadu receive less, effectively penalising their higher levels of economic progress. Even the weight assigned to GDP contribution by the 16th Finance Commission did not help as the formula remains unfavourable. Nor have criteria such as area and forest cover worked in the State's favour.

On the other hand, the shareable divisible pool has been shrinking thanks to the arbitrary cess and surcharges imposed by the Centre that takes away the legitimate resources of the States. In that sense, the State is a victim of both vertical and horizontal distribution.

With declining Union transfers and the erosion of its own revenue base, Tamil Nadu's government size – measured by total expenditure as a share of GSDP – has shrunk, weakening the State's fiscal capacity. Together, these factors, limit the State's ability to intervene in the economy.

As the white paper shows, about 64% of every rupee of revenue receipts in 2025-26 is pre-committed on the account of salaries, pensions and interest. With the inflexible non-discretionary obligations of 23%, the pre-committed expenditure goes up to 87% leaving little room for any additional expenditure or any new schemes. Global uncertainty or any exogenous shock could make the economy paralysed.

Debt, demography and scissors effect

This potential debt trap also comes at a time when the State is witnessing faster demographic change. It's aging faster than any other large State in India. Tamil Nadu's median age is 34.25 years – nearly 9.5 years older than Uttar Pradesh and its old-age dependency ratio is projected to increase from 20.6 in 2021 to 32.7 by 2036. This has two implications. The ability to repay the debt is limited, the paper argues, because a shrinking working-age population means a shrinking tax base. It also means the need for higher social expenditure as the share of elderly population goes up. The interaction between a rising debt stock and a shrinking working-age population can create condition for a debt trap which demographers call 'scissors effect' – the widening gap between revenue capacity and expenditure obligations.

The pressing problem

However, Tamil Nadu's problem today is not fiscal profligacy or corruption. The pressing problem is its model of inclusive growth itself. The real challenge thus is getting investment, generating decent jobs, improving wages, while actively renegotiation fiscal space with the Centre. The welfare architecture that the State has built is not enough.

Educated youth who rallied behind the TVK are not seeking more welfare, but decent jobs and wages. Welfare can't be a substitute for jobs and wages. It is time to get the growth fundamentals right, which require investment in education, health, and public infrastructure. Chief Minister Joseph Vijay thus has the enormous responsibility not only to put the inclusive growth model back on track, but also to reclaim fiscal autonomy from the Centre.

Kalaiyarasan A. is Associate Professor, Madras Institute of Development Studies

A delicate equation: Tamil Nadu Chief Minister Joseph Vijay with Prime Minister Narendra Modi in New Delhi. Mr. Vijay has the enormous responsibility to not only put the State's inclusive growth model back on track, but also to reclaim fiscal autonomy from the Centre. @PMOINDIA X

THE GIST

- The white paper lays bare the structural weaknesses facing Tamil Nadu's economy and outlines a possible course correction which, in that sense has a lot more continuity than the earlier one submitted by the DMK.
- The serious concern that the report flags is not just debt but of the collapse of the revenue generation itself. While the white paper shows the account of revenue generation of the past five years, the collapse precedes this by at least a decade.
- Despite having the second largest economy with the size of ₹35.29 lakh crore of GSDP, its GST collection was ₹72,008 crore lower than that of Karnataka and Gujarat.

23J6. Reclaiming T.N.'s fiscal autonomy
तमिलनाडु की राजकोषीय स्वायत्तता की पुनर्प्राप्ति

- **Tamil Nadu's** problem today is not **fiscal profligacy** or **corruption**; the pressing problem is its model of **inclusive growth** itself; the real challenge is getting **investment**, generating **decent jobs**, improving **wages**, while actively renegotiating **fiscal space** with the **Centre**.
आज **तमिलनाडु** की समस्या **राजकोषीय अपव्यय** या **भ्रष्टाचार** नहीं है; वास्तविक और गंभीर समस्या उसके **समावेशी विकास** के मॉडल से जुड़ी है; असली चुनौती **निवेश** आकर्षित करने, **सम्मानजनक रोजगार** सृजित

करने, **वेतनों** में सुधार लाने तथा **केंद्र सरकार** के साथ **राजकोषीय संसाधनों के दायरे** पर सक्रिय रूप से पुनर्विचार एवं पुनः वार्ता करने की है।

- It indeed offers an honest account of what went wrong with **tax collection**: a shrinking base and leakages embedded in both **revenue collection** and **expenditure patterns**.
  यह वास्तव में इस बात का ईमानदार विवरण प्रस्तुत करता है कि **कर संग्रहण** में क्या गलत हुआ — कराधान का सिकुड़ता आधार तथा **राजस्व संग्रहण** और **व्यय संरचना** दोनों में अंतर्निहित रिसाव।

Collapse of revenue generation
राजस्व सृजन का पतन

- About **70%** of its expenditure came from its own tax revenue in sharp contrast to States such as **Bihar** and **Uttar Pradesh**, which largely rely on the Centre's transfers.
  इसके कुल व्यय का लगभग **70 प्रतिशत** भाग इसके स्वयं के कर राजस्व से आता था, जबकि **बिहार** और **उत्तर प्रदेश** जैसे राज्य मुख्यतः केंद्र से प्राप्त हस्तांतरणों पर निर्भर रहते हैं।
- With the introduction of the **Goods and Services Tax** in **2017**, States have lost their autonomy on taxation.
  वस्तु एवं सेवा कर की **2017** में शुरुआत के साथ राज्यों ने कराधान संबंधी अपनी स्वायत्तता का एक बड़ा हिस्सा खो दिया।
- **Tamil Nadu** suffered the most.
  इसका सर्वाधिक प्रभाव **तमिलनाडु** पर पड़ा।
- The **State's Own Tax Revenue to Gross State Domestic Product ratio**, which was **7.92%** in **2011-12**, has been steadily declining, and was down to **5.93%** in **2021-22** and further down to **5.45%** in **2025-26**.
  राज्य के स्वयं के कर राजस्व और सकल राज्य घरेलू उत्पाद के अनुपात का स्तर **2011-12** में **7.92 प्रतिशत** था, जो लगातार घटते हुए **2021-22** में **5.93 प्रतिशत** और **2025-26** में **5.45 प्रतिशत** रह गया।
- While the white paper clearly shows that the decline is spread across all major tax heads — **GST, petroleum VAT, State excise, stamp duty and motor vehicle tax** — the **GST** alone accounts for about **53%** of total tax revenue.
  श्वेत पत्र स्पष्ट रूप से दर्शाता है कि गिरावट **वस्तु एवं सेवा कर, पेट्रोलियम मूल्य वर्धित कर, राज्य उत्पाद शुल्क, मुद्रांक शुल्क तथा मोटर वाहन कर** सहित सभी प्रमुख कर स्रोतों में दिखाई देती है, जबकि अकेले **वस्तु एवं सेवा कर** का योगदान कुल कर राजस्व का लगभग **53 प्रतिशत** है।
- Despite having the second largest economy with a size of **₹35.29 lakh crore** of Gross State Domestic Product, its GST collection was **₹72,008 crore** lower than that of **Karnataka** and **₹80,823 crore** lower than that of **Gujarat**.
  ₹35.29 लाख करोड़ के सकल राज्य घरेलू उत्पाद के साथ देश की दूसरी सबसे बड़ी अर्थव्यवस्था होने के बावजूद, इसका वस्तु एवं सेवा कर संग्रह **कर्नाटक** की तुलना में **₹72,008 करोड़** तथा **गुजरात** की तुलना में **₹80,823 करोड़** कम रहा।

Revenue leakages, sectoral debt
राजस्व रिसाव और क्षेत्रीय ऋण

- Similarly, **motor vehicle tax** collection has lagged since the number of vehicles registered in the State has not kept pace.
  इसी प्रकार **मोटर वाहन कर** संग्रह भी अपेक्षित स्तर तक नहीं पहुँच पाया है क्योंकि राज्य में पंजीकृत वाहनों की संख्या उसी अनुपात में नहीं बढ़ी है।
- Not to mention **stamp duties** in rent-seeking sectors such as **real estate**, which is known for undervaluation of property at registration and excessive leakages and corruption.
  इसके अतिरिक्त **अचल संपत्ति क्षेत्र** जैसे लाभ-उन्मुख क्षेत्रों में **मुद्रांक शुल्क** संग्रह भी प्रभावित हुआ है, जहाँ

संपत्तियों का पंजीकरण के समय कम मूल्यांकन, अत्यधिक रिसाव और भ्रष्टाचार सामान्य समस्या मानी जाती है।

- Even **mining revenue** is among the most striking examples of stagnation in non-tax income.
  यहाँ तक कि **खनन राजस्व** भी गैर-कर आय में ठहराव के सबसे उल्लेखनीय उदाहरणों में से एक है।
- Besides corruption in valuation, leakage in the assessment of **minor mineral extraction** also contributed to the decline.
  मूल्यांकन में भ्रष्टाचार के अतिरिक्त **लघु खनिजों के उत्खनन** के आकलन में होने वाले रिसाव ने भी इस गिरावट में योगदान दिया।
- The key sectors that drive the State into this **debt trap** are the **power sector** and **transport sector**.
  राज्य को इस **ऋण जाल** में धकेलने वाले प्रमुख क्षेत्र **विद्युत क्षेत्र** और **परिवहन क्षेत्र** हैं।
- The **power sector** alone carries **₹2.47 lakh crore** of debt.
  अकेले **विद्युत क्षेत्र** पर **₹2.47 लाख करोड़** का ऋण भार है।

Revenue leakages, sectoral debt
राजस्व रिसाव और क्षेत्रीय ऋण

- For instance, **Union tax devolution** and **grants-in-aid** together constituted about **34.95%** of Total Revenue Receipts in **2021-22** and declined to **25.5%** in **2025-26**.
  उदाहरण के लिए, **2021-22** में **केंद्रीय करों में हिस्सेदारी** और **अनुदान सहायता** मिलाकर कुल राजस्व प्राप्तियों का लगभग **34.95 प्रतिशत** थीं, जो **2025-26** में घटकर **25.5 प्रतिशत** रह गईं।
- Again, this decline precedes a decade.
  एक बार फिर, यह गिरावट भी पिछले एक दशक से जारी प्रवृत्ति का परिणाम है।
- The State's share in total transfer was **5.305%** in the **Twelfth Finance Commission** period, but it came down to **4.969%** in the **Thirteenth Finance Commission** period and fell to **4.023%** under the **Sixteenth Finance Commission**.
  कुल केंद्रीय हस्तांतरणों में राज्य की हिस्सेदारी **बारहवें वित्त आयोग** की अवधि में **5.305 प्रतिशत** थी, जो **तेरहवें वित्त आयोग** की अवधि में घटकर **4.969 प्रतिशत** हो गई और **सोलहवें वित्त आयोग** के अंतर्गत **4.023 प्रतिशत** तक पहुँच गई।
- This declining share is due to the formula adopted by the successive **Finance Commissions**.
  इस घटती हिस्सेदारी का प्रमुख कारण विभिन्न **वित्त आयोगों** द्वारा अपनाया गया वितरण सूत्र है।
- The high weightage given to the **per capita income distance**, combined with population, works to the State's disadvantage.
  प्रति व्यक्ति आय अंतर को दिया गया अधिक महत्व तथा जनसंख्या आधारित मानदंड राज्य के प्रतिकूल कार्य करते हैं।
- Even the weight assigned to **Gross Domestic Product contribution** by the **Sixteenth Finance Commission** did not help as the formula remains unfavourable.
  यहाँ तक कि **सोलहवें वित्त आयोग** द्वारा **सकल घरेलू उत्पाद में योगदान** को दिया गया महत्व भी राज्य के लिए लाभकारी सिद्ध नहीं हुआ, क्योंकि समग्र वितरण सूत्र अभी भी प्रतिकूल बना हुआ है।
- Nor have criteria such as **area** and **forest cover** worked in the State's favour.
  इसी प्रकार **क्षेत्रफल** और **वन आच्छादन** जैसे मानदंड भी राज्य के पक्ष में नहीं गए हैं।
- In that sense, the State is a victim of both **vertical** and **horizontal distribution**.
  इस प्रकार राज्य **ऊर्ध्वाधर** तथा **क्षैतिज वित्तीय वितरण** दोनों व्यवस्थाओं का प्रभावित पक्ष बन गया है।

Debt, demography and scissors effect
ऋण, जनसांख्यिकी और कैंची प्रभाव

- The ability to repay the debt is limited, the paper argues, because a shrinking **working-age population** means a shrinking **tax base**.

श्वेत पत्र के अनुसार ऋण चुकाने की क्षमता सीमित होती जाएगी, क्योंकि **कार्यशील आयु वर्ग की जनसंख्या** में कमी का अर्थ है **कराधार** का सिकुड़ना।

- It also means the need for higher **social expenditure** as the share of the elderly population goes up.
  इसका यह भी अर्थ है कि वृद्ध जनसंख्या के बढ़ते अनुपात के साथ **सामाजिक व्यय** की आवश्यकता भी बढ़ेगी।
- The interaction between a rising **debt stock** and a shrinking working-age population can create conditions for a debt trap which demographers call the **'scissors effect'**.
  बढ़ते हुए **ऋण भार** और घटती कार्यशील आयु जनसंख्या का परस्पर प्रभाव ऐसी स्थिति उत्पन्न कर सकता है जिसे जनसांख्यिकी विशेषज्ञ **'कैंची प्रभाव'** कहते हैं।
- It refers to the widening gap between **revenue capacity** and **expenditure obligations**.
  यह **राजस्व जुटाने की क्षमता** और **व्यय दायित्वों** के बीच बढ़ते अंतर को दर्शाता है।

Net FDI jumped to $6.6 bn in April, highest in nearly 5 years

GS III: Economy

T.C.A. Sharad Raghavan
NEW DELHI

Net FDI rose to $6.6 billion in April 2026, its highest level in nearly five years, driven by a 65% surge in gross inflows, an analysis of official data shows.

In other words, the data released by the Reserve Bank of India on Monday shows that the total amount of direct investment that entered the country in April 2026 exceeded the amount leaving it by $6.6 billion. The corresponding figure in March 2026 was $917 million. April's net FDI figure was the highest since May 2021.

The surge in gross inflows even overshadowed the fact that outward FDI by Indian companies also rose to a historic high in April 2026.

Nevertheless, the data for April marks a significant turnaround from just a few months ago, since net FDI had been negative for six consecutive months up to February 2026.

Gross FDI in April 2026, or the total amount of direct investment that entered the country that month, surged to $15.3 billion – the highest since at least March 2021, the earliest month for which data is easily available.

This figure was 65% higher than in April last year, and 131% higher than in March 2026.

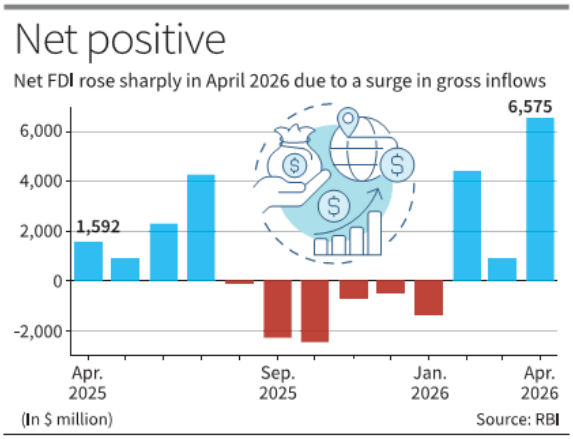
To further put this figure into context, the gross FDI inflows in the single month of April 2026 was more than 16% of the amount that came in the entire financial year 2025-26.

"Source wise, more than 75% of the FDI flows came from Japan, Singapore and Mauritius," the RBI said in its monthly bulletin report.

Slower outflow growth

Gross outflows rose, too, but at a significantly slower pace, to $8.7 billion in April 2026 from $7.7 billion in April last year – a growth of 13.7%. Within this, outward FDI by Indian companies rose nearly 42% in April 2026 to $4.8 billion, the highest level since at least March 2021.

"As regards outward FDI, around 80% of the flows were directed to the U.S. and the Cayman Islands," the RBI said.



23J6. Net FDI jumped to $6.6 bn in April, highest in nearly 5 years

अप्रैल में शुद्ध FDI बढ़कर 6.6 अरब डॉलर हुआ, लगभग 5 वर्षों में सबसे उच्च स्तर

- **Net FDI** rose to **$6.6 billion** in April 2026, its highest level in nearly **five years**, driven by a **65% surge** in **gross inflows**, an analysis of official data shows.
  आधिकारिक आंकड़ों के विश्लेषण से पता चलता है कि **सकल प्रवाह** में **65% की वृद्धि** के कारण अप्रैल 2026 में **शुद्ध FDI** बढ़कर **6.6 अरब डॉलर** हो गया, जो लगभग **पांच वर्षों** में इसका सबसे ऊँचा स्तर है।
- In other words, the data released by the **Reserve Bank of India** on Monday shows that the total amount of **direct investment** that entered the country in April 2026 exceeded the amount leaving it by **$6.6 billion**.
  दूसरे शब्दों में, सोमवार को **भारतीय रिज़र्व बैंक** द्वारा जारी आंकड़ों से पता चलता है कि अप्रैल 2026 में देश में आने वाला कुल **प्रत्यक्ष निवेश** देश से बाहर जाने वाली राशि से **6.6 अरब डॉलर** अधिक था।
- The corresponding figure in March 2026 was **$917 million**.
  मार्च 2026 में यह संबंधित आंकड़ा **917 मिलियन डॉलर** था।

- April's **net FDI** figure was the highest since **May 2021**.
  अप्रैल का **शुद्ध FDI** आंकड़ा **मई 2021** के बाद सबसे अधिक था।
- The surge in **gross inflows** even overshadowed the fact that **outward FDI** by Indian companies also rose to a **historic high** in April 2026.
  सकल निवेश प्रवाह में वृद्धि इतनी अधिक थी कि इसने इस तथ्य को भी पीछे छोड़ दिया कि भारतीय कंपनियों का **बाहरी FDI** भी अप्रैल 2026 में **ऐतिहासिक उच्च स्तर** पर पहुँच गया।
- "Source wise, more than **75%** of the **FDI flows** came from **Japan, Singapore and Mauritius**," the RBI said in its monthly bulletin report.
  RBI ने अपनी मासिक बुलेटिन रिपोर्ट में कहा, "स्रोत के आधार पर **FDI प्रवाह** का **75% से अधिक** हिस्सा **जापान, सिंगापुर और मॉरीशस** से आया।"

Slower outflow growth
निवेश बहिर्वाह की धीमी वृद्धि

- **Gross outflows** rose, too, but at a significantly slower pace, to **$8.7 billion** in April 2026 from **$7.7 billion** in April last year — a growth of **13.7%**.
  सकल बहिर्वाह भी बढ़ा, लेकिन अपेक्षाकृत धीमी गति से। यह अप्रैल 2025 के **7.7 अरब डॉलर** से बढ़कर अप्रैल 2026 में **8.7 अरब डॉलर** हो गया, जो **13.7% वृद्धि** दर्शाता है।
- "As regards **outward FDI**, around **80%** of the flows were directed to the **U.S.** and the **Cayman Islands**," the RBI said.
  RBI ने कहा, "**बाहरी FDI** के संदर्भ में, लगभग **80%** निवेश प्रवाह **अमेरिका** और **केमैन द्वीप समूह** की ओर निर्देशित था।"

Cred founder Kunal Shah named WhatsApp chief

GS III: Economy

.Hindu Bureau
NEW DELHI

Kunal Shah

WhatsApp will be headed by Cred founder Kunal Shah, starting as early as this week, the messaging platform announced, marking elevation of the serial fintech entrepreneur to the leadership of the world's largest messaging platform.

WhatsApp parent Meta, which also owns Instagram and Facebook, will invest $900 million (about ₹8,550 crore) in Cred as a part of this hire, enabling Cred to move forward with ESOP buybacks. As Cred's CEO, a post to be held on an interim basis by senior executive Miten Sampat, Mr. Shah oversaw the service's growth to a user base that covered over a third of India's credit card bill payments, targeting the most affluent Indians. "Meta's $900M minority investment is a booster in our plans to build an enduring institution with an eventual public listing," Mr. Sampat said on X.

"Meta will be a passive financial investor with no access to customer data." While WhatsApp has more than three billion users globally, a plurality in India, the firm is yet to seriously monetise access. That's where Mr. Shah comes in. In a statement, he indicated his role would be to move the platform to that stage."While [the app has] come very far, the delta between WhatsApp today and its full potential is massive," he said. Will Cathcart, who led WhatsApp for seven years and taken vocal positions on app's commitment to end-to-end encryption and held spyware makers who target the application accountable, will stay at Meta in other roles, Meta CEO Mark Zuckerberg said.

Before founding Cred, Mr. Shah founded startups such as PaisaBack, focused on cashbacks in 2009 and FreeCharge, a mobile wallet acquired by Snapdeal in 2015. He was an angel investor on the back of the ballooning valuations of his past ventures and had taken stakes in firms across the fintech ecosystem.

23J6. Cred founder Kunal Shah named WhatsApp chief
क्रेड के संस्थापक कुणाल शाह बने व्हाट्सऐप प्रमुख

- **WhatsApp** will be headed by **Cred founder Kunal Shah**, starting as early as this week, the messaging platform announced, marking the elevation of the serial **fintech entrepreneur** to the leadership of the world's largest messaging platform.
  व्हाट्सऐप का नेतृत्व अब **क्रेड के संस्थापक कुणाल शाह** करेंगे, और यह जिम्मेदारी इसी सप्ताह से शुरू हो सकती है। मैसेजिंग प्लेटफ़ॉर्म ने इसकी घोषणा करते हुए कहा कि इससे इस प्रसिद्ध **फिनटेक उद्यमी** को दुनिया के सबसे बड़े मैसेजिंग प्लेटफ़ॉर्म का नेतृत्व सौंपा गया है।
- **WhatsApp parent Meta**, which also owns **Instagram** and **Facebook**, will invest **$900 million** (about **₹8,550 crore**) in Cred as a part of this hire, enabling Cred to move forward with **ESOP buybacks**.
  व्हाट्सऐप की मूल कंपनी मेटा, जो **इंस्टाग्राम** और **फेसबुक** की भी मालिक है, इस नियुक्ति के हिस्से के रूप में क्रेड में **900 मिलियन डॉलर** (लगभग **8,550 करोड़ रुपये**) का निवेश करेगी, जिससे क्रेड को **ESOP बायबैक** आगे बढ़ाने में मदद मिलेगी।

- As Cred's **CEO**, a post to be held on an interim basis by senior executive **Miten Sampat**, Mr. Shah oversaw the service's growth to a user base that covered over a third of India's **credit card bill payments**, targeting the most affluent Indians.
  क्रेड के **CEO** के रूप में, जिसका पद फिलहाल वरिष्ठ अधिकारी **मितेन संपत** अंतरिम आधार पर संभालेंगे, श्री शाह ने इस सेवा को ऐसे उपयोगकर्ता आधार तक पहुँचाया जो भारत के **क्रेडिट कार्ड बिल भुगतान** का एक-तिहाई से अधिक हिस्सा कवर करता था और सबसे समृद्ध भारतीयों को लक्षित करता था।
- Before founding Cred, Mr. Shah founded startups such as **PaisaBack**, focused on **cashbacks** in 2009 and **FreeCharge**, a mobile wallet acquired by **Snapdeal** in 2015.
  क्रेड की स्थापना से पहले, श्री शाह ने **PaisaBack** जैसे स्टार्टअप की स्थापना की थी, जो 2009 में **कैशबैक** पर केंद्रित था, और **FreeCharge**, एक मोबाइल वॉलेट, जिसे **स्नैपडील** ने 2015 में अधिग्रहित कर लिया था।
- He was an **angel investor** on the back of the ballooning valuations of his past ventures and had taken stakes in firms across the **fintech ecosystem**.
  वह अपने पूर्व उपक्रमों के बढ़ते मूल्यांकन के आधार पर एक **एंजेल निवेशक** भी बने और उन्होंने **फिनटेक इकोसिस्टम** की अनेक कंपनियों में हिस्सेदारी ली।

EU courts Brazil as strategic partner in global race for critical minerals

GS III: Economy

Reuters
RIO DE JANEIRO

The European Union is turning to Brazil as a strategic partner in its push to diversify its critical mineral supplies, offering a deal that it says will be beneficial to Brazil's development goals, EU Commissioner for International Partnerships Jozef Sikela told *Reuters* on Saturday.

The commissioner visited the rare earth research and processing centre of Australian mining company Viridis Mining and Minerals, in Poços de Caldas, in Minas Gerais, one of four priority projects selected to accelerate collaboration between the EU and Brazil. Mr. Sikela said the European approach emphasises sustainable business and local rare earth processing, aligning with Brazil's push to export higher-value processed minerals instead of raw materials from a sector in which it holds the world's second-largest critical mineral reserves.

Jozef Sikela, left, and Viridis CEO Rafael Moreno look at samples at the Viridis rare earth research centre in Brazil. REUTERS

"What is extremely important is that also Brazil moves from the like a low-margin business so basically that the value is created here in the country," he said, highlighting that Brazil is currently the EU's most strategic partner in Latin America and a growing economy.

Mr. Sikela said the partnership would allow the EU to secure supplies through purchase agreements while helping Brazil build refining capacity, access new tech and move up the supply chain into higher-margin production.

Viridis' pilot mining project in Minas Gerais, inaugurated in May, can process 100 kilograms of ore per hour and produce upto 2.92 kg of mixed rare earth carbonate (MREC) annually.

Viridis' progress in Brazil comes amid a global race for rare earths and critical minerals, as Europe and the U.S. seek to reduce their dependence on China – the largest producer – for materials vital to electric vehicles and defence systems.

23J6. EU courts Brazil as strategic partner in global race for critical minerals
महत्वपूर्ण खनिजों की वैश्विक दौड़ में यूरोपीय संघ ने ब्राज़ील को रणनीतिक साझेदार के रूप में चुना

- Mr. Sikela said the **European approach** emphasises **sustainable business** and local **rare earth processing**, aligning with Brazil's push to export higher-value processed minerals instead of raw materials from a sector in which it holds the world's **second-largest critical mineral reserves**.
  श्री सिकेला ने कहा कि **यूरोपीय दृष्टिकोण सतत व्यवसाय** और स्थानीय **दुर्लभ मृदा प्रसंस्करण** पर बल देता है,

जो ब्राज़ील की उस नीति के अनुरूप है जिसके तहत वह कच्चे माल के बजाय अधिक मूल्य वाले प्रसंस्कृत खनिजों का निर्यात करना चाहता है। ब्राज़ील के पास दुनिया का **दूसरा सबसे बड़ा महत्वपूर्ण खनिज भंडार** है।

- Viridis' pilot mining project in **Minas Gerais**, inaugurated in **May**, can process **100 kilograms of ore per hour** and produce up to **2.92 kg of mixed rare earth carbonate (MREC)** annually.
  मई में उद्घाटित **मिनास गैरैस** स्थित Viridis की पायलट खनन परियोजना प्रति घंटे **100 किलोग्राम अयस्क** का प्रसंस्करण कर सकती है और प्रतिवर्ष **2.92 किलोग्राम मिश्रित दुर्लभ मृदा कार्बोनेट (MREC)** का उत्पादन कर सकती है।

World is moving on from paying publishers – India should too

The geopolitics of scholarly publishing has shifted more in the past 18 months than in the past two decades; China is building sovereignty, the U.S. is scrutinising costs, Australia is prioritising immediate access, Europe and Africa are building public infrastructure, but where is India?

Moumita Koley

A number of activities are underway in the global scholarly publishing policy space. Within a span of 18 months, from late 2024 to mid-2026, the United States has placed the economics of academic publishing under Congressional scrutiny, Australia has mandated immediate open access to all publicly funded peer-reviewed research, Europe has launched a publicly owned publishing platform called Open Research Europe, and China has begun building an integrated domestic scholarly publishing ecosystem explicitly designed to redirect research prestige and publishing revenue away from foreign publishers.

India, meanwhile, committed ₹6,000 crore over three years to pay those same publishers for access to knowledge – a considerable part of which was generated by its own researchers.

The contrast is not incidental. It reflects an essential divergence in how the world's major research-producing nations are thinking about knowledge sovereignty. And it raises a question India's science policy community has not yet answered with sufficient seriousness: what comes after 'One Nation One Subscription' – and are we really building towards it?

The European Commission has concluded that the long-term solution is to create publicly owned publishing infrastructure and remove commercial publishers from the equation entirely. A view of the Maughan Library round reading room at King's College London. COLIN (CC BY-SA)

Building sovereignty

As Ashutosh Ghildiyal, Ning Zhang, Gareth Dyke, and Yanli Wang wrote in *The Scholarly Kitchen*, China's strategy is elaborate. In its vision, the country is no longer simply a major contributor to global research output but is increasingly a central actor shaping the future of scholarly publishing.

To that end, China is changing research evaluation practices by discouraging metrics like the 'impact factor', investing in journal infrastructure, instituting a credible peer-review system, and increasing international visibility. (A journal's impact factor is meant to show its impact on the field based on how much the papers it publishes are cited.) As a result, China wishes to position its domestic journals to compete globally.

The country has also made policy choices to encourage Chinese researchers to publish in domestic journals. They include evaluating research by its quality rather than by the journal it appeared in and paying attention to whether research is addressing national needs.

As part of this upgrade, the second phase of its Journal Excellence Action Plan, China is building an integrated scholarly publishing ecosystem in which funding, publication venues, evaluation systems, editorial networks, and policy incentives reinforce one another. As a result, it plans to create more than 400 world-class Chinese-owned journals, capture publishing revenues currently flowing to foreign publishers, and establish Chinese platforms as credible alternatives to the likes of *Nature*, *Science*, and *Cell*.

The Chinese Academy of Sciences, which has more than 50,000 researchers across 100 institutes, also announced in early 2026 that it would stop paying article processing charges (APCs) for more than 30 high-cost international journals, explicitly including *Nature Communications*, *Science Advances*, and *Cell Reports*. The APC is a fee levied by journals to publish open-access papers; the fee is supposed to 'compensate' the revenue the journal will lose since others won't have to buy the paper to read it. Each of these three journals charges over $5,000 per paper in APCs.

The message to publishers is clear: China will not subsidise the prestige economy of foreign publishers while building its own. The message to its researchers is equally clear: publishing in domestic journals will count for career progression and should not be treated as a second-class choice.

Checking expenses

The situation in the U.S. is more volatile and ideologically complex. A congressional hearing in April brought together lawmakers, researchers, and publishing industry representatives to examine the rise of paper mills and the costs of open-access publishing. The questions included whether the U.S. government is getting enough value for the billions it spends annually on journal subscriptions and APCs, and whether the current system serves the public interest.

The Office of Management and Budget proposed curtailing the subscription and journal publication costs, including APCs and other fees, and suggested disallowing them under federal awards. While policy has yet to be changed, the fact remains that the U.S. government is viewing journal publishers' profits – and whose margins rival those of Big Tech – as a fiscal and transparency concern rather than solely as an open-access one.

This scrutiny offers both a policy opportunity and a cautionary tale for India. If the world's two most powerful research-funders are reconsidering what they are paying for scholarly publishing, the negotiating environment that has kept publisher pricing confidential and non-negotiable is beginning to shift.

A clear new mandate

As it happens, Australia has moved with the least ambiguity of any major research system. The Australian Research Council (ARC) Open Access Policy, especially the v2026.1 update, takes effect on July 1, 2026, and requires journal articles and conference papers arising from ARC-funded research to be made openly accessible immediately upon publication, with no exceptions.

Crucially, the compliance burden falls on the organisations administering the grants – i.e. the universities and research institutions. The policy is aligned with large international funding bodies such as the U.S. National Institutes of Health and the Wellcome Trust in the U.K. This matters because it means that when Australian researchers co-author with U.S. or U.K. colleagues, a single rights-retention approach serves all funder requirements simultaneously, reducing the transaction costs that have previously allowed publishers to exploit policy fragmentation across borders.

The ARC first introduced its policy in 2013, and the 2026 version represents the culmination of a decade-long trajectory from encouragement to hard mandate. It is also careful to mention green open access: once ready, a copy of the paper will be archived in an openly accessible repository. Aside from guaranteeing access, doing so will also allow the paper's authors to retain the rights to it.

Publicly owned infrastructure

Europe's approach is also ambitious and relevant to what India should be building towards. Instead of negotiating with existing publishers – including the 'One Nation One Subscription' scheme – or requiring researchers to publish their papers to be open access by paying an APC, the European Commission has concluded that the long-term solution is to create publicly owned publishing infrastructure that removes commercial publishers from the equation entirely.

Open Research Europe, which is the European Commission's own publishing platform, is entering a new phase backed by a nearly €17 million budget for 2026-2031, co-funded by the European Commission by up to €10 million. The operating platform will be provided by the European Organisation for Nuclear Research (better known as CERN). The platform is expected to begin operating as a collectively supported publishing service later this year. Once it is live, researchers from 11 participating national research systems – Austria, France, Germany, Italy, the Netherlands, Norway, Portugal, Slovenia, Spain, Sweden, and Switzerland – will be able to publish without paying.

India's stated ambition to become more self-sufficient is inconsistent with indefinitely subsidising a small group of foreign commercial publishers to access knowledge produced by Indian researchers with Indian public funds

This is open access but it is also the European research ecosystem taking back the publishing function that it had outsourced to commercial publishers over the last four decades.

In parallel with Open Research Europe, Europe has operationalised the diamond open access model at scale. In this paradigm, a journal publishes open access papers without levying an APC; the costs are instead borne by the funders and the research institutions. With some support from the French National Research Agency, the European Diamond Capacity Hub needs to strengthen diamond open-access publishing infrastructure across Europe.

What ONOS does and does not do

India's 'One Nation One Subscription' (ONOS) scheme, which has been operational since January 2025, was a genuine step forward in addressing a real and urgent problem. ONOS provides access to more than 13,000 journals from 30 publishers to approximately 6,300 government, academic, and research institutions at a total committed budget of ₹6,000 crore over three years (2025-2027). For researchers at tier-2 and tier-3 institutions who have never had access to the journals their fields require, this is transformative.

However, while ONOS solves the reading problem, it does not address the publishing problem. ONOS comes with an APC fund of ₹150 crore per year, replenished from what India allocates for research, which is already dwindling. Further, with more than half of research worldwide already being freely accessible, a significant proportion of what ONOS is paying to access is already available at zero cost. That is, India is partly paying ₹6,000 crore to access content that is already free and partly to subsidise a subscription model whose foundations are being dismantled everywhere else in the world.

The structural problem runs deeper. ONOS is opaque on publisher pricing, protection against future cost inflation, investment in Indian journals, and a post-2027 strategy. Every future negotiation is to be conducted from a position of demonstrated dependence, with journal publishers aware that India has no credible alternative – and that the political cost of losing ONOS access is too high for any government to bear.

In this sense, ONOS should be seen as a bridge, not a destination.

India's stated ambition to become more self-sufficient is inconsistent with indefinitely subsidising a small group of foreign commercial publishers to access knowledge produced by Indian researchers with Indian public funds. A better strategy would be to combine immediate green open-access mandates for publicly funded research, rights retention policies for researchers, more investments in Indian journals and publishing platforms, transparent APC expenses, and participating in international efforts to develop community-governed publishing infrastructure.

Window is now

The geopolitics of scholarly publishing has shifted more in the last 18 months than in the last two decades. China is building sovereignty. The U.S. is scrutinising costs. Australia is prioritising immediate access. Europe is building public infrastructure. Africa is also moving forward with local infrastructure, and Latin America was and still is the leader in self-reliant, community-governed local publishing infrastructure.

The direction of change across every major research system is the same: away from commercial dependencies and towards public ownership, public access, and public benefits.

In this context, India has both an opportunity and a time constraint. ONOS has established that the Government of India recognises knowledge access as a public good worth funding at scale. The Anusandhan National Research Foundation also has a mandate to reform the conditions in which Indian science reports its findings. Thus, India has the political legitimacy to push back against publishers' pricing in ways that would have seemed radical five years ago.

23J6. World is moving on from paying publishers — India should too

प्रकाशकों को भुगतान करने की व्यवस्था से विश्व आगे बढ़ रहा है — भारत को भी ऐसा करना चाहिए

- Within a span of **18 months**, from late **2024** to mid-**2026**, the **United States** has placed the economics of academic publishing under Congressional scrutiny, **Australia** has mandated immediate open access to all publicly funded peer-reviewed research, **Europe** has launched a publicly owned publishing platform called **Open Research Europe**, and **China** has begun building an integrated domestic scholarly publishing ecosystem explicitly designed to redirect research prestige and publishing revenue away from foreign publishers.

देर **2024** से मध्य-**2026** तक के **18 महीनों** की अवधि में, **संयुक्त राज्य अमेरिका** ने शैक्षणिक प्रकाशन के अर्थशास्त्र को कांग्रेस की समीक्षा के अधीन रखा है, **ऑस्ट्रेलिया** ने सार्वजनिक रूप से वित्तपोषित सभी सहकर्मी-समीक्षित अनुसंधानों के लिए तत्काल मुक्त पहुँच अनिवार्य कर दी है, **यूरोप** ने **Open Research Europe** नामक एक सार्वजनिक स्वामित्व वाला प्रकाशन मंच प्रारम्भ किया है, और **चीन** ने एक एकीकृत घरेलू विद्वतापूर्ण प्रकाशन पारिस्थितिकी तंत्र का निर्माण आरम्भ किया है, जिसका स्पष्ट उद्देश्य अनुसंधान प्रतिष्ठा और प्रकाशन राजस्व को विदेशी प्रकाशकों से हटाना है।

- **India**, meanwhile, committed **₹6,000 crore** over three years to pay those same publishers for access to knowledge — a considerable part of which was generated by its own researchers.

इस बीच, **भारत** ने तीन वर्षों में **₹6,000 करोड़** उन ही प्रकाशकों को ज्ञान तक पहुँच के लिए भुगतान करने हेतु आवंटित किए — जबकि उस ज्ञान का एक बड़ा भाग उसके अपने शोधकर्ताओं द्वारा उत्पन्न किया गया था।

- The contrast is not incidental.
  यह अंतर आकस्मिक नहीं है।
- It reflects an essential divergence in how the world's major research-producing nations are thinking about **knowledge sovereignty**.

international efforts to develop **community-governed publishing infrastructure**.
एक बेहतर रणनीति यह होगी कि सार्वजनिक रूप से वित्तपोषित अनुसंधान के लिए तत्काल **ग्रीन ओपन एक्सेस अनिवार्यता**, शोधकर्ताओं के लिए **अधिकार-संरक्षण नीतियाँ**, भारतीय पत्रिकाओं एवं प्रकाशन मंचों में अधिक निवेश, **APC व्ययों में पारदर्शिता**, तथा **समुदाय-शासित प्रकाशन अवसंरचना** विकसित करने के अंतरराष्ट्रीय प्रयासों में सहभागिता को संयुक्त रूप से अपनाया जाए।

Window is now
अवसर की खिड़की अभी खुली है

- The direction of change across every major research system is the same: away from **commercial dependencies** and towards **public ownership, public access, and public benefits**.
  सभी प्रमुख अनुसंधान प्रणालियों में परिवर्तन की दिशा समान है: **वाणिज्यिक निर्भरताओं** से दूर और **सार्वजनिक स्वामित्व, सार्वजनिक पहुँच तथा सार्वजनिक लाभ** की ओर।
- **ONOS** has established that the **Government of India** recognises knowledge access as a **public good** worth funding at scale.
  ONOS ने यह स्थापित किया है कि **भारत सरकार** ज्ञान तक पहुँच को एक ऐसे **सार्वजनिक हितकारी संसाधन** के रूप में मान्यता देती है, जिस पर बड़े पैमाने पर निवेश किया जाना उचित है।
- The **Anusandhan National Research Foundation** also has a mandate to reform the conditions in which Indian science reports its findings.
  अनुसंधान नेशनल रिसर्च फाउंडेशन को भी उन परिस्थितियों में सुधार करने का दायित्व सौंपा गया है जिनके अंतर्गत भारतीय विज्ञान अपने निष्कर्षों को प्रस्तुत करता है।

23J6. Laser strums atoms in quest for better computers
बेहतर कंप्यूटरों की खोज में लेज़र परमाणुओं को नियंत्रित कर रहा है

Laser strums atoms in quest for better computers

GS III: S&T
Vasudevan Mukunth

The world is constantly looking for faster and more efficient computers. Since the technologies of today have nearly maximised the use of electric currents for this purpose, scientists are looking beyond.

One critical area that may fit our needs is called strain engineering: it uses mechanical pressure at the atomic level to alter a material's properties. That is, by physically squeezing or stretching the grid of atoms – called the lattice – scientists can change how a material conducts electricity or stores magnetic information.

To reach the speeds required for next-generation technology, however, these mechanical changes must happen trillions of times per second, or at terahertz (THz) frequencies.

The main challenge to high-frequency strain engineering in metals is the behaviour of free electrons. When a metal is struck by a fast laser pulse, the electrons absorb the energy. In most metals, these electrons move so quickly that they spread the energy across the material before the pulse can exert a localised mechanical force. This delocalisation prevents the formation of high-frequency strain waves.

In particular, THz-frequency vibrations are needed for advanced applications like spintronics – a field that uses the magnetic spin of electrons rather than their charge to store and move data.

'That surprised us'

A new study by researchers from France, Germany, and Sweden, published in *Nature Communications*, has reported a way to use laser pulses to induce THz waves. The researchers used a superlattice: atoms of platinum and copper atoms arranged in alternating layers, each just a few nanometres thick. They chose these metals because of their contrasting electronic properties: platinum can hold a large amount of electronic energy while copper allows electrons to move quickly.

Using ultrafast X-ray diffraction, the team observed the atoms moving in real-time following a laser pulse. And they found that they could set the atoms vibrating in a coherent way at a frequency of 1 THz with a strain amplitude of 1%. That is, the atoms were displaced by 1% on average from their original positions. This is considered large.

Crucially, the team found that electron pressure, rather than heat, to be the driving force. When the laser hit the platinum layers, the electrons gained energy and immediately exerted a physical pressure against the atomic lattice. "That surprised us. The oscillation is not caused by the pressure of the heated lattice, but by electron pressure, particularly in the platinum layers," Jan-Etienne Pudell of European XFEL, the facility that provided the ultrafast X-ray diffraction, said in a press note.

The study showed that electron pressure is a dominant and engineerable mechanism that can be used to rapidly 'kick' atoms into motion.

Nanostructured materials

The discovery is an advance in the broader field of thermoacoustic metamaterials. These are nanostructured materials designed to manipulate sound and heat in ways that do not occur in nature.

The study also demonstrated that these effects can be achieved in materials created by sputtering. Sputtering is a standard industrial process used to coat everything from microchips to glass. That thermoacoustic metamaterials can be produced using cost-effective, scalable manufacturing suggests the technology could move from the laboratory to the factory floor relatively quickly.

- The world is constantly looking for **faster** and more **efficient computers**.
  विश्व निरंतर अधिक **तेज़** और अधिक **कुशल संगणकों** की खोज में लगा हुआ है।
- Since the technologies of today have nearly maximised the use of **electric currents** for this purpose, scientists are looking beyond.
  चूँकि वर्तमान प्रौद्योगिकियाँ इस उद्देश्य के लिए **विद्युत धाराओं** के उपयोग को लगभग अधिकतम सीमा तक पहुँचा चुकी हैं, इसलिए वैज्ञानिक अब नए विकल्पों की तलाश कर रहे हैं।
- One critical area that may fit our needs is called **strain engineering**.

ऐसा ही एक महत्वपूर्ण क्षेत्र **स्ट्रेन अभियांत्रिकी** कहलाता है।

- It uses **mechanical pressure** at the atomic level to alter a material's properties.
  यह किसी पदार्थ के गुणों को बदलने के लिए परमाणु स्तर पर **यांत्रिक दबाव** का उपयोग करता है।
- That is, by physically squeezing or stretching the grid of atoms — called the **lattice** — scientists can change how a material conducts electricity or stores magnetic information.
  अर्थात् परमाणुओं के जाल, जिसे **जालिका** कहा जाता है, को भौतिक रूप से संपीड़ित या विस्तारित करके वैज्ञानिक यह बदल सकते हैं कि कोई पदार्थ विद्युत का संचालन कैसे करता है या चुंबकीय सूचना को कैसे संग्रहीत करता है।
- To reach the speeds required for **next-generation technology**, however, these mechanical changes must happen trillions of times per second, or at **terahertz frequencies**.
  हालाँकि **अगली पीढ़ी की प्रौद्योगिकी** के लिए आवश्यक गति प्राप्त करने हेतु ये यांत्रिक परिवर्तन प्रति सेकंड खरबों बार, अर्थात् **टेराहर्ट्ज आवृत्तियों** पर होने चाहिए।
- The main challenge to high-frequency strain engineering in metals is the behaviour of **free electrons**.
  धातुओं में उच्च आवृत्ति वाली स्ट्रेन अभियांत्रिकी के समक्ष मुख्य चुनौती **मुक्त इलेक्ट्रॉनों** का व्यवहार है।
- When a metal is struck by a fast **laser pulse**, the electrons absorb the energy.
  जब किसी धातु पर तीव्र **लेज़र स्पंद** डाला जाता है, तब इलेक्ट्रॉन उस ऊर्जा को अवशोषित कर लेते हैं।
- In most metals, these electrons move so quickly that they spread the energy across the material before the pulse can exert a localised mechanical force.
  अधिकांश धातुओं में ये इलेक्ट्रॉन इतनी तेजी से गति करते हैं कि लेज़र स्पंद स्थानीय यांत्रिक बल उत्पन्न करने से पहले ही ऊर्जा पूरे पदार्थ में फैल जाती है।
- This **delocalisation** prevents the formation of high-frequency strain waves.
  यह **विस्थानीकरण** उच्च आवृत्ति वाली स्ट्रेन तरंगों के निर्माण को रोक देता है।
- In particular, **terahertz-frequency vibrations** are needed for advanced applications like **spintronics**.
  विशेष रूप से **टेराहर्ट्ज आवृत्ति वाले कंपन स्पिन्ट्रॉनिक्स** जैसे उन्नत अनुप्रयोगों के लिए आवश्यक हैं।
- Spintronics is a field that uses the **magnetic spin of electrons** rather than their charge to store and move data.
  स्पिन्ट्रॉनिक्स वह क्षेत्र है जिसमें आँकड़ों के भंडारण और संचरण के लिए इलेक्ट्रॉनों के आवेश के बजाय उनके **चुंबकीय स्पिन** का उपयोग किया जाता है।

'That surprised us'
'इसने हमें आश्चर्यचकित कर दिया'

- The researchers used a **superlattice**: atoms of **platinum** and **copper** arranged in alternating layers, each just a few nanometres thick.
  शोधकर्ताओं ने एक **सुपरलैटिस** का उपयोग किया, जिसमें **प्लैटिनम** और **ताँबे** के परमाणुओं को वैकल्पिक परतों में व्यवस्थित किया गया था और प्रत्येक परत केवल कुछ नैनोमीटर मोटी थी।
- They chose these metals because of their contrasting **electronic properties**.
  इन धातुओं का चयन उनके भिन्न **इलेक्ट्रॉनिक गुणों** के कारण किया गया।
- Platinum can hold a large amount of electronic energy while copper allows electrons to move quickly.
  प्लैटिनम बड़ी मात्रा में इलेक्ट्रॉनिक ऊर्जा को धारण कर सकता है, जबकि **ताँबा** इलेक्ट्रॉनों को तीव्र गति से संचालित होने देता है।
- Using **ultrafast X-ray diffraction**, the team observed the atoms moving in real time following a laser pulse.
  अतितीव्र एक्स-किरण विवर्तन तकनीक का उपयोग करके शोध दल ने लेज़र स्पंद के बाद परमाणुओं की वास्तविक समय में गति का अवलोकन किया।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- Crucially, the team found **electron pressure**, rather than heat, to be the driving force.
  महत्वपूर्ण रूप से शोध दल ने पाया कि प्रेरक शक्ति ऊष्मा नहीं बल्कि **इलेक्ट्रॉन दाब** था।
- When the laser hit the platinum layers, the electrons gained energy and immediately exerted a physical pressure against the atomic lattice.
  जब लेज़र ने प्लैटिनम की परतों पर प्रहार किया, तब इलेक्ट्रॉनों ने ऊर्जा प्राप्त की और तुरंत परमाणु जालिका पर भौतिक दाब उत्पन्न किया।
- The study showed that **electron pressure** is a dominant and engineerable mechanism that can be used to rapidly 'kick' atoms into motion.
  अध्ययन से स्पष्ट हुआ कि **इलेक्ट्रॉन दाब** एक प्रमुख और अभियांत्रिकीय रूप से नियंत्रित किया जा सकने वाला तंत्र है, जिसका उपयोग परमाणुओं को तीव्रता से गति प्रदान करने के लिए किया जा सकता है।

Nanostructured materials
नैनो-संरचित पदार्थ

- The discovery is an advance in the broader field of **thermoacoustic metamaterials**.
  यह खोज **ताप-ध्वनिक मेटामटेरियल्स** के व्यापक क्षेत्र में एक महत्वपूर्ण प्रगति है।
- These are nanostructured materials designed to manipulate **sound** and **heat** in ways that do not occur in nature.
  ये ऐसे नैनो-संरचित पदार्थ हैं जिन्हें **ध्वनि** और **ऊष्मा** को उन तरीकों से नियंत्रित करने के लिए बनाया जाता है जो प्राकृतिक रूप से संभव नहीं होते।
- The study also demonstrated that these effects can be achieved in materials created by **sputtering**.
  अध्ययन ने यह भी प्रदर्शित किया कि ये प्रभाव **स्पटरिंग** द्वारा निर्मित पदार्थों में भी प्राप्त किए जा सकते हैं।
- Sputtering is a standard industrial process used to coat everything from **microchips** to **glass**.
  स्पटरिंग एक मानक औद्योगिक प्रक्रिया है जिसका उपयोग **सूक्ष्म चिपों** से लेकर **काँच** तक विभिन्न वस्तुओं पर परत चढ़ाने के लिए किया जाता है।
- That thermoacoustic metamaterials can be produced using **cost-effective** and **scalable manufacturing** suggests the technology could move from the laboratory to the factory floor relatively quickly.
  यह तथ्य कि ताप-ध्वनिक मेटामटेरियल्स का उत्पादन **लागत-प्रभावी** और **विस्तार योग्य विनिर्माण** प्रक्रियाओं द्वारा किया जा सकता है, संकेत देता है कि यह प्रौद्योगिकी अपेक्षाकृत शीघ्र ही प्रयोगशाला से औद्योगिक उत्पादन तक पहुँच सकती है।

Strain Engineering

- **Strain engineering** means changing the properties of a material by **stretching, compressing, bending, or twisting its atomic lattice**.
- A **lattice** is the regular arrangement of atoms inside a solid material.
- When this lattice is slightly squeezed or stretched, the distance between atoms changes.
- This can change how the material conducts electricity, carries heat, stores magnetic information, or reacts chemically.
- In simple words, strain engineering is like tuning a guitar string.
- When the string is stretched, its sound changes.
- Similarly, when the atomic lattice is stretched or compressed, the material's behaviour changes.

Why Strain Engineering is Important

• Modern technologies such as **semiconductors, memory devices, sensors, quantum materials, and nanoelectronics** need materials whose properties can be controlled very precisely.
• Strain engineering is useful because it can alter material properties without changing the chemical composition of the material.

• It is important for **next-generation computing**, where devices may need to work at extremely high speeds.

Terahertz Frequency and Laser Pulse

- **Terahertz frequency** means vibrations occurring around **one trillion times per second**.
- For future high-speed electronics, scientists want to control atomic motion at such ultrafast speeds.
- A **laser pulse** is a very short burst of light energy.
- In recent experiments, ultrashort laser pulses were used to make layered metals vibrate at terahertz speed.
- The platinum-copper lattice was excited by laser pulses of about **10^{-15} second**, and then examined using ultrafast X-ray pulses.

Superlattice

- A **superlattice** is an artificial structure made by arranging very thin layers of different materials one above another.
- Atoms of **platinum and copper** were arranged in alternating layers, each only a few nanometres thick.

Ultrafast X-ray Diffraction

- **X-ray diffraction** is a technique used to study the arrangement of atoms in crystals.
- **Ultrafast X-ray diffraction** uses extremely short X-ray pulses to observe how atoms move after being disturbed by light, heat, or pressure.
- It is useful because atomic motion happens very quickly, often within femtoseconds or picoseconds.
- Research shows that ultrafast X-ray diffraction can directly track lattice responses and structural changes in materials at very short timescales.

Thermoacoustic Metamaterials

- **Thermoacoustic metamaterials** are specially designed materials that control sound and heat-related waves in unusual ways.
- A **metamaterial** is not special mainly because of its chemical composition, but because of its designed internal structure.
- Acoustic metamaterials can control, guide, reflect, or absorb sound waves in ways that normal materials cannot.
- In simple words, these materials act like “traffic controllers” for sound and heat waves.

Sputtering

- **Sputtering** is a common industrial process used to deposit a thin film of material on another surface.
- In this process, energetic ions strike a target material and knock atoms out of it.
- These atoms then settle on another surface and form a thin coating.
- It is widely used in **microchips, solar cells, glass coatings, optical devices, and electronic components**.
- Thin-film deposition is an important part of semiconductor manufacturing, where very thin layers are deposited on wafers.

Stay with the evidence

Better monitoring of sale of banned drugs is essential

The character of science leans to openness: to new evidence and emerging facts. Its ability to be agile to pivot and shift to newer guidelines is therefore absolutely crucial. The Health Ministry's recent ban on 16 Fixed Dose Combination (FDC) drugs comes on the evidence that these drug combinations lack therapeutic justification, are 'deemed irrational or unsafe' and might pose risks to patients. The drugs include dermatological drugs, analgesics and antispasmodics, and antibiotic-based formulations. An FDC is a drug containing two or more active pharmacological ingredients, combined in a fixed ratio in a single dosage. These were meant to improve treatment compliance in chronic conditions (such as Tuberculosis) by reducing the pill burden and, sometimes, by improved therapeutic effectiveness. However, irrational combinations, besides being ineffective, can also be counter-productive and harmful. As per the latest order, all State Drug Controllers, regulatory authorities, and enforcement agencies are to ensure strict implementation and compliance with the recent notification. Instructions must also be sent to manufacturers, importers, distributors, and even individual pharmacies, to stop stocking and selling the banned FDCs.

This is not the first time that the Health Ministry is cracking down on FDCs. A detailed scientific review is undertaken before these decisions to ban FDCs are taken. In March 2016, the government banned a whopping number of over 330 FDC drugs, on the ground that they were irrational, with immediate effect. While FDCs offer the advantage of a reduction in the number of pills, of certain benefit to certain categories of patients, there are some innate issues as well: patients might need different titrations of doses, impossible with FDCs; patients might develop allergies, but it will not be clear what particular pharmaceutical ingredient they are reacting to. It is also clear that all patients may not actually need all the drugs in the combination, exposing them to unnecessary side effects. A further potential harm exists with FDCs of antibiotics: In 2016, 19% of the 330 FDCs banned were antibiotics; There is enough evidence to show that irrational antibiotic FDC drug usage leads to or exacerbates the growing antimicrobial resistance problem in the country. While the government has taken a positive step with banning these FDCs, its work has just begun. In many instances in the past, stocks of banned drugs were still being sold in pharmacies, because the message had not percolated down. While staying solidly on the side of evidence-based medicine, the government must also activate its monitoring and supervision arm in order to ensure that the benefits from the ban reach the last mile.

23J6. Stay with the evidence
साक्ष्यों पर आधारित रहें

- The **Health Ministry's** recent ban on **16 Fixed Dose Combination (FDC) drugs** comes on the evidence that these drug combinations lack therapeutic justification, are **'deemed irrational or unsafe'** and might pose risks to patients.

स्वास्थ्य मंत्रालय द्वारा हाल ही में **16 फिक्स्ड डोज़ कॉम्बिनेशन (FDC) दवाओं** पर लगाया गया प्रतिबंध इस साक्ष्य पर आधारित है कि इन दवा-संयोजनों का कोई उचित चिकित्सीय औचित्य नहीं है, इन्हें **'अतार्किक या असुरक्षित'** माना गया है तथा ये रोगियों के लिए जोखिम उत्पन्न कर सकती हैं।

- The drugs include **dermatological drugs, analgesics and antispasmodics, and antibiotic-based formulations**.

इन दवाओं में **त्वचा रोग संबंधी दवाएँ, दर्दनाशक एवं ऐंठन-रोधी दवाएँ तथा एंटीबायोटिक आधारित संयोजन** शामिल हैं।

- An **FDC** is a drug containing two or more active pharmacological ingredients, combined in a fixed ratio in a single dosage.

FDC ऐसी दवा होती है जिसमें दो या दो से अधिक सक्रिय औषधीय घटक एक निश्चित अनुपात में एक ही खुराक के रूप में सम्मिलित किए जाते हैं।

- These were meant to improve treatment compliance in chronic conditions (such as **Tuberculosis**) by reducing the pill burden and, sometimes, by improved therapeutic effectiveness.

इनका उद्देश्य **क्षय रोग (Tuberculosis)** जैसी दीर्घकालिक बीमारियों में दवाओं की संख्या कम करके तथा कभी-कभी उपचार की प्रभावशीलता बढ़ाकर उपचार अनुपालन को बेहतर बनाना था।

- Instructions must also be sent to **manufacturers, importers, distributors, and even individual pharmacies**, to stop stocking and selling the banned FDCs.

प्रतिबंधित FDC दवाओं का भंडारण और विक्रय रोकने के लिए **निर्माताओं, आयातकों, वितरकों तथा व्यक्तिगत औषधि विक्रेताओं** को भी निर्देश जारी किए जाने चाहिए।

- There is enough evidence to show that irrational **antibiotic FDC drug usage** leads to or exacerbates the growing **antimicrobial resistance** problem in the country.

पर्याप्त साक्ष्य उपलब्ध हैं जो दर्शाते हैं कि अतार्किक **एंटीबायोटिक FDC दवाओं** का उपयोग देश में बढ़ती हुई **रोगाणुरोधी प्रतिरोधकता (Antimicrobial Resistance - AMR)** की समस्या को जन्म देता है या उसे और गंभीर बनाता है।

- While staying solidly on the side of **evidence-based medicine**, the government must also activate its monitoring and supervision arm in order to ensure that the benefits from the ban reach the last mile.

साक्ष्य-आधारित चिकित्सा (Evidence-Based Medicine) के पक्ष में दृढ़ता से खड़े रहते हुए सरकार को अपनी निगरानी एवं पर्यवेक्षण प्रणाली को भी सक्रिय करना होगा, ताकि इस प्रतिबंध के लाभ समाज के अंतिम व्यक्ति तक पहुँच सकें।

A Trojan horse has breached the IITs

GS III: S&T

Vasudevan Mukunth

For a few decades now, a project called the 'Indian Knowledge System' (IKS) has sought to integrate traditional Indian wisdom into modern educational curricula. There is a legitimate quest to reclaim India's indigenous intellectual history and to elevate an informal cultural aspiration into a part of education – but the IKS of today is not it.

The real IKS might focus on the linguistics of Panini, the Nyaya school of logic, the Kerala school of mathematics, the development of Wootz steel, and so on. But the IKS being institutionalised, including under IIT-Mandi director Laxmidhar Behera, is concerned with "Puranic science", mythology as history, ritual as technology, and an open contempt for verifiability.

The more aggressive avatar of IKS was formalised by the National Education Policy (NEP), 2020. It began by documenting breakthroughs in metallurgy and ancient mathematics before increasingly blurring the lines between historical scholarship and theological revivalism. There are now IKS hubs at IIT-Kharagpur, IIT-Gandhinagar, IIT-Bombay, and IIT-Kanpur. Those at Kanpur and Mandi in particular have emerged as 'leaders' in the "research" of "consciousness", reincarnation, and "Vedic" biology. These words are within quote marks because, as with the IKS, what they claim to stand for in name is not what they stand for in substance.

Proponents of pseudoscience

The IKS centres' proponents say they endeavour to "decolonise" the Indian mind. This is farcical. The Bengal renaissance of the 19th century, including figures such as Jagadish Chandra Bose and Prafulla Chandra Ray, synthesised Indian identity with rigorous scientific study and proved that decolonisation does not have to open the door to pseudoscience. The IKS centres intend to embed myth-based inquiries in the framework of the IITs, leveraging the institutes' prestige to acquire for their politico-religious dogma a veneer of scientific legitimacy.

The Indian Knowledge System centres intend to embed myth-based inquiries in the framework of the IITs

Recently, IIT-Mandi and IIT-Kanpur hosted a "special session" dedicated to the "science" of reincarnation. The programme proposed using EEG data and astrological birth charts to track "past life memories" in children. The event was attended by speakers from the University of Virginia's Department of Perceptual Studies (DOPS), itself a controversial entity.

The event was a crisis in higher education. Pseudoscience is now well and truly institutionalised, and the participating IITs have signalled their willingness to trade their academic credentials for theological dogma. The 'researchers' at the event discussed building a "systematic methodology" for a universal metaphysical claim based on one six-year-old in north India. This is normally called an anecdote.

To suggest one child's neural response could 'validate' the concept of reincarnation does a disservice to the best traditions of Indian philosophy. They remain excellent not as peculiar products of their times but because their exponents thought sincerely and carefully about what facts they had. To have the facts we do today and still believe a 'study' with a cohort size of one or using a physicalist entity (EEG) to prove a dualist theory (reincarnation) to be credible is silly.

The 'researchers' proposed to show the child their "past-life-related stimuli", such as photos of a spouse from a 'previous life', and record the brain's reaction. Given that the group's own protocol involved "developing familiarity" with the child and collecting photos from the "claimed previous-life family" before the test, the 'researchers' are fundamentally creating the very stimuli they claim to be 'discovering'. This is called confirmation bias. Including astrology in this mix is nonsense.

The IKS centres partnered with DOPS for "Western" credibility but the work at DOPS has been notorious for its methodological looseness. Critics have pointed out that in the interval between a death and a supposed rebirth, the 'previous family' and the 'current family' seem to have ample opportunity to meet, communicate, and line up their stories to fit a cultural narrative of reincarnation. The 'researchers' also did not examine the fact that "past life memories" are almost exclusively reported in cultures that already believe in reincarnation.

Forceful approach

After years of trying to change academia from the outside-in using student violence and by revising textbooks, it seems the Hindutva programme has finished shifting its strategy to an inside-out approach with top-down force. Doctoral students were required to attend the "special session". The centres have used IIT funds and research fellows to 'hunt' ghosts as fieldwork. The University Grants Commission's 2023 guidelines require all students of higher education to take IKS courses for credit. The IITs' administrators know they are compromising the institutions' reputation, but they are willing to risk that because their goal is not scientific leadership. It is domestic ideological consolidation.

The spreading rot of pseudoscience at the IITs will encourage top-tier Indian talent to move to universities abroad that still see the line between decolonising and science. Good international scientists beginning to look down on IIT degrees because of these "special sessions" will also serve the "atmanirbhar" narrative by separating an elite Indian education from global standards of rationalism. Ultimately, the loop will be closed to leave Indian scholars to be judged only by their loyalty to a specific civilisational project.

Explained: Reliance Communications and Telegram's 'global' blocking

What is Border Gateway Protocol (BGP)? How did it lead to an accidental blocking of Telegram in other countries? Why did this not happen everywhere?; How did Reliance Communications handle and fix the problem? What was the impact of this issue on the social media platform/users?

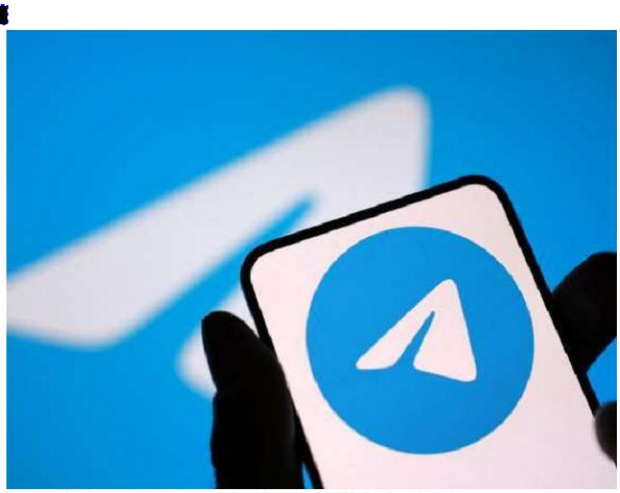
GS III: S&T

NEWS ANALYSIS

Aroon Deep
NEW DELHI

Late June 16, Telegram CEO Pavel Durov alleged on X, formerly Twitter, that "Indian telecom Reliance is sabotaging access to Telegram for millions of users OUTSIDE India (including the UAE) via a rogue method called BGP hijacking," and that this "sabotage seems intentional, as Reliance has ignored multiple reports".

What had happened was in fact a result of an accidental misconfiguration by Reliance Communications, the once-large telecom operator under the Anil Dhirubhai Ambani Group. That misconfiguration briefly caused Telegram outages in different countries, following an India-only ban ordered by the government to stop the spread of exam-related misinformation. While Telegram had challenged the ban in the Delhi High Court, the court upheld the Centre's ban as legal.



Centre of controversy: Telegram app logo is seen in this illustration. REUTERS

BGP mishap

Reliance Communications largely does not exist anymore, and is under an insolvency process, as a part of which some of its assets were acquired by Reliance Jio. However, it continues to hold on to a few assets, including datacentres in Mumbai, and some Internet traffic routes. As such, it is required to continue to comply with blocking orders for websites, so that networks that rely on its bandwidth are in turn compliant.

Jio categorically denied being involved with this incident; Mr. Durov appeared to mistakenly refer to the Reliance Industries subsidiary in his post. "Recent posts on X have led to speculation regarding Reliance Jio Infocomm Limited (AS55836) and a BGP route misconfiguration," Jio said, using the acronym for autonomous systems, a networking term that distinguishes large networks by assigning a number to them. "We categorically clarify that Jio has not been involved in any such incident. Jio continues to operate its network in accordance with global Internet routing best practices and the highest standards of reliability, security, and transparency."

> Jio categorically denied being involved with this incident; Telegram CEO Durov appeared to mistakenly refer to the Reliance Industries subsidiary in his post

But instead of applying this blocking order locally, Reliance Communications "hijacked" Border Gateway Protocol (BGP) routes globally that corresponded with Telegram. BGP is a protocol used by networks to map out efficient routes to other networks, and propagating incorrect information through BGP to external networks can disrupt access to services whose routing information is contained within such information.

Flag, a subsea cable network that was once owned by Reliance Communications and was later spun out as a separate company, likely maintains "open filters," with the latter, Anurag Bhatia, an Internet networking expert said. "It's common for networks to open filters completely for large customers with the hope and assumption that those customers will not hijack random prefixes," Mr. Bhatia said. "There is technology available for filtering, but it's not widely deployed."

BGP prefixes are, roughly speaking, IP address blocks that assist in routing. Essentially, Reliance Communications' announcement was trusted by the next network in line, and led to a situation where any network that trusted Reliance Communications' BGP announcements carried by Flag would lead people trying to reach Telegram's servers into Reliance Communication servers, where the connection would end with no result.

Impact, mitigation

The event was resolved in the early hours of June 17, as Reliance Communications appeared to have fixed its configuration. However, by then, Mr. Durov complained that Du, a telecom operator in the United Arab Emirates, where Telegram is headquartered, had ingested the incorrect BGP information, and led to disruptions to the service.

Doug Madory, director of Internet analysis at Kentik, a network intelligence firm, said on X that a similar incident took place when an Iraqi international Internet gateway similarly hijacked Telegram routes.

The workaround to that incident, Mr. Madory said, also prevented even wider damage to Telegram access in other countries this time around. Resource Public Key Infrastructure Route Origin Validation (RPKI ROV), a technology used by large networks to ensure that BGP announcements they receive are legitimate, was able to prevent Reliance's misconfiguration in time. That is the technology Mr. Bhatia was referring to.

Mr. Madory said that further IP addresses announced by Telegram were also hijacked throughout the night, worsening the issue. Overall, Mr. Madory said, "Only a small share of traffic to Telegram was misdirected but it came from all over the world."

BGP hijacks have been seen occasionally before. In 2008, Pakistan's state-owned telecom operator, PTCL, hijacked routes belonging to YouTube, leading to worldwide disruptions, due to this announcement being carried to an international transit provider based in Hong Kong.

23J6. Explained: Reliance Communications and Telegram's 'global' blocking
व्याख्या: रिलायंस कम्युनिकेशंस और टेलीग्राम की 'वैश्विक' ब्लॉकिंग

- What is the **Border Gateway Protocol (BGP)**?
  बॉर्डर गेटवे प्रोटोकॉल (BGP) क्या है?
- How did it lead to an accidental blocking of **Telegram** in other countries?
  इसने अन्य देशों में **टेलीग्राम** के आकस्मिक अवरोधन का कारण कैसे बनाया?
- Late June 16, **Telegram CEO Pavel Durov** alleged on X, formerly Twitter, that "Indian telecom Reliance is sabotaging access to Telegram for millions of users OUTSIDE India (including the **UAE**) via a rogue method called **BGP hijacking**," and that this "sabotage seems intentional, as Reliance has ignored multiple reports".
  16 जून की देर रात, **टेलीग्राम के CEO पावेल दुरोव** ने X (पूर्व में ट्विटर) पर आरोप लगाया कि "भारतीय टेलीकॉम रिलायंस **BGP हाइजैकिंग** नामक एक गलत तरीके से भारत के बाहर (जिसमें **UAE** भी शामिल है) लाखों उपयोगकर्ताओं के लिए टेलीग्राम की पहुँच को बाधित कर रहा है," और यह "जानबूझकर किया गया प्रतीत होता है क्योंकि रिलायंस ने कई रिपोर्टों को अनदेखा किया है।"

BGP mishap
BGP की गड़बड़ी

- **Reliance Communications** largely does not exist anymore, and is under an **insolvency process**, as a part of which some of its assets were acquired by **Reliance Jio**.
  रिलायंस कम्युनिकेशंस अब लगभग अस्तित्व में नहीं है और **दिवालियापन प्रक्रिया** के अधीन है, जिसके तहत उसकी कुछ परिसंपत्तियाँ **रिलायंस जियो** ने अधिग्रहित की हैं।
- **BGP** is a protocol used by networks to map out efficient routes to other networks, and propagating incorrect information through BGP to external networks can disrupt access to services whose routing information is contained within such information.
  BGP एक ऐसा प्रोटोकॉल है जिसका उपयोग नेटवर्क अन्य नेटवर्कों तक पहुँचने के लिए कुशल मार्ग निर्धारित करने हेतु करते हैं, और इसके माध्यम से गलत जानकारी प्रसारित होने पर संबंधित सेवाओं की पहुँच बाधित हो सकती है।
- **Flag**, a subsea cable network that was once owned by Reliance Communications and was later spun out as a separate company, likely maintains "**open filters**," with the latter, **Anurag Bhatia**, an Internet networking expert said.
  Flag, जो एक समय रिलायंस कम्युनिकेशंस के स्वामित्व वाला समुद्री केबल नेटवर्क था और बाद में अलग कंपनी बन गया, संभवतः "**ओपन फ़िल्टर**" बनाए रखता है, ऐसा इंटरनेट नेटवर्किंग विशेषज्ञ **अनुराग भाटिया** ने कहा।
- "It's common for networks to open filters completely for large customers with the hope and assumption that those customers will not hijack random prefixes," Mr. Bhatia said.
  श्री भाटिया ने कहा, "बड़े ग्राहकों के लिए फ़िल्टर पूरी तरह खोल देना सामान्य बात है, इस उम्मीद में कि वे मनमाने प्रीफिक्स को हाइजैक नहीं करेंगे।"
- **BGP prefixes** are, roughly speaking, **IP address blocks** that assist in routing.
  BGP प्रीफिक्स मोटे तौर पर **IP एड्रेस ब्लॉक** होते हैं जो रूटिंग में सहायता करते हैं।
- Essentially, Reliance Communications' announcement was trusted by the next network in line, and led to a situation where any network that trusted Reliance Communications' BGP announcements carried by Flag would lead people trying to reach Telegram's servers into Reliance Communication servers, where the connection would end with no result.
  मूल रूप से, रिलायंस कम्युनिकेशंस की घोषणा पर अगले नेटवर्क ने भरोसा कर लिया, जिससे ऐसी स्थिति बनी कि जो भी नेटवर्क फ्लैग द्वारा प्रसारित BGP घोषणाओं पर विश्वास करता था, वह टेलीग्राम सर्वर तक पहुँचने वाले उपयोगकर्ताओं को रिलायंस कम्युनिकेशंस के सर्वरों की ओर भेज देता था, जहाँ कनेक्शन बिना किसी परिणाम के समाप्त हो जाता था।

Impact, mitigation
प्रभाव और समाधान

- However, by then, Mr. Durov complained that **Du**, a telecom operator in the **United Arab Emirates**, where Telegram is headquartered, had ingested the incorrect BGP information, and led to disruptions to the service.
  हालाँकि तब तक श्री दुरोव ने शिकायत की कि **संयुक्त अरब अमीरात** की टेलीकॉम कंपनी **Du**, जहाँ टेलीग्राम का मुख्यालय है, ने गलत BGP जानकारी स्वीकार कर ली थी, जिससे सेवा बाधित हुई।
- **Resource Public Key Infrastructure Route Origin Validation (RPKI ROV)**, a technology used by large networks to ensure that BGP announcements they receive are legitimate, was able to prevent Reliance's misconfiguration in time.
  Resource Public Key Infrastructure Route Origin Validation (RPKI ROV), जिसका उपयोग बड़े नेटवर्क BGP घोषणाओं की वैधता सुनिश्चित करने के लिए करते हैं, समय रहते रिलायंस की गलत कॉन्फ़िगरेशन को रोकने में सक्षम रहा।

Citizens interests and conservation

Efforts to preserve the Pallikaranai wetland should not overlook legal landowners

GS III: Environment

STATE OF PLAY

Kalaiselvan Periyasamy

Environmental protection has rightly become a major public policy priority. The Pallikaranai Marshland in Chennai, one of south India's last surviving natural wetlands and a designated Ramsar Site, deserves protection for its role in flood mitigation, groundwater recharge, and biodiversity conservation. However, restrictions associated with the marshland and its proposed 'Influence Zone' have raised concerns among thousands of lawful landowners, creating a broader public policy challenge involving environmental governance, property rights, and public confidence in regulatory institutions.

The proceedings before the National Green Tribunal (NGT) and the restrictions of the Chennai Metropolitan Development Authority (CMDA) on the new one-kilometre 'Influence Zone' of the marshland raise important concerns. For instance, approximately 85% to 90% of the 8,537-acre 'Influence Zone' had already been designated as a "development area" under CMDA's Second Master Plan (2008) for the promotion of residential, institutional, commercial, and industrial activities. Multiple government agencies informed the NGT that key aspects of the wetland boundary, 'Influence Zone', and long-term regulatory framework remained under study.

The consequences of these restrictions are already visible. Across Pallikaranai, Perumbakkam, Sholinganallur, Karapakkam, Perungudi, Semmancheri, and adjoining neighbourhoods, thousands

of families have invested their life savings in residential plots and housing projects. Many are salaried employees, retirees, first-generation homeowners, small entrepreneurs, and middle-class families who purchased property legally after years of financial sacrifice. For such families, land is more than a financial asset, and uncertainty affects not only financial planning but also their emotional well-being.

Consider the case of a citizen who purchased a modest residential plot 20 years ago after complying with every legal requirement. Registration charges were paid, property taxes were regularly remitted, and bank loans were serviced diligently. Today, that individual is unsure whether future development permissions will be available because his land falls within a yet-to-be-understood "Influence Zone" whose regulatory contours are still being formulated.

The need for balance

Though real and significant, social costs associated with deferred home ownership seldom enter technical reports or planning documents. Delayed housing decisions affect retirement planning, educational investments, family security, and long-term financial stability. Moreover, regulatory uncertainty erodes confidence across the business chain. The resulting disruption can have ripple effects that may take a toll on construction, engineering, architecture, transportation, material supply, and numerous small business sectors that depend on housing and infrastructure development.

The OMR Information Technology (IT) Corridor, stretching from Kottivakkam to Semmenchery, covers approximately 4,800 acres. As per preliminary estimates, about 60% (2,850 acres) of this overlaps with the 'Influence Zone'. Thanks to the present restrictions, a substantial portion of one of Chennai's most important and employment-generating corridors now faces uncertainty in obtaining new development approvals. Yet another dimension of the Pallikaranai debate remains largely unexplored. There are claims of lawfully acquired private lands existing within the Ramsar Site boundary delineated by the CMDA. If verified, such claims could raise questions about historical land administration, registrations, and approvals. The answers may reveal a governance challenge far more complex than the current debate on the buffer zone.

Environmental protection should not become an exclusionary or punitive process. The protection of the Pallikaranai Marsh is unquestionably important. Equally important are the legitimate expectations of citizens who acquired property lawfully. A mature democracy must be capable of protecting both. As the Integrated Management Plan for the Pallikaranai wetland moves toward completion, regulations, public consultation, and fair transitional measures can help balance conservation with citizen welfare.

The writer is an environmental and social expert.

23J6. Citizens interests and conservation
नागरिकों के हित और संरक्षण

- The **Pallikaranai Marshland** in Chennai, one of south India's last surviving natural wetlands and a designated **Ramsar Site**, deserves protection for its role in flood mitigation, groundwater recharge, and biodiversity conservation.

चेन्नई स्थित **पल्लीकरणई दलदली क्षेत्र**, जो दक्षिण भारत के अंतिम शेष प्राकृतिक आर्द्रभूमि क्षेत्रों में से एक है तथा एक अधिसूचित **रामसर स्थल** है, बाढ़ नियंत्रण, भूजल पुनर्भरण और जैव विविधता संरक्षण में अपनी महत्वपूर्ण भूमिका के के कारण संरक्षण का पात्र है।

- Environmental protection should not become an exclusionary or punitive process.

पर्यावरण संरक्षण को बहिष्करणकारी अथवा दंडात्मक प्रक्रिया का रूप नहीं लेना चाहिए।

- The protection of the **Pallikaranai Marsh** is unquestionably important.

पल्लीकरणई आर्द्रभूमि का संरक्षण निस्संदेह अत्यंत महत्वपूर्ण है।

- Equally important are the legitimate expectations of citizens who acquired property lawfully.

उतने ही महत्वपूर्ण उन नागरिकों की वैध अपेक्षाएँ भी हैं जिन्होंने विधिसम्मत रूप से संपत्ति अर्जित की है।

- A mature democracy must be capable of protecting both.

एक परिपक्व लोकतंत्र को इन दोनों हितों की रक्षा करने में सक्षम होना चाहिए।

- As the **Integrated Management Plan** for the **Pallikaranai Wetland** moves toward completion, regulations, public consultation, and fair transitional measures can help balance conservation with citizen welfare.
जैसे-जैसे **पल्लीकरणई आर्द्रभूमि** के लिए **एकीकृत प्रबंधन योजना** पूर्णता की ओर बढ़ रही है, वैसे-वैसे उपयुक्त विनियम, जनपरामर्श और न्यायसंगत संक्रमणकालीन उपाय संरक्षण तथा नागरिक कल्याण के बीच संतुलन स्थापित करने में सहायक हो सकते हैं।

GS III: Disaster Management

Deadly fumes

Strict enforcement of safety norms is absent in many industrial units

Tamil Nadu has witnessed its deadliest industrial ammonia gas leak tragedy, which has so far claimed the lives of eight migrant women workers at a private seafood processing unit in Tiruvallur district. Some of the 68 hospitalised workers are in intensive care on oxygen support. Since the 1980s, the State has battled ammonia leaks in factories every few years, mostly in and around Chennai. Other than in Thoothukudi in 2024, where one worker died, such accidents have at worst led to the hospitalisation of large numbers of people with eye irritation and breathing difficulties. There were no casualties even when an estimated 67.638 tonnes of ammonia leaked from the undersea pipeline of a private company in Ennore during Cyclone Michaung in 2023. The scale of the tragedy at St. Peter & Paul Seafood Exports Pvt. Ltd., Tiruvallur, indicates that the colourless pungent gas may have accumulated in the atmosphere at fatal concentrations. The leak occurred when workers were resting in factory accommodation, on Sunday. Had the incident occurred on a working day, the number of people exposed to the leak from the ammonia pipeline to the ice-flake machinery could have been significantly higher.

While a committee comprising the Director of Industrial Safety and Health (DISH), the Member Secretary of the TN Pollution Control Board, and the Additional Director of Public Health is conducting an inquiry, disturbing facts have emerged. The factory reportedly failed to rectify serious deficiencies, pointed out during an earlier DISH inspection, including the absence of a suitable alarm system and fire hydrant. It had also not obtained a revised plan approval for installing an ice-flaking machine. That matter is sub judice. Investigations will reveal whether these shortcomings had any bearing in this tragedy. What is clear, however, is that had the recommendations made by DISH in the Ennore case been universally enforced in factories using ammonia, the scale of the current tragedy could have been contained. DISH had recommended the provision of adequate ammonia sensors in the plant and surrounding areas for early warning, along with water-curtain systems linked to ammonia alarms and fire-water nozzles for ammonia feed pumps to reduce the impact of leaks. The government has now decided to form a committee to inspect all 6,669 hazardous industries. However, numerous checks and balances exist under the Tamil Nadu Control of Industrial Major Accident Hazards Rules, 1994. What is required is strict enforcement through a coordinated approach, stronger penalties for violators, and the political will to act decisively against them.

23J6. Deadly fumes
घातक धुएँ

- **Tamil Nadu** has witnessed its deadliest industrial **ammonia gas leak** tragedy, which has so far claimed the lives of **eight migrant women workers** at a private seafood processing unit in **Tiruvallur district**.

तमिलनाडु ने अपने इतिहास की सबसे घातक औद्योगिक **अमोनिया गैस रिसाव** त्रासदी देखी है, जिसमें अब तक **आठ प्रवासी महिला श्रमिकों** की मृत्यु **तिरुवल्लुर जिले** स्थित एक निजी समुद्री खाद्य प्रसंस्करण इकाई में हो चुकी है।

- Had the incident occurred on a working day, the number of people exposed to the leak from the ammonia pipeline to the **ice-flake machinery** could have been significantly higher.

यदि यह घटना कार्य दिवस पर हुई होती, तो अमोनिया पाइपलाइन से **आइस-फ्लेक मशीनरी** तक के रिसाव से प्रभावित लोगों की संख्या कहीं अधिक हो सकती थी।

- While a committee comprising the **Director of Industrial Safety and Health (DISH)**, the **Member Secretary of the TN Pollution Control Board**, and the **Additional Director of Public Health** is conducting an inquiry, disturbing facts have emerged.

यद्यपि **औद्योगिक सुरक्षा एवं स्वास्थ्य निदेशक (DISH)**, **तमिलनाडु प्रदूषण नियंत्रण बोर्ड के सदस्य सचिव**, तथा **लोक स्वास्थ्य के अतिरिक्त निदेशक** की समिति जांच कर रही है, फिर भी कुछ चिंताजनक तथ्य सामने आए हैं।

- The factory reportedly failed to rectify serious deficiencies, pointed out during an earlier **DISH inspection**, including the absence of a suitable **alarm system** and **fire hydrant**.

रिपोर्टों के अनुसार, कारखाना पूर्व **DISH निरीक्षण** के दौरान इंगित की गई गंभीर कमियों को दूर करने में विफल रहा, जिनमें उपयुक्त **अलार्म प्रणाली** और **फायर हाइड्रेंट** का अभाव शामिल था।

- **DISH** had recommended the provision of adequate **ammonia sensors** in the plant and surrounding areas for early warning, along with **water-curtain systems** linked to ammonia alarms and **fire-water nozzles** for ammonia feed pumps to reduce the impact of leaks.

DISH ने शीघ्र चेतावनी के लिए संयंत्र एवं उसके आसपास पर्याप्त **अमोनिया सेंसर** लगाने, अमोनिया अलार्म से जुड़े **जल-पर्दा (Water-Curtain) सिस्टम** स्थापित करने तथा रिसाव के प्रभाव को कम करने हेतु अमोनिया फीड पंपों पर **फायर-वॉटर नोज़ल** लगाने की सिफारिश की थी।

23J6	UAE in talks with India to purchase BrahMos missiles, Akashteer air-defence units यूएई भारत से ब्रह्मोस मिसाइलों और आकाशतीर वायु-रक्षा प्रणालियों की खरीद के लिए वार्ता कर रहा है

UAE in talks with India to purchase BrahMos missiles, Akashteer air-defence units

GS III: Internal Security

Reuters
NEW DELHI

BrahMos, jointly developed by India and Russia, is among the world's fastest cruise missiles. FILE PHOTO

The Indian government is in talks with the United Arab Emirates to sell some of its flagship defence systems, including the supersonic cruise missile BrahMos, four Indian sources said, as the Gulf nation steps up arms procurement following the war in West Asia.

The discussions include the potential sale of India's air defence system Akashteer, sources told *Reuters*. "The UAE has shown interest for a number of our weapon systems, including BrahMos and Akashteer. The talks between India and UAE are at initial stages and are progressing fast," said another source.

BrahMos, jointly developed by India and Russia, is among the world's fastest cruise missiles while Akashteer is a fully automated air-defence system developed by the state-run Bharat Electronics Ltd. and the Indian Army.

The UAE is considering buying defence equipment from India and other sources after the Gulf nation was heavily attacked by Iran during the conflict in West Asia, and as it enhances its ability to respond to emerging threats. It also needs to protect the Strait of Hormuz, a crucial conduit for its energy exports.

"A diversified supplier base gives the UAE more strategic autonomy, and closer ties with India have the added benefit of not antagonising the U.S. as the countries remain allies," said Pearl Pandya, South Asia senior analyst at *Armed Conflict Location and Event Data*, a conflict monitoring group.

Before clinching any BrahMos sale to the UAE, India would require Russia's approval, as the 290-km-range missile is jointly developed. One source said this is unlikely to pose a hurdle given Moscow's close ties with Abu Dhabi.

23J6. UAE in talks with India to purchase BrahMos missiles, Akashteer air-defence units

यूएई भारत से ब्रह्मोस मिसाइलों और आकाशतीर वायु-रक्षा प्रणालियों की खरीद के लिए वार्ता कर रहा है

- The **Indian government** is in talks with the **United Arab Emirates** to sell some of its flagship defence systems, including the **supersonic cruise missile BrahMos**, four Indian sources said, as the Gulf nation steps up arms procurement following the war in **West Asia**.

चार भारतीय सूत्रों के अनुसार, **भारतीय सरकार** अपने प्रमुख रक्षा प्रणालियों, जिनमें **सुपरसोनिक क्रूज़ मिसाइल ब्रह्मोस** भी शामिल है, की बिक्री के लिए **संयुक्त अरब अमीरात** के साथ वार्ता कर रही है, क्योंकि **पश्चिम एशिया** में युद्ध के बाद खाड़ी देश ने हथियारों की खरीद बढ़ा दी है।

- The discussions include the potential sale of India's **air defence system Akashteer**, sources told Reuters.

सूत्रों ने बताया कि इन चर्चाओं में भारत की **वायु रक्षा प्रणाली आकाशतीर** की संभावित बिक्री भी शामिल है।

- **BrahMos**, jointly developed by **India** and **Russia**, is among the world's fastest cruise missiles while **Akashteer** is a fully automated air-defence system developed by the state-run **Bharat Electronics Limited** and the **Indian Army**.

ब्रह्मोस, जिसे **भारत** और **रूस** ने संयुक्त रूप से विकसित किया है, विश्व की सबसे तेज़ क्रूज़ मिसाइलों में से एक है, जबकि **आकाशतीर** एक पूर्णतः स्वचालित वायु रक्षा प्रणाली है जिसे सरकारी उपक्रम **भारत इलेक्ट्रॉनिक्स लिमिटेड** और **भारतीय सेना** ने विकसित किया है।

- Before clinching any **BrahMos** sale to the **UAE**, **India** would require **Russia's approval**, as the **290-km-range missile** is jointly developed.

संयुक्त अरब अमीरात को किसी भी **ब्रह्मोस** बिक्री को अंतिम रूप देने से पहले **भारत** को **रूस की स्वीकृति** प्राप्त करनी होगी, क्योंकि यह **290 किलोमीटर मारक क्षमता वाली मिसाइल** संयुक्त रूप से विकसित की गई है।

All eyes on Messi and Argentina

PCS

Ayon Sengupta

Milestone beckons: Messi needs just one more goal to become the all-time leading scorer in the World Cup. GETTY IMAGES

Lionel Messi has spent the better part of two decades bending football's sense of time. Records that once looked permanent have become milestones in his journey through the game. Defenders have changed, managers have changed, even the shape of Argentina around him has changed, but the central question has remained stubbornly familiar – how do you stop Messi when a match begins to orbit around him?

Austria will be the next team asked to find an answer to that question.

After scoring the 61st hat-trick of his career, 50 for clubs and 11 for Argentina, in the 3-0 win over Algeria, Messi stands one goal away from moving past Miroslav Klose as the World Cup's all-time leading scorer. If he strikes against Austria, the eight-time Ballon d'Or winner will also become only the third player in the tournament history to net in six consecutive World Cup matches.

Just Fontaine did it for France in 1958 and Jairzinho followed for Brazil in 1970, both across single tournaments. Messi's run began with Argentina's win over Australia in the round of 16 during its long-awaited triumph in Qatar four years ago and continues into what is expected to be his final World Cup.

Nearing 39, his influence shows little sign of fading. Against Algeria, he had a direct hand in eight of Argentina's 10 shots, taking six himself while creating two chances. Yet while Messi stole the headlines, Argentina's defensive authority was just as important. Lionel Scaloni's midfield, led by Alexis Mac Allister and Enzo Fernandez, expertly shielded its defence and did not allow Algeria a single shot on target.

Austria arrives in Dallas after a 3-1 win over Jordan and will look to extend its four-game winning run in all competitions.

"We know how good Argentina are," young midfielder Paul Wanner said. "We respect them, but we are confident in our strengths. If we bring our qualities to the pitch, we will pose problems for any team."

Austria's pressing game will try to disrupt Argentina's rhythm, but coach Ralf Rangnick has injury concerns. Captain David Alaba, Stefan Posch, who wore a specially designed protective mask after breaking his jaw against Jordan, and Alessandro Schopf have all trained separately and are racing against time to be fit for the all-important game. Argentina, too, is worried about the fitness of defender Gonzalo Montiel, who is still recovering from a hamstring injury.

If the South Americans beat Austria and Jordan fails to defeat Algeria, Scaloni's side will be guaranteed a place in the knockout rounds as the winner of Group J.

For Argentina, this is another step towards the ultimate goal of another World title. For Messi, it is another opportunity to claim yet another record that once seemed untouchable.

22J6. All eyes on Messi and Argentina
सभी की निगाहें मेसी और अर्जेंटीना पर

- After scoring the **61st hat-trick** of his career, 50 for clubs and 11 for **Argentina**, in the 3-0 win over **Algeria**, Messi stands one goal away from moving past **Miroslav Klose** as the **World Cup's all-time leading scorer**.

  अल्जीरिया पर 3-0 की जीत में अपने करियर की **61वीं हैट्रिक** लगाने के बाद, जिसमें क्लबों के लिए 50 और **अर्जेंटीना** के लिए 11 हैट्रिक शामिल हैं, मेसी **विश्व कप इतिहास के सर्वाधिक गोल करने वाले खिलाड़ी** के रूप में **मिरोस्लाव क्लोज़े** को पीछे छोड़ने से केवल एक गोल दूर हैं।

India regains Nations Cup, back in women's Pro League

PCS

Press Trust of India
AUCKLAND

Cock-a-hoop: An ecstatic Salima celebrates the triumph with her teammates. SPECIAL ARRANGEMENT

India defeated host New Zealand 2-0 in the final to win its second FIH Women's Nations Cup title and secure a promotion to the FIH Women's Pro League here on Sunday.

Navneet Kaur gave India an early lead in the fourth minute before Sunelita Toppo doubled the advantage in the 15th.

The team then produced a stellar defensive display to protect the lead and emerge triumphant. India had won the inaugural edition in 2022.

Lalremsiami won the Player-of-the-Match award, while Deepika with six goals finished as the joint-top scorer in the tournament along with USA's Ashley Sessa.

India remained unbeaten throughout the campaign, defeating USA 3-2, Japan 2-1, and Uruguay 3-2 in pool matches before routing Chile 6-0 in the semifinal.

To recognise the team's achievements, Hockey India has announced a cash award of ₹ three lakh for each player and ₹1.5 lakh for each member of the support staff.

The result (final): India 2 (Navneet 4, Sunelita 15) bt New Zealand 0.

22J6. India regains Nations Cup, back in women's Pro League

22J6	U.P. govt. must avoid targeting heritage structures, say MPs सांसदों ने कहा, उत्तर प्रदेश सरकार को विरासत संरचनाओं को निशाना बनाने से बचना चाहिए
22J6	All convey the same truth सभी एक ही सत्य को अभिव्यक्त करते हैं

U.P. govt. must avoid targeting heritage structures, say MPs

GS I: History

Mayank Kumar
LUCKNOW

Muslim MPs from Uttar Pradesh on Sunday said State authorities should refrain from discriminatory demolitions of historical and heritage structures as they not only violate religious and cultural rights, but also give external adversaries opportunities to speak about India's internal matters.

The MPs were questioning Pakistan President Asif Ali Zardari's comments on the alleged threat to the 1,000-year-old Masjid Ganj Shaheeda in Varanasi. They said that the Muslim community in Uttar Pradesh need not take lessons from the leader of Pakistan.

Statement condemned

Ghazipur MP Afzal Ansari said that in Uttar Pradesh, the government at times took one-sided action on heritage structures related to Muslims over encroachment claims. It was an attempt to infringe on religious and cultural rights and gave opportunities to external enemies to give lectures on minority rights to India and raise issues internationally, he said.

"I, in strongest words, condemn the statement of Pakistan's President. Muslims of India need no lessons from the Pakistan President. We are living peacefully, enjoying constitutional rights in our homeland India. The Muslim community in the State of Uttar Pradesh is capable enough to raise its concern over protection of historic sites within the robust democratic framework of India through an independent judiciary and system of governance," he said. Muslims in India were living in a far better condition than people of Pakistan, Mr. Ansari added.

Zardari's comments

On Saturday, a post on X by the official account of the President of Pakistan read: "President Asif Ali Zardari expressed deep concern over the demolitions and threats to historic Muslim religious sites in India, including the 1,000-year-old Masjid Ganj Shaheeda in Varanasi. He asked India to immediately stop such actions, warning that they risk leading to the disintegration and perennial chaos of India. He called for an immediate halt to such actions and urged the protection of minority rights and shared cultural heritage."

Javed Ali Khan, Rajya Sabha member from the Samajwadi Party, and Congress leader Shahnawaz Alam also condemned the comments by the Pakistan leader. "Foreign countries or heads of state have no rights to comment on internal affairs of India," Mr. Khan said.

22J6. U.P. govt. must avoid targeting heritage structures, say MPs

सांसदों ने कहा, उत्तर प्रदेश सरकार को विरासत संरचनाओं को निशाना बनाने से बचना चाहिए

- The MPs were questioning **Pakistan President Asif Ali Zardari's** comments on the alleged threat to the **1,000-year-old Masjid Ganj Shaheeda** in Varanasi.

सांसद **पाकिस्तान के राष्ट्रपति आसिफ अली जरदारी** द्वारा वाराणसी स्थित कथित रूप से खतरे में पड़ी **1,000 वर्ष पुरानी मस्जिद गंज शहीदा** के संबंध में की गई टिप्पणी पर सवाल उठा रहे थे।

Ghazi Saiyyad Salar Masud (Ghazi Miyan)

Ghazi Saiyyad Salar Masud (also known as **Ghazi Miyan**) is a medieval figure who occupies a unique place in the history and folklore of North India. He is revered by many devotees as a warrior-saint, while historians generally view him in the context of the early Turkic military expeditions into northern India.

Historical Background

• He is believed to have lived during the early **11th century CE**.

• According to traditional accounts, he was the son of **Salar Sahu** and a relative (often described as a nephew) of Mahmud of Ghazni.

• Medieval Persian texts, particularly the **Mirat-i-Masudi** written in the **17th century** by Abdur Rahman Chishti, describe his military campaigns in northern India.

• Tradition states that he entered northern India with forces associated with the Ghaznavids and was killed in a battle near Bahraich around **1034 CE**.

Shrine at Bahraich

• His most famous shrine is the Dargah of Ghazi Saiyyad Salar Masud.

• The shrine attracts devotees from different communities, including both Muslims and Hindus.

• An annual fair known as the **Jeth Mela** is organized there and has historically been one of the major religious gatherings of eastern Uttar

Pradesh.

Historical Debate

- Historians debate the extent to which the traditional narratives are historically accurate.
- Contemporary evidence from the **11th century** regarding Salar Masud is limited.
- Much of the popular narrative comes from later literary and devotional traditions, especially the **Mirat-i-Masudi**, written several centuries after his death.
- As a result, historians distinguish between:
- **The historical figure**, about whom limited evidence exists.
- **The legendary Ghazi Miyan**, whose life story became enriched through folklore and popular religious traditions.

FAITH

GS I: History: A&C

All convey the same truth

Sri Kesava Vajapeya Swamy said in a discourse that the Vedas contain the *Karma Kanda* (rituals and duties) and the *Jnana Kanda* (spiritual knowledge). However, Bhakti (devotion) is hidden within them. Just as the river Sarasvathī flows invisibly beneath the confluence at Prayag, devotion remains concealed within the Vedas. Karma and knowledge without devotion are incomplete and do not yield their highest benefit.

The Bhagavad Gita teaches that spiritual knowledge and devotion do not bear fruit unless one engages in righteous action. Following the scriptural duties prescribed by the Vedas removes sins and purifies the individual.

The Vedas describe many *samskaras* (sacraments). Since elaborate Vedic sacrifices are beyond the capability of most people in this yuga, ordinary devotees are encouraged to engage in nama sankirtana – the chanting of the divine names of God. Daily disciplines and rituals help control the senses and keep a person on the righteous path. Such practices contribute not only to personal spiritual growth but also to *loka kshema* – the welfare of the entire world. Ramanuja taught that for ordinary people, simply walking to a temple and worshipping the Lord with devotion is equivalent to performing a yajna. Sage Vyasa taught through the Bhagavata Purana that listening to the glories of the Lord (sravanam) itself is a form of yajna. Andal emphasised devotion through singing the Lord's names and contemplating Him with the mind: "Sing with the mouth and meditate with the mind." The Vedas, the Bhagavad Gita, the Bhagavata Purana, the Ramayana, the Azhwars and the great Acharyas all convey the same truth.

22J6. All convey the same truth
सभी एक ही सत्य को अभिव्यक्त करते हैं

- The Vedas describe many **samskaras (sacraments)**.

वेदों में अनेक **संस्कारों** का वर्णन किया गया है।

- Since elaborate **Vedic sacrifices** are beyond the capability of most people in this yuga, ordinary devotees are encouraged to engage in **nama sankirtana** — the chanting of the divine names of God.

चूँकि इस युग में अधिकांश लोगों के लिए विस्तृत **वैदिक यज्ञों** का संपादन कठिन है, इसलिए सामान्य भक्तों को **नाम-संकीर्तन** अर्थात् भगवान के दिव्य नामों के जप एवं कीर्तन का अभ्यास करने के लिए प्रेरित किया जाता है।

- Such practices contribute not only to personal spiritual growth but also to **loka kshema** — the welfare of the entire world.

ऐसी साधनाएँ न केवल व्यक्तिगत आध्यात्मिक उन्नति में सहायक होती हैं, बल्कि **लोकक्षेम** अर्थात् सम्पूर्ण विश्व के कल्याण में भी योगदान देती हैं।

- **Ramanuja** taught that for ordinary people, simply walking to a temple and worshipping the Lord with devotion is equivalent to performing a **yajna**.

रामानुजाचार्य ने सिखाया कि सामान्य जनों के लिए केवल मंदिर तक जाकर श्रद्धा एवं भक्ति के साथ भगवान की उपासना करना भी एक **यज्ञ** के समान है।

- **Sage Vyasa** taught through the **Bhagavata Purana** that listening to the glories of the Lord (**sravanam**) itself is a form of yajna.

महर्षि व्यास ने **भागवत पुराण** के माध्यम से सिखाया कि भगवान की महिमा का श्रवण (**श्रवणम्**) स्वयं एक प्रकार का यज्ञ है।

- **Andal** emphasised devotion through singing the Lord's names and contemplating Him with the mind.

आंडाल ने भगवान के नामों का गान करने और मन में उनका चिंतन करने के माध्यम से भक्ति पर विशेष बल दिया।

- "**Sing with the mouth and meditate with the mind**."
  "**मुख से भगवान का नाम गाओ और मन से उनका ध्यान करो।**"
- The **Vedas**, the **Bhagavad Gita**, the **Bhagavata Purana**, the **Ramayana**, the **Azhwars** and the great **Acharyas** all convey the same truth.
  वेद, **भगवद्गीता**, **भागवत पुराण**, **रामायण**, **आळवार संत** तथा महान **आचार्य** सभी एक ही सत्य का प्रतिपादन करते हैं।

Sage Vyasa

• **Sage Vyasa**, also known as **Veda Vyasa** or **Krishna Dvaipayana**, is one of the most revered sages in Indian tradition.
• The word **Vyasa** means **compiler, arranger or divider**, which reflects his traditional role in arranging sacred knowledge.
• He is traditionally credited with compiling or arranging the **Vedas**, composing or arranging the **Mahabharata**, and contributing to the **Puranic tradition**.

Historical and Cultural Significance

• Vyasa is traditionally linked with the division of Vedic knowledge into **Rigveda, Yajurveda, Samaveda and Atharvaveda**.
• He is also connected with the **Mahabharata**, one of the greatest epics of India.
• The **Bhagavad Gita**, which is part of the Mahabharata, became one of the most influential texts of Indian philosophy.
• Vyasa is also remembered on **Guru Purnima**, which is observed on the full moon day of **Ashadha month**, generally falling in **June or July**.

Andal

• **Andal** was a major woman saint of the Tamil **Vaishnava Bhakti tradition**.
• She is regarded as the only female saint among the **twelve Alvars**, who were early Tamil poet-saints devoted to **Lord Vishnu**.
• Andal is closely associated with **Srivilliputhur** in present-day **Virudhunagar district of Tamil Nadu**.
• The official Tamil Nadu HRCE page identifies **Srivilliputhur Andal Temple** as one of the **108 Divya Desams** dedicated to Lord Vishnu.

Literary Contribution

• Andal is famous for composing **Tiruppavai**, a collection of **30 devotional hymns**.
• She is also associated with **Nachiyar Tirumoli**, another important devotional composition.
• Her poetry expresses intense devotion, surrender and spiritual longing for Lord Vishnu.
• Her compositions are especially important during the Tamil month of **Margazhi**, when **Tiruppavai** is recited widely.

Historical Importance

• Andal gave a powerful voice to **women's participation in Bhakti**.
• Her devotional poetry shows that Bhakti was not limited to Sanskritic learning or elite groups.
• She used **Tamil language**, making devotion more accessible to ordinary people.
• The **Srivilliputhur temple gopuram** is widely recognized as an important symbol of Tamil cultural heritage.

Simple Example

• Andal's Bhakti can be understood as personal and emotional devotion.
• Instead of treating religion only as ritual, Andal expressed devotion as love, surrender and

direct connection with the divine.

Ramanuja

• **Ramanuja**, also known as **Ramanujacharya**, was a major philosopher, theologian and social-religious reformer of South India.
• He was born around **1017 CE** at **Sriperumbudur** and died in **1137 CE** at **Srirangam**.
• He is one of the most important teachers of **Sri Vaishnavism**.
• His philosophy is known as **Vishishtadvaita Vedanta**, meaning **qualified non-dualism**.

Philosophy of Vishishtadvaita

• Ramanuja accepted that **Brahman** is the ultimate reality.
• He identified Brahman with **Vishnu-Narayana**, along with **Lakshmi**.
• Unlike absolute non-dualism, he argued that the soul and the world are real, but they depend on God.
• In simple words, Ramanuja taught that God, soul and world are connected, but not completely identical.

Contribution to Bhakti Movement

• Ramanuja gave a strong philosophical foundation to **devotion or Bhakti**.
• He emphasized **surrender to God**, known as **prapatti**.
• He organized temple worship at **Srirangam** and helped spread Sri Vaishnava teachings.
• He connected Sanskritic Vedanta with the Tamil devotional tradition of the **Alvars**.

Social Significance

• Ramanuja is remembered for promoting the idea of wider access to devotion.
• The **216-feet Statue of Equality** in Hyderabad commemorates his teachings on equality in matters of faith, caste and creed. It was dedicated to the nation by the Prime Minister on **5 February 2022**.

Simple Example

• If Shankara emphasized the ultimate unity of reality, Ramanuja emphasized a devotional relationship between the soul and God.
• His teaching made philosophy more connected with worship, temple tradition and public devotion.

RIGVEDA (VEDA OF HYMNS)

• The **oldest Veda**, composed around **1500–1200 BCE**.
• Contains **1,028 hymns (Suktas)** dedicated to various deities such as **Agni (Fire)**, **Indra (Rain and War)**, **Varuna**, and **Soma**.
• Provides valuable information about the early Vedic society, religion, economy, and polity.
• Often called the **"Book of Prayers"**.

Yajurveda (Veda of Sacrificial Formulas)

• Contains prayers, chants, and procedures used during **sacrifices (Yajnas)**.
• Acts as a guidebook for priests conducting rituals.
• Divided into:
• **Krishna (Black) Yajurveda**
• **Shukla (White) Yajurveda**
• Focuses more on **rituals and ceremonies** than philosophy.

Samaveda (Veda of Melodies)

• Consists mainly of hymns borrowed from the **Rigveda** but arranged for singing.
• Contains musical notations and chants used during religious ceremonies.
• Considered the **foundation of Indian classical music**.
• Often called the **"Veda of Music."**

Atharvaveda (Veda of Everyday Life)

• Contains hymns, prayers, charms, spells, and incantations.
• Deals with everyday concerns such as health, protection, family welfare, agriculture, and

healing.
• Provides insights into the social life and beliefs of common people.
• Sometimes called the **"Veda of Folk Traditions."**

Quick Comparison Table

Veda	Main Focus	Popular Name
Rigveda	Hymns to gods	Veda of Hymns
Yajurveda	Sacrificial rituals	Veda of Rituals
Samaveda	Musical chants	Veda of Music
Atharvaveda	Daily life, healing, spells	Veda of Everyday Life

Difference Between Advaita and Dvaita (For a Layperson)

The simplest way to understand **Advaita** and **Dvaita** is through the relationship between **God and the individual soul (you and me)**.

Aspect	Advaita Vedanta	Dvaita Vedanta
Meaning	**Non-dualism** (Only One Ultimate Reality)	**Dualism** (God and soul are separate)
Main Philosopher	Adi Shankaracharya	Madhvacharya
Relationship between God and Soul	Soul and God are ultimately the same	Soul and God are eternally different
Nature of the World	The world is temporary and not the ultimate reality	The world is real and created by God
Goal of Life	Realize "I am one with Brahman"	Attain God's grace and remain devoted to Him
Path	Knowledge (Jnana)	Devotion (Bhakti)

Advaita (Adi Shankaracharya)
• The drop of water and the ocean are essentially made of the same substance.
• The drop appears separate, but once it merges into the ocean, it realizes it was never truly different.
• Similarly, your soul (**Atman**) and the ultimate reality (**Brahman**) are actually one.
Formula:
Atman = Brahman

Dvaita (Madhvacharya)
• The drop of water and the ocean are always different.
• The drop can be close to the ocean, depend on it, and love it, but it never becomes the ocean.
• Similarly, the soul can worship God and attain salvation, but it never becomes God.
Formula:
Atman ≠ God

Advaita
Suppose you dream at night.
• In the dream, you see many people, animals, and places.
• When you wake up, you realize everything was created by your own mind.
Advaita says:
Just as the dream ultimately comes from one mind, the entire universe ultimately comes from one reality, Brahman.

Dvaita

Think of a king and his subjects.
• The subjects depend on the king.
• They can love and serve the king.
• But they never become the king.
Dvaita says:
God is the supreme ruler, and souls are His servants forever.

Where Does Ramanuja Fit?
There is also a middle path called **Vishishtadvaita** proposed by Ramanuja.
Ramanuja said:
• The soul is not completely identical to God (unlike Advaita).
• The soul is not completely separate from God (unlike Dvaita).
• Souls and the universe are parts of God's body and depend on Him.
Simple Analogy
• God = Tree
• Souls = Leaves
Leaves are different from the tree, yet they cannot exist independently of it.

Over 200 teak trees illegally axed in Chalakudy

GS I: Geography

K.S. Sudhi
KOCHI

Huge teak trees, numbering 273, were illegally sold in the territorial limits of the Chalakudy forest division, according to a preliminary investigation carried out by the Divisional Forest Officer of Flying Squad (Ernakulam). The trees were felled along an 18-km stretch from Vellikulangara junction to Vettilapala bridge. Trees on private holdings and assigned land were felled and sold cheaply, as per the report.

The trees that were felled for reportedly clearing the pathway for the State hill highway were sold to a Thiruvananthapuram-based wood industries firm for ₹8.52 lakh against its assessed value of ₹41.55 lakh, fixed by the Assistant Conservator of Forest (Social Forestry), Thrissur. The land along the road stretch was acquired by the Kerala Road Fund Board for the highway project, according to sources.

Illicit trade: Trees were felled reportedly to clear a path for a State hill highway and then sold to a private firm. REPRESENTATIVE IMAGE.

The Forest Range Officer (Pariyaram) also issued a No Objection Certificate for the firm to transport the felled trees under the provisions of the Kerala Promotion of Tree Growth in Non-Forest Areas Act 2005, according to the report. However, the Act specifies that a transport pass shall be issued to transport only those trees which are legally felled by the owner of the holding on which they are located.

The circumstances under which the officials permitted the timber firm that purchased the trees to axe and transport them should be probed, the report suggested.

Lack of documentation

No files on the holdings acquired for the road project – their survey numbers and status – and the details of the trees sold and to be axed were maintained at the Forest range office, Pariyaram, or the Social Forestry, Thrissur Division.

The report also pointed out that the firm, which purchased the trees, has also started cutting trees from the holdings.

No trees located on assigned land shall be illegally cut down, sold and transported, as their ownership is vested with the State government, pointed out another report by the Additional Principal Chief Forest Conservator (Vigilance and Forest Intelligence). In the event of cutting down such trees, they shall be transported to the timber depot of the department and sold outright. The revenue generated from such sales shall be credited to the government, said the report.

The report recommended initiating recovery proceedings for the lost funds and directed authorities to strictly prevent the illegal felling of trees on forest and revenue lands.

22J6. Over 200 teak trees illegally axed in Chalakudy
चालाकुडी में 200 से अधिक सागौन के वृक्षों की अवैध कटाई

Teak Trees (Tectona grandis)
• Teak is a characteristic tree of **Tropical Deciduous Forests (Monsoon Forests)**.
• More specifically, it is commonly found in **Tropical Moist Deciduous Forests**, though it can also occur in some dry deciduous areas.
• These forests shed their leaves during the dry season to conserve water.

Climatic Conditions Required
• Rainfall: **75–200 cm annually**.
• Temperature: **20°C–35°C**.
• Well-drained fertile soils, especially **black cotton soil**, red soils, and alluvial soils.
• Distinct wet and dry seasons.

Distribution in India
Teak is mainly found in:
• **Madhya Pradesh** (largest teak-producing state).
• **Maharashtra**.
• **Chhattisgarh**.
• **Odisha**.
• **Telangana**.
• **Andhra Pradesh**.
• **Karnataka**.
• **Tamil Nadu**.
• **Kerala**.
• Parts of **Gujarat** and **Uttar Pradesh**.

Voting should be recognised as a fundamental right, says Ramesh

GS II: Polity

The Hindu Bureau
NEW DELHI

The right to vote should be recognised as a fundamental right to ensure the highest level of judicial review and protection, along with safeguards against voter suppression or arbitrary exclusions during exercises such as the special intensive revision (SIR), senior Congress leader Jairam Ramesh said on Sunday.

Mr. Ramesh made the remarks in the context of the recent Supreme Court judgment declaring the right to walk on a footpath a fundamental right. Providing historical context on the evolution of fundamental rights and electoral provisions, he argued that while the top court has already in the past recognised voters' right to know candidates' criminal records, funding sources, and has protected ballot secrecy and enabled NOTA, but voting itself continues to remain a statutory right. "All related rights are fundamental, but not the core right they depend on," he said.

Jairam Ramesh

He said elevating the right to vote has become essential in the present context. "With the blatantly partisan functioning of the Election Commission of India working at the behest of the Prime Minister and the Union Home Minister having been brutally exposed, it is now time to elevate the right to vote as a fundamental right that would offer it the highest level of judicial review and protection," he said.

"It would be a powerful step in putting in place safeguards against voter suppressions or arbitrary disqualifications that have taken place in different states in astronomical numbers under the SIR process. It would also mean greater Supreme Court vigilance over the functioning of the Election Commission," he added.

Referring to the Constituent Assembly debates, Mr. Ramesh said an Advisory Committee on Fundamental Rights, Minorities and Tribal and Excluded Areas was set up under Sardar Patel. At its meeting on April 21-22, 1947, there was discussion on making the right to vote a fundamental right. Dr. B.R. Ambedkar and Babu Jagjivan Ram supported the proposal, he said, while Sardar Patel, C. Rajagopalachari and others opposed it.

"Sardar Patel himself took the position that universal adult franchise was, in itself, an implicit fundamental right. This is the background to Article 326 which provides for elections based on universal adult suffrage," he said.

He also cited Justice Ajay Rastogi's dissenting opinion in the *Anoop Baranwal vs. Union of India* judgment of March 2023, which held that the right to vote is a fundamental right.

22J6. Voting should be recognised as a fundamental right, says Ramesh
रमेश ने कहा, मतदान को एक मौलिक अधिकार के रूप में मान्यता दी जानी चाहिए

- The right to vote should be recognised as a **Fundamental Right** to ensure the highest level of **judicial review** and protection, along with safeguards against **voter suppression** or arbitrary exclusions during exercises such as the **Special Intensive Revision (SIR)**, senior

Congress leader **Jairam Ramesh** said on Sunday.
कांग्रेस के वरिष्ठ नेता **जयराम रमेश** ने रविवार को कहा कि मतदान के अधिकार को **मौलिक अधिकार** के रूप में मान्यता दी जानी चाहिए, ताकि उसे सर्वोच्च स्तर की **न्यायिक समीक्षा** और संरक्षण प्राप्त हो सके तथा **विशेष गहन पुनरीक्षण (SIR)** जैसी प्रक्रियाओं के दौरान **मतदाता दमन** अथवा मनमाने बहिष्कार के विरुद्ध सुरक्षा सुनिश्चित की जा सके।

- Mr. Ramesh made the remarks in the context of the recent **Supreme Court judgment** declaring the **right to walk on a footpath** a fundamental right.
श्री रमेश ने यह टिप्पणी हाल ही में आए **उच्चतम न्यायालय के निर्णय** के संदर्भ में की, जिसमें **फुटपाथ पर चलने के अधिकार** को मौलिक अधिकार घोषित किया गया था।
- Providing historical context on the evolution of **Fundamental Rights** and electoral provisions, he argued that while the top court has already recognised voters' **right to know candidates' criminal records**, **funding sources**, protected **ballot secrecy**, and enabled **NOTA**, voting itself continues to remain a **statutory right**.
मौलिक अधिकारों और निर्वाचन संबंधी प्रावधानों के विकास का ऐतिहासिक संदर्भ देते हुए उन्होंने कहा कि यद्यपि उच्चतम न्यायालय पहले ही मतदाताओं के **उम्मीदवारों के आपराधिक रिकॉर्ड जानने के अधिकार**, **वित्तपोषण के स्रोतों की जानकारी**, **मतपत्र की गोपनीयता** तथा **NOTA** के अधिकार को मान्यता दे चुका है, फिर भी मतदान स्वयं अब भी एक **वैधानिक अधिकार** बना हुआ है।
- It would also mean greater **Supreme Court vigilance** over the functioning of the **Election Commission**," he added.
इसका अर्थ **निर्वाचन आयोग** के कार्यकलापों पर **उच्चतम न्यायालय की अधिक सतर्क निगरानी** भी होगा।"
- Referring to the **Constituent Assembly debates**, Mr. Ramesh said an **Advisory Committee on Fundamental Rights, Minorities and Tribal and Excluded Areas** was set up under **Sardar Patel**.
संविधान सभा की बहसों का उल्लेख करते हुए श्री रमेश ने कहा कि **सरदार पटेल** की अध्यक्षता में **मौलिक अधिकार, अल्पसंख्यक तथा जनजातीय एवं बहिष्कृत क्षेत्रों संबंधी परामर्श समिति** का गठन किया गया था।
- At its meeting on April 21-22, 1947, there was discussion on making the **right to vote** a fundamental right.
21-22 अप्रैल 1947 को हुई समिति की बैठक में **मतदान के अधिकार** को मौलिक अधिकार बनाने पर चर्चा हुई थी।
- **Dr. B.R. Ambedkar** and **Babu Jagjivan Ram** supported the proposal, he said, while **Sardar Patel**, **C. Rajagopalachari** and others opposed it.
उन्होंने कहा कि **डॉ. बी.आर. आंबेडकर** और **बाबू जगजीवन राम** ने इस प्रस्ताव का समर्थन किया था, जबकि **सरदार पटेल**, **सी. राजगोपालाचारी** तथा अन्य सदस्यों ने इसका विरोध किया था।
- "**Sardar Patel** himself took the position that **universal adult franchise** was, in itself, an implicit fundamental right.
उन्होंने कहा, "**सरदार पटेल** का स्वयं यह मत था कि **सार्वभौमिक वयस्क मताधिकार** अपने आप में एक निहित मौलिक अधिकार है।
- This is the background to **Article 326** which provides for elections based on universal adult suffrage," he said.
यही **अनुच्छेद 326** की पृष्ठभूमि है, जो सार्वभौमिक वयस्क मताधिकार के आधार पर चुनावों का प्रावधान करता है।"
- He also cited **Justice Ajay Rastogi's dissenting opinion** in the **Anoop Baranwal vs. Union of India** judgment of March 2023, which held that the **right to vote** is a fundamental right.
उन्होंने मार्च 2023 के **अनूप बरनवाल बनाम भारत संघ** मामले में **न्यायमूर्ति अजय रस्तोगी के असहमति मत** का भी उल्लेख किया, जिसमें कहा गया था कि **मतदान का अधिकार** एक मौलिक अधिकार है।

GS II: Polity

Just truths

DNA test for paternity, allowed as a last resort, must not violate other rights

To protect children from the stigma of illegitimacy, the erstwhile Indian Evidence Act 1872 and the Bharatiya Sakshya Adhiniyam 2023 place the burden of proof on the party denying paternity rather than the party seeking confirmation. The Supreme Court of India first considered the challenges posed by DNA evidence in this regard, in *Goutam Kundu* (1993), where it held that DNA tests could not be ordered as a matter of routine and that courts must first assess whether a strong *prima facie* case had been made out. It reiterated this position in *Shri Banarsi Dass* (2005); both cases also reinforced the protection of legitimacy over any interest in forensic curiosity. Then, in the litigation mooted by Rohit Shekhar alleging that veteran politician N.D. Tiwari was his father, the Delhi High Court and the top court called for the test despite Mr. Tiwari insisting that his right to privacy was being violated. In *Nandlal Wasudeo Badwaik* (2014), the Court said that when reliable scientific proof confronts legal fiction, the former may prevail in the interest of justice; in *Dipanwita Roy* (2014), it acknowledged that refusing testing can lead to adverse inference. Both orders also confirmed the legitimacy of DNA tests based on need.

Then, in *K.S. Puttaswamy* (2017), as it encoded the right to privacy – including of genetic data – as a fundamental right under Article 21, the Court introduced a constraint that prior paternity jurisprudence did not have to reckon with. The threefold test it set up, of legality, legitimate aims, and proportionality, was brought to bear in *Aparna Ajinkya Firodia* (2023), which concluded that DNA tests should be ordered only where they are necessary and proportionate, and not if a dispute could be resolved based on other evidence. In *Ivan Rathinam* (2025), the Court said neither privacy nor knowledge were absolute and that the judiciary also has to negotiate stigma and necessity. Its order in *CP vs AP* (2026) tied all these contentions together as it upheld a trial court's direction for a DNA test on the grounds that the disputed question of paternity could not be resolved by the existing material record and required a scientific determination, by applying necessity and proportionality considerations. In the post-*Puttaswamy* era, then, the Constitution protects bodily autonomy and restricts compelled genetic disclosure – but courts could order a DNA test if paternity is directly in issue, there is no other evidence on record capable of resolving the question, and the test would serve the interest of justice. Thus, by positioning DNA testing as a last resort, the courts have to ensure that while science may be infallible, the pursuit of truth is only just when it respects a person's rights.

22J6. Just truths
केवल सत्य

- To protect children from the stigma of **illegitimacy**, the **erstwhile Indian Evidence Act 1872** and the **Bharatiya Sakshya Adhiniyam 2023** place the burden of proof on the party denying **paternity** rather than the party seeking confirmation.

बच्चों को **अवैध संतति** होने के सामाजिक कलंक से बचाने के लिए **भारतीय साक्ष्य अधिनियम, 1872** तथा **भारतीय साक्ष्य अधिनियम, 2023** में **पितृत्व** से इनकार करने वाले पक्ष पर प्रमाण का भार डाला गया है, न कि पितृत्व की पुष्टि चाहने वाले पक्ष पर।

- The **Supreme Court of India** first considered the challenges posed by **DNA evidence** in this regard, in **Goutam Kundu (1993)**, where it held that **DNA tests** could not be ordered as a matter of routine and that courts must first assess whether a strong **prima facie case** had been made out.

इस संदर्भ में **भारत के सर्वोच्च न्यायालय** ने पहली बार **Goutam Kundu (1993)** मामले में **डीएनए साक्ष्य** से उत्पन्न चुनौतियों पर विचार किया, जहाँ उसने कहा कि **डीएनए परीक्षण** नियमित रूप से आदेशित नहीं किए जा सकते तथा न्यायालयों को पहले यह देखना होगा कि क्या एक सशक्त **प्रथमदृष्टया मामला** स्थापित हुआ है।

- It reiterated this position in **Shri Banarsi Dass (2005)**; both cases also reinforced the protection of **legitimacy** over any interest in **forensic curiosity**.

न्यायालय ने **Shri Banarsi Dass (2005)** में भी इसी दृष्टिकोण को दोहराया; दोनों मामलों ने **फोरेंसिक जिज्ञासा** की अपेक्षा **वैधता की धारणा** के संरक्षण को अधिक महत्व दिया।

- Then, in **K.S. Puttaswamy (2017)**, as it encoded the **right to privacy** — including of **genetic data** — as a **fundamental right** under **Article 21**, the Court introduced a constraint that prior paternity jurisprudence did not have to reckon with.

इसके बाद **K.S. Puttaswamy (2017)** मामले में, जब न्यायालय ने **अनुच्छेद 21** के अंतर्गत **आनुवंशिक डेटा** सहित **निजता के अधिकार** को **मौलिक अधिकार** घोषित किया, तब उसने एक ऐसी सीमा निर्धारित की जिसका पूर्ववर्ती पितृत्व संबंधी न्यायशास्त्र में विचार नहीं किया गया था।

- The **threefold test** it set up, of **legality**, **legitimate aims**, and **proportionality**, was brought to bear in **Aparna Ajinkya Firodia (2023)**.

न्यायालय द्वारा निर्धारित **त्रिस्तरीय परीक्षण**, जिसमें **वैधता**, **वैध उद्देश्य** और **अनुपातिकता** शामिल हैं, को **Aparna Ajinkya Firodia (2023)** मामले में लागू किया गया।

- It concluded that **DNA tests** should be ordered only where they are **necessary** and **proportionate**, and not if a dispute could be resolved based on other evidence.

इसमें निष्कर्ष निकाला गया कि **डीएनए परीक्षण** केवल तभी आदेशित किए जाने चाहिए जब वे **आवश्यक** और **अनुपातिक** हों तथा विवाद का समाधान अन्य साक्ष्यों के आधार पर संभव न हो।

- Its order in **CP vs AP (2026)** tied all these contentions together as it upheld a trial court's direction for a **DNA test** on the grounds that the disputed question of **paternity** could not be resolved by the existing material record and required a **scientific determination**, by applying **necessity** and **proportionality** considerations.

CP vs AP (2026) मामले में न्यायालय ने इन सभी सिद्धांतों को एक साथ समाहित करते हुए निचली अदालत द्वारा दिए गए **डीएनए परीक्षण** के आदेश को बरकरार रखा, क्योंकि **पितृत्व** से जुड़ा विवाद उपलब्ध अभिलेखों के आधार पर हल नहीं हो सकता था और उसके लिए **वैज्ञानिक निर्धारण** आवश्यक था; यह निर्णय **आवश्यकता** और **अनुपातिकता** के सिद्धांतों पर आधारित था।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- In the **post-Puttaswamy era**, then, the **Constitution** protects **bodily autonomy** and restricts compelled **genetic disclosure** — but courts could order a **DNA test** if **paternity** is directly in issue, there is no other evidence on record capable of resolving the question, and the test would serve the **interest of justice**.

  इस प्रकार **पुट्टास्वामी-उपरांत युग** में **संविधान शारीरिक स्वायत्तता** की रक्षा करता है और बाध्यकारी **आनुवंशिक जानकारी के प्रकटीकरण** को सीमित करता है; फिर भी न्यायालय **डीएनए परीक्षण** का आदेश दे सकते हैं यदि **पितृत्व** प्रत्यक्ष रूप से विवादित हो, प्रश्न के समाधान हेतु अन्य कोई पर्याप्त साक्ष्य उपलब्ध न हो तथा परीक्षण **न्याय के हित** में हो।

Can police re-open probe without court approval?

Does Section 173(8) of CrPC permit filing of a supplementary report without Magistrate's permission?

GS II: Polity, Judiciary

EXPLAINER

R.K. Vij

The story so far:

The Supreme Court recently in *Paliniswamy Veeraraja & Ors. versus The State of Karnataka & Anr.* reiterated that the investigating authorities were required to obtain permission from the Magistrate to initiate further investigation after filing the closure report. In this case, the court quashed the First Information Report (FIR) and subsequent chargesheet noting that such permission had not been obtained.

Although an application seeking further investigation had been filed before the concerned Magistrate for a third time, no order granting permission was placed on record, the court said.

The investigating agency had earlier filed closure reports twice, stating that the dispute appeared to be entirely civil in nature. The court also relied on the principles laid down in *State of Haryana v. Bhajan Lal (1992)*, holding that the civil nature of the dispute was an additional ground for quashing the FIR and subsequent proceedings.

Can supplementary report be filed without Magistrate's approval?

The sub-section (2) of Section 173 of the Criminal Procedure Code (CrPC) provides for forwarding a report to the Magistrate after completing investigation in the prescribed form. The Section 173(8) CrPC says that in case the in-charge of a police station finds additional evidence after sending final report to the Magistrate, he may send supplementary report to the Magistrate. It is silent on obtaining permission from a Magistrate for filing supplementary report under sub-section (8). Section 193(9) of the BNSS is *pari materia* (dealing with the same subject matter) to Section 173(8) of the CrPC.

What has been held by the Supreme Court with regard to further investigation after filing a final report?

The Supreme Court in *Vinay Tyagi versus Irshad Ali (2013)* held that "though there is no specific requirement in the provisions of Section 173(8) of the code to conduct further investigation or file supplementary report with the leave of the court, the investigating agencies have not only understood but also adopted it as a legal practice to seek permission of the courts to conduct further investigation and file supplementary report with the leave of the court".

The court held that the requirement of seeking prior leave of the court to conduct further probe will have to read into, and is necessary implication of the provisions of Section 173(8) of the code. The court held that the doctrine of *contemporanea expositio* supports such an interpretation, as a practice that has been consistently understood and implemented over time, and is backed by law, should be recognised as an integral part of the interpretative process. This proposition has been approved by the Supreme Court in subsequent cases also.

While the newly added proviso to Section 193(9) of the BNSS (which is *pari materia* to Section 173(8) of the CrPC) mandates that the permission of the court is necessary if the trial has begun, the top court, in *Rama Chaudhary versus State of Bihar (2024)* reiterated that even though the statute does not require express permission, the law has developed and seeking permission from the concerned magistrate is essential. The Supreme Court, in *Robert Lalchungnunga Chongthu v. State of Bihar (2025)*, reaffirmed the ratio in Vinay Tyagi (supra), holding that obtaining the court's leave to file a supplementary chargesheet forms an integral part of the law.

Therefore, despite the new provision of the BNSS, once a chargesheet or closure report has been filed, further probe based on new evidence may be undertaken only with the permission of the court.

R.K. Vij is a former IPS officer.

THE GIST

The Section 173(8) CrPC says that in case the in-charge of a police station finds additional evidence after sending final report to the Magistrate, he may send supplementary report to the Magistrate.

The court held that the doctrine of *contemporanea expositio* supports such an interpretation, as a practice that has been consistently understood and implemented over time, and is backed by law, should be recognised as an integral part of the interpretative process.

22J6. Can police re-open probe without court approval?
क्या पुलिस न्यायालय की अनुमति के बिना पुनः जाँच (री-इन्वेस्टिगेशन) शुरू कर सकती है?

- **Does Section 173(8) of CrPC permit filing of a supplementary report without the Magistrate's permission?**

  क्या दंड प्रक्रिया संहिता (CrPC) की धारा 173(8) मजिस्ट्रेट की अनुमति के बिना अनुपूरक (सप्लीमेंट्री) रिपोर्ट दाखिल करने की अनुमति देती है?

- **The Supreme Court recently in Paliniswamy Veeraraja & Ors. versus The State of Karnataka & Anr. reiterated that the investigating authorities were required to obtain permission from the Magistrate to initiate further investigation after filing the closure report.**

  सर्वोच्च न्यायालय ने हाल ही में Palaniswamy Veerarajan एवं अन्य बनाम कर्नाटक राज्य एवं अन्य मामले में पुनः स्पष्ट किया कि समापन रिपोर्ट (Closure Report) दाखिल करने के बाद आगे की जांच प्रारंभ करने के लिए जांच एजेंसियों को मजिस्ट्रेट की अनुमति प्राप्त करना आवश्यक है।

- The investigating agency had earlier filed **closure reports** twice, stating that the dispute appeared to be entirely **civil in nature**.

  जांच एजेंसी ने इससे पहले दो बार **समापन रिपोर्ट** दाखिल करते हुए कहा था कि विवाद पूर्णतः **दीवानी प्रकृति** का प्रतीत होता है।

- The court also relied on the principles laid down in **State of Haryana v. Bhajan Lal (1992)**, holding that the **civil nature of the dispute** was an additional ground for quashing the **FIR** and subsequent proceedings.

  न्यायालय ने **State of Haryana v. Bhajan Lal (1992)** में प्रतिपादित सिद्धांतों पर भी भरोसा किया और

कहा कि विवाद का **दीवानी स्वरूप** भी **एफआईआर** तथा बाद की कार्यवाहियों को निरस्त करने का एक अतिरिक्त आधार था।

Can supplementary report be filed without Magistrate's approval?
क्या मजिस्ट्रेट की अनुमति के बिना अनुपूरक रिपोर्ट दाखिल की जा सकती है?

- The **sub-section (2) of Section 173** of the **Criminal Procedure Code (CrPC)** provides for forwarding a report to the **Magistrate** after completing investigation in the prescribed form.
  दंड प्रक्रिया संहिता (CrPC) की **धारा 173(2)** में जांच पूर्ण होने के बाद निर्धारित प्रारूप में रिपोर्ट **मजिस्ट्रेट** को भेजने का प्रावधान है।
- The **Section 173(8) CrPC** says that in case the in-charge of a police station finds additional evidence after sending the **final report** to the Magistrate, he may send a **supplementary report** to the Magistrate.
  धारा 173(8) CrPC के अनुसार यदि पुलिस थाने का प्रभारी **अंतिम रिपोर्ट** भेजने के बाद कोई अतिरिक्त साक्ष्य प्राप्त करता है, तो वह **अनुपूरक रिपोर्ट** मजिस्ट्रेट को भेज सकता है।
- It is silent on obtaining permission from a **Magistrate** for filing a supplementary report under sub-section (8).
  यह उपधारा (8) के अंतर्गत अनुपूरक रिपोर्ट दाखिल करने के लिए **मजिस्ट्रेट** की अनुमति प्राप्त करने के विषय में मौन है।
- **Section 193(9) of the BNSS** is **pari materia** (dealing with the same subject matter) to **Section 173(8) of the CrPC**.
  भारतीय नागरिक सुरक्षा संहिता (BNSS) की **धारा 193(9)**, **CrPC की धारा 173(8)** के समान विषय-वस्तु (**pari materia**) से संबंधित है।

What has been held by the Supreme Court with regard to further investigation after filing a final report?
अंतिम रिपोर्ट दाखिल करने के बाद आगे की जांच के संबंध में सर्वोच्च न्यायालय ने क्या कहा है?

- The **Supreme Court** in **Vinay Tyagi versus Irshad Ali (2013)** held that "though there is no specific requirement in the provisions of **Section 173(8)** of the code to conduct further investigation or file supplementary report with the leave of the court, the investigating agencies have not only understood but also adopted it as a legal practice to seek permission of the courts to conduct further investigation and file supplementary report with the leave of the court".
  सर्वोच्च न्यायालय ने **Vinay Tyagi बनाम Irshad Ali (2013)** में कहा कि यद्यपि **धारा 173(8)** में आगे की जांच करने अथवा अनुपूरक रिपोर्ट दाखिल करने हेतु न्यायालय की अनुमति का कोई स्पष्ट प्रावधान नहीं है, फिर भी जांच एजेंसियों ने इसे एक स्थापित कानूनी प्रथा के रूप में स्वीकार किया है और आगे की जांच के लिए न्यायालय की अनुमति प्राप्त करती रही हैं।
- The court held that the requirement of seeking prior leave of the court to conduct **further probe** will have to be read into, and is a necessary implication of, the provisions of **Section 173(8)** of the code.
  न्यायालय ने कहा कि **आगे की जांच** के लिए पूर्व अनुमति प्राप्त करने की आवश्यकता को **धारा 173(8)** के प्रावधानों में निहित माना जाना चाहिए और यह उसका आवश्यक निहितार्थ है।
- While the newly added **proviso to Section 193(9) of the BNSS** (which is pari materia to **Section 173(8) of the CrPC**) mandates that the permission of the court is necessary if the **trial** has begun, the top court, in **Rama Chaudhary versus State of Bihar (2024)** reiterated that even though the statute does not require express permission, the law has developed and seeking permission from the concerned **Magistrate** is essential.
  यद्यपि **BNSS की धारा 193(9)** में जोड़े गए नए **परंतुक (Proviso)** में यह कहा गया है कि यदि **विचारण (Trial)** प्रारंभ हो चुका है तो न्यायालय की अनुमति आवश्यक होगी, फिर भी **Rama Chaudhary बनाम**

बिहार राज्य (2024) में सर्वोच्च न्यायालय ने दोहराया कि भले ही विधि में स्पष्ट अनुमति का प्रावधान न हो, परंतु विधिक विकास के परिणामस्वरूप संबंधित **मजिस्ट्रेट** से अनुमति प्राप्त करना अनिवार्य है।

- The **Supreme Court**, in **Robert Lalchungnunga Chongthu v. State of Bihar (2025)**, reaffirmed the ratio in **Vinay Tyagi (supra)**, holding that obtaining the court's leave to file a **supplementary chargesheet** forms an integral part of the law.
  सर्वोच्च न्यायालय ने **Robert Lalchungnunga Chongthu बनाम बिहार राज्य (2025)** में **Vinay Tyagi** के सिद्धांत की पुनः पुष्टि करते हुए कहा कि **अनुपूरक आरोपपत्र** दाखिल करने के लिए न्यायालय की अनुमति प्राप्त करना विधि का अभिन्न अंग है।
- Therefore, despite the new provision of the **BNSS**, once a **chargesheet** or **closure report** has been filed, further probe based on new evidence may be undertaken only with the permission of the court.
  अतः **BNSS** के नए प्रावधान के बावजूद, एक बार **आरोपपत्र** अथवा **समापन रिपोर्ट** दाखिल हो जाने के बाद, नए साक्ष्यों के आधार पर **आगे की जांच** केवल न्यायालय की अनुमति से ही की जा सकती है।

GS Paper II: Governance	**22 June 2026**
TOPICS COVERED	
22J6	**The lack of accountability within the NTA** **राष्ट्रीय परीक्षण एजेंसी (NTA) के भीतर जवाबदेही का अभाव**
22J6	**Are footpaths more than safe spaces?** **क्या फुटपाथ केवल सुरक्षित स्थानों से कहीं अधिक हैं?**

PATRIOTIC IAS

The lack of accountability within the NTA

GS II: Governance

On June 21, more than 22.8 lakh candidates sat once again for NEET-UG after a paper leak led to the nationwide cancellation of the earlier exam. The response has followed two tracks. The first was prosecutorial, with the government handing the case to the Central Bureau of Investigation under the Public Examinations (Prevention of Unfair Means) Act, 2024. The second was administrative, with a re-examination conducted yesterday and the examination fees refunded. However, neither response engages with the question of why one compromised paper can interrupt medical admissions for an entire national cohort, and what that design choice reveals about how the state looks at the costs of its own institutional failures.

The NTA's responsibility

The National Testing Agency (NTA) was created in 2017 as a registered society under the Societies Registration Act, 1860 and not through an Act of Parliament, which means it operates without a codified liability standard toward the candidates it examines. When the NTA cancelled NEET-UG 2026, its formal obligation to candidates extended to just carrying forward registrations and refunding the examination fee, which is ₹1,700 for general category candidates. The institutional cost of failure beyond that narrow zone remains unaccounted for.

The design of NEET-UG amplifies that accountability gap directly. The examination is conducted nationwide in a single sitting on one day, with one paper and its score is used for admission across every government and private medical college in the country. And when that sitting is compromised, the state has only one instrument available, which is to cancel the test and convene a fresh sitting without any distributed fallback that would allow a limited breach to produce only a limited effect. Moreover, the interval between application, examination, and result has become a prolonged administrative cycle and every disruption stretches that cycle further while shifting uncertainty onto the candidates. In a system built around a single annual test, even a short advancement can alter an entire admission year.

Rahul Verma

Sociologist and independent researcher who writes on education, labour and social inequality in India

While the Public Examinations (Prevention of Unfair Means) Act, 2024 prescribes penalties and fines, it establishes no compensation mechanism for candidates when an exam is cancelled

The National Medical Commission's (NMC) seat matrix for October 2025 lists roughly 1.26 lakh MBBS seats against more than 22 lakh candidates, a ratio that structurally ensures that a substantial cohort of aspirants are always in their second or third attempt, having already committed resources with no guarantee of admission. For those candidates, the cancellation returns a ₹1,700 fee against a preparation year that costs several lakhs in coaching and accommodation, a gap the state has never formally measured because no government survey tracks what households spend on NEET preparation. The ASER 2024 report documents persistent learning gaps between government and private school students, which means candidates who entered the race with fewer academic and financial resources are also those least able to absorb a cancelled cycle and begin again.

While the Public Examinations (Prevention of Unfair Means) Act, 2024 prescribes penalties of up to 10 years imprisonment and fines up to one crore rupees for organised leak networks, it establishes no compensation mechanism for candidates when an exam is cancelled; creates no automatic re-examination right; and introduces no liability standard for the examining body. The legislature responded to a candidate-facing catastrophe with an entirely prosecutorial instrument, leaving the structural consequences borne by those who played by the rules entirely outside the law's concern.

The announced shift of NEET to Computer-Based Testing (CBT) does not resolve this structural problem. For in June 2024, the UGC-NET was cancelled after the question paper appeared on the darknet; the UGC-NET was already a CBT examination administered by the same agency. The leak arose not from printed papers but from a single session with no distributed architecture capable of containing the impact of a breach, which means that moving NEET to CBT changes only the delivery mechanism without changing the single point of failure.

The way ahead

Article 14 guarantees everyone equal protection before the law and prohibits state action that is arbitrary in design and disproportionate in effect, while Articles 41 and 46 of the Directive Principles place a positive obligation on the state to secure equal opportunity in education and protect weaker sections from structural disadvantage. A national entrance architecture that formally treats all candidates alike but transfers all costs of institutional failure onto those least equipped to bear them is precisely the kind of design those provisions are meant to prevent.

Three corrections must follow directly. First, the NTA should be given statutory basis with codified obligations to candidates and enforceable consequences for institutional failure. Second, a mandatory compensation mechanism funded from examination fee revenue should activate automatically when cancellation results from institutional failure. Third, multiple examination windows per year would distribute risk so that a compromised sitting does not collapse the prospects of every candidate in the pool.

The re-examination has, for now, closed this episode administratively, but as long as one compromised paper can force 22 lakh candidates to begin again, the problem is not only who leaked the paper, but why the exam was designed to break so completely when they did.

22J6. The lack of accountability within the NTA
राष्ट्रीय परीक्षण एजेंसी (NTA) के भीतर जवाबदेही का अभाव

- On **June 21**, more than **22.8 lakh candidates** sat once again for **NEET-UG** after a **paper leak** led to the nationwide cancellation of the earlier exam.

21 जून को **22.8 लाख से अधिक अभ्यर्थी** प्रश्नपत्र **लीक** होने के कारण पूर्व परीक्षा के देशव्यापी निरस्तीकरण के बाद पुनः **NEET-UG** परीक्षा में सम्मिलित हुए।

- The response has followed two tracks.
  इस घटना के प्रति प्रतिक्रिया दो स्तरों पर हुई है।
- The first was **prosecutorial**, with the government handing the case to the **Central Bureau of Investigation (CBI)** under the **Public Examinations (Prevention of Unfair Means) Act, 2024**.
  पहला स्तर **अभियोजनात्मक** था, जिसमें सरकार ने मामले को **लोक परीक्षा (अनुचित साधनों की रोकथाम) अधिनियम, 2024** के अंतर्गत **केंद्रीय अन्वेषण ब्यूरो (CBI)** को सौंप दिया।

The NTA's responsibility
एनटीए की जिम्मेदारी

- The **National Testing Agency (NTA)** was created in **2017** as a registered society under the **Societies Registration Act, 1860** and not through an **Act of Parliament**, which means it operates without a codified **liability standard** toward the candidates it examines.
  राष्ट्रीय परीक्षण एजेंसी (NTA) की स्थापना **2017** में **सोसायटी पंजीकरण अधिनियम, 1860** के अंतर्गत एक पंजीकृत संस्था के रूप में की गई थी, न कि किसी **संसदीय अधिनियम** द्वारा; इसका अर्थ है कि परीक्षार्थियों के प्रति इसकी कोई स्पष्ट रूप से निर्धारित **दायित्व व्यवस्था** नहीं है।
- While the **Public Examinations (Prevention of Unfair Means) Act, 2024** prescribes penalties of up to **10 years imprisonment** and fines up to **one crore rupees** for organised **leak networks**, it establishes no **compensation mechanism** for candidates when an exam is cancelled.
  यद्यपि **लोक परीक्षा (अनुचित साधनों की रोकथाम) अधिनियम, 2024** संगठित **प्रश्नपत्र लीक नेटवर्कों** के लिए **10 वर्ष तक के कारावास** तथा **एक करोड़ रुपये तक के जुर्माने** का प्रावधान करता है, फिर भी परीक्षा रद्द होने पर अभ्यर्थियों के लिए कोई **क्षतिपूर्ति तंत्र** स्थापित नहीं करता।

The way ahead
आगे की राह

- **Article 14** guarantees everyone **equal protection before the law** and prohibits state action that is **arbitrary in design** and **disproportionate in effect**.
  अनुच्छेद 14 प्रत्येक व्यक्ति को **कानून के समक्ष समान संरक्षण** की गारंटी देता है तथा ऐसी राज्य कार्रवाई को निषिद्ध करता है जो **संरचना में मनमानी** और **प्रभाव में असंगत** हो।
- While **Articles 41 and 46** of the **Directive Principles of State Policy** place a positive obligation on the state to secure **equal opportunity in education** and protect **weaker sections** from structural disadvantage.
  वहीं **राज्य के नीति-निर्देशक सिद्धांतों** के **अनुच्छेद 41 और 46** राज्य पर **शिक्षा में समान अवसर** सुनिश्चित करने तथा **कमजोर वर्गों** को संरचनात्मक वंचना से बचाने का सकारात्मक दायित्व डालते हैं।

22J6. Are footpaths more than safe spaces?
क्या फुटपाथ केवल सुरक्षित स्थानों से कहीं अधिक हैं?

- A Bench of Justices **P.S. Narasimha** and **Atul S. Chandurkar** has, in its judgment (**Maniyar Iliyaz @ Shaik Riyaz versus P. Ayyappan**), said a **footpath's relevance** is more than that of a narrow strip of land where the 'less-fortunate' ones take cover from being knocked down by vehicles speeding on **multi-lane motorways**.
  न्यायमूर्ति **पी.एस. नरसिम्हा** और **अतुल एस. चंदुरकर** की पीठ ने अपने निर्णय (**Maniyar Iliyaz @ Shaik Riyaz बनाम P. Ayyappan**) में कहा है कि **फुटपाथ का महत्व** केवल भूमि की उस संकरी पट्टी तक सीमित

नहीं है जहाँ कम भाग्यशाली लोग **बहु-लेन राजमार्गों** पर तेज़ गति से चलने वाले वाहनों से बचने के लिए आश्रय लेते हैं।

- **Does the ruling deconnect the footpath from the theme of accidents?**
  क्या यह निर्णय फुटपाथ को दुर्घटनाओं के विषय से अलग करता है?
- Justice **Narasimha's judgment** divorces the **footpath** from the theme of **motor accidents**.
  न्यायमूर्ति **नरसिम्हा** का निर्णय **फुटपाथ** को **सड़क दुर्घटनाओं** के विषय से अलग करता है।
- The sole aim of a **footpath** is not to avoid accidents.
  फुटपाथ का एकमात्र उद्देश्य दुर्घटनाओं से बचाव नहीं है।
- The pathways have an **identity** and a **purpose** of their own.
  इन मार्गों की अपनी एक **पहचान** और **उद्देश्य** है।
- The footpath caters to the most essential, the most fundamental of rights — the **pleasure of walking**.
  फुटपाथ सबसे मूलभूत अधिकारों में से एक — **पैदल चलने के आनंद** — की पूर्ति करता है।
- The court said the presence of a broad **footpath** is a reflection of **civilisational advancement** and respect for the **freedom to walk**.
  न्यायालय ने कहा कि एक विस्तृत **फुटपाथ** की उपस्थिति **सभ्यतागत प्रगति** तथा **पैदल चलने की स्वतंत्रता** के प्रति सम्मान को दर्शाती है।
- The tracks offer the public access to **urban spaces** through movement by walking.
  ये मार्ग जनता को पैदल चलकर **शहरी स्थानों** तक पहुँच प्रदान करते हैं।
- The judgment declared that the right to walk on a comfortable and safe **footpath** held "priority over movement by **motor vehicles**".
  निर्णय में कहा गया कि सुरक्षित और सुविधाजनक **फुटपाथ** पर चलने का अधिकार **मोटर वाहनों की आवाजाही** पर प्राथमिकता रखता है।
- In a way, reasoning of the judgment suggests that **footpaths** suffer from a situation described in **environmental law** as the **'tragedy of the commons'** or the degradation of a precious resource when many individuals use it.
  एक प्रकार से यह निर्णय संकेत देता है कि **फुटपाथ** उस स्थिति से ग्रस्त हैं जिसे **पर्यावरण विधि** में **'कॉमन्स की त्रासदी'** कहा जाता है, अर्थात जब अनेक लोग किसी साझा संसाधन का उपयोग करते हैं तो उसका क्षरण होने लगता है।
- Safe and broad **footpaths** have become a scarce resource, riddled by **encroachments**, **garbage** and **pavement trade**.
  सुरक्षित और चौड़े **फुटपाथ** अब दुर्लभ संसाधन बन गए हैं, जो **अतिक्रमण**, **कचरे** और **फुटपाथ व्यापार** से प्रभावित हैं।
- Secondly, the court has reasoned that broad **footpaths**, besides amplifying the beauty of cities, must also enable **equitable access** to all.
  दूसरे, न्यायालय ने कहा कि चौड़े **फुटपाथ** शहरों की सुंदरता बढ़ाने के साथ-साथ सभी के लिए **समान पहुँच** सुनिश्चित करें।
- Nothing should be done to thwart the public's free access to **common spaces**.
  ऐसा कुछ भी नहीं किया जाना चाहिए जो जनता की **सार्वजनिक स्थलों** तक स्वतंत्र पहुँच को बाधित करे।
- Justice **Narasimha** has observed that access to **common spaces**, in both urban areas and rural areas, should be distributed in such a way that it was "not a monopoly of the **motorised class** alone".
  न्यायमूर्ति **नरसिम्हा** ने कहा कि शहरी और ग्रामीण दोनों क्षेत्रों में **सार्वजनिक स्थानों** तक पहुँच इस प्रकार वितरित होनी चाहिए कि वह केवल **मोटर चालित वर्ग** का एकाधिकार न बन जाए।
- **Article 39(b)** of the Constitution mandates that **material resources** of a community must be distributed so as to sub-serve the **common good**.
  संविधान का **अनुच्छेद 39(b)** यह निर्देश देता है कि समुदाय के **भौतिक संसाधनों** का वितरण **सार्वजनिक हित** की पूर्ति के लिए किया जाना चाहिए।

- Authorities must consider the **common good** of both **pedestrians** and **motor vehicle owners** while designing a material resource like land to build roadways.
  सड़क निर्माण हेतु भूमि जैसे संसाधनों की योजना बनाते समय अधिकारियों को **पैदल यात्रियों** और **वाहन मालिकों** दोनों के **सार्वजनिक हित** का ध्यान रखना चाहिए।
- A wide, well-demarcated and uninterrupted **footpath** could "change the beauty of and equitable access to our cities and towns".
  एक चौड़ा, स्पष्ट रूप से चिह्नित और अवरोध-मुक्त **फुटपाथ** हमारे शहरों और कस्बों की सुंदरता तथा **समान पहुँच** को बदल सकता है।
- **Does walking still hold significance in the Indian imagination?**
  क्या भारतीय मानस में पैदल चलना आज भी महत्वपूर्ण स्थान रखता है?
- The court said that the act of **walking** has had diverse roles in the **Indian imagination**.
  न्यायालय ने कहा कि **पैदल चलने** की क्रिया का **भारतीय मानस** में विविध महत्व रहा है।
- Walking was a **struggle** for the not-so-unfortunate, a **meditation in motion** for many, **resistance** for others, **discovery** for the inquisitive, a cohesive strategy for sharp **socio-political minds**.
  पैदल चलना कुछ लोगों के लिए **संघर्ष**, अनेक लोगों के लिए **गतिशील ध्यान**, दूसरों के लिए **प्रतिरोध**, जिज्ञासुओं के लिए **खोज**, तथा प्रखर **सामाजिक-राजनीतिक चिंतकों** के लिए एक संगठित रणनीति रहा है।
- From the first sparks which ignited the **national struggle for freedom** to the complexities of modern politics, the idea of **walking** as a means of expressing an opinion or drawing public attention remains a constant.
  स्वतंत्रता संग्राम की प्रारंभिक चिंगारियों से लेकर आधुनिक राजनीति की जटिलताओं तक, **पैदल चलना** विचार व्यक्त करने और जनध्यान आकर्षित करने के माध्यम के रूप में निरंतर बना रहा है।
- Walking was not just motion, but embodied the fundamental freedoms of **speech and expression**, of **peaceful protest** and the right to form **associations and unions** for gaining the just rights of workers.
  पैदल चलना केवल एक गतिविधि नहीं था, बल्कि यह **वाक् एवं अभिव्यक्ति की स्वतंत्रता**, **शांतिपूर्ण विरोध**, तथा श्रमिकों के न्यायोचित अधिकारों की प्राप्ति हेतु **संघों एवं संगठनों के गठन के अधिकार** का भी प्रतीक था।

Have the 'duty-bearers' neglected their duty to protect footpaths?
क्या 'कर्तव्य-निर्वाहकों' ने फुटपाथों की सुरक्षा के अपने दायित्व की उपेक्षा की है?

- However, laws like the **Motor Vehicles Act, 1988** paid homage to movement by wheels.
  हालाँकि **मोटर वाहन अधिनियम, 1988** जैसे कानूनों ने पहियों द्वारा होने वाली आवाजाही को प्राथमिकता दी।
- They even "undermined the precious rights of **walkers**".
  उन्होंने तो **पैदल यात्रियों** के बहुमूल्य अधिकारों को भी कमजोर किया।
- Justice **Narasimha** said the tendency to subjugate safe and comfortable **footpaths** to **motor transport** was a **civilisational problem**.
  न्यायमूर्ति **नरसिम्हा** ने कहा कि सुरक्षित और सुविधाजनक **फुटपाथों** को **मोटर परिवहन** के अधीन कर देने की प्रवृत्ति एक **सभ्यतागत समस्या** है।
- The primary **"duty-bearers"** responsible for effectively managing **footpaths** are **urban development authorities**, **municipal corporations**, **municipalities**, and **panchayats**.
  फुटपाथों के प्रभावी प्रबंधन के लिए उत्तरदायी प्रमुख **"कर्तव्य-निर्वाहक" शहरी विकास प्राधिकरण**, **नगर निगम**, **नगरपालिकाएँ** और **पंचायतें** हैं।
- Footpaths are held in **trust** by these bodies for the public's benefit.
  ये संस्थाएँ जनता के हित में **फुटपाथों** को एक **न्यासीय दायित्व** के रूप में संरक्षित रखती हैं।
- They are the **material resources of the community**.
  ये **समुदाय के भौतिक संसाधन** हैं।

Is there a need for statutory law and regulator?
क्या वैधानिक कानून और नियामक की आवश्यकता है?

- The judgment is not satisfied by merely declaring the right to walk safely on a wide and clearly demarcated **footpath** as a **basic right**, but recommends to the government to implement the **fundamental right** through a **statutory law**, and moreover, establish a **regulator** to hear aggrieved pedestrians.
  यह निर्णय केवल चौड़े और स्पष्ट रूप से चिह्नित **फुटपाथ** पर सुरक्षित रूप से चलने के अधिकार को **मौलिक अधिकार** घोषित करने तक सीमित नहीं है, बल्कि सरकार को इसे **वैधानिक कानून** के माध्यम से लागू करने तथा पीड़ित पैदल यात्रियों की शिकायतें सुनने के लिए एक **नियामक संस्था** स्थापित करने की भी सिफारिश करता है।
- The court recalled the positive role played by **Parliament** and **State legislatures** in the past in enabling the effective exercise and enjoyment of **fundamental rights** on the ground.
  न्यायालय ने अतीत में **संसद** और **राज्य विधानसभाओं** द्वारा **मौलिक अधिकारों** के प्रभावी क्रियान्वयन और उपयोग को सुनिश्चित करने में निभाई गई सकारात्मक भूमिका को स्मरण किया।
- It also noted that modern **statutes** have shaped a new framework of **institutional governance** by creating **regulatory bodies**.
  न्यायालय ने यह भी कहा कि आधुनिक **कानूनों** ने **नियामक संस्थाओं** की स्थापना के माध्यम से **संस्थागत शासन** की एक नई संरचना विकसित की है।
- These bodies institutionalise continuity through **perpetual succession** and seal, embed expertise through **specialisation**, promote diversity through their composition, and ensure integrity through mechanisms of **accountability**.
  ये संस्थाएँ **स्थायी उत्तराधिकार** और विधिक पहचान के माध्यम से निरंतरता सुनिश्चित करती हैं, **विशेषज्ञता** के माध्यम से दक्षता विकसित करती हैं, अपनी संरचना के माध्यम से विविधता को बढ़ावा देती हैं तथा **उत्तरदायित्व** की व्यवस्थाओं द्वारा पारदर्शिता सुनिश्चित करती हैं।
- One of the examples the court drew in this context was the **Right to Education Act**, which had declared the **fundamental right** to free and compulsory elementary education under **Article 21A** in **Sections 3 to 5**.
  इस संदर्भ में न्यायालय ने **शिक्षा का अधिकार अधिनियम** का उदाहरण दिया, जिसने **अनुच्छेद 21A** के अंतर्गत निःशुल्क और अनिवार्य प्राथमिक शिक्षा के **मौलिक अधिकार** को **धारा 3 से 5** के माध्यम से लागू किया।
- The **National Commission for Protection of Child Rights** was recognised as the **regulator**.
  राष्ट्रीय बाल अधिकार संरक्षण आयोग को इस व्यवस्था का **नियामक** माना गया।
- Justice **Narasimha** said a similar **Act** and a **regulatory body** must be devised by the legislature to protect the **fundamental right to walk** on demarcated footpaths.
  न्यायमूर्ति **नरसिम्हा** ने कहा कि चिह्नित फुटपाथों पर **पैदल चलने के मौलिक अधिकार** की रक्षा के लिए विधायिका को इसी प्रकार का एक **अधिनियम** और **नियामक निकाय** स्थापित करना चाहिए।
- The **statutory framework** would not only ensure the working of the **fundamental right** on the ground but also identify the **duty-bearers**.
  यह **वैधानिक ढाँचा** न केवल **मौलिक अधिकार** के वास्तविक क्रियान्वयन को सुनिश्चित करेगा, बल्कि संबंधित **कर्तव्य-निर्वाहकों** की पहचान भी करेगा।
- The court said such an **Act** must also establish a full-time **regulator** to plan, enforce, and implement this precious right.
  न्यायालय ने कहा कि ऐसा **अधिनियम** इस महत्वपूर्ण अधिकार की योजना बनाने, उसे लागू कराने और उसके क्रियान्वयन की निगरानी के लिए एक पूर्णकालिक **नियामक** भी स्थापित करे।

अल्बानिया की 'फ्लेमिंगो क्रांति' ट्रम्प परिवार से जुड़ी परियोजना के खिलाफ़ तेज़ी पकड़ रही है

Albania's 'flamingo revolution' gathers steam over Trump family-linked project

GS II IR

Associated Press

TIRANA

A coastal development project in Albania linked to Donald Trump's son-in-law Jared Kushner is facing growing opposition from environmental advocates and has triggered daily protests in the capital, Tirana. To the deafening sound of drums, horns and whistles, thousands of demonstrators late Saturday chanted "Rama Leave!" – referring to longtime Socialist Prime Minister Edi Rama.

The rally drew participation from Albanian migrant communities abroad as the protests dubbed the "flamingo revolution" continue to gain momentum. The government says the development on the Adriatic coast would be transformational for the former communist nation as it seeks to enter the high-end tourism market and pushes for European Union membership.

But the venture, spanning an abandoned island and a nearby stretch of seafront on Albania's southern coast, has drawn opposition from environmental campaigners and critics of Mr. Rama's government.

Thousands of protesters have taken to the streets in recent weeks, blowing whistles and holding up cardboard cut-outs of flamingos – one of the protected migratory bird species that could see their habitats threatened by the proposed luxury resort.

Mr. Rama has vowed not to "step back" from the development and defended his administration's environmental record. He says the protests were being encouraged by malicious cyber activists overseas and accuses Iran of targeting his government.

"..There are a lot of half-truths that become bigger and bigger lies by the hour," Mr. Rama told *AP* in an interview.

Despite Mr. Rama's defence of the development, the protests have gathered pace, with supporters in Albanian communities in neighboring Greece and other European countries also holding rallies.

Protesters demonstrate against Kushner's luxury resort plan in an environmentally sensitive part of Albania, on Saturday. REUTERS

Protests turn political

European Union officials say they are monitoring to ensure that it complies with the terms of Albania's bid to join the EU.

The protests are also becoming increasingly political. Calls to halt the development project have been gradually replaced by overtly political demands, centered on calls for Mr. Rama's resignation and early elections. The luxury project has two components: a coastal development in the Narta Lagoon area, which is a wildlife reserve, and a smaller resort on the nearby uninhabited island of Sazan, a communist-era military base.

The planned development is linked to Mr. Kushner and Mr. Trump's daughter, Ivanka. An investment firm linked to Mr. Kushner has been granted special investor status by Albanian authorities.

Albania has 450 kilometres of coast that remained largely underdeveloped during decades of harsh communist rule. Protest groups fear sections of that pristine coastline could be snapped up by investors. And public anger grew after video showed an activist being dragged away by a private security guard while demonstrating at the site.

The development is planned within a reserve and one of the country's most valuable biodiversity areas, a key stopover for migratory birds along the Adriatic coast.

Since May, excavators and other heavy machinery have entered the area, opening access routes, digging into the sand, clearing land among pine trees and installing fencing.

Environmental groups from Albania and elsewhere in Europe condemned the work, with one prominent local group charging that long-protected habitats are being "irreversibly destroyed."

Albania's Special Prosecution Office Against Corruption and Organized Crime has confirmed it opened an investigation related to the project but has disclosed few details.

It recently ordered the seizure of assets worth 128.3 million euros from the Albanian Land Development LLC company concerning land sale contracts in the area where the project is planned.

The government says the land earmarked for the project is privately owned. But competing claims have emerged questioning the privatisation.

India-EU trade pact to be signed by December: Goyal

GS III: Economy

Press Trust of India

NEW DELHI

India and the 27-nation European Union will sign the free trade agreement (FTA) by December and are likely to implement the pact by February-March next year, Commerce and Industry Minister Piyush Goyal said on Sunday.

On January 27 this year, India and the EU announced the conclusion of negotiations for the "mother of all deals".

"Now, with almost zero duty, almost the entire European market will be open for us. The EU's FTA (free trade agreement) will be signed by December and will be effective by February-March," Mr. Goyal said at an interaction with chartered accountants in Mumbai.

Piyush Goyal

He also said that U.S. Trade Representative Jamieson Greer is coming to India this week to hold trade pact talks with him. "The whole world is looking towards India," he added. Under the India-EU FTA, about 93% of Indian shipments will enjoy duty-free access to the 27-nation bloc, while imports of luxury cars and wines from the EU will become less expensive.

Taken together, India and the EU account for 25% of the global GDP and one-third (about $11 trillion) of international trade (about $33 trillion).

- Taken together, India and the EU account for **25% of the global GDP** and **one-third of international trade**, valued at about **$11 trillion** and **$33 trillion** respectively.
  संयुक्त रूप से भारत और यूरोपीय संघ **वैश्विक सकल घरेलू उत्पाद (GDP) के 25%** तथा **अंतरराष्ट्रीय व्यापार के लगभग एक-तिहाई हिस्से** का प्रतिनिधित्व करते हैं, जिनका मूल्य क्रमशः लगभग **11 ट्रिलियन डॉलर** और **33 ट्रिलियन डॉलर** है।

The curious case of Kerala's committed expenditure

Despite grave concerns raised in the white paper, Kerala's budget was silent on measures to bring down the committed expenditure

GS III: Economy

DATA POINT

Devyanshi Bihani

The white paper, 'Kerala's Fiscal Health – A Status Report', released by the new United Democratic Front (UDF) government ahead of its maiden budget, raised serious concerns over the State's rising debt burden. The report in particular underscored the huge share of the State's "committed expenditure" – which includes salaries, pensions and interest payments.

It emphasised that nearly 78% share of committed expenditure in the total revenue receipts left little to no room for capital expenditure and contributed to mounting revenue deficits. Kerala's spending on salaries and pensions, as a share of its revenue receipts, is the highest among all States and its share of committed expenditure the second-highest **(Chart 1)**. The trend has more or less remained the same over the years **(Chart 2)**.

Noting that the State spends "almost 80%" of its revenue on committed expenditure, the white paper said, "The most direct structural explanation for Kerala's treasury stress is the share of its revenue that is pre-empted before any discretionary decision." "Now is the time for hard political decisions," it said, adding that measures such as increasing the retirement age and making pay commission revisions decennial should be considered.

Yet, the budget was conspicuously silent on any such measures, barring the exception that the National Pension System would be revamped. The silence is perhaps an acknowledgement of not just the difficulty in tackling this "structural problem," but the importance of high spending on salaries and pensions in achieving the progress the State has made on human development indicators.

Economist R. Ramakumar said retaining the idea of a welfare state requires welfare workers and pointed out that Kerala employs significantly more teachers, healthcare professionals and other public-sector workers **(Chart 4)**. "Kerala's achievements are due to this particular kind of salaries that you end up paying," he added. Moreover, he said that while the figure of over 75% highlighted prominently in the white paper has "shock value", a better parameter would be the committed expenditure's share in the total revenue expenditure and not revenue receipts, which would bring the share down to about 58-60%.

Economist Lekha Chakraborty, meanwhile, said the trend reflected public expenditure rigidity. "All that we can do is an episodic expenditure (sectoral) compression, given the committed nature of spending. While the state has shown revenue buoyancy, without meaningful public expenditure reforms, this pattern risks perpetuating revenue deficits and constraining Kerala's ability to sustain its social model," she said.

Kerala's State's Own Tax Revenue (SOTR) and overall revenue receipts have shown notable growth, but the tax buoyancy has dropped in recent years. Moreover, their respective Compound Annual Growth Rates (CAGRs) between 2015-16 and 2026-27 (budget estimates) show that the committed expenditure has grown faster **(Chart 3)**. The budget, presented on Thursday, estimates the debt-to-GSDP ratio to come down marginally to 33.5% in 2026-27, compared with 34.87% (2024-25) or 34.26% (2025-26), even though it projects the total outstanding debt to rise by 11.6% **(Chart 5)**.

These optimistic projections show that the new government is relying on a swift turnaround in tax buoyancy and GSDP growth – it estimates the GSDP to grow nominally by 14.15% and revenue receipts by 23.8% – while recognising that expenditure on salaries and pensions cannot be brought down, at least in the near future.

Challenges ahead: Kerala CM V.D. Satheesan presented the revised budget for 2026-2027 on Thursday, amid concerns over growing debt.

Structural hurdles

Data were sourced from Kerala's Revised Budget 2026-27, Kerala's Fiscal Health: A Status Report, the Reserve Bank of India, the CAG and Central Bureau of Health Intelligence

Chart 1: This shows the share of committed expenditure in the revenue receipts of each State. The data shown is for the year 2024-25, taken from RBI

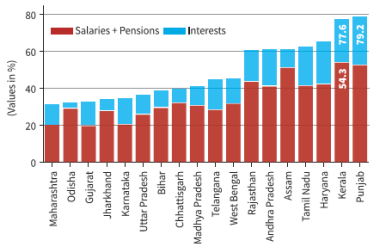

Chart 2: This shows year-wise committed expenditure (left axis) and its share in total revenue receipts (right axis) of Kerala

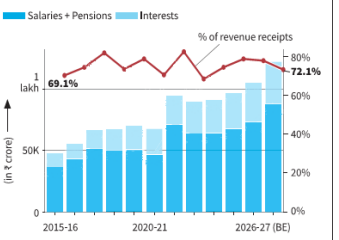

Chart 3: This shows the growth in overall revenue(●), State's Own Tax Revenue (SOTR) (●), and the committed expenditure (●), along with their respective CAGR between 2015-16 and 2026-27

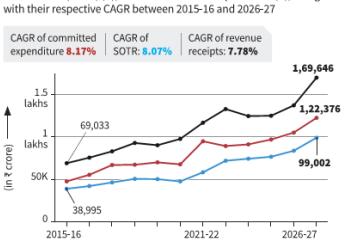

Chart 4: This shows the number of healthcare professionals per 10,000 people at national level and in the top five major States

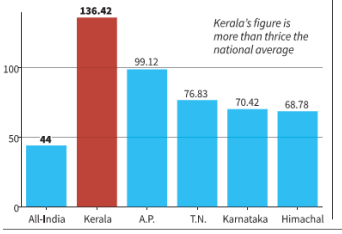

Chart 5: The debt-to-GSDP ratio of select States for 2024-25. Kerala has estimated its debt-to-GSDP ratio to come down to 33.5% despite the debt expected to grow by 11.6% to ₹ 5.46 lakh crore

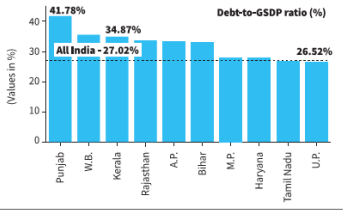

22J6. The curious case of Kerala's committed expenditure
केरल के प्रतिबद्ध व्यय का जिज्ञासापूर्ण मामला

- **Despite grave concerns raised in the white paper, Kerala's budget was silent on measures to bring down the committed expenditure**
  श्वेत पत्र में गंभीर चिंताएँ व्यक्त किए जाने के बावजूद, केरल के बजट में प्रतिबद्ध व्यय को कम करने के उपायों पर कोई उल्लेख नहीं किया गया।
- The white paper, **'Kerala's Fiscal Health — A Status Report'**, released by the new **United Democratic Front (UDF)** government ahead of its maiden budget, raised serious concerns

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

over the State's rising **debt burden**.
नवगठित **यूनाइटेड डेमोक्रेटिक फ्रंट (UDF)** सरकार द्वारा अपने प्रथम बजट से पूर्व जारी श्वेत पत्र **'केरल की राजकोषीय स्थिति — एक स्थिति रिपोर्ट'** ने राज्य के बढ़ते **ऋण भार** को लेकर गंभीर चिंताएँ व्यक्त की हैं।

- The report in particular underscored the huge share of the State's **committed expenditure** — which includes **salaries**, **pensions** and **interest payments**.
  रिपोर्ट ने विशेष रूप से राज्य के **प्रतिबद्ध व्यय** के बड़े हिस्से को रेखांकित किया, जिसमें **वेतन**, **पेंशन** और **ब्याज भुगतान** शामिल हैं।
- It emphasised that nearly **78% share** of committed expenditure in the total **revenue receipts** left little to no room for **capital expenditure** and contributed to mounting **revenue deficits**.
  इसमें कहा गया कि कुल **राजस्व प्राप्तियों** का लगभग **78% हिस्सा** प्रतिबद्ध व्यय में खर्च हो जाता है, जिससे **पूंजीगत व्यय** के लिए बहुत कम गुंजाइश बचती है और **राजस्व घाटा** बढ़ता है।
- Kerala's spending on **salaries and pensions**, as a share of its revenue receipts, is the highest among all States and its share of **committed expenditure** the second-highest.
  राजस्व प्राप्तियों के अनुपात में **वेतन और पेंशन** पर केरल का व्यय सभी राज्यों में सर्वाधिक है तथा **प्रतिबद्ध व्यय** का हिस्सा दूसरा सबसे अधिक है।
- The trend has more or less remained the same over the years.
  यह प्रवृत्ति वर्षों से लगभग समान बनी हुई है।
- Noting that the State spends "almost **80%**" of its revenue on committed expenditure, the white paper said, "The most direct structural explanation for Kerala's **treasury stress** is the share of its revenue that is pre-empted before any discretionary decision."
  यह उल्लेख करते हुए कि राज्य अपने राजस्व का लगभग **80% प्रतिबद्ध व्यय** पर खर्च करता है, श्वेत पत्र में कहा गया कि केरल के **कोषीय दबाव** का सबसे प्रत्यक्ष संरचनात्मक कारण वह राजस्व है जो किसी भी विवेकाधीन निर्णय से पहले ही व्यय के लिए निर्धारित हो जाता है।
- "Now is the time for **hard political decisions**," it said, adding that measures such as increasing the **retirement age** and making **pay commission revisions** decennial should be considered.
  रिपोर्ट में कहा गया कि अब **कठिन राजनीतिक निर्णयों** का समय है और **सेवानिवृत्ति आयु** बढ़ाने तथा **वेतन आयोग संशोधनों** को दस वर्षीय बनाने जैसे उपायों पर विचार किया जाना चाहिए।
- Yet, the budget was conspicuously silent on any such measures, barring the exception that the **National Pension System (NPS)** would be revamped.
  फिर भी बजट में ऐसे किसी उपाय का उल्लेख नहीं किया गया, केवल यह कहा गया कि **राष्ट्रीय पेंशन प्रणाली (NPS)** में सुधार किया जाएगा।
- The silence is perhaps an acknowledgement of not just the difficulty in tackling this **structural problem**, but the importance of high spending on salaries and pensions in achieving the progress the State has made on **human development indicators**.
  यह मौन केवल इस **संरचनात्मक समस्या** से निपटने की कठिनाई को ही नहीं, बल्कि **मानव विकास संकेतकों** में राज्य द्वारा प्राप्त उपलब्धियों में वेतन और पेंशन पर उच्च व्यय की भूमिका को भी स्वीकार करता है।
- Economist **R. Ramakumar** said retaining the idea of a **welfare state** requires welfare workers and pointed out that Kerala employs significantly more **teachers**, **healthcare professionals** and other **public-sector workers**.
  अर्थशास्त्री R. Ramakumar ने कहा कि **कल्याणकारी राज्य** की अवधारणा को बनाए रखने के लिए कल्याणकारी कर्मियों की आवश्यकता होती है तथा केरल में अपेक्षाकृत अधिक संख्या में **शिक्षक**, **स्वास्थ्यकर्मी** और अन्य **सार्वजनिक क्षेत्र के कर्मचारी** कार्यरत हैं।
- "Kerala's achievements are due to this particular kind of salaries that you end up paying," he added.
  उन्होंने कहा कि केरल की उपलब्धियाँ काफी हद तक उन वेतन व्ययों का परिणाम हैं जो इन कर्मचारियों को दिए जाते हैं।
- Moreover, he said that while the figure of over **75%** highlighted prominently in the white paper has "**shock value**", a better parameter would be the committed expenditure's share in the

total **revenue expenditure** and not **revenue receipts**, which would bring the share down to about **58-60%**.
उन्होंने यह भी कहा कि श्वेत पत्र में प्रमुखता से दर्शाया गया **75% से अधिक** का आँकड़ा भले ही "**चौंकाने वाला प्रभाव**" उत्पन्न करता हो, किन्तु बेहतर मानक **राजस्व प्राप्तियों** के बजाय कुल **राजस्व व्यय** में प्रतिबद्ध व्यय का हिस्सा होगा, जिससे यह अनुपात लगभग **58-60%** रह जाएगा।

- Economist **Lekha Chakraborty**, meanwhile, said the trend reflected **public expenditure rigidity**.
वहीं अर्थशास्त्री Lekha Chakraborty ने कहा कि यह प्रवृत्ति **सार्वजनिक व्यय की कठोरता** को दर्शाती है।
- "All that we can do is an episodic expenditure (**sectoral**) compression, given the committed nature of spending. While the state has shown **revenue buoyancy**, without meaningful **public expenditure reforms**, this pattern risks perpetuating **revenue deficits** and constraining Kerala's ability to sustain its **social model**," she said.
उन्होंने कहा कि व्यय की प्रतिबद्ध प्रकृति को देखते हुए केवल सीमित अवधि के लिए **क्षेत्रीय व्यय संकुचन** ही संभव है। यद्यपि राज्य ने **राजस्व उछाल (Revenue Buoyancy)** प्रदर्शित किया है, परन्तु सार्थक **सार्वजनिक व्यय सुधारों** के बिना यह प्रवृत्ति **राजस्व घाटे** को बनाए रख सकती है और केरल की **सामाजिक मॉडल** को टिकाऊ बनाए रखने की क्षमता को सीमित कर सकती है।
- Kerala's **State's Own Tax Revenue (SOTR)** and overall **revenue receipts** have shown notable growth, but the **tax buoyancy** has dropped in recent years.
केरल के **राज्य के स्वयं के कर राजस्व (SOTR)** तथा कुल **राजस्व प्राप्तियों** में उल्लेखनीय वृद्धि हुई है, किन्तु हाल के वर्षों में **कर उछाल (Tax Buoyancy)** में गिरावट आई है।
- Moreover, their respective **Compound Annual Growth Rates (CAGRs)** between **2015-16** and **2026-27** (budget estimates) show that the **committed expenditure** has grown faster.
इसके अतिरिक्त **2015-16** से **2026-27** (बजट अनुमान) के बीच उनके **चक्रवृद्धि वार्षिक वृद्धि दर (CAGR)** के आँकड़े दर्शाते हैं कि **प्रतिबद्ध व्यय** की वृद्धि दर अधिक रही है।
- The budget, presented on Thursday, estimates the **debt-to-GSDP ratio** to come down marginally to **33.5%** in **2026-27**, compared with **34.87% (2024-25)** or **34.26% (2025-26)**, even though it projects the total **outstanding debt** to rise by **11.6%**.
गुरुवार को प्रस्तुत बजट में अनुमान लगाया गया है कि **ऋण-से-GSDP अनुपात 2026-27** में घटकर **33.5%** हो जाएगा, जबकि यह **2024-25** में **34.87%** तथा **2025-26** में **34.26%** था; इसके बावजूद कुल **बकाया ऋण** में **11.6%** वृद्धि का अनुमान लगाया गया है।
- These optimistic projections show that the new government is relying on a swift turnaround in **tax buoyancy** and **GSDP growth**.
ये आशावादी अनुमान दर्शाते हैं कि नई सरकार **कर उछाल** और **GSDP वृद्धि** में तीव्र सुधार की अपेक्षा कर रही है।
- It estimates the **GSDP** to grow nominally by **14.15%** and **revenue receipts** by **23.8%**, while recognising that expenditure on **salaries** and **pensions** cannot be brought down, at least in the near future.
सरकार ने **GSDP** में **14.15%** की नाममात्र वृद्धि तथा **राजस्व प्राप्तियों** में **23.8%** की वृद्धि का अनुमान लगाया है, साथ ही यह भी स्वीकार किया है कि निकट भविष्य में **वेतन** और **पेंशन** पर होने वाले व्यय को कम करना संभव नहीं है।

Basis of your investment decisions, product choice

You have to cut through the hype and understand how the product is suitable so as to achieve your desired financial goal within the investment horizon set by you

GS III: Economy

THE RIGHT ONE

Joydeep Sen

The basis of portfolio allocation decision is financial goals, risk tolerance, investment horizon, etc. Here, we will scratch the surface on the multiple investment products crying for attention.

Underlying for product

Any investment product invests in the underlying market. Conventionally, underlying markets are equity stocks, bonds, and gold. There are also new concepts such as real estate where you can invest via Real Estate Investment Trusts (REITs) and infrastructure via Infrastructure Investment Trusts (InvITs). Potentially, there could be other investment assets like commodities (other than gold or silver), but these are yet to emerge as popular ones via investment vehicles. For HNIs, there are things like art but these are not available in the retail space.

The staple investment base is equity stocks and bonds, also known as fixed income or debt. Equity represents part ownership of the firm whose stock you are buying. As the firm grows, and new investors come in, the value improves and price increases. This leads to returns from investments in equity. Bonds represent 'I owe you' or loans given by the investor to the issuing entity. There is a defined interest payable on a defined date and maturity of bond or debenture is defined as well. The typical aspect is equity has given relatively higher returns than debt but has been relatively more volatile as prices fluctuate more. Gold is known as a 'portfolio diversifier;' with some allocation to gold, the volatility-adjusted return of a portfolio is better.

> At bottom of pyramid are bank term deposits where there is a defined rate of interest and maturity and the rate is not market dependent

At the bottom of the pyramid, there are bank term deposits where there is a defined rate of interest and maturity. The interest rate is not dependent on any market condition. Bank FDs are not transferable. At the higher end of the pyramid, there are derivatives where the base is equity/government bonds/commodities, which are more risky.

Investment vehicles

You can invest directly. You can buy equity stocks from the exchange via stock broker. These days there are multiple apps where you can do KYC online and start buying/selling stocks. For buying bonds online, there is Reserve Bank of India's platform called Direct Gilt, where you can buy government instruments. For buying corporate bonds, there are Online Bond Provider platforms (OBPPs). You can invest in gold via Exchange Traded Funds (ETFs) or Electronic Gold Receipts (EGRs).

> Every investment product will have an investment objective, portfolio disclosure and track record unless it is a newly launched product.

However, to manage a fund of equities and/or bonds, you need a professional. Therein comes the concept of investment vehicle: a fund management entity which will run a fund and will charge a fee.

The most popular investment vehicle is a mutual fund (MF), where you can buy units of a professionally-managed fund and liquidity is high. There are portfolio management services (PMS) with a minimum ticket size of ₹50 lakh and alternative investment funds (AIF) with a minimum ticket of ₹1 crore. Insurers offer Unit Linked Insurance Plans (ULIPs).

Choosing a product

The investment vehicles mentioned earlier, known as product manufacturers, offer a plethora of products, which are a combination of the base mentioned earlier with packaging.

You have to look at:

1. The risk in the underlying base: equity is more volatile than debt; within equity small cap or sectoral/thematic funds are relatively more volatile. In debt, higher rated bonds carry less credit risk.

2. Required investment horizon: historic performance of any asset i.e. equity or debt, gives an idea how volatile it has been, hence how long you should be in the product at the minimum.

Every investment product will have an investment objective, portfolio disclosure and track record unless it is a newly launched product. There is a concept called drawdown, which shows in the worst phase of performance, what was the return from that product. You need a horizon longer than the drawdown and recovery phase.

3. Liquidity: you may need cash flow at any time for an eventuality. You need to be aware upfront on product liquidity. Some products are not liquid by definition e.g. RBI Floating Rate Bonds. Equity is liquid but it is a function of the market level at that point of time. If the market is correcting you may redeem the fund subject to exit load but you would be taking home less.

While liquidity is desirable, it is not compulsory everything in portfolio should be liquid. There would be a certain liquid component, say 10% and a major 'saleable' or 'if required' component.

Website : patrioticias.in

- **आपको बढ़ा-चढ़ाकर किए गए दावों (हाइप) से अलग होकर यह समझना होगा कि उत्पाद (प्रोडक्ट) आपके लिए कितना उपयुक्त है, ताकि आप अपने द्वारा निर्धारित वित्तीय लक्ष्य को अपनी तय की गई निवेश अवधि (इन्वेस्टमेंट होराइजन) के भीतर प्राप्त कर सकें।**
- **The basis of portfolio allocation decision**
  पोर्टफोलियो आवंटन निर्णय का आधार
- The basis of **portfolio allocation** decisions is **financial goals**, **risk tolerance**, **investment horizon**, etc.
- **पोर्टफोलियो आवंटन** का निर्णय **वित्तीय लक्ष्यों**, **जोखिम सहनशीलता**, **निवेश अवधि**, आदि पर आधारित होता है।
- Here, we will scratch the surface on the multiple **investment products** crying for attention.
- यहाँ, हम ध्यान आकर्षित करने वाले विभिन्न **निवेश उत्पादों** की केवल सतही चर्चा करेंगे।
- **Underlying for product**
  उत्पाद का आधारभूत परिसंपत्ति (अंडरलाइंग)
- Any **investment product** invests in the **underlying market**.
- कोई भी **निवेश उत्पाद** किसी **आधारभूत बाजार (अंडरलाइंग मार्केट)** में निवेश करता है।
- Conventionally, underlying markets are **equity stocks**, **bonds**, and **gold**.
- परंपरागत रूप से, आधारभूत बाजार **इक्विटी शेयर**, **बॉण्ड**, और **सोना** होते हैं।
- There are also new concepts such as **real estate** where you can invest via **Real Estate Investment Trusts (REITs)** and **infrastructure** via **Infrastructure Investment Trusts (InvITs)**.
- इसके अतिरिक्त **रियल एस्टेट** जैसे नए विकल्प भी हैं, जहाँ आप **रियल एस्टेट इन्वेस्टमेंट ट्रस्ट्स (REITs)** के माध्यम से निवेश कर सकते हैं, तथा **इन्फ्रास्ट्रक्चर** में **इन्फ्रास्ट्रक्चर इन्वेस्टमेंट ट्रस्ट्स (InvITs)** के माध्यम से निवेश किया जा सकता है।
- Potentially, there could be other investment assets like **commodities** (other than **gold** or **silver**), but these are yet to emerge as popular ones via investment vehicles.
- संभावित रूप से, **कमोडिटीज़** (**सोना** या **चाँदी** के अतिरिक्त) जैसी अन्य निवेश परिसंपत्तियाँ भी हो सकती हैं, लेकिन वे अभी तक निवेश साधनों के माध्यम से लोकप्रिय नहीं हुई हैं।
- For **HNIs**, there are things like **art** but these are not available in the **retail space**.
- **उच्च निवल मूल्य वाले व्यक्तियों (HNIs)** के लिए **कला (आर्ट)** जैसी परिसंपत्तियाँ भी होती हैं, लेकिन ये **खुदरा निवेशकों** के लिए उपलब्ध नहीं हैं।
- The staple investment base is **equity stocks** and **bonds**, also known as **fixed income** or **debt**.
- निवेश का मुख्य आधार **इक्विटी शेयर** और **बॉण्ड** हैं, जिन्हें **निश्चित आय (फिक्स्ड इनकम)** या **ऋण (डेट)** भी कहा जाता है।
- **Equity** represents part ownership of the firm whose stock you are buying.
- **इक्विटी** उस कंपनी में आंशिक स्वामित्व का प्रतिनिधित्व करती है, जिसके शेयर आप खरीद रहे हैं।
- As the firm grows, and new investors come in, the value improves and price increases.
- जैसे-जैसे कंपनी बढ़ती है और नए निवेशक जुड़ते हैं, उसका मूल्य बढ़ता है तथा कीमत में वृद्धि होती है।
- This leads to returns from investments in **equity**.
- इससे **इक्विटी निवेश** पर प्रतिफल प्राप्त होता है।
- **Bonds** represent 'I owe you' or loans given by the investor to the issuing entity.
- **बॉण्ड** 'मैं आपका ऋणी हूँ' या निवेशक द्वारा जारीकर्ता संस्था को दिए गए ऋण का प्रतिनिधित्व करते हैं।
- There is a defined **interest** payable on a defined date and **maturity** of bond or debenture is defined as well.
- इन पर एक निश्चित तिथि को देय **ब्याज** निर्धारित होता है तथा बॉण्ड या डिबेंचर की **परिपक्वता अवधि (मैच्योरिटी)** भी पूर्वनिर्धारित होती है।
- The typical aspect is **equity** has given relatively higher returns than **debt** but has been relatively more **volatile** as prices fluctuate more.

- सामान्यतः **इक्विटी** ने **ऋण (डेट)** की तुलना में अधिक प्रतिफल दिया है, लेकिन कीमतों में अधिक उतार-चढ़ाव के कारण यह अपेक्षाकृत अधिक **अस्थिर (वोलाटाइल)** रही है।
- **Gold** is known as a **portfolio diversifier**; with some allocation to gold, the volatility-adjusted return of a portfolio is better.
- **सोना** एक **पोर्टफोलियो विविधीकरण साधन** माना जाता है; पोर्टफोलियो में कुछ निवेश सोने में रखने से जोखिम-समायोजित प्रतिफल बेहतर हो सकता है।
- At the bottom of the pyramid, there are **bank term deposits** where there is a defined rate of **interest** and **maturity**.
- पिरामिड के निचले स्तर पर **बैंक सावधि जमा (टर्म डिपॉजिट)** होते हैं, जिनमें **ब्याज दर** और **परिपक्वता अवधि** पूर्वनिर्धारित होती है।
- The interest rate is not dependent on any market condition.
- ब्याज दर किसी भी बाजार परिस्थिति पर निर्भर नहीं होती।
- **Bank FDs** are not transferable.
- **बैंक एफडी** हस्तांतरणीय नहीं होती हैं।
- At the higher end of the pyramid, there are **derivatives** where the base is **equity**, **government bonds**, or **commodities**, which are more risky.
- पिरामिड के ऊपरी स्तर पर **डेरिवेटिव्स** होते हैं, जिनका आधार **इक्विटी**, **सरकारी बॉण्ड**, या **कमोडिटीज़** होती हैं, और ये अपेक्षाकृत अधिक **जोखिमपूर्ण** होते हैं।

Investment vehicles
निवेश साधन

- You can invest directly.
- आप सीधे निवेश कर सकते हैं।
- You can buy **equity stocks** from the exchange via a stock **broker**.
- आप **स्टॉक ब्रोकर** के माध्यम से एक्सचेंज से **इक्विटी शेयर** खरीद सकते हैं।
- These days there are multiple apps where you can do **KYC** online and start buying/selling stocks.
- आजकल कई ऐसे ऐप उपलब्ध हैं जहाँ आप ऑनलाइन **KYC** कर सकते हैं और शेयरों की खरीद-बिक्री शुरू कर सकते हैं।
- For buying **bonds** online, there is **Reserve Bank of India's** platform called **Direct Gilt**, where you can buy **government instruments**.
- ऑनलाइन **बॉण्ड** खरीदने के लिए **भारतीय रिज़र्व बैंक** का **डायरेक्ट गिल्ट** नामक प्लेटफॉर्म है, जहाँ आप **सरकारी प्रतिभूतियाँ** खरीद सकते हैं।
- For buying **corporate bonds**, there are **Online Bond Provider Platforms (OBPPs)**.
- **कॉर्पोरेट बॉण्ड** खरीदने के लिए **ऑनलाइन बॉण्ड प्रोवाइडर प्लेटफॉर्म (OBPPs)** उपलब्ध हैं।
- You can invest in **gold** via **Exchange Traded Funds (ETFs)** or **Electronic Gold Receipts (EGRs)**.
- आप **एक्सचेंज ट्रेडेड फंड्स (ETFs)** या **इलेक्ट्रॉनिक गोल्ड रिसीट्स (EGRs)** के माध्यम से **सोने** में निवेश कर सकते हैं।
- However, to manage a fund of **equities** and/or **bonds**, you need a professional.
- हालाँकि, **इक्विटी** और/या **बॉण्ड** के फंड का प्रबंधन करने के लिए आपको एक पेशेवर की आवश्यकता होती है।
- Therein comes the concept of **investment vehicle**: a **fund management entity** which will run a fund and will charge a fee.
- यहीं **निवेश साधन (इन्वेस्टमेंट व्हीकल)** की अवधारणा आती है: एक **फंड प्रबंधन संस्था** जो फंड का संचालन करती है और इसके लिए शुल्क लेती है।
- The most popular investment vehicle is a **mutual fund (MF)**, where you can buy units of a professionally-managed fund and liquidity is high.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- सबसे लोकप्रिय निवेश साधन **म्यूचुअल फंड (MF)** है, जहाँ आप पेशेवर रूप से प्रबंधित फंड की यूनिटें खरीद सकते हैं और इसकी **तरलता (लिक्विडिटी)** अधिक होती है।
- There are **portfolio management services (PMS)** with a minimum ticket size of **₹50 lakh** and **alternative investment funds (AIF)** with a minimum ticket of **₹1 crore**.
- **पोर्टफोलियो मैनेजमेंट सर्विसेज (PMS)** में न्यूनतम निवेश राशि **₹50 लाख** होती है और **ऑल्टरनेटिव इन्वेस्टमेंट फंड्स (AIF)** में न्यूनतम निवेश **₹1 करोड़** होता है।
- Insurers offer **Unit Linked Insurance Plans (ULIPs)**.
- बीमा कंपनियाँ **यूनिट लिंक्ड इंश्योरेंस प्लान्स (ULIPs)** प्रदान करती हैं।
- **Choosing a product**

  उत्पाद का चयन
- The investment vehicles mentioned earlier, known as **product manufacturers**, offer a plethora of products, which are a combination of the base mentioned earlier with packaging.
- पहले उल्लिखित **उत्पाद निर्माता** कहलाने वाले निवेश साधन अनेक प्रकार के उत्पाद प्रदान करते हैं, जो पहले बताए गए आधारभूत परिसंपत्तियों और उनकी प्रस्तुति (पैकेजिंग) का संयोजन होते हैं।
- You have to look at:
- आपको निम्नलिखित बातों पर ध्यान देना होगा:
- The risk in the **underlying base**: **equity** is more volatile than **debt**; within equity **small cap** or **sectoral/thematic funds** are relatively more volatile.
- **आधारभूत परिसंपत्ति** में जोखिम: **इक्विटी**, **ऋण (डेट)** की तुलना में अधिक अस्थिर होती है; और इक्विटी के भीतर **स्मॉल कैप** या **सेक्टोरल/थीमैटिक फंड्स** अपेक्षाकृत अधिक अस्थिर होते हैं।
- In debt, higher rated bonds carry less **credit risk**.
- ऋण निवेश में, उच्च रेटिंग वाले बॉण्ड में **क्रेडिट जोखिम** कम होता है।
- Required **investment horizon**: historic performance of any asset i.e. equity or debt, gives an idea how volatile it has been, hence how long you should be in the product at the minimum.
- आवश्यक **निवेश अवधि**: किसी भी परिसंपत्ति जैसे **इक्विटी** या **डेट** का ऐतिहासिक प्रदर्शन यह संकेत देता है कि वह कितनी अस्थिर रही है, और इसलिए उसमें न्यूनतम कितने समय तक निवेश बनाए रखना चाहिए।
- Every investment product will have an **investment objective**, **portfolio disclosure** and **track record** unless it is a newly launched product.
- प्रत्येक निवेश उत्पाद का एक **निवेश उद्देश्य**, **पोर्टफोलियो प्रकटीकरण** और **ट्रैक रिकॉर्ड** होता है, जब तक कि वह नया लॉन्च किया गया उत्पाद न हो।
- There is a concept called **drawdown**, which shows in the worst phase of performance, what was the return from that product.
- **ड्रॉडाउन** नामक एक अवधारणा होती है, जो यह दर्शाती है कि प्रदर्शन के सबसे खराब दौर में उस उत्पाद का प्रतिफल कितना था।
- You need a horizon longer than the **drawdown** and **recovery phase**.
- आपकी **निवेश अवधि ड्रॉडाउन** और **रिकवरी चरण** से अधिक लंबी होनी चाहिए।

PATRIOTIC IAS

Credit guarantee fund of microfinance units

GS III: Economy

OPINION

Jiji Mammen

The credit guarantee fund of microfinance institutions (CGSMFI 2.0) has come as a boon to a sector reeling under liquidity deficit for more than a year. Many lenders kept away from MFIs or enhanced underwriting norms in the past two years. Some institutions that supported the microfinance sector even during worst times in the past have stepped back at the moment, miring the sector in uncertainty. At this juncture, the announcement of the CGSMFI 2.0 scheme for guaranteeing funders' money has come as a great relief.

Similar to a fund created during the Covid-19 pandemic, the CGSMFI 2.0 has almost three times the allocation at ₹20,000 crore. It has been designed to ensure every institution can benefit equitably. Additionally, 15% has been earmarked for small and mid-segment MFIs.

The scheme also prescribed a cap of 20% of assets under management (AUM) for individual borrowers to ensure the money was better distributed. The maximum amount eligible for each institution was also capped at ₹100 crore, ₹200 crore or ₹1,000 crore, depending on institution's size.

The limit for the larger MFIs was increased subsequently. Similarly, the scheme has been extended up to August 31.

Looking up: The funding under the guarantee scheme would speed up the revival. GETTY IMAGES/ISTOCK

Signs of revival

Thankfully, the scheme comes at a time when the sector is showing signs of revival. The past few months have seen a positive trajectory of disbursements and outstanding. There are indications that disbursements in May may have been much higher. The funding under the guarantee scheme would speed up the revival.

Self-regulation

The microfinance sector – which enables easy access to credit without collateral for low-income individuals, marginalised groups, and small entrepreneurs – was hit badly by the Covid-19 pandemic. The borrowers are among the most vulnerable in such calamities. The sector catered to the post-pandemic surge in demand for credit. But the higher credit flow without commensurate revival of the economy saw some households ending up in an over-leveraged position, leading to higher indebtedness and sector-wide stress.

As a corrective measure, self-regulatory organisations came up with a set of guardrails, first in July 2024 and again in April 2025. They were finalised jointly with the CEOs of MFIs and their diligent implementation has put the sector back in order.

There has been an improvement in several parameters in the last few quarters. The portfolio size declined from ₹4.4 lakh crore in March 2024 to ₹3.71 lakh crore in March 2025 and ₹3.34 lakh crore in March 2026. It had dipped below ₹3.2lakh crore during the year, but showed growth in the last two months of the financial year to close at ₹3.34 trillion, below the previous year's close. However, the numbers for May would be more encouraging, given the higher lending. When it comes to the portfolio at risk (PAR) value, the PAR 30-179 days has improved from 6.65% in March 2025 to 2.31% in March 2026. Similar, the PAR 90-plus improved from 3.93% to 1.49%. The PAR 179-plus, has stabilised in last six months.

22J6. Credit Guarantee Fund of Microfinance Units
माइक्रोफाइनेंस इकाइयों के लिए ऋण गारंटी कोष

- **Credit Guarantee Fund of Microfinance Institutions (CGSMFI 2.0)**
  माइक्रोफाइनेंस संस्थानों के लिए ऋण गारंटी कोष (CGS MFI 2.0)
- The **credit guarantee fund** of **microfinance institutions (CGSMFI 2.0)** has come as a boon to a sector reeling under **liquidity deficit** for more than a year.
- **माइक्रोफाइनेंस संस्थानों के ऋण गारंटी कोष (CGS MFI 2.0)** ने एक वर्ष से अधिक समय से **तरलता संकट** से जूझ रहे क्षेत्र के लिए वरदान का कार्य किया है।
- Many lenders kept away from **MFIs** or enhanced **underwriting norms** in the past two years.
- पिछले दो वर्षों में अनेक ऋणदाताओं ने **एमएफआई (MFIs)** से दूरी बनाए रखी या **अंडरराइटिंग मानदंडों** को और सख्त कर दिया।
- Some institutions that supported the microfinance sector even during the worst times in the past have stepped back at the moment, miring the sector in uncertainty.
- कुछ संस्थान, जिन्होंने अतीत के सबसे कठिन समय में भी माइक्रोफाइनेंस क्षेत्र का समर्थन किया था, वर्तमान में पीछे हट गए हैं, जिससे यह क्षेत्र अनिश्चितता में फँस गया है।
- At this juncture, the announcement of the **CGSMFI 2.0 scheme** for guaranteeing funders' money has come as a great relief.
- ऐसे समय में, निवेशकों के धन की गारंटी देने हेतु **CGSMFI 2.0 योजना** की घोषणा एक बड़ी राहत के रूप में सामने आई है।
- Similar to a fund created during the **Covid-19 pandemic**, the **CGSMFI 2.0** has almost three times the allocation at **₹20,000 crore**.
- **कोविड-19 महामारी** के दौरान बनाए गए कोष की तरह, **CGSMFI 2.0** में लगभग तीन गुना अधिक **₹20,000 करोड़** का आवंटन किया गया है।
- It has been designed to ensure every institution can benefit equitably.
- इसे इस प्रकार तैयार किया गया है कि प्रत्येक संस्था को समान रूप से लाभ मिल सके।
- Additionally, **15%** has been earmarked for **small and mid-segment MFIs**.
- इसके अतिरिक्त, **15%** राशि **छोटे और मध्यम श्रेणी के एमएफआई** के लिए आरक्षित की गई है।
- The scheme also prescribed a cap of **20% of assets under management (AUM)** for individual borrowers to ensure the money was better distributed.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in

Website : patrioticias.in

- योजना में व्यक्तिगत उधारकर्ताओं के लिए **प्रबंधनाधीन परिसंपत्तियों (AUM)** का **20%** सीमा निर्धारित की गई है ताकि धन का बेहतर वितरण सुनिश्चित किया जा सके।
- The maximum amount eligible for each institution was also capped at **₹100 crore**, **₹200 crore** or **₹1,000 crore**, depending on institution's size.
- प्रत्येक संस्था के लिए पात्र अधिकतम राशि भी संस्था के आकार के अनुसार **₹100 करोड़**, **₹200 करोड़** या **₹1,000 करोड़** तक सीमित की गई थी।
- The limit for the larger MFIs was increased subsequently.
- बाद में बड़े **एमएफआई** के लिए यह सीमा बढ़ा दी गई।
- Similarly, the scheme has been extended up to **August 31**.
- इसी प्रकार, इस योजना को **31 अगस्त** तक बढ़ा दिया गया है।
- **Signs of revival**
  पुनरुद्धार के संकेत
- Thankfully, the scheme comes at a time when the sector is showing signs of **revival**.
- सौभाग्य से, यह योजना ऐसे समय में आई है जब यह क्षेत्र **पुनरुद्धार** के संकेत दिखा रहा है।
- The past few months have seen a positive trajectory of **disbursements** and **outstanding**.
- पिछले कुछ महीनों में **ऋण वितरण (डिस्बर्समेंट)** और **बकाया ऋण (आउटस्टैंडिंग)** में सकारात्मक रुझान देखा गया है।
- There are indications that disbursements in **May** may have been much higher.
- संकेत मिल रहे हैं कि **मई** में ऋण वितरण काफी अधिक रहा होगा।
- The funding under the **guarantee scheme** would speed up the revival.
- **गारंटी योजना** के अंतर्गत मिलने वाला वित्तपोषण इस पुनरुद्धार की गति को और तेज करेगा।

Self-regulation
स्व-नियमन

- The **microfinance sector** — which enables easy access to **credit without collateral** for **low-income individuals**, **marginalised groups**, and **small entrepreneurs** — was hit badly by the **Covid-19 pandemic**.
- **माइक्रोफाइनेंस क्षेत्र** — जो **कम आय वाले व्यक्तियों**, **वंचित समूहों** और **छोटे उद्यमियों** को **बिना संपार्श्विक (कोलेटरल) के ऋण** तक आसान पहुँच प्रदान करता है — **कोविड-19 महामारी** से बुरी तरह प्रभावित हुआ।
- The borrowers are among the most **vulnerable** in such calamities.
- ऐसी आपदाओं में उधारकर्ता सबसे अधिक **संवेदनशील** वर्गों में शामिल होते हैं।
- The sector catered to the post-pandemic surge in demand for **credit**.
- इस क्षेत्र ने महामारी के बाद **ऋण** की मांग में आई तेज वृद्धि को पूरा किया।
- But the higher **credit flow** without commensurate revival of the economy saw some households ending up in an **over-leveraged position**, leading to higher **indebtedness** and sector-wide stress.
- लेकिन अर्थव्यवस्था में समानुपाती सुधार के बिना बढ़े हुए **ऋण प्रवाह** के कारण कुछ परिवार **अत्यधिक ऋणग्रस्त स्थिति** में पहुँच गए, जिससे **कर्ज़दारी** बढ़ी और पूरे क्षेत्र में दबाव उत्पन्न हुआ।
- As a corrective measure, **self-regulatory organisations** came up with a set of **guardrails**, first in **July 2024** and again in **April 2025**.
- सुधारात्मक उपाय के रूप में, **स्व-नियामक संगठनों** ने **दिशानिर्देशों (गार्डरेल्स)** का एक समूह तैयार किया, पहले **जुलाई 2024** में और फिर **अप्रैल 2025** में।
- They were finalised jointly with the **CEOs of MFIs** and their diligent implementation has put the sector back in order.
- इन्हें **एमएफआई के मुख्य कार्यकारी अधिकारियों (CEO)** के साथ मिलकर अंतिम रूप दिया गया और इनके सावधानीपूर्वक क्रियान्वयन ने क्षेत्र को पुनः व्यवस्थित कर दिया।
- There has been an improvement in several parameters in the last few quarters.

Biochar offers a way to turn India's farm smoke into 'black gold'

When added to poor, degraded soils, biochar can increase their ability to store water and stimulate the growth of beneficial microbes; studies have indicated that it ca improve crop productivity by 10% to 30% and water-holding capacity by 10% to 25%, particularly in soils low in nutrients

GS III: S&T

Vinaya Kumar H.M.
Vikram Patil

India's agriculture faces a serious paradox: a large amount of biomass that could improve soil health is instead being burned. This threatens soil health and food security. Punjab and Haryana burn more than 20 million tonnes of paddy straw in their open fields every year. This is due to the short post-harvest periods and a lack of practical alternatives.

Burning these residues releases large quantities of greenhouse gases and fine particles into the air and soil, causing serious air pollution in the region as well as a major loss of organic matter that could otherwise be returned to the increasingly depleted soils.

At the same time, large tracts of agricultural land, from the black soils of Maharashtra to the red soils of Kerala, suffer from very low soil organic carbon, poor water-holding capacity, and rapid loss of nutrients, reducing crop productivity even with better seeds and irrigation.

Both these problems are symptoms of the same larger failure to recycle natural resources efficiently.

A biochar mixture ready to be applied to soil. Biochar is made by heating agricultural waste in low-oxygen conditions. What remains is a carbon-rich material that breaks down very slowly in the soil. NAMIBIABCBU (CC BY)

THE GIST

Biochar is made by he agricultural waste in low-oxygen conditions

Integrating biochar into existing initiatives on na farming, soil health management, and carb farming can deliver environmental and eco benefits at scale

As droughts, heatwaves erratic rainfall become frequent and more inte improving soil health w crucial to sustaining agricultural productivity

In India, however, bioch remains largely confine research trials and pilot projects, and is very mu to many farmers

Value to agriculture

This is where biochar emerges as a carbon negative solution. Biochar is made by heating agricultural waste in low-oxygen conditions. What remains is a carbon-rich material that breaks down very slowly in the soil, helping to keep carbon locked away for long periods of time. The benefits extend well beyond carbon capture. Biochar is highly porous and contributes to aggregating soil particles, holding water, and creating a suitable environment for microorganisms.

Given these properties, the value of biochar to agriculture should be obvious. When added to poor, degraded soils, it can increase their ability to store water and stimulate the growth of beneficial microbes.

Studies have indicated that it can improve crop productivity by 10% to 30% and water-holding capacity by 10% to 25%, particularly in soils low in nutrients.

Biochar derived from maize stalks and applied to black soils in Akola district of Maharashtra has improved soil organic carbon content and overall soil fertility in field trials. Research from Kerala has shown that biochar made from coconut leaf stalks increased soil quality in different cropping systems, emphasising the need to use local resources effectively. Perhaps most significantly, long-term studies have shown that biochar has the benefit of enhancing soil health and maintaining higher crop output over time.

Wider vision

This approach also supports India's wider vision of sustainable agriculture and climate resilience. As droughts, heatwaves, and erratic rainfall become more frequent and more intense, improving soil health will be crucial to sustaining agricultural productivity.

By increasing the water-holding capacity and the ability to use nutrients efficiently, thus, biochar can help crops withstand moisture stress while reducing dependency on external inputs. This is particularly important for small and marginal farmers who are often the most exposed to the climate's vagaries.

Integrating biochar into the existing initiatives on natural farming, soil health management, and carbon farming can deliver environmental and economic benefits at scale. Yet in India, biochar remains largely confined to research trials and pilot projects, and is very much alien to many farmers.

In fact, agricultural residues are generally seen only as a problem of disposal. But they are an important resource that can generate additional income, create jobs, can deliver environmental benefits, and could even support payments for ecosystem services.

Carbon credits

As one way forward, the government could package the activities of turning agricultural waste into biochar and putting it on soil into carbon credit markets, creating a strong economic incentive for mass adoption.

Biochar carbon already passes rigorous stability criteria for long-term sequestration, and it can be classified as a persistent carbon dioxide removal technology under internationally accepted accounting standards. For

Biochar is highly porous and contributes to aggregating soil particles, holding water, and creating a suitable environment for microorganisms

instance, VM0042 agricultural land management methodology quantifies both avoided emissions from residue burning and long-term carbon sequestration in soils. In this protocol, each tonne of certified biochar can generate 2-2.8 t carbon dioxide-equivalent in carbon credits. Depending on carbon market prices, certified biochar can thus provide an additional source of income for project developers, farmers, and cooperatives.

This approach is already being tested in projects such as those using the KISAN kiln from IIT-Kharagpur, which allows smallholders to monetise farm waste.

Several international examples also illustrate the scalability of biochar systems. In Kenya, turning rice husks into biochar has produced thousands of certified carbon credits and improved soil pH and phosphorus content. Thailand has pushed biochar use through national initiatives on soil rehabilitation and carbon management, and tied certification to access to the national carbon registry system, providing a policy-to-market pipeline. High carbon retention and large yield gains have also been reported from Brazil's Embrapa Institute after using on-farm biochar generated from sugarcane bagasse.

These examples also show that success depends on integrated strategies that combine decentralised, appropriately scaled pyrolysis technology with strong measurement, reporting, and verification systems.

Urban organic waste

The feedstock for biochar is also not limited to agricultural waste and can encompass urban organic waste as well. India generates around 62 million tonnes of municipal solid garbage per year and more than 50% of that is biodegradable. Sewage sludge and crop residues can also be converted into biochar.

This is in keeping with the precepts of the circular economy, as organic waste is diverted from landfills that produce methane and is converted to a useful product for agriculture. By systematically implementing these measures, India can turn its large waste streams into 'black gold', thus ensuring a more resilient agricultural future while making a meaningful contribution to global climate mitigation efforts.

Overall, the value of biomass can only be realised through an integrated ecosystem that catalyses innovation, entrepreneurship, market linkages, investment, and cost-effective access to biochar for farmers.

- India's agriculture faces a serious **paradox**: a large amount of **biomass** that could improve **soil health** is instead being burned.
  भारत की कृषि एक गंभीर **विरोधाभास** का सामना कर रही है: **मृदा स्वास्थ्य** में सुधार करने वाली बड़ी मात्रा में **जैविक अवशेष (बायोमास)** का उपयोग करने के बजाय उसे जला दिया जाता है।
- This threatens **soil health** and **food security**.
  यह **मृदा स्वास्थ्य** और **खाद्य सुरक्षा** के लिए खतरा उत्पन्न करता है।
- Punjab and Haryana burn more than **20 million tonnes** of **paddy straw** in their open fields every year.
  पंजाब और हरियाणा में प्रत्येक वर्ष खुले खेतों में **धान के पुआल** की **20 मिलियन टन** से अधिक मात्रा जलाई जाती है।
- At the same time, large tracts of agricultural land, from the **black soils of Maharashtra** to the **red soils of Kerala**, suffer from very low **soil organic carbon**, poor **water-holding capacity**, and rapid loss of **nutrients**, reducing **crop productivity** even with better seeds and irrigation.
  साथ ही, **महाराष्ट्र की काली मिट्टी** से लेकर **केरल की लाल मिट्टी** तक कृषि भूमि के विशाल क्षेत्र अत्यंत कम **मृदा कार्बनिक कार्बन**, कमजोर **जल धारण क्षमता**, तथा **पोषक तत्त्वों** की तीव्र हानि से ग्रस्त हैं, जिससे बेहतर बीजों और सिंचाई के बावजूद **फसल उत्पादकता** कम हो जाती है।
- Biochar is made by heating **agricultural waste** in **low-oxygen conditions**.
  बायोचार का निर्माण **कृषि अपशिष्ट** को **कम ऑक्सीजन वाली परिस्थितियों** में गर्म करके किया जाता है।
- What remains is a **carbon-rich material** that breaks down very slowly in the soil, helping to keep **carbon locked away** for long periods of time.
  इसके परिणामस्वरूप एक **कार्बन-समृद्ध पदार्थ** प्राप्त होता है जो मृदा में बहुत धीरे-धीरे विघटित होता है और लंबे समय तक **कार्बन को सुरक्षित रूप से संचित** रखने में सहायता करता है।
- The benefits extend well beyond **carbon capture**.
  इसके लाभ केवल **कार्बन अवशोषण** तक सीमित नहीं हैं।
- Biochar is highly **porous** and contributes to aggregating **soil particles**, holding **water**, and creating a suitable environment for **microorganisms**.
  बायोचार अत्यधिक **छिद्रयुक्त** होता है तथा **मृदा कणों** के एकीकरण, **जल** धारण करने और **सूक्ष्मजीवों** के लिए अनुकूल वातावरण बनाने में योगदान देता है।
- When added to poor, degraded soils, it can increase their ability to store **water** and stimulate the growth of beneficial **microbes**.
  जब इसे कमजोर एवं अवनत मृदाओं में मिलाया जाता है, तो यह उनकी **जल संग्रहण क्षमता** को बढ़ाता है तथा लाभकारी **सूक्ष्मजीवों** की वृद्धि को प्रोत्साहित करता है।
- Studies have indicated that it can improve **crop productivity** by **10% to 30%** and **water-holding capacity** by **10% to 25%**, particularly in soils low in nutrients.
  अध्ययनों से संकेत मिला है कि यह **फसल उत्पादकता** में **10% से 30%** तथा **जल धारण क्षमता** में **10% से 25%** तक वृद्धि कर सकता है, विशेषकर उन मृदाओं में जहाँ पोषक तत्त्वों की कमी होती है।
- Biochar derived from **maize stalks** and applied to **black soils** in **Akola district of Maharashtra** has improved **soil organic carbon content** and overall **soil fertility** in field trials.
  मक्का के डंठलों से निर्मित बायोचार को **महाराष्ट्र के अकोला जिले** की **काली मिट्टियों** में प्रयोग करने पर क्षेत्रीय परीक्षणों में **मृदा कार्बनिक कार्बन की मात्रा** तथा समग्र **मृदा उर्वरता** में सुधार देखा गया है।
- Research from **Kerala** has shown that biochar made from **coconut leaf stalks** increased **soil quality** in different cropping systems, emphasising the need to use local resources effectively.
  केरल में किए गए अनुसंधान से पता चला है कि **नारियल की पत्ती के डंठलों** से निर्मित बायोचार ने विभिन्न फसल प्रणालियों में **मृदा गुणवत्ता** को बढ़ाया है, जिससे स्थानीय संसाधनों के प्रभावी उपयोग की आवश्यकता पर बल मिलता है।
- By increasing the **water-holding capacity** and the ability to use **nutrients** efficiently, thus, **biochar** can help crops withstand **moisture stress** while reducing dependency on external

inputs.
जल धारण क्षमता तथा **पोषक तत्वों** के कुशल उपयोग की क्षमता को बढ़ाकर, **बायोचार** फसलों को **नमी तनाव** का सामना करने में सहायता कर सकता है तथा बाहरी संसाधनों पर निर्भरता को कम कर सकता है।

- This is particularly important for **small and marginal farmers** who are often the most exposed to the climate's vagaries.
यह विशेष रूप से **लघु एवं सीमांत किसानों** के लिए महत्वपूर्ण है, जो प्रायः जलवायु की अनिश्चितताओं से सबसे अधिक प्रभावित होते हैं।
- Integrating **biochar** into the existing initiatives on **natural farming**, **soil health management**, and **carbon farming** can deliver environmental and economic benefits at scale.
बायोचार को **प्राकृतिक खेती**, **मृदा स्वास्थ्य प्रबंधन** तथा **कार्बन खेती** से संबंधित वर्तमान पहलों में सम्मिलित करने से बड़े स्तर पर पर्यावरणीय एवं आर्थिक लाभ प्राप्त किए जा सकते हैं।
- But they are an important **resource** that can generate additional **income**, create **jobs**, can deliver **environmental benefits**, and could even support **payments for ecosystem services**.
किन्तु वे एक महत्वपूर्ण **संसाधन** हैं, जो अतिरिक्त **आय** उत्पन्न कर सकते हैं, **रोजगार** सृजित कर सकते हैं, **पर्यावरणीय लाभ** प्रदान कर सकते हैं तथा **पारिस्थितिकी तंत्र सेवाओं के लिए भुगतान** का आधार भी बन सकते हैं।

Carbon credits

कार्बन क्रेडिट

- As one way forward, the government could package the activities of turning **agricultural waste** into **biochar** and putting it on soil into **carbon credit markets**, creating a strong economic incentive for mass adoption.
आगे बढ़ने के एक उपाय के रूप में सरकार **कृषि अपशिष्ट** को **बायोचार** में परिवर्तित करने और उसे मृदा में उपयोग करने की गतिविधियों को **कार्बन क्रेडिट बाजारों** से जोड़ सकती है, जिससे इसके व्यापक अपनाने हेतु एक सशक्त आर्थिक प्रोत्साहन उत्पन्न होगा।
- **Biochar carbon** already passes rigorous **stability criteria** for long-term **sequestration**, and it can be classified as a **persistent carbon dioxide removal technology** under internationally accepted accounting standards.
बायोचार कार्बन पहले से ही दीर्घकालिक **कार्बन पृथक्करण** के लिए कठोर **स्थिरता मानदंडों** को पूरा करता है और अंतरराष्ट्रीय स्तर पर स्वीकृत लेखांकन मानकों के अंतर्गत इसे **स्थायी कार्बन डाइऑक्साइड निष्कासन प्रौद्योगिकी** के रूप में वर्गीकृत किया जा सकता है।
- For instance, **VM0042 agricultural land management methodology** quantifies both **avoided emissions** from residue burning and long-term **carbon sequestration** in soils.
उदाहरण के लिए, **VM0042 कृषि भूमि प्रबंधन पद्धति** अवशेष जलाने से बचाई गई **उत्सर्जन मात्रा** तथा मृदा में दीर्घकालिक **कार्बन पृथक्करण** दोनों का आकलन करती है।
- In this protocol, each tonne of **certified biochar** can generate **2-2.8 t carbon dioxide-equivalent** in **carbon credits**.
इस प्रोटोकॉल के अंतर्गत प्रत्येक टन **प्रमाणित बायोचार** से **कार्बन क्रेडिट** के रूप में **2-2.8 टन कार्बन डाइऑक्साइड-समतुल्य** प्राप्त किया जा सकता है।
- Depending on **carbon market prices**, certified **biochar** can thus provide an additional source of **income** for **project developers**, **farmers**, and **cooperatives**.
इस प्रकार **कार्बन बाजार मूल्यों** के आधार पर प्रमाणित **बायोचार**, **परियोजना विकासकर्ताओं**, **किसानों** तथा **सहकारी समितियों** के लिए अतिरिक्त **आय** का स्रोत प्रदान कर सकता है।
- This approach is already being tested in projects such as those using the **KISAN kiln** from **IIT-Kharagpur**, which allows **smallholders** to monetise **farm waste**.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur

Contact Number : 9971932488
Website : patrioticias.in

इस दृष्टिकोण का परीक्षण पहले से ही ऐसी परियोजनाओं में किया जा रहा है, जिनमें **IIT-खड़गपुर** द्वारा विकसित **KISAN भट्ठी** का उपयोग किया जा रहा है, जो **लघु किसानों** को **कृषि अपशिष्ट** का आर्थिक मूल्य प्राप्त करने में सक्षम बनाती है।

- In **Kenya**, turning **rice husks** into **biochar** has produced thousands of **certified carbon credits** and improved **soil pH** and **phosphorus content**.
  केन्या में **धान की भूसी** को **बायोचार** में परिवर्तित करने से हजारों **प्रमाणित कार्बन क्रेडिट** प्राप्त हुए हैं तथा **मृदा pH** और **फॉस्फोरस की मात्रा** में सुधार हुआ है।
- **Thailand** has pushed **biochar use** through national initiatives on **soil rehabilitation** and **carbon management**, and tied certification to access to the national **carbon registry system**, providing a **policy-to-market pipeline**.
  थाईलैंड ने **मृदा पुनर्वास** और **कार्बन प्रबंधन** से संबंधित राष्ट्रीय पहलों के माध्यम से **बायोचार के उपयोग** को बढ़ावा दिया है तथा प्रमाणन को राष्ट्रीय **कार्बन रजिस्ट्री प्रणाली** तक पहुँच से जोड़कर **नीति से बाजार तक की प्रक्रिया** विकसित की है।
- These examples also show that success depends on integrated strategies that combine decentralised, appropriately scaled **pyrolysis technology** with strong **measurement, reporting, and verification systems**.
  ये उदाहरण यह भी दर्शाते हैं कि सफलता ऐसी समेकित रणनीतियों पर निर्भर करती है, जो विकेन्द्रीकृत एवं उपयुक्त स्तर की **पायरोलिसिस प्रौद्योगिकी** को सुदृढ़ **मापन, प्रतिवेदन एवं सत्यापन प्रणालियों** के साथ जोड़ती हैं।

Urban organic waste

शहरी जैविक अपशिष्ट

- The **feedstock** for **biochar** is also not limited to **agricultural waste** and can encompass **urban organic waste** as well.
  बायोचार के लिए उपयोग किया जाने वाला **कच्चा पदार्थ (फीडस्टॉक)** केवल **कृषि अपशिष्ट** तक सीमित नहीं है, बल्कि इसमें **शहरी जैविक अपशिष्ट** भी सम्मिलित किया जा सकता है।
- India generates around **62 million tonnes** of **municipal solid garbage** per year and more than **50%** of that is **biodegradable**.
  भारत प्रतिवर्ष लगभग **62 मिलियन टन नगर ठोस कचरा** उत्पन्न करता है, जिसमें से **50 प्रतिशत** से अधिक **जैव-अपघटनीय** होता है।
- **Sewage sludge** and **crop residues** can also be converted into **biochar**.
  सीवेज कीचड़ तथा **फसल अवशेषों** को भी **बायोचार** में परिवर्तित किया जा सकता है।
- This is in keeping with the precepts of the **circular economy**, as **organic waste** is diverted from **landfills** that produce **methane** and is converted to a useful product for agriculture.
  यह **परिपत्र अर्थव्यवस्था (सर्कुलर इकोनॉमी)** के सिद्धांतों के अनुरूप है, क्योंकि **जैविक अपशिष्ट** को **लैंडफिल स्थलों** से हटाकर, जहाँ से **मीथेन** उत्पन्न होती है, कृषि के लिए उपयोगी उत्पाद में परिवर्तित किया जाता है।

No alcohol when it's hot

GS III: S&T

Vasudevan Mukunth

A person cools off from a public fountain near the Colosseum during a heatwave in Rome. REUTERS

In response to a new heatwave alert across Europe, France has partially banned the consumption of alcohol. The restriction is a public health measure as part of reducing heat-related illnesses.

Alcohol affects the body in many ways that become more dangerous if the person is also exposed to extreme heat. It causes the body to produce more urine, and thus increases the risk of dehydration. It impairs the body's ability to regulate temperature by dilating blood vessels in the skin and suppressing the hormone vasopressin. And it lowers their awareness of early warning signs such as dizziness and nausea and makes them less likely to seek shade or drink water.

These risks are compounded at large outdoor events like the annual Fête de la Musique, where people may spend hours standing in crowded spaces under direct sunlight.

As *Reuters* reported, "After a crisis meeting, Prime Minister Sebastien Lecornu pre-emptively banned alcohol consumption on Sunday at the annual Fete de la Musique festivals and other public events" scheduled in the 35 regions with heat alerts. It added that Paris authorities had "ordered parks to remain open around the clock". Since the city is a concrete jungle, parks could keep people cool at night.

Since the deadly 2003 heatwave in Europe, which killed nearly 15,000 people in France alone, French authorities have adopted more interventionist responses to heat, including opening cooling centres, checking on vulnerable residents, and restricting activities that could increase health risks.

Kerala's battle with water-borne diseases

The State's under-investment in proper sewerage networks is costing it dearly

STATE OF PLAY

GS III: S&T [redacted]

C. Maya

A State renowned for being the model of public health in the country and one which has consistently recorded some of the best health indicators nationwide, is now battling recurrent outbreaks of various water-borne diseases such as shigellosis. The irony is stark, for Kerala has demonstrated the responsiveness and resilience of its health system by having a firm grip on a disease as unpredictable and complex as Nipah.

Now, rapid urbanisation and social development on the one side and inadequate attention paid to environmental health, water quality measures, poor sewage and sanitation infrastructure on the other, is threatening to undo the State's reputation as a beacon of good public health. The explosion of water-borne diseases and zoonotic diseases in the State points to the system's failure to pay attention to the social and environmental determinants of health.

Scale of contamination

A look at the outbreaks of Acute Diarrhoeal Diseases (ADD), Hepatitis A, shigellosis and norovirus in recent years gives an indication of the impact of groundwater contamination on people's health.

Between four to five lakh cases of ADD are reported every year in the State. Since the past two decades, Kerala has also been experiencing several large and small Hepatitis A outbreaks. In 2025, the State reported 31,536 cases and 82 deaths due to Hep A. This year too, as of June 15, close to 9,000 cases and 25 confirmed deaths have been reported.

Amoebic meningoencephalitis, which has also emerged as a significant public health problem in Kerala, is being linked to the faecal contamination in domestic wells, in which free-living amoeba thrive. This infection has claimed the highest number of lives in the State, with 134 cases and 34 deaths reported as of June 15 this year.

Various studies have reported that groundwater resources in the State have been under increasing stress, with 62% of the population depending on ground water from close to 7 million wells.

Lack of sewage system

As of 2025, Kerala has less than 6% proper sewerage network coverage, with most major cities having virtually no household sewage collection systems. The CAG's 2025 report stated that at the closure of the AMRUT Mission, a Central initiative aimed at ensuring universal access to safe water and reliable sewerage connections across urban areas, Kerala's overall achievement was just 11.25% and only 0.13% households got sewerage connections.

While Kerala does have high sanitation coverage with a significant proportion of households relying on septic tanks or on-site sanitation systems, these septic tanks are poorly designed and located close to domestic wells which lead to groundwater contamination. The fact that Kerala is one of the most densely populated States with small landholdings and houses situated close to each other aggravates the issue. High levels of faecal contamination have been reported in over 70% of the open wells in the State by agencies such as the Centre for Water Resources Development and Management. A study in the urban areas of Thiruvananthapuram in 2018 had reported that coliform contamination was prevalent in 73% of wells and that well chlorination and cleaning practices were inadequate.

Recurring outbreaks of Hepatitis A and shigellosis in the State showed that almost all outbreaks had been in rural areas and were linked to the local source of drinking water. Epidemiological investigations have revealed that water for regional supply systems is often pumped into supply lines without adequate chlorination or filtration, and that these lines often run close to sewage drains – any breaks in the pipeline can lead to major contamination.

It is also true that most of the interventions to provide safe drinking water to people lie outside the health sector, demanding coordinated intersectoral efforts. Thus, rather than a failure of public health, the current problem of water-borne diseases seems to be the result of the State's under-investment in establishing proper sewerage networks.

Prevention of water-borne diseases requires long-term investments in urban planning, establishing safe water distribution systems, sewer networks, wastewater treatment plants as well as measures for environmental and water quality surveillance.

What is Google's Project Nimbus, and why are students protesting against it?

Amazon and Google's Project Nimbus cloud contract with Israel has sparked protests over U.S. Big Tech enabling the Israeli military's violence against Palestinians; the row has intensified internal unrest within companies, with employees raising ethical concerns over how their work is being used

GS III: S&T

Sahana Venugopal

The story so far:

On June 14, Google CEO Sundar Pichai's speech at Stanford was disrupted as more than 100 students walked out in protest. Some carried Palestinian flags, others draped black-and-white patterned *keffiyeh* as scarves, and they shouted, "Free, free Palestine!"

The students were protesting against Google's Project Nimbus, a tech contract between the search giant and the Israeli government that is linked with violence against Palestinian civilians.

What is Project Nimbus?

Project Nimbus is a technology contract between the Israeli government and Google and Amazon. It is worth over $1 billion. In May 2021, Google said the agreement would deliver cloud services to Israeli government entities, including ministries, authorities, and government-owned companies. The project was scheduled to run for an initial period of seven years, and the Israeli government could extend it for up to 23 years. A month later, Amazon said the Israeli government had selected Amazon Web Services (AWS) as its primary cloud provider, under the Nimbus contract for government ministries and its subsidiaries.

In 2024, an investigation by Israeli media outlets *+972 Magazine* and *Local Call* found that the country's army stored information on servers managed by AWS. That data came from the surveillance of Palestinians, as per the investigation. Sources quoted by the media outlets alleged such information could be used to help plan airstrikes.

Furthermore, the outlets reported an increase in Israeli service demands from Google Cloud, AWS, and Microsoft Azure since October 2023, as army units sought data storage and AI services.

Why are protesters against Project Nimbus?

Project Nimbus has been facing backlash since it was first announced. In 2021, an anonymous letter signed internally by 90 Google workers and over 300 Amazon workers criticised the partnership, per *The Guardian*. They condemned Project Nimbus and the Israeli military's killings of Palestinian civilians, claiming that their employers would be "selling dangerous technology to the Israeli military and government."

The workers claimed that cloud service technology would help expand the surveillance of Palestinians, as well as illegal Israeli settlements on Palestinian land.

Opposition to Project Nimbus has grown since the Hamas attacks against Israeli civilians on October 7, 2023, followed by Israel's airstrikes and blockades in Gaza. In 2024, protesting Google employees even carried out sit-ins at Google locations in the U.S. Later, 28 employees were fired.

Pro-Palestinian protests by employees have also taken place at Big Tech company events, such as during Microsoft's 50th anniversary celebrations in 2025.

Last year, *The Guardian*, *+972 Magazine*, and *Local Call* cited leaked documents revealing that under the Project Nimbus contract, Israel mandated that Google and Amazon would not restrict how its governmental units used the tech companies' cloud services – even if Israel violated their terms of service.

However, Google has in the past stressed that Project Nimbus workloads are not related to the military, weapons, or classified intelligence. Amazon too highlighted its privacy commitments to its customers.

Which other tech companies have links to Israel?

A Palestinian-led movement, called Boycott, Divestment and Sanctions (BDS), has identified large technology companies that have formal contracts with Israel and its military sector.

The BDS website alleges these companies "technologically equip the Israeli military with computing systems as well as surveillance and communications technologies to accelerate the genocide in Gaza and automate apartheid in the West Bank, including East Jerusalem."

In September, Microsoft Vice-Chair & President Brad Smith said the company had "ceased and disabled a set of services to a unit within the Israel Ministry of Defense (IMOD)." This announcement came after media outlets *The Guardian*, *+972 Magazine*, and *Local Call* reported that the Israel Defense Forces (IDF) was using Microsoft's Azure to store Palestinians' recorded phone calls data that could be leveraged for mass surveillance or even military action.

Did Microsoft truly sever its ties with Israel's defense surveillance systems?

While Mr. Smith said that Microsoft does not provide technology to facilitate the mass surveillance of civilians, he affirmed the company's "important work" to protect the cybersecurity of Israel and other West Asian countries.

In a conclusion to the external investigation that Microsoft commissioned after the Azure surveillance allegations, the tech giant said it would implement better review processes, provide more guidance to employees, and let employees anonymously report potential policy violations.

The No Azure for Apartheid group, which is made up of Microsoft workers, claimed on June 6 that Microsoft still allowed the Israeli military and government to host other surveillance projects on Azure. "Nothing short of cutting all ties with the genocidal Israeli military and government will be enough. We will show up to escalate, confront, and disrupt in every place, at every moment, announced and unannounced," said the group.

22J6. What is Google's Project Nimbus, and why are students protesting against it?

गूगल का प्रोजेक्ट निम्बस क्या है, और छात्र इसके विरुद्ध प्रदर्शन क्यों कर रहे हैं?

- The students were protesting against **Google's Project Nimbus**, a tech contract between the search giant and the **Israeli government** that is linked with violence against **Palestinian civilians**.
  छात्र **गूगल के प्रोजेक्ट निम्बस** का विरोध कर रहे थे, जो गूगल और **इज़राइली सरकार** के बीच एक तकनीकी अनुबंध है और जिसे **फिलिस्तीनी नागरिकों** के विरुद्ध हिंसा से जोड़ा जाता है।

Serious charges: In May, farmlands at Ullukurukkai were flooded by the water that had overflowed from the percolation ponds of the Tata Electronics plant. The company said only rainwater was let out of the ponds. But farmers alleged that it was "chemical water". B. JOTHI RAMALINGAM

Tales TDS tells

Farmers in Hosur have accused the Tata Electronics plant of discharging effluents into farmlands and contaminating the groundwater. **P.V. Srividya** takes a deep dive to study the situation on the ground

THE HINDU SATURDAY MAGAZINE

The farm wells of Ullukurukkai village in Thimjepalli panchayat of Krishnagiri district are filled to the brim in summer. It is time for paddy crop. Elsewhere in the district, nurseries are being raised and fields prepared to raise the crop. But the *punjai* lands (dry agricultural lands) of the village, close to the iPhone manufacturing plant of Tata Electronics Private Limited (TEPL), have fallen disquietingly silent. A hundred metres away, this jarring silence is interrupted by the sounds of construction activity. Workers are busy building a wall to demarcate the boundary of the TEPL plant from the adjoining farmlands. A steady flow of water discharges from under the plinth of the new boundary wall of the plant and into an exit channel running through the farmlands.

A few metres inside the boundary wall, there are large embankments of sprawling rain-water-harvesting structures or percolation ponds of the plant. In the last week of May, acres of Ullukurukkai's farmlands were flooded by the water that had reportedly overflowed from the plant's percolation ponds. The company told officials then that it was only rainwater from the ponds. Collector C. Dinesh Kumar said, "There were two instances of breach [in the last few months] from the plant and both times, the rainfall recorded was 5 cm and 6.75 cm." But the farmers insist it was not just rainwater, but "chemical water" that entered their fields from these ponds that overflowed.

The Tamil Nadu Pollution Control Board (TNPCB) issued a show-cause notice to TEPL in May 2026. It flagged the TDS (total dissolved solids) range of 1,916 milligrams per litre (mg/L) to 2,450 mg/L (against the norm of under 500 ppm or not above 1,000 ppm for percolation ponds) in the water sample collected from the rainwater pond. It also flagged BOD, or Biological Oxygen Demand (dissolved oxygen needed for breakdown of organic matter), in the range of 12 mg/L to 78 mg/L and COD (Chemical Oxygen Demand indicating contamination) in the range of 48 mg/L to 160 mg/L – both values significantly exceeding permissible limits of under 30 mg/L. The TDS range was ascertained from samples collected on three occasions at three different points between December and May.

> The water in our wells used to taste like 'tender coconut' water. Until a year and a half ago, people working in the fields drank from these wells. but workers now carry their own water because the water now stinks
> **KRISHNAN,** Village head

Off to a promising start

It was in 2021 that TEPL chose Nagamangalam, near Hosur, to set up its iPhone component manufacturing unit. The move was seen as a big win for Tamil Nadu's industrial portfolio and Hosur's manufacturing ecosystem that was diversifying into electronics. The facility expanded with operations beginning at the Phase II plant last November. Farmers had rejoiced at the arrival of a "good corporate company" in their midst. "They say Tata is a good company. If they are giving jobs to so many people, they will only do good, we thought," says Pushparaj, who now leads the farmers' protests against the alleged effluent discharge. "Don't we know what rainwater is? This is not rainwater," Mr. Pushparaj says repeatedly. "We grew up on this soil and in this water."

One night in December 2025, the pumping system of the sewage treatment plant (STP) on the TEPL premises malfunctioned, two sources in the district administration told *The Hindu*. "The untreated water was discharged into the rainwater-harvesting pond. There were complaints from farmers then. When the water was collected, the stench was bad. But, if it was trade effluent, the TDS would be much higher. It cannot be said that it was completely untreated trade discharge, but definitely partially treated effluent," said one of them.

> There were two instances of breach [in the last few months] from the plant and both times, the rainfall recorded was 5 cm and 6.75 cm
> **C. DINESH KUMAR,** Krishnagiri Collector

Trade effluents

Trade effluent is any liquid waste discharged from business, trade, or industrial premises. Conventional trade effluent treatment systems do not fix high TDS levels. TEPL is a Zero Liquid Discharge (ZLD) unit that uses Multiple Effect Evaporator (MEE) for its effluent treatment. Raw trade effluent is treated through the Reverse Osmosis (RO) process that returns low TDS water, which can be reused for gardening. The discharge from the RO process (RO reject) will, however, have a greater TDS concentrate. This RO reject then passes through a series of evaporators (MEE) and the water is condensed for reuse. The MEE reject, which again will have high TDS values, is finally passed through an Agitated Thin Film Dryer (ATFD) that turns the high-TDS reject into a powder. This makes TEPL a zero discharge plant, where no water or waste technically exits the plant.

However, accounts of two witnesses at the plant echo the charges farmers make. They indicate that the ZLD environmental mandate may exist only on paper. According to them, trade effluents routinely bypass the ETP and enter collection ponds along with the STP discharge. When the production is high and effluent output outstrips the ETP capacity, the trade effluent from the anodizing process will be stored in tanks and discharged at night and during rain, claim two persons from the plant. "The incoming production effluent [trade effluent] will be highly acidic, with pH levels of 0-1. The pH value must be chemically boosted to reach neutral before the effluent is fed into the treatment line. But that is chemical intensive for high volumes, expensive, and time-consuming. The capacity of the ETP initially was only 60 kilolitres [60,000 litres], but the plant may sometimes generate up to 100 kilolitres of trade effluent, and the excess will reach the drain," said a source, who had worked in the ETP. How often is sometimes? "Two or three times a week, but depending on production output," said the other source. "The trade effluent will have very high TDS – 6,000 or even 10,000. But when linked with the STP line, which will have a higher volume but far less TDS, the final TDS numbers fall and are offset to permissible limits. The valves will be opened in the rain, with TDS diluted."

"We use caustic soda to boost the pH value. The production team will send a mail informing of the incoming effluent the next day. Either we receive it by dumping the effluent already filled up in tanks (pending treatment) into the drain or ask them to stop production. Production cannot be stopped or can be stopped only for a day or two. So the effluent would be sent into the drain and STP water poured over it." But what of the metal residue? "There will be no metal residue, that will settle, but the TDS of the trade effluent will show up as high, and this is fixed when mixed with the STP water," the source said.

Consent to Operate

On November 24, 2025, the TNPCB issued a Consent to Operate approval for expansion of Phase I of TEPL. The order mentions the manufacture of 3.74 crore metal cases for iPhones per annum. The order also mentions points of disposal of sewage discharge (for gardening, toilet flushing, and cooling tower) and trade effluent discharge (recycling process and conversion into salts), none of which is to be let out to percolation ponds, which are for groundwater recharge. On December 8, 2025, Mr. Pushparaj, on behalf of the farmers, petitioned TEPL "about inaction on their earlier complaints of stench and dumping of 'chemical waste' in the percolation ponds". The petition stated that this had been going "on for three months" (before December) but no action was taken on their complaint.

This February, his coriander fields, among others, faced another such flooding from the plant's ponds, he said, showing colour printouts of the inundated crop to the district administration. "I was asked to be patient, as the treatment plant will be ready soon," says Mr. Pushparaj. "Production began a year ago in Phase II, but the ETP was commissioned only four months ago," said the source.

The Hindu sent questions to TEPL to comment on these witness accounts from inside the plant, but no official communication was received in response. However, TEPL released a statement last week saying its TDS numbers were within permissible limits and the TNPCB had dropped its scrutiny. The TNPCB did not respond to calls to confirm the development.

Adequate treatment facilities

Collector Mr. Kumar dismissed testimonies of residents and said the plant was a ZLD facility and adequacy of the treatment facilities was ensured before the grant of consent. Based on inspections, verification of records and analysis of samples, no evidence was found to establish that industrial effluents were bypassed from the treatment system or mixed with sewage for dilution and discharged into percolation ponds. "Further, samples collected from the ponds and nearby wells were analysed and the results did not indicate contamination attributable to discharge of industrial effluents from the unit," he said. Another official also claimed Mr. Pushparaj was working with the agenda of seeking material compensation from the company.

However, the fields tell a different story, and Mr. Pushparaj is not the only one affected. Nagalakshmi, who holds a mere three-fourths of an acre of land, had harvested 300 sacks of cucumber last summer and 500 sacks the year before. This week, she stood beside the cucumber crop that was only ankle high on day 25, when it should have reached her waist. Ms. Nagalakshmi had set up a bund so that the "dirty water" does not enter her field. "Till yesterday, that 'dirty water' was here, it had just drained. That is why the soil is wet." The story of low yield echoes throughout the area. Horticultural crops are grown here round the year, except the small window for paddy this time of the year. The farmers cultivate cauliflower, beans, cucumber, ragi, and flowers through drip irrigation. They suspect that since the plant channels effluents into the rainwater percolation ponds, which are designed to facilitate percolation in the soil, the effluents seep into their wells. "In other villages, water levels are low. Here, our wells are brimming, showing seepage from their effluent ponds," says Ramesh. "The water in our wells used to taste like 'tender coconut' water," says Krishnan, the village head. "Until a year and a half, people working in the fields drank out of these wells, but farmworkers now carry their own water because well water has gone bad and stinks".

The Hindu collected two water samples: one from the exit channel, which is also the first point of the discharged water that was steadily flowing under the plinth of the newly constructed boundary wall of the plant, and the other from an adjoining farm well. The TDS values were 1,789 and 1,539 respectively (safe limit 1,000 ppm), while the pH was 7.88 and 6.81 respectively (acceptable range 5.5 to 6.5). Mr. Pushparaj's water sample from April has a TDS of 1,721 and pH of 8.09. "This is not at all conducive for agriculture. Farmers will also get skin irritation," says a former Joint Director of Horticulure in Hosur, adding that the high TDS will affect the drip lines and borewells. "They can shift to oil seeds, but eventually they will have to leave their lands because it will suck out all the nutrients."

Asked about reparations for the damage suffered by farmers, the Collector said the company was asked to conduct continuous TDS monitoring. It would also have to ensure that there was no waterlogging in times of excess rain. "If necessary, we will tell them to use HTPE [high-density polyethylene] lining in rainwater-harvesting ponds to prevent further mixing with the groundwater, as the farmers have demanded," he added.

Dipping harvest: Farmers in the area complain of low yield because of the polluted water entering their fields. B. JOTHI RAMALINGAM

22J 6. Tales TDS tells

टीडी एस जो कहा नी कहता है

Similipal's black tigers are getting help

Zeenat, a tigress translocated from Maharashtra's Tadoba-Andhari Tiger Reserve to Odisha's Similipal Tiger Reserve two years ago, has given birth to four cubs. Satyasundar Barik speaks to the people behind the high-stakes conservation effort to rescue Similipal's tigers from a genetic mutation that has fuelled the rise of pseudo-melanism, or dense, thick, merging stripes

A pseudo-melanistic tiger captured by a camera trap inside Odisha's Similipal Tiger Reserve in Mayurbhanj district. SPECIAL ARRANGEMENT

IUCN 3.1 Environment & S.A.V.E

Prakash Chand Gogineni, Field Director of the Similipal Tiger Reserve in Odisha, is still coming to terms with the thrill of a moment he witnessed on May 28. A camera trap had captured a rare sight of a tigress named Zeenat, gently carrying her four cubs one by one in her mouth. Gogineni saw the images in his modest office in Baripada, the district headquarters of Mayurbhanj, where Similipal is located. He knew immediately that he was experiencing a key moment in India's wildlife history.

Zeenat is one of the two tigers introduced into Similipal from Maharashtra's Tadoba-Andhari Tiger Reserve through translocation in 2024. "Similipal was heading towards a genetic collapse, largely due to inbreeding among big cats. While the tiger population was stagnating, the rising number of pseudo-melanistic tigers in the reserve had become a matter of concern," recalls Odisha's former Principal Chief Conservator of Forests (Wildlife) Susanta Nanda.

Pseudo-melanistic tigers (often called black tigers) are a rare variant of the Bengal tiger, distinguished by a genetic mutation that causes their black stripes to widen and merge, giving them a dramatically dark coat where slivers of golden yellow barely peek through.

It was during Nanda's tenure that the two tigresses were introduced to Similipal. He says Zeenat's translocation to Similipal was a necessity, not an experiment. "Maharashtra agreed to part with nine tigers (seven females and two males) in three phases over five years," he says.

Similipal, which derives its name from *simul* or the silk cotton tree, is a 2,750-square-kilometre UNESCO Biosphere Reserve. In 1973, the Indian government declared it a tiger reserve.

Currently, Gogineni says his priority is the safety of the tigress and her cubs. "This can be seen as India's first successful inter-State tiger translocation from a reserve with a surplus population to one with low density," says the 48-year-old Indian Forest Service (IFS) officer, who has been tracking Zeenat for 20 months.

"The tigers were brought to Similipal, where breeding females already existed, a scenario that had not occurred earlier," Gogineni points out. He believes the development could serve as a compelling case study for future efforts to revive tiger population.

> From day one, we sensed that Zeenat was both headstrong and intelligent. She would do exactly what she chose to. We simply couldn't force a response from her
>
> **SWARUP FULLONTON**
> Wildlife biologist and member of the tracking team, Similipal Tiger Reserve, Odisha

Genetic decoding

This is Odisha's second attempt at translocation – a process of bringing tigers into a new habitat. In 2018, the State brought in two tigers from Madhya Pradesh's Kanha Tiger Reserve and Bandhavgarh Tiger Reserve to its Satkosia Tiger Reserve. Central India tigers were believed to adapt to the terrain and ecosystem of Odisha faster than those of States further away. The operation went haywire. One of the tigers was poached; the second was returned to its home State due to resistance by locals.

Earlier, translocations in India were aimed at reviving tiger population within States. Spearheaded by the National Tiger Conservation Authority (NTCA), Sariska Tiger Reserve in Rajasthan saw India's first successful tiger reintroduction in 2008. In Madhya Pradesh's Panna Tiger Reserve, NTCA and the Wildlife Institute of India (WII) conducted a similar programme in 2009. In both cases, the tigers came from within the States.

After giving birth to four cubs, Zeenat carries one in her mouth, inside Odisha's largest biosphere, the Similipal Tiger Reserve in Mayurbhanj district, where she was translocated to in 2024, from Maharashtra's Tadoba-Andhari Tiger Reserve. SPECIAL ARRANGEMENT

In 2021, molecular ecologist Uma Ramakrishnan, who is also a professor at the National Centre for Biological Sciences, Bengaluru, and her co-researchers found that Similipal's tiger population remained small and isolated with minimal genetic exchange with other landscapes.

In her tiger population genetic analysis, presented in PNAS, a multidisciplinary scientific journal established in 1914, she and her team found that "Similipal has a small and isolated population." In the paper 'high frequency of an otherwise rare phenotype in a small and isolated tiger population,' the team found that approximately 37% of Similipal's tigers were pseudo-melanistic. "Small and isolated populations have low genetic variation...making them prone to extinction," the paper said. It also makes the population more vulnerable to diseases.

"These factors might also lead to greater genetic load (harmful genes) in the population. The translocation aimed to reverse all of these. For the long-term survival of a species such as the tiger, genetic diversity becomes the bedrock," Gogineni emphasises.

The 2014 All India Tiger Estimation (AITE), a four-yearly survey led by NTCA and WII, recorded a drastic decline in the tiger population in Similipal to just five individuals (one male and four females). Only one of them exhibited the pseudo-melanistic coat pattern, placing its prevalence at 20%. Subsequent AITEs in 2018 and 2022 indicated a recovery in numbers from five to eight and then 16 tigers. However, the rise was accompanied by the worrying genetic drift: pseudo-melanistic tigers increased to 37.5% in 2018 and 43.75% in 2022. The 2023 All Odisha Tiger Estimation, a State-level survey and census conducted by the Odisha Forest Department, found that nearly half of Similipal's tiger population displayed pseudo-melanism. The 2024 AITE further raised concern putting the figure at 59.37%.

Nanda says it was not easy to get tigers from other States. "With a comprehensive report detailing pseudo-melanism in tigers, a strong prey base, and an increased patrolling system in Similipal, we approached the Ministry of Environment, Forest and Climate Change. After much persuasion, the Ministry agreed and the approval of the NTCA followed in May 2024," he recalls.

From Maharashtra to Odisha

The approval paved the way for the translocation. Jamuna, 2.5 years, was released in October 2024 into a specially designed soft enclosure at a meadow in southern Similipal's Jenabil.

Two weeks later, on November 15, Zeenat, the second tigress from Tadoba-Andhari, then three years old, was released in the early hours into an enclosure at Tiger meadow in Chahala, in northern Similipal.

Learning from the setbacks in Satkosia, the Similipal authorities made extensive preparations. A team comprising two Deputy Directors (IFS officers), 15 tracking personnel, along with a veterinarian and a biologist, led by Gogineni was sent to Tadoba for specialised training. The tracking teams were trained in very high frequency (VHF) telemetry and other monitoring systems.

Jamuna made her way to the Kuldiha forest, which lies outside Similipal's core area. She has since remained there. Zeenat, however, traversed three States: Odisha, Jharkhand and West Bengal. This is now regarded as one of India's most intense pursuits of a single tiger, says Nanda.

Zeenat was kept in the soft enclosure for 10 days. Just three days after she was released into the wild, she began moving in the north-west direction. Ten days later, she was sighted in the Musabani range near Jamshedpur in Jharkhand. By then, Odisha had already deployed a special team to tranquilise her and bring her back to Similipal.

The operation to track and recapture Zeenat lasted over a month and involved nearly 200 personnel, including senior IFS officers, biologists, veterinarians, and tracking teams. The teams pursued Zeenat over nearly 300 kilometres.

"From day one we sensed that Zeenat was both headstrong and intelligent. She would do exactly what she chose to. We simply couldn't force a response from her," says Swarup Fullonton, a wildlife biologist with the Similipal Tiger Reserve and a key member of the tracking team.

"We had never experienced such a chase in our lives," Fullonton recalls.

"On a couple of occasions Zeenat was right behind us. The tracking antenna showed zero gain, meaning there was virtually no distance between her and us. At times, it registered three to six gains, indicating she was within 12 feet," he describes.

As Zeenat moved across States, the operation demanded close inter-State coordination. Biologists and veterinarians from3 all three States endured long hours inside camouflaged vehicles, often in sub-zero night temperatures. At times, they climbed onto elephants or were hoisted by earth-moving machines to gain a clear line of sight.

Finally on December 29, the tigress was tranquilised near a dam area in the Ranibandh Range of West Bengal's Bankura district. Gogineni says the West Bengal government was reluctant to hand Zeenat over to Odisha, but he and the NTCA teams persuaded the authorities and the tigress was brought to Similipal through a green corridor, with wildlife veterinarians and biologists keeping a close watch on her health while administering the sedative.

Once Zeenat reached Similipal, authorities placed her inside a soft enclosure spread over 7 hectares under 24-hour surveillance. Gogineni says, "As the days passed, the local resident male T12 visited the enclosure and we could record their interactions through a bispectral thermal camera (capturing both images and heat)."

In April 2025, Zeenat was released into the wild. "Zeenat's mating with T12 did not result in any cubs. The tigress subsequently changed her territory twice and finally mated with T45 in January this year and delivered four cubs in May," says Gogineni.

Fantastic four!

Nanda says India's tiger conservation programme is facing the challenge of habitat connectivity. "In that context, Zeenat broke the barrier of discontinuity in the habitat." Now 25% of cubs in Similipal have a diverse gene pool and it will grow stronger in three-four years if Zeenat's cubs survive, he adds.

Gogineni is optimistic too. "Currently, there are 32 tigers in Similipal. As the tiger population in Similipal reaches its carrying capacity of 75, tigers from the reserve will move towards the forests in Keonjhar, Dhenkanal, Deogarh, and further to south into Angul districts and maybe to Satkosia Tiger Reserve," he says.

Towards the north, tigers will be dispersed in all the forests of the Chota Nagpur Plateau. "This can potentially repopulate tigers in Saranda forests, Palamu Tiger Reserve, Jhargram forests and beyond into Mayurjharna Elephant Reserve. The movement of males will be quick, but females might take longer," adds Gogineni.

This inter-State tiger translocation programme has achieved its medium-term objective. Now, Odisha awaits the decision of a high-level committee on the translocation of the remaining seven of the nine tigers from Maharashtra. Of these, six (five females, one male) were to be translocated to Similipal, while the other three (two males and one female) to Debrigarh Wildlife Sanctuary.

If Jamuna comes into estrus (in heat) and Zeenat is ready to mate over the next 18 months, the tiger population could grow naturally. In that case, the proposed translocation of seven more tigers from Tadoba may be reconsidered.

- **Zeenat**, a tigress translocated from **Maharashtra's Tadoba-Andhari Tiger Reserve** to **Odisha's Similipal Tiger Reserve** two years ago, has given birth to **four cubs**.
  ज़ीनत, जिसे दो वर्ष पहले **महाराष्ट्र के ताडोबा-अंधारी टाइगर रिजर्व** से **ओडिशा के सिमिलिपाल टाइगर रिजर्व** में स्थानांतरित किया गया था, ने **चार शावकों** को जन्म दिया है।
- **Satyasundar Barik** speaks to the people behind the **high-stakes conservation effort** to rescue Similipal's tigers from a **genetic mutation** that has fuelled the rise of **pseudo-melanism**, or dense, thick, merging stripes.
  सत्यसुंदर बारिक उन लोगों से बातचीत करते हैं जो **उच्च-स्तरीय संरक्षण प्रयास** के पीछे हैं, जिसका उद्देश्य सिमिलिपाल के बाघों को उस **आनुवंशिक उत्परिवर्तन** से बचाना है जिसने **छद्म-मेलेनिज़्म (Pseudo-melanism)** अर्थात घनी, मोटी और आपस में मिलती धारियों की प्रवृत्ति को बढ़ावा दिया है।
- **Prakash Chand Gogineni**, Field Director of the **Similipal Tiger Reserve** in Odisha, is still coming to terms with the thrill of a moment he witnessed on **May 28**.
  ओडिशा के **सिमिलिपाल टाइगर रिजर्व** के फील्ड डायरेक्टर **प्रकाश चंद गोगिनेनी** अभी भी **28 मई** को देखे गए एक रोमांचक क्षण को याद कर रहे हैं।
- A **camera trap** had captured a rare sight of a tigress named **Zeenat**, gently carrying her four cubs one by one in her mouth.
  एक **कैमरा ट्रैप** ने **ज़ीनत** नामक बाघिन को अपने चार शावकों को एक-एक करके मुंह में उठाकर ले जाते हुए दुर्लभ दृश्य कैद किया।
- Gogineni saw the images in his modest office in **Baripada**, the district headquarters of **Mayurbhanj**, where Similipal is located.
  गोगिनेनी ने ये तस्वीरें **बारिपदा** स्थित अपने कार्यालय में देखीं, जो **मयूरभंज** जिले का मुख्यालय है और जहां सिमिलिपाल स्थित है।
- He knew immediately that he was experiencing a key moment in **India's wildlife history**.
  उन्हें तुरंत एहसास हो गया कि वे **भारत के वन्यजीव इतिहास** के एक महत्वपूर्ण क्षण के साक्षी बन रहे हैं।
- **Pseudo-melanistic tigers** (often called **black tigers**) are a rare variant of the **Bengal tiger**, distinguished by a genetic mutation that causes their black stripes to widen and merge.
  छद्म-मेलेनिस्टिक बाघ (जिन्हें अक्सर **काला बाघ** कहा जाता है) **बंगाल टाइगर** का एक दुर्लभ रूप हैं, जिनमें आनुवंशिक परिवर्तन के कारण काली धारियां चौड़ी होकर आपस में मिल जाती हैं।
- This gives them a dramatically dark coat where slivers of **golden yellow** barely peek through.
  इससे उनका शरीर अत्यंत गहरे रंग का दिखाई देता है, जिसमें **सुनहरे पीले रंग** की झलक बहुत कम दिखाई देती है।
- **Similipal**, which derives its name from **simul** or the **silk cotton tree**, is a **2,750-square-kilometre UNESCO Biosphere Reserve**.
  सिमिलिपाल, जिसका नाम **सिमुल** या **सेमल वृक्ष** से लिया गया है, एक **2,750 वर्ग किलोमीटर का यूनेस्को बायोस्फीयर रिजर्व** है।
- In **1973**, the Indian government declared it a **tiger reserve**.
  1973 में भारत सरकार ने इसे **टाइगर रिजर्व** घोषित किया था।
- Currently, Gogineni says his priority is the safety of the tigress and her cubs.
  वर्तमान में गोगिनेनी का कहना है कि उनकी प्राथमिकता बाघिन और उसके शावकों की सुरक्षा है।
- "This can be seen as **India's first successful inter-State tiger translocation** from a reserve with a surplus population to one with low density," says the 48-year-old **Indian Forest Service (IFS)** officer.
  "इसे **भारत का पहला सफल अंतर-राज्यीय बाघ स्थानांतरण** माना जा सकता है, जिसमें अधिक बाघों वाले रिजर्व से कम घनत्व वाले रिजर्व में बाघ भेजे गए," 48 वर्षीय **भारतीय वन सेवा (IFS)** अधिकारी कहते हैं।
- In **2018**, the State brought in two tigers from **Madhya Pradesh's Kanha Tiger Reserve** and **Bandhavgarh Tiger Reserve** to its **Satkosia Tiger Reserve**.
  2018 में राज्य ने **मध्य प्रदेश के कान्हा टाइगर रिजर्व** और **बांधवगढ़ टाइगर रिजर्व** से दो बाघों को **सतकोसिया टाइगर रिजर्व** में लाया था।

- Spearheaded by the **National Tiger Conservation Authority (NTCA)**, **Sariska Tiger Reserve** in Rajasthan saw India's first successful tiger reintroduction in **2008**.
  राष्ट्रीय बाघ संरक्षण प्राधिकरण (NTCA) के नेतृत्व में राजस्थान के **सरिस्का टाइगर रिजर्व** में **2008** में भारत का पहला सफल बाघ पुनर्प्रवेश कार्यक्रम हुआ।

From Maharashtra to Odisha
महाराष्ट्र से ओडिशा तक

- In **Madhya Pradesh's Panna Tiger Reserve**, **NTCA** and the **Wildlife Institute of India (WII)** conducted a similar programme in **2009**.
  मध्य प्रदेश के पन्ना टाइगर रिजर्व में **एनटीसीए (NTCA)** और **भारतीय वन्यजीव संस्थान (WII)** ने **2009** में इसी प्रकार का कार्यक्रम संचालित किया था।
- In the paper '**high frequency of an otherwise rare phenotype in a small and isolated tiger population**,' the team found that approximately **37%** of Similipal's tigers were **pseudo-melanistic**.
  '**एक छोटी और पृथक बाघ आबादी में अन्यथा दुर्लभ फीनोटाइप की उच्च आवृत्ति**' नामक शोधपत्र में टीम ने पाया कि सिमिलिपाल के लगभग **37%** बाघ **छद्म-मेलेनिस्टिक** थे।
- "**Small and isolated populations** have low genetic variation...making them prone to **extinction**," the paper said.
  शोधपत्र में कहा गया कि "**छोटी और पृथक आबादियों** में आनुवंशिक विविधता कम होती है, जिससे वे **विलुप्ति** के प्रति अधिक संवेदनशील हो जाती हैं।"
- The **2014 All India Tiger Estimation (AITE)**, a four-yearly survey led by **NTCA** and **WII**, recorded a drastic decline in the tiger population in Similipal to just **five individuals** (one male and four females).
  2014 ऑल इंडिया टाइगर एस्टीमेशन (AITE), जो **NTCA** और **WII** द्वारा संचालित चार वर्षीय सर्वेक्षण है, ने सिमिलिपाल में बाघों की संख्या घटकर केवल **पांच** (एक नर और चार मादा) रह जाने का उल्लेख किया।
- Only one of them exhibited the **pseudo-melanistic** coat pattern, placing its prevalence at **20%**.
  इनमें से केवल एक बाघ में **छद्म-मेलेनिस्टिक** कोट पैटर्न पाया गया, जिससे इसकी हिस्सेदारी **20%** रही।
- **Pseudo-melanistic tigers** increased to **37.5%** in 2018 and **43.75%** in 2022.
  छद्म-मेलेनिस्टिक बाघों की संख्या 2018 में **37.5%** और 2022 में **43.75%** हो गई।
- **Zeenat**, however, traversed three States: **Odisha, Jharkhand and West Bengal**.
  हालाँकि **ज़ीनत** ने **ओडिशा, झारखंड और पश्चिम बंगाल** तीन राज्यों की यात्रा की।
- Of these, **six** were to be translocated to **Similipal**, while **three** were planned for **Debrigarh Wildlife Sanctuary**.
  इनमें से **छह** को **सिमिलिपाल** और **तीन** को **देब्रीगढ़ वन्यजीव अभयारण्य** में स्थानांतरित किया जाना प्रस्तावित है।

'Maritime sector a major engine of economic growth'

GS III: Internal Security: Defence

Shiv Sahay Singh
KOLKATA

Prime Minister Narendra Modi on Sunday said no nation could emerge as a major power without strong maritime capabilities.

He was speaking at an event here after commissioning three indigenously-built naval ships – *INS Dunagiri*, an advanced stealth frigate; *INS Sanshodhak*, a survey vessel (large); and the *INS Agray*, an anti-submarine warfare shallow watercraft.

Describing the event as a milestone in the journey towards "an *Aatmanirbhar Bharat*, a secure India, and a developed India", Mr. Modi said the government viewed the maritime sector not as an isolated industry but as a major engine of employment and economic growth. "The country whose maritime strength is robust, its economic and strategic influence will be equally robust. India is preparing itself for this," he said, asserting that India did not wish to be merely a buyer in the defence sector.

"The strength of the nation's military cannot be measured by its dependence on global markets but by its ability to become self-reliant. India seeks to become a producer and a manufacturer, because nations that manufacture become decisive players on the global stage," he said.

Highlighting recent achievements in indigenous shipbuilding capabilities of the country, the Prime Minister noted that more than 40 indigenously built warships and submarines have been inducted into the Indian Navy over the pa

'समुद्री क्षेत्र आर्थिक विकास का एक प्रमुख प्रेरक इंजन है'

- He was speaking at an event here after commissioning three **indigenously-built naval ships — INS Dunagiri**, an advanced stealth frigate; **INS Sanshodhak**, a survey vessel (large); and **INS Agray**, an anti-submarine warfare shallow watercraft.

वह यहाँ एक कार्यक्रम में **स्वदेशी रूप से निर्मित तीन नौसैनिक पोतों — आईएनएस दुनागिरी**, एक उन्नत स्टेल्थ फ्रिगेट; **आईएनएस संशोधक**, एक बड़ा सर्वेक्षण पोत; तथा **आईएनएस अग्रय**, एक पनडुब्बी-रोधी उथले जल युद्धपोत — के कमीशनिंग के बाद संबोधित कर रहे थे।

- **Defence Minister Rajnath Singh** said that the tri-commissioning of **INS Dunagiri, INS Agray, and INS Sanshodhak** was going to be a **"defining moment"** in **India's maritime capability development**.

रक्षा मंत्री राजनाथ सिंह ने कहा कि **आईएनएस दुनागिरी, आईएनएस अग्रय और आईएनएस संशोधक** की एक साथ कमीशनिंग **भारत की समुद्री क्षमता के विकास** में एक **"निर्णायक क्षण"** सिद्ध होने जा रही है।

Police begin collecting DNA records under 2022 law; over one lakh profiles generated

GS III: Internal Security

Vijaita Singh
NEW DELHI

The police in several States have started collecting DNA records, primarily from blood samples, of suspects arrested for heinous crimes. Along with DNA profiles, photographs, fingerprints, and iris scans, the government is creating a unique identification record of arrested persons and convicts that can be retained for up to 75 years.

Over the past five months, the DNA records of more than one lakh suspects have been stored in a central database operated by the National Crime Records Bureau (NCRB) under the Union Home Ministry.

The samples are being collected under the Criminal Procedure (Identification) Act (CrPI), a law passed in Parliament in 2022. More than 2,600 measurement collection units have been established across the country, and the CrPI system is now available in police districts and prisons. It is also accessible to Central agencies such as the Central Bureau of Investigation, the National Investigation Agency, and the Narcotics Control Bureau.

The biological samples can be matched with records to identify habitual offenders.

The contours of the CrPI system were showcased on June 19 at an NCRB event presided over by Home Minister Amit Shah.

"The samples are at present being collected by police in cases punishable by seven years. The DNA, mostly drawn from blood and in some cases saliva too, is then sent to a forensic laboratory, which generates a unique number. The NCRB preserves the code in its records. The sanctity of the samples depends on the police," an NCRB official said.

NAFIS

"CrPI Act, 2022 allows police and prison officers to take physical and biological samples of arrested and convicted individuals. To make these provisions effective, there was a need for a national platform that could integrate and make identification-related data useful across the country. In this direction, the NCRB launched the National Automated Fingerprint Identification System (NAFIS) in the year 2022, which fully automated the fingerprint matching process. Today, with more than 1.27 crore fingerprint records, NAFIS has played a significant role in solving many old inter-State criminal cases," a presentation on the CrPI system said.

"Through CrPI, now all information related to identification, including face, iris, and biological samples is available in a national-level searchable database, making accurate and scientific identification possible within moments. Now, a photo obtained from a crime scene can be instantly matched with records across the country. CrPI functions as a unified system across the country, where every identification-based measurement is securely stored in a standardised system. As per standards, while taking photos, clarity of the eyes is ensured so that identification is not hindered despite any disguise or changes. CrPI ensures enrolment of face and iris measurements of arrested and convicted persons, and in special cases, registration of biological samples as well. There is a provision to retain all these measurements securely for 75 years," it said.

According to the NCRB presentation, biological samples recovered from crime scenes can be directly matched with existing records, enabling the identification of habitual offenders through scientific methods.

Video analytics feature

The NCRB said the CrPI system also has an advanced video analytics feature through which investigating officers can upload CCTV footage to identify faces of suspicious persons and match them with the national database. "What earlier took hours of manual investigation is now possible in just a few minutes. This feature also simplifies and speeds up identification of interstate criminals, as their records can be matched instantly across the country," it said.

22J6. Police begin collecting DNA records under 2022 law; over one lakh profiles generated

2022 के कानून के तहत पुलिस ने डीएनए अभिलेख एकत्र करना शुरू

किया; एक लाख से अधिक प्रोफाइल तैयार किए गए

- The police in several States have started collecting **DNA records**, primarily from **blood samples**, of suspects arrested for **heinous crimes**.
  कई राज्यों की पुलिस ने **जघन्य अपराधों** में गिरफ्तार संदिग्धों के **डीएनए अभिलेख** एकत्रित करना शुरू कर दिया है, जो मुख्यतः **रक्त नमूनों** से प्राप्त किए जा रहे हैं।
- Along with **DNA profiles**, photographs, fingerprints, and iris scans, the government is creating a unique **identification record** of arrested persons and convicts that can be retained for up to **75 years**.
  डीएनए प्रोफाइल, फोटोग्राफ, फिंगरप्रिंट और आइरिस स्कैन के साथ सरकार गिरफ्तार व्यक्तियों और दोषसिद्ध अपराधियों का एक विशिष्ट **पहचान अभिलेख** तैयार कर रही है, जिसे **75 वर्षों** तक सुरक्षित रखा जा सकता है।
- Over the past five months, the DNA records of more than **one lakh suspects** have been stored in a central database operated by the **National Crime Records Bureau (NCRB)** under the Union Home Ministry.
  पिछले पाँच महीनों में **एक लाख से अधिक संदिग्धों** के डीएनए अभिलेखों को केंद्रीय गृह मंत्रालय के अधीन **राष्ट्रीय अपराध अभिलेख ब्यूरो (NCRB)** द्वारा संचालित केंद्रीय डेटाबेस में संग्रहीत किया गया है।
- The samples are being collected under the **Criminal Procedure (Identification) Act (CrPI)**, a law passed in Parliament in **2022**.
  ये नमूने **आपराधिक प्रक्रिया (पहचान) अधिनियम (CrPI)** के अंतर्गत एकत्र किए जा रहे हैं, जो **2022** में संसद द्वारा पारित किया गया था।
- More than **2,600 measurement collection units** have been established across the country, and the CrPI system is now available in police districts and prisons.
  देशभर में **2,600 से अधिक मापन संग्रह इकाइयाँ** स्थापित की गई हैं और अब CrPI प्रणाली पुलिस जिलों तथा कारागारों में उपलब्ध है।
- It is also accessible to Central agencies such as the **Central Bureau of Investigation (CBI)**, the **National Investigation Agency (NIA)**, and the **Narcotics Control Bureau (NCB)**.
  यह प्रणाली **केंद्रीय अन्वेषण ब्यूरो (CBI)**, **राष्ट्रीय अन्वेषण अभिकरण (NIA)** तथा **स्वापक नियंत्रण ब्यूरो (NCB)** जैसी केंद्रीय एजेंसियों के लिए भी उपलब्ध है।
- The contours of the **CrPI system** were showcased on June 19 at an NCRB event presided over by **Home Minister Amit Shah**.
  गृह मंत्री अमित शाह की अध्यक्षता में 19 जून को आयोजित NCRB कार्यक्रम में **CrPI प्रणाली** की रूपरेखा प्रस्तुत की गई।
- "The samples are at present being collected by police in cases punishable by **seven years**.
  "वर्तमान में पुलिस ऐसे मामलों में नमूने एकत्र कर रही है जिनमें **सात वर्ष** तक की सजा का प्रावधान है।
- The DNA, mostly drawn from blood and in some cases saliva too, is then sent to a **forensic laboratory**, which generates a unique number.
  डीएनए, जो प्रायः रक्त तथा कुछ मामलों में लार से प्राप्त किया जाता है, को **फॉरेंसिक प्रयोगशाला** भेजा जाता है, जहाँ एक विशिष्ट संख्या उत्पन्न की जाती है।
- The NCRB preserves the code in its records.
  NCRB इस कोड को अपने अभिलेखों में सुरक्षित रखता है।
- The sanctity of the samples depends on the police," an NCRB official said.
  नमूनों की विश्वसनीयता पुलिस की कार्यप्रणाली पर निर्भर करती है," एक NCRB अधिकारी ने कहा।

NAFIS

एनएएफआईएस (NAFIS)

- "CrPI Act, 2022 allows police and prison officers to take **physical and biological samples** of arrested and convicted individuals.

"CrPI अधिनियम, 2022 पुलिस और कारागार अधिकारियों को गिरफ्तार तथा दोषसिद्ध व्यक्तियों के **भौतिक एवं जैविक नमूने** लेने की अनुमति देता है।

- To make these provisions effective, there was a need for a national platform that could integrate and make identification-related data useful across the country.
  इन प्रावधानों को प्रभावी बनाने के लिए ऐसे राष्ट्रीय मंच की आवश्यकता थी जो पहचान संबंधी आंकड़ों को एकीकृत कर पूरे देश में उपयोगी बना सके।
- In this direction, the NCRB launched the **National Automated Fingerprint Identification System (NAFIS)** in the year 2022, which fully automated the fingerprint matching process.
  इसी दिशा में NCRB ने वर्ष 2022 में **राष्ट्रीय स्वचालित अंगुलीछाप पहचान प्रणाली (NAFIS)** प्रारंभ की, जिसने फिंगरप्रिंट मिलान प्रक्रिया को पूर्णतः स्वचालित बना दिया।
- Today, with more than **1.27 crore fingerprint records**, NAFIS has played a significant role in solving many old interstate criminal cases," a presentation on the CrPI system said.
  CrPI प्रणाली की प्रस्तुति के अनुसार, आज **1.27 करोड़ से अधिक फिंगरप्रिंट अभिलेखों** के साथ NAFIS ने अनेक पुराने अंतर्राज्यीय आपराधिक मामलों के समाधान में महत्वपूर्ण भूमिका निभाई है।
- "Through CrPI, now all information related to identification, including **face, iris, and biological samples** is available in a national-level searchable database, making accurate and scientific identification possible within moments.
  "CrPI के माध्यम से अब पहचान से संबंधित समस्त जानकारी, जिसमें **चेहरा, आइरिस तथा जैविक नमूने** शामिल हैं, राष्ट्रीय स्तर के खोजयोग्य डेटाबेस में उपलब्ध है, जिससे कुछ ही क्षणों में सटीक एवं वैज्ञानिक पहचान संभव हो गई है।
- Now, a photo obtained from a crime scene can be instantly matched with records across the country.
  अब अपराध स्थल से प्राप्त किसी फोटो का पूरे देश के अभिलेखों से तत्काल मिलान किया जा सकता है।
- CrPI functions as a **unified system** across the country, where every identification-based measurement is securely stored in a standardized system.
  CrPI पूरे देश में एक **एकीकृत प्रणाली** के रूप में कार्य करता है, जहाँ पहचान आधारित प्रत्येक मापन को मानकीकृत प्रणाली में सुरक्षित रखा जाता है।
- As per standards, while taking photos, clarity of the eyes is ensured so that identification is not hindered despite any disguise or changes.
  मानकों के अनुसार, फोटो लेते समय आँखों की स्पष्टता सुनिश्चित की जाती है ताकि किसी भेष परिवर्तन या अन्य बदलाव के बावजूद पहचान में बाधा न आए।
- CrPI ensures enrolment of **face and iris measurements** of arrested and convicted persons, and in special cases, registration of **biological samples** as well.
  CrPI गिरफ्तार एवं दोषसिद्ध व्यक्तियों के **चेहरे और आइरिस मापनों** के पंजीकरण तथा विशेष मामलों में **जैविक नमूनों** के पंजीकरण को सुनिश्चित करता है।
- There is a provision to retain all these measurements securely for **75 years**," it said.
  इसमें इन सभी मापनों को **75 वर्षों** तक सुरक्षित रखने का प्रावधान है," प्रस्तुति में कहा गया।
- According to the NCRB presentation, biological samples recovered from crime scenes can be directly matched with existing records, enabling the identification of **habitual offenders** through scientific methods.
  NCRB की प्रस्तुति के अनुसार, अपराध स्थलों से प्राप्त जैविक नमूनों का सीधे मौजूदा अभिलेखों से मिलान किया जा सकता है, जिससे **आदतन अपराधियों** की वैज्ञानिक तरीकों से पहचान संभव हो जाती है।

Video analytics feature
वीडियो विश्लेषण सुविधा

- The NCRB said the CrPI system also has an advanced **video analytics feature** through which investigating officers can upload **CCTV footage** to identify faces of suspicious persons and match them with the national database.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

NCRB ने कहा कि CrPI प्रणाली में उन्नत **वीडियो विश्लेषण सुविधा** भी उपलब्ध है, जिसके माध्यम से जांच अधिकारी **सीसीटीवी फुटेज** अपलोड कर संदिग्ध व्यक्तियों के चेहरों की पहचान कर उन्हें राष्ट्रीय डेटाबेस से मिला सकते हैं।

- "What earlier took hours of manual investigation is now possible in just a few minutes.
"जिस कार्य में पहले घंटों की मैनुअल जांच लगती थी, वह अब कुछ ही मिनटों में संभव हो गया है।
- This feature also simplifies and speeds up identification of **interstate criminals**, as their records can be matched instantly across the country," it said.
यह सुविधा **अंतर्राज्यीय अपराधियों** की पहचान को भी सरल और तेज बनाती है, क्योंकि उनके अभिलेखों का पूरे देश में तत्काल मिलान किया जा सकता है," प्रस्तुति में कहा गया।

GS III: Internal Security

CISF to be deployed at five more prisons in J&K

The Union Home Ministry is set to deploy the Central Industrial Security Force (CISF) at five more prisons in Jammu & Kashmir, including a high-security prison in Kathua, a CISF spokesperson said on Sunday. The high-security jail, which will house inmates involved in serious offences, including terrorism, is yet to be operationalised, the official added. The CISF was earlier given the charge of providing armed security to the Central jails in Srinagar and Jammu (Kot Bhalwal) in October 2023. The force is responsible for securing both the inner and outer perimeters of these sensitive facilities through a combination of trained manpower, modern surveillance systems, and strict access control measures, the CISF spokesperson said.

22J6. CISF to be deployed at five more prisons in J&K जम्मू-कश्मीर की पाँच और जेलों में सीआईएसएफ की तैनाती की जाएगी

- The **Union Home Ministry** is set to deploy the **Central Industrial Security Force (CISF)** at **five more prisons** in **Jammu & Kashmir**, including a **high-security prison in Kathua**, a CISF spokesperson said on Sunday.

केंद्रीय गृह मंत्रालय जम्मू-कश्मीर की **पाँच और जेलों** में **केंद्रीय औद्योगिक सुरक्षा बल (CISF)** की तैनाती करने जा रहा है, जिनमें **कठुआ की एक उच्च-सुरक्षा जेल** भी शामिल है। यह जानकारी रविवार को CISF के एक प्रवक्ता ने दी।

- The **high-security jail**, which will house inmates involved in serious offences, including **terrorism**, is yet to be operationalised, the official added.

अधिकारी ने बताया कि यह **उच्च-सुरक्षा जेल**, जिसमें **आतंकवाद** सहित गंभीर अपराधों में संलिप्त कैदियों को रखा जाएगा, अभी तक संचालन में नहीं लाई गई है।

- The CISF was earlier given the charge of providing **armed security** to the **Central Jails in Srinagar and Jammu (Kot Bhalwal)** in **October 2023**.

इससे पहले **अक्टूबर 2023** में CISF को **श्रीनगर और जम्मू (कोट भलवाल) की केंद्रीय जेलों** को **सशस्त्र सुरक्षा** प्रदान करने की जिम्मेदारी सौंपी गई थी।

Officer at the helm

Lt. Gen. Dhiraj Seth

The new Army Chief assumes command at a juncture marked by rapid technological advances, evolving security challenges, and a growing emphasis on joint operations

PCS

Saurabh Trivedi

ILLUSTRATION: SREEJITH R. KUMAR

Lt. Gen. Dhiraj Seth, presently serving as the Vice Chief of the Army Staff, will assume office as the 31st Chief of the Army Staff on June 30, succeeding Gen. Upendra Dwivedi upon his retirement.

Lt. Gen. Seth will be the seventh officer from the Armoured Corps to assume the post. Of the previous six Armoured Corps officers who became Army chief, two took over after the position unexpectedly fell vacant. While the Infantry has produced most of India's Army chiefs, five have come from the Corps of Artillery and one from the Corps of Engineers.

Lt. Gen. Seth is set to remain in office until August 31, 2028. The last Armoured Corps officer to head the Indian Army was Gen. S. Roy Chowdhury, who served as Army chief from 1994 to 1997.

A highly accomplished Armoured Corps officer with nearly four decades of distinguished service, Lt. Gen. Seth brings to the position extensive operational experience, strategic vision and a strong record in military modernisation.

An alumnus of the prestigious National Defence Academy, Khadakwasla, and the Indian Military Academy, Dehradun, Lt. Gen. Seth was commissioned into the Armoured Corps in December 1986.

Throughout his career, he has served across diverse operational environments, from desert warfare formations to counter-insurgency operations in Jammu and Kashmir.

He commanded an Armoured Regiment in the desert sector, an Armoured Brigade in the Western Theatre and a Counter-Insurgency Force in Jammu & Kashmir.

Following his promotion to Lieutenant General, he led the prestigious Sudarshan Chakra Corps, one of the Indian Army's premier strike formations, before serving as General Officer Commanding, Delhi Area. He later commanded both South Western Command and Southern Command.

Lt. Gen. Seth has also held several key staff and strategic appointments. These include Brigade Major of an Independent Armoured Brigade in Jammu & Kashmir, Operations Officer with the UN Mission in Angola and Assistant Military Secretary at Army Headquarters.

Widely regarded as one of the architects of the Indian Army's modernisation efforts, Lt. Gen. Seth has played a pivotal role in strategic planning, force structuring and capability development.

Tri-service exercises

He also oversaw major operational preparedness and training activities, including large-scale joint and tri-service exercises focused on emerging domains such as cyber, information warfare, multi-domain operations and amphibious capabilities. Among these, Exercise Trishul reflected the growing emphasis on integrated operations and joint warfighting concepts. His tenure witnessed continued emphasis on Humanitarian Assistance and Disaster Relief (HADR), reflecting the Indian Army's commitment to national resilience and support for civil authorities.

He has served as Colonel Capability Development for Mechanised Forces, Brigadier Perspective Plans and Acquisition, and Additional Director General Capability Development. In these capacities, he contributed to the Army's Long-Term Integrated Perspective Planning process and future capability enhancement roadmap.

As General Officer Commanding-in-Chief, Southern Command, he championed technology adoption, innovation and civil-military collaboration. A scholar-soldier, Lt. Gen. Seth is a graduate of the Higher Command Course and the National Defence College, and has attended advanced military courses in France and the U.S.

He comes from a military family. He is the son of Lt. Ge. Krishna Mohan Seth, former Adjutant General of the Indian Army and former Governor of Tripura and Chhattisgarh. The family shares a unique legacy, with both father and son having commanded the Sudarshan Chakra Corps. His younger brother, Rear Admiral Ravnish Seth, is a serving Flag Officer in the Indian Navy.

Lt. Gen. Dhiraj Seth assumes command at a crucial juncture marked by rapid technological advancements, evolving security challenges and an increasing emphasis on joint military operations. The task before him is to lead the Indian Army through its next phase of transformation and preparedness.

A cardiologist posted at GMC Anantnag was suspended; he allegedly falsified medical records

The Jammu and Kashmir government on Saturday suspended a doctor and ordered an inquiry into allegations of misrepresentation of 103 cardiac procedures under the PMJAY-SEHAT scheme at Government Medical College (GMC), Anantnag, in south Kashmir.

"An inquiry was initiated after a complaint was received. A few things came to the fore during the investigation, and the doctor was suspended. The doctor will be given a chance to present his case. We will conclude the inquiry and will not allow any doctor to play with the lives of patients," said J&K Health Minister Sakina Itoo.

The doctor has been identified as Syed Maqbool Ahmad Shah, Associate Professor of Cardiology. "During the period of his suspension, he shall remain attached to the office of Government Medical College, Jammu," the order said. According to the preliminary investigation, the doctor allegedly falsified medical records. "...the State Health Agency (SHA) referred the data to the Head of Department (HoD) of Cardiology at SKIMS, Soura, for an expert review," said the preliminary investigation report.

The probe further alleged "flagrant procedural misrepresentation".

Meanwhile, GMC Anantnag administrator Mukbil Lateef said, "No individual can be declared guilty until the inquiry is completed and responsibility is established."

A platform for the globalised elite

Group of Seven

The grouping of industrialised nations, founded in the 1970s, has weathered major geopolitical storms across the 20th and 21st centuries to remain a key forum for discussions and decision-making on global conflicts and economic challenges

GS II, III

Kallol Bhattacherjee

AP

The 1960s were a period of restlessness. The anti-Vietnam war protests and civil rights agitation made the Lyndon Johnson administration uneasy. It was in this backdrop that Johnson came to Michigan on May 22, 1964 to deliver his 'Great Society' speech. Johnson quoted Greek philosopher Aristotle to talk about how to create prosperity. "The Great Society" he said, "rests on abundance and liberty for all. It demands an end to poverty and racial injustice, to which we are totally committed in our time. But that is just the beginning."

The previous decade had seen the arrival of the Non-Aligned Movement (NAM) that mobilised the decolonised societies. With the upswing in domestic disturbances in the U.S. it was obvious that the U.S. that had provided loans and economic assistance after the Second World War would no longer be able to provide leadership to the global north on its own and that it would require support from the partner countries in the West. As the decolonisation gathered speed, there was a greater need for the Global North to team up. Thus was born the idea of reviving the Global Economic Governance in favour of the industrialised economies out of which would emerge the Group of Seven (G7) in the following decade.

The Global Economic Governance (GEG) had been fashionable since the beginning of the Bretton Woods system but after nearly a decade of unrest in western societies, a definite push came in 1973 when the Yom Kippur war and hostilities between the Arabs and Israel triggered the first oil shock. The oil shock highlighted that the emerging order would challenge the domination of the western world.

In this backdrop, the first World Economic Summit was organised by French President Giscard d'Estaing and West Germany's Chancellor Helmut Schmidt in 1975 who invited the leaders of the U.K., Italy, Japan and the U.S. for a meeting at the Chateau de Rambouillet in France. It began as the Group of Six and in 1976, Canada joined the grouping, making it the G7. The economic and financial crises of that time provided the G7 the agenda for the foreseeable future as it came to be known as a platform of industrialised countries for dealing with financial challenges.

Beyond economy

The 1970s were the decade of the New International Economic Order (NIEO) under which the Global south under the leadership of the Group of 77 and NAM demanded the establishment of a new economic order. Under this system, developing nations pushed for a transformation of global financial institutions such as the World Bank and the International Monetary Fund to deal with the requirements of the newly decolonised economies of Asia, Africa and Latin America. These demands, however, had to be adjusted against the overall power dynamics between the two superpowers, the U.S. and the Soviet Union.

The G7 started playing a bigger role beyond pure economic issues during the 1980s when it provided a platform to industrialised countries to coordinate response to major conflicts that threatened to interrupt global supply chains. First was the Soviet invasion of Afghanistan, which was followed almost simultaneously by the hostilities between the U.K. and Argentina over the Falkland islands and the Iran-Iraq war. It also played an active role in dealing with various sides for the Lebanese civil war. In 1982 when Israel invaded Lebanon, the G7 expressed shock on Israel's actions. On the Falklands dispute, however, it supported the U.K. and warned about controlling the conflicts in the West Asian region as they could spill into larger disruption of energy and navigation.

Through coordination among the major economies, G7 for the first time in 1990 showed that it had acquired the ability to put economic pressure to a country that refused to abide by the norms of the international order. As Saddam Hussein prepared to invade Kuwait in August 1990, the G7 convened a meeting in Houston and ensured that Hussein would not profit from forcibly acquiring the energy wealth of Kuwait. By handling a range of conflicts in the 1980s, G7 evolved from the strictly an economic platform to a strategic international mechanism that could play a greater role in maintaining the status quo and avoid shocks and disruptions to the system.

The end of the Cold War provided the G7 with the major opportunity to reinvent itself and this it did by opening its doors to Russia. Already during the Iraqi crisis of 1990-91, G7 had succeeded in getting the USSR on board. The new equation with the USSR was made evident with the arrival of Mikhail Gorbachev to the G7 London summit on July 14-16, 1991.

Following the dissolution of the USSR, the G7 invited Russian President Boris Yeltsin on multiple occasions, indicating a deeper integration of post-Soviet Russia into the international financial architecture. During this period, the G7 also helped Russia deal with the demands for transition by supporting it with an economic package. In 1998, Russia formally joined the grouping, transforming it into G8.

France summit

The G7's most visible role in recent years has been in opposing Russia's military campaign in Ukraine. Following Russia's annexation of Crimea in 2014, G8 expelled Russia reverting the grouping to its earlier avatar of G7. That apart, the grouping has emerged as a forum for important discussions in dealing with issues that are global in nature and require a collective action. Among the issues that the G7 has prioritised are climate change, pandemic preparedness, energy security, critical minerals and preservation of supply chains. In order to address these vital issues, the G7 has welcomed participation by other important countries such as India, Egypt, South Africa, Brazil, South Korea, Ukraine and the UAE to its summit meetings and consultations.

In 52nd G7 summit, held in France on June 15-17, Prime Minister Narendra Modi had participated. Among the topics discussed at the summit were the Ukraine war, the U.S.-Iran deal, global economic imbalances, Artificial Intelligence and debt burdens in the developing countries.

As the world deals with major supply chain disruptions and uncertainties following the eruption of the U.S.-Israel war against Iran and the closure of the Strait of Hormuz, the G7, with its permanent guest European Union, has provided an additional mechanism to discuss difficult issues, often providing its high power table to dissect policies that are relevant to the world order.

This informal meeting allows the global leaders a much required interaction that is not possible within the confines of the UN. While the world has gone through the Cold War and post-Cold War phases, the G7 remains a continuity as it maintains the globalised economic structure without allowing cracks to spread.

THE GIST

- In the backdrop of the oil shock, French President Giscard d'Estaing and West Germany's Chancellor Helmut Schmidt in 1975 organised a summit with leaders from the U.K., Italy, Japan and the U.S. in France to discuss economic challenges
- It began as the Group of Six and in 1976, Canada joined the grouping, making it the G7
- The economic and financial crises of that time provided the G7 the agenda for the foreseeable future as it came to be known as a platform of industrialised countries for dealing with financial challenges

21J6. A platform for the globalised elite
वैश्वीकृत अभिजात वर्ग के लिए एक मंच

- The grouping of **industrialised nations**, founded in the **1970s**, has weathered major **geopolitical storms** across the 20th and 21st centuries to remain a key forum for discussions and decision-making on global conflicts and economic challenges.
  1970 के दशक में स्थापित **औद्योगिक देशों** का यह समूह 20वीं और 21वीं सदी के बड़े **भू-राजनीतिक संकटों** का सामना करते हुए वैश्विक संघर्षों और आर्थिक चुनौतियों पर चर्चा तथा निर्णय लेने के एक महत्वपूर्ण मंच के रूप में बना हुआ है।
- The **1960s** were a period of restlessness.
  1960 का दशक अशांति का दौर था।
- The anti-**Vietnam war protests** and **civil rights agitation** made the **Lyndon Johnson administration** uneasy.
  वियतनाम युद्ध विरोधी प्रदर्शनों और **नागरिक अधिकार आंदोलनों** ने **लिंडन जॉनसन प्रशासन** को असहज कर दिया था।
- It was in this backdrop that Johnson came to **Michigan** on **May 22, 1964** to deliver his **'Great Society' speech**.
  इसी पृष्ठभूमि में जॉनसन **22 मई 1964** को **मिशिगन** आए और अपना **'ग्रेट सोसाइटी' भाषण** दिया।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- Johnson quoted Greek philosopher **Aristotle** to talk about how to create prosperity.
  जॉनसन ने समृद्धि पैदा करने के बारे में बात करते हुए यूनानी दार्शनिक **अरस्तू** का उल्लेख किया।
- "The **Great Society**," he said, "rests on abundance and liberty for all."
  उन्होंने कहा, "**ग्रेट सोसाइटी** सभी के लिए समृद्धि और स्वतंत्रता पर आधारित है।"
- "It demands an end to poverty and racial injustice, to which we are totally committed in our time."
  "यह गरीबी और नस्लीय अन्याय के अंत की मांग करती है, जिसके प्रति हम पूरी तरह प्रतिबद्ध हैं।"
- "But that is just the beginning."
  "लेकिन यह तो केवल शुरुआत है।"
- The previous decade had seen the arrival of the **Non-Aligned Movement (NAM)** that mobilised the decolonised societies.
  पिछले दशक में **गुटनिरपेक्ष आंदोलन (NAM)** का उदय हुआ था, जिसने उपनिवेशवाद से मुक्त हुए समाजों को संगठित किया।
- With the upswing in domestic disturbances in the **U.S.**, it was obvious that the U.S. that had provided loans and economic assistance after the **Second World War** would no longer be able to provide leadership to the **Global North** on its own.
  अमेरिका में घरेलू अशांति बढ़ने के साथ यह स्पष्ट हो गया कि **द्वितीय विश्व युद्ध** के बाद ऋण और आर्थिक सहायता देने वाला अमेरिका अकेले **वैश्विक उत्तर (Global North)** का नेतृत्व नहीं कर सकेगा।
- It would require support from the partner countries in the West.
  उसे पश्चिमी साझेदार देशों के समर्थन की आवश्यकता होगी।
- As decolonisation gathered speed, there was a greater need for the Global North to team up.
  जैसे-जैसे उपनिवेशवाद का अंत तेज हुआ, **वैश्विक उत्तर** के देशों के एकजुट होने की आवश्यकता बढ़ गई।
- Thus was born the idea of reviving the **Global Economic Governance** in favour of the industrialised economies.
  इसी प्रकार औद्योगिक अर्थव्यवस्थाओं के पक्ष में **वैश्विक आर्थिक शासन (Global Economic Governance)** को पुनर्जीवित करने का विचार जन्मा।
- Out of this would emerge the **Group of Seven (G7)** in the following decade.
  इसी से अगले दशक में **ग्रुप ऑफ सेवन (G7)** का उदय हुआ।
- The **Global Economic Governance (GEG)** had been fashionable since the beginning of the **Bretton Woods system**.
  ब्रेटन वुड्स प्रणाली की शुरुआत से ही **वैश्विक आर्थिक शासन (GEG)** एक प्रमुख अवधारणा रहा था।
- After nearly a decade of unrest in western societies, a definite push came in **1973** when the **Yom Kippur War** and hostilities between the Arabs and Israel triggered the first **oil shock**.
  पश्चिमी समाजों में लगभग एक दशक की अशांति के बाद **1973** में **योम किप्पुर युद्ध** और अरब-इज़राइल संघर्ष के कारण पहला **तेल संकट** उत्पन्न हुआ।
- The oil shock highlighted that the emerging order would challenge the domination of the western world.
  तेल संकट ने यह स्पष्ट कर दिया कि उभरती हुई व्यवस्था पश्चिमी दुनिया के प्रभुत्व को चुनौती देगी।
- In this backdrop, the first **World Economic Summit** was organised by French President **Giscard d'Estaing** and West Germany's Chancellor **Helmut Schmidt** in **1975**.
  इसी पृष्ठभूमि में **1975** में फ्रांस के राष्ट्रपति **गिस्कार्ड द'एस्तेंग** और पश्चिम जर्मनी के चांसलर **हेल्मुट श्मिट** ने पहला **विश्व आर्थिक शिखर सम्मेलन** आयोजित किया।
- They invited the leaders of the **U.K., Italy, Japan and the U.S.** for a meeting at the **Chateau de Rambouillet** in France.
  उन्होंने **ब्रिटेन, इटली, जापान और अमेरिका** के नेताओं को फ्रांस के **शातो द राम्बुइये** में बैठक के लिए आमंत्रित किया।
- It began as the **Group of Six**.
  इसकी शुरुआत **ग्रुप ऑफ सिक्स** के रूप में हुई।

- In **1976**, **Canada** joined the grouping, making it the **G7**.
  1976 में **कनाडा** इसके साथ जुड़ा और यह **G7** बन गया।
- The economic and financial crises of that time provided the G7 the agenda for the foreseeable future.
  उस समय के आर्थिक और वित्तीय संकटों ने G7 को आने वाले वर्षों का एजेंडा प्रदान किया।
- It came to be known as a platform of industrialised countries for dealing with financial challenges.
  यह वित्तीय चुनौतियों से निपटने के लिए औद्योगिक देशों के मंच के रूप में जाना जाने लगा।

Beyond economy
अर्थव्यवस्था से परे

- The **1970s** were the decade of the **New International Economic Order (NIEO)**.
  1970 का दशक न्यू इंटरनेशनल इकोनॉमिक ऑर्डर (NIEO) का दशक था।
- Under this, the **Global South**, led by the **Group of 77** and **NAM**, demanded the establishment of a new economic order.
  इसके तहत **ग्रुप ऑफ 77** और **NAM** के नेतृत्व में **वैश्विक दक्षिण** ने नई आर्थिक व्यवस्था की मांग की।
- Developing nations pushed for transforming institutions such as the **World Bank** and the **International Monetary Fund (IMF)**.
  विकासशील देशों ने **विश्व बैंक** और **अंतरराष्ट्रीय मुद्रा कोष (IMF)** जैसे संस्थानों में परिवर्तन की मांग की।
- These demands had to be adjusted against the overall power dynamics between the **U.S.** and the **Soviet Union**.
  इन मांगों को **अमेरिका** और **सोवियत संघ** के बीच शक्ति संतुलन के अनुसार समायोजित करना पड़ा।
- The G7 started playing a bigger role beyond pure economic issues during the **1980s**.
  1980 के दशक में G7 ने आर्थिक मुद्दों से आगे बढ़कर बड़ी भूमिका निभानी शुरू की।
- It provided a platform to coordinate responses to major conflicts that threatened global supply chains.
  इसने वैश्विक आपूर्ति श्रृंखलाओं को प्रभावित करने वाले बड़े संघर्षों पर समन्वित प्रतिक्रिया का मंच प्रदान किया।
- First was the **Soviet invasion of Afghanistan**.
  पहला था **अफगानिस्तान पर सोवियत आक्रमण**।
- This was followed by the **Falkland Islands conflict** and the **Iran-Iraq War**.
  इसके बाद **फॉकलैंड द्वीप संघर्ष** और **ईरान-इराक युद्ध** हुए।
- It also played an active role regarding the **Lebanese Civil War**.
  इसने **लेबनानी गृहयुद्ध** के संबंध में भी सक्रिय भूमिका निभाई।
- In **1982**, when **Israel invaded Lebanon**, the G7 expressed shock at Israel's actions.
  1982 में जब **इज़राइल ने लेबनान पर आक्रमण किया**, तब G7 ने इस पर चिंता व्यक्त की।
- On the Falklands dispute, however, it supported the **U.K.**.
  हालांकि फॉकलैंड विवाद में उसने **ब्रिटेन** का समर्थन किया।
- Through coordination among major economies, G7 demonstrated in **1990** its ability to apply economic pressure.
  प्रमुख अर्थव्यवस्थाओं के समन्वय के माध्यम से G7 ने **1990** में आर्थिक दबाव डालने की अपनी क्षमता दिखाई।
- As **Saddam Hussein** prepared to invade **Kuwait**, the G7 convened a meeting in **Houston**.
  जब **सद्दाम हुसैन कुवैत** पर आक्रमण की तैयारी कर रहे थे, तब G7 ने **ह्यूस्टन** में बैठक बुलाई।
- It ensured that Hussein would not profit from forcibly acquiring Kuwait's energy wealth.
  इसने सुनिश्चित किया कि हुसैन कुवैत की ऊर्जा संपदा पर बलपूर्वक कब्जा कर लाभ न उठा सकें।
- The end of the **Cold War** provided the G7 an opportunity to reinvent itself.
  शीत युद्ध के अंत ने G7 को स्वयं को पुनर्परिभाषित करने का अवसर दिया।

- It opened its doors to **Russia**.
  इसने **रूस** के लिए अपने द्वार खोले।
- **Mikhail Gorbachev** attended the G7 London Summit on **July 14-16, 1991**.
  मिखाइल गोर्बाचेव ने **14-16 जुलाई 1991** को लंदन में आयोजित G7 शिखर सम्मेलन में भाग लिया।
- Following the dissolution of the **USSR**, Russian President **Boris Yeltsin** was invited on multiple occasions.
  सोवियत संघ के विघटन के बाद रूसी राष्ट्रपति **बोरिस येल्त्सिन** को कई बार आमंत्रित किया गया।
- In **1998**, Russia formally joined the grouping, transforming it into the **G8**.
  1998 में रूस औपचारिक रूप से समूह में शामिल हुआ और यह **G8** बन गया।

France summit
फ्रांस शिखर सम्मेलन

- The G7's most visible role in recent years has been in opposing Russia's military campaign in **Ukraine**.
  हाल के वर्षों में G7 की सबसे प्रमुख भूमिका **यूक्रेन** में रूस के सैन्य अभियान का विरोध करना रही है।
- Following Russia's annexation of **Crimea** in **2014**, the G8 expelled Russia and reverted to the **G7**.
  2014 में **क्रीमिया** के रूस में विलय के बाद G8 ने रूस को बाहर कर दिया और पुनः **G7** बन गया।
- The grouping has emerged as a forum for discussions on **climate change**, **pandemic preparedness**, **energy security**, **critical minerals**, and **supply chains**.
  यह समूह **जलवायु परिवर्तन**, **महामारी तैयारी**, **ऊर्जा सुरक्षा**, **महत्वपूर्ण खनिजों** और **आपूर्ति श्रृंखलाओं** पर चर्चा का प्रमुख मंच बन गया है।
- To address these issues, the G7 has welcomed participation by countries such as **India, Egypt, South Africa, Brazil, South Korea, Ukraine and the UAE**.
  इन मुद्दों पर चर्चा के लिए G7 ने **भारत, मिस्र, दक्षिण अफ्रीका, ब्राज़ील, दक्षिण कोरिया, यूक्रेन और यूएई** जैसे देशों की भागीदारी का स्वागत किया है।
- In the **52nd G7 Summit**, held in **France** on **June 15-17**, Prime Minister **Narendra Modi** participated.
  15-17 जून को **फ्रांस** में आयोजित **52वें G7 शिखर सम्मेलन** में प्रधानमंत्री **नरेंद्र मोदी** ने भाग लिया।
- Among the topics discussed were the **Ukraine war**, the **U.S.-Iran deal**, **global economic imbalances**, **Artificial Intelligence**, and **debt burdens** in developing countries.
  चर्चा के प्रमुख विषयों में **यूक्रेन युद्ध**, **अमेरिका-ईरान समझौता**, **वैश्विक आर्थिक असंतुलन**, **कृत्रिम बुद्धिमत्ता (AI)** और विकासशील देशों का **ऋण बोझ** शामिल थे।
- As the world deals with major supply chain disruptions and uncertainties following the **U.S.-Israel war against Iran** and the closure of the **Strait of Hormuz**, the G7 has provided an additional mechanism to discuss difficult issues.
  ईरान के खिलाफ अमेरिका-इज़राइल युद्ध और **हॉर्मुज जलडमरूमध्य** के बंद होने के बाद उत्पन्न वैश्विक आपूर्ति श्रृंखला संकट और अनिश्चितताओं के बीच G7 कठिन मुद्दों पर चर्चा का अतिरिक्त मंच प्रदान कर रहा है।
- This informal meeting allows global leaders a much-required interaction that is not possible within the confines of the **United Nations**.
  यह अनौपचारिक बैठक वैश्विक नेताओं को ऐसा आवश्यक संवाद का अवसर प्रदान करती है जो **संयुक्त राष्ट्र** के औपचारिक ढांचे में संभव नहीं होता।
- While the world has gone through the **Cold War** and **post-Cold War** phases, the **G7** remains a continuity as it maintains the globalised economic structure without allowing cracks to spread.
  दुनिया **शीत युद्ध** और **शीत युद्धोत्तर** चरणों से गुजर चुकी है, फिर भी **G7** निरंतरता का प्रतीक बना हुआ है क्योंकि यह वैश्वीकृत आर्थिक संरचना को बनाए रखते हुए उसमें दरारें फैलने नहीं देता।

In Odisha, Modi unveils ₹47,000-crore infra push

GS III: Economy

Satyasundar Barik
BHUBANESWAR

Prime Minister Narendra Modi on Saturday unveiled development projects worth ₹47,000 crore for Odisha, at an event in Rairangpur to mark two years of the Bharatiya Janata Party government in the State.

Also marking President Droupadi Murmu's 68th birthday, Mr. Modi visited the nearby Pahadpur village, home to her in-laws.

Addressing the meeting in Rairangpur, Mr. Modi switched themes between the tribal roots of the President and the development of Odisha through its natural resources. "Today, many important projects related to Odisha's development have been inaugurated. About ₹47,000 crore will be spent on these projects in power, roads, railways, health, and education, which will greatly benefit the people," he said.

Rairangpur, playing host to the celebrations marking two years of the BJP government in the State, is the northern Odisha town closest to Ms. Murmu's tiny home village of Uparbeda.

First, Mr. Modi observed tribal traditions at Pahadpur, the President's in-laws' village. Accompanied by Ms. Murmu, he toured the village, interacted with residents, and paid obeisance at the *Jahera*, the sacred Santhal place of worship.

"It is a matter of great pride for all of us that Odisha's daughter has reached such a high office in the country and is guiding us. Her personality, her generous and compassionate nature, and her unwavering dedication to serving the nation and society have strengthened not only Mayurbhanj but the identity of the entire Odisha," Mr. Modi said, extending birthday greetings to Ms. Murmu.

To the roots: PM Narendra Modi waters a sapling in the presence of President Droupadi Murmu at Pahadpur in Odisha on Saturday. ANI

Mr. Modi, at Rairangpur, laid the foundation for a ₹25,016 crore coal gasification unit being established in Jharsuguda district and launched ₹700 crore worth of rail infrastructure under East Coast Railway. "So far, investment proposals worth around ₹20 lakh crore have been received. Work is underway on mega projects worth over ₹3.5 lakh crore. Efforts are being made for holistic development to create a favourable environment for industries. More than ₹6,000 crore is being invested in the power sector," Mr. Modi said.

Solar-powered village

"I also want to inform you about a government decision that Pahadpur village will be rapidly developed as a Suryagram, a solar village. That means every household will generate solar power. We can proudly say that just as Odisha is known for the Sun Temple in Konark, Pahadpur will gain recognition as a Suryagram," he said.

Mr. Modi said, "The Centre's vision is that India's development will come through the development of eastern India. That's why we are working on the 'Purvodaya' policy. The eastern region, which was once synonymous with backwardness during the Congress era, is now becoming the gateway to progress. Odisha itself is witnessing this transformation."

During the Prime Minister's visit, the President assumed the roles of host and guide. She was effusive in her praise for Mr. Modi, congratulating him for being the longest-serving Prime Minister of India.

now becoming the gateway to progress. Odisha itself is witnessing this transformation."
श्री मोदी ने कहा, "केंद्र की सोच है कि भारत का विकास **पूर्वी भारत** के विकास से होगा। इसी कारण हम **'पूर्वोदय' नीति** पर कार्य कर रहे हैं। पूर्वी क्षेत्र, जो कभी कांग्रेस शासन में पिछड़ेपन का पर्याय माना जाता था, अब प्रगति का द्वार बन रहा है। स्वयं ओडिशा इस परिवर्तन का साक्षी है।"

- During the Prime Minister's visit, the President assumed the roles of host and guide.
प्रधानमंत्री की यात्रा के दौरान राष्ट्रपति ने मेजबान और मार्गदर्शक दोनों की भूमिका निभाई।
- She was effusive in her praise for Mr. Modi, congratulating him for being the **longest-serving Prime Minister of India**.
उन्होंने श्री मोदी की प्रशंसा करते हुए उन्हें **भारत के सबसे लंबे समय तक सेवा देने वाले प्रधानमंत्री** बनने पर बधाई दी।

Why have India's statistical databases been upgraded?

GS III: Economy

What key economic indicators have been revised? Why was an overhaul of the databases necessary? What changes were made to the national accounts and GDP estimates? How has the measurement of industrial output been improved? What changes have been made to India's inflation indicators?

T.C.A. Sharad Raghavan

The story so far:

Last November, the Indian government received a 'C' grade, the second-lowest grade, by the International Monetary Fund for the quality of its national accounts statistics. Over the last few months, it has made several upgrades to its statistical databases, improving their timeliness, representativeness, accuracy, and coverage. These improvements have been wide-ranging, covering the way India measures its gross domestic product (GDP), the value addition in the economy, industrial output, and price levels at the retail, wholesale, and producer levels.

What are the metrics that have been updated?

The most significant of these changes was made to India's national accounts statistics in February this year by the Ministry of Statistics and Programme Implementation (MoSPI). National accounts include several key metrics such as GDP, gross value added (GVA), sector-wise output and growth figures, and the contributions of each of the engines of growth to the economy – government expenditure, private investment, household consumption, and trade. These are released on a quarterly and annual basis.

In June, MoSPI also updated the Index of Industrial Production (IIP), which captures how industrial activity in the economy is doing on a monthly basis. This includes key sectors such as manufacturing, mining, electricity, infrastructure, capital goods, and consumer goods. Apart from providing a regular snapshot of how the industrial sectors are doing, these monthly figures also feed into the GDP and GVA metrics.

The third broad set of upgrades were to how India measures inflation. Price changes at the retail level, which is meant to capture the consumer-end of the market, are measured by the Consumer Price Index (CPI). Similarly, price changes at the wholesale level, which is ideally meant to capture the prices that producers get, are measured by the Wholesale Price Index (WPI). MoSPI releases the CPI while the Ministry of Commerce and Industry releases the WPI. Both these indices have been significantly updated and upgraded – the CPI in February and the WPI in June.

In June, the Commerce Ministry also introduced a new index – the Producer Price Index (PPI) – which not only captures the price impact on producers more accurately, but will also replace the WPI entirely in five years.

Why was an update needed?

These databases were outdated and were becoming less representative of reality with each passing year. The GDP and GVA data, for example, had a base year of 2011-12, as did the IIP. The economy has changed substantially in the years since then, with the contribution of several sectors to the economy growing while others have diminished in importance. An outdated base year weakens the overall measurements and makes them less representative of the current reality.

Before they were updated, the WPI and CPI had base years of 2011-12 and 2012, respectively. Here, too, the outdated indices were measuring price changes and index values based on household consumption patterns that were about 15 years old. Several items used back then, such as DVDs and cassettes, were included in the indices even though they are not used now. Conversely, several items that are being used now were not captured by the indices because they were not in use back then.

The databases were outdated and were becoming less representative of reality with each passing year. An outdated base year weakens the overall measurements and makes them less representative of the current reality

Items like DVD players and tape recorders have been removed from CPI. GETTY IMAGES

More accurate price information is important not just for policymaking but also for a more accurate measure of the size of the economy and its growth. The RBI's Monetary Policy Committee, for example, uses the CPI to gauge inflation and decide on interest rates. The Dearness Allowance and Dearness Relief given to current and former government employees, respectively, are pegged to inflation. The rate of growth of the real economy, which is the commonly accepted metric used to measure growth worldwide, is arrived at after having adjusted the impact of inflation on the economy.

What changes were made to the national accounts?

First, the base year was updated to 2022-23, immediately making the data more representative of the current situation. Apart from this, the new series of national accounts has also incorporated several methodological changes and measurement improvements.

One of the most important changes, and one that has long been advocated by statisticians, was the incorporation of the 'double deflator' method for estimating real GDP growth. This adjusts input and output prices separately, providing a much more accurate picture of the impact of price changes. Currently, the 'double deflator' method is being used for agriculture and manufacturing. It is expected to be adopted for the other sectors as well over time.

The other important change was the segregation of activities in multi-activity enterprises. There are several companies that are active across different sectors. Earlier, the data would capture the company's entire output and allocate it to the main sector within which it was operating. This yielded a somewhat inaccurate measure of sectoral activity. Now, the output will be allocated to each sector proportionately, providing a more accurate picture.

The new series also incorporates new data sources such as the Goods and Services Tax data and the Periodic Labour Force Surveys. It also incorporates several improvements in statistical methodology that will reduce discrepancies.

What other changes were made to output measures?

MoSPI updated the base year of the IIP to 2022-23 and expanded its coverage by including sectors such as gas supply, water supply, sewerage, and waste management activities, while retaining the previous sectors. Simultaneously, the index was revamped to provide greater granularity in terms of sources of electricity (renewable and non-renewable), and the types of minerals produced.

The revised item basket consists of 1,042 products mapped to 463 item groups, compared to 839 items mapped to 407 item groups in the previous series.

What are the inflation-related changes?

The base year of the CPI was updated to 2024, and the basket of items it measures as well as their relative weightages were pegged to the latest Household Consumption Expenditure Survey of 2023-24. The price change metrics now better reflect the current consumption patterns of households.

The data is also more illustrative, with the tables providing 12 different categories of items compared to the six groups in the previous series. Overall, the total number of items measured – including both goods and services – has increased from 299 to 358.

These additions of goods and services include for the first time inclusion of rural house rent, modern consumption items such as online media services and fuels such as CNG and PNG, and improvements in the measurement of telephone charges, rail fare, air fare, fuel, postal charges and online media and streaming services. Items that are no longer used, such as VCRs, DVD players, radio, tape recorders, and cassettes, were removed from the CPI.

The WPI was similarly updated, with its base year revised to 2022-23 and the number of items expanded from 697 to 957. The new series also incorporates several methodological refinements.

The data have also been reorganised more logically. For instance, crude petroleum and natural gas have been moved from the 'Primary Articles' category to the 'Fuel and Power' major group, which already includes other key fuels such as coal, electricity and petroleum products.

The third major change introduced by the Commerce Ministry was the adoption of a PPI. Unlike the WPI, the PPI separately tracks the prices producers pay for inputs and the prices they receive for their outputs. The PPI excludes additional costs such as transport and indirect taxes, which the WPI includes. This makes the PPI a more accurate representation of prices at the producer level. It also incorporates both goods and services, which makes it more holistic. The government has indicated that the WPI will be phased out over the next five years, leaving the CPI and PPI as the country's two principal price indices.

21J6. Why have India's statistical databases been upgraded?
भारत के सांख्यिकीय डेटाबेस को उन्नत क्यों किया गया है?

- **India upgrades key statistical databases to improve accuracy and representation of the economy**
भारत ने अर्थव्यवस्था की अधिक सटीक एवं यथार्थपरक तस्वीर प्रस्तुत करने के लिए प्रमुख सांख्यिकीय डेटाबेसों को उन्नत किया
- Last November, the **Indian government** received a **'C' grade**, the second-lowest grade, by the **International Monetary Fund (IMF)** for the quality of its **national accounts statistics**.
पिछले नवंबर में **भारतीय सरकार** को उसके **राष्ट्रीय लेखा सांख्यिकी** की गुणवत्ता के लिए **अंतरराष्ट्रीय मुद्रा कोष (IMF)** द्वारा **'C' ग्रेड** प्रदान किया गया था, जो दूसरा सबसे निम्न ग्रेड है।

- Over the last few months, it has made several upgrades to its statistical databases, improving their **timeliness**, **representativeness**, **accuracy**, and **coverage**.
  पिछले कुछ महीनों में सरकार ने अपने सांख्यिकीय डेटाबेसों में अनेक सुधार किए हैं, जिससे उनकी **समयबद्धता**, **प्रतिनिधित्व क्षमता**, **सटीकता** और **व्यापकता** में वृद्धि हुई है।
- These improvements have been wide-ranging, covering the way India measures its **gross domestic product (GDP)**, the **value addition** in the economy, **industrial output**, and **price levels** at the retail, wholesale, and producer levels.
  ये सुधार व्यापक स्तर पर किए गए हैं, जिनमें भारत द्वारा **सकल घरेलू उत्पाद (GDP)**, अर्थव्यवस्था में **मूल्य संवर्धन**, **औद्योगिक उत्पादन**, तथा खुदरा, थोक और उत्पादक स्तर पर **मूल्य स्तरों** के मापन की पद्धति शामिल है।

What are the metrics that have been updated?
किन संकेतकों को अद्यतन किया गया है?

- The most significant of these changes was made to India's **national accounts statistics** in February this year by the **Ministry of Statistics and Programme Implementation (MoSPI)**.
  इन परिवर्तनों में सबसे महत्वपूर्ण संशोधन इस वर्ष फरवरी में **सांख्यिकी एवं कार्यक्रम क्रियान्वयन मंत्रालय (MoSPI)** द्वारा भारत की **राष्ट्रीय लेखा सांख्यिकी** में किया गया।
- National accounts include several key metrics such as **GDP**, **Gross Value Added (GVA)**, sector-wise output and growth figures, and the contributions of each of the engines of growth to the economy — **government expenditure**, **private investment**, **household consumption**, and **trade**.
  राष्ट्रीय लेखों में **GDP**, **सकल मूल्य वर्धन (GVA)**, क्षेत्रवार उत्पादन और वृद्धि के आँकड़े तथा अर्थव्यवस्था के विकास के प्रमुख घटकों — **सरकारी व्यय**, **निजी निवेश**, **घरेलू उपभोग** और **व्यापार** — का योगदान शामिल होता है।
- These are released on a quarterly and annual basis.
  इन आँकड़ों को त्रैमासिक और वार्षिक आधार पर जारी किया जाता है।
- In June, MoSPI also updated the **Index of Industrial Production (IIP)**, which captures how industrial activity in the economy is doing on a monthly basis.
  जून में MoSPI ने **औद्योगिक उत्पादन सूचकांक (IIP)** को भी अद्यतन किया, जो अर्थव्यवस्था में औद्योगिक गतिविधियों की मासिक स्थिति को दर्शाता है।
- This includes key sectors such as **manufacturing**, **mining**, **electricity**, **infrastructure**, **capital goods**, and **consumer goods**.
  इसमें **विनिर्माण**, **खनन**, **बिजली**, **अवसंरचना**, **पूंजीगत वस्तुएँ** तथा **उपभोक्ता वस्तुएँ** जैसे प्रमुख क्षेत्र शामिल हैं।
- Apart from providing a regular snapshot of how the industrial sectors are doing, these monthly figures also feed into the **GDP** and **GVA** metrics.
  औद्योगिक क्षेत्रों की स्थिति का नियमित आकलन करने के अलावा ये मासिक आँकड़े **GDP** और **GVA** की गणना में भी योगदान देते हैं।
- The third broad set of upgrades were to how India measures **inflation**.
  सुधारों का तीसरा प्रमुख क्षेत्र **मुद्रास्फीति** के मापन से संबंधित था।
- Price changes at the retail level, which is meant to capture the consumer-end of the market, are measured by the **Consumer Price Index (CPI)**.
  खुदरा स्तर पर मूल्य परिवर्तनों, जो उपभोक्ता पक्ष को दर्शाते हैं, का मापन **उपभोक्ता मूल्य सूचकांक (CPI)** द्वारा किया जाता है।
- Similarly, price changes at the wholesale level, which is ideally meant to capture the prices that producers get, are measured by the **Wholesale Price Index (WPI)**.
  इसी प्रकार, थोक स्तर पर मूल्य परिवर्तनों, जो उत्पादकों को प्राप्त मूल्यों को दर्शाते हैं, का मापन **थोक मूल्य सूचकांक (WPI)** द्वारा किया जाता है।

Website : patrioticias.in

- MoSPI releases the **CPI** while the **Ministry of Commerce and Industry** releases the **WPI**.
  MoSPI द्वारा **CPI** जारी किया जाता है, जबकि **वाणिज्य एवं उद्योग मंत्रालय** द्वारा **WPI** जारी किया जाता है।
- Both these indices have been significantly updated and upgraded — the CPI in February and the WPI in June.
  इन दोनों सूचकांकों में महत्वपूर्ण संशोधन किए गए हैं — **CPI** को फरवरी में और **WPI** को जून में अद्यतन किया गया।
- In June, the Commerce Ministry also introduced a new index — the **Producer Price Index (PPI)** — which not only captures the price impact on producers more accurately, but will also replace the **WPI** entirely in five years.
  जून में वाणिज्य मंत्रालय ने एक नया सूचकांक — **उत्पादक मूल्य सूचकांक (PPI)** — भी शुरू किया, जो उत्पादकों पर मूल्य प्रभाव को अधिक सटीक रूप से दर्शाता है तथा अगले पाँच वर्षों में **WPI** का पूर्णतः स्थान ले लेगा।

Why was an update needed?
अद्यतन की आवश्यकता क्यों थी?

- These databases were outdated and were becoming less representative of reality with each passing year.
  ये डेटाबेस पुराने हो चुके थे और प्रत्येक वर्ष वास्तविकता का कम प्रतिनिधित्व कर रहे थे।
- The **GDP** and **GVA** data, for example, had a **base year of 2011-12**, as did the **IIP**.
  उदाहरण के लिए, **GDP**, **GVA** तथा **IIP** का **आधार वर्ष 2011-12** था।
- The economy has changed substantially in the years since then, with the contribution of several sectors to the economy growing while others have diminished in importance.
  उसके बाद के वर्षों में अर्थव्यवस्था में महत्वपूर्ण परिवर्तन हुए हैं, जिसमें कुछ क्षेत्रों का योगदान बढ़ा है जबकि कुछ अन्य क्षेत्रों का महत्व कम हुआ है।
- An outdated base year weakens the overall measurements and makes them less representative of the current reality.
  पुराना आधार वर्ष समग्र मापनों को कमजोर बना देता है और उन्हें वर्तमान वास्तविकता का कम प्रतिनिधि बनाता है।
- Before they were updated, the **WPI** and **CPI** had base years of **2011-12** and **2012**, respectively.
  अद्यतन से पहले **WPI** का आधार वर्ष **2011-12** तथा **CPI** का आधार वर्ष **2012** था।
- Here, too, the outdated indices were measuring price changes and index values based on household consumption patterns that were about **15 years old**.
  यहाँ भी पुराने सूचकांक लगभग **15 वर्ष पुराने घरेलू उपभोग पैटर्न** के आधार पर मूल्य परिवर्तनों को माप रहे थे।
- Several items used back then, such as **DVDs** and **cassettes**, were included in the indices even though they are not used now.
  उस समय उपयोग में आने वाली कई वस्तुएँ, जैसे **डीवीडी** और **कैसेट**, अब भी सूचकांकों में शामिल थीं, जबकि वर्तमान में उनका उपयोग लगभग समाप्त हो चुका है।
- Conversely, several items that are being used now were not captured by the indices because they were not in use back then.
  इसके विपरीत, वर्तमान में उपयोग की जाने वाली कई वस्तुएँ सूचकांकों में शामिल नहीं थीं क्योंकि वे उस समय प्रचलन में नहीं थीं।
- More accurate price information is important not just for policymaking but also for a more accurate measure of the **size of the economy** and its **growth**.
  अधिक सटीक मूल्य संबंधी जानकारी केवल नीतिनिर्माण के लिए ही नहीं, बल्कि अर्थव्यवस्था के **आकार** और उसकी **वृद्धि** के अधिक सटीक आकलन के लिए भी महत्वपूर्ण है।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- The **RBI's Monetary Policy Committee (MPC)**, for example, uses the **CPI** to gauge inflation and decide on **interest rates**.
  उदाहरण के लिए, **भारतीय रिज़र्व बैंक की मौद्रिक नीति समिति (MPC)** मुद्रास्फीति का आकलन करने और **ब्याज दरों** का निर्धारण करने हेतु **CPI** का उपयोग करती है।
- The **Dearness Allowance (DA)** and **Dearness Relief (DR)** given to current and former government employees, respectively, are pegged to inflation.
  वर्तमान और सेवानिवृत्त सरकारी कर्मचारियों को दिए जाने वाले **महंगाई भत्ते (DA)** और **महंगाई राहत (DR)** का निर्धारण भी मुद्रास्फीति के आधार पर किया जाता है।
- The rate of growth of the **real economy**, which is the commonly accepted metric used to measure growth worldwide, is arrived at after having adjusted the impact of inflation on the economy.
  वास्तविक अर्थव्यवस्था की वृद्धि दर, जो विश्वभर में आर्थिक विकास को मापने का सर्वमान्य मानक है, अर्थव्यवस्था पर मुद्रास्फीति के प्रभाव को समायोजित करने के बाद निर्धारित की जाती है।

What changes were made to the national accounts?
राष्ट्रीय लेखा आँकड़ों में क्या परिवर्तन किए गए?

- First, the **base year** was updated to **2022-23**, immediately making the data more representative of the current situation.
  सबसे पहले, **आधार वर्ष** को **2022-23** में परिवर्तित किया गया, जिससे आँकड़े तत्काल वर्तमान परिस्थितियों का अधिक सटीक प्रतिनिधित्व करने लगे।
- Apart from this, the new series of **national accounts** has also incorporated several **methodological changes** and **measurement improvements**.
  इसके अतिरिक्त, **राष्ट्रीय लेखा आँकड़ों** की नई श्रृंखला में कई **कार्यप्रणालीगत परिवर्तन** तथा **मापन संबंधी सुधार** भी शामिल किए गए हैं।
- One of the most important changes, and one that has long been advocated by statisticians, was the incorporation of the **'double deflator' method** for estimating **real GDP growth**.
  सबसे महत्वपूर्ण परिवर्तनों में से एक, जिसकी लंबे समय से सांख्यिकीविदों द्वारा वकालत की जा रही थी, **वास्तविक GDP वृद्धि** के आकलन हेतु **'डबल डिफ्लेटर' पद्धति** को अपनाना था।
- This adjusts **input prices** and **output prices** separately, providing a much more accurate picture of the impact of price changes.
  यह पद्धति **इनपुट मूल्यों** और **आउटपुट मूल्यों** को अलग-अलग समायोजित करती है, जिससे मूल्य परिवर्तनों के प्रभाव का अधिक सटीक आकलन संभव होता है।
- Currently, the **'double deflator' method** is being used for **agriculture** and **manufacturing**.
  वर्तमान में **'डबल डिफ्लेटर' पद्धति** का उपयोग **कृषि** और **विनिर्माण क्षेत्र** के लिए किया जा रहा है।
- It is expected to be adopted for the other sectors as well over time.
  समय के साथ इसे अन्य क्षेत्रों में भी लागू किए जाने की अपेक्षा है।
- The other important change was the segregation of activities in **multi-activity enterprises**.
  दूसरा महत्वपूर्ण परिवर्तन **बहु-गतिविधि उद्यमों** की गतिविधियों को अलग-अलग वर्गीकृत करना था।
- There are several companies that are active across different sectors.
  कई ऐसी कंपनियाँ हैं जो विभिन्न क्षेत्रों में कार्यरत हैं।
- Earlier, the data would capture the company's entire output and allocate it to the main sector within which it was operating.
  पहले आँकड़ों में कंपनी के पूरे उत्पादन को उसके मुख्य कार्यक्षेत्र में ही शामिल कर दिया जाता था।
- This yielded a somewhat inaccurate measure of **sectoral activity**.
  इससे **क्षेत्रीय गतिविधियों** का आकलन कुछ हद तक असटीक हो जाता था।
- Now, the output will be allocated to each sector proportionately, providing a more accurate picture.

अब उत्पादन को प्रत्येक क्षेत्र में उसके वास्तविक अनुपात के अनुसार विभाजित किया जाएगा, जिससे अधिक सटीक तस्वीर प्राप्त होगी।

- The new series also incorporates new data sources such as **Goods and Services Tax (GST) data** and the **Periodic Labour Force Surveys (PLFS)**.
  नई श्रृंखला में **वस्तु एवं सेवा कर (GST) डेटा** तथा **आवधिक श्रम बल सर्वेक्षण (PLFS)** जैसे नए डेटा स्रोतों को भी शामिल किया गया है।
- It also incorporates several improvements in statistical methodology that will reduce discrepancies.
  इसमें सांख्यिकीय कार्यप्रणाली में कई सुधार भी किए गए हैं, जो आँकड़ों में विसंगतियों को कम करेंगे।

What other changes were made to output measures?
उत्पादन मापन में और क्या परिवर्तन किए गए?

- **MoSPI** updated the **base year** of the **Index of Industrial Production (IIP)** to **2022-23** and expanded its coverage by including sectors such as **gas supply**, **water supply**, **sewerage**, and **waste management activities**, while retaining the previous sectors.
  MoSPI ने **औद्योगिक उत्पादन सूचकांक (IIP)** का **आधार वर्ष** बदलकर **2022-23** कर दिया तथा इसके दायरे का विस्तार करते हुए **गैस आपूर्ति**, **जल आपूर्ति**, **सीवरेज** और **अपशिष्ट प्रबंधन गतिविधियों** जैसे क्षेत्रों को शामिल किया, जबकि पूर्ववर्ती क्षेत्रों को भी बनाए रखा गया।
- Simultaneously, the index was revamped to provide greater granularity in terms of sources of electricity (**renewable** and **non-renewable**) and the types of minerals produced.
  साथ ही, सूचकांक को इस प्रकार पुनर्गठित किया गया कि वह बिजली के स्रोतों (**नवीकरणीय** और **गैर-नवीकरणीय**) तथा उत्पादित खनिजों के प्रकारों के बारे में अधिक विस्तृत जानकारी प्रदान कर सके।
- The revised item basket consists of **1,042 products** mapped to **463 item groups**, compared to **839 items** mapped to **407 item groups** in the previous series.
  संशोधित वस्तु-सूची में **1,042 उत्पाद** शामिल हैं जिन्हें **463 वस्तु समूहों** में वर्गीकृत किया गया है, जबकि पूर्ववर्ती श्रृंखला में **839 वस्तुएँ** और **407 वस्तु समूह** थे।

What are the inflation-related changes?
मुद्रास्फीति से संबंधित क्या परिवर्तन किए गए हैं?

- The **base year** of the **Consumer Price Index (CPI)** was updated to **2024**, and the basket of items it measures as well as their relative weightages were pegged to the latest **Household Consumption Expenditure Survey (HCES) 2023-24**.
  उपभोक्ता मूल्य सूचकांक (CPI) का **आधार वर्ष** बदलकर **2024** कर दिया गया तथा इसमें शामिल वस्तुओं और सेवाओं तथा उनके भारांक को नवीनतम **घरेलू उपभोग व्यय सर्वेक्षण (HCES) 2023-24** के अनुरूप निर्धारित किया गया।
- The price change metrics now better reflect the current consumption patterns of households.
  अब मूल्य परिवर्तन के संकेतक घरेलू उपभोग के वर्तमान पैटर्न को अधिक सटीक रूप से दर्शाते हैं।
- The data is also more illustrative, with the tables providing **12 different categories** of items compared to the **six groups** in the previous series.
  अब आँकड़े अधिक विस्तृत हैं, क्योंकि नई तालिकाओं में वस्तुओं की **12 विभिन्न श्रेणियाँ** शामिल हैं, जबकि पूर्ववर्ती श्रृंखला में केवल **छह समूह** थे।
- Overall, the total number of items measured — including both goods and services — has increased from **299 to 358**.
  कुल मिलाकर, मापी जाने वाली वस्तुओं एवं सेवाओं की संख्या **299 से बढ़कर 358** हो गई है।
- These additions of goods and services include for the first time inclusion of **rural house rent**, modern consumption items such as **online media services**, and fuels such as **CNG** and **PNG**.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

इन नई वस्तुओं एवं सेवाओं में पहली बार **ग्रामीण मकान किराया**, आधुनिक उपभोग वस्तुएँ जैसे **ऑनलाइन मीडिया सेवाएँ**, तथा **CNG** और **PNG** जैसे ईंधन शामिल किए गए हैं।

- It also includes improvements in the measurement of **telephone charges**, **rail fare**, **air fare**, **fuel**, **postal charges**, and **online media and streaming services**.
  इसके अतिरिक्त **टेलीफोन शुल्क**, **रेल किराया**, **हवाई किराया**, **ईंधन**, **डाक शुल्क**, तथा **ऑनलाइन मीडिया एवं स्ट्रीमिंग सेवाओं** के मापन में भी सुधार किया गया है।
- Items that are no longer used, such as **VCRs**, **DVD players**, **radio**, **tape recorders**, and **cassettes**, were removed from the CPI.
  अब उपयोग में न आने वाली वस्तुओं जैसे **वीसीआर**, **डीवीडी प्लेयर**, **रेडियो**, **टेप रिकॉर्डर** और **कैसेट** को CPI से हटा दिया गया है।
- The **Wholesale Price Index (WPI)** was similarly updated, with its base year revised to **2022-23** and the number of items expanded from **697 to 957**.
  इसी प्रकार **थोक मूल्य सूचकांक (WPI)** को भी अद्यतन किया गया है, जिसका आधार वर्ष **2022-23** कर दिया गया है तथा इसमें शामिल वस्तुओं की संख्या **697 से बढ़ाकर 957** कर दी गई है।
- The new series also incorporates several **methodological refinements**.
  नई श्रृंखला में कई **कार्यप्रणालीगत सुधार** भी शामिल किए गए हैं।
- The data have also been reorganised more logically.
  डेटा को अधिक तार्किक ढंग से पुनर्गठित किया गया है।
- For instance, **crude petroleum** and **natural gas** have been moved from the **'Primary Articles'** category to the **'Fuel and Power'** major group.
  उदाहरण के लिए, **कच्चे पेट्रोलियम** और **प्राकृतिक गैस** को **'प्राथमिक वस्तुएँ'** श्रेणी से हटाकर **'ईंधन एवं ऊर्जा'** प्रमुख समूह में शामिल किया गया है।
- This group already includes other key fuels such as **coal**, **electricity**, and **petroleum products**.
  इस समूह में पहले से ही **कोयला**, **बिजली** और **पेट्रोलियम उत्पाद** जैसे प्रमुख ईंधन शामिल हैं।
- The third major change introduced by the **Commerce Ministry** was the adoption of a **Producer Price Index (PPI)**.
  वाणिज्य मंत्रालय द्वारा किया गया तीसरा प्रमुख परिवर्तन **उत्पादक मूल्य सूचकांक (PPI)** को अपनाना था।
- Unlike the **WPI**, the **PPI** separately tracks the prices producers pay for **inputs** and the prices they receive for their **outputs**.
  WPI के विपरीत, **PPI** उत्पादकों द्वारा **इनपुट** के लिए चुकाई गई कीमतों तथा **आउटपुट** के लिए प्राप्त कीमतों को अलग-अलग मापता है।
- The **PPI** excludes additional costs such as **transport** and **indirect taxes**, which the WPI includes.
  PPI में **परिवहन लागत** और **अप्रत्यक्ष करों** जैसी अतिरिक्त लागतें शामिल नहीं होतीं, जबकि **WPI** में इन्हें शामिल किया जाता है।
- This makes the **PPI** a more accurate representation of prices at the producer level.
  इससे **PPI** उत्पादक स्तर पर कीमतों का अधिक सटीक प्रतिनिधित्व करता है।
- It also incorporates both **goods** and **services**, which makes it more holistic.
  यह **वस्तुओं** और **सेवाओं** दोनों को शामिल करता है, जिससे यह अधिक व्यापक बन जाता है।
- The government has indicated that the **WPI** will be phased out over the next **five years**, leaving the **CPI** and **PPI** as the country's two principal price indices.
  सरकार ने संकेत दिया है कि अगले **पाँच वर्षों** में **WPI** को चरणबद्ध तरीके से समाप्त कर दिया जाएगा, जिसके बाद **CPI** और **PPI** देश के दो प्रमुख मूल्य सूचकांक रह जाएंगे।

Microsoft introduces pay-as-you-go model for AI agents

GS III: Economy

DECODED

John Xavier

For the past two years, the AI industry has been trying to solve a billing problem: how do you charge users for artificial intelligence?

Bundling AI services into software subscriptions and selling it the way enterprise software has been sold for years looked fine for some time. Microsoft, Google and others added AI assistants to their productivity suites and put a monthly price tag on them.

That logic worked if companies were already paying per employee for email, spreadsheets and collaboration tools. But AI is unlike traditional software.

One employee may use an AI assistant a few times a week to summarise meetings. Another may use it all day to analyse documents, write reports and automate repetitive tasks. Increasingly, AI systems are also becoming agents that can perform actions on behalf of users, carrying out tasks that would previously have required hours of human effort. This leads to a mismatch between how AI is consumed and how it is billed.

That is what makes Microsoft's latest move interesting. The company has introduced a pay-as-you-go model for its AI agents, allowing customers to pay according to usage rather than committing solely to fixed licences.

What Microsoft is really doing is moving AI closer to the economics of cloud computing.

Cloud computing became a trillion-dollar business because it replaced large upfront investments with consumption-based pricing. Companies could rent computing power as required and pay for what they used.

Microsoft has introduced a pay-as-you-go model for its AI agents, allowing customers to pay according to usage. REUTERS

The model worked because it aligned costs with value. If a business needed more computing resources, it paid more. If demand fell, spending fell too. AI seems to indicate a similar trend.

The challenge with subscription pricing for AI services is that it assumes every user derives roughly the same value from the service. In reality, AI usage varies enormously. Some workers barely touch these tools. Others rely on them constantly. The gap is likely to become even wider as AI agents become more capable and autonomous.

A flat monthly fee begins to look increasingly arbitrary in such a world. So, the new pricing attempts to solve that problem by linking spending to usage. Customers can experiment without making large commitments.

But the reason behind Microsoft taking this route isn't just to give its customers more autonomy.

For instance, once Word is installed, Microsoft does not incur any additional cost each time a customer types out a new document. The product has been sold. But with AI, the business relationship is back and forth. Every prompt, every response and every agent action consumes computing resources. This type of supplier and customer relationship will shoot up the token generation cost for cloud providers.

No wonder Microsoft picked a consumption-based model that reflects this reality far more accurately than a fixed subscription. In effect, the Windows software maker is likely treating AI as an organism that grows and takes new forms inside an organisation.

The company's experience with Azure suggests it understands how to build operating models around metered consumption. Enterprises have already become comfortable paying for storage, computing power and databases this way. Paying for AI capacity may not be such a dramatic leap.

Yet there are reasons for caution. The same pricing model that makes cloud computing flexible can also make it unpredictable. Anyone who has ever been surprised by a cloud-services bill knows that usage-based pricing has a downside. Customers like paying only for what they use, but they also like knowing what next month's bill will look like.

But as the use of AI agents expands in organisations, it will be difficult to forecast how much to budget for the next quarter. Organisations face a challenge akin to modernising the plumbing of an old, large building.

If AI agents become deeply embedded in their business processes, usage could rise rapidly. Microsoft's challenge will be convincing customers that they can scale their AI deployments without losing control of spending.

21J6. Microsoft introduces pay-as-you-go model for AI agents
माइक्रोसॉफ्ट ने एआई एजेंटों के लिए 'उपयोग के अनुसार भुगतान' मॉडल पेश किया

- For the past two years, the **AI industry** has been trying to solve a fundamental **billing problem**: how should users be charged for **artificial intelligence** services?
  पिछले दो वर्षों से **कृत्रिम बुद्धिमत्ता (AI) उद्योग** एक मूलभूत **बिलिंग समस्या** का समाधान खोजने का प्रयास कर रहा है कि AI सेवाओं के लिए उपयोगकर्ताओं से शुल्क किस प्रकार लिया जाए।
- Initially, companies bundled AI services into existing **software subscriptions** and sold them alongside traditional enterprise software.
  प्रारम्भ में कंपनियों ने AI सेवाओं को मौजूदा **सॉफ्टवेयर सदस्यताओं** के साथ जोड़कर पारंपरिक एंटरप्राइज़ सॉफ्टवेयर की तरह बेचना शुरू किया।
- **Microsoft**, **Google**, and others added AI assistants to their productivity suites and assigned a monthly subscription fee.

माइक्रोसॉफ्ट, **गूगल** तथा अन्य कंपनियों ने अपने उत्पादकता प्लेटफ़ॉर्म में AI सहायक जोड़े और उनके लिए मासिक सदस्यता शुल्क निर्धारित किया।

- This model worked reasonably well when organisations were already paying per employee for email, spreadsheets, and collaboration tools.
  यह मॉडल तब तक प्रभावी रहा जब तक संगठन ईमेल, स्प्रेडशीट और सहयोगात्मक उपकरणों के लिए प्रति कर्मचारी भुगतान कर रहे थे।
- However, **AI** behaves very differently from traditional software.
  हालाँकि, **AI** पारंपरिक सॉफ्टवेयर से काफी अलग तरीके से कार्य करता है।

The mismatch between AI usage and billing
AI के उपयोग और बिलिंग के बीच असंगति

- One employee may use an AI assistant only occasionally to summarise meetings.
  कोई कर्मचारी AI सहायक का उपयोग केवल बैठकों का सारांश तैयार करने के लिए कभी-कभार कर सकता है।
- Another employee may use it throughout the day to analyse documents, write reports, and automate repetitive tasks.
  वहीं दूसरा कर्मचारी पूरे दिन दस्तावेज़ों का विश्लेषण करने, रिपोर्ट लिखने और दोहराए जाने वाले कार्यों को स्वचालित करने के लिए इसका उपयोग कर सकता है।
- Increasingly, AI systems are evolving into **AI agents** capable of performing tasks on behalf of users.
  अब AI प्रणालियाँ **AI एजेंटों** के रूप में विकसित हो रही हैं, जो उपयोगकर्ताओं की ओर से कार्य कर सकती हैं।
- These agents can execute activities that previously required several hours of human effort.
  ये एजेंट उन कार्यों को भी कर सकती हैं जिनमें पहले कई घंटे का मानवीय श्रम लगता था।
- As a result, there is a growing mismatch between how AI is consumed and how customers are billed for it.
  परिणामस्वरूप AI के वास्तविक उपयोग और उसके लिए की जाने वाली बिलिंग के बीच असंगति बढ़ती जा रही है।

Microsoft's new approach
माइक्रोसॉफ्ट का नया दृष्टिकोण

- This explains why Microsoft's latest move is significant.
  यही कारण है कि माइक्रोसॉफ्ट का नवीनतम कदम महत्वपूर्ण माना जा रहा है।
- The company has introduced a **pay-as-you-go model** for AI agents.
  कंपनी ने AI एजेंटों के लिए **उपयोग के अनुसार भुगतान (Pay-as-you-go)** मॉडल शुरू किया है।
- Under this approach, customers pay according to actual usage rather than relying solely on fixed licences.
  इस मॉडल के अंतर्गत ग्राहक निश्चित लाइसेंस शुल्क के बजाय वास्तविक उपयोग के आधार पर भुगतान करते हैं।
- In essence, Microsoft is moving AI closer to the economics of **cloud computing**.
  वास्तव में माइक्रोसॉफ्ट AI को **क्लाउड कंप्यूटिंग** की आर्थिक संरचना के अधिक निकट ला रहा है।

Lessons from cloud computing
क्लाउड कंप्यूटिंग से प्राप्त सीख

- Cloud computing became a **trillion-dollar industry** because it replaced large upfront investments with **consumption-based pricing**.
  क्लाउड कंप्यूटिंग एक **ट्रिलियन डॉलर उद्योग** इसलिए बन सकी क्योंकि इसने बड़े प्रारम्भिक निवेशों को **उपयोग-आधारित मूल्य निर्धारण** से प्रतिस्थापित कर दिया।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- Companies could rent computing resources as needed and pay only for what they used.
  कंपनियाँ आवश्यकता अनुसार कंप्यूटिंग संसाधन किराए पर लेकर केवल उनके उपयोग के लिए भुगतान कर सकती थीं।
- This model succeeded because it aligned costs directly with value.
  यह मॉडल इसलिए सफल हुआ क्योंकि इसमें लागत और प्राप्त मूल्य के बीच सीधा संबंध स्थापित हुआ।
- If a business required more computing resources, it paid more.
  यदि किसी व्यवसाय को अधिक कंप्यूटिंग संसाधनों की आवश्यकता होती थी, तो उसे अधिक भुगतान करना पड़ता था।
- If demand declined, spending also fell.
  यदि मांग कम होती थी, तो व्यय भी कम हो जाता था।
- AI now appears to be moving in a similar direction.
  अब AI भी इसी प्रकार की दिशा में आगे बढ़ता हुआ दिखाई दे रहा है।

Why subscription pricing may not work
सदस्यता-आधारित मूल्य निर्धारण क्यों अपर्याप्त हो सकता है

- The main challenge with subscription pricing is that it assumes all users derive similar value from AI services.
  सदस्यता-आधारित मूल्य निर्धारण की सबसे बड़ी चुनौती यह है कि यह मानकर चलता है कि सभी उपयोगकर्ता AI से लगभग समान लाभ प्राप्त करते हैं।
- In reality, AI usage varies dramatically from one user to another.
  वास्तविकता में AI का उपयोग विभिन्न उपयोगकर्ताओं के बीच अत्यधिक भिन्न होता है।
- Some employees barely use AI tools, while others depend on them continuously.
  कुछ कर्मचारी AI उपकरणों का बहुत कम उपयोग करते हैं, जबकि अन्य उन पर निरंतर निर्भर रहते हैं।
- As AI agents become more capable and autonomous, this gap is likely to widen further.
  जैसे-जैसे AI एजेंट अधिक सक्षम और स्वायत्त बनेंगे, यह अंतर और भी बढ़ सकता है।
- In such a scenario, a flat monthly fee begins to appear increasingly arbitrary.
  ऐसी स्थिति में एक समान मासिक शुल्क व्यवस्था अधिकाधिक अव्यावहारिक प्रतीत होने लगती है।
- Microsoft's new pricing model attempts to solve this issue by linking spending directly to usage.
  माइक्रोसॉफ्ट का नया मूल्य निर्धारण मॉडल इस समस्या का समाधान उपयोग को सीधे खर्च से जोड़कर करने का प्रयास करता है।
- This allows customers to experiment with AI without making large upfront commitments.
  इससे ग्राहक बड़े वित्तीय निवेश के बिना AI का प्रयोग और परीक्षण कर सकते हैं।

The economics behind Microsoft's decision
माइक्रोसॉफ्ट के निर्णय के पीछे का आर्थिक तर्क

- Microsoft's motivation is not merely to provide customers with greater flexibility.
  माइक्रोसॉफ्ट का उद्देश्य केवल ग्राहकों को अधिक लचीलापन प्रदान करना नहीं है।
- Traditional software products such as **Microsoft Word** generate minimal additional cost once installed and sold.
  माइक्रोसॉफ्ट वर्ड जैसे पारंपरिक सॉफ्टवेयर उत्पादों को बेचने और स्थापित करने के बाद अतिरिक्त लागत बहुत कम होती है।
- However, AI works differently.
  किन्तु AI की प्रकृति भिन्न है।
- Every **prompt**, every **response**, and every **agent action** consumes computing resources.
  प्रत्येक **प्रॉम्प्ट**, प्रत्येक **उत्तर** और प्रत्येक **AI एजेंट की कार्रवाई** कंप्यूटिंग संसाधनों का उपभोग करती है।

- This creates an ongoing and resource-intensive relationship between the provider and the customer.
  इससे सेवा प्रदाता और ग्राहक के बीच निरंतर और संसाधन-आधारित संबंध बन जाता है।
- The associated **token generation costs** can rise significantly for cloud providers.
  इसके कारण क्लाउड प्रदाताओं के लिए **टोकन निर्माण लागत** काफी बढ़ सकती है।
- A consumption-based pricing model reflects this reality much more accurately than a fixed subscription fee.
  इस वास्तविकता को एक **उपयोग-आधारित मूल्य निर्धारण मॉडल** निश्चित सदस्यता शुल्क की तुलना में अधिक सटीक रूप से प्रतिबिंबित करता है।
- Microsoft is effectively treating AI as an evolving system that grows and adapts within an organisation.
  माइक्रोसॉफ्ट AI को एक ऐसी विकसित होती प्रणाली के रूप में देख रहा है जो किसी संगठन के भीतर निरंतर बढ़ती और परिवर्तित होती रहती है।

Advantages and challenges of the model
इस मॉडल के लाभ और चुनौतियाँ

- Microsoft's experience with Microsoft Azure suggests that it understands how to build business models around **metered consumption**.
  Microsoft Azure के साथ माइक्रोसॉफ्ट के अनुभव से स्पष्ट है कि वह **मापित उपभोग (Metered Consumption)** पर आधारित व्यावसायिक मॉडल विकसित करने में सक्षम है।
- Many enterprises are already comfortable paying for **storage**, **computing power**, and **databases** on a usage basis.
  कई उद्यम पहले से ही **स्टोरेज**, **कंप्यूटिंग क्षमता** और **डेटाबेस सेवाओं** के लिए उपयोग के आधार पर भुगतान करने के अभ्यस्त हैं।
- Therefore, paying for AI capacity may not represent a major shift.
  इसलिए AI क्षमता के लिए भुगतान करना बहुत बड़ा परिवर्तन नहीं माना जा सकता।
- However, there are also reasons for caution.
  फिर भी सावधानी बरतने के पर्याप्त कारण मौजूद हैं।
- The same model that provides flexibility can also create **cost uncertainty**.
  जो मॉडल लचीलापन प्रदान करता है, वही **लागत संबंधी अनिश्चितता** भी उत्पन्न कर सकता है।
- Many customers appreciate paying only for what they use, but they also prefer knowing what their next bill will look like.
  ग्राहक केवल उपयोग के लिए भुगतान करना पसंद करते हैं, किन्तु वे यह भी जानना चाहते हैं कि अगला बिल कितना आएगा।
- As AI agents become deeply integrated into business processes, forecasting future spending could become increasingly difficult.
  जैसे-जैसे AI एजेंट व्यावसायिक प्रक्रियाओं में गहराई से समाहित होंगी, भविष्य के खर्चों का अनुमान लगाना अधिक कठिन हो सकता है।
- Usage may increase rapidly, making budget planning more challenging.
  उपयोग में तीव्र वृद्धि हो सकती है, जिससे बजट योजना बनाना जटिल हो जाएगा।
- Microsoft's key challenge will be convincing customers that they can expand their **AI deployments** without losing control over spending.
  माइक्रोसॉफ्ट के सामने सबसे बड़ी चुनौती यह होगी कि वह ग्राहकों को विश्वास दिला सके कि वे अपने **AI अनुप्रयोगों** का विस्तार कर सकते हैं, बिना व्यय पर नियंत्रण खोए।

The 'WhatsApp alternative' with a strong commitment to user privacy, which has over 15 crore users in India, is facing a week-long ban in the country

GS III: S&T

Aroon Deep

REUTERS

The mythology surrounding Telegram founder Pavel Durov is one of exile and reinvention: Mr. Durov declined to cooperate with Russian diktats to fork over data on Ukrainian protesters in 2014, in the months following the Euromaidan demonstrations in Kyiv. Mr. Durov's previous company, VKontakte, remains a popular social media platform with much of the same design language and content as Telegram, which was created around the same time he left Russia.

To understand Telegram's success in the highly expensive and competitive messaging app market, it is useful to look at what the app does differently from WhatsApp, or even Signal. The service moved quickly in its early years to deploy features that have made it a favourite among activist and dissident circles. For instance, channels send push notifications at a massive scale to subscribers, allowing activists, politicians and even news organisations to quickly get instant viewership on fast-moving events like the Russia-Ukraine war.

While some of those features have found their way into WhatsApp, Telegram stayed relevant with two more things that its competitors may have had less appetite for: incredibly large filesharing limits, and a penchant for performing its stated principles – a commitment to "user privacy and human rights such as freedom of speech and assembly," according to an automated message shared with journalists who send the platform any inquiries.

Deep imprint

The latter manifested in its decision to quickly challenge a week-long ban in India starting June 16, following the National Testing Agency's (NTA) concerns that exam paper leak related frauds, made possible by editing features the app provides to backdate newly uploaded documents, may cause mass confusion. Telegram lost its petition in the Delhi High Court seeking to overturn this ban.

Just like Meta and X, a billionaire founder's personal philosophies have left a deep imprint on the app's functioning. Mr. Durov said the firm loses "tens of millions of dollars" in India – an estimate that is consistent with its 15 crore-strong user base and the likely hundreds of terabytes of data travelling through the platform each day.

Unlike Meta and X, which are part of a diversified galaxy of firms, allowing their founders to cross-subsidise heavy messaging, Mr. Durov's firm is purely messaging-focused. That may have naturally incentivised the firm to vigorously fight bans and restrictions wherever possible.

But that confrontation has come with little representation. Even in a market where the firm loses millions of dollars with such a large user base, it has only a handful of employees, mostly to liaise with the Union government. It has been embroiled in copyright-related cases at a massive scale, for instance with some Hindi newspaper publishers.

It ended up making concessions, but the last-minute participation in court – when its availability was under legitimate threat – was also visible in Brazil, where it had no personnel or legal representation at hand until a judge blocked the platform entirely. Mr. Durov, a French-Emirati-Russian citizen, was himself arrested in France for allegedly lax moderation on the platform of child sex abuse and exploitation material.

A result of not having diversified business interests is that the firm gets to speak its mind. That is certainly not the case with firms like Meta and Google, which are often in a balancing act with the Union government in cases like censorship, since they have a vast array of digital revenues at risk if they are seen as too obdurate. Relenting to demands and a give-and-take approach to a relationship with the state is typical of the Big Tech giants.

Not Telegram. The firm's official X handle quickly responded with open derision to the ban, even as advocates at Khaitan & Co. were strenuously making a legal case to quash the ban in court. "Over 300,000 people die of drowning each year. In order to protect society, it is now illegal to consume or possess water," the account posted on June 17. "Your government is also considering banning solid food, as it presents a needless choking hazard. You are not an adult. You are a baby. Eat the baby food," it added.

21J6. Mass messaging and more
जनसंदेश और उससे भी अधिक

- The '**WhatsApp alternative**' with a strong commitment to **user privacy**, which has over **15 crore users in India**, is facing a **week-long ban** in the country.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

यूज़र प्राइवेसी के प्रति मजबूत प्रतिबद्धता रखने वाला '**व्हाट्सऐप का विकल्प**', जिसके भारत में **15 करोड़ से अधिक उपयोगकर्ता** हैं, देश में **एक सप्ताह के प्रतिबंध** का सामना कर रहा है।

- The mythology surrounding **Telegram founder Pavel Durov** is one of exile and reinvention.
  टेलीग्राम के संस्थापक पावेल ड्यूरोव से जुड़ी कहानी निर्वासन और पुनर्निर्माण की है।
- Mr. Durov declined to cooperate with Russian diktats to fork over data on **Ukrainian protesters** in **2014**, in the months following the **Euromaidan demonstrations** in Kyiv.
  2014 में, कीव में हुए **यूरोमैदान प्रदर्शनों** के बाद के महीनों में, श्री ड्यूरोव ने **यूक्रेनी प्रदर्शनकारियों** का डेटा सौंपने संबंधी रूसी आदेशों का पालन करने से इनकार कर दिया।
- Mr. Durov's previous company, **VKontakte**, remains a popular social media platform with much of the same design language and content as Telegram.
  श्री ड्यूरोव की पूर्व कंपनी **वीकॉन्टैक्टे (VKontakte)** आज भी एक लोकप्रिय सोशल मीडिया प्लेटफॉर्म है, जिसका डिज़ाइन और सामग्री काफी हद तक टेलीग्राम जैसी है।
- Telegram was created around the same time he left **Russia**.
  टेलीग्राम का निर्माण उसी समय हुआ था जब उन्होंने **रूस** छोड़ा था।
- To understand Telegram's success in the highly expensive and competitive messaging app market, it is useful to look at what the app does differently from **WhatsApp** or even **Signal**.
  महंगे और प्रतिस्पर्धी मैसेजिंग ऐप बाज़ार में टेलीग्राम की सफलता को समझने के लिए यह देखना उपयोगी है कि यह **व्हाट्सऐप** और **सिग्नल** से अलग क्या करता है।
- The service moved quickly in its early years to deploy features that have made it a favourite among **activist and dissident circles**.
  अपने शुरुआती वर्षों में इस सेवा ने तेजी से ऐसे फीचर्स शुरू किए, जिन्होंने इसे **कार्यकर्ताओं और असंतुष्ट समूहों** के बीच लोकप्रिय बना दिया।
- For instance, **channels** send push notifications at a massive scale to subscribers.
  उदाहरण के लिए, **चैनल** अपने ग्राहकों को बड़े पैमाने पर पुश नोटिफिकेशन भेजते हैं।
- This allows activists, politicians and even news organisations to quickly get instant viewership on fast-moving events like the **Russia-Ukraine war**.
  इससे कार्यकर्ताओं, राजनेताओं और समाचार संगठनों को **रूस-यूक्रेन युद्ध** जैसी तेजी से बदलती घटनाओं पर तुरंत दर्शक मिल जाते हैं।
- While some of those features have found their way into WhatsApp, Telegram stayed relevant with two more things that its competitors may have had less appetite for.
  हालाँकि इनमें से कुछ फीचर व्हाट्सऐप में भी आ गए हैं, लेकिन टेलीग्राम दो अन्य कारणों से प्रासंगिक बना रहा।
- These are incredibly large **file-sharing limits** and a penchant for performing its stated principles.
  ये हैं अत्यधिक बड़े **फाइल-शेयरिंग लिमिट्स** और अपने घोषित सिद्धांतों का पालन करने की प्रवृत्ति।
- It maintains a commitment to "**user privacy and human rights such as freedom of speech and assembly**," according to an automated message shared with journalists who send the platform inquiries.
  प्लेटफ़ॉर्म को प्रश्न भेजने वाले पत्रकारों को साझा किए गए एक स्वचालित संदेश के अनुसार, यह "**उपयोगकर्ता गोपनीयता और अभिव्यक्ति एवं सभा की स्वतंत्रता जैसे मानवाधिकारों**" के प्रति प्रतिबद्ध है।

Deep imprint
गहरी छाप

- The latter manifested in its decision to quickly challenge a **week-long ban in India** starting **June 16**.
  यह प्रतिबद्धता **16 जून** से भारत में लगाए गए **एक सप्ताह के प्रतिबंध** को तुरंत चुनौती देने के निर्णय में दिखाई दी।

- The ban followed concerns from the **National Testing Agency (NTA)**.
  यह प्रतिबंध **राष्ट्रीय परीक्षा एजेंसी (NTA)** की चिंताओं के बाद लगाया गया।
- The NTA feared that exam paper leak related frauds, made possible by editing features that allow users to backdate newly uploaded documents, may cause mass confusion.
  NTA को आशंका थी कि नए अपलोड किए गए दस्तावेजों को पिछली तारीख का दिखाने वाली एडिटिंग सुविधा के कारण परीक्षा-पत्र लीक से जुड़े धोखाधड़ी मामलों से व्यापक भ्रम पैदा हो सकता है।
- Telegram lost its petition in the **Delhi High Court** seeking to overturn this ban.
  इस प्रतिबंध को हटाने की मांग वाली टेलीग्राम की याचिका **दिल्ली उच्च न्यायालय** में खारिज हो गई।
- Just like **Meta** and **X**, a billionaire founder's personal philosophies have left a deep imprint on the app's functioning.
  मेटा और **एक्स** की तरह, एक अरबपति संस्थापक के व्यक्तिगत विचारों ने ऐप के संचालन पर गहरी छाप छोड़ी है।
- Mr. Durov said the firm loses "**tens of millions of dollars**" in India.
  श्री ड्यूरोव ने कहा कि कंपनी भारत में "**कई करोड़ डॉलर**" का नुकसान उठाती है।
- This estimate is consistent with its **15 crore-strong user base** and the likely hundreds of terabytes of data travelling through the platform each day.
  यह अनुमान इसके **15 करोड़ उपयोगकर्ताओं** और प्रतिदिन प्लेटफॉर्म से गुजरने वाले सैकड़ों टेराबाइट डेटा के अनुरूप है।
- Unlike Meta and X, which are part of a diversified galaxy of firms, Telegram is purely **messaging-focused**.
  मेटा और एक्स के विपरीत, जो विविध व्यवसायों वाले समूहों का हिस्सा हैं, टेलीग्राम पूरी तरह **मैसेजिंग-केंद्रित** कंपनी है।
- That may have naturally incentivised the firm to vigorously fight bans and restrictions wherever possible.
  इस कारण कंपनी को जहां भी संभव हो, प्रतिबंधों और सीमाओं के खिलाफ मजबूती से लड़ने की प्रेरणा मिली होगी।
- But that confrontation has come with little representation.
  लेकिन इस टकराव के साथ सीमित प्रतिनिधित्व भी जुड़ा रहा है।
- Even in a market where the firm loses millions of dollars, it has only a handful of employees, mostly to liaise with the **Union government**.
  यहाँ तक कि ऐसे बाज़ार में भी जहाँ कंपनी लाखों डॉलर खोती है, उसके पास केवल कुछ कर्मचारी हैं, जो मुख्यतः **केंद्र सरकार** के साथ समन्वय के लिए हैं।
- It has been embroiled in **copyright-related cases** at a massive scale, for instance with some Hindi newspaper publishers.
  यह बड़े पैमाने पर **कॉपीराइट संबंधी मामलों** में भी उलझी रही है, जैसे कुछ हिंदी समाचारपत्र प्रकाशकों के साथ।
- It ended up making concessions.
  अंततः इसे कुछ रियायतें देनी पड़ीं।
- But the last-minute participation in court was also visible in **Brazil**, where it had no personnel or legal representation until a judge blocked the platform entirely.
  लेकिन अंतिम समय में अदालत में भागीदारी की स्थिति **ब्राज़ील** में भी देखी गई, जहाँ प्लेटफ़ॉर्म पर पूर्ण प्रतिबंध लगाए जाने तक उसका कोई कर्मचारी या कानूनी प्रतिनिधि नहीं था।
- Mr. Durov, a **French-Emirati-Russian citizen**, was himself arrested in **France** for allegedly lax moderation of child sex abuse and exploitation material on the platform.
  फ्रांसीसी-अमीराती-रूसी नागरिक श्री ड्यूरोव को **फ्रांस** में प्लेटफॉर्म पर बाल यौन शोषण सामग्री के कथित रूप से ढीले मॉडरेशन के आरोप में गिरफ्तार किया गया था।
- A result of not having diversified business interests is that the firm gets to speak its mind.
  विविध व्यावसायिक हित न होने का एक परिणाम यह है कि कंपनी खुलकर अपनी बात कह सकती है।

- That is certainly not the case with firms like **Meta** and **Google**.
  यह स्थिति **मेटा** और **गूगल** जैसी कंपनियों में नहीं है।
- These firms are often in a balancing act with the Union government in cases like censorship because they have a vast array of digital revenues at risk.
  ये कंपनियाँ सेंसरशिप जैसे मामलों में केंद्र सरकार के साथ संतुलन बनाकर चलती हैं क्योंकि उनकी विशाल डिजिटल आय दांव पर लगी होती है।
- Relenting to demands and a give-and-take approach to a relationship with the state is typical of the **Big Tech giants**.
  मांगों के आगे झुकना और सरकार के साथ लेन-देन आधारित संबंध रखना **बिग टेक कंपनियों** की सामान्य विशेषता है।
- Not Telegram.
  लेकिन टेलीग्राम ऐसा नहीं करता।
- The firm's official **X handle** quickly responded with open derision to the ban.
  कंपनी के आधिकारिक **X अकाउंट** ने प्रतिबंध पर खुली व्यंग्यात्मक प्रतिक्रिया दी।
- At the same time, advocates at **Khaitan & Co.** were making a legal case to quash the ban in court.
  उसी समय **खैतान एंड कंपनी** के वकील अदालत में प्रतिबंध हटाने के लिए कानूनी लड़ाई लड़ रहे थे।
- "Over **300,000 people** die of drowning each year."
  "हर साल **3,00,000 से अधिक लोग** डूबने से मरते हैं।"
- "In order to protect society, it is now illegal to consume or possess water," the account posted on **June 17**.
  "समाज की रक्षा के लिए अब पानी पीना या अपने पास रखना अवैध कर दिया गया है," अकाउंट ने **17 जून** को पोस्ट किया।
- "Your government is also considering banning solid food, as it presents a needless choking hazard."
  "आपकी सरकार ठोस भोजन पर भी प्रतिबंध लगाने पर विचार कर रही है, क्योंकि उससे गला रुकने का खतरा है।"
- "You are not an adult. You are a baby. Eat the baby food," it added.
  उसने आगे कहा, "आप वयस्क नहीं हैं। आप एक शिशु हैं। शिशु आहार खाइए।"

GS III: S&T

The plague was deadly even before farming's rise

Scientists have found evidence of plague outbreaks among hunter-gatherers near Lake Baikal in Siberia dating back 5,500 years. The findings challenge the old belief that the plague only became a major threat once humans began living in dense, crowded farming communities. The team analysed ancient DNA and estimated an infection rate of 39%. However, the strains lacked the genes needed to be spread by flea bites, suggesting they moved directly from person to person.

21J6. The plague was deadly even before farming's rise

कृषि के उदय से पहले भी प्लेग घातक था

- Scientists have found evidence of **plague outbreaks** among **hunter-gatherers** near **Lake Baikal** in **Siberia** dating back **5,500 years**.
  वैज्ञानिकों ने **साइबेरिया** स्थित **लेक बैकाल** के निकट रहने वाले **शिकारी-संग्रहकर्ता समुदायों** में लगभग **5,500 वर्ष पुराने प्लेग प्रकोपों** के प्रमाण खोजे हैं।
- The findings challenge the old belief that the **plague** only became a major threat once humans began living in dense, crowded **farming communities**.
  ये निष्कर्ष उस पुरानी धारणा को चुनौती देते हैं कि **प्लेग** केवल तब एक बड़ा खतरा बना जब मनुष्य घनी आबादी वाली **कृषि समुदायों** में रहने लगे।
- The team analysed **ancient DNA** and estimated an **infection rate** of **39%**.

शोध दल ने **प्राचीन डीएनए** का विश्लेषण किया और **संक्रमण दर** लगभग **39%** होने का अनुमान लगाया।

- However, the strains lacked the genes needed to be spread by **flea bites**.
  हालाँकि, इन जीवाणु उपभेदों में **पिस्सुओं के काटने** के माध्यम से फैलने के लिए आवश्यक जीन मौजूद नहीं थे।
- This suggests they moved directly from **person to person**.
  इससे संकेत मिलता है कि यह संक्रमण सीधे **एक व्यक्ति से दूसरे व्यक्ति** में फैला था।

Dive and resurface

Why do recessive traits from older generations suddenly resurface in one individual?

GS III: S&T

Genes work in pairs. Every person inherits two copies of most genes, one from each parent. Some gene variants, called dominant alleles, express themselves even when only one copy is present. Others, called recessive alleles, express themselves when a person inherits both copies. Someone with one recessive allele alongside a dominant one is called a carrier: they will show no sign of the trait. So a family may carry the allele for a particular eye colour, yet a single person won't display it if in every generation, each carrier is paired with someone who has the dominant allele. But when two carriers have a child together, each parent may pass on their recessive allele, and if both do, the child inherits two copies. Thus, the trait will finally express itself. Chance has a starring role. When eggs and sperm form, genes get shuffled and distributed at random, creating a vast range of possible combinations, which is why even full siblings can inherit different traits from the same parents.

Readers may send their questions / answers to science@thehindu.co.in

21J6. Why do recessive traits from older generations suddenly resurface in one individual?

पुरानी पीढ़ियों के अप्रभावी (रिसेसिव) लक्षण अचानक किसी एक व्यक्ति में पुनः क्यों दिखाई देते हैं?

- **Genes** work in pairs.
  जीन युग्मों में कार्य करते हैं।
- Every person inherits **two copies** of most genes, one from each parent.
  प्रत्येक व्यक्ति अधिकांश जीनों की **दो प्रतियाँ** प्राप्त करता है, एक प्रत्येक माता-पिता से।
- Some gene variants, called **dominant alleles**, express themselves even when only one copy is present.
  कुछ जीन रूपांतर, जिन्हें **प्रभावी एलील (Dominant Alleles)** कहा जाता है, केवल एक प्रति उपस्थित होने पर भी स्वयं को अभिव्यक्त कर देते हैं।
- Others, called **recessive alleles**, express themselves when a person inherits both copies.
  अन्य, जिन्हें **अप्रभावी एलील (Recessive Alleles)** कहा जाता है, तब अभिव्यक्त होते हैं जब व्यक्ति उनकी दोनों प्रतियाँ प्राप्त करता है।
- Someone with one **recessive allele** alongside a **dominant one** is called a **carrier**; they will show no sign of the trait.
  जिस व्यक्ति में एक **अप्रभावी एलील** और एक **प्रभावी एलील** होता है, उसे **वाहक (Carrier)** कहा जाता है; उसमें उस लक्षण का कोई बाहरी संकेत दिखाई नहीं देता।
- So a family may carry the allele for a particular **eye colour**, yet a single person won't display it if in every generation, each carrier is paired with someone who has the dominant allele.
  इस प्रकार कोई परिवार किसी विशेष **नेत्र रंग** के एलील को वहन कर सकता है, फिर भी वह लक्षण किसी व्यक्ति में दिखाई नहीं देगा यदि प्रत्येक पीढ़ी में वाहक का संयोग ऐसे व्यक्ति से हो जिसमें प्रभावी एलील मौजूद हो।
- But when **two carriers** have a child together, each parent may pass on their recessive allele, and if both do, the child inherits two copies.
  किन्तु जब **दो वाहकों** की संतान होती है, तो प्रत्येक माता-पिता अपना अप्रभावी एलील प्रदान कर सकते हैं, और यदि दोनों ऐसा करते हैं, तो संतान को उसकी दो प्रतियाँ प्राप्त होती हैं।
- Thus, the trait will finally express itself.
  इस प्रकार वह **लक्षण** अंततः अभिव्यक्त हो जाता है।
- **Chance** has a starring role.
  इस प्रक्रिया में **संयोग (Chance)** की महत्वपूर्ण भूमिका होती है।

PATRIOTIC IAS

- When **eggs and sperm** form, genes get shuffled and distributed at random, creating a vast range of possible combinations.
  जब **अंडाणु और शुक्राणु** बनते हैं, तब जीन यादृच्छिक रूप से पुनर्व्यवस्थित और वितरित होते हैं, जिससे संभावित संयोजनों की विशाल विविधता उत्पन्न होती है।
- This is why even **full siblings** can inherit different traits from the same parents.
  यही कारण है कि एक ही माता-पिता की **सगी संतानें (Full Siblings)** भी अलग-अलग लक्षण प्राप्त कर सकती हैं।

Bringing life back to a thirsty land

Once known for water scarcity, Rayadurgam in Andhra Pradesh is witnessing an ecological revival through community-led water conservation, afforestation efforts

GS III: Environment

K. Murali Kumar
muralikumar.k@thehindu.co.in

Rayadurgam in drought-prone Anantapur district in western Andhra Pradesh, along the Karnataka border, is witnessing a quiet but significant transformation. Long defined by chronic water scarcity, the region's red, sandy terrain and prolonged dry spells had often drawn comparisons with Rajasthan's desert landscapes.

Today, under the Ananta Neeru Sanrakshanam Project, the narrative is changing. More than 400 villagers, in collaboration with the Forest Department, have led a community-driven effort to restore water resources, turning once-parched land into a landscape showing signs of recovery, not only in forest areas but also on adjoining agricultural fields.

A scientific approach has guided the initiative. Traditional water bodies were restored through desilting, enhancing storage capacity and enabling groundwater recharge. Simultaneously, thousands of native saplings were planted, improving green cover and stabilising the fragile ecosystem. The impact is visible. Barren stretches are now punctuated by patches of blue and green. The initiative has attracted national attention, earning praise from Prime Minister Narendra Modi. For local communities, the change is most evident during the harsh summer months. Shepherds now lead their cattle to replenished tanks after long hours under the sun. Rayadurgam, which receives only 450-550 mm of annual rainfall, depends heavily on such conservation measures for water security. In addition to restoring tanks, small water bodies have been created within forested areas, providing drinking sources for wildlife such as sloth bears, leopards and wild boars, and helping reduce human-animal conflict.

The improved habitat now supports pollinators such as bees and butterflies, a variety of bird species and larger fauna.

A neglected stretch of land once used for dumping garbage and illegal activities has been transformed into a protected green space. Fencing along the western side of Nagara Vanam, an emerging urban forest project, has helped prevent encroachment and safeguard the area, according to forest officials.

Though not yet formally open to the public, Nagara Vanam is already attracting local residents. Despite the progress, water scarcity persists in some pockets of Rayadurgam, highlighting the need for sustained intervention. Even so, the ongoing transformation stands as a model of resilience—where science, community participation and ecological restoration are steadily rewriting the story of a once water-stressed region.

Hope springs: A variety of colourful butterflies can now be seen around the water bodies.

21J6. Bringing life back to a thirsty land
प्यासी धरती में फिर से जीवन लौटाना

- **Rayadurgam** in drought-prone **Anantapur district** in western **Andhra Pradesh**, along the **Karnataka border**, is witnessing a quiet but significant transformation.
  पश्चिमी **आंध्र प्रदेश** के सूखा-प्रभावित **अनंतपुर जिले** में स्थित **रायदुर्गम**, जो **कर्नाटक सीमा** के पास है, एक शांत लेकिन महत्वपूर्ण परिवर्तन का साक्षी बन रहा है।

- Long defined by chronic **water scarcity**, the region's red, sandy terrain and prolonged dry spells had often drawn comparisons with **Rajasthan's desert landscapes**.
  लंबे समय तक **जल संकट** से पहचाने जाने वाले इस क्षेत्र की लाल रेतीली भूमि और लंबे शुष्क काल की तुलना अक्सर **राजस्थान के रेगिस्तानी परिदृश्यों** से की जाती थी।
- Today, under the **Ananta Neeru Sanrakshanam Project**, the narrative is changing.
  आज **अनंता नीरू संरक्षणम परियोजना** के तहत यह कहानी बदल रही है।
- More than **400 villagers**, in collaboration with the **Forest Department**, have led a community-driven effort to restore water resources, turning once-parched land into a landscape showing signs of recovery, not only in forest areas but also on adjoining agricultural fields.
  वन विभाग के सहयोग से **400 से अधिक ग्रामीणों** ने जल संसाधनों के पुनर्जीवन के लिए सामुदायिक प्रयासों का नेतृत्व किया है, जिससे कभी सूखी पड़ी भूमि अब पुनरुद्धार के संकेत दिखा रही है, केवल वन क्षेत्रों में ही नहीं बल्कि आसपास के कृषि क्षेत्रों में भी।
- A scientific approach has guided the initiative.
  इस पहल का मार्गदर्शन एक **वैज्ञानिक दृष्टिकोण** ने किया है।
- Traditional **water bodies** were restored through **desilting**, enhancing storage capacity and enabling **groundwater recharge**.
  पारंपरिक **जल निकायों** को **गाद हटाने (डीसिल्टिंग)** के माध्यम से पुनर्स्थापित किया गया, जिससे उनकी जल भंडारण क्षमता बढ़ी और **भूजल पुनर्भरण** संभव हुआ।
- Simultaneously, thousands of **native saplings** were planted, improving green cover and stabilising the fragile ecosystem.
  साथ ही, हजारों **स्थानीय पौधे** लगाए गए, जिससे हरित आवरण बढ़ा और नाजुक पारिस्थितिकी तंत्र को स्थिरता मिली।
- The impact is visible.
  इसका प्रभाव स्पष्ट रूप से दिखाई दे रहा है।
- Barren stretches are now punctuated by patches of blue and green.
  बंजर क्षेत्र अब नीले और हरे रंग के हिस्सों से सुसज्जित दिखाई देते हैं।
- The initiative has attracted national attention, earning praise from **Prime Minister Narendra Modi**.
  इस पहल ने राष्ट्रीय स्तर पर ध्यान आकर्षित किया है और इसे **प्रधानमंत्री नरेंद्र मोदी** की सराहना भी प्राप्त हुई है।
- For local communities, the change is most evident during the harsh summer months.
  स्थानीय समुदायों के लिए यह परिवर्तन सबसे अधिक गर्मियों के कठिन महीनों में दिखाई देता है।
- Shepherds now lead their cattle to replenished tanks after long hours under the sun.
  चरवाहे अब लंबे समय तक धूप में रहने के बाद अपने पशुओं को पुनर्भरित जलाशयों तक ले जाते हैं।
- **Rayadurgam**, which receives only **450-550 mm** of annual rainfall, depends heavily on such conservation measures for **water security**.
  रायदुर्गम, जहां प्रतिवर्ष केवल **450-550 मिमी** वर्षा होती है, **जल सुरक्षा** के लिए ऐसे संरक्षण उपायों पर अत्यधिक निर्भर है।
- In addition to restoring tanks, small water bodies have been created within forested areas, providing drinking sources for wildlife such as **sloth bears, leopards and wild boars**, and helping reduce **human-animal conflict**.
  टैंकों के पुनर्स्थापन के अलावा, वन क्षेत्रों के भीतर छोटे जल स्रोत बनाए गए हैं, जो **भालू, तेंदुए और जंगली सूअर** जैसे वन्यजीवों को पेयजल उपलब्ध कराते हैं तथा **मानव-वन्यजीव संघर्ष** को कम करने में सहायता करते हैं।
- The improved habitat now supports pollinators such as **bees and butterflies**, a variety of bird species and larger fauna.

बेहतर हुए आवास अब **मधुमक्खियों और तितलियों** जैसे परागणकर्ताओं, विभिन्न पक्षी प्रजातियों और बड़े वन्यजीवों का समर्थन कर रहे हैं।

- A neglected stretch of land once used for dumping garbage and illegal activities has been transformed into a protected green space.
  एक उपेक्षित भूमि, जिसका कभी कचरा फेंकने और अवैध गतिविधियों के लिए उपयोग किया जाता था, अब एक संरक्षित हरित क्षेत्र में बदल गई है।
- Fencing along the western side of **Nagara Vanam**, an emerging urban forest project, has helped prevent encroachment and safeguard the area, according to forest officials.
  वन अधिकारियों के अनुसार, उभरती हुई शहरी वन परियोजना **नगरा वनम** के पश्चिमी हिस्से में की गई बाड़बंदी ने अतिक्रमण रोकने और क्षेत्र की सुरक्षा में मदद की है।
- Though not yet formally open to the public, **Nagara Vanam** is already attracting local residents.
  हालांकि **नगरा वनम** अभी औपचारिक रूप से जनता के लिए नहीं खोला गया है, फिर भी यह स्थानीय लोगों को आकर्षित कर रहा है।
- Despite the progress, **water scarcity** persists in some pockets of **Rayadurgam**, highlighting the need for sustained intervention.
  प्रगति के बावजूद, **रायदुर्गम** के कुछ क्षेत्रों में **जल संकट** अब भी बना हुआ है, जो निरंतर हस्तक्षेप की आवश्यकता को दर्शाता है।
- Even so, the ongoing transformation stands as a model of **resilience**—where **science**, **community participation** and **ecological restoration** are steadily rewriting the story of a once water-stressed region.
  फिर भी, यह जारी परिवर्तन **लचीलापन (रेज़िलिएंस)** का एक उदाहरण बनकर उभरा है, जहां **विज्ञान**, **सामुदायिक भागीदारी** और **पारिस्थितिक पुनर्स्थापन** मिलकर कभी जल-संकटग्रस्त रहे क्षेत्र की कहानी को धीरे-धीरे बदल रहे हैं।

PATRIOTIC IAS

What a 'super' El Niño might mean for India's monsoon

Setting the El Niño years since 1950 against IMD's long-period rainfall series shows that, of roughly two dozen such years, about 15 produced a below-normal monsoon and around 10 tipped into outright deficiency

GS III: Environment

Jacob Koshy

The U.S. National Oceanic and Atmospheric Administration (NOAA) confirmed this month that an El Niño has formed in the equatorial Pacific Ocean, and placed the odds at about 63% that it will strengthen into a "very strong" – colloquially, a "super" – event by the northern winter. India's June rainfall, until the 16th, is roughly 35% below normal. The combination has revived a question that returns with every El Niño year: how reliably do the strongest of these events translate into a failed Indian monsoon?

An El Niño is the periodic warming of the central and eastern equatorial Pacific that tends to weaken the South Asian monsoon and whose potency is measured by how far sea-surface temperatures in a reference patch of the Pacific climb above their long-term average.

D.S. Pai, Chief Forecaster at the India Meteorological Department's (IMD) Regional Meteorological Centre in Chennai, set out the gradations: a departure of 0.5-1° C is 'weak,' 1-1.5° is 'moderate,' 1.5-2° is 'strong', and anything beyond 2° is 'very strong.' He added that some forecasts suggest the current event could approach a record of around 2.5°.

The trade winds that normally drive warm surface water westward towards Asia weaken; the eastern Pacific warms, which in turn slackens the winds further generating a feedback loop that amplifies the anomaly. Scientists note that a warmer baseline ocean, the result of long-term climate change, has raised the heat available to recent events, making them more intense than earlier ones.

In the long term however, such events remain rare. Only a handful, the instrumental record shows, have crossed the 2° threshold – 1972-73, 1982-83, 1997-98 and 2015-16.

El Niño also follows a consistent calendar, which bears directly on its monsoon impact. "It starts in one spring season, peaks in the winter, and very fast it weakens in the next spring," Pai said, noting that an event very occasionally persists into a second year. Because the warming establishes only in spring and matures later, he said, its suppressing effect on the monsoon is felt mainly in the middle and later part of the June-September season rather than at its start. June rainfall and the pace of onset, he added, are governed largely by local and regional factors – so a weak June, including the present 35% shortfall, is not by itself a reliable guide to the season.

The 1982-83 El Niño was associated with severe drought and bushfires in Australia and dry conditions across Indonesia. The 1997-98 event drove severe forest fires and choking haze across Indonesia and Southeast Asia, killed an estimated one-sixth of the world's coral, and helped push global temperatures to a record. The 2015-16 episode triggered mass bleaching of the Great Barrier Reef, made 2016 the warmest year then recorded, and catalysed severe drought and food shortages across southern and eastern Africa.

Paradoxically, the 1997-98 El Niño actually brought 2% more rains than usual for India's summer monsoon months. This was due to an effect in the Indian Ocean, called the Indian Ocean Dipole, that brought in warm water pools, countering the Pacific-induced drying. Since then, forecasters have consistently watched for the Dipole's waxing and waning.

One of the reasons, IMD Director General, M. Mohapatra has said, for a monsoon deficit this year is that the Dipole won't be strong enough to counter the Niño.

Setting the El Niño years since 1950 against IMD's long-period rainfall series shows that, of roughly two dozen such years, about 15 produced a below-normal monsoon and around 10 tipped into outright deficiency, i.e. seasonal rainfall below 90% of the long-period average. This correlation is strong enough to shape food and fiscal planning.

Several of India's worst droughts were in El Niño years, among them 1972, 1982, 2009, and 2015.

El Niño also redistributes the world's tropical cyclones rather than simply adding to them. NOAA's research arm notes that the warming generally suppresses Atlantic hurricane activity by strengthening vertical wind shear – the change in wind speed and direction with height that can tear a developing storm apart – while making conditions more favourable for hurricanes in the central and eastern Pacific. The effect tends to scale with the event's strength.

For the basins closer to Asia, the signal runs the other way: forecasters note that during an El Niño, the odds of a Pacific storm intensifying into a super typhoon rise appreciably, though such systems typically recurve towards East Asia and the Americas rather than the Indian subcontinent.

El Niño follows a consistent calendar, which bears directly on its monsoon impact. THE HINDU

21J6. What a 'super' El Niño might mean for India's monsoon
'सुपर' एल नीनो का भारत के मानसून पर क्या प्रभाव पड़ सकता है

- The **U.S. National Oceanic and Atmospheric Administration (NOAA)** confirmed this month that an **El Niño** has formed in the **equatorial Pacific Ocean**.
  अमेरिकी राष्ट्रीय महासागरीय एवं वायुमंडलीय प्रशासन (NOAA) ने इस माह पुष्टि की है कि **भूमध्यरेखीय प्रशांत महासागर** में **एल नीनो** विकसित हो चुका है।
- It placed the odds at about **63%** that it will strengthen into a **"very strong"** or colloquially a **"super El Niño"** by the northern winter.
  NOAA के अनुसार, इसके उत्तरी गोलार्ध की सर्दियों तक **"अत्यंत प्रबल"** अथवा सामान्य भाषा में **"सुपर एल नीनो"** बनने की संभावना लगभग **63%** है।
- India's **June rainfall**, until the 16th, was roughly **35% below normal**.
  भारत में **16 जून** तक का **जून माह का वर्षापात** सामान्य से लगभग **35% कम** दर्ज किया गया।
- This combination has revived a recurring question: how reliably do the strongest El Niño events lead to a weak **Indian monsoon**?

इस परिस्थिति ने एक बार फिर यह प्रश्न खड़ा कर दिया है कि क्या सबसे प्रबल **एल नीनो घटनाएँ** वास्तव में भारतीय **मानसून** को कमजोर कर देती हैं।

What is El Niño?
एल नीनो क्या है?

- An **El Niño** is the periodic warming of the **central and eastern equatorial Pacific Ocean**.
  एल नीनो मध्य और पूर्वी **भूमध्यरेखीय प्रशांत महासागर** के समय-समय पर होने वाले असामान्य ऊष्मीकरण को कहा जाता है।
- It generally tends to weaken the **South Asian monsoon**.
  यह सामान्यतः **दक्षिण एशियाई मानसून** को कमजोर करने की प्रवृत्ति रखता है।
- Its intensity is measured by how much the **sea surface temperatures** in a reference region of the Pacific rise above their long-term average.
  इसकी तीव्रता को इस आधार पर मापा जाता है कि प्रशांत महासागर के एक निर्धारित क्षेत्र में **समुद्री सतह का तापमान** अपने दीर्घकालिक औसत से कितना अधिक बढ़ता है।
- According to **D.S. Pai**, Chief Forecaster at the **India Meteorological Department (IMD)** Regional Meteorological Centre, Chennai, the categories are clearly defined.
  भारतीय मौसम विज्ञान विभाग (IMD) के चेन्नई स्थित क्षेत्रीय मौसम विज्ञान केंद्र के मुख्य पूर्वानुमानकर्ता **डी.एस. पाई** के अनुसार इसकी विभिन्न श्रेणियाँ निर्धारित हैं।
- A temperature departure of **0.5°C–1°C** is classified as **weak**.
  0.5°C से 1°C तक की तापमान वृद्धि को **कमज़ोर (Weak)** एल नीनो माना जाता है।
- A departure of **1°C–1.5°C** is considered **moderate**.
  1°C से 1.5°C तक की वृद्धि को **मध्यम (Moderate)** श्रेणी में रखा जाता है।
- A departure of **1.5°C–2°C** is classified as **strong**.
  1.5°C से 2°C तक की वृद्धि को **प्रबल (Strong)** एल नीनो कहा जाता है।
- Anything above **2°C** is considered **very strong**.
  2°C से अधिक की वृद्धि को **अत्यंत प्रबल (Very Strong)** एल नीनो माना जाता है।
- Mr. Pai added that some forecasts suggest the current event could approach **2.5°C**, which would be near a historical record.
  श्री पाई ने बताया कि कुछ पूर्वानुमानों के अनुसार वर्तमान घटना **2.5°C** तक पहुँच सकती है, जो ऐतिहासिक रिकॉर्ड के निकट होगी।

How does El Niño develop?
एल नीनो कैसे विकसित होता है?

- Normally, **trade winds** push warm surface waters westward towards Asia.
  सामान्य परिस्थितियों में **व्यापारिक पवनें (Trade Winds)** गर्म सतही जल को पश्चिम की ओर एशिया की दिशा में धकेलती हैं।
- During an El Niño event, these winds weaken.
  एल नीनो की स्थिति में ये पवनें कमजोर पड़ जाती हैं।
- As a result, the **eastern Pacific Ocean** becomes warmer.
  इसके परिणामस्वरूप **पूर्वी प्रशांत महासागर** का तापमान बढ़ जाता है।
- This warming further weakens the winds, creating a **positive feedback loop** that intensifies the anomaly.
  यह ऊष्मीकरण पवनों को और अधिक कमजोर करता है, जिससे एक **सकारात्मक प्रतिपुष्टि चक्र (Positive Feedback Loop)** बनता है और स्थिति और तीव्र हो जाती है।
- Scientists note that **long-term climate change** has warmed the oceans, increasing the amount of heat available to El Niño events.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

वैज्ञानिकों का मानना है कि **दीर्घकालिक जलवायु परिवर्तन** ने महासागरों को गर्म कर दिया है, जिससे एल नीनो घटनाओं के लिए उपलब्ध ऊष्मा की मात्रा बढ़ गई है।

- This has made recent El Niño episodes more intense than many earlier events.
  इसी कारण हाल की एल नीनो घटनाएँ पहले की अनेक घटनाओं की तुलना में अधिक तीव्र रही हैं।

How rare are very strong El Niño events?
अत्यंत प्रबल एल नीनो घटनाएँ कितनी दुर्लभ हैं?

- Despite increasing temperatures, **very strong El Niño events** remain relatively rare.
  तापमान वृद्धि के बावजूद **अत्यंत प्रबल एल नीनो घटनाएँ** अभी भी अपेक्षाकृत दुर्लभ हैं।
- Instrumental records show that only a few events have crossed the **2°C threshold**.
  उपलब्ध प्रेक्षणीय अभिलेख बताते हैं कि केवल कुछ ही घटनाएँ **2°C की सीमा** को पार कर सकी हैं।
- These occurred in **1972–73**, **1982–83**, **1997–98**, and **2015–16**.
  ऐसी प्रमुख घटनाएँ **1972–73**, **1982–83**, **1997–98** तथा **2015–16** में दर्ज की गई थीं।

Why does timing matter for the monsoon?
मानसून के लिए समय का महत्व क्यों है?

- El Niño follows a relatively predictable seasonal cycle.
  एल नीनो एक अपेक्षाकृत निश्चित मौसमी चक्र का पालन करता है।

- According to Mr. Pai, it usually begins during **spring**, reaches its peak during **winter**, and weakens rapidly in the following spring.
  श्री पाई के अनुसार यह सामान्यतः **वसंत ऋतु** में प्रारम्भ होता है, **शीत ऋतु** में चरम पर पहुँचता है और अगले वसंत तक तेजी से कमजोर हो जाता है।
- Only occasionally does an El Niño event continue into a second year.
  केवल कुछ विशेष परिस्थितियों में ही एल नीनो दूसरे वर्ष तक बना रहता है।
- Because the warming develops gradually during spring and matures later, its impact on the **Indian monsoon** is usually felt more strongly during the **middle and latter part** of the June–September season.
  चूँकि इसका ऊष्मीकरण धीरे-धीरे वसंत ऋतु में विकसित होता है और बाद में परिपक्व होता है, इसलिए इसका प्रभाव सामान्यतः जून से सितंबर के मानसून काल के **मध्य और अंतिम चरण** में अधिक दिखाई देता है।
- Its effect is generally less significant at the beginning of the season.
  मौसम के प्रारम्भिक चरण में इसका प्रभाव अपेक्षाकृत कम होता है।
- Mr. Pai emphasised that **June rainfall** and the pace of **monsoon onset** are influenced largely by local and regional factors.
  श्री पाई ने स्पष्ट किया कि **जून की वर्षा** तथा **मानसून के आगमन की गति** मुख्यतः स्थानीय और क्षेत्रीय कारकों से प्रभावित होती है।
- Therefore, a weak June — including the current **35% rainfall deficit** — is not by itself a reliable indicator of how the entire monsoon season will perform.
  इसलिए केवल जून माह में वर्षा की कमी, जिसमें वर्तमान **35% वर्षा घाटा** भी शामिल है, पूरे मानसून सत्र के प्रदर्शन का विश्वसनीय संकेतक नहीं माना जा सकता।

Major impacts of strong El Niño events around the world
विश्वभर में प्रबल एल नीनो घटनाओं के प्रमुख प्रभाव

- The **1982-83 El Niño** was associated with severe **drought** and **bushfires** in **Australia** and dry conditions across **Indonesia**.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

1982-83 के एल नीनो का संबंध **ऑस्ट्रेलिया** में भीषण **सूखे** और **वनाग्नियों** तथा **इंडोनेशिया** में व्यापक शुष्क परिस्थितियों से था।

- The **1997-98 El Niño** caused severe **forest fires** and choking **haze** across **Indonesia** and **Southeast Asia**.
  1997-98 के एल नीनो ने **इंडोनेशिया** और **दक्षिण-पूर्व एशिया** में भीषण **वनाग्नियों** तथा घने **धुएँ (हैज़)** की स्थिति उत्पन्न की।
- It killed an estimated **one-sixth of the world's coral reefs** and helped push global temperatures to a record level.
  इस घटना के कारण विश्व के लगभग **एक-छठे प्रवाल भित्तियों (Coral Reefs)** को क्षति पहुँची तथा वैश्विक तापमान रिकॉर्ड स्तर तक पहुँच गया।
- The **2015-16 El Niño** triggered mass **bleaching of the Great Barrier Reef**.
  2015-16 के एल नीनो ने **ग्रेट बैरियर रीफ** में व्यापक स्तर पर **कोरल ब्लीचिंग** उत्पन्न की।
- It also made **2016** the warmest year recorded at that time.
  इसके परिणामस्वरूप **2016** उस समय तक का सबसे गर्म वर्ष दर्ज किया गया।
- The event also contributed to severe **drought** and **food shortages** across **southern and eastern Africa**.
  इस घटना ने **दक्षिणी और पूर्वी अफ्रीका** में गंभीर **सूखे** और **खाद्य संकट** को भी बढ़ावा दिया।

The role of the Indian Ocean Dipole (IOD)
हिंद महासागर द्विध्रुव (IOD) की भूमिका

- Paradoxically, the **1997-98 El Niño** brought about **2% more rainfall** than normal during India's summer monsoon season.
  विरोधाभासी रूप से, **1997-98 के एल नीनो** के दौरान भारत में ग्रीष्मकालीन मानसून के समय सामान्य से लगभग **2% अधिक वर्षा** हुई थी।
- This occurred because of a phenomenon in the **Indian Ocean** known as the **Indian Ocean Dipole (IOD)**.
  ऐसा **हिंद महासागर** में सक्रिय **हिंद महासागर द्विध्रुव (Indian Ocean Dipole - IOD)** नामक परिघटना के कारण हुआ।
- The IOD generated **warm water pools**, which counteracted the drying influence of the Pacific Ocean.
  IOD ने **गर्म जल क्षेत्रों** का निर्माण किया, जिसने प्रशांत महासागर से उत्पन्न शुष्क प्रभाव को संतुलित कर दिया।
- Since then, forecasters have closely monitored the strengthening and weakening of the **IOD**.
  तब से मौसम वैज्ञानिक **IOD** की तीव्रता और कमजोरी पर लगातार निगरानी रखते हैं।
- According to **M. Mohapatra**, Director General of the **India Meteorological Department (IMD)**, one reason for the expected monsoon deficit this year is that the **IOD** is unlikely to be strong enough to offset the effects of El Niño.
  भारतीय मौसम विज्ञान विभाग (IMD) के महानिदेशक **एम. मोहापात्र** के अनुसार, इस वर्ष संभावित मानसून कमी का एक प्रमुख कारण यह है कि **IOD** एल नीनो के प्रभाव को संतुलित करने के लिए पर्याप्त रूप से मजबूत नहीं होग

El Niño and the Indian monsoon record
एल नीनो और भारतीय मानसून का ऐतिहासिक रिकॉर्ड

- A comparison of **El Niño years since 1950** with the IMD's long-period rainfall data shows a strong relationship between El Niño and weak monsoons.
  1950 के बाद के एल नीनो वर्षों की तुलना IMD के दीर्घकालिक वर्षा आँकड़ों से करने पर एल नीनो और कमजोर मानसून के बीच मजबूत संबंध दिखाई देता है।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- Out of roughly **two dozen El Niño years**, about **15 years** recorded **below-normal monsoon rainfall**.
  लगभग **दो दर्जन एल नीनो वर्षों** में से करीब **15 वर्षों** में **सामान्य से कम मानसूनी वर्षा** दर्ज की गई।
- Around **10 years** experienced a **deficient monsoon**, where seasonal rainfall fell below **90% of the long-period average**.
  लगभग **10 वर्षों** में **मानसूनी वर्षा की कमी (Deficient Monsoon)** रही, जिसमें मौसमी वर्षा दीर्घकालिक औसत के **90% से कम** रही।
- This relationship is strong enough to influence **food security planning** and **fiscal policy decisions**.
  यह संबंध इतना महत्वपूर्ण है कि इसका प्रभाव **खाद्य सुरक्षा योजना** और **राजकोषीय नीति निर्माण** पर पड़ता है।
- Several of India's most severe droughts occurred during **El Niño years**, including **1972**, **1982**, **2009**, and **2015**.
  भारत के कई भीषण सूखे **एल नीनो वर्षों** में पड़े, जिनमें **1972**, **1982**, **2009** और **2015** प्रमुख हैं।

El Niño and tropical cyclones
एल नीनो और उष्णकटिबंधीय चक्रवात

- El Niño does not simply increase the number of tropical cyclones; instead, it **redistributes cyclone activity** across different ocean basins.
  एल नीनो केवल चक्रवातों की संख्या नहीं बढ़ाता, बल्कि विभिन्न महासागरीय क्षेत्रों में **चक्रवाती गतिविधियों का पुनर्वितरण** करता है।
- According to the research division of **NOAA**, El Niño generally suppresses **Atlantic hurricane activity**.
  NOAA के अनुसंधान विभाग के अनुसार, एल नीनो सामान्यतः **अटलांटिक महासागर में हरिकेन गतिविधि** को कम करता है।
- This happens because El Niño strengthens **vertical wind shear**, which refers to changes in wind speed and direction with height.
  ऐसा इसलिए होता है क्योंकि एल नीनो **ऊर्ध्वाधर पवन कर्तन (Vertical Wind Shear)** को बढ़ाता है, अर्थात ऊँचाई के साथ पवन की गति और दिशा में परिवर्तन।
- Strong wind shear can disrupt and weaken developing storms.
  अधिक पवन कर्तन विकसित हो रहे तूफानों को कमजोर या नष्ट कर सकता है।
- At the same time, El Niño creates more favourable conditions for **hurricanes in the central and eastern Pacific Ocean**.
  वहीं दूसरी ओर, एल नीनो **मध्य और पूर्वी प्रशांत महासागर** में हरिकेन बनने के लिए अधिक अनुकूल परिस्थितियाँ उत्पन्न करता है।
- The magnitude of this effect generally increases with the strength of the El Niño event.
  यह प्रभाव सामान्यतः एल नीनो की तीव्रता बढ़ने के साथ अधिक मजबूत होता जाता है।

Impact on the Pacific and Asian region
प्रशांत एवं एशियाई क्षेत्र पर प्रभाव

- For ocean basins closer to **Asia**, the relationship works differently.
  एशिया के निकट स्थित महासागरीय क्षेत्रों में इसका प्रभाव कुछ भिन्न होता है।
- Forecasters note that during an El Niño, the likelihood of a Pacific tropical storm intensifying into a **super typhoon** increases significantly.
  मौसम विशेषज्ञों के अनुसार, एल नीनो के दौरान प्रशांत महासागर के उष्णकटिबंधीय तूफानों के **सुपर टाइफून** में परिवर्तित होने की संभावना काफी बढ़ जाती है।
- However, such systems usually curve towards **East Asia** or the **Americas** rather than moving towards the **Indian subcontinent**.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

हालाँकि ऐसे शक्तिशाली तूफान सामान्यतः **पूर्वी एशिया** या **अमेरिकी महाद्वीपों** की ओर मुड़ जाते हैं, न कि **भारतीय उपमहाद्वीप** की दिशा में।

- Thus, while El Niño strongly influences global weather patterns, its impact on India depends on several interacting factors, particularly the strength of the **Indian Ocean Dipole**, regional atmospheric conditions, and the timing of monsoon development.

अतः यद्यपि एल नीनो वैश्विक मौसम प्रणालियों को व्यापक रूप से प्रभावित करता है, भारत पर इसका प्रभाव कई परस्पर जुड़े कारकों पर निर्भर करता है, विशेष रूप से **हिंद महासागर द्विध्रुव (IOD)** की तीव्रता, क्षेत्रीय वायुमंडलीय परिस्थितियों तथा मानसून के विकास के समय पर।

GS III: Environment

War in Ukraine hit different mammals differently

Using camera traps, researchers in Ukraine compared animal activity during the 2022 Russian occupation to peacetime data from 2021 in the Chornobyl Exclusion Zone. They found mammals adjusted their habits quickly to survive. For instance, red deer and foxes significantly reduced their activity at night. When combat intensified, roe deer activity dropped while brown hares were spotted more often. And while wild boars avoided military sites, lynx and foxes stayed closer to human settlements.

21J6. War in Ukraine hit different mammals differently

यूक्रेन युद्ध ने विभिन्न स्तनधारी प्रजातियों को अलग-अलग प्रकार से प्रभावित किया

- Using **camera traps**, researchers in **Ukraine** compared animal activity during the **2022 Russian occupation** to peacetime data from **2021** in the **Chornobyl Exclusion Zone**.

कैमरा ट्रैपों का उपयोग करते हुए **यूक्रेन** के शोधकर्ताओं ने **चोर्नोबिल बहिष्करण क्षेत्र** में **2022 के रूसी कब्ज़े** के दौरान पशुओं की गतिविधियों की तुलना **2021** के शांतिकालीन आँकड़ों से की।

- They found **mammals** adjusted their habits quickly to survive.

उन्होंने पाया कि **स्तनधारी जीवों** ने जीवित रहने के लिए अपनी आदतों में शीघ्रता से परिवर्तन कर लिया।

- For instance, **red deer** and **foxes** significantly reduced their activity at night.

उदाहरण के लिए, **लाल हिरण (रेड डियर)** और **लोमड़ियों** ने रात्रि के समय अपनी गतिविधियों में उल्लेखनीय कमी कर दी।

- When **combat intensified**, **roe deer** activity dropped while **brown hares** were spotted more often.

जब **युद्ध गतिविधियाँ तेज़ हुईं**, तब **रो हिरण** की गतिविधियाँ कम हो गईं, जबकि **भूरे खरगोश (ब्राउन हेयर)** अधिक बार दिखाई देने लगे।

- And while **wild boars** avoided **military sites**, **lynx** and **foxes** stayed closer to **human settlements**.

जहाँ **जंगली सूअर सैन्य स्थलों** से दूर रहे, वहीं **लिंक्स** और **लोमड़ियाँ मानवीय बस्तियों** के अधिक निकट देखी गईं।

Maker of *Battlefield* says film is very much related to present-day conflict in Manipur

PCS

The Hindu Bureau
GUWAHATI

An anti-war documentary from the ethnic conflict-scarred Manipur is set to be screened at the ongoing 19th Mumbai International Film Festival (MIFF) on Saturday.

The seven-day MIFF, South Asia's oldest and largest festival dedicated to documentary, short fiction, and animation films, ends on Sunday.

Manipuri filmmaker Borun Thokchom's *Battlefield*, an 80-minute documentary that revisits the battles of Imphal and Kohima during World War II, took 13 years to complete. Another film from Manipur, Trishul Yumnam and Yaso Sharma's 15-minute animation *Story of a Forest*, has also made it to MIFF's international competition.

A scene from Borun Thokchom's *Battlefield*. SPECIAL ARRANGEMENT

Present-day Manipur and Nagaland were theatres of World War II in 1944. Fought between the Allied forces and the Imperial Japanese Army alongside Subhash Chandra Bose's Indian National Army, the battles named after the State capitals are considered a turning point in the war in Asia.

Locals, however, continue to feel the impact of the battles.

"World War II turned Manipur into a frontline battlefield. Villages were bombed, people were displaced, and locals watched big foreign armies fight for their own freedom. That experience gave people new ideas about self-rule and nationhood," Mr. Thokchom told *The Hindu*.

"Soon after the war, Manipur was merged with India. The destruction caused by the war and that forced merger left behind a deep anger, and that anger grew into the ethnic and separatist movements that have lasted ever since," he said.

Ethnic violence

Battlefield was almost complete when the ethnic violence between the Meitei and the Kuki-Zo communities erupted in Manipur on May 3, 2023. It eventually qualified for MIFF 2026.

Mr. Thokchom said the subject of his documentary may be a war fought eight decades ago, but "it is very much related" to the present-day conflict in Manipur.

20J6. Maker of Battlefield says film is very much related to present-day conflict in Manipur

बैटलफील्ड के निर्माता का कहना है कि यह फिल्म मणिपुर के वर्तमान संघर्ष से गहराई से जुड़ी हुई है

- An **anti-war documentary** from the ethnic conflict-scarred **Manipur** is set to be screened at the ongoing **19th Mumbai International Film Festival (MIFF)** on Saturday.
  जातीय संघर्ष से प्रभावित **मणिपुर** की एक **युद्ध-विरोधी डॉक्यूमेंट्री** का प्रदर्शन शनिवार को आयोजित हो रहे **19वें मुंबई अंतर्राष्ट्रीय फिल्म महोत्सव (MIFF)** में किया जाएगा।
- The seven-day **MIFF**, South Asia's oldest and largest festival dedicated to documentary, short fiction, and animation films, ends on Sunday.
  सात दिवसीय **MIFF**, जो डॉक्यूमेंट्री, लघु कथा और एनीमेशन फिल्मों को समर्पित दक्षिण एशिया का सबसे पुराना और सबसे बड़ा महोत्सव है, रविवार को समाप्त होगा।
- Manipuri filmmaker **Borun Thokchom's Battlefield**, an 80-minute documentary that revisits the battles of **Imphal** and **Kohima** during **World War II**, took 13 years to complete.
  मणिपुरी फिल्म निर्माता **बोरुन थोकचोम** की **बैटलफील्ड**, जो **द्वितीय विश्व युद्ध** के दौरान **इम्फाल** और **कोहिमा** की लड़ाइयों को पुनः प्रस्तुत करने वाली 80 मिनट की डॉक्यूमेंट्री है, को पूरा होने में 13 वर्ष लगे।
- Another film from **Manipur**, **Trishul Yumnam** and **Yaso Sharma's** 15-minute animation **Story of a Forest**, has also made it to MIFF's international competition.
  मणिपुर की एक अन्य फिल्म, **त्रिशूल युमनाम** और **यासो शर्मा** की 15 मिनट की एनीमेशन फिल्म **स्टोरी ऑफ अ फॉरेस्ट**, भी MIFF की अंतरराष्ट्रीय प्रतियोगिता में शामिल हुई है।
- Present-day **Manipur** and **Nagaland** were theatres of **World War II** in 1944.
  वर्तमान **मणिपुर** और **नागालैंड** वर्ष 1944 में **द्वितीय विश्व युद्ध** के प्रमुख युद्धक्षेत्र थे।
- Fought between the **Allied forces** and the **Imperial Japanese Army** alongside **Subhash Chandra Bose's Indian National Army**, the battles named after the State capitals are considered a turning point in the war in Asia.
  मित्र राष्ट्रों की सेनाओं और **शाही जापानी सेना** के बीच, **सुभाष चंद्र बोस की भारतीय राष्ट्रीय सेना** के साथ लड़ी

गई ये लड़ाइयाँ, जो राज्य की राजधानियों के नाम पर जानी जाती हैं, एशिया में युद्ध का एक निर्णायक मोड़ मानी जाती हैं।

- Locals, however, continue to feel the impact of the battles.
  हालांकि, स्थानीय लोग आज भी इन लड़ाइयों के प्रभाव को महसूस करते हैं।
- "**World War II** turned **Manipur** into a frontline battlefield.
  "**द्वितीय विश्व युद्ध** ने **मणिपुर** को एक अग्रिम मोर्चे के युद्धक्षेत्र में बदल दिया।
- Villages were bombed, people were displaced, and locals watched big foreign armies fight for their own freedom.
  गांवों पर बमबारी हुई, लोग विस्थापित हुए, और स्थानीय लोगों ने बड़ी विदेशी सेनाओं को अपनी स्वतंत्रता के लिए लड़ते देखा।
- That experience gave people new ideas about self-rule and nationhood," Mr. Thokchom told The Hindu.
  उस अनुभव ने लोगों को स्वशासन और राष्ट्रवाद के बारे में नए विचार दिए," श्री थोकचोम ने कहा।
- "Soon after the war, **Manipur** was merged with **India**.
  "युद्ध के तुरंत बाद **मणिपुर** का **भारत** में विलय कर दिया गया।
- The destruction caused by the war and that forced merger left behind a deep anger, and that anger grew into the ethnic and separatist movements that have lasted ever since," he said.
  युद्ध से हुई तबाही और उस जबरन विलय ने गहरा आक्रोश पैदा किया, और वही आक्रोश बाद में जातीय तथा अलगाववादी आंदोलनों में बदल गया, जो आज तक जारी हैं," उन्होंने कहा।

Ethnic violence
जातीय हिंसा

- **The battlefield** was almost complete when the ethnic violence between the **Meitei** and the **Kuki-Zo** communities erupted in **Manipur** on May 3, 2023.
  बैटलफील्ड लगभग पूरी हो चुकी थी, जब 3 मई 2023 को **मणिपुर** में **मैतेई** और **कुकी-जो** समुदायों के बीच जातीय हिंसा भड़क उठी।
- It eventually qualified for **MIFF 2026**.
  अंततः यह **MIFF 2026** के लिए चयनित हो गई।
- Mr. Thokchom said the subject of his documentary may be a war fought eight decades ago, but "it is very much related" to the present-day conflict in **Manipur**.
  श्री थोकचोम ने कहा कि उनकी डॉक्यूमेंट्री का विषय भले ही आठ दशक पहले लड़ा गया युद्ध हो, लेकिन "यह मणिपुर के वर्तमान संघर्ष से बहुत गहराई से जुड़ा हुआ है।"

PATRIOTIC IAS

Stripping Zelenskyy of top award: Poland President

[redacted] PCS
WARSAW

Poland's nationalist President Karol Nawrocki announced on Friday he was stripping Ukraine's Volodymyr Zelenskyy of the country's top award, escalating a row between the neighbours and allies over Second World War massacres.

Relations between Warsaw and Kyiv have been tense for days over Mr. Zelenskyy's naming of a Ukrainian army unit after a Second World War nationalist insurgent army that took part in massacres against Poles.

Mr. Nawrocki's decision landed days before Poland is due to host the annual Ukraine Recovery Conference in its Baltic city of Gdansk. It is not clear if Mr. Zelenskyy will attend.

Mr. Nawrocki revoked Mr. Zelenskyy's Order of the White Eagle – Poland's highest award – over the objections of both Kyiv and Poland's Prime Minister Donald Tusk.

Karol Nawrocki

"Historical truth is not, and can never be, a bargaining chip," he said in a statement announcing the decision.

Mr. Nawrocki said Poland had "repeatedly" called on Ukraine to reverse the naming of the unit. "The Ukrainian side's position has not changed," he added.

"Therefore, in light of President Volodymyr Zelenskyy's consent to name one of the units of the Armed Forces of Ukraine 'Heroes of the UPA'... I have decided to revoke the Order of the White Eagle from the President of Ukraine," he said.

Kyiv said the decision was a "strategic mistake" from which "only Moscow stands to gain". Ukrainian Foreign Minister Andriy Sybiga said he now planned to return an award he had received from Poland in 2022 after the "unjustified, impulsive and disrespectful" decision.

Poland has been one of Ukraine's main allies during more than four years of Moscow's invasion, taking in hundreds of thousands of refugees and serving as a logistics hub for Western aid to Ukraine.

20J6. Stripping Zelenskyy of top award: Poland President
ज़ेलेंस्की से सर्वोच्च सम्मान वापस: पोलैंड के राष्ट्रपति

- **Poland's nationalist President Karol Nawrocki** announced on Friday he was stripping **Ukraine's Volodymyr Zelenskyy** of the country's top award, escalating a row between the neighbours and allies over **Second World War massacres**.
  पोलैंड के राष्ट्रवादी राष्ट्रपति **कारोल नावरोत्स्की** ने शुक्रवार को घोषणा की कि वह **यूक्रेन के वोलोदिमिर ज़ेलेंस्की** से देश का सर्वोच्च सम्मान वापस ले रहे हैं, जिससे **द्वितीय विश्व युद्ध के नरसंहारों** को लेकर दोनों पड़ोसी और सहयोगी देशों के बीच विवाद और बढ़ गया है।
- Relations between **Warsaw** and **Kyiv** have been tense for days over Mr. Zelenskyy's naming of a Ukrainian army unit after a **Second World War nationalist insurgent army** that took part in massacres against Poles.
  वारसॉ और **कीव** के बीच संबंध कई दिनों से तनावपूर्ण हैं, क्योंकि श्री ज़ेलेंस्की ने यूक्रेनी सेना की एक इकाई का नाम **द्वितीय विश्व युद्ध के एक राष्ट्रवादी विद्रोही सैन्य समूह** के नाम पर रखा, जिसने पोलिश लोगों के खिलाफ नरसंहारों में भाग लिया था।
- Mr. Nawrocki's decision landed days before Poland is due to host the annual **Ukraine Recovery Conference** in its Baltic city of **Gdansk**.
  श्री नावरोत्स्की का यह निर्णय उस समय आया है जब कुछ ही दिनों बाद पोलैंड के बाल्टिक तटीय शहर **ग्दांस्क** में वार्षिक **यूक्रेन रिकवरी कॉन्फ्रेंस** आयोजित होने वाली है।
- It is not clear if Mr. Zelenskyy will attend.
  यह स्पष्ट नहीं है कि श्री ज़ेलेंस्की इसमें भाग लेंगे या नहीं।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur

Website : patrioticias.in

- Mr. Nawrocki revoked Mr. Zelenskyy's **Order of the White Eagle** — Poland's highest award — over the objections of both Kyiv and Poland's Prime Minister **Donald Tusk**.
  श्री नावरोत्स्की ने **ऑर्डर ऑफ द व्हाइट ईगल**, जो पोलैंड का सर्वोच्च सम्मान है, श्री ज़ेलेंस्की से वापस ले लिया, जबकि कीव और पोलैंड के प्रधानमंत्री **डोनाल्ड टस्क** दोनों ने इसका विरोध किया था।
- "**Historical truth** is not, and can never be, a bargaining chip," he said in a statement announcing the decision.
  निर्णय की घोषणा करते हुए उन्होंने कहा, "**ऐतिहासिक सत्य** कोई सौदेबाजी का साधन नहीं है और न ही कभी हो सकता है।"
- Mr. Nawrocki said Poland had "repeatedly" called on Ukraine to reverse the naming of the unit.
  श्री नावरोत्स्की ने कहा कि पोलैंड ने यूक्रेन से कई बार उस सैन्य इकाई का नाम बदलने का अनुरोध किया था।
- "The Ukrainian side's position has not changed," he added.
  उन्होंने कहा, "यूक्रेनी पक्ष का रुख नहीं बदला है।"
- "Therefore, in light of President **Volodymyr Zelenskyy's** consent to name one of the units of the **Armed Forces of Ukraine** '**Heroes of the UPA**'... I have decided to revoke the **Order of the White Eagle** from the President of Ukraine," he said.
  उन्होंने कहा, "इसलिए, राष्ट्रपति **वोलोदिमिर ज़ेलेंस्की** द्वारा **यूक्रेन के सशस्त्र बलों** की एक इकाई का नाम '**हीरोज ऑफ द UPA**' रखने की स्वीकृति को देखते हुए... मैंने यूक्रेन के राष्ट्रपति से **ऑर्डर ऑफ द व्हाइट ईगल** वापस लेने का निर्णय किया है।"
- **Kyiv** said the decision was a "**strategic mistake**" from which "only **Moscow** stands to gain".
  कीव ने इस निर्णय को "**रणनीतिक भूल**" बताया और कहा कि इससे "केवल **मॉस्को** को लाभ होगा।"
- Ukrainian Foreign Minister **Andriy Sybiga** said he now planned to return an award he had received from Poland in **2022** after the "unjustified, impulsive and disrespectful" decision.
  यूक्रेन के विदेश मंत्री **आंद्री सिबीगा** ने कहा कि वह अब पोलैंड से **2022** में प्राप्त अपना सम्मान वापस करने की योजना बना रहे हैं, क्योंकि यह निर्णय "अनुचित, आवेगपूर्ण और अपमानजनक" था।
- **Poland** has been one of **Ukraine's** main allies during more than four years of **Moscow's invasion**, taking in hundreds of thousands of refugees and serving as a logistics hub for **Western aid** to Ukraine.
  पोलैंड, **मॉस्को के आक्रमण** के चार वर्षों से अधिक समय के दौरान, **यूक्रेन** का प्रमुख सहयोगी रहा है। उसने लाखों शरणार्थियों को शरण दी है और यूक्रेन के लिए **पश्चिमी सहायता** के लॉजिस्टिक केंद्र के रूप में कार्य किया है।

Census enumerators at Shashi Garden in the Mayur Vihar area in New Delhi. SUSHIL KUMAR VERMA

The pressures of counting India

Enumerators working on the Census are facing several challenges in the field, including heat, connectivity issues, and safety concerns. Though the exercise is being conducted through a digital system designed for real-time monitoring, field workers say conditions on the ground and supervisory instructions are affecting data collection. **Vijaita Singh** reports on the challenges

Every day for about a month, M. Soumina, a government-school teacher, began her mornings by knocking on the doors of apartments in a multi-storey residential complex in East Delhi's Mayur Vihar.

Although the school where she taught was closed for the summer break, Soumina had her task cut out for her after being appointed an enumerator for the ongoing Census. The exercise relies on about 33 lakh government teachers and other enumerators, who will spend nearly a year surveying an estimated 1.4 billion Indians on housing, amenities, and demographics.

For Soumina, the work meant spending hours going door to door in a brutal Delhi summer, with temperatures consistently hovering between 40°C and 42°C. She surveyed 150 flats spread across 17 apartment blocks and administered a 33-question survey to each household within 26 days.

"I was making those visits daily from May 19," said Soumina. "I had an app on my phone to record the data. Before asking the questions, the households also have to be mapped and geo-tagged on the app."

Other than her smartphone, a black bag, a QR-enabled identity card, and a white cap with the Census logo to protect her from the heat, Soumina's companion during these visits was her husband, who works in the production unit of a newspaper. She said she felt safer with him around.

Like Soumina, enumerators working on the Census report facing several challenges in the field, including heat, connectivity issues, and safety concerns. Though the exercise is being conducted through a digital system designed for real-time monitoring, field workers said conditions on the ground and supervisory instructions are affecting data collection. Many of them have also flagged these issues on social media.

A massive exercise

The questions that enumerators asked are part of the Houselisting and Housing Operations (HLO), the first phase of the Population Census 2027. The questionnaire was notified by the Registrar General and Census Commissioner of India on January 22.

The 2027 Census marks several firsts: it is India's first fully digital Census, the first to collect caste data, and the first to allow residents to self-enumerate. The exercise was originally scheduled for 2021, but was postponed because of the COVID-19 pandemic. As a result, India is conducting its population count six years later than the decennial schedule, with governments continuing to rely on 2011 Census data for policy planning and welfare programmes.

The HLO phase involves the collection of data on housing conditions, household composition, basic amenities, and assets to assess living standards. It captures information on the structure of dwellings; access to water, sanitation, and energy, ownership of consumer goods, and the number of people living in a household. It also collects residents' mobile numbers for official communication.

The HLO phase will lay the foundation for the second phase of the Census – Population Enumeration – scheduled for February 2027. In Ladakh and the snow-bound regions of Uttarakhand, Jammu and Kashmir, and Himachal Pradesh, both phases have been set a deadline of September 30, 2026, due to weather constraints.

> When I filled untreated tap water as an option, the supervisor and the charge officers asked me to change the entry to tap water from treated source.
> Census enumerator

The second phase will enumerate caste and collect other detailed individual-level data, including religion. Each enumerator gets an honorarium of ₹25,000 for completing the task. So far, 23 States and Union Territories have completed the first phase.

Meeting strangers

With several occupants being working professionals, Soumina said it was difficult to get them to answer questions during the day.

"Most residents leave for work around 8.30 in the morning. So I visited homes between 7 and 7.30 with my husband. While some were accommodative, others asked us to come again later or skip the exercise altogether," she said.

If a house was locked, she would go back again and again until she got the data, Soumina added. "Sometimes the visit extended into the evening, so I would again go with my husband."

Like her, many female enumerators, mostly government school teachers, said they asked their husbands or other male members in their families to accompany them during field visits.

Meenu Verma, a primary school teacher from Rae Bareli, Uttar Pradesh, said that her husband and brother-in-law helped her during the exercise. "I was assigned 172 houses," she said. "My husband and I used to wake up at 4 in the morning and reach the assigned village by 7. From 7 to about 11, we would find people in their homes, but after noon, due to the heat, the entire village would be deserted."

She said they would then hesitate to knock on doors. "Many of them had no awareness about the Census, so we had to first explain it them. I want to request the government to appoint enumerators in pairs. Or a male colleague should accompany a female enumerator. Not everyone is polite. And in villages, houses are spread afar," Verma said.

On May 21, a First Information Report (FIR) was registered against a Delhi resident for allegedly harassing a female Census enumerator while she was on duty. On June 13, a Delhi court convicted the accused, Sandeep Panwar, 43, for the crime. Earlier, on April 25, a female Census enumerator was allegedly denied entry into an apartment building in Bengaluru where an unidentified individual allegedly used abusive language against her, following which an FIR was registered against him.

Census enumerators in New Delhi. SHASHI SHEKHAR KASHYAP

Dinesh Kumar Dwivedi, a Hindi lecturer at a government school, who was Soumina's supervisor, said six enumerators were reporting to him. "Fetching data from slum clusters was easier than seeking information from multi-storey apartments," he said.

In Haryana and Delhi, Census enumerators, mostly government school teachers, complained that they faced hostility and were denied entry by residents of high-rise buildings and residents' welfare associations (RWAs). The district administration of Gurugram wrote letters to RWAs saying that according to Section 8(2) of the Census Act, 1948, every resident is "legally bound" to answer Census-related questions to the best of their knowledge or belief.

"The slum residents were hesitant initially," said Dwivedi, who collected data as an enumerator during the 2011 Census. "They thought this was an exercise to demolish the slums. When they understood its purpose, they were more than forthcoming. Some thought that participating in it would make them eligible for government schemes. Many others came to us with documents, asking for help in applying for welfare schemes."

Dwivedi recalled that in 2011, the process was tedious: all the data had to be noted down on paper, which could get lost or damaged. He said residents were reluctant to share information on assets as they feared tax raids.

The digital divide

Beyond personal safety, the digital divide in India has also affected fieldwork. In metros and towns with better mobile connectivity, enumerators entered data directly on their phones. Elsewhere, they said they recorded details on paper or in notebooks and uploaded them on the app after going back home.

According to the Comprehensive Modular Survey: Telecom, conducted from January to March 2025 as a part of the 80th round of the National Sample Survey, 83.3 % of rural households and 91.6% of urban households had access to Internet. The total number of households surveyed was 34,950 (19,071 in rural areas and 15,879 in urban areas) and the total number of people was 1.42 lakh (82,573 in rural areas and 59,492 in urban areas). In the survey, a person was considered to have "used the internet" if they had accessed it at least once in the past three months.

"Connectivity is a huge issue, especially in rural areas. Once an enumerator has logged in, it is difficult to make changes, and if the network is poor, the data can get corrupted," said an enumerator from U.P.

Enumerators use their own phones to collect the data and have been asked not to delete the apps during the enumeration phase. However, they said the app crashes often.

On the Google Play Store, the Census 2027 Houselist App, which has more than 10 lakh downloads, has a rating of 2.9. It can only be downloaded by authorised users – enumerators, supervisors, and charge officers. Of the 4,570 reviews submitted, 2,054 users gave it a one-star rating, while 1,735 rated it five stars.

Facing FIRs

On the outskirts of Delhi, in U.P.'s Noida, Sector-6, Indu Prakash Singh, charge officer, who oversees the work of enumerators and supervisors, set up a camp office at the Indira Gandhi Cultural Centre to monitor Census-related work. Officials with technical expertise were stationed in a large hall, with computer screens placed on desks arranged in a semicircle.

Singh's job was to ensure the smooth conduct of the exercise, which entailed surveying 2,309 house-listing blocks (HLBs), each comprising 150-180 households with a population of 800-1,000. The exercise ran from May 22 to June 20 in U.P.

Though Census activities are usually carried out by government employees, in U.P., private-school teachers were also enrolled to tide over the shortage of government school teachers.

"The district administration in Noida issued directions to engage teachers from private schools for Census work," Singh said.

"But some of them moved the Allahabad High Court, which ruled in their favour, and 50% of the 1,000 teachers who were trained backed out at the last moment. We were forced to engage NGOs and other private people for the task," said a government official in Noida.

In Maharashtra, over 500 private unaided and minority schools moved the Bombay High Court in May against notices, appointment orders, and coercive steps such as FIRs issued against their teaching and non-teaching staff for failing to report for Census duties.

On May 22, the Court granted interim protection to the school associations and observed that Section 4A of the Census Act applies only to "local authorities" and prima facie the Census Act and the Census Rules, 1990 do not impose any statutory obligation on private unaided schools to provide their staff as enumerators or supervisors.

There have been several instances of enumerators facing FIRs for not taking up the assigned work. Though the total figures are difficult to assess, at least two FIRs were filed in Haryana against 10 enumerators, while a case each was filed in Noida and Greater Noida against more than 80 enumerators on June 3.

The National Crime Records Bureau reports for 2010 and 2011, when the first and second phases of the Census were last conducted, do not mention any cases registered under the Census Act.

Enumerators took to social media to flag issues such as heat and connectivity problems. They also reported witnessing stark income inequality, and described pressure from superiors to edit data in the name of correcting discrepancies.

Editing data

Earlier, it often took months or even years to process Census forms. Mobile apps have now enabled real-time data monitoring through the Census Management and Monitoring System (CMMS) portal. Access to the data entered via the app is available not only to enumerators, but also to supervisors and charge officers. Enumerators said they were asked to change data, particularly for questions related to sanitation, electricity, and LPG connection.

A school teacher in Delhi said during training, for a question relating to "access to latrine", they were asked not to select the "no" option. This is used as a category for households without access to a latrine, and indicates open defecation. The "Yes" option is further broken down into "Exclusively for household use only (1)," "Shared with other households (2)," and "Public latrine (3)."

"During training, we were told to fill in the data observed by us," said an enumerator from Rajasthan. "On the field, many residents in my enumeration block said they defecate in the open. When I submitted the data, I was asked by my supervisor to revisit the homes and revise the data to show that the households had access to a latrine, even if a public toilet was anywhere in the vicinity."

Another enumerator from U.P. said they were also asked to edit data on the main source of drinking water. The options include tap water from treated source/untreated source, well, hand pump, tubewell/borehole, spring, river/canal, tank/pond/lake, packaged/bottled water and other sources. Under the Jal Jeevan Mission, one of the flagship schemes of the Bharatiya Janata Party government, nearly 81.97% households in India have tap water connection.

"When I filled untreated tap water as an option, the supervisor and the charge officers asked me to change the entry to tap water from treated source. What is the point of door-to-door enumeration then," asked the enumerator.

The question on the availability of a kitchen and LPG/PNG connection were also edited, the enumerator added. "Even if the house has an LPG connection in their name, they were using cow dung cakes or wooden logs to cook as they had not refilled the cylinders for several months. If we mentioned firewood or charcoal as the response, which is what we observed, we were asked to change the entry to show that the main fuel is LPG," said an enumerator from Rajasthan. According to the Press Information Bureau, national LPG coverage rose from 55.9% in April 2014 to 107.2% in April 2026. Consumers grew from 14.51 crore to 33.39 crore in the same period.

On June 2, the Director of Census Operations, Rajasthan, wrote to all district functionaries saying "during the analysis of field data collected so far, some discrepancies have been noticed". Charge officers were instructed to "verify the block-level data through the CMMS portal, in accordance with the actual field situation."

Around 11 a.m. on June 12, Manish Kumar, a government employee, went to a building in Noida's Sector-2. An open drain flowed on the side. Several doors were locked since many of the occupants, largely migrants, were away at work. In the courtyard of the three-storey building, a woman was washing bedsheets in a corner using two tubs of water. A man was taking a bath in a narrow veranda outside his one-room accommodation, which he shared with six other members of the family.

Kumar knocked on each door to ensure that every household was enumerated. The rooms that were open mostly had women and children inside. While some residents responded immediately, others were suspicious of Kumar. He noted down the details, stepped out of the building, and then logged the information into the Census app on his phone.

He said he would return in the evening and over the weekend to reach residents whose doors were locked. "A household must be labelled vacant or locked only after multiple visits," he said.

A massive exercise
एक विशाल अभ्यास

- Every day for about a month, **M. Soumina**, a government-school teacher, began her mornings by knocking on the doors of apartments in a multi-storey residential complex in East Delhi's **Mayur Vihar**.
  लगभग एक महीने तक प्रतिदिन, सरकारी विद्यालय की शिक्षिका **एम. सौमिना** अपनी सुबह की शुरुआत पूर्वी दिल्ली के **मयूर विहार** स्थित एक बहुमंजिला आवासीय परिसर के फ्लैटों के दरवाजे खटखटाकर करती थीं।
- Although the school where she taught was closed for the summer break, Soumina had her task cut out for her after being appointed an **enumerator** for the ongoing **Census**.
  यद्यपि जिस विद्यालय में वह पढ़ाती थीं वह ग्रीष्मकालीन अवकाश के कारण बंद था, लेकिन चल रही **जनगणना** के लिए **प्रगणक (Enumerator)** नियुक्त किए जाने के बाद उनके सामने एक महत्वपूर्ण जिम्मेदारी थी।
- The exercise relies on about **33 lakh government teachers** and other enumerators, who will spend nearly a year surveying an estimated **1.4 billion Indians** on housing, amenities, and demographics.
  यह कार्य लगभग **33 लाख सरकारी शिक्षकों** और अन्य प्रगणकों पर आधारित है, जो आवास, सुविधाओं और जनसांख्यिकीय विवरणों के संबंध में अनुमानित **1.4 अरब भारतीयों** का लगभग एक वर्ष तक सर्वेक्षण करेंगे।
- For Soumina, the work meant spending hours going door to door in a brutal Delhi summer, with temperatures consistently hovering between **40°C and 42°C**.
  सौमिना के लिए इस कार्य का अर्थ था दिल्ली की भीषण गर्मी में घंटों घर-घर जाकर सर्वेक्षण करना, जहां तापमान लगातार **40°C से 42°C** के बीच बना रहता था।
- She surveyed **150 flats** spread across **17 apartment blocks** and administered a **33-question survey** to each household within **26 days**.
  उन्होंने **17 अपार्टमेंट ब्लॉकों** में फैले **150 फ्लैटों** का सर्वेक्षण किया और **26 दिनों** के भीतर प्रत्येक परिवार से **33 प्रश्नों वाला सर्वेक्षण** पूरा कराया।
- "I was making those visits daily from **May 19**," said Soumina.
  "मैं **19 मई** से प्रतिदिन ये दौरे कर रही थी," सौमिना ने कहा।
- "I had an app on my phone to record the data."
  "मेरे फोन में डेटा दर्ज करने के लिए एक ऐप था।"
- "Before asking the questions, the households also have to be mapped and **geotagged** on the app."
  "प्रश्न पूछने से पहले परिवारों को ऐप पर मैप और **जियोटैग** भी करना होता है।"
- Other than her smartphone, a black bag, a **QR-enabled identity card**, and a white cap with the **Census logo** to protect her from the heat, Soumina's companion during these visits was her husband, who works in the production unit of a newspaper.
  अपने स्मार्टफोन, एक काले बैग, **QR-सक्षम पहचान पत्र**, और गर्मी से बचाव के लिए **जनगणना लोगो** वाली सफेद टोपी के अलावा, इन दौरों के दौरान सौमिना के साथ उनके पति भी रहते थे, जो एक समाचारपत्र के उत्पादन विभाग में कार्यरत हैं।
- She said she felt safer with him around.
  उन्होंने कहा कि उनके साथ रहने पर वह स्वयं को अधिक सुरक्षित महसूस करती थीं।
- Like Soumina, enumerators working on the **Census** report facing several challenges in the field, including **heat**, **connectivity issues**, and **safety concerns**.
  सौमिना की तरह **जनगणना** में कार्यरत अन्य प्रगणक भी **गर्मी**, **कनेक्टिविटी संबंधी समस्याओं** और **सुरक्षा चिंताओं** सहित कई चुनौतियों का सामना कर रहे हैं।
- Though the exercise is being conducted through a **digital system** designed for **real-time monitoring**, field workers said conditions on the ground and supervisory instructions are affecting **data collection**.
  हालांकि यह कार्य **रीयल-टाइम निगरानी** के लिए तैयार की गई **डिजिटल प्रणाली** के माध्यम से किया जा रहा है,

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

लेकिन मैदानी कर्मचारियों का कहना है कि जमीनी परिस्थितियां और पर्यवेक्षकों के निर्देश **डेटा संग्रहण** को प्रभावित कर रहे हैं।

- Many of them have also flagged these issues on **social media**.
  इनमें से कई लोगों ने इन समस्याओं को **सोशल मीडिया** पर भी उठाया है।
- The questions that enumerators asked are part of the **Houselisting and Housing Operations (HLO)**, the first phase of the **Population Census 2027**.
  प्रगणकों द्वारा पूछे गए प्रश्न **हाउसलिस्टिंग एंड हाउसिंग ऑपरेशंस (HLO)** का हिस्सा हैं, जो **जनसंख्या जनगणना 2027** का पहला चरण है।
- The questionnaire was notified by the **Registrar General and Census Commissioner of India** on **January 22**.
  इस प्रश्नावली को **भारत के रजिस्ट्रार जनरल एवं जनगणना आयुक्त** द्वारा **22 जनवरी** को अधिसूचित किया गया था।
- The **2027 Census** marks several firsts: it is India's first fully digital Census, the first to collect caste data, and the first to allow residents to self-enumerate.
  2027 की जनगणना कई दृष्टियों से पहली होगी: यह भारत की पहली पूर्णतः डिजिटल जनगणना है, पहली बार जातिगत आंकड़े एकत्र किए जाएंगे, और पहली बार नागरिक स्वयं अपना पंजीकरण कर सकेंगे।
- The exercise was originally scheduled for **2021**, but was postponed because of the **COVID-19 pandemic**.
  यह कार्य मूल रूप से **2021** में होना था, लेकिन **कोविड-19 महामारी** के कारण इसे स्थगित कर दिया गया।
- As a result, India is conducting its population count six years later than the decennial schedule, with governments continuing to rely on **2011 Census data** for policy planning and welfare programmes.
  परिणामस्वरूप, भारत अपनी जनगणना निर्धारित दस वर्षीय चक्र से छह वर्ष बाद कर रहा है, जबकि सरकारें अभी भी नीति निर्माण और कल्याणकारी योजनाओं के लिए **2011 की जनगणना** के आंकड़ों पर निर्भर हैं।
- The **HLO phase** involves the collection of data on housing conditions, household composition, basic amenities, and assets to assess living standards.
  HLO चरण में आवासीय स्थिति, परिवार की संरचना, बुनियादी सुविधाओं और संपत्तियों से संबंधित आंकड़े एकत्र किए जाते हैं ताकि जीवन स्तर का आकलन किया जा सके।
- It captures information on the structure of dwellings; access to water, sanitation, and energy, ownership of consumer goods, and the number of people living in a household.
  इसमें मकानों की संरचना, जल, स्वच्छता और ऊर्जा की उपलब्धता, उपभोक्ता वस्तुओं का स्वामित्व तथा एक परिवार में रहने वाले लोगों की संख्या से संबंधित जानकारी एकत्र की जाती है।
- It also collects residents' mobile numbers for official communication.
  इसमें आधिकारिक संपर्क हेतु निवासियों के मोबाइल नंबर भी एकत्र किए जाते हैं।
- The **HLO phase** will lay the foundation for the second phase of the Census — **Population Enumeration** — scheduled for **February 2027**.
  HLO चरण जनगणना के दूसरे चरण — **जनसंख्या गणना (Population Enumeration)** — की नींव रखेगा, जो **फरवरी 2027** में निर्धारित है।
- In **Ladakh** and the snow-bound regions of **Uttarakhand, Jammu and Kashmir, and Himachal Pradesh**, both phases have been set a deadline of **September 30, 2026**, due to weather constraints.
  लद्दाख तथा **उत्तराखंड, जम्मू-कश्मीर और हिमाचल प्रदेश** के हिमाच्छादित क्षेत्रों में मौसम संबंधी बाधाओं के कारण दोनों चरणों की अंतिम तिथि **30 सितंबर 2026** निर्धारित की गई है।
- The second phase will enumerate caste and collect other detailed individual-level data, including religion.
  दूसरे चरण में जाति की गणना की जाएगी तथा धर्म सहित अन्य विस्तृत व्यक्तिगत आंकड़े एकत्र किए जाएंगे।

- Each enumerator gets an **honorarium of ₹25,000** for completing the task.
  प्रत्येक प्रगणक को कार्य पूरा करने पर **₹25,000 का मानदेय** दिया जाता है।
- So far, **23 States and Union Territories** have completed the first phase.
  अब तक **23 राज्य और केंद्रशासित प्रदेश** पहला चरण पूरा कर चुके हैं।

Meeting strangers
अजनबियों से मुलाकात

- With several occupants being working professionals, Soumina said it was difficult to get them to answer questions during the day.
  कई निवासी कामकाजी पेशेवर होने के कारण, सौमिना ने कहा कि दिन के समय उनसे प्रश्नों के उत्तर प्राप्त करना कठिन था।
- "Most residents leave for work around **8.30 in the morning**."
  "अधिकांश निवासी सुबह लगभग **8:30 बजे** काम पर निकल जाते हैं।"
- "So I visited homes between **7 and 7.30** with my husband."
  "इसलिए मैं अपने पति के साथ **7 बजे से 7:30 बजे** के बीच घरों में जाती थी।"
- "While some were accommodative, others asked us to come again later or skip the exercise altogether," she said.
  "जहां कुछ लोग सहयोगी थे, वहीं कुछ ने हमें बाद में आने या सर्वेक्षण को पूरी तरह छोड़ देने के लिए कहा," उन्होंने कहा।
- If a house was locked, she would go back again and again until she got the data, Soumina added.
  सौमिना ने बताया कि यदि कोई घर बंद मिलता था तो वह आवश्यक जानकारी मिलने तक बार-बार वहां जाती थीं।
- "Sometimes the visit extended into the evening, so I would again go with my husband."
  "कभी-कभी यह दौरा शाम तक चल जाता था, इसलिए मैं फिर अपने पति के साथ जाती थी।"
- Like her, many female enumerators, mostly government school teachers, said they asked their husbands or other male members in their families to accompany them during field visits.
  उनकी तरह कई महिला प्रगणकों, जो अधिकांशतः सरकारी विद्यालयों की शिक्षिकाएं थीं, ने बताया कि वे फील्ड विजिट के दौरान अपने पति या परिवार के अन्य पुरुष सदस्यों को साथ ले जाती थीं।
- **Meenu Verma**, a primary school teacher from **Rae Bareli, Uttar Pradesh**, said that her husband and brother-in-law helped her during the exercise.
  उत्तर प्रदेश के रायबरेली की प्राथमिक विद्यालय शिक्षिका **मीनू वर्मा** ने कहा कि इस कार्य के दौरान उनके पति और देवर ने उनकी सहायता की।
- "I was assigned **172 houses**," she said.
  "मुझे **172 घरों** का कार्य सौंपा गया था," उन्होंने कहा।
- "My husband and I used to wake up at **4 in the morning** and reach the assigned village by **7**."
  "मैं और मेरे पति सुबह **4 बजे** उठते थे और **7 बजे** तक निर्धारित गांव पहुंच जाते थे।"
- "From 7 to about 11, we would find people in their homes, but after noon, due to the heat, the entire village would be deserted."
  "सुबह 7 बजे से लगभग 11 बजे तक लोग घरों में मिल जाते थे, लेकिन दोपहर के बाद गर्मी के कारण पूरा गांव सुनसान हो जाता था।"
- She said they would then hesitate to knock on doors.
  उन्होंने कहा कि इसके बाद वे लोगों के दरवाजे खटखटाने में संकोच करते थे।
- "Many of them had no awareness about the **Census**, so we had to first explain it to them."
  "कई लोगों को **जनगणना** के बारे में कोई जानकारी नहीं थी, इसलिए पहले हमें उन्हें इसके बारे में समझाना पड़ता था।"

- "I want to request the government to appoint enumerators in pairs."
  "मैं सरकार से अनुरोध करना चाहती हूं कि प्रगणकों की नियुक्ति जोड़ों में की जाए।"
- "Or a male colleague should accompany a female enumerator."
  "या फिर किसी महिला प्रगणक के साथ एक पुरुष सहकर्मी को भेजा जाए।"
- "Not everyone is polite."
  "हर व्यक्ति विनम्र नहीं होता।"
- "And in villages, houses are spread afar," Verma said.
  "और गांवों में घर काफी दूर-दूर स्थित होते हैं," वर्मा ने कहा।
- On **May 21**, a **First Information Report (FIR)** was registered against a Delhi resident for allegedly harassing a female Census enumerator while she was on duty.
  21 मई को ड्यूटी के दौरान एक महिला जनगणना प्रगणक से कथित रूप से दुर्व्यवहार करने के आरोप में दिल्ली के एक निवासी के खिलाफ **प्रथम सूचना रिपोर्ट (FIR)** दर्ज की गई।
- On **June 13**, a Delhi court convicted the accused, **Sandeep Panwar**, 43, for the crime.
  13 जून को दिल्ली की एक अदालत ने 43 वर्षीय आरोपी **संदीप पंवार** को इस अपराध के लिए दोषी ठहराया।
- Earlier, on **April 25**, a female Census enumerator...
  इससे पहले **25 अप्रैल** को एक महिला जनगणना प्रगणक के साथ भी एक घटना घटी थी... (आगे का भाग अगले खंड में जारी रहेगा)।

Meeting strangers
अजनबियों से मुलाकात

- Earlier, on **April 25**, a female **Census enumerator** was allegedly denied entry into an apartment building in **Bengaluru** where an unidentified individual allegedly used abusive language against her, following which an **FIR** was registered against him.
  इससे पहले **25 अप्रैल** को **बेंगलुरु** में एक महिला **जनगणना प्रगणक** को कथित रूप से एक अपार्टमेंट भवन में प्रवेश करने से रोक दिया गया, जहां एक अज्ञात व्यक्ति ने कथित रूप से उनके साथ अभद्र भाषा का प्रयोग किया, जिसके बाद उसके विरुद्ध **एफआईआर** दर्ज की गई।
- **Dinesh Kumar Dwivedi**, a Hindi lecturer at a government school, who was Soumina's supervisor, said six enumerators were reporting to him.
  सरकारी विद्यालय में हिंदी के व्याख्याता **दिनेश कुमार द्विवेदी**, जो सौमिना के पर्यवेक्षक थे, ने कहा कि छह प्रगणक उन्हें रिपोर्ट करते थे।
- "Fetching data from **slum clusters** was easier than seeking information from **multi-storey apartments**," he said.
  उन्होंने कहा, "**झुग्गी बस्तियों** से डेटा एकत्र करना **बहुमंजिला अपार्टमेंटों** से जानकारी प्राप्त करने की तुलना में आसान था।"
- In **Haryana** and **Delhi**, Census enumerators, mostly government school teachers, complained that they faced hostility and were denied entry by residents of high-rise buildings and **Residents' Welfare Associations (RWAs)**.
  हरियाणा और **दिल्ली** में जनगणना प्रगणकों, जिनमें अधिकांश सरकारी विद्यालयों के शिक्षक थे, ने शिकायत की कि उन्हें शत्रुतापूर्ण व्यवहार का सामना करना पड़ा और ऊंची इमारतों के निवासियों तथा **रेज़िडेंट्स वेलफेयर एसोसिएशनों (RWAs)** द्वारा प्रवेश नहीं दिया गया।
- The district administration of **Gurugram** wrote letters to RWAs saying that according to **Section 8(2) of the Census Act, 1948**, every resident is "legally bound" to answer Census-related questions to the best of their knowledge or belief.
  गुरुग्राम जिला प्रशासन ने RWAs को पत्र लिखकर कहा कि **जनगणना अधिनियम, 1948 की धारा 8(2)** के अनुसार प्रत्येक निवासी अपने ज्ञान और विश्वास के अनुसार जनगणना संबंधी प्रश्नों का उत्तर देने के लिए "कानूनी रूप से बाध्य" है।
- "The slum residents were hesitant initially," said Dwivedi, who collected data as an enumerator during the **2011 Census**.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

2011 की जनगणना में प्रगणक के रूप में कार्य कर चुके द्विवेदी ने कहा, "झुग्गी बस्तियों के निवासी शुरुआत में हिचकिचा रहे थे।"

- "They thought this was an exercise to demolish the slums."
  "उन्हें लगा कि यह झुग्गियों को हटाने की कवायद है।"
- "When they understood its purpose, they were more than forthcoming."
  "जब उन्होंने इसका उद्देश्य समझा, तो उन्होंने भरपूर सहयोग किया।"
- "Some thought that participating in it would make them eligible for government schemes."
  "कुछ लोगों को लगा कि इसमें भाग लेने से वे सरकारी योजनाओं के पात्र बन जाएंगे।"
- "Many others came to us with documents, asking for help in applying for welfare schemes."
  "कई अन्य लोग दस्तावेज लेकर हमारे पास आए और कल्याणकारी योजनाओं के लिए आवेदन करने में सहायता मांगने लगे।"
- Dwivedi recalled that in **2011**, the process was tedious: all the data had to be noted down on paper, which could get lost or damaged.
  द्विवेदी ने याद करते हुए कहा कि **2011** में यह प्रक्रिया काफी कठिन थी, क्योंकि सारा डेटा कागज पर दर्ज करना पड़ता था, जो खो सकता था या क्षतिग्रस्त हो सकता था।
- He said residents were reluctant to share information on assets as they feared **tax raids**.
  उन्होंने कहा कि लोग अपनी संपत्तियों की जानकारी साझा करने में हिचकिचाते थे क्योंकि उन्हें **कर छापों (Tax Raids)** का डर था।

The digital divide
डिजिटल विभाजन

- Beyond personal safety, the **digital divide** in India has also affected fieldwork.
  व्यक्तिगत सुरक्षा के अलावा, भारत में **डिजिटल विभाजन** ने भी फील्डवर्क को प्रभावित किया है।
- In metros and towns with better mobile connectivity, enumerators entered data directly on their phones.
  बेहतर मोबाइल कनेक्टिविटी वाले महानगरों और कस्बों में प्रगणक सीधे अपने फोन पर डेटा दर्ज करते थे।
- Elsewhere, they said they recorded details on paper or in notebooks and uploaded them on the app after going back home.
  अन्य स्थानों पर उन्होंने बताया कि वे विवरण कागज या नोटबुक में दर्ज करते थे और घर लौटने के बाद उन्हें ऐप पर अपलोड करते थे।
- According to the **Comprehensive Modular Survey: Telecom**, conducted from January to March 2025 as a part of the **80th round of the National Sample Survey**, **83.3%** of rural households and **91.6%** of urban households had access to the Internet.
  राष्ट्रीय नमूना सर्वेक्षण के 80वें दौर के अंतर्गत जनवरी से मार्च 2025 के बीच किए गए **कॉम्प्रिहेन्सिव मॉड्यूलर सर्वे: टेलीकॉम** के अनुसार, **83.3%** ग्रामीण परिवारों और **91.6%** शहरी परिवारों को इंटरनेट की उपलब्धता थी।
- The total number of households surveyed was **34,950** (19,071 in rural areas and 15,879 in urban areas) and the total number of people was **1.42 lakh** (82,573 in rural areas and 59,492 in urban areas).
  सर्वेक्षण में कुल **34,950 परिवारों** (ग्रामीण क्षेत्रों में 19,071 और शहरी क्षेत्रों में 15,879) तथा कुल **1.42 लाख व्यक्तियों** (ग्रामीण क्षेत्रों में 82,573 और शहरी क्षेत्रों में 59,492) को शामिल किया गया।
- In the survey, a person was considered to have "used the internet" if they had accessed it at least once in the past three months.
  सर्वेक्षण में किसी व्यक्ति को "इंटरनेट उपयोगकर्ता" तभी माना गया जब उसने पिछले तीन महीनों में कम से कम एक बार इंटरनेट का उपयोग किया हो।
- "**Connectivity** is a huge issue, especially in rural areas."
  "**कनेक्टिविटी** एक बड़ी समस्या है, विशेषकर ग्रामीण क्षेत्रों में।"

- "Once an enumerator has logged in, it is difficult to make changes, and if the network is poor, the data can get corrupted," said an enumerator from **U.P.**
  "एक बार प्रगणक के लॉग-इन करने के बाद बदलाव करना कठिन हो जाता है, और यदि नेटवर्क खराब हो तो डेटा भी खराब हो सकता है," **उत्तर प्रदेश** के एक प्रगणक ने कहा।
- Enumerators use their own phones to collect the data and have been asked not to delete the apps during the enumeration phase.
  प्रगणक डेटा संग्रह के लिए अपने निजी मोबाइल फोन का उपयोग करते हैं और उन्हें गणना अवधि के दौरान ऐप को हटाने से मना किया गया है।
- However, they said the app crashes often.
  हालांकि, उनका कहना है कि ऐप अक्सर क्रैश हो जाता है।
- On the **Google Play Store**, the **Census 2027 Houselist App**, which has more than **10 lakh downloads**, has a rating of **2.9**.
  गूगल प्ले स्टोर पर **Census 2027 Houselist App**, जिसे **10 लाख से अधिक बार डाउनलोड** किया गया है, की रेटिंग **2.9** है।
- It can only be downloaded by authorised users — enumerators, supervisors, and charge officers.
  इसे केवल अधिकृत उपयोगकर्ता — प्रगणक, पर्यवेक्षक और चार्ज अधिकारी — ही डाउनलोड कर सकते हैं।
- Of the **4,570 reviews** submitted, **2,054 users** gave it a one-star rating, while **1,735** rated it five stars.
  प्राप्त **4,570 समीक्षाओं** में से **2,054 उपयोगकर्ताओं** ने इसे एक-स्टार रेटिंग दी, जबकि **1,735** ने इसे पांच-स्टार रेटिंग दी।

Facing FIRs
एफआईआर का सामना

- On the outskirts of Delhi, in **Noida Sector-6**, **Indu Prakash Singh**, charge officer, who oversees the work of enumerators and supervisors, set up a camp office at the **Indira Gandhi Cultural Centre** to monitor Census-related work.
  दिल्ली की सीमा से लगे **नोएडा सेक्टर-6** में प्रगणकों और पर्यवेक्षकों के कार्य की निगरानी करने वाले चार्ज अधिकारी **इंदु प्रकाश सिंह** ने जनगणना कार्यों की निगरानी के लिए **इंदिरा गांधी सांस्कृतिक केंद्र** में एक कैंप कार्यालय स्थापित किया।
- Officials with technical expertise were stationed in a large hall, with computer screens placed on desks arranged in a semicircle.
  तकनीकी विशेषज्ञता वाले अधिकारियों को एक बड़े हॉल में तैनात किया गया था, जहां कंप्यूटर स्क्रीन अर्धवृत्ताकार ढंग से सजाई गई मेजों पर रखी गई थीं।
- Singh's job was to ensure the smooth conduct of the exercise, which entailed surveying **2,309 house-listing blocks (HLBs)**, each comprising **150-180 households** with a population of **800-1,000**.
  सिंह का कार्य इस प्रक्रिया को सुचारु रूप से संचालित करना था, जिसमें **2,309 हाउस-लिस्टिंग ब्लॉकों (HLBs)** का सर्वेक्षण शामिल था, जिनमें प्रत्येक में **150-180 परिवार** और **800-1,000 की आबादी** थी।
- The exercise ran from **May 22 to June 20** in **U.P.**
  उत्तर प्रदेश में यह प्रक्रिया **22 मई से 20 जून** तक चली।
- Though Census activities are usually carried out by government employees, in U.P., private-school teachers were also enrolled to tide over the shortage of government school teachers.
  हालांकि जनगणना कार्य सामान्यतः सरकारी कर्मचारियों द्वारा किया जाता है, लेकिन उत्तर प्रदेश में सरकारी शिक्षकों की कमी को पूरा करने के लिए निजी विद्यालयों के शिक्षकों को भी शामिल किया गया।

GS Paper 1: Geography	20 June 2026
TOPICS COVERED	
20J6	T.N. House unanimously opposes Karnataka govt.'s Mekedatu dam proposal तमिलनाडु विधानसभा ने कर्नाटक सरकार के मेकेदातु बांध प्रस्ताव का सर्वसम्मति से विरोध किया
20J6	Four glacial lakes in Arunachal have expanded in a decade: study अरुणाचल प्रदेश की चार हिमनदीय झीलों का एक दशक में विस्तार हुआ: अध्ययन

Still waters, calm minds

A yoga session under way on Pokhribal Lake in Srinagar on Friday, in the run-up to International Yoga Day observed on June 21. IMRAN NISSAR

A yoga session is under way on Pokhribal Lake in Srinagar on Friday, in the run-up to International Yoga Day observed on June 21.

20J6. Four glacial lakes in Arunachal have expanded in a decade: study
अरुणाचल प्रदेश की चार हिमनदीय झीलों का एक दशक में विस्तार हुआ: अध्ययन

- Analysis by a geospatial **intelligence firm** shows that the '**high-risk**' lakes have increased in area, with one of them growing by **10 hectares**.
  भू-स्थानिक खुफिया कंपनी के विश्लेषण से पता चलता है कि '**उच्च-जोखिम**' वाली झीलों का क्षेत्रफल बढ़ा है, जिनमें से एक झील का विस्तार **10 हेक्टेयर** तक हुआ है।
- Experts say expansion warrants attention but should not be interpreted as evidence of an impending disaster.
  विशेषज्ञ का कहना है कि इस विस्तार पर ध्यान देने की आवश्यकता है, लेकिन इसे किसी आसन्न आपदा का प्रमाण नहीं माना जाना चाहिए।
- A satellite-based assessment of **five glacial lakes** in the **Tawang district** of **Arunachal Pradesh** has found that four have expanded over the last decade, with one lake showing rapid growth, adding fresh evidence to concerns over the threat posed by **Glacial Lake Outburst Floods (GLOFs)** in the eastern Himalaya.
  अरुणाचल प्रदेश के **तवांग जिले** की **पांच हिमनदीय झीलों** के उपग्रह-आधारित आकलन में पाया गया है कि पिछले एक दशक में उनमें से चार का विस्तार हुआ है, जबकि एक झील में तीव्र वृद्धि दर्ज की गई है, जिससे पूर्वी हिमालय में **हिमनदीय झील विस्फोट बाढ़ (GLOFs)** के खतरे को लेकर चिंताएं और बढ़ गई हैं।
- The analysis — a report and not a peer-reviewed study — conducted by the Noida-based **geospatial intelligence firm Suhora Technologies**, examined five lakes in the **Mago Chu basin** that have been classified by the **National Disaster Management Authority (NDMA)** as "**high-risk**" or "**very high-risk**".
  नोएडा स्थित **भू-स्थानिक खुफिया कंपनी सुहोरा टेक्नोलॉजीज** द्वारा किया गया यह विश्लेषण — जो एक रिपोर्ट है, सहकर्मी-समीक्षित अध्ययन नहीं — **मागो चू बेसिन** की पांच झीलों की जांच करता है, जिन्हें **राष्ट्रीय आपदा प्रबंधन प्राधिकरण (NDMA)** ने "**उच्च-जोखिम**" या "**अत्यधिक उच्च-जोखिम**" के रूप में वर्गीकृत किया है।
- The assessment comes amid heightened attention on glacial hazards in the region following a recent risk evaluation by the **Centre for Earth Sciences and Himalayan Studies (CESHS), Arunachal Pradesh**.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

यह आकलन **पृथ्वी विज्ञान एवं हिमालयी अध्ययन केंद्र (CESHS), अरुणाचल प्रदेश** द्वारा हाल ही में किए गए जोखिम मूल्यांकन के बाद क्षेत्र में हिमनदीय खतरों पर बढ़ते ध्यान के बीच सामने आया है।

- Using imagery from **ICEYE, PlanetScope, and LISS-IV satellites**, Suhora compared the extent of the lakes between 2016 and June 2026.
  ICEYE, PlanetScope और LISS-IV उपग्रहों की छवियों का उपयोग करते हुए, सुहोरा ने वर्ष 2016 और जून 2026 के बीच झीलों के विस्तार की तुलना की।
- In a press statement, the company said that "four out of five lakes have expanded, reflecting a general trend of **glacial retreat** and **meltwater storage**".
  एक प्रेस वक्तव्य में कंपनी ने कहा कि "पांच में से चार झीलों का विस्तार हुआ है, जो **हिमनदों के पीछे हटने** और **पिघले हुए जल के संचय** की सामान्य प्रवृत्ति को दर्शाता है।"
- However, it cautioned that "lake expansion does not directly indicate a flood event" and said the findings instead highlighted "the importance of regular monitoring and further assessment to better understand future risks".
  हालांकि, कंपनी ने चेतावनी दी कि "झील का विस्तार सीधे तौर पर बाढ़ की घटना का संकेत नहीं देता" और कहा कि निष्कर्ष "भविष्य के जोखिमों को बेहतर ढंग से समझने के लिए नियमित निगरानी और आगे के आकलन के महत्व" को रेखांकित करते हैं।

High-risk lakes
उच्च-जोखिम वाली झीलें

- Among the lakes analysed, **Sanhapo Lake** showed the most significant growth.
  विश्लेषित झीलों में **सन्हापो झील** में सबसे अधिक वृद्धि दर्ज की गई।
- Suhora estimated its area at **78.07 hectares** in 2019, increasing to **88.81 hectares** by mid-June 2026.
  सुहोरा ने वर्ष 2019 में इसका क्षेत्रफल **78.07 हेक्टेयर** आंका था, जो जून 2026 के मध्य तक बढ़कर **88.81 हेक्टेयर** हो गया।
- The company said that while uncertainties remain regarding its historical extent because of ice cover visible in its 2016 imagery, the lake has exhibited sustained expansion in recent years.
  कंपनी ने कहा कि 2016 की उपग्रह छवियों में दिखाई देने वाली बर्फीली परत के कारण इसके ऐतिहासिक विस्तार को लेकर कुछ अनिश्चितताएं बनी हुई हैं, फिर भी हाल के वर्षों में झील में निरंतर विस्तार देखा गया है।
- Given its size and continued growth, Suhora identified it as the highest-priority lake among those assessed for detailed hazard modelling, continuous monitoring and possible **early-warning systems**.
  इसके आकार और निरंतर वृद्धि को देखते हुए, सुहोरा ने इसे विस्तृत खतरा मॉडलिंग, सतत निगरानी और संभावित **पूर्व चेतावनी प्रणालियों** के लिए सर्वोच्च प्राथमिकता वाली झील के रूप में चिन्हित किया।
- The remaining lakes showed more modest changes.
  अन्य झीलों में अपेक्षाकृत मामूली परिवर्तन दर्ज किए गए।
- Two lakes categorised by the **NDMA** as "**very high risk**" expanded by about a hectare over the decade, while **Dharkha Tso**, listed as "**high risk**", also recorded gradual growth.
  NDMA द्वारा "**अत्यधिक उच्च-जोखिम**" श्रेणी में रखी गई दो झीलों का विस्तार लगभग एक हेक्टेयर हुआ, जबकि "**उच्च-जोखिम**" श्रेणी में सूचीबद्ध **धारखा त्सो** में भी क्रमिक वृद्धि दर्ज की गई।
- A fifth lake remained broadly stable over the observation period.
  पांचवीं झील अवलोकन अवधि के दौरान लगभग स्थिर बनी रही।
- **Amit Kumar**, co-founder and chief operating officer of **Suhora Technologies**, said satellite observations were increasingly important for monitoring remote mountain regions where field access was often difficult.
  सुहोरा टेक्नोलॉजीज के सह-संस्थापक और मुख्य परिचालन अधिकारी **अमित कुमार** ने कहा कि दूरस्थ

पर्वतीय क्षेत्रों की निगरानी के लिए उपग्रह अवलोकन लगातार अधिक महत्वपूर्ण होते जा रहे हैं, जहां प्रत्यक्ष क्षेत्रीय पहुंच अक्सर कठिन होती है।

- "By comparing satellite imagery across multiple years, it is possible to track changes in glacial lake extent…with the **monsoon season** approaching, continuous observation of glacial lakes becomes increasingly important", he added.
  "कई वर्षों की उपग्रह छवियों की तुलना करके हिमनदीय झीलों के विस्तार में हुए परिवर्तनों का पता लगाया जा सकता है... और **मानसून ऋतु** के निकट आने के साथ हिमनदीय झीलों का निरंतर अवलोकन और भी महत्वपूर्ण हो जाता है," उन्होंने कहा।
- **Anil Kulkarni**, glaciologist and distinguished fellow at the **Divecha Centre for Climate Change**, **Indian Institute of Science, Bengaluru**, and who wasn't connected to the study, said the observed expansion warranted attention but should not be interpreted as evidence of an impending disaster.
  भारतीय विज्ञान संस्थान, बेंगलुरु के **दिवेचा सेंटर फॉर क्लाइमेट चेंज** के हिमनद वैज्ञानिक और विशिष्ट फेलो **अनिल कुलकर्णी**, जो इस अध्ययन से जुड़े नहीं थे, ने कहा कि देखा गया विस्तार ध्यान देने योग्य है, लेकिन इसे किसी आसन्न आपदा का प्रमाण नहीं माना जाना चाहिए।
- "If lakes are expanding, then it is considered as an unstable lake," he said.
  उन्होंने कहा, "यदि झीलों का विस्तार हो रहा है, तो उन्हें अस्थिर झील माना जाता है।"
- However, he stressed that the key question was why a lake was growing.
  हालांकि, उन्होंने जोर देकर कहा कि मुख्य प्रश्न यह है कि झील का विस्तार क्यों हो रहा है।
- Lakes impounded by **moraines** — ridges of rock and debris deposited by glaciers — can become hazardous when retreating glaciers increase the volume of water trapped behind them.
  मोरैनों — अर्थात हिमनदों द्वारा जमा की गई चट्टानों और मलबे की दीवारों — द्वारा अवरुद्ध झीलें तब खतरनाक बन सकती हैं जब पीछे हटते हिमनद उनके पीछे फंसे जल की मात्रा बढ़ा दें।
- Yet several other factors determine risk, including the possibility of **landslides, avalanches or rockfalls** entering the lake.
  फिर भी जोखिम का निर्धारण कई अन्य कारकों से होता है, जिनमें झील में **भूस्खलन, हिमस्खलन या चट्टानों के गिरने** की संभावना भी शामिल है।
- "Mere increase in area, even over a decade, cannot be a single criterion" for judging how dangerous a lake is, Mr. Kulkarni told The Hindu.
  श्री कुलकर्णी ने कहा, "केवल क्षेत्रफल में वृद्धि, चाहे वह एक दशक में ही क्यों न हुई हो, किसी झील की खतरनाकता का एकमात्र मापदंड नहीं हो सकती।"
- "It can be a concern, but how risky it is, we do not know."
  "यह चिंता का विषय हो सकता है, लेकिन यह कितना जोखिमपूर्ण है, यह हम नहीं जानते।"

Concerns over floods
बाढ़ को लेकर चिंताएं

- Worries over **Himalayan glacial hazards** have intensified since the **October 2023 disaster in Sikkim**, when a breach associated with **South Lhonak Lake** triggered floods that killed dozens of people and destroyed the **Chungthang hydropower dam**.
  हिमालयी हिमनदीय खतरों को लेकर चिंताएं **अक्टूबर 2023 में सिक्किम की आपदा** के बाद बढ़ गई हैं, जब **साउथ ल्होनाक झील** से जुड़ी एक घटना के कारण आई बाढ़ ने दर्जनों लोगों की जान ले ली और **चुंगथांग जलविद्युत बांध** को नष्ट कर दिया।
- **GLOFs** can occur when natural moraine dams fail or when large avalanches, landslides, or icefalls suddenly displace water and generate destructive waves.
  GLOFs तब उत्पन्न हो सकते हैं जब प्राकृतिक मोरैन बांध विफल हो जाएं या बड़े हिमस्खलन, भूस्खलन अथवा हिमखंडों के गिरने से अचानक जल विस्थापित होकर विनाशकारी लहरें उत्पन्न हों।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- Mr. Kulkarni said India's ability to identify potentially dangerous glacial lakes had improved considerably through satellite monitoring and modelling.
  श्री कुलकर्णी ने कहा कि उपग्रह निगरानी और मॉडलिंग के माध्यम से संभावित रूप से खतरनाक हिमनदीय झीलों की पहचान करने की भारत की क्षमता में काफी सुधार हुआ है।
- However, he argued that translating scientific assessments into practical risk reduction remained a major challenge.
  हालांकि, उन्होंने कहा कि वैज्ञानिक आकलनों को व्यावहारिक जोखिम न्यूनीकरण उपायों में बदलना अभी भी एक बड़ी चुनौती बना हुआ है।

GS Paper II: Polity	20 June 2026
TOPICS COVERED	
20J6	Walking on footpath is a fundamental right, says SC फुटपाथ पर चलना एक मौलिक अधिकार है, सुप्रीम कोर्ट ने कहा'

Walking on footpath is a fundamental right, says SC

GS II: Polity

Krishnadas Rajagopal
NEW DELHI

The Supreme Court on Friday, in a judgment, declared the freedom to walk on demarcated and well-maintained footpaths a fundamental right which has priority over movement by motorised vehicles. The court highlighted the need to lay down a statutory framework, not only for declaring the right to walk a fundamental right, but also to recognise the duty-bearers.

"If a road exists, there must then be a duty to ensure that a footpath is demarcated and maintained for the walkers. This is an enforceable duty. The fundamental right to walk on demarcated footpaths shall override the privilege of a motorised vehicle," Justice P.S. Narasimha, who authored the judgment, held.

The judgment came in a case of the death of a five-year-old boy who was crushed to death by a truck while walking to school with his father. The court found that the parent was entitled to compensation of over ₹11 lakh.

'Most basic of rights'

Justice Narasimha said walking safely and carefree along footpaths, without danger lurking at every turn, was the most basic of rights. "It is the simplest of the human activity, inextricably connected to life."

The court said the Constitution recognised and guaranteed walking as a fundamental right in its words, "All citizens shall have the right... to move freely throughout the territory of India".

But over the years, demands of trade and urbanisation have relegated walking to an inconvenience. Governments and local bodies paralleled wide roads and expressways to growth, building motorways while leaving little space for walking, the court said.

"It could also be elitism to start with, for machines with wheels were only for the rich, but as economies progressed and cheaper motor vehicles were introduced, the entire spectrum of motorised transportation dominated the roads, pushed aside the walkers to the extent that they are treated as a nuisance for the drivers who routinely run over the walkers and their footpaths. This should stop from now on as we declare the fundamental right to walk on demarcated footpaths alongside motorised roads," the top court said.

"Walking is a struggle for the not-so-fortunate, meditation in motion for many, resistance for others, discovery for the inquisitive, a cohesive strategy for sharp socio-political minds. It certainly did inspire and ignite some of the ideals of the freedom struggle... In that sense, walking is not just motion, it certainly embodies expressional, congregational and associational rights under Article 19(1)(a), Article 19(1)(b) and Article 19 (1)(c)," Justice Narasimha said. Common spaces must not be the monopoly of motorised vehicles. The freedom to walk, subject to reasonable restrictions, also deserved ample space.

"In reality, how much does it take to create a well-demarcated footpath wherever a road exists? All that the fundamental right to walk demands is a comfortable space for an easy and carefree walk. Should this not be the minimum of the minimum duty that a municipal authority owes to the citizens?" the top court asked the government.

Regulatory body

It said that the Motor Vehicles Act, 1988, had never bothered to recognise the fundamental right to walk. The Supreme Court also highlighted that the proposed Act must protect, enhance, and provide quick remedies for violations, and also establish a full-time regulator to plan, enforce, and implement the right to walk

"To enhance and effectuate the fundamental right to walk on demarcated footpaths, it is necessary to establish a regulatory body... Institutional expertise is critical, and such a regulator will employ human resources with domain expertise and talent," Justice Narasimha said. The court directed its Registry to send a copy of the judgment to the Ministries of Housing and Urban Affairs, Rural Development, Road Transport and Highways, to "reflect on the compelling necessity for initiating the necessary legal framework".

The Justice also said Constitutional courts were also obliged to declare and reiterate the right to walk as a fundamental right.

> If a road exists, there must then be a duty to ensure that a footpath is demarcated and maintained for the walkers. This is an enforceable duty... Walking is not just motion, it embodies expressional, congregational and associational rights under Article 19
> SUPREME COURT

EDITORIAL: RIGHT OF WAY

20J6. Walking on footpath is a fundamental right, says SC

फुटपाथ पर चलना एक मौलिक अधिकार है, सुप्रीम कोर्ट ने कहा

- The **Supreme Court** on Friday, in a judgment, declared the freedom to walk on **demarcated** and well-maintained **footpaths** a **fundamental right** which has priority over movement by **motorised vehicles**.

शुक्रवार को **सुप्रीम कोर्ट** ने एक निर्णय में **चिह्नित** और सुव्यवस्थित **फुटपाथों** पर चलने की स्वतंत्रता को एक **मौलिक अधिकार** घोषित किया, जिसे **मोटर चालित वाहनों** की आवाजाही पर प्राथमिकता प्राप्त होगी।

- The court highlighted the need to lay down a **statutory framework**, not only for declaring the right to walk a **fundamental right**, but also to recognise the **duty-bearers**.

अदालत ने इस आवश्यकता पर बल दिया कि चलने के अधिकार को **मौलिक अधिकार** घोषित करने के साथ-साथ **कर्तव्य निभाने वालों** को भी मान्यता देने हेतु एक **वैधानिक ढांचा** बनाया जाए।

- "If a road exists, there must then be a duty to ensure that a **footpath** is demarcated and maintained for the walkers.

"यदि कोई सड़क मौजूद है, तो यह सुनिश्चित करने का दायित्व होना चाहिए कि पैदल चलने वालों के लिए **फुटपाथ** चिह्नित और सुव्यवस्थित हो।

- This is an **enforceable duty**.

यह एक **प्रवर्तनीय दायित्व** है।

- The **fundamental right** to walk on demarcated footpaths shall override the privilege of a motorised vehicle," Justice **P. S. Narasimha**, who authored the judgment, held.

निर्णय लिखने वाले न्यायमूर्ति **पी. एस. नरसिम्हा** ने कहा कि

चिह्नित फुटपाथों पर चलने का **मौलिक अधिकार**, मोटर वाहन के विशेषाधिकार पर वरीयता रखेगा।

- The judgment came in a case of the death of a **five-year-old boy** who was crushed to death by a truck while walking to school with his father.
  यह निर्णय एक **पांच वर्षीय बालक** की मृत्यु के मामले में आया, जिसे अपने पिता के साथ स्कूल जाते समय एक ट्रक ने कुचल दिया था।
- The court found that the parent was entitled to **compensation** of over **₹11 lakh**.
  अदालत ने पाया कि माता-पिता **₹11 लाख** से अधिक के **मुआवजे** के हकदार हैं।

'Most basic of rights'
'अधिकारों में सबसे बुनियादी अधिकार'

- Justice Narasimha said walking safely and carefree along footpaths, without danger lurking at every turn, was the most basic of rights.
  न्यायमूर्ति नरसिम्हा ने कहा कि हर मोड़ पर खतरे के बिना, फुटपाथों पर सुरक्षित और निश्चिंत होकर चलना अधिकारों में सबसे बुनियादी अधिकार है।
- "It is the simplest of human activity, inextricably connected to life."
  "यह मानव गतिविधियों में सबसे सरल है, जो जीवन से अविच्छिन्न रूप से जुड़ी हुई है।"
- The court said the **Constitution** recognised and guaranteed walking as a **fundamental right** in its words, "All citizens shall have the right… to move freely throughout the territory of India".
  अदालत ने कहा कि **संविधान** ने चलने को एक **मौलिक अधिकार** के रूप में मान्यता दी है और इसकी गारंटी दी है, जिसमें कहा गया है, "सभी नागरिकों को... भारत के समस्त क्षेत्र में स्वतंत्र रूप से घूमने का अधिकार होगा।"
- But over the years, demands of trade and urbanisation have relegated walking to an inconvenience.
  लेकिन वर्षों में व्यापार और शहरीकरण की मांगों ने पैदल चलने को एक असुविधा बना दिया है।
- Governments and local bodies paralleled wide roads and expressways to growth, building motorways while leaving little space for walking, the court said.
  अदालत ने कहा कि सरकारों और स्थानीय निकायों ने विकास को चौड़ी सड़कों और एक्सप्रेसवे से जोड़ा तथा मोटरमार्ग बनाए, जबकि पैदल चलने के लिए बहुत कम स्थान छोड़ा।
- "It could also be elitism to start with, for machines with wheels were only for the rich, but as economies progressed and cheaper motor vehicles were introduced, the entire spectrum of motorised transportation dominated the roads, pushed aside the walkers to the extent that they are treated as a nuisance for the drivers who routinely run over the walkers and their footpaths.
  "शुरुआत में यह अभिजात्यवाद भी हो सकता था, क्योंकि पहियों वाली मशीनें केवल अमीरों के लिए थीं, लेकिन जैसे-जैसे अर्थव्यवस्थियां विकसित हुईं और सस्ते मोटर वाहन आए, मोटर चालित परिवहन ने सड़कों पर प्रभुत्व स्थापित कर लिया और पैदल चलने वालों को इस हद तक किनारे कर दिया कि उन्हें वाहन चालकों द्वारा परेशानी समझा जाने लगा।
- This should stop from now on as we declare the **fundamental right** to walk on demarcated footpaths alongside motorised roads," the top court said.
  शीर्ष अदालत ने कहा, "अब यह रुकना चाहिए क्योंकि हम मोटर सड़कों के साथ चिह्नित फुटपाथों पर चलने के **मौलिक अधिकार** की घोषणा कर रहे हैं।"
- "Walking is a struggle for the not-so-fortunate, meditation in motion for many, resistance for others, discovery for the inquisitive, a cohesive strategy for sharp socio-political minds.
  "पैदल चलना कम भाग्यशाली लोगों के लिए संघर्ष है, अनेक लोगों के लिए गतिशील ध्यान है, कुछ के लिए प्रतिरोध है, जिज्ञासुओं के लिए खोज है और तीक्ष्ण सामाजिक-राजनीतिक मस्तिष्कों के लिए एक समन्वित रणनीति है।
- It certainly did inspire and ignite some of the ideals of the **freedom struggle**…
  इसने निश्चित रूप से **स्वतंत्रता संग्राम** के कुछ आदर्शों को प्रेरित और प्रज्ज्वलित किया।

- In that sense, walking is not just motion, it certainly embodies **expressional**, **congregational** and **associational rights** under **Article 19(1)(a)**, **Article 19(1)(b)** and **Article 19(1)(c),"** Justice Narasimha said.
  इस अर्थ में पैदल चलना केवल गति नहीं है, बल्कि यह **अनुच्छेद 19(1)(a)**, **अनुच्छेद 19(1)(b)** और **अनुच्छेद 19(1)(c)** के अंतर्गत **अभिव्यक्ति**, **सभा** और **संघ बनाने के अधिकारों** को भी समाहित करता है," न्यायमूर्ति नरसिम्हा ने कहा।
- Common spaces must not be the monopoly of motorised vehicles.
  सार्वजनिक स्थान मोटर चालित वाहनों का एकाधिकार नहीं होने चाहिए।
- The freedom to walk, subject to reasonable restrictions, also deserved ample space.
  उचित प्रतिबंधों के अधीन पैदल चलने की स्वतंत्रता को भी पर्याप्त स्थान मिलना चाहिए।
- "In reality, how much does it take to create a well-demarcated footpath wherever a road exists?
  "वास्तव में जहां भी सड़क है, वहां एक सुव्यवस्थित और स्पष्ट रूप से चिह्नित फुटपाथ बनाने में कितना लगता है?
- All that the **fundamental right** to walk demands is a comfortable space for an easy and carefree walk.
  पैदल चलने का **मौलिक अधिकार** केवल एक सहज और निश्चिंत पैदल यात्रा के लिए आरामदायक स्थान की मांग करता है।
- Should this not be the minimum of the minimum duty that a municipal authority owes to the citizens?" the top court asked the government.
  क्या यह नागरिकों के प्रति किसी नगर निकाय का न्यूनतम से भी न्यूनतम दायित्व नहीं होना चाहिए?" शीर्ष अदालत ने सरकार से पूछा।

Regulatory body
नियामक निकाय

- It said that the **Motor Vehicles Act, 1988**, had never bothered to recognise the **fundamental right** to walk.
  अदालत ने कहा कि **मोटर वाहन अधिनियम, 1988** ने कभी भी पैदल चलने के **मौलिक अधिकार** को मान्यता देने की चिंता नहीं की।
- The Supreme Court also highlighted that the proposed Act must protect, enhance, and provide quick remedies for violations, and also establish a full-time **regulator** to plan, enforce, and implement the right to walk.
  सुप्रीम कोर्ट ने यह भी रेखांकित किया कि प्रस्तावित कानून को इस अधिकार की रक्षा करनी चाहिए, इसे सुदृढ़ बनाना चाहिए, उल्लंघनों के लिए त्वरित उपचार उपलब्ध कराना चाहिए तथा पैदल चलने के अधिकार की योजना, प्रवर्तन और क्रियान्वयन के लिए एक पूर्णकालिक **नियामक** स्थापित करना चाहिए।
- "To enhance and effectuate the **fundamental right** to walk on demarcated footpaths, it is necessary to establish a **regulatory body**…
  "चिह्नित फुटपाथों पर चलने के **मौलिक अधिकार** को सशक्त और प्रभावी बनाने के लिए एक **नियामक निकाय** की स्थापना आवश्यक है...
- Institutional expertise is critical, and such a regulator will employ human resources with domain expertise and talent," Justice Narasimha said.
  संस्थागत विशेषज्ञता अत्यंत महत्वपूर्ण है और ऐसा नियामक क्षेत्रीय विशेषज्ञता एवं प्रतिभा वाले मानव संसाधनों को नियुक्त करेगा," न्यायमूर्ति नरसिम्हा ने कहा।
- The court directed its Registry to send a copy of the judgment to the **Ministries of Housing and Urban Affairs, Rural Development, Road Transport and Highways**, to "reflect on the compelling necessity for initiating the necessary legal framework".
  अदालत ने अपने रजिस्ट्री को निर्देश दिया कि वह इस निर्णय की प्रति **आवास एवं शहरी कार्य मंत्रालय, ग्रामीण**

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

विकास मंत्रालय तथा सड़क परिवहन एवं राजमार्ग मंत्रालय को भेजे ताकि वे "आवश्यक कानूनी ढांचे की शुरुआत की अनिवार्य आवश्यकता पर विचार करें।"

- The Justice also said **Constitutional courts** were also obliged to declare and reiterate the right to walk as a **fundamental right**.
  न्यायमूर्ति ने यह भी कहा कि **संवैधानिक न्यायालयों** का भी यह दायित्व है कि वे पैदल चलने के अधिकार को एक **मौलिक अधिकार** के रूप में घोषित करें और उसकी पुनर्पुष्टि करें।

GS II: Governance

Right of way

India needs to build more footpaths to help pedestrians walk freely

As part of the Supreme Court's expansion of Article 21 since the 1970s, it has declared the right to walk on demarcated footpaths a fundamental right. The Bench of Justices P.S. Narasimha and Atul S. Chandurkar reaffirmed the right in a case seeking higher compensation for a five-year-old boy's death after being struck and killed by a tanker lorry in Karnataka. As motorised transport has become more widespread, the Bench noted with regret that walking has become an inconvenience, with motorists often treating pedestrians as a 'nuisance' to be tolerated or cleared. In the absence of a national law governing pedestrian rights, responsibility for pedestrian safety is split across municipal laws, town-planning statutes, and street design guidelines. As such, pedestrians are considered to be safe if they face no immediate physical harm. Most cities also lack continuous unobstructed footpaths; where footpaths do exist, they are often encroached on by parking, vendors, utilities, and construction debris, and competing pressures such as road widening work.

While a right to walk is desirable, the ideas that pavements belong to pedestrians and that they have right of way should be cultural in order to endure. Rights-based legislation in India that has sought to change public culture has had mixed success. The Street Vendors Act 2014 sought to protect vendors from harassment as under Article 19(1)(g). But in most cities, municipalities still conduct "eviction drives" while implementation has lagged because the Act requires surveys, town vending committees, and the demarcation of vending zones – processes that many urban local bodies have delayed or simply abandoned. Weak implementation has allowed informal rent-seeking by officials to persist in some cases. The new judgment is also likely to set up disputes with the 2014 Act. Second, the Cigarettes and Other Tobacco Products Act 2003 curtailed public smoking over 20 years, but not by "restitutionary remedies", as the Court has suggested for walking, but with consistent social messaging and small, immediate fines. Finally, despite strict laws and 'Swachh Bharat' mandates, the culture of littering remains because the law focuses on citizens' duty to segregate whereas the state has often overlooked its duty to collect segregated waste. Similarly, if the state does not build footpaths, the citizen's right will be meaningless. The Court's constitutional nudge may thus lead to no real change if it remains a legal tool for compensation after a tragedy. A state using it to 'cleanse' streets of informal commercial activity could also gentrify these public spaces and criminalise the survival of the urban poor. The nudge's principal path to success will be by moving the state's funds towards pedestrian infrastructure.

20J6. Right of Way
मार्गाधिकार

- India needs to build more **footpaths** to help **pedestrians** walk freely.

भारत को **पैदल मार्गों (फुटपाथों)** का अधिक निर्माण करने की आवश्यकता है ताकि **पैदल यात्री** स्वतंत्र रूप से चल सकें।

A right to walk
पैदल चलने का अधिकार

- As part of the **Supreme Court's** expansion of **Article 21** since the 1970s, it has declared the **right to walk** on demarcated footpaths a **fundamental right**.

1970 के दशक से **अनुच्छेद 21** के विस्तार के क्रम में **सर्वोच्च न्यायालय** ने चिह्नित फुटपाथों पर **पैदल चलने के अधिकार** को एक **मौलिक अधिकार** घोषित किया है।

- The Bench of Justices **P.S. Narasimha** and **Atul S. Chandurkar** reaffirmed the right in a case seeking higher compensation for a five-year-old boy's death after being struck and killed by a tanker lorry in Karnataka.

न्यायमूर्ति **पी.एस. नरसिम्हा** और **अतुल एस. चांदुरकर** की पीठ ने कर्नाटक में एक टैंकर लॉरी की चपेट में आकर मृत्यु को प्राप्त हुए पाँच वर्षीय बालक के लिए अधिक मुआवजे की मांग से संबंधित मामले में इस अधिकार की पुनः पुष्टि की।

- As motorised transport has become more widespread, the Bench noted with regret that walking has become an inconvenience, with motorists often treating pedestrians as a **'nuisance'** to be tolerated or cleared.

मोटर चालित परिवहन के व्यापक प्रसार के साथ पीठ ने खेद व्यक्त करते हुए कहा कि पैदल चलना एक असुविधा बन गया है, और वाहन चालक प्रायः पैदल यात्रियों को **'बाधा'** के रूप में देखते हैं जिसे सहन किया जाए या रास्ते से हटाया जाए।

- In the absence of a national law governing **pedestrian rights**, responsibility for pedestrian safety is split across municipal laws, town-planning statutes, and street design guidelines.

पैदल यात्रियों के अधिकारों को विनियमित करने वाले किसी राष्ट्रीय कानून के अभाव में उनकी सुरक्षा की जिम्मेदारी नगरपालिका कानूनों, नगर नियोजन अधिनियमों तथा सड़क अभिकल्पन दिशानिर्देशों में विभाजित है।

- As such, pedestrians are considered to be safe if they face no immediate physical harm.
  फलस्वरूप, पैदल यात्रियों को केवल तभी सुरक्षित माना जाता है जब उन्हें कोई तात्कालिक शारीरिक क्षति न हो।
- Most cities also lack continuous unobstructed **footpaths**; where footpaths do exist, they are often encroached on by parking, vendors, utilities, and construction debris, and competing pressures such as road widening work.
  अधिकांश शहरों में निरंतर एवं अवरोध-मुक्त **फुटपाथों** का अभाव है; और जहाँ फुटपाथ उपलब्ध हैं, वहाँ भी उन पर प्रायः पार्किंग, फेरीवालों, सार्वजनिक सुविधाओं, निर्माण मलबे तथा सड़क चौड़ीकरण जैसी गतिविधियों का अतिक्रमण होता है।
- While a **right to walk** is desirable, the ideas that pavements belong to pedestrians and that they have **right of way** should be cultural in order to endure.
  यद्यपि **पैदल चलने का अधिकार** वांछनीय है, परंतु यह विचार कि फुटपाथ पैदल यात्रियों के लिए हैं तथा उन्हें **मार्ग-प्राथमिकता (Right of Way)** प्राप्त है, स्थायी होने के लिए सामाजिक संस्कृति का हिस्सा बनना चाहिए।
- Rights-based legislation in India that has sought to change public culture has had mixed success.
  भारत में सार्वजनिक संस्कृति को परिवर्तित करने का प्रयास करने वाले अधिकार-आधारित कानूनों को मिश्रित सफलता प्राप्त हुई है।
- The **Street Vendors Act 2014** sought to protect vendors from harassment as under **Article 19(1)(g)**.
  स्ट्रीट वेंडर्स अधिनियम, 2014 ने **अनुच्छेद 19(1)(g)** के अंतर्गत विक्रेताओं को उत्पीड़न से संरक्षण प्रदान करने का प्रयास किया।
- But in most cities, municipalities still conduct **"eviction drives"** while implementation has lagged because the Act requires surveys, town vending committees, and the demarcation of vending zones — processes that many urban local bodies have delayed or simply abandoned.
  किन्तु अधिकांश शहरों में नगरपालिकाएँ अब भी **"अतिक्रमण हटाओ अभियान"** चलाती हैं, जबकि अधिनियम का कार्यान्वयन पीछे रह गया है क्योंकि इसके लिए सर्वेक्षण, नगर विक्रय समितियों तथा विक्रय क्षेत्रों के निर्धारण की आवश्यकता होती है — ऐसी प्रक्रियाएँ जिन्हें अनेक शहरी स्थानीय निकायों ने विलंबित कर दिया है या त्याग दिया है।
- Weak implementation has allowed informal **rent-seeking** by officials to persist in some cases.
  कमजोर क्रियान्वयन ने कुछ मामलों में अधिकारियों द्वारा अनौपचारिक **किराया-लाभ (Rent-Seeking)** की प्रवृत्ति को बनाए रखा है।
- The new judgment is also likely to set up disputes with the **2014 Act**.
  यह नया निर्णय **2014 के अधिनियम** के साथ विवाद उत्पन्न करने की संभावना भी रखता है।
- Second, the **Cigarettes and Other Tobacco Products Act 2003** curtailed public smoking over 20 years, but not by **"restitutionary remedies"**, as the Court has suggested for walking, but with consistent social messaging and small, immediate fines.
  दूसरे, **सिगरेट एवं अन्य तंबाकू उत्पाद अधिनियम, 2003** ने बीते 20 वर्षों में सार्वजनिक धूम्रपान को कम किया, परंतु यह **"प्रतिपूरक उपायों (Restitutionary Remedies)"** के माध्यम से नहीं, जैसा कि न्यायालय ने पैदल चलने के संदर्भ में सुझाया है, बल्कि निरंतर सामाजिक संदेशों तथा छोटे एवं त्वरित जुर्मानों के माध्यम से संभव हुआ।
- Finally, despite strict laws and **'Swachh Bharat'** mandates, the culture of littering remains because the law focuses on citizens' duty to segregate whereas the state has often overlooked its duty to collect segregated waste.
  अंततः, कठोर कानूनों और **'स्वच्छ भारत'** के निर्देशों के बावजूद कूड़ा फैलाने की संस्कृति बनी हुई है, क्योंकि कानून नागरिकों के कचरा पृथक्करण के दायित्व पर केंद्रित है, जबकि राज्य ने अक्सर पृथक किए गए कचरे के संग्रहण के अपने दायित्व की उपेक्षा की है।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- Similarly, if the state does not build **footpaths**, the citizen's right will be meaningless.
  इसी प्रकार, यदि राज्य **फुटपाथों** का निर्माण नहीं करता, तो नागरिकों का यह अधिकार निरर्थक हो जाएगा।
- The Court's constitutional **nudge** may thus lead to no real change if it remains a legal tool for compensation after a tragedy.
  अतः न्यायालय का यह संवैधानिक **प्रेरक संकेत (Nudge)** वास्तविक परिवर्तन नहीं ला पाएगा यदि यह केवल किसी दुर्घटना के बाद मुआवजा दिलाने का कानूनी साधन बनकर रह जाए।
- A state using it to **'cleanse' streets** of informal commercial activity could also **gentrify** these public spaces and criminalise the survival of the urban poor.
  यदि राज्य इसका उपयोग अनौपचारिक व्यावसायिक गतिविधियों से सड़कों को **'मुक्त'** करने के लिए करता है, तो यह सार्वजनिक स्थानों के **उच्चवर्गीकरण (Gentrification)** को बढ़ावा दे सकता है तथा शहरी गरीबों की आजीविका को अपराध की श्रेणी में ला सकता है।
- The nudge's principal path to success will be by moving the state's funds towards **pedestrian infrastructure**.
  इस प्रेरक संकेत की सफलता का मुख्य मार्ग राज्य के वित्तीय संसाधनों को **पैदल यात्री अवसंरचना** के विकास की ओर स्थानांतरित करने में निहित होगा।

The country's clean-energy future depends on faster, smarter grid expansion and optimisation

India is leaving tens of gigawatts (GW) of cheap solar and wind power stranded – not because the projects are not ready, but because the grid is not. Upgrading the existing grid with advanced technologies and adding storage at key nodes can unlock 1,000 GW of new clean energy, without acquiring any additional land for transmission.

India is on the verge of a major shift in its electricity system. Solar and wind are now the country's cheapest power sources, and deployment is accelerating, with over 45 GW added in 2025, roughly matching the United States. Paired with some of the world's lowest battery costs, India can now deliver firm clean power at about ₹3.5 per kWh.

Yet, just as technology and prices have aligned, transmission has become the defining constraint. More than 50 GW of clean capacity is already stranded because projects can come online in 12 to 18 months, but transmission takes three to five years to build, slowed by land acquisition, multi-agency approvals, and restrictions on new corridors. Without faster and smarter grid expansion, the benefits of low-cost clean energy will remain out of reach.

India has about 250 GW of renewables today, 100 GW under construction, and will need about 2,000 GW by 2050 to meet rising demand and electrify industry and transport. This implies one of the largest transmission build-outs anywhere in the world. The question is no longer whether India must build more lines – it must –but whether new lines alone will suffice. They will not. India needs both major new transmission and far better use of the network it already has.

Creating clean-energy superhighways

India can unlock the equivalent of nearly 1,000 GW of renewable energy far faster than building new lines by tapping the vast potential of its existing grid. Much of this potential is hidden in plain sight. Four opportunities stand out.

Storage unlocks more from the same wires. First, most renewable plants today use their transmission connections only about 25% of the time. For example, solar energy fills the transmission line during the day, but the same connection sits idle during evening peaks and at night. It is a bit like a highway used only during rush hour – busy for a few hours, empty the rest of the day. Adding batteries at the same locations allows power to be stored and delivered during evening peaks and at night, raising utilisation two to three times without new corridors or land. This directly enables the equivalent of 400 GW of additional clean energy.

Coal corridors can also carry clean power. Second, power lines connected to coal-based power plants offer another major opportunity. Many high-cost or old coal plants, totalling about 100 GW, operate at low output for long periods despite having valuable transmission connections. Locating solar and wind near these stations allows clean power to use this underused capacity whenever coal units are not fully loaded. In many hours it is cheaper to transmit renewable power than to run the coal plant, giving developers access to scarce grid connection and providing coal plant owners new revenue from underutilised assets. This approach can enable the equivalent of 100 GW of additional clean energy.

Using existing substations. A third opportunity sits at existing transmission substations. Many of these locations can take on new grid connections, letting more renewable projects plug straight into the system. Coupling these nodes with batteries can further support peak-demand supply and help manage power flows. Nationally, this could support around 100 GW of additional clean energy.

Modern wires can carry double the power. And fourth, much of India's grid still uses older wires or conductors that sag under heat and restrict flow. Replacing them with high-temperature, low-sag conductors – manufactured domestically – can nearly double transfer capacity on the same towers and rights-of-way. It is like upgrading the engines on a train so it can haul twice as many goods on the same track – no new land, just better technology. This added headroom allows reconductoring to double the clean energy enabled by storage and shared transmission connections – raising the total potential to over 1,000 GW within the current transmission footprint and effectively transforming today's corridors into clean-energy superhighways.

A rapid path

Crucially, these solutions can be deployed within months, not years. They require no new land for transmission, minimal permitting, and far fewer approvals than building new corridors. They can relieve bottlenecks immediately, connect stranded clean power, and let new renewable projects advance while new lines catch up. They also improve grid utilisation and lower the average cost of using the grid.

New renewable energy projects will still require significant land, but locating them near coal plants, renewable energy hubs, or substations – where some land and grid access already exist – offers a practical, lower-conflict pathway as suitable land becomes increasingly difficult to secure.

India must build new transmission, but it must build it smart. A new line built with advanced conductors and designed to work with storage can carry four to five times more clean power for only a modest additional cost. And with India planning a 40% expansion of its grid over the next decade, costing well over $100 billion and ranking among the world's largest buildouts, every kilometre must be future-proofed from the start.

India will need both approaches. Upgrading and optimising the existing grid offers the fastest relief to today's bottlenecks, while smarter, higher-capacity new transmission infrastructure will be essential to support the massive renewable energy expansion required in the coming decades.

The policy shifts that will determine success

India already enjoys structural advantages: a unified national grid and a track record of adding transmission capacity faster than many developed countries. In the U.S. and parts of Europe, the inability to connect low-cost renewable energy to the grid has become the most severe bottleneck in the energy transition. As India accelerates renewable deployment, it can avoid this trap through forward-looking policy.

Three shifts matter most. First, India's national electricity regulator has already created enabling rules that require solar plants to make better use of their grid access by pairing with storage. This approach now needs to be implemented and expanded at the State level, with regulators and utilities actively incorporating it into planning and procurement decisions.

Second, regulation and procurement norms should reward the use of advanced transmission technologies that cost slightly more upfront but deliver greater system-wide benefits over their lifetime by expanding capacity without the need for new corridors.

Third, the coordinated development of large renewable energy zones and optimised transmission corridors is essential to overcome site-selection, planning, and timing challenges, and to enable the efficient movement of vast volumes of low-cost clean energy.

These measures will help India sustain its lead in low-cost clean power at a time when industries such as steel, aluminium, cement, data centres and chemicals are increasingly demanding reliable 24X7 electricity at predictable prices. The path ahead is clear: build all the transmission India can – and get far more out of every line. The grid is no longer background infrastructure. It is India's next engine of growth, and a cornerstone of a low-cost, high-productivity future.

India's cheapest power is here, the grid must catch up

भारत की सबसे सस्ती विद्युत यहाँ उपलब्ध है, अब ग्रिड अवसंरचना को इसके अनुरूप विकसित होना चाहिए

- **India** is leaving tens of **gigawatts (GW)** of cheap **solar** and **wind power** stranded — not because the projects are not ready, but because the **grid** is not.
  भारत सस्ती **सौर** और **पवन ऊर्जा** के दर्जनों **गीगावाट (GW)** को अनुपयोगी छोड़ रहा है — इसलिए नहीं कि परियोजनाएँ तैयार नहीं हैं, बल्कि इसलिए कि **ग्रिड** तैयार नहीं है।
- Upgrading the existing grid with **advanced technologies** and adding **storage** at key nodes can unlock **1,000 GW** of new clean energy, without acquiring any additional land for transmission.
  मौजूदा ग्रिड को **उन्नत प्रौद्योगिकियों** से उन्नत बनाकर तथा प्रमुख बिंदुओं पर **भंडारण (Storage)** जोड़कर, संचरण हेतु अतिरिक्त भूमि अधिग्रहण किए बिना **1,000 GW** नई स्वच्छ ऊर्जा उपलब्ध कराई जा सकती है।
- **India** is on the verge of a major shift in its electricity system.
  भारत अपनी विद्युत प्रणाली में एक बड़े परिवर्तन के कगार पर खड़ा है।
- **Solar** and **wind** are now the country's cheapest power sources, and deployment is accelerating, with over **45 GW** added in 2025, roughly matching the **United States**.
  सौर और **पवन ऊर्जा** अब देश के सबसे सस्ते विद्युत स्रोत बन चुके हैं, और इनकी स्थापना तीव्र गति से बढ़ रही है। वर्ष 2025 में **45 GW** से अधिक क्षमता जोड़ी गई, जो लगभग **संयुक्त राज्य अमेरिका** के बराबर है।
- Paired with some of the world's lowest **battery costs**, India can now deliver **firm clean power** at about **₹3.5 per kWh**.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

विश्व की सबसे कम **बैटरी लागतों** में से कुछ के साथ, भारत अब लगभग **₹3.5 प्रति किलोवाट-घंटा (kWh)** की दर पर **विश्वसनीय स्वच्छ ऊर्जा** उपलब्ध करा सकता है।

- Yet, just as technology and prices have aligned, **transmission** has become the defining constraint.
  किन्तु जैसे ही प्रौद्योगिकी और लागत के बीच संतुलन स्थापित हुआ है, **विद्युत संचरण (Transmission)** सबसे बड़ी बाधा बनकर उभरा है।
- More than **50 GW** of clean capacity is already stranded because projects can come online in **12 to 18 months**, but transmission takes **three to five years** to build, slowed by **land acquisition**, multi-agency approvals, and restrictions on new corridors.
  50 GW से अधिक स्वच्छ ऊर्जा क्षमता पहले से ही फँसी हुई है क्योंकि परियोजनाएँ **12 से 18 महीनों** में चालू हो सकती हैं, जबकि संचरण अवसंरचना के निर्माण में **तीन से पाँच वर्ष** लग जाते हैं, जिसे **भूमि अधिग्रहण**, बहु-एजेंसी स्वीकृतियाँ और नए गलियारों पर प्रतिबंध धीमा कर देते हैं।
- Without faster and smarter grid expansion, the benefits of low-cost clean energy will remain out of reach.
  तेज और अधिक बुद्धिमत्तापूर्ण ग्रिड विस्तार के बिना कम लागत वाली स्वच्छ ऊर्जा के लाभ लोगों की पहुँच से बाहर बने रहेंगे।
- India has about **250 GW** of renewables today, **100 GW** under construction, and will need about **2,000 GW by 2050** to meet rising demand and electrify industry and transport.
  आज भारत के पास लगभग **250 GW** नवीकरणीय ऊर्जा क्षमता है, **100 GW** निर्माणाधीन है, और बढ़ती मांग को पूरा करने तथा उद्योग एवं परिवहन के विद्युतीकरण के लिए **2050 तक लगभग 2,000 GW** क्षमता की आवश्यकता होगी।
- This implies one of the largest **transmission build-outs** anywhere in the world.
  इसका अर्थ है कि भारत को विश्व की सबसे बड़ी **संचरण अवसंरचना विस्तार योजनाओं** में से एक को क्रियान्वित करना होगा।
- The question is no longer whether India must build more lines — it must — but whether new lines alone will suffice.
  अब प्रश्न यह नहीं है कि भारत को अधिक संचरण लाइनें बनानी चाहिए या नहीं — उसे अवश्य बनानी चाहिए — बल्कि यह है कि क्या केवल नई लाइनें ही पर्याप्त होंगी।
- They will not.
  वे पर्याप्त नहीं होंगी।
- India needs both major new transmission and far better use of the network it already has.
  भारत को नए बड़े पैमाने के संचरण नेटवर्क के साथ-साथ मौजूदा नेटवर्क का कहीं अधिक प्रभावी उपयोग भी करना होगा।

Creating clean-energy superhighways
स्वच्छ ऊर्जा सुपरहाइवे का निर्माण

- India can unlock the equivalent of nearly **1,000 GW** of renewable energy far faster than building new lines by tapping the vast potential of its existing grid.
  भारत अपने मौजूदा ग्रिड की विशाल क्षमता का उपयोग करके नई संचरण लाइनों के निर्माण की तुलना में कहीं अधिक तेजी से लगभग **1,000 GW** नवीकरणीय ऊर्जा के समतुल्य क्षमता को उपलब्ध करा सकता है।
- Much of this potential is hidden in plain sight.
  इस क्षमता का बड़ा भाग हमारे सामने होते हुए भी अनदेखा बना हुआ है।
- **Four opportunities** stand out.
  इस संदर्भ में **चार प्रमुख अवसर** उभरकर सामने आते हैं।
- **Storage unlocks more from the same wires.**
  भंडारण (Storage) उसी संचरण नेटवर्क से अधिक क्षमता उपलब्ध कराता है।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- First, most renewable plants today use their transmission connections only about **25%** of the time.
  पहला, अधिकांश नवीकरणीय ऊर्जा संयंत्र आज अपनी संचरण क्षमता का उपयोग केवल लगभग **25%** समय ही करते हैं।
- For example, **solar energy** fills the transmission line during the day, but the same connection sits idle during evening peaks and at night.
  उदाहरण के लिए, **सौर ऊर्जा** दिन के समय संचरण लाइन का उपयोग करती है, किन्तु वही कनेक्शन शाम के चरम मांग काल और रात्रि में निष्क्रिय रहता है।
- It is a bit like a highway used only during rush hour — busy for a few hours, empty the rest of the day.
  यह कुछ वैसा ही है जैसे कोई राजमार्ग केवल व्यस्त समय में उपयोग हो और शेष दिन खाली पड़ा रहे।
- Adding **batteries** at the same locations allows power to be stored and delivered during evening peaks and at night, raising utilisation **two to three times** without new corridors or land.
  उसी स्थान पर **बैटरियाँ** लगाने से ऊर्जा का भंडारण किया जा सकता है और उसे शाम के चरम समय तथा रात्रि में आपूर्ति किया जा सकता है, जिससे बिना नए गलियारों या भूमि के उपयोगिता **दो से तीन गुना** बढ़ सकती है।
- This directly enables the equivalent of **400 GW** of additional clean energy.
  इससे प्रत्यक्ष रूप से **400 GW** अतिरिक्त स्वच्छ ऊर्जा के समतुल्य क्षमता उपलब्ध हो सकती है।
- **Coal corridors can also carry clean power.**
  कोयला आधारित संचरण गलियारे भी स्वच्छ ऊर्जा वहन कर सकते हैं।
- Second, power lines connected to **coal-based power plants** offer another major opportunity.
  दूसरा, **कोयला आधारित विद्युत संयंत्रों** से जुड़ी संचरण लाइनें एक और महत्वपूर्ण अवसर प्रदान करती हैं।
- Many high-cost or old coal plants, totalling about **100 GW**, operate at low output for long periods despite having valuable transmission connections.
  लगभग **100 GW** क्षमता वाले अनेक महंगे अथवा पुराने कोयला संयंत्र मूल्यवान संचरण संपर्क होने के बावजूद लंबे समय तक कम उत्पादन पर कार्य करते हैं।
- Locating solar and wind near these stations allows clean power to use this underused capacity whenever coal units are not fully loaded.
  इन संयंत्रों के निकट **सौर** और **पवन ऊर्जा** परियोजनाएँ स्थापित करने से स्वच्छ ऊर्जा इस अल्प-उपयोगित संचरण क्षमता का उपयोग कर सकती है, जब कोयला इकाइयाँ पूर्ण क्षमता पर कार्य नहीं कर रही हों।
- In many hours it is cheaper to transmit renewable power than to run the coal plant, giving developers access to scarce grid connection and providing coal plant owners new revenue from underutilised assets.
  अनेक समयावधियों में नवीकरणीय ऊर्जा का संचरण करना कोयला संयंत्र चलाने की तुलना में अधिक सस्ता होता है, जिससे डेवलपर्स को सीमित ग्रिड संपर्क उपलब्ध होता है और कोयला संयंत्र मालिकों को कम उपयोग की जा रही परिसंपत्तियों से अतिरिक्त आय प्राप्त होती है।
- This approach can enable the equivalent of **100 GW** of additional clean energy.
  यह दृष्टिकोण **100 GW** अतिरिक्त स्वच्छ ऊर्जा के समतुल्य क्षमता को सक्षम बना सकता है।
- A third opportunity sits at existing **transmission substations**.
  तीसरा अवसर मौजूदा **विद्युत संचरण उपकेंद्रों (Transmission Substations)** में निहित है।
- Many of these locations can take on new **grid connections**, letting more renewable projects plug straight into the system.
  इनमें से अनेक स्थान नए **ग्रिड कनेक्शनों** को समायोजित कर सकते हैं, जिससे अधिक नवीकरणीय ऊर्जा परियोजनाएँ सीधे प्रणाली से जुड़ सकती हैं।
- Coupling these nodes with **batteries** can further support **peak-demand supply** and help manage power flows.
  इन नोडों को **बैटरियों** के साथ जोड़ने से **उच्च मांग अवधि (Peak Demand)** के दौरान विद्युत आपूर्ति को समर्थन मिलेगा तथा ऊर्जा प्रवाह के प्रबंधन में सहायता मिलेगी।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- Nationally, this could support around **100 GW** of additional clean energy.
  राष्ट्रीय स्तर पर यह लगभग **100 GW** अतिरिक्त स्वच्छ ऊर्जा क्षमता का समर्थन कर सकता है।
- **Modern wires can carry double the power.**
  आधुनिक तार दोगुनी विद्युत वहन क्षमता प्रदान कर सकते हैं।
- And fourth, much of India's grid still uses older **wires** or **conductors** that sag under heat and restrict flow.
  चौथा, भारत के ग्रिड का एक बड़ा भाग अभी भी पुराने **तारों (Wires)** अथवा **कंडक्टरों (Conductors)** का उपयोग करता है, जो गर्मी के प्रभाव से झुक जाते हैं और विद्युत प्रवाह को सीमित करते हैं।
- Replacing them with **high-temperature, low-sag conductors** — manufactured domestically — can nearly double transfer capacity on the same towers and rights-of-way.
  इनकी जगह घरेलू स्तर पर निर्मित **उच्च-तापमान, निम्न-झुकाव (High-Temperature, Low-Sag) कंडक्टरों** का उपयोग करने से समान टावरों और मार्गाधिकार (Right-of-Way) पर संचरण क्षमता लगभग दोगुनी हो सकती है।
- It is like upgrading the engines on a train so it can haul twice as many goods on the same track — no new land, just better technology.
  यह उसी प्रकार है जैसे किसी रेलगाड़ी के इंजन को उन्नत कर दिया जाए ताकि वह उसी पटरियों पर दोगुना माल ढो सके — बिना अतिरिक्त भूमि के, केवल बेहतर प्रौद्योगिकी के माध्यम से।
- This added **headroom** allows **reconductoring** to double the clean energy enabled by storage and shared transmission connections — raising the total potential to over **1,000 GW** within the current transmission footprint and effectively transforming today's corridors into **clean-energy superhighways**.
  यह अतिरिक्त **क्षमता-वृद्धि (Headroom) रीकंडक्टोरिंग (Reconductoring)** को भंडारण तथा साझा संचरण कनेक्शनों से प्राप्त स्वच्छ ऊर्जा क्षमता को दोगुना करने की अनुमति देती है, जिससे वर्तमान संचरण नेटवर्क के भीतर कुल संभावित क्षमता **1,000 GW** से अधिक हो सकती है और वर्तमान गलियारों को प्रभावी रूप से **स्वच्छ ऊर्जा सुपरहाइवे** में परिवर्तित किया जा सकता है।

A rapid path
एक तीव्र एवं व्यावहारिक मार्ग

- Crucially, these solutions can be deployed within **months**, not years.
  महत्वपूर्ण रूप से, इन समाधानों को **वर्षों** के बजाय **कुछ महीनों** के भीतर लागू किया जा सकता है।
- They require no new land for transmission, minimal permitting, and far fewer approvals than building new corridors.
  इनके लिए संचरण हेतु नई भूमि की आवश्यकता नहीं होती, अनुमति प्रक्रियाएँ न्यूनतम होती हैं तथा नए गलियारों के निर्माण की तुलना में कहीं कम स्वीकृतियों की जरूरत पड़ती है।
- They can relieve **bottlenecks** immediately, connect stranded clean power, and let new renewable projects advance while new lines catch up.
  ये तत्काल **अवरोधों (Bottlenecks)** को कम कर सकते हैं, फँसी हुई स्वच्छ ऊर्जा को ग्रिड से जोड़ सकते हैं तथा नई संचरण लाइनों के तैयार होने तक नई नवीकरणीय परियोजनाओं को आगे बढ़ने का अवसर प्रदान कर सकते हैं।
- They also improve **grid utilisation** and lower the average cost of using the grid.
  ये **ग्रिड उपयोगिता (Grid Utilisation)** में सुधार करते हैं तथा ग्रिड के उपयोग की औसत लागत को कम करते हैं।
- New renewable energy projects will still require significant **land**, but locating them near **coal plants**, **renewable energy hubs**, or **substations** — where some land and grid access already exist — offers a practical, lower-conflict pathway as suitable land becomes increasingly difficult to secure.
  नई नवीकरणीय ऊर्जा परियोजनाओं के लिए अब भी पर्याप्त **भूमि** की आवश्यकता होगी, किन्तु उन्हें **कोयला**

संयंत्रों, **नवीकरणीय ऊर्जा हबों** अथवा **उपकेंद्रों** के निकट स्थापित करना — जहाँ कुछ भूमि और ग्रिड संपर्क पहले से उपलब्ध हैं — एक अधिक व्यावहारिक तथा कम विवादपूर्ण विकल्प प्रदान करता है, विशेषकर तब जब उपयुक्त भूमि प्राप्त करना लगातार कठिन होता जा रहा है।

- India must build new **transmission**, but it must build it smart.
  भारत को नई **संचरण अवसंरचना (Transmission Infrastructure)** का निर्माण अवश्य करना चाहिए, किन्तु उसे बुद्धिमत्तापूर्वक निर्मित करना होगा।
- A new line built with **advanced conductors** and designed to work with **storage** can carry **four to five times** more clean power for only a modest additional cost.
  उन्नत कंडक्टरों से निर्मित तथा **भंडारण प्रणाली** के साथ कार्य करने हेतु डिज़ाइन की गई नई संचरण लाइन अपेक्षाकृत मामूली अतिरिक्त लागत पर **चार से पाँच गुना** अधिक स्वच्छ ऊर्जा वहन कर सकती है।
- And with India planning a **40% expansion** of its grid over the next decade, costing well over **$100 billion** and ranking among the world's largest buildouts, every kilometre must be **future-proofed** from the start.
  और जब भारत अगले दशक में अपने ग्रिड का **40% विस्तार** करने की योजना बना रहा है, जिसकी लागत **100 अरब डॉलर** से अधिक होगी और जो विश्व की सबसे बड़ी अवसंरचना विस्तार योजनाओं में शामिल होगा, तब प्रत्येक किलोमीटर को आरंभ से ही **भविष्य-सुरक्षित (Future-Proofed)** बनाया जाना चाहिए।
- India will need both approaches.
  भारत को इन दोनों दृष्टिकोणों की आवश्यकता होगी।
- Upgrading and optimising the existing grid offers the fastest relief to today's bottlenecks, while smarter, higher-capacity new transmission infrastructure will be essential to support the massive renewable energy expansion required in the coming decades.
  मौजूदा ग्रिड का उन्नयन और अनुकूलन वर्तमान अवरोधों से सबसे शीघ्र राहत प्रदान करता है, जबकि अधिक बुद्धिमत्तापूर्ण एवं उच्च क्षमता वाली नई संचरण अवसंरचना आने वाले दशकों में अपेक्षित विशाल नवीकरणीय ऊर्जा विस्तार को समर्थन देने के लिए अनिवार्य होगी।

The policy shifts that will determine success
वे नीतिगत परिवर्तन जो सफलता निर्धारित करेंगे

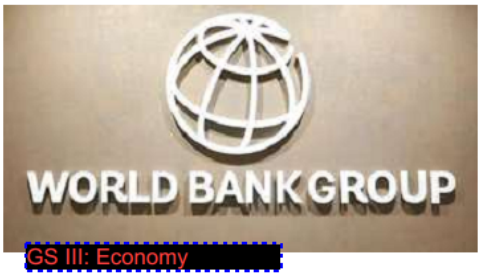
- India already enjoys **structural advantages**: a **unified national grid** and a track record of adding transmission capacity faster than many developed countries.
  भारत को पहले से ही कुछ महत्वपूर्ण **संरचनात्मक लाभ (Structural Advantages)** प्राप्त हैं: एक **एकीकृत राष्ट्रीय ग्रिड (Unified National Grid)** तथा अनेक विकसित देशों की तुलना में अधिक तीव्र गति से संचरण क्षमता बढ़ाने का सफल अनुभव।
- In the **U.S.** and parts of **Europe**, the inability to connect low-cost renewable energy to the grid has become the most severe **bottleneck** in the energy transition.
  संयुक्त राज्य अमेरिका (U.S.) तथा **यूरोप** के कुछ भागों में कम लागत वाली नवीकरणीय ऊर्जा को ग्रिड से जोड़ पाने में असमर्थता ऊर्जा संक्रमण की सबसे गंभीर **बाधा (Bottleneck)** बन गई है।
- As India accelerates renewable deployment, it can avoid this trap through **forward-looking policy**.
  जैसे-जैसे भारत नवीकरणीय ऊर्जा की स्थापना को तीव्र कर रहा है, वह **दूरदर्शी नीतियों (Forward-Looking Policy)** के माध्यम से इस समस्या से बच सकता है।

Three shifts matter most.
तीन परिवर्तन सर्वाधिक महत्वपूर्ण हैं।

- First, India's **national electricity regulator** has already created enabling rules that require solar plants to make better use of their grid access by pairing with **storage**.
  प्रथम, भारत के **राष्ट्रीय विद्युत नियामक (National Electricity Regulator)** ने पहले ही ऐसे सक्षमकारी

नियम बनाए हैं, जिनके अंतर्गत सौर संयंत्रों को **भंडारण (Storage)** के साथ जोड़कर अपने ग्रिड संपर्क का अधिक प्रभावी उपयोग करना आवश्यक है।

- This approach now needs to be implemented and expanded at the **State level**, with regulators and utilities actively incorporating it into planning and procurement decisions.
अब इस दृष्टिकोण को **राज्य स्तर** पर लागू और विस्तारित किए जाने की आवश्यकता है, तथा नियामकों और विद्युत उपयोगिता संस्थाओं को इसे अपनी योजना एवं खरीद संबंधी निर्णय प्रक्रियाओं में सक्रिय रूप से सम्मिलित करना चाहिए।
- Second, regulation and **procurement norms** should reward the use of **advanced transmission technologies** that cost slightly more upfront but deliver greater system-wide benefits over their lifetime by expanding capacity without the need for new corridors.
द्वितीय, विनियामक व्यवस्थाओं और **क्रय मानदंडों (Procurement Norms)** को ऐसी **उन्नत संचरण प्रौद्योगिकियों (Advanced Transmission Technologies)** के उपयोग को प्रोत्साहित करना चाहिए, जिनकी प्रारंभिक लागत थोड़ी अधिक हो सकती है, किन्तु वे बिना नए गलियारों की आवश्यकता के क्षमता वृद्धि करके दीर्घकाल में संपूर्ण प्रणाली को अधिक लाभ प्रदान करती हैं।
- Third, the coordinated development of large **renewable energy zones** and optimised **transmission corridors** is essential to overcome site-selection, planning, and timing challenges, and to enable the efficient movement of vast volumes of low-cost clean energy.
तृतीय, बड़े **नवीकरणीय ऊर्जा क्षेत्रों (Renewable Energy Zones)** तथा अनुकूलित **संचरण गलियारों (Transmission Corridors)** का समन्वित विकास स्थल-चयन, योजना निर्माण और समय-निर्धारण संबंधी चुनौतियों को दूर करने तथा विशाल मात्रा में कम लागत वाली स्वच्छ ऊर्जा के कुशल संचरण को सुनिश्चित करने के लिए आवश्यक है।
- These measures will help India sustain its lead in **low-cost clean power** at a time when industries such as **steel, aluminium, cement, data centres and chemicals** are increasingly demanding reliable **24×7 electricity** at predictable prices.
ये उपाय भारत को **कम लागत वाली स्वच्छ ऊर्जा** के क्षेत्र में अपनी अग्रणी स्थिति बनाए रखने में सहायता करेंगे, विशेषकर ऐसे समय में जब **इस्पात, एल्युमिनियम, सीमेंट, डेटा सेंटर तथा रासायनिक उद्योग** पूर्वानुमेय कीमतों पर विश्वसनीय **24×7 विद्युत आपूर्ति** की बढ़ती मांग कर रहे हैं।
- The path ahead is clear: build all the **transmission** India can — and get far more out of every line.
आगे का मार्ग स्पष्ट है: भारत जितनी अधिक **संचरण अवसंरचना (Transmission Infrastructure)** विकसित कर सकता है, उसे विकसित करे — और प्रत्येक संचरण लाइन से अधिकतम लाभ प्राप्त करे।
- The **grid** is no longer background infrastructure.
ग्रिड अब केवल पृष्ठभूमि में कार्य करने वाली अवसंरचना नहीं रह गया है।
- It is India's next **engine of growth**, and a cornerstone of a **low-cost, high-productivity future**.
यह भारत के अगले **विकास इंजन (Engine of Growth)** के रूप में उभर रहा है तथा **कम लागत और उच्च उत्पादकता वाले भविष्य** की आधारशिला है।



GS III: Economy

World Bank approves $1.5 bn support for India reform plan

The World Bank's Board of Executive Directors on Friday approved $1.5 billion financing to India to support structural reforms aimed at boosting private sector-led job creation and economic growth, it said in a statement. It added the financing, being provided under Development Policy Financing (DPF) Operation, can create job opportunities for 11 million youth who would be entering the labour market every year over the next two decades. The Bank's DPF seeks to rapidly disburse financing to help a borrower country address existing or anticipated development financing requirements. The statement read, "The DPF operation builds on many structural reforms undertaken or initiated in recent years, including tax simplification, trade integration, and legislative and regulatory reforms to improve ease of living and the ease of doing business."

20J6. World Bank approves $1.5 bn support for India reform plan

विश्व बैंक ने भारत की सुधार योजना के लिए 1.5 अरब डॉलर की सहायता को मंजूरी दी

- The **World Bank's Board of Executive Directors** on Friday approved **$1.5 billion financing** to India to support **structural reforms** aimed at boosting **private sector-led job creation** and **economic growth**, it said in a statement.

विश्व बैंक के कार्यकारी निदेशकों के बोर्ड ने शुक्रवार को भारत को **1.5 अरब डॉलर के वित्तपोषण** को मंजूरी दी, ताकि **संरचनात्मक सुधारों** को समर्थन दिया जा सके, जिनका उद्देश्य **निजी क्षेत्र के नेतृत्व में रोजगार सृजन** और **आर्थिक विकास** को बढ़ावा देना है। यह जानकारी एक बयान में दी गई।

- It added the financing, being provided under **Development Policy Financing (DPF) Operation**, can create job opportunities for **11 million youth** who would be entering the labour market every year over the next two decades.

बयान में कहा गया कि **डेवलपमेंट पॉलिसी फाइनेंसिंग (DPF) ऑपरेशन** के अंतर्गत प्रदान किया जा रहा यह वित्तपोषण अगले दो दशकों में हर वर्ष श्रम बाजार में प्रवेश करने वाले **1.1 करोड़ युवाओं** के लिए रोजगार के अवसर पैदा कर सकता है।

- The Bank's **DPF** seeks to rapidly disburse financing to help a borrower country address existing or anticipated **development financing requirements**.

विश्व बैंक की **DPF** व्यवस्था का उद्देश्य वित्तपोषण को शीघ्र वितरित करना है, ताकि उधार लेने वाला देश अपनी वर्तमान या संभावित **विकास वित्तपोषण आवश्यकताओं** को पूरा कर सके।

- The statement read, "The **DPF operation** builds on many structural reforms undertaken or initiated in recent years, including **tax simplification**, **trade integration**, and **legislative and regulatory reforms** to improve **ease of living** and the **ease of doing business**."

बयान में कहा गया, "यह **DPF ऑपरेशन** हाल के वर्षों में किए गए या शुरू किए गए अनेक संरचनात्मक सुधारों पर आधारित है, जिनमें **कर सरलीकरण**, **व्यापार एकीकरण**, तथा **विधायी एवं नियामक सुधार** शामिल हैं, जिनका उद्देश्य **जीवन सुगमता (Ease of Living)** और **व्यवसाय करने में सुगमता (Ease of Doing Business)** को बेहतर बनाना है।"

Jio eyes satellite communications

GS III: Economy

MUMBAI

Jio is evaluating the development of a sovereign Low Earth Orbit satellite constellation for India, said Reliance Industries CMD Mukesh Ambani.

Addressing the AGM, he said, "Jio connected India on the ground. Now, we must connect India from the skies. There are still remotest villages, island communities and border outposts where Jio network can't reach. For them, satellite connectivity will be the bridge to the rest of India," he said.

"We are also partnering leading global constellation providers by leasing satellite capacity, so that we can accelerate service availability while building our own long-term sovereign capability," he said.

To anchor this ambition, Jio is building its own ground station infrastructure in India, he added.

"These ground stations will support partner constellations as well as our own future satellites, creating an end-to-end satellite broadband ecosystem from space to ground." Mr. Ambani said.

The announcement aligns with the emergence of competition from global satellite broadband players such as SpaceX's Starlink and Amazon's Project Kuiper, both of which are seeking a foothold in India's satellite communications market.

Sovereign AI backbone

Speaking on the future plans for Reliance Intelligence, a subsidiary of RIL dealing with digital infrastructure, Mr. Ambani said, the firm will build 'India's sovereign AI backbone at Jamnagar' to address the scarcity and high cost of compute in AI.

Mukesh Ambani

"This cutting-edge infrastructure will be powered entirely by clean energy from Reliance's own solar generation from the Kutch renewable platform. The first 120 MW will be commissioned by the end of 2026," he said.

NVIDIA GPUs

In addition, the company would operationalise an initial fleet of advanced NVIDIA GB300 GPUs. This next-generation compute capacity is equivalent to more than 75,000 H100 GPUs on an AI-inference basis. As the first 120 MW becomes fully operational, this capacity can scale to over two lakh H100-equivalent GPUs, he said.

"This capacity places Reliance among the largest AI infrastructure platforms being built anywhere in the world. When compute becomes affordable, innovation becomes inevitable," he added.

20J6. Jio eyes satellite communications
जियो की नजर सैटेलाइट संचार पर

- **Jio** is evaluating the development of a sovereign **Low Earth Orbit (LEO) satellite constellation** for India, said **Reliance Industries CMD Mukesh Ambani**.

रिलायंस इंडस्ट्रीज के **सीएमडी मुकेश अंबानी** ने कहा कि **जियो** भारत के लिए एक स्वदेशी **लो अर्थ ऑर्बिट (LEO) सैटेलाइट कॉन्स्टेलेशन** विकसित करने की संभावना का मूल्यांकन कर रहा है।

- Addressing the **AGM**, he said, "Jio connected India on the ground.

एजीएम (AGM) को संबोधित करते हुए उन्होंने कहा, "जियो ने भारत को जमीन पर जोड़ा है।

- Now, we must connect India from the skies.

अब हमें भारत को आसमान से जोड़ना होगा।

- There are still remotest villages, island communities and border outposts where **Jio network** can't reach.

अभी भी ऐसे दूरस्थ गांव, द्वीपीय समुदाय और सीमा चौकियां हैं जहां **जियो नेटवर्क** नहीं पहुंच पाता है।

- For them, **satellite connectivity** will be the bridge to the rest of India," he said.

उनके लिए **सैटेलाइट कनेक्टिविटी** भारत के बाकी हिस्सों से जुड़ने का माध्यम बनेगी," उन्होंने कहा।

rd Floor, KV Tower, Padleyganj Road, Gorakhpur
nfo@patrioticias.in

atrioticias.in

- "We are also partnering leading global constellation providers by leasing satellite capacity, so that we can accelerate service availability while building our own long-term sovereign capability," he said.
  "हम प्रमुख वैश्विक सैटेलाइट कॉन्स्टेलेशन प्रदाताओं के साथ उनकी सैटेलाइट क्षमता लीज़ पर लेकर साझेदारी भी कर रहे हैं, ताकि अपनी दीर्घकालिक स्वदेशी क्षमता विकसित करते हुए सेवाओं की उपलब्धता को तेज़ किया जा सके," उन्होंने कहा।
- To anchor this ambition, **Jio** is building its own **ground station infrastructure** in India, he added.
  उन्होंने कहा कि इस महत्वाकांक्षा को साकार करने के लिए **जियो** भारत में अपना स्वयं का **ग्राउंड स्टेशन इंफ्रास्ट्रक्चर** विकसित कर रहा है।
- "These ground stations will support partner constellations as well as our own future satellites, creating an end-to-end **satellite broadband ecosystem** from space to ground." Mr. Ambani said.
  "ये ग्राउंड स्टेशन साझेदार कॉन्स्टेलेशनों के साथ-साथ हमारे भविष्य के उपग्रहों को भी समर्थन देंगे, जिससे अंतरिक्ष से धरती तक एक संपूर्ण **सैटेलाइट ब्रॉडबैंड इकोसिस्टम** तैयार होगा," श्री अंबानी ने कहा।
- The announcement aligns with the emergence of competition from global satellite broadband players such as **SpaceX's Starlink** and **Amazon's Project Kuiper**, both of which are seeking a foothold in India's **satellite communications market**.
  यह घोषणा वैश्विक सैटेलाइट ब्रॉडबैंड कंपनियों जैसे **स्पेसएक्स के स्टारलिंक** और **अमेज़न के प्रोजेक्ट कुइपर** से बढ़ती प्रतिस्पर्धा के अनुरूप है, जो दोनों भारत के **सैटेलाइट संचार बाजार** में अपनी उपस्थिति स्थापित करने का प्रयास कर रहे हैं।

Sovereign AI backbone
स्वदेशी एआई आधारभूत संरचना

- Speaking on the future plans for **Reliance Intelligence**, a subsidiary of **RIL** dealing with digital infrastructure, Mr. Ambani said, the firm will build 'India's sovereign **AI backbone** at **Jamnagar**' to address the scarcity and high cost of compute in **AI**.
  डिजिटल अवसंरचना से जुड़ी **रिलायंस इंडस्ट्रीज लिमिटेड (RIL)** की सहायक कंपनी **रिलायंस इंटेलिजेंस** की भविष्य की योजनाओं पर बोलते हुए श्री अंबानी ने कहा कि कंपनी **एआई** क्षेत्र में कंप्यूटिंग क्षमता की कमी और ऊंची लागत को दूर करने के लिए **जामनगर** में 'भारत की स्वदेशी **एआई बैकबोन**' का निर्माण करेगी।
- "This cutting-edge infrastructure will be powered entirely by **clean energy** from Reliance's own solar generation from the **Kutch renewable platform**.
  "यह अत्याधुनिक अवसंरचना पूरी तरह से **स्वच्छ ऊर्जा** से संचालित होगी, जो रिलायंस के **कच्छ नवीकरणीय ऊर्जा प्लेटफॉर्म** पर आधारित सौर ऊर्जा उत्पादन से प्राप्त होगी।
- The first **120 MW** will be commissioned by the end of **2026**," he said.
  पहले **120 मेगावाट** की क्षमता को **2026** के अंत तक चालू कर दिया जाएगा," उन्होंने कहा।

NVIDIA GPUs
एनवीडिया जीपीयू

- In addition, the company would operationalise an initial fleet of advanced **NVIDIA GB300 GPUs**.
  इसके अतिरिक्त, कंपनी उन्नत **NVIDIA GB300 GPU** के प्रारंभिक बेड़े को भी परिचालन में लाएगी।
- This next-generation compute capacity is equivalent to more than **75,000 H100 GPUs** on an **AI-inference** basis.
  यह अगली पीढ़ी की कंप्यूटिंग क्षमता **AI-Inference** के आधार पर **75,000 से अधिक H100 GPU** के बराबर है।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- As the first **120 MW** becomes fully operational, this capacity can scale to over **two lakh H100-equivalent GPUs**, he said.
  उन्होंने कहा कि जैसे ही पहली **120 मेगावाट** क्षमता पूरी तरह चालू होगी, यह क्षमता बढ़कर **दो लाख से अधिक H100-समकक्ष GPU** तक पहुंच सकती है।
- "This capacity places **Reliance** among the largest **AI infrastructure platforms** being built anywhere in the world.
  "यह क्षमता **रिलायंस** को दुनिया में विकसित किए जा रहे सबसे बड़े **एआई इंफ्रास्ट्रक्चर प्लेटफॉर्मों** में शामिल करती है।
- When computers become affordable, innovation becomes inevitable," he added.
  जब कंप्यूटिंग सस्ती हो जाती है, तो नवाचार अवश्यंभावी हो जाता है," उन्होंने कहा।

20J6. SEBI reintroduces open market stock buyback at board meet
सेबी ने बोर्ड बैठक में ओपन मार्केट शेयर बायबैक को फिर से शुरू किया

- The **Securities and Exchange Board of India (SEBI)** reintroduced **open market buybacks** via stock exchanges after the **Finance Ministry** eased tax treatment of such transactions in **Union Budget 2026**.
  भारतीय प्रतिभूति और विनिमय बोर्ड (SEBI) ने **केंद्रीय बजट 2026** में **वित्त मंत्रालय** द्वारा ऐसे लेनदेन पर कर व्यवस्था को आसान बनाए जाने के बाद स्टॉक एक्सचेंजों के माध्यम से **ओपन मार्केट बायबैक** को पुनः शुरू कर दिया है।
- At the first **board meeting of FY27**, the capital markets watchdog okayed proposals to ease stock buybacks, deepen investments in **municipal bonds**, transfer of securities to heirs of deceased among others.
  वित्त वर्ष 2027 की पहली **बोर्ड बैठक** में पूंजी बाजार नियामक ने शेयर बायबैक को आसान बनाने, **नगरपालिका बॉण्डों** में निवेश को बढ़ाने तथा मृतक निवेशकों की प्रतिभूतियों को उनके उत्तराधिकारियों को हस्तांतरित करने सहित कई प्रस्तावों को मंजूरी दी।
- Buybacks must be announced electronically and the process should be completed within **66 working days**.
  बायबैक की घोषणा इलेक्ट्रॉनिक माध्यम से की जानी चाहिए और पूरी प्रक्रिया **66 कार्यदिवसों** के भीतर पूरी की जानी चाहिए।
- Buybacks will be done through the **normal trading window**, SEBI said.
  सेबी ने कहा कि बायबैक **सामान्य ट्रेडिंग विंडो** के माध्यम से किया जाएगा।
- Employing **merchant bankers** for buyback deals would be optional.
  बायबैक सौदों के लिए **मर्चेंट बैंकरों** की नियुक्ति वैकल्पिक होगी।
- **SEBI Chairperson Tuhin Kanta Pandey** told the media the findings of the study to review the impact of **derivatives trading** on retail investors would be released in **July**.
  सेबी के अध्यक्ष तुहिन कांत पांडे ने मीडिया को बताया कि खुदरा निवेशकों पर **डेरिवेटिव ट्रेडिंग** के प्रभाव की समीक्षा करने वाले अध्ययन के निष्कर्ष **जुलाई** में जारी किए जाएंगे।
- SEBI also approved a **'quick transmission process'** for transfer of securities of deceased to legal heirs.
  सेबी ने मृतक निवेशकों की प्रतिभूतियों को कानूनी उत्तराधिकारियों को हस्तांतरित करने के लिए **'क्विक ट्रांसमिशन प्रोसेस'** को भी मंजूरी दी।
- SEBI amended **municipal debt security regulation** to develop the **M-bond markets**.
  सेबी ने **एम-बॉण्ड बाजार** के विकास के लिए **नगरपालिका ऋण प्रतिभूति विनियमों** में संशोधन किया।

- SEBI reintroduces open market stock buyback at board meet

GS III: Economy

Ashokamithran T
MUMBAI

The Securities and Exchange Board of India (SEBI) reintroduced open market buybacks via stock exchanges after Finance Ministry eased tax treatment of such transactions in Union Budget 2026.

At the first board meeting of FY27, the capital markets watchdog okayed proposals to ease stock buy backs, deepen investments in municipal bonds, transfer of securities to heirs of deceased among others.

Buybacks must be announced electronically and the process should be completed within 66 working days. Buybacks will be done through the normal trading window, SEBI said.

Employing merchant bankers for buyback deals would be optional.

SEBI Chairperson Tuhin Kanta Pandey told the media the findings of the study to review the impact of derivatives trading on retail investors would be released in July. SEBI also approved a 'quick transmission process' for transfer of securities of deceased to legal heirs.

SEBI amended municipal debt security regulation to develop the M-bond markets. Local bodies can now issue bonds to refinance existing debt for specific projects. To encourage retail participation, issuers of M-bonds can now offer incentives to senior citizens, women serving defence personnel and bereaved spouses and ex-defence personnel.

Also, SEBI brought in changes to social stock exchange framework to ease investments into them.

- Local bodies can now issue bonds to refinance existing debt for specific projects.
  अब स्थानीय निकाय विशेष परियोजनाओं के लिए मौजूदा ऋण के पुनर्वित्तपोषण हेतु बॉण्ड जारी कर सकेंगे।
- To encourage **retail participation**, issuers of **M-bonds** can now offer incentives to **senior citizens**, **women**, serving **defence personnel** and **bereaved spouses** and **ex-defence personnel**.
  खुदरा निवेशकों की भागीदारी को बढ़ावा देने के लिए **एम-बॉण्ड** जारीकर्ता अब **वरिष्ठ नागरिकों**, **महिलाओं**, सेवारत **रक्षा कर्मियों**, **शहीद/दिवंगत रक्षा कर्मियों के जीवनसाथियों** तथा **पूर्व रक्षा कर्मियों** को प्रोत्साहन प्रदान कर सकते हैं।
- Also, SEBI brought in changes to the **social stock exchange framework** to ease investments into them.
  इसके अतिरिक्त, सेबी ने **सोशल स्टॉक एक्सचेंज ढांचे** में भी बदलाव किए हैं ताकि उनमें निवेश को आसान बनाया जा सके।

Sickle cell anaemia to be eradicated by 2047: Murmu

GS III: S&T
The Hindu Bureau
BHOPAL

President Droupadi Murmu on Friday said that the country would eradicate sickle cell anaemia well before the government-set target of 2047, while calling for collective efforts to raise awareness about the disorder, especially among tribal communities.

Addressing a Madhya Pradesh Government event in Khandwa district's Omkareshwar, the President said, "Through collective strength and active participation of all States, India would achieve its national goal of eliminating sickle cell-related diseases well before 2047."

She also said that various key targets set during the launch of the National Mission in 2023 have been achieved ahead of schedule, including the screening of seven crore people between zero and 40 years of age. The President said that various scientific studies had shown that sickle cell anaemia among tribal communities was many times higher than in the general population. "I would like to urge all State governments and officials not to take this disease lightly because it passes from one generation to another. Efforts should be made to eradicate it completely," she said.

Soon, police may scan your fingerprints on the go

GS III: Internal Security

Vijaita Singh
NEW DELHI

Police and investigating agencies across the country will soon be equipped with portable fingerprint scanners linked to a national database of 1.3 crore criminal suspects and convicts, letting them stop individuals anywhere, even on the streets, to collect thumb impressions and instantly check for any pending criminal records on their smartphones.

Abhigyan, an app developed by the National Crime Records Bureau (NCRB) to implement the procedure, was launched by Home Minister Amit Shah on Friday.

The app links to the National Automated Fingerprint Identification System (NAFIS), which stores fingerprint scans of accused, convicts, and those in prisons.

A demonstration of the app showed that prints can be matched with the NAFIS database in 35 seconds.

"During routine vehicle checks on the streets, biometric scans of any suspicious individual can be conducted to identify persons wanted in connection with crimes. Field officers can get the criminal history of the suspect in few seconds. This will provide protection to the police as they will be alerted of the presence of a hardened criminal," the demo stated.

An NCRB official told *The Hindu* that the Criminal Procedure Identification Act, 2022 provides the legal basis for such checks. However, Section 3 of the Act seems to limit the mandatory recording of measurements, including fingerprints, to people who have been convicted or arrested, and those ordered to give security for good behaviour or maintaining peace under the Code of Criminal Procedure, 1973.

The Act does not mention the possibility of random testing of individuals without any evidence linking them to a punishable offence.

Data patrol: The app enables field police personnel to access a vast repository of criminal records directly on their smartphones. PTI

Current system

At present, the facility to check fingerprints against the NAFIS database is only available through 1,556 workstations deployed at police stations and district headquarters across the country.

The current process involves bringing an individual to the workstation to match his or her fingerprints with the database.

Mr. Shah said that the app enables field police personnel to access a vast repository of criminal records directly on their smartphones. "Secured with two-step authentication, it allows real-time fingerprint identification within seconds, strengthening ground-level policing. Equipped with features such as fast identification, portability, and access to millions of records, 'Abhigyan' is a highly powerful tool," the Minister said.

The NAFIS database includes the records of around 9.91 lakh narcotics offenders, 3.65 lakh human trafficking cases, and extensive prison databases, Mr. Shah said.

NAFIS should not be used merely to identify offenders, he said, noting that its effectiveness depends on continuously enriching the database by uploading fingerprints collected from every crime scene. He noted that a criminal's DNA sample, if properly preserved, can also be used in the investigation of other crimes, adding that this is primarily the responsibility of the States.

The focus should not be limited merely to the arrest of criminals but on time-bound justice, the Home Minister said added.

20J6. Soon, police may scan your fingerprints on the go
जल्द ही, पुलिस चलते-फिरते आपके फिंगरप्रिंट स्कैन कर सकती है

- Police and investigating agencies across the country will soon be equipped with portable **fingerprint scanners** linked to a national database of **1.3 crore criminal suspects and convicts**, letting them stop individuals anywhere, even on the streets, to collect thumb impressions and instantly check for any pending criminal records on their smartphones.
  देशभर की पुलिस और जांच एजेंसियों को जल्द ही पोर्टेबल **फिंगरप्रिंट स्कैनर** उपलब्ध कराए जाएंगे, जो **1.3**

करोड़ आपराधिक संदिग्धों और दोषसिद्ध व्यक्तियों के राष्ट्रीय डेटाबेस से जुड़े होंगे, जिससे वे कहीं भी, यहां तक कि सड़कों पर भी, व्यक्तियों को रोककर उनके अंगूठे के निशान ले सकेंगे और अपने स्मार्टफोन पर लंबित आपराधिक रिकॉर्ड की तुरंत जांच कर सकेंगे।

- **Abhigyan**, an app developed by the **National Crime Records Bureau (NCRB)** to implement the procedure, was launched by Home Minister **Amit Shah** on Friday.
  इस प्रक्रिया को लागू करने के लिए **राष्ट्रीय अपराध रिकॉर्ड ब्यूरो (NCRB)** द्वारा विकसित **अभिज्ञान** ऐप का शुभारंभ शुक्रवार को गृह मंत्री **अमित शाह** ने किया।
- The app links to the **National Automated Fingerprint Identification System (NAFIS)**, which stores fingerprint scans of accused, convicts, and those in prisons.
  यह ऐप **राष्ट्रीय स्वचालित फिंगरप्रिंट पहचान प्रणाली (NAFIS)** से जुड़ा है, जिसमें आरोपियों, दोषियों और जेलों में बंद व्यक्तियों के फिंगरप्रिंट स्कैन संग्रहीत हैं।
- A demonstration of the app showed that prints can be matched with the **NAFIS database** in **35 seconds**.
  ऐप के प्रदर्शन में दिखाया गया कि फिंगरप्रिंट का मिलान **NAFIS डेटाबेस** से मात्र **35 सेकंड** में किया जा सकता है।
- "During routine vehicle checks on the streets, biometric scans of any suspicious individual can be conducted to identify persons wanted in connection with crimes.
  "सड़कों पर नियमित वाहन जांच के दौरान किसी भी संदिग्ध व्यक्ति का बायोमेट्रिक स्कैन किया जा सकता है ताकि अपराधों से जुड़े वांछित व्यक्तियों की पहचान की जा सके।
- Field officers can get the criminal history of the suspect in few seconds.
  मैदानी अधिकारी कुछ ही सेकंड में संदिग्ध का आपराधिक इतिहास प्राप्त कर सकते हैं।
- This will provide protection to the police as they will be alerted of the presence of a hardened criminal," the demo stated.
  इससे पुलिस को सुरक्षा मिलेगी क्योंकि उन्हें किसी आदतन अपराधी की उपस्थिति की सूचना मिल जाएगी," प्रदर्शन में बताया गया।
- An **NCRB** official told The Hindu that the **Criminal Procedure Identification Act, 2022** provides the legal basis for such checks.
  एक **NCRB** अधिकारी ने बताया कि **आपराधिक प्रक्रिया (पहचान) अधिनियम, 2022** इस प्रकार की जांच के लिए कानूनी आधार प्रदान करता है।
- However, **Section 3** of the Act seems to limit the mandatory recording of measurements, including fingerprints, to people who have been convicted or arrested, and those ordered to give security for good behaviour or maintaining peace under the **Code of Criminal Procedure, 1973**.
  हालांकि, अधिनियम की **धारा 3** फिंगरप्रिंट सहित मापों के अनिवार्य रिकॉर्डिंग को केवल उन लोगों तक सीमित करती प्रतीत होती है जिन्हें दोषी ठहराया गया है या गिरफ्तार किया गया है, तथा उन लोगों तक जिन्हें **दंड प्रक्रिया संहिता, 1973** के तहत सदाचार या शांति बनाए रखने हेतु सुरक्षा देने का आदेश दिया गया है।
- The Act does not mention the possibility of random testing of individuals without any evidence linking them to a punishable offence.
  यह अधिनियम ऐसे व्यक्तियों की यादृच्छिक जांच की संभावना का उल्लेख नहीं करता जिनके विरुद्ध किसी दंडनीय अपराध से जुड़ा कोई साक्ष्य न हो।

Current system
वर्तमान प्रणाली

- At present, the facility to check fingerprints against the **NAFIS database** is only available through **1,556 workstations** deployed at police stations and district headquarters across the country.

वर्तमान में **NAFIS डेटाबेस** के विरुद्ध फिंगरप्रिंट जांच की सुविधा केवल देशभर के पुलिस थानों और जिला मुख्यालयों में स्थापित **1,556 वर्कस्टेशनों** के माध्यम से उपलब्ध है।

- The current process involves bringing an individual to the workstation to match his or her fingerprints with the database.
  वर्तमान प्रक्रिया में किसी व्यक्ति को वर्कस्टेशन तक लाया जाता है ताकि उसके फिंगरप्रिंट का डेटाबेस से मिलान किया जा सके।
- Mr. Shah said that the app enables field police personnel to access a vast repository of criminal records directly on their smartphones.
  श्री शाह ने कहा कि यह ऐप मैदानी पुलिसकर्मियों को सीधे अपने स्मार्टफोन पर आपराधिक रिकॉर्ड के विशाल भंडार तक पहुंच प्रदान करता है।
- "Secured with **two-step authentication**, it allows real-time fingerprint identification within seconds, strengthening ground-level policing.
  "**दो-स्तरीय प्रमाणीकरण** से सुरक्षित यह ऐप कुछ ही सेकंड में वास्तविक समय में फिंगरप्रिंट पहचान की सुविधा देता है, जिससे जमीनी स्तर की पुलिसिंग मजबूत होती है।
- Equipped with features such as fast identification, portability, and access to millions of records, '**Abhigyan**' is a highly powerful tool," the Minister said.
  तेज पहचान, पोर्टेबिलिटी और लाखों रिकॉर्ड तक पहुंच जैसी सुविधाओं से लैस '**अभिज्ञान**' एक अत्यंत शक्तिशाली उपकरण है," मंत्री ने कहा।
- The **NAFIS database** includes the records of around **9.91 lakh narcotics offenders**, **3.65 lakh human trafficking cases**, and extensive prison databases, Mr. Shah said.
  श्री शाह ने कहा कि **NAFIS डेटाबेस** में लगभग **9.91 लाख मादक पदार्थ अपराधियों**, **3.65 लाख मानव तस्करी मामलों**, तथा व्यापक जेल डेटाबेस के रिकॉर्ड शामिल हैं।
- NAFIS should not be used merely to identify offenders, he said, noting that its effectiveness depends on continuously enriching the database by uploading fingerprints collected from every crime scene.
  उन्होंने कहा कि NAFIS का उपयोग केवल अपराधियों की पहचान के लिए नहीं किया जाना चाहिए, बल्कि इसकी प्रभावशीलता प्रत्येक अपराध स्थल से एकत्रित फिंगरप्रिंट को अपलोड करके डेटाबेस को लगातार समृद्ध करने पर निर्भर करती है।
- He noted that a criminal's **DNA sample**, if properly preserved, can also be used in the investigation of other crimes, adding that this is primarily the responsibility of the States.
  उन्होंने कहा कि किसी अपराधी का **डीएनए नमूना**, यदि सही ढंग से संरक्षित किया जाए, तो अन्य अपराधों की जांच में भी उपयोग किया जा सकता है, और यह मुख्य रूप से राज्यों की जिम्मेदारी है।
- The focus should not be limited merely to the arrest of criminals but on **time-bound justice**, the Home Minister added.
  गृह मंत्री ने कहा कि ध्यान केवल अपराधियों की गिरफ्तारी तक सीमित नहीं होना चाहिए, बल्कि **समयबद्ध न्याय** सुनिश्चित करने पर होना चाहिए।

3 indigenous naval vessels to be launched by PM tomorrow

Prime Minister Narendra Modi will commission three indigenously-built Indian Navy frontline platforms – Dunagiri, Sanshodhak and Agray – at a landmark ceremony at Syama Prasad Mookerjee Port in Kolkata on Sunday, marking a significant boost to India's maritime capabilities and indigenous shipbuilding programme. According to the Ministry of Defence, the three vessels, designed by the Indian Navy's Warship Design Bureau and built by Garden Reach Shipbuilders & Engineers (GRSE), Kolkata, represent critical capabilities across maritime combat, hydrographic surveying and anti-submarine warfare. The three platforms have indigenous content exceeding 75%.

20J6. 3 indigenous naval vessels to be launched by PM tomorrow

- Prime Minister **Narendra Modi** will commission three **indigenously-built Indian Navy frontline platforms** — **Dunagiri, Sanshodhak and Agray** — at a landmark ceremony at **Syama Prasad Mookerjee Port** in **Kolkata** on Sunday, marking a significant boost to India's **maritime capabilities** and **indigenous shipbuilding programme**.

प्रधानमंत्री **नरेंद्र मोदी** रविवार को **कोलकाता** स्थित **श्यामा प्रसाद मुखर्जी पोर्ट** में आयोजित एक ऐतिहासिक समारोह में भारतीय नौसेना के तीन **स्वदेशी रूप से निर्मित अग्रिम पंक्ति के प्लेटफॉर्म — दुनागिरी, संशोधक और अग्रय** — को राष्ट्र को समर्पित करेंगे, जो भारत की **समुद्री क्षमताओं** और **स्वदेशी जहाज निर्माण कार्यक्रम** को महत्वपूर्ण बढ़ावा देगा।

- According to the **Ministry of Defence**, the three vessels, designed by the **Indian Navy's Warship Design Bureau** and built by **Garden Reach Shipbuilders & Engineers (GRSE), Kolkata**, represent critical capabilities across **maritime combat**, **hydrographic surveying** and **anti-submarine warfare**.
  रक्षा मंत्रालय के अनुसार, **भारतीय नौसेना के युद्धपोत डिजाइन ब्यूरो** द्वारा डिजाइन किए गए और **गार्डन रीच शिपबिल्डर्स एंड इंजीनियर्स (GRSE), कोलकाता** द्वारा निर्मित ये तीनों पोत **समुद्री युद्ध**, **हाइड्रोग्राफिक सर्वेक्षण** तथा **पनडुब्बी रोधी युद्धक क्षमता** के क्षेत्रों में महत्वपूर्ण क्षमताओं का प्रतिनिधित्व करते हैं।
- The three platforms have **indigenous content** exceeding **75%**.
  इन तीनों प्लेटफॉर्मों में **75% से अधिक स्वदेशी सामग्री** का उपयोग किया गया है।

Culture Secretary Vivek Aggarwal is new FATF Vice-President

GS III: Internal Security

The Hindu Bureau
NEW DELHI

The Financial Action Task Force (FATF) Plenary has appointed Union Culture Secretary Vivek Aggarwal as the next Vice-President of the global anti-money laundering and counterterrorist financing watchdog for the 2026-2027 term.

"Members approved the priorities of the FATF under the incoming U.K. Presidency, and appointed Mr. Vivek Aggarwal of India as the incoming Vice-President of the FATF (July 2026-June 2027)," said an FATF release. Mr. Aggarwal will succeed Giles Thomson, who has served as FATF Vice-President since July 1, 2025.

Currently serving as Secretary in the Culture Ministry, Mr. Aggarwal has headed India's delegation to the FATF. He led a multidisciplinary team during India's FATF Mutual Evaluation process. His selection is being viewed as a significant development for India's role in global financial governance and efforts to strengthen international cooperation on issues of anti-money laundering, counterterrorist financing, and illicit financial flows.

Vivek Aggarwal

संस्कृति सचिव विवेक अग्रवाल FATF के नए उपाध्यक्ष बने

- The **Financial Action Task Force (FATF) Plenary** has appointed Union **Culture Secretary Vivek Aggarwal** as the next **Vice-President** of the global **anti-money laundering** and **counter-terrorist financing** watchdog for the **2026-2027 term**.
  फाइनेंशियल एक्शन टास्क फोर्स (FATF) प्लेनरी ने केंद्रीय **संस्कृति सचिव विवेक अग्रवाल** को वैश्विक **धन शोधन निरोधक (Anti-Money Laundering)** तथा **आतंकवाद वित्तपोषण निरोधक (Counter-Terrorist Financing)** निगरानी संस्था का **2026-2027 कार्यकाल** के लिए अगला **उपाध्यक्ष** नियुक्त किया है।
- "Members approved the priorities of the **FATF** under the incoming **U.K. Presidency**, and appointed Mr. **Vivek Aggarwal** of India as the incoming **Vice-President of the FATF (July 2026-June 2027)**," said an **FATF** release.
  FATF की एक विज्ञप्ति में कहा गया, "सदस्यों ने आगामी **यू.के. अध्यक्षता** के अंतर्गत **FATF** की प्राथमिकताओं को मंजूरी दी और भारत के **विवेक अग्रवाल** को **FATF के उपाध्यक्ष (जुलाई 2026-जून 2027)** के रूप में नियुक्त किया।"
- Mr. Aggarwal will succeed **Giles Thomson**, who has served as **FATF Vice-President** since **July 1, 2025**.
  श्री अग्रवाल **गाइल्स थॉमसन** का स्थान लेंगे, जो **1 जुलाई 2025** से **FATF के उपाध्यक्ष** के रूप में कार्यरत हैं।
- Currently serving as **Secretary** in the **Culture Ministry**, Mr. Aggarwal has headed India's delegation to the **FATF**.
  वर्तमान में **संस्कृति मंत्रालय** में **सचिव** के रूप में कार्यरत श्री अग्रवाल **FATF** में भारत के प्रतिनिधिमंडल का नेतृत्व कर चुके हैं।

- He led a multidisciplinary team during India's **FATF Mutual Evaluation** process.
  उन्होंने भारत की **FATF म्यूचुअल इवैल्यूएशन** प्रक्रिया के दौरान एक बहु-विषयक टीम का नेतृत्व किया।
- His selection is being viewed as a significant development for India's role in global **financial governance** and efforts to strengthen international cooperation on issues of **anti-money laundering**, **counter-terrorist financing**, and **illicit financial flows**.
  उनका चयन वैश्विक **वित्तीय शासन (Financial Governance)** में भारत की भूमिका तथा **धन शोधन निरोध**, **आतंकवाद वित्तपोषण निरोध** और **अवैध वित्तीय प्रवाहों** से संबंधित मुद्दों पर अंतरराष्ट्रीय सहयोग को मजबूत करने के प्रयासों के लिए एक महत्वपूर्ण विकास के रूप में देखा जा रहा है।

Moving from drone purchases to drone partnerships

GS III: Internal Security

The Indian government's planned $2 billion drone procurement from domestic manufacturers reinforces its commitment to indigenous manufacturing and will boost the country's growing drone industry. It also signals a shift from buying large, sophisticated platforms such as fighter aircraft to smaller, cheaper and more attritable systems. This shift also means procurement practices will have to address the challenges that come with the territory.

Long-term capital procurement that deals with systems such as tanks and fighter jets, is likely to struggle to keep pace with the rapid demand for upgrades and modifications. The willingness to spend money on these platforms is a good sign, but the question now is whether procurement systems will spend it well.

The economics of drones

Although public conversations about military drones typically focus on large uncrewed combat aerial vehicles (UCAVs) such as the MQ-9B Reaper and the Bayraktar TB-2, recent conflicts have exemplified the utility of smaller, cheaper drones.

These typically fall within the 'micro' and 'nano' drone categories, and are built to be cost-effective. Both Iran's use of drones against the United States and Israel, and the use of drones in the Russia-Ukraine war, have followed this principle. Intercepting drones that are being used to strike high-priced hardware, is typically far more expensive than the drones themself. The trend across recent wars has been to produce vast numbers of cheap drones, and deploy them in large numbers. Creative uses and modifications of drones that were originally manufactured for commercial use, have also served as an inexpensive means to achieve military objectives.

Ukraine's use of first-person-view (FPV) drones that have been retrofitted with warheads has made many headlines. Innovation in the defence drone sector is therefore closely linked to innovation in civilian drone technology, creating a need for more iterative and collaborative research and development (R&D) processes. The case of the Chinese drone industry demonstrates the benefits of closer collaboration among industry, academia and the military.

Adya Madhavan
Researcher at the Takshashila Institution

India's drone ambitions require smarter contracts and continuous innovation

The challenge of drone relevance

The other unique aspect of procuring tactical drones, is that the challenge lies not in acquiring them, but in ensuring that they stay relevant. A state-of-the-art fighter jet or tank bought in 2015 is still relatively new today, and is reasonably competitive. Tactical drones bought today can be obsolete in as little as two to three years, as enemy capabilities and threat environments continue to evolve. Enemy electronic warfare (EW) units can adapt their jammers to the signal of a new drone in as little as six to eight weeks.

When Ukrainian engineers faced this issue, the solution was not to procure new systems with different communication links, but to replace radio links with fibre-optic cables. Processes need to be quick, and allow for rapid modifications and upgrades without the constraint of red tape and bureaucratic timelines.

Indian procurement frameworks have made some good provisions in this direction, but there is still scope for change. For instance, the draft Defence Acquisition Procedure (DAP) allows the armed forces to procure commercial-off-the-shelf (COTS) systems, enabling them to purchase commercial drones wherever they can be utilised. The DAP also has provisions to streamline upgrades. The Defence Procurement Manual (DPM) allows financial buffers for unforeseen repairs and upgrade costs. These are sensible moves.

The key shortcoming of current procurement frameworks is that buyer-seller relationships remain fundamentally transactional. The underlying assumption is that once the government identifies a requirement, it can issue a tender and procure a product that meets it.

However, in a domain where technology evolves rapidly, products require continuous iteration and improvement.

Partnerships, not transactions

A more suitable model for tactical drone procurement may resemble a managed service contract rather than like purchasing hardware.

Much like large organisations that procure computers with maintenance, software updates and replacement support, the armed forces could enter longer-term agreements with drone manufacturers. Such contracts would provide industry with demand predictability while ensuring assured supply, upgrade pathways and surge production capacity during conflicts. They would also create a framework for continuous improvements, including performance enhancements and adaptations to evolving electronic warfare threats. Most importantly, they would foster closer collaboration between the armed forces and industry in a domain where technology changes rapidly and future requirements are constantly evolving.

While Indian policy frameworks continue to take steps in the right direction, perhaps structural changes within these frameworks could create an environment better suited to keeping pace with the evolution of tactical drones. India's domestic drone industry has the technical foundation to support a more sophisticated procurement relationship. The $2 billion commitment is the clearest signal yet that the political will exists. Translating that into the right contractual architecture, one that prioritises sustained capability over one-off delivery, is the logical next step.

20J6. Moving from drone purchases to drone partnerships
ड्रोन खरीद से ड्रोन साझेदारी की ओर अग्रसर होना

- The Indian government's planned **$2 billion drone procurement** from domestic manufacturers reinforces its commitment to **indigenous manufacturing** and will boost the country's growing **drone industry**.
  भारतीय सरकार द्वारा घरेलू निर्माताओं से प्रस्तावित **2 अरब डॉलर के ड्रोन अधिग्रहण** से **स्वदेशी विनिर्माण (Indigenous Manufacturing)** के प्रति उसकी प्रतिबद्धता सुदृढ़ होती है तथा इससे देश के विकसित होते **ड्रोन उद्योग** को प्रोत्साहन मिलेगा।
- It also signals a shift from buying large, sophisticated platforms such as **fighter aircraft** to smaller, cheaper and more **attritable systems**.
  यह **लड़ाकू विमानों (Fighter Aircraft)** जैसे बड़े और अत्याधुनिक प्लेटफॉर्मों की खरीद से हटकर छोटे, सस्ते और अधिक **त्याज्य/क्षतिसहनीय प्रणालियों (Attritable Systems)** की ओर बढ़ते रुझान का भी संकेत देता है।
- This shift also means procurement practices will have to address the challenges that come with the territory.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

इस परिवर्तन का अर्थ यह भी है कि खरीद संबंधी व्यवस्थाओं को इससे जुड़ी नई चुनौतियों का समाधान करना होगा।

- Long-term capital procurement that deals with systems such as **tanks** and **fighter jets**, is likely to struggle to keep pace with the rapid demand for upgrades and modifications.
  टैंकों और **लड़ाकू विमानों** जैसी प्रणालियों से संबंधित दीर्घकालिक पूंजीगत खरीद व्यवस्थाएँ तीव्र गति से बढ़ती उन्नयन एवं संशोधन आवश्यकताओं के साथ तालमेल बिठाने में कठिनाई का सामना कर सकती हैं।
- The willingness to spend money on these platforms is a good sign, but the question now is whether procurement systems will spend it well.
  इन प्लेटफॉर्मों पर व्यय करने की तत्परता एक सकारात्मक संकेत है, किंतु अब प्रश्न यह है कि क्या खरीद प्रणालियाँ इस धन का प्रभावी उपयोग कर पाएँगी।

The economics of drones
ड्रोनों का अर्थशास्त्र

- Although public conversations about military drones typically focus on large **uncrewed combat aerial vehicles (UCAVs)** such as the **MQ-9B Reaper** and the **Bayraktar TB-2**, recent conflicts have exemplified the utility of smaller, cheaper drones.
  यद्यपि सैन्य ड्रोनों पर सार्वजनिक चर्चाएँ सामान्यतः बड़े **मानवरहित लड़ाकू हवाई वाहनों (UCAVs)** जैसे **MQ-9B Reaper** और **Bayraktar TB-2** पर केंद्रित रहती हैं, हाल के संघर्षों ने छोटे और सस्ते ड्रोनों की उपयोगिता को स्पष्ट रूप से प्रदर्शित किया है।
- These typically fall within the **'micro'** and **'nano'** drone categories, and are built to be cost-effective.
  ये सामान्यतः **'माइक्रो'** तथा **'नैनो'** ड्रोन श्रेणियों में आते हैं और लागत-प्रभावी होने के उद्देश्य से निर्मित किए जाते हैं।
- Both **Iran's** use of drones against the **United States** and **Israel**, and the use of drones in the **Russia-Ukraine war**, have followed this principle.
  ईरान द्वारा **संयुक्त राज्य अमेरिका** और **इज़राइल** के विरुद्ध ड्रोनों का उपयोग तथा **रूस-यूक्रेन युद्ध** में ड्रोनों का प्रयोग इसी सिद्धांत पर आधारित रहा है।
- Intercepting drones that are being used to strike high-priced hardware, is typically far more expensive than the drones themselves.
  उच्च मूल्य वाले सैन्य उपकरणों पर आक्रमण करने वाले ड्रोनों को निष्क्रिय करना प्रायः स्वयं उन ड्रोनों की लागत से कहीं अधिक महंगा होता है।
- The trend across recent wars has been to produce vast numbers of cheap drones, and deploy them in large numbers.
  हाल के युद्धों में प्रवृत्ति यह रही है कि बड़ी संख्या में सस्ते ड्रोनों का उत्पादन किया जाए और उन्हें व्यापक स्तर पर तैनात किया जाए।
- Creative uses and modifications of drones that were originally manufactured for commercial use, have also served as an inexpensive means to achieve military objectives.
  मूलतः व्यावसायिक उपयोग के लिए निर्मित ड्रोनों के रचनात्मक उपयोग और संशोधनों ने भी सैन्य उद्देश्यों की प्राप्ति के लिए एक सस्ता और प्रभावी साधन प्रदान किया है।
- **Ukraine's** use of **first-person-view (FPV) drones** that have been retrofitted with warheads has made many headlines.
  यूक्रेन द्वारा **फर्स्ट-पर्सन-व्यू (FPV) ड्रोन** का उपयोग, जिन्हें युद्धास्त्रों (Warheads) से सुसज्जित किया गया है, व्यापक रूप से सुर्खियों में रहा है।
- Innovation in the **defence drone sector** is therefore closely linked to innovation in **civilian drone technology**, creating a need for more iterative and collaborative **research and development (R&D)** processes.

अतः **रक्षा ड्रोन क्षेत्र** में नवाचार का सीधा संबंध **नागरिक ड्रोन प्रौद्योगिकी** में नवाचार से है, जिससे अधिक क्रमिक एवं सहयोगात्मक **अनुसंधान एवं विकास (R&D)** प्रक्रियाओं की आवश्यकता उत्पन्न होती है।

- The case of the **Chinese drone industry** demonstrates the benefits of closer collaboration among **industry, academia and the military**.
  चीनी ड्रोन उद्योग का उदाहरण **उद्योग, शैक्षणिक संस्थानों तथा सैन्य प्रतिष्ठानों** के बीच घनिष्ठ सहयोग के लाभों को प्रदर्शित करता है।

The challenge of drone relevance
ड्रोनों की प्रासंगिकता बनाए रखने की चुनौती

- The other unique aspect of procuring **tactical drones**, is that the challenge lies not in acquiring them, but in ensuring that they stay relevant.
  सामरिक ड्रोनों (Tactical Drones) की खरीद का एक अन्य विशिष्ट पहलू यह है कि चुनौती इनके अधिग्रहण में नहीं, बल्कि इन्हें लगातार प्रासंगिक बनाए रखने में निहित है।
- A state-of-the-art **fighter jet** or **tank** bought in 2015 is still relatively new today, and is reasonably competitive.
  वर्ष 2015 में खरीदा गया अत्याधुनिक **लड़ाकू विमान (Fighter Jet)** अथवा **टैंक** आज भी अपेक्षाकृत नया माना जाता है और पर्याप्त रूप से प्रतिस्पर्धी बना हुआ है।
- Tactical drones bought today can be obsolete in as little as **two to three years**, as enemy capabilities and threat environments continue to evolve.
  किन्तु आज खरीदे गए **सामरिक ड्रोन** केवल **दो से तीन वर्षों** में अप्रासंगिक हो सकते हैं, क्योंकि शत्रु की क्षमताएँ और खतरे का वातावरण निरंतर विकसित होते रहते हैं।
- Enemy **electronic warfare (EW)** units can adapt their **jammers** to the signal of a new drone in as little as **six to eight weeks**.
  शत्रु की **इलेक्ट्रॉनिक युद्ध (Electronic Warfare - EW)** इकाइयाँ मात्र **छह से आठ सप्ताह** के भीतर किसी नए ड्रोन के संकेतों के अनुरूप अपने **जैमरों (Jammers)** को अनुकूलित कर सकती हैं।
- When Ukrainian engineers faced this issue, the solution was not to procure new systems with different communication links, but to replace **radio links** with **fibre-optic cables**.
  जब यूक्रेनी अभियंताओं को इस समस्या का सामना करना पड़ा, तो समाधान नए संचार तंत्र खरीदना नहीं था, बल्कि **रेडियो लिंक** को **फाइबर-ऑप्टिक केबलों** से प्रतिस्थापित करना था।
- Processes need to be quick, and allow for rapid modifications and upgrades without the constraint of **red tape** and bureaucratic timelines.
  प्रक्रियाएँ त्वरित होनी चाहिए तथा उनमें **लालफीताशाही (Red Tape)** और नौकरशाही समयसीमाओं की बाधाओं के बिना शीघ्र संशोधन और उन्नयन की सुविधा होनी चाहिए।
- Indian **procurement frameworks** have made some good provisions in this direction, but there is still scope for change.
  भारतीय **खरीद ढाँचों (Procurement Frameworks)** ने इस दिशा में कुछ सकारात्मक प्रावधान किए हैं, किन्तु अभी भी सुधार की पर्याप्त संभावना मौजूद है।
- For instance, the draft **Defence Acquisition Procedure (DAP)** allows the armed forces to procure **commercial-off-the-shelf (COTS)** systems, enabling them to purchase commercial drones wherever they can be utilised.
  उदाहरणार्थ, प्रारूप **रक्षा अधिग्रहण प्रक्रिया (Defence Acquisition Procedure - DAP)** सशस्त्र बलों को **कमर्शियल-ऑफ-द-शेल्फ (COTS)** प्रणालियाँ खरीदने की अनुमति देती है, जिससे वे जहाँ आवश्यक हो, व्यावसायिक ड्रोन खरीद सकते हैं।
- The DAP also has provisions to streamline upgrades.
  DAP में उन्नयन प्रक्रियाओं को सरल बनाने के प्रावधान भी शामिल हैं।
- The **Defence Procurement Manual (DPM)** allows financial buffers for unforeseen repairs and upgrade costs.

रक्षा खरीद नियमावली (Defence Procurement Manual - DPM) अप्रत्याशित मरम्मत एवं उन्नयन लागतों के लिए वित्तीय प्रावधानों की अनुमति देती है।

- These are sensible moves.
  ये सभी विवेकपूर्ण और व्यावहारिक कदम हैं।
- The key shortcoming of current procurement frameworks is that **buyer-seller relationships** remain fundamentally transactional.
  वर्तमान खरीद ढाँचों की प्रमुख कमी यह है कि **क्रेता-विक्रेता संबंध** अभी भी मूलतः लेन-देन आधारित बने हुए हैं।
- The underlying assumption is that once the government identifies a requirement, it can issue a tender and procure a product that meets it.
  मूल धारणा यह है कि सरकार आवश्यकता की पहचान करने के बाद निविदा जारी कर सकती है और उस आवश्यकता को पूरा करने वाला उत्पाद खरीद सकती है।
- However, in a domain where technology evolves rapidly, products require continuous iteration and improvement.
  किन्तु ऐसे क्षेत्र में जहाँ प्रौद्योगिकी तीव्र गति से विकसित होती है, उत्पादों को निरंतर संशोधन, सुधार और उन्नयन की आवश्यकता होती है।

Partnerships, not transactions
लेन-देन नहीं, बल्कि साझेदारी

- A more suitable model for tactical drone procurement may resemble a **managed service contract** rather than purchasing hardware.
  सामरिक ड्रोन खरीद के लिए अधिक उपयुक्त मॉडल केवल हार्डवेयर खरीदने के बजाय **प्रबंधित सेवा अनुबंध (Managed Service Contract)** के समान हो सकता है।
- Much like large organisations that procure computers with maintenance, software updates and replacement support, the armed forces could enter longer-term agreements with drone manufacturers.
  जिस प्रकार बड़े संगठन कंप्यूटरों के साथ रखरखाव, सॉफ्टवेयर अद्यतन और प्रतिस्थापन सहायता प्राप्त करते हैं, उसी प्रकार सशस्त्र बल ड्रोन निर्माताओं के साथ दीर्घकालिक समझौते कर सकते हैं।
- Such contracts would provide industry with **demand predictability** while ensuring assured supply, upgrade pathways and **surge production capacity** during conflicts.
  ऐसे अनुबंध उद्योग को **मांग की पूर्वानुमेयता (Demand Predictability)** प्रदान करेंगे, साथ ही संघर्ष की स्थिति में सुनिश्चित आपूर्ति, उन्नयन के मार्ग तथा **अतिरिक्त उत्पादन क्षमता (Surge Production Capacity)** भी उपलब्ध कराएँगे।
- They would also create a framework for continuous improvements, including performance enhancements and adaptations to evolving **electronic warfare threats**.
  ये निरंतर सुधारों के लिए भी एक ढाँचा प्रदान करेंगे, जिसमें प्रदर्शन संवर्द्धन तथा विकसित होते **इलेक्ट्रॉनिक युद्ध संबंधी खतरों** के अनुरूप अनुकूलन शामिल होगा।
- Most importantly, they would foster closer collaboration between the **armed forces** and **industry** in a domain where technology changes rapidly and future requirements are constantly evolving.
  सबसे महत्वपूर्ण बात यह है कि वे **सशस्त्र बलों** और **उद्योग** के बीच अधिक घनिष्ठ सहयोग को बढ़ावा देंगे, विशेषकर ऐसे क्षेत्र में जहाँ प्रौद्योगिकी तेजी से बदलती है और भविष्य की आवश्यकताएँ निरंतर विकसित होती रहती हैं।
- While Indian policy frameworks continue to take steps in the right direction, perhaps structural changes within these frameworks could create an environment better suited to keeping pace with the evolution of tactical drones.
  यद्यपि भारतीय नीतिगत ढाँचे सही दिशा में आगे बढ़ रहे हैं, तथापि इनके भीतर संरचनात्मक परिवर्तन ऐसे

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

वातावरण का निर्माण कर सकते हैं जो सामरिक ड्रोनों के तीव्र विकास के साथ बेहतर तालमेल स्थापित कर सके।

- India's domestic **drone industry** has the technical foundation to support a more sophisticated procurement relationship.
  भारत का घरेलू **ड्रोन उद्योग** अधिक उन्नत और परिष्कृत खरीद संबंधों को समर्थन देने हेतु आवश्यक तकनीकी आधार रखता है।
- The **$2 billion commitment** is the clearest signal yet that the political will exists.
  2 अरब डॉलर की प्रतिबद्धता इस बात का अब तक का सबसे स्पष्ट संकेत है कि आवश्यक राजनीतिक इच्छाशक्ति मौजूद है।
- Translating that into the right **contractual architecture**, one that prioritises sustained capability over one-off delivery, is the logical next step.
  इसे उचित **संविदात्मक संरचना (Contractual Architecture)** में परिवर्तित करना — जो एकमुश्त आपूर्ति के बजाय दीर्घकालिक क्षमता निर्माण को प्राथमिकता दे — अगला तार्किक कदम होगा।

FAITH

GS IV: Ethics

Shed your 'I-ness': Krishna

Lord Krishna tells Arjuna, "Whatever you do, whatever you eat, whatever you offer, whatever you give, and whatever austerities you perform, Oh son of Kunti, do them as an offering to Me." This single verse transforms ordinary life into *sadhana*, said Swami Mitranandaji. Dedication improves quality of action. When we work merely for salary, recognition or ego, the mind stays restless and shortcuts appear. However, the moment an action is dedicated to the Lord, the attitude changes. The Gita calls this 'yoga of action'. Work is no longer mechanical, it becomes worship. The fruit is surrendered. Like cooking for God, the cook tastes but is not attached. Such *nishkama karma* (selfless action) purifies the heart. The law of karma applies to the ego, not to the surrender.

The distance between jeeva and the Divine is only selfishness. We feel far from God not because He is far, but because 'I, me, mine' comes in between. Selfishness is the wall. My desire, my plan, my credit – this "I-ness" hides the Divine. When we drop the claim of ownership, the wall thins. The verse (opening para) attacks selfishness and asks us to offer everything. It is easy to start in a small way and develop selflessness. Krishna does not ask for renunciation overnight. Begin with one action , whatever it may be, offer it mentally, saying "This is for You". Slowly, expand this mood to more activities. As selfish motives drop, selfless service grows naturally. Step by step, one's life itself becomes an offering. The quote from Bhagavad Gita shows a practical path. One should dedicate oneself, one should conduct oneself with quality; one should be free from karma, get rid of selfishness. He will take care.

20J6. Shed your 'I-ness': Krishna
अपने 'मैंपन' को त्यागें: कृष्ण

- **Lord Krishna** tells **Arjuna**, "Whatever you do, whatever you eat, whatever you offer, whatever you give, and whatever austerities you perform, Oh son of Kunti, do them as an offering to Me."
  भगवान कृष्ण अर्जुन से कहते हैं, "तुम जो कुछ करते हो, जो कुछ खाते हो, जो कुछ अर्पित करते हो, जो कुछ दान देते हो और जो भी तप करते हो, हे कुन्तीपुत्र, वह सब मुझे अर्पण करो।"
- This single verse transforms ordinary life into **sadhana**, said **Swami Mitranandaji**.
  स्वामी मित्रानंदजी ने कहा कि यह एक श्लोक सामान्य जीवन को **साधना** में परिवर्तित कर देता है।
- Dedication improves quality of action.
  समर्पण कर्म की गुणवत्ता को बेहतर बनाता है।
- When we work merely for salary, recognition or ego, the mind stays restless and shortcuts appear.
  जब हम केवल वेतन, पहचान या अहंकार के लिए काम करते हैं, तब मन अशांत रहता है और शॉर्टकट अपनाने की प्रवृत्ति उत्पन्न होती है।
- However, the moment an action is dedicated to the **Lord**, the attitude changes.
  लेकिन जैसे ही कोई कर्म **भगवान** को समर्पित किया जाता है, दृष्टिकोण बदल जाता है।
- The **Gita** calls this '**yoga of action**'.
  गीता इसे '**कर्मयोग**' कहती है।

- Work is no longer mechanical, it becomes worship.
  तब कार्य केवल यांत्रिक नहीं रहता, बल्कि उपासना बन जाता है।
- The fruit is surrendered.
  कर्मफल समर्पित कर दिया जाता है।
- Like cooking for God, the cook tastes but is not attached.
  जैसे भगवान के लिए भोजन बनाते समय रसोइया स्वाद तो चखता है, पर उससे आसक्त नहीं होता।
- Such **nishkama karma (selfless action)** purifies the heart.
  ऐसा **निष्काम कर्म (निःस्वार्थ कर्म)** हृदय को शुद्ध करता है।
- The law of **karma** applies to the ego, not to the surrender.
  कर्म का नियम अहंकार पर लागू होता है, समर्पण पर नहीं।
- The distance between **jeeva** and the **Divine** is only selfishness.
  जीव और **ईश्वर** के बीच की दूरी केवल स्वार्थ है।
- We feel far from God not because He is far, but because 'I, me, mine' comes in between.
  हमें भगवान दूर प्रतीत होते हैं, इसलिए नहीं कि वे दूर हैं, बल्कि इसलिए कि 'मैं, मेरा, मेरे लिए' बीच में आ जाता है।
- Selfishness is the wall.
  स्वार्थ ही वह दीवार है।
- My desire, my plan, my credit — this "**I-ness**" hides the Divine.
  मेरी इच्छा, मेरी योजना, मेरा श्रेय — यही "**मैंपन**" ईश्वर को छिपा देता है।
- When we drop the claim of ownership, the wall thins.
  जब हम स्वामित्व का दावा छोड़ देते हैं, तब यह दीवार पतली होने लगती है।
- The verse (opening para) attacks selfishness and asks us to offer everything.
  यह श्लोक (प्रारंभिक अनुच्छेद) स्वार्थ पर प्रहार करता है और हमें सब कुछ अर्पित करने के लिए कहता है।
- It is easy to start in a small way and develop selflessness.
  छोटे स्तर से शुरुआत करके निःस्वार्थता विकसित करना आसान है।
- **Krishna** does not ask for renunciation overnight.
  कृष्ण एक ही रात में संन्यास लेने के लिए नहीं कहते।
- Begin with one action, whatever it may be, offer it mentally, saying "This is for You".
  किसी एक कार्य से शुरुआत करें, चाहे वह कोई भी हो, और मन ही मन कहें, "यह आपके लिए है।"
- Slowly, expand this mood to more activities.
  धीरे-धीरे इस भावना को अधिक कार्यों तक विस्तारित करें।
- As selfish motives drop, selfless service grows naturally.
  जैसे-जैसे स्वार्थपूर्ण उद्देश्यों का त्याग होता है, वैसे-वैसे निःस्वार्थ सेवा स्वाभाविक रूप से बढ़ती है।
- Step by step, one's life itself becomes an offering.
  कदम-दर-कदम, व्यक्ति का पूरा जीवन ही एक अर्पण बन जाता है।
- The quote from **Bhagavad Gita** shows a practical path.
  भगवद्गीता का यह उद्धरण एक व्यावहारिक मार्ग दिखाता है।
- One should dedicate oneself, one should conduct oneself with quality; one should be free from karma, get rid of selfishness.
  मनुष्य को स्वयं को समर्पित करना चाहिए, अपने आचरण में उत्कृष्टता लानी चाहिए; उसे कर्मबंधन से मुक्त होकर स्वार्थ का त्याग करना चाहिए।
- He will take care.
  वह स्वयं सबकी देखभाल करेगा।

Answers to the previous day's daily quiz:

1. This U.S. President signed a declaration of war against Britain, initiating the War of 1812, which arose from U.S. grievances over oppressive maritime practices during the Napoleonic Wars? **Ans: James Madison**
2. Which English musician, born on this day, gained global fame with the Beatles? **Ans: Paul McCartney**
3. The SALT II treaty was signed by which two countries? **Ans: The U.S., Soviet Union**
4. On this day in 1940, which French General, broadcasting from London, after France fell to the Nazis, appealed to his compatriots to continue World War II under his leadership? **Ans: Charles de Gaulle**
5. Where did British explorer and mountaineer George Mallory, born on this day in 1886, disappear? **Ans: Mount Everest**
6. This American suffragist was fined after being convicted for voting in the 1872 presidential election, though she refused to pay it. **Ans: Susan B. Anthony**
7. Identify this person. She became the first American woman to fly into outer space in 1983. **Ans: Sally Ride**

Early Birds

Abhay Krishnan | Prithvi Chouhan |Yashica | Prem Nath Tiwari | Alisha Yadav

19J6. QUIZ

1. James Madison and the War of 1812

- James Madison, the fourth President of the United States, played a central role in the outbreak of the **War of 1812**.
- On June 1, 1812, he sent a message to Congress detailing American grievances against Britain, including the impressment of American sailors, interference with U.S. trade, and restrictive maritime policies during the Napoleonic Wars.
- Congress approved the declaration of war, and Madison signed it on June 18, 1812, formally initiating the conflict.

2. Paul McCartney and The Beatles

- Sir Paul McCartney, born on June 18, 1942, in Liverpool, England, is one of the most influential musicians in modern history.
- He achieved worldwide fame as a founding member of The Beatles, serving as bassist, vocalist, and songwriter alongside John Lennon.
- The Beatles transformed popular music through innovative songwriting and recording techniques.
- Following the band's breakup in 1970, McCartney enjoyed successful careers with Wings and as a solo artist.

3. SALT II Treaty

- The Strategic Arms Limitation Talks (SALT II) Treaty was signed on June 18, 1979, by U.S. President Jimmy Carter and Soviet leader Leonid Brezhnev in Vienna.
- The agreement aimed to curb the production and deployment of strategic nuclear weapons by the two Cold War superpowers.
- Although the U.S. The Senate never formally ratified the treaty following the Soviet invasion of Afghanistan, both countries largely adhered to its provisions for several years.
- SALT II represented a major effort toward nuclear arms control and strategic stability.

4. Charles de Gaulle's Appeal from London

- **Answer: Charles de Gaulle**
- On June 18, 1940, French General Charles de Gaulle delivered his historic "Appeal of 18 June" from London after France's defeat by Nazi Germany.
- Broadcast through the BBC, he urged French citizens, soldiers, and officials to continue resisting German occupation rather than accept surrender.
- The speech became a symbol of French resistance during World War II and laid the foundation for the Free French movement.
- De Gaulle later emerged as one of France's most influential leaders and served as President of the French Republic.

5. George Mallory and Mount Everest

- British explorer and mountaineer George Mallory, born on June 18, 1886, is remembered for his pioneering attempts to climb Mount Everest.
- During the 1924 British Everest Expedition, Mallory and fellow climber Andrew Irvine disappeared near the summit.
- Their fate remained one of mountaineering's greatest mysteries for decades. Mallory's body was discovered in 1999, but it remains uncertain whether he reached the summit before his death.
- His famous response to why he wanted to climb Everest—**"Because it is there"**—has become legendary.

PATRIOTIC IAS

6. Susan B. Anthony and Voting Rights

- Susan B. Anthony was a leading American suffragist and advocate for women's rights.
- In the 1872 U.S. presidential election, she voted despite laws prohibiting women from doing so.
- She was subsequently arrested, tried, and fined $100.
- Anthony refused to pay the fine, arguing that she had exercised her constitutional rights as a citizen.
- Her act of civil disobedience became a landmark event in the women's suffrage movement. Decades later, the **Nineteenth Amendment granted American women the right to vote in 1920**.

Silent scream that lingers: *Boong*'s quiet reckoning with patriarchal injustice

Beyond the engaging drama of a boy's longing for his long-missing father, the film touches upon the complex gender dynamics of Manipuri society; it also compels viewers to pause and reflect on the deeply embedded patriarchal structures, urging much-needed social introspection

GS I: Society

Pradip Phanjoubam

The Manipuri movie *Boong* written and directed by Laxmipriya Devi and co-produced by Farhan Akhtar, was understandably celebrated in Manipur for its cinematic brilliance, and for the pride it brought the place, after all it was first Indian film to win a prestigious BAFTA award, the British equivalent of the Oscar, in the children's film category in 2026. I watched it with my family on the third day of its theatrical release in Imphal.

Beyond the engaging drama of a boy's longing for his long-missing father, and the intimate glimpses his search offers into the complex and emotionally fragile inter-community relationships in multi-ethnic Manipur, the film also struck a deeper, raw nerve among the Manipuri audience.

As the show ended and lights flooded back into the theatre, there was a palpable sense of catharsis – the kind that good performing arts leave behind. Yet, some women remained seated, quietly wiping off tears, taking a few extra moments to regain composure before rising to join the rest of the audience.

Manipur's gender equation reality is complex. At one level, women have historically been at the forefront of many social, economic and political upheavals. Across both the hills and the valley, exclusive women-run markets thrive, and in the agrarian economy, men and women function as equal partners. The fact that the director of *Boong* is a woman reflects this sinew of gender empowerment too.

The Meira Paibi movement amongst Meiteis, which also manifests under different nomenclatures amongst hill communities, is the most prominent alibi of Manipuri women's well-deserved image as social torchbearers.

During the colonial period, in 1904 and again in 1939, women rose to protest against British policies, ultimately forcing their withdrawal. These uprisings are now commemorated as *Nupi Lan* or women's war.

The first was against the forced labour of Manipuri men to rebuild the British Residency in Imphal, which had been gutted in an arson attack by disgruntled elements; the second opposed the large-scale export of rice from the State to support the British World War II effort, which led to severe shortages for local consumption.

Patriarchy persists

Despite this, there are strongly entrenched gender oppressive patriarchal norms which have persisted. This is especially true among Meiteis, who continue to carry the albatrosses of a feudal past. Polygamy is arguably the most troubling.

The practice persists since it is normalised, even though not encouraged. This is particularly common among the elite section, where keeping mistresses or even taking more than one wife, is not uncommon. Many of Manipur's current set of Ministers and MLAs would be guilty of this despicable feudal legacy.

The hurt and humiliation endured by women who suffer this fate are profound. Even those who are spared often live with anxiety over the vulnerability of their daughters and loved ones. As the practice has become normalised within society, this deeply gendered anguish largely remains invisible.

Women often become gatekeepers of the patriarchal order that oppresses them, reflecting what Frantz Fanon characterised as the silent desire of the oppressed to emulate their oppressors. Hence, even women vigilantes tend to overlook men who betray marital fidelity, accepting it as destiny. However, if a woman were to make this breach, these same vigilantes often become the harshest moral police.

Change, however, may not be too far away. Although, no study has yet established a connection, rising cases of divorce among younger Meiteis may be a herald of Fanon's "mailed fist".

In the spirit that good art is hiding good art, *Boong* succeeds in drawing up a non-dogmatic but piercing portrayal of this inherent gender injustice. Boong's father, Joykumar–a carpenter and timber trader played by Hamom Sadananda – works along the India-Myanmar border, in the town of Moreh and the neighbouring township of Tamu in Myanmar.

At some point, the family loses contact with him and for a prolonged period. Many presume he is dead or has joined the insurgents, but the family refuses to give up. Boong, or Brojendro, played by Gugun Kipgen, yearns to find his father and bring the good news to his mother Mandakini, played by Bala Hijam.

On one occasion the boy dupes his mother that his school was organising a 2-day school excursion to Ukhrul district and would like to be part of the tour. He then slips away to make a trip to Moreh instead. His bosom friend, a Manipuri Marwari, Raju Agarwal, played by Angom Sanamatum, follows him there out of concern. The families of the boys learn of the trip but too late. The two boys' adventure is thrilling. Boong traces his father in Tamu, but to his horror, discovers that he has remarried and has a daughter.

The final scene is powerful. Boong finds his mother, on crutches after a scooter accident, waiting for him at their courtyard. Both know the truth – and both know that the other knows. The boy tells his mother bluntly "Baba is dead". The camera then closes in on her. She pauses a while before asking in resignation, "Is he doing well?" Boong replies, "Yes" and hugs her.

Bala's breathing deepens; her face reddens, and her eyes well up. She is forced to confront what she had long suspected but tried not to believe. Not a word is spoken, yet her tearing pain, numbing humiliation, and seething anger surface – along with a quiet resolve to remain standing for the sake of her son.

For those sensitive enough to hear it, her silent, agonised scream is deafening. For many others who have endured this betrayal themselves, or have witnessed loved ones suffer it, Bala's silent scream becomes their own.

Powerful as this portrayal of an invisible oppressive order is, life may well settle back into its old, abnormal normal. Yet, for many, Bala's silent scream affirms that *Boong* is, at its heart, a desperate appeal for social introspection.

Pradip Phanjoubam is Editor, Imphal Review of Arts and Politics, and the author of two books.

19J6. Silent scream that lingers: Boong's quiet reckoning with patriarchal injustice

लंबे समय तक गूंजती मौन चीख: 'बूंग' का पितृसत्तात्मक अन्याय के साथ शांत आत्ममंथन

- **The Manipuri movie Boong** written and directed by **Laxmipriya Devi** and co-produced by **Farhan Akhtar**, was understandably celebrated in **Manipur** for its cinematic brilliance, and for the pride it brought the place, after all it was the **first Indian film** to win a prestigious **BAFTA**

Award, the British equivalent of the Oscar, in the **Children's Film Category** in **2026**.
मणिपुरी फिल्म बूंग, जिसका लेखन और निर्देशन **लक्ष्मीप्रिया देवी** ने किया तथा जिसका सह-निर्माण **फरहान अख्तर** ने किया, अपनी उत्कृष्ट सिनेमाई प्रस्तुति और मणिपुर को गौरवान्वित करने वाली उपलब्धि के कारण स्वाभाविक रूप से **मणिपुर** में व्यापक रूप से सराही गई। यह **वर्ष 2026** में **बाल फिल्म श्रेणी** में प्रतिष्ठित **ब्रिटिश चलचित्र एवं दूरदर्शन कला अकादमी पुरस्कार** प्राप्त करने वाली **पहली भारतीय फिल्म** बनी।

- I watched it with my family on the third day of its theatrical release in **Imphal**.
  मैंने इसे **इम्फाल** में इसके प्रदर्शन के तीसरे दिन अपने परिवार के साथ देखा।
- Beyond the engaging drama of **a boy's longing for his long-missing father**, and the intimate glimpses his search offers into the complex and emotionally fragile **inter-community relationships** in **multi-ethnic Manipur**, the film also struck a deeper, raw nerve among the Manipuri audience.
  अपने लंबे समय से लापता पिता के प्रति एक बालक की व्याकुलता पर आधारित मार्मिक कथा तथा **बहु-जातीय मणिपुर** में जटिल और भावनात्मक रूप से संवेदनशील **अंतर-सामुदायिक संबंधों** की झलकियों से परे, इस फिल्म ने मणिपुरी दर्शकों की भावनाओं को गहराई से स्पर्श किया।
- As the show ended and lights flooded back into the theatre, there was a palpable sense of **catharsis** — the kind that good performing arts leave behind.
  प्रदर्शन समाप्त होने और सभागार में प्रकाश पुनः फैलने के बाद वहाँ **भावनात्मक शुद्धि एवं आत्ममुक्ति** की स्पष्ट अनुभूति थी, जैसा प्रभाव उत्कृष्ट प्रदर्शन कलाएँ छोड़ जाती हैं।
- Yet, some women remained seated, quietly wiping off tears, taking a few extra moments to regain composure before rising to join the rest of the audience.
  फिर भी कुछ महिलाएँ अपनी आँखों से आँसू पोंछते हुए अपनी भावनाओं को संयत करने के लिए कुछ अतिरिक्त समय तक बैठी रहीं और उसके बाद ही अन्य दर्शकों के साथ बाहर निकलीं।
- **Manipur's gender equation reality** is complex.
  मणिपुर में लैंगिक संबंधों की वास्तविकता जटिल है।
- At one level, women have historically been at the forefront of many **social, economic and political upheavals**.
  एक स्तर पर महिलाएँ ऐतिहासिक रूप से अनेक **सामाजिक, आर्थिक और राजनीतिक आंदोलनों** के अग्रभाग में रही हैं।
- Across both the hills and the valley, exclusive **women-run markets** thrive, and in the **agrarian economy**, men and women function as equal partners.
  पर्वतीय और घाटी दोनों क्षेत्रों में पूर्णतः **महिलाओं द्वारा संचालित बाजार** फल-फूल रहे हैं और **कृषि आधारित अर्थव्यवस्था** में पुरुष तथा महिलाएँ समान भागीदार के रूप में कार्य करते हैं।
- The fact that the director of **Boong** is a woman reflects this sinew of **gender empowerment** too.
  यह तथ्य कि **बूंग** की निर्देशक एक महिला हैं, **महिला सशक्तिकरण** की इसी सशक्त परंपरा को प्रतिबिंबित करता है।
- The **Meira Paibi movement** amongst **Meiteis**, which also manifests under different nomenclatures amongst hill communities, is the most prominent alibi of Manipuri women's well-deserved image as **social torchbearers**.
  मेइती समुदाय के बीच चलने वाला **मेइरा पैबी आंदोलन**, जो पर्वतीय समुदायों में विभिन्न नामों से भी विद्यमान है, मणिपुरी महिलाओं की **सामाजिक पथप्रदर्शक** के रूप में स्थापित प्रतिष्ठा का सबसे प्रमुख उदाहरण है।
- During the **colonial period**, in **1904** and again in **1939**, women rose to protest against **British policies**, ultimately forcing their withdrawal.
  औपनिवेशिक काल में **1904** और पुनः **1939** में महिलाओं ने **ब्रिटिश नीतियों** के विरुद्ध व्यापक विरोध प्रदर्शन किए, जिसके परिणामस्वरूप ब्रिटिश प्रशासन को अपने निर्णयों से पीछे हटना पड़ा।
- These uprisings are now commemorated as **Nupi Lan** or **Women's War**.
  इन आंदोलनों को आज **नूपी लान** अथवा **महिला युद्ध** के रूप में स्मरण किया जाता है।

- The first was against the **forced labour** of Manipuri men to rebuild the **British Residency in Imphal**, which had been gutted in an arson attack by disgruntled elements.
  पहला आंदोलन मणिपुरी पुरुषों से **बलपूर्वक श्रम** कराकर **इम्फाल स्थित ब्रिटिश रेजिडेंसी** के पुनर्निर्माण के विरुद्ध था, जिसे असंतुष्ट तत्वों द्वारा किए गए आगजनी हमले में नष्ट कर दिया गया था।
- The second opposed the **large-scale export of rice** from the State to support the **British World War II effort**, which led to severe shortages for local consumption.
  दूसरा आंदोलन राज्य से **बड़े पैमाने पर चावल के निर्यात** के विरुद्ध था, जो **ब्रिटिश द्वितीय विश्वयुद्ध प्रयासों** के समर्थन हेतु किया जा रहा था और जिसके कारण स्थानीय उपभोग के लिए गंभीर खाद्यान्न संकट उत्पन्न हो गया था।

Patriarchy persists
पितृसत्ता अब भी बनी हुई है

- Despite this, there are strongly entrenched **gender-oppressive patriarchal norms** which have persisted.
  इसके बावजूद **लैंगिक उत्पीड़नकारी पितृसत्तात्मक मान्यताएँ** गहराई से जड़ें जमाए हुए हैं और आज भी बनी हुई हैं।
- This is especially true among **Meiteis**, who continue to carry the albatrosses of a **feudal past**.
  यह विशेष रूप से **मेइती समुदाय** में दिखाई देता है, जो अब भी अपने **सामंती अतीत** के बोझ को ढो रहा है।
- **Polygamy** is arguably the most troubling.
  बहुविवाह संभवतः सबसे अधिक चिंताजनक प्रथा है।
- The practice persists since it is normalised, even though not encouraged.
  यह प्रथा इसलिए बनी हुई है क्योंकि इसे सामाजिक रूप से सामान्य मान लिया गया है, भले ही इसे प्रोत्साहित न किया जाता हो।
- This is particularly common among the **elite section**, where keeping mistresses or even taking more than one wife, is not uncommon.
  यह विशेष रूप से **अभिजात वर्ग** में अधिक प्रचलित है, जहाँ उपपत्नी रखना या एक से अधिक विवाह करना असामान्य नहीं माना जाता।
- Many of Manipur's current set of **Ministers and MLAs** would be guilty of this despicable **feudal legacy**.
  मणिपुर के अनेक वर्तमान **मंत्री और विधायक** इस निंदनीय **सामंती विरासत** के दोषी माने जा सकते हैं।
- The hurt and humiliation endured by women who suffer this fate are profound.
  इस स्थिति का सामना करने वाली महिलाओं द्वारा सहा जाने वाला **दुःख और अपमान** अत्यंत गहरा होता है।
- Even those who are spared often live with anxiety over the vulnerability of their daughters and loved ones.
  यह पीड़ा न झेलने वाली महिलाएँ भी अपनी बेटियों और प्रियजनों की असुरक्षा को लेकर निरंतर चिंता में रहती हैं।
- As the practice has become normalised within society, this deeply gendered anguish largely remains invisible.
  चूँकि यह प्रथा समाज में सामान्यीकृत हो चुकी है, इसलिए यह गहरी **लैंगिक पीड़ा** प्रायः अदृश्य बनी रहती है।
- Women often become **gatekeepers of the patriarchal order** that oppresses them, reflecting what **Frantz Fanon** characterised as the silent desire of the oppressed to emulate their oppressors.
  महिलाएँ अनेक बार उसी **पितृसत्तात्मक व्यवस्था की संरक्षक** बन जाती हैं जो उनका दमन करती है, जो **फ्रांत्स फैनन** द्वारा वर्णित उस प्रवृत्ति को दर्शाता है जिसमें उत्पीड़ित लोग अपने उत्पीड़कों का अनुकरण करने लगते हैं।
- Hence, even **women vigilantes** tend to overlook men who betray marital fidelity, accepting it as destiny.

इसी कारण **महिला प्रहरी समूह** भी वैवाहिक निष्ठा भंग करने वाले पुरुषों को प्रायः अनदेखा कर देते हैं और इसे नियति मान लेते हैं।

- However, if a woman were to make this breach, these same vigilantes often become the harshest **moral police**.
  किन्तु यदि कोई महिला ऐसा करे, तो यही समूह सबसे कठोर **नैतिक प्रहरी** बन जाते हैं।
- Change, however, may not be too far away.
  हालाँकि परिवर्तन अब बहुत दूर नहीं प्रतीत होता।
- Although, no study has yet established a connection, rising cases of **divorce among younger Meiteis** may be a herald of Fanon's **"mailed fist"**.
  यद्यपि अभी तक किसी अध्ययन ने प्रत्यक्ष संबंध स्थापित नहीं किया है, फिर भी **युवा मेइती समुदाय में बढ़ते तलाक के मामले** फैनन की **"लोहे की मुट्ठी"** जैसी प्रतिक्रिया के संकेतक हो सकते हैं।
- In the spirit that good art is hiding good art, **Boong** succeeds in drawing up a non-dogmatic but piercing portrayal of this inherent **gender injustice**.
  श्रेष्ठ कला की परंपरा का पालन करते हुए **बूंग** इस अंतर्निहित **लैंगिक अन्याय** का गैर-उपदेशात्मक किन्तु अत्यंत मार्मिक चित्रण प्रस्तुत करने में सफल होती है।
- Boong's father, **Joykumar** — a carpenter and timber trader played by **Hamom Sadananda** — works along the **India-Myanmar border**, in the town of **Moreh** and the neighbouring township of **Tamu** in Myanmar.
  बूंग के पिता **जॉयकुमार**, जिनकी भूमिका **हामोम सदानंद** ने निभाई है, एक बढ़ई और लकड़ी व्यापारी हैं जो **भारत-म्यांमार सीमा** पर स्थित **मोरेह** तथा म्यांमार के पड़ोसी नगर **तामू** में कार्य करते हैं।
- At some point, the family loses contact with him and for a prolonged period.
  एक समय ऐसा आता है जब परिवार का उनसे लंबे समय तक संपर्क टूट जाता है।
- Many presume he is dead or has joined the insurgents, but the family refuses to give up.
  बहुत से लोग मान लेते हैं कि वह मर चुके हैं या विद्रोही समूहों में शामिल हो गए हैं, किन्तु परिवार आशा नहीं छोड़ता।
- **Boong**, or **Brojendro**, played by **Gugun Kipgen**, yearns to find his father and bring the good news to his mother **Mandakini**, played by **Bala Hijam**.
  बूंग अथवा **ब्रोजेन्द्रो**, जिसकी भूमिका **गुगुन किपगेन** ने निभाई है, अपने पिता को खोजकर यह शुभ समाचार अपनी माँ **मंदाकिनी** तक पहुँचाना चाहता है, जिनकी भूमिका **बाला हिजाम** ने निभाई है।
- On one occasion the boy dupes his mother that his school was organising a **two-day excursion** to **Ukhrul district** and would like to be part of the tour.
  एक अवसर पर वह अपनी माँ से कहता है कि उसके विद्यालय द्वारा **उखरूल जिले** की **दो दिवसीय शैक्षणिक यात्रा** आयोजित की जा रही है और वह उसमें भाग लेना चाहता है।
- He then slips away to make a trip to **Moreh** instead.
  किन्तु वह गुप्त रूप से **मोरेह** की यात्रा पर निकल जाता है।
- His bosom friend, a **Manipuri Marwari**, **Raju Agarwal**, played by **Angom Sanamatum**, follows him there out of concern.
  उसका घनिष्ठ मित्र, एक **मणिपुरी मारवाड़ी राजू अग्रवाल**, जिसकी भूमिका **अंगोम सनामतुम** ने निभाई है, चिंता के कारण उसके पीछे वहाँ पहुँच जाता है।
- The families of the boys learn of the trip but too late.
  लड़कों के परिवारों को इस यात्रा की जानकारी मिलती है, लेकिन तब तक बहुत देर हो चुकी होती है।
- The two boys' adventure is thrilling.
  दोनों लड़कों का साहसिक अभियान अत्यंत रोमांचक है।
- Boong traces his father in **Tamu**, but to his horror, discovers that he has remarried and has a daughter.
  बूंग **तामू** में अपने पिता को खोज लेता है, किन्तु यह जानकर स्तब्ध रह जाता है कि उन्होंने पुनर्विवाह कर लिया है और उनकी एक पुत्री भी है।

- The **final scene** is powerful.
  अंतिम दृश्य अत्यंत प्रभावशाली है।
- Boong finds his mother, on crutches after a scooter accident, waiting for him at their courtyard.
  बूंग अपनी माँ को, जो स्कूटर दुर्घटना के बाद बैसाखियों के सहारे चल रही होती हैं, घर के आँगन में उसकी प्रतीक्षा करते हुए पाता है।
- Both know the truth — and both know that the other knows.
  दोनों सत्य जानते हैं — और दोनों यह भी जानते हैं कि दूसरा भी सत्य से परिचित है।
- The boy tells his mother bluntly, **"Baba is dead."**
  बालक अपनी माँ से स्पष्ट शब्दों में कहता है, **"बाबा मर चुके हैं।"**
- The camera then closes in on her.
  इसके बाद कैमरा माँ के चेहरे पर केंद्रित हो जाता है।
- She pauses a while before asking in resignation, **"Is he doing well?"**
  वह कुछ क्षण रुककर शांत स्वीकृति के साथ पूछती है, **"क्या वह ठीक हैं?"**
- Boong replies, **"Yes,"** and hugs her.
  बूंग उत्तर देता है, **"हाँ,"** और उन्हें गले लगा लेता है।
- **Bala's** breathing deepens; her face reddens, and her eyes well up.
  बाला की साँसें गहरी हो जाती हैं, चेहरा लाल पड़ जाता है और आँखें आँसुओं से भर उठती हैं।
- She is forced to confront what she had long suspected but tried not to believe.
  उन्हें उस सत्य का सामना करना पड़ता है, जिसका उन्हें लंबे समय से संदेह था, किन्तु जिसे स्वीकारने से वह बचती रही थीं।
- Not a word is spoken, yet her **pain, humiliation, anger and resilience** surface.
  एक भी शब्द बोले बिना उनका **दर्द, अपमान, क्रोध और धैर्य** स्पष्ट रूप से सामने आ जाता है।
- She remains standing for the sake of her son.
  वह अपने पुत्र के लिए दृढ़ बनी रहती हैं।
- For those sensitive enough to hear it, her **silent, agonised scream** is deafening.
  जो लोग उसे समझ पाने की संवेदनशीलता रखते हैं, उनके लिए उसकी **मौन और पीड़ाभरी चीख** अत्यंत तीव्र प्रतीत होती है।
- For many others who have endured this betrayal themselves, or have witnessed loved ones suffer it, **Bala's silent scream** becomes their own.
  जो लोग स्वयं इस विश्वासघात को झेल चुके हैं या अपने प्रियजनों को इससे पीड़ित होते देख चुके हैं, उनके लिए **बाला की मौन चीख** उनकी अपनी चीख बन जाती है।
- Powerful as this portrayal of an invisible oppressive order is, life may well settle back into its old, abnormal normal.
  यद्यपि यह अदृश्य दमनकारी व्यवस्था का अत्यंत प्रभावशाली चित्रण है, फिर भी जीवन संभवतः पुनः अपनी पुरानी असामान्य सामान्यता में लौट जाएगा।
- Yet, for many, **Bala's silent scream** affirms that **Boong** is, at its heart, a desperate appeal for **social introspection**.
  फिर भी अनेक लोगों के लिए **बाला की मौन चीख** यह स्थापित करती है कि **बूंग** मूलतः **सामाजिक आत्ममंथन** के लिए की गई एक मार्मिक और गहन अपील है।

NEWS ANALYSIS

Rizmi Lia M.
CHENNAI

The Centre's move to block Telegram has once again drawn attention to Section 69A of the Information Technology Act, 2000, a provision that gives the government the power to direct intermediaries to block access to online information under specified circumstances.

The temporary ban on the platform, which was initially misused for the medical entrance examination paper leak and misinformation campaigns, was aimed at curbing another paper leak during the NEET-UG retest. Telegram has approached the Delhi High Court challenging the ban, which is set to last till June 22, and the judgment has been reserved.

Section 69A of the IT Act authorises the Union government to block public access to any information via any computer resource, including applications and websites, if it is satisfied that such blocking is necessary "in the interest of India's sovereignty and integrity, defence of India, security of the state, friendly relations with foreign states, public order, or for preventing incitement to the commission of any cognizable offence".

Telegram has approached the Delhi HC challenging the ban, which is set to last till June 22.

But the restriction may interfere with Article 19(1)(a) of the Constitution, which protects freedom of speech and expression. Therefore, the orders under Section 69A must be issued with the procedural safeguards established by the Information Technology (Procedure and Safeguards for Blocking Access to Information by the Public) Rules, 2009.

In *Anuradha Bhasin v Union of India*, the Supreme Court examined the validity of the indefinite blanket ban on internet services in the erstwhile State of Jammu and Kashmir, and the court held that freedom of speech and expression, as well as freedom to practice any profession or carry on any trade, business, or occupation over the internet, are protected by Articles 19(1)(a) and 19(1)(g). The court also concluded that orders restricting internet access must meet the proportionality test: they must be required, use the least restrictive measures available, and be open to judicial review.

Article 19(1)(g) provides the right to practice any profession or to engage in any occupation, trade, or business. A ban on a platform that has about 150 million users in India will disrupt many creators, educators, and entrepreneurs running broadcast groups, and prevent them from maintaining communication with their subscribers. It thus limits one's ability to earn a living.

Section 79 of the IT Act also establishes intermediary safe harbour provision, which means platforms are not liable for third-party content if they exercise due diligence, follow the Information Technology Rules, 2021, and act quickly upon receiving knowledge of illegal content.

19J6. Telegram challenge once again puts spotlight on Section 69A of IT Act
टेलीग्राम की याचिका ने एक बार फिर सूचना प्रौद्योगिकी अधिनियम की धारा 69A को चर्चा के केंद्र में ला दिया है।

- **The Centre's move to block Telegram** has once again drawn attention to **Section 69A of the Information Technology Act, 2000**, a provision that gives the government the power to direct **intermediaries** to block access to online information under specified circumstances.
  केंद्र सरकार द्वारा टेलीग्राम पर प्रतिबंध लगाने के कदम ने एक बार फिर **सूचना प्रौद्योगिकी अधिनियम, 2000 की धारा 69ए** की ओर ध्यान आकर्षित किया है। यह एक ऐसा प्रावधान है जो सरकार को निर्धारित परिस्थितियों में **मध्यस्थ मंचों** को ऑनलाइन सूचना तक पहुँच अवरुद्ध करने का निर्देश देने की शक्ति प्रदान करता है।
- **Section 69A of the Information Technology Act** authorises the **Union government** to block public access to any information via any computer resource, including applications and websites, if it is satisfied that such blocking is necessary in the interest of **India's sovereignty and integrity, defence of India, security of the state, friendly relations with foreign states, public order**, or for preventing incitement to the commission of any **cognizable offence**.

सूचना प्रौद्योगिकी अधिनियम की धारा 69ए केंद्र सरकार को यह अधिकार देती है कि वह अनुप्रयोगों और वेबसाइटों सहित किसी भी संगणकीय संसाधन के माध्यम से उपलब्ध सूचना तक सार्वजनिक पहुँच को अवरुद्ध कर सकती है, यदि उसे यह संतोष हो कि ऐसा करना **भारत की संप्रभुता और अखंडता, भारत की रक्षा, राज्य की सुरक्षा, विदेशी राज्यों के साथ मैत्रीपूर्ण संबंध, लोक व्यवस्था** अथवा किसी **संज्ञेय अपराध** के लिए उकसावे को रोकने के हित में आवश्यक है।

- But the restriction may interfere with **Article 19(1)(a) of the Constitution**, which protects **freedom of speech and expression**.
  किन्तु ऐसा प्रतिबंध **संविधान के अनुच्छेद 19(1)(क)** से टकरा सकता है, जो **वाक् एवं अभिव्यक्ति की स्वतंत्रता** की रक्षा करता है।
- Therefore, the orders under **Section 69A** must be issued with the procedural safeguards established by the **Information Technology (Procedure and Safeguards for Blocking Access to Information by the Public) Rules, 2009**.
  इसलिए **धारा 69ए** के अंतर्गत जारी आदेशों को **सूचना प्रौद्योगिकी (जनता द्वारा सूचना तक पहुँच अवरुद्ध करने की प्रक्रिया एवं सुरक्षा उपाय) नियम, 2009** में निर्धारित प्रक्रियात्मक सुरक्षा उपायों का पालन करते हुए जारी किया जाना चाहिए।
- In **Anuradha Bhasin v. Union of India**, the **Supreme Court** examined the validity of the indefinite blanket ban on internet services in the erstwhile State of **Jammu and Kashmir**.
  अनुराधा भसीन बनाम भारत संघ मामले में **उच्चतम न्यायालय** ने पूर्ववर्ती **जम्मू और कश्मीर राज्य** में इंटरनेट सेवाओं पर लगाए गए अनिश्चितकालीन व्यापक प्रतिबंध की वैधता की समीक्षा की थी।
- The court held that **freedom of speech and expression**, as well as freedom to practice any profession or carry on any trade, business, or occupation over the internet, are protected by **Articles 19(1)(a) and 19(1)(g)**.
  न्यायालय ने कहा कि **वाक् एवं अभिव्यक्ति की स्वतंत्रता** तथा इंटरनेट के माध्यम से किसी व्यवसाय, व्यापार, पेशे या रोजगार को संचालित करने की स्वतंत्रता, **अनुच्छेद 19(1)(क) और अनुच्छेद 19(1)(ग)** द्वारा संरक्षित है।
- The court also concluded that orders restricting internet access must meet the **proportionality test**; they must be required, use the **least restrictive measures** available, and be open to **judicial review**.
  न्यायालय ने यह भी स्पष्ट किया कि इंटरनेट पहुँच को प्रतिबंधित करने वाले आदेशों को **आनुपातिकता परीक्षण** पर खरा उतरना चाहिए; वे आवश्यक हों, उपलब्ध **न्यूनतम प्रतिबंधात्मक उपायों** का उपयोग करें तथा **न्यायिक समीक्षा** के लिए खुले हों।
- **Article 19(1)(g)** provides the right to practice any profession or to engage in any occupation, trade, or business.
  अनुच्छेद 19(1)(ग) प्रत्येक व्यक्ति को किसी भी पेशे का पालन करने अथवा किसी व्यवसाय, व्यापार या रोजगार में संलग्न होने का अधिकार प्रदान करता है।
- **Section 79 of the Information Technology Act** also establishes the **intermediary safe harbour provision**, which means platforms are not liable for **third-party content** if they exercise **due diligence**, follow the **Information Technology Rules, 2021**, and act quickly upon receiving knowledge of illegal content.
  सूचना प्रौद्योगिकी अधिनियम की धारा 79 में **मध्यस्थ सुरक्षित आश्रय प्रावधान** भी निहित है। इसके अनुसार यदि मंच **उचित सतर्कता** बरतते हैं, **सूचना प्रौद्योगिकी नियम, 2021** का पालन करते हैं तथा अवैध सामग्री की जानकारी मिलने पर शीघ्र कार्रवाई करते हैं, तो उन्हें **तृतीय पक्ष सामग्री** के लिए उत्तरदायी नहीं ठहराया जाएगा।

PM to release ₹18,880 crore for farmers tomorrow

Prime Minister Narendra Modi will release the 23rd instalment of the PM-KISAN scheme on Saturday from Tarakeswar, West Bengal. Over 9.44 crore eligible farmers will receive ₹2,000 each, and ₹18,880 crore will be transferred directly into beneficiary accounts. "Over 2.18 crore women farmers will receive the benefit," the Union Agriculture Ministry said in a release. Union Agriculture Minister Shivraj Singh

PM to hand over ₹2,400-cr. incentives to employees

GS II: Governance: Government Scheme

NEW DELHI

Prime Minister Narendra Modi will disburse ₹2,400 crore worth incentives under the Pradhan Mantri Viksit Bharat Rojgar Yojana (PM-VBRY) here on Friday. Union Labour Minister Mansukh Mandaviya told presspersons here on Thursday that 15 lakh beneficiaries will receive the incentive as Direct Benefit Transfer (DBT).

He added that Mr. Modi will interact with a few first-time employees and employers benefiting under PM-VBRY. The total outlay for the scheme is ₹99,446 crore, and is targeted to create 3.5 crore jobs in two years. He said first-time employees will get benefits worth ₹15,000 and employers will receive up to ₹3,000 per month per new employee. The scheme is to boost employment in the manufacturing sector, he said.

19J6. PM to release ₹18,880 crore for farmers tomorrow

प्रधानमंत्री कल किसानों के लिए ₹18,880 करोड़ जारी करेंगे।

- **Prime Minister Narendra Modi** will release the **23rd instalment** of the **Pradhan Mantri Kisan Samman Nidhi Scheme** on **Saturday** from **Tarakeswar, West Bengal**.

प्रधानमंत्री नरेंद्र मोदी शनिवार को **पश्चिम बंगाल के तारकेश्वर** से **प्रधानमंत्री किसान सम्मान निधि योजना** की **23वीं किस्त** जारी करेंगे।

- Over **9.44 crore eligible farmers** will receive **₹2,000 each**, and **₹18,880 crore** will be transferred directly into **beneficiary accounts**.

इस अवसर पर **9.44 करोड़ से अधिक पात्र किसानों** को **प्रत्येक के खाते में 2,000 रुपये** प्रदान किए जाएंगे तथा कुल **18,880 करोड़ रुपये** सीधे **लाभार्थियों के बैंक खातों** में स्थानांतरित किए जाएंगे।

- Mr. Modi will also launch the **Pradhan Mantri Fasal Bima Yojana** and the **Restructured Weather Based Crop Insurance Scheme**.

प्रधानमंत्री **प्रधानमंत्री फसल बीमा योजना** तथा **पुनर्गठित मौसम आधारित फसल बीमा योजना** का भी शुभारंभ करेंगे।

19J6. Assam NHM confirms seven Japanese encephalitis deaths

असम राष्ट्रीय स्वास्थ्य मिशन (एनएचएम) ने जापानी एन्सेफलाइटिस से सात मौतों की पुष्टि की।

- **Seven people** have died of **Japanese Encephalitis (JE)** in **Assam** since the beginning of the year, while **32 others** have died of **Acute Encephalitis Syndrome (AES)** as of **June 17**, according to a statement issued by the **State unit of the National Health Mission (NHM)** on Thursday.

असम में वर्ष की शुरुआत से अब तक **जापानी मस्तिष्क ज्वर** के कारण **सात लोगों** की मृत्यु हो चुकी है, जबकि **17 जून** तक **तीव्र मस्तिष्कशोथ सिंड्रोम** के कारण **32 अन्य लोगों** की मृत्यु हुई है। यह जानकारी गुरुवार को **राष्ट्रीय स्वास्थ्य मिशन की राज्य इकाई** द्वारा जारी एक वक्तव्य में दी गई।

- Almost **62% of all Japanese Encephalitis deaths in India** since **2018** have been reported from **Assam**, according to national data.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

राष्ट्रीय आँकड़ों के अनुसार, **वर्ष 2018** के बाद से भारत में **जापानी मस्तिष्क ज्वर से होने वाली कुल मृत्यु का लगभग 62 प्रतिशत** हिस्सा **असम** में दर्ज किया गया है।

- Outbreaks usually occur between **May and October**, with the peak period being **July and August**.
  इस रोग के प्रकोप सामान्यतः **मई से अक्टूबर** के बीच देखे जाते हैं, जबकि इसका सर्वाधिक प्रभाव **जुलाई और अगस्त** में होता है।
- Noting that the two distinct conditions are not interchangeable, **Assam NHM Executive Director Abhijit Sarma** clarified that **Japanese Encephalitis** is one cause of **Acute Encephalitis Syndrome**, but not all **AES** cases are caused by **JE**.
  इन दोनों अलग-अलग चिकित्सीय अवस्थाओं को एक-दूसरे का पर्याय न मानने की आवश्यकता पर बल देते हुए **असम राष्ट्रीय स्वास्थ्य मिशन के कार्यकारी निदेशक अभिजीत शर्मा** ने स्पष्ट किया कि **जापानी मस्तिष्क ज्वर**, **तीव्र मस्तिष्कशोथ सिंड्रोम** के कारणों में से एक है, किन्तु **तीव्र मस्तिष्कशोथ सिंड्रोम** के सभी मामले **जापानी मस्तिष्क ज्वर** के कारण नहीं होते हैं।

19J6. PM to hand over ₹2,400-cr. incentives to employees
प्रधानमंत्री कर्मचारियों को ₹2,400 करोड़ की प्रोत्साहन राशि प्रदान करेंगे।

- **Prime Minister Narendra Modi** will disburse **₹2,400 crore worth incentives** under the **Pradhan Mantri Viksit Bharat Rojgar Yojana (PM-VBRY)** on **Friday**.
  प्रधानमंत्री नरेंद्र मोदी शुक्रवार को **प्रधानमंत्री विकसित भारत रोजगार योजना** के अंतर्गत **2,400 करोड़ रुपये की प्रोत्साहन राशि** वितरित करेंगे।
- The **total outlay** for the scheme is **₹99,446 crore**, and it is targeted to create **3.5 crore jobs** in **two years**.
  इस योजना का **कुल परिव्यय 99,446 करोड़ रुपये** है तथा इसका लक्ष्य **दो वर्षों** में **3.5 करोड़ रोजगार अवसरों** का सृजन करना है।
- **Employers** will receive up to **₹3,000 per month per new employee**.
  नियोक्ताओं को प्रत्येक नए कर्मचारी के लिए **प्रतिमाह 3,000 रुपये तक** की सहायता राशि प्रदान की जाएगी।
- The scheme is intended to boost **employment in the manufacturing sector**.
  इस योजना का उद्देश्य **विनिर्माण क्षेत्र में रोजगार सृजन** को बढ़ावा देना है।

PATRIOTIC IAS

NFHS-6 reveals progress amid nutrition challenges

GS II: Governance

The recently released National Family Health Survey (NFHS)-6 report presents a mixed progress card for India, offering reasons to cheer while also sending clear signals to pause and reflect. On the bright side, stunting levels (for children under five), which indicate long periods of sub-optimal food intake with other deprivations, have declined from 35.5% to 29.3%. Though a modest decline, any gain is welcome given the complexity of the task that involves strengthening women's access to knowledge and resources, improved water and sanitation, and ensuring access to healthy affordable diets. Wasting levels that indicate whether children have adequate weight for their height, show no change, except for severe forms of wasting. The pattern across indicators makes one thing clear: gains in child nutrition are due to better health-care access, immunisation coverage, maternal education and improvements in housing, water and sanitation, while feeding practices and access to quality diets remain weak and continue to limit progress.

Institutional births have reached 90%, with public health facilities accounting for 58% of births; 91% of deliveries were attended by skilled medical personnel and 95% of mothers were visited at least once by health personnel during the antenatal period.

Equally gratifying is vaccination coverage for children – 87% of children between 12 and 23 months of age are now fully vaccinated. Since private facilities account for only about 3% of vaccinations, the high coverage reflects the strong outreach efforts of frontline workers – Accredited Social Health Activists (ASHA), Anganwadi workers (AWW), and Auxiliary Nurse Midwives (ANM). These national averages hide regional disparities, but access to health services has improved across States.

Poor feeding practices

Despite the high rate of institutional births, only about 50% of newborns are breastfed within the first hour of life, indicating that the health system must intensify efforts to support early initiation of breastfeeding. About 60% of children between the ages of six to eight months, receive solid/semi-solid food, while only 15% between six to 23 months receive an adequate diet. Improving the timely initiation of complementary feeding and ensuring that all children receive an adequate diet are key to reducing undernutrition. In India, complementary feeding is closely linked to the annaprasana ritual, typically performed between six and 12 months – any delay will result in growth faltering.

A growing and under-explored determinant of child nutrition in India is maternal time poverty. Women perform multiple roles within and outside the home. NFHS-6 reports that about 30% of women engaged in paid work during the past 12 months, but this significantly underestimates their overall work burden. A large proportion of women in informal economies engage in unpaid family labour, in farming/fisheries, livestock care, and domestic chores. There are no clear estimates of the percentage of young mothers with children between six-23 months who are in the work force and there is very little documentation on how women manage child feeding with their other work roles. In many rural areas, in the absence of crèches, women leave their infants and young children with older family members or the child's older sibling (usually a girl), impacting both breastfeeding and complementary feeding, when they are out in the fields.

The processed food trap

Recent consumer expenditure survey results show that households are spending less on cereals and more on dairy, processed foods and beverages, with the latter two forming a large part of the expenditure. This creates an impression of diversity which is not the same as nutritional adequacy. A nutritionally adequate diet would have to follow the ICMR-National Institute of Nutrition (NIN) food-based dietary guidelines. Unfortunately, for a sizeable section of the population, a nutritious diet consisting of pulses, millets, fruits and vegetables, animal foods and nuts is unaffordable. Processed foods, in contrast, are easily available, ready to eat and packaged in affordable packs.

The first 1,000 days – from pregnancy to a child's second birthday – form the most critical window for healthy physical and cognitive development (most brain growth occurs in the first five years). We need disaggregated data for the 0-2 age group, currently unavailable, as stunting typically peaks during the second year of life and growth faltering often begins much earlier. The Prime Minister's Overarching Scheme for Holistic Nourishment (POSHAN) Abhiyaan programme currently focuses on identification and rehabilitation of severely malnourished children. Prevention of growth faltering must receive greater priority. Early identification of stagnation in weight or length, with timely counselling and support to mothers, is central to prevention.

Empowering frontline nutrition workers

Monthly anthropometric data for young children is collected by AWWs. Strengthening their skills in data collection would improve data quality. The huge volume of collected data should be analysed locally and feedback provided to the ASHAs and AWWs for timely action.

For this task, recruitment of a nutritionist and a data analyst at the district level is needed. Where possible, digital tools can be used to supplement in person counselling, by providing both workers and mothers practical information on how, when and what to feed young children at different ages, based on locally available healthy foods.

Behaviour change communication efforts should be culturally grounded, integrating practices such as annaprasana to reinforce timely and appropriate complementary feeding. Joint capacity building of AWWs, ASHAs, and ANMs in assessing feeding practices and advising families with effective communication materials on improving diets using locally available, affordable foods would enhance the quality of counselling and reduce the risk of undernutrition.

Multisectoral convergence is critical to addressing child malnutrition, yet it remains weak. Child nutrition should be a standing agenda item in Gram Sabha and Panchayat discussions. Local planning must prioritise improvements in Anganwadi infrastructure, safe drinking water, and sanitation facilities, as these foundational services directly influence child growth and health.

Engaging men in childcare, promoting shared domestic responsibilities, and strengthening support to mothers can significantly enhance feeding and caregiving behaviours. Many non-governmental organisations in India have developed crèche models that combine childcare, nutrition and early learning, and can be run by trained local women. From a gender perspective, crèches are not only child development interventions; they are social infrastructure that enables women's economic participation and reduces unpaid care burdens. With coordinated action across sectors and communities, meaningful and sustained progress in child nutrition is entirely achievable.

Poor feeding practices
अपर्याप्त आहार संबंधी व्यवहार

- Despite the high rate of **institutional births**, only about **50%** of newborns are breastfed within the first hour of life, indicating that the health system must intensify efforts to support early initiation of breastfeeding.
  संस्थागत प्रसवों की उच्च दर के बावजूद, केवल लगभग **50%** नवजात शिशुओं को जन्म के पहले घंटे के भीतर स्तनपान कराया जाता है, जो दर्शाता है कि स्वास्थ्य प्रणाली को शीघ्र स्तनपान प्रारम्भ कराने के लिए अपने प्रयास और तेज करने होंगे।
- About **60%** of children between the ages of **six to eight months**, receive solid/semi-solid food, while only **15%** between **six to 23 months** receive an adequate diet.
  छह से आठ माह आयु के लगभग **60%** बच्चों को ठोस अथवा अर्ध-ठोस आहार प्राप्त होता है, जबकि **छह से 23 माह** आयु वर्ग के केवल **15%** बच्चों को पर्याप्त आहार मिल पाता है।
- In India, complementary feeding is closely linked to the **annaprasana ritual**, typically performed between **six and 12 months** — any delay will result in growth faltering.
  भारत में पूरक आहार की शुरुआत **अन्नप्राशन संस्कार** से घनिष्ठ रूप से जुड़ी होती है, जो सामान्यतः **छह से 12 माह** की आयु के बीच सम्पन्न किया जाता है — इसमें किसी भी प्रकार की देरी बच्चे की वृद्धि में अवरोध उत्पन्न कर सकती है।
- **NFHS-6** reports that about **30%** of women engaged in paid work during the past 12 months, but this significantly underestimates their overall work burden.
  NFHS-6 के अनुसार, पिछले 12 महीनों के दौरान लगभग **30%** महिलाएँ वेतनभोगी कार्यों में संलग्न थीं, किंतु यह उनके कुल कार्यभार का वास्तविक आकलन नहीं दर्शाता।
- In many rural areas, in the absence of **crèches**, women leave their infants and young children with older family members or the child's older sibling (usually a girl), impacting both breastfeeding and complementary feeding, when they are out in the fields.
  अनेक ग्रामीण क्षेत्रों में **शिशु देखभाल केंद्रों (Crèches)** के अभाव में महिलाएँ खेतों में कार्य करने जाते समय अपने शिशुओं और छोटे बच्चों को परिवार के बड़े सदस्यों या बच्चे के बड़े भाई-बहन (अधिकतर लड़की) के पास छोड़ देती हैं, जिससे स्तनपान और पूरक आहार दोनों प्रभावित होते हैं।

The processed food trap
प्रसंस्कृत खाद्य पदार्थों का जाल

- The first **1,000 days** — from pregnancy to a child's second birthday — form the most critical window for healthy physical and cognitive development (most brain growth occurs in the first five years).
  पहले **1,000 दिन** — अर्थात गर्भावस्था से लेकर बच्चे के दूसरे जन्मदिन तक — स्वस्थ शारीरिक और संज्ञानात्मक विकास के लिए सबसे महत्वपूर्ण अवधि होते हैं (मस्तिष्क का अधिकांश विकास जीवन के पहले पाँच वर्षों में होता है)।
- The **Prime Minister's Overarching Scheme for Holistic Nourishment (POSHAN) Abhiyaan** programme currently focuses on identification and rehabilitation of severely malnourished children.
  प्रधानमंत्री समग्र पोषण योजना (POSHAN Abhiyaan) वर्तमान में गंभीर रूप से कुपोषित बच्चों की पहचान और पुनर्वास पर केंद्रित है।

- Monthly **anthropometric data** for young children is collected by **AWWs**.
  छोटे बच्चों के मासिक **शारीरिक माप संबंधी आँकड़े (Anthropometric Data) आंगनवाड़ी कार्यकर्ताओं (AWWs)** द्वारा एकत्र किए जाते हैं।
- **Behaviour change communication** efforts should be culturally grounded, integrating practices such as **annaprasana** to reinforce timely and appropriate complementary feeding.

What is Kerala's risk profile for Nipah?

How do ecological and human factors intersect in driving spillovers? Will it be possible to prevent recurrent spillovers events? What has Kerala learnt from the multiple outbreaks? What makes Kerala's Nipah response effective in containing outbreaks? Why is Nipah classified as a high-threat pathogen within Kerala's zoonotic landscape?

GS II: Governance

EXPLAINER

C. Maya

The story so far:

Kerala's first encounter with Nipah virus (NiV) was in 2018, which identified 23 cases (including 18 lab-confirmed ones). The case fatality rate was 91% and there were two survivors. Since then, Kerala has recorded numerous spillovers of NiV.

In 2019, a lone case was identified in Ernakulam and the person survived the infection. In 2021, a 12 -year-old boy was detected with the infection in Malappuram. In 2023, Nipah resulted in a cluster of six cases in Kozhikode. Two single cases each were reported from separate spillover events from Malappuram, in July and September in 2024. In 2025, four cases of Nipah were reported from two districts, Malappuram and Palakkad and epidemiological investigations reported that none of these cases appeared to be linked to each other, suggesting independent spillover events from the natural reservoir.

NiV has resurfaced again in Kozhikode now and a 43-year-old, who tested positive for the virus, is battling for life at Kozhikode Medical College.

Why is Nipah recurring in Kerala?

Research has consistently identified the Indian flying fox bat (*Pteropus medius*) or the fruit bat as the natural reservoir of Nipah virus in Kerala. Serological studies and viral detection in bats have shown that the virus is circulating in bat colonies in the State, particularly in northern districts.

In the 2018 Kerala outbreak, about 25% of the sampled bats were found to be positive for Nipah viral RNA and in subsequent events too, bat samples had revealed the presence of NiV.

The Pteropus species are found across the State and very near human settlements. A mapping study of bat-roosting sites by Kerala Forest Research Institute's Department of Wildlife Biology had found that almost all of the roosts were near human habitats, increasing the risk of zoonotic exposure.

Why is Nipah spillover risk highest in Kerala between April and September?

The recurrent NiV spillovers in Kerala with fair regularity suggest that the virus has established itself in the environment. The peak Nipah virus spillover risk in the State is from April to September, when the abundance of seasonal fruit-laden trees, increased bat foraging activity, bat breeding season and viral shedding dynamics coincide, increasing the risk of human exposure. This pattern has not changed in Kerala since the very first outbreak.

Because of the perennial natural virus reservoir in the State, it might not be possible to prevent recurrent NiV spillover events in Kerala.

What makes Kerala particularly vulnerable to zoonotic diseases?

It is the convergence of ecological, demographic, climatic factors and increased human-wildlife interface that makes Kerala a special lab for zoonotic diseases.

The Western Ghats, which stretches along the State's eastern flank, is one of the world's richest biodiversity spots and the tropical rainforest climate sustains several hundred species of birds, reptiles and mammals. But only about 1,60,000 sq. km of this rich biosphere is formally protected. The high population density in Kerala and the increased presence of human settlements, plantations, and agricultural lands immediately adjacent to and along the forest fringes increases the opportunities for human-wildlife interactions and facilitates exposure to novel pathogens.

Scientific literature links emerging zoonoses to deforestation, habitat fragmentation, urbanisation and agricultural intensification. When wildlife habitats are disturbed, the animals are forced into closer contact with human settlements and cultivated food sources. Scientists also warn that climate-related ecological disruptions could be important contributors to future spillover risk in the case of Nipah.

Nipah is just one among Kerala's broader zoonotic risk profile, which includes other pathogenic diseases like Kyasanur Forest Disease (KFD), leptospirosis, scrub typhus, Japanese encephalitis, West Nile fever, rabies and avian influenza.

The World Health Organisation (WHO) has warned Kerala to be on the vigil about some high threat pathogens (HTPs) – Nipah, Avian Influenza (H5N1) and KFD – which have a high mortality profile and high transmissibility with pandemic potential. Nipah has been classified by the WHO as a priority pathogen because of its lethality, unpredictability and its alarming potential to cause widespread outbreaks or even the next pandemic.

Renewed alert: Nipah virus has resurfaced in Kozhikode now, with a 43-year-old patient battling for life at the Government Medical College Hospital. A security guard installs a warning board outside Nipah isolation ward at the hospital on June 11, 2026. K.RAGESH

The WHO has warned Kerala to be on the vigil about some high threat pathogens

How is Kerala responding to the recurrent threat of zoonotic events like Nipah?

The recurrent spillover incidents in Kerala has primed the health system about the importance of sharp and coordinated disease surveillance, rapid pathogen identification and containment efforts to ensure that human-to-human transmissions do not occur, resulting in a wide outbreak.

The 2018 brush with Nipah took the health system by surprise. Of the 23 cases identified in the outbreak, only the index case had contracted the infection in the community. All the remaining cases were due to nosocomial transmission (the spread of pathogens within healthcare facilities) in three different hospitals.

Kerala used the 2018 experience as an opportunity to develop a clinical algorithm for all emerging viral infections at tertiary care levels, strengthen diagnostic and research capacities and augment standard infection control practices in hospitals. Clinicians in the State have become adept at maintaining a high index of suspicion when they encounter unusual cases of acute encephalitis syndrome and to watch for clustering of cases.

The State now has a stringent system for monitoring all acute encephalitis cases of unknown etiology, screening of severe respiratory infections as well as early lab confirmation and detection of pathogens through its expanded Virus Research and Diagnostic Laboratory (VRDL) networks and intensive health emergency management measures.

In all its Nipah outbreaks, the health system's public health response has demonstrated that it can rapidly identify the index case and swiftly contain the event. After the initial event, human-to-human transmission has occurred only once in 2023.

How is Kerala strengthening its preparedness against recurring Nipah outbreaks?

The recurrence of Nipah in Kerala and the State's swift public health response every time has been a demonstration of the resilience of the State's health system. With the State harbouring a natural reservoir of Nipah virus and a perennial risk of virus spillovers, the Health department's focus has been on creating community awareness about the situation so that the bat-human interface is reduced.

As part of its 'One Health' strategies, it has developed a massive community-based surveillance network supported by over 2.5 lakh trained volunteers at the grassroots, who track and report unusual disease trends, including unusual animal or bird deaths, to enable early detection of zoonotic outbreaks such as Nipah and Mpox.

In 2023, the State set up the One Health Centre for Nipah Research and Resilience at Kozhikode, which has been focusing on building community awareness, resilience and capacity to minimise spillover events and to mount a swift response to any such events.

It has documented every single outbreak in Kerala and prioritised Nipah research for the future, focusing on disease epidemiology, sero surveillance studies and host factors research.

The State government, along with National Institute of Virology (NIV), is also involved in a project to develop indigenous monoclonal antibodies against Nipah, specific to the Bangladesh strain of NiV circulating in Kerala.

THE GIST

- A mapping study of bat-roosting sites by Kerala Forest Research Institute's Department of Wildlife Biology had found that almost all of the roosts were near human habitats, increasing the risk of zoonotic exposure.
- Kerala used the 2018 experience as an opportunity to develop a clinical algorithm for all emerging viral infections at tertiary care levels, strengthen diagnostic and research capacities and augment standard infection control practices in hospitals.
- With the State harbouring a natural reservoir of Nipah virus and a perennial risk of virus spillovers, the Health department's focus has been on creating community awareness about the situation so that the bat-human interface is reduced.

19J6. What is Kerala's risk profile for Nipah?
निपाह के संदर्भ में केरल की जोखिम-प्रोफ़ाइल क्या है?

- **Kerala's first encounter with Nipah virus (NiV)** was in **2018**, which identified **23 cases** (including **18 lab-confirmed** ones).
  केरल में **निपाह विषाणु** का पहला प्रकोप **वर्ष 2018** में सामने आया, जिसमें **23 मामलों** की पहचान की गई थी, जिनमें **18 प्रयोगशाला द्वारा पुष्ट मामले** शामिल थे।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- The **case fatality rate** was **91%** and there were **two survivors**.
  इस दौरान **मृत्यु दर 91%** थी और **दो व्यक्ति जीवित बचे** थे।

Why is Nipah recurring in Kerala?
केरल में निपाह संक्रमण बार-बार क्यों उभर रहा है?

- Research has consistently identified the **Indian flying fox bat (Pteropus medius)** or the **fruit bat** as the **natural reservoir** of **Nipah virus** in Kerala.
  अनुसंधानों ने लगातार यह स्थापित किया है कि **भारतीय उड़न लोमड़ी चमगादड़ (प्टेरोपस मेडियस)** अथवा **फलाहारी चमगादड़** केरल में **निपाह विषाणु का प्राकृतिक भंडार** है।
- **Serological studies** and **viral detection in bats** have shown that the virus is circulating in **bat colonies**, particularly in **northern districts** of the State.
  प्रतिरक्षी-विज्ञान संबंधी अध्ययनों तथा **चमगादड़ों में विषाणु की पहचान** से यह स्पष्ट हुआ है कि यह विषाणु राज्य के **चमगादड़ समूहों**, विशेषकर **उत्तरी जिलों** में सक्रिय रूप से संचरित हो रहा है।
- The **Pteropus species** are found across the State and very near **human settlements**.
  प्टेरोपस प्रजाति के चमगादड़ पूरे राज्य में तथा **मानव बस्तियों** के अत्यंत निकट पाए जाते हैं।
- A mapping study of **bat-roosting sites** by **Kerala Forest Research Institute's Department of Wildlife Biology** had found that almost all of the roosts were near human habitats, increasing the risk of **zoonotic exposure**.
  केरल वन अनुसंधान संस्थान के वन्यजीव जीवविज्ञान विभाग द्वारा किए गए **चमगादड़ों के विश्राम स्थलों के मानचित्रण अध्ययन** में पाया गया कि लगभग सभी विश्राम स्थल मानव आवासों के निकट स्थित हैं, जिससे **पशुजन्य संक्रमण के जोखिम** में वृद्धि होती है।
- The peak **Nipah virus spillover risk** in the State is from **April to September**, when the abundance of **seasonal fruit-laden trees**, increased **bat foraging activity**, **bat breeding season** and **viral shedding dynamics** coincide, increasing the risk of human exposure.
  राज्य में **निपाह विषाणु संक्रमण-प्रसार का सर्वाधिक जोखिम अप्रैल से सितंबर** के बीच रहता है, जब **मौसमी फलों से लदे वृक्षों की अधिकता**, **चमगादड़ों की भोजन खोज गतिविधियों में वृद्धि**, **प्रजनन काल** तथा **विषाणु उत्सर्जन की प्रक्रियाएँ** एक साथ घटित होती हैं, जिससे मनुष्यों के संपर्क में आने का जोखिम बढ़ जाता है।

What makes Kerala particularly vulnerable to zoonotic diseases?
केरल को पशुजन्य रोगों के प्रति विशेष रूप से संवेदनशील क्या बनाता है?

- Scientific literature links emerging **zoonoses** to **deforestation, habitat fragmentation, urbanisation and agricultural intensification**.
  वैज्ञानिक साहित्य उभरते हुए **पशुजन्य रोगों** को **वनों की कटाई, आवास विखंडन, नगरीकरण तथा कृषि के तीव्रीकरण** से जोड़ता है।
- When wildlife habitats are disturbed, the animals are forced into closer contact with human settlements and cultivated food sources.
  जब वन्यजीवों के आवासों में व्यवधान उत्पन्न होता है, तो पशु मानव बस्तियों और कृषि-आधारित खाद्य स्रोतों के अधिक निकट आने के लिए विवश हो जाते हैं।
- Scientists also warn that **climate-related ecological disruptions** could be important contributors to future spillover risk in the case of Nipah.
  वैज्ञानिक यह भी चेतावनी देते हैं कि **जलवायु परिवर्तन से उत्पन्न पारिस्थितिकीय व्यवधान** भविष्य में निपाह संक्रमण-प्रसार के जोखिम को बढ़ाने वाले महत्वपूर्ण कारक हो सकते हैं।
- **Nipah** is just one among Kerala's broader **zoonotic risk profile**, which includes other pathogenic diseases like **Kyasanur Forest Disease, leptospirosis, scrub typhus, Japanese encephalitis, West Nile fever, rabies and avian influenza**.
  निपाह केरल के व्यापक **पशुजन्य रोग जोखिम परिदृश्य** का केवल एक हिस्सा है, जिसमें **क्यासानूर वन रोग,**

लेप्टोस्पायरोसिस, स्क्रब टाइफस, जापानी मस्तिष्क ज्वर, वेस्ट नाइल ज्वर, रेबीज़ तथा पक्षी इन्फ्लुएंजा जैसे अन्य रोग भी शामिल हैं।

- The **World Health Organisation (WHO)** has warned Kerala to be on the vigil about some **high threat pathogens (HTPs) — Nipah, Avian Influenza (H5N1) and KFD** — which have a high mortality profile and high transmissibility with pandemic potential.
  विश्व स्वास्थ्य संगठन ने केरल को कुछ **उच्च-जोखिम रोगजनकों — निपाह, पक्षी इन्फ्लुएंजा (एच5एन1) और क्यासानूर वन रोग** — के प्रति सतर्क रहने की चेतावनी दी है, क्योंकि इनमें उच्च मृत्यु-दर, तीव्र संचरण क्षमता तथा महामारी उत्पन्न करने की संभावना होती है।
- **Nipah** has been classified by the **World Health Organisation** as a **priority pathogen** because of its **lethality, unpredictability and alarming potential** to cause widespread outbreaks or even the next pandemic.
  निपाह को **विश्व स्वास्थ्य संगठन** ने एक **प्राथमिकता प्राप्त रोगजनक** के रूप में वर्गीकृत किया है, क्योंकि इसकी **घातकता, अप्रत्याशितता तथा व्यापक प्रकोप अथवा अगली महामारी उत्पन्न करने की चिंताजनक क्षमता** अत्यधिक है।

How is Kerala responding to the recurrent threat of zoonotic events like Nipah?
केरल निपाह जैसी बार-बार होने वाली पशुजन्य रोग घटनाओं के खतरे का सामना कैसे कर रहा है?

- The recurrent **spillover incidents** in Kerala has primed the **health system** about the importance of sharp and coordinated **disease surveillance**, rapid **pathogen identification** and **containment efforts** to ensure that **human-to-human transmission** does not occur, resulting in a wide outbreak.
  केरल में बार-बार होने वाली **संक्रमण-प्रसार घटनाओं** ने **स्वास्थ्य व्यवस्था** को यह समझा दिया है कि प्रभावी और समन्वित **रोग निगरानी**, त्वरित **रोगजनक पहचान** तथा **नियंत्रण उपाय** कितने महत्वपूर्ण हैं, ताकि **मनुष्य से मनुष्य में संक्रमण** न फैल सके और व्यापक प्रकोप को रोका जा सके।
- All the remaining cases were due to **nosocomial transmission** (the spread of pathogens within healthcare facilities) in three different hospitals.
  शेष सभी मामले **अस्पतालजनित संक्रमण प्रसार** के कारण हुए थे, अर्थात् स्वास्थ्य संस्थानों के भीतर रोगजनकों के फैलाव के परिणामस्वरूप, और ये तीन अलग-अलग अस्पतालों से जुड़े थे।
- Kerala used the **2018 experience** as an opportunity to develop a **clinical algorithm** for all emerging viral infections at tertiary care levels, strengthen **diagnostic and research capacities** and augment **infection control practices** in hospitals.
  केरल ने **वर्ष 2018 के अनुभव** को अवसर के रूप में उपयोग करते हुए तृतीयक स्वास्थ्य संस्थानों में उभरते विषाणुजनित संक्रमणों के लिए **नैदानिक कार्य-पद्धति**, **निदान एवं अनुसंधान क्षमता** तथा अस्पतालों में **संक्रमण नियंत्रण व्यवस्थाओं** को सुदृढ़ किया।
- The State now has a stringent system for monitoring all **acute encephalitis cases of unknown etiology**, screening of **severe respiratory infections** as well as early **laboratory confirmation** and detection of pathogens through its expanded **Virus Research and Diagnostic Laboratory network** and intensive health emergency management measures.
  राज्य में अब **अज्ञात कारणों वाले तीव्र मस्तिष्कशोथ मामलों**, **गंभीर श्वसन संक्रमणों** की जाँच, शीघ्र **प्रयोगशाला पुष्टि** तथा विस्तारित **विषाणु अनुसंधान एवं निदान प्रयोगशाला नेटवर्क** के माध्यम से रोगजनकों की पहचान के लिए सुदृढ़ व्यवस्था स्थापित है।
- With the State harbouring a **natural reservoir of Nipah virus** and a perennial risk of **virus spillovers**, the Health Department's focus has been on creating **community awareness** so that the **bat-human interface** is reduced.
  राज्य में **निपाह विषाणु के प्राकृतिक भंडार** की उपस्थिति तथा **संक्रमण-प्रसार के स्थायी जोखिम** को देखते हुए स्वास्थ्य विभाग का ध्यान **सामुदायिक जागरूकता** बढ़ाने पर केंद्रित है, ताकि **चमगादड़-मानव संपर्क** को कम किया जा सके।

- As part of its **One Health strategy**, it has developed a massive **community-based surveillance network** supported by over **2.5 lakh trained volunteers** at the grassroots.
  अपनी **एकीकृत स्वास्थ्य रणनीति** के अंतर्गत राज्य ने **2.5 लाख से अधिक प्रशिक्षित स्वयंसेवकों** के सहयोग से एक विशाल **सामुदायिक निगरानी तंत्र** विकसित किया है।
- In **2023**, the State set up the **One Health Centre for Nipah Research and Resilience** at **Kozhikode**.
  वर्ष 2023 में राज्य ने **कोझिकोड** में **निपाह अनुसंधान एवं सामुदायिक प्रत्यास्थता हेतु एकीकृत स्वास्थ्य केंद्र** की स्थापना की।
- It has documented **every single outbreak** in Kerala and prioritised **Nipah research** for the future, focusing on **disease epidemiology**, **sero-surveillance studies** and **host factor research**.
  इसने केरल में हुए **प्रत्येक प्रकोप का दस्तावेजीकरण** किया है तथा भविष्य के लिए **निपाह अनुसंधान** को प्राथमिकता दी है, जिसमें **रोग महामारी-विज्ञान**, **प्रतिरक्षी सर्वेक्षण अध्ययन** और **आश्रयदाता कारक अनुसंधान** पर विशेष ध्यान दिया जा रहा है।
- The State government, along with the **National Institute of Virology**, is also involved in a project to develop **indigenous monoclonal antibodies** against Nipah, specific to the **Bangladesh strain** of the virus circulating in Kerala.
  राज्य सरकार, **राष्ट्रीय विषाणु विज्ञान संस्थान** के साथ मिलकर, केरल में प्रचलित विषाणु की **बांग्लादेशीय उपप्रजाति** के विरुद्ध **स्वदेशी एकल-वंशीय प्रतिरक्षी प्रतिद्रव्यों** के विकास की परियोजना पर भी कार्य कर रही है।

U.S. lifts blockade of Iranian ports after Trump, Pezeshkian sign peace accord

GS II: IR

Agence France-Presse
TEHRAN/WASHINGTON

The U.S. on Thursday lifted a blockade of Iranian ports imposed during the West Asia war after President Donald Trump signed a deal to end the conflict, as uncertainty surrounded planned talks in Switzerland aiming to take the accord further.

Mr. Trump and Iran's President Masoud Pezeshkian signed a deal on Wednesday meant to end the war, with Tehran agreeing to dilute its enriched uranium in return for large-scale economic relief. The signing of the deal set in motion a 60-day period for talks on wider issues between the two sides.

Iranian Supreme Leader Ayatollah Mojtab Khamenei endorsed the talks with the U.S. in a statement.

It remained unclear if the two sides, who have had no diplomatic relations following the 1979 Islamic revolution, would hold a signing ceremony and talks in Switzerland on Friday as announced.

The U.S. forces lifted their parallel naval blockade of Iranian ports that had prevented ships from sailing to or from the Islamic republic, the U.S. military said, noting that its warships "will remain in the general area".

The U.S. military, which had enforced its own blockade after Iran shut the Strait at the start of the war, has allowed at least 12 ships to pass through, Vice-President J.D. Vance said.

Earlier on Wednesday, Mr. Trump put his signature to the memorandum of understanding during a candle-lit dinner at the Palace of Versailles following a G7 summit, as host French President Emmanuel Macron and other guests applauded, a video posted by a Trump aide showed. "Just signed it," Mr. Trump told the media as he emerged from the palace.

Iranian Foreign Ministry spokesperson Esmaeil Baqaei said the document "was finalised with the signatures of the Presidents".

Prime Minister Shehbaz Sharif of Pakistan, who mediated the agreement, said on X that it "shall enter into force with immediate effect".

Trump defends Iran deal; calls critics 'fools'

Agence France-Presse
WASHINGTON

U.S. President Donald Trump lashed out at critics of his agreement with Iran on Thursday, calling those who accused him of offering concessions to end the war "fools", ahead of negotiations in Switzerland on implementing the deal.

Oil prices tumbled after the U.S. President and his Iranian counterpart separately signed their accord to end the West Asia war, with the Strait of Hormuz to reopen but two months of negotiations lying ahead.

"These fools, who think I haven't been tough enough on Iran, when the Stock Market Just Hit A RECORD HIGH, and Oil prices are 'tumbling' down, are either jealous, bad people, or stupid," Mr. Trump posted on social media hours after signing the deal.

Govt. ratifies 8.25% EPF interest rate for FY26

GS III: Economy

Press Trust of India
NEW DELHI

The government has ratified 8.25% rate of interest on employees' provident fund (EPF) deposits for the financial year 2025-26, which is likely to be credited to over seven crore contributing members this month.

The Employees' Provident Fund Organisation (EPFO) provides the rate of interest on EPF after it gets ratified by the government through the Finance Ministry. The Finance Ministry has given its concurrence to the 8.25% rate of interest fixed by the Central Board of Trustees (CBT), the apex decision making body of the EPFO, a source said on Thursday.

On March 2, the CBT, in a meeting chaired by the Union Labour Minister Mansukh Mandaviya, had decided to fix 8.25% rate of interest for FY 2025-26, marking the third consecutive year this rate has been maintained.

Under the new ecosystem developed by the EPFO, the interest on the EPF would be credited into subscribers' accounts immediately, the source said.

19J6. Govt. ratifies 8.25% EPF interest rate for FY26

सरकार ने वित्त वर्ष 2025-26 के लिए ईपीएफ पर 8.25% ब्याज दर को मंजूरी प्रदान कर दी है।

सरकार ने **वित्तीय वर्ष 2025-26** के लिए **कर्मचारी भविष्य निधि जमा राशि** पर **8.25 प्रतिशत ब्याज दर** को अनुमोदित कर दिया है, जिसे इस माह **सात करोड़ से अधिक अंशदायी सदस्यों** के खातों में जमा किए जाने की संभावना है।

- The **Employees' Provident Fund Organisation (EPFO)** provides the rate of interest on EPF after it is ratified by the government through the **Finance Ministry**.

कर्मचारी भविष्य निधि संगठन कर्मचारी भविष्य निधि पर ब्याज दर तभी लागू करता है, जब उसे **वित्त मंत्रालय** के माध्यम से सरकार की स्वीकृति प्राप्त हो जाती है।

- The **Finance Ministry** has given its concurrence to the **8.25% interest rate** fixed by the **Central Board of Trustees (CBT)**, the apex decision-making body of the EPFO.

वित्त मंत्रालय ने कर्मचारी भविष्य निधि संगठन की सर्वोच्च निर्णयकारी संस्था **केंद्रीय न्यासी बोर्ड** द्वारा निर्धारित **8.25 प्रतिशत ब्याज दर** को अपनी स्वीकृति प्रदान कर दी है।

- On **March 2**, the **Central Board of Trustees**, in a meeting chaired by **Union Labour Minister Mansukh Mandaviya**, had decided to fix the **8.25% interest rate** for **financial year 2025-26**.

2 मार्च को **केंद्रीय श्रम मंत्री मनसुख मांडविया** की अध्यक्षता में आयोजित **केंद्रीय न्यासी बोर्ड** की बैठक में **वित्तीय वर्ष 2025-26** के लिए **8.25 प्रतिशत ब्याज दर** निर्धारित करने का निर्णय लिया गया था।

- This marks the **third consecutive year** that the same rate of interest has been maintained.

यह **लगातार तीसरा वर्ष** है जब समान ब्याज दर को बरकरार रखा गया है।

- Under the **new ecosystem** developed by the **EPFO**, the interest on EPF deposits will be credited into subscribers' accounts immediately.

कर्मचारी भविष्य निधि संगठन द्वारा विकसित **नई प्रणाली** के अंतर्गत कर्मचारी भविष्य निधि पर देय ब्याज राशि अब अंशधारकों के खातों में **तत्काल जमा** कर दी जाएगी।

GS III: Economy

Essential upgrades

The updates to India's statistical system are welcome, albeit long overdue

The government has, in recent months, implemented several long-overdue but welcome upgrades to India's statistical databases. Wide-ranging, they cover the way the country measures Gross Domestic Product (GDP), industrial production, and price changes at the retail, wholesale, and producer levels. These updates have not only made India's key economic statistics more representative of reality, but have also brought them in line with international best practices. The most basic change across all indices has been the updating of base years. Until recently, the base years for GDP, the Consumer Price Index (CPI), Wholesale Price Index (WPI), and Index of Industrial Production (IIP) were either 2011 or 2012. As such, these measures were significantly outdated and less reflective of reality with each passing year. In February, the Ministry of Statistics and Programme Implementation (MoSPI) released the new series of national accounts data, including GDP, with a base year of 2022-23. The new series incorporates methodological improvements and new data sources, making it more granular and robust. Some of these, such as the double-deflator approach, have long been demanded by statisticians and international bodies, including the IMF.

Similarly, MoSPI had in February also released the new series of the CPI with an updated base year of 2024, a more inclusive basket of items measured, and more accurate weightages. This has enabled a more realistic reading of retail inflation, a key metric in interest-rate decisions. In early June, MoSPI then released the new series of the IIP as well. The base year was updated to 2022-23 and the index's data collection was strengthened. This, too, eventually feeds into more accurate GDP data. The other factor to be highlighted is that the data upgrades have not been limited to just MoSPI. The Ministry of Commerce and Industry also updated its WPI, releasing the new series on Monday. A more accurate WPI and CPI yield a more accurate GDP deflator, which strengthens the way that statisticians derive real GDP growth after having adjusted for inflation. The Commerce Ministry also released a new Producer Price Index (PPI), which is to replace the WPI in five years. A PPI is the standard among developed economies and provides more information about both goods and service price levels at the producer stage. With all these, the IMF is sure to improve the recurring 'C' grade it has given India's national accounts data. These, it is hoped, will also be capped off by a time-bound release of the new Census with no further delays.

19J6. Essential upgrades

आवश्यक उन्नयन

- The updates to **India's statistical system** are welcome, albeit **long overdue**.

भारत की सांख्यिकीय प्रणाली में किए गए अद्यतन स्वागतयोग्य हैं, यद्यपि वे **काफी विलंब से अपेक्षित** थे।

- The government has, in recent months, implemented several long-overdue but welcome upgrades to India's **statistical databases**.
  सरकार ने हाल के महीनों में भारत के **सांख्यिकीय डेटाबेस** में कई लंबे समय से अपेक्षित किंतु स्वागतयोग्य सुधार लागू किए हैं।
- Wide-ranging, they cover the way the country measures **Gross Domestic Product (GDP)**, industrial production, and price changes at the retail, wholesale, and producer levels.
  ये सुधार व्यापक हैं और इनमें देश द्वारा **सकल घरेलू उत्पाद (GDP)**, औद्योगिक उत्पादन तथा खुदरा, थोक और उत्पादक स्तरों पर मूल्य परिवर्तनों को मापने की पद्धति शामिल है।
- These updates have not only made India's key economic statistics more representative of reality, but have also brought them in line with international best practices.
  इन अद्यतनों ने न केवल भारत के प्रमुख आर्थिक आँकड़ों को वास्तविकता के अधिक अनुरूप बनाया है, बल्कि उन्हें अंतरराष्ट्रीय सर्वोत्तम प्रथाओं के अनुरूप भी कर दिया है।
- The most basic change across all indices has been the updating of **base years**.
  सभी सूचकांकों में सबसे मूलभूत परिवर्तन **आधार वर्ष** का अद्यतन करना रहा है।
- Until recently, the base years for **GDP**, the **Consumer Price Index (CPI)**, **Wholesale Price Index (WPI)**, and **Index of Industrial Production (IIP)** were either 2011 or 2012.
  हाल तक **GDP**, **उपभोक्ता मूल्य सूचकांक (CPI)**, **थोक मूल्य सूचकांक (WPI)** और **औद्योगिक उत्पादन सूचकांक (IIP)** के आधार वर्ष 2011 या 2012 थे।
- As such, these measures were significantly outdated and less reflective of reality with each passing year.
  इस कारण ये मापदंड काफी पुराने हो चुके थे और प्रत्येक वर्ष के साथ वास्तविकता को कम दर्शा रहे थे।
- In February, the **Ministry of Statistics and Programme Implementation (MoSPI)** released the new series of national accounts data, including **GDP**, with a base year of **2022-23**.
  फरवरी में **सांख्यिकी और कार्यक्रम क्रियान्वयन मंत्रालय (MoSPI)** ने **2022-23** को आधार वर्ष मानते हुए **GDP** सहित राष्ट्रीय आय लेखों की नई श्रृंखला जारी की।
- The new series incorporates methodological improvements and new data sources, making it more granular and robust.
  नई श्रृंखला में पद्धतिगत सुधारों और नए डेटा स्रोतों को शामिल किया गया है, जिससे यह अधिक विस्तृत और सुदृढ़ बन गई है।
- Some of these, such as the **double-deflator approach**, have long been demanded by statisticians and international bodies, including the **IMF**.
  इनमें से कुछ सुधार, जैसे **डबल-डिफ्लेटर दृष्टिकोण**, लंबे समय से सांख्यिकीविदों और **अंतरराष्ट्रीय मुद्रा कोष (IMF)** सहित अंतरराष्ट्रीय संस्थाओं द्वारा माँगे जाते रहे हैं।
- Similarly, **MoSPI** had in February also released the new series of the **CPI** with an updated base year of **2024**, a more inclusive basket of items measured, and more accurate weightages.
  इसी प्रकार, **MoSPI** ने फरवरी में **CPI** की नई श्रृंखला भी जारी की, जिसमें **2024** को आधार वर्ष बनाया गया, अधिक समावेशी वस्तु-टोकरी को शामिल किया गया तथा अधिक सटीक भारांक निर्धारित किए गए।
- This has enabled a more realistic reading of retail inflation, a key metric in interest-rate decisions.
  इससे खुदरा मुद्रास्फीति का अधिक यथार्थवादी आकलन संभव हुआ है, जो ब्याज दर निर्धारण का एक प्रमुख संकेतक है।
- In early June, **MoSPI** then released the new series of the **IIP** as well.
  जून की शुरुआत में **MoSPI** ने **IIP** की नई श्रृंखला भी जारी की।
- The base year was updated to **2022-23** and the index's data collection was strengthened.
  इसका आधार वर्ष **2022-23** कर दिया गया तथा सूचकांक के डेटा संग्रह तंत्र को और मजबूत बनाया गया।

- This, too, eventually feeds into more accurate **GDP** data.
  यह भी अंततः अधिक सटीक **GDP** आँकड़ों में योगदान देता है।
- The other factor to be highlighted is that the data upgrades have not been limited to just **MoSPI**.
  उल्लेखनीय बात यह भी है कि डेटा सुधार केवल **MoSPI** तक सीमित नहीं रहे हैं।
- The **Ministry of Commerce and Industry** also updated its **WPI**, releasing the new series on Monday.
  वाणिज्य और उद्योग मंत्रालय ने भी अपने **WPI** को अद्यतन करते हुए सोमवार को इसकी नई श्रृंखला जारी की।
- A more accurate **WPI** and **CPI** yield a more accurate **GDP deflator**, which strengthens the way that statisticians derive real GDP growth after having adjusted for inflation.
  अधिक सटीक **WPI** और **CPI**, अधिक सटीक **GDP डिफ्लेटर** प्रदान करते हैं, जिससे मुद्रास्फीति के समायोजन के बाद वास्तविक GDP वृद्धि का आकलन अधिक विश्वसनीय हो जाता है।
- The **Commerce Ministry** also released a new **Producer Price Index (PPI)**, which is to replace the **WPI** in five years.
  वाणिज्य मंत्रालय ने एक नया **उत्पादक मूल्य सूचकांक (PPI)** भी जारी किया है, जो अगले पाँच वर्षों में **WPI** का स्थान लेगा।
- A **PPI** is the standard among developed economies and provides more information about both goods and service price levels at the producer stage.
  PPI विकसित अर्थव्यवस्थाओं में मानक सूचकांक है और यह उत्पादक स्तर पर वस्तुओं तथा सेवाओं दोनों के मूल्य स्तरों के बारे में अधिक जानकारी प्रदान करता है।
- With all these, the **IMF** is sure to improve the recurring 'C' grade it has given India's national accounts data.
  इन सभी सुधारों के साथ **IMF** द्वारा भारत के राष्ट्रीय आय आँकड़ों को दी जाने वाली बार-बार की 'C' ग्रेडिंग में सुधार होने की संभावना है।

The real barriers to trade are no longer tariffs

GS III: Economy

Recently, the CEO of a large multinational called to ask whether the upcoming visit of the United States Trade Representative to India could result in tariff rates returning to around 18% or settling at a different level.

Such conversations reflect the extent to which trade negotiations are often viewed through the prism of headline tariff numbers. Yet, in practice, tariff rates are only one part of the picture. The more significant determinants of market access and competitiveness frequently lie elsewhere. This presents an opportunity for India to move beyond a narrow focus on tariff bargaining and instead address the broader set of factors that shape trade outcomes.

When India and the U.S. issued a joint statement in February 2026 agreeing on a framework for an interim trade agreement, the headlines highlighted the obvious: the tariff numbers. The U.S. reciprocal rate cut to 18%. India's pledge to move toward zero duties on American goods. The "$500 billion" purchase commitment. But the White House fact sheet buried the more consequential admission – that both sides needed to negotiate the removal of non-tariff barriers. The U.S. deploys its own formidable non-tariff barriers arsenal while India has its quality regulations. The tariff headline was the press release. The NTBs on both sides are the actual problem.

For decades, trade diplomacy revolved around tariffs. Governments negotiated reductions in import duties, and success in trade talks was measured in percentage points shaved off customs rates. In today's hyper-regulated global economy, tariffs barely matter. The real obstacles are faced in the laboratory and the law offices through NTBs.

NTBs are the regulations, certifications, licensing rules, and product requirements that goods must meet before entering a market. They include technical regulations, environmental rules, health and safety requirements, packaging standards and testing procedures. Unlike tariffs, which are transparent and easy to measure, these regulatory hurdles operate within the system and exert a far-reaching influence on trade.

NTBs, the quiet trade weapon

Since the establishment of the World Trade Organization (WTO) in 1995, average tariff rates among its members have fallen by nearly half, yet governments have not abandoned protectionism. As tariffs declined, NTBs surged. Today, they affect around 90% of global trade – a sixfold increase over the past three decades.

Anuj Gupta
Managing Director of BowerGroupAsia

Tariffs dominate the headlines, but regulations increasingly determine trade outcomes

The regulatory landscape has expanded just as rapidly. More than half of the 20,000 global product and safety regulations introduced over the past 70 years have emerged since 2000, creating a dense web of overlapping rules that complicates cross-border commerce and raises compliance costs, particularly for smaller exporters. The WTO itself reflects this shift. In 2025 alone, governments submitted over 7,700 notifications of NTBs and health-related trade measures, 10 times more than in 1995.

Among major economies, the European Union (EU) is the most extensive user of these regulatory tools. According to the World Trade Organization and World Bank data, non-tariff measures cover roughly about 94% of imports entering the EU, compared with about 77% in the U.S. and nearly 45% in India. Each major economy deploys these barriers differently. The EU has built the world's most expansive regulatory architecture for trade, with NTBs concentrated in environmental rules, chemical safety regulations, product standards, packaging requirements and climate-related policies such as the Carbon Border Adjustment Mechanism and the EU Deforestation Regulation. These rules are justified as protections, often acting as powerful filters on trade.

The American NTBs are driven by strategic competition, security concerns and technological dominance. Export controls, entity lists and restrictions on semiconductors, AI chips and advanced computing hardware increasingly limit rivals' access to critical technology supply chains. India has traditionally relied more on tariffs, but this is changing. As part of its industrial strategy, New Delhi is expanding quality regulations on imports of electronics, machinery and chemicals to boost domestic manufacturing and reduce dependence on external supply chains.

The Indian experience

India's own FTA record makes the point sharply. The Association of Southeast Asian Nations (ASEAN)-India agreement has been in force since 2010, yet preferential tariff utilisation among Indian businesses remains below 50%, largely because non-tariff barriers (NTBs) make claiming these benefits commercially impractical. Indonesian registration requirements restrict Indian pharmaceutical exports, while Thai customs procedures force gems and jewellery exporters to reroute shipments through Hong Kong. Tariffs have fallen, but trade barriers remain.

Japan and South Korea tell a similar story. Despite an FTA with Japan since 2011, Indian pharmaceutical exports remain negligible because market approvals can take five to seven years and Japan has resisted recognising international testing standards. With South Korea, bilateral trade reached $27 billion in 2024-25, but India accounted for only $6.5 billion. Overall, India's FTA utilisation rate is about 25%, compared with 70%-80% for developed economies. The agreements existed on paper; the barriers remained in practice.

The next frontier of trade

This does not mean abandoning legitimate environmental or consumer protections, but regulatory systems must be transparent and proportionate. Otherwise, they risk fragmenting global markets at precisely the moment when supply chains are being re-organised.

India's newer agreements signal a genuine shift. The United Arab Emirates Comprehensive Economic Partnership Agreement explicitly mandates automatic recognition of medicines approved by major global regulators, and requires mutual acceptance of laboratory testing that eliminates duplicate compliance costs. The India-European Free Trade Association Trade and Economic Partnership Agreement, in force since October 2025, goes further with mutual recognition of standards, streamlined conformity assessment, and a dedicated sub-committee mandated to address NTBs on an ongoing basis. For the first time, NTB reduction is a legally binding obligation.

The politics of trade still talks about tariffs. The economics of trade has already moved on. In the 21st century, the real barriers are regulatory. If the West wants a serious economic pivot to the east, addressing those barriers will matter far more than cutting tariffs ever did.

The views expressed are personal

19J6. The real barriers to trade are no longer tariffs
व्यापार में वास्तविक बाधाएँ अब शुल्क (टैरिफ) नहीं रह गई हैं

- Recently, the CEO of a large multinational called to ask whether the upcoming visit of the **United States Trade Representative** to India could result in tariff rates returning to around 18% or settling at a different level.
  हाल ही में एक बड़ी बहुराष्ट्रीय कंपनी के मुख्य कार्यकारी अधिकारी ने यह पूछने के लिए संपर्क किया कि **संयुक्त राज्य अमेरिका के व्यापार प्रतिनिधि** की भारत यात्रा के परिणामस्वरूप क्या शुल्क दरें पुनः लगभग 18% तक लौट सकती हैं या किसी अन्य स्तर पर स्थिर हो सकती हैं।
- The **U.S. reciprocal rate cut to 18%**.
  संयुक्त राज्य अमेरिका ने पारस्परिक शुल्क दर को 18% तक घटा दिया।
- But the White House fact sheet buried the more consequential admission — that both sides needed to negotiate the removal of **non-tariff barriers**.
  किन्तु व्हाइट हाउस के तथ्य-पत्र में एक अधिक महत्वपूर्ण स्वीकारोक्ति छिपी हुई थी — कि दोनों पक्षों को **गैर-शुल्कीय बाधाओं** को हटाने के लिए वार्ता करनी होगी।
- The U.S. deploys its own formidable non-tariff barriers arsenal while India has its quality regulations.
  संयुक्त राज्य अमेरिका अपनी शक्तिशाली गैर-शुल्कीय बाधाओं का उपयोग करता है, जबकि भारत के पास अपने गुणवत्ता संबंधी विनियम हैं।
- The tariff headline was the press release.
  शुल्क संबंधी घोषणा केवल समाचार शीर्षक थी।

Website : patrioticias.in

- The real obstacles are faced in the laboratory and the law offices through NTBs.
  वास्तविक बाधाएँ प्रयोगशालाओं और विधिक संस्थानों में **गैर-शुल्कीय बाधाओं** के रूप में सामने आती हैं।
- NTBs are the regulations, certifications, licensing rules, and product requirements that goods must meet before entering a market.
  गैर-शुल्कीय बाधाएँ वे विनियम, प्रमाणन, अनुज्ञप्ति संबंधी नियम और उत्पाद आवश्यकताएँ हैं जिन्हें किसी बाजार में प्रवेश से पहले वस्तुओं को पूरा करना पड़ता है।
- They include technical regulations, environmental rules, health and safety requirements, packaging standards and testing procedures.
  इनमें तकनीकी विनियम, पर्यावरणीय नियम, स्वास्थ्य एवं सुरक्षा आवश्यकताएँ, पैकेजिंग मानक तथा परीक्षण प्रक्रियाएँ शामिल हैं।
- Unlike tariffs, which are transparent and easy to measure, these regulatory hurdles operate within the system and exert a far-reaching influence on trade.
  शुल्कों के विपरीत, जो पारदर्शी और आसानी से मापे जा सकते हैं, ये नियामकीय बाधाएँ व्यवस्था के भीतर कार्य करती हैं और व्यापार पर व्यापक प्रभाव डालती हैं।

NTBs, the quiet trade weapon
गैर-शुल्कीय बाधाएँ : व्यापार का मौन हथियार

- Since the establishment of the **World Trade Organization (WTO) in 1995**, average tariff rates among its members have fallen by nearly half, yet governments have not abandoned protectionism.
  1995 में **विश्व व्यापार संगठन** की स्थापना के बाद से इसके सदस्य देशों के बीच औसत शुल्क दरें लगभग आधी हो गई हैं, फिर भी सरकारों ने संरक्षणवाद का परित्याग नहीं किया है।
- As tariffs declined, NTBs surged.
  जैसे-जैसे शुल्क दरें घटीं, गैर-शुल्कीय बाधाएँ बढ़ती गईं।
- Today, they affect around 90% of global trade — a sixfold increase over the past three decades.
  आज वे वैश्विक व्यापार के लगभग 90% हिस्से को प्रभावित करती हैं, जो पिछले तीन दशकों में छह गुना वृद्धि को दर्शाता है।
- The regulatory landscape has expanded just as rapidly.
  नियामकीय परिदृश्य भी उतनी ही तीव्र गति से विस्तृत हुआ है।
- More than half of the 20,000 global product and safety regulations introduced over the past 70 years have emerged since 2000, creating a dense web of overlapping rules that complicates cross-border commerce and raises compliance costs, particularly for smaller exporters.
  पिछले 70 वर्षों में लागू किए गए 20,000 वैश्विक उत्पाद एवं सुरक्षा विनियमों में से आधे से अधिक वर्ष 2000 के बाद अस्तित्व में आए हैं, जिससे परस्पर जुड़े नियमों का एक जटिल जाल निर्मित हो गया है जो सीमा-पार व्यापार को कठिन बनाता है तथा विशेष रूप से छोटे निर्यातकों के लिए अनुपालन लागत बढ़ाता है।
- The WTO itself reflects this shift.
  विश्व व्यापार संगठन स्वयं भी इस परिवर्तन को दर्शाता है।
- **In 2025 alone, governments submitted over 7,700 notifications of NTBs and health-related trade measures, 10 times more than in 1995.**
  केवल 2025 में ही सरकारों ने गैर-शुल्कीय बाधाओं और स्वास्थ्य-संबंधी व्यापार उपायों से संबंधित 7,700 से अधिक अधिसूचनाएँ प्रस्तुत कीं, जो 1995 की तुलना में दस गुना अधिक हैं।
- Among major economies, the European Union (EU) is the most extensive user of these regulatory tools.
  प्रमुख अर्थव्यवस्थाओं में **यूरोपीय संघ** इन नियामकीय उपकरणों का सबसे व्यापक उपयोगकर्ता है।
- According to the World Trade Organization and World Bank data, non-tariff measures cover roughly about 94% of imports entering the EU, compared with about 77% in the U.S. and nearly 45% in India.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur

Website : patrioticias.in

विश्व व्यापार संगठन और विश्व बैंक के आँकड़ों के अनुसार, यूरोपीय संघ में प्रवेश करने वाले लगभग 94% आयात गैर-शुल्कीय उपायों के अंतर्गत आते हैं, जबकि संयुक्त राज्य अमेरिका में यह लगभग 77% और भारत में लगभग 45% है।

- Each major economy deploys these barriers differently.
  प्रत्येक प्रमुख अर्थव्यवस्था इन बाधाओं का उपयोग अलग-अलग तरीके से करती है।
- The EU has built the world's most expansive regulatory architecture for trade, with NTBs concentrated in environmental rules, chemical safety regulations, product standards, packaging requirements and climate-related policies such as the Carbon Border Adjustment Mechanism and the EU Deforestation Regulation.
  यूरोपीय संघ ने व्यापार के लिए विश्व की सबसे व्यापक नियामकीय संरचना विकसित की है, जिसमें गैर-शुल्कीय बाधाएँ पर्यावरणीय नियमों, रासायनिक सुरक्षा विनियमों, उत्पाद मानकों, पैकेजिंग आवश्यकताओं तथा कार्बन सीमा समायोजन तंत्र और वन-विनाश नियंत्रण संबंधी विनियम जैसी जलवायु-संबंधी नीतियों पर केंद्रित हैं।
- The American NTBs are driven by strategic competition, security concerns and technological dominance.
  अमेरिकी गैर-शुल्कीय बाधाएँ रणनीतिक प्रतिस्पर्धा, सुरक्षा चिंताओं और प्रौद्योगिकीय प्रभुत्व से प्रेरित हैं।
- Export controls, entity lists and restrictions on semiconductors, AI chips and advanced computing hardware increasingly limit rivals' access to critical technology supply chains.
  निर्यात नियंत्रण, संस्थागत प्रतिबंध सूचियाँ तथा अर्धचालकों, कृत्रिम बुद्धिमत्ता आधारित चिपों और उन्नत संगणन उपकरणों पर प्रतिबंध प्रतिद्वंद्वियों की महत्वपूर्ण प्रौद्योगिकी आपूर्ति शृंखलाओं तक पहुँच को लगातार सीमित कर रहे हैं।
- India has traditionally relied more on tariffs, but this is changing.
  भारत पारंपरिक रूप से शुल्कों पर अधिक निर्भर रहा है, किन्तु अब यह स्थिति बदल रही है।

The Indian experience
भारतीय अनुभव

- The **Association of Southeast Asian Nations (ASEAN)-India agreement** has been in force since 2010, yet preferential tariff utilisation among Indian businesses remains below 50%, largely because **non-tariff barriers** make claiming these benefits commercially impractical.
  दक्षिण-पूर्व एशियाई राष्ट्रों के संगठन-भारत समझौता वर्ष 2010 से लागू है, फिर भी भारतीय व्यवसायों द्वारा अधिमान्य शुल्क लाभों का उपयोग 50% से कम बना हुआ है, मुख्यतः इसलिए क्योंकि **गैर-शुल्कीय बाधाएँ** इन लाभों का व्यावसायिक उपयोग कठिन बना देती हैं।
- Overall, India's **FTA utilisation rate** is about 25%, compared with 70%-80% for developed economies.
  समग्र रूप से भारत की **मुक्त व्यापार समझौता उपयोग दर** लगभग 25% है, जबकि विकसित अर्थव्यवस्थाओं में यह 70% से 80% के बीच है।
- The agreements existed on paper; the barriers remained in practice.
  समझौते कागज़ों पर मौजूद थे, किन्तु व्यवहार में बाधाएँ बनी रहीं।

The next frontier of trade
व्यापार की अगली सीमा

- The **United Arab Emirates Comprehensive Economic Partnership Agreement** explicitly mandates automatic recognition of medicines approved by major global regulators, and requires mutual acceptance of laboratory testing that eliminates duplicate compliance costs.
  संयुक्त अरब अमीरात के साथ व्यापक आर्थिक भागीदारी समझौता प्रमुख वैश्विक नियामकों द्वारा स्वीकृत

औषधियों की स्वतः मान्यता का स्पष्ट प्रावधान करता है तथा प्रयोगशाला परीक्षणों की पारस्परिक स्वीकृति को अनिवार्य बनाता है, जिससे दोहराई जाने वाली अनुपालन लागत समाप्त होती है।

- The **India-European Free Trade Association Trade and Economic Partnership Agreement**, in force since October 2025, goes further with mutual recognition of standards, streamlined conformity assessment, and a dedicated sub-committee mandated to address **non-tariff barriers** on an ongoing basis.
  भारत-यूरोपीय मुक्त व्यापार संघ व्यापार एवं आर्थिक भागीदारी समझौता, जो अक्टूबर 2025 से लागू है, मानकों की पारस्परिक मान्यता, सरलीकृत अनुरूपता मूल्यांकन तथा **गैर-शुल्कीय बाधाओं** के निरंतर समाधान हेतु समर्पित उपसमिति जैसी व्यवस्थाओं के माध्यम से और आगे बढ़ता है।
- For the first time, **NTB reduction** is a legally binding obligation.
  पहली बार **गैर-शुल्कीय बाधाओं में कमी** एक विधिक रूप से बाध्यकारी दायित्व बनी है।
- The politics of trade still talks about tariffs.
  व्यापार की राजनीति आज भी शुल्कों की चर्चा करती है।
- The economics of trade has already moved on.
  किन्तु व्यापार का अर्थशास्त्र उससे आगे बढ़ चुका है।

Is India producing more graduates than what the economy can absorb?

Rajan Wadhera
Former President, Automotive Sector, Mahindra & Mahindra

O. R. S. Rao
Chancellor, ICFAI University, Sikkim

PARLEY

India is witnessing an unprecedented expansion in higher education. Over the past decade, thousands of new colleges and universities have been established, producing millions of graduates every year. Yet unemployment of the educated remains a growing concern. Nearly one in three graduates are unemployed. Is India producing more graduates than what the economy can absorb? Rajan Wadhera and O.R.S. Rao discuss the question in a conversation moderated by **M. Kalyanaraman**. Edited excerpts:

Is India producing more graduates than the economy can absorb?

O.R.S. Rao: The numbers point to a widening gap between the growth in graduates and the growth in jobs. In engineering alone, the number of graduates has risen sharply over the past few years while job creation has not kept pace. Earlier, the IT services sector was the principal employer of engineering graduates. Today, hiring by IT services firms has slowed considerably, even though sectors such as banking and financial services, manufacturing, defence and space technologies have expanded their recruitment. The challenge is that these new opportunities have not grown fast enough to absorb the increasing number of graduates entering the labour market.

A second issue is the nature of investment. Much of the recent investment in sectors such as semiconductors, advanced manufacturing and technology has been capital-intensive rather than labour-intensive. As a result, large investments do not necessarily translate into proportionate job creation.

Has AI made the problem worse?

ORSR: We are in the middle of a major technological transition. AI is changing the nature of work much faster than how educational institutions can adapt. Companies now want graduates who can work with AI systems, validate AI-generated outputs, understand responsible and ethical AI use, and solve complex problems using technology. Four years ago, when many of today's graduates entered college, these skills were not widely discussed. Universities cannot redesign programmes overnight, and students cannot acquire entirely new competencies instantly.

As a result, many graduates are entering a labour market that demands skills different from those they were trained for.

Is employability more important than just job creation?

Keeping up: Candidates who came for a mega job fair at the Government Engineering College in Thrissur in 2025. NAJEEB K.K.

Rajan Wadhera: There is certainly a growing concern about employability, particularly among engineering graduates. The problem is often a mismatch between what is taught and what the industry requires. Students may graduate with strong academic credentials but have limited exposure to laboratories, manufacturing environments, teamwork and real-world problem-solving. When they enter the industry, employers frequently find that they need substantial additional training in order to contribute effectively. Companies run their own training programmes to bridge this gap. This was far less common a few decades ago.

Has manufacturing failed to create enough opportunities?

RW: Manufacturing still has considerable potential, but it too is undergoing profound change. People often focus on the impact of AI on software jobs, but manufacturing is also being transformed by automation, robotics, and Industry 4.0 systems. Historically, a large number of engineers were employed in supervisory and operational roles on factory floors. Today, many of those functions are automated. Digital manufacturing systems require fewer people to oversee production processes. As a result, the number of engineering jobs generated by manufacturing is not increasing at the pace many people expected. Even as factories expand output, they often require fewer workers and supervisors than before.

Does that mean the future is one of permanent jobless growth?

RW: I would not go that far. India's push towards self-reliance in sectors such as defence,

> Students may graduate with strong academic credentials but have limited exposure to laboratories, manufacturing environments, teamwork and real-world problem-solving
> **RAJAN WADHERA**

aerospace and advanced manufacturing is creating new opportunities. There is increasing emphasis on domestic design and product development, and that is encouraging. The challenge is that automation and digitalisation are reducing labour requirements even as industries grow. Therefore, employment growth may not automatically match economic growth. This makes it even more important for educational institutions and industry to work together. Curricula needs to be aligned much more closely with industry requirements.

Has India focused too much on manufacturing and too little on innovation?

ORSR: Over many years, India became increasingly proficient at manufacturing products designed elsewhere; manufacturing alone does not create enough opportunities for highly trained engineers. The real value lies in research, development and design. Countries that control intellectual property and technology create far more opportunities for engineers than countries that simply manufacture products. Recent global developments have reinforced this lesson. Increasing restrictions on access to critical technologies such as semiconductors and strategic components have shown that excessive dependence on external technologies carries risks. India therefore needs to invest much more aggressively in indigenous research, innovation and product development.

Has India made progress in indigenous design capabilities?

RW: It would be incorrect to say that India remains only a manufacturing base. Over the last decade, companies such as Mahindra and Tata Motors have developed significant design and engineering capabilities. Indian engineers today are designing vehicles, platforms, transmissions and other complex systems that would previously have been developed elsewhere. The issue is not whether these capabilities exist. The issue is scale. The number of high-quality engineering graduates being produced is larger than the number of advanced R&D and design roles currently available.

What role should entrepreneurship play?

ORSR: Neither government nor industry can create enough jobs for every graduate. We need more graduates to become creators of enterprises rather than only seekers of employment. One major challenge is access to risk capital. Traditional lenders prefer established businesses and proven revenue streams. Innovation, however, requires investors willing to support ideas at an early stage. India's startup ecosystem has made significant progress, but much more needs to be done to support deep-technology ventures.

What should India focus on in the AI era?

ORSR: India should focus not only on infrastructure but also on products. There is a significant need for sovereign AI as nations with those systems seek to restrict access. Product companies create intellectual property, innovation and high-value employment. The goal should be to develop products not only for India but for global markets. We should identify strategic areas where India can become a global leader. UPI's success demonstrates that India is capable of building world-class digital platforms.

What needs to change in higher education?

ORSR: Industry-academia collaboration must become much deeper. Universities cannot design relevant programmes without industry participation, and industry cannot expect job-ready graduates without contributing to curriculum, internships and skill development.

Looking ahead, what are the priorities?

ORSR: Three priorities stand out. First, India must significantly increase investment in research and development. Second, industry and academia must work together much more closely. Third, we need a stronger entrepreneurship ecosystem that encourages innovation and supports risk-taking.

RW: I would add that India must continue building indigenous capabilities in design, engineering and advanced manufacturing. The opportunities are real, particularly in sectors such as defence and aerospace. The challenge is ensuring that education, industry and policy move in the same direction.

19J6. Is India producing more graduates than what the economy can absorb? क्या भारत अर्थव्यवस्था द्वारा समाहित की जा सकने वाली संख्या से अधिक स्नातक तैयार कर रहा है?

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- In engineering alone, the number of graduates has risen sharply over the past few years while job creation has not kept pace.
  केवल अभियांत्रिकी क्षेत्र में ही पिछले कुछ वर्षों में स्नातकों की संख्या में तीव्र वृद्धि हुई है, जबकि रोजगार सृजन उसी गति से नहीं बढ़ पाया है।
- Earlier, the **IT services sector** was the principal employer of engineering graduates.
  पूर्व में **सूचना प्रौद्योगिकी सेवा क्षेत्र** अभियांत्रिकी स्नातकों का प्रमुख नियोक्ता था।
- Today, hiring by IT services firms has slowed considerably, even though sectors such as banking and financial services, manufacturing, defence and space technologies have expanded their recruitment.
  आज सूचना प्रौद्योगिकी सेवा कंपनियों द्वारा भर्ती में उल्लेखनीय कमी आई है, यद्यपि बैंकिंग एवं वित्तीय सेवाओं, विनिर्माण, रक्षा तथा अंतरिक्ष प्रौद्योगिकी जैसे क्षेत्रों में भर्ती का विस्तार हुआ है।
- The challenge is that these new opportunities have not grown fast enough to absorb the increasing number of graduates entering the labour market.
  चुनौती यह है कि ये नए अवसर श्रम बाजार में प्रवेश करने वाले बढ़ते हुए स्नातकों की संख्या को समाहित करने के लिए पर्याप्त गति से नहीं बढ़े हैं।
- Much of the recent investment in sectors such as semiconductors, advanced manufacturing and technology has been capital-intensive rather than labour-intensive.
  अर्धचालकों, उन्नत विनिर्माण और प्रौद्योगिकी जैसे क्षेत्रों में हाल के अधिकांश निवेश श्रम-प्रधान होने के बजाय पूंजी-प्रधान रहे हैं।

Has AI made the problem worse?
क्या कृत्रिम बुद्धिमत्ता ने समस्या को और गंभीर बना दिया है?

- Companies now want graduates who can work with AI systems, validate AI-generated outputs, understand responsible and ethical AI use, and solve complex problems using technology.
  अब कंपनियाँ ऐसे स्नातक चाहती हैं जो कृत्रिम बुद्धिमत्ता प्रणालियों के साथ कार्य कर सकें, उसके द्वारा उत्पन्न परिणामों का सत्यापन कर सकें, उसके उत्तरदायी एवं नैतिक उपयोग को समझ सकें तथा प्रौद्योगिकी की सहायता से जटिल समस्याओं का समाधान कर सकें।
- Four years ago, when many of today's graduates entered college, these skills were not widely discussed.
  चार वर्ष पूर्व, जब आज के अनेक स्नातकों ने महाविद्यालय में प्रवेश लिया था, तब इन कौशलों पर व्यापक चर्चा नहीं होती थी।
- Universities cannot redesign programmes overnight, and students cannot acquire entirely new competencies instantly.
  विश्वविद्यालय अपने पाठ्यक्रमों को एक ही रात में पुनर्गठित नहीं कर सकते, और छात्र भी तुरंत नए कौशल अर्जित नहीं कर सकते।
- As a result, many graduates are entering a labour market that demands skills different from those they were trained for.
  परिणामस्वरूप, अनेक स्नातक ऐसे श्रम बाजार में प्रवेश कर रहे हैं जो उनसे उन कौशलों की अपेक्षा करता है जिनके लिए उन्हें प्रशिक्षित नहीं किया गया था।

Is employability more important than just job creation?
क्या केवल रोजगार सृजन की तुलना में रोजगार-योग्यता अधिक महत्वपूर्ण है?

- The problem is often a mismatch between what is taught and what the industry requires.
  समस्या प्रायः इस बात से उत्पन्न होती है कि जो पढ़ाया जाता है और उद्योगों को जिस प्रकार के कौशल की आवश्यकता होती है, उनमें असंगति होती है।

- Students may graduate with strong academic credentials but have limited exposure to laboratories, manufacturing environments, teamwork and real-world problem-solving.
  छात्र उत्कृष्ट शैक्षणिक उपलब्धियों के साथ स्नातक हो सकते हैं, किन्तु उन्हें प्रयोगशालाओं, विनिर्माण परिवेश, सामूहिक कार्य तथा वास्तविक जीवन की समस्याओं के समाधान का सीमित अनुभव होता है।
- When they enter the industry, employers frequently find that they need substantial additional training in order to contribute effectively.
  जब वे उद्योगों में प्रवेश करते हैं, तो नियोक्ताओं को प्रायः यह महसूस होता है कि प्रभावी योगदान देने के लिए उन्हें अतिरिक्त प्रशिक्षण की आवश्यकता है।
- Companies run their own training programmes to bridge this gap.
  इस अंतर को पाटने के लिए कंपनियाँ अपने स्वयं के प्रशिक्षण कार्यक्रम संचालित करती हैं।
- This was far less common a few decades ago.
  कुछ दशक पहले यह स्थिति बहुत कम देखने को मिलती थी।

Has manufacturing failed to create enough opportunities?
क्या विनिर्माण क्षेत्र पर्याप्त अवसर सृजित करने में विफल रहा है?

- People often focus on the impact of AI on software jobs, but manufacturing is also being transformed by automation, robotics, and Industry 4.0 systems.
  लोग प्रायः कृत्रिम बुद्धिमत्ता के सॉफ़्टवेयर क्षेत्र की नौकरियों पर पड़ने वाले प्रभाव पर ध्यान केंद्रित करते हैं, किन्तु विनिर्माण क्षेत्र भी स्वचालन, रोबोटिक प्रौद्योगिकी और चौथी औद्योगिक क्रांति आधारित प्रणालियों द्वारा परिवर्तित हो रहा है।
- Digital manufacturing systems require fewer people to oversee production processes.
  डिजिटल विनिर्माण प्रणालियों में उत्पादन प्रक्रियाओं की निगरानी के लिए अपेक्षाकृत कम लोगों की आवश्यकता होती है।
- Even as factories expand output, they often require fewer workers and supervisors than before.
  कारखानों के उत्पादन में वृद्धि होने पर भी उन्हें पहले की तुलना में कम श्रमिकों और पर्यवेक्षकों की आवश्यकता पड़ती है।

Does that mean the future is one of permanent jobless growth?
क्या इसका अर्थ यह है कि भविष्य स्थायी रोजगारविहीन विकास का होगा?

- **RW:** I would not go that far.
  राजन वाधेरा: मैं इतना आगे नहीं जाऊँगा।
- India's push towards self-reliance in sectors such as defence, aerospace and advanced manufacturing is creating new opportunities.
  रक्षा, वैमानिकी तथा उन्नत विनिर्माण जैसे क्षेत्रों में भारत का आत्मनिर्भरता की ओर बढ़ता प्रयास नए अवसरों का सृजन कर रहा है।
- There is increasing emphasis on domestic design and product development, and that is encouraging.
  घरेलू अभिकल्पना और उत्पाद विकास पर बढ़ता हुआ जोर उत्साहवर्धक है।
- The challenge is that automation and digitalisation are reducing labour requirements even as industries grow.
  चुनौती यह है कि उद्योगों के विस्तार के साथ-साथ स्वचालन और डिजिटलीकरण श्रम की आवश्यकता को कम कर रहे हैं।
- Therefore, employment growth may not automatically match economic growth.
  इसलिए रोजगार वृद्धि स्वतः ही आर्थिक वृद्धि के समान गति से नहीं हो सकती।
- This makes it even more important for educational institutions and industry to work together.
  इससे शैक्षणिक संस्थानों और उद्योगों के बीच सहयोग और अधिक महत्वपूर्ण हो जाता है।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- Curricula needs to be aligned much more closely with industry requirements.
  पाठ्यक्रमों को उद्योगों की आवश्यकताओं के साथ कहीं अधिक निकटता से समन्वित किया जाना चाहिए।

Has India focused too much on manufacturing and too little on innovation?
क्या भारत ने विनिर्माण पर अत्यधिक और नवाचार पर बहुत कम ध्यान दिया है?

- **ORSR:** Over many years, India became increasingly proficient at manufacturing products designed elsewhere; manufacturing alone does not create enough opportunities for highly trained engineers.
  ओ.आर.एस. राव: अनेक वर्षों में भारत उन उत्पादों के निर्माण में अधिक दक्ष हो गया जिनकी अभिकल्पना अन्य देशों में की गई थी; केवल विनिर्माण अत्यधिक प्रशिक्षित अभियंताओं के लिए पर्याप्त अवसर उत्पन्न नहीं करता।
- The real value lies in research, development and design.
  वास्तविक मूल्य अनुसंधान, विकास और अभिकल्पना में निहित है।
- Countries that control intellectual property and technology create far more opportunities for engineers than countries that simply manufacture products.
  जो देश बौद्धिक संपदा और प्रौद्योगिकी पर नियंत्रण रखते हैं, वे केवल उत्पाद निर्माण करने वाले देशों की तुलना में अभियंताओं के लिए कहीं अधिक अवसर सृजित करते हैं।
- Recent global developments have reinforced this lesson.
  हाल की वैश्विक घटनाओं ने इस तथ्य को और अधिक स्पष्ट किया है।
- Increasing restrictions on access to critical technologies such as semiconductors and strategic components have shown that excessive dependence on external technologies carries risks.
  अर्धचालकों और रणनीतिक घटकों जैसी महत्वपूर्ण प्रौद्योगिकियों तक पहुँच पर बढ़ते प्रतिबंधों ने यह दर्शाया है कि बाहरी प्रौद्योगिकियों पर अत्यधिक निर्भरता जोखिमपूर्ण है।
- India therefore needs to invest much more aggressively in indigenous research, innovation and product development.
  अतः भारत को स्वदेशी अनुसंधान, नवाचार और उत्पाद विकास में कहीं अधिक आक्रामक रूप से निवेश करने की आवश्यकता है।

Has India made progress in indigenous design capabilities?
क्या भारत ने स्वदेशी अभिकल्पना क्षमताओं में प्रगति की है?

- **RW:** It would be incorrect to say that India remains only a manufacturing base.
  राजन वाधेरा: यह कहना गलत होगा कि भारत केवल एक विनिर्माण केंद्र बनकर रह गया है।
- Over the last decade, companies such as Mahindra and Tata Motors have developed significant design and engineering capabilities.
  पिछले एक दशक में महिंद्रा और टाटा मोटर्स जैसी कंपनियों ने महत्वपूर्ण अभिकल्पना और अभियांत्रिकी क्षमताएँ विकसित की हैं।
- Indian engineers today are designing vehicles, platforms, transmissions and other complex systems that would previously have been developed elsewhere.
  आज भारतीय अभियंता वाहनों, संरचनात्मक मंचों, शक्ति-संचरण प्रणालियों तथा अन्य जटिल प्रणालियों की अभिकल्पना कर रहे हैं, जिन्हें पहले अन्य देशों में विकसित किया जाता था।
- The issue is not whether these capabilities exist.
  प्रश्न यह नहीं है कि ये क्षमताएँ मौजूद हैं या नहीं।
- The issue is scale.
  वास्तविक प्रश्न इनके विस्तार का है।
- The number of high-quality engineering graduates being produced is larger than the number of advanced R&D and design roles currently available.

उच्च गुणवत्ता वाले अभियांत्रिकी स्नातकों की संख्या वर्तमान में उपलब्ध उन्नत अनुसंधान, विकास और अभिकल्पना संबंधी पदों की संख्या से अधिक है।

What role should entrepreneurship play?
उद्यमिता की क्या भूमिका होनी चाहिए?

- **ORSR:** Neither government nor industry can create enough jobs for every graduate.
  ओ.आर.एस. राव: न तो सरकार और न ही उद्योग प्रत्येक स्नातक के लिए पर्याप्त रोजगार सृजित कर सकते हैं।
- We need more graduates to become creators of enterprises rather than only seekers of employment.
  हमें अधिक से अधिक स्नातकों को केवल रोजगार खोजने वाला नहीं, बल्कि उद्यमों का सृजनकर्ता बनने के लिए प्रोत्साहित करना होगा।
- One major challenge is access to risk capital.
  एक प्रमुख चुनौती जोखिम पूंजी तक पहुँच की है।
- Traditional lenders prefer established businesses and proven revenue streams.
  पारंपरिक ऋणदाता स्थापित व्यवसायों और प्रमाणित आय स्रोतों को प्राथमिकता देते हैं।
- Innovation, however, requires investors willing to support ideas at an early stage.
  किन्तु नवाचार के लिए ऐसे निवेशकों की आवश्यकता होती है जो प्रारम्भिक चरण में ही नए विचारों का समर्थन करने को तैयार हों।
- India's startup ecosystem has made significant progress, but much more needs to be done to support deep-technology ventures.
  भारत के नवउद्यम पारितंत्र ने उल्लेखनीय प्रगति की है, किन्तु गहन प्रौद्योगिकी आधारित उपक्रमों को समर्थन देने के लिए अभी बहुत कुछ किया जाना शेष है।

What should India focus on in the AI era?
कृत्रिम बुद्धिमत्ता के युग में भारत को किस पर ध्यान केंद्रित करना चाहिए?

- **ORSR:** India should focus not only on infrastructure but also on products.
  ओ.आर.एस. राव: भारत को केवल अवसंरचना पर ही नहीं, बल्कि उत्पादों के विकास पर भी ध्यान केंद्रित करना चाहिए।
- There is a significant need for sovereign AI as nations with those systems seek to restrict access.
  संप्रभु कृत्रिम बुद्धिमत्ता प्रणालियों की अत्यधिक आवश्यकता है, क्योंकि जिन देशों के पास ऐसी प्रणालियाँ हैं वे उन तक पहुँच को सीमित करने का प्रयास कर रहे हैं।
- Product companies create intellectual property, innovation and high-value employment.
  उत्पाद आधारित कंपनियाँ बौद्धिक संपदा, नवाचार और उच्च-मूल्य वाले रोजगार का सृजन करती हैं।
- The goal should be to develop products not only for India but for global markets.
  लक्ष्य केवल भारत के लिए ही नहीं, बल्कि वैश्विक बाजारों के लिए भी उत्पाद विकसित करना होना चाहिए।
- We should identify strategic areas where India can become a global leader.
  हमें उन रणनीतिक क्षेत्रों की पहचान करनी चाहिए जहाँ भारत वैश्विक नेतृत्वकर्ता बन सकता है।
- UPI's success demonstrates that India is capable of building world-class digital platforms.
  एकीकृत भुगतान प्रणाली की सफलता यह प्रदर्शित करती है कि भारत विश्वस्तरीय डिजिटल मंच विकसित करने में सक्षम है।

What needs to change in higher education?
उच्च शिक्षा में क्या परिवर्तन आवश्यक हैं?

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur

- **ORSR:** Industry-academia collaboration must become much deeper.
  ओ.आर.एस. राव: उद्योग और शिक्षाजगत के बीच सहयोग कहीं अधिक गहरा होना चाहिए।
- Universities cannot design relevant programmes without industry participation, and industry cannot expect job-ready graduates without contributing to curriculum, internships and skill development.
  उद्योग की सहभागिता के बिना विश्वविद्यालय प्रासंगिक पाठ्यक्रम तैयार नहीं कर सकते, और उद्योग भी पाठ्यक्रम निर्माण, प्रशिक्षण-अवधि तथा कौशल विकास में योगदान दिए बिना रोजगार-योग्य स्नातकों की अपेक्षा नहीं कर सकता।

Looking ahead, what are the priorities?
भविष्य की दृष्टि से प्राथमिकताएँ क्या हैं?

- **ORSR:** Three priorities stand out.
  ओ.आर.एस. राव: तीन प्राथमिकताएँ विशेष रूप से महत्वपूर्ण हैं।
- First, India must significantly increase investment in research and development.
  प्रथम, भारत को अनुसंधान और विकास में निवेश को उल्लेखनीय रूप से बढ़ाना होगा।
- Second, industry and academia must work together much more closely.
  द्वितीय, उद्योग और शिक्षाजगत को कहीं अधिक निकटता से मिलकर कार्य करना होगा।
- Third, we need a stronger entrepreneurship ecosystem that encourages innovation and supports risk-taking.
  तृतीय, हमें ऐसा अधिक सशक्त उद्यमिता पारितंत्र विकसित करना होगा जो नवाचार को प्रोत्साहित करे और जोखिम उठाने का समर्थन करे।
- **RW:** I would add that India must continue building indigenous capabilities in design, engineering and advanced manufacturing.
  राजन वाधेरा: मैं यह भी जोड़ना चाहूँगा कि भारत को अभिकल्पना, अभियांत्रिकी और उन्नत विनिर्माण में अपनी स्वदेशी क्षमताओं का निरंतर विकास करना चाहिए।
- The opportunities are real, particularly in sectors such as defence and aerospace.
  अवसर वास्तव में उपलब्ध हैं, विशेषकर रक्षा और वैमानिकी जैसे क्षेत्रों में।
- The challenge is ensuring that education, industry and policy move in the same direction.
  चुनौती यह सुनिश्चित करने की है कि शिक्षा, उद्योग और नीतियाँ एक ही दिशा में आगे बढ़ें।

Industrial Revolution	Key Feature
Industry 1.0	Mechanization using steam power
Industry 2.0	Mass production using electricity
Industry 3.0	Automation using computers and electronics
Industry 4.0	Smart, connected, data-driven systems

Revised pact with U.K. could save $500 million for Indians

The agreement on social security, effective July 15, will save Indian firms and workers there about $500 million worth of social security payments they otherwise would have had to pay in the U.K.

GS III: Economy

T.C.A. Sharad Raghavan
NEW DELHI

The agreement on social security that India and the U.K. have signed and that will come into force on July 15 will save Indian companies and workers there about $500 million worth of social security payments that they otherwise would have had to pay in the U.K., according to sources in the Ministry of Commerce and Industry.

The original Agreement on Social Security, also referred to as the Double Contribution Convention (DCC), was signed in July 2025. It exempted companies in the U.K. from paying social security for the temporary Indian workers they employed for a period of three years, as long as they paid social security in India during that period.

On Wednesday, both governments announced that the DCC would come into effect on July 15 along with the Comprehensive Economic and Trade Agreement (CETA) between India and the U.K.

As per the revised agreement, the social security exemption limit has now been increased to five years, which will cover about 90-95% of the Indian workers in the U.K. and stands to significantly reduce costs for Indian companies operating in the U.K. "We have more than 75,000 workers from India working in the U.K. and there are more than 900 Indian companies that are at present operational in the U.K.," a Commerce Ministry official explained on condition of anonymity since the matter is confidential until July 15.

Shot in the arm: There are more than 900 Indian companies at present operational in the U.K., an official said. GETTY IMAGES/ISTOCK

"On the basis of their minimum salary levels, the savings to Indian companies in the U.K. employing temporary Indian workers will come to more than half a billion dollars," the official added.

Imbalances rectified

The issue that had arisen was that, in the absence of a DCC, companies employing Indian workers had to pay social security for these workers in India as well as in the U.K. Most of these workers were in the U.K. for up to a period of five years. However, the benefits from social security in the U.K. accrue only after 10 consecutive years of contribution.

"This meant that most of the Indian workers there were paying double social security, and also were not able to get any benefit from the U.K. social security system," the official added. "Now, with the exemption increased from three to five years, this covers about 90-95% of the temporary Indian workers in the U.K."

Companies will need to obtain a certificate from the Indian government confirming that social security was being paid here, which they can submit to the U.K. government in order to avail of the exemption.

The CETA was also signed in July last year and was supposed to be implemented by early May 2026.

However, a fresh U.K. regulation on steel import tariffs temporarily – which had not been part of the CETA negotiations – brought the trade deal proceedings to a halt as both countries scrambled to find a solution without having to redo the CETA itself.

"If you look at this steel measure in detail, 85% of our steel exports to the U.K. was out of this," a second official explained. "Out of about $890 million of steel export that we do to the U.K., only $137 million was getting affected."

"We have arrived at a deal on this steel measure, which has taken care of our concerns," they added. "It was finalised only yesterday afternoon [hours before the deal was announced]. India will not lose any market access, and will have a decent market access in the affected portions. We are satisfied with the overall deal. We are happy that our concerns on steel have been addressed."

The two officials would not reveal details of what concessions India has obtained regarding the steel tariffs as the matter was still extremely sensitive for the U.K., which was still negotiating with other countries on the matter.

However, they said that the leeway granted to India would be in the form of a mix of country-specific quotas, residual quotas and access under authorised-use schemes.

The details will be available on July 1, when the U.K.'s tariffs come into effect.

19J6. Revised pact with U.K. could save $500 million for Indians
यू.के. के साथ संशोधित समझौता भारतीयों के लिए 500 मिलियन डॉलर की बचत कर सकता है

- The agreement on **social security**, effective **July 15**, will save Indian firms and workers there about **$500 million** worth of social security payments they otherwise would have had to pay in the **U.K.**
  15 जुलाई से प्रभावी होने वाला **सामाजिक सुरक्षा** समझौता भारतीय कंपनियों और वहां कार्यरत भारतीय श्रमिकों को लगभग **500 मिलियन डॉलर** के सामाजिक सुरक्षा भुगतान से बचाएगा, जो उन्हें अन्यथा **यू.के.** में चुकाने पड़ते।
- The agreement on social security that **India** and the **U.K.** have signed and that will come into force on **July 15** will save Indian companies and workers there about **$500 million** worth of social security payments that they otherwise would have had to pay in the U.K., according to sources in the **Ministry of Commerce and Industry**.
  भारत और **यू.के.** द्वारा हस्ताक्षरित सामाजिक सुरक्षा समझौता, जो **15 जुलाई** से लागू होगा, भारतीय कंपनियों और वहां कार्यरत भारतीयों को लगभग **500 मिलियन डॉलर** के सामाजिक सुरक्षा भुगतान से बचाएगा, जो अन्यथा उन्हें यू.के. में देना पड़ता, ऐसा **वाणिज्य एवं उद्योग मंत्रालय** के सूत्रों ने बताया।
- The original **Agreement on Social Security**, also referred to as the **Double Contribution Convention (DCC)**, was signed in **July 2025**.
  मूल **सामाजिक सुरक्षा समझौता**, जिसे **डबल कंट्रीब्यूशन कन्वेंशन (DCC)** भी कहा जाता है, **जुलाई 2025** में हस्ताक्षरित किया गया था।
- It exempted companies in the U.K. from paying social security for the temporary Indian workers they employed for a period of three years, as long as they paid social security in India during that period.
  इस समझौते के तहत यू.के. की कंपनियों को तीन वर्ष की अवधि तक कार्यरत अस्थायी भारतीय कर्मचारियों के लिए सामाजिक सुरक्षा भुगतान से छूट दी गई थी, बशर्ते उस अवधि में भारत में सामाजिक सुरक्षा का भुगतान किया जा रहा हो।
- On Wednesday, both governments announced that the **DCC** would come into effect on **July 15** along with the **Comprehensive Economic and Trade Agreement (CETA)** between India and the U.K.
  बुधवार को दोनों सरकारों ने घोषणा की कि **DCC** और भारत-यू.के. के बीच **व्यापक आर्थिक एवं व्यापार समझौता (CETA) 15 जुलाई** से लागू होंगे।
- As per the revised agreement, the social security exemption limit has now been increased to **five years**, which will cover about **90-95%** of the Indian workers in the U.K. and stands to significantly reduce costs for Indian companies operating in the U.K.
  संशोधित समझौते के अनुसार सामाजिक सुरक्षा छूट की सीमा अब **पांच वर्ष** कर दी गई है, जिससे यू.के. में कार्यरत लगभग **90-95%** भारतीय श्रमिकों को लाभ मिलेगा और वहां कार्यरत भारतीय कंपनियों की लागत में उल्लेखनीय कमी आएगी।
- "We have more than **75,000 workers** from India working in the U.K. and there are more than **900 Indian companies** that are at present operational in the U.K.," a Commerce Ministry official explained on condition of anonymity since the matter is confidential until July 15.
  "यू.के. में भारत के **75,000 से अधिक श्रमिक** कार्यरत हैं और वहां वर्तमान में **900 से अधिक भारतीय कंपनियां** संचालित हो रही हैं," वाणिज्य मंत्रालय के एक अधिकारी ने नाम न बताने की शर्त पर कहा क्योंकि मामला 15 जुलाई तक गोपनीय है।
- "On the basis of their minimum salary levels, the savings to Indian companies in the U.K. employing temporary Indian workers will come to more than **half a billion dollars**," the official

added.
अधिकारी ने कहा, "न्यूनतम वेतन स्तरों के आधार पर अस्थायी भारतीय कर्मचारियों को नियुक्त करने वाली भारतीय कंपनियों की बचत **आधे अरब डॉलर से अधिक** होगी।"

Imbalances rectified
असंतुलन दूर किए गए

- The issue that had arisen was that, in the absence of a **DCC**, companies employing Indian workers had to pay social security for these workers in India as well as in the U.K.
समस्या यह थी कि **DCC** के अभाव में भारतीय कर्मचारियों को नियुक्त करने वाली कंपनियों को भारत और यू.के. दोनों जगह सामाजिक सुरक्षा का भुगतान करना पड़ता था।
- Most of these workers were in the U.K. for up to a period of **five years**.
इनमें से अधिकांश कर्मचारी यू.के. में अधिकतम **पांच वर्षों** तक रहते थे।
- However, the benefits from social security in the U.K. accrue only after **10 consecutive years** of contribution.
हालांकि यू.के. में सामाजिक सुरक्षा के लाभ केवल **लगातार 10 वर्षों** तक योगदान देने के बाद प्राप्त होते हैं।
- "This meant that most of the Indian workers there were paying double social security, and also were not able to get any benefit from the U.K. social security system," the official added.
अधिकारी ने कहा, "इसका अर्थ यह था कि अधिकांश भारतीय कर्मचारी दोहरी सामाजिक सुरक्षा का भुगतान कर रहे थे और फिर भी यू.के. की सामाजिक सुरक्षा प्रणाली से कोई लाभ प्राप्त नहीं कर पा रहे थे।"
- "Now, with the exemption increased from three to five years, this covers about **90-95%** of the temporary Indian workers in the U.K."
"अब छूट अवधि को तीन से बढ़ाकर पांच वर्ष करने से यू.के. में कार्यरत लगभग **90-95%** अस्थायी भारतीय कर्मचारी इसके दायरे में आ जाएंगे।"
- Companies will need to obtain a **certificate** from the Indian government confirming that social security was being paid here, which they can submit to the U.K. government in order to avail of the exemption.
कंपनियों को भारत सरकार से एक **प्रमाणपत्र** प्राप्त करना होगा, जो यह पुष्टि करेगा कि सामाजिक सुरक्षा का भुगतान भारत में किया जा रहा है, और इसे छूट प्राप्त करने के लिए यू.के. सरकार को प्रस्तुत किया जा सकेगा।
- The **CETA** was also signed in July last year and was supposed to be implemented by early **May 2026**.
CETA पर भी पिछले वर्ष जुलाई में हस्ताक्षर हुए थे और इसे **मई 2026** की शुरुआत तक लागू किया जाना था।
- However, a fresh U.K. regulation on **steel import tariffs** temporarily — which had not been part of the CETA negotiations — brought the trade deal proceedings to a halt as both countries scrambled to find a solution without having to redo the CETA itself.
हालांकि **इस्पात आयात शुल्क** से संबंधित यू.के. के एक नए नियम, जो CETA वार्ताओं का हिस्सा नहीं था, ने अस्थायी रूप से व्यापार समझौते की प्रक्रिया को रोक दिया क्योंकि दोनों देश CETA में बदलाव किए बिना समाधान खोजने में जुट गए।
- "If you look at this steel measure in detail, **85%** of our steel exports to the U.K. was out of this," a second official explained.
एक दूसरे अधिकारी ने कहा, "यदि इस इस्पात उपाय को विस्तार से देखें, तो यू.के. को होने वाले हमारे **85%** इस्पात निर्यात इससे बाहर थे।"
- "Out of about **$890 million** of steel export that we do to the U.K., only **$137 million** was getting affected."
"यू.के. को होने वाले लगभग **890 मिलियन डॉलर** के इस्पात निर्यात में से केवल **137 मिलियन डॉलर** प्रभावित हो रहे थे।"
- "We have arrived at a deal on this steel measure, which has taken care of our concerns," they added.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

उन्होंने कहा, "हम इस इस्पात उपाय पर एक समझौते पर पहुंच गए हैं, जिसने हमारी चिंताओं का समाधान कर दिया है।"

- "It was finalised only yesterday afternoon [hours before the deal was announced]. India will not lose any market access, and will have a decent market access in the affected portions. We are satisfied with the overall deal. We are happy that our concerns on steel have been addressed."
"इसे कल दोपहर ही अंतिम रूप दिया गया था। भारत किसी भी बाजार पहुंच को नहीं खोएगा और प्रभावित क्षेत्रों में भी पर्याप्त बाजार पहुंच बनाए रखेगा। हम इस समग्र समझौते से संतुष्ट हैं। हमें खुशी है कि इस्पात संबंधी हमारी चिंताओं का समाधान कर दिया गया है।"
- The two officials would not reveal details of what concessions India has obtained regarding the steel tariffs as the matter was still extremely sensitive for the U.K., which was still negotiating with other countries on the matter.
दोनों अधिकारियों ने इस्पात शुल्क पर भारत को मिली रियायतों का विवरण बताने से इनकार कर दिया क्योंकि यह विषय अभी भी यू.के. के लिए अत्यंत संवेदनशील है और वह इस मामले पर अन्य देशों से भी बातचीत कर रहा है।
- However, they said that the leeway granted to India would be in the form of a mix of **country-specific quotas**, **residual quotas** and access under **authorised-use schemes**.
हालांकि उन्होंने कहा कि भारत को दी गई छूट **देश-विशिष्ट कोटा**, **अवशिष्ट कोटा** तथा **अधिकृत उपयोग योजनाओं** के तहत पहुंच के मिश्रण के रूप में होगी।
- The details will be available on **July 1**, when the U.K.'s tariffs come into effect.
इन प्रावधानों का विवरण **1 जुलाई** को उपलब्ध होगा, जब यू.के. के शुल्क लागू होंगे।

Iron ore sees a bright future, but green steel industry fades

Higher exports: India exported 28.62 MT of iron ore in 2025 against imports of 13.87 MT. K.R. DEEPAK

GS III: Economy

Reuters
SINGAPORE

The most persistently bullish part of the commodities sector in recent years has been metals associated with the energy transition, such as copper, lithium and rare earth elements.

Iron ore miners want their product to be added to the list.

Strong demand growth for steel in South and Southeast Asia will keep demand for the raw material robust, and more than outweigh declining production in China and the Western world. That was the consensus view at this week's industry gathering in Singapore.

However, the optimism of iron ore miners wasn't replicated by advocates of decarbonising the industry, with a shift away from seeing green steel as the great hope due to the bitter realisation that it will be enormously costly.

Governments currently lack the will to legislate, regulate and incentivise a switch from making steel with coal to using renewable energies. The bullish mood in iron ore is largely built around forecasts that India will increase its steel production from around 168 million metric tons a year currently to around 400 million tons by 2035.

India is a small net exporter of iron ore, with exports of28.62 million tons in 2025 balanced against imports of 13.87 million tons, according to data compiled by commodity analysts Kpler.

If India does more than double steel production in the next10 years, it would almost certainly have to boost imports, as its domestic industry would be unable to mine sufficient quantities of ore with high enough iron content to be economically viable.

There is also optimism that Southeast Asian countries such as Vietnam, Indonesia and Thailand will build more steel capacity as their economies continue to industrialise, and these will largely depend on imported iron ore.

Rio Tinto Chief Commercial Officer Bold Baatar told the Singapore Iron Ore and Steel Forum that there is a looming supply gap of 650 million tons of iron ore by 2035.

The figure accounts for new mines such as the 120 million ton-per-year Simandou project in Guinea, which is in the process of starting up.

However, Rio expects that the pace of new mine development will not match the loss of tons as mines reach the end of life.

Another factor supporting miners such as Rio, which is the world's largest producer of iron ore, is that most of the new steel capacity being built in Asia uses the traditional blast furnace-basic oxygen furnace (BF-BOF) method of production.

This method is proven and cost effective, but also highly polluting, as it relies on metallurgical coal. Steel-making accounts for about 8% of global carbon emissions, making decarbonisation vital to reach climate ambitions of net zero by 2050. But while miners and steel makers are keen to talk about decarbonising their operations, the reality is that they are really only going after some low-hanging fruit with plans to increase efficiencies and use higher-grade iron ore.

Green shoots fade

Any real effort to meaningfully reduce emissions involves switching from coal to hydrogen as a reductant, and renewable electricity as a power source. But so far very little capital has been allocated to producing green steel.

Zhong Shaoliang, the deputy secretary general of the World Steel Association, told the Singapore Green Steel Forum on Wednesday that only $20 billion has been invested in supporting green steel production.

This has led to an expected capacity of 70.8 million tons of green steel production by 2030, the bulk of it in Europe.

Given that global steel production is expected to be closingin on 2 billion tons a year by 2030, the planned green steel output is less than 4% of the total. The problem is that there is no global standard for green steel, and carbon taxes such as the Carbon Border Adjustment Mechanism in Europe aren't widespread enough to drive a meaningful shift to green steel.

The current cost of producing steel using the BF-BOF method is around $400 a ton, according to the World Steel Association data presented this week.

However, using renewable hydrogen and electricity lifts thecost to between $500 and $850 a ton, depending on the location of production.

The only way to close that gap is for governments to regulate in favour of green steel, either by taxing more polluting methods or by subsidising less carbon-intensive production.

19J6. Iron ore sees a bright future, but green steel industry fades

लौह अयस्क का भविष्य उज्ज्वल दिखता है, लेकिन हरित इस्पात उद्योग की चमक फीकी पड़ रही है

- The most persistently bullish part of the **commodities sector** in recent years has been metals associated with the **energy transition**, such as **copper**, **lithium** and **rare earth elements**.
हाल के वर्षों में **कमोडिटी क्षेत्र** का सबसे लगातार मजबूत बना रहने वाला हिस्सा **ऊर्जा संक्रमण** से जुड़े धातु रहे हैं, जैसे **तांबा**, **लिथियम** और **दुर्लभ मृदा तत्व**।
- Iron ore miners want their product to be added to the list.
लौह अयस्क खनिक चाहते हैं कि उनके उत्पाद को भी इस सूची में शामिल किया जाए।
- Strong demand growth for **steel** in **South and Southeast Asia** will keep demand for the raw material robust, and

er, Padleyganj Road, Gorakhpur
.in
488

more than outweigh declining production in **China** and the **Western world**.
दक्षिण और दक्षिण-पूर्व एशिया में **इस्पात** की मजबूत मांग वृद्धि कच्चे माल की मांग को सशक्त बनाए रखेगी और **चीन** तथा **पश्चिमी देशों** में घटते उत्पादन की भरपाई से भी अधिक प्रभाव डालेगी।

- That was the consensus view at this week's industry gathering in **Singapore**.
इस सप्ताह **सिंगापुर** में आयोजित उद्योग सम्मेलन में यही आम सहमति रही।
- However, the optimism of iron ore miners wasn't replicated by advocates of **decarbonising** the industry, with a shift away from seeing **green steel** as the great hope due to the bitter realisation that it will be enormously costly.
हालांकि लौह अयस्क खनिकों का यह आशावाद उद्योग के **कार्बनमुक्तिकरण** के समर्थकों में नहीं दिखा, क्योंकि **हरित इस्पात** को बड़ी उम्मीद के रूप में देखने का दृष्टिकोण इस कड़वी सच्चाई के कारण बदल रहा है कि यह अत्यधिक महंगा होगा।
- Governments currently lack the will to legislate, regulate and incentivise a switch from making steel with **coal** to using **renewable energies**.
वर्तमान में सरकारों में **कोयले** आधारित इस्पात उत्पादन से **नवीकरणीय ऊर्जा** आधारित उत्पादन की ओर बदलाव के लिए कानून बनाने, विनियमन करने और प्रोत्साहन देने की पर्याप्त इच्छा नहीं है।
- The bullish mood in iron ore is largely built around forecasts that **India** will increase its steel production from around **168 million metric tons** a year currently to around **400 million tons by 2035**.
लौह अयस्क को लेकर सकारात्मक माहौल मुख्य रूप से इस अनुमान पर आधारित है कि **भारत** अपना इस्पात उत्पादन वर्तमान के लगभग **168 मिलियन मीट्रिक टन** से बढ़ाकर **2035 तक 400 मिलियन टन** कर देगा।
- India is a small net exporter of iron ore, with exports of **28.62 million tons** in 2025 balanced against imports of **13.87 million tons**, according to data compiled by commodity analysts **Kpler**.
कमोडिटी विश्लेषक **क्प्लर** के आंकड़ों के अनुसार, भारत लौह अयस्क का एक छोटा शुद्ध निर्यातक है, जहां 2025 में **28.62 मिलियन टन** निर्यात के मुकाबले **13.87 मिलियन टन** आयात हुआ।
- If India does more than double steel production in the next **10 years**, it would almost certainly have to boost imports, as its domestic industry would be unable to mine sufficient quantities of ore with high enough iron content to be economically viable.
यदि भारत अगले **10 वर्षों** में इस्पात उत्पादन को दोगुने से अधिक बढ़ाता है, तो उसे लगभग निश्चित रूप से आयात बढ़ाना पड़ेगा, क्योंकि उसका घरेलू उद्योग पर्याप्त उच्च लौह-सामग्री वाले अयस्क का आर्थिक रूप से व्यवहार्य स्तर पर खनन नहीं कर पाएगा।
- There is also optimism that **Southeast Asian** countries such as **Vietnam**, **Indonesia** and **Thailand** will build more steel capacity as their economies continue to industrialise, and these will largely depend on imported iron ore.
यह भी उम्मीद है कि **दक्षिण-पूर्व एशियाई** देश जैसे **वियतनाम**, **इंडोनेशिया** और **थाईलैंड** औद्योगिकीकरण जारी रहने के साथ अधिक इस्पात क्षमता विकसित करेंगे और वे मुख्यतः आयातित लौह अयस्क पर निर्भर रहेंगे।
- **Rio Tinto Chief Commercial Officer Bold Baatar** told the **Singapore Iron Ore and Steel Forum** that there is a looming supply gap of **650 million tons** of iron ore by **2035**.
रियो टिंटो के मुख्य वाणिज्यिक अधिकारी **बोल्ड बातार** ने **सिंगापुर आयरन ओर एंड स्टील फोरम** में कहा कि **2035** तक लौह अयस्क की आपूर्ति में **650 मिलियन टन** की कमी आने वाली है।
- The figure accounts for new mines such as the **120 million ton-per-year Simandou project** in **Guinea**, which is in the process of starting up.
इस अनुमान में **गिनी** की **120 मिलियन टन प्रति वर्ष क्षमता वाली सिमांडू परियोजना** जैसी नई खदानों को भी शामिल किया गया है, जो शुरू होने की प्रक्रिया में हैं।
- However, Rio expects that the pace of new mine development will not match the loss of tons as mines reach the end of life.
हालांकि रियो का मानना है कि नई खदानों के विकास की गति, पुरानी खदानों के समाप्त होने से होने वाली उत्पादन हानि की भरपाई नहीं कर पाएगी।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- Another factor supporting miners such as Rio, which is the world's largest producer of iron ore, is that most of the new steel capacity being built in Asia uses the traditional **blast furnace-basic oxygen furnace (BF-BOF)** method of production.
  रियो जैसे खनिकों के पक्ष में एक अन्य कारक यह है कि एशिया में विकसित की जा रही अधिकांश नई इस्पात क्षमता पारंपरिक **ब्लास्ट फर्नेस-बेसिक ऑक्सीजन फर्नेस (BF-BOF)** पद्धति का उपयोग करती है।
- This method is proven and cost effective, but also highly polluting, as it relies on **metallurgical coal**.
  यह पद्धति सिद्ध और लागत प्रभावी है, लेकिन **धातुकर्मीय कोयले** पर निर्भर होने के कारण अत्यधिक प्रदूषणकारी भी है।
- Steel-making accounts for about **8% of global carbon emissions**, making decarbonisation vital to reach climate ambitions of **net zero by 2050**.
  इस्पात उत्पादन वैश्विक **कार्बन उत्सर्जन** का लगभग **8%** हिस्सा है, इसलिए **2050 तक नेट-ज़ीरो** लक्ष्य प्राप्त करने के लिए कार्बनमुक्तिकरण अत्यंत आवश्यक है।
- But while miners and steel makers are keen to talk about decarbonising their operations, the reality is that they are really only going after some low-hanging fruit with plans to increase efficiency and use higher-grade iron ore.
  हालांकि खनिक और इस्पात निर्माता अपने परिचालनों को कार्बनमुक्त बनाने की बात करते हैं, लेकिन वास्तविकता यह है कि वे अभी केवल दक्षता बढ़ाने और उच्च गुणवत्ता वाले लौह अयस्क के उपयोग जैसे अपेक्षाकृत आसान उपायों पर ध्यान दे रहे हैं।

Green shoots fade
हरित संभावनाएं फीकी पड़ रही हैं

- Any real effort to meaningfully reduce emissions involves switching from **coal** to **hydrogen** as a reductant, and **renewable electricity** as a power source.
  उत्सर्जन में वास्तविक और सार्थक कमी लाने के लिए **कोयले** के स्थान पर **हाइड्रोजन** को अपचायक तथा **नवीकरणीय बिजली** को ऊर्जा स्रोत के रूप में अपनाना आवश्यक है।
- But so far very little capital has been allocated to producing **green steel**.
  लेकिन अब तक **हरित इस्पात** उत्पादन के लिए बहुत कम पूंजी आवंटित की गई है।
- **Zhong Shaoliang**, the deputy secretary general of the **World Steel Association**, told the **Singapore Green Steel Forum** on Wednesday that only **$20 billion** has been invested in supporting green steel production.
  विश्व इस्पात संघ के उप महासचिव **झोंग शाओलियांग** ने बुधवार को **सिंगापुर ग्रीन स्टील फोरम** में बताया कि हरित इस्पात उत्पादन को समर्थन देने के लिए अब तक केवल **20 अरब डॉलर** का निवेश हुआ है।
- This has led to an expected capacity of **70.8 million tons** of green steel production by **2030**, the bulk of it in **Europe**.
  इसके परिणामस्वरूप **2030** तक **70.8 मिलियन टन** हरित इस्पात उत्पादन क्षमता बनने की उम्मीद है, जिसका अधिकांश हिस्सा **यूरोप** में होगा।
- Given that global steel production is expected to be closing in on **2 billion tons a year by 2030**, the planned green steel output is less than **4%** of the total.
  चूंकि वैश्विक इस्पात उत्पादन **2030 तक 2 अरब टन प्रतिवर्ष** के करीब पहुंचने की उम्मीद है, इसलिए नियोजित हरित इस्पात उत्पादन कुल का **4% से भी कम** है।
- The problem is that there is no global standard for **green steel**, and carbon taxes such as the **Carbon Border Adjustment Mechanism** in Europe aren't widespread enough to drive a meaningful shift to green steel.
  समस्या यह है कि **हरित इस्पात** के लिए कोई वैश्विक मानक नहीं है और यूरोप की **कार्बन बॉर्डर एडजस्टमेंट मैकेनिज्म** जैसी कार्बन कर प्रणालियां अभी इतनी व्यापक नहीं हैं कि हरित इस्पात की ओर सार्थक बदलाव ला सकें।

- The current cost of producing steel using the **BF-BOF method** is around **$400 a ton**, according to the World Steel Association data presented this week.
  इस सप्ताह प्रस्तुत विश्व इस्पात संघ के आंकड़ों के अनुसार **BF-BOF पद्धति** से इस्पात उत्पादन की वर्तमान लागत लगभग **400 डॉलर प्रति टन** है।
- However, using **renewable hydrogen** and **electricity** lifts the cost to between **$500 and $850 a ton**, depending on the location of production.
  हालांकि **नवीकरणीय हाइड्रोजन** और **बिजली** के उपयोग से उत्पादन लागत बढ़कर **500 से 850 डॉलर प्रति टन** के बीच पहुंच जाती है, जो उत्पादन स्थान पर निर्भर करती है।
- The only way to close that gap is for governments to regulate in favour of **green steel**, either by taxing more polluting methods or by subsidising less carbon-intensive production.
  इस लागत अंतर को कम करने का एकमात्र तरीका यह है कि सरकारें **हरित इस्पात** के पक्ष में नीतिगत हस्तक्षेप करें, या तो अधिक प्रदूषणकारी विधियों पर कर लगाकर अथवा कम कार्बन-गहन उत्पादन को सब्सिडी देकर।

Telegram has evolved into new dark web, govt. tells HC

Centre says the platform is used by cybercriminals, exam paper leak operators; Delhi High Court questions the platform-wide ban as it hears Telegram's challenge; it reserves judgment for Friday

GS III: S&T

Ishita Mishra
NEW DELHI

The Union government on Thursday submitted before the Delhi High Court that the messaging platform Telegram had evolved into the "new dark web", arguing that its architecture and privacy features had made it a preferred tool for cybercriminals, fraud networks, extremist and terror groups, and operators involved in examination paper leaks.

The government's submissions relied heavily on an Indian Cyber Crime Coordination Centre (I4C) assessment that the platform was a growing hub for illicit online activity. The government has restricted access to the platform ahead of the June 21 NEET re-examination.

Solicitor-General Tushar Mehta, appearing for the Centre during the hearing on Telegram's petition challenging the temporary ban imposed till June 22 under Section 69A of the Information Technology Act, 2000, told the court that the enterprise behind the messaging app had been repeatedly asked to proactively monitor and curb illegal and suspicious channels on the platform. However, the company failed to take any meaningful action, he said.

"Telegram has become the new dark web, linking threat actors. Criminals have rapidly adopted Telegram to post links on channels that connect to dark web forums through deep web links, making it hard for authorities to track and attribute criminals," he said.

Senior advocate Dhruv Mehta, appearing for Telegram, said the government had failed to justify the use of emergency powers and had not demonstrated why specific content could not be blocked, instead of disabling access to the entire platform. "The order says it is in the interest of the sovereignty and integrity of India. An examination like NEET will affect the sovereignty and integrity of India?" he asked.

A Bench of Justice Tejas Kataria scrutinised the government's justification for a platform-wide restriction, even as it acknowledged concerns about exam malpractice and cybercrime. "How can we stop the rights of 150 million people just because one set of citizens are appearing in examinations?" he said while hearing submissions from both sides.

The judgment has been reserved for Friday.

The Centre's affidavit also details how Telegram is allegedly used by cyber threat actors to coordinate attacks, distribute malware, and facilitate financial crime. It is alleged that Telegram channels host marketplaces for rented and mule bank accounts used in money laundering and cyber fraud. Such channels enable criminals to exchange information on bank accounts, UPI handles, and cryptocurrency conversion mechanisms while, due to the interface, it remains difficult for the police to track them because new channels emerge continuously.

To support its claims, the Centre pointed to a sharp rise in cybercrime complaints linked to Telegram. Data placed before the court show that complaints on the National Cyber Crime Reporting Portal involving Telegram rose from 75,688 in 2023 to 2.75 lakh in 2025, with fraud amounts crossing ₹3,000 crore in 2025.

ON SECTION 69A
» PAGE 4

Telegram on trial

The messaging platform contests restrictions imposed under Section 69A of the IT Act

Govt.'s stand

- Used by cybercriminals, fraud networks, extremist groups, and exam leak operators
- Fails to act against illegal and suspicious channels despite repeated requests
- Features can be misused to falsely portray exam papers as leaked and trigger law-and-order concerns

Telegram's stand

- Centre fails to justify emergency powers or a platform-wide ban
- Specific content can be blocked instead of restricting the entire platform

19J6. Telegram has evolved into a new dark web, govt. tells HC
सरकार ने उच्च न्यायालय को बताया कि टेलीग्राम एक नए डार्क वेब के रूप में विकसित हो गया है।

- **The Union government** on Thursday submitted before the **Delhi High Court** that the messaging platform **Telegram** had evolved into the **"new dark web"**, arguing that its architecture and privacy features had made it a preferred tool for **cybercriminals, fraud networks, extremist and terror groups**, and operators involved in **examination paper leaks**.

  केंद्र सरकार ने गुरुवार को **दिल्ली उच्च न्यायालय** के समक्ष प्रस्तुत किया कि संदेश सेवा मंच **टेलीग्राम** एक प्रकार से **"नया डार्क वेब"** बन गया है। सरकार का तर्क था कि इसकी संरचना और गोपनीयता संबंधी विशेषताओं ने इसे **साइबर अपराधियों, धोखाधड़ी नेटवर्कों, उग्रवादी एवं आतंकवादी समूहों** तथा **परीक्षा प्रश्नपत्र लीक** से जुड़े संचालकों का पसंदीदा माध्यम बना दिया है।
- The government's submissions relied heavily on an **Indian Cyber Crime Coordination Centre (I4C)** assessment that the platform was a growing hub for **illicit online activity**.

  सरकार की दलीलें मुख्य रूप से **भारतीय साइबर अपराध समन्वय केंद्र** के उस आकलन पर आधारित थीं, जिसमें इस मंच को **अवैध ऑनलाइन गतिविधियों के बढ़ते केंद्र** के रूप में चिन्हित किया गया था।

- "Telegram has become the **new dark web**, linking **threat actors**. Criminals have rapidly adopted Telegram to post links on channels that connect to dark web forums through deep web links, making it hard for authorities to track and attribute criminals," he said.
  उन्होंने कहा, **"टेलीग्राम नया डार्क वेब बन गया है, जो विभिन्न खतरा उत्पन्न करने वाले तत्वों को जोड़ रहा है। अपराधी गहन वेब कड़ियों के माध्यम से डार्क वेब मंचों से जुड़ने वाले लिंक साझा करने के लिए इसका तेजी से उपयोग कर रहे हैं, जिससे अपराधियों का पता लगाना और उनकी पहचान स्थापित करना कठिन हो जाता है।"**
- **Senior advocate Dhruv Mehta**, appearing for Telegram, said the government had failed to justify the use of **emergency powers** and had not demonstrated why specific content could not be blocked, instead of disabling access to the entire platform.
  टेलीग्राम की ओर से उपस्थित **वरिष्ठ अधिवक्ता ध्रुव मेहता** ने कहा कि सरकार **आपातकालीन शक्तियों** के उपयोग को उचित ठहराने में विफल रही है और यह नहीं बता सकी कि पूरे मंच को बंद करने के बजाय केवल विशिष्ट सामग्री को क्यों नहीं अवरुद्ध किया जा सकता था।
- "The order says it is in the interest of the **sovereignty and integrity of India**. An examination like **NEET** will affect the sovereignty and integrity of India?" he asked.
  उन्होंने प्रश्न किया, **"आदेश में कहा गया है कि यह भारत की संप्रभुता और अखंडता के हित में है। क्या राष्ट्रीय पात्रता सह प्रवेश परीक्षा जैसी परीक्षा भारत की संप्रभुता और अखंडता को प्रभावित करेगी?"**
- "How can we stop the rights of **150 million people** just because one set of citizens are appearing in examinations?" he said while hearing submissions from both sides.
  दोनों पक्षों की दलीलें सुनते हुए उन्होंने कहा, **"हम केवल इसलिए 15 करोड़ लोगों के अधिकारों को कैसे रोक सकते हैं क्योंकि नागरिकों का एक वर्ग परीक्षा में सम्मिलित हो रहा है?"**
- It is alleged that Telegram channels host marketplaces for **rented and mule bank accounts** used in **money laundering and cyber fraud**.
  यह आरोप लगाया गया है कि टेलीग्राम के माध्यमों पर **किराये पर उपलब्ध बैंक खातों और मुखौटा बैंक खातों** का व्यापार होता है, जिनका उपयोग **धन शोधन और साइबर धोखाधड़ी** में किया जाता है।
- Such channels enable criminals to exchange information on **bank accounts, UPI handles, and cryptocurrency conversion mechanisms** while, due to the interface, it remains difficult for the police to track them because new channels emerge continuously.
  ऐसे माध्यम अपराधियों को **बैंक खातों, एकीकृत भुगतान पहचान संकेतकों तथा आभासी मुद्रा रूपांतरण तंत्रों** से संबंधित जानकारी साझा करने में सक्षम बनाते हैं। मंच की संरचना के कारण पुलिस के लिए इनका पता लगाना कठिन बना रहता है, क्योंकि नए माध्यम लगातार उभरते रहते हैं।
- Data placed before the court show that complaints on the **National Cyber Crime Reporting Portal** involving Telegram rose from **75,688 in 2023** to **2.75 lakh in 2025**, with **fraud amounts crossing ₹3,000 crore** in **2025**.
  न्यायालय के समक्ष प्रस्तुत आँकड़ों के अनुसार, **राष्ट्रीय साइबर अपराध रिपोर्टिंग पोर्टल** पर टेलीग्राम से संबंधित शिकायतों की संख्या **वर्ष 2023 में 75,688** से बढ़कर **वर्ष 2025 में 2.75 लाख** हो गई, जबकि **धोखाधड़ी की राशि वर्ष 2025 में 3,000 करोड़ रुपये से अधिक** हो गई।

Beyond 'depression' and 'anxiety': how young Adivasis describe distress

Mental health systems frequently assume that emotional suffering will present itself in clinically recognisable forms. But in many Adivasi communities, distress may be communicated through stories, metaphors, or withdrawal from social life. When professionals fail to understand these expressions, the communities begin to appear 'silent'

Sachin Barbde
Christianez Ratna Kiruba

Dumbi, a tall, muscular teenager, walks silently outside his village, which consists of about 70 houses, mostly of the Adivasi Ho community, in Jharkhand. He lost his father when he was in Class 5. Now 16, and as an elder brother to three siblings, he has to both study and provide economic support to the family.

For Dumbi, football had earlier been a major source of joy. Friends regularly invited him to matches in nearby villages. But over time, he stopped playing almost entirely. The burden of caring for the family at the age of 15 made him sullen and withdrawn, and also led to his habit of drinking locally-brewed liquor, as a coping mechanism.

Mental health is gaining ground in our everyday conversations, thanks to increased awareness, battles to beat stigma and a growing number of people with lived experience who are talking about it. The people at the forefront of these conversations, however, remain primarily urban-centric and from privileged socio-economic groups. Young people from Adivasi communities remain missing from most of these conversations.

India has the largest population of indigenous communities in the world. And yet, information about the mental health of these communities is scarce.

Globally, mental health problems affect nearly one in seven adolescents aged 10-19 years, with anxiety, depression, and behavioural disorders among the most common conditions. India has one of the world's largest adolescent populations, but mental health support for young people remains deeply inadequate. The 2015-16 National Mental Health Survey estimated that 7% of adolescents aged 13-17 years, experience mental health problems, though most are unlikely to receive any formal care.

The 2015-16 National Mental Health Survey estimated that 7% of adolescents aged 13-17 years, experience mental health problems. PHOTO: SETUWORKS

Deep inequities

Evidence from rural and Adivasi communities in mental health research remains remarkably limited despite these communities constituting around 9% of India's population. What makes this lacuna even more concerning is that Adivasi communities continue to face deep social, economic, environmental, and health inequities, with the most affected being young people.

The available research suggests that the burden may be substantial and widely neglected. A survey among Adivasi adolescents in Gujarat, Tamil Nadu, and Meghalaya reported a 16% prevalence of mental disorders, more than double the national estimate for adolescents. Another survey among adolescent girls in rural Adivasi blocks of Jharkhand found that 12% experienced symptoms of emotional or behavioural distress.

These numbers, however, reveal only part of the story.

Poverty and mental health

For many young Adivasi people, family responsibilities begin at an early age. Financial insecurity is the norm rather than the exception. The most basic of needs including clothing and school costs are difficult to meet, a reality that Adivasi children understand from a very young age. But this premature awareness frequently comes at the cost of adolescence itself, quietly compressing what should be a carefree period with constant worry, restraint, and emotional burdens they are inadequately prepared for. When this is compounded by the loss of one or both parents, it often places adolescents under intense emotional and psychological stress.

What appears in these children externally as "maturity" is often chronic anxiety and emotional exhaustion. These experiences rarely enter formal mental health statistics and go unrecognised by the system, but they shape the emotional worlds of Adivasi adolescents every day.

Migration intensifies this burden. Seasonal migration has long existed among Adivasi communities as a response to chronic poverty and land insecurity. What often remains invisible are the emotional costs of this transition: loneliness, uncertainty, grief, interrupted education, substance use, fractured social ties, and a growing sense of disconnection from both village and city life.

Yet distress is not always expressed in ways recognised by formal mental health systems.

In recent work with Adivasi adolescents in rural Jharkhand, researchers found that young people, caregivers, teachers, and community health workers often described distress through local idioms, bodily complaints, silence, irritability, social withdrawal, or changes in behaviour rather than psychiatric labels such as "depression" or "anxiety".

This has important implications.

Expression of distress

Mental health systems frequently assume that emotional suffering will present itself in clinically recognisable forms. But in many Adivasi communities, distress may be communicated through stories, metaphors, behaviour, or withdrawal from social life. When professionals fail to understand the expressions, communities themselves begin to appear 'silent'.

The problem, therefore, is not merely that Adivasi youth do not seek help. It is also that systems often do not know how to hear them.

There is another quiet transformation taking place in villages: the erosion of intergenerational spaces. Ajay, a young community facilitator in one village from Jharkhand, reflected recently that earlier, evenings were spent sitting with elders, listening to stories and experiences. "That was our learning space," he said. "Now most young people spend time outside villages on their smartphones."

This reflects the weakening of informal spaces where emotions, identity, memory, and belonging were once shared collectively.

What is needed

India's response to mental health among Adivasi youth cannot be limited to expanding psychiatric services into rural areas, though accessible care remains essential. A more meaningful response requires strengthening community spaces, reducing social and economic precarity, listening to local languages of distress, and creating systems where they can speak without fear or shame.

Mental health among Adivasi youth is not only a medical concern. It is also a question of dignity, justice, cultural continuity, and whether young people are allowed to imagine a future beyond survival.

Until India learns to pay heed to these quiet forms of suffering, many a youth like Dumbi will continue walking silently at the margins of our collective attention.

With inputs from Yadav Leyangi, Pankaj Pan, Savitri Banra and Kamala Pan.

स्वास्थ्य समस्याओं का अनुभव करते हैं, यद्यपि उनमें से अधिकांश को किसी प्रकार की औपचारिक देखभाल मिलने की संभावना नहीं होती।

- A survey among **Adivasi adolescents** in **Gujarat, Tamil Nadu, and Meghalaya** reported a **16% prevalence** of mental disorders, more than double the national estimate for adolescents.
गुजरात, तमिलनाडु और मेघालय के **आदिवासी किशोरों** पर किए गए एक सर्वेक्षण में मानसिक विकारों की **16% व्यापकता** दर्ज की गई, जो किशोरों के लिए राष्ट्रीय अनुमान से दोगुने से भी अधिक है।

19J6. Children with vitiligo deserve freedom from stigma and the burden of misinformation

विटिलिगो से प्रभावित बच्चों को कलंक और भ्रामक जानकारी के बोझ से मुक्ति मिलनी चाहिए

- Yet, for thousands of children living with **vitiligo** – a chronic condition where patches of skin tend to lose pigment – this is a reality.
फिर भी, **विटिलिगो** से पीड़ित हजारों बच्चों के लिए — जो एक दीर्घकालिक स्थिति है जिसमें त्वचा के कुछ हिस्सों का रंगद्रव्य कम हो जाता है — यह एक वास्तविकता है।
- **Vitiligo** is a medically harmless, non-contagious condition.
विटिलिगो चिकित्सकीय दृष्टि से हानिरहित और गैर-संक्रामक स्थिति है।
- Misunderstandings and **stigma** about it, however, persist.
हालाँकि, इसके बारे में भ्रांतियाँ और **कलंक** आज भी बने हुए हैं।
- Children suffering from **vitiligo** tend to be very conscious of their appearance at an early age.
विटिलिगो से पीड़ित बच्चे कम आयु से ही अपने बाहरी स्वरूप के प्रति अत्यधिक सजग हो जाते हैं।
- Adolescents are significantly more vulnerable as during their teenage years, they are more susceptible to concerns of appearances, belonging and acceptance.
किशोर विशेष रूप से अधिक संवेदनशील होते हैं क्योंकि किशोरावस्था में वे बाहरी रूप, अपनत्व और सामाजिक स्वीकृति से जुड़ी चिंताओं के प्रति अधिक प्रभावित होते हैं।

What needs to change
क्या बदलने की आवश्यकता है

- The condition is often assumed to be caused by poor hygiene or believed to be contagious: neither fact is true.
अक्सर यह माना जाता है कि यह स्थिति खराब स्वच्छता के कारण होती है या यह संक्रामक है, जबकि इनमें से कोई भी बात सत्य नहीं है।
- Simple initiatives inside the classroom can make a difference, as when children understand that **vitiligo** is an autoimmune disease and poses no health risk to others, the stigma and fear related to it will reduce substantially.
कक्षा के भीतर किए गए सरल प्रयास भी बड़ा परिवर्तन ला सकते हैं, क्योंकि जब बच्चे यह समझते हैं कि **विटिलिगो** एक स्व-प्रतिरक्षी रोग है और इससे दूसरों के स्वास्थ्य को कोई खतरा नहीं है, तो इससे जुड़ा कलंक और भय काफी हद तक कम हो जाएगा।
- Teachers and parents play an important role here in identifying signs of emotional distress, declining academic performances or reluctance to attend school.
भावनात्मक संकट के संकेतों, शैक्षणिक प्रदर्शन में गिरावट अथवा विद्यालय जाने में अनिच्छा की पहचान करने में शिक्षक और अभिभावक महत्वपूर्ण भूमिका निभाते हैं।
- The true burden of **vitiligo** is rarely found in the skin itself: it is found in the silent stigma that children face. Our collective goal must be that no child feels different, or less worthy, due to the skin they live in.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur

Contact Number : 9971932488
Website : patrioticias.in

हमारा सामूहिक लक्ष्य यह होना चाहिए कि कोई भी बच्चा अपनी त्वचा के कारण स्वयं को अलग या कम मूल्यवान महसूस न करे। **विटिलिगो** का वास्तविक बोझ शायद ही कभी केवल त्वचा में दिखाई देता है; यह उस मौन कलंक में निहित होता है जिसका सामना बच्चे करते हैं।

Vitiligo

- **Vitiligo** is a chronic skin condition in which white patches appear on the skin due to the loss of **melanocytes**, the cells that produce the pigment **melanin** responsible for skin, hair, and eye color.

Why is it Called an Autoimmune Disease?

- In an autoimmune disorder, the body's immune system mistakenly attacks its own healthy cells.
- In vitiligo:
- The immune system wrongly identifies melanocytes as harmful.
- It attacks and destroys these pigment-producing cells.
- As melanocytes disappear, the affected areas lose their color and become white.

Lopsided solution

In India, regulatory oversight for pharmaceuticals needs to improve

As part of an overarching attempt to restore confidence in India's pharmaceutical supply chain after a series of deaths damaged the country's reputation as a drug exporter, the government has required a doctor's prescription for individuals to purchase syrup-based medicines. However, while it seems like a credible measure, it is also defensive rather than reformist. The Union Health Ministry has removed the term "syrup" from Schedule K of the Drugs Rules 1945, a change it had signalled when it issued the draft notification in December 2025, thus requiring cough syrups to be sold only with a prescription, through licensed pharmacies. These products were singled out after ethylene glycol (EG) and diethylene glycol (DEG) contamination in India-made cough syrups killed over 300 children across several countries since 2022. The WHO's warnings in 2022 and 2023 also undermined assumptions that India's export quality controls were effective and functioning independently. But beyond contamination, doctors have long raised concerns about how cough syrups are formulated and used. Many over-the-counter (OTC) cough syrups are 'cocktails' of bronchodilators, antihistamines, and decongestants, which can cause tremors and heart palpitations, extreme sedation or paradoxical agitation in infants, and blood pressure effects. The American Academy of Pediatrics has said that cough suppressants are quite ineffective for children under six years and may even be dangerous, as they can mask underlying conditions such as pneumonia or asthma. Yet, India's entrenched OTC culture makes pharmacists de facto primary care providers in many rural and semi-urban areas.

Most importantly, however, the contamination was the result of failures in manufacturing quality control, testing of raw materials, and regulatory oversight rather than consumer access. Even now, requiring a prescription may reduce inappropriate use and push patients away from self-medication, but it could never prevent contaminated products from reaching the market in the first place. The fundamental issue is that the government continues to tolerate the pharmaceutical lobby's argument that high-end testing requirements – for stronger quality control and ultimately better drugs – will bankrupt smaller manufacturers. Second, while the *Indian Pharmacopoeia* and the *Pharmacopoeia Internationalis* updated their analytical methods to detect EG/DEG following the deaths, failures in batch testing and enforcement persist. As a result, while India has around three dozen State drug controllers, they are chronically understaffed – so without a large increase in the inspectorate, the notification is likely to be ignored sans consequence in rural areas. In a globalised economy, subpar enforcement for medicines in even one country is dangerous; that is infinitely more so in a country aspiring to remain the world's pharmacy.

19J6. Lopsided solution
असंतुलित समाधान

- In India, **regulatory oversight** for **pharmaceuticals** needs to improve.

भारत में **औषधियों (फार्मास्यूटिकल्स)** के लिए **नियामकीय निगरानी** में सुधार किए जाने की आवश्यकता है।

- As part of an overarching attempt to restore confidence in India's **pharmaceutical supply chain** after a series of deaths damaged the country's reputation as a drug exporter, the government has required a doctor's prescription for individuals to purchase syrup-based medicines.

दवा निर्यातक के रूप में देश की प्रतिष्ठा को क्षति पहुँचाने वाली कई मौतों के बाद भारत की **औषधि आपूर्ति श्रृंखला** में विश्वास बहाल करने के व्यापक प्रयास के अंतर्गत सरकार ने सिरप-आधारित दवाओं की खरीद के लिए चिकित्सकीय पर्चा अनिवार्य कर दिया है।

- However, while it seems like a credible measure, it is also defensive rather than reformist.

हालाँकि यह एक विश्वसनीय कदम प्रतीत होता है, परंतु यह सुधारात्मक की अपेक्षा रक्षात्मक अधिक है।

- The **Union Health Ministry** has removed the term "syrup" from **Schedule K of the Drugs Rules 1945**, a change it had signalled when it issued the draft notification in December 2025, thus requiring cough syrups to be sold only with a prescription, through licensed pharmacies.

केंद्रीय स्वास्थ्य मंत्रालय ने **ड्रग्स रूल्स, 1945 की अनुसूची K** से "सिरप" शब्द को हटा दिया है। यह परिवर्तन दिसंबर 2025 में जारी मसौदा अधिसूचना में संकेतित किया गया था, जिसके परिणामस्वरूप अब खाँसी की सिरप केवल चिकित्सकीय पर्चे पर और लाइसेंस प्राप्त फार्मेसियों के माध्यम से ही बेची जा सकेगी।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- These products were singled out after **ethylene glycol (EG)** and **diethylene glycol (DEG)** contamination in India-made cough syrups killed over 300 children across several countries since 2022.
  इन उत्पादों को विशेष रूप से चिन्हित किया गया क्योंकि 2022 से भारत में निर्मित खाँसी की सिरपों में **एथिलीन ग्लाइकॉल (EG)** और **डाइएथिलीन ग्लाइकॉल (DEG)** के प्रदूषण के कारण कई देशों में 300 से अधिक बच्चों की मृत्यु हुई।
- The **WHO's warnings** in 2022 and 2023 also undermined assumptions that India's export quality controls were effective and functioning independently.
  2022 और 2023 में **विश्व स्वास्थ्य संगठन (WHO)** की चेतावनियों ने इस धारणा को भी कमजोर कर दिया कि भारत की निर्यात गुणवत्ता नियंत्रण प्रणाली प्रभावी और स्वतंत्र रूप से कार्य कर रही है।
- But beyond contamination, doctors have long raised concerns about how cough syrups are formulated and used.
  किन्तु प्रदूषण से परे भी चिकित्सक लंबे समय से खाँसी की सिरपों की संरचना और उपयोग को लेकर चिंताएँ व्यक्त करते रहे हैं।
- Many over-the-counter (**OTC**) cough syrups are 'cocktails' of **bronchodilators, antihistamines, and decongestants**, which can cause tremors and heart palpitations, extreme sedation or paradoxical agitation in infants, and blood pressure effects.
  अनेक ओवर-द-काउंटर (**OTC**) खाँसी की सिरपें **ब्रोंकोडाइलेटर्स, एंटीहिस्टामिन्स और डीकंजेस्टेंट्स** का मिश्रण होती हैं, जो कंपन, हृदय की धड़कन बढ़ना, शिशुओं में अत्यधिक सुस्ती या विपरीत रूप से उत्तेजना तथा रक्तचाप संबंधी प्रभाव उत्पन्न कर सकती हैं।
- The **American Academy of Pediatrics** has said that cough suppressants are quite ineffective for children under six years and may even be dangerous, as they can mask underlying conditions such as pneumonia or asthma.
  अमेरिकन एकेडमी ऑफ पीडियाट्रिक्स ने कहा है कि छह वर्ष से कम आयु के बच्चों के लिए खाँसी दबाने वाली दवाएँ काफी हद तक अप्रभावी हैं और खतरनाक भी हो सकती हैं, क्योंकि वे निमोनिया या अस्थमा जैसी अंतर्निहित स्थितियों को छिपा सकती हैं।
- Yet, India's entrenched **OTC culture** makes pharmacists de facto primary care providers in many rural and semi-urban areas.
  फिर भी, भारत की गहराई से जड़ें जमा चुकी **OTC संस्कृति** के कारण अनेक ग्रामीण और अर्ध-शहरी क्षेत्रों में फार्मासिस्ट वास्तविक प्राथमिक स्वास्थ्य सेवा प्रदाता बन गए हैं।
- Most importantly, however, the contamination was the result of failures in **manufacturing quality control**, testing of raw materials, and regulatory oversight rather than consumer access.
  सबसे महत्वपूर्ण बात यह है कि यह प्रदूषण उपभोक्ताओं की पहुँच के कारण नहीं, बल्कि **विनिर्माण गुणवत्ता नियंत्रण**, कच्चे माल की जाँच तथा नियामकीय निगरानी की विफलताओं का परिणाम था।
- Even now, requiring a prescription may reduce inappropriate use and push patients away from self-medication, but it could never prevent contaminated products from reaching the market in the first place.
  आज भी चिकित्सकीय पर्चा अनिवार्य करने से अनुचित उपयोग कम हो सकता है और रोगियों को स्वयं-चिकित्सा से दूर रखा जा सकता है, किन्तु यह दूषित उत्पादों को प्रारंभ में ही बाजार तक पहुँचने से नहीं रोक सकता।
- The fundamental issue is that the government continues to tolerate the **pharmaceutical lobby's** argument that high-end testing requirements — for stronger quality control and ultimately better drugs — will bankrupt smaller manufacturers.
  मूल समस्या यह है कि सरकार अभी भी **फार्मास्युटिकल लॉबी** के उस तर्क को स्वीकार करती है कि सख्त गुणवत्ता नियंत्रण और बेहतर दवाओं के लिए आवश्यक उन्नत परीक्षण मानक छोटे निर्माताओं को दिवालिया कर देंगे।
- Second, while the **Indian Pharmacopoeia** and the **Pharmacopoeia Internationalis** updated their analytical methods to detect **EG/DEG** following the deaths, failures in batch testing and

enforcement persist.
दूसरी ओर, यद्यपि **इंडियन फार्माकोपिया** और **फार्माकोपोइया इंटरनेशनलिस** ने इन मौतों के बाद **EG/DEG** की पहचान के लिए अपनी विश्लेषणात्मक विधियों को अद्यतन किया, फिर भी बैच परीक्षण और प्रवर्तन में विफलताएँ बनी हुई हैं।

- As a result, while India has around three dozen **State drug controllers**, they are chronically understaffed — so without a large increase in the inspectorate, the notification is likely to be ignored sans consequence in rural areas.
परिणामस्वरूप, यद्यपि भारत में लगभग तीन दर्जन **राज्य औषधि नियंत्रक** हैं, वे लंबे समय से कर्मियों की कमी से जूझ रहे हैं। इसलिए निरीक्षण तंत्र में पर्याप्त वृद्धि के बिना ग्रामीण क्षेत्रों में इस अधिसूचना की अनदेखी किए जाने की संभावना है और इसके कोई विशेष परिणाम भी नहीं होंगे।
- In a globalised economy, subpar enforcement for medicines in even one country is dangerous; that is infinitely more so in a country aspiring to remain the world's pharmacy.
वैश्वीकृत अर्थव्यवस्था में किसी एक देश में भी दवाओं के लिए कमजोर प्रवर्तन खतरनाक होता है; और यह खतरा उस देश के लिए कहीं अधिक बढ़ जाता है जो स्वयं को विश्व की औषधि आपूर्ति का केंद्र बनाए रखना चाहता है।

MSMEs hit by curbs on dispensing diesel

GS III: S&T

M. Soundariya Preetha
COIMBATORE

Micro, small and medium enterprises (MSMEs) that consume 200 to 600 litres of high speed diesel (HSD) a day have been hit by the recently imposed procurement ceiling.

According to V. Rangaswamy, president of the Coimbatore District Small Industries Association (CODISSIA), MSMEs in the manufacturing, healthcare, commercial, and educational sectors do not have space or resources for bulk purchase and storage of HSD. Hence, they make daily or weekly purchases from the local authorised retail outlets.

The present procurement ceiling of 200 litres a day introduced through a notification issued on June 11 is inadequate even for a single day, he said.

The government should introduce higher procurement limit for verified institutional consumers and permit registered MSMEs, and other essential service providers to procure up to 600 litres per day upon submission of GST registration certificate, factory licence, or Udyam registration certificate, he added.

19J6. MSMEs hit by curbs on dispensing diesel

डीज़ल वितरण पर प्रतिबंधों से MSMEs प्रभावित

- **Micro, small and medium enterprises (MSMEs)** that consume **200 to 600 litres** of **high speed diesel (HSD)** a day have been hit by the recently imposed **procurement ceiling**.

प्रतिदिन **200 से 600 लीटर हाई स्पीड डीज़ल (HSD)** की खपत करने वाले **सूक्ष्म, लघु और मध्यम उद्यम (MSMEs)** हाल ही में लागू की गई **खरीद सीमा** से प्रभावित हुए हैं।

HIGH-SPEED DIESEL (HSD)

High-Speed Diesel (HSD) is a refined petroleum fuel used in **high-speed diesel engines**, particularly those operating at speeds above about **750 revolutions per minute (RPM)**.

HSD is used in:

- Trucks and buses
- Cars and SUVs with diesel engines
- Tractors and agricultural machinery
- Diesel generators (DG sets)
- Construction equipment

• Railways (many diesel locomotives)

• Industrial machinery

Why is it Called "High-Speed" Diesel?

The term refers to the **engine speed**, not the speed of the vehicle.

Example

• A modern truck engine may operate between 1,000 and 2,500 RPM.

• A tractor engine may operate around 1,500–2,000 RPM.

These are classified as high-speed diesel engines and therefore use HSD.

Characteristics of HSD

- **High Energy Content:** Provides substantial power and fuel efficiency.
- **Higher Flash Point:** Usually above 35°C. Safer to store and transport than petrol.
- **Good Lubricating Properties:** Helps reduce wear and tear in diesel engines.
- **Better Fuel Economy:** Diesel engines generally provide higher mileage than petrol engines.

HSD vs Petrol

Feature	HSD	Petrol
Engine Type	Diesel Engine	Petrol Engine
Fuel Efficiency	Higher	Lower
Torque	Higher	Lower
Flash Point	Higher	Lower
Common Use	Trucks, buses, tractors	Cars, motorcycles

HSD vs Light Diesel Oil (LDO)

Many students confuse HSD and LDO.

Feature	HSD	LDO
Use	Vehicles and high-speed engines	Industrial low-speed engines
Engine Speed	Above ~750 RPM	Below ~750 RPM
Quality	Better	Relatively lower

Environmental Concerns

Burning HSD releases:

Website : patrioticias.in

- Carbon dioxide (CO_2)
- Nitrogen oxides (NO_x)
- Particulate Matter (PM)
- Sulphur compounds (depending on fuel quality)

To reduce pollution, India has adopted **BS-VI (Bharat Stage VI)** diesel standards with very low sulphur content.

Manpreet scales a new peak

Press Trust of India

PCS

Manpreet Singh, with his 413th appearance, became India's most-capped hockey player during the FIH Pro League match against Germany here on Wednesday.

The 33-year-old midfield star surpassed former captain and current Hockey India president Dilip Tirkey, who represented the country 412 times. In recognition of his achievement, Hockey India announced a cash reward of ₹10 lakh for Manpreet.

The day was made more special as India defeated Germany 3-1 through goals from Mandeep Singh (seventh minute), Shilanand Lakra (13th) and Nilakanta Sharma (35th).

Raphael Hartkopf (45th) scored for Germany.

18J6. Manpreet scales a new peak
मनप्रीत ने नई ऊँचाई हासिल की

- **Manpreet Singh**, with his **413th appearance**, became India's most-capped hockey player during the **FIH Pro League** match against **Germany** here on Wednesday.

मनप्रीत सिंह ने अपने **413वें मैच** के साथ बुधवार को **जर्मनी** के खिलाफ **FIH प्रो लीग** मुकाबले के दौरान भारत के लिए सर्वाधिक मैच खेलने वाले हॉकी खिलाड़ी बनने का गौरव हासिल किया।

- The **33-year-old midfield star** surpassed former captain and current **Hockey India** president **Dilip Tirkey**, who represented the country **412 times**.

33 वर्षीय मिडफील्ड स्टार ने पूर्व कप्तान और वर्तमान **हॉकी इंडिया** अध्यक्ष **दिलीप तिर्की** को पीछे छोड़ दिया, जिन्होंने भारत का प्रतिनिधित्व **412 बार** किया था।

Step forward

The top court has given an economic value to unpaid domestic work

The Supreme Court's judgment in *Shishupal @Shish Ram vs Surjeet* by a Division Bench of Justices Sanjay Karol and N.K. Singh, is likely a landmark. The ruling originated as the Court revised compensation granted by the Motor Accident Claims Tribunal (MACT) for a road accident in 2001. The first MACT awarded the family of Reshma, the accident victim, ₹2.42 lakh, which the Punjab and Haryana High Court revised in 2024 to ₹8.43 lakh. But in its order, the Court revised it to ₹62.78 lakh after attaching a sum of ₹30,000 a month to Ms. Reshma's 'economic value', for the service she rendered as a homemaker. The ruling is not surprising. In *Lata Wadhwa* (2001), the Court valued a homemaker's services at a modest ₹3,000. In *Kirti vs Oriental Insurance* (2021), it said the economic value of a homemaker's work cannot be discounted simply because it is unpaid or performed by women. However, the 'official' value attached to that work has suffered from inconsistent quantification. The Bench's value of ₹30,000 a month is itself notional and a floor; it added that the floor must be hiked by 10% every three years and a woman's salary, where applicable, has to be added to the floor, in the context of MACT's claims. The judgment does not create a salary, wage entitlement, pension scheme or employment relationship for homemakers, and applies to compensation calculations in MACT cases only. That said, the now-normalised societal tendency to undervalue women's work means that any advance is valuable and will likely have ripple effects.

The connection between unpaid domestic labour and suppressed female labour force participation is a major theme in contemporary Indian labour economics. Now, for example, homemakers seeking maintenance under the Hindu Marriage Act, say, have judicial reasoning supporting the economic value of their domestic work. Rural women who "assist in sowing, harvesting, and cattle-tending", as the Court noted, can now invoke the Court's reasoning to pitch to have their labour, which is often treated as being incidental to household work, valued higher. The additive rule may encourage litigants to invoke similar reasoning in employment disputes *vis-à-vis* 'work from home' arrangements and domestic responsibilities. Future litigation may test whether male homemakers can claim equivalent treatment. Motor insurance is already a low-margin segment for many insurers, and a large increase in the average claim size – likely applied retrospectively as well – may force companies to reassess their risk models and render them more inclined to settle claims quickly in Lok Adalats. All said, the Shishupal judgment is a vital corrective to decades of economic erasure.

18J6. Step forward
एक सकारात्मक कदम

- **The top court has given an economic value to unpaid domestic work**
- **सर्वोच्च न्यायालय ने अवैतनिक घरेलू कार्य को आर्थिक मूल्य प्रदान किया है**

- The **Supreme Court's judgment** in **Shishupal @ Shish Ram vs Surjeet** by a Division Bench of Justices **Sanjay Karol** and **N.K. Singh**, is likely a landmark.

न्यायमूर्ति **संजय करोल** और **एन.के. सिंह** की खंडपीठ द्वारा दिए गए **शिशुपाल @ शिश राम बनाम सुरजीत** मामले में **उच्चतम न्यायालय का निर्णय** एक ऐतिहासिक निर्णय सिद्ध हो सकता है।

- The ruling originated as the Court revised compensation granted by the **Motor Accident Claims Tribunal (MACT)** for a road accident in 2001.

यह निर्णय वर्ष 2001 में हुई एक सड़क दुर्घटना के लिए **मोटर दुर्घटना दावा अधिकरण** द्वारा प्रदान किए गए मुआवज़े में न्यायालय द्वारा संशोधन किए जाने के संदर्भ में उत्पन्न हुआ।

- The first MACT awarded the family of **Reshma**, the accident victim, **₹2.42 lakh**, which the **Punjab and Haryana High Court** revised in 2024 to **₹8.43 lakh**.

प्रारंभिक रूप से अधिकरण ने दुर्घटना पीड़िता **रेशमा** के परिवार को **2.42 लाख रुपये** का मुआवज़ा प्रदान किया था, जिसे **पंजाब एवं हरियाणा उच्च न्यायालय** ने वर्ष 2024 में बढ़ाकर **8.43 लाख रुपये** कर दिया।

- But in its order, the Court revised it to **₹62.78 lakh** after attaching a sum of **₹30,000 a month** to Ms. Reshma's **economic value**, for the service she rendered as a **homemaker**.

किन्तु न्यायालय ने अपने आदेश में रेशमा द्वारा **गृहिणी** के रूप में प्रदान की गई सेवाओं के **आर्थिक मूल्य** को प्रतिमाह **30,000 रुपये** मानते हुए मुआवज़े की राशि बढ़ाकर **62.78 लाख रुपये** कर दी।

- In **Lata Wadhwa (2001)**, the Court valued a homemaker's services at a modest **₹3,000**.

लता वाधवा (2001) मामले में न्यायालय ने गृहिणी की सेवाओं का मूल्य मात्र **3,000 रुपये** निर्धारित किया था।

- In **Kirti vs Oriental Insurance (2021)**, it said the economic value of a homemaker's work cannot be discounted simply because it is unpaid or performed by women.

कीर्ति बनाम ओरिएंटल बीमा (2021) मामले में न्यायालय ने कहा था कि गृहिणी के कार्य के आर्थिक मूल्य को केवल इसलिए कम नहीं आँका जा सकता क्योंकि वह अवैतनिक है अथवा महिलाओं द्वारा किया जाता है।

- It added that the floor must be hiked by **10% every three years** and a woman's salary, where applicable, has to be added to the floor, in the context of MACT's claims.

पीठ ने यह भी कहा कि इस न्यूनतम मानक में **प्रत्येक तीन वर्ष पर 10 प्रतिशत** की वृद्धि की जानी चाहिए तथा जहाँ लागू हो, महिला की वास्तविक आय को भी इसमें जोड़ा जाना चाहिए।

- The judgment does not create a salary, wage entitlement, pension scheme or employment relationship for homemakers, and applies to compensation calculations in MACT cases only.

यह निर्णय गृहिणियों के लिए वेतन, मजदूरी अधिकार, पेंशन योजना अथवा रोजगार संबंध स्थापित नहीं करता है और इसका प्रयोग केवल मुआवज़े की गणना से संबंधित मामलों में होगा।

- The connection between **unpaid domestic labour** and suppressed **female labour force participation** is a major theme in contemporary Indian labour economics.
  अवैतनिक घरेलू श्रम और महिलाओं की कम **श्रमबल भागीदारी** के बीच संबंध समकालीन भारतीय श्रम अर्थशास्त्र का एक प्रमुख विषय है।
- Now, for example, homemakers seeking maintenance under the **Hindu Marriage Act**, say, have judicial reasoning supporting the economic value of their domestic work.
  अब उदाहरण के लिए, **हिन्दू विवाह अधिनियम** के अंतर्गत भरण-पोषण की मांग करने वाली गृहिणियों के पास अपने घरेलू कार्य के आर्थिक मूल्य के समर्थन में न्यायिक तर्क उपलब्ध हैं।
- Rural women who "assist in sowing, harvesting, and cattle-tending", as the Court noted, can now invoke the Court's reasoning to pitch to have their labour, which is often treated as being incidental to household work, valued higher.
  जैसा कि न्यायालय ने उल्लेख किया है, ग्रामीण महिलाएँ जो बुआई, कटाई तथा पशुपालन में योगदान देती हैं, अब न्यायालय के तर्क का उपयोग करते हुए अपने श्रम का अधिक मूल्यांकन कराने की मांग कर सकती हैं, जबकि अब तक इसे प्रायः घरेलू कार्य का सहायक हिस्सा माना जाता रहा है।
- The additive rule may encourage litigants to invoke similar reasoning in employment disputes vis-à-vis 'work from home' arrangements and domestic responsibilities.
  यह अतिरिक्त मूल्यांकन का सिद्धांत रोजगार संबंधी विवादों में भी ऐसे तर्कों के उपयोग को प्रोत्साहित कर सकता है, विशेषकर घर से कार्य करने की व्यवस्था तथा घरेलू दायित्वों के संदर्भ में।
- Future litigation may test whether **male homemakers** can claim equivalent treatment.
  भविष्य में न्यायिक विवाद यह भी परख सकते हैं कि क्या **पुरुष गृहस्थ प्रबंधक** समान व्यवहार का दावा कर सकते हैं।
- **Motor insurance** is already a low-margin segment for many insurers, and a large increase in the average claim size — likely applied retrospectively as well — may force companies to reassess their risk models and render them more inclined to settle claims quickly in **Lok Adalats**.
  मोटर बीमा पहले से ही अनेक बीमा कंपनियों के लिए कम लाभ वाला क्षेत्र है, और औसत दावा राशि में बड़ी वृद्धि — जो संभवतः पूर्व प्रभाव से भी लागू हो सकती है — कंपनियों को अपने जोखिम आकलन मॉडल का पुनर्मूल्यांकन करने के लिए बाध्य कर सकती है तथा उन्हें **लोक अदालतों** में दावों का शीघ्र निपटारा करने के लिए अधिक प्रेरित कर सकती है।

Why A.P.'s incentive for having more children is misplaced

The recently announced cash incentives in Andhra Pradesh cannot offset the economic barriers faced by people to have larger families

GS I: Society

DATA POINT

Sambavi Parthasarathy

On May 16, Andhra Pradesh Chief Minister N. Chandrababu Naidu announced a one-time incentive of ₹30,000 for the third child and ₹40,000 for the fourth. He said that these incentives were a part of the State's new population management policy to encourage population growth.

On the surface, the incentives to have bigger families may sound sensible with the latest National Family Health Survey (NFHS-6) report for the year 2023-24 placing the **State's fertility level at 1.8**, which is below the replacement level of 2.1. However, a closer look warrants questions on at least three fronts: whether such an incentive is adequate for families to have more children; what the key reasons are for the dropping fertility rate; and whether such an intervention is necessary now.

A comparison of this one-time cash incentive against basic expenditures shows that it cannot offset the childcare costs, a concern that is prompting families to rethink having more children **(Chart 1)**.

The government's incentive is about twice the average cost of hospitalisation for childbirth in India, and a far smaller multiple of the cost in Andhra Pradesh. In fact, it is almost the same as the cost of hospitalisation for childbirth in the State's urban area. In a State where more than 50% of births happen in private hospitals and about 52% of all deliveries happen through Caesarean sections, this incentive will just offset the hospitalisation cost in rural areas **(Chart 2)**. It is also inadequate to cover the cost of C-sections in private hospitals in urban areas.

For a family of five (assuming there are two adults and three children), this incentive is about 1.5 times their Monthly Per Capita Expenditure (MPCE) in rural areas and almost similar to the MPCE in urban areas, as per the Household Consumption Expenditure Survey for 2023-24. This means that the incentive could just help the families meet their consumption needs for one month, provided the same was not already spent in hospital during childbirth.

Cannot afford children

Moreover, the question around family planning has moved from whether families 'should' have more children to whether they can afford to. The United Nations Population Fund's (UNFPA) 'State of World Population Report 2025' shows that financial limitations are the prime barrier to having children **(Chart 3)**.

Other barriers included housing limitations, followed by unemployment (or job insecurity), and the lack of quality and affordable childcare options. In many of these indicators, the share of Indians pointing to these concerns was much higher than the average share across the 14 countries that were surveyed for the report.

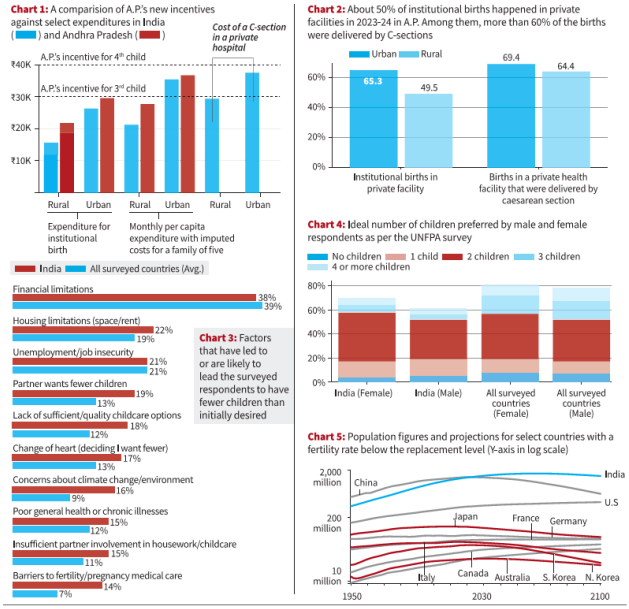
The survey further pointed out that a larger share of Indian men and women preferred having either one or two children **(Chart 4)**. Less than 10% of Indian respondents said they would prefer to have three, four or more children, which is almost on a par with the share of Indians who preferred having no children.

It is noteworthy that the below-replacement fertility rate in Andhra Pradesh and across India does not mean that the population decline is imminent. The population will continue to increase, then stabilise and eventually begin to decline, which, for India, is likely to happen only in 2063 as per estimates **(Chart 5)**.

For instance, although Japan and South Korea's fertility rates dropped below the replacement level in the late 1970s and the early 1980s respectively, their populations – which are less than 10% of India's – began to decline only around 2010 and 2020.

Wrong incentives

The data for the charts were sourced from the Household Consumption Expenditure Survey 2023-24, Household Social Consumption: Health 2025, NFHS-6, Our World in Data and the UNFPA



18J6. Why A.P.'s incentive for having more children is misplaced
आंध्र प्रदेश में अधिक बच्चे पैदा करने हेतु प्रोत्साहन योजना क्यों अनुचित है

Population Incentives and Fertility Trends
जनसंख्या प्रोत्साहन और प्रजनन दर की प्रवृत्तियाँ

- On May 16, **Andhra Pradesh Chief Minister N. Chandrababu Naidu** announced a one-time incentive of **₹30,000 for the third child** and **₹40,000 for the fourth**.
  16 मई को **आंध्र प्रदेश के मुख्यमंत्री एन. चंद्रबाबू नायडू** ने **तीसरे बच्चे के लिए 30,000 रुपये** तथा **चौथे बच्चे के लिए 40,000 रुपये** की एकमुश्त प्रोत्साहन राशि की घोषणा की।
- On the surface, the incentives to have bigger families may sound sensible with the latest **National Family Health Survey** report for the year **2023-24** placing the State's fertility level at **1.8**, which is below the **replacement level of 2.1**.
  प्रथम दृष्टया बड़े परिवारों को प्रोत्साहित करने वाली यह योजना उचित प्रतीत हो सकती है, क्योंकि वर्ष **2023-24** के नवीनतम **राष्ट्रीय परिवार स्वास्थ्य सर्वेक्षण** के अनुसार राज्य की **प्रजनन दर 1.8** है, जो **2.1 के प्रतिस्थापन स्तर** से कम है।
- In a State where more than **50% of births happen in private hospitals** and about **52% of all deliveries happen through Caesarean sections**, this incentive will just offset the hospitalisation cost in rural areas.
  ऐसे राज्य में जहाँ **50 प्रतिशत से अधिक प्रसव निजी अस्पतालों में** होते हैं और लगभग **52 प्रतिशत प्रसव**

शल्यक्रिया द्वारा संपन्न होते हैं, यह प्रोत्साहन राशि केवल ग्रामीण क्षेत्रों के अस्पताल व्यय की भरपाई कर पाएगी।

- For a family of five (assuming there are two adults and three children), this incentive is about **1.5 times their Monthly Per Capita Expenditure** in rural areas and almost similar to the monthly expenditure in urban areas, as per the **Household Consumption Expenditure Survey for 2023-24**.
  वर्ष **2023-24 के घरेलू उपभोग व्यय सर्वेक्षण** के अनुसार पाँच सदस्यीय परिवार (दो वयस्क और तीन बच्चों वाला) के लिए यह प्रोत्साहन राशि ग्रामीण क्षेत्रों में उनके **मासिक प्रति व्यक्ति उपभोग व्यय** की लगभग डेढ़ गुना तथा शहरी क्षेत्रों में लगभग समान है।
- Moreover, the question around family planning has moved from whether families 'should' have more children to whether they can **afford** to.
  इसके अतिरिक्त परिवार नियोजन से जुड़ा प्रश्न अब इस बात से आगे बढ़ चुका है कि परिवारों को अधिक बच्चे पैदा करने चाहिए या नहीं; अब मुख्य प्रश्न यह है कि क्या वे ऐसा करने का **सामर्थ्य** रखते हैं।
- The **United Nations Population Fund's State of World Population Report 2025** shows that **financial limitations** are the prime barrier to having children.
  संयुक्त राष्ट्र जनसंख्या कोष की विश्व जनसंख्या स्थिति रिपोर्ट 2025 दर्शाती है कि **आर्थिक सीमाएँ** बच्चों के जन्म में सबसे बड़ी बाधा हैं।
- Other barriers included **housing limitations**, followed by **unemployment or job insecurity**, and the lack of **quality and affordable childcare options**.
  अन्य प्रमुख बाधाओं में **आवास संबंधी सीमाएँ**, **बेरोजगारी अथवा रोजगार असुरक्षा**, तथा **गुणवत्तापूर्ण और सुलभ बाल देखभाल सुविधाओं की कमी** शामिल हैं।
- The survey further pointed out that a larger share of Indian men and women preferred having either **one or two children**.
  सर्वेक्षण ने यह भी बताया कि भारतीय पुरुषों और महिलाओं का बड़ा वर्ग **एक या दो बच्चे** ही पसंद करता है।
- Less than **10% of Indian respondents** said they would prefer to have three, four or more children, which is almost on a par with the share of Indians who preferred having no children.
  10 प्रतिशत से भी कम भारतीय उत्तरदाताओं ने कहा कि वे तीन, चार या उससे अधिक बच्चे पसंद करेंगे, जो लगभग उन लोगों के बराबर है जो कोई बच्चा नहीं चाहते।
- The population will continue to increase, then stabilise and eventually begin to decline, which, for India, is likely to happen only in **2063** as per estimates.
  अनुमानों के अनुसार जनसंख्या पहले बढ़ेगी, फिर स्थिर होगी और अंततः घटनी शुरू होगी, तथा भारत में यह स्थिति संभवतः **2063** के आसपास उत्पन्न होगी।
- For instance, although **Japan** and **South Korea's** fertility rates dropped below the replacement level in the late 1970s and the early 1980s respectively, their populations — which are less than **10% of India's** — began to decline only around **2010 and 2020**.
  उदाहरण के लिए, यद्यपि **जापान** और **दक्षिण कोरिया** की प्रजनन दर क्रमशः 1970 के दशक के उत्तरार्ध और 1980 के दशक के प्रारंभ में प्रतिस्थापन स्तर से नीचे चली गई थी, फिर भी उनकी जनसंख्या — जो भारत की जनसंख्या के **10 प्रतिशत से भी कम** है — में गिरावट क्रमशः **2010** और **2020** के आसपास ही प्रारंभ हुई।

18J6	Nicobarese tribal councils oppose draft election rules निकोबारी जनजातीय परिषदों ने मसौदा निर्वाचन नियमों का विरोध किया

Nicobarese tribal councils oppose draft election rules

GS II: Polity

Abhinay Lakshman
NEW DELHI

The councils said the existing forms of self-governance align more closely with democratic values

Nicobarese tribal councils from three different island groups have written to the local administration turning down the idea of Election Commission-conducted polls to their self-governance system, saying it could introduce "election rivalry, division, and conflict" in their society. The councils said the existing forms of self-governance "more closely align with democratic values", and said a new system would interfere with their existing ways which have been "traditional, time-tested, and consensus-based" and in practice for thousands of years.

This comes even as the Andaman and Nicobar Islands (A&NI) administration on Wednesday notified a public meeting on June 30 in Sri Vijaya Puram to discuss the draft rules for elections to Nicobarese tribal councils.

The tribal councils in Little and Great Nicobar, Kamorta (Nancowry), and Katchal Island have written objections to the draft rules published by the A&NI administration in May. They have sought the withdrawal of this draft.

The draft rules aimed to reorganise Nicobarese villages into constituencies that would be represented by elected leaders, who would then constitute a larger tribal council. It would involve delimitation, preparation of voter rolls, and reservation of leadership positions for women. The draft also prescribes five-yearly elections. They outlined the polling process, the structure of the new representative system, the delimitation method, the rules for candidature, nomination, and withdrawal, their duties and responsibilities, and the administrative set-up for conducting these elections.

The draft rules were notified on May 15. The 30-day window for objections and suggestions closed this week. The administration has received letters of objection from the Congress party in the islands and the tribal councils.

18J6. Nicobarese tribal councils oppose draft election rules

निकोबारी जनजातीय परिषदों ने मसौदा निर्वाचन नियमों का विरोध किया

- **Nicobarese tribal councils** from three different island groups have written to the local administration turning down the idea of **Election Commission-conducted polls** to their self-governance system, saying it could introduce "election rivalry, division, and conflict" in their society.

तीन अलग-अलग द्वीप समूहों की **निकोबारी जनजातीय परिषदों** ने स्थानीय प्रशासन को पत्र लिखकर अपनी स्वशासन व्यवस्था के लिए **निर्वाचन आयोग द्वारा संचालित चुनावों** के प्रस्ताव को अस्वीकार कर दिया है। उनका कहना है कि इससे समाज में "चुनावी प्रतिस्पर्धा, विभाजन और संघर्ष" उत्पन्न हो सकता है।

- The councils said the existing forms of self-governance "more closely align with democratic values", and said a new system would interfere with their existing ways which have been "traditional, time-tested, and consensus-based" and in practice for thousands of years.

परिषदों ने कहा कि वर्तमान स्वशासन व्यवस्था "लोकतांत्रिक मूल्यों के अधिक निकट" है। उन्होंने यह भी कहा कि नई व्यवस्था उनकी उन परंपरागत, समय की कसौटी पर खरी उतरी और सर्वसम्मति आधारित प्रणालियों में हस्तक्षेप करेगी, जो हजारों वर्षों से प्रचलित हैं।

- This comes even as the **Andaman and Nicobar Islands administration** on Wednesday notified a public meeting on **June 30** in **Sri Vijaya Puram** to discuss the draft rules for elections to Nicobarese tribal councils.

यह घटनाक्रम ऐसे समय में सामने आया है जब **अंडमान और निकोबार द्वीप प्रशासन** ने बुधवार को **30 जून** को **श्री विजयापुरम** में निकोबारी जनजातीय परिषदों के चुनाव संबंधी मसौदा नियमों पर चर्चा हेतु एक सार्वजनिक बैठक की अधिसूचना जारी की है।

- The tribal councils in **Little Nicobar**, **Great Nicobar**, **Kamorta (Nancowry)**, and **Katchal Island** have written objections to the draft rules published by the administration in May.
  लिटिल निकोबार, **ग्रेट निकोबार**, **कमोर्टा (नानकोवरी)** और **कच्छल द्वीप** की जनजातीय परिषदों ने मई में प्रशासन द्वारा प्रकाशित मसौदा नियमों पर आपत्तियाँ दर्ज कराई हैं।
- The draft rules aimed to reorganise Nicobarese villages into constituencies that would be represented by elected leaders, who would then constitute a larger tribal council.
  मसौदा नियमों का उद्देश्य निकोबारी गाँवों को निर्वाचन क्षेत्रों में पुनर्गठित करना था, जिनका प्रतिनिधित्व निर्वाचित प्रतिनिधि करेंगे और वे मिलकर एक व्यापक जनजातीय परिषद का गठन करेंगे।
- It would involve **delimitation**, preparation of **voter rolls**, and reservation of leadership positions for **women**.
  इस व्यवस्था में **निर्वाचन क्षेत्र परिसीमन**, **मतदाता सूची तैयार करना**, तथा नेतृत्व पदों में **महिलाओं के लिए आरक्षण** शामिल होगा।
- The draft also prescribes **five-yearly elections**.
  मसौदे में **प्रत्येक पाँच वर्ष में चुनाव** कराने का प्रावधान भी किया गया है।
- They outlined the polling process, the structure of the new representative system, the delimitation method, the rules for candidature, nomination, and withdrawal, their duties and responsibilities, and the administrative setup for conducting these elections.

इन नियमों में मतदान प्रक्रिया, नई प्रतिनिधिक व्यवस्था की संरचना, परिसीमन की पद्धति, उम्मीदवारों के नामांकन और नाम वापसी के नियम, उनके कर्तव्य और उत्तरदायित्व तथा चुनावों के संचालन हेतु प्रशासनिक व्यवस्था का विस्तृत विवरण दिया गया है।

GS Paper II: Governance	18 June 2026
TOPICS COVERED	
18J6	Water security is central for a Viksit Bharat विकसित भारत के लिए जल सुरक्षा केंद्रीय महत्व रखती है

Water security is central for a Viksit Bharat

GS II: Governance

Did you know that the Jal Jeevan Mission is the world's largest rural drinking water supply programme? Or that the Swachh Bharat Mission (SBM) is the most significant rural sanitation movement in the world? Together, these initiatives represent not merely government schemes, but a re-imagination of how a nation of 1.45 billion people is building a water-secure future.

Few sectors shape human dignity, economic growth, public health, agriculture and environmental sustainability as profoundly as water. Yet, for decades, India's water challenges were addressed in fragmented ways. What has changed in recent years is the focus and integrated nature of the response led by Prime Minister Narendra Modi.

The scale of investment and execution in the water sector in the last 12 years has been unparalleled. Water is now viewed as a shared national priority, cutting across departments, States, and communities. While earlier water was relegated to the side, under Prime Minister Modi, the Government of India has assumed responsibility for filling the long-standing gaps in planning, management, and delivery in the water sector.

A complete turnaround

The most prominent example of this transformation is the Jal Jeevan Mission. When the programme was launched, only about 3.23 crore rural households, roughly 17% of rural Indian households, had tap water connections. Today, more than 15.8 crore rural households, covering over 81% of rural India, have access to tap water at home. The government is moving towards achieving 100% coverage by 2028. For millions of families, this is not merely a utility service; it is a change in their way of life.

Studies indicate that earlier, rural women in India spent billions of hours each year fetching water. The expansion of household tap water supply has helped save more than 5.5 crore person-hours daily; that time is now being invested in education, livelihoods, childcare and economic activity. Across households, access to safe drinking water has also reduced out-of-pocket health expenditure arising from water-borne diseases.

C. R. Patil

Union Minister of Jal Shakti

Access to drinking water, sanitation, river conservation, groundwater recharge, wastewater reuse and climate resilience must all be viewed as parts of a connected ecosystem

Equally transformative is the SBM. India's sanitation movement demonstrated that behavioural change, public participation and political commitment can work together at scale. According to the World Health Organisation's assessment of health gains, SBM-Grameen is estimated to have averted more than 3 lakh diarrhoea deaths between 2014 and October 2019. The construction of household toilets also brought dignity, privacy and safety to millions of rural women. Beyond making villages open defecation-free, the country has moved towards sustainable solid and liquid waste management under SBM-Grameen 2.0.

India has also undertaken one of the largest water conservation and groundwater recharge initiatives anywhere in the world. Under the 'Jal Sanchay Jan Bhagidari' initiative, more than 1.55 crore rainwater harvesting and groundwater recharge structures have been created across the country by May 31, 2026. The impact of these efforts is visible in groundwater trends as well. Recent assessments indicate improvement in groundwater recharge and a reduction in the number of over-exploited assessment units in several parts of the country. It also showcases that sustained conservation efforts, when combined with community participation, can reverse environmental stress.

Parallelly, India has advanced long-pending national water projects. The Ken-Betwa River Linking Project, the country's first major river interlinking initiative to bring water to the arid region of Bundelkhand, is moving ahead at an accelerated pace.

Under the guidance of Prime Minister Modi, the Namami Gange programme has demonstrated that environmental restoration and development can advance together. Over the past decade, the government has created 4,260 million litres per day (MLD) of sewage treatment capacity; reduced the Biochemical Oxygen Demand from 26 tonnes per day (TPD) in 2017 to 10.75 TPD in 2024; and brought down effluent discharge from 349 MLD to 265.56 MLD. Today, monitoring shows that pH and dissolved oxygen levels in the Ganga meet bathing criteria at all monitored locations.

India's water journey over these years offers an important global lesson. Water challenges in the 21st century cannot be addressed through isolated interventions. Drinking water, sanitation, river conservation, irrigation efficiency, groundwater recharge, wastewater reuse and climate resilience must all be viewed as parts of a connected ecosystem.

The road ahead

This integrated approach becomes even more critical in the face of climate change. For India, the challenge is unique. The country is home to nearly 18% of the world's population, but has access to only about 4% of global freshwater resources. Rapid urbanisation and changing weather patterns will place increasing pressure on these resources in the coming decades.

Today's investments, therefore, are not merely developmental expenditures; they are long-term investments in national resilience. The progress achieved over the past decade demonstrates the immense potential unlocked when selfless leadership, responsive governance, and active public participation come together in pursuit of a shared national vision.

The road ahead requires sustained effort. The government will strive to improve water-use efficiency, promote recycling, strengthen water governance, and encourage citizen participation.

- Or that the **Swachh Bharat Mission** is the most significant rural sanitation movement in the world?
  क्या आप जानते हैं कि **स्वच्छ भारत मिशन** विश्व का सबसे बड़ा ग्रामीण स्वच्छता अभियान है?
- Few sectors shape **human dignity, economic growth, public health, agriculture and environmental sustainability** as profoundly as water.
  बहुत कम क्षेत्र ऐसे हैं जो **मानवीय गरिमा, आर्थिक विकास, सार्वजनिक स्वास्थ्य, कृषि तथा पर्यावरणीय सततता** को जल जितनी गहराई से प्रभावित करते हैं।

A complete turnaround
एक व्यापक परिवर्तन

- The most prominent example of this transformation is the **Jal Jeevan Mission**.
  इस परिवर्तन का सबसे प्रमुख उदाहरण **जल जीवन मिशन** है।
- When the programme was launched, only about **3.23 crore rural households**, roughly **17% of rural Indian households**, had tap water connections.
  जब यह कार्यक्रम प्रारम्भ किया गया था, तब केवल लगभग **3.23 करोड़ ग्रामीण परिवारों**, अर्थात् ग्रामीण भारत के लगभग **17 प्रतिशत परिवारों**, के पास नल जल कनेक्शन उपलब्ध था।
- Today, more than **15.8 crore rural households**, covering over **81% of rural India**, have access to tap water at home.
  आज **15.8 करोड़ से अधिक ग्रामीण परिवारों**, अर्थात् ग्रामीण भारत के **81 प्रतिशत से अधिक परिवारों**, को घर पर नल से जल उपलब्ध है।
- The government is moving towards achieving **100% coverage by 2028**.
  सरकार **वर्ष 2028 तक शत-प्रतिशत कवरेज** प्राप्त करने की दिशा में अग्रसर है।
- Across households, access to safe drinking water has also reduced **out-of-pocket health expenditure** arising from water-borne diseases.
  परिवारों को सुरक्षित पेयजल उपलब्ध होने से जलजनित रोगों के कारण होने वाले **व्यक्तिगत स्वास्थ्य व्यय** में भी कमी आई है।
- India's sanitation movement demonstrated that **behavioural change, public participation and political commitment** can work together at scale.
  भारत के स्वच्छता अभियान ने यह प्रदर्शित किया कि **व्यवहार परिवर्तन, जनभागीदारी और राजनीतिक प्रतिबद्धता** बड़े पैमाने पर मिलकर प्रभावी परिणाम दे सकते हैं।
- According to the **World Health Organization's** assessment of health gains, **स्वच्छ भारत मिशन-ग्रामीण** is estimated to have averted more than **3 lakh diarrhoea deaths** between 2014 and October 2019.
  विश्व स्वास्थ्य संगठन के स्वास्थ्य लाभ संबंधी आकलन के अनुसार, **स्वच्छ भारत मिशन-ग्रामीण** ने वर्ष 2014 से अक्टूबर 2019 के बीच **दस्त से होने वाली 3 लाख से अधिक मौतों** को रोकने में योगदान दिया।
- The construction of household toilets also brought **dignity, privacy and safety** to millions of rural women.
  घरेलू शौचालयों के निर्माण ने लाखों ग्रामीण महिलाओं को **गरिमा, निजता और सुरक्षा** प्रदान की।
- Beyond making villages **open defecation-free**, the country has moved towards sustainable **solid and liquid waste management** under **Swachh Bharat Mission-Grameen 2.0**.

गाँवों को **खुले में शौच से मुक्त** बनाने से आगे बढ़ते हुए देश **स्वच्छ भारत मिशन-ग्रामीण 2.0** के अंतर्गत **ठोस एवं तरल अपशिष्ट प्रबंधन** की सतत व्यवस्था की दिशा में अग्रसर हुआ है।

- Under the **Jal Sanchay Jan Bhagidari** initiative, more than **1.55 crore rainwater harvesting and groundwater recharge structures** have been created across the country by May 31, 2026.
  जल संचय जन भागीदारी पहल के अंतर्गत 31 मई 2026 तक देशभर में **1.55 करोड़ से अधिक वर्षा जल संचयन एवं भूजल पुनर्भरण संरचनाओं** का निर्माण किया गया है।
- The **Ken-Betwa River Linking Project**, the country's first major river interlinking initiative to bring water to the arid region of **Bundelkhand**, is moving ahead at an accelerated pace.
  केन-बेतवा नदी जोड़ो परियोजना, जो **बुंदेलखंड** के शुष्क क्षेत्र तक जल पहुँचाने की देश की पहली प्रमुख नदी जोड़ो पहल है, तीव्र गति से आगे बढ़ रही है।
- Under the guidance of **Prime Minister Modi**, the **Namami Gange programme** has demonstrated that environmental restoration and development can advance together.
  प्रधानमंत्री मोदी के मार्गदर्शन में **नमामि गंगे कार्यक्रम** ने यह प्रदर्शित किया है कि पर्यावरणीय पुनर्स्थापन और विकास एक साथ आगे बढ़ सकते हैं।
- Over the past decade, the government has created **4,260 million litres per day of sewage treatment capacity**.
  पिछले एक दशक में सरकार ने **4,260 मिलियन लीटर प्रतिदिन मलजल शोधन क्षमता** का सृजन किया है।
- It has reduced the **Biochemical Oxygen Demand** from **26 tonnes per day in 2017** to **10.75 tonnes per day in 2024**.
  इसने **जैव-रासायनिक ऑक्सीजन मांग** को **2017 में 26 टन प्रतिदिन** से घटाकर **2024 में 10.75 टन प्रतिदिन** कर दिया है।
- Today, monitoring shows that **pH** and **dissolved oxygen levels** in the Ganga meet bathing criteria at all monitored locations.
  वर्तमान निगरानी से यह ज्ञात होता है कि गंगा में **अम्ल-क्षार स्तर** तथा **घुलित ऑक्सीजन का स्तर** सभी निगरानी स्थलों पर स्नान योग्य मानकों को पूरा करता है।
- **Drinking water, sanitation, river conservation, irrigation efficiency, groundwater recharge, wastewater reuse and climate resilience** must all be viewed as parts of a connected ecosystem.
  पेयजल, स्वच्छता, नदी संरक्षण, सिंचाई दक्षता, भूजल पुनर्भरण, अपशिष्ट जल का पुनः उपयोग तथा जलवायु सहनशीलता को एक परस्पर जुड़े पारितंत्र के अंग के रूप में देखा जाना चाहिए।

The road ahead
आगे की राह

- The country is home to nearly **18% of the world's population**, but has access to only about **4% of global freshwater resources**.
  देश विश्व की लगभग **18 प्रतिशत जनसंख्या** का निवास स्थान है, किन्तु इसके पास वैश्विक **मीठे जल संसाधनों का केवल लगभग 4 प्रतिशत** ही उपलब्ध है।

Framework deal outlines Tehran's pledge on nuclear weapons, $300-bn U.S. relief

GS II, IR

Stanly Johny

The United States has agreed to facilitate the release of frozen Iranian assets, contingent on progress in negotiations towards a final agreement, and create a plan for Iran's economic development, involving $300 billion, according to a leaked text of the 14-point framework agreement reached between Tehran and Washington.

The draft, published by Saudi Arabia's *Al Arabiya* network and the Bloomberg news agency, states that Iran has pledged never to produce nuclear weapons. On its part, the U.S. will lift sanctions on the sale of Iranian crude oil, petrochemical products, and financial services, including banking, during the negotiation period.

The memorandum of understanding is expected to be signed in Geneva on Friday. The draft stated that Iran has pledged never to produce nuclear weapons and, pending a final agreement, maintain a status quo on its nuclear programme. However, the *AP* reported later that unnamed U.S. officials read out the draft to pressperson, according to which Iran has agreed to downblend (dilute) its highly enriched uranium under the supervision of the International Atomic Energy Agency.

The draft, which has not been released officially, calls for an "immediate and permanent end to the war on all fronts, including Lebanon" – a key Iranian demand.

While the U.S. and Iran announced a ceasefire on April 8 after 40 days of bombing, Lebanon, where Israel occupies parts of the country, has remained a flashpoint. Israeli Prime Minister Benjamin Netanyahu has said that his troops would not withdraw from Lebanon. Hezbollah, a Lebanese Shia group that has close ties with Iran, has also said it will continue to resist Israel's military occupation.

Under the agreement, the U.S. and Iran have pledged to "respect each other's sovereignty and territorial integrity, and to refrain from interfering in each other's internal affairs".

The U.S. also commits itself to lifting all sanctions against Iran, both primary and secondary, as part of a final agreement.

After launching the war on February 28, U.S. President Donald Trump had indirectly called for regime change in Tehran, asking Iranians to take over their institutions and telling them that they had a "once-in-a-generation opportunity" on their hands. After announcing the MoU on June 15, Mr. Trump said he did not believe in regime change. But on Wednesday, Mr. Trump said that the MoU is only a preliminary agreement, adding that if Iran did not honour its obligations, he would resume the war.

Once the MoU is signed, Iran and the U.S. will start negotiations on core issues.

Strait to reopen

The U.S. will immediately lift its naval blockade and Iran will allow traffic through the Strait of Hormuz to reach pre-war volumes within 30 days, "taking into account the need for the removal of technical obstacles and the neutralization of mines by Iran".

Mr. Trump has said that traffic through the Strait will be toll-free. According to Iran's Foreign Ministry, however, Tehran will not impose a toll but ships will have to pay a fee to Iran's newly created Persian Gulf Strait Authority, for environmental upkeep and other services.

"Iran reiterates that it will never produce nuclear weapons. Iran and the U.S. have agreed that the fate of enriched material and the fate of all other mutually agreed nuclear-related issues, including Iran's nuclear needs, will be adequately addressed in a final agreement," the leaked text says.

Iran has hundreds of kilograms of highly enriched uranium, which the U.S. and Israel want to take out of the country and dilute or destroy. Tehran has also maintained that nuclear enrichment is a right which it will not surrender, while Mr. Trump has called for zero enrichment on Iranian soil. These contentious issues will be discussed in the next phase.

18J6. Framework deal outlines Tehran's pledge on nuclear weapons, $300-bn U.S. relief
रूपरेखा समझौते में परमाणु हथियारों पर तेहरान की प्रतिबद्धता तथा 300 अरब डॉलर की अमेरिकी राहत का उल्लेख

- The **United States** has agreed to facilitate the release of **frozen Iranian assets**, contingent on progress in negotiations towards a final agreement, and create a plan for Iran's economic development, involving **300 billion dollars**, according to a leaked text of the **14-point framework agreement** reached between **Tehran** and **Washington**.

संयुक्त राज्य अमेरिका ने **ईरान की अवरुद्ध परिसंपत्तियों** को मुक्त कराने में सहयोग करने तथा ईरान के आर्थिक विकास के लिए **300 अरब डॉलर** की योजना तैयार करने पर सहमति व्यक्त की है। यह व्यवस्था **तेहरान** और **वाशिंगटन** के बीच हुए **14 सूत्रीय रूपरेखा समझौते** के लीक हुए मसौदे में उल्लिखित है और अंतिम समझौते की दिशा में वार्ताओं की प्रगति पर निर्भर करेगी।

- The draft, published by **Saudi Arabia's Al Arabiya network** and the **Bloomberg news agency**, states that **Iran** has pledged never to produce **nuclear weapons**.

सऊदी अरब के अल अरबीया नेटवर्क और **ब्लूमबर्ग समाचार एजेंसी** द्वारा प्रकाशित मसौदे के अनुसार **ईरान** ने कभी भी **परमाणु हथियार** विकसित न करने का वचन दिया है।

- On its part, the U.S. will lift sanctions on the sale of **Iranian crude oil**, **petrochemical products**, and **financial services**, including banking, during the negotiation period.

इसके बदले अमेरिका वार्ता अवधि के दौरान **ईरानी कच्चे तेल**, **पेट्रो-रासायनिक उत्पादों** तथा **वित्तीय सेवाओं**, जिनमें बैंकिंग सेवाएँ भी शामिल हैं, पर लगे प्रतिबंधों को हटाएगा।

- Iran has agreed to **downblend its highly enriched uranium** under the supervision of the **International Atomic Energy Agency**.

हालाँकि बाद में **एसोसिएटेड प्रेस** ने बताया कि अमेरिकी अधिकारियों ने पत्रकारों को मसौदे की जानकारी देते हुए कहा कि ईरान **अंतरराष्ट्रीय परमाणु ऊर्जा एजेंसी** की निगरानी में अपने **उच्च संवर्धित यूरेनियम** को कम संवर्धित रूप में परिवर्तित करने पर सहमत हुआ है।

- The draft, which has not been released officially, calls for an **immediate and permanent end to the war on all fronts, including Lebanon** — a key Iranian demand.
  यह मसौदा, जिसे आधिकारिक रूप से जारी नहीं किया गया है, **लेबनान सहित सभी मोर्चों पर युद्ध की तत्काल और स्थायी समाप्ति** की मांग करता है, जो ईरान की प्रमुख मांगों में से एक है।
- According to Iran's Foreign Ministry, however, Tehran will not impose a toll but ships will have to pay a fee to Iran's newly created **Persian Gulf Strait Authority** for environmental upkeep and other services.
  हालाँकि ईरान के विदेश मंत्रालय के अनुसार कोई मार्ग शुल्क नहीं लगाया जाएगा, लेकिन जहाज़ों को पर्यावरण संरक्षण और अन्य सेवाओं के लिए ईरान की नवगठित **फारस की खाड़ी जलडमरूमध्य प्राधिकरण** को शुल्क देना होगा।
- "Iran reiterates that it will never produce nuclear weapons. Iran and the U.S. have agreed that the fate of enriched material and all other mutually agreed nuclear-related issues, including Iran's nuclear needs, will be adequately addressed in a final agreement," the leaked text says.
  लीक हुए मसौदे में कहा गया है कि "ईरान पुनः दोहराता है कि वह कभी परमाणु हथियार नहीं बनाएगा। ईरान और अमेरिका इस बात पर सहमत हैं कि संवर्धित सामग्री तथा परमाणु कार्यक्रम से जुड़े अन्य सभी सहमत विषयों, जिनमें ईरान की परमाणु आवश्यकताएँ भी शामिल हैं, का समाधान अंतिम समझौते में किया जाएगा।"
- Iran has **hundreds of kilograms of highly enriched uranium**, which the U.S. and Israel want to remove from the country and dilute or destroy.
  ईरान के पास **सैकड़ों किलोग्राम उच्च संवर्धित यूरेनियम** है, जिसे अमेरिका और इज़राइल देश से बाहर ले जाकर कम संवर्धित या नष्ट करना चाहते हैं।

Dhaka's new Padma barrage will reshape water power in the region

The new barrage will lie just 180 km downstream of the Farakka barrage in Bengal — which Bangladesh has blamed for its periodic water scarcity; the Farakka, one of India's largest with a feeder canal, was built to divert water from the Ganga to the Bhagirathi-Hoogly, and flush the Kolkata Port

GS II R

Sonikka S. Loganathan

CHENNAI

Bangladesh recently signed off on the new Padma barrage to control the Padma river, which is the Ganga in Bangladesh, and abate the country's seasonal water scarcity.

The 2.1-km-long structure will store 2,900 million cu. m of water to serve 6.5 crore people across southwestern and northern Bangladesh. It is estimated to cost Tk 50,443 crore (Rs 39,170 crore) over seven years.

The barrage will lie just 180 km downstream of the Farakka barrage in West Bengal – which Bangladesh has increasingly viewed as an impediment. The Farakka barrage is one of India's largest with a feeder canal and was built to divert water from the Ganga to the Bhagirathi-Hoogly and flush the Kolkata Port.

Under the 1996 Ganges Water Treaty, Bangladesh will receive half the water from the Farakka barrage when the flow is under 70,000 cusecs. But during the dry season between March and May, each country has to receive at least 35,000 cusecs of water in three alternating 10-day periods.

Treaties past and future

A 2019 review by a team of experts in *Water Policy* found that there were "repeated occurrences of low flow at Farakka during the drier years in the post-Treaty period," including in 1997, 2008, 2010 and 2016. They concluded that the 1996 Treaty couldn't account for rising unpredictability in the flows.

The agreement is set to expire in December 2026.

But Dhaka has also said the Farakka barrage is responsible for the country's periodic water scarcity. To add to the anxiety, several river-sharing agreements between India and Bangladesh also remain unsigned, including the Teesta River Treaty.

According to S. Janakarajan, president of the South Asia Consortium for Interdisciplinary Water Resources Studies, "All transboundary water issues centre around the lack of timely flow of water," implying the barrage will be a way for the lower riparian state to exert some control over its water resources.

But this equity will come at a considerable environmental cost.

Effects of Farakka barrage

The Farakka barrage has altered the Ganga river's character and ecology in Bangladesh. About a third of the country's population relies on the Ganga basin, mostly to irrigate crops. But by redirecting the river and reducing flow, the barrage has diminished groundwater recharge, reduced the extent of waterways for navigation, increased salinity, eroded riverbanks, and has left less freshwater flowing to the Sundarbans.

According to Mr. Janakarajan, "a substantial part of Bangladesh" is less than 10 m above sea level.

"In the near future, sea-level rise will lead to the disappearance of 17% of the territory of Bangladesh," researchers wrote in the *Journal of Marine Science and Engineering* in 2022.

This, they added, will "create 20 million refugees, and 2,20,000 km² of land will be submerged following a projected sea-level rise of 1,500 mm to take place within 150 years."

A view of the Padma river from space in 2016. NASA

Bangladesh also drew around 520 litres of groundwater per person per day in 2008 (the latest year for which the UN FAO Aquastat database provides national figures for withdrawals by source). While this is not particularly high, the country's dependence on groundwater is a matter of concern.

Because the Farakka barrage also reduces flow in the Padma, the Padma is less able to transport silt, which sinks to the riverbed and piles up. When the monsoons arrive, the river overflows quickly and floods.

The sediments are also crucial to maintaining ecosystems and the livelihoods that depend on them.

For example, the Sundarbans region hosts the world's largest contiguous mangrove forest and depends on water from the Ganga, Brahmaputra, and Meghna rivers. Mr. Janakarajan said less sediment and freshwater flowing from these barrages will cause water in the Sundarbans to become saline whereas the ecosystem requires brackish water, which is less salty.

These changes will also lead to fewer fish, affecting the lives and livelihoods of fisherfolk in the area.

Fondness for concrete

South Asia is currently on a dam-building spree. There are more than 160 hydroelectric power projects underway in the region, per a 2023 review in *Water*. China is also building what will be the world's largest dam over the upper course of the Brahmaputra, just before the river enters India. In response, India has initiated a Rs 6.4 lakh crore hydroelectric power project, including building over 200 dams in its Northeast.

Dams – of which barrages are a type – are generally designed to operate for a century. Climate change is breaking this guarantee.

To ensure a barrage doesn't overflow under heavy bursts of rain, for instance, engineers have to drain water from behind it using canals, Omair Ahmad, former South Asia managing editor at *Dialogue Earth*, said. However, this will require building extensive water diversion infrastructure that would likely be made of cement.

"Creating greater pondage here in a cement thing means water is not going into your groundwater. It cannot," Mr. Ahmad said. "It is robbing a much larger area around that barrage of the regular flow of water that would seep in from a river basin."

Given the adverse environmental consequences, experts said building another barrage is not the most rational choice.

"We think big projects will actually manage [water] despite historical evidence that they do not," Mr. Ahmad said. "It is rare for big projects to be able to manage this because ecosystems are a bit too complex."

Mr. Ahmad and Mr. Janakarajan also suggested that instead of one large barrage, Bangladesh should consider building a series of smaller check-dams, which don't dramatically alter a river's flow.

But this has the downside of requiring cross-country planning and maintenance, whereas a barrage will be 'confined' to a specific area.

"Water sharing is always going to be a political issue," Sreeradha Datta, an international affairs professor at O.P. Jindal Global University, said. "The more we try to tame the river, the more we fall into other issues [with] long-term consequences which we cannot see now. But in the immediate context, it looks beneficial, and we are always pandering to the constituency."

The Daily Star has reported Bangladeshi officials saying the government will build the Padma barrage with its own money. Experts, however, said the country lacks the engineering resources for a project of this scale and likely has help from China.

Working on a project so close to the border alongside India's scepticism towards Bangladesh's new Tarique Rahman administration could make India uncomfortable, Prof. Datta added.

"China gets to be seen more and more as a dominant water manager in South Asia, as it has already become in the Mekong," Mr. Ahmad said. "India becomes a less relevant actor within its own neighbourhood."

So far, India has not directly commented on the Padma barrage. Dhaka has said its relationship with India depends on what they agree about sharing the Ganga's waters – and New Delhi that all river-sharing issues will be handled within the existing bilateral framework.

The treaty's renewal process is underway.

Website : patrioticias.in

largest with a **feeder canal**, was built to divert water from the **Ganga** to the **Bhagirathi-Hoogly**, and flush the **Kolkata Port**.

- नया **बैराज बंगाल** स्थित **फरक्का बैराज** से मात्र **180 किमी डाउनस्ट्रीम** स्थित होगा — जिसके लिए **बांग्लादेश** समय-समय पर उत्पन्न होने वाली **जल कमी** को जिम्मेदार ठहराता रहा है; **फरक्का**, जो **भारत** के सबसे बड़े बैराजों में से एक है तथा जिसमें एक **फीडर नहर** है, का निर्माण **गंगा** के जल को **भागीरथी-हुगली** की ओर मोड़ने तथा **कोलकाता बंदरगाह** की सफाई (फ्लशिंग) हेतु किया गया था।
- **Bangladesh recently signed off on the new Padma barrage to control the Padma river, which is the Ganga in Bangladesh, and abate the country's seasonal water scarcity.**
  बांग्लादेश ने हाल ही में **पद्मा बैराज** को स्वीकृति प्रदान की है, जिसका उद्देश्य **पद्मा नदी** (जो बांग्लादेश में **गंगा** कहलाती है) को नियंत्रित करना तथा देश में होने वाली **मौसमी जल-संकट** की समस्या को कम करना है।
- The **2.1-km-long structure** will store **2,900 million cu. m of water** to serve **6.5 crore people** across southwestern and northern Bangladesh.
  यह **2.1 किमी लंबी संरचना 2,900 मिलियन घन मीटर जल** का भंडारण करेगी, जिससे दक्षिण-पश्चिमी और उत्तरी बांग्लादेश के **6.5 करोड़ लोगों** को लाभ मिलेगा।
- Under the **1996 Ganges Water Treaty**, Bangladesh will receive half the water from the Farakka barrage when the flow is under **70,000 cusecs**.
  1996 गंगा जल संधि के अंतर्गत, जब जलप्रवाह **70,000 क्यूसेक** से कम होता है, तब बांग्लादेश को **फरक्का बैराज** से उपलब्ध जल का आधा भाग प्राप्त होगा।
- But during the **dry season** between March and May, each country has to receive at least **35,000 cusecs of water** in three alternating 10-day periods.
  किन्तु **मार्च से मई** के मध्य आने वाले **शुष्क मौसम** में, दोनों देशों को तीन वैकल्पिक 10-दिवसीय अवधियों में कम-से-कम **35,000 क्यूसेक जल** प्राप्त होना अनिवार्य है।

- The agreement is set to expire in **December 2026**.
  यह समझौता **दिसम्बर 2026** में समाप्त होने वाला है।
- But **Dhaka** has also said the **Farakka barrage** is responsible for the country's periodic water scarcity.
  किन्तु **ढाका** ने यह भी कहा है कि देश में समय-समय पर उत्पन्न होने वाली **जल कमी** के लिए **फरक्का बैराज** उत्तरदायी है।
- To add to the anxiety, several **river-sharing agreements** between India and Bangladesh also remain unsigned, including the **Teesta River Treaty**.
  चिंता को और बढ़ाते हुए, भारत और बांग्लादेश के बीच कई **नदी-जल साझाकरण समझौते** अब भी हस्ताक्षरित नहीं हुए हैं, जिनमें **तीस्ता नदी संधि** भी शामिल है।

- The **Farakka barrage** has altered the **Ganga river's character and ecology** in Bangladesh.
  फरक्का बैराज ने बांग्लादेश में **गंगा नदी के स्वरूप और पारिस्थितिकी** को परिवर्तित कर दिया है।
- About a third of the country's population relies on the **Ganga basin**, mostly to irrigate crops.
  देश की लगभग एक-तिहाई जनसंख्या **गंगा बेसिन** पर निर्भर है, मुख्यतः फसलों की सिंचाई के लिए।
- But by redirecting the river and reducing flow, the barrage has diminished **groundwater recharge**, reduced the extent of waterways for navigation, increased **salinity**, eroded riverbanks, and has left less **freshwater** flowing to the **Sundarbans**.
  किन्तु नदी की धारा को मोड़ने और प्रवाह कम करने के कारण इस बैराज ने **भूजल पुनर्भरण** को घटाया है, नौवहन हेतु जलमार्गों के विस्तार को कम किया है, **लवणता** बढ़ाई है, नदी तटों का कटाव बढ़ाया है तथा **सुंदरबन** तक पहुँचने वाले **मीठे जल** की मात्रा कम कर दी है।
- "In the near future, **sea-level rise** will lead to the disappearance of **17% of the territory of Bangladesh**," researchers wrote in the **Journal of Marine Science and Engineering** in 2022.

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

2022 में **जर्नल ऑफ मरीन साइंस एंड इंजीनियरिंग** में प्रकाशित शोधकर्ताओं ने लिखा कि निकट भविष्य में **समुद्र-स्तर में वृद्धि** के कारण **बांग्लादेश के 17% भूभाग** के लुप्त होने की संभावना है।

- This, they added, will "create **20 million refugees**, and **2,20,000 km² of land** will be submerged following a projected sea-level rise of **1,500 mm** to take place within **150 years**."
  उन्होंने आगे कहा कि इससे **2 करोड़ शरणार्थी** उत्पन्न होंगे तथा आगामी **150 वर्षों** में अनुमानित **1,500 मिमी समुद्र-स्तर वृद्धि** के परिणामस्वरूप **2,20,000 वर्ग किमी भूमि** जलमग्न हो जाएगी।
- Bangladesh also drew around **520 litres of groundwater per person per day** in 2008 (the latest year for which the **UN FAO Aquastat database** provides national figures for withdrawals by source).
  बांग्लादेश ने वर्ष **2008** में प्रति व्यक्ति प्रतिदिन लगभग **520 लीटर भूजल** का उपयोग किया था (यह नवीनतम वर्ष है जिसके लिए **यूएन एफएओ एक्वास्टेट डेटाबेस** स्रोतवार राष्ट्रीय आँकड़े उपलब्ध कराता है)।
- Because the **Farakka barrage** also reduces flow in the **Padma**, the Padma is less able to transport **silt**, which sinks to the riverbed and piles up.
  चूँकि **फरक्का बैराज पद्मा नदी** में भी प्रवाह को कम करता है, इसलिए पद्मा **गाद (सिल्ट)** को पर्याप्त मात्रा में बहाकर नहीं ले जा पाती, जिससे वह नदी तल में जमा होने लगती है।
- The **sediments** are also crucial to maintaining ecosystems and the livelihoods that depend on them.
  अवसाद (सेडिमेंट) पारिस्थितिक तंत्रों तथा उन पर निर्भर आजीविकाओं को बनाए रखने के लिए भी अत्यंत महत्वपूर्ण हैं।
- For example, the **Sundarbans region** hosts the world's largest contiguous **mangrove forest** and depends on water from the **Ganga, Brahmaputra, and Meghna rivers**.
  उदाहरण के लिए, **सुंदरबन क्षेत्र** विश्व के सबसे बड़े सतत **मैंग्रोव वन** का निवास स्थान है और यह **गंगा, ब्रह्मपुत्र तथा मेघना नदियों** के जल पर निर्भर करता है।
- Mr. Janakarajan said less **sediment** and **freshwater** flowing from these barrages will cause water in the Sundarbans to become saline whereas the ecosystem requires **brackish water**, which is less salty.
  श्री जनकराजन ने कहा कि इन बैराजों से कम **अवसाद** और **मीठा जल** पहुँचने के कारण सुंदरबन का जल अधिक **लवणीय** हो जाएगा, जबकि वहाँ के पारिस्थितिक तंत्र को **खारा-मिश्रित जल (Brackish Water)** की आवश्यकता होती है, जो अपेक्षाकृत कम लवणीय होता है।
- These changes will also lead to fewer **fish**, affecting the lives and livelihoods of **fisherfolk** in the area.
  इन परिवर्तनों के कारण **मछलियों** की संख्या भी घटेगी, जिससे क्षेत्र के **मछुआरा समुदायों** के जीवन और आजीविका पर प्रतिकूल प्रभाव पड़ेगा।

Fondness for concrete
कंक्रीट संरचनाओं के प्रति बढ़ती रुचि

- There are more than **160 hydroelectric power projects** underway in the region, per a **2023 review in Water**.
  Water में प्रकाशित **2023 की समीक्षा** के अनुसार, इस क्षेत्र में **160 से अधिक जलविद्युत परियोजनाएँ** निर्माणाधीन हैं।
- **China** is also building what will be the world's largest **dam** over the upper course of the **Brahmaputra**, just before the river enters India.
  चीन भी **ब्रह्मपुत्र नदी** के ऊपरी प्रवाह पर विश्व के सबसे बड़े **बांध** का निर्माण कर रहा है, ठीक उस स्थान से पहले जहाँ यह नदी भारत में प्रवेश करती है।
- In response, **India** has initiated a **Rs 6.4 lakh crore hydroelectric power project**, including building over **200 dams** in its Northeast.

इसके प्रत्युत्तर में **भारत** ने **6.4 लाख करोड़ रुपये की जलविद्युत परियोजना** आरम्भ की है, जिसमें पूर्वोत्तर क्षेत्र में **200 से अधिक बांधों** का निर्माण शामिल है।

- **Dams** — of which **barrages** are a type — are generally designed to operate for a **century**.
  बांध, जिनमें **बैराज** भी एक प्रकार हैं, सामान्यतः **एक शताब्दी** तक संचालन हेतु डिज़ाइन किए जाते हैं।
- "Creating greater pondage here in a cement thing means water is not going into your **groundwater**. It cannot," Mr. Ahmad said.
  श्री अहमद ने कहा, "सीमेंट आधारित संरचना में अधिक जल भंडारण का अर्थ है कि जल **भूजल** में नहीं जा रहा है। यह संभव नहीं है।"
- "It is robbing a much larger area around that barrage of the regular flow of water that would seep in from a **river basin**."
  "यह उस बैराज के आसपास के एक बहुत बड़े क्षेत्र को उस नियमित जल प्रवाह से वंचित कर रहा है, जो सामान्यतः **नदी बेसिन** से रिसकर पहुँचता।"
- Mr. Ahmad and Mr. Janakarajan also suggested that instead of one large barrage, Bangladesh should consider building a series of smaller **check-dams**, which don't dramatically alter a river's flow.
  श्री अहमद और श्री जनकराजन ने सुझाव दिया कि एक बड़े बैराज के स्थान पर बांग्लादेश को छोटे-छोटे **चेक डैमों** की श्रृंखला के निर्माण पर विचार करना चाहिए, जो नदी के प्रवाह को अत्यधिक प्रभावित नहीं करते।
- **Dhaka** has said its relationship with India depends on what they agree about sharing the **Ganga's waters** — and **New Delhi** that all river-sharing issues will be handled within the existing bilateral framework.
  ढाका ने कहा है कि भारत के साथ उसके संबंध **गंगा के जल बंटवारे** पर सहमति पर निर्भर करते हैं, जबकि **नई दिल्ली** का कहना है कि सभी नदी-जल साझाकरण मुद्दों का समाधान वर्तमान द्विपक्षीय ढाँचे के अंतर्गत किया जाएगा।

PATRIOTIC IAS

Rubio's remarks and the limits of strategic empathy

GS II: IR

A day after the United States and Iran struck an interim deal on June 14, 2026, to end the war and reopen the Strait of Hormuz, it remains unclear whether the agreement will be implemented at all. Not only have details not been made public, but negotiators have, by all accounts, pushed the difficult issues down the road. There is no mention in the interim agreement of Iran's nuclear programme, its missile programme, or even ending Tehran's support for regional groups. Iran's top officials maintain that a final deal for a lasting truce is yet to take shape.

Washington's troubling response

These developments, though significant, are unlikely to make headlines in India, where policymakers and the public are still smarting over the deaths of three Indian sailors in a U.S. strike in the Strait of Hormuz on June 10.

Particularly galling are the remarks by the U.S. Secretary of State, Marco Rubio, who told External Affairs Minister S. Jaishankar last week that "violations of the American blockade and the illicit transport of Iranian oil would not be tolerated and that commercial vessels must immediately comply with US forces". There was reportedly no expression of condolence for the deaths of the sailors, nor any indication that the incident would prompt a broader reassessment of the risks now confronting civilian shipping in the Gulf.

The implication was unmistakable: Washington does not view the episode principally as a humanitarian tragedy requiring accountability, but as a compliance problem arising from the failure of merchant vessels to obey American directives.

That framing has implications for New Delhi. It suggests that for Washington, the safety of neutral shipping and the interests of partner countries during a conflict are secondary to the enforcement of U.S. strategic objectives.

Abhijit Singh

Retired naval officer and former Head of the Maritime Policy Initiative at the Observer Research Foundation (ORF), New Delhi

The U.S. Secretary of State's comments reveal the human cost of American strategic objectives

Merchant vessels are expected simply to comply with American instructions; should they become collateral victims of the increasingly militarised environment in the Strait of Hormuz, the costs are expected to be borne by the countries that own the ships and by the sailors who crew them.

Indian sailors stand alone

For a nation such as India, whose economic interests are deeply tied to the free flow of commerce through the Strait of Hormuz and whose citizens make up a significant share of the global maritime workforce, this should be unacceptable. Great power competition inevitably imposes costs on third parties with little say in the decisions that create or sustain crises. But those costs cannot simply be externalised onto partner countries and civilian mariners in the expectation that they will quietly acquiesce.

India's predicament is particularly stark because it supplies roughly a fifth of the world's maritime workforce but possesses few realistic means of ensuring the safety of its seafarers. The Indian Navy's escort operations in the Gulf are valuable but necessarily limited. They cannot protect the more than 18,000 Indian sailors in the region, many of whom serve aboard vessels registered under flags of convenience such as Palau, Guinea-Bissau and the Marshall Islands. Such flags offer little meaningful diplomatic protection in times of crisis. When things go wrong, Indian sailors are often left effectively stateless from a protection standpoint. The three deaths aboard the *MT Settebello* have exposed a structural vulnerability that New Delhi has long recognised but never adequately addressed.

Whether or not this will fundamentally alter the trajectory of India-U.S. relations is hard to say. The bilateral relationship possesses too many load-bearing elements – defence cooperation, critical technologies, the Indo-Pacific and the Quad (Australia, India, Japan, U.S..) – for one incident to trigger a rupture. Even so, Mr. Rubio's remarks seem to have done real damage at the level of trust and political optics. New Delhi's summoning of the U.S. Chargé d'Affaires twice within three days last week signals genuine anger. Many in India view Washington's response not as an aberration but as evidence of a deeper pattern: when the interests of partner states conflict with American strategic objectives, the U.S. invariably chooses itself.

Seeking accountability and answers

From an Indian standpoint, accountability for the incident has yet to be established. India must push for a credible, independent fact-finding investigation into the circumstances surrounding the strike. Beyond bilateral protest, New Delhi should consider taking the issue to multilateral forums, including the International Maritime Organization and consultations with other crewing and flag states. A lone démarche simply does not carry the weight of a coordinated international position. Importantly, Indian officials must articulate a principled and consistent position on maritime norms, one that applies irrespective of how powerful the state violating them may be.

For the Narendra Modi government, this episode is about more than the tragic deaths of three Indian sailors. Mr. Rubio's remarks have inadvertently laid bare an uncomfortable truth about great-power partnerships: strategic empathy has limits. The United States may regard India as an indispensable partner in the Indo-Pacific, but it will not subordinate its priorities in the Gulf to Indian sensitivities. That is not a reason for New Delhi to distance itself from Washington. It is, however, a reminder that close partnerships do not eliminate divergences of interest. India must continue to engage the U.S. with clear eyes and defend its maritime interests without assuming that others will do so on its behalf.

18J6. Rubio's remarks and the limits of strategic empathy
रुबियो की टिप्पणियाँ और रणनीतिक सहानुभूति की सीमाएँ

- India's predicament is particularly stark because it supplies roughly a **fifth of the world's maritime workforce** but possesses few realistic means of ensuring the safety of its seafarers.
  भारत की स्थिति विशेष रूप से गंभीर है क्योंकि वह विश्व के **समुद्री श्रमबल का लगभग पाँचवाँ भाग** उपलब्ध कराता है, किन्तु अपने नाविकों की सुरक्षा सुनिश्चित करने के लिए उसके पास सीमित व्यावहारिक साधन हैं।
- They cannot protect the more than **18,000 Indian sailors** in the region, many of whom serve aboard vessels registered under **flags of convenience** such as **Palau, Guinea-Bissau and the Marshall Islands**.
  वे क्षेत्र में कार्यरत **18,000 से अधिक भारतीय नाविकों** की सुरक्षा नहीं कर सकते, जिनमें से अनेक ऐसे जहाज़ों पर कार्यरत हैं जो **पलाऊ, गिनी-बिसाउ और मार्शल द्वीपसमूह** जैसे देशों के तथाकथित **सुविधा-आधारित ध्वज पंजीकरण** के अंतर्गत पंजीकृत हैं।
- The **three deaths aboard the MT Settebello** have exposed a structural vulnerability that New Delhi has long recognised but never adequately addressed.
  एमटी सेटेबेलो जहाज़ पर हुई तीन मौतों ने उस संरचनात्मक कमजोरी को उजागर कर दिया है जिसे नई दिल्ली लंबे समय से पहचानती रही है, किन्तु जिसका पर्याप्त समाधान नहीं किया गया।
- The bilateral relationship possesses too many load-bearing elements — **defence cooperation, critical technologies, the Indo-Pacific and the Quad** — for one incident to trigger a rupture.
  द्विपक्षीय संबंधों में **रक्षा सहयोग, महत्वपूर्ण प्रौद्योगिकियाँ, हिंद-प्रशांत क्षेत्र तथा चतुष्पक्षीय समूह** जैसे अनेक महत्वपूर्ण स्तंभ हैं, इसलिए किसी एक घटना से संबंधों में गंभीर टूटन की संभावना कम है।
- Beyond bilateral protest, New Delhi should consider taking the issue to multilateral forums, including the **International Maritime Organization** and consultations with other crewing and flag states.

द्विपक्षीय विरोध से आगे बढ़ते हुए नई दिल्ली को इस मुद्दे को **अंतरराष्ट्रीय समुद्री संगठन** सहित बहुपक्षीय मंचों तथा अन्य नाविक-आपूर्ति और ध्वजधारी देशों के साथ विचार-विमर्श में उठाने पर विचार करना चाहिए।

What does the India-Russia logistics agreement allow?

What is RELOS, and does it allow India and Russia to station troops on each other's territory?

GS II, III

Dinakar Peri

The story so far:

The India-Russia bilateral Logistics Support Agreement (LSA), termed the Reciprocal Exchange of Logistics Agreement (RELOS), which had been dragging on for several years, was operationalised in January this year. There was a flutter on social media recently with claims that it allows the stationing of 3,000 Russian troops on Indian soil or vice versa, painting it as a military alliance. However, it is like any LSA, the likes of which India has signed with other countries.

What are Logistics Support Agreements?

A logistics agreement is a foundational military cooperation agreement between countries for administrative purposes that enables the reciprocal use of each other's bases and ports for supplies, repair, and fuel. The agreement also stipulates the occasions on which this can be utilised, generally for exercises, joint training, port calls, and Humanitarian Assistance and Disaster Relief situations. As defence cooperation and military-to-military engagement become vital in international relations, the agreement simplifies essential administrative procedures and reduces bureaucracy.

For instance, the agreement with the U.S., Logistics Exchange Memorandum of Agreement (LEMOA) signed in 2016, the first such, provides a framework for reciprocal provision of logistic support, supplies and services for activities such as joint exercises, training, or humanitarian assistance and disaster relief. "It does not provide for the establishment of any bases or basing arrangements," Minister of State for Defence Subhash Bhamre said in a written reply in the Parliament in February 2017.

If the hyperbole is to be believed, India and Russia can station troops on each other's territory, then by convention, it also means that India and the U.S. can do the same under the LEMOA. But that is grossly incorrect, as clarified by the Minister, and is so for any LSA.

What are the existing agreements?

India has signed a series of logistics support agreements since the LEMOA in 2016. Currently, India has similar agreements with nine countries – the U.S., the U.K., France, Vietnam, Japan, Australia, Singapore, and Russia – concluded on similar lines, which provide logistics support and technical aid. The basic template and purpose for all these remain the same. There is also one with Oman covered under the overarching defence cooperation agreement.

What is the agreement with Russia?

Like other agreements, RELOS defines procedures for supporting military formations, port calls of warships, and the use of airspace and airfield facilities by military aircraft of both countries and the organisation of logistics and technical support of military formations of warships, military aircraft, and other equipment.

The agreement was signed in Moscow on February 18, 2025, and Russian President Vladimir Putin signed the federal law ratifying it on December 15, 2025. According to the Kremlin, the purpose of the agreement is to define the procedures for the deployment of military formations, port calls by warships, and the use of airspace and airfield infrastructure by military aircraft of the two countries.

Broadly, RELOS covers joint military exercises, training, HADR missions, port and repair services, medical support, as well as delivery of food and technical resources and reciprocal access to military facilities, including airbases and ports, to support ship and aircraft personnel.

The agreement stipulates a maximum of 3,000 troops, representing a broad upper limit that takes into account the size of contingents and the number of ships or aircraft that may visit during engagements mutually agreed upon by both sides. It is valid for a period of five years, allowing for revisions later to reflect changing circumstances and requirements. The time frame for positioning of assets and personnel would be subject to the visit mutually agreed upon by both parties, one official said.

In fact, the scale of bilateral and multilateral relations between India and other countries is much larger. Indian armed forces exercise with the U.S. now.

Also, the agreement does not confer any provision for permanent basing of assets, and the agreement shall be exercised during joint exercises, port calls, or visits mutually agreed by both nations based on provisions of the agreement, officials clarified. "No permanent or long-term stationing has been agreed upon as part of the Agreement."

One important aspect is that RELOS gives access to Russian military facilities in the Arctic as both countries expand cooperation there, as new navigation routes open up, a fallout of global warming.

18J6. What does the India-Russia logistics agreement allow?
भारत-रूस लॉजिस्टिक्स समझौता क्या अनुमति प्रदान करता है?

India-Russia Logistics Support Agreement (RELOS)
भारत-रूस रसद सहयोग समझौता (रेलोस)

- The **India-Russia bilateral Logistics Support Agreement**, termed the **Reciprocal Exchange of Logistics Agreement**, which had been dragging on for several years, was operationalised in January this year.
  भारत-रूस द्विपक्षीय रसद सहयोग समझौता, जिसे **पारस्परिक रसद विनिमय समझौता** कहा जाता है, कई वर्षों से लंबित रहने के बाद इस वर्ष जनवरी में लागू किया गया।
- There was a flutter on social media recently with claims that it allows the stationing of **3,000 Russian troops** on Indian soil or vice versa, painting it as a military alliance.
  हाल ही में सामाजिक माध्यमों पर यह दावा किया गया कि यह समझौता भारत में **3,000 रूसी सैनिकों** अथवा रूस में भारतीय सैनिकों की तैनाती की अनुमति देता है, और इसे सैन्य गठबंधन के रूप में प्रस्तुत किया गया।
- However, it is like any Logistics Support Agreement, the likes of which India has signed with other countries.
  किन्तु यह अन्य **रसद सहयोग समझौतों** की ही तरह है, जिन पर भारत ने कई देशों के साथ हस्ताक्षर किए हैं।

What are Logistics Support Agreements?
रसद सहयोग समझौते क्या हैं?

- A logistics agreement is a foundational military cooperation agreement between countries for administrative purposes that enables the reciprocal use of each other's bases and ports for supplies, repair, and fuel.
  रसद सहयोग समझौता देशों के बीच प्रशासनिक उद्देश्यों के लिए किया जाने वाला एक मूलभूत सैन्य सहयोग समझौता है, जो एक-दूसरे के अड्डों और बंदरगाहों का उपयोग आपूर्ति, मरम्मत तथा ईंधन भरने के लिए संभव बनाता है।
- The agreement also stipulates the occasions on which this can be utilised, generally for exercises, joint training, port calls, and humanitarian assistance and disaster relief situations.

यह समझौता उन परिस्थितियों को भी निर्धारित करता है जिनमें इसका उपयोग किया जा सकता है, जैसे सैन्य अभ्यास, संयुक्त प्रशिक्षण, बंदरगाह यात्राएँ तथा मानवीय सहायता एवं आपदा राहत अभियान।

- As defence cooperation and military-to-military engagement become vital in international relations, the agreement simplifies essential administrative procedures and reduces bureaucracy.
  अंतरराष्ट्रीय संबंधों में रक्षा सहयोग और सैन्य संपर्कों के बढ़ते महत्व के कारण यह समझौता आवश्यक प्रशासनिक प्रक्रियाओं को सरल बनाता है और नौकरशाही बाधाओं को कम करता है।
- For instance, the agreement with the **United States**, called the **Logistics Exchange Memorandum of Agreement**, signed in 2016, was the first such arrangement.
  उदाहरण के लिए, **संयुक्त राज्य अमेरिका** के साथ वर्ष 2016 में हस्ताक्षरित **रसद विनिमय ज्ञापन समझौता** इस प्रकार की पहली व्यवस्था थी।
- It provides a framework for reciprocal provision of logistic support, supplies and services for activities such as joint exercises, training, or humanitarian assistance and disaster relief.
  यह संयुक्त सैन्य अभ्यासों, प्रशिक्षण तथा मानवीय सहायता एवं आपदा राहत गतिविधियों के लिए पारस्परिक रसद सहायता, आपूर्ति और सेवाएँ उपलब्ध कराने का ढाँचा प्रदान करता है।
- "It does not provide for the establishment of any bases or basing arrangements," Minister of State for Defence **Subhash Bhamre** said in a written reply in Parliament in February 2017.
  रक्षा राज्य मंत्री **सुभाष भामरे** ने फरवरी 2017 में संसद में लिखित उत्तर देते हुए स्पष्ट किया था कि यह किसी सैन्य अड्डे की स्थापना अथवा स्थायी तैनाती की व्यवस्था प्रदान नहीं करता।
- If the hyperbole is to be believed, India and Russia can station troops on each other's territory, then by convention, it also means that India and the United States can do the same under the logistics exchange agreement.
  यदि अतिरंजित दावों को सही माना जाए, तो भारत और रूस एक-दूसरे के क्षेत्र में सैनिक तैनात कर सकते हैं, और उसी तर्क के अनुसार भारत तथा अमेरिका भी ऐसा कर सकते हैं।
- But that is grossly incorrect, as clarified by the Minister, and is so for any logistics support agreement.
  किन्तु मंत्री द्वारा स्पष्ट किया गया कि यह पूर्णतः गलत व्याख्या है और यही स्थिति सभी रसद सहयोग समझौतों पर लागू होती है।

What are the existing agreements?
वर्तमान समझौते कौन-कौन से हैं?

- India has signed a series of logistics support agreements since the logistics exchange agreement in 2016.
  भारत ने वर्ष 2016 के बाद से अनेक रसद सहयोग समझौतों पर हस्ताक्षर किए हैं।
- Currently, India has similar agreements with **the United States, the United Kingdom, France, Vietnam, Japan, Australia, Singapore, and Russia**.
  वर्तमान में भारत के **संयुक्त राज्य अमेरिका, यूनाइटेड किंगडम, फ्रांस, वियतनाम, जापान, ऑस्ट्रेलिया, सिंगापुर तथा रूस** के साथ ऐसे समझौते हैं।
- These agreements provide logistics support and technical assistance.
  ये समझौते रसद सहायता तथा तकनीकी सहयोग प्रदान करते हैं।
- There is also one with **Oman** covered under the overarching defence cooperation agreement.
  ओमान के साथ भी व्यापक रक्षा सहयोग समझौते के अंतर्गत ऐसी व्यवस्था मौजूद है।

What is the agreement with Russia?
रूस के साथ समझौता क्या है?

- Like other agreements, the **Reciprocal Exchange of Logistics Agreement** defines procedures for supporting military formations, port calls of warships, and the use of airspace and airfield facilities by military aircraft of both countries.

Contact Number : 9971932488
Website : patrioticias.in

अन्य समझौतों की तरह **पारस्परिक रसद विनिमय समझौता** सैन्य टुकड़ियों के समर्थन, युद्धपोतों की बंदरगाह यात्राओं तथा दोनों देशों के सैन्य विमानों द्वारा वायुक्षेत्र और हवाई अड्डा सुविधाओं के उपयोग की प्रक्रियाएँ निर्धारित करता है।

- It also covers logistics and technical support for warships, military aircraft, and other defence equipment.
  यह युद्धपोतों, सैन्य विमानों तथा अन्य रक्षा उपकरणों के लिए रसद एवं तकनीकी सहायता की व्यवस्था भी करता है।
- The agreement was signed in **Moscow** on **February 18, 2025**, and **President Vladimir Putin** signed the federal law ratifying it on **December 15, 2025**.
  इस समझौते पर **18 फरवरी 2025** को **मॉस्को** में हस्ताक्षर किए गए थे और **राष्ट्रपति व्लादिमीर पुतिन** ने **15 दिसंबर 2025** को इसके अनुमोदन संबंधी संघीय कानून पर हस्ताक्षर किए।
- According to the Kremlin, the purpose of the agreement is to define procedures for the deployment of military formations, port calls by warships, and the use of airspace and airfield infrastructure by military aircraft of the two countries.
  क्रेमलिन के अनुसार इस समझौते का उद्देश्य सैन्य टुकड़ियों की तैनाती, युद्धपोतों की बंदरगाह यात्राओं तथा दोनों देशों के सैन्य विमानों द्वारा वायुक्षेत्र और हवाई अड्डा अवसंरचना के उपयोग की प्रक्रियाओं को निर्धारित करना है।
- Broadly, the agreement covers **joint military exercises, training, humanitarian assistance and disaster relief missions, port and repair services, medical support, food supplies, technical resources, and reciprocal access to military facilities**.
  व्यापक रूप से यह समझौता **संयुक्त सैन्य अभ्यास, प्रशिक्षण, मानवीय सहायता एवं आपदा राहत अभियान, बंदरगाह एवं मरम्मत सेवाएँ, चिकित्सीय सहायता, खाद्य आपूर्ति, तकनीकी संसाधन तथा सैन्य सुविधाओं तक पारस्परिक पहुँच** को सम्मिलित करता है।
- The agreement stipulates a maximum of **3,000 troops**, representing a broad upper limit that takes into account the size of contingents and the number of ships or aircraft that may visit during mutually agreed engagements.
  समझौते में **3,000 सैनिकों** की अधिकतम सीमा का उल्लेख है, जो केवल एक व्यापक उच्चतम सीमा है और इसमें संयुक्त गतिविधियों के दौरान आने वाले सैन्य दलों, जहाज़ों और विमानों की संख्या को ध्यान में रखा गया है।
- It is valid for a period of **five years**, allowing for revisions later to reflect changing circumstances and requirements.
  यह समझौता **पाँच वर्षों** के लिए वैध है और भविष्य में बदलती आवश्यकताओं के अनुसार इसमें संशोधन किया जा सकता है।
- Also, the agreement does not confer any provision for **permanent basing of assets**.
  इसके अतिरिक्त यह समझौता **स्थायी सैन्य तैनाती** का कोई प्रावधान प्रदान नहीं करता।
- The agreement shall be exercised during joint exercises, port calls, or visits mutually agreed upon by both nations.
  इसका उपयोग केवल संयुक्त सैन्य अभ्यासों, बंदरगाह यात्राओं अथवा दोनों देशों द्वारा स्वीकृत अन्य दौरों के दौरान किया जाएगा।
- Officials clarified that **no permanent or long-term stationing has been agreed upon as part of the agreement**.
  अधिकारियों ने स्पष्ट किया है कि **इस समझौते के अंतर्गत किसी स्थायी अथवा दीर्घकालिक तैनाती पर सहमति नहीं बनी है**।
- One important aspect is that the agreement gives access to **Russian military facilities in the Arctic** as both countries expand cooperation there, especially as new navigation routes open due to **global warming**.
  एक महत्वपूर्ण पहलू यह है कि यह समझौता **आर्कटिक क्षेत्र में रूसी सैन्य सुविधाओं** तक पहुँच प्रदान करता है, जहाँ **वैश्विक तापवृद्धि** के कारण नए समुद्री मार्ग खुलने के साथ दोनों देश अपना सहयोग बढ़ा रहे हैं।

U.S. drops 'Indo' from name of its military's Pacific Command

GS II: IR

Agence France-Presse
WASHINGTON

The Pentagon is restoring the name of the U.S. Indo-Pacific Command to the U.S. Pacific Command, it said on Tuesday, reversing a 2018 decision.

The renaming will not change the command's area of responsibility, which stretches from the western part of India to America's Pacific coastline, the Department of War said in a statement.

Its "fundamental mission and its unwavering commitment to maintaining a free and open theatre alongside regional allies and partners" also remain unchanged, it added. The name change "honours the command's deep historical roots, fostering a sense of pride and collective spirit among all who serve in the Pacific," the department said.

The U.S. Pacific Command was established after the Second World War. It was renamed as the U.S. Indo-Pacific Command in 2018, in a nod to the growing importance of the Indian Ocean in U.S. strategic thinking.

18J6. U.S. drops 'Indo' from name of its military's Paci• c Command

अमेरिका ने अपनी सैन्य 'इंडो-पैसिफिक कमांड' के नाम से 'इंडो' शब्द हटाया

- The **Pentagon** is restoring the name of the **U.S. Indo-Pacific Command** to the **U.S. Pacific Command**, it said on Tuesday, reversing a **2018** decision.

पेंटागन ने मंगलवार को कहा कि वह **यू.एस. इंडो-पैसिफिक कमांड** का नाम बदलकर फिर से **यू.एस. पैसिफिक कमांड** कर रहा है, जिससे **2018** का निर्णय पलट दिया गया है।

- The renaming will not change the command's **area of responsibility**, which stretches from the western part of **India** to **America's Pacific coastline**, the **Department of War** said in a statement.

डिपार्टमेंट ऑफ वॉर ने एक बयान में कहा कि इस नाम परिवर्तन से कमांड के **उत्तरदायित्व क्षेत्र** में कोई बदलाव नहीं होगा, जो **भारत** के पश्चिमी भाग से लेकर **अमेरिका के प्रशांत तट** तक फैला हुआ है।

- Its "**fundamental mission** and its unwavering commitment to maintaining a **free and open theatre** alongside regional allies and partners" also remain unchanged, it added.

बयान में कहा गया कि इसका "**मूल मिशन** और क्षेत्रीय सहयोगियों तथा साझेदारों के साथ एक **मुक्त और खुला क्षेत्र** बनाए रखने की अटूट प्रतिबद्धता" भी अपरिवर्तित रहेगी।

- The **U.S. Pacific Command** was established after the **Second World War**.

यू.एस. पैसिफिक कमांड की स्थापना **द्वितीय विश्व युद्ध** के बाद की गई थी।

- It was renamed as the **U.S. Indo-Pacific Command** in **2018**, in a nod to the growing importance of the **Indian Ocean** in **U.S. strategic thinking**.

इसे **2018** में **यू.एस. इंडो-पैसिफिक कमांड** नाम दिया गया था, जो **अमेरिकी रणनीतिक सोच** में **हिन्द महासागर** के बढ़ते महत्व को दर्शाता था।

The RBI and its growing fiscal role

RBI's record ₹2.87 lakh crore surplus transfer to the Centre shows its growing fiscal significance, as earnings from reserve management and foreign assets support govt. finances; the trend raises questions about central bank independence, fiscal centralisation, and exclusion of such transfers from fiscal devolution to States

GS III: Economy

ECONOMIC NOTES

Deepanshu Mohan
Ankur Singh

The Reserve Bank of India continues to operate within a well-defined framework. REUTERS

Central banks occupy a peculiar position in modern democracies. Governments spend, tax, and borrow. Central banks manage inflation, preserve confidence in the currency, and safeguard financial stability. Their credibility rests on maintaining a degree of distance from the fiscal compulsions of the governments they serve.

Recent developments surrounding the Reserve Bank of India (RBI) invite a closer examination of that relationship.

Much of the recent discussion has focused on the RBI's management of foreign exchange reserves, interventions with respect to managing the rupee, including instances of reserve-rebalancing through gold sales, and increased foreign-currency holdings.

Yet, the more consequential story surrounding this is the extent to which the institution may be seen to be becoming more executive or fiscalised in its role to support the government.

In May, the RBI approved a record surplus transfer of ₹2.87 lakh crore to the Union government for FY26. While fully consistent with the Economic Capital Framework, its scale raises questions about the evolving role of the central bank within India's fiscal architecture.

A structural shift

Surplus transfers have been around the ₹30,000 crore to ₹65,000 crore level for the past few years. The tipping point was reached in 2019 after the implementation of the revised Economic Capital Framework.

The transfer is now at a record high of ₹2.87 lakh crore for FY26.

This move coincides with the phenomenal growth of the RBI's balance sheet. It increased by 20.6% in one year to ₹91.97 lakh crore by March 2026. Gross income increased by over 26% during the same period.

Traditionally, governments fund expenditure through taxation, borrowing, and revenue growth. Political consent is needed for taxation. Borrowing is disciplined by markets and future repayment obligations. Economic growth requires real growth in productive capacity.

Central-bank transfers are different. They generate fiscal space without new taxes, new borrowing, or commensurate growth in economic production. The latest transfer alone is bigger than the annual budgets of several Indian States.

This is not a bad practice to make such transfers. However, it does pose an interesting question. When does a stabilising institution start to act as a fiscal instrument?

The evolution of the RBI's reserve management is a good example.

The RBI may have sold almost $12 billion worth of gold and bought foreign-currency assets by about $7.5 billion in the face of rupee pressures, according to recent reports.

These are standard reserve-management decisions when looked at superficially. Central banks are constantly adjusting their portfolios based on market conditions. Gold is a strategic reserve asset. Foreign-currency assets are the source of liquidity for intervening in exchange-rate markets.

However, the management of reserves has become a financial issue.

The recent surplus transfer included a significant portion of gains from foreign assets, foreign exchange transactions, and interest earned on securities holdings. The activities are mainly being carried out to ensure monetary and financial stability, but are also producing increasingly significant fiscal revenues for the sovereign.

This is where the discussion transcends accounting. The RBI's balance sheet is now at ₹92 lakh crore. The composition of reserves, intervention in the exchange rate, and asset allocation decisions now impact not just monetary stability, but also the economy's overall health. They are becoming more and more important for fiscal results as well.

The experience of India is different from that of the advanced economies, where central banks became entangled with fiscal policy by engaging in quantitative easing and buying a large number of bonds. In this case, the link has come about because of the increasing significance of the fiscal value of central-bank earnings.

The federal blind spot

The least talked about part of this debate is fiscal federalism.

The total amount of ₹2.87 lakh crore transfer is non-tax revenue and hence it is a Union government gain. It is not part of the divisible pool of income tax collections or GST revenues which are subject to Finance Commission formulas. There is no automatic share to the States.

States still have significant spending obligations. Concurrently, they have restrictions on borrowing under Article 293 and have much less fiscal flexibility than the Union government.

However, one of the biggest transfers of resources from the public sector in recent years is still not part of fiscal devolution.

The point isn't whether States have a legal claim to RBI profits. They do not. The question is whether a central institution acting on behalf of the monetary union as a whole should indirectly support fiscal centralisation, without any mention of accountability, transparency or federal balance.

Dividend transfers, cesses, surcharges and borrowing restrictions are all considered to be individual policy instruments when viewed individually. Together, they show a progressive shift in the fiscal landscape of India towards the centre.

An evolving institution

The debate over the RBI's record surplus transfer is therefore not ultimately about the dividend itself. It is about how modern states finance themselves.

The central bank has evolved from being primarily a guardian of monetary stability into an increasingly important source of fiscal capacity. The latest transfer may have eased borrowing pressures and strengthened the government's fiscal position, but it also underscores how closely monetary institutions and fiscal outcomes have become intertwined.

The RBI continues to operate within a well-defined framework and retains substantial operational autonomy. Yet central bank independence is not merely a matter of legal design. It is also a question of institutional distance.

As surplus transfers become larger and fiscal pressures intensify, preserving that distance may become more difficult. It may also become more important.

(Deepanshu Mohan is Dean and Professor of Economics at O.P. Jindal Global University. He is currently Visiting Professor at LSE and a Visiting Research Fellow at University of Oxford. Ankur Singh is a Research Analyst with Centre for New Economics Studies)

THE GIST

- The RBI's balance sheet increased by 20.6% in one year to ₹91.97 lakh crore by March 2026, while gross income rose by over 26% during the same period.
- The RBI may have sold almost $12 billion worth of gold and bought foreign-currency assets by about $7.5 billion in the face of rupee pressures, with the recent surplus transfer including gains from foreign assets, foreign exchange transactions and interest earned on securities holdings.

18J6. The RBI and its growing fiscal role
आरबीआई और उसकी बढ़ती राजकोषीय भूमिका

- **RBI's record ₹2.87 lakh crore surplus transfer to the Centre shows its growing fiscal significance, as earnings from reserve management and foreign assets support govt. finances; the trend raises questions about central bank independence, fiscal centralisation, and exclusion of such transfers from fiscal devolution to States**
- **केंद्र को आरबीआई द्वारा किए गए रिकॉर्ड ₹2.87 लाख करोड़ के अधिशेष हस्तांतरण से उसकी बढ़ती राजकोषीय महत्ता स्पष्ट होती है, क्योंकि आरक्षित निधियों के प्रबंधन तथा विदेशी परिसंपत्तियों से प्राप्त आय सरकार के वित्त को समर्थन प्रदान करती है; यह प्रवृत्ति केंद्रीय बैंक की स्वतंत्रता, राजकोषीय केंद्रीकरण तथा राज्यों को होने वाले राजकोषीय हस्तांतरण से ऐसी राशि को बाहर रखने संबंधी प्रश्न भी उठाती है।**
- Central banks manage **inflation**, preserve confidence in the **currency**, and safeguard **financial stability**.
  केंद्रीय बैंक **मुद्रास्फीति** का प्रबंधन करते हैं, **मुद्रा** में विश्वास बनाए रखते हैं तथा **वित्तीय स्थिरता** सुनिश्चित करते हैं।

A structural shift
एक संरचनात्मक परिवर्तन

- Surplus transfers have been around the **₹30,000 crore to ₹65,000 crore** level for the past few years.
  पिछले कुछ वर्षों में अधिशेष हस्तांतरण की राशि सामान्यतः **30,000 करोड़ रुपये से 65,000 करोड़ रुपये** के बीच रही है।
- The tipping point was reached in **2019** after the implementation of the revised **Economic Capital Framework**.
  संशोधित **आर्थिक पूंजी ढाँचे** के लागू होने के बाद **2019** में एक निर्णायक मोड़ आया।
- The transfer is now at a record high of **₹2.87 lakh crore** for FY26.
  वित्तीय वर्ष 2026 के लिए यह हस्तांतरण अब बढ़कर रिकॉर्ड **2.87 लाख करोड़ रुपये** तक पहुँच गया है।
- The latest transfer alone is bigger than the annual budgets of several Indian States.
  हालिया हस्तांतरण अकेले ही भारत के अनेक राज्यों के वार्षिक बजट से अधिक है।
- This is not a bad practice to make such transfers.
  ऐसे हस्तांतरण करना स्वयं में कोई अनुचित प्रथा नहीं है।
- However, it does pose an interesting question.
  किन्तु यह एक महत्वपूर्ण प्रश्न अवश्य उत्पन्न करता है।
- When does a stabilising institution start to act as a fiscal instrument?
  एक स्थिरता प्रदान करने वाली संस्था कब राजकोषीय साधन के रूप में कार्य करने लगती है?
- The evolution of the RBI's **reserve management** is a good example.
  भारतीय रिज़र्व बैंक के **भंडार प्रबंधन** का विकास इसका एक अच्छा उदाहरण है।
- The RBI may have sold almost **12 billion डॉलर** worth of gold and bought foreign-currency assets by about **7.5 billion डॉलर** in the face of rupee pressures, according to recent reports.
  हालिया रिपोर्टों के अनुसार रुपये पर दबाव की स्थिति में भारतीय रिज़र्व बैंक ने लगभग **12 अरब डॉलर मूल्य का स्वर्ण** बेचा तथा लगभग **7.5 अरब डॉलर मूल्य की विदेशी मुद्रा परिसंपत्तियाँ** खरीदीं।
- These are standard reserve-management decisions when looked at superficially.
  सतही दृष्टि से देखें तो ये सामान्य भंडार प्रबंधन संबंधी निर्णय हैं।
- Central banks are constantly adjusting their portfolios based on market conditions.
  केंद्रीय बैंक बाजार परिस्थितियों के अनुसार निरंतर अपने निवेश पोर्टफोलियो में परिवर्तन करते रहते हैं।
- Gold is a strategic reserve asset.
  स्वर्ण एक रणनीतिक आरक्षित परिसंपत्ति है।
- Foreign-currency assets are the source of liquidity for intervening in exchange-rate markets.
  विदेशी मुद्रा परिसंपत्तियाँ विनिमय दर बाजारों में हस्तक्षेप हेतु आवश्यक तरलता का स्रोत होती हैं।
- However, the management of reserves has become a fiscal issue.
  किन्तु अब भंडार प्रबंधन एक राजकोषीय विषय भी बन गया है।
- The recent surplus transfer included a significant portion of gains from **foreign assets**, **foreign exchange transactions**, and interest earned on securities holdings.
  हालिया अधिशेष हस्तांतरण में **विदेशी परिसंपत्तियों**, **विदेशी मुद्रा लेन-देन**, तथा प्रतिभूतियों पर अर्जित ब्याज से प्राप्त लाभ का महत्वपूर्ण हिस्सा शामिल था।
- The activities are mainly being carried out to ensure monetary and financial stability, but are also producing increasingly significant fiscal revenues for the sovereign.
  यद्यपि ये गतिविधियाँ मुख्य रूप से मौद्रिक और वित्तीय स्थिरता बनाए रखने के लिए की जाती हैं, फिर भी इनके माध्यम से सरकार को लगातार बढ़ता हुआ महत्वपूर्ण राजकोषीय राजस्व प्राप्त हो रहा है।
- This is where the discussion transcends **accounting**.
  यहीं पर यह चर्चा केवल **लेखांकन** के दायरे से आगे बढ़ जाती है।
- The RBI's **balance sheet** is now at **₹92 lakh crore**.
  भारतीय रिज़र्व बैंक की **तुलन पत्र** अब **92 लाख करोड़ रुपये** तक पहुँच चुकी है।

Address : 3rd Floor, KV Tower, Padleyganj Road, Gorakhpur
Email Id : info@patrioticias.in
Contact Number : 9971932488
Website : patrioticias.in

- The composition of reserves, intervention in the exchange rate, and asset allocation decisions now impact not just monetary stability, but also the economy's overall health.
  भंडार की संरचना, विनिमय दर में हस्तक्षेप तथा परिसंपत्ति आवंटन से संबंधित निर्णय अब केवल मौद्रिक स्थिरता ही नहीं, बल्कि समग्र अर्थव्यवस्था की स्थिति को भी प्रभावित करते हैं।
- They are becoming more and more important for **fiscal outcomes** as well.
  ये निर्णय **राजकोषीय परिणामों** के लिए भी लगातार अधिक महत्वपूर्ण होते जा रहे हैं।
- The experience of India is different from that of the **advanced economies**, where central banks became entangled with fiscal policy by engaging in **quantitative easing** and buying a large number of bonds.
  भारत का अनुभव **विकसित अर्थव्यवस्थाओं** से भिन्न है, जहाँ केंद्रीय बैंक **मात्रात्मक सहजता** की नीति अपनाकर तथा बड़ी मात्रा में बांड खरीदकर राजकोषीय नीति से गहराई से जुड़ गए थे।
- In this case, the link has come about because of the increasing significance of the fiscal value of **central-bank earnings**.
  भारत के मामले में यह संबंध **केंद्रीय बैंक की आय के राजकोषीय महत्व** में बढ़ोतरी के कारण विकसित हुआ है।

The federal blind spot
संघीय व्यवस्था की उपेक्षित चुनौती

- The least talked about part of this debate is **fiscal federalism**.
  इस बहस का सबसे कम चर्चित पक्ष **राजकोषीय संघवाद** है।
- The total amount of **₹2.87 lakh crore transfer** is non-tax revenue and hence it is a Union government gain.
  2.87 लाख करोड़ रुपये का यह हस्तांतरण करेतर राजस्व है और इसलिए इसका लाभ केंद्र सरकार को प्राप्त होता है।
- It is not part of the divisible pool of **income tax collections** or **goods and services tax revenues** which are subject to Finance Commission formulas.
  यह **आयकर संग्रह** अथवा **वस्तु एवं सेवा कर राजस्व** के उस विभाज्य कोष का हिस्सा नहीं है, जिसका वितरण वित्त आयोग के सूत्रों के अनुसार किया जाता है।
- There is no automatic share to the States.
  इसमें राज्यों के लिए कोई स्वचालित हिस्सा निर्धारित नहीं है।
- States still have significant spending obligations.
  राज्यों पर अब भी महत्वपूर्ण व्यय संबंधी दायित्व हैं।
- Concurrently, they have restrictions on borrowing under **Article 293** and have much less fiscal flexibility than the Union government.
  साथ ही, उन पर **अनुच्छेद 293** के अंतर्गत उधारी संबंधी प्रतिबंध लागू हैं तथा उनके पास केंद्र सरकार की तुलना में कहीं कम राजकोषीय लचीलापन है।
- **Dividend transfers**, **cesses**, **surcharges** and borrowing restrictions are all considered to be individual policy instruments when viewed individually.
  लाभांश हस्तांतरण, **उपकर**, **अधिभार** तथा उधारी संबंधी प्रतिबंधों को अलग-अलग देखने पर स्वतंत्र नीतिगत साधन माना जाता है।

GS III: Economy

RBI allows banks to offer higher interest to NRIs/PIOs

The Reserve Bank of India (RBI) has decided to temporarily withdraw the interest rate ceiling on fresh Foreign Currently Non-Resident-Bank [FCNR(B)] deposits of 3-5 year tenors and the restriction on interest rates on Non-Resident External (NRE) deposits of three-year and above tenors, including deposits that are renewed upon maturity. The move, a review of its 2025 direction, is to boost forex reserves and will be in effect till September 30, 2026. The central bank issued amendment directions to this effect on Wednesday. As per the directions, banks will be able to offer higher interest rates to this specific category of depositors and interest rates on NRE/NRO deposits will not be higher than those offered by the bank on comparable domestic rupee term deposits.

18J6. RBI allows banks to offer higher interest to NRIs/PIOs
RBI ने बैंकों को NRI/PIO जमाकर्ताओं को अधिक ब्याज

देने की अनुमति दी

- The **Reserve Bank of India (RBI)** has decided to temporarily withdraw the **interest rate ceiling** on fresh **Foreign Currency Non-Resident-Bank [FCNR(B)] deposits** of **3-5 year tenors** and the restriction on interest rates on **Non-Resident External (NRE) deposits** of **three-year and above tenors**, including deposits that are renewed upon maturity.

भारतीय रिज़र्व बैंक (RBI) ने **3-5 वर्ष की अवधि वाले नए विदेशी मुद्रा अनिवासी बैंक [FCNR(B)] जमा** पर **ब्याज दर की ऊपरी सीमा** तथा **तीन वर्ष और उससे अधिक अवधि वाले अनिवासी बाह्य (NRE) जमा** पर ब्याज दर संबंधी प्रतिबंध को अस्थायी रूप से हटाने का निर्णय लिया है, जिसमें परिपक्वता के बाद नवीनीकृत जमा भी शामिल हैं।

- The move, a review of its **2025 direction**, is to boost **forex reserves** and will be in e• ect till **September 30, 2026**.

यह कदम **2025 के निर्देश** की समीक्षा के तहत उठाया गया है, जिसका उद्देश्य **विदेशी मुद्रा भंडार (Forex Reserves)** को बढ़ाना है, और यह **30 सितंबर 2026** तक प्रभावी रहेगा।

- And interest rates on **NRE/NRO deposits** will not be higher than those offered by the bank on comparable **domestic rupee term deposits**.

और **NRE/NRO जमा** पर ब्याज दरें बैंक द्वारा समान **घरेलू रुपये की सावधि जमाओं** पर दी जाने वाली ब्याज दरों से अधिक नहीं होंगी।

India, U.K. announce July 15 as trade deal implementation date

GS III: Economy

T.C.A. Sharad Raghavan
NEW DELHI

PM Modi with his British counterpart Keir Starmer during the G7 Summit.

India and the United Kingdom have overcome last-minute differences over steel import duties to finally announce July 15 as the implementation date for the trade deal between the two countries, the two governments announced on Wednesday.

The Comprehensive Economic and Trade Agreement (CETA) was signed by the two countries in July 2025 and was all set to be implemented by April or early May 2026.

However, a fresh regulation by the U.K. announced in May and applicable to all countries cut the quota for duty-free steel imports by 60% and doubled the tariff on above-quota imports to 50%. These new rules are to come into effect from July 1, 2026.

These tariffs and quotas were not part of the trade deal negotiations and suddenly halted the implementation process.

According to Commerce Secretary Rajesh Agrawal, a team from India has been in the U.K. over the last few days to move things along.

"Delighted to note that the India-UK Comprehensive Economic and Trade Agreement will enter into force on 15th July 2026," Prime Minister Narendra Modi posted on X following the announcement. "This agreement will significantly boost our bilateral trade and investment."

The implementation of the trade deal, under which the U.K. will remove tariffs on 99% of its product lines, will be accompanied by the implementation of the Agreement on Social Security, also referred to as the Double Contribution Convention (DCC), on July 15. It further said that such protections would be through a mix of country-specific quotas, residual quotas and access under an Authorised Use Scheme (AUS).

'Landmark consensus'

"Demonstrating the collaborative strength of the India-U.K. Comprehensive Economic Partnership Agreement (CETA), India and the United Kingdom have successfully reached a landmark consensus to safeguard and promote bilateral steel trade," the Ministry of Commerce and Industry said in a release.

Without revealing details on what exactly the solution to the U.K. steel tariff issue would entail, the release added that "both sides mutually agreed to protect commercial interests, minimise market disruptions, and ensure an overall balanced and stable trading environment for exporters".

18J6. India, U.K. announce July 15 as trade deal implementation date

भारत और ब्रिटेन ने 15 जुलाई को व्यापार समझौते के क्रियान्वयन की तिथि घोषित किया

- The **Comprehensive Economic and Trade Agreement (CETA)** was signed by the two countries in **July 2025** and was all set to be implemented by April or early May 2026.

व्यापक आर्थिक एवं व्यापार समझौते (CETA) पर दोनों देशों ने **जुलाई 2025** में हस्ताक्षर किए थे और इसे अप्रैल या मई 2026 की शुरुआत तक लागू किया जाना था।

- However, a fresh regulation by the **U.K.** announced in May and applicable to all countries cut the quota for **duty-free steel imports** by **60%** and doubled the tariff on above-quota imports to **50%**.

हालाँकि, **ब्रिटेन** द्वारा मई में घोषित एक नए नियम, जो सभी देशों पर लागू है, ने **शुल्क-मुक्त इस्पात आयात** के कोटे में **60%** की कटौती कर दी और कोटे से अधिक आयात पर शुल्क को बढ़ाकर **50%** कर दिया।

- These tariffs and quotas were not part of the trade deal negotiations and suddenly halted the implementation process.

ये शुल्क और कोटा व्यापार समझौते की वार्ताओं का हिस्सा नहीं थे और इन्होंने अचानक क्रियान्वयन प्रक्रिया को रोक दिया।

- "Delighted to note that the **India-UK Comprehensive Economic and Trade Agreement** will enter into force on **15th July 2026**," **Prime Minister Narendra Modi** posted on X

following the announcement.

"यह जानकर प्रसन्नता हुई कि **भारत-यूके व्यापक आर्थिक एवं व्यापार समझौता 15 जुलाई 2026** से प्रभावी होगा," घोषणा के बाद **प्रधानमंत्री नरेंद्र मोदी** ने X पर पोस्ट किया।

- The implementation of the trade deal, under which the **U.K.** will remove tariffs on **99% of its product lines**, will be accompanied by the implementation of the **Agreement on Social Security**, also referred to as the **Double Contribution Convention (DCC)**, on **July 15**.

इस व्यापार समझौते के क्रियान्वयन के साथ, जिसके तहत **ब्रिटेन** अपनी **99% उत्पाद श्रेणियों** पर शुल्क समाप्त करेगा, **सामाजिक सुरक्षा समझौता**, जिसे **डबल कंट्रीब्यूशन कन्वेंशन (DCC)** भी कहा जाता है, भी **15 जुलाई** से लागू होगा।

The universe's expansion still accelerating: researchers

GS III: S&T

Reuters

Taking a fresh look at data involving a type of exploding stars, a team of researchers says it has confirmed the notion that the universe is expanding at an accelerated rate – the very observation that led to the identification in the 1990s of an enigmatic cosmic force called dark energy.

The study's results rebut research published last year that concluded that this cosmic expansion is no longer speeding up – a finding that had challenged the basic understanding of the universe. "The universe is still accelerating," said astrophysicist Brodie Popovic of the University of Southampton in England, one of the leaders of the study published this month in the journal *Monthly Notices* of the Royal Astronomical Society. The study's findings, by a team that included two Nobel Prize recipients, were guided by observations in two different datasets of a type of stellar explosion called a Type Ia supernova in order to calculate vast cosmic distances. These supernovae cause the destruction of an object called a white dwarf, the dense remnant of a low- to intermediate-mass star at the end of its lifecycle. This type of supernova has proven valuable in investigating the universe's structure based on evidence that all of these explosions have roughly the same luminosity. Their observed brightness differs depending upon their distance from earth, making them useful as cosmic mile markers.

By measuring the brightness of these supernovae as seen from earth, scientists can gauge the universe's expansion rate and its change over time. The Big Bang event roughly 13.8 billion years ago initiated the universe, and it has been expanding ever since. Scientists in 1998 disclosed that this expansion is accelerating, with an invisible force called dark energy as the hypothesised reason.

The universe's contents include ordinary matter – stars, planets, gas, dust and all the familiar stuff on earth – and dark matter and dark energy. Ordinary matter represents an estimated 5% of the contents. Dark matter, which is known from its gravitational influences on galaxies and stars, makes up an estimated 27%. Dark energy makes up an estimated 68%. The authors of the 2025 study, which was published in the same journal as the new study, concluded that dark energy is weakening and has stopped accelerating the universe's expansion.

"Over the past decade, a group at Yonsei University has argued that supernova distances should be calibrated differently by accounting for the ages of the stars that eventually explode, and that this 'age effect' could substantially alter the evidence for acceleration. In our study, we found no evidence for the claimed 'age effect' in the largest calibrated supernova samples used by the cosmology community over the last decade," astrophysicist Adam Riess of Johns Hopkins said. Astrophysicist Young-Wook Lee of Yonsei University, located in Seoul, was one of the leaders of the 2025 study. He defended the findings of his team, and said the main arguments made by the researchers in the new study have "serious methodological flaws or lead to conclusions that are internally inconsistent by their own logic."

The researchers in the new study expressed confidence in their methodology and their conclusions confirming acceleration.

18J6. The universe's expansion still accelerating: researchers

शोधकर्ताओं के अनुसार ब्रह्मांड का विस्तार अभी भी तीव्र गति से बढ़ रहा है

Universe still expanding at an accelerated rate

ब्रह्मांड अब भी त्वरित गति से विस्तार कर रहा है

- Taking a fresh look at data involving a type of **exploding stars**, a team of researchers says it has confirmed the notion that the **universe is expanding at an accelerated rate** — the very observation that led to the identification in the 1990s of an enigmatic cosmic force called **dark energy**.

एक प्रकार के **विस्फोटित होने वाले तारों** से संबंधित आँकड़ों का पुनः विश्लेषण करते हुए शोधकर्ताओं की एक टीम ने पुष्टि की है कि **ब्रह्मांड त्वरित गति से विस्तार कर रहा है** — यही वह अवलोकन था जिसके आधार पर 1990 के दशक में **डार्क एनर्जी (अदृश्य ऊर्जा)** नामक रहस्यमयी ब्रह्मांडीय बल की पहचान की गई थी।

- The study's findings, by a team that included **two Nobel Prize recipients**, were guided by observations in two different datasets of a type of stellar

explosion called a **Type Ia supernova** in order to calculate vast cosmic distances.
इस अध्ययन के निष्कर्ष, जिसमें **दो नोबेल पुरस्कार विजेता** भी शामिल थे, **टाइप Ia सुपरनोवा** नामक तारकीय विस्फोट के दो अलग-अलग आँकड़ा-संग्रहों के अवलोकनों पर आधारित थे, जिनका उपयोग विशाल ब्रह्मांडीय दूरियों की गणना के लिए किया गया।

- These supernovae cause the destruction of an object called a **white dwarf**, the dense remnant of a low- to intermediate-mass star at the end of its lifecycle.
ये सुपरनोवा **श्वेत बौने (White Dwarf)** नामक पिंड को नष्ट कर देते हैं, जो अपने जीवनचक्र के अंत में निम्न या मध्यम द्रव्यमान वाले तारे का घना अवशेष होता है।
- This type of supernova has proven valuable in investigating the universe's structure based on evidence that all of these explosions have roughly the same **luminosity**.
इस प्रकार के सुपरनोवा ब्रह्मांड की संरचना के अध्ययन में अत्यंत उपयोगी सिद्ध हुए हैं, क्योंकि प्रमाण बताते हैं कि इन सभी विस्फोटों की **दीप्तिमानता (Luminosity)** लगभग समान होती है।
- By measuring the brightness of these supernovae as seen from earth, scientists can gauge the universe's **expansion rate** and its change over time.
पृथ्वी से दिखाई देने वाली इन सुपरनोवा की चमक को मापकर वैज्ञानिक ब्रह्मांड की **विस्तार दर** और समय के साथ उसमें होने वाले परिवर्तनों का आकलन कर सकते हैं।
- The **Big Bang** event roughly 13.8 billion years ago initiated the universe, and it has been expanding ever since.
लगभग **13.8 अरब वर्ष पूर्व हुए बिग बैंग** ने ब्रह्मांड की उत्पत्ति की थी और तब से यह निरंतर विस्तार कर रहा है।
- Scientists in 1998 disclosed that this expansion is accelerating, with an invisible force called **dark energy** as the hypothesised reason.
वर्ष **1998** में वैज्ञानिकों ने बताया कि यह विस्तार तेज़ हो रहा है, जिसका संभावित कारण **डार्क एनर्जी** नामक अदृश्य बल माना गया।
- The universe's contents include **ordinary matter** — stars, planets, gas, dust and all the familiar stuff on earth — and **dark matter** and **dark energy**.
ब्रह्मांड में **सामान्य पदार्थ**, जैसे तारे, ग्रह, गैस, धूल और पृथ्वी पर उपस्थित अन्य परिचित पदार्थों के साथ-साथ **डार्क मैटर** और **डार्क एनर्जी** भी शामिल हैं।
- Ordinary matter represents an estimated **5%** of the contents.
सामान्य पदार्थ ब्रह्मांड की कुल सामग्री का लगभग **5%** भाग है।
- Dark matter, which is known from its **gravitational influences** on galaxies and stars, makes up an estimated **27%**.
डार्क मैटर, जिसकी पहचान आकाशगंगाओं और तारों पर उसके **गुरुत्वीय प्रभावों** से होती है, लगभग **27%** भाग का निर्माण करता है।
- Dark energy makes up an estimated **68%**.
डार्क एनर्जी ब्रह्मांड की कुल सामग्री का लगभग **68%** भाग बनाती है।
- The authors of the **2025 study**, which was published in the same journal as the new study, concluded that dark energy is weakening and has stopped accelerating the universe's expansion.
उसी पत्रिका में प्रकाशित **2025 के अध्ययन** के लेखकों ने निष्कर्ष निकाला था कि **डार्क एनर्जी** कमजोर हो रही है और उसने ब्रह्मांड के विस्तार को तीव्र करना बंद कर दिया है।

Answers to June 16 quiz:
1. Light you still see in a perfectly dark room – Ans: **Eigengrau**
2. Organelles that synthesise melanin – Ans: **Melanosomes**
3. Structural components of Vantablack – Ans: **Carbon nanotubes**
4. Radiation thought to be emitted by black holes – Ans: **Hawking radiation**
Visual: **Peacock spider**

First contact
Tamal Biswas | K.N. Viswanathan | Swati Yadav | Stuti Jain | Pankaj Gharde

18J6. QUIZ

1. Eigengrau: Light you still see in a perfectly dark room

- **Eigengrau**, a German term meaning “intrinsic gray” or “own gray,” refers to the dark gray colour perceived by the human eye in conditions of complete darkness.
- Even when no external light enters the eye, people do not usually see absolute black.
- This phenomenon occurs because retinal cells and neurons in the visual system continue to generate spontaneous electrical activity.
- As a result, the brain interprets these signals as a faint gray shade.
- Eigengrau demonstrates that human vision depends not only on external light but also on internal neural processes within the visual system.

2. Melanosomes: Organelles that synthesise melanin

- **Melanosomes** are specialized organelles found within melanocytes, the cells responsible for producing melanin in the skin, hair, and eyes.
- These membrane-bound structures serve as sites where the pigment melanin is synthesized, stored, and transported.
- **Melanin** plays a crucial role in **determining skin and hair colour** and helps **protect tissues from harmful ultraviolet (UV) radiation by absorbing and dispersing solar energy**.
- Variations in the size, number, and distribution of melanosomes contribute to differences in pigmentation among individuals. Defects in melanosome formation can lead to pigmentation disorders such as **albinism**.

PATRIOTIC IAS

3. Carbon Nanotubes: Structural components of Vantablack

- **Vantablack** is one of the **darkest artificial materials ever created** and is composed primarily of vertically aligned **carbon nanotubes**.
- These nanotubes are extremely thin, measuring only a few nanometres in diameter, and are arranged densely on a surface. When light enters the nanotube structure, it becomes trapped through repeated reflections and is almost entirely absorbed rather than reflected back.

- As a result, Vantablack absorbs more than 99.9% of visible light, making objects coated with it appear almost two-dimensional.
- It has applications in astronomy, optical instruments, and advanced scientific research.

GS III: S&T

Innovate or be eaten

India must realise the importance of innovating up to the frontier

There is no question that Indian professionals are capable of pathbreaking innovation. As evidenced by the strong representation of Indian and Indian-origin technology industry leaders, Indian executives have displayed extraordinary talent in both the managerial and technical work that goes into building and advancing complex businesses at the forefront of the global economy's most important engines. 'Bharat Innovates 2026', the event in Nice, France, supported by the Ministry of Education, has shown that many of these innovations are possible in India, and that patient incubation of startups in key strategic areas can lead to exceptional results that are competitive with the best-in-class globally. India's potential to be a global home for innovation is real, especially with the kind of middle power collaboration that French President Emmanuel Macron advocated for at the event. The innovation question is key to processing the aftermath of Anthropic's most powerful AI models, Claude Mythos and Fable, being banned for non-Americans, a move that has already affected some Indian entities and users.

Perhaps it is not possible to brute-force frontier AI or semiconductor technology, given the tens of billions of dollars even a single player requires to make incremental advances in these fields. Becoming an AI deployment superpower, as many tech policymakers advocate, may also be a pursuit of a losing battle; India, after all, is not alone in seeking knowledge economy efficiencies from AI. But the field of opportunities remains nonetheless vast: deep tech in areas such as space exploration, defence, and even material sciences remain an open contest. For India to pursue innovation, two ingredients are important: India must be a stable and attractive home for capital and talent. For the former, the swashbuckling rent-seeking of the successful must be reined in to keep innovators from dreading success on Indian soil; venture capital must be in a position to assess exploratory and cutting-edge pitches on the same footing as they do in other countries; and tax policies must be clear and predictable. To be an attractive home for talent, what is required is quite simple: the top talent must look forward to their future in India, instead of running into a dead end for their potential and the life they feel greener pastures may afford them. For this, investments in public goods such as clean air, abundant urban green spaces, and affordable and reliable public transport can go a long way. These are, after all, what returnees miss the most. Some of India's oldest and most stubborn problems are in the way of a truly innovative ecosystem. The good news is that these problems need political capital, not risk capital.

4. Hawking Radiation: Radiation thought to be emitted by black holes

- **Hawking radiation** is a theoretical form of radiation proposed in 1974 by the physicist Stephen Hawking. According to quantum mechanics, particle-antiparticle pairs constantly form near the event horizon of a black hole.
- If one particle falls into the black hole while the other escapes, the escaping particle appears as radiation emitted by the black hole.
- This process gradually causes the black hole to lose mass and energy over extremely long periods.
- Hawking radiation was a groundbreaking concept because it combined principles of quantum physics, thermodynamics, and Einstein's theory of gravity, transforming scientific understanding of black holes.

नवाचार करें या पीछे छूट जाएँ

- **'Bharat Innovates 2026'**, the event in **Nice, France**, supported by the **Ministry of Education**, has shown that many of these innovations are possible in India, and that patient incubation of startups in key strategic areas can lead to exceptional results that are competitive with the best-in-class globally.

शिक्षा मंत्रालय द्वारा समर्थित **फ्रांस के नीस शहर** में आयोजित **'भारत इनोवेट्स 2026'** कार्यक्रम ने यह प्रदर्शित किया है कि ऐसे अनेक नवाचार भारत में संभव हैं तथा रणनीतिक क्षेत्रों में स्टार्टअप्स के धैर्यपूर्ण संवर्धन से ऐसे उत्कृष्ट परिणाम प्राप्त किए जा सकते हैं जो वैश्विक स्तर पर सर्वश्रेष्ठ के समकक्ष हों।

- India's potential to be a global home for **innovation** is real, especially with the kind of **middle power collaboration** that French President **Emmanuel Macron** advocated for at the event.

भारत की **वैश्विक नवाचार केंद्र** बनने की क्षमता वास्तविक है, विशेषकर उस प्रकार के **मध्यम शक्ति सहयोग (Middle Power Collaboration)** के साथ जिसका समर्थन फ्रांस के राष्ट्रपति **इमैनुएल मैक्रों** ने इस कार्यक्रम में किया।

- The innovation question is key to processing the aftermath of **Anthropic's** most powerful AI models, **Claude Mythos** and **Fable**, being banned for non-Americans, a move that has already affected some Indian entities and users.

Anthropic के सबसे शक्तिशाली एआई मॉडल **Claude Mythos** और **Fable** को गैर-अमेरिकियों के लिए प्रतिबंधित किए जाने के बाद उत्पन्न परिस्थितियों को समझने में नवाचार का प्रश्न अत्यंत महत्वपूर्ण है, क्योंकि इस निर्णय का प्रभाव कुछ भारतीय संस्थाओं और उपयोगकर्ताओं पर भी पड़ा है।

- But the field of opportunities remains nonetheless vast: **deep tech** in areas such as **space exploration, defence, and material sciences** remain an open contest.
  फिर भी अवसरों का क्षेत्र अत्यंत व्यापक बना हुआ है; **अंतरिक्ष अन्वेषण, रक्षा तथा पदार्थ विज्ञान** जैसे क्षेत्रों में **डीप टेक** अभी भी खुली प्रतिस्पर्धा का क्षेत्र है।
- For India to pursue innovation, two ingredients are important: India must be a stable and attractive home for **capital** and **talent**.
  भारत को नवाचार के मार्ग पर आगे बढ़ाने के लिए दो तत्व अत्यंत महत्वपूर्ण हैं: भारत को **पूंजी** और **प्रतिभा** दोनों के लिए एक स्थिर तथा आकर्षक केंद्र बनना होगा।
- **Venture capital** must be in a position to assess exploratory and cutting-edge pitches on the same footing as they do in other countries.

Scheme for crocodile sanctuaries

GS III: Environment

Dr. H.R. Bustard, an expert on crocodiles and an officer of the FAO (UNDP), was deputed by the Government of India to advise the Andhra Pradesh Government on the conservation and farming of crocodiles in various parts of the State.

It is stated that three species of crocodiles namely gharial (found in the Ganga, Brahmaputra and Mahanadi), the maggar or freshwater crocodile (found generally in rivers and reservoirs) and the estuarian or salt-water crocodiles (found in the estuaries of major rivers) were facing extinction owing to large-scale and indiscriminate killing for meat. The eggs are also eaten and so the species face the problem of survival.

Dr. Bustard inspected the Corangi mangrove forest in the Kakinada Forest Division last week accompanied by Mr. T.V. Subba Rao, Additional Chief Conservator of Forests, Mr. Pushpalumar, Director Nehru Zoological Park, Hyderabad and Mr. B. Bhomarajam, Conservator of Forests, L.P. Circle, Rajamundry. Dr. Bustard stated the area was eminently suitable for farming the salt-water crocodiles. A scheme would be prepared for the purpose and submitted to the Government shortly.

They inspected the Godavari river area from Devipatnam to Peramtapalli.

Dr. Bustard found the region between the Papi Hills and Peramtapalli was an excellent habitat for crocodiles and has prepared a scheme for the conservation and farming of crocodiles there.

He wanted these two areas to be declared as sanctuaries for the preservation and farming of crocodiles.

18J6. Scheme for crocodile sanctuaries
मगरमच्छ अभयारण्यों के लिए योजना

- **Dr. H.R. Bustard**, an expert on crocodiles and an o• cer of the **FAO (UNDP)**, was deputed by the **Government of India** to advise the **Andhra Pradesh Government** on the conservation and farming of crocodiles in various parts of the State.

डॉ. एच.आर. बस्टर्ड, जो मगरमच्छों के विशेषज्ञ तथा **FAO (UNDP)** के एक अधिकारी थे, उन्हें **भारत सरकार** द्वारा **आंध्र प्रदेश सरकार** को राज्य के विभिन्न भागों में मगरमच्छों के संरक्षण और पालन के संबंध में सलाह देने के लिए नियुक्त किया गया था।

- It is stated that three species of crocodiles namely **gharial** (found in the **Ganga, Brahmaputra and Mahanadi**), the **maggar** or freshwater crocodile (found generally in rivers and reservoirs) and the **estuarian or salt-water crocodiles** (found in the estuaries of major rivers) were facing extinction owing to large-scale and indiscriminate killing for meat.

यह बताया गया कि मगरमच्छों की तीन प्रजातियाँ, अर्थात् **घड़ियाल** (जो **गंगा, ब्रह्मपुत्र और महानदी** में पाया जाता है), **मगर** या मीठे पानी का मगरमच्छ (जो सामान्यतः नदियों और जलाशयों में पाया जाता है) तथा **मुहाना या खारे पानी का मगरमच्छ** (जो प्रमुख नदियों के मुहानों में पाया जाता है), मांस के लिए बड़े पैमाने पर और अंधाधुंध शिकार के कारण विलुप्ति के खतरे का सामना कर रहे थे।

18J6. Oil pollution

Oil pollution

GS III: Environment

Washington, June 17: The International Oil Pollution Conferences has passed a resolution which recommends the establishment of a limit of fifty to one hundred and fifty miles from the coasts of maritime nations, within which the discharge of oils or mixtures constituting nuisance, should be prohibited and that each Government would require ships flying its flags to refrain from discharging oil near the shores of other countries.

तेल प्रदूषण

- **Washington, June 17:** The **International Oil Pollution Conferences** has passed a resolution which recommends the establishment of a limit of **• fty to one hundred and fifty miles** from the coasts of maritime nations, within which the discharge of oils or mixtures constituting nuisance, should be prohibited.

वाशिंगटन, 17 जून: अंतरराष्ट्रीय तेल प्रदूषण सम्मेलन ने एक प्रस्ताव पारित किया है जिसमें समुद्री देशों के तटों से **पचास से एक सौ पचास मील** की सीमा निर्धारित करने की सिफारिश की गई है, जिसके भीतर तेल अथवा प्रदूषणकारी मिश्रणों के निर्वहन पर प्रतिबंध लगाया जाना चाहिए।

'India to meet 3% compressed biogas blending goal for FY27'

GS III: Environment

Saptaparno Ghosh
NEW DELHI

The Centre is on track to meet the goal of blending 3% compressed biogas (CBG) with CNG and domestic piped natural gas for FY27 with the blending percentage having already nearly doubled to about 2% at present, officials told *The Hindu*.

They added with more CBG plants under varied stages of construction, this would provide a fillip towards achieving the target.

India's present consumption of natural gas for domestic PNG and CNG in transport combined is about 34-35 million metric standard cubic metre per day (MMSCMD).

A biogas Plant at Bengaluru in the State of Karnataka.

"In April, CBG sales were approximately 0.66 mmscmd and about 0.63 mmscmd in May," they stated, explaining that at the present rate of consumption they amount to nearly 2% of blending.

More plants

According to the Petroleum Ministry's Gobardhan portal, construction of 324 CBG/bio-CNG plants are under progress while construction work is yet to start on 1,261 plants.

Suresh N.S., senior research scientist, Strategic Initiatives Group at think-tank CSTEP said geopolitical developments underscore urgency of boosting India's domestic energy security and reducing dependence on imported fuels.

18J6. 'India to meet 3% compressed biogas blending goal for FY27'

'भारत FY27 तक 3% संपीड़ित बायोगैस मिश्रण लक्ष्य हासिल करेगा'

- The Centre is on track to meet the goal of blending **3% compressed biogas (CBG)** with **CNG** and domestic **piped natural gas (PNG)** for **FY27** with the blending percentage having already nearly doubled to about **2%** at present, officials told **The Hindu**.

अधिकारियों ने **द हिंदू** को बताया कि केंद्र सरकार **FY27** तक **CNG** और घरेलू **पाइप्ड नेचुरल गैस (PNG)** में **3% संपीड़ित बायोगैस (CBG)** मिश्रण के लक्ष्य को हासिल करने की दिशा में आगे बढ़ रही है, क्योंकि वर्तमान में मिश्रण का प्रतिशत लगभग दोगुना होकर **2%** तक पहुँच चुका है।

Answers to the previous day's daily quiz:

1. This U.S. AI firm temporarily disabled top-tier model access after a government order on foreign use. **Ans: Anthropic**
2. This country announced plans for a social media ban for under-16s last week. **Ans: Britain**
3. This initiative was launched by Narendra Modi and Emmanuel Macron in France? **Ans: Bharat Innovates 2026**
4. Elon Musk achieved this milestone following SpaceX's IPO on June 12? **Ans: He became world's first trillionaire**
5. This external AI ecosystem powers Apple's rebuilt Siri. **Ans: Google Gemini**
6. This Indian fintech firm confidentially filed papers for a $600 million IPO. **Ans: Razorpay**
8. This Indian edtech founder got some relief from a Singapore court in a contempt case. **Ans:Byju Raveendran**

Visual: At Nintendo's June Direct, the long-rumoured remake of this beloved N64-era video game was announced. **Ans: The Legend of Zelda: Ocarina of Time**

17J6. QUIZ

1. Anthropic

- **Anthropic**, the U.S.-based artificial intelligence company behind the Claude AI models, temporarily disabled access to its most advanced models after the U.S. government ordered restrictions on foreign access, citing national security concerns.
- The directive affected the newly launched **Claude Fable 5** and **Claude Mythos 5** models. Anthropic stated that, because it could not selectively block only foreign users, it suspended access more broadly while discussions with U.S. authorities continued.

2. Britain

- **Britain (United Kingdom)** announced plans to prohibit children under the age of 16 from accessing major social media platforms such as TikTok, Instagram, Snapchat, Facebook, and X.

3. Bharat Innovates 2026

- **Bharat Innovates 2026** was jointly inaugurated by Prime Minister **Narendra Modi** and French President **Emmanuel Macron** in **Nice, France**, on June 14, 2026.
- The initiative is part of the **India–France Year of Innovation** and seeks to strengthen cooperation in deep technology, startups, artificial intelligence, research, and innovation ecosystems.
- The event brings together entrepreneurs, researchers, investors, policymakers, and industry leaders from both countries.

4. Elon Musk became the world's first trillionaire

- Following the reported **SpaceX IPO** and the continued rise in the valuation of his businesses, **Elon Musk** was widely reported to have become the world's first **trillionaire**. Musk's wealth is linked primarily to his stakes in **SpaceX**, **Tesla**, **xAI**, and other technology ventures.

5. Google Gemini

- **Google Gemini**, developed by **Google DeepMind**, powers the rebuilt version of **Apple's Siri** through an external AI partnership.
- Gemini is a multimodal AI system capable of understanding and generating text, images, code, and other forms of data.

6. Razorpay

- **Razorpay**, one of India's leading fintech companies, reportedly filed confidential documents for an Initial Public Offering (**IPO**) valued at around **$600 million**.
- Founded in 2014, Razorpay provides digital payment solutions, payment gateways, banking services, and financial management tools for businesses.

7. Byju Raveendran

- **Byju Raveendran**, founder of the edtech company **BYJU'S**, received temporary relief from a Singapore court in a contempt-related legal matter.

Astha breaks 17-year-old 200m butterfly record

PCS

NATIONAL AQUATICS

Sports Bureau

Railways swimmer Astha Choudhury clocked 2:18.37s to break the 17-year-old women's 200m butterfly record on the opening day of the National aquatics championships in Ahmedabad on Tuesday.

Vinayak Vijay (men's 200m medley, 2:04.13) and Aditi Hegde (women's 1500m freestyle, 17:20.82) rewrote two new individual records, while Karnataka women registered 3:53.45 to shatter the two-year-old 4x100m relay.

The results (winners only):
Men: 100m freestyle: Akash Mani (Kar) 50.40; **100m backstroke:** Rishabh Das (Mah) 55.44.
200m medley: Vinayak Vijay (SSCB) 2:04.13 (NMR, Old 2:04.34, Shoan Ganguly, 2025).
Women: 1500m freestyle: Aditi Hegde (Mah) 17:20.82 (NMR, Old 17:35.07, Bhavya Sachdeva, 2025).
50m breaststroke: Lineysha A.K. (Kar) 33.51; **200m butterfly:** Astha Choudhury (RSPB) 2:18.37 (NMR, Old 2:19.59, Arhatha Maghavi, 2009).
4x100m freestyle relay: Karnataka 3:53.45 (NMR, Old 4:01.83, RSPB, 2024).

17J6. Astha breaks 17-year-old 200m butterfly record

अस्था ने 17 वर्ष पुराना 200 मीटर बटरफ्लाई रिकॉर्ड तोड़ा

- **Railways** swimmer **Astha Choudhury** clocked **2:18.37s** to break the **17-year-old** women's **200m butterfly** record on the opening day of the **National Aquatics Championships** in **Ahmedabad** on Tuesday.

रेलवे की तैराक **अस्था चौधरी** ने मंगलवार को **अहमदाबाद** में आयोजित **राष्ट्रीय तैराकी चैंपियनशिप** के उद्घाटन दिवस पर **2:18.37 सेकंड** का समय निकालकर महिलाओं की **200 मीटर बटरफ्लाई** स्पर्धा का **17 वर्ष पुराना** रिकॉर्ड तोड़ दिया।

- **Vinayak Vijay** (men's **200m medley**, **2:04.13**) and **Aditi Hegde** (women's **1500m freestyle**, **17:20.82**) rewrote two new **individual records**.

विनायक विजय (पुरुष **200 मीटर मेडले**, **2:04.13**) और **अदिति हेगड़े** (महिला **1500 मीटर फ्रीस्टाइल**, **17:20.82**) ने दो नए **व्यक्तिगत रिकॉर्ड** बनाए।

- Meanwhile, **Karnataka women** registered **3:53.45** to shatter the **two-year-old 4x100m relay** record.

वहीं, **कर्नाटक महिला टीम** ने **3:53.45** का समय दर्ज कर **दो वर्ष पुराने 4x100 मीटर रिले** रिकॉर्ड को तोड़ दिया।

Savarkar filed 10 mercy pleas before the British, grandnephew tells court

GS I: History

Chinmay Gaikwad
MUMBAI

Satyaki Savarkar, the grandnephew of Vinayak Damodar Savarkar, told a special MP/MLA court in Pune that the right-wing ideologue had submitted 10 clemency petitions to the British government seeking reduction of his sentence. The testimony was part of a criminal defamation case Mr. Satyaki has filed against Congress leader Rahul Gandhi.

During the hearing of the case in the court of special judge Amol Shinde, Mr. Satyaki said Savarkar was referred to as "veer" in a periodical run by the Gadar Organisation before he was transferred to the Andaman Islands.

Asked about incarcerations of other revolutionaries from the same period, Mr. Satyaki said the likes of Rajguru, Batukeshwar Dutt, and Ashfaqulla Khan did not file clemency petitions. But Savarkar submitted a mercy petition within the first month after receiving his sentence, he said. Mr. Satyaki told the court that he was not aware of Bhagat Singh and Dutt petitioning the British government to demand treatment as prisoners of war, and to refuse concessions or leniency. He agreed that Singh and Dutt stood by their ideology until the end of their lives.

V.D. Savarkar

Mr. Satyaki informed the court that records of Savarkar's 10 petitions exist in government archives. He said the language in these petitions did not indicate loyalty to the British regime and were forwarded by prison authorities for approval.

He said language used in clemency petitions followed official protocol.

Mr. Satyaki said he was not aware that Savarkar signed each petition with the phrase, "I beg to remain, Sir, your most obedient servant, V.D. Savarkar." He denied that Savarkar was released after these 10 pleas were filed.

According to him, the British government had the authority to commute or alter sentences in mercy petitions. The reduction or remission of sentences depended on the government's policy.

'All pleas rejected'

Mr. Satyaki said the colonial government had rejected all of Savarkar's clemency petitions. In their replies, the authorities expressed apprehension that Savarkar would rejoin the revolutionary movement if released, he said.

Savarkar's grandnephew said that filing clemency petitions were standard procedures under the British government, adding that other prisoners had filed such petitions and the practice was neither exceptional nor illegal.

The court recorded excerpts from one mercy petition in which Savarkar stated that others sent to the Andaman jail with him be released and he be kept incarcerated and classified as a Class D prisoner facing harsh punishment. The witness said he did not have a report comparing the mercy petitions filed by Savarkar with those made by other prisoners. Mr. Satyaki testified that no prisoner was obligated to submit a mercy petition. The decision to file such petitions depended on the prisoner's preference.

17J6. Savarkar filed 10 mercy pleas before the British, grandnephew tells court

सावरकर ने ब्रिटिश शासन के समक्ष 10 दया याचिकाएँ दायर की थीं, प्रपौत्र ने न्यायालय को बताया

- **Satyaki Savarkar, the grandnephew of Vinayak Damodar Savarkar, told a special MP/MLA court in Pune that the right-wing ideologue had submitted 10 clemency petitions to the British government seeking reduction of his sentence.**

विनायक दामोदर सावरकर के प्रपौत्र **सात्यकि सावरकर** ने पुणे की एक विशेष **सांसद/विधायक न्यायालय** को बताया कि इस दक्षिणपंथी विचारक ने अपनी सजा में कमी की मांग करते हुए **ब्रिटिश सरकार** को **10 दया याचिकाएं (Clemency Petitions)** प्रस्तुत की थीं।

- The testimony was part of a **criminal defamation case** Mr. Satyaki has filed against **Congress leader Rahul Gandhi**.

यह गवाही **कांग्रेस नेता राहुल गांधी** के विरुद्ध श्री सात्यकि द्वारा दायर **आपराधिक मानहानि मामले** का हिस्सा थी।

- During the hearing of the case in the court of special judge **Amol Shinde**, Mr. Satyaki said Savarkar was referred to as "**veer**" in a periodical run by the **Gadar Organisation** before he was transferred to the **Andaman Islands**.

विशेष न्यायाधीश **अमोल शिंदे** की अदालत में सुनवाई के दौरान श्री सात्यकि ने कहा कि **अंडमान द्वीपसमूह** भेजे जाने से पूर्व **गदर संगठन** द्वारा प्रकाशित एक पत्रिका में सावरकर को "**वीर**" कहा गया था।

- Asked about incarcerations of other revolutionaries from the same period, Mr. Satyaki said the likes of **Rajguru, Batukeshwar Dutt, and Ashfaqulla Khan** did not file clemency petitions.

उसी कालखंड के अन्य क्रांतिकारियों के कारावास के बारे में पूछे जाने पर श्री सात्यकि ने कहा कि **राजगुरु**, **बटुकेश्वर दत्त** और **अशफाकउल्ला खान** ने दया याचिकाएं दायर नहीं की थीं।

- But Savarkar submitted a mercy petition within the first month after receiving his sentence, he said.

उन्होंने कहा कि सावरकर ने सजा प्राप्त होने के **पहले महीने** के भीतर ही एक **दया याचिका** प्रस्तुत कर दी थी।

- Mr. Satyaki told the court that he was not aware of **Bhagat Singh** and **Dutt** petitioning the British government to demand treatment as prisoners of war, and to refuse concessions or

leniency.
श्री सात्यकि ने न्यायालय को बताया कि उन्हें इस बात की जानकारी नहीं है कि **भगत सिंह** और **दत्त** ने स्वयं को **युद्धबंदी** के रूप में व्यवहार दिए जाने तथा किसी भी प्रकार की रियायत या नरमी को अस्वीकार करने हेतु ब्रिटिश सरकार को याचिका दी थी।

- He agreed that **Singh and Dutt** stood by their ideology until the end of their lives.
उन्होंने इस बात से सहमति व्यक्त की कि **सिंह और दत्त** अपने जीवन के अंतिम समय तक अपनी विचारधारा पर अडिग रहे।
- Mr. Satyaki informed the court that records of Savarkar's **10 petitions** exist in government archives.
श्री सात्यकि ने न्यायालय को बताया कि सावरकर की **10 याचिकाओं** के अभिलेख सरकारी अभिलेखागारों में उपलब्ध हैं।
- He said the language in these petitions did not indicate loyalty to the British regime and were forwarded by prison authorities for approval.
उन्होंने कहा कि इन याचिकाओं की भाषा से **ब्रिटिश शासन** के प्रति निष्ठा का संकेत नहीं मिलता था तथा इन्हें जेल अधिकारियों द्वारा अनुमोदन के लिए अग्रेषित किया गया था।
- He said language used in clemency petitions followed official protocol.
उन्होंने कहा कि दया याचिकाओं में प्रयुक्त भाषा **आधिकारिक प्रोटोकॉल** के अनुरूप थी।
- Mr. Satyaki said he was not aware that Savarkar signed each petition with the phrase, "**I beg to remain, Sir, your most obedient servant, V.D. Savarkar.**"
श्री सात्यकि ने कहा कि उन्हें यह जानकारी नहीं थी कि सावरकर प्रत्येक याचिका पर "**I beg to remain, Sir, your most obedient servant, V.D. Savarkar.**" वाक्यांश के साथ हस्ताक्षर करते थे।
- He denied that Savarkar was released after these **10 pleas** were filed.
उन्होंने इस बात से इनकार किया कि इन **10 याचिकाओं** के दायर होने के बाद सावरकर को रिहा कर दिया गया था।
- According to him, the British government had the authority to **commute or alter sentences** in mercy petitions.
उनके अनुसार, **ब्रिटिश सरकार** को दया याचिकाओं के आधार पर **सजा को परिवर्तित या कम करने** का अधिकार प्राप्त था।

'All pleas rejected'
'सभी याचिकाएं अस्वीकृत'

- Mr. Satyaki said the colonial government had rejected all of Savarkar's **clemency petitions**.
श्री सात्यकि ने कहा कि औपनिवेशिक सरकार ने सावरकर की सभी **दया याचिकाओं** को अस्वीकार कर दिया था।
- In their replies, the authorities expressed apprehension that Savarkar would rejoin the revolutionary movement if released, he said.
उन्होंने कहा कि अपने उत्तरों में अधिकारियों ने आशंका व्यक्त की थी कि रिहा किए जाने पर सावरकर पुनः **क्रांतिकारी आंदोलन** में शामिल हो सकते हैं।
- Savarkar's grandnephew said that filing clemency petitions were standard procedures under the British government, adding that other prisoners had filed such petitions and the practice was neither exceptional nor illegal.
सावरकर के प्रपौत्र ने कहा कि **ब्रिटिश शासन** के अंतर्गत दया याचिका दायर करना एक **मानक प्रक्रिया** थी। उन्होंने जोड़ा कि अन्य कैदियों ने भी ऐसी याचिकाएं दायर की थीं और यह न तो असाधारण था और न ही अवैध।
- The court recorded excerpts from one mercy petition in which Savarkar stated that others sent to the Andaman jail with him be released and he be kept incarcerated and classified as a **Class D prisoner** facing harsh punishment.
